List of Members

December 1989

occam® user group · information

The User Group is an informal organisation run by its own members. Its primary concern is the occam programming language, developed by INMOS Limited. As the principal vehicle for the execution of occam programs, the INMOS transputer hardware is also included in the Group's area of interest.

The main aim of the User Group is to act as a forum for the interchange of information among existing and potential users of these products and as a channel for communication with INMOS. These aims will be met by organising meetings, issuing a newsletter, and supporting the exchange of programs between members.

Membership is free upon submission of an enrolment form. The User Group is mainly dependent upon its own members to contribute to meetings, to provide material for the newsletter and to make their occam programs available to other members.

Occam User Group Newsletter

This is the main vehicle for communication between members and is sent out free of charge. It is issued approximately twice yearly in June and December. It includes supplements to the list of members and a bibliography of published work on occam and related subjects. It also includes names, addresses and telephone numbers of the members of the committee. Members are encouraged to submit short descriptions of their interest in and intended uses of occam. Text may be retyped, but diagrams should be suitable for reproduction. Text may also be acceptable on machine-readable media at the editor's discretion. Please submit articles, letters, comments, enquiries on any occam or transputer-related subjects to the Editor:

Dr Geraint Jones,
Programming Research Group,
University of Oxford,
8-11 Keble Road,
OXFORD OX1 3QD.

Email: oug-news@uk.ac.oxford.org
Telephone: 0865 273851

Technical Meetings

These are held twice yearly, usually in September and March. Apart from any necessary business they include papers, presentations and demonstrations by members and by INMOS. The earlier meetings were informal and had no published proceedings. Recent meetings have included formal papers which have been published by IOS, Amsterdam, -- for information on availability see the Newsletter. If you are prepared to give a presentation or act as host to a future meeting, please inform the User Group Secretary or the meeting organiser (if known).

Related groups in other countries

Some contact addresses for groups in other countries are given towards the back of this booklet.

The directory in this booklet, is classified alphabetically by countries in three main groups:

- 1 Europe,
- 2 America,
- 3 Rest of the World.

It includes the names and addresses of all (about 2160) members of the Occam User Group who have given their permission for these to be made public. There are also about 110 members who do not wish to have their identities made public. The cut-off date for inclusion is mid-December 1989.

Where available, and permission has been given, a Telephone Number, List of interests and Electronic mail address is also given.

Telephone numbers have been augmented with an international dialling code when this was not supplied by the member. Leading zeroes have been removed in this process, it is not known whether this is in general the right thing to do.

No attempt has been made to standardise EMAIL addresses.

Interests are coded under the following headings, with other words given in full.

- | | |
|----------------------------------|----------------------------|
| a Artificial intelligence | f Formal aspects |
| g Graphics | h Hardware |
| l Learning | n Networks |
| m Numerical methods | o Operating systems |
| u Unix | |

The final item of the entry for each member indicates the source of the information. The codes used are to be interpreted thus:

- | | |
|---------------|---|
| <i>Q</i> | OUG Questionnaire (1987) |
| <i>R</i> | Rejoining form sent to members who did not return questionnaire |
| <i>E</i> | OUG Enrolment form before April 1989 |
| <i>A date</i> | New entry Added on date shown (no date = before April 1989) |
| <i>M date</i> | Existing entry Modified on date shown |

Any member who joined before December 1989 and whose name is not in the directory, but has received this booklet, should be assumed to have requested that his or her details not be published.

Any member who wishes to report an error in his own entry in this directory should photocopy an enrolment form from the back of the booklet and send it to the address below. Apologies are offered for any errors which have arisen from the combination of manual and automated procedures that have been used in the creation of this directory.

Any member who knows that another member has moved from the address shown and is unlikely to have his or her mail forwarded is invited to send an enrolment form to that other member so that he or she may rejoin the group.

The occam user group membership file is held on a computer at the INMOS offices at Bristol. All enquiries about the availability on machine readable media of this and further information supplied by OUG members should be directed to the address below.

**Michael Poole,
OUG Secretary,

occam® user group · enrolment form

To enrol a new member in the Occam user group and/or to report a change of address or other details please copy and complete this form and return it to the Occam User Group Secretary, INMOS Ltd, 1000 Aztec West, Almondsbury, Bristol BS12 4SQ, England.

Name (must be an individual not a company)
Address (up to 6 lines, 32 chars each)

- New member
- Address change
- Correction

The Occam User Group Membership list is held on a computer at the INMOS Bristol office. As this is a computer file holding personal information INMOS are obliged to follow the requirements of the Data Protection Act concerning this file. It is therefore necessary to get the written permission of all members for their data to be included in this file.

Please insert name and address in the box above. Please include a postcode if possible.

The additional information requested below may be of use to the OUG committee. Please ensure that you answer the final question and sign the form.

Telephone number:

Electronic mail address:

Please indicate what type of organisation you belong to by ticking one of the following boxes:

- | | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Electronics industry | Software industry | Other industry | Academic | Government | Other (describe) |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

Please give a brief statement of the nature of your interest in occam and the transporter.

The OUG has several special interest groups (SIGs). Please indicate if you are interested in one or more of these subject areas. If you would help to establish or would join a new group please indicate the subject area(s) of interest:

- | | | | |
|-------------------------------|--------------------------|--------------------------|--------------------------|
| Artificial intelligence . . . | <input type="checkbox"/> | Formal aspects | <input type="checkbox"/> |
| Graphics | <input type="checkbox"/> | Hardware | <input type="checkbox"/> |
| Learning | <input type="checkbox"/> | Networks | <input type="checkbox"/> |
| Numerical methods . . . | <input type="checkbox"/> | Operating systems . . . | <input type="checkbox"/> |
| Unix | <input type="checkbox"/> | other..... | <input type="checkbox"/> |

The mailing list is now becoming a potentially valuable commodity, but we cannot give everyone access without your approval. At present the names and addresses are known by the OUG administration and are provided to INMOS marketing. They are also published in the Newsletter unless a member specifically requests confidentiality. We are also producing a directory of members which could also include telephone and EMAIL numbers and SIG interests if you give permission by ticking appropriate box below.

- My name and address may be published in Newsletters/Directory
- My answers to all the questions above may also be published
- Lists including my name and address may be passed to third parties offering relevant products or services
- I do not mind who sees the information provided here
