School Board Schedules Meeting for Jan. 22

The Westfield Board of Education will hold a special meeting at 8 p.m. on Tuesday, Jan. 22, to receive a staff committee proposal for a revision to the Health/Family Living Curriculum for secondary school students.

The meeting is open to the public.

Members of a professional staff committee will present the proposed revisions to the School Board. Committee members include David Rock, director of instruction; Margaret Klick, health services department chairperson; Thomas Mullen, audiovisual director; Richard Zimmer, health/physical education department chairperson; Greg Gorski, health/physical education teacher; Carol Weiss, contemporary living teacher; and Sheila Rosen, Jean Wands and Maureen Pigott, school nurse/health educator.

The family living portion of the secondary health curriculum has been in existence for more than a decade, having been taught at first by science teachers at the junior high schools and more recently by school nurse/health educators. At the high school, health educators teach the health curriculum.

The revision process began last year with the distribution of a nine-page curriculum outline showing a comparison of New Jersey State-suggested family living topics to the Westfield

health curriculum outline for grades seven through twelve. Copies of the outline were made available to the public for review and a series of meetings were held to answer questions and

Steven Arthur, a "Kids on the Block" puppet, talked about child abuse and how friends, teachers, principals and law enforcement officials can help at a special STS (Sharing Talents and Skills) program Tuesday at McKinley School. The puppet show, put on by members of the Junior League of Elizabeth-Plainfield, was shown to third grade students. Pictured, with Steven Arthur, are (left to right) Sgt. Earl Lambert, safety officer for the Westfield Police Department; Ellen Laird, co-chairperson of the "Kids on the Block" troop; and Charles W. Jackson, principal of McKinley School.

WHS Named National Peace Site

Last month the student body of Westfield High School overwhelmingly approved the school's official dedication as a National Peace Site. With a 918-217 vote, Westfield High became the nation's first public school to commit itself as an institution of peace. It did so in a unique way, very different from other institutions which have similarly designated themselves, by not including an accompanying commitment to nuclear disarmament.

Founded by Mr. Louis Kousin, a formal Pulitzer Prize nominee from Cranford, the National Peace Site Campaign is primarily designed to promote a "natural antonym for military sites... a place where education for peace programs and plans for peace can be initiated, reinforced and expanded.

"Since 1981, approximately 30 YMCA's, churches, synagogues, libraries and colleges in N.J. have dedicated themselves as peace sites with an anti-nuclear theme. The entire campaign, sponsored by N.J. SANE, has proceeded in the name of nuclear disarmament.

The National Peace Site concept first came to the attention of Mr. Robert Bruno, Westfield social studies teacher and advisor to WHS Young Leftists Club. The Young Leftists, a liberal-minded group of students interested in current issues, were immediately excited by the

peace site idea and embarked on the project in late November.

The major problem with which the Young Leftists were faced was, even though they were strongly in favor of such a position, would it be right for them to impose an anti-nuclear theme on a public school where many diverse and predominantly conservative views exist?

Bruno and a committee of seven students decided that the best course of action would be to present the proposal to the school with a politically non-partisan emphasis. In its letter to the principal, the committee stressed that even though the subject of peace is a political issue, the dedication of the high school would be a significant official gesture to the community that WHS students desire to strive for a peaceful world, whatever any individual's definition of peace may be.

After gaining written approval from the administration, the committee presented the proposal to the student council, seeking not necessarily support but approval to the extent that, as the political arm of the school, it would be willing to conduct the referendum. The student council unanimously agreed to run the poll and even officially endorsed the proposal.

With a short period before the vote and the majority of students unopposed about the peace site concept, committee members set

out on a vigorous campaign, plastering the school's hallways with informative posters, passing out flyers and copies of an explanatory article from the school paper, and operating a "Peace Site Questions and Information" table. The peace site proposal was approved by an 80% majority of WHS students.

"What's next?" was everyone's question. The Young Leftists plan a ceremony of dedication, including the presentation of a plaque and the installation of a physical landmark (such as a tree). Invitations will be sent to the President, Governor Kean, Senators Bill Bradley and Frank Lautenberg, Congressman Matthew Rinaldo and other distinguished officials.

Because WHS's dedication is non-political, a variety of forums, lectures and debates are expected to follow between or among groups wishing to stress their views on how peace can be attained. Furthermore, organizations can form Peace Site funds to contribute to any cause representing their definition of peace.

The sponsors of WHS's Peace Site hope that the school's symbolic gesture will be a significant first step in the expansion of the peace site concept to public institutions, and will open the doors for other teenagers throughout the nation to voice their concern for the future of the world in

Tentative School Budget Approved

A tentative 23 million dollar total Current Expense Budget to operate nine public schools in Westfield during the 1985-1986 school year, and a \$756,000 Capital Outlay Budget have been approved by the Westfield Board of Education.

The tentative budgets were approved by the School Board at a special meeting Jan. 10. The special meeting was held to adopt the total tentative school budget in time to meet a Jan. 16 deadline mandated by the State to submit the budget to the County Superintendent of Schools for approval.

The \$23,315,055 tentative current expense budget is at the 6.4% cap (or maximum increase permitted by the State under its cap law).

At this time, the tentative school budget calls for a net decrease of approximately 12.5 staff positions, due mainly to decreased enrollment. The school enrollment is expected to decrease to 4,789 in 1985-86 from the 4,978 students planned for in the 1984-85 school budget.

The separate Capital Outlay budget is for the following items:

*WHS Library Expansion	\$550,000
*EJHS/RJHS Stage Curtains	30,000
*Washington/Jefferson Windows	20,000
*16 Passenger/Student Van	16,000
*Franklin Doors	60,000
*WHS Gym Ceiling	80,000

Another capital need in the community's schools is updating and upgrading the fieldhouse, which was built for \$31,000 in 1936, and Recreation Field. At this time, the School Board is exploring the use of Green Acres Funding for the fieldhouse and field. The Board's finance committee has met with an architect who has had experience with Green Acres Funding and the Board's next move would be to

talk with Town Council about it because Green Acres low-interest funding is available only to communities, not to school districts.

Application of the net proceeds from the sale of Columbus School to the capital outlay budget will reduce the amount to be asked of voters at the polls in April to approximately \$400,000.

Both the current expense budget and the capital outlay budget will go to voters for approval at the polls at the annual school election on April 2. A formal public hearing on the budget will be held in March.

Copies of the tentative budget will be available to the public after they are printed, beginning Monday, (Jan. 21).

Rinaldo Makes Sense--Again

Congressman Matt Rinaldo who represents the Seventh Congressional District, which includes Westfield, made sense as he so often does, in his Jan. 10th "Report from Washington" published that day in the Leader.

For any who missed it, in substance he lamented that less than one-fifth of the 2,478 recommendations on how an estimated \$424 billion could be saved over three years, made by the President's Private Sector Survey on Cost Control, headed by industrialist Peter Grace, had been adopted.

The Congressman pointed out that the Grace commission's report said the huge federal budget deficit could be virtually wiped out without raising taxes, weakening the defense programs or harming social programs if its recommendations were put into effect.

A year has gone by since the report was submitted and for no apparent reason, has been all but completely ignored.

The Grace Commission's study was not the first made by other than a governmental group and it has received as little attention as any other. We have been surfeited with talk about the deficit to the point of nausea—more's the pity. It would be possible to tolerate the interminable discussion if we knew that some sane attention was being paid to the problem and that the powers that be were listening instead of talking.

Mr. Rinaldo says, "the lack of consideration is inexcusable. Congress can ill afford to reject out of hand the commission's recommendations because they demand that some tough decisions be made about spending priorities."

One must wonder how Congress can ignore the study made by a group of the country's leading executives who manage huge and successful companies and instead, find time to permit constant increases in first class postage, refuse to pay interest on estimated income tax payments, allow food prices to balloon and put a tax on a portion of social security payments without any controls to keep it from possibly shoving the taxpayer into a higher tax bracket.

There are so many things our legislators could do to ease the tax bite, including paying attention to the Grace report. Too bad they don't.

Bravo, Congressman Matt.

Report from
Washington

By Congressman

Matt Rinaldo

7th District, New Jersey

Whether you are outraged by government waste or need help in dealing the federal bureaucracy, one way to get action is to bring your concerns to my attention.

As your elected representative in Washington, I want to know of your concerns regarding government actions, to help resolve any problems you may experience in dealing with the federal government, and to get your views on legislation before Congress.

During the new session which opened earlier this month, Congress will be acting on numerous legislative proposals that will not only affect the future of our nation but, in some way, will also touch your life and the lives of every American.

For example, Congress, will be dealing with such issues as the mounting budget deficit, tax reform, U.S. policy in Central America, and arms in space. We

also will be considering the future of Medicare, reauthorization of Superfund, and proposed spending cuts in various social programs serving millions of citizens.

In order to more effectively represent you, I need to know how you feel about these and other issues that will be voted on in the new Congress. One of the best ways to make your concerns known to me is to write. Letters serve as a valuable barometer as to how constituents feel about a particular issue and guide me in casting my vote when that issue comes up for consideration on the floor of the House.

In addition to giving me your views on legislation before Congress, you should bring to my attention any problems you may be having with the federal government. Each year more than 50,000 letters and inquiries are

MEMORIAL LIBRARY: MORE RESEARCH NEEDED!

Editor, Leader:

There is no question that Westfield needs more library space and that the Grant School site is ideal. There is, however, great question if the existing building need be torn down.

Many municipalities have converted and renovated existing buildings. During 1984, Reading, Mass. completed the renovation of an 1896 elementary school into a well-designed, aesthetically pleasing town library at a cost of \$990,000 after rejection at town meeting of a new \$3.5 million construction plan offered by the Building Committee.

It would be worthwhile for the Westfield Building Committee to confer with its counterpart in Reading, Mass. and their architects.

All interested citizens should read the December 1984 issue of the "Library Journal" which reviews all 1984 library building construction including Reading, Mass.

SUCCESSFUL TOY DRIVE

Editor, Leader:

We wish to express our sincere appreciation for the generous gifts donated to our Sixth Annual Toy Drive to benefit needy children.

The overwhelming generosity of the public this year helped us brighten the holiday season for many needy children, and made

our toy drive the most successful ever. Nearly 4,000 toys were collected at our 91 offices and donated to 16 local charities in New Jersey, New York, Connecticut and Pennsylvania.

We extend our warmest thanks to the people of the greater metropolitan area, and your community, for their generosity again this year.

Patty and Mike came home one day to find the place ransacked. Mike's stamp collection, which cost him \$4,000, was missing; Patty's antique bric-a-brac was gone from the mantle where it had lain undisturbed for years. A stereo system worth several thousand dollars was also missing. The couple discovered their homeowners insurance would reimburse them for only \$2,000 of the \$10,000 in property. They were relieved to learn some of the loss could be compensated by a \$5,400 federal income tax deduction.

Another case involving the casualty and theft loss tax deduction: Mary Kramer's home was damaged by a 1984 storm which left \$16,000 in structural damage. In addition to payments due from her insurance coverage, Mary may cut her loss further by claiming a casualty loss deduction.

According to the New Jersey Society of Certified Public Accountants, if you suffer property damage or loss — a victim of thieves or of nature — you ought to know something about the casualty and theft loss deduction.

A law that took effect in the 1983 tax year severely disqualified a number of people from claiming the deduction, but nonetheless, it can still provide financial relief to many. In 1984 the National Oceanographic and Atmospheric Administration (NOAA) reported a record number of tornadoes; 1,367 were observed. NOAA's Climatic Impact Assessment branch estimates storm damage will reach \$5 billion. Since half the damage was uninsured and owners of this property will not be reimbursed, the casualty loss deduction may be critical this year.

Rules allow you an itemized deduction for a loss that exceeds 10 percent of your adjusted gross income minus a \$100 exclusion for each casualty or theft. To illustrate how this might work, let's look in on Patty and Mike.

Their stamp collection was valued at \$5,000, though Mike paid only \$4,000 for it. The theft loss rules say that you must deduct whichever is less — the cost of the property or its fair

market value — in this case, \$4,000. Similarly, Patty's antiques were appraised at \$3,000, but she was entitled to deduct only the \$2,500 she paid for the collection. The stereo system only qualified for a \$3,500 deduction. Despite receipts showing they paid \$5,000 for the system, its worth had to be adjusted for wear and tear. Thus, they had a total loss of \$10,000 (\$4,000 plus \$2,500 plus \$3,500). They subtract from the amount the \$2,000 reimbursed by their insurance and also the \$100 exclusion (\$10,000 minus \$2,000 minus \$100). Finally, from their \$7,900 loss, they must subtract 10 percent of their adjusted gross income of \$25,000. Thus the couple would be entitled to a \$5,400 tax deduction as a result of the theft (\$7,900 minus \$2,500).

Assessing the tax deductible value of property can be complex. When a storm damages your home, as in Mary Kramer's case, IRS are more puzzling. Mary must compare the difference in value of her home before and after the storm with her adjusted basis (purchase price plus costs for improvements) and she is entitled to deduct the lesser amount.

Here's an example: Let's say the adjusted basis in Mary's home is \$20,000, and her home decreased in value by \$5,000 as a result of the storm. Since the \$5,000 change in value is less than the \$20,000 adjusted basis, she is entitled to deduct the lesser of two \$5,000s.

Although the casualty and theft loss deduction generally helps victims of natural calamity or theft, CPAs note that it occasionally assumes wider applications. The U.S. Tax Court, for example, ruled that a woman was allowed a casualty deduction on her diamond ring which her husband accidentally lost down a kitchen drain. She had left the ring soaking in a glass of ammonia on the sink. Though such accidents are rare, they can happen; your CPA can help you determine if your loss is deductible.

Winter Sports Need Eye Protection

Dr. Errol Rummel of Jackson, consumer communication chairman of the N.J. Optometric Association, warns of possible eye injury from certain winter sports.

"Ice hockey creates a special danger to unprotected eyes. Hockey pucks, traveling at dangerous speeds, can rupture an unprotected eye causing serious damage and blindness," says Dr. Rummel. Protective eye wear using special frames, and highly impact resistant polycarbonate lenses is indicated for sports like hockey.

Skiers should always wear ski goggles. They protect the eyes

from widely swinging ski poles and windblown ice particles. Yellow goggles help improve contrast and aid vision on "flat" over-cast days. Dark goggles protect the eyes from glare on sunny days.

Winter sports in general require special ultraviolet absorbing sunglasses to protect the eyes from the dangerous rays of the sun reflected off the snow. Ultraviolet rays may be a factor in eye irritation, cataract development or retina degeneration.

For further information about eyes and vision, contact NJOA Whitehead Rd., Trenton.

Missing Children Program Announced

Assemblyman Edward K. Gill (R-Un.) recently announced that he had contacted major dairies in New Jersey, asking their cooperation in instituting a program designed to locate missing children.

"The program calls for one panel on each milk carton to carry a picture and full description of a least two missing

children along with a phone number at which authorities can be reached in the event a child is recognized," Gill explained.

This panel would be changed periodically and other children's pictures and descriptions would be substituted. "Since milk is a common denominator in most children's diets, what better way to advertise for missing children," Gill said.

Jamestowne Society Organizes

The Princeton Company (chapter) of "The Jamestowne Society" was organized in a luncheon meeting at the Nassau Club in Princeton, Dec. 8.

Herschel Helm, attorney general of The Jamestowne Society and chairman of the "New Companies" Committee, came from Virginia to attend the meeting and officially award the charter to the new Company.

Charter members of the Princeton Company are members of the national "Jamestowne Society" who live in New Jersey or nearby areas. They are direct descendants of the stockholders in the London Company or the Virginia Company or those who owned land and lived in Jamestown prior to the year 1700.

The Society is looking forward to the reenactment of the voyage of the "Godspeed" from England to America. It will arrive in Jamestown about July 4 and will later visit several cities on the eastern seaboard, including New York. It will also take part in the rededication ceremonies for the Statue of Liberty in 1986. The "Godspeed" is an exact replica of the original ship which brought the founders of Jamestown to America in 1607—thirteen years before the "Mayflower" arrived in New England.

Those in this area who would like more information about the "Jamestowne Society" may contact Mr. John Browning of Westfield.

A fully-staged performance of Stravinsky's "Soldier's Tale" highlights two concerts being presented by the Westfield Symphony Orchestra Chamber Players under the direction of Brad Keimach on Jan. 18 (Presbyterian Church, 8 p.m.) and Jan 19 (WHS auditorium, 2:30 p.m.) Shown with oversized masks are Westfield cast members Eloise Mason, Dan Wright and Brian Muzas and Short Hills resident Chris Bernstein, stage manager for the production. The Jan. 18 concert program will include Copland's "Appalachian Spring" and Bach's "Brandenburg Concerto No. 3." Jan. 19's concert is a benefit performance for the Westfield Parent-Teacher Council's Scholarship Fund and will include the Bach work. Tickets for both concerts will be sold at the door.

Collegians

Jeffrey W. Reeder, son of Mr. and Mrs. James Reeder, of Westfield, New Jersey, is on a ten day winter tour with the Lynchburg College Concert Choir. They will give performances in Virginia, North Carolina, Georgia and Florida.

The Choir is under the direction of Dr. Harvey D. Huiner, associate professor of music at

Lynchburg College.

The performances will combine sacred and secular music by well-known composers of today as well as the past.

Reeder is a freshman at the College and is majoring in business administration. He is a member of the tennis and track teams, and is a graduate of Westfield High School.

Annual Scholarship Applications Available

Applications for the annual scholarships given by the College Woman's Club of Westfield are now available in the Westfield High School guidance office. A four-year scholarship, as well as several freshman grants will be awarded this year in May.

The scholarships, open to senior girls at Westfield High School, are based on scholarship, need, leadership and character.

Mountainside Newcomers Fundraiser

The Mountainside Newcomer's club started the New Year with a luncheon on Jan. 9 at the Steak and Ale Restaurant. The club's very successful holiday fundraising luncheon was discussed at the meeting. The success was the result of generous donations by numerous businesses in the

community and through individual efforts by club members.

Barbara Davis and Mini Fen-

ton presented checks from the fund to Mrs. Ruth Keuler, president of the Mountainside Rescue Squad, and to Shirley Biegler, coordinator of the Children's Specialized Hospital.

Club business also included the election of a nominating committee for the next semi-annual elections.

The next evening meeting will be held on Wednesday, Jan. 30, 8 p.m., at the home of Mrs. Bobby LoRusso, New Providence Rd.

Artist Gina Minichino at work on the Washington School show poster. This year's show will take place at Roosevelt Junior High School on Feb. 1 and 2.

"That Rascal Robin" At Roosevelt

The Washington School Players (formerly of Grant School) will present "That Rascal Robin," a musical comedy, at Roosevelt Junior High School, on Friday and Saturday nights, Feb. 1 and 2.

Washington School parents are busy producing, directing, acting, choreographing, painting singing and doing everything it takes to put on a successful "Broadway" show.

Not all participants, however, are parents. Gina Minichino, an 11th grader at Westfield High School, was responsible for much of the artwork pertaining to last year's show. She designed posters, tickets and some set designs. Gina is also involved in creating this year's set designs.

The show is a family interest.

Gina's mother, Judy, has danced with the Washington (Grant) "High Kickers" for the last seven years, and her father, Frank, danced in the last two productions and is assistant choreographer for the men's group this year.

The Washington School show tradition started in 1948 at Grant School, now closed, as a modest talent show by Grant School grads. It was advertised as "Songs and Minstrels" to lure parents to a mid-winter PTO meeting. So successful was the venture, that the following year another show was presented, at which time a hat was passed to defray expenses. Recognizing the potential (for both fun and profit) of these "talent nights," the governing board voted to make the show a fund-raiser in 1949.

In the 60s, neighborhood skits continued to be the format. Because of the construction of a new wing at Grant School in 1968, the 20th performance was presented at Roosevelt. For the first time, an original, complete play was produced and played to a packed house. The show returned to Grant in 1969 and 1970, but had to be transferred back to Roosevelt to accommodate a growing audience. When Grant closed, enthusiastic parents continued the tradition at Washington School, where the tradition lives on today.

All proceeds from the show are used to provide assemblies at the school and other activities for the students.

THE LIFE OF CONTACT LENSES

Q: How long will a pair of contact lenses last before having to be replaced?

A: Hard contact lenses and gas-permeable lenses may last for several years. Even scratches, unless they are unusually deep, can be polished out of these types of lenses. Sometimes the lenses outlive the patient's prescription. When that happens, vision is not as clear as it should be. That's why it is important to have regular examinations even though your lenses may be in good shape.

However, the average daily-wear SOFT LENSES last for only a year or two. Extended-wear soft lenses usually last no longer than a year before having to be replaced. Soft lenses tend to tear and discolor more easily. They also accumulate protein deposits which cannot be removed in routine hygienic care. It is the thinness and fragility of the plastic used in soft contact lenses however, that makes them so easy and comfortable to wear.

December '84-- Third Warmest On Record

Even though the thermometers have dipped lately and it seems like it's always been cold, December 1984 was the third warmest December on station records, according to the Union County College Cooperative Weather Station on the Cranford Campus.

According to Prof. Raymond J. Daly of Watchung, station director, December started out on the frigid side, with the month's low of 18 degrees on the 8th. We were all startled with a high of 71 degrees on the 29th. The mean temperature for the month was 39.9 degrees, a 5.63 degree departure above the norm.

The two years with higher monthly means for December were 1971, with a mean of 40.3 degrees, and 1982, which set the record of 40.61 degrees.

The highest daily average in December 1984 was 54 degrees on the 30th. The lowest daily average was 29.5 degrees on the 8th.

1977 saw the highest temperature on record for December. The mercury rose to 75 degrees during December. The most chilling day recorded in December was in 1980 when the mercury plunged to -5 degrees.

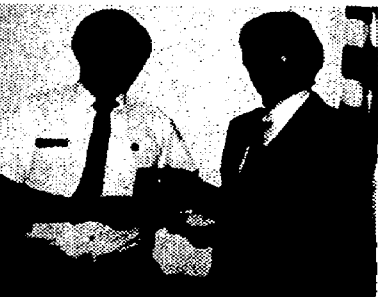

There were 778 degree days last month with an average of 25.09 per day.

The rainfall for the month was .53 inches below the norm, with a total of 3.61 inches. There were eleven days with measurable rainfall and the greatest amount, 1.17 inches, fell on December 6. The greatest December rainfall on record is 11.31 inches which fell in 1983. In December 1980, a mere .74 inches of rainfall fell.

The total rainfall through December 1984 is 56.75 inches as compared to last year's, 72.01 inches.

3.8 inches of the "white stuff" fell during December. This is 1.88 inches below the norm. In 1980, 22.8 inches of snow was dumped on the area during December.

The average humidity per day was 79.32 percent and the maximum of 100 percent was reached on December 17th. Christmas Day saw the minimum humidity of 52 percent.

A successful blood drive was recently conducted at the Westfield Post Office. Regular carrier, Howard McNicholas accepts blood donor plaque from Postmaster, Michael Collins. Mr. McNicholas has contributed over five gallons of blood to the program.

Birth Defects March Begins

During the week of Jan. 17-31 many area residents will be visited by March of Dimes volunteers participating in the Mothers March fundraising campaign. Times will vary according to location, but most marchers can be expected in the early evening.

Mothers March is a door-to-door solicitation by residents of the community, who are March of Dimes volunteers, in an effort to raise the much-needed funds to fight birth defects, that afflict 250,000 newborns each year.

Volunteers participating in Mothers March can be identified by their official Mothers March tags. They will also be distributing free educational pamphlets promoting birth defects prevention.

Governor Thomas H. Kean and his wife, Debby, are the Mothers March Honorary Chaircouple. Barbara Curran, President of the New Jersey Board of Public Utilities, is the events Chairperson for the North Jersey Chapter.

The March of Dimes asks that residents give generously when a marcher calls. Proceeds will be used to fund programs in education, medical services and research for the prevention of birth defects.

Pantry Distributes Food

The Westfield Food Pantry at Holy Trinity distributed food to over 2,100 people in 1984 — an increase of 500 more individuals than in 1983. Almost two thirds of the recipients were children. The Pantry is available for assistance four days every week. The First United Presbyterian Methodist Church of Westfield maintains a pantry, and on Tuesdays they distribute food to the needy.

The Pantry services all of Union County. It has become an emergency backup for other food pantries in the county. Social service agencies send their clients to the Pantry when more local sources are depleted. During 1984, 16 agencies in the county requested food from the Pantry. They are: Plainfield Action, Catholic Community Services, Divn. of Youth and Family Services, Proceed, Union County Social Services, Plainfield Welfare, Westfield Welfare, Children's Counseling and Adoption Agency, Linden Services, Visiting Nurse, Our Lady of Fatima Counseling Services, Grace Episcopal Crisis Center, Scotch Plains Welfare, Muhlenberg Hospital, Overlook Hospital, Plainfield Neighborhood Health Service and the Union County Youth Service Bureau.

Among the recipients of food recently were two families with a total of ten children. A mother, afflicted with cancer, sought assistance for her family of six children. During Christmas week, money and food stamps belonging to a mother of four were stolen and she received help from the Pantry.

During the last quarter of 1984, the Pantry was aided by three new food contributors — Redeemer Lutheran Church, Westfield; Little Flower Church, Berkeley Heights and the Mountaintop Women's Club. The First Baptist Church of Westfield gave a cash donation of \$500.

In addition to the aforementioned, food was received on a regular basis by the following during 1984: Church of the Assumption, Roselle Park; St. Helen's, Westfield; Holy Trinity, Westfield; St. James, Springfield; Our Lady of Lourdes, Mountainside; The Presbyterian Church, Westfield; St. Stephen's Anglican Catholic, Plainfield; Temple Emanuel, Westfield and the Willow Grove Presbyterian Church, Scotch Plains.

Periodically, items are in short supply at the Pantry. The stock is currently low on the following: hot cereal, juice, canned and dried potatoes, peanut butter, jelly, tuna fish, spaghetti sauce, canned meals, canned fruit, paper products, baby formula, baby soap, soap, dish and laundry detergent, toothpaste, tooth brushes, personal care products and diapers.

Food may be left at the Rectory between 9 a.m. and 4 p.m.

Devil Cagers Down Kearny, Fall to Elizabeth

by Bill Pendzak

The WHS boys' varsity basketball team posted a 1-1 mark in play this past week. The Blue Devils (5-6) defeated Kearny (2-4) and then were manhandled by Elizabeth, (9-0) the number one ranked team in the state.

Westfield came into the Kearny game, played on Jan. 10, thinking that the team would walk away with a victory. This was not the case at first though. The Cardinals, by shooting well, opened up a 20-21 halftime lead. Guard Rich Tuite was the big gun for Kearny, scoring 14 first half points.

The Blue Devils came out smoking in the second half, scoring the first 11 points of the quarter to take a 32-28 lead. Johnnie Miles, who leads the team averaging 18.0 points per game, contributed seven points in the quarter as WHS outscored the Cardinals, 19-5. Miles only did the "contributing" because the main man was forward Mike Walsh, who played his best game of the season. Walsh scored a season-high 18 points, with 16 coming in the second half, and added nine rebounds to his effort.

Even though WHS opened up a 40-33 lead after three quarters of play, the Blue Devils had to hold off a gutsy Kearny squad. Cardinal forward Tony Meola came to life in the second half, scoring nine of his 15 points, including six during the fourth quarter. The first of these six points pulled Kearny within 42-37 as Meola, who led his team with 12 rebounds, sank a shot after snatching an offensive rebound. Walsh, continuing to be a force inside, sank four free-throws down the stretch to give WHS a 49-41 lead. The Blue Devils then won, 56-47, to snap a two-game losing streak.

Miles led WHS with 20 points

Y Swimmers Make Big Splash

Led by the record breaking swims of Patti Capri, Kerry Hertell, and the 10/u boys freestyle relay team, eight members of the Westfield Y Devilfish made strong finishes at the Northern New Jersey Invitational. The three day meet was hosted by Bergen Community College and attracted the finest YMCA and club swimmers in the metropolitan region. Olympic gold medalist Rick Carey was on hand to watch the competition and sign autographs.

Patti Capri had an outstanding day, finishing second in the 11-12 50 free (26.39) and fifth in the 100 back (1:09.53). Her time in the freestyle broke Jennifer Horner's long-standing YMCA record. Mei Mei Caroe also had a good day swimming in the 13-14 100 free. Her time of 1:00.86 was her best of the year by nearly a second. Christina Caroe also competed in the 13-14 age group, finishing third in the prelims for the 100 free and 200 IM. She was unable to swim in the finals. Last but not least, Kerry Hertell placed

second in the 13-14 100 fly. Her time of 1:02.70 broke Christina Caroe's recent record in the event; the girls have together lowered the record roughly six times this season. Kerry also finished fourth in the 50 free with a speedy time of 25.84.

Swimming amidst some of the strongest age group swimmers in the country, the ever strong 10/u boys fared well. Darren Hertell finished third in the 50 free (29.51) and fifth in the 100 breast (1:26.40). Swimming Friday night in the 200 free, Derek Van Derven placed fifth (2:28.79). Scott Kaslusky placed sixth in the 50 free (30.02). Hertell, Kaslusky and Van Derven teamed up with team mate Brian Zenner for the 200 freestyle relay. Undefeated this season, and only 57/100 off the Y record, the boys won the event handily. Their time of 2:01.31 was the second fastest this season, and was good enough to break the five year old meet record set by White Plains. All the swimmers bettered the USS "A" standard in their events.

Marcy Hermiston earned second place points in the 100-breast (1:45.51), just ahead of teammate Bonnie Ritter who placed third (1:45.51). Emily Rohm col-

lected third place points in both the 100-breast (1:42.56) and 100-fly (1:40.44).

11/12 Age Group:

The Westfield High School Winter Track team placed fifth in the Union County boys relays and seventh in the Union County Relay Championships.

In the boys relays, the team was lead by fourth place finishes in the shot put relay, the spirit medley and the 4x400. Fourth-place finishes in the 4x200, the 4x400, the 4x800 and the sprint medley earned Westfield its seventh place overall finish.

Drew Cary's put of 44-4 and Paul Wampler's put of 42-1 led Westfield to its fourth place total of 164.8. Matt Ballistar and Mike Byrne had puts of 40-2 1/2 and 38-0 respectively. The shotputters missed third place by 13 inches.

Pat Brady ran the first of the 220-yard legs of the sprint medley in 0:27. Bill Tozier ran the other 220-yard leg in 27.6. The quarter-mile leg was run in 58.5 by Sadij Hannah. Tim Brennan ran the half mile leg in 2:14.9 to complete Westfield's 4:08.3 fourth place effort.

Westfield won the second heat of the 4x400 in 3:57.4, finishing in fourth place overall. Tim Walsh led off in 58.7 grabbing the team a lead that was never to be relinquished. Dave Urbano ran the second leg in 0:59.9. The third leg was run in 0:59.9 by Lou Stephens. Greg Wolf anchored the team in 57.7.

The scoring in the boys event was completed with a fifth place finish in the 4x800 and a fifth place tie in the 4x200.

Greg Wolf ran the first leg of the 4x800 in 2:14.7. The second leg was run by Dan Soucek. Esbeck ran the third leg in 2:13. George Roscoe anchored the team in 9:05.4. Westfield's total time of 9:05.4 was less than 1.5 seconds behind that of fourth-place Summit.

WHS Girls' Swimmers Take Revenge on U.C.

by Kerry Lucke

The WHS girls' varsity swim team accomplished one of its major goals of the season by easily defeating its arch-rival, Union Catholic, 114-58, last Wednesday at home.

After being narrowly defeated by U.C. last year (by seven points), WHS was determined to win this year.

Although Coach Marilyn Diamond strategies planned for WHS, they weren't all necessary due to the overpowering force the team showed from the first event. In the 200-yard medley relay, Coach Diamond decided not to use her single-best relay team because she wanted to save some of her strongest swimmers for the final events.

Coach Diamond put in two relay teams that she felt could capture second and third place. But the race turned out closer than expected, and the Blue Devils placed first and third. This exciting victory set the tone for the entire meet.

In the next event, the 200-yard freestyle, WHS opened its lead. Throughout the race, sophomore Melissa Horner battled the leading U.C. swimmer for second

Pat Brady ran the opening leg of the 4x200 in 0:26.5. The second leg was run in 26.9 by Sadij Hannah. Tim Walsh ran the third leg in 25.7. Bill Tozier anchored in 27.9. Westfield's total time of 1:47.5 earned them a fifth place tie with Hillside.

Westfield's fourth place girls 4x400 team had a total time of 4:40.6 and was edged out of third place by a little over one second. Rachel Graves ran the opening leg in 68.1. The second leg was run by Carrie Morgan in 70.7. Samantha Shanonsky ran the third leg in 73.2. Ellen Splaine anchored the team in 68.5.

The 4x800 team placed fourth but managed to stay with the leaders of the race until well into the final leg. Ellen Splaine grabbed the lead with an opening leg of 2:36. Samantha Shanonsky ran the second leg in 2:44. The third leg was run in 2:44 by Mary Siberry. Sheila Grimes anchored the team in 2:46.

Carrie Morgan ran the first leg of the 4x220 in 29.9. The second leg was run by Rachel Graves in 31.0. Eva Druzek ran the third leg in 30.4. Ellen Splaine anchored the team to a total time of 2:02.2 with a 30.8.

The 220 yard legs of the sprint medley were run by Rebecca Wendroff and Eva Druzek in 32.4 and 31.0, respectively. Sheila Grimes ran the 440 leg in 71.8. Mary Siberry ran the 880 leg in 2:50.8 for a total time of 5:06.2.

Westfield also placed second in the boys' novice distance medley. Chris Maddock captured the lead in the opening half-mile leg with a 2:17.7. Roger Albertson ran the quarter mile leg in 62. The three-quarter leg was run by Matt Conway in 3:46. Craig Russell ran the mile leg in 5:11.

This Saturday, the team will compete in the state relays in Princeton.

place (sophomore Allison Scott took first place). Not only did Horner capture second place, but freshman Lynn Cassidy came up in the last few strokes to earn third place.

The Blue Devils went on to win every event except the 100-yard fly and breaststroke. But even in these two events, WHS outscored U.C. by capturing second, third and fourth place. The scoring works in this manner (from first to fifth place): 6-4-3-2-1.

With this easy victory over Union Catholic, WHS has a good chance of taking the Union County title away from them in February. WHS also has a chance to win the Pirate Invitational this Saturday. The team now has a record of 4-0.

The results are: 200 medley relay: 1 - Brawer, Linsenber, Garcia, Cummings 2:01.03

For the Spartans, Jeff Suto and Lee Polizzano led with 14 points each while leading the defense with Rob MegLaughlin (four points) in the difficult task of trying to shut down the Buckeye scoring. WBA Boys League Results

The Westfield Boys Wrestling League senior team (7th & 8th graders) began the season in impressive fashion, posting lopsided victories in the first two matches — a successful debut for first year coach Greg Schmitt.

In the season opener on Jan. 5, the seniors routed Elizabeth, 68-24, at Elizabeth High School, and then blew away Linden, 78-13, on Jan. 12 at W.H.S.

The next match will be against Hillside at 10 a.m. on Jan. 19 in the Hillside Community Center.

Church Sponsors Blood Drive

The congregation of the First Presbyterian Church of Westfield and the Westfield-Mountainside Chapter of the American Red Cross have joined together to sponsor a blood drive to cover the community's blood replacement needs. The drive is scheduled for Monday, Feb. 11, from 2 to 7:30 p.m. at the First Presbyterian Church, 140 Mountain Ave.

Blood banks throughout the country experience shortages of blood immediately following the holiday season. A single pint of blood can, after processing, go on to treat as many as five different patients. Open heart surgery, cancer therapy, treatment of anemia and hemophilia, and transfusions of new born infants with Rh complications are just a few of the ways the processed blood may be used.

Anyone between the ages of 17 and 65, weighing at least 110 pounds and in good health, can donate blood. The actual donation process takes less than ten minutes and normal activity can be resumed shortly afterwards. Members of the First Presbyterian Church urge all Westfield residents to join them in giving the "Gift of Life" and assuring that when members of our community need blood, supplies are adequate.

The Westfield-Mountainside Red Cross is a participating agency of the United Fund of Westfield.

Prescription, as well as over the counter, medications for coughs and other problems due to colds are available at JARVIS PHARMACY, 54 Elm St., 233-0662, 0663, 0664. Special discounts are offered to senior citizens. Stop by any time and ask for information. Our stocks include Timex watches, stuffed animals, greeting cards and Legos. Hours: Mon thru Fri 9am-9pm, Sat 9am-6pm, Holidays 9am-1pm.

STOP HACKING AROUND

Some cough syrups have an ingredient called "dextromethorphan", which is a cough suppressant that is sometimes effective in stopping a hacking, aggravating cough. However, this ingredient can cause drowsiness and an upset stomach. Another ingredient sometimes found in cough syrups is "guaifenesin". It does not actually stop the cough reflex. It is most useful for congestion in the chest from thick mucus. This is because it breaks up the mucus and allows one to bring it up when coughing. If one has both a hacking cough and congestion, however, choose a medication with both ingredients. In any case, if a cough persists more than three days, consult a doctor.

HANDY HINT: The duration of a cold may depend on how soon proper treatment is started.

Realtors Say Outmoded Codes Add to Costs of Housing

In some areas of the country, government regulations may account for up to 30 percent of the cost of a home. Outmoded building codes may cause some of the higher costs in these communities, according to Westfield Board of Realtors President Betty Thiel.

When engineers, builders, government officials and construction trades put their heads together, a good, solid home can be built for much less than conventional homes subject to prevailing governmental restrictions, Thiel said.

"For example: — smaller lots save land and reduce costs for streets, sewers and rights of way. When standards for streets and related site improvements are too stringent, they can add significantly to the cost for a typical new home.

"Realistic building codes may reduce costs in the remodeling of existing homes as well, particularly with the use of new, more efficient methods and materials.

"Lumber costs often may be cut by permitting trustees, walls, and floor joists to be framed 24 inches on center instead of 16 inches, which is common in older homes.

"In many cases, concrete slabs may be reduced from a depth of 3.5 inches to 2.5 inches.

Other cost-saving ideas include: Plywood box beams instead of solid wood or concrete door and window headers; under-the-floor open space for heating and cooling, which eliminates the need for ducts in attics; and modular room sizes for a minimum of wasted space.

"One interesting cost-saving idea is the use of polybutylene material for drain piping instead of copper, which results in substantial savings on plumbing costs. This high-quality pipe is flexible and accommodates most types of turns and requires fewer connections," Mrs. Thiel commented.

Local governmental restrictions have been lifted in some areas, but change is slow for other communities. With today's high costs for housing, reasonable building codes and land use policies are needed to keep construction costs in-line as well as keep down expenses for home remodeling, according to the Westfield Board of Realtors.
