S R A

where innovation is a tradition

You'll find
your SRA Representative
on pages 100-103

Put low-cost computer technology in your classroom . . . Pages 4-7.

to teach . . . to test . . .
to prescribe . . .
to give practice . . .
to keep records.
SRA educational courseware makes it possible.

Give your students the worksheet that talks! . . . Pages 8-11.

SRA TUTORdisc™ Programs in Reading and Math.

Sow the SEEDS of energy awareness . . . Pages 12-13.

Look into SEEDS, a new program of energy studies to meet the needs of a changing world.

The decade of the 1980's promises to be an exhilarating one for education. To be sure, we face greater challenges than ever. But resourceful educators

continue to rise to those challenges. The new Department of Education in Washington symbolizes a nation's dedication to the goal of a well-educated populace. And exciting new learning tools are being created every day.

SRA is proud to bring you the best of those new learning tools. As we move forward into the 80's, we continue our tradition of innovation with such powerful new developments as computer courseware in Mathematics, Reading, and Computer Literacy... a miniature hand-held phonograph that brings worksheets to life for beginning readers... and a timely program of energy studies to equip young people for the conquest of our energy difficulties.

Seldom have I felt more persuaded of the vitality of education or more positive about its prospects.

Richard A. Giesen
Richard A. Giesen
President

Turn to pages 4-13 for more information about our new Educational Resources for the 80's. I think you'll be excited, too.

Contents

CLASSROOM
MANAGEMENT

Mrs. Diaz* likes her classroom computer because it gives her prompt reports on individual students and on her class as a whole. Using the SRA Classroom Management System in mathematics, she finds out what work each child has completed, what skills each one has (or hasn't) mastered, and where her personal intervention is needed. She can get a printed assignment sheet for any student, telling just what classroom materials that student needs to study. She can discover each child's standing relative to classmates and how best to group or regroup her students. All this information is gathered, compiled, and stored for her automatically each time her students take their turns at the computer console. And it's updated continuously for her. All she does is press a few keys to call up the information she needs. Paperwork? She hardly remembers what that was.

DRILL
AND
INSTRUCTIONAL
HELPS

Christina* likes to take her turn at the computer because it always gives her just the right kind of math drill—not too hard, and not too easy. It adjusts the problems to suit her abilities. The automated instruction, drill, and evaluation is a favorite with her, because if she can't do a problem, she just signals for help. The computer breaks down the exercise for her and takes her through it step by step. It always tells her immediately whether she's right or wrong. It says nice things to her, like "Good work, Christina." And its patience is . . . saintly. When she wants to polish up her computational speed and accuracy, she uses Fact Track and competes against her own speed record. Christina has never heard about "individualization." But she's sure getting a lot of it!

GAMES,
PROBLEM-SOLVING
AND
SIMULATION

Derek* isn't crazy about drill. He never was. But he really goes for games. And SRA's learning games add competition, suspense, strategy, and the heady scent of victory to his math practice sessions. Of course, with these games he can't cover a number on his game card or move his car a few more inches down the track without first performing some arithmetical computations. But he's willing to stretch his mental muscles if it brings him closer to the winner's circle. He can play against a classmate, or he can play against the computer itself. And if he starts to get too good at a game, he can stay challenged by selecting a higher level of difficulty. He's having the time of his life. Don't tell Derek, but he's doing an awful lot of math drill at the same time!

*Mrs. Diaz, Christina, and Derek are composite characters.

Bringing Technology to the Classroom

It needn't be difficult.

- For confidence, you've got your SRA Representative to help you — the same trusted man or woman who has worked with you before and is familiar with your educational environment.
- For convenience, you've got one-stop shopping through SRA. In addition to SRA educational courseware, your SRA Representative can also supply supporting personal computer equipment by Atari, Inc.

When you enter the computer age with SRA you get training in the use of the courseware, access to a toll-free "hot line" for help with any problems you may have, and service for all Atari* equipment through a nationwide network of Atari* service centers. You get confidence and convenience.

About the Atari® Personal Computer Systems

SRA is proud to offer you the Atari® line of microcomputers and computer-related hardware. Among the many advantages of the Atari® systems are the following:

- Simplicity of installation and operation.
- Ease of expansion. Additional memory capacity and system-enlarging attachments can readily be added by any user.
- Availability of different models. Choose the one that's most cost-effective for you.
- Full keyboard.
- Shielded components that prevent interference from other equipment.
- Availability of service at service centers across the nation.

Your SRA Representative can demonstrate the following equipment and many other Atari products to help you select the system that you want.

6-800 ATARI® 800*
Personal Computer System

6-401 ATARI® 400A*
Personal Computer System

6-410 ATARI® 410* Program Recorder

6-825 ATARI® 825* Printer
(80 Column, Impact)

6-853 16K RAM Memory Module

Courseware for Mathematics

CLASSROOM MANAGEMENT SYSTEM

A system for testing, prescribing, and recordkeeping in mathematics (grades 1-8). The CMS program administers broad survey tests covering major curriculum objectives. Student errors on survey tests lead to more detailed diagnostic tests to pinpoint areas of weakness. Then the computer prints out a prescription with specific page references to the texts, kits, and other learning materials in your classroom that will help teach or reinforce the skills needed. Students work with these materials, then return to the system. Computer checks to see if the skills have been mastered and records each student's progress.

The computer generates the following reports for the teacher: Class Record, showing every student's current position—work completed, work remaining, Grouping Report, listing every student working on the same skill at the same time; Short Student Report, giving more detailed information on each student than Class Record provides; Full Student Report, identifying each student's progress in a given skill area; Class Lists.

Skills Coverage

Math, Level A (grades 1-3) Basic concepts of Whole Numbers, Addition, and Subtraction of Whole Numbers; Problem Solving; Measurement; Time; Money; and Geometry.
Math, Level B (grades 4-8) Basic concepts of and operations with Whole Numbers, Fractions, Decimals and Percents; Problem Solving; Measurement; Geometry; Applications; Probability; and Statistics.

Components Each of the program's sections consists of a Binder containing Diskettes and a Teacher's Handbook.

Equipment You will need an Atari® 800* Personal Computer System with disk drive, printer, and additional memory modules or an Apple II system similarly equipped.

For Atari® Users	For Apple II Users	License Fee
6-1000	6-1100	CMS Mathematics, Level A
6-2000	6-2100	CMS Mathematics, Level B
		Please write for fees.
		\$595.00

Planned availability:
Mathematics A and B—Fall, 1980.
Please write for license fees.

Courseware for Mathematics

AUTOMATED INSTRUCTION, DRILL, AND EVALUATION

A program of mathematics drill for grades 1-6. "Managed Version" of system measures student's current performance and automatically moves student ahead or back as appropriate. (But you can bypass the automated system if you choose.) "Help" feature permits student to call up a step-by-step explanation of any problem simply by striking the 7 key.

Management diskette stores data on completed lessons for a classroom of students and can generate a variety of class and individual reports. Permanent records can be printed out if system includes a printer. With printer you can also use the system to generate exercise sheets for homework or seatwork.

"Unmanaged Version" is also available. This version offers the "Help" feature but does not keep records or move students from lesson to lesson automatically.

Optional features include sound effects to reward good work and passwords for privacy.

Skills Coverage Level A (grades 1 and 2) includes the appropriate skills of Numeration, Addition, and Subtraction. Level B (grades 3 and 4) extends Level A skills and includes Multiplication, Division, and Fractions. Level C (grades 5 and 6) extends Level B skills and includes Decimals.

Components Each level consists of a Binder containing Diskettes and a Teacher's Guide.

Equipment You will need an Atari® 800* Personal Computer System with disk drive and additional memory modules or an Apple II system similarly equipped. Printer not required, but useful for printed records and exercise sheets.

Managed Version

For Atari® Users	For Apple II Users	License Fee
6-1202	6-1302	Level A
6-1204	6-1304	Level B
6-1206	6-1306	Level C
		\$325.00
		425.00
		475.00

Unmanaged Version

For Atari® Users	For Apple II Users	License Fee
6-1203	6-1303	Level A
6-1205	6-1305	Level B
6-1207	6-1307	Level C
		\$250.00
		300.00
		400.00

Level A (both versions) available Feb., 1981.
Level B (both versions) available Dec., 1980.
Level C (both versions) available Sept., 1980.

FACT TRACK

A program of timed drill on Addition, Subtraction, Multiplication, and Division facts, designed to build speed and accuracy. For grades 1 and above. Student or teacher selects skill area, difficulty level, and type of timed drill. Drills may be in a race format in which student competes against time or another student, or in a noncompetitive format. Computer reports student speed and performance, showing which facts merit further practice.

*Trademark of Atari, Inc.
†Trademark of Apple Computer, Inc.

Courseware for Computer Literacy

SRA COMPUTER LITERACY PROGRAM

A program to introduce students in grades 6-12 to basic computer concepts. No prior knowledge of computers is required. Student workbook contains introductory text and exercises in the areas of computer history, computer hardware and software concepts, analysis and programming, and the social and economic impacts of computers. The program permits a great deal of interaction between the students and the computer, using computer programs and the instructor's Guide. Instructor's Guide also includes educational objectives on which a more advanced curriculum may be based, lists of references and resources, and project suggestions. Student Workbook is available at your choice of difficulty levels: grades 6-9 or grades 10-12.

Components Instructor's Guide, Diskettes or Cassettes, Student Workbook.

Equipment You will need an Atari® 400A* or 800* Personal Computer System with disk drive or program cassette recorder or an Apple II system with disk drive.

For Atari® Users	For Apple II Users	License Fee
6-100	Computer Literacy Program (Atari® Diskette)	
6-101	Computer Literacy Program (Apple II/Diskette)	
6-102	Computer Literacy Program (Atari® Cassette)	
6-106	Student Workbook, Grades 6-9	\$50.00
6-103	Student Workbook, Grades 10-12	50.00
6-105	Instructor's Guide	120.00

Skills Coverage The Addition, Subtraction, Multiplication, and Division Facts; Mixed Practice with these facts; and Extension Skills (such as multiplying by 10).

Components Binder containing Diskette and Teacher's Guide.

Equipment You will need an Atari® 800* Personal Computer System with disk drive and additional memory modules or an Apple II system similarly equipped.

For Atari® Users	For Apple II Users	License Fee
6-1400	6-1450	Fact Track
		\$75.00

Planned availability: October, 1980.

ARITHMETIC GAMES

A set of six games for one or two players at grades 2 and above. Players use basic computational skills in a competitive setting and can choose easy or harder versions of each game.

Skills Coverage Basic Computational Skills.

Components For each set of two games, there is a Binder with Diskette and Teacher's Guide. **Equipment** You will need an Atari® 800* Personal Computer System with disk drive and additional memory modules or an Apple II system similarly equipped.

For Atari® Users	For Apple II Users	License Fee
6-1511	6-1561	Arithmetic Games, Set 1 (2 games)
6-1512	6-1562	Arithmetic Games, Set 2 (2 games)
6-1513	6-1563	Arithmetic Games, Set 3 (2 games)
6-1500	6-1550	Arithmetic Games, Complete Set
		\$50.00
		50.00
		120.00

Planned availability:
Set 1, September, 1980.
Set 2, December, 1980.
Set 3, and Complete Set, February, 1981.

Courseware for Reading

PHONICS

A program of instruction and practice in major phonetic elements for grades 1-3. Cassette-based soundtrack provides real human speech rather than synthesized speech, for natural, normal sound.

Skills Coverage Initial Consonants; Short Vowels; Final Consonants; Initial Consonant Blends; Final Consonant Blends; Long Vowels; Consonant Digraphs; Vowel Digraphs; Controlled Vowels; Silent Letters, and Inflections.

Components Nine Binders containing Cassettes and Teacher's Handbook. (Binders available separately or as complete program.)

Equipment You will need an Atari 400A* or 800* Personal Computer System with program cassette recorder.

Planned availability:
September, 1980 — March, 1981. Please write for license fees.

SRA Educational Courseware is available under a license agreement rather than through sale. Customers obtain the right to possess and use SRA Educational Courseware by paying a license fee and agreeing to the provisions of SRA's Courseware License Agreement. Ask your SRA Representative for details.

A worksheet that talks to your students!

SRA TUTORdisc™ PROGRAMS

SRA TUTORdisc™ PROGRAMS

SRA TUTORdisc™ PROGRAMS

An innovative, inexpensive, multimedia resource that increases student involvement and motivation. The program needs minimal teacher supervision.

Optional Headset plugs into the Microphonograph and allows a student to listen in privacy to spoken directions for individual activities — at the student's own pace.

Microphonograph plays the TUTORdisc Cards to present instruction and give directions for the Exercise Cards. Exercise cards thus become "talking worksheets." Ideal for individual or group instruction, the system acts as a "teacher's helper."

Exercise Cards are worksheets for student responses. Cards may be used with plastic overlay for individual work and wiped clean for reuse. For group use, SRA grants you the privilege of limited duplication. (See note on page 9.)

*Microphonograph is a trademark of the Microsonics Corporation, a subsidiary of First Northwest Industries of America, Inc.

What is an SRA TUTORdisc Program?

It's a learning system for use with a Microphonograph* — a miniature record player that fits in the palm of your hand. The program has two principal parts. First, TUTORdisc Cards. A recorded disc on the surface of each TUTORdisc Card can be played by the Microphonograph. Second, nonconsumable Exercise Cards that serve as student worksheets. Used with the Microphonograph, these components give spoken instruction, exercise directions, and student practice, all with a minimum of teacher supervision. Each 90-second TUTORdisc Card takes the student through a complete learning experience. Students who need reinforcement simply play through the TUTORdisc Card again, using the PAUSE bar on the Microphonograph to stop at any point along the way.

How does it work?

INSERT
Student presses the red STOP/EJECT button, inserts the TUTORdisc Card at the top of the Microphonograph, pushes the card all the way down, then releases the button.

LISTEN
Student presses the green PLAY button, adjusts volume as necessary, and listens to a skills-specific lesson.

LEARN
Student uses the Microphonograph and TUTORdisc Card in conjunction with the Exercise Card (a nonconsumable worksheet), thus receiving instruction and coaching with the person-to-person appeal of the human voice — much as you'd provide on an individual basis if you had the time.

Helps students and teachers

Flexible SRA TUTORdisc Programs are designed to complement any teaching style, to help students learn and teachers teach. "Talking worksheets" permit ready comprehension by slow or beginning readers who haven't yet mastered the printed word. And the person-to-person appeal of the human voice increases involvement, motivation, and understanding. Ideal both for individual or group instruction, SRA TUTORdisc Programs act as a "teacher's helper" to build skills in a variety of areas, while freeing the teacher for other projects.

With your one-time purchase of a Microphonograph, you can put SRA TUTORdisc Programs to work to meet a wide range of classroom management needs. Programs employ a set of Exercise Cards with their coordinated TUTORdisc Cards — a format that adapts easily to individual or group instruction. For one-at-a-time instruction, Exercise Cards are used with plastic overlays, marked with a crayon, and wiped clean for reuse. For group use, SRA grants you the privilege of limited duplication of the Exercise Cards in classroom quantities. (See note below.) Answer Keys, on the backs of the Exercise Cards, can be used by the students for self-checking, or by the teacher.

SRA TUTORdisc Programs are packaged in skills-specific modules containing Exercise Cards, TUTORdisc Cards, Plastic Overlays, and a Teacher's Handbook. The modules are just the right size (24 to 40 Exercise Cards and their coordinated TUTORdisc Cards) to allow teachers to present skills-specific work to all their students, taking into account the wide range of learning abilities in today's classrooms.

NOTE: To facilitate group use, SRA grants schools, as a privilege, a limited license, royalty-free, to duplicate the TUTORdisc Exercise Cards only, in classroom quantities, for the use of their own educational institution.

For information on specific programs, please turn the page.

SRA TUTORdisc™ PROGRAMS

SRA TUTORdisc™ PROGRAMS

SRA TUTORdisc™ PROGRAMS

SRA TUTORdisc™ PROGRAMS

SRA TUTORdisc™ PROGRAMS

SRA TUTORdisc™ PROGRAMS

This mark identifies the SRA TUTORdisc™ Programs learning materials that bring you "the sounds you want when you want them."

About the SRA TUTORdisc Programs

The SRA TUTORdisc Programs provide materials to meet learning objectives in major curriculum and skills areas. The programs are being developed to take maximum advantage of the unique features of the TUTORdisc Card and the Microphonograph.*

Flexibility

The programs adapt equally well to individual use and group use. Several students can listen to different TUTORdisc lessons at the same time, depending on the number of Microphonographs available. Or groups can use one device together to work on the same lesson. For group work, SRA grants you the privilege of limited duplication of Exercise Cards. (See note on page 9.)

Instant Access

Ninety-second instructional segments on separate TUTORdisc Cards have distinct advantages over other audio systems. They give you instant access to the precise instructional segment you want without searching, sampling, rewinding, or fumbling. The appropriate audio material, coded to match a specific Exercise Card, is always easily found, instantly playable.

1980 Publications

Reading Skill/Drill Modules

14 modules of individualized supplementary activities for reinforcement and practice in phonics, structural analysis and comprehension for the primary grades. Each module contains self-checking activities that give practice in specific skills. For specific content of each module, see Ordering Information, page 11. Levels 2 and 3 available in 1980. (Level 1 available in early 1981).

Instructional Words

Assists children in understanding and practicing the language of classroom instruction. Skills covered include relative position words, comparative size words, and location words. Available by year's end.

Counting Money

Provides practice in counting collections of coins less than a dollar. Real-world situations are included. Available by year's end.

Telling Time

Assists students in learning to identify hour and minute hands and telling time to the nearest minute both with clockfaces and with digital clocks. Available by year's end.

Independent Reading

Provides guided practice in comprehension skills and reading in the content areas. TUTORdisc Cards give feedback to explain why answers are right or wrong. Available by year's end.

1981 Publications

In 1981 you can look forward to the following SRA TUTORdisc Programs.

Basic Arithmetic Facts
Intermediate Reading Skills
Estimation Skills

Fractions
Primary Phonics
Word Problems

Your SRA Representative can provide full details on these programs as they become available.

Reading Skill/Drill Modules Ordering Information

Components

Each module includes 24 Exercise Cards, 24 TUTORdisc Cards, 3 Plastic Overlays, 1 Teacher's Handbook, and a Storage Container.

	School Price
Level 1 (Available Early 1981)	
3-07110 Beginning Reading Skills	Please write for price.
3-07120 Phonics A (Initial and final single consonants; blends; digraphs)	\$32.00
3-07130 Phonics B (Short and long vowels; digraphs; vowel combinations)	32.00
3-07140 Word Study (Contractions; compound words; affixes; antonyms; dictionary skills; punctuation)	32.00
3-07150 Comprehension (Sequence; comparison and contrast; main idea; single cause and effect)	32.00
Level 2 (Available September, 1980)	
3-071210 Phonics A (Initial and final single consonants; blends, digraphs, clusters)	32.00
3-071220 Phonics B (Short and long vowels; r-controlled vowels; digraphs; vowel combinations)	32.00
3-071230 Word Study A (Contractions; affixes; prefixes; suffixes; syntactical order)	32.00
3-071240 Word Study B (Compound words; antonyms; homonyms; similes; metaphors; dictionary skills; punctuation)	32.00
3-071250 Comprehension (Comparison and contrast; sequence; main idea; character; cause and effect)	32.00
Level 3 (Available late 1980)	
3-071310 Phonics (Initial and final single consonants; blends; digraphs; clusters; long and short vowels; r-controlled vowels; vowel combinations; vowel digraphs)	32.00
3-071320 Word Study A (Contractions; affixes; prefixes; suffixes; syntactical order)	32.00
3-071330 Word Study B (Compound words; antonyms; synonyms; similes; metaphors; alliteration; homographs; homonyms; dictionary skills; punctuation)	32.00
3-071340 Comprehension (Comparison and contrast; main idea; sequence; character; cause and effect; purpose/drawing conclusions/generalizations)	32.00
3-079007 Starter Set for Level 2 Phonics (Includes 1 Phonics A Module, 1 Phonics B Module, 2 Microphonographs, 1 AC Adaptor, and 1 Headset.)	159.50
3-079017 Starter Set for Level 2 Comprehension/Word Study (Includes 1 Word Study A Module, 1 Word Study B Module, 1 Comprehension Module, 2 Microphonographs, 1 AC Adaptor, and 1 Headset.)	191.50

Please contact your SRA Representative for code numbers, prices, and availability of other announced publications.

About the Microphonograph

The Microsonics® Microphonograph® (Model MS-300) is an inexpensive, compact audio device produced to high quality standards by the Microsonics Corporation. A self-contained unit, it can be powered either with two AA-Type batteries or with AC current, using a 3-volt AC adaptor (Microsonics Model AC-2 recommended). The player offers the following conveniences as standard features:

- Operating buttons and switches are color-coded for ease of recognition and use.
- Volume control permits low-level individual listening or louder levels for small-group listening.
- Pause bar enables students to stop the lesson at any point, then resume listening at the same place.
- DC-current jack accepts power from a 3-volt AC adaptor.
- Headset jack accepts Microsonics headset or any standard headset with the proper mini-play adaptor.
- One-year warranty from Microsonics Corporation accompanies all equipment. Accurate, economical, and timely service is performed by trained personnel at the Microsonics facility in Torrance, California.

3-079900 Microphonograph, Model MS-300 (Batteries not included)	\$39.50
3-079901 3-volt AC Adaptor, Model AC-2	7.50
3-079902 Headset	9.00

*Microsonics and Microphonograph are trademarks of the Microsonics Corporation, a subsidiary of First Northwest Industries of America, Inc.

SEEDS, a new and extensively-tested program, develops that awareness from the ground up. In a guided discovery approach, students become "energy literate" as they learn basic energy concepts, become aware of energy problems, and study the social implications of energy policy.

The SEEDS program takes its name from the prestigious SEEDS Foundation, which put its extensive resources at the disposal of leading educators and funded the development and testing of the program.

A Three-Stranded Program

The SEEDS program is organized around three principal strands that intersect both the science and social studies curricula.

Energy

Students learn about the nature and sources of various energy forms, about renewable and nonrenewable sources.

Environment

Students study the impact of energy extraction, conversion, and use on their communities and their world.

Society

Students examine how people's living habits and societal arrangements affect energy use and energy problems. They consider whether changes in citizens' habits and activities are needed to deal with today's energy situation.

Materials

For a 4-to-6-week unit of study at each grade level, SEEDS provides the following materials:

- 1 Student Booklet (Booklets vary from 16 pages at grade 1 up to 64 pages.)
- 2 Sound Filmstrips
- 1 Set of Teacher Materials, including:
 - Lesson Plans and Objectives
 - Activity Masters for Student Activities
 - Professional Resource Guide (a reference section)

Program covers these topic areas

grade

1

What is energy? Where does it come from? Unit explains that the sun is the primary source of energy.

grade

4

A fuller, more detailed look at energy sources and the environmental impact of their use.

2

Students examine renewable energy sources: wind, water, and wood.

5

Students explore techniques of energy conversion and alternatives to waste.

3

The non-renewable fossil fuels: coal, oil, and natural gas. The consequences of their extraction and use.

6

How our personal and societal choices affect our energy resources. The Three Rs of wise energy use: Reduce, Reuse, and Recycle.

READING

Mark II Reading Laboratory® Series
Kits 2a, 2b, and 2c

- Skills-based series for personalized, multilevel reading instruction, grades 4, 5, and 6.
- More complete, more objectives-based, with more new features than even its predecessor.
- Eliminates the need for consumable student record books.
- Vocabulary controlled by Harris-Jacobson word list.

MARK II retains the many proven features that made the original SRA Reading Laboratory series one of the nation's most widely used reading programs: SRA individualization; convenient multilevel, color-coded format; Power Builders, Rate Builders; and Listening Skill Builders.

The new series also features many improvements. "How Well Did You Read?" sections focus on eight comprehension skills: perceiving cause and effect, recognizing sequence, identifying problems and solutions, identifying main idea, understanding character, identifying setting and mood, perceiving comparison and contrast, and understanding purpose and conclusion. "Learn about Words" sections help reinforce skills through phonics analysis, structural analysis, vocabulary building and sentence study activities. Study skills—dictionary usage, graph and map reading, card catalog usage and other skills—are presented.

Audio cassettes have been added to the popular "Listening Skill Builders" sections to help free teachers. There are 16 listening lessons in each kit.

Power Builders provide the major thrust of the program

Key Cards provide reinforcement and directions

Skills Development Cards help correct weaknesses

Spirit Masters—An inexpensive alternative to Student Record Books

For teachers

New Skills Development Cards allow students to strengthen specific skills through self-directed practice. These "tutor cards" save time and energy for busy teachers. Students handle placement, procedure, record-keeping and progress assistance without a consumable student book.

Enables the teacher to meet the reading improvement needs of a full classroom of students with just one program.

The sequencing of skills is similar to that in the major reading basal texts.

For students

"How Well Do You Read?" sections reinforce skills needed to read effectively. Emphasis is on cause/effect; sequence; problem/solution; main idea; character; setting/mood; comparison/contrast; and purpose/conclusion.

A balanced representation of the total American society is found in the new stories. Today's students will find the selections informative, timely and interesting. Fiction and non-fiction are well balanced and many areas of the school curriculum are found in the all-new content.

Components

150 Power Builders, each with a Key Card; 150 Rate Builders; 30 Rate Builder Key Booklets; 150 Skills Development Cards, each with a Key Card; 2 packages of Colored Pencils, 4 Listening Skill Builder cassettes; Teacher's Handbook; Listening Skill Builder Script Book; orientation cassette; 30 Student Operating Guides; 30 Student Starter Booklets; package of 20 spirit masters, 1 Student Record Book.

	School Price
3-66150 AV Mark II Reading Laboratory Kit 2a (reading levels 2.0, 2.5, 3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0, 7.0)	\$250.00
3-6195 Student Operating Guide 2a (pkg. of 30)	12.70
3-6197 Spirit Masters 2a	9.40
3-66350 AV Mark II Reading Laboratory Kit 2b (reading levels 2.5, 3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0, 7.0, 8.0)	250.00
3-6345 Student Operating Guide 2b (pkg. of 30)	12.70
3-6347 Spirit Masters 2b	9.40
3-66450 AV Mark II Reading Laboratory Kit 2c (reading levels 3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0, 7.0, 8.0, 9.0)	\$250.00
3-6495 Student Operating Guide 2c (pkg. of 30)	12.70
3-6497 Spirit Masters 2c	9.40

Although Student Record Books are not necessary for the Mark II Reading Laboratory kits, they are available for schools whose organization calls for them.

3-46172 Student Record Books for kit 2a (pkg. of 10)	
1-9 pkgs., each	\$ 11.40
10-99 pkgs., each	10.26
100 or more pkgs., each	9.69
3-46372 Student Record Books for kit 2b (pkg. of 10)	
1-9 pkgs., each	11.40
10-99 pkgs., each	10.26
100 or more pkgs., each	9.69
3-46472 Student Record Books for kit 2c (pkg. of 10)	
1-9 pkgs., each	11.40
10-99 pkgs., each	10.26
100 or more pkgs., each	9.69

Mark II Reading Laboratory kits are available without the Skills Development Cards, Listening Cassettes, or Alternate Student Record Books as the Basic Reading Laboratory kits.

3-6150 Basic Reading Laboratory Kit 2a	\$167.00
3-6350 Basic Reading Laboratory Kit 2b	167.00
3-6450 Basic Reading Laboratory Kit 2c	167.00

To order replacement components for the 1969 editions of Reading Laboratories 2a, 2b, and 2c, see page 91. To order Student Record Books, see inventory forms at the back of this catalog.

Reading Laboratory® Kits 1a, 1b, and 1c

- Personalized reading skill kits for grades 1–3.
- Skill sequences and exercise formats develop and reinforce universal skills.
- Durable four-page reading selections help students develop basic comprehension, vocabulary, and word attack skills.
- Listening Skill Builders played on cassettes or read from the Teacher's Handbook help students understand and retain what they hear. Exercises help develop comprehension and sequence skills.
- My Own Book for Listening and Reading contains motivational, reinforcement, student conference, and record-keeping activities.

For teachers

Individualized reading materials help teachers provide for the many ability levels normally found in the classroom. Twelve reading levels per kit cover the wide range of student abilities and allow students to advance in gradual steps. Students work independently on reading selections and exercises, correcting their own work with only periodic spot checks and guidance by the teacher. Program frees the teacher to give personalized attention.

Ten nonconsumable Starter Booklets containing stories and exercises help the teacher determine beginning reading levels and introduce students to the kit. The Diagnostic Conference Record in the Student Record Book helps in diagnosing individual skill weaknesses and in prescribing activities.

Listening Skill Builder exercises can be played on cassettes or read from the Teacher's Handbook. Cassettes contain professional recordings of the stories with music and sound effects.

For students

This personalized skill approach to reading allows students to begin at their own level, where they can experience success, and progress as fast as their learning rate permits. Immediate feedback from self-checking exercises helps reinforce skills and point out weaknesses. Students record their performance on progress charts so they are aware of their improvement.

The exciting reading selections in the Power Builders cover a wide range of interesting subjects. "Use Your Imagination" section in Power Builders invites student creativity. Colorful student book has activity pages to reinforce selected skills in entertaining game and puzzle formats.

	100–999 copies, each	1.19
	1000 or more copies, each	30.90
3-8705	Listening Skill Builder Tapes	4.00
3-8720	Additional Teacher's Handbook	6.90
3-8790	Specimen Set	

For a class of 30 students you will need:
1 Reading Laboratory Kit
30 copies of My Own Book for Listening and Reading

To order replacement components for the 1973 Edition of Reading Laboratory kits 1a, 1b, 1c, see page 90.

To order Student Record Books, see inventory form at the back of this catalog.

Reading Laboratory® Kits 3a, 3b, and 4a

- Personalized reading skill kits for grades 7–adult.
- Durable four-page reading selections help students develop comprehension, vocabulary, and word attack skills.
- Listening Skill Builders help build comprehension and retention. In kits 3b and 4a they help students organize and take notes on what they hear.
- Timed Rate Builder selections and comprehension questions help improve students' speed and concentration.
- Individual Student Record Books help students function independently.

For teachers

Individualized reading materials help teachers provide for the many ability levels normally found in a classroom. Students work independently on reading selections and exercises, correcting their own work with only periodic spot checks and guidance required of teachers. Program frees teachers to give personalized attention.

Kit 3a includes exercises to increase understanding of word structure. Directions for comprehension checks develop awareness of thought processes important for learning. Student Record Books in kits 3b and 4a contain a short test to help teachers determine the appropriate starting level for each student.

for students

This individualized approach to reading allows students to begin at their own levels, where they can experience success, and progress as fast as their learning rates permit. Immediate feedback from self-checking exercises helps reinforce skills and point out weaknesses. Students record their performance on progress charts in the Student Record Books so they are aware of their improvement.

Multilevel Power Builder and Rate Builder selections represent a wide range of writing styles from a variety of books and periodicals. Diversified content helps stimulate interest in and concern for our contemporary world.

3-2290	Specimen Set	

For a class of 30 students you will need:

1 Reading Laboratory Kit
30 Student Record Books

To order replacement components for all editions of Reading Laboratory Kits 3a, 3b, and 4a, see page 91. To order Student Record Books, see inventory form at the back of this catalog.

Reading Laboratory® 1: Word Games

- Phonics and structural analysis exercises for grades 1-3.
- Games help students match their reading vocabulary to their listening vocabulary.
- Can be used independently or with Reading Laboratory® Kits 1a, 1b, and 1c.

For teachers

Teachers use the Phonics Survey to determine which Word Games students should play. Check tests indicate students' readiness to proceed to the next game. Teacher's Handbook contains phonics lessons, and writing reinforcement exercises are in the student book. Multiple copies of each game are included so the program can be used with whole classes, small groups, or individualized instruction.

For students

Forty-four color-coded games help students improve their vocabularies. They check their own test answers and plot their progress in My Own Book for Word Building.

For convenience in ordering, see Student Record Book inventory forms at the back of this catalog.

The Thinklab® Series

- Three kits to develop problem-solving and thinking skills for all types of students, grades 2-adult.
- Designed to exercise students' insight, creativity, and reasoning abilities.
- Kits are nonconsumable, flexible, fit a variety of curriculum areas.
- Activities are sequenced by difficulty.
- High-interest materials help motivate students.

For teachers

Easy to use with individuals, groups, or whole class. Self-checking and economical. Each kit presents a wide variety of problems and puzzles to encourage careful thinking, reading, and using numbers and shapes. Controlled reading levels gradually increase as students progress. Problem difficulty also increases. Content relates to reading, language arts, math, and social studies.

For students

Imaginative learning activities help develop skills of thinking, comprehension, and problem-solving. Problems at various difficulty levels motivate all learners and challenge the gifted.

Authors

Junior Thinklab®: Jill Golick and Margie Golick.
 Consultant: K. J. Weber
 Thinklab® and Thinklab® 2: K. J. Weber

Junior Thinklab®

- The newest Thinklab® kit, for students in grades 2-4.
- Includes picture materials that require little reading.
- Students write on reusable plastic overlays, check answers by turning card over.
- Activities in five areas: ordering, classifying, perception and spatial relations, reasoning and deducing, divergent thinking.

Components

320 Activity Cards (4 each of 80), 4 "Who? What? Where?" Card Decks, 20 Spirit Masters, 40 Pupil Progress Sheets, 10 Plastic Overlays, 10 Markers, 1 Teacher's Guide.

	School Price
3-280190 Junior Thinklab® kit (complete)	\$129.95
3-280191 Additional Teacher's Guide	2.95
3-280192 Additional "Who? What? Where?" Deck	7.40
3-280193 Additional Spirit Masters	9.40
3-280194 Additional Pupil Progress Sheets (pad of 40)	4.30
3-207703 Additional package of Plastic Overlays and Markers (10 of each)	20.15
3-207704 Additional package of Markers (10)	10.30
3-280199 Review Set	5.90

For a class of 30 students you will need:
 1 Junior Thinklab® kit
 2 additional packages of Plastic Overlays and Markers if all students will be using the kit at the same time

Thinklab®

- Problem-solving kit for grades 3-adult.
- Activities in five areas: object manipulation, perception, insight, pattern recognition, and logical analysis.

Components

500 Puzzle Cards (4 each of 125), Plastic Sticks and Discs, 40 Pupil Progress Sheets, 1 Teacher's Guide including Answer Key.

	School Price
3-207740 Thinklab® kit (complete)	\$84.00
3-207741 Additional Teacher's Guide	2.20
3-207742 Additional Pupil Progress Sheets (pad of 40)	4.30

Thinklab® 2

- Problem-solving kit for grades 5-adult.
- Activities in six categories: quantitative analysis, logic, object manipulation, creative insight, just for fun, and brainstorming.

Components

700 Puzzle Cards (4 each of #1-145, 8 each of #146-160), Plastic Sticks and Discs, 40 Pupil Progress Sheets, 1 Teacher's Guide including Answer Key.

	School Price
3-280070 Thinklab® 2 kit (complete)	\$111.45
3-280071 Additional Teacher's Guide	2.50
3-280072 Additional Pupil Progress Sheets (pad of 40)	4.25
3-280079 Review Set	4.25

For a class of 30 students you will need:
 1 Thinklab® or Thinklab® 2 kit

The SRA Skills Series

- Three basic skills kits - Phonics (1-3), Structural Analysis (3-7), and Comprehension (4-8).
- Each kit contains 48 independent teaching units with instruction and practice for specific skills.
- A lesson plan for small-group or whole-class instruction and a cassette for independent student use are included in each teaching unit.
- Skills were selected from a comprehensive analysis of the most widely used elementary reading programs.
- Special Education Edition of Phonics kit available.

For teachers

Provides lesson plans and motivational materials to teach reading skills. Helps teachers meet the need for basic skills mastery. Each unit provides materials for teacher-led or cassette-directed instruction, practice, and a skills check test. A Survey Test shows where each child might start working in the kits, and Student Progress Folders help keep track of each student's progress.

Teacher's Handbooks explain how to use the kits, provide correlations to other programs, and contain class record pages. Lesson plan cards guide instruction and reinforcement for each skill. Skill cards or magazines aid in instructional presentations and motivate students.

For students

Each cassette lesson presents instruction, reinforcement, and a check test in story form with music and sound effects to heighten students' interest. Spirit Masters provide practice for each cassette lesson. Nonconsumable Student Magazines in the Structural Analysis and Comprehension Kits aid in instructional presentations and provide extra practice.

UNIT 47 RECOGNIZING GENERALIZATIONS

Objective: To recognize generalizations; to identify generalizations as valid or false

Guidelines, Not Rules

1. A generalization is a statement about a group of people or things.

2. A generalization is not a statement about one person or thing.

3. A generalization is not a statement about a specific time or place.

4. A generalization is not a statement about a specific action.

5. A generalization is not a statement about a specific object.

6. A generalization is not a statement about a specific event.

7. A generalization is not a statement about a specific person.

8. A generalization is not a statement about a specific place.

9. A generalization is not a statement about a specific time.

10. A generalization is not a statement about a specific action.

11. A generalization is not a statement about a specific object.

12. A generalization is not a statement about a specific event.

13. A generalization is not a statement about a specific person.

14. A generalization is not a statement about a specific place.

15. A generalization is not a statement about a specific time.

16. A generalization is not a statement about a specific action.

17. A generalization is not a statement about a specific object.

18. A generalization is not a statement about a specific event.

19. A generalization is not a statement about a specific person.

20. A generalization is not a statement about a specific place.

I. INTRODUCING GENERALIZATIONS

Directions Say:
 ▶ Marsha went over to the park to play tennis with her friend. She saw that all the courts were filled with people playing tennis. She counted fifty people waiting to play. Marsha made a general statement about all the people in the park. She said, "Everyone in the park wants to play tennis today." Her statement was based on facts. But she could not have been sure that her statement was true about every person in the park. The statement that Marsha made is called a generalization.

II. TEACHING RECOGNITION OF GENERALIZATIONS

Board Preparation
 1. Everybody in the park wants to play tennis.
 2. Most of the people in the park want to play tennis.
 3. Marsha and her friend want to play tennis.
 4. There are fifty people waiting to play tennis.

Directions Say:
 ▶ A generalization is a broad statement about a group of things or

people. It's something you say about a group even though you don't know that it's true about every member in the group.

Have a volunteer read aloud sentence 1. Then ask:
 ▶ Is this a generalization? (yes) It's a generalization because it's a broad statement made about the entire group of people in the park, even though you don't know for sure that it's true about every person in that group.

Have a volunteer read aloud sentence 2. Then say:
 ▶ This sentence is also a generalization because it is a broad statement made about a group. You might make the statement even though you don't know for sure that it's really true for most people in the park. People frequently use words and phrases such as most, many, and almost all when they make a generalization in order to be more accurate.

Have a volunteer read aloud sentence 3. Then ask:
 ▶ Is this a generalization? (no) It's not a generalization because it doesn't make a broad statement about a group. It talks only about Marsha and her friend.

Have a volunteer read aloud sentence 4. Then say:
 ▶ Marsha counted fifty people waiting to play tennis. So this statement is known to be true. This is not a generalization because it is not a broad statement. It is a specific statement about exactly fifty people.

Follow-up Activity

Materials Magazine, page 47A; paper and pencils
Directions Have the students turn to page 47A in their magazines and number their papers from 1 to 8. Tell them to read each sentence and write "yes" if the sentence is a generalization and "no" if it is not a generalization. (1. yes 2. no 3. yes 4. no 5. no 6. yes 7. yes 8. no) Discuss student responses.

III. TEACHING IDENTIFICATION OF GENERALIZATIONS AS VALID OR FALSE

Board Preparation
 1. Most people with red hair are hot-tempered.
 2. Most people with red hair have fair complexions.

The SRA Skills Series: Phonics

- Phonics program for grades 1-3.
- Helps students develop skills in letter/sound relationships.
- Forty-eight lessons, each containing carefully developed lesson plans, colorful visuals, and appealing cassette lessons for 155 discrete phonics elements.

Components

48 Lesson Plan Cards, 48 Skill Cards, 48 Cassette Lessons, 96 Spirit Master Activity Sheets, Survey Test on Spirit Masters, 30 Student Progress Folders, 1 Teacher's Handbook, and 1 Correlations Supplement.

	School Price
3-4300 Phonics, Complete Kit	\$335.00
3-4325 Teacher's Handbook	2.55
3-4327 Student Progress Folders (30)	13.05
3-4330 Spirit Masters (100)	45.10
3-4298 Manual: Teaching Children with Special Needs - Phonics (with reproducible Student Profile Sheets)	4.50
7-6242 Special Ed Edition: Skills Series: Phonics (includes Skills Series: Phonics program and 1 Manual)	339.00

The SRA Skills Series: Structural Analysis

- Structural analysis program for grades 3-7.
- Helps develop skills in word structure analysis including plural and possessive forms, roots and affixes, compound words, contractions, syllabication, and word origins.
- Student Magazines provide colorful visuals as an instructional aid.

Components

48 Lesson Plan Cards, 10 copies of the Student Magazine, 48 Cassette Lessons, 96 Spirit Master Activity Sheets, Survey Test on Spirit Masters, 30 Student Progress Folders, 1 Teacher's Handbook, and 1 Correlations Supplement.

	School Price
3-5200 Structural Analysis, Complete Kit	\$335.00
3-5225 Teacher's Handbook	2.55
3-5227 Student Progress Folders (30)	13.05

3-5235 Spirit Masters (100)	45.10

Schoolhouse®: A Word Attack Skills Kit

- Word-attack skills kit for grades 1-3.
- An individualized, nonconsumable, 4-color workbook-in-a-box.
- Illustrates and reinforces prereading; initial, medial, variant, and final consonants; consonant blends; vowels and vowel digraphs; contractions; prefixes and suffixes.

For teachers

Fits into most reading approaches and learning environments. Introductory activity cards present a model. Succeeding cards give practice. Reinforcement cards consolidate skills.

For students

Program is flexible and adapts to each child's needs and pace. Provides sequential development of word-learning skills that is especially helpful to children with limited reading vocabulary. Immediate feedback helps reinforce skills.

Authors

Muriel Clarke and Fleur Marsden

Components

170 color-keyed Activity Cards and 170 duplicates (340 total cards), 10 Mylar Plastic Response Sheets, 10 non-toxic Markers, one 40-page Pupil Progress Record Sheet Pad, and 1 Teacher's Guide.

	School Price
3-207700 Schoolhouse, A Word Attack Skills Kit	\$135.50
3-207719 Specimen Set	6.75
3-207720 Additional Teacher's Guide	3.05
3-207702 Additional Pad of 40 Pupil Progress Sheets	2.30
3-207703 Plastic Response Sheets (pkg. of 10) and Marking Pencils	20.15

To order replacement components, see page 91.

See page 70 for Spanish Edition.

Schoolhouse®: Word Attack 1c

- Phonics and structural analysis skill program for grades 3-4.
- An exciting extension of *Schoolhouse: Word Attack Skills*.
- An ideal product in basic skills for compensatory programs.
- Can be used remedially with older readers.

For teachers

Phonics and structural analysis materials presented in two tracks. A fast track is designed for use with students who have already encountered the skills. The slow track accommodates those for whom the material might be new or difficult.

The program is divided into six color-coded units: Phonics A (fast track), 30 cards; Phonics B (slow track), 40 cards; Structural Analysis, 45 cards; Syllables, 20 cards; Word Meanings, 35 cards; and Dictionary Cards, 30 cards.

For students

Helps students make the vital transition from decoding skills to the other aspects of word attack needed for mature reading. Skills are developed sequentially using reinforcement and practice materials.

Authors

Muriel Clarke and Fleur Marsden

Components

200 Cards, plus duplicates, 10 Plastic Overlays and 10 Markers, a pad of 40 Pupil Record Sheets, and a Teacher's Guide.

	School Price
3-207880 Schoolhouse Word Attack 1c, Complete Kit	\$135.50
3-207881 Additional Teacher's Guide	3.05

Schoolhouse®: Comprehension Patterns

- Comprehension skill program for grades 3-8.
- Helps teach the basic comprehension unit - the sentence.
- Provides a variety of increasingly sophisticated sentences for interpretation.
- Offers the economy of an individualized, nonconsumable workbook in a box.

For teachers

Program can be used with any basic series. Teacher's Guide includes remedial teaching-lesson plans. Format provides flexibility for teachers.

for students

Individualized so students can work through the program independently.

Components

195 Activity Cards (plus duplicates) arranged in 10 units, a Teacher's Guide, a Pad of 40 Student Progress Sheets, 10 Plastic Overlays, and Marking Pencils.

	School Price
3-207800 Schoolhouse: Comprehension Patterns	\$135.50
3-207819 Specimen Set	6.75
3-207801 Additional Teacher's Guide	3.05
3-207802 Additional Pad of 40 Progress Sheets	2.30
3-207703 Additional Set of 10 Overlays and Markers	20.15

WHAT HAPPENED NEXT?

1

The crew was resting comfortably. No one noticed that the submarine was gradually heading for the bottom. Fortunately, the instruments showed that something was wrong. An automatic depth alarm sent the men tumbling out of their bunks.

- A. The crew warned the sub of the danger and brought it to the surface.
- B. Warned of the danger, the crew brought the sub to the surface.

2

The cowboy rode slowly through the ghost town, remembering all the people who had lived there until gold was discovered in California. Now the houses and shops were deserted. Just then a soft breeze carried the sound of a tinkling piano to his ears.

- A. Wondering who could be left, he stopped his horse.
- B. He stopped his horse from wondering who could be left.

3

The nervous knight stood in front of the cave and dared the dragon to come out. Meanwhile a crowd watched from a safe distance. The beast appeared, explained that it didn't really like fighting, and suggested that perhaps it and the knight might throw cream puffs at each other.

- A. Removing his metal glove, the knight threw a cream puff at the dragon.
- B. He threw a cream puff at the dragon removing the knight's metal glove.

YES NO

- The boys have found the playground soaked by the rain and covered with leaves.
- The girl is imagining a rusebush and a fairy queen wrapped in tinsel.
- The dog has found a bone wrapped in a newspaper and buried in the ground.
- The teacher is scolding the children dressed in costumes and jumping up and down.
- Exhausted by running and abandoned by its friends, a cat has caught five mice.

Reading for Understanding 1

- Reading comprehension program focuses on judgemental and logical thinking for grades 1-3.
- Even beginning readers can develop and strengthen inferential reading skills.
- Early exercises use simple text and brightly colored artwork.
- Simple, immediate feedback. Correct answers presented on back of card.
- Nonconsumable. Responses are marked on reusable plastic overlays.
- Can complement and supplement any basal reading program.

For teachers

Flexible program allows students to work alone or with teacher assistance. Lessons progress in difficulty through 17 color-coded levels. Easy-to-administer placement test is provided in two forms that can be used for pre- and post-testing. Progress sheets enable teacher to monitor each student's achievement easily.

For students

For each selection, students choose the best of four alternative answers. Because answers are implied rather than stated, students practice discriminating between alternatives, making valid inferences, and analyzing ideas. Students work at their own level and pace.

Author

Thelma Gwinn Thurstone

Components

Two copies each of 150 Lesson Cards, 10 Plastic Overlays, 10 Marking Pencils, 20 Placement Tests (10 each of Forms A and B), Pad of 30 Progress Sheets, "How to Get Started" Card, Teacher's Handbook.

- 3-7820 Reading for Understanding 1 (complete kit)
- 3-7823 Additional Student Record Pad (30 sheets)
- 3-7826 Placement Test, Form A (package of 10)
- 3-7827 Placement Test, Form B (package of 10)
- 3-7821 Additional Teacher's Handbook

Reading for Understanding 2, 3

- Two up-to-date inferential comprehension programs for grades 3-adult.
- Kits help students develop comprehension, analyze ideas, and draw logical conclusions.
- Kits are multilevel, highly flexible. Fit into any classroom.
- Balanced representation of world society.
- Pre- and posttesting can be used to measure progress.

For teachers

Simple placement tests indicate the level at which each student should begin. Kits focus on accelerated thinking skills needed by today's students. Selections cover such areas as education, politics, history, art, and philosophy, and give a balanced representation of society.

For students

Exercises are arranged in levels of increasing difficulty. Students read a selection, then choose the best of four suggested conclusions. The correct choice is implied but not stated. Students work alone at their own pace, answering questions in the Student Record Books, checking their answers for immediate feedback, and keeping track of their own progress.

Author

Thelma Gwinn Thurstone

Components

Each kit has 300 Exercise Cards, 20 Answer Key Booklets, 2 separate Placement Tests, a Student Record Book, and a Teacher's Handbook.

SRA Lunchbox™ Libraries

- Recreational reading for primary grades. Reading levels are for children reading preprimer through second grade texts.
- Introduces students to the pleasure of independent reading.
- Helps develop basic comprehension skills.

For teachers
Kits are uncomplicated and easy to use. Each library contains 64 8-page reading selections (32 booklets covering two different reading levels plus duplicates). Teachers assign each child to one of the two reading levels and the children read the selections they enjoy. Each short booklet contains questions to focus on comprehension.

The Teacher's Comprehension Book provides a summary of each story, reproductions of the comprehension questions and answers, questions designed to develop additional comprehension skills, and an optional extension activity.

For students

Short story books at primary reading levels offer young students a chance to enjoy and enhance their newly acquired reading skills. Imaginative selections were chosen for their appeal to beginning readers. Each story is illustrated with lively art.

	School Price
3-4570 Lunchbox™ Library Preprimer Kit	\$50.00

BRS Satellites® Kit

- Supplementary for grades 1-2.
- Small classroom library containing 190 original stories and poems for beginning readers.
- Provides extra practice for slower readers and independent reading for other children.
- Selections are divided into five levels that employ the same sequence of words and spelling patterns as the readers and workbooks in levels B-F of the SRA Basic Reading Series.
- Contains two copies of each selection.

Components

380 4-page Folders (2 each of 190 selections) and Teacher's Handbook.

Individualized Reading Skills Program

- Skills-centered reading program for grades 2-6.
- High-interest reading selections designed to stimulate interest in independent reading.
- Students work with stories, word and story exercises, extension activities, and free reading selections such as poems, jokes, playlets, and limericks.
- Helps develop phonetic, structural analysis, and vocabulary skills.
- Each book emphasizes a different vowel skill program: *Gilligan Milligan*—short vowels, *Risky Ride*—long vowels, *Strawberry Emergency*—variant vowels, *Sky Diver*—variant vowels.

Authors

Pilot Library™ Series

- Independent reading for grades 3-9.
- Each kit contains 72 Pilot Books—short, yet complete excerpts from full-length books.
- Designed to capture the interest of young readers and lead them to original works so they can read for pleasure and information.
- Kits for grades 4-7 feature nonconsumable comprehension exercises

For teachers

Helps in the transition from reading instruction to independent reading. Pilot Books are related to Power Builder selections in SRA Reading Laboratory® kits. Teacher's Handbook provides synopses of all Pilot Books.

There are comprehension exercises for each Pilot Book. Students using kit 1c record their progress in Student Record Books. In kit 3b, comprehension questions and composition assignments are provided on Student Record Sheets.

For students

Eases students into independent reading. Each 16-32 page Pilot Book was selected for interest, appeal, and reading level. A bibliography at the end of each Pilot Book refers students to other books of similar content and difficulty. Students are encouraged in their reading by immediate feedback from comprehension exercises.

Components

72 Pilot Books, 20 Key Booklets, and a Teacher's Handbook. Pilot Library Kit 1c includes a Student Record Book. Pilot Library™ Kits 2a, 2b and 2c include 72 Student Response Cards and 20 Marking Pencils.

For a class of 30 students in grade 3 you will need:

- 1 Pilot Library Kit
- 30 Student Record Books

For a class of 30 students in grades 4-7 you need only:
1 Pilot Library Kit.

For a class of 30 students in grades 8-9 you will need:
1 Pilot Library Kit
3 sets of Student Record Sheets

To order replacement components, see pages 89-90.

Super A, Super AA, Super B and Super BB Kits

- Designed for reluctant readers with limited word-attack and comprehension skills.
- High-interest, controlled-vocabulary comic book readers.
- Feature Batman, Wonder Woman and other characters well known to children.
- Sequential skills program supported by spirit master work sheets, group task cards, and concise lesson-by-lesson teaching plan.
- Suggested for grades 4-8, or older students with lower level skills.

For teachers

Teacher's Manual provides story-by-story skills objectives and lesson plans. For each story the manual gives a brief synopsis, a vocabulary guide that includes words, phrases, and idioms of special interest; a phonics workout for help in pronunciation; proper names of characters, places, and things; and comprehension and extension questions. The manual also keys appropriate activity sheets and task cards to each lesson, provides questions and comments for extension activities on activity sheets, and fully explains the program and techniques for visual, oral, and written skills practice.

Spirit masters provide for individual skills application and practice for each story selection. Task cards contain small group or whole class extension activities that relate the story themes to personal, social, and career-awareness experiences for students.

Kits developed in collaboration with Warner Educational Services

All Characters Copyright © D.C. Comics, Inc. 1979

For students

Comic readers have controlled vocabulary based on the Harris-Jacobson word lists. Kit A uses primarily grade 2 core vocabulary; Kit AA uses grade 3 core vocabulary; Kit B uses grade 4 core vocabulary; Kit BB uses grade 5 core vocabulary. Comic readers feature famous characters and superheroes in a carefully balanced mix of fantastic superfeats, science and space fiction, fantasy, spy tales, mysteries, and other stories. Engaging full-color art is used throughout to heighten the fast-paced action and inventive plots. Women and minorities are portrayed in a variety of dynamic roles.

Components

Each kit contains ten copies each of four 32-page readers, 40 spirit master Activity Sheets, 48 Task Cards, a Teacher's Manual, and a full-color wall poster.

	School Price

3-3832 Additional Super BB Teacher's Manual	5.40
3-3835 Super Kits Review Set	15.45

To order components, see page 92.

The Phonogames Series

- Three kits of phonics skill games, grades K-3.
- Two of the kits include stories with controlled vocabulary.
- Can be used with any reading program.

For teachers

Teacher's Handbooks give program rationale, procedure, and word content for games. An orientation cassette in *The Readiness Stage* gives step-by-step directions for games. Handbooks for *The Phonics Explorer* and *The Phonics Express* provide sight-word vocabulary required for entry.

For students

Especially useful for students who have difficulty mastering basic phonics. Imaginative games give practice in decoding skills. In *Explorer* and *Express* kits, students master vocabulary in games, then use short stories for reading practice. Entertaining activity sheets help students extend their reading vocabularies.

The Readiness Stage

Grades K-1. Requires no reading. 36 games on six levels help students discriminate and recognize initial and final sounds. Method of play involves two students in a simple form of tic-tac-toe.

The Phonics Explorer

Grades K-3. Emphasizes consonants, consonant blends, and consonant digraphs. 40 games and 80 stories provide practice with sounds, vocabulary, and reading. Activity sheets extend learning.

The Phonics Express

Grades 1-3. Emphasizes vowels and vowel digraphs. 36 games and 72 stories provide practice with sounds, vocabulary, and reading. Activity sheets extend learning.

Components

The Readiness Stage—36 Game Boards (each with 9 games cards), 36 Picture Cards, 7 Audio Cassettes, and a Teacher's Handbook.

The Phonics Explorer—40 Games (40 game boards, 360 word cards), 80 Stories, 40 Activity Sheets, and a Teacher's Handbook.

The Phonics Express—36 Games (36 game boards, 324 word cards), 72 Stories, 36 Activity Sheets and a Teacher's Handbook.

	School Price

3-1149 Complete Package of All Three Kits	315.75

diagnosis®: an instructional aid—Reading

- Diagnostic skill program for grades 1-6.
- Diagnoses an individual student's specific weaknesses in reading.
- Prescribes multimedial, multimedia materials for remediation.
- Specific Probes are related to learning objectives in mastery: an evaluation tool and to skill categories of the SRA Achievement Series Skills Profile.

For teachers

Frees teachers to individualize instruction and to do diagnostic-prescriptive teaching. A Survey Test identifies weaknesses in broad areas and shows where students should start working in the kit. An optional form of the Survey Test is available for posttesting. Criterion-referenced tests called Probes measure specific learning objectives. All objectives are covered by multiple items.

Prescription Guides list remedial materials for each learning objective. The guides correlate the objectives to major reading textbooks, workbooks, duplicating masters, and SRA supplementary kits. More than 40 Prescription Guides are available for Reading. Some are in the kits, others are available by writing SRA Customer Services.

for students

Students in most classes score their own Probes for immediate feedback. Answers and learning objectives for all items are listed inside the carbon-interleaved Probes. Some Probes in the level A program are presented on cassettes featuring lively music.

Components

Level A: 25 consumable copies of each of the 34 Probes, 25 consumable copies of the Survey Test (Form X), a Prescription Guide, a Teacher's Handbook, a set of 6 Cassettes to accompany the Phonetic Analysis Probes, a Class Progress Wall Chart, and a set of Divider Cards. Optional Survey Test (Form Y) available for posttesting.

Level B: 25 consumable copies of each of the 30 Probes, 25 consumable copies of the Survey Test (Form X), a Prescription Guide, a Teacher's Handbook, a Class Progress Wall Chart, and a set of Divider Cards. Optional Survey Test (Form Y) available for posttesting.

Level A (grades 1-4)

To order Probes or other components separately, see page 89.

The Dimensions® Series

- Kits to stimulate independent reading, grades 4-adult.
- Each kit contains a range of difficulty levels.
- Interesting selections provide a variety of information, viewpoints, and writing styles.
- Social studies tie-in.

Our Story: Women of Today and Yesterday

- Reading levels 3.0-8.9.
- Reading selections portray the accomplishments of women and their contributions to society through the ages.
- Stories of less known women are told along with those of famous personalities.
- Selections include women of various nationalities and age groups.

For teachers

Provides stories often unavailable in textbooks. Because of the wide range of contemporary and historical settings covered, the program enriches many areas of the curriculum.

Summaries of each selection are included in the Teacher's Handbook along with a chart of related readings in other SRA kits and a bibliography of full-length materials by or about women according to grade level. The Handbook also provides a chart of extension activities for practice in various social studies and language arts skills.

For students

Helps develop an awareness of the variety of interests, experiences, and accomplishments of women. The range of reading levels allows students to move to levels of increasing difficulty as their reading skills grow.

Components

120 4-page Reading Selections, 120 Skill Cards, 40 Answer Key Booklets, and a Teacher's Handbook.

	School Price
3-9700 Our Story: Women of Today and Yesterday Kit	\$103.00
3-9701 Additional Teacher's Handbook	1.55
3-9716 Review Set	2.45

Manpower and Natural Resources

- Reading levels 4.0-11.9.
- Enrichment material for high school reading, guidance, vocational and technical instruction, and adult training programs.
- Reading selections on conservation and conservation skills; natural history, geology, botany, zoology, meteorology, and mineralogy; and occupational skills information.
- Skills questions provide comprehension checks.

Components

300 4-page Reading Selections, 40 Answer Key Booklets, and a Teacher's Handbook.

	School Price
3-9500 Manpower and Natural Resources Kit	\$172.75
3-9515 Additional Teacher's Handbook	1.10

How America Began

- Reading levels 3.0-8.9.
- Anecdotal history of the United States from Colonial times through the Civil War.
- Provides insights into the early struggles and achievements of the United States and its people.
- Skill cards contain comprehension questions and suggested extension activities in research, art, drama projects, and additional reading.

Components

120 4-page Reading Selections, 120 Skill Cards, 40 Answer Key Booklets, and a Teacher's Handbook.

	School Price
3-4500 How America Began Kit	\$103.00
3-4510 Additional Teacher's Handbook	.95

As America Grew

- Reading levels 3.0-8.9.
- Selections cover social, political, and economic growth of the United States from the Reconstruction through present times.
- Skill cards with comprehension questions and suggested extension activities accompany each selection.

Components

120 4-page Reading Selections, 120 Skill Cards, 40 Answer Key Booklets, and a Teacher's Handbook.

	School Price
3-4550 As America Grew Kit	\$103.00
3-4560 Additional Teacher's Handbook	.95

Countries and Cultures

- Reading levels 4.5-9.5.
- Selections describe lifestyles, traditions, and attitudes in foreign countries.
- Students learn about the South Seas, flea markets of Europe, an Israeli kibbutz, and other exciting places.
- Skill cards provide comprehension questions for each selection.

Components

120 4-page Reading Selections, 120 Skill Cards, 40 Answer Key Booklets, 40 Student Books, and a Teacher's Handbook.

	School Price
3-5350 Countries and Cultures Kit	\$122.25
3-5367 Student Book	
1-99 copies, each	.70
100-999 copies, each	.63
1000 or more copies, each	.60
3-5352 Additional Teacher's Handbook	1.30

We Are Black

- Reading levels 2.0-6.0.
- Interesting biographies, anecdotes, and essays about Blacks which all students can enjoy.
- Selections portray persons and events often neglected in traditional texts.
- Skill cards provide comprehension checks.

Components

120 4-page Reading Selections, 120 Skill Cards, 40 Answer Key Booklets, 40 Student Books, and a Teacher's Handbook.

	School Price
3-5280 We Are Black Kit	\$122.25
3-5297 Student Book	
1-99 copies, each	.78
100-999 copies, each	.70
1000 or more copies, each	.66
3-5282 Additional Teacher's Handbook	1.25

We Are Black Filmstrips

- Four filmstrips and 33 1/2 rpm records present important aspects of the Black heritage: history, poetry, pride, and people.
- Emphasize the importance of reading skills.
- Can be used to add interest to the We Are Black reading kit or separately in ethnic study programs.

Components

4 Filmstrips, 4 33 1/2 rpm Records, 1 Teacher's Handbook, 1 Storage Box.

	School Price
3-5300  We Are Black Filmstrips, Complete (4 filmstrips, 4 records, 1 Teacher's Handbook)	\$96.00
3-5309 Additional Teacher's Handbook	1.50

To order replacement components for the Dimensions Series, see page 89.

Reading Accelerator®

- Precision-built pacing devices designed to help increase reading rates. Adjusts to speeds of 16 to 3000 words per minute.
- Reader sets desired reading speed, then reads ahead of opaque shutter as it passes down the page.
- Devices push student to read faster, without looking back.
- Three models to choose from - all lightweight, portable, and requiring no batteries or electricity.

Models

Reading Accelerator® Model III: durable metal, includes manual with a chart for determining dial settings for desired speeds. Reading Accelerator Model IV: sturdy plastic, portable, weighs only 1 1/2 pounds. Reading Accelerator Model V: sturdy plastic, weighs only 19 ounces, reading speeds range from 16 to 2200 words per minute. Reading-Ease Calculator: pocket-size plastic device that estimates relative difficulty of reading material; includes manual. SRA Reading Calculator: pocket-size plastic device that converts desired reading rate (words per minute) to proper scale setting for estimating number of words per page.

3-1367 Instructor's Guide	1.30
3-1405 Specimen Set (Guide and Progress Folder, Better Reading Books 1, 2, and 3)	22.70

The Basic Reading Series

- Basal textbook program for grades K-2.
- Emphasizes decoding skills.
- Initial instruction focuses on typical word patterns. For example, regular three-letter words that follow strict consonant-vowel-consonant patterns (Dan, fan, man). From these patterns students learn generalizations they can apply to new words.
- Phonic skills are introduced in a structured manner.
- Incremental buildup of sound-symbol patterns simplifies learning.

Authors

Donald E. Rasmussen and Lynn Goldberg

For teachers

Teaching Guides provide easy-to-follow instructions, interesting lesson plans, management techniques, and rationale along with annotated student reader pages. Teacher's Editions of the Workbooks include answers and identify pages designed to stimulate creative and interpretive abilities through open-ended questions. Mastery and Placement Tests help distinguish decoding errors from comprehension and procedural errors. Tests cover decoding, comprehension, and critical reading skills.

Word Pattern Charts present words in arrangements that in some cases are different from those used in the readers. These 25 x 35" charts help eliminate the need for extensive chalkboard writing.

Handwriting materials are available in pads or spirit masters. They provide materials for reading words, phrases or sentences and then choosing and writing a response. The pads also contain pages of pure handwriting practice with no reading requirement.

For students

Readiness Book equips students with basic skills, such as auditory discrimination, reasoning and perception, to maximize their chances for success. The revised Alphabet Book teaches names and shapes of alphabet letters. Stories, poems and plays in the readers use a carefully-controlled vocabulary to teach basic reading and phonic skills. Early success in the program builds positive attitudes toward reading. Materials reflect contemporary society with heightened awareness toward the roles of women and minorities. A pluralistic society is presented living and working in urban, suburban, and rural settings.

3-15814	Prescription Pad for Level F	6.60

For a class of 30 first-graders and 30 second-graders you will need:

- 1 Complete Set of tutortapes System
- 10 Readers for each level (A—F) of the Basic Reading Series, 1976 Edition
- 30 Workbooks for each level (A—F) of the Basic Reading Series, 1976 Edition
- 30 Reading/Writing Activity Pads for each level (A—F)
- 1 BRS Satellites™ Kit
- 4 to 6 Cassette Tape Recorders with Headphones

To order tutortapes 1972 edition, see page 92.

Cracking the Code

- Supplementary decoding program for grades 4-9.
- Teaches skills needed by beginning readers with selections written for older children.

Authors

Donald Rasmussen and Lynn Goldberg

Components

- 1 Student Reader, 1 Workbook, and 1 Teacher's Handbook.

	School Price	
3-8673	Student Reader, Cloth	\$7.85
3-8670	Student Reader, Paper	4.25
3-8671	Student Workbook	2.80
3-8672	Teacher's Handbook	4.40

Special Note: If requested, one Teacher's Handbook will be provided free with every 30 Student Readers. Requests must accompany Student Reader orders.

LANGUAGE ARTS

Presenting the skills of communication in programs that are individualized and multilevel, in the well-known SRA tradition.

Schoolhouse® Spelling Patterns A, B

- Independent drill and practice in spelling patterns.
- Two kits—Kit A for grades 2-4; Kit B for grades 3-5.
- May be used with students needing remedial work in higher grades.
- Self-checking materials permit immediate reinforcement or correction of errors.
- Program based on the basic English language spelling patterns.

For teachers

Program requires minimal teacher input and no special training. Allows teacher to provide independent drill and practice in both regular and irregular spelling patterns. Plastic overlays for answers wipe clean to provide classroom economies.

For students

Simple but effective use of print and color helps children gain an understanding of the spelling patterns that underlie the language, irregular as well as regular words are presented. Students learn generalizations about spelling that can be transferred to thousands of new words.

Authors

Katherine Day and Patricia Lightbody with Linguistic Consultant Richard Venezky and the SRA Canada editorial staff

Components

Spelling Patterns A: 400 Cards (2 each of 200 originals, including 2 "Traffic Light" Orientation Cards), Vowel Poster, Pad of 40 Pupil Progress Sheets, 10 Overlays and 10 Markers

Spelling Patterns B: Same as Kit A, but adds 3 Dictionary Page Cards

	School Price
3-280150 Spelling Patterns A (complete kit)	\$135.50
3-280170 Spelling Patterns B (complete kit)	135.50
3-280152 Additional Pupil Progress Sheets for Kit A (pad of 40)	2.30
3-280172 Additional Pupil Progress Sheets for Kit B (pad of 40)	2.30
3-280151 Additional Teacher's Handbook (for both A and B)	3.05
3-207703 Additional package of Overlays and Markers (10 of each)	20.15
3-280159 Specimen Set	6.75

Drill Cards - colorful, nonconsumable practice.

SRA Lunchbox™ Handwriting Kits

- Unlimited, independent practice in manuscript and cursive handwriting for primary grades.
- Nonconsumable format. Exercise cards use plastic overlays so they can be used again and again.
- Carefully constructed, discrete lessons for letter, numeral, and preletter skills and full sentences.
- Letter style consistent with major basals.
- Requires no reading.

For teachers

Teachers may use kits as part of their basic handwriting program, to provide unlimited practice, or to provide instruction for individual students. Exercise cards are arranged alphabetically for easy management. Students work through the kits sequentially, or teachers assign letter cards according to their basic programs.

Pupil Progress Sheets provide name writing practice, help keep track of each student's progress, and provide space for students to demonstrate mastery of each letter.

For students

Students using the manuscript kit start by tracing preletter shapes. Directional dots and arrows show them how to do each stroke. Both kits use the trace-write approach. Students trace the letter first, then write the letter and compare it to the model for immediate feedback. Exercise cards fit inside the plastic overlays so both sides of the cards can be completed before the overlay is wiped clean.

Manuscript handwriting kit.

Cursive handwriting kit.

Components

Each kit contains 144 Exercise Cards (48 different exercise cards plus 2 duplicates of each), 10 Plastic Overlays, 10 Markers, Pad of 40 Pupil Progress Sheets, and a Teacher's Instruction Sheet.

Manuscript Handwriting

	School Price
3-1220 Lunchbox Manuscript Handwriting Kit	\$59.50
3-1225 Set of 10 Plastic Overlays and 10 Markers	18.80
3-1223 Set of 10 Plastic Overlays	11.40
3-1224 Set of 10 Markers	8.55

Cursive Handwriting

3-1230 Lunchbox Cursive Handwriting Kit	\$59.50
3-1235 Set of 10 Plastic Overlays and 10 Markers	18.80
3-1233 Set of 10 Plastic Overlays	11.40
3-1234 Set of 10 Markers	8.55

Nonconsumable penmanship practice.

SRA Composition

- Composition program for grades 4–6
- Helps develop 48 writing skills commonly taught to elementary students.
- Concentrates equally on effective structure and creative self-expression.
- Provides easy techniques for teaching and evaluating student writing.
- Encourages students to generate and revise original written work.
- Each unit is complete with both instructional and practice activities.

For teachers

Teacher acts as a reviewer of student composition activities. Cassette instruction is supplemented by spirit masters and other sets of instruction is supplemented by individuals and groups with the activities. Teacher has time to help individuals and groups with specific skills that present difficulties. Evaluation of student work is easily accomplished. Teacher's Handbook provides specific criteria against which student performance can be measured. Optional writing activities for reinforcement and enrichment are also provided.

For students

Each cassette lesson presents instruction and practice on a specific writing skill. Stories with music and sound effects heighten student interest. Spirit Masters provide opportunities for learners to participate actively with the cassette. Major writing assignments are accomplished with use of a colorful, non-consumable Model Card. Reinforcement Cards present models against which students can judge their own work.

Authors

James White and Stanley Loeb

Educational Consultant

Dr. Carolyn Roberts-dahl Freeman

Components

48 Cassette Lessons; 96 Spirit Master Worksheets, 5 copies of 48 Model Cards, 5 copies of 48 Reinforcement Cards, 1 Teacher's Handbook.

- 3-8850 Composition (complete kit)
3-8870 Additional Teacher's Handbook

School

SRA Grammar

- Drill and practice in the basics of English grammar, for grades 4–6.
- Supplements any language arts program.
- A balanced approach, combining traditional and modern grammar.
- Carefully controlled reading level.
- For use individually or in groups.

For teachers

A carefully sequenced, step-by-step approach assures each student an opportunity to master the fundamentals of grammar with minimal supervision. Review cards at the end of each unit test students on specific sections within the unit, and may also be used as placement tests. A brief Teacher's Guide contains scope and sequence and mastery score chart, suggestions for using the kit, additional ideas for review, extension activities, games, creative writing assignments.

For students

Designed to meet a wide range of individual needs, the kit includes 180 lively cards that help students learn by example. Simple, concise instructions combine with model sentences to eliminate technical definitions. An easy-to-use answer key on the back of each card, showing correct responses in context, enhances self-correcting technique. The final group of ten reference cards is a handy special-help resource unit.

Components

Two copies each of 180 Drill and Diagnostic Review Cards, four copies each of 10 Reference Cards, a Teacher's Guide, 10 Plastic Overlays, 10 Markers, a Pad of 40 Pupil Record Sheets.

NEW The Writer's Craft:
Grammar in Sentences

- Helps students in grades 4–6 write grammatical sentences.
- Appropriate for remedial use in higher grades.
- Emphasis on writing skills using specific grammar concepts.
- Immediate reinforcement of concept learnings, followed by applications of concepts in sentence-writing activities.

For teachers

No special training required of teachers. Students work through kit learning new concepts and scoring their own exercises. Only the written applications are checked by the teacher. Teacher's Guide provides scope and sequence with annotations and explanations of grammar terminology used throughout, plus suggestions for follow-up activities.

For students

Each section of the kit has its own introductory card explaining the purpose of the section and describing the concepts and the associated writing skills in that section. Concepts are followed by written applications. Seven sections in all, covering Nouns; Verbs; Nouns, Pronouns, and Verbs in Sentences; Noun Modifiers; Verb Modifiers; Phrases as Modifiers of Nouns and Verbs; and The Craft of Sentences.

Author

Robert C. Dixon, with Consultant James D. White

Components

2 copies each of 45 Exercise Cards, 4 copies each of 7 Introductory Cards, 2 copies of "How to Use" Card, 10 copies of Answer Booklet, 1 Teacher's Guide.

- 3-280290 The Writer's Craft, Complete Kit \$80.00

School
Price
\$80.00

Basic Composition Series II and III

- Unique composition program for language arts, grades 5–8.
- Individualized, carefully sequenced system allows students to advance at their own speed.

Components

Each laboratory includes basic and supplementary lessons, Answer Booklets with test answers, a Writer's Notebook and a Teacher's Handbook.

- 1 Writing Skills Laboratory
- 30 Writer's Notebooks

To order replacement components, see page 92.

Vocabulab® 3 Program

- Multilevel vocabulary program for grades 5–14.
- Explorawheels show the elements of word structure such as prefixes, roots, and suffixes.
- Vocabu-builders contain stories, articles, exercises, and activities in ten different interest areas.

Authors Don H. Parker, Joseph T. Shipley, Frederic R. Walker

Components

150 Vocabu-builders, 20 Explorawheels, 16 Key Booklets, Student Record Book, 10" 33 1/3 rpm Record, and a Teacher's Handbook.

	School Price
3-3800 Vocabulab 3 Kit, Complete Program	\$159.00
3-3801 Student Record Book (1 per student)	1.50
3-3805 Teacher's Handbook	3.70
3-3814 Specimen Set	9.50

For a class of 30 students you will need:

- 1 Complete Program
- 30 Student Record Books

To order replacement components, see page 93.

Spelling Word Power Laboratory® Series

- Personalized spelling program for grades 4–7.
- Multilevel, individualized system that incorporates programmed learning techniques.
- Self-checking exercises provide immediate correction or reinforcement.

For teachers

Sequenced Learning Wheels present specific spelling problems such as changing y to i when adding a suffix, recognizing consonant blends, and adding special plural endings. Wheels also present elements of phonics and word analysis. Achievement surveys and check tests help monitor student progress.

For students

Students begin the program at their own level of achievement, work independently, respond to the stimulus on the Learning Wheel, write their answers in their record books, and turn the wheel to check their answers. Students chart progress and get accurate starting placement in Student Record Book.

Authors Don H. Parker and Frederic R. Walker

Components

The Laboratory kit for grade 4 contains 76 Learning Wheels (2 15-word tracks per wheel). Laboratory kits for grades 5–7 include 81 Learning Wheels (2 20-word tracks per wheel). All 4 kits contain 3 Achievement Surveys for periodically checking students' progress; 44 Check Tests for testing progress at each level; Key Cards so that students can score their own Check Tests; a Student Record Book; and a Teacher's Handbook.

Grade 4

3-7500 Spelling Word Power Laboratory Kit 2a	School Price
3-7510 Student Record Book (1 per student)	\$168.00
1–99 copies, each	1.02
100–499 copies, each	.92
500 or more copies, each	.87
3-7520 Additional Teacher's Handbook	3.75
3-7570 Specimen Set	4.70

Grade 5

3-3000 Spelling Word Power Laboratory Kit 2b	168.00
3-3010 Student Record Book (1 per student)	
1–99 copies, each	1.02
100–499 copies, each	.92
500 or more copies, each	.87
3-3020 Additional Teacher's Handbook	3.75
3-3001 Specimen Set	4.70

Grade 6

3-9100 Spelling Word Power Laboratory Kit 2c	168.00
3-9110 Student Record Book (1 per student)	
1–99 copies, each	1.02
100–499 copies, each	.92
500 or more copies, each	.87

3-9170 Specimen Set	4.70

Grade 7

3-7700 Spelling Word Power Laboratory Kit 3a (revised)	168.00
3-7710 Student Record Book (1 per student)	
1–99 copies, each	1.02
100–499 copies, each	.92
500 or more copies, each	.87
3-7720 Additional Teacher's Handbook	3.75
3-7780 Specimen Set	4.70

SRA Listening Language Laboratory™ Series

- A tape cassette series of directed listening experiences for grades 1–6.
- Designed to develop crucial language and listening skills.
- Separate kit for each grade contains 24 cassettes.
- No reading skills are required for primary kits.
- Each taped lesson teaches specific words and language skills, presents a story using the words, and tests both word understanding and listening comprehension.

For teachers

Audio cassettes help students develop crucial language and comprehension skills with minimal direct teacher supervision. Laboratories 1a, 1b and 1c each present 48 lessons for grades 1–3; Laboratories 2a, 2b and 2c present 96 lessons for grades 4–6. Each of the lessons presents specific words and language concepts. Simple explanations and familiar examples are used. The student is actively involved in the lessons, and demonstrates understanding of the words by marking appropriate pictures on the activity page for that lesson. Vocabulary words are reinforced by the story that follows. Students answer comprehension questions by marking pictures on the activity sheet. Worksheets present work-along activities; answers are presented to provide immediate reinforcement, and to correct errors on the spot. The program is appropriate for reading or language art classes with individualized, small-group or whole-class instruction.

For students

The specially selected stories in the series are funny, fantastic, realistic and dramatic, and include both classic and original tales. Students use the tapes to learn new words, gain new information, and process increasingly complex verbal idea structures. The tapes are sequenced to introduce language concepts, to reinforce word meaning, and to test recall and understanding of the story. The activities are fun-to-do for young students. Lively pencil and paper activities in grades 2 and 3 include mazes, dot-to-dots, and hidden pictures. In grades 4–6, students can put together their own listening programs in their favorite content area. Work pages are in spirit-master form, so a student can repeat a lesson or unit.

Primary kits 1a, 1b, and 1c emphasize basic language concepts. The concepts are grouped into seven areas:

- Determiners of direction and position (up, down; inside, outside.)
- Determiners of quantity, degree, sequence, frequency (many, few; always, never; before)
- Polar meanings (hard, soft; empty, full; polite, rude)
- Precise meanings (cub and colt are specific animal young)
- Similar meanings (odor, smell; happy, glad)
- Multiple meanings (light, heavy; light, dark)
- Affixes—changes in meaning (rough, roughest; fill, refill)

Intermediate kits 2a, 2b, and 2c emphasize listening comprehension skills and vocabulary development. There are six comprehension categories:

- Factual, visual, sensory detail
- Order, sequence, organization
- Similarity, difference, comparison
- Causation, result, purpose
- Summary, generalization, evaluation
- Inference, deduction, prediction

Primary Components

Each kit for grades 1–3 contains 24 Tape Cassettes (48 lessons), 48 Activity Page Spirit Masters, and 1 Teacher's Handbook.

Primary kits

	School Price
3-11500 Listening Language Laboratories Package (1a, 1b, and 1c)	\$941.00
3-11300 Listening Language Laboratory 1a	342.00
3-11330 Listening Language Laboratory 1b	342.00
3-11360 Listening Language Laboratory 1c	342.00
3-11302 Additional Teacher's Handbook for 1a	7.25
3-11303 Additional Spirit Masters for 1a	22.58
3-11331 Additional Teacher's Handbook for 1b	7.25
3-11332 Additional Spirit Masters for 1b	22.58
3-11359 Additional Teacher's Handbook for 1c	7.25
3-11361 Additional Spirit Masters for 1c	22.58

See page 72 for Spanish edition.

Intermediate Components

Each kit for grades 4–6 contains 24 Tape Cassettes (96 lessons), 24 Activity Page Spirit Masters, and 1 Teacher's Handbook.

Intermediate kits

	School Price
3-11600 Listening Language Laboratories Package (2a, 2b, and 2c)	\$941.00

3-11418 Additional Spirit Masters for 2b	11.29
3-11446 Additional Teacher's Handbook for 2c	4.25
3-11447 Additional Spirit Masters for 2c	11.29

DIRECT INSTRUCTION

The programs you've
been hearing about...

...programs designed
to get results...

...programs for a wide
range of student
abilities...

...programs in Reading,
Language, Spelling,
and Math.

What is Direct Instruction?

- Interaction between teacher and students that gives immediate feedback helpful for mastery learning.
- Teacher Presentation Books with detailed lesson scripts that take the guesswork out of teaching even the hardest-to-reach students.
- Lessons that stress clear presentation of concepts, plenty of reinforcement, and cumulative sequencing.
- Daily teacher-directed activities followed by independent work that reinforces learning.

What are key benefits of this instructional design?

- Minimal lesson planning time, freeing you to focus on teaching rather than preparation.
- The confidence that comes from using a proven method. The effectiveness of Direct Instruction was demonstrated in the USOE Follow-Through study—the largest educational experiment ever conducted.*
- The satisfaction of knowing you have done the best possible job to help all of your students.

What programs are available in Direct Instruction?

- For developmental learners: The **DISTAR®** Instructional System, with primary grade programs in Reading, Language, and Arithmetic; Spelling Mastery for grades 2-6; and Mathematics Modules for older students.
- For remedial students in grade 3 and above: Corrective Reading, with modules in Decoding and Comprehension; Corrective Spelling through Morphographs; and Corrective Mathematics.

*Details of this study and the methods used are available from SRA upon request.

What's new in Direct Instruction?

- Spelling Mastery (see page 42)
- Corrective Mathematics (see page 45)
- Mathematics Modules (see page 45)
- Mastery Tests for use with Corrective Reading (see page 47)
- Español to English for use with DISTAR Language I (see page 49)
- The Solution Book: A Guide to Classroom Discipline (see page 55)

Seeing Is Believing

If you'd like to find out more about Direct Instruction, contact your local SRA Sales Offices, listed on page 100. The Direct Instruction Programs Manager can arrange a demonstration or classroom visit, and can notify you of the next workshop in your area.

NEW Spelling Mastery

- Five-level basal spelling series for grades 2-6.
- Skills taught set the stage for related language arts activities.
- May be used with entire class or with small groups.
- Uses phonemic (sound-symbol), whole-word, and morphemic (meaning-symbol) strategies.

For teachers

Fully scripted lessons, approximately 20 minutes long, eliminate time-consuming lesson planning. The teacher presents tasks, monitors student responses, and provides immediate feedback.

For students

Daily exercises in Spelling Mastery effectively and efficiently teach spelling skills. Preskills needed for any task are learned before they are applied, and students receive the amount and type of practice needed for achieving mastery. The program builds self-confidence as students learn to spell consistently and accurately.

Suggested Spelling Mastery Daily Lesson Scheduling

A	2nd year students	60 lessons, 15 to 20 minutes each
B	3rd year students	140 lessons, 20 to 25 minutes each
C	4th year students	140 lessons, 20 to 25 minutes each
D	5th year students	140 lessons, 20 to 25 minutes each
E	6th year students	140 lessons, 20 to 25 minutes each

NOTE: Lessons should be taught daily, except possibly for LEVEL A.

Corrective Reading

- Innovative remedial series for students in grades 4–12 and for adults who have not mastered decoding and comprehension skills.
- Built-in direct instruction principles to maximize success with poor readers.
- Two strands: Decoding and Comprehension, each having three levels of skill development.
- Supplementary worksheets available at Decoding B.
- Placement Test measures relevant skills in Decoding and Comprehension.
- Each daily lesson provides for teacher directed work, independent applications, and tests of student performance. Each lesson is 35–45 minutes long.

Corrective Reading is divided into two strands—Decoding and Comprehension—each with three levels of skill development. A, B and C. The Level A programs teach the elementary skills in each strand. Student's placement in the program is based on Placement Test performance.

DECODING

Level A—60 lessons

Word-Attack Basics

Emphasizes basic reading skills: sounds, rhyming, sounding out, word and sentence reading.

Level B—140 lessons

Decoding Strategies

Emphasizes critical letter and word discriminations, letter combinations, story reading and questions.

Level C—140 lessons

Skill Applications

Emphasizes word buildups, affixes, vocabulary, story reading with comprehension questions, outside reading applications.

The two strands involve continuous skill development. The skills required in Decoding C, for example, are taught in Decoding B. Conversely, skills taught in Decoding B are used in Decoding C.

Authors

Siegfried Engelmann, with Gary Johnson, Susan Hanner, Linda Carnine, Linda Meyers, Steve Osborn, Phyllis Haddox, Wesley Becker, Jean Osborn, and Julie Becker.

COMPREHENSION

Level A—60 lessons

Thinking Basics

Emphasizes oral language skills: deductions, inductions, analogies, vocabulary building, inferences.

Level B—140 lessons

Comprehension Skills

Emphasizes literal and inferential skills, reading for information, writing skills, following sequenced instructions, analyzing contradictions, learning information.

Level C—140 lessons

Concept Applications

Emphasizes advanced comprehension applications: reading for information, analyzing arguments, reasoning.

For teachers

Group instruction helps teachers make efficient use of limited time. Each program in the series includes all materials needed. Teacher's Books are divided into two parts. The first part, the Guide, provides basic information about the program and specific information on effective behaviors for teaching exercises and correcting information mistakes. The second part, the Presentation, is divided into daily lessons. Each activity in the daily lessons provides a teacher script that specifies what to say and what to do when presenting the activity.

Records of each student's performance on daily criterion-referenced measures provide ongoing, fine-grained documentation of the student's performance. Skill Profile Folders allow teacher to chart each student's progress conveniently, quickly, and step-by-step.

Supplementary Worksheets for Decoding B relate to the stories in the Student's Book and provide additional reinforcement and extension activities. An aid to classroom management.

For Students

Immediate feedback on performance and reinforcement techniques "turn on" unmotivated students. The uniform built-in reinforcement system is designed to emphasize and encourage development.

In Decoding, the stories reinforce skills and demonstrate to poor readers that "guessing" doesn't work. Humor in the stories appeals to various age groups.

In Comprehension, workbook activities provide for application of skills in a variety of formats, including real life survival skill situations. The Student's Books contain the materials needed by the student—reading selections, written exercises, and program charts—divided into daily lessons that correspond to the teacher material and provide specific activities for each lesson.

Components

Student's Book, and Teacher's Book, for each level (A, B, and C) of each strand (Decoding and Comprehension); Series Guide with rationale, philosophy, and classroom management and teaching techniques; Package of 25 Placement Tests and a Guide to Placement Testing; and Individual Skills Profile Folders in packages of 25. *Note that Comprehension C has both a Student's Workbook and a Student's Textbook.

Decoding

Code	Description	School Price

To order the Corrective Reading Program, 1974 edition, see page 93.

NEW Corrective Reading Mastery Tests

- Criterion-referenced tests for Decoding A, B, and C and Comprehension A, B, and C.
- Tests examine students on the specific skills they have been taught.
- Ideal for evaluating both individual and group progress.

For teachers

These tests are designed to give teachers an accurate assessment of students' mastery of the unique objectives in the Corrective Reading programs in Decoding and Comprehension.

The tests are easy to administer. Tests for Decoding A and Comprehension A consist of two sections each: a section administered to students individually and a section administered to the group. Tests for Decoding B and C (individually administered) and Comprehension B and C (group administered) consist of a midpoint test and an end-of-program test. The tests can either be given in a single session or divided over several sessions. An easy-to-follow Examiner's Manual is included with the Mastery Test for each program. A Student Profile is part of each test booklet.

For students

Practice items in the Decoding tests and practice sheets with the Comprehension tests ensure that students understand directions before they begin. For optimum testing conditions, tests employ the same typeface and formats that are found in the daily Corrective Reading lessons. Major skills taught in each program are tested.

Components

Each package includes 20 consumable test booklets and an Examiner's Manual (containing Group Summary Form). Each Comprehension test booklet contains a practice sheet.

Code	Description	School Price
7-2165	Decoding A Mastery Test Package (materials for testing 20 students)	\$15.00
7-2168	Decoding B Mastery Test Package (materials for testing 20 students)	30.00
7-2172	Decoding C Mastery Test Package (materials for testing 20 students)	30.00
7-2176	Comprehension A Mastery Test Package (materials for testing 20 students)	15.00
7-2179	Comprehension B Mastery Test Package (materials for testing 20 students)	30.00
7-2183	Comprehension C Mastery Test Package (materials for testing 20 students)	30.00

Comprehension C Test available Summer, 1981

DISTAR® Language

- Basal language series for preschool through grade 3.
- Teaches the foundation skills for reading comprehension.
- Demonstrated effective in national Follow-Through evaluation.*
- Focuses on expressive and receptive language and cognitive development.
- Direct instruction methods provide careful programing and sequencing.
- Scripted lessons require minimal preparation time.
- Also useful in classes where English is spoken as a second language.

Authors

Siegfried Engelmann and Jean Osborn

**For teachers**

A placement or entry test helps teachers determine where children should begin in the language program. Advanced entry points allow teachers modify the program for brighter students. Lessons in Language I and II present language concepts through several different modes, including actions, responding to pictures, questions and answers, and games. Lessons in Language III include teacher presentation of programed tasks, a period of independent skills practice, and a work-check for daily evaluation of skills.

For students

In Language I, students learn a wide range of information that help them function in a classroom and understand what they will later read. Emphasis is on responding to questions, making complete statements, and developing logical thinking skills. Language II helps students understand and communicate information. Students describe familiar objects and analyze the language used to describe them. They expand their vocabularies and build awareness of synonyms, opposites, definitions, complete sentences, questions, and analogies. Language III builds independent skill and skill in working with textbooks. Students learn to analyze the structure and the meaning of sentences in a carefully programed series of writing tasks.

DISTAR® Language I

The program contains 160 lessons designed to develop students' understanding of the language of classroom instruction. Students acquire a great deal of information about the world around them and practice using complete sentences, answering questions, and following oral directions. Key skill areas include Description of Objects, Instructional Words, Information, and Applications.

DISTAR® Language II

In 160 lessons, students learn word and sentence skills plus important thinking skills as a foundation for reading comprehension. Their range of information and vocabulary is extended. They develop questioning and reasoning skills and apply these skills to new situations. Key skill areas include Word Skills, Sentence Skills, Reasoning Skills, Directional Skills, Information, and Applications.

DISTAR® Language III

During the 160-lesson program, students analyze the structure of spoken and written sentences. Sentence analysis is systematically expanded into the writing of sentences and paragraphs. Students follow the rules of grammar and mechanics and learn to communicate information and ideas effectively. Key skill areas include Information Analysis, Information Processing, Sentence Structure Analysis, Sentence Structure Processing, Mechanics and Usage, and Writing.

Components

Language I: Teacher materials consist of a Teacher Kit containing 5 spiral-bound Presentation Books, 1 Storybook, 1 Teacher's Guide, Group Progress Indicators, and 1 set of Student Take-Home Workbooks. Student materials consist of a set of 3 Take-Home Workbooks for each student.

Language II: Teacher materials consist of a Teacher Kit containing 4 spiral-bound Presentation Books, Group Progress Indicators, 1 Teacher's Guide, and 1 set of Take-Home Workbooks. Student materials include a set of 3 Take-Home Workbooks.

Language III: Teacher materials consist of a Teacher Kit containing 1 Presentation Book, 1 Teacher's Guide, 1 Teacher's Edition of each of the 3 Workbooks, 1 copy of the Student Textbook, and 1 Answer Key for the text. Student materials consist of 1 hardbound Student Textbook and a set of 3 Workbooks.

	School Price
7-8400 DISTAR Language I Teacher Kit	\$185.00
7-8407 Additional Teacher's Guide	5.60
7-8410 Set of 3 Take-Home Workbooks for 1 Student	4.40
7-8415 DISTAR Language I Sampler Kit	7.20
7-8414 Behavioral Objectives	1.20
7-48409 DISTAR Language I Skills Profile Folders (set of 25)	7.60
7-8420 DISTAR Language II Teacher Kit	185.00
7-8426 Additional Teacher's Guide	5.25
7-8430 Set of 3 Take-Home Workbooks for 1 Student	5.30
7-8435 DISTAR Language II Sampler Kit	7.20
7-8427 DISTAR Language II Behavioral Objectives	1.25
7-48429 DISTAR Language II Skills Folders (set of 25)	7.60
7-7790 DISTAR Language III Teacher Kit	116.40
7-7789 Additional Teacher's Guide	5.60
7-7795 Set of 3 Student Workbooks for 1 Student	6.50
7-7799 Student Textbook	7.75

For a class of 25 students you will need:
 1 Teacher Kit for the appropriate level of DISTAR Language
 25 sets of Take-Home Workbooks for each level ordered
 25 Student Textbooks (for DISTAR Language III only)

See page 54 for DISTAR Mastery Tests and Skills Profile Folders.
 See page 55 for Special Education Supplements.
 To order replacement components, see pages 93-94.

NEW Español to English

- For use in conjunction with DISTAR Language I.
- English language development program for Spanish-speaking students in preschool through grade 3.
- Provides transition from Spanish to English for students with limited English language fluency. Maximizes their progress through DISTAR Language I.

For teachers

Scripted lessons and step-by-step coordination with DISTAR Language I make it easier to help students through the transition from Spanish to English.

For students

Spanish-speaking students learn the language skills they need to understand and communicate in an English-speaking classroom. New vocabulary and concepts are explained in Spanish and modeled in English. Spanish assistance decreases as students become more proficient in English. Emphasis is on responding to questions and making complete statements in English.

Adapted by

Correl Robinson

Components

One Teacher Presentation Book and one Teacher's Guide.

	School Price
7-2160 Español to English, Complete	\$56.00
7-2162 Additional Teacher's Guide	5.00

Available March, 1981

*Details of this Follow-Through evaluation and methods used are available from SRA upon request.

DISTAR® Reading

- Basal reading series for preschool through grade 3.
- Demonstrated effective in national Follow-Through evaluation.*
- Direct and economical teaching of concepts accomplished through careful programing and sequencing.
- Teacher-student interaction with immediate feedback provides continuous evaluation and eventual mastery.
- Scripted lessons require minimal preparation time.

For teachers

Instructions and visual materials for each lesson are together in a Presentation Book, including complete directions for teaching stories as well as seatwork. Appropriate student responses are shown in each lesson script. Scripted lessons teach decoding skills, sound combinations, reading for comprehension, and the application of new concepts.

The in-program tests in Reading I and II supplement daily evaluation and provide information to assist in adjusting group progress. Storybooks offer a wide variety of appealing stories, including some that last for a number of days and require students to remember what they have read. Workbooks provide exercises in comprehension, application, and review for each lesson.

For students

Students are taught basic reading skills that are vital for success in school and in life. Specific lessons in the Storybooks help students master difficult words needed for advanced, independent reading. Beginning comprehension skills are emphasized in both written and oral exercises. Students eventually become independent readers, learning how to concentrate on key parts or rules of a factual account, how to base deductions on these rules, and how to apply the rules to new situations.

The program is appropriate for all students—the average and the bright as well as those who have difficulty learning. High-performing students can move rapidly through the program. Fast Cycle, consisting of 70 lessons, helps students who need additional work or review before they enter Reading II. Fast Cycle can also be used with high-performing kindergarten and first-grade students who have had no previous reading experience.

Authors

Siegfried Engelmann, Elaine C. Bruner (Reading I and II), and Susan Stearns Hanner (Reading III)

*Details of this Follow-Through evaluation and methods used are available from SRA upon request.

DISTAR® Reading I

Students learn, in 160 lessons, such decoding skills as sound, symbol identification, left-to-right sequence, and the oral blending of sounds to make words. Sounding-out is followed by word reading and, later, by sentence reading. Spelling is optional. At the end of the program, children have learned over 500 words and are reading stories of over 100 words with understanding. Some key skill areas: Sounds, Blending, Rhyming, Reading Vocabulary, and Story Reading with Comprehension.

DISTAR® Reading II

160 lessons teach students to concentrate on important sound combinations and word discriminations and to use a variety of word-attack skills. Literal and inferential comprehension, including deduction-processing and instruction-following, are emphasized. At the program's completion, students have learned over 1200 words and have become fluent decoders, reading stories of several hundred words with comprehension. Some key skill areas: Sound-Symbol Identification, Sound Combinations, Reading Vocabulary, Story Reading, Picture Comprehension, Reading Comprehension, Picture Deductions, and Written Deductions.

DISTAR® Reading III

The program contains 175 lessons. Through stories dealing with science and social studies, students learn how to find and concentrate on key parts of a written account, how to use this information in making deductions, and how to apply it in new situations. The program also extends students' word-attack skills and introduces basic dictionary skills. Reading III provides the skills needed to learn from textbooks and from nonfiction reading. Some key skill areas: Vocabulary, Definitions, Dictionary Skills, Story Reading, Comprehension, Deduction, and Problem-Solving Applications.

Components

Reading I: Teacher materials consist of 3 spiral-bound Presentation Books, 1 Test Book, 1 Spelling Book, 1 Teacher's Edition of the Student Take-Home Workbooks, 1 set of Student Storybooks, 1 Cassette containing sound pronunciation and sample tasks, 1 Teacher's Guide, 1 Acetate Page Protector, and Group Progress Indicators. Student materials consist of 3 Storybooks and 3 Take-Home Workbooks for each student.

Reading II: Teacher materials consist of 4 spiral-bound Presentation Books, 1 Teacher's Guide, 1 Spelling Book, 1 Teacher's Edition of the Student Take-Home Workbooks, 1 set of Student Readers, 1 spiral-bound Fast Cycle Presentation Book, 1 Fast Cycle Teacher's Workbook, 1 Acetate Page Protector, and Group Progress Indicators. Student material consists of 4 Storybooks, 3 Take-Home Workbooks, and a Fast Cycle Take-Home Workbook for each student in the Fast Cycle Program.

For a class of 25 students you will need:
 1 Teacher Kit for Reading I or Reading II
 25 Sets of Storybooks for the appropriate level
 25 sets of Take-Home Workbooks for the appropriate level

Reading III: Teacher materials consist of 5 Presentation Books, 5 Annotated Workbooks (1 for each level), and 1 Teacher's Guide. Student materials consist of 5 Readers and 5 Workbooks (1 for each level).

For a class of 25 students you will need:
 1 Teacher Kit for Reading III
 25 Readers for each level, A-E
 25 Workbooks for each level, A-E

	School Price
7-8300 DISTAR Reading I Teacher Kit	\$171.00
7-8306 Additional Teacher's Guide	4.90
7-8320 DISTAR Reading I Storybooks (set of 3 Storybooks for 1 student)	5.50
7-8315 DISTAR Reading I Take-Home Workbooks (set of 3 Take-Home Workbooks for 1 student)	6.85

Training Program for DISTAR® Reading I

- Audio-visual training package for consultants, administrators, and teachers.
- May be used for group or self study.
- Demonstrates the performance and pacing of skilled teachers and the responses of children in the classroom.

For teachers

Preservice and inservice training of DISTAR® Reading I. The audio-visual package consists of seven filmstrips and seven accompanying cassettes, with detailed instructions for their use.

Filmstrips 1 and 2 give an overview of DISTAR Reading I and show how to implement it. The other 5 filmstrips and cassettes explain and demonstrate key teaching tasks. The Training Program is based on the Teachers Guide for Reading I.

Author

Linda Meyers

7-8325  Complete Kit (includes 7 Filmstrips, 7 Cassettes, and Instructions for Use)

School Price
\$172.00

DISTAR® Library Series, 1977 edition

- Lively, supplementary reading materials for independent use by students in DISTAR® Reading I.
- Contains forty-nine new stories plus seven of the most popular stories from the original DISTAR Library.
- High-interest, illustrated materials written especially for the series.
- Series can be used with 1969 and 1974 editions.

For teachers

DISTAR® Library Series helps teachers provide students with reward, reinforcement, and an opportunity to engage in independent reading. Provides independent work correlated by lesson to DISTAR Reading I, beginning at lesson 50 and using the appropriate typeface.

For students

The reading skills students learn in DISTAR Reading I are reinforced by six interesting and colorful books of increasing reading difficulty. Students know the feeling of success, because books match their levels of reading achievement. Books serve as rewards for reading achievement.

Authors

Siegfried Engelmann and Elaine C. Bruner

Components

60 Books (10 copies each of 6 different books), a Storage Box and a Teacher's Guide.

	School Price
7-7890 DISTAR Library Series, for DISTAR Reading I, Complete Kit	\$118.00
7-7897 Additional Teacher's Guide	2.15

DISTAR® Activity Kits for Reading and Language

- Two kits of supplemental seatwork for activities presented in DISTAR® Reading I and Language I.
- Minimum teacher involvement required.
- Students work independently or in small groups while other groups are being taught.

For teachers

Kits reinforce specific groups of Level I lessons. Helpful in providing catch-up work and extra practice while teacher is occupied with another group. Developed with the aid of DISTAR consultants and teachers, based on their classroom experience.

For students

Attractive, easy-to-use kits contain a wide variety of formats for practicing skills taught in the DISTAR programs. Puzzles and games in the Language kit keep students interested and motivated while reinforcing their DISTAR skills. Brightly colored, non-consumable Practice Cards in the Reading kit allow for repeated practice of skills.

Components

Reading kit: 80 Practice Cards, plus duplicates, 52 Spirit Masters, 8 decks of Playing Cards, 10 Plastic Overlays, 1 Teacher's Handbook
Language kit: 90 Spirit Masters, 6 Puzzles, 5 Game Boards with Cards and Spinners, Decks of Playing Cards, 1 Teacher's Handbook.

DISTAR® Arithmetic

- Basal arithmetic series for preschool through grade 3.
- Demonstrated effective in national Follow-Through evaluation:
- Teaches basic understanding of arithmetic and the skills necessary to attack and solve problems.

For teachers

All instruction and visual materials for a lesson are together in a Presentation Book. The Presentation Book includes frequent tests, guidelines for skipping lessons, and procedures for correcting common learning problems. In-program tests supplement daily evaluation and diagnose specific problems. Scripted lessons provide the convenience of minimal preparation time.

For students

Independence in problem solving is stressed. Ample practice enables all students to experience success. Take-Home Workbooks increase motivation and assist in the evaluation of students' progress. Workbooks are used for instruction as well as for independent seatwork.

Authors

Siegfried Engelmann and Doug Carnine

DISTAR® Arithmetic I, Second Edition

In 160 lessons, students acquire strategies for analyzing and solving addition, subtraction, and algebra addition problems. These strategies, based initially on counting, lead to story-problem solving. From an understanding of about 35 arithmetic facts, students use their strategies to derive unfamiliar facts and solve a wide range of problems. Some key skill areas: Facts and Fact Derivation, Multiplication, Story Problems, Rote Counting, Symbol Identification, Equality, Addition, Subtraction, Facts, and Story Problems.

DISTAR® Arithmetic II, Second Edition

In 160 lessons, students acquire strategies for handling multiplication, algebra multiplication, operations with fractions, and problems in columns. They apply their knowledge to story problems, telling time, and determining the sums of coins. Students also broaden their knowledge of basic arithmetic facts and learn simple statements of equivalence in metric and/or standard measurement units. Some key skill areas: Facts and Fact Derivation, Multiplication, Story Problems, Problems in Columns, Fraction Operations, Length and Weight Measurement, Applications of Operations, and Negative Numbers.

Components

Arithmetic I: Teacher materials consist of 3 spiral-bound Presentation Books, 1 Teacher's Edition of each of the Take-Home Workbook Boards, 1 Acetate Page Protector, and Group Progress Indicators. Student materials consist of 3 Take-Home Workbooks, packaged together, for each student.

Arithmetic II: Teacher materials consist of 4 spiral-bound Presentation Books, 1 Teacher's Edition of each of the Take-Home Workbook Boards, 1 Acetate Page Protector, and Group Progress Indicators. Student materials consist of 3 Take-Home Workbooks, packaged together, for each student.

		7.60

For a class of 25 students you will need:
 1 Teacher Kit for DISTAR Arithmetic I or II
 25 sets of Workbooks for each level ordered

See pages 54-55 for DISTAR Mastery Tests, Skills Profile Folders, and Special Education supplements.
 To order replacement components, see page 93.

For information about Arithmetic III, see your SRA Representative.

*Details of this Follow-Through evaluation and methods used are available from SRA upon request.

DISTAR® Mastery Tests

- Criterion-referenced tests for Reading I and II, Language I and II, Arithmetic I and II.
- Tests the specific skills students have been taught.
- Ideal for evaluating both individual and group progress.

For teachers

These tests were specifically designed to give teachers an accurate measurement of their students' mastery of the unique scope and objectives of the DISTAR® Programs.

The tests are easy to administer. Each is group administered, takes just about an hour to complete, and can be given either in one session or broken up into several. Teachers score the tests using the Answer Key provided. An easy-to-follow Examiner's Manual is included with each test.

For students

Progress is measured by three items per objective. Practice sheets are provided to help put test-shy students at ease. For optimum testing conditions, the Level I Reading and Arithmetic tests use the same type face and orthography students are familiar with in their daily lessons. The major skills taught in each program are tested.

Components

Each Distar Mastery Test includes 25 sets of Consumable Test Sheets, 1 Examiner's Manual, (with Answer Key), and 25 Practice Sheets.

	School Price
7-67940 DISTAR Reading I Mastery Test (materials for testing 25 students)	\$27.50
7-67946 DISTAR Reading II Mastery Test (materials for testing 25 students)	27.50
7-67952 DISTAR Arithmetic I Mastery Test (materials for testing 25 students)	27.50
7-67959 DISTAR Arithmetic II Mastery Test (materials for testing 25 students)	27.50
7-67965 DISTAR Language I Mastery Test (materials for testing 25 students)	27.50
7-67971 DISTAR Language II Mastery Test (materials for testing 25 students)	27.50

DISTAR® Skills Profile Folders

- Skills Profile Folders for DISTAR® Reading I, Reading II, Arithmetic I, Arithmetic II, Language I, and Language II.
- Quick, convenient means of tracking students' progress. Provide an objective record for each student. A means of communicating students' accomplishments to parents, new teachers, and others.
- Chart inside folder lists general skill categories, specific skills, lessons in which each skill is taught. Skills can be checked off as mastered. Includes place to mark the dates lessons are completed.
- Provides place to record teacher's name, placement test results, grade or year in school, days absent, teacher's comments and recommendations.
- Especially helpful to special education teachers, others involved in preparing and maintaining individual education plans for handicapped students.

Components

Each package contains 25 Skills Profile Folders.

7-48409	Distar Language I Folders (pkg. of 25)	\$7.60
7-48429	Distar Language II Folders (pkg. of 25)	7.60
7-48333	Distar Reading I Folders (pkg. of 25)	7.60
7-48473	Distar Reading II Folders (pkg. of 25)	7.60
7-48373	Distar Arithmetic I Folders (pkg. of 25)	7.60
7-48399	Distar Arithmetic II Folders (pkg. of 25)	7.60

Special Education Manual, Packages, and Editions

- For use with DISTAR® Reading, Language, and Arithmetic programs.
- Manual, "Teaching Children with Special Needs," presents strategies for adapting all 3 DISTAR programs to the special education classroom.
- Manual, Skills Profile Folders, and Mastery Tests can be purchased together as a package.
- DISTAR Reading I and II, Language I and II, and Arithmetic I and II available in Special Education Editions.

Description

The Manual focuses on ways to work with children who are mildly or moderately handicapped, particularly those who may have learning disabilities, mental retardation, or emotional impairments. It also provides helpful information for those who are working with more severely handicapped students. There are general suggestions for dealing with exceptional children and specific suggestions for modifying the DISTAR programs to accommodate these children. Skills Profile Folders allow recording of student performance by objectives and aid in the preparation of IEPs. For more on Skills Profile folders and Mastery Tests, see page 54.

7-6241	Special Ed Edition: DISTAR Arithmetic II	218.85

NEW The Solution Book: A Guide to Classroom Discipline

- Gives practical, simple solutions to classroom behavior problems.
- Takes positive approach to discipline.
- Addresses the problems that teachers consider "top priority."
- Tells precisely how to deal with specific situations.
- Applicable to any classroom organization.

For teachers

Ten booklets and 100 Solution Sheets in looseleaf binder provide a ready reference manual on preventing behavior problems in the classroom and dealing with those that occur. Booklets cover general topics such as Setting Goals and Expectations, Establishing Classroom Rules, Teaching Self-Reliance, Effective Reinforcement and Punishment, When to Ignore Misbehavior, and such as fighting, talking out, non-compliance, or failure to complete work, and offers a specific solution. A real "how-to" book—not just a theory book.

For students

Students benefit from the enhanced learning environment of a well-run classroom. Dr. Sprick's positive approach stresses motivational and reinforcement techniques that help students see the value of disciplined and productive behavior.

Author

MATHEMATICS

Arithmetic Fact Kit, 1980 Edition

- Newest edition provides practice with basic arithmetic facts for grades 3-8.
- Complements any basal program.
- Use with small groups or individuals, with little supervision.
- Develops speed with Factpacer® device.
- Student Record Book contains instruction, tests, progress charts.

For teachers

Adds a new dimension to drill with carefully devised Fact Cards that develop speed, accuracy, and mastery of addition, subtraction, multiplication, and division. Frees teachers to give individual attention. Test results direct students to proper place in kit. Mastery Test Card follows each group of Fact Cards. All new Self-Help Cards present concepts, games, and hints to help master facts.

For students

Covers single-digit facts basic to success at all levels. Student competes with own past performance by using the Factpacer, a mechanical shutter device that helps develop speed. Students can work at their own rates.

Author Dale R. Rapp

Components

A Factpacer Device, 176 Fact Cards, 24 Preview Cards, 24 Mastery Cards, 144 Self-Help Cards, 1 Student Record Book, 1 Teacher's Guide and "How to Get Started" Card

For a class of 30 students you will need:
Arithmetic Fact Kit,
30 Student Record Books

Computational Skills Development Kit, 1980 Edition

- Most recent edition of classroom-proven kit for grades 6-8.
- Focuses on basic computational skills.
- Can supplement any mathematics program.
- Students work independently, with little or no supervision.

For teachers

Designed to help students discover their own weaknesses and take appropriate action. Takes little of the teacher's time. Survey Tests reveal students' problem areas and direct them to Diagnostic Tests. These are keyed to specific Exercise Cards. All new Reference Cards provide additional help with little reading, and are keyed to the Exercise Cards. Progress Tests evaluate skill mastery. Simple Teacher's Guide includes comprehensive list of skills.

for students

Helps students discover weaknesses and strengthen skills in addition, subtraction, multiplication, and division of whole numbers, fractions, and decimals, and in work with percents. Student places a sheet of paper under the Exercise Card and works the problem through cut-out slots in the card. When the card is turned over, correct answers appear next to student's answers.

Authors Charles M. Proctor, Jr. and Patricia Johnson

Components

16 pads of Diagnostic Tests (30 per pad), 397 Exercise Cards (166 originals), 24 Reference Cards, 1 Student Record Book, 1 Teacher's Guide and "How to Get Started" Card

Cross-Number Puzzle Boxes, 1980 Edition

- Latest edition of classroom-proven drill kits for grades 4-12.
- Cross-Number Puzzles are self-checking.
- Cross-Number Placement Tests determine students' needs.
- Optional Placement Tests determine students' needs.
- Format motivates and interests students.
- Instruction is individualized.

For teachers

Four kits of mathematics drill using intriguing crossword puzzle format: Whole Numbers, Fractions, Decimals and Percent, and Story Problems. Takes little teacher time. Helps improve computational and problem-solving skills taught in any math program. Puzzles are graded in difficulty within each box. Puzzle Squares are available in workbook or spirit master format.

for students

After initial introduction, students work independently—choosing their own puzzles, solving them, and recording progress.

Authors Mark Murfin and Jack Bazelon (Whole Numbers, Fractions, Decimals and Percent) and SRA Mathematics Department (Story Problems)

Components

Each kit contains 200 Cross-Number Puzzle Cards (100 originals), 1 Answer Key, 1 "How to Get Started" Card, 1 "How to Work a Puzzle" Card, 1 "Teacher's Guide" Card with complete skills listing, and 1 Class Progress Chart.

Skill Modes in Mathematics

- Helps diagnose and remedy math deficiencies, grades 4–adult.
- Cards direct student to areas where work is needed.
- Instruction and programed practice help correct weaknesses.
- Mastery test for each level evaluates overall mastery of skills.

For teachers

Helps discover and remedy deficiencies in arithmetic skills usually covered in grades 4–6. Kits contain the following topics:

Level I: Adding, multiplying, and dividing whole numbers (part 1); subtracting whole numbers (complete); converting fractions (part 1); adding and subtracting fractions (part 1).

Level II: Adding, multiplying, and dividing whole numbers (part 2); converting fractions (part 2); adding and subtracting fractions (part 2); multiplying fractions; converting mixed numbers; adding and subtracting mixed numbers.

Level III: Dividing whole numbers (part 3); dividing fractions; multiplying and dividing mixed numbers; converting decimals; adding, subtracting, multiplying, dividing decimals; converting percents.

For students

Skill Cards provide practice and diagnose difficulties. Stop-and-Think Cards contain brief instructional sequences to help students overcome difficulties diagnosed by Skill Cards. Practice Cards redirect students to areas still not mastered. The program is completely individualized; students work at their own pace and record their progress in Student Record Books.

SRA Mathematics Department, Consultants; Robert Gagné, M. Vere DeVault, Elinor Ford, Veronica Berreen.

Components

Level I contains 274 Skill Cards (137 originals) in 8 areas, 274 Stop-and-Think Cards (137 originals), 13 Practice Cards, a Teacher's Handbook, and a Student Record Book. Level II contains 294 Skill Cards (147 originals) in 14 areas, 350 Stop-and-Think Cards (175 originals), 17 Practice Cards, a Teacher's Handbook, and a Student Record Book. Level III contains 248 Skill Cards (124 originals) in 12 areas, 262 Stop-and-Think Cards (131 originals), 15 Practice Cards, a Teacher's Handbook, and a Student Record Book.

	School Price
3-44010 Skill Modes in Mathematics Level I Student Record Book for Level I	\$119.70
3-44011 Student Record Book for Level I	.78
3-44020 Skill Modes in Mathematics Level II	119.70
3-44021 Student Record Book for Level II	.78
3-44030 Skill Modes in Mathematics Level III	119.70
3-44031 Student Record Book for Level III	.78
3-44017 Additional Teacher's Handbook (all 3 levels)	4.10

For a class of 30 students you will need:
1 Skill Modes in Mathematics Kit
30 Student Record Books

To order replacement components, see page 95.

NEW diagnosis®: an instructional aid—
Mathematics, Levels A and B

- New for 1980-81: labs B1 and B2.
- Objectives-based diagnostic tests for grades K–8.
- Pinpoints specific weaknesses in mathematics.
- Provides activities for remediation.
- Tracks individual and class progress for a year or longer.

For teachers

Completely up-to-date, self-contained labs provide teachers with survey tests to identify broad areas of weakness and diagnostic tests to pinpoint the difficulties. To allow for retesting, two forms of each test are provided. Each lab also contains easy-to-use scoring devices and a teacher's guide with materials to help the student overcome difficulties. Prescription guides help the teacher locate material for remediation. Student Record Sheets and Class Charts provide efficient means for managing the labs.

For students

Students often experience greater success in mathematics when using this diagnostic-prescriptive program. Attractive and easy-to-handle survey and diagnostic tests provide students with non-threatening testing situations.

Content

Level A (grades K–3) covers number concepts, addition, subtraction, story problems, geometry, and measurement.

Level B (grades 3–8) contains two labs. Lab B1 tests whole numbers, Lab B2 tests fractions, decimals, ratios, and percents. Both test geometry and measurement.

Components

Level A: 12 spirit masters for the Survey Test (6 for Form 1 and 6 for Form 2), 50 consumable copies of the 28 probes (25 for Form 1 and 25 for Form 2), 28 styrene overlay answer keys, 1 Teacher's Guide, 1 Prescription Guide for SRA Supplementary Products, 1 spirit master for the Student Record Sheet, 1 Class Chart, 1 set of Divider Cards. Prescription Guides to basal textbooks are available.

Level B, Lab B1: 16 spirit masters for the Survey Test (8 for Form 1 and 8 for Form 2), 50 consumable copies of the 20 probes (25 for Form 1 and 25 for Form 2), 8 spirit masters for Tests of Basic Facts (4 for Form 1 and 4 for Form 2), 14 answer key cards (2 sets of 7 each), 1 Teacher's Guide, 1 Prescription Guide for SRA Supplementary Products, 1 spirit master for the Student Record Sheet, 1 Class Chart, 1 set of Divider Cards. Prescription Guides to basal textbooks are available.

Level B, Lab B2: 14 spirit masters for the Survey Test (7 for Form 1 and 7 for Form 2), 50 consumable copies of the 21 probes (25 for Form 1 and 25 for Form 2), 14 answer key cards (2 sets of 7 each), 1 Teacher's Guide, 1 Prescription Guide for SRA Supplementary Products, 1 spirit master for the Student Record Sheet, 1 Class Chart, 1 set of Divider Cards. Prescription Guides to basal textbooks are available.

SRA Mathematics Drillpak™

- Supplements any basal mathematics program for grades 4–6.
- A continuation of SRA's Schoolhouse: Mathematics programs, with more mature content and appearance.
- Provides review of basic algorithms.
- Economical, colorful, and easy to use.
- Designed to be used individually or in groups.
- Can be used for diagnosis.

For teachers

Provides review of basic algorithms followed by independent, self-checking practice using Skill Cards with a plastic overlay. Supplements any basal program for grades 4–6, and focuses on skills usually practiced in these grades. Also provides remediation for grades 7–8.

Kit is suitable for students with limited reading abilities.

Kit includes "Here's How" Cards that review the algorithms. Skill Cards for practice, and Review Cards to survey ability or to check progress.

For students

Offers review of basic algorithms and mathematics skill practice in the following areas:

Numbers: Place value, order, compare 4-, 5-, and 6-digit whole numbers; order, compare fractions and mixed numbers; round value, order, compare decimals tenths through thousandths; rounding whole numbers to nearest ten, hundred, or thousand, estimating answers; and rounding decimals to the nearest whole number, tenth, or hundredth.

Addition and subtraction: Addition and subtraction of 2- through 5-digit numbers with renaming.

Multiplication and division: Multiplication of a 1- or 2-digit factor by a 2- or 3-digit factor with renaming and division by a 1- or 2-digit divisor, 1-, 2- or 3-digit quotient, with and without remainders.

Decimals: Addition and subtraction of decimals (tenths through thousandths); multiplication of tenths times tenths or hundredths; and division of decimals by a whole number or decimal divisor.

Fractions: Addition and subtraction of fractions and mixed numbers with like or unlike denominators and multiplication and division of fractions and mixed numbers.

Word Problems: Word problems (all operations and types of numbers).

Geometry: Motion geometry (flips, slides, turns); graphing ordered pairs (first quadrant).

Measurement: Computing area, perimeter, and volume using metric measurements.

Author

Louise Peterman

Components

440 full-color Skill Cards (220 originals), 10 Plastic Overlays, 10 Markers, 1 pad of 40 Pupil Record Sheets, and a Teacher's Guide

	School Price
3-280210 SRA Mathematics Drillpak, Complete Kit	\$142.90
3-280211 Additional Teacher's Guide	3.30
3-280212 Additional Pupil Record Sheets (pad of 40)	2.35
3-207703 Package of 10 Plastic Overlays and 10 Markers	20.15
3-207704 Package of 10 Markers	10.30
3-280219 Review Set	6.30

For a class of 30 students you will need:

- 1 SRA Mathematics Drillpak
- 2 Additional Packages of Plastic Overlays and Markers

To order replacement components, see page 95.

Schoolhouse®: Mathematics Series

- Three kits supplement any basal mathematics program for grades 1-4.
- Economical, colorful, and easy to use.
- Designed to be used independently or in groups.
- Can also be used for diagnosis.
- Each card has answer key on the back for self-checking and immediate reinforcement or correction.

Schoolhouse®: Mathematics 1

- Supplements any basal mathematics program for grade 1 or 2.
- Focuses on skills usually developed in grade 1.
- Special education edition and supplements available.

For teachers

Enables teachers to provide additional drill and practice where needed. Easy for young children to use on their own—directions require only minimal reading and vocabulary skills. Students write answers on a plastic overlay, then compare with the answer key for immediate reinforcement or correction.

For students

Lively, full-color cards offer a unique way to practice mathematics skills in the following areas:

Numbers: Concept, order, place value for numbers 0-99; practice with writing numerals; ordinal numbers (first-tenth).

Addition and Subtraction: Concepts of addition and subtraction; practice of addition and subtraction facts; addition and subtraction of 2-digit numbers without renaming.

Fractions: Concept of fractions.

Word Problems: Word problems (addition, subtraction).

Geometry: Geometry with basic shapes.

Measurement: Measurement with nonstandard units.

Time and Money: Telling time to the hour, half-hour; counting money (coins).

Consultant

Ellen Wernecke

Components

400 Skill Cards (2 copies each of 200), 10 Plastic Overlays, 10 Markers, 1 Pad of 40 Pupil Record Sheets, 1 Teacher's Guide.

	School Price
3-207900 Schoolhouse: Mathematics 1 (complete kit)	\$142.90
3-207901 Additional Teacher's Guide	3.30
3-207902 Additional Pupil Record Sheets (pad of 40)	2.35
3-207703 Additional package of Plastic Overlays and Markers (10 of each)	20.15
3-207704 Additional package of Markers (10)	10.30
3-207919 Review Set	6.30
3-4294 Manual: Teaching Children with Special Needs—Schoolhouse Mathematics 1	4.20
3-4295 Student Profile Folders, package of 10	5.60
3-007 Combined purchase of 1 Manual, 1 package of Folders, and 1 Activity Book	13.75
7-6243 Special Ed Edition: Schoolhouse: Mathematics 1 (includes regular Schoolhouse Mathematics 1 program, 1 Manual, 1 pkg. of Folders, and 1 Activity Book)	158.75

For Spanish language edition, see page 71.

Schoolhouse®: Mathematics 2

- Supplements any basal mathematics program for grades 1-3.
- Focuses on skills usually developed in grade 2.

For teachers

Full-color Skill Cards with plastic overlays provide independent, self-checking practice in basic mathematics skills. May also be used to diagnose students' needs.

For students

Little reading required. Offers mathematics skills practice in the following areas:

Numbers: Concept, order, place value for 2- and 3-digit numbers.

Addition and Subtraction: Practice of addition and subtraction facts; addition and subtraction of 2- and 3-digit numbers without renaming; addition with renaming (2-digit plus 1- or 2-digit numbers); subtraction with renaming (2-digit minus 1- or 2-digit numbers); addition with three addends, no renaming.

Multiplication: Concept of multiplication (basic facts only).

Fractions: Models of fractions.

Word Problems: Word Problems (addition and subtraction).

Geometry: Geometry with basic shapes; symmetry, readiness for area.

Measurement: Measurement to nearest centimeter; reading temperatures, making graphs. (Introduces metric units.)

Time and Money: Telling time to nearest 5 minutes; counting money (between \$1 and \$2).

Consultants

Ellen Wernecke and Douglas Inglis

Components

400 Skill Cards (2 copies each of 200), 10 Plastic Overlays, 10 Markers, 1 Pad of 40 Pupil Record Sheets, 30 Plastic Rulers, and a Teacher's Guide.

	School Price
3-207960 Schoolhouse: Mathematics 2 (complete kit)	\$142.90
3-207964 Additional Teacher's Guide	3.30
3-207996 Additional Pupil Record Sheets (pad of 40)	2.35
3-207703 Additional package of Plastic Overlays and Markers (10 of each)	20.15
3-207704 Additional package of Markers (10)	10.30
3-207963 Additional package of Rulers (30)	6.15
3-207969 Review Set	6.30

Schoolhouse®: Mathematics 3

- Supplements any basal mathematics program for grades 2-4.
- Focuses on skills usually developed in grade 3.

For teachers

Full-color Skill Cards with plastic overlays provide independent, self-checking practice. May also be used to diagnose students' needs. Program is suitable for students with limited reading abilities.

For students

Offers mathematics skill practice in the following areas:

Numbers: Concept, order, place value for 2-, 3- and 4-digit numbers; rounding numbers to nearest 10, 100; estimating answers.

Addition and Subtraction: Review of addition and subtraction facts; addition and subtraction of 2- and 3-digit numbers with renaming.

Multiplication and Division: Concept of multiplication and practice with basic facts; multiplication of 1-digit factor times 2-digit factor, with and without renaming; concept of division and practice with basic facts; division by 1-digit divisor, 2-digit quotient, with and without remainders.

Fractions: Addition and subtraction of fractions with like denominators.

Word Problems: Word problems (all operations).

Geometry: Geometry with basic shapes; symmetry, motions (flips, slides, turns).

Measurement: Measurement to nearest centimeter; practice with meter, liter, kilogram; reading temperatures, making graphs; area and perimeter. (Introduces metric units.)

Time and Money: Telling time to nearest minute.

Consultants

Ellen Wernecke and Douglas Inglis

Components

400 Skill Cards (2 copies each of 200), 10 Plastic Overlays, 10 Markers, 1 Pad of 40 Pupil Record Sheets, 30 Plastic Rulers, and a Teacher's Guide.

	School Price
3-280090 Schoolhouse: Mathematics 3 (complete kit)	\$142.90
3-280094 Additional Teacher's Guide	3.30
3-280095 Additional Pupil Record Sheets (pad of 40)	2.35
3-207703 Additional package of Plastic Overlays and Markers (10 of each)	20.15
3-207704 Additional package of Markers (10)	10.30
3-280093 Additional package of Rulers (30)	6.15
3-280099 Review Set	6.30

For a class of 30 students you will need:
 1 of the appropriate Schoolhouse mathematics kits
 2 additional packages of Plastic Overlays and Markers if all students will be using a kit at the same time

To order replacement components for any Schoolhouse mathematics kit, see page 96.

Problem Solving Kit

- Designed to use with calculators, grades 6-adult.
- Problem-solving strategies and applications use real-world examples and situations.
- Supplements any basal math program.
- Cards are plastic coated for durability.
- Evaluation spirit masters contain hidden clues which are revealed by rubbing with a special marker.

For teachers

Helps develop problem-solving skills through a variety of carefully sequenced, high-interest problems. An effective way of introducing the calculator into the classroom. Kit can be used independently or with groups. The Teacher's Guide contains suggestions for selecting with calculators and managing the classroom. Kit includes five strategy sections: identifying needed information; simplifying a problem; breaking a problem into parts; making a model; doing research. There are six applications sections: averages; percents; rates, ratios, and proportions; combinations; finite differences; sequential ratios. One section offers mixed practice.

For students

Unique way to teach students how to analyze problems and develop strategies for solving them. The kit, designed for use with any calculator, helps students estimate answers and create solution plans. Students not familiar with calculators should first complete the "Using Your Calculator" workbook (see below).

Author

Wallace P. Judd

Components

12 sections of Cards (each consisting of 1 example card and 11 problem cards for a total of 144 cards), 1 Answer Booklet, 30 Student Record Folders, 24 Evaluation Spirit Masters, 2 Record-keeping Spirit Masters, 1 Class Progress Record, 2 Spirit Master Markers, 2-page Spirit Master Test, 1 "Using Your Calculator" Workbook, 1 "Using Your Calculator" Guide/Key, and a Teacher's Guide.

	School Price
3-1230 Problem Solving Kit	\$111.45
3-1231 Using Your Calculator (set of 10 plus Guide/Answer Key Booklet)	7.65
3-1232 Additional Teacher's Guide	3.20
3-1249 Specimen Kit	6.15

For a class of 30 students you will need:

- 1 Problem Solving Kit
- 30 Using Your Calculator (for students not familiar with calculators)
- 5 calculators, any model (not furnished by SRA)

To order replacement components, see page 95.

Using Your Calculator

- Familiarizes students and teachers with the features and use of a minicalculator (algebraic logic).
- Helpful for anyone who has little or no experience working with a calculator.
- Can be used for in-service training before teachers introduce calculators in the classroom.
- 32-page consumable workbook for grades 6-adult.

	School Price
3-1231 Using Your Calculator (set of 10 plus Guide/Answer Key Booklet)	\$7.65

Mathematics: An Activity Approach

- Supplements most mathematics programs in grades 6-8.
- Activities and games help develop basic concepts and skills.
- Comprehensive coverage in major math areas: number, geometry, measurement, statistics, and probability.

For teachers

Activities require minimal supervision. Teacher's Guide contains commentary on each of the 188 activities plus ideas for more activities, correlations to objectives, answer key, and suggestions for classroom management. All necessary manipulatives are included except common classroom supplies.

For students

Experimentation with basic concepts and skills provides interest and motivation. Students work independently or in groups, managing their own learning activities. Activity Cards are easy to read. Self-evaluation is provided.

Authors Kenneth P. Kidd and Andria P. Troutman

Components 188 Activity Cards, 4 Game Cards, 15 Divider Cards (with partial answer keys), Teacher's Guide, 36 Spirit Masters (33 worksheets, 2 data sheets, and 1 student record sheet), and the following materials: 2 Geoboards with 200 Pegs (2 colors), 200 Blank Tiles, 24 Geostrips with 100 Brass Fasteners, 2 Templates of Geometric Shapes, 4 Grid Transparencies, 216 Blank Cards, 1 Liter Box, 100 Wooden Cubes, 4 Dice, 3 Meter Tape Measures, 1 Alidade, 2 Markers, 2 See-through Mirrors, and Rubber Bands.

	School Price
3-2975 Mathematics: An Activity Approach, Complete	\$243.05
3-2976 Additional Teacher's Guide	6.50

For a class of 30 students you will need:

- 1 Mathematics: An Activity Approach

To order replacement components, see page 95.

Math Applications Kit

- Mathematics activity program for grades 4-8.
- Applications of math in five areas: science, social studies, sports, everyday things, and occupations.

For teachers

Makes math more relevant for students. Handbook gives evaluation questions, critiques, correlation charts.

For students

Investigation of real-life problems aids student understanding and reinforces skills. Student handbook suggests independent work, contains progress record.

Authors Allen C. Friebel and Carolyn Kay Gingrich. Consultants: Morris Kline and Kenneth Kidd

	School Price	
3-545 Math Applications Kit	\$118.75	
3-553 Student Handbook, 1-99 copies, each	1.10	
	100-999 copies, each	.99
	1000 or more copies, each	.93
3-555 Additional Teacher's Handbook	3.50	

For a class of 30 students you will need:

- 1 Math Application Kit and 30 Student Handbooks

To order replacement components, see page 95.

Primary Mathematics Involvement Program

- Hands-on activities for preschool-grade 4.
- Helps build and reinforce major skills and concepts taught in basal programs.
- Manipulatives provide concept-development experiences with real objects.
- Separate spirit-master program provides reinforcement.

For teachers

Designed to develop concepts and skills by means of games, manipulative activities, and reports about the games and activities. Can be used with all kinds of learners in classrooms, learning centers, and math labs. 240 Activity Cards, in five levels of difficulty, are organized by major math areas (number, geometry, and measurement).

For students

Lively game format gets students involved in mathematics learning and helps develop skills. Extensive art has been used to minimize reading and make the program suitable for very young or very slow learners.

Authors

Joseph Gladstone and David Gladstone. Consultant: Jane Qualls

Components

240 Activity Cards, Teacher's Handbook, 16 number and shape-generating Charts, 10 Spirit Masters (9 for writing summaries of activities and 1 Progress Chart), Geoboard Pegs, Squares, Cubes, Number Lines, Graph Paper, Geometric Models, Beads, Balance (with pans), Metal Weights, Discs, Rods, Colored Tape, Colored Labels, Flat Shapes, Rulers, Triangles, Protractors, String, Rubber Bands, Number Squares, Dice, Dice Labels, Number Cards, and Movers.

	School Price
3-8185 Primary Mathematics Involvement Program	\$266.00
3-8173 Additional Consumable Items (40 sheets graph paper with number lines, 4 rolls colored tape, 1000 1" colored stickers, number labels)	23.80

Reinforcement Spirit Masters

3-4185 Box A Spirit Masters (48 for grades 1-2 skill objectives or PMP Level 3)	24.20
3-4186 Box B Spirit Masters (48 for grades 2-3 skill objectives or PMP Level 4)	24.20
3-4187 Box C Spirit Masters (48 for grades 3-4 skill objectives or PMP Level 5)	24.20

For a class of 30 students you will need:

- 1 Primary Mathematics Involvement Program
- 1 or more boxes of Reinforcement Spirit Masters

To order replacement components, see page 96.

Mathematics Involvement Program

- Mathematics supplement for grades K-6.
- Provides manipulative experiences basic to understanding mathematical concepts.
- Requires minimal supervision.
- Can be used independently or in small groups.

For teachers

Designed to develop concepts and skills through hands-on experiences. Can be used in classrooms, learning centers, and math labs. The Teacher's Handbook contains instructions, teaching hints, evaluation questions, and suggestions for 1000 reinforcement activities and 1000 enrichment activities.

For students

Can benefit all kinds of learners. Minimal reading requirement makes the program suitable for slow learners. Average or better students benefit from individualized approach. 252 Activity Cards, in seven levels of difficulty, are organized by major math areas (number, geometry, and measurement).

Authors

Joseph Gladstone and David Gladstone. Consultant: Ruth Irene Hoffman

Components

252 Activity Cards, Teacher's Handbook, Spirit Masters for Progress Charts, Geoboard, Pegs, Squares, Cubes, Number Lines, Graph Paper, Geometric Models, Abaframe™ Place-Value Device, Beads, Balance (with pans), Metal Weights, Discs, Rods, Colored Tape, Labels, Flat Shapes, Rulers, Triangles, Compasses, Protractors, String, Rubber Bands, Number Squares, Dice Labels, and Number Cards.

	School Price
3-8150 Mathematics Involvement Program	\$266.00
3-8173 Additional Consumable Items (40 sheets of graph paper with number lines, 4 rolls colored tape, 1000 1" colored stickers, number labels)	23.80
3-8152 Additional Teacher's Handbook	14.45
3-8151 Additional Spirit Masters (2 sets)	5.05

For a class of 30 students you will need:

- 1 Mathematics Involvement Program

To order replacement components, see page 95.

Computapes

- Two cassette tape programs for grades 1–adult.
- Provide practice and reinforcement of basic skills and concepts.
- Correlated to major mathematics textbooks; can supplement any basal program.
- Can be used individually, in small groups, or with the entire class.
- Includes self-administered diagnostic and mastery tests.

Computapes: Modules 1–6

- Cassette tapes for grades 1–8.
- Offers practice of basic arithmetic skills.

For teachers

Helps teachers provide additional practice in arithmetic skills. The 56 cassettes contain 112 lessons, each 10 to 20 minutes long. Tapes are organized by skill level for flexibility. Teacher selects the tapes best suited to class or individual needs. Comprehensive Teacher's Guide is provided for each module.

For students

Intriguing math stories and situations are designed to stimulate student interest. Arithmetic skills are presented in both realistic and imaginative settings that appeal to children of different ages and backgrounds. Special effects and lively music get students' attention and add fun to the lessons. Students check their own worksheets as they work through the lessons.

Authors

Stanley J. Bezuska and Theresa I. Denman. Consultants: M. Vere DeVault, Herbert J. Greenberg, and Helen Frehmeyer.

Components

56 Cassettes in 6 modules, each in its own storage container. Module contains Cassettes, Teacher's Guide with Answer Key, and Correlation Charts. Student Worksheets and Tests are packaged together and are available in either workbook or spirit master format (Must be ordered separately).

Tape Modules

Code	Description	School Price
3-12001	Module 1, Addition and Subtraction A (10 cassettes)	\$156.80
3-12002	Module 2, Addition and Subtraction B (8 cassettes)	125.45
3-12003	Module 3, Multiplication and Division A (10 cassettes)	156.80
3-12004	Module 4, Multiplication and Division B (8 cassettes)	125.45
3-12005	Module 5, Fractions (12 cassettes)	188.15
3-12006	Module 6, Decimals and Percents (8 cassettes)	125.45

Student Worksheets and Tests (workbook format)

3-12010	Workbook, Modules 1 & 2	2.10
3-12011	Workbook, Modules 3 & 4	2.10
3-12012	Workbook, Module 5	1.45
3-12013	Workbook, Module 6	1.20

Student Worksheets and Tests (spirit-master format)

3-12020	Spirit Masters, Module 1 & 2	45.18
3-12021	Spirit Masters, Modules 3 & 4	44.22

3-12095	Teacher's Guide, Module 5	3.85
3-12096	Teacher's Guide, Module 6	3.85

Complete Program (Save \$61.50)

3-12000	Computapes Modules 1–6 (full set of 6 modules; order worksheets separately, see below)	816.60
3-12009	Student Worksheets and Tests, Modules 1–6 (workbook format)	6.70
3-12019	Student Worksheets and Tests, Modules 1–6 (spirit master format)	152.30

Special Education Edition and Supplements (Modules 1 and 2)

3-19007	Manual: Teaching Children with Special Needs—Computapes, Modules 1 and 2	4.50
3-19008	Student Profile Folders, package of 10	5.60
3-19009	Student Activity Book	4.50
3-30008	Combined purchase of 1 Manual, 1 package of Folders, and 1 Activity Book	14.00
7-6244	Special Ed Edition: Computapes, Module 1 (includes 1 Computapes Module 1 program, 1 Manual, 1 package of Folders, and 1 Activity Book)	170.80
7-6245	Special Ed Edition: Computapes, Module 2 (includes 1 Computapes Module 2 program, 1 Manual, 1 package of Folders, and 1 Activity Book)	139.45

For a class of 30 students you will need:
1 Tape Module for each area you wish to cover
30 Student Workbooks or 1 Spirit master set for each module ordered

To order replacement components, see page 94.
See page 72 for Spanish edition.

Computapes: Modules 7–11

- Cassette tapes for grades 5–adult.
- Correlated to major basal programs and supplements.

For teachers

Lively way for teachers to offer additional practice of basic mathematics skills. The 46 cassettes contain 92 lessons, each 15 to 25 minutes long. Each lesson is accompanied by worksheet material in spirit master format with examples, problems, and illustrations for that lesson.

For students

Lively characters on tapes and worksheets motivate and challenge students. Music and sound effects add to the fun. Each lesson is introduced by a story, situation, or real-life application designed to stimulate and maintain student interest.

Authors

3-12229	Teacher's Guide for Module 9	3.85
3-12230	Teacher's Guide for Module 10	3.85
3-12231	Teacher's Guide for Module 11	3.85

Complete Program (Save \$50.50)

3-12200	Computapes Modules 7–11 (full set of 6 modules; order worksheets separately, see below)	670.80
3-12216	Student Worksheets and Tests, Modules 7–11, Spirit-Master Format	126.50

For a class of 30 students you will need:
1 Tape Module for each area you wish to cover
1 Spirit master set for each module ordered

To order replacement components, see page 94.

Algebra Skills Kit

- Strengthens basic algebra skills, grades 8–adult.
- Diagnoses trouble areas, gives instruction and practice.
- Helps students maintain skills taught earlier.

For teachers

Helps strengthen basic algebra skills with series of Diagnostic Tests, Exercise Cards, and Progress Tests. Students work independently, use Test Analysis Form with teacher. Results indicate specific progress or problems so teacher can give individual instruction.

For students

Survey Test directs students to appropriate Diagnostic Tests, results indicate specific Exercise Cards in areas where student is weak. Students maintain progress record in Student Record Book.

Authors Charles M. Proctor, Jr., and Joseph Lacy

Components

576 Exercise Cards (271 originals), 24 Reference Cards (12 originals), 12 Pads of Diagnostic Tests (30 per pad), a Teacher's Handbook, and a Student Record Book.

Code	Description	School Price
3-3840	Algebra Skills Kit	\$167.45
3-3841	Student Record Book, 1–99 copies, each	1.06
	100–999 copies, each	.95
	1000 or more copies, each	.90
3-3842	Additional Teacher's Handbook	1.50
3-3843	Diagnostic Tests, Complete Set	14.45

For a class of 30 students you will need:
1 Algebra Skills Kit
30 Student Record Books

To order replacement components, see page 94.

Skill through Patterns

- Supplementary program for grades K–8.
- Develops computational proficiency through work with numerical patterns.

For teachers

Charts describe purpose and skills for each sheet. Program includes open-ended problems that can be expanded into projects for individuals and teams.

For students

Students work independently or in groups with minimal supervision. Computation becomes a tool in the discovery of significant results. List of prerequisite skills helps students select suitable activities.

Authors Stanley J. Bezuska, Margaret J. Kenney, M. Vere DeVault, Helen Frehmeyer, and Herbert J. Greenberg

Components

A set of Duplicating Masters and Teacher's Directions for each grade level.

Code	Description	School Price
3-43200	Preprimary (24 sheets)	\$11.30
3-43201	Level 1 (48 masters)	22.58
3-43202	Level 2 (48 masters)	22.58
3-43203	Level 3 (72 masters)	33.87
3-43204	Level 4 (72 masters)	33.87
3-43205	Level 5 (72 masters)	33.87
3-43206	Level 6 (72 masters)	33.87
3-43207	Level 7 (72 masters)	33.87
3-43208	Level 8 (72 masters)	33.87

Entering the Metric Era

SRA is committed to helping schools and students move into the "metric era." The programs on this page have been crafted to assist in that move, and have been tested for effectiveness in U.S. schools and those of metric nations.

Metric Measurement Program

- A complete program of measurement activities for grades 1-6.
- Teacher needs no prior experience with metric units.
- Program includes Metric Spirit Masters, Activity Cards, Manipulatives, and Tape Modules with Worksheets and Tests.
- Items may be used separately or in combination to supplement any basal text.

Authors

Joseph Gladstone and David Gladstone Consultants: Andria Troutman, Jane Qualls, Lillian Holloway, Debbie White, Susanne Wilson, Stanley J. Bezuska, M. Vere DeVault, Herbert J. Greenberg, Helen Frehmeyer.

Metric Spirit Masters

Components

Primary Spirit Masters (levels 1-3) 150 lessons.
Intermediate Spirit Masters (levels 4-6) 105 lessons.

	School Price
3-1070 Primary Spirit Masters	\$49.40
3-1080 Intermediate Spirit Masters	49.40

Metric Activity Cards

Components

Primary Activity Cards: 105 Activity Cards, 1 Teacher's Handbook, 6 Answer Sheets (spirit masters), 1 Introductory Cassette, 1 Poster.

Intermediate Activity Cards: 105 Activity Cards, 1 Teacher's Handbook, 6 Answer Sheets (spirit masters), 1 Introductory Cassette, 1 Poster.

Manipulatives Kit (to be used with the Primary and Intermediate Activity Cards and the Primary and Intermediate Tape Modules): 6 Rulers, 6 Tape Measures, 1500 one-gram Centimeter Cubes, 100 Sheets of Graph Paper, 1 Liter Box, 1 roll Colored Tape, 1 Pan Balance, 1 set of Stacking Masses (40 one-gram, 8 five-gram, 4 ten-gram), 1 Ball of String, 1 Celsius Thermometer.

Primary Program (levels 1-3)	School Price
88-118 Combined Program: 1 set Primary Activity Cards, 1 set Primary Answer Sheets, 1 Manipulatives Kit	\$296.00
3-1001 Primary Activity Cards	131.05
3-1000 Manipulatives Kit	115.60
3-1005 Additional Teacher's Handbook for Primary Activity Cards	4.05
3-997 Additional Graph Paper (100 sheets)	17.30

Intermediate Program (levels 4-6)

88-119 Combined Program: 1 set Intermediate Activity Cards, 1 set Intermediate Answer Sheets, 1 Manipulatives Kit	296.00
3-1002 Intermediate Activity Cards	131.05
3-1000 Manipulatives Kit	115.60
3-1006 Teacher's Handbook for Intermediate Activity Cards	4.05
3-997 Graph Paper (100 sheets)	17.30

To order replacement components, see page 95.

Metric Tape Modules

Components

Primary Tape Module: 8 Cassettes with 16 lessons and Teacher's Guide in binder (does not include Worksheets and Tests); Primary Worksheets and Tests, in spirit-master format, necessary for use with the Primary Tape Module.

Intermediate Tape Module: 6 Cassettes with 12 lessons and Teacher's Guide in binder (does not include Worksheets and Tests); Intermediate Worksheets and Tests, in spirit-master format, necessary for use with the Intermediate Tape Module.

	School Price
3-1060 Primary and Intermediate Tape Modules (does not include Worksheets and Tests)	\$197.15
3-1040 Primary Tape Module (does not include Worksheets and Tests)	121.25
3-1057 Primary Worksheets and Tests (spirit masters) for the Primary Tape Module	23.55
3-1050 Intermediate Tape Module (does not include Worksheets and Tests)	91.30
3-1058 Intermediate Worksheets and Tests (spirit masters) for the Intermediate Tape Module	16.00
3-1000 Manipulatives Kit	115.60
3-1049 Additional Teacher's Guide for Primary Tape Module	3.85
3-1059 Additional Teacher's Guide for Intermediate Tape Module	3.85

For a class of 30 students you will need:
1 Primary or Intermediate Program
1 Tape Module, Primary or Intermediate
1 Set of Worksheets and Tests, Primary or Intermediate

Metric Math Applications Kit (METMAK)

- Metric measurement activities for grades 4-8.
- Helps students "think metric."
- Low reading level.

Authors

Clement J. Ballard, William L. Butts, Mervyn E. Kunkley, Anthony J. Koop, Timothy J. Pettit. Consultants: Ralph W. Rawlinson, Allen C. Friebel, Carolyn Kay Gingrich

Components

200 Activity Cards, 2 Centimeter Grids, a Teacher's Handbook, and 30 Student Workbooks.

	School Price
3-400020 METMAK Kit (includes 30 Student Workbooks)	\$146.75
3-400021 Additional Student Workbooks	
1-99 copies, each	1.18
100-999 copies, each	1.07
1000 or more copies, each	1.00
3-400022 Additional Teacher's Handbook	3.65

For a class of 30 students you will need:
1 Metric Math Applications Kit

SRA Mathematics Program, 1978 Edition

• Basal mathematics program for grades K-8.

- Easy-to-read texts with plenty of drill.
- Balanced, bias-free portrayal of women, men, and minorities.

For teachers

A self-contained, flexible, easy-to-teach program. All materials for diagnosis, instruction, practice, testing, recycling, extension, and maintenance are included in the texts and Teacher's Guides. Teacher's Guides also list specific learning objectives for each level. Texts adapt to whole class instruction, small groups, or in-level. Check-In pages review prerequisite skills and dependent study. Frequent progress checks monitor student progress. End-of-chapter CheckOut determines mastery. Level and chapter placement tests also available.

For students

Colorful, easy-to-read texts present math in relation to real objects, places, and people. Ample practice is given in varied formats: straightforward drill problems, disguised drill (games and puzzles), and word problems. Additional practice is provided in the workbook program, Practice for Skills.

Special Note: If requested, a Teacher's Guide will be provided free with every 30 Pupil Books, with every 30 student Workbooks, and with every set of workbook Spirit Masters. Requests must accompany original orders.

For additional components, or to order components of the 1974 Mathematics Learning System, see pages 96-97.

SRA Mathematics: A Management System, 1978 Edition

- Optional program to plan and manage individualized instruction with the SRA Mathematics Program, 1978 Edition.
- Provides stimulating practice and extension activities.
- Correlates texts with a variety of supplements.

For teachers

Assists in managing small-group and individualized instruction. Contains materials to plan, implement, and record daily activities; supplemental practice activities; and record-keeping aids.

For students

Helps students set learning goals and organize the materials necessary to achieve them.

	School Price

New Learning to Think Series emphasizes motor coordination, reasoning, verbal meanings, word fluency, and quantitative reasoning.

EARLY CHILDHOOD

NEW Learning to Think Series

- Readiness kit for children in preschool through grade 2.
- Completely revised, with new art, exercises, and teacher's manuals.
- New Rainbow Book covers preschool development.
- New take-home lessons encourage parent involvement.

For teachers

No special training necessary. Teacher explains each lesson and leads class in discussion; then students do the exercises in their workbooks. Take-home lessons help parents reinforce skills. Each of the 5 books contains one semester's work. Ideal for large groups.

For students

Designed to develop readiness skills needed for classroom learning. Presents vocabulary and needed concepts and gives practice with left-to-right orientation. Tasks include counting specified numbers of objects, finishing drawings, and working out analogies.

Beginning to Learn: Fine Motor Skills

- Fine motor skills program for early years.
- Helps prepare students for printing, writing, and manipulative activities in primary grades.
- Emphasis on finger speed, arm and hand precision, arm steadiness, and hand and finger dexterity. Activities include cutting, tracing, connecting dots, drawing lines, using templates, coloring, following a path with a pencil, and completing a figure.
- Overhead transparencies may be used to introduce lessons.
- Colorful, durable templates of circles, squares, triangles, ovals, and stars for tracing activities.
- Left-right and top-bottom orientation to a page emphasized.

Authors

Thelma Gwinn Thurstone and David L. Lillie

Components

1 Children's Book, 2 sets of 10 Tracing Boards, 20 sets of 5 Plastic Templates, 10 Transparencies, and a Teacher's Manual.

	School Price
3-7060 AV Fine Motor Skills, Complete Set (includes a copy of Children's Book)	\$111.45
3-7061 Children's Book (1 per student)	
1-99 copies, each	1.96
100 or more copies, each	1.77
3-7062 Additional Teacher's Manual	4.85
3-7063 Reorder Pkg. of Templates (pkg. of 25 templates - 5 each of 5 shapes)	12.55
3-7064 Reorder Pkg. of Tracing Boards (pkg. of 10 different boards)	14.75
3-7065 AV Reorder Pkg. of Transparencies (pkg. of 10 different transparencies)	32.70

For a class of 20 students you will need:
1 Beginning to Learn: Fine Motor Skills
20 copies of Children's Book

Beginning to Learn: Perceptual Skills

- Personalized perceptual skills program for grades K-1.
- In-depth training in such skills as perceiving likenesses and differences, identifying reversals, comparing sizes, and visually sorting details - skills necessary for reading.

Authors

Thelma Gwinn Thurstone and David L. Lillie

Components

38 8½" x 11" Transparencies, 4 Filmstrips of overlapping objects and animals, 64 Spirit Masters for lessons at three levels of difficulty, and a Teacher's Guide.

	School Price
3-7040 AV Perceptual Skills Kit	\$173.60
3-7051 Additional Teacher's Guide	4.75
3-7042 Additional Box of Level A Spirit Masters	30.10
3-7043 Additional Box of Level B Spirit Masters	30.10
3-7044 Additional Box of Level C Spirit Masters	30.10

detect® tactile

- Tactile and manipulative skills program for grades K-2.
- Helps develop logical techniques for problem solving.
- Provides experience in discovery, discrimination, classification, and reasoning.
- Develops readiness for reading and writing.
- Helps improve visual and graphic memory.

Author

Lawrence N. Gould

Components

Set of 3 Pupil Workbooks, 5 Game Boards, 5 sets of Plastic Forms, and a Teacher's Handbook. Kit accommodates group of 5 children.

3-956 Additional Plastic Uppercase Alphabet	5.25
3-957 Additional Plastic Lowercase Alphabet	5.25
3-958 Additional Plastic Numerals and Geometric Shapes	10.25
3-959 Additional Teacher's Handbook	5.25

For a class of 20 students you will need:
1 Total detect tactile Program
20 Pupil Workbooks for each level
4 Complete Sets of Plastic Forms
4 Sets of Game Boards

Listening-Doing-Learning Tapes

- Basic pre-primary skill presentations for grades K-1.
- No reading skills required.
- Recorded activities emphasize attentive listening, following directions, learning from a recorded tape, perceiving sequence and organization in a story, associating pictures with descriptive statements, responding to short-answer questions, elementary classification, and more.

30 copies of My Own Book for Listening-Doing-Learning

BILINGUAL

Mi Escuela™

- Multilevel program for early grade Spanish-speaking students.
- An individualized, nonconsumable workbook-in-a-box.
- Large variety and range of material.
- Attractive and colorful.

For teachers

Mi Escuela™ is a Spanish language word-attack skills kit designed to provide reinforcement and practice for Spanish-speaking students in their native language. It introduces in a graded manner words, phrases, and sentences that Spanish-speaking students will be able to read with relative ease. At the same time the program reinforces certain grammatical competencies that are essential to word decoding and reading comprehension skills.

Multilevel, nonconsumable word-attack practice for Spanish-speaking students

For students

Students practice decoding words systematically and in a graded fashion. They also practice spelling and writing. The lessons are short and the materials are attractive for early grade children. The program adapts to each student's needs and pace.

Author

Dr. Gary K. Keller

Components

140 color-keyed Activity Cards, 10 Plastic Response Sheets, 10 non-toxic Markers, a Pad of 40 Pupil Progress Sheets, and a Teacher's Guide.

- 3-730 Mi Escuela Kit
3-742 Additional Teacher's Guide

See page 22 for English editions.

School
Price
\$162.00
4.05

Mi Escuela™: Matemática 1

- Mathematics skill program in Spanish for grades 1 or 2.
- Offers skill practice in numeration and addition and subtraction.
- Also includes geometry and measurement.
- Assists teachers in diagnosing and prescribing instruction.
- Designed for pupils with limited reading ability.
- Organized to encourage independent use.

For teachers

Assists teachers in providing additional practice where needed. Each of the 200 different Skill Cards has brief directions, an example, and a page of practice. Simple Pupil Record Sheets allow students to chart their progress and enable teachers to prescribe individual practice. Minimal reading vocabulary is required to use the program independently. Two complete Teacher's Guides, one in Spanish and one in English, provide suggestions for using the program. Focuses on skills developed in grade 1.

For students

Designed for students who speak or study Spanish, including those who use English as a second language. The program offers a unique way to practice mathematics skills on cards in the following areas:

Numbers: concept, order, place value for numbers 0-99; practice with writing numerals; ordinal numbers (first-tenth). **Addition and Subtraction:** concepts of addition and subtraction; practice of addition and subtraction facts; addition and subtraction of 2-digit numbers without renaming. **Fractions:** concept of fractions. **Word Problems:** word problems in addition and subtraction. **Geometry:** Problems with basic shapes. **Measurement:** measurement with non-geometry with basic shapes. **Time and Money:** telling time to the hour, half-hour; counting money (coins).

Students mark answers with a special pencil on a plastic overlay. Mistakes are easily erased. Each card has an answer key on the back for self-checking and immediate reinforcement or correction. Designed for pupils with limited reading experience.

Consultant

Ellen Wernecke

Components

400 full-color Skill Cards (200 originals), 10 Plastic Overlays, 10 Markers, 1 Pad of 40 Pupil Record Sheets, and 2 Teacher's Guides.

	School Price

- 1 Mi Escuela: Matemática 1 Kit
- 2 Additional Packages of Plastic Overlays and Markers

See page 60 for English edition.

Math skills program
requires minimal reading skills

**Conjunto de Historias Matemáticas,
Spanish Edition of Computapes,
Modules 1-4**

- Cassette tapes provide arithmetic skills practice in Spanish for grades 1-5.
- Lessons give practice with basic skills and vocabulary, explain examples, and give directions for doing worksheet problems.
- Lesson content and length are carefully controlled to allow for individual differences.
- Self-administered diagnostic and mastery tests included with spirit masters for student worksheets.

For teachers
Comprehensive series of cassette tapes, in Spanish, for practice in basic skills of whole-number arithmetic. Worksheets for each lesson, plus diagnostic and mastery tests are included. The 36 cassettes contain 72 lessons, each 10 to 20 minutes long. The cassettes are in four modules covering addition, subtraction, multiplication and division.

The program is organized by skill area rather than grade level to permit maximum flexibility. The teacher selects tapes to suit the needs of the class or individuals. Teacher's Guides state learning objectives, describe tape content, and contain answer-key copy of the student worksheets. Also suggest additional activities for students who need extra help. Guides are available in Spanish and in English. Correlation charts in Teacher's Guides and diagnostic and mastery tests help teacher select proper tape for practice in a particular skill.

For students
Exciting math stories and situations appeal to students of different ages and backgrounds as they practice basic arithmetic skills in Spanish. Lively music and special effects stimulate interest and keep lessons fun. The taped lessons and worksheets are in Spanish. Pupils check their own answers with those given on the tapes.

Consultants
Doris Rodriguez Natale, Ninfa Nieto, Frank Guerrero, Rosendo Ancira, Maria Medina Swanson, in cooperation with Stanley J. Green-Bezuszka, Theresa I. Denman, M. Vere DeVault, Herbert J. Greenberg, Helen Frehmeyer.

Components
36 Cassettes in 4 modules. Each module of tapes contains a Teacher's Guide in Spanish. English editions of Teacher's Guides must be ordered separately. Spirit masters for worksheets and tests must be ordered separately from tapes.

	School Price
3-19001 AV Módulo 1, Suma y Resta A (Addition and Subtraction A-10 cassettes)	\$168.05
3-19002 AV Módulo 2, Suma y Resta B (Addition and Subtraction B-8 cassettes)	134.45

3-19000 **AV** Conjunto de Historias Matemáticas, Módulos 1-4 (set of 4 modules)
3-19005 Student Worksheets and Tests (complete set for 4 modules)

See page 64 for English edition.

Laboratorio de Lenguaje Auditivo™ 1

- Audio tape program in Spanish for primary grades.
- Helps students expand their command of the language.
- Lessons are adapted and edited by native Spanish-speaking educators to ensure maximum flexibility and suitability in language and cultural content.
- Worksheets present work-along listening comprehension activities.
- Answers are presented to provide immediate reinforcement and to correct errors on the spot.
- Suitable for Spanish-speaking and bilingual Spanish-English speaking students.

For teachers
The program provides practice in listening and language skills. The lessons are adapted and edited from the Primary Listening Language Laboratory™ Series. Each of the 30 lessons is approximately 20 minutes long and requires minimal direct teacher supervision.

For students
Students listen to tapes to learn new words, gain new information, and process increasingly complex verbal idea structures. Students check their own work. The audio tapes are structured to introduce language concepts, reinforce word meaning and test the student's recall and understanding of the story. Using high-interest stories and practice materials, students gain practice in careful listening.

Components
Each kit contains 15 Tape Cassettes (30 lessons), 30 Activity Page Spirit Masters, and 1 Teacher's Guide written in Spanish.

	School Price
3-11700 AV Laboratorio De Lenguaje Auditivo 1	\$260.40
3-11702 Additional Teacher's Guide	8.30
3-11701 Additional Set of Spirit Masters	15.10

See page 39 for English edition.

Focus on Self-Development - Stage One: Awareness

- Developmental program for grades K-2. Can be adapted for preschool.
- Helps children develop awareness important in formative years.
- Filmstrips and Spanish cassettes of fantasy, animal, and real-life stories.
- Photoboards of realistic situations.

For teachers
Emphasizes development of awareness of self, others, and environment. Twenty flexible units are adaptable to the needs of the class. Topics include self-concept development, awareness of the environment through the senses, socialization, sharing, and problem solving. The Teacher's Guide contains activities, discussion topics, unit plans, and detailed suggestions for building awareness important to growth and development. Counselor's Handbook is available for professional guidance personnel.

For students
Students can freely express themselves without fear of disapproval or of being different as they increase in awareness of themselves and their world. Pupil activity book has topic headings and space for artwork, sentences, and short stories.

Components
Teacher's Guide, 5 36-frame Filmstrips; 4 33 1/3 rpm Story Records or Cassettes in English; 20 17"x22" black-and-white Photoboards (two sides); 1 Easel; 1 Here I Am (Pupil Activity Book). Spanish Cassette Tapes and the Counselor's Handbook must be ordered separately.

	School Price
5-3500 AV Focus on Self-Development, Stage One: Awareness, Complete Kit with Records	\$213.50
5-3580 AV Focus on Self-Development, Stage One: Awareness, Complete Kit with Cassettes	224.50
5-3570 AV Set of Cassette Tapes in Spanish with Cassettes	111.55
5-43560 Here I Am (Pupil Activity Book), pkg. of 25	21.30
5-3502 Here I Am (set of Spirit Masters)	17.00
5-3506 Counselor's Handbook	5.50
5-3701 Specimen Set - Stages One, Two, and Three	28.65

For a class of 25 students you will need:
1 Complete Kit of Focus on Self-Development, Stage One: Awareness
1 Set of Cassette Tapes in Spanish
25 Copies of Here I Am (pupil book) or 1 set of Spirit Masters
1 Counselor's Handbook (for school with guidance staff)

To order replacement components, see page 98.

See page 74 for English edition.

MULTI-READ® 2: A Multilevel Reading Kit

- Personalized, systematic approach to studying English as a second language. For secondary, remedial, or ESL programs.
- Multilevel program similar to the Reading Laboratory® Series.
- Stresses self-correction. "Learn from Your Mistakes" section helps students note and correct reading mistakes.
- Close control of vocabulary and syntax in Power Builder exercises.
- "Learn about English" exercise concentrates on trouble spots of the English language.

Components
8 color-coded difficulty levels. For each level there are 12 Power Builders (story cards), 12 Key Cards, and a Colored Pencil. Kit contains Student Record Book with Progress Charts and Starting Level Guides; Teacher's Guide with specific directions, purpose of program, and detailed analysis of grammatical and thematic content of each level; 30 copies of 10 Rate Builders; Poster showing Power Builder themes, and Poster reminding students how to use the material.

	School Price
3-1450 MULTI-READ 2: A Multilevel Reading Kit	\$204.00
3-1452 Student Record Book (1 per student)	
1-99 copies, each	1.55
100-999 copies, each	1.40
1000 or more copies, each	1.32
3-1451 Additional Teacher's Guide	1.50
3-1453 Teacher's Guide (Spanish Edition)	3.80

MULTI-READ® A

- Designed for learners who have a minimum of one year of English.
- Emphasizes functional reading skills such as the reading of documents, forms, and magazines.
- Uses a variety of illustrations and methods of presentation.
- Each reading selection is followed by multiple-choice questions, plus questions on vocabulary.
- Students work independently.

Components
80 Language Builders, plus Key Cards, 2 sets of Colored Pencils, 1 Teacher's Handbook, and 1 Student Record Book.

	School Price
3-348300 Multi-read A, Complete Kit	\$168.00
3-348314 Student Record Book (1 per student)	1.65
3-348309 Additional Teacher's Handbook	2.55

Note These products were developed primarily for adult students of English as a second language. Though written in English, cultural content and language usage are European.

GUIDANCE

Focus on Self-Development

- Three programs for grades K-6 help develop understanding of self, others, and the environment.
- Lively filmstrips, cassettes (or records), photoboards, and stories stimulate thinking and discussion.
- Individual units permit flexibility in responding to class needs.
- Discussion questions focus on important concepts. Artwork, role-playing, and open-end sentence activities encourage free expression.
- No special training is required to use the program effectively.
- Film available for teacher workshops.

Developed by
Judith Anderson, Melody Henner, Carol J. Lang, Patricia Miner, Virginia R. Scott, and the SRA Guidance Department staff.

Stage One: Awareness - Focus on Self-Development

- Developmental program for grades K-2 emphasizes relating to one another and confidence in self-expression.
- Also adaptable for preschool.

For teachers

Twenty flexible units adapt easily to individual class needs. Covers topics such as self-concept development, responding to the environment, socialization, sharing, and problem solving. A counselor's handbook is available for professional guidance personnel. Cassette tapes are available in Spanish.

For students

Helps students develop important awarenesses in their formative years. Photoboards present realistic situations. Filmstrips and cassettes (or records) engage the imagination with stories of fantasy, animals, and real life.

Components

Teacher's Guide; 5 36-frame Filmstrips; 4 33 1/3 rpm Story Records or Cassettes; 20 17"x22" black-and-white Photoboards (2 sides); 1 Easel; 1 Here I Am (Pupil Activity Book). Spanish Cassette Tapes and Counselor's Handbook must be ordered separately.

5-3506	Counselor's Handbook	5.50
5-3701	Specimen Set - Stages One, Two, and Three	28.65

For a class of 25 students you will need:
1 Complete Kit of Focus on Self-Development, Stage One: Awareness
25 Copies of Here I Am (Pupil Activity Book) or 1 Set of Here I Am Spirit Masters
1 Counselor's Handbook (for schools with guidance staff)

To order replacement components, see page 98.

Stage Two: Responding - Focus on Self-Development

- Flexible program for grades 2-4 emphasizes responding to one's peer group.
- Builds on concepts developed in Stage One: Awareness, but can be used separately.

For teachers

Helps teachers develop topics such as self-concept, abilities, limitations, interests, concerns, communication, companionship, acceptance, and rejection.

For students

Stories and activities encourage students to think and talk about their personal, social, emotional, and intellectual life. Filmstrips, photoboards (or records), and realistic photoboards present stimulating situations. Pupil Activity Book and discussions build awareness of what is important and why.

Components

6 36-frame full-color Filmstrips; 4 33 1/3 rpm Story Records or Cassettes; 20 17"x22" black-and-white Photoboards (2 sides); 1 Easel; 1 The Me I Know (Pupil Activity Book); 1 Teacher's Guide.

For a class of 25 students you will need:
1 Complete Kit of Focus on Self-Development, Stage Two: Responding
25 Copies of The Me I Know (Pupil Activity Book) or 1 Set of Spirit Masters

To order replacement components, see page 98.

Stage Three: Involvement - Focus on Self-Development

- Multi-media program helps children in grades 4-6 to express ideas, feelings, and values.
- Can follow Stage Two: Responding or can be used separately.

For teachers

Helps focus discussion on behavior and its causes, problem solving, self, emotions, making choices, learning, taking responsibility, communicating, family and social relationships, conflicts, rights, and justice.

For students

Filmstrips, cassettes (or records), and photoboards create stimulating presentations. Each unit encourages pupils to examine their involvement with themselves, with others, and with the environment, and to think about their values. Pupil Activity Book exercises reinforce concepts and promote discussions.

Components

6 36-frame full-color Filmstrips; 4 33 1/3 rpm Story Records or Cassettes; 20 17"x22" black-and-white Photoboards (2 sides); 1 Easel; 1 Being Me (Pupil Activity Book); 1 Teacher's Guide.

Kuder Form DD Occupational Interest Survey, Revised

- Interest survey for grade 11 through adult.
- Compares student interests with those of 128 satisfied occupational groups and 48 college groups. Includes 14 new occupational scales.
- New easier-to-interpret report form ranks all scores.
- SRA's computers make more than 17,000 comparisons for each student's scores.
- Materials and reporting system designed to minimize bias in response to Title IX regulations as clarified by HEW's Office for Civil Rights.
- Scores on other-gender norms easier to interpret.

For teachers

Kuder Form DD includes all administrative and interpretive materials and scoring; combination survey booklet/answer sheets that simplify administration; memorandum of instructions for administration; scoring and reporting services; individual Report of Scores (2 copies); an interpretive leaflet for each student to help student understand and use these scores; envelope for returning answer sheets for scoring; and first-class postage charges on results mailed from SRA.

For students

The Report of Scores lists scores on occupational and college major scales separately, in rank order. All respondents receive scores on all scales, regardless of sex. The interpretive leaflet helps students understand and use these scores.

Author

Frederic Kuder

Materials and Scoring

7-3866 Materials and Scoring for 20 students
7-3869 Specimen Set (includes survey booklet, interpretive materials, and scoring for one person)

Special Note One General Manual (7-3865) will be provided at no charge if requested when ordering. Revised edition provides predictive validity information.

SRA Coping Skills: A Survey plus Activities

- Indicates proficiency in eight real-world life skill areas.
- Provides basis for planning further learning activities.
- Provides references to SRA products for each content area.
- Can be used for any student or group, grade 7 through adult.
- Separate answer key card.
- Based on Associated Press Newsfeatures Series.

Description

Booklet with surveys in eight content areas: working, community resources, consumer economics, household management, health and safety, personal law, government, and stress. Each inventory contains 20 items and can be self-scored. Objectives relate to such topics as job hunting and interviews, reading maps and schedules, determining best buys, home maintenance tasks, first-aid treatment, basic legal rights, voting qualifications, and interpersonal relationships. Booklet provides suggested activities and a list of related SRA products for each content area.

For more information and prices, see the current SRA Educational Assessment and Guidance Catalog.

Career Development Program

- Career guidance program for grades 6–11 stresses career development as a continuous process.
- Emphasis on values, needs, decision-making, abilities and interests, and career information.
- Flexible program includes Career Planning Notebook and Kuder Career Development Inventory. Can be used separately or together as a minicourse with the help of Program Guide.
- Inventory requires approximately 50 minutes. Responses yield a Career Development Profile that includes interest scores, job-characteristic needs, and school achievement and activities.
- Minimizes the influence of general sex differences in response and sex bias in individual scores. Inventories are scored by SRA.

For teachers

The Kuder Career Development Inventory has no time limit but requires approximately 50 minutes. It consists of the Personal Data Form—a brief survey of school and nonschool experiences, attitudes, plans, and achievements—and the Kuder Career Interest Survey. The Career Development Profile, the computerized report based on responses to the inventory, indicates possible career paths for students to explore in six interest areas, at each of three levels of entry based on education. Program Guide suggests uses: panel discussions, interviews, role playing, plus a number of individual and group creative efforts.

For students

The Career Planning Notebook is written at the sixth-grade vocabulary level and takes students step-by-step through self-assessment, an overview of the world of work, career investigation, broad planning, and decision making. Reusable Career Planning Notebook includes notesheets (worksheets) extending the content of each text chapter.

Developed by

Frederic Kuder and Esther E. Diamond

7-4014	Additional Copies of Program Guide	

One Technical Supplement (7-4021) will be provided at no charge if requested when ordering the Career Development Inventory.

Kuder Form E General Interest Survey

- Measures individual's degree of preference for activities in ten job family groups: outdoor, mechanical, scientific, computational, persuasive, artistic, literary, musical, social service, and clerical. For grades 6–12, 30–40 minutes.
- Vocabulary is at sixth-grade level.
- Vocabulary scores available for four norm groups: males and females in grades 6–8 and grades 9–12.
- In compliance with Title IX regulations as clarified by HEW, Office for Civil Rights. Separate norms for males and females help minimize sex bias, shown by research to be due largely to social conditioning. Students see scores on both sets of norms.
- Available in self-scored or machine-scored editions.

For teachers

Aids the teacher or counselor in giving individualized guidance to students involved in planning an educational course aimed toward later employment. The pin-punch, self-scored edition combines a survey booklet, answer pad, and Profile in a single booklet which adds to students' motivation because they can score the Survey and interpret results immediately. The machine-scored version includes all administrative and interpretive materials and scoring in the purchase price: combination survey booklet/answer sheets that simplify administration; memorandum of instructions for administration; scoring and reporting service; individual interest Profile (2 copies), including interpretive information; envelopes for returning answer sheets for scoring; first-class postage charges on results mailed from SRA; and special scoring service for small groups through which any number of answer sheets up to 25 can be sent in a time for SRA to score and mail results within five business days.

For students

Individual interest scores are profiled on both male and female norms, indicating the level of interest in each vocational interest area when compared with either males or females in their grade group. Individual Profile Leaflets help students interpret their scores and indicate the vocational areas related to their interests. Because Kuder E deals with general vocational areas, it helps junior or senior high school students make sound choices in school and encourages them to think about their future education and careers.

5-3399 Career Guidance and the Kuder Interest Inventories, Paper

Activity Interests and Occupational Choice

- Resource book for people working in career education and curriculum development. Also relevant for those doing research in behavioral sciences, including psychology, and those in tests and measurement.

Author

Frederic Kuder

13-3010 Activity Interests and Occupational Choice, Hard Cover, 352 pp.

For more information and prices, see the current SRA Educational Assessment and Guidance catalog.

Career Information Kit, 1979 edition

- Completely updated vocational library for grades 9–adult.
- Approximately 500 pieces of literature on jobs in today's work force.
- Invaluable resource for teachers, career counselors, and students planning for the future.
- Continual updating and expansion made simple with SRA's Occupational Brief Update Service.
- Optional metal file cabinet on wheels moves materials easily from room to room.
- Materials meet NVGA guidelines.

For teachers and counselors

Furnishes comprehensive information on jobs employing about 90% of today's labor force. Can be used for career counseling, for students' own research, as resource file for social studies classes, in libraries, counseling offices, and career education centers.

Six major fields are covered: Professional, Technical, and Managerial; Clerical; Sales; Service; Agriculture, Fishing, and Forestry; Skilled Trades and related Repair and Production occupations. Kit also contains practical guidance material on educational preparation and planning, self-analysis, the job hunt, job performance, and related matters.

For students

Helps students who are choosing careers, making plans for training and employment. Simple job-family filing plan affords easy reference to specific job titles. Index, cross-referenced to Dewey Decimal System, encourages further reading. Kit is particularly helpful for students' personal exploration after taking the Kuder or other vocational survey.

Components

Approximately 500 pieces of occupational literature, 30 pieces of assorted practical guidance literature, 1 Teacher's Manual, 1 Index, 20 Student Instruction Sheets, 1 set of imprinted file folders.

	School Price
5-3100 Career Information Kit (complete, in corrugated box)	\$526.50
5-3105 Career Information Kit (complete, in metal file cabinet)	806.50
5-3102 Additional Teacher's Manual	2.30
5-3103 Additional set of empty, imprinted File Folders	67.15
5-3101 Additional Index	1.80
5-43104 Additional Student Instruction Sheets (package of 20)	2.40
5-3106 Specimen Set	4.15

Job Experience Kits

- Simulates work experiences in 20 representative occupations for students in grades 8–14.
- Includes actual occupational tools where feasible and appropriate for hands-on experiences.
- Uses a realistic problem-solving approach to provide insight into a variety of occupational levels and fields.

For teachers

Exposes students to real job activities. Little reading is required except for occupations where it is essential such as law or elementary teaching. Works well with individuals or groups.

For students

The realistic problem-solving approach combined with minimal required reading makes this a particularly effective program.

Consultant

John D. Krumboltz

Components

Task materials, a User's Guide, and a pad of 30 Answer Sheets for each of the following occupations: accountant, appliance repairer, auto mechanic, beautician, carpenter, designer, drafter, electronics technician, elementary school teacher, lawyer, librarian, medical technologist, motel manager, plumber, police officer, salesperson, and secretary.

5-4000 Job Experience Kits	School Price
5-4005 Additional set of Answer Sheets (20 pads, 30 sheets each)	\$246.00
5-4225 Specimen Set	22.15
	6.45

To order replacement components, see page 98.

WORK—Widening Occupational Roles Kit

- Introduces students in grades 6–10 to hundreds of careers.
- Two color filmstrips, accompanying cassette, and colorful occupational scanner (WORKSCOPE) help students relate their general interests, abilities, and educational plans to career opportunities.
- Flexible format is adaptable for individual or group use.

For teachers

WORK is an ideal resource for social studies, English, and reading curricula; group guidance; school libraries; guidance departments, and career education centers. WORK Briefs provide a solid introduction to 340 assorted jobs in fictional narrative. Five illustrated booklets provide supplementary reading. The Handbook of Job Facts capsulizes, in chart form, information about duties, education, training, special qualifications, advancement, earnings, and outlook. With the exception of technical terms, all materials are written at fourth- to fifth-grade reading levels.

For students

WORK helps students expand their knowledge of the working world, related jobs, and their own abilities and interests.

Components

340 WORK Briefs, 1 Handbook of Job Facts, 1 WORKSCOPE, 5 Junior Guidance Booklets, 35 Student Record Books, 2 color Filmstrips, 1 Cassette, 1 Teacher's Guide, and 1 Index.

	School Price
5-2950 Widening Occupational Roles Kit	\$333.75
5-42955 Additional Student Record Books (pkg. of 25)	21.70
5-2960 Additional Set of 2 Filmstrips and Cassette	54.35
5-2951 Additional Set of 340 WORK Briefs	188.55
5-2956 Additional WORKSCOPE	22.45
5-2952 Additional Teacher's Guide	3.95
5-2954 Additional Index to WORK	1.60
5-2965 Specimen Set	6.20

Occupational Exploration® Kit

- A systematic, personalized approach to job investigation for grades 9–adult.
- All materials are written at the sixth- to seventh-grade reading level except for technical terms.
- The unique OccuScan® coding device helps individuals focus on relevant career information in an easy-to-use system.
- Student Record Book allows individualization.

For teachers

Four hundred illustrated four-page briefs provide a thorough, up-to-date description of individual jobs, including qualifications and training, earnings and outlook, plus selected references. Twenty Job Family Booklets, organized according to USOE clusters, provide additional information relating jobs by interests and skills. Seven Guidance Series Booklets cover the world of work; how personality and interests relate to career choice; school subjects as related to careers; part-time jobs; and job hunting. A guide for teachers and counselors is included. The kit may be kept up to date with the SRA Occupational Brief Update Service described on this page.

The kit is an exceptional reference for group and individual career and educational counseling in homeroom, career-education centers, and classes. It is also an ideal resource file for guidance and counseling offices or libraries.

For students

Students explore a wide variety of occupations. They examine requisite abilities and education in relation to their own achievements, as well as how specific jobs might satisfy personal objectives and interests. The low reading level makes the material accessible to almost all students in high school.

Components

OccuScan® Coding Device, 400 Occupational Briefs, Index, 20 Job Family Booklets, 7 Guidance Series Booklets, 25 Student Record Books, Guide for Counselors and Teachers, all in one Study Kit.

	School Price
5-1000 Complete Occupational Exploration® Kit	\$241.50
5-41003 Additional Student Record Books (pkg. of 25)	11.55
5-2101 Additional OccuScan® Device	20.55

5-1005 Additional OEK Guide	1.65
5-1004 Additional Index	1.50
5-1006 OEK Specimen Set	5.60

Occupational Briefs

Up-to-date descriptions of individual jobs cover qualifications and training, earnings and outlook, plus selected references. Set includes 400 illustrated four-page briefs, written at a grade 6–7 reading level.

	School Price
5-93 Set of 400 Occupational Briefs	\$196.00

SRA Occupational Brief Update Service

- Keeps the SRA Career Information Kit and the Occupational Exploration Kit up to date after you have purchased either. Each new Brief replaces an earlier one.
- Prior years' subscriptions available while supply lasts.

	School Price
5-1825 Occupational Brief Update Service—80 Occupational Briefs for 1979/80	\$58.80
5-587 Occupational Brief Update Service—80 Occupational Briefs for 1978/79	61.00

(plus additional \$5.25 to cover postage and handling for each service ordered)

KEYS—Career Exploration

- Provides a systematic introduction to today's world of work for grade 6–adult.
- Ten full-color filmstrips with accompanying cassettes encourage career exploration. No reading required.
- Filmstrips of on-the-job interviews with workers stimulate interest.
- Occupations are grouped into the same ten interest areas measured by the Kuder E Interest Inventory: outdoor, mechanical, scientific, computational, persuasive, artistic, literary, musical, social service, and clerical.

For teachers

Designed for group guidance sessions, social studies classes, career education centers, or homeroom use, the ten KEYS filmstrips, cassettes, guide, and Career Guidance Manual stimulate interest in the working world. The first filmstrip introduces ten job families. The nine other filmstrips show actual on-the-job interviews, all carefully selected to demonstrate the variety of careers in each job family at different education levels.

For students

KEYS is a stimulating career exploration program in an engaging audio-visual format. In the interviews workers speak candidly about their employment, discussing its pros and cons, how they entered their careers and advanced, and how students can explore the field.

John D. Krumboltz

Components

Task materials, a User's Guide, and a pad of 30 Answer Sheets for each of the following occupations: accountant, appliance repairer, auto mechanic, beautician, carpenter, designer, drafter, electronics technician, elementary school teacher, lawyer, librarian, medical technologist, motel manager, plumber, police officer, salesperson, and secretary.

5-4000 Job Experience Kits	School Price
5-4005 Additional set of Answer Sheets (20 pads, 30 sheets each)	\$246.00
5-4225 Specimen Set	22.15
	8.45

To order replacement components, see page 98.

WORK—Widening Occupational Roles Kit

- Introduces students in grades 6–10 to hundreds of careers.
- Two color filmstrips, accompanying cassette, and colorful occupational scanner (WORKSCOPE) help students relate their general interests, abilities, and educational plans to career opportunities.
- Flexible format is adaptable for individual or group use.

For teachers

WORK is an ideal resource for social studies, English, and reading curricula; group guidance; school libraries; guidance departments; and career education centers. WORK Briefs provide a solid introduction to 340 assorted jobs in fictional narrative. Five illustrated booklets provide supplementary reading. The Handbook of Job Facts capsulizes, in chart form, information about duties, education, training, special qualifications, advancement, earnings, and outlook. With the exception of technical terms, all materials are written at fourth- to fifth-grade reading levels.

For students

WORK helps students expand their knowledge of the working world, related jobs, and their own abilities and interests.

Components

340 WORK Briefs, 1 Handbook of Job Facts, 1 WORKSCOPE, 5 Junior Guidance Booklets, 35 Student Record Books, 2 color Filmstrips, 1 Cassette, 1 Teacher's Guide, and 1 Index.

	School Price
5-2950 Widening Occupational Roles Kit	\$333.75
5-42955 Additional Student Record Books (pkg. of 25)	21.70
5-2960  Additional Set of 2 Filmstrips and Cassette	54.35
5-2951 Additional Set of 340 WORK Briefs	188.55
5-2956 Additional WORKSCOPE	22.45
5-2952 Additional Teacher's Guide	3.95
5-2954 Additional Index to WORK	1.80
5-2965 Specimen Set	6.20

Occupational Exploration® Kit

- A systematic, personalized approach to job investigation for grades 9–adult.
- All materials are written at the sixth- to seventh-grade reading level except for technical terms.
- The unique OccuScan® coding device helps individuals focus on relevant career information in an easy-to-use system.
- Student Record Book allows individualization.

For teachers

Four hundred illustrated four page briefs provide a thorough, up-to-date description of individual jobs, including qualifications and training, earnings and outlook, plus selected references. Twenty Job Family Booklets, organized according to USOE clusters, provide additional information relating jobs by interests and skills. Seven Guidance Series Booklets cover the world of work; how personality and interests relate to career choice; school subjects as related to careers; part-time jobs; and job hunting. A guide for teachers and counselors is included. The kit may be kept up to date with the SRA Occupational Brief Update Service described on this page.

The kit is an exceptional reference for group and individual career and educational counseling in homeroom, career-education centers, and classes. It is also an ideal resource file for guidance and counseling offices or libraries.

For students

Students explore a wide variety of occupations. They examine requisite abilities and education in relation to their own achievements, as well as how specific jobs might satisfy personal objectives and interests. The low reading level makes the material accessible to almost all students in high school.

Components

OccuScan® Coding Device, 400 Occupational Briefs, Index, 20 Job Family Booklets, 7 Guidance Series Booklets, 25 Student Record Books, Guide for Counselors and Teachers, all in one Study Kit.

	School Price
5-1000 Complete Occupational Exploration® Kit	\$241.50
5-41003 Additional Student Record Books (pkg. of 25)	11.55
5-2101 Additional OccuScan® Device	20.55
5-93 Additional Set of 400 Briefs	196.00
5-1005 Additional ODK Guide	1.65
5-1004 Additional Index	1.50
5-1006 ODK Specimen Set	5.60

Occupational Briefs

Up-to-date descriptions of individual jobs cover qualifications and training, earnings and outlook, plus selected references. Set includes 400 illustrated four-page briefs, written at a grade 6–7 reading level.

	School Price
5-93 Set of 400 Occupational Briefs	\$196.00

SRA Occupational Brief Update Service

- Keeps the SRA Career Information Kit and the Occupational Exploration Kit up to date after you have purchased either. Each new Brief replaces an earlier one.
- Prior years' subscriptions available while supply lasts.

	School Price
5-1825 Occupational Brief Update Service—80 Occupational Briefs for 1979/80	\$58.80
5-587 Occupational Brief Update Service—80 Occupational Briefs for 1978/79	61.00

(plus additional \$5.25 to cover postage and handling for each service ordered)

KEYS—Career Exploration

- Provides a systematic introduction to today's world of work for grade 6–adult.
- Ten full-color filmstrips with accompanying cassettes encourage career exploration. No reading required.
- Filmstrips of on-the-job interviews with workers stimulate interest.
- Occupations are grouped into the same ten interest areas measured by the Kuder E Interest Inventory: outdoor, mechanical, scientific, computational, persuasive, artistic, literary, musical, social service, and clerical.

For teachers

Designed for group guidance sessions, social studies classes, career education centers, or homeroom use, the ten KEYS filmstrips, cassettes, guide, and Career Guidance Manual stimulate interest in the working world. The first filmstrip introduces ten job families. The nine other filmstrips show actual on-the-job interviews, all carefully selected to demonstrate the variety of careers in each job family at different education levels.

For students

KEYS is a stimulating career exploration program in an engaging audio-visual format. In the interviews workers speak candidly about their employment, discussing its pros and cons, how they entered their careers and advanced, and how students can explore the field.

Developed by

John W. Lombard and Marilyn J. Grinager

Components

10 Filmstrips, accompanying Cassettes, Comprehensive Guide, and Career Guidance Manual.

	School Price

Please write for prices.

To order replacement components, see page 98.

Knowledge Needed to Obtain Work

- Overhead transparency program for grades 9-adult illustrates how to select a job and apply for it.
- Wallet cards repeat key statements as reminders for students to carry with them as they apply for work.
- Minimal reading requirements.

For teachers
64 transparencies grouped into seven topics: Selecting a Job, Finding Employment Openings, Filling Out an Application, Preparing to Take an Employment Test, Preparing for the Interview, Interviewing, and Following Up on Job Applications. The accompanying text elaborates on key statements made on the transparencies.

A counselor or teacher can personalize the program by using one unit at a time; by using selected transparencies from various units; or by adding transparencies about major employers, apprenticeships, other training opportunities, or similar significant information relevant to the students' community or areas.

The program is particularly appropriate for young people seeking their first full-time employment and for adults seeking new full-time or part-time employment.

For students
The program provides practical, specific information on how to seek and secure employment. Take-along wallet cards repeat key points from transparencies for future reference by the students.

Author Thomas J. Jacobson

Components		School Price
64 Transparencies and Text in Looseleaf Binder.		
5-75	Knowledge Needed to Obtain Work	\$85.70
5-74	Wallet Cards (pkg. of 100)	13.35

Introducing Career Concepts, Series 1 and 2

- A two-level career education program for grades 5-9.
- Series 1, for grades 5-7, examines interests, focus, abilities, school subjects, work features, and work settings.
- Series 2, for grades 7-9, presents concepts of work styles, work roles, skill development, training needs, income patterns, and employment opportunities.
- Career concepts are reinforced by follow-up activities and inventory exercises.

For teachers
Structured lesson-activity program enhances development of self-awareness and helps students organize experiences for future decision-making. Series 1 and 2 are self-contained and may be used independently or in sequence so the program is easily adaptable to a variety of classroom career education programs. Designed to be completed in 10 class sessions or extended over a longer period of time. Lessons and activities tie into existing curriculum. An inventory booklet for reviewing companions each series.

Inventory exercises provide practice in characterizing careers. A Self-Profile to be filled in by the student, and a Worker Interview Form for use with adults, complete the inventory booklet.

For students
Students learn to evaluate tentative career choices by asking themselves such questions as "What do I enjoy?", "What can I do?", and "What do I accept?". They apply the career concepts they are learning to answer these questions. An optional student inventory provides reinforcement for each series of lessons.

Developed by
A. Joanne Holloway and Joan T. Naper

5-4330 Introducing Career Concepts, Series 2 Specimen Set	4.80

Decision Making for Career Development

- Students in grades 8-adult use role-playing to examine work-related attitudes and problems.
- Audio-cassettes present narrations to set the stage for role-playing sessions.
- Student Response Books reinforce learning via follow-up activities.

For teachers
Role-playing activities offer valuable opportunities for students to explore their identities and to express their feelings in a non-threatening context. This audio-cassette program provides a series of role-playing situations that enables students to define their attitudes and values about the working world.

Student Response Books include follow-up activities to reinforce learning and to stimulate thinking and discussion at the end of each session. Program Guide presents rationale and procedures, lists objectives, describes the responsibilities of teacher/counselor and students, and summarizes each role-playing session.

The program can be introduced in social studies, psychology, and communication classes, as well as in career education classes. Junior and senior high school students, plus community, business, and trade school students can also benefit from the program.

For students
Assists students in developing basic human relations and communications skills that will be helpful in future work environments. Students are provided with an opportunity to analyze decisions and the decision-making process, especially in relation to their careers. An increased awareness of behavior and its effects on others can stimulate students to improve their behavior patterns. Students are encouraged to be creative and spontaneous in exploring personal or controversial issues.

Authors Don H. Parker, Shelby W. Parker, William H. Fryback

Components		School Price
4 Cassettes and a Program Guide in Binder Container; package of 30 Student Response Books.		
5-410	Decision Making for Career Development, Complete Kit	\$80.50

For a class of 30 students you will need:
1 Complete Decision Making for Career Development Kit

Job Family Series Booklets and Cassettes

- Innovative way of presenting job and career information for students in grades 7-adult.
- Ten audio cassettes use lively formats such as a soap opera and people-on-the-street interviews to spark interest.
- Twenty booklets group jobs according to the U.S. Office of Education cluster concept.

For teachers
Each of the twenty booklets in the series contains informative, easy-to-grasp descriptions of job situations based on observation and interviews with workers. Resource material is included in each 56-64 page booklet. The audio cassettes, 15-20 minutes per side, provide versatility through use as supplements to the booklets or by themselves.

For students
Informative and entertaining cassettes allow students to obtain important information without reading. The booklets help students plan careers by explaining educational and training requirements for entry into jobs. A separate guide summarizes relevant information for students' career development.

Expo 10: Exploring Career Interests

- Career exploration program for grades 5-adult.
- 58 colorful games provide occupational information. Intriguing format, award-winning graphics. Includes board games, card games, variations of traditional games, and hands-on activities.
- Organized into ten informative and highly motivating sets corresponding to the Kuder E Interest areas: scientific, computational, musical, artistic, persuasive, literary, mechanical, outdoor, social service, and clerical.
- Games format provides a motivating change from the reading selections often used in career development programs.

For teachers
Takes advantage of the energy and involvement that students devote to playing games, while developing awareness of occupational information. Basic occupational facts including description of duties, education and training, required talents or abilities, and All the necessary components and materials are included in the well-organized and carefully-paced program. The Teacher's Guide provides comprehensive unit plans and reinforcement activities in addition to rationale, overview, and suggestions for use. All games have been field-tested with a full range of students in a variety of school settings.

For students
Helps students learn about a wide variety of occupations in a career cluster while interacting with other students. The games also encourage students to consider general concepts such as specialization, interdependency of jobs, and the need for flexibility in interests and viewpoints on advantages and disadvantages of occupations are also considered. Throughout the program, students are encouraged to appraise themselves and to evaluate their interests in the career clusters.

Researchlab[™]

- Research skills program for grades 4-8.
- Offers extensive practice in looking for, finding, and analyzing information.
- Complements language arts and social studies programs.
- Designed for individual or group work.

For teachers

Helps teach basic and advanced research skills. Students work primarily on their own with teacher assistance and support as needed. Teacher's Guide notes the structure, components, and strategies of the program. Gives teachers detailed instructions on conducting student-teacher conferences and helping students in their research and report work.

The program is divided into three levels to accommodate a broad range of abilities. The first two levels present sixteen research skills described in detail on skill cards. Skills include skimming; using a dictionary; using cross references; finding supporting information; using cross references; finding supporting details; notetaking, outlining; selecting information; organizing material; using personal experience; noting similarities and differences; evaluating information; and relating information.

The third level of the program presents research assignments that help students develop reports using the research skills of levels one and two and the resources of the library.

For students

Article cards contain the three levels of research exercises and informative full-color material about ten subject-matter areas: Man, Animals, Plants, the Earth and Beyond, Famous People, Travel and Communication, Work and Industry, Countries of the World, Arts and Entertainment, and Sports.

Student Research Guide reinforces the skills in the program through exercises and introduces students to the world of research—the library, reference room, encyclopedias, card catalogs, dictionaries, atlases, and books of facts.

Components

220 Article Cards, 20 Answer Keys, 20 Contents Cards, 4 How-to-Use-the-Kit Cards, 2 Indexes, 1 Teacher's Guide, 1 64-page Student Research Guide, and 16 Research Skills Cards.

	School Price
3-7600 Researchlab [™]	\$147.85
3-7611 Student Research Guide	1.35
3-7612 Additional Teacher's Guide	2.35
3-7613 Specimen Set	6.45

For a class of 30 students you will need:
1 Researchlab
30 Student Research Guides

To order replacement components, see page 99.

Social Studies Involvement Program

- Visual format for grades K-6.
- Colorful illustrations of high-interest situations teach basic concepts and foster verbal skills development.

For teachers

Maximizes student involvement by encouraging verbal responses to a series of colorful, sequenced illustrations. Daily teacher preparation is minimal. The structured, easy-to-follow directions in the Presentation Book and the additional flexible activities in the Resource Book provide over 100 social studies activities.

For students

The visual format of Social Studies Involvement Program means high participation for both readers and nonreaders. Three independent kits—*You and Your Family*, *You and Your Community*, *You and Your World*—help children see the world they know and discover new worlds. Challenging tasks for readers and students with reading difficulties are included in the Student Workbook.

Authors

David Gladstone and Joseph Gladstone

Components

3 kits each containing 20 Social Studies Concept Boards, 1 Student Workbook, 1 Lesson Presentation Book, and 1 Teacher's Resource Book.

	School Price
3-964 Social Studies Involvement Program (all 3 kits)	\$218.40

3-966 Student Workbook 1-99 copies, each	1.06
100 or more copies, each	.96
3-967 Additional Lesson Presentation Book	3.80
3-968 Additional Teacher's Resource Book	3.45
3-980 You and Your Community kit	79.85
3-976 Student Workbook 1-99 copies, each	1.06
100 or more copies, each	.96
3-977 Additional Lesson Presentation Book	3.80
3-978 Additional Teacher's Resource Book	3.45
3-990 You and Your World kit	79.85
3-986 Student Workbook 1-99 copies, each	1.06
100 or more copies, each	.96
3-987 Additional Lesson Presentation Book	3.80
3-988 Additional Teacher's Resource Book	3.45

America: Land of Change

- Basic American History series for grades 6-12.
- High interest books written at a low reading level.
- Six paperback and workbooks: *Rights, Promise, Growth, Black, People, and Power*.

	School Price
3-1008 Set of 6 Textbooks (paperback) (1 each of 3-1010 through 3-1015)	\$16.55
3-1009 Set of 6 Workbooks (1 each of 3-1020 through 3-1025)	7.30
3-1018 Teacher's Guide	4.60

To order individual texts and workbooks, see page 99.

SRA/CBS News Filmstrip Series

- Colorful sound filmstrips produced by CBS News for grades 4-4-adult.
- Focus on world issues, family life around the world, and American heritage and ideals.
- Lively enrichment for social studies and language arts programs.

For teachers

Teacher's Guide provides questions for discussion before and after viewing and multilevel activities for students. Each activity has clearly stated objective and performance outcome. Sound track in filmstrip projectors.

for students

This exciting program probes important issues in depth and allows students to formulate their own opinions. Follow-up activities include inquiry, research, creative writing, debates, symposiums, community-oriented projects, and role playing.

Filmstrips

American Sampler. Grades 4-12. Charles Kuralt narrates six filmstrips drawn from his *On the Road* series.

Constitution. Grades 4-12. Roger Mudd narrates six filmstrips about the writing of the U.S. Constitution and the evolution of certain constitutional rights.

World Issues. Grades 4-12. Six CBS News correspondents explore issues of international importance in six filmstrips.

Controversial Issues. Grades 7-12. Nine filmstrips. Filmstrips about Gun Control, Energy, Welfare, Health Care, Busing, Labor Unions and the Draft are narrated by Mike Wallace. The Women's Rights Movement is narrated by Sylvia Chase. Religion in America is narrated by Douglas Edwards.

Families Around the World. Grades 4-12. Christopher Glenn narrates eight filmstrips about family life.

Components

Each package contains Filmstrips, Cassettes, and a Teacher's Guide.

To Order by Mail Use the order forms from this catalog or provide SRA with comparable information. A sample of a completed order form is on page 106.

SRA has two order departments: one for materials of instruction (Order Department) and one for test rental and/or scoring services (Test Order Department).

Send your order to—

Order Department or Test Order Department
Science Research Associates, Inc.
 155 N. Wacker Drive
 Chicago, IL 60606

To help us serve you promptly and accurately, please provide the following information—

- SRA Product Number, Quantity, Product Name, Edition, and Unit Price
- Required delivery date and preferred shipping method
- Your Purchase Order Number, if required by your organization
- Tax exemption number or certificate, if you so qualify under local law
- Complete shipping address and telephone number of location where order is to be shipped.
- Complete billing address, including name and telephone number of person authorizing payment.
- Claims forms (vouchers) if applicable.
- Signature and title of person authorizing order.

To Order by Telephone Telephone ordering is not appropriate if your school requires the use of an official Purchase Order form. In such cases, please mail your order, enclosing that form.

Call SRA's switchboard at either number—

(312) 984-2000 (for Illinois residents)
 (800) 621-0664 (toll free)

Ask the operator for the Order Department or the Test Order Department. Or, call those departments direct, as follows—

Order Department (Materials of instruction)	Test Order Department (Test rental and/or scoring services)
(312) 984-2375	(312) 984-2497
984-2376	984-2498
984-2377	984-2499
984-2378	984-2500
984-2379	

No written confirmation of telephone orders is required. If any such follow-up is sent, it must be plainly marked "Confirming" to prevent duplicate shipments at your expense.

Prices, Terms, and Conditions of Sale The prices in this catalog are school prices, which represent a 25% functional discount from list price. Educational institutions, professional educators, nonprofit institutions, and resellers of educational materials who identify themselves as such will be invoiced at school price plus shipping charges and applicable taxes.

Prices stated in this catalog are effective September 1, 1980 and are subject to change without notice. All prices are F.O.B. shipping point (in most cases, Chicago, Illinois). Terms are net 30 days, no cash discount.

List Price—Individual purchasers and profit-making institutions that are not resellers pay list price. List price is obtained by multiplying school price by 1 1/2 (1.3334). SRA will not bill individuals, but will bill institutions. Orders by individuals must be accompanied by remittance, including list price, shipping and handling charges of \$1.00 or 5% of list price (whichever is greater), and applicable taxes.

Quantity Prices—Quantity prices, where listed, apply only when materials requested are on ONE order and are shipped and billed to ONE address.

Minimum Order—Minimum order size is \$5.00, exclusive of transportation and taxes, and \$50.00 per battery per invoice for test scoring.

Materials on Approval—Institutions may request materials on approval for a 30-day examination period. An invoice marked "On Approval" will be sent to you when shipment is made. If you return approval material, credit will be issued for the invoiced amount of the material; you will be billed only for transportation and handling charges incurred by SRA. Approval material must be returned in saleable condition.

Resale Prices—Resellers of SRA materials establish their own selling prices.

Order Acceptance—All purchase orders received by SRA are offers to purchase, subject to acceptance or rejection by SRA at its headquarters in Chicago, Illinois, in accordance with the information contained in this catalog.

Shipping Information Most materials are shipped from Chicago. Please allow at least 3 weeks' delivery time from the date SRA receives your order.

Shipping charges will vary by weight, destination, and value of order. These charges are prepaid and added to the invoice. Parcel post charges include a nominal handling charge.

Freight charges are based on the prevailing rate from the shipping point (in most cases, Chicago) to a ship-to address. If you would like delivery to a point inside a building and so request on your order, an additional charge for this service will be prepaid by SRA and added to the invoice.

SRA tries to ship materials by the most economical method. If you desire a certain method of shipment, including air freight, please authorize the same.

Please specify particular hours or periods during the year when shipments cannot be received. Reshipments of undeliverable orders are charged to the customer.

All shipments should be checked as soon as they are received.

Inquiring About Orders All shipments should be checked as soon as received so that errors can be corrected promptly. If inquiries are necessary, contact the appropriate department at SRA as follows—

Order Services Department (materials of instruction)
(312) 984-2384 through 2392
Test Order Department (test rental and/or scoring services)
(312) 984-2497 through 2499
984-2505

Or write to either department at the headquarters address given above.

For the best service, please provide the following information—

- Name of purchaser
- Billing address
- Shipping address, if different from billing address
- Purchase order number, or date of order, or both
- Product number, quantity, and description
- SRA shipping order/invoice number and date

Making Other Inquiries For information about SRA's general line of products (other than those that are SRA-scored) write or call SRA's Customer Correspondence Department—

(312) 984-2396 through 2399

For information about SRA-scored products, write or call the Test Order Department—

(312) 984-2497 through 2499 and 984-2505

To arrange for adoption price quotations, write or call SRA's Adoption Contracts Department—

(312) 984-2061

If you need to talk to someone in a department other than those listed, call the SRA switchboard—

(312) 984-2000 (for Illinois residents)
 (800) 621-0664 (toll-free)

Ask the operator for the person or department you require.

Returning Materials Return of materials is a revocable privilege. The following procedures must be followed on all returns. Adhering to them will expedite the processing of your return.

Open and check all shipments as soon as they arrive.

Return audiovisual materials and any damaged or defective materials within 60 days of receipt. Return all other materials within 12 months.

Return materials for credit in clean, unused, undamaged, and saleable condition and in sets or packages as sold.

Enclose with your return shipment either an invoice copy with the reason for return or a statement providing billing and shipping addresses, invoice number, and reason for return.

Lacking the above information, you must call or write SRA for authorization to return.

Send return shipments, prepaid and insured, to—

Returned Materials Section
 Science Research Associates, Inc.
 7200 S. Leamington Avenue
 Chicago, IL 60638

Making Payments All payments should be sent to—

Science Research Associates, Inc.
 Post Office Box 4924
 Chicago, IL 60680

Terms are net 30 days.

Qualifications for Test Purchasers Purchasers and users of the tests offered for sale in this catalog are hereby advised that such tests are designed only for the specific purposes described herein. Furthermore, in accordance with standards established by professional testing organizations and test publishers and subscribed to by SRA, the test instruments described in this catalog are not consumer products and are offered for sale only to persons and organizations meeting the following qualifications.

Achievement or vocational tests: The purchaser must intend to use the test for the purpose for which it was designed. No additional qualifications are required.

Group tests of intelligence, aptitude, personality, and interest: The purchasing organization must have a supervising staff person who has successfully completed advanced university courses in psychology and testing or has had comparable supervised experience.

Nonofficial orders from schools: Orders for test materials from teachers or nonofficial orders from other school staff members cannot be accepted unless the individual either exhibits written approval from a responsible school administrator or establishes that he or she, personally, meets the special qualifications required for using tests of the desired level.

University graduate students: Students desiring tests for use in research should have their orders endorsed by their professor and enclose their remittance for the total order.

Orders from individuals having no professional responsibility for using tests cannot be honored, nor can tests be sold for self-guidance.

Proof of Qualification By ordering tests, purchasers represent that they are qualified to purchase the same in accord with the above-stated qualifications and agree to be responsible for the use of any tests purchased. On occasion, SRA may request the purchaser to furnish either satisfactory evidence of qualification to purchase or additional information regarding the intended use of the tests ordered. SRA shall be entitled to rely upon the qualifications objectively manifested by the purchaser or user in each instance and the purchaser or user waives and releases SRA from any and all claims or objections arising from such reliance and subsequent use or misuse of the tests, materials, and services offered herein.

Confidentiality of Test Scores It is SRA's practice to maintain the confidentiality of test scores. Results of tests are reported only to those schools and institutions, or their qualified representatives, who have properly identified themselves as authorized registrants.

Testing and Research Discounts and Training Discounts Test and research discounts: Reasonable quantities of certain test materials ordered specifically for test and research projects may be eligible for discount. Inquiries and discount requests must be on school letterhead stationery, must give a brief description of the project, and must from a project in which SRA has interest. All discounts are computed from list price only and are subject to SRA's acceptance. Address all requests to—

Director of Testing
 Science Research Associates, Inc.
 155 North Wacker Drive
 Chicago, IL 60606

Training discounts: Teacher training and curriculum center discounts are available on reasonable quantities of certain materials specifically ordered for use in training courses, or for college curriculum centers. All orders requesting the discount should state that the materials ordered will be used for teacher training, and that the materials to be billed at the teacher training discount. For further information and a list of the products for which discounts are available, please contact your local SRA College Associate or write to—

SRA Marketing Services

 Palo Alto, CA 94304

Copyright and Licensing Policies Copyright notice: Materials of instruction, guidance products, tests, interpretive materials, and all other materials in print or on film, records, cassettes, or tapes published by SRA are copyrighted and may not be reproduced in whole or in part in any form or by all means, electronic or mechanical, without prior written permission in each instance from the publisher.

No adaptations or translations of copyrighted materials may be made without prior written permission in each instance from the publisher. Users are further cautioned that any changes in test materials, answer media, or instructions may affect the validity of test results.

Requests for permission to reproduce, modify, or translate all or part of any SRA copyrighted material should be addressed to the Rights and Permissions Manager, at SRA in Chicago.

Notice of licensing policy: Effective January 1, 1974, SRA initiated a policy of licensing copyrighted and proprietary materials for use in test scoring and reporting. These licenses permit the use of SRA materials such as answer keys, norms, statistical tables, and report formats as needed for scoring of SRA tests, yet permit SRA to maintain high standards in its program of data collection, standardization, and norming of SRA tests. Details of the policy are available from the Director of Testing at SRA in Chicago.

No warranty—sole remedy SRA shall not be responsible or liable for the use or misuse of the materials or services offered in this catalog. The purchaser/user assumes all responsibility for use or misuse of the same. Unless expressly agreed to in writing by SRA, ALL MATERIALS AND SERVICES ARE SOLD WITHOUT WARRANTY, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Return or replacement of materials as described herein and/or refund of purchase price at SRA's sole option, IS THE SOLE AND EXCLUSIVE REMEDY AND IS IN LIEU OF ACTUAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES FOR USE OR MISUSE OF SRA materials and services and in no event shall SRA liability exceed the purchase price of said materials and services. The provisions of this catalog apply to all orders accepted by SRA and may not be modified by the purchasers' forms unless expressly agreed to in writing by SRA.

Ordering SRA Educational Courseware SRA Educational Courseware is made available under a license agreement rather than through sale. The right to possess and use SRA courseware is obtained by signing an SRA Courseware License Agreement—copies of which are available from SRA—and paying the stated license fee.
