

THE NORTHVILLE RECORD

Vol. XXVII, No. 15.

FRIDAY, NOVEMBER 22, 1895.

\$1.00 per year, in advance.

TAXES ARE HIGH.

The Per Cent Probably Higher than Ever Before.

It is in evidence that there will be some tall squirming among taxpayers this fall when they walk up to the tick to settle with the town treasurer and pay for the privilege of owning a little property. The township of Plymouth comes in for a good round sum and the rate in each district is about the same, with the small difference in favor of the Northville end. The rate here is \$1.16 on each \$100 assessed valuation. The county tax is a trifle lower but you won't notice that when you come to see the town and state departments.

Some of the people of this town were not satisfied with the proposed appropriation asked for by the town board last spring but voted several hundred dollars extra to be used on various hills and roads in the town where the work might about as well be left undone. This together with appropriations for "homes," schools, asylums, reformatories, etc. and the thousands of dollars paid for the last session of the legislature which accomplished something of importance beyond drawing a membership salary and trying to knock out Mayor Pingree—these we say come high, but we must have them you know.

A GOOD BIG UNDERTAKING.

The Globe Company Are Now Finishing Something Elegant.

For years and years the Globe Furniture company has turned out on an average the seatings for one church per day. Their orders have reached into the thousands and though for years they have been rated as the largest church furniture factory in the world, they are working on a job now which was the largest undertaking in their entire history. It is the entire interior (and exterior except the main work) of the large St Ignace Roman Catholic church at Kingston, Penn. The Globe company furnish everything in the line of wood work and trimmings, including not only the pews, pulpits, chairs and confessionals, but the window casings, doors and vestibules as well. The wood work is all of quarter sawed red oak and it will be finished as nice as skilled labor can do it. The cost of the job is \$4,200 and it is to be ready for shipment about December 1. The entire work will be done at the factory here and it will be put together in sections before shipping. The massive large oak doors will have the distinction of being hung in Northville and swung in Pennsylvania. The finishing of a church by a furniture factory, after the masonic work is all done, located hundreds of miles from the spot is a remarkable feat and it probably has never been successfully accomplished by any other factory in the world. The Globe company did a similar successful job for a smaller church in that same state about two years ago.

Salem News.

S. C. Sobel and E. T. Walker were in Ann Arbor on Wednesday.

Mr. Leonard and Mrs. King of Plymouth spent last Sabbath with Mr. and Mrs. Fred C. Cole.

There are two different species of insects known under this name, one of which is the spring canker worm and the other the fall canker worm. The females of both species are entirely destitute of wings, and resemble each other so closely that unless careful examination is made, one might suppose them to be the same. The spring canker worm is the more common. Early in the spring, as soon as the snow is clear from the ground, or even before, the perfect moths emerge from under the ground, where they passed the winter in the pupa state, and the wingless females crawl up the trunks of the trees, while the males fly about and pair with them on the trunks of branches after which the eggs are laid in clusters in the crevices of the bark, without any special order in their arrangement, sometimes to the number of a hundred.

They next descend to the ground and burrow to the depth of three inches or more, when they spin a fragile cocoon of dull yellowish silk, within which they transform to pupae, and remain in this state until the following spring, when the moths emerge, ascend the trees, and lay their eggs for another generation. Some of the individuals, however, emerge in the fall and lay their eggs, but these do not hatch till the following spring. The wingless female is of a pale ash color, and the male is of the same color, with a broken band across the fore wings, near the outer margin, and lines interrupted brownish lines between the base. The hind wings are of a very pale ash color, or very light gray, with a darkish dot near the middle.

The canker worm emerges from the ground late in the fall, after the leaves have fallen from the trees and the moths have destroyed all the tender plants. The females climb the trees attended by the males, who hover around on the wing. After the mating of the moths, the females lay their eggs side by side, in regular masses, often as many as 100 to 150, in the exposed situation on the twig or branches of the trees. Sometimes the females, through mistake, crawl up the side of a building and deposit their cluster of eggs on the exposed surface.

After they have done feeding they descend from the trees and burrow into the ground, where they pass their transformations, and the moths emerge late in the fall. The female of this species is wingless, about three-fourths of an inch long, and of a pale gray or ash color. The males have well developed wings, which extend nearly an inch and a half, and are of the same color as the female. The fore wings have two rather irregular whitish bands across them, and the hind wings have a blackish dot at the middle and a more or less distinct whitish band outside of it.

As the females are wingless and pass their transformations underground, and are obliged to crawl up the trunks of the trees to deposit their eggs, one precaution is to prevent their ascent by putting bands of heavy paper around the trunks, painting them with some sticky preparation, as printer's ink, or tar softened with oil.

Another method is to put a trap of zinc or tin around the trunks of the trees, over which they cannot pass. Care must be taken that the trap or paper fits tightly to the tree, that neither the female moth nor the newly hatched larvae can find a passage beneath. Still another remedy is to shower the trees with Paris green, or water about the time the eggs have hatched in the spring.

Potato Scab.—Dr. Byron Halsted, of the New Jersey experiment station, is one of the most careful observers and workers. The Rural New Yorker gives the following note in regard to some of his recent work: Dr. Halsted of New Jersey had a very interesting exhibit of potatoes at the Trenton fair. The object was to show the effect of fumes of sulphur in checking or reducing potato scab. The results were striking. Where the seed was rolled in sulphur, and a quantity of the substance was scattered in the drills, the potatoes were remarkably free and clean. Where sulphur was not used they were badly scabbed. Dr. Halsted obtained much the same results with sulphur in preventing street potato rot. The R. N. Y. tried sulphur carefully years ago and found that it largely prevented scab and kept wire worms in check.

The Corn Crib.—A corn crib should be rooled and sided on the north and west sides, if exposed, as tightly as a crib for small grain. This is true, because leakage injures ear corn as well as small grain though the damage be not so great. It is true, because driving storms will force snow nearly to the center of the crib, and then when melting causes more or less damage. It is easy to reduce the selling price or feeding value of corn two cents the bushel, and two cents the bushel is the whole cost of cribbing corn, saying nothing about the use of the cribs in subsequent years.—Rural Life.

Too Cheap Potatoes.—A commercial friend living in Ames, Iowa, reports that at Holstein and other points in North Iowa he found the people loading potatoes on the cars at 8 cents per bushel. This is a ruinous price. They are worth far more for feeding. If fitted, as noticed in this department a week ago, good potatoes will bring a fair price next spring. The crop is short in Illinois, Michigan, Ohio and other states east of us. Potatoes will be shipped next spring from Colorado with profit to the growers.—Ex.

Early Maturity.—Early maturity means the largest proportion of muscle or lean meat for the least food eaten, as well as the attainment of this condition at earliest possible age. All growth is made from what is eaten in excess of the amount necessary to support life, and the quicker it reaches the stage best fitted for food not only will it have less loss per pound, but it will have done so at an earlier age.

ATLANTA WORLD'S FAIR.

NOW IN PERFECT RUNNING ORDER.

Greatest Show on Earth Since the Columbian Exposition.

As the winter season draws on apace and the anxieties of the tourist and health seeker turn to thoughts of balmier climes, the great Atlanta Cotton States and International Exposition presents itself as decidedly the biggest thing this country has ever seen outside of the Columbian Fair, reflecting glory upon the thriving Gate City, upon the State of Georgia and the South in general. With this "greatest show on earth" now fully opened up and in perfect running order, all who can, should not fail to avail themselves of this grandly instructive opportunity to view the "New South" as portrayed by Atlanta's magnificent Exposition, which must be seen to truly appreciate its great magnitude.

The railways for the North have made unusually low rates and even lower fares may be obtained on special rates to the fair, which will apply to parties now being formed to start from Detroit and other Northern centers.

A happy chance of route is an essential feature of a Southern trip.

A MODEL RAILWAY.

The C. H. & D. has long been recognized as occupying a favorable rank among America's Railway Systems of note and prominence. This high regard is thoroughly merited by the Cincinnati, Hamilton & Dayton Railway Company, according to its patrons, as it does all the conveniences, comforts and amenities of modern travel, which, combined with unsurpassed roadway, absolute mechanical perfection, superb equipment, maximum speed, close connections, and all appliances, accessories and benefits incident to the highest standard of Railway excellence, unquestionably enables this popular line to offer, in

Florida and Southeast.

If you have any intention of going to the Southeast this fall or winter you should advise yourself of the best route from the North and West. This is the Louisville & Nashville Railroad, which is running double daily trains from Cincinnati through to Nashville, Chattanooga, Birmingham, Atlanta, Montgomery, Tallahassee, Pensacola, Mobile, Jacksonville and all Florida points Pullman Sleeping Car Service through. Specially low rates made to Atlanta during the continuance of the Cotton States Exposition and tourist rates to all points in Florida and Gulf Coast resorts during the season. For particulars as to rates and through car service, write JACKSON SMITH, Div. Pass. Agt., Cincinnati, O.

C. P. AUMORE, Gen'l. Pass. Agt., Louisville, Ky.

The Nashville, Chattanooga & St. Louis Railway, the model railroad of the South in equipment, roadway and service, is also the greatest industrial interest, more than fifty famous battle fields and five national cemeteries being located on the various lines of this system. This is the preferred route to Atlanta for the Cotton States and International Exposition, open from September 18, to December 31, 1905, for which very low excursion rates have been made. Through sleeping car service from St. Louis to Atlanta via Evansville, Nashville, and Chattanooga. This is the route of the famous "Dixie Flyer" through sleeping car line which runs the year round between Nashville and Jacksonville, Fla. For further information, address Brian F. Hill, 323 Marquette Building, Chicago, Ill., or R. C. O'wardin, Western Passenger Agent, Railway Exchange Building, St. Louis, Missouri, or D. J. Mulligan, Pass. Agt., 59 West Fourth St., Cincinnati, Ohio.

FOR TOURS OUTING GO TO PICTURESQUE WICKBURG ISLAND.

ONE THOUSAND MILES OF LAKE MICHIGAN AT SMALL EXPENSE.

Visit this historical island, which is the grandest summer resort on the Great Lakes. It only costs about \$12 from Detroit, \$25 from Toledo, \$15 from Cleveland, for the round trip, including meals and berths. Avoid the heat and dust by traveling on the D. & C. floating palaces. The attractions of a trip to the Mackinac region are unsurpassed. The island itself is a grand romantic spot, its climate most invigorating. Two new steel passenger steamers have just been built for the upper lake route, costing \$300,000 each. They are equipped with every modern convenience, annunciators, bath rooms, etc., illuminated throughout by electricity, and are guaranteed to be the grandest, most comfortable and

Gastric Dyspepsia

And constipation troubled me for over a year. I grew worse and could hardly perform my household duties. I had severe pains in my stomach, especially at night. I treated with our physician six months without avail. I resorted to Hood's Sarsaparilla and having taken it I am free from all distress in my stomach and am no longer troubled with dyspepsia. MARGARET FESSE, Indian Falls, N. Y.

AN ACCIDENT

Mr. Quintus Hummel, of 118 Michigan Ave., Detroit, tells a War Story of his own Experience, and the Result.

Our representative called at 118 Michigan Ave., the residence of Mr. Quintus Hummel. Mr. Hummel is a cousin of the late war, and received in the campaign of 1861, which was given him by the army and suffering from it. He belonged to a Michigan cavalry regiment and his horse becoming frightened one day reared up, striking him backward. In falling he struck his spine on a sharp stone. The injury affected the kidneys, and he was kept in bed for several months. He was unable to do any work, and his health was so bad that he was almost entirely helpless. I read I can never be entirely cured, but I would have to live a new man, but Dr. Williams' Pink Pills have done more to make me like a new man than all the other things I have tried during past years. I have not had any recurrence of the pain or bleeding since taking them. Dr. Williams' Pink Pills for sale by all druggists. Price 60 cents. For mail, from Foster-McMillan Co., Buffalo, N. THE EXILES RETURN

THE FALLING LEAF. The prospect of torpid greenish waves below, and white, fast-falling wildernesses of snow obscuring the atmosphere above was scarcely so exciting as the cheer coal fire within, and the lamp swinging softly from the low arched roof.

The Falling Leaf, she was only a little sailing vessel, bound to the bleak shores of Maine from a Sicilian port. Was within a day's sail of home, and her two passengers, long exiles from the rocky coast of their nativity, were alone together, trying to realize that their journey's end was near.

Matthew Torrance walked up and down the warm cabin with folded arms, his eyes fixed on the sea, whose lambent fire contrasted strangely with the streaks of silver in his luxuriant black hair. Suddenly he paused, and turned abruptly to the old man who sat directly underneath the circle of light thrown by the swinging lamp.

"What are you reading, Mr. Hayes?" The old gentleman looked up with a tranquil smile.

"The book I read oftener, Mr. Torrance—the book that answers to every want and need of my nature."

"Oh, the Bible, can you find the parable of the Prodigal Son?"

"It seems as if I should like to hear that to-night."

Samuel Hayes turned to the place and softly read. And the sacred old Bible story, as his voice died away, Torrance drew a deep, long sigh.

"I suppose that parable is meant to illustrate God's patience and long suffering?"

"Undoubtedly."

"Ah! but that prodigal son, only spent his substance and wasted his life foolishly. He was not beyond the pale of forgiveness."

The old minister pushed his spectacles up on his forehead.

Matthew Torrance stopped in front of the table.

"I had a friend once—a near and dear friend, who—well, he had his faults, I won't deny that. He was a wild, passionate fellow, but there were good points about him, too. He had a twin brother, and one day, in a sudden gust of rage—there was plenty of provocation, for both loved the same girl, and she was a heartless coquette—he raised his hand against this brother, and—"

finished table that was spread in the center of the apartment. It was a very old-fashioned room, with a home-made carpet, and curtains trimmed with knotted fringe, while the window seats were full of thrifty geraniums and petunias. A tall clock in the corner ticked monotonously, and the brass candlesticks gleamed from the mantel as brightly as if they had been fashioned out of gold.

"A quarter past five," said Ebenezer Torrance, adjusting his iron spectacles to glance at the clock. "I don't see what keeps that boy so. Clara, I must wish you could have made up your mind to marry him, and then we shouldn't have had him chasing down to Squibs Dean's after Margaret half the time. There, child, you needn't turn so pale—I'm not in earnest."

Mrs. Torrance put out her motherly hand to smooth Clara's golden hair, as the fair woman shrank as from a blow.

"Clara, Clara, it wasn't your fault!" "But it was my fault, Aunt Miriam—it was my fault. Do I not know where your thoughts have been all this day, when other mothers have their happy families gathered around them? Oh, Aunt Miriam, if I could only have died in a road!"

At this moment, while the bright light was filling the homely room with such a glow and fulness of rosy life, Matthew Torrance was slowly toiling up the road, in the dim glow of the fast darkening night. As he pushed a moment to rest against the gnarled trunk of a deformed willow, where he had many and many a time played as a boy, a tall, straight figure passed him, striding swiftly along, and whistling an old-fashioned air. As it passed, Matthew shrank back as if a sword had pierced his heart.

"He used to whistle that tune, I have not heard it in twenty years before." So Matthew toiled on.

There it was, the old familiar light in the old familiar window, gleaming out like a star.

Torrance hesitated.

"Am I right in pressing on? Who knows but one, coveted glance may bring sharper pain than years of neglect and doubt? Who knows but that the chairs are empty, the hearstones surrounded by other faces and forms? Were it not best to leave the old homestead shrouded in merciful uncertainty? No; I have dared too much to pause now."

He softly lifted the latch of the garden gate and passed up the narrow path.

Yes; there was his father, old and silver-haired, but living still; and his mother sat opposite, with the half-gleamed stockings on the gleaming needles, just as it had been twenty years ago, and the black silk holiday dress fastened at the throat with the little gold pin, fashioned like a sea shell, that he remembered so well. And Clara, as beautiful as ever, with a ripened, mature loveliness, how royally the fire turned her heavy coronals of hair to coils of gold, as she bent to light the guttering candles in the polished brass candlesticks. Like a sleeping giant the old love rose up once more in his heart as he looked on the face of the girl whose eyes-like charms had maddened him to the one desperate act of his life. And—Father of all mercies! was he dreaming, or was the great horror of his darkest anticipations overwhelming him—madness?

Even as he looked, a tall figure passed from an obscure part of the room into the full glow of fire and candles, standing with one hand on the old lady's shoulder.

"Paul! Paul!" The words strove to shape themselves, but the parched tongue refused to give them utterance. Matthew Torrance struggled like a man under the dreadful spell of nightmare.

"Hush!" said Clara, suddenly, pointing to the door.

"Paul!" fathered Clara, reproachfully. "Well, what's the matter? If you'll only expedite matters a little, we can have two weddings at once, for I'm to be married to Maggie Dean next month, old Mac."

The twenty years of trial were over, and Matthew Torrance kept Thanksgiving under his own roof, with a heart that needed no proclamation to stimulate its intensity of gratitude.

THANKSGIVING PICTURE. What if the gold of the dawn strands is faded to sombre gray? And what if the down of the thistle is ripened and scattered away? There's gold in the gathered harvest: There's honey and heartsome cheer; And so we will be fullorous—

The day of thanksgiving is here, A sigh for the vanished splendor Of the summer's purple and red— For the golden-rod that is withered. For the gentian bloom that is dead; Then turn to the hearstone cheerily: Behold, 'tis the time of year To count our blessings and mercies— The day of thanksgiving is here.

Dare and brown in the shadows, The meadowland meets the gaze, Where the bold, blithe bee went seeking Its sweets in the summer days. The honey is stored in plenty, So what if the winter is near? The time is not one for repining— The day of thanksgiving is here. The fruit has matured in its season, The sunshine has ripened the seed, Thanksgiving to the Lord of the harvest A song of thanksgiving indeed. The morn and the noon have passed by, So let not your tribute be late. 'Tis the sweet after-noon, So let not your tribute be late. The day of thanksgiving.

bar to the door. "Only the wind among the bushes, how nervous you are getting, Paul!" "No—hush, Paul, do, please, look, I thought I heard some one's voice."

Paul Torrance burst into a merry laugh, half derisive, half fond, and strode to the door.

"Of course there's no one here; I told you so, Clara, but—hold on, though! Hello, you! what are you doing under our windows?"

He made a step forward, but stopped suddenly, holding his hand to his breast as if a ball had pierced it.

"Mother! it's Matthew! It's our Matthew!"

And the two brothers, separated by long years and racking doubts, were in each other's arms before Clara could reach the door.

In after years, Matthew Torrance never could have told how he reached the wide, merry fire-place, for how he found his mother, sobbing on his breast, and his father clasping both his hands, with Clara—dear little Clara, hid away behind the big geraniums, and cried as if her heart would break. He only felt that he was at home once more—free, safe, happy.

"Paul!" he stammered, "come here and let me look at you—let me feel your hands. Oh, my brother! I thought I had murdered you!"

Paul burst into a laugh.

"You didn't hit quite hard enough, old boy; my wrist was thicker than you thought for. Oh, Matt, why have you hidden yourself away from us all these years?"

"And Paul's laugh became a sob."

"But we won't be fools," said Paul, resolutely. "Clara, come here, you little goose! Don't be afraid to take her hand, Matt! She loved you best, and she has been waiting patiently for you twenty years."

"DAT 'POSSUM SMELL POW'FUL GOOD."

THE BANGLE AGAIN. In Game Auto Fashion with Mable. Here and is Very Costly. One of the features of this bangle is that the bangle is very different from the old, it is into fashion, along with the old, it is now so much in vogue, and flexible affair, comfortable and entirely unlike the old few years ago. At one end of the bangle, they consist of a flexible gold band, set with alternating with one and very beautiful. Diamonds with emeralds are the in though exquisite bangle pendants and rubies and sapphires. Another bangle, the same flexible band, jewels arranged in a row of the separate gems all one another. A bangle with diamonds makes a these new bangles. Strive the fashion to wear evening gowns. The late pearl strands caught together by that diamond clasp could be more beautiful than coming out of these new pearl fashionable hat pin of the for its top one large gem pendants on any pearls, set in pearls is, perhaps, the best.

In His Ordeal, Chicago. I was waiting for the pass. Hainesville to open in the meanwhile talking a bit to a janitor, who was sweeping up when a negro boy about came along and halted the janitor to stop and looked at him sharply.

"Say, you!" called that. There was no reply to a minute he called again. "Boy! what you?" sternly demanded the janitor. "I wants to speak wid you."

"Who is you?" "Yo know who I is. I was gaged by my sister, because."

"Oh! yo is her brudder, what yo want?" "An yo lend me 10 cents."

"On what grounds, say?" "On de grounds dat yo say brudder-in-law."

the Of. over us. the generally acute reporter, we get the slightest trace of the missing girl. For some time previous to her disappearance, Miss Stoker's health had been in very bad condition, and it was determined by her relatives that she should pay a visit to Columbus, where, at the state institution for the blind, she expected to be healed. It did not reach the place, and after a thorough search her friends came to the conclusion that she had in some mysterious manner met her death as a result of her temporary affliction. A day or two ago she suddenly appeared at her home, in the best of health and spirits and with her eyesight completely restored. Miss Stoker says that her disappearance resulted from a mere lapse of adventure on her part, and that while she much regrets causing her relatives so much anxiety and sorrow she has found that she can earn a good living on the stage. While on the way to the state asylum the late of Gallion, going to another there that same evening, met a young man whom she had before, and they decided to go, as accordingly they started for the home of the young man, who had advised against the match on the count of Miss Stoker's unusual condition. She urged her to return home, but she seemed to be in a hurry, and she secured an engagement at a local theater, where her vocal talents made her a favorite. Later she signed for a season with a traveling company, visited Cleveland last winter, and her relatives learning of the fact, warm weather arrived last spring, resigned her position in the company, the discomforts of the summer being more than she could face. She was then in Philadelphia, where she at once secured an engagement as governess for the two children of a rich business man. Two before this time her sight had been completely restored. Miss Stoker remained in the Cucumber City for several months, and then, hearing in a roundabout way that her mother was in poor health, suddenly determined to go home, which she did.

Miss Stoker remained in the Cucumber City for several months, and then, hearing in a roundabout way that her mother was in poor health, suddenly determined to go home, which she did.

For some time previous to her disappearance, Miss Stoker's health had been in very bad condition, and it was determined by her relatives that she should pay a visit to Columbus, where, at the state institution for the blind, she expected to be healed. It did not reach the place, and after a thorough search her friends came to the conclusion that she had in some mysterious manner met her death as a result of her temporary affliction. A day or two ago she suddenly appeared at her home, in the best of health and spirits and with her eyesight completely restored. Miss Stoker says that her disappearance resulted from a mere lapse of adventure on her part, and that while she much regrets causing her relatives so much anxiety and sorrow she has found that she can earn a good living on the stage. While on the way to the state asylum the late of Gallion, going to another there that same evening, met a young man whom she had before, and they decided to go, as accordingly they started for the home of the young man, who had advised against the match on the count of Miss Stoker's unusual condition. She urged her to return home, but she seemed to be in a hurry, and she secured an engagement at a local theater, where her vocal talents made her a favorite. Later she signed for a season with a traveling company, visited Cleveland last winter, and her relatives learning of the fact, warm weather arrived last spring, resigned her position in the company, the discomforts of the summer being more than she could face. She was then in Philadelphia, where she at once secured an engagement as governess for the two children of a rich business man. Two before this time her sight had been completely restored. Miss Stoker remained in the Cucumber City for several months, and then, hearing in a roundabout way that her mother was in poor health, suddenly determined to go home, which she did.

patronized than is the Wayne paper
where the town is four times its size.

Wayne citizens will hold a mass
meeting tomorrow night to consider
the question of water works. The two
railroads there have made a proposal
to the village to pay about one-half the
yearly cost of the system for water for
their engines.

Seven hundred Wayne citizens,
young and old, black and white, say
they will no longer drink surface water
and if the council will not put in a
water works system they will become
candidates for Northville's gold cure or

using the pulpit as a newspaper or
bulletin board. All notices are posted
in the vestibule by the ushers where
those interested may see them. No

notices whatever are read from the
pulpit. This with the newspaper
notices it is hoped will meet all require-
ments.

The following new-fad which is just
prevalent by the society newspa-
pers: The girl who indulges in the
dizzy waltz will hear with interest that
the heads of society have decided that
sitting out a waltz this winter will be
more fashionable than dancing—the
only difference is you sit instead of
dance. The man's right arm is around

NORTHVILLE LOCALS

Regular council meeting tonight. Mrs. Ella McDonald has an address letter at the post office.

Plymouth Concert company at opera house next week. The entertainment at the church Wednesday evening was a delightful affair.

The Methodist ladies cleared about \$24.00 at their chicken pie social Saturday night. Mrs. Wilbur Lake of Detroit and Miss Anna Lyon of Plymouth, were married yesterday.

Gilbert A. Clark and Miss Lucy B. Leavenworth of this place were married yesterday. The state bank examiner made the State Savings Bank a visit here Wednesday and found everything in correct shape.

The U. S. fish hatchery here this week had \$89,000 eggs. Two million were shipped to Dean's station, Cape Vincent, Monday.

There was fairly good sleighing about town Saturday and Monday and a few entries were seen gliding about the avenues.

AV should have stated last week that Dr. Murdock's office is both at his residence 145 Main street and at the drug store of his sons, Murdock Bros. Cashier Babbitt of the State Savings Bank requests that all savings depositors bring in their bank books by the member list, so as soon as possible may be.

If the Review is not mistaken, Origin township's tax rate this year is \$1.86 on each \$1,000 assessed valuation or about one-sixth as much as in this town.

Frank B. Park, formerly of this place, has purchased a partnership in the drug firm of Chaffee, Hunter & Chadwick, in Plymouth. The new firm will be known as Hunter & Park.

E. L. Deal gave a splendid talk at the men's meeting, Sunday afternoon. There was an unusual large attendance. Rev. Deal speaks next Sunday on the relation of secret societies to the church.

G. E. Allen, the stove man, is on the sick list and is badly in need of money that is owing him. He is confined to his bed and those who are indebted to the worthy man will confer an obligation by paying it.

Rev. C. G. Turner conducted Thanksgiving services in the Methodist church yesterday. The sermon was exceptionally good and the audience was really a large one, considering that all the factories were running.

The Plymouth Concert company will hold forth at the opera house here next week Friday night. The company is composed of Plymouth's best musical and specialty people and it promises to be a very pleasing entertainment.

Newspapers which are continually warning the public against sharpers had better take some of the advice to themselves. There is no class of people swindled out of more money in the course of a year than the average copyholder.

Advertisers have made such a demand for space that the usual amount of reading matter is slightly curtailed this week. However the seven columns which the paper does contain this week is more than the average village paper puts up. Some important changes will be made next week.

W. C. deRavenel, assistant in charge of the division of fish culture of Washington, D. C. inspected the government station here last week. Mr. deRavenel, while complimenting Supt. Clark on the work here, expressed surprise at the large volume of business done in such cramped and inconvenient quarters.

Mr. J. E. Vanatta for many years the well known book-keeper to the Dubuar Mfg. Co.'s office here and Miss Nora Young, one of Salem's most popular young ladies, were married yesterday at the bride's home by the Rev. Wm. Bangou. They will immediately go to home keeping in the Jones Wilcox residence 41 Center street.

The Record suggests that at their next meeting the council put in an electric alarm from the engine house box to Chief Whitehead's residence to be used in case of fire at night. It could be so fixed that upon breaking of the glass the alarm would run automatically. The cost need not exceed \$3.00 or \$4.00. If a fire chief is needed at all, he is needed quickly and a few moments delay at the outset may cost many dollars.

John Payro was up before Justice Webster Monday morning and pleaded guilty to assault on J. W. Robinson committed Saturday night. John was somewhat intoxicated and when he met Night Operator Robinson who was coming up town on Church street a controversy ensued as to whether Payro should have all the sidewalk or not. In the end up Payro struck Robinson in the face and a warrant for the arrest resulted. The justice assessed Payro \$3.00 and \$5.00 costs which he paid.

Regular council meeting tonight.

Mrs. Ella McDonald has an address letter at the post office. Plymouth Concert company at opera house next week. Friday of the entertainment at the church Wednesday evening was a delightful affair. The singing by Master Kren... the boy soprano, was exceptionally good.

Subject at the Baptist church Sunday morning: "The Armour for Life's Battle," evening, "Weighed in the Balance." Miss Rutledge of Bay City will sing at the morning service.

Married Nov. 28, at the residence of Mr. and Mrs. James E. Gibson, 520 Milwaukee avenue, W. Detroit, by the Rev. R. J. Ferriss of the Trumbull avenue Presbyterian church, Kate A. Trayer and Frank W. Parsons.

The O. E. S. Thanksgiving social and hop at the rink last evening was a repeated success. It was an exceedingly enjoyable affair and the ladies are adding laurels to their already enviable reputation of entertainers. Another is anticipated for the near future.

Almost any of the announced republican candidates for governor, and there are a number of them, would do honor to the state. There are none in the race however more clean cut and honorable than Harry A. Copart of Monroe and up to date he appears to stand as good a show of getting the nomination as anyone else.

The fire alarm was put in place Saturday and it is all right. The fire chief says it is very satisfactory and will tend to "wake the natives" in a very hurried manner. The bell is forty-four inches in diameter and was cast and placed by the Am. Bell Foundry Co. at an expense to the village of \$145. The old bell is for sale.

Union Chapter No. 55, R. A. M. held their annual meeting Wednesday night and elected the following officers for the ensuing year: J. M. Collier, H. P. Chas. Booth, K. C. J. Sprague, S. J. Van C. H., R. M. Johnson, P. S. W. T. Carr sec.; B. A. Wheeler treas.; H. A. Hayes, R. A. G. S. Clark, M. of G. V.; R. M. Granger, M. V.; A. B. McCutlough, M. V.; J. R. Nash, Septuagint.

If the people of Wayne county think their tax is high this year what will they think when they commence to pay for the new county buildings. It is a great deal easier to vote for a large appropriation than it is to raise the money afterwards. Like the Israelites of old who wanted a king, and got it, Wayne county voters wanted a new county building and they got it—in the neck.

Talking about the mail service, Northville can give the postoffice department pointers on some of the poorest service on earth. For instance you cannot send a letter to Plymouth, four miles distant, and get a reply the same day. By dint of exertion Plymouth people can get a letter up here and back the same day. What is needed is a postal clerk on the south bound 10:00 o'clock train.

If George Chadwick don't give jointers and shapers a wider berth the day will soon come when he will not have any fingers left. It was blue Monday for him and just four minutes before twelve the jointer grabbed his hand for the third time and clipped off the end of one finger. Hod Green and Chadwick are pards on this machine in the Globe factory and the former is just recovering from a similar difficulty with the same machine.

Married at the home of Mr. and Mrs. A. S. Brooks, Mr. Carlisle W. Capell to Miss Phoebe Belle DeKerman. Their pastor Rev. F. E. Arnold performed the ceremony in the presence of the immediate relatives. The groom is an employe of The Record Printer and well known in the village. The many friends of both Mr. and Mrs. Capell will wish with The Record in wishing them a life filled only with happiness and prosperity.

Mrs. Etta Safford was arrested Saturday night for disorderly conduct. After hearing her case Monday afternoon, Justice Webster found her guilty to the circuit court for trial and ordered that in lieu of a \$500 bond she should wait in jail until released by the process of law. Mrs. Safford said her trouble had been caused by an unmanageable appetite for liquor and she would gladly take the Gold Cure if she had the means. The two bottles of whiskey which she had Saturday she said she obtained at Randolph's drug store.

If the people of Michigan can have their say there is not the slightest question but that General Alger will be named as the first delegate at large to the national republican convention. In fact the people will feel highly complimented that he will accept the representation. No Michigan republican is entitled to be more honored than is General Alger and of no other one man is the Peninsular state quite so proud. There should be no scruple in this matter at all. The very hint that the general would like the place would be sufficient.

Regular council meeting tonight.

Mrs. Ella McDonald has an address letter at the post office. Plymouth Concert company at opera house next week. Friday of the entertainment at the church Wednesday evening was a delightful affair. The singing by Master Kren... the boy soprano, was exceptionally good.

Subject at the Baptist church Sunday morning: "The Armour for Life's Battle," evening, "Weighed in the Balance." Miss Rutledge of Bay City will sing at the morning service.

Married Nov. 28, at the residence of Mr. and Mrs. James E. Gibson, 520 Milwaukee avenue, W. Detroit, by the Rev. R. J. Ferriss of the Trumbull avenue Presbyterian church, Kate A. Trayer and Frank W. Parsons.

The O. E. S. Thanksgiving social and hop at the rink last evening was a repeated success. It was an exceedingly enjoyable affair and the ladies are adding laurels to their already enviable reputation of entertainers. Another is anticipated for the near future.

Almost any of the announced republican candidates for governor, and there are a number of them, would do honor to the state. There are none in the race however more clean cut and honorable than Harry A. Copart of Monroe and up to date he appears to stand as good a show of getting the nomination as anyone else.

The fire alarm was put in place Saturday and it is all right. The fire chief says it is very satisfactory and will tend to "wake the natives" in a very hurried manner. The bell is forty-four inches in diameter and was cast and placed by the Am. Bell Foundry Co. at an expense to the village of \$145. The old bell is for sale.

Union Chapter No. 55, R. A. M. held their annual meeting Wednesday night and elected the following officers for the ensuing year: J. M. Collier, H. P. Chas. Booth, K. C. J. Sprague, S. J. Van C. WOMEN OF THE FUTURE

FROM that day the Doctor's peace was gone. Never was household tranquility so suddenly formed as suddenly to a dear garden, or a happy man turned into such a completely miserable one. He had never realized before, how entirely his daughters had abridged him from all the freedom of life. Now that they had not only ceased to protect him, but had themselves become a source of trouble to him he began to understand how great the blessing was which he had enjoyed, and to realize the happy days before his girls had come under the influence of his neighbor.

"You don't look happy," Mrs. Westmacott remarked to him one morning. "You are pale and a little off color. You should come with me for a ten mile spin about the town."

"I am troubled about my girls. They were walking up and down in the garden from time to time there sounded from the house behind them the long, sad wail of a French horn."

"That is Ida," said he. "She has taken to practicing on that dreadful instrument in the intervals of her chemistry. And Clara is quite as bad. I declare it is getting quite unendurable."

"Ah, Doctor, Doctor!" she cried, shaking her forefinger, "with a gleam of her white teeth. "You must live up to your principles—you must give your daughters the same liberty as you advocate for other women."

"Liberty, madam, certainly! But this approaches to license." "The secret law for all my friends," she began reprovingly on the arm with her sunshade. "When you were twenty your father did not, I presume, object to your learning chemistry or playing a musical instrument. You would have thought it tyrannical if he had."

"But there is such a sudden change in them both." "Yes, I have noticed that they have been very enthusiastic lately! In the cause of liberty. Of all my disciples I think that they promise to be the most devoted and consistent, which is the more natural since their father is one of our most trusted champions."

retired into his room and sat down to read his paper. Ida had retired and the distant walls of the house showed that she was upstairs in her bedroom. Clara sat opposite to him with her eyes fastened on the book. The Doctor glanced at her and his eyes rested on an astonishment upon the cover of the book.

"What is that?" he asked. "You have torn your scales," she cried. "The Doctor laughed and smiled and then he took the book from her and looked at the cover of the book. It was all torn and he said, 'What have you done?'"

"My dear papa," said she, "what do you know about the mysteries of ladies' dress? This is a divided skirt."

"The large man on a red case, and extracted a wisp of yellow moustache, out of which a moment later he was puffing thick clouds of smoke. Harold had a cigar and both the girls had cigarettes."

"That looks very nice and elegant," said Ida, glancing round. "Now I shall be on this book. Now Clara, you are not to show your own dress, you are to show the book. No, don't stop smoking. It is a very nice book, but you are not to show it. It is a very nice book, but you are not to show it."

"Oh, I shall be so glad when it is over. I do hate to give the name. Surely he has learned now that it is very unimportant to spend one's life with reformers."

"He has almost learned it," Clara just one more little lesson. "We must not risk all of this last moment."

"What would you do, Ida? Oh, don't do anything too dreadful. I feel that we have gone too far already."
