ROBINSON'S GREAT NECK

Directory of Householders, Occupants of Office Buildings
and Other Business Places, Including a Complete Street and Avenue Guide

1955

Copyright 1955, by Robinson's Directory Service

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant, followed by the wife's first name. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment houses the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The letter and number in () following the Street description indicates the block in which each street is located on the map appended to last page.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol * following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Figures following names denote number of persons living at that number. Telephone numbers as supplied to us on our canvass are shown opposite names.
