

CGL M5

HOME COMPUTER

from Sord of Japan

BELOW ARE THE SOFTWARE TITLES CURRENTLY AVAILABLE FOR THE CGL M5

CGL M5 ADVANCED LANGUAGES

BASIC G

Cartridge and Text R.R.P. £34.95

Basic G gives the M5 an incredibly versatile graphic capability, in addition to the standard programming language. (Included with your M5). Basic G is compatible with Basic I.

Basic G makes professional graphic and electronic sound effects very simple for even the beginner to achieve. For example, PLAY "c" gives you the musical note C, the CIRCLE statement will draw circles and PAINT will fill in an enclosed area with colour. A popular piece of music could be transcribed into BASIC G in a matter of minutes.

For the serious programmer, Basic G turns your TV set into a graphic animation studio. For the student, what could be more fun and challenging than creating and programming your own arcade computer game. When combined with the sprite capability, Basic G gives the M5 a power and flexibility which is quite outstanding for a personal home computer. A fact that has been extremely well received by reviewers in the specialist press.

The package includes 16K of ROM and 4K of RAM built into the cartridge and a separate 284 page manual, which takes you logically and carefully through the intricacies.

BASIC F

Cartridge and Text R.R.P. £44.95

Basic F is a full implementation of Basic with the added advantage of its own complete operating system – a feature normally only available on big computers with bigger price tags. Basic F is based on Sord's own professional computer Basic.

Contained in 20K of ROM, Basic F offers the user in excess of, a massive 130 basic commands. Additionally, the inclusion of a full operating system allows the user complete access and control over the computer. For example, the commands include control over 8 separate input/output channels and controls for disc operating software.

Advanced commands in Basic F include full floating point maths, full calculator functions (including trig, log, pi, etc.) as well as many other features. The Basic F package comes complete with a comprehensive instruction manual for the learner and experienced user alike. In addition, there is also 4K of user RAM resident within the cartridge.

FALC

Cartridge and Text R.R.P. £34.95

Falc is an easy to use application language, where commands are selected from a menu. Falc is designed to bring the computer closer to business and home users, enabling anyone to unpack a computer and get results the same day.

FALC allows a wide range of information to be entered and manipulated using a small number of commands. These include calculator functions (with a floating point capacity) and graphing facilities, as well as writing, reading, sorting, searching and merging data. FALC is a subset of PIPS, the revolutionary business language, but is also suitable for household uses, e.g. maintaining home accounts, indexing record collections, maintaining telephone lists etc. A number of uses are described in detail in the instruction manual (included).

M5 SOFTWARE UPDATE
MAY 1984

Technical specification: A spreadsheet accounts and data base management package consisting of two tables each with up to 27 columns by 99 lines. This is expandable to 9 tables with the 32K memory cartridge. Information can be easily stored on tape and output with a printer.

CGL M5 GRAPHIC DESIGNER CASSETTE

GRAPHIC DESIGNER

R.R.P. £9.95

Cassette and Text

A unique piece of software, the Graphic Designer cassette enables you to draw (design) your own scenes directly onto the M5 TV screen. Pictures created can be saved on tape and later combined with sprites for animation. The Graphic Designer is simple to use with both Basic I and Basic G cartridges. To create a picture, all you do is move the cursor and the image appears. Three magnified panels allow you to maintain full control over all of the 49,000 individual dots that make up the screen. All 16 colours are accessible by the use of a single key stroke. The Graphic Designer is so simple, it can be used by younger children as an etch-a-sketch or by the serious user, for complex computer graphics.

The Graphic Designer cassette comes complete with instructions and includes two pre-programmed background scenes.

ARCADE STYLE GAME CARTRIDGES

To find your way through the maze, you just have to find the keywords. If you fail, you will have to guess which way to turn and then you may find yourself even worse off than before. A game to test your intellect and vocabulary. A real WORD MAZE. - R.R.P. £23.95.

Fly your helicopter through all the perils of enemy territory. Avoiding the missiles, flying saucers, tanks and other dangers, not forgetting to bomb the fuel dumps to increase your own supply. Get to the enemy base and carry off the booty, with SUPER COBRA. - £23.95.

Shoot arrows at the balloons carrying the wolves, to stop them from coming and eating the little pig. If you miss you'll be attacked by the wolves! Get the wolves into a group and throw meat at them for big bonus points - POO YAN. - £23.95.

Enter a heavyweight title match! Fend off your opponents, attack with footwork and fast ducking, while counter-attacking with jabs and straight punches. Float like a butterfly, sting like a bee! And with luck, a knockout! . . . HEAVY BOXING. - £23.95.

Volley! Lob! Scamper around the court. An extremely realistic tennis game, that's REAL TENNIS. - £23.95.

You are a railroad builder. To collect your passengers, lay the tracks to the station but make sure not to derail your train or collide with oncoming trains. Pulling into bonus station gives you a chance for maximum points. Use your intellect to the fullest and have a nice ride with GUTTANG GOTTONG. - £23.95.

Climb the stairs, but watch out for the descending monsters. Jumping the mice, ducking the bats and dodging iron girders is easy, but beware the spiders web. You could choose to go invisible, but this eats up your energy reserve. And if you run out of energy or hit an obstacle, you have to start the ten flights of stairs all over again. When you reach the top flight, you get a chance to board the friendly UFO and your energy is replenished STEP UP.

Blue tanks representing the enemy press in on your position, shaking the earth as they come. You as a lone defender must check their offensive, and the action soon turns from intense fighting to a horrific battle to the death! The drama builds as you are forced to make difficult strategic decisions - score big points through close range combat or lay back and pick them off as they come. A game of combat demanding courage, skill and a resolute will to survive - TANK BATTALION.

Today you are planning a party for your girlfriends, but each friend will only eat the kind of fruit she likes. Your job is to find out which kind of fruit each girl likes - FRUIT SEARCH
