VIEW YOUR QUADCOPTER'S FLIGHT IN REAL TIME!

protoXTM FPV

Ready-to-Fly Micro Quadcopter w/camera

The triple-axis, three-accelerometer gyro produces extremely stable flight for great videos.

Along with the Proto-X FPV you also get a 6-channel 2.4GHz radio, a 650mAh 1S LiPo battery, USB charge cord and 4 extra rotor blades.

Dual modes on the 6-channel 2.4GHz radio let you learn flying basics in Normal mode before moving up to more advanced Expert mode; visual stick position indicators allow for better on-screen orientation.

Features 7 bright LED lights — blue in the front and red in the back.

-  The 1280 x 720P HD camera shoots 30 FPS with a 120° field of view
-  The 4.5" screen displays lots of information, and features 5.8GHz video transmission; a hood is included for easier viewing outside.
-  PCB construction and durable plastic body shell means you can fly with confidence, indoors or out
-  The micro memory card allows for secondary recording through the transmitter, via a button on the right side of the controller
-  Recharges quickly with the included USB charge cord

ESTE4716 Proto-X FPV HD Micro Quadcopter RTF
Dimensions: 4.5 in x 4.5 in (115 mm x 115 mm)
Weight: 2.05 oz (58 g)
Includes: Micro card & card reader, USB charge cord, 650mAh 1S LiPo battery, (4) spare rotor blades, blade changing wrench
Requires: (4) "AA" batteries

4.5 in x 4.5 in
(114 mm x 114 mm)

From the Experts:

It's a micro-sized quad with first-person video! The Proto-X FPV comes equipped with a 1280 x 720P camera that shoots HD first-person videos that you can watch in real time on the transmitter's 4.5" screen. Extremely stable flight means super-sharp images that you can download with the included memory card and reader. The Proto-X FPV's durable construction allows you to fly indoors and out, and seven LEDs add to the flying fun.

Long story short...

With the Proto-X FPV, it's like you're inside the quadcopter — while piloting it from the ground!

DRIVE DAY OR NIGHT WITH LED LIGHTS!

DROMIDA™

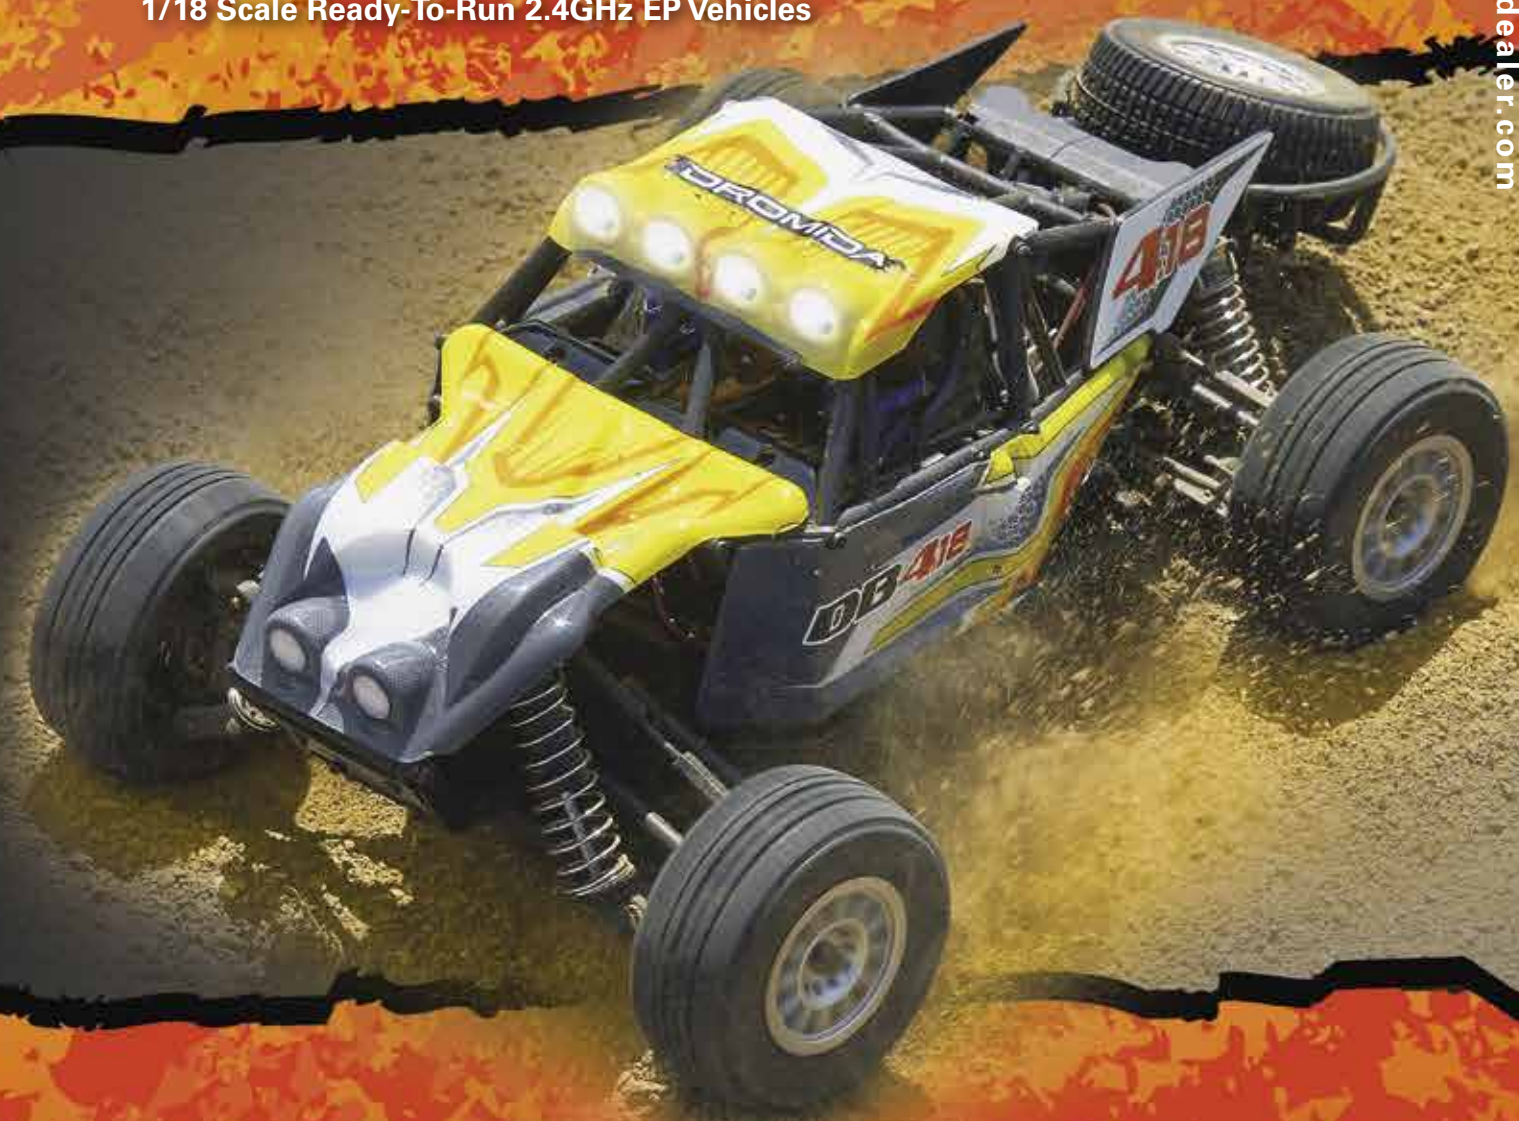

1/18 Scale Ready-To-Run 2.4GHz EP Vehicles

www.gpdealer.com

www.gpdealer.com

Ready for night driving with super-bright LEDs!

- Ready-To-Run, with high-intensity LEDs
- Factory-installed M370 motor, receiver/speed control and steering servo
- 2.4GHz radio system with trims and dual rates
- Rechargeable 1300mAh NiMh battery
- AC wall charger and charge monitor

 Sealed against dirt and water!	 Reliable control!
 Assembled and ready for action!	 All-wheel traction and power!
 Reach speeds of up to 20 mph (32 km/h)!	 All batteries included!

DIDC0046 DT4.18 1/18 2.4GHz EP Desert Truck
RTR w/Battery & Charger
Length: 11.8 in (302 mm)
Width: 6.9 in (176 mm)
Height: 5.0 in (129 mm)
Weight w/battery: 1.49 lb (680 g)

DIDC0045 DB4.18 1/18 2.4GHz EP Desert Buggy
RTR w/Battery & Charger
Length: 11.5 in (294 mm)
Width: 7.0 in (180 mm)
Height: 3.8 in (98 mm)
Weight w/battery: 1.45 lb (658 g)

Check out these high-end performance extras!

- Fully adjustable independent suspension
- Full-time 4WD
- Full set of ball bearings
- Independent steering servo
- Waterproof electronics
- Big Bore oil shocks
- Shock towers with multiple mounting points
- Mounted tires with foam inserts
- Gear differentials

From the Experts:

No matter where you want to go, the DB4.18 and DT4.18 can get you there fast! No previous driving skills are needed — these compact, 4WD off-roaders are designed for stability, with dual rates that let you start out at your pace. Everything is included, so you've got the green light to get out and go... and the LED lights on these vehicles let you run and have fun all day and into the night!

Long story short...

The DB4.18 and DT4.18 are ready for the beach, backyard or basement — whenever you are!

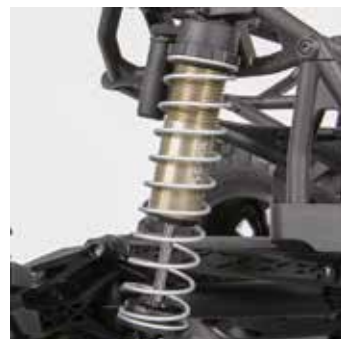

READY TO RUN

YETI XL™ MONSTER BUGGY

1/8th SCALE ELECTRIC 4WD #AX90032

BFGoodrich BFGoodrich® Tires and KRAWLER™ T/A® Trademarks are used under License from Michelin

- Hi-Lo transmission with all metal internal gears
- Independent front suspension (IFS) and rear AR60 XL™ solid rear axle
- 2200KV 4-pole brushless motor powered by Castle Creations
- Officially licensed 3.8 BFGoodrich® Krawler™ T/A tires
- Officially licensed 3.8 Raceline Monster Wheels
- Vanguard XL AE-4 ESC (waterproof)

- WB XL CVJ rear driveshaft and WB XL center driveshaft
- Big Bore 16™ aluminum shocks
- Easy access battery tray (2 battery trays)

AXIC9032 - Yeti XL™

Length: 25.75" (654mm)
Width: 16.3" (414mm)
Height: 11.1" (282mm)
Wheelbase: 18.5" (470mm)
Ground Clearance: 2.48" (63mm)
Weight: 12.75lbs (5.78kg)

For additional items see a complete list at www.GPDealer.com

From the Experts:

Axial started at the drawing board and drew upon Axial's brand philosophy to develop something very different to the R/C monster truck arena. Monster trucks are known for bashability, Axial jumped head first into this segment with the goal of maintaining brand heritage. Axial's R&D team took those traits and attributes powered by a Castle Creations 2200KV 4-Pole Vanguard XL Brushless Motor and mixed them with the Axial design ethos heavily rooted in full size rock racing and developed what could be considered the next level in R/C monster truck design. The Yeti XL™ is the industry's first 8th scale solid rear axle with Independent Front Suspension [IFS] chassis system controlled by massive 20mm Aluminum Shock bodies. Axial has yet again skirted the main stream and delivered its very own niche, the monster buggy.

Long story short...

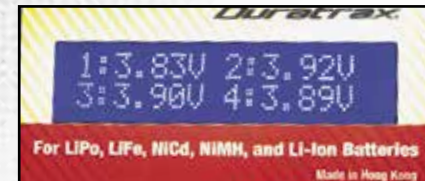

The playground just got a lot smaller – YETI XL™

TODAY'S BEST VALUE IN A BALANCING AND PEAK CHARGER!

AC/DC Advanced Charger

The big, 2x16 LCD spells out data in full. Backlighting and reversing make them easy to read day or night.

With the Onyx 225, even cells in a 6S pack charge to their maximum possible voltage.

AC and DC input cords can be removed in seconds for easier storage and carrying.

Specifications

AC Input:	110V AC 60Hz
DC Input:	11-15V DC
Output Power:	AC: 60W DC: 60W
Battery Types:	NiCd/NiMH: 1-15 cells; LiPo/LiFe: 1-6 cells
Fast Charge Current:	0.1-6.0A Linear
Fast Charge Termination:	Peak detection for NiCd/NiMH CC/CV for lithium types
Fast Charge Safety Timer:	0 - 300 Minutes
NiCd/MH Peak Sensitivity:	3-20mV Adjustable
NiCd/MH Trickle Charge Current:	Auto (1/20 fast charge setting) or manual adjust (0-250mA)
Lithium Balancing Accuracy:	5mV per cell
Lithium Balancing Socket:	JST EH
Lithium Max. Node Current:	300mA
Displayed Information:	Input and output voltages, peak voltage, charge current, charge capacity and time, individual cell balancing voltages
Input Connections:	Detachable AC Lead w/plug, jack for DC
Output Connections:	4mm Female Banana Jacks
Balancing Accuracy:	5mV per cell
Protective Devices:	Solid-state reverse polarity & current overload
Cooling System:	Fan
Dimensions:	6.3 x 5.3 x 1.7" (160 x 134 x 43mm)
Weight:	11.1oz (314g w/o cords connected)
Conformity Requirements:	CE, RoHS
Included Accessories:	4mm banana to Star Plug adapter 4mm banana to Traxxas adapter AC input cord DC input cord ElectriFly Balance board with adapter

All trademarks are the property of their respective owners.

- Offers peak charging, adjustable peak sensitivity and trickle charging for 1-15 cell NiCd or NiMH packs
- Balances and charges up to 6 LiPo, Lilon or LiFe cells to their maximum voltages
- Includes convenient charge jack for 4-, 5- and 8-cell radio packs
- Push-button controls simplify setup, confirm settings and provide alerts with video and audio cues
- Stores up to 10 charging routines in model memory, with numerous programmable functions
- Powerful 60W AC power supply — the closest competitor has 50W
- Banana jacks are compatible with most popular charge adapters — adapters with standard, Traxxas and new Star Plug are included
- 5-year limited warranty

From the Experts:

You can spend more money on other chargers, but you won't find a better value in peak and balanced charging than the Onyx 225. It arrives with 10 charging routines already in memory for ease, but also gives you the power to customize any one to your specific charging needs. A 2-line, 16-character LCD makes it easy to check the status of every battery operation, from initial setup to full, final charging.

Long story short...

Price makes the Onyx 225 a top pick for value, while its charging and balancing ranges make it a natural choice for virtually any car, truck, boat or aircraft application.

DTXP4225 Onyx 225 AC/DC Advanced Charger

CRAWLER King

Ready-To-Run EP 4WD Rock Crawler w/'73 Ford Bronco Body

CONQUER THE OUTDOORS WITH RETRO STYLE!

www.gpdealer.com

www.gpdealer.com

With updates such as waterproof electronics, bonus battery pack and charger, 2.4GHz radio, HB Rover tires and multi-spoke off-road wheels, the Crawler King makes its triumphant return to the R/C rock crawling arena! This is truly a go-anywhere, do-anything truck that will take on any terrain you throw at it — and it's topped off with the iconic 1973 Ford Bronco body that lets it stand out from the competition!

Over 6 inches of suspension travel

Front and rear locked differentials for increased traction.

High-quality ball bearings for efficiency, long run times and low maintenance.

Waterproof SC-3SWP ESC

High-torque 540 motor specially wound for rock crawling.

Oil-filled shock absorbers for excellent handling.

Four wheel drive for maximum climbing grip.

Aluminum lower suspension links for extreme durability and good looks.

- Pre-Built, Ready to Run 1/10th scale rock crawler truck
- Officially licensed 1973 Ford Bronco replica body
- Multi-spoke off-road wheels
- HB Rover crawling tires
- 2.4GHz radio system for crystal-free, comfortable control
- HPI 55-turn crawling motor
- Waterproof HPI SC-3SWP electronic speed control
- Waterproof HPI SF-10W steering servo
- Waterproof receiver box
- Super-durable shaft drivetrain with extending shafts
- 3-Link off-road suspension
- Oil-filled extra-long stroke coil-over shock absorbers
- Locked differentials for massive traction
- Over 15cm/6 inches of suspension travel!
- Complete set of ball bearings
- Adjustable body mounting for various HPI truck bodies
- 7.2V 2000mAh NiMH battery and wall charger included
- 4 AA batteries included for transmitter

HPID3225 2014 Crawler King EP 4WD Rock Crawler RTR w/'73 Ford Bronco Body
Length: 18.5 in (470 mm)
Width: 11 in (280 mm)
Height: 10.5 in (270 mm)
Wheelbase: 9.4 in (239 mm)
Weight: 4.2 lbs (1905 g)

From the Experts:

Rock piles, steep trails, tree roots, mud puddles...no matter the obstacle, the Crawler King defeats them all! The championship-winning* HB Rover tires provide the grip, the 55-turn motor supplies the power, and the full-time 4WD, alloy suspension, locked diffs and 6" of suspension travel combine to make this truck virtually unstoppable. And the '73 Ford Bronco body is the icing on the cake!
*Winners of the UK Crawler Nationals, 2 years in a row.

Long story short...

The Crawler King is back, better than ever and sporting an awesome retro Ford Bronco body and waterproof electronics in a completely ready-to-run package!

GET READY FOR SIDEWAYS EXCITEMENT WITH THIS SCALE DRIFT CAR!

APEX DRIFT

SCION RACING

FR-S

Rocket Bunny

ASCD0114 Qualifier Series Apex Scion Racing
1/10 EP 4WD Drift Car RTR
Length: 17.25 in (438 mm)
Width: 7.5 in (190 mm)

THE FLIGHT SIM THAT GETS IT RIGHT!

RF7.5

REALFLIGHT™

No other R/C simulator captures R/C flying as completely and accurately as RF7.5! Among RF7.5's innovations: a wireless transmitter interface; RealPhysics™ for multi-rotor aircraft; several new multi-rotor designs to fly, and much more. RF7.5 makes learning and honing R/C flying skills easy and fun, and because it's so true to life, you'll fly confidently and instinctively at the field!

CHOOSE THE RF7.5 EDITION THAT FITS THE WAY YOU WANT TO FLY:

Wireless SLT Transmitter Interface Edition

Transmitter Interface Edition

Tactic TTX610 Radio Edition

InterLink Elite Controller Edition

New for RF7.5:

Multi-Rotor Physics

Multi-rotor aircraft is the hottest category in R/C, and RF7.5 has a dozen different models for you to choose from!

Wireless SLT Transmitter Interface

Use the same SLT transmitter you take to the field! It's wireless, so you're not tethered to your PC!

Scavenger Hunt Challenge

Test your piloting skills using multi-rotor aircraft. Score points and complete stages to unlock more difficult levels!

"Ghost Run" Feature

Reach personal bests competing against "ghosted" images of previous flights — available on all Challenges!

RF7.5 still offers all this, and so much more:

- A total of over 140 aircraft, encompassing all types of airplanes and helis
- Over 40 flying sites to explore, in both PhotoField™ and 3D
- Game-like Challenges
- RealPhysics™ 3D
- TrueView™ realistic lighting
- Reset/Rewind on the InterLink Elite controller
- Multiplayer and MultiMode
- Onscreen camera controls
- Water takeoffs and landings
- Night flying
- Welcome Screen
- Real Rendering™
- AccuModel aircraft editor
- FlexiField™ flying site editor
- Wind Dynamics
- Blade stop autorotations
- Unlimited combat with any weaponry

FREE!

Software Upgrade is available FOR PURCHASE for those that have G4 through RF6.5. A download is available for free only to those that already have RF7.

- GPMZ4520 RF7.5 w/InterLink Elite Controller Mode 2
- GPMZ4524 RF7.5 w/Wireless SLT Interface
- GPMZ4525 RF7.5 w/Transmitter Interface
- GPMZ4526 RF7.5 w/TTX610 Transmitter & Wireless SLT Interface
- GPMZ4528 RF7.5 Software Upgrade from RealFlight G4 and Above

To see everything RF7.5 has to offer, visit realflight.com!

From the Experts:

Every year RealFlight is far and away R/C's best-selling flight simulator — and RF7.5 raises the bar even higher! A wireless SLT interface, Tactic TTX610 radio and more user-friendly Aircraft Editor are just some of the technical enhancements you'll find. If you like multi-rotor aircraft, RF7.5 has them — and they fly just as realistically as the actual models, thanks to meticulous refinements to the physics technology. And RF7.5 still has all of the extraordinary features that have made it the #1 seller for over 15 years!

Long story short...

The newest upgrades, the best features, the surest way to succeed in R/C flight — all of this and more make RF7.5 the top choice for flight simulation!

REAL VALUE IN A CAMERA-EQUIPPED, MICRO QUADCOPTER!

KODO™

UAV Micro RTF Quadcopter w/Camera

DROMIDA™

www.gpdealer.com

www.gpdealer.com

- Quality digital micro camera
- 2 GB memory card and card reader
- Complete, pre-assembled and ready to fly
- High-intensity LEDs
- Multiple flight modes: Easy, Normal, Expert
- Compact, 90mm dimensions
- Easy to fly, indoors or out

ONLY \$59.99*

The KODO's camera shoots sharp, clear photos and videos, with 1280 x 960 jpegs and 780 x 480 avi files.

You get all this with the KODO:

- Fully assembled quadcopter
- 2.4GHz radio system
- Integrated camera with card and card reader
- Rechargeable LiPo battery and USB charger
- "AAA" batteries
- Extra blades
- Prop guards

From the Experts:

The KODO is ready to fly and film anytime, anywhere! A sturdy frame, advanced gyro stabilization and 2.4GHz radio allow for worry-free flying, and different flight modes let pilots of all skill levels get in on the fun. The camera takes amazing photos and videos, and a micro card and reader are included.

Long story short...

With its durability, flying ease and photo/video capability – at such a great price – the KODO is a "must-have" fun machine!

- 2.4 GHz Radio** Reliable 2.4GHz control eliminates signal interference
- All Batteries Included** All batteries included!
- RTF Ready-To-Fly** Ready-To-Fly, nothing to buy
- Auto Flip** Perform flips at the touch of a button
- Tough** Tough construction makes the KODO extremely durable
- Stable Flight** Gyro stabilization makes every flight smooth and stable

DRIVE THE TRUCK TWEAKED BY TY TESSMANN HIMSELF!

D8T Tessmann Edition Competition Truggy Kit

This truggy is loaded with race-winning hop-ups!

- Carbon fiber shock towers with Ty Tessmann-designed suspension geometry
- Aluminum front hub carriers and caster blocks
- New rear arm mounts with hinge pin inserts
- CNC aluminum front and rear hubs with hinge pin inserts
- CNC aluminum steering blocks with larger bearings
- Adjustable Ackermann via replaceable CF steering block arms
- Longer stroke 16 mm Big Bore shocks for increased suspension travel
- Lightweight aluminum pivot balls throughout
- CNC aluminum one-piece engine mount
- Lightweight diffs and spur gear
- Servo saver dust boot protector
- Captured CVD pins with CVD boots and multiple pin holes
- Longer rear CVD bones
- Revised center rear CVD
- Lightweight aluminum CVD axles
- 150cc fuel tank with clunk
- Pro-Line® Bulldog body
- Upgrade R/C Vortex wing

HBSC6782 D8T Tessmann Edition Competition Truggy Kit

Length: 20.86" (530 mm)

Width: 15.94" (405 mm)

Weight: 8.99 lbs. (4082 gr)

Wheelbase: 14.98" (380.5 mm)
to 15.09" (383.5 mm)

From the Experts:

With a focus on performance, reliability and speed, the new D8T Tessmann Edition is a racing kit designed to do one thing: win. The modifications made aren't simple updates that involve tossing in something from the parts bin – the D8T Tessmann Edition is crammed full of brand new parts that were designed specifically for this truck. When you get it out on the track you'll see what a difference professional input can make!

Long story short...

Celebrated racer Ty Tessmann has made this D8T his own – and now you can too!

IDEAL, AFFORDABLE SPORT SYSTEMS

**TACJ2410 TTX410 4-Channel 2.4GHz
SLTTx/Rx Radio System Mode 2- No Servos**

Channels: 4

Frequencies: 2.403 – 2.480GHz

Modulation: FHSS spread spectrum

Input Power: (4) "AA" alkaline, NiCd, or NiMH cells (3.4-7.0V; not included)

**TACJ2610 TTX610 6-Channel 2.4GHz SLT
Tx/Rx Radio System Mode 2-No Servos**

Channels: 6

Frequencies: 2.403 – 2.480GHz

Modulation: FHSS spread spectrum SLT

Input Power: (4) "AA" alkaline, NiCd or NiMH cells (3.4-7.0V, not included)

- Servo reversing on all channels
- V-tail and elevon mixing
- Internal antenna
- Wireless trainer system and 3.5mm round wired trainer jack
- Quad bearing gimbals
- Adjustable stick lengths
- Power LED and low-voltage alarm
- Charge jack for optional rechargeable batteries
- 4-cell "AA" battery holder, adjustable neck strap, and on/off switch harness with charge lead

- TTX410 has digital trims on all channels; TTX610 has digital trims on aileron, elevator, rudder and throttle
- Wireless trainer function compatible with other Tactic 2.4GHz aircraft radios
- TTX610 features switch 5th and 6th channels for landing gear, flaps and other functions, plus dual rates on aileron, elevator and rudder
- Both include the compact, lightweight TR625 twin antenna receiver

From the Experts:

Both the TTX410 and TTX610 offer a lot at a very reasonable price. They combine the dependability of 2.4GHz technology with the added security of SLT, so they're great for flying all Tx-R aircraft. Pilots just starting out will develop confident flying skills with the TTX410 — and then seamlessly move up to the TTX610 for reliable control of larger planes with retracts, flaps and other additional functions.

Long story short...

The TTX410 and TTX610 are value-packed systems that can take beginners all the way up to intermediate-level sport flying!

Sidewinder 8th w/Connectors and Series Harness

- The muscle to handle 6S LiPo-powered buggies, truggies and monster trucks weighing up to 11 lbs
- Run with a single battery or plug in the Series Harness with pre-soldered connectors to double the voltage and fun!
- The powerful BEC can tame nearly any servo on the market, with a potted design that tolerates wet conditions without flinching
- State-of-the-art Castle software can be programmed using the Castle Link USB Adapter (sold separately)
- Paired with Castle Creations' powerful new 1515B-2200kV motor

FUTM4199
S.Bus Terminal Box 6-Way

Futaba® S.Bus Terminal Box 6-Way

Makes connecting on-board electronics 6 ways easier!

- Plug in servos, hubs, batteries and receivers* into the S.Bus system cleanly and conveniently
- Compact size for mounting inside cramped fuselages
- Take advantage of cutting-edge Futaba technology to 'plumb' your airplane's electronics much simpler and quicker!

*Receiver plug-in requires a male-to-male connector (sold separately).

HCAM4001 Star Plug Male/
Female-1 Pair

Also Available:

- HCAM4010** Star Plug Male (2)
- HCAM4020** Star Plug Female (2)
- HCAM4021** Star Plug Female (4)

Star™ Plugs

A major innovation in power plug design!

- A surface design that's unusually easy to grip and separate
- Connections remain tight and secure in the most extreme conditions and after hundreds of uses
- Can handle massive current loads and are protected against short circuits
- No heat shrink is needed, allowing for neat installations

Patent pending

STRAIGHT-FROM-THE-BOX SPEED TO TAKE ON ANY TERRAIN!

ARRMA
DESIGNED FAST DESIGNED TOUGH

From dirt to asphalt and every kind of surface in between, ARRMA 1/8 scale vehicles are equipped to conquer them all. The 1/8 scale TYPHON 6S Speed Buggy and KRATON 6S Speed Monster put 6S LiPo-compatible, BLX brushless power at your fingertips, to put you at the front of the pack. Become the envy of all the other drivers with an ARRMA BLX machine as you leave them all in the dust, gravel, dirt, mud, etc.

Super-tough and ultra-lightweight, the red and black anodized aluminum parts add strength, speed and style!

60+^{*}
MPH

*Maximum speed achievable with recommended gears and 6S LiPo battery.

WATER PROOF

RTR READY TO RUN

2 YEAR LIMITED WARRANTY

*Terms Apply - Download Welcome Pack for Details

Both come fully loaded with high-performance components!

- 2050kV BLX brushless motor for blistering speeds
- 180A waterproof BLX180 ESC for all-weather bashing
- Metal-gear ADS-15M waterproof steering servo for super-smooth response
- ATX-100 2.4GHz radio for unrivaled vehicle control
- dBoots multi-terrain tires for superior traction on all surfaces
- Precision-fit red anodized aluminum parts for consistent servicing and super-cool looks

TYPHON 6S BLX

1/8 Scale Brushless 4WD RTR Speed Buggy

It's the ultimate brushless buggy, engineered to meet even the most demanding driver's need for speed, power and durability. You won't just beat the competition...you'll dominate the competition!

ARAD80**
Length: 20 in (510 mm)
Width: 12.2 in (310 mm)
Height: 7.5 in (190 mm)
Wheelbase: 13 in (330 mm)
Approx. Weight: 8.6 lb (3.9 kg)

KRATON 6S BLX

1/8 Scale Brushless 4WD RTR Speed Monster

Not only does this truck stand up to the rigors of bashing and off-roading, it also boasts insane speeds that will make the other monsters look like they're standing still!

ARAD81**
Length: 23.2 in (590 mm)
Width: 18.5 in (470 mm)
Height: 7.7 (195 mm)
Weight: 8.8 lb (4 kg)
Wheelbase: 14.9 in (378 mm)
Ground Clearance: 1.3 in (33 mm)

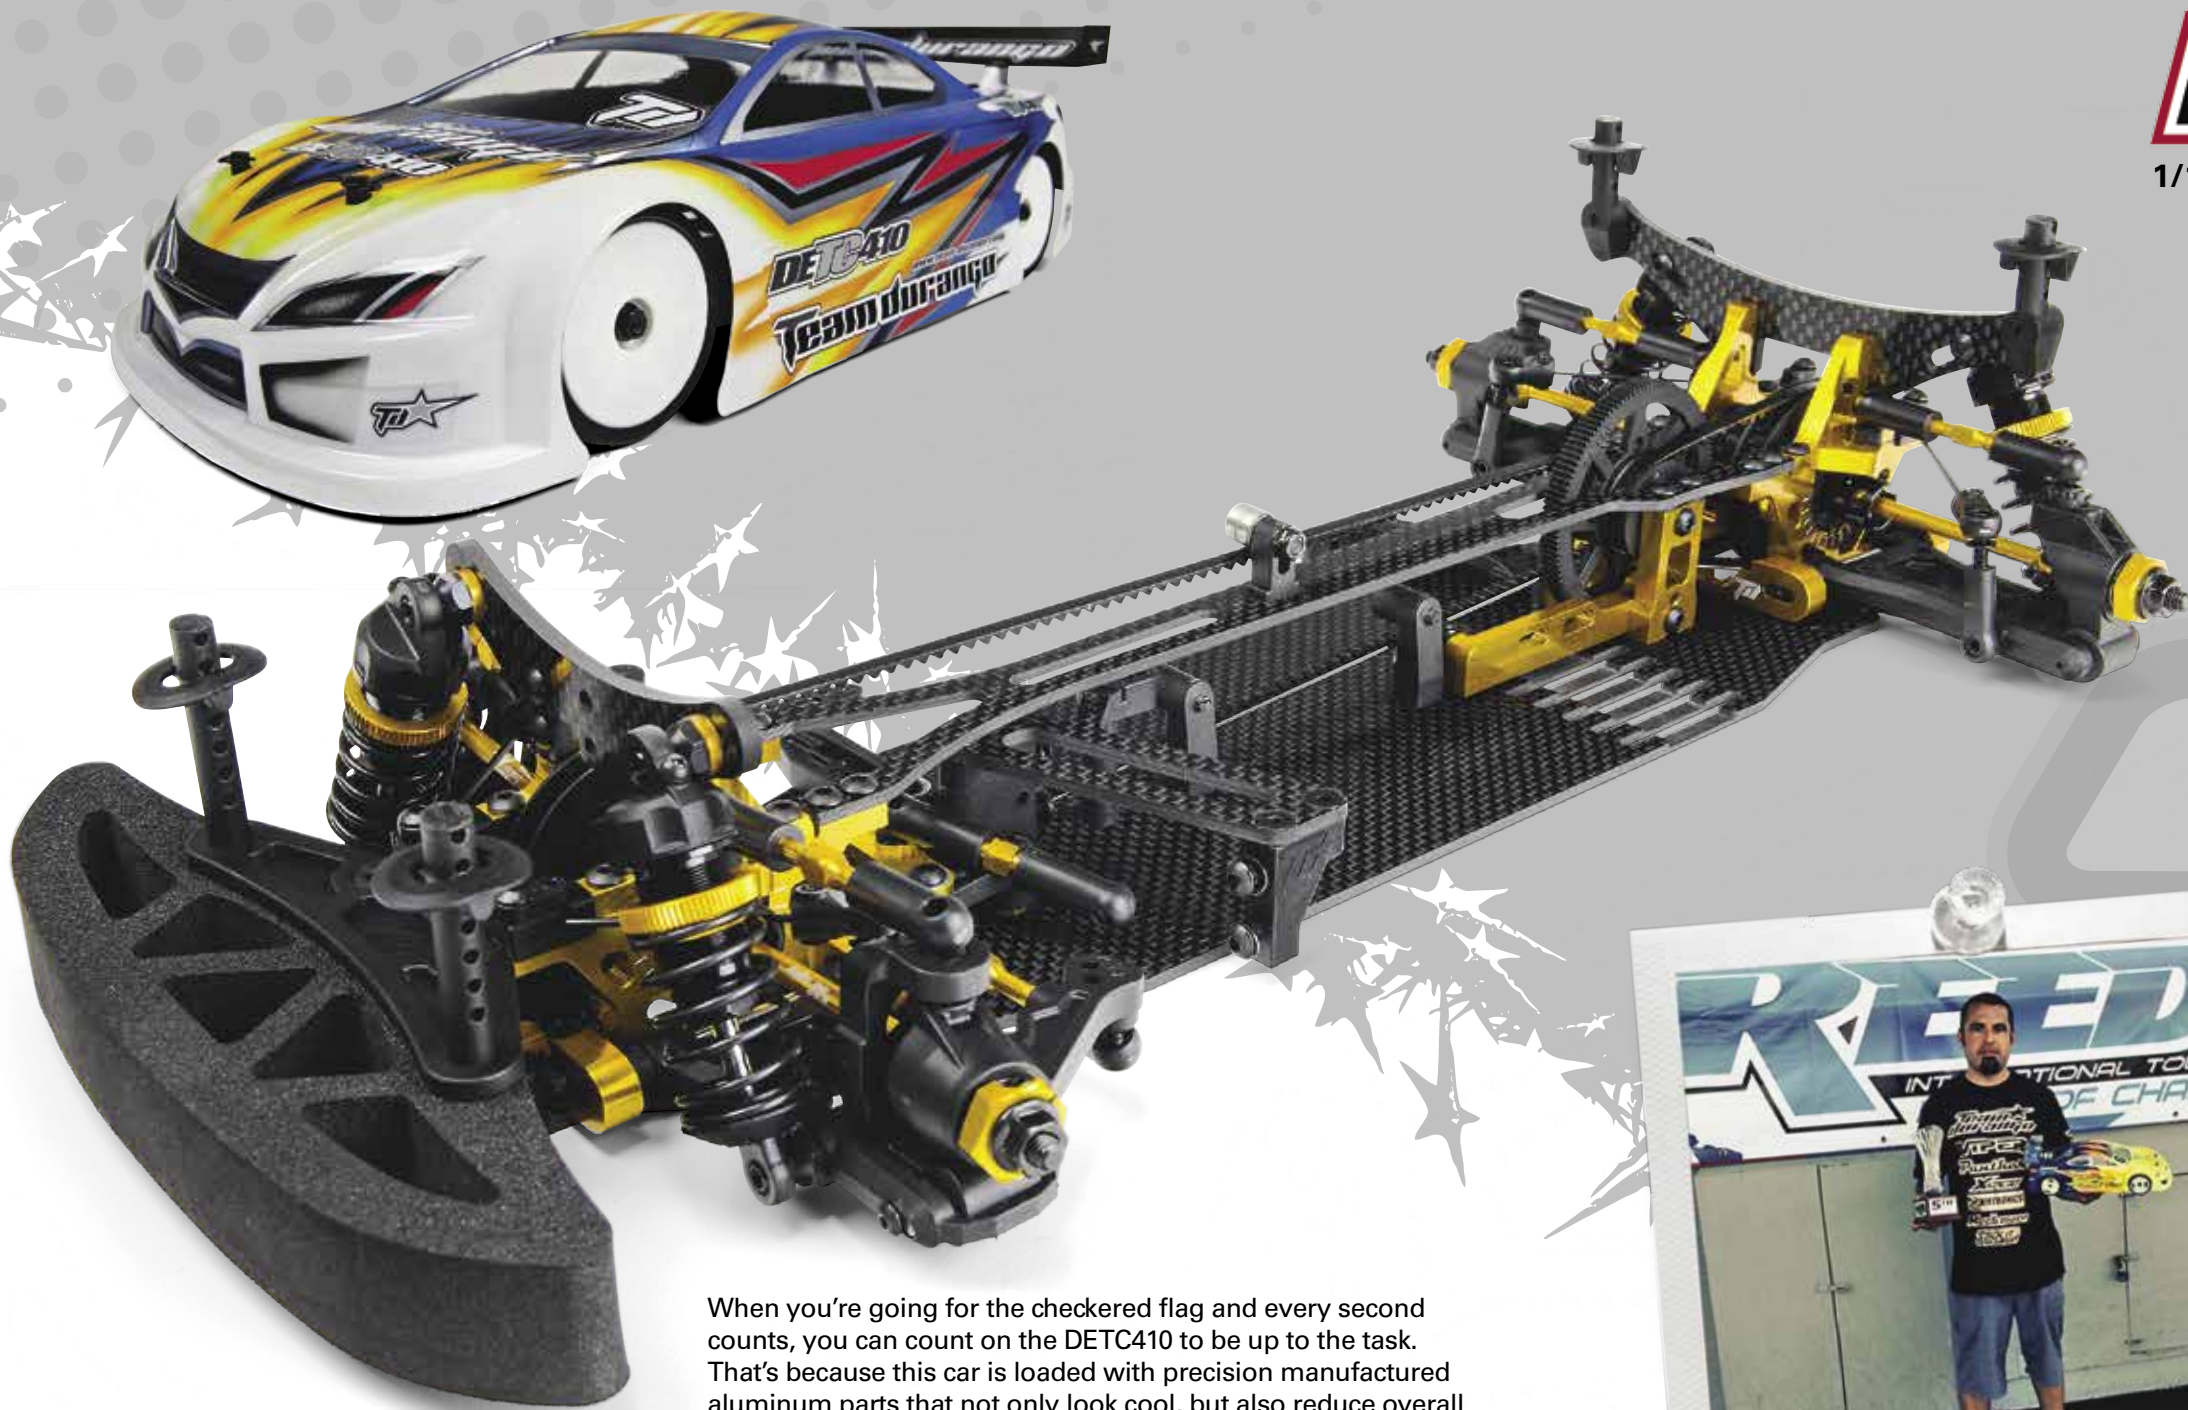

THE CHAMPION'S CHOICE FOR PRO SPEC SUCCESS

DETC410

1/10 Scale 4WD Electric Touring Car Kit

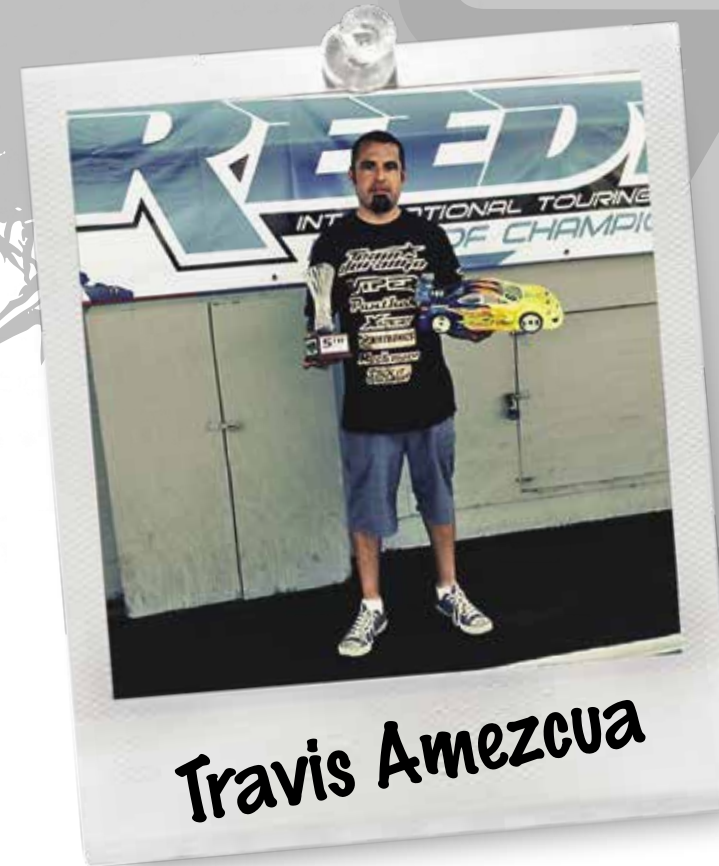

- D-Joint front steel driveshafts that reduce "chatter"
- Composite toe inserts, inboard and outboard, for a wide range of adjustability
- Adjustable composite caster inserts
- Adjustable spur height for optimum motor position and weight distribution
- Tune shock 'stiction' with one or two O-rings in each cartridge
- The option of emulsion or bladder shock absorber units
- Fully adjustable battery mounting system to fit all ROAR-legal 2S LiPo battery cells
- 7075-T6 aluminum, the highest grade used in R/C
- Optional fifth body mounting post for reduced air deflection and added front down force

TDR0150 1/10 Scale 4WD Electric Touring Car Kit
Length: 14.37 in (365 mm)
Width: 7.3 in (185 mm)
Weight: 3.0 lb (1.35 kg)
Wheelbase: 10.0-10.28 in (254-261 mm)

When you're going for the checkered flag and every second counts, you can count on the DETC410 to be up to the task. That's because this car is loaded with precision manufactured aluminum parts that not only look cool, but also reduce overall weight. Plus, you have a wide range of tuning options at your disposal, so you can dial in the DETC410's setup to exactly meet whatever track conditions you may face.

Recently champion driver Travis Amezcua returned to the R/C touring car circuit. When it came to choosing a car for prestigious events such as the Reedy Race of Champions, Travis' ride of choice was the DETC410 — and it should be your choice as well. Serious competitors at all levels of racing know Team Durango has the experience and the expertise, and the DETC410 is a touring car that you'll enjoy customizing as much as racing.

"The DETC410 allows you to build a kit to your exact specs and hit the track knowing you have a car that can put you on the podium."
 - Travis Amezcua, Team Durango Pro Racer

TURN HERE FOR GENERAL HOBBY PRODUCTS

1/24 AUDI R8

Easy to build, fun to run!

Class. Some cars have it, some just don't. The Audi R8 definitely does. It's a sleek and sporty two-seat sports car powered by a 4.2 liter V-8 that's easily as powerful as it is beautiful. Deep down it's a racer, based on a five-time Le Mans winning prototype and made to be fast. Now you can build yours fast! This skill level 1 build & play kit goes together faster than a good race team can pull off a pit stop, and it looks great! **Kit features** snap-together construction and rolling wheels.

85-1690 RMXS1690 Total Parts: 13 Skill Level: 1 Length: 7.25 in (184 mm)

1/24 '55 FORD PANEL TRUCK

Early excellence

Ford Panel Trucks emerged in the mid-fifties as the second generation of the F-100 series. They featured significant improvements to the engine, the chassis, and the overall styling of the model. In addition, they offered increased hauling performance and improved reliability. The panel truck variant made its way into shipping companies and small business all across the country and, eventually, across the world. After only eight years in production, Ford moved on to even bigger and better things. **Kit features** custom interior, bucket seats, low profile tires and styled wheels.

85-4337 RMXS4337 Total Parts: 93 Skill Level: 2 Length: 8.25 in (210 mm)

1/25 MATT & DEBBIE HAY'S FORD PRO STREET T-BIRD

Perfect pink performance

For over fourteen years, Matt and Debbie Hay built award winning Pro Street Machines. In 1988, their bright pink Pro Street Thunderbird started to win awards from coast to coast and was featured on national magazine covers. They sold the award-winning bird in 1991 but, in 2013, Matt and Debbie had the opportunity to re-purchase the car and completely restore it. **Kit features** a detailed 351 c.i. V-8 with Hay-designed twin supercharger system, twin custom Davis radiators, and Alston 4-link rear suspension. Plus full detailed interior with fire extinguisher and stereo speakers.

85-4356 RMXS4356 Total Parts: 126 Skill Level: 3 Length: 8.6 in (219 mm)

1/48 F-86D SABRE DOG

One bad bite

Although similar to the F-86A Sabre, the Sabre Dog was nearly a completely new beast. It was longer than the original and carried both an advanced flight control system and sophisticated radar for night interceptions. Additionally, it carried a new armament of 24 fin-stabilized rockets. Despite the inherent inaccuracy of these weapons, it was thought that even a single hit from the rockets was far more damaging than any likely number of hits from .50 caliber weapons. **Kit features** retractable rocket tray, detailed cockpit, pilot figure, and decals for two versions.

85-5868 RMXS5868 Total Parts: 104 Skill Level: 3 Length: 10.1 in (257 mm)

1/35 P-51 'PHANTOM' MUSTANG

See inside the greatest fighter ever made

There are a thousand models of the P-51, but this isn't just a model. It's a see-through scale technical layout of a P-51 complete with working components like a motorized prop, working landing gear, and droppable bombs. Go beneath the duralumin skin. See the engines, machine guns, and intricate design that helped the Allies win the war. **Kit features** all clear body panels, full interior details, motorized prop/landing gear, and display stand with bomb drop controls. Requires batteries.

58-0067 MONS0067 Total Parts: 162 Skill Level: 5 Length: 12.1 in (308 mm)

REVELL OF GERMANY®

1/35 SPPZ 2 LUCHS A1/A2

One fast cat

The Spähpanzer Luchs (lynx) is a fast armored reconnaissance vehicle with exceptional all-terrain performance and amphibious capabilities. In use with the German Army since 1975, the 'Lynx' has several innovative features including a forward and rear-facing driver and four-axle steering. These features make the Lynx exceptionally good at getting around, and out of harm's way, quickly. Though it is primarily a scout vehicle, the Lynx does include both a 20mm auto cannon and 7.62mm machine gun for sticky situations. **Kit features** optional parts for A1/A2 versions and decals for four versions.

03036 RVLS3036 Total Parts: 224 Skill Level: 5 Length: 8.6 in (218 mm)

1/72 SPÄHWAGEN FENNEK

Eyes and ears of the German and Dutch armed forces

From amidst the tall brush, a slim pillar of metal extends. The thermal imaging camera snaps pictures while the laser rangefinder calculates distances across the rolling hills ahead. The images, the range, and the data are punched into the Fennek's GPS system and silently uploaded to the company battle network. With a smile, the driver puts the four-wheel drive into reverse and backs the Fennek slowly and quietly out through the concealing brush. It wouldn't do to be here when the airstrike comes down. **Kit features** extensive detailing, three armament options, and three decal sets.

03136 RVLS3136 Total Parts: 90 Skill Level: 3 Length: 3 in (77 mm)

1/32 BRISTOL BEAUFIGHTER MK.IF

Death's whisper in the darkness

Unconfirmed WWII legend states that Japanese soldiers referred to the Bristol Beaufighter as "Whispering Death". Beaufighters were much quieter than most aircraft of the time and the Mk.IF night fighter variant incorporated a ranging radar set that could pick out targets on the blackest nights. Once targets were found, stealth went out the window. Four 20mm cannons and six .303 machine guns ensured that enemy targets were shredded in volcanic gouts of fire. **Kit features** navigation compartment with figure, landing gear up or down, and two decal sets.

04889 RVLS4889 Total Parts: 110 Skill Level: 4 Length: 15.6 in (396 mm)

1/48 F-15E STRIKE EAGLE

Freeing up some firepower

The F-15E multi-purpose fighter carries a broad range of munitions which allows it to execute both close support and counter-air missions. The aircraft is viewed as one of the most powerful air superiority fighters in the US inventory today. Successor aircraft like the F-22 Raptor will have exceptionally large shoes to fill if they ever think to measure up to the F-15E. **Kit features** full detailed interior, bombs, missiles, external fuel tanks, and decals for two versions.

04891 RVLS4891 Total Parts: 224 Skill Level: 5 Length: 15.5 in (394 mm)

1/32 F-4F PHANTOM II WTD61 FLIGHT TEST

Setting pace since the sixties

The variants of the F-4 Phantom II have been in service with the air forces of the western world since the early sixties. In that time they have continuously set the standard for performance, multi-mission capability, and resilience. It took decades of development for their combat capabilities to be exceeded by modern aircraft and the Phantom II is still used as a test bed for further aeronautic development. **Kit features** nose cannon, detailed radar, detailed dual cockpit, choice of extended or retracted undercarriage, munitions, and a super decal set for the final flight of WTD-61.

04895 RVLS4895 Total Parts: 283 Skill Level: 5 Length: 23.5 in (597 mm)

1/32 AIRBUS EC145 DRF LUFTRETTUNG

Because life is worth saving

When lives hang in the balance, seconds count and that's precisely when you need the reliability, the speed, and the range of the EC145. That's why the DRF Luftrettung, a German medical airlifter, uses this aircraft in its extensive operations. With its 426 mile (680 km) range, the EC145 can fly across virtually the entire length of Germany and its rear-opening clamshell doors and smooth flight make it perfect for transporting seriously ill or injured patients. **Kit features** opening doors, detailed rotors, rescue equipment, and decals for two versions.

04897 RVLS4897 Total Parts: 178 Skill Level: 5 Length: 12.2 in (311 mm)

1/72 BUCCANEER S MK.2B

Desert pirates

Developed for the anti-shiping role, the Buccaneer was the biggest threat to ships this side of a hurricane for several decades. However, with the addition of laser designator pods, the Buccaneers were used to mark targets for Panavia Tornados to take out. In true piratical style, the Buccaneers zipped in low and fast, marked the targets, and watched the smart bombs rain down. **Kit features** two pilot figures, optional extended or retracted landing gear, in-flight refueling probe, and decals for XW533 A Miss Jolly Roger/Fiona.

04902 RVLS4902 Total Parts: 45 Skill Level: 3 Length: 10.6 in (268 mm)

1/72 VICKERS WELLINGTON Mk.II

Nothing 'Wimpy' about it

Nicknamed the 'Wimpy' after the popular 'Popeye' character, the Vickers Wellington was anything but. Its geodesic, lattice-style construction made it light, fast, and strong by allowing most of the skin to be made out of doped fabric rather than metal. Unfortunately this also made the aircraft vulnerable to fighters, so the model was reserved for night bombing early in the war. Despite some drawbacks, the Wellington was a successful mass bombing tool and was one of the most successful early anti-submarine aircraft. **Kit features** detailed cockpit and undercarriage, 4-gun tail turret and decals for two versions.

04903 RVLS4903 Total Parts: 151 Skill Level: 5 Length: 10.6 in (270 mm)

1/72 EH101 MERLIN HMA.1

Spot the sub

Cooperatively designed by the UK and Italy and introduced in 1999, the AugustaWestland Merlin is the most technologically sophisticated helicopter currently in Royal Navy service. In its anti-submarine warfare role the Merlin is equipped with a host of sophisticated sensors including sonar, radar, dip buoys, and other powerful searching tools. Once spotted, the Merlin engages submerged submarines with acoustic homing Stingray Torpedoes and depth charges. **Kit features** torpedoes, rescue winch, movable rotors, detailed interior, lots of modeling options, and decals for two versions.

04907 RVLS4907 Total Parts: 161 Skill Level: 4 Length: 10.6 in (267 mm)

1/720 USS NIMITZ CVN-68 (EARLY)

The backbone of American democracy

The USS Nimitz (CVN-68) is equivalent in many ways to a small floating city, with facilities to serve the nearly 6,000 people that live and work on the ship. Twin nuclear reactors enable her to operate at unlimited range for up to twenty years without refueling. This allows Nimitz to deploy its 90 craft air wing to nearly anywhere in the world. Build the vessel that ensures American freedom. **Kit features** an early configuration model of the Nimitz with 16 scale aircraft, detailed bridge, and full decals.

05130 RVLS5130 Total Parts: 132 Skill Level: 4 Length: 18.5 in (471 mm)

1/24 BMW® M1 PROCAR

Pro Performance

A racing derivative of the BMW M1, the Procar was an up-gunned 24-valve 460 bhp monster with a top speed of nearly 200 mph (310 kph). In 1979 and 1980 BMW ran 20 identical M1 Procars head to head with different drivers in an exclusive contest of skill. In 1981, the Procar entered Formula 1 competitions as the vanguard of BMW. **Kit features** multi-part 6-cylinder engine, instrument panel, removable rear hood, and decals for two versions.

07247 RVLS7247 Total Parts: 91 Skill Level: 4 Length: 7.5 in (191 mm)

www.revell.com

IVECO STRALIS

Running Italian roads

The Iveco Stralis took to the roads starting in 2002 and by 2003 had already won truck of the year. It is one of the world's most modern trucks because of its ergonomic, space saving, and aerodynamic design. Inline six cylinder engines power these cabover wonders wherever they go, further increasing the vehicle's efficiency. **Kit features** multi-part six cylinder engine, moveable front axle, detailed cab interior, tilting cab, rotatable wheels, and large decals set with plates for ten countries.

07423 RVL57423 Total Parts: 297 Skill Level: 5 Length: 10.1 in (257 mm)

1/72 F-14A TOMCAT "MISS MOLLY"

Good golly, Miss Molly!

The original 'Sundowners' were a fighter group constituted during WWII and sent to the Pacific Theater. There, they got as many opportunities to bring down the 'Rising Sun' as they could handle. Successor units of the Sundowners flew the F-14A Tomcat, an exceptionally powerful, variable-sweep aircraft which formed the backbone of US Navy aviation for a generation. "Miss Molly", a Tomcat from VF-111, was part of the task force aboard USS Carl Vinson on its maiden voyage. This limited edition **kit features** decals for the Miss Molly, 1989.

02123 (Limited Edition) HSGS0123 Total Parts: 195 Skill Level: 3

1/72 KAWASAKI Ki-48-II "LILY"

Bombers of the 8th Flight Regiment

Like most Imperial Japanese Army Air Service planes, the Ki-48 was a light, fast and maneuverable aircraft that focused on armament rather than armor. The type proved to be extremely effective dive bombers in operations in the Philippines, Malaya and Burma. These bombers had a crew of four and could carry up to 1,700 lbs (800 kg) of bombs over extremely long distances. Late in the war, Ki-48s were used in numerous Kamikaze attacks. This limited edition **kit features** photo-etched dive brakes and decals for two IJAAF aircraft.

02124 (Limited Edition) HSGS0124 Total Parts: 86 Skill Level: 3

1/72 FOCKE-WULF FW 190D-11/13 (2 KITS)

30mm thrashers

Every variant of the Fw 190 was fast, maneuverable and heavily armed, but the D-11 and D-13 models were especially lethal. These exceptional aircraft were fitted with both 30mm cannons and 20mm cannons to increase their lethality to heavy Allied bombers. Fighter groups like JG26 flew these aircraft on every European combat front. They proved lethal to fighters, bombers, and ground forces everywhere they went. Limited Edition **kit combo features** two models with decals for three variants and lots of new resin 'nose' parts.

02115 (Limited Edition) HSGS2115 Total Parts: 43 + 39 Skill Level: 3

1/72 KAWASAKI® T-4 "BLUE IMPULSE COMBO"

Recreate 2014's tour de force

Japan's Blue Impulse Air Demonstration Team amazes crowds of spectators each year with stunning feats of aerobatics flying their T-4 trainer aircraft. These subsonic planes are perfect for the precise maneuvers that the team has to pull off. Appearing everywhere from the Olympics to the FIFA World Cup, the birds of the Blue Impulse team are an infrequent but much-adored sight in the Japanese sky. This limited edition **kit features** two Kawasaki T-4 kits and one marking option: 1. JASDF 4th AW, 11th Sq., Blue Impulse aerobatic team, 2014.

02125 (Limited Edition) HSGS2125 Total Parts: 67 (per kit) Skill Level: 3

1/72 F-15J EAGLE "60TH ANNIVERSARY"

Honoring six decades of service

With over 100 victories and no losses in air-to-air combat, the F-15 Eagle has ruled the skies since the late 1970s. In Japan, 139 F-15J aircraft were produced by Mitsubishi® for JASDF service. To celebrate the JASDF's six decades of service, select F-15Js were decorated with a special 60th anniversary livery in 2014. This limited edition **kit features** one marking option: 1. JASDF 2nd AW, 201st Sq., JASDF 60th Anniversary special marking, Code: 943, Chitose AB, July 2014.

02131 (Limited Edition) HSGS2131 Total Parts: 138 Skill Level: 3

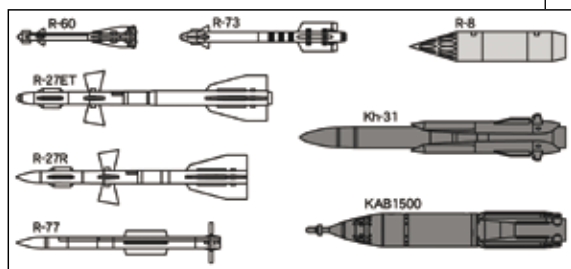

1/24 LANCIA 037 RALLY "CHARDONNET"

Tackle the "Ten Thousand Turns Rally"

The Tour de Corse leg of the World Rally Championship takes drivers through mountainous roads full of tough twists and turns. For the 1984 race, Martini Racing's Jean-Claude Andruet drove a rear-wheel-drive Lancia 037 powered by a 325 hp supercharged engine. Unfortunately, Andruet couldn't keep up with 4WD cars like the Audi® Quattro, taking a sixth-place finish overall in the unpredictable "Ten Thousand Turns Rally." This limited edition **kit features** one marking option: 1. WRC 1984 Tour de Corse Rally, 6th place, Car no.11, driver: Jean-Claude Andruet.

20264 (Limited Edition) HSGS2264 Total Parts: 151 Skill Level: 3

1/72 RUSSIAN WEAPONS SET

Big Bolshevik boomers

Throughout the latter stages of the Cold War, the Soviet Union designed a succession of increasingly technologically sophisticated and devastating Air-to-Air and Air-to-Surface munitions. Many of those weapons have been passed to the Russian Federation and are still in service today. From the tiny R-60, the world's smallest air-to-air missile, to the gigantic KAB1500, this set gives your 1/72 scale aircraft the munitions necessary to take out any target. Limited edition **kit features** eight air-launched weapons.

35201 (Limited Edition) HSGS3501 Total Parts: 156 Skill Level: 3

EGG PLANE CV-22B OSPREY "US AIR FORCE"

Can't make an omelet without...

The Osprey was one of the runniest schemes ever hatched. Designing a bird with tilting rotors so it's half heli, half plane? You'd have to be cracked... right? Well, the folks that hen-pecked the Osprey ended up with yolk on their faces. The Osprey now roosts in many Armed Forces inventories. In fact, the Osprey has set the whole world clucking. Many foreign militaries are interested in plucking a few off production lines for their own use. **Kit features** an "Egg" version USAF CV-22B Osprey with decals and new radar parts.

60506 (Limited Edition) HSGS6056 Total Parts: 42 Skill Level: 3

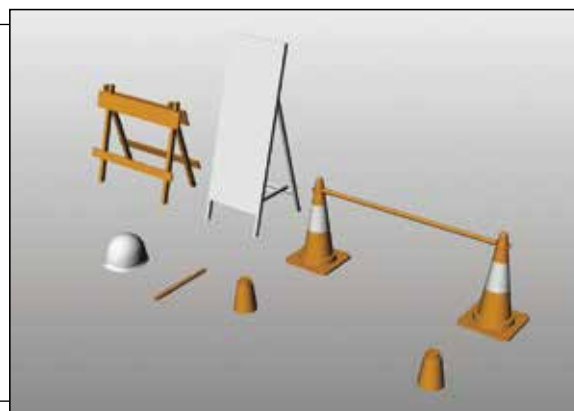

1/12 CONSTRUCTION EQUIPMENT

WARNING, entering hard hat zone

It slows things down, leads to traffic jams, and makes drivers rather angry, but all that construction really does have a purpose—and the warnings have a purpose too! Ensure that none of your 1/12 scale figurines accidentally walk off into an open manhole or stray into a patch of wet cement with this construction security set. This **kit features** all the signboards, warning cones, hard hats, and barricades you need to ensure your 1/12 scale figures understand the area is "OFF LIMITS".

62008 HSGS6208 Total Parts: 26 Skill Level: 1

1/1500 CAPTAIN HERLOCK SPACE PIRATE SHIP

Death's shadow rides on solar winds

Sleek, magnificent, deadly. A single look at the Phantom Death Shadow will tell you all you need to know. She's a predator angled and shaped with a single purpose: destruction. Lethal Pulsar cannons in triple mounts sit idle 'til they reduce enemy warships to cosmic dust, the blade ram waits to split hulls and spill crews and cargoes to the cold, black emptiness of space. She's a piece of lethal art that deserves a spot in your display case. **Kit features** 2 Space Wolf fighters, antenna parts and display stand.

64712 (Limited Edition) HSGS6712 Total Parts: 149 Skill Level: 3 Length: 12.3 in (313 mm)

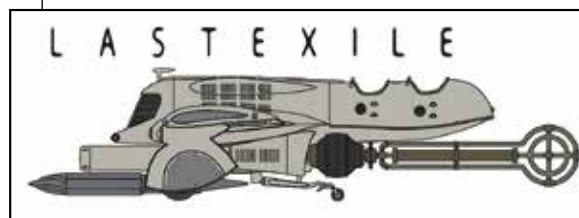

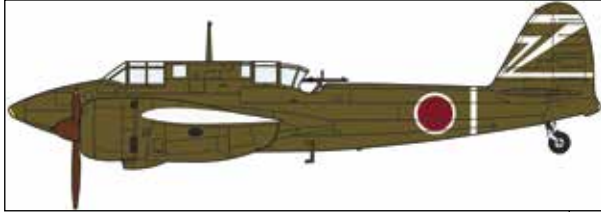

1/72 LAST EXILE VANSHIP

Command the skies of a dark, futuristic Earth

Last Exile's ships are intriguing designs modeled off the technological developments of the early twentieth century. These air cars cruise the skies over a war-torn futuristic Earth in the newest installment, Last Exile: Fam The Silver Wing. Hasegawa has gone to great lengths to perfectly reproduce the unique ships of this animated series. This limited edition **kit features** a Vanship with two new resin pilot figures, new torpedo parts, and decals.

64713 (Limited Edition) HSGS6713 Total Parts: 77 Skill Level: 3

1/48 KAWASAKI Ki-45KAI NICK Toryu "Dragon Slayers"

The twin-engine Ki-45 was designed to carry a heavy armament on long-range missions. They were clumsier than single engine fighters, but a 37 mm cannon made them highly effective against bombers and ships. One of the air groups deployed by Japan shot down eight B-29s on its first mission. The Ki-45 took a heavy toll of bombers, ships and men before becoming obsolete as more single-engine fighters arrived with American carriers. This limited edition **kit features** decals for two Ki-45s.

07389 (Limited Edition) HSGS7389 Total Parts: 162 Skill Level: 3

1/48 EA-18G GROWLER "VAQ-130 ZAPPERS" The Navy's oldest electronic warfare squadron

The EA-18G Growler is the latest evolution of the popular F/A-18F Super Hornet, designed especially for electronic warfare. VAQ-130, also known as the "Zappers," transitioned to the Growler in 2011. The "Zappers" are part of Carrier Air Wing Three, which currently embarked aboard the USS Harry S. Truman (CVN-75). One of the squadron's first Growler operations in 2012 was participating in a War of 1812 Commemoration Exercise. This limited edition **kit features** one marking option: 1. US Navy, USS Harry S. Truman, VAQ-130 "Zappers," CVW-3 CAG, Code: AC500, 2012.

07390 (Limited Edition) HSGS7390 Total Parts: 300 Skill Level: 3

Plastic Models

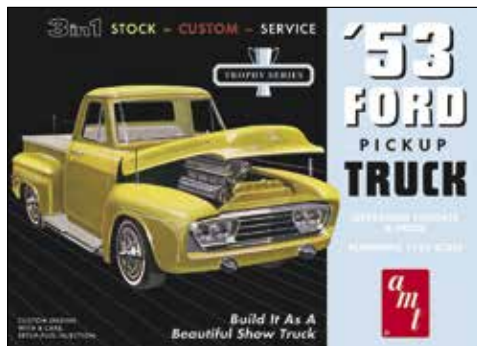

AMT® 1/2500 Cadet Series Star Trek® Deep Space Nine® Set

Keep up with the Cardassians

Favored by fans around the world, "Star Trek: Deep Space Nine" ran from 1993 until 1999. Like all Star Trek series, the show had many memorable characters and spacecraft. Some of the most popular DS9 ships included the pilot episode's U.S.S. Saratoga, Captain Benjamin Sisko's signature ship, the U.S.S. Defiant, and the Cardassians' Galor-class cruiser. **Kit features** three newly tooled snap-assembly kit versions of the U.S.S. Saratoga, the U.S.S. Defiant and the Cardassians' Galor-class cruiser, plus extensive decal sets for each spacecraft. Paint required.

AMT764 (Includes 3 Kits) AMTS0764 Total Parts: Skill Level: 2

AMT 1/25 1953 Ford Pickup *Still blazing trails after sixty years*

Immediately after WWII, America badly needed new trucks. The Ford F-Series filled the gap with reliable, efficient trucks. Now, AMT is reissuing their Trophy Series 3-in-1 model. It has all the parts necessary to model a stock truck fresh from the production lines, a work service truck, or even a souped-up custom model. **Kit features** 3-in-1 build option; custom fenders and tailgate; '70s style mag wheels or retro custom spinner caps; stock Ford flathead motor or Chrysler with intake setup choices; scale welding tanks, jack, and tools; and Retro Deluxe packaging with vintage illustrations.

AMT882 AMTS0882 Total Parts: Skill Level: 2

Moebius® Models 1/25 53' Smoothside Trailer

For hauling far and wide

If you've bought it, sold it, eaten it, shipped, or tried it on, odds are it got there in a truck and that truck very well might have been a 53 foot smoothside trailer. Moebius makes several semi-trucks in 1/25 scale and now they're delivering an exquisitely detailed smoothside trailer to go with them! **Kit features** a rear rollup door, detailed parts and full decals.

1303 MOES1303 Total Parts: Skill Level: 2

MPC 1/20 1970 AMC AMX

Power defined, performance refined

The AMC AMX was America's first try at a muscle car, sports car crossover. It boasted a V-8 that any muscle car could have been proud of, coupled with a sublime suspension system which gave it incredible cornering performance. It set records, took prizes, and was the talk of the automotive market but still managed only middling sales. This can largely be attributed to the traditional difficulty of selling two-seater cars. Because it was discontinued after three years, the AMX has become a collector's piece. **Kit features** two hood options, 3-in-1 option, and vintage packaging.

MPC814/12 MPC814 Total Parts: Skill Level: 1

MPC 1/25 1940 Ford Fire Chief Super Snap

Where's the fire?

We're not sure yet, but by the time we locate the fire, you can snap together this pre-colored snap together kit, slap on the decals, and get the chief to the site. With this kit, no experience is no problem! It's easy and quick to assemble and requires no glue. It's absolutely perfect for young or inexperienced modelers. **Kit features** easy snap construction, pre-colored parts, full decal sheet, and retro packaging!

Tamiya® 1/48 German 6x4 Towing Truck Kfz.69 w/3.7cm Pak.36

Moving military might

Designed in the run up to WWII, the Kfz.69 was a six-wheeled, four-wheel drive truck for transporting personnel and light artillery. Seven thousand of these trucks were built to help drive the Wehrmacht, but they had several drawbacks. The trucks were slow, unarmored, gas guzzlers, and the Pak.36 itself was obsolete. In the early years of WWII the light, towed Pak.36 formed the bulk of Germany's anti-tank forces but tank armor rapidly evolved beyond the .36's ability to penetrate. **Kit features** truck, light gun, six figures, scale accessories, and decals for two versions.

Tamiya® 1/35 Toyota® Model AB Phaeton

The Colonel's car

Largely based on American car designs, Toyota Phaetons were sleek, stylish cars with advanced engines and wheels. The AB variant was designed as a convertible with a fabric top and a folding glass windshield. Almost all of the AB production line went straight to the IJA during WWII. They served as staff cars, hauling important officers and dignitaries behind the front lines. **Kit features** optional deployed or retracted roof, folded or deployed auxiliary seats, and driver figure.
