

THE WORLD IS STANDING WITH SINJAJEVINA

Over 20,000 people want to end its use as a military ground and support the creation of a Protected Area co-designed and co-governed by local communities

INTERNATIONAL
**LAND
COALITION**

WORLD**BEYOND**WAR.org

To the EU Commissioner for Neighbourhood and Enlargement; the Prime Minister of Montenegro and the Ministry of the Defense of Montenegro.

Over 20,000 people have signed a petition asking you to stand with the local communities of Sinjajevina and the ecosystems they preserve, by:

- Ensuring the removal of the military training ground in Sinjajevina in a legally binding manner.
- Creating a protected area in Sinjajevina co-designed and co-governed by local communities

This petition is supported by Save Sinjajevina, World BEYOND War, RootsAction.org, the International Land Coalition, Land Rights Now, the ICCA Consortium and Common Lands Network.

Below are the names of the 14,205 petition signers who we've compiled and deduplicated from various petition platforms. In addition, there are 6,434 signatures from two AVAAZ petitions which are not included in this book.

With deep gratitude for the model you offer the world to resist militarization and preserve your heritage.

I stand with Sinjajevina!!! My hands and heart are joined with yours, in spirit!!

The local beauty and culture of Sinjajevina must be saved and protected.

It would be a tragedy to use this for military purposes. Think of the destruction it would cause.

America has a history of infamy that must be ended.

Bravo to every person standing against govt and NATO tyranny.

Enough is enough!

There are already far too many military bases in the world.

Thanks to the local communities for their struggles to save their land and shame on those who would destroy it for a military base

Bravo to the community for saving this beautiful land from military destruction.

Enough with more military bases. Waste of money, bad for the environment, culture and community. Enough already.

These communities depend on this grasslands, Nature's gift to their people whose livelihoods depend on them. Find a desert or an uninhabitable place for the Military exercises/base.

In solidarity with the people of Sinjajevina to protect their land their way of life and to oppose the war machine pushing at their door.

Unbelievable in this day and age. Grrr8 local fplks Go for it Cheers Ian Upton

Close military bases and end sales of weapons around the World.

Save natural living conditions in Sinjajeva against military actions on the way no military bases anywhere

My heart shrivelled when I read of this barbaric intention by NATO to set up a military base at Sinjajevina. What an appalling idea! Well done to the courageous activists. This must NEVER be allowed to go ahead.

I stand with the brave Montenegrin people who are defending their beautiful Sinjajevina plateau from destructive military bases.

good on the protesters. Damn the soldiers and NATO. Give peace a chance.

Let's give up war and solve our problems with compassion

NATO has far too many bases in Europe and elsewhere. They should not be allowed to construct another one, especially in this particular unspoiled area.

NATO is an aggressive military alliance the sole purpose of which is to maintain the threat of using nuclear weapons.

I belong to the German Peace Group 'Netzwerk Friedenssteuer e.V.'

I strongly support this very important and legitime movement!

good to see this!

Please do not ruin this wonderfull area and ignore the wishes of the local people.

Keep the land and people free from military bases. The land and its people are precious. Peace is needed, no more war!

Great Initiative! So couragous people. You would be so much welcome in an EU of Peace. less defense and NATO; more Caring Economy, Social Justice, Equality ... LOVE LOVE LOVE

We do not need more land destroyed by military training. There are already too many. Stop using preparedness as a cudgel.

You should respect the demands of the people and protect and preserve Sinjajevina and the 2 UNESCO world heritage sites that border it.

Please NO military exercises on this beautiful land.

There is absolutely no purpose to a NATO military base in the mountains of Montenegro. The lives of the inhabitants and their sheep are worth much more than the environmental destruction and potential for violence such military activity entails.

The locals don't want it. Put it some place else.

Stop Military, stop warming!

The military industrial complex is THE
NUMBER 1 PROBLEM IN THE WORLD.
WAR IS A CRIME

Glad to be able to be supportive of your
efforts!

People in Montenegro have rights to live in
peace in their homeland.

There's enough military around
everywhere!

Following the disastrous policies of the US
is hardly a model of concern the the
environment nor of those the government
serves.

The beauty should be enough t save this area but we are in climate change and saving all nature is paramount. Why? Due to goofballs rising up nature to put in a parking lot! Absurd!

Allow the people in the Sinjajevina area to preserve their way of life. They don't deserve to be invaded by a military training ground in their midst which would disrupt their farming and the area wildlife, too.

Violence begets violence. No More Wars !!

To devastate such an area with a military base is the wrong move at the wrong time and for the wrong reasons. Please honor the people and the land instead of war.

Stop the spread of the death industry

Enough with war madness and constant fighting!

Let the Balkans live in peace! Military bases don't protect local communities, they put them in harm's way.

No more fearmongering in Peaceful, environmentally safe, and human home communities!
Has the whole world gone crazy Trumpian?

879 Marta Fry US

Military training and also bases are so destructive to the environment that every country should be trying to prevent them from being allowed in areas of natural beauty and far away from the livelihood of other people.. I wish they could be eliminated entirely because the military is so harmful to humans in general- both those serving in the military are put in harms way and there actions are even more harmful to civilizations-can we not grow as humans and develop better solutions to world problems than killing? Really that is a serious question not just rhetoric that I am posing. Where are our brains in this equation? Are we still just barbarians ready to release wrath and testosterone when with we cannot get along? I am afraid I am much too idealistic and the military is anything but idealistic.

880	Marjorie	Dahlgren	US	We need to transition to a more compassionate global society. Which makes our precious ecosystems a priority and help maintain the local populations way of life.

All war mongering must stop. If we have weapons we will use them!

1130	Graham	Vandenburg	US
------	--------	------------	----

The U.S. not only wants a military base called NATO's own, but wants to stop construction of a very important road in an economic transport corridor. The propaganda is that it's a road to nowhere and a costly debt trap. While it's difficult to build over mountains and rivers, it will connect Montenegro's seaport with Serbia and bring income and jobs to the country for foreseeable future. The base is another waste of money on NATO to stir up trouble.

War games are planetary suicide.

Save the planet by not destroying wild areas with polluting cars, trucks, people.

Watch the United States (i.e., NATO, a wholly owned subsidiary of the U.S.) squander taxpayer money to ruin someone else's country.

How can a relatively small number of people who want military bases and war preparation ignore diplomacy in solving problems. Imagine if the U S court system were dissolved and people solved their disagreements like the Chicago gangsters of the 1920s. I bent that got your attention!

1523	Joseph	Olsen	NZ	Please support peace and ecological conservation and turn away from destructive training for war.
1524	David	Wenzel	US

We need to start thinking PEACE. And, we need to decide how best we can give that to our world, rather than war. One way is for the US to cut back on the money it gives to the military. We taxpayers, for the most part, want to cut way back on the military and put that money into positive programs for our world.

Stop the redundant military industrial circus.

Stop the redundant military industrial circus.

We need an end to military expansion and the military's use of fossil fuels

1622	Bethany	Lavigne	CA	There are already too many displaced people & land useful for agriculture being ruined for buildings &, in the case of Sinjajevina grasslands, for military training.. Be ethical, protect this land for those who have been using it & their livelihood as well as to stop using it as a lever to pressure Montenegro. Sincerely, Francis Lavign3, Fort St. John, BC., Canada
1623	V.	Dusenberry	US

YOU DO NOT NEED A BASE IN
MONTENEGRO. THEY DO NOT WANT YOU
EITHER.

We to decrease the level militarization in
the world and increase the level of
conservation of nature.

Do we really want to invite war to Europe?
How about rolling back nuclear weapons
instead?

Good luck, you have our support. Keep up
the good fight.

I can only imagine the destruction that would result from military training in the area. This must stop.

The people of Montenegro have spoken, and they have the right to decide what they want on their land.

We already have WAY too many military bases designed to intimidate/threaten the rest of the world with violent domination. We'd achieve much better safety by being allies of everyone and cooperating to save our planet!

NATO expansion must be limited NOW in order to save our planet from destruction by war.

end creeping militarism

Well done! An inspiring story of the people standing up to the forces of death and human self-destruction.

We here in the USA live in a military, pharmaceutical and in general corptocracy. Our lives are being destroyed by this power grab, or have been for a very long time. I will do what I can to help other places in this world not succumb to the destruction that has become part of the norm all over the world, and the USA has without a doubt helped engineer and proliferate.

The Montenegrin government made a deal with the devil, and sold out the people of Sinjajevina.

NO to NATO and NO to military bases.
Stop military exercises in Sinjajevina.

Please, take care for our one + only planet earth + do not harm ! We have a world wide clima crisis + you are playing War?

Displacing local, indigenou people from their natural environments is ethically very wrong. Displacing them for military bases is insane!

Please do not put a NATO military base in the middle of this pristine and historic land! The people that live the and call Sinjavina their homes and livelihoods as peaceful land-loving farmers! They have farmed this land communally for years and deserve to be left alone and not have a noisy and polluting base on their doorstep! Please change your mind and leave this beautiful place to the people who love it best! Thank you!

no more military base.

Me too have sheep and can easily understand how you feel

HASN'T THIS AREA SEEN ENOUGH CONFLICT! KEEP THESE MOUNTAINS PRISTINE!

We need to establish peace training grounds not military training grounds.

Time to stop destroying this planet!

Thankyou for sending this too me. Theis Community should be so proud of what they have achieved.

I heartily agree that Sinjajevina's Nature and local communities MUST be saved from a military training ground!

Enough of the Military, the world is becoming a military base.

No one, except military industries, needs these Killers, there trainings and their criminal associations behind.

I don't want the institution of OTAN destroy our nature!!

We MUST prioritize the removal of pristine green spaces around the world and only redevelop existing developed areas. Stop taking down green spaces!

The world doesn't need NATO. Keep the Sinjajevina plateau free from their pollution and safe for the people and animals in the area.

NATO is trying to Encircle Russia, China and Iran with Military Bases. Bases in Western Europe have B-61 Nuclear Missiles.

The last thing our planet needs is another military base. The one thing we do need is for all of us to learn to get along, so that there is no need for conversations about constructing more military facilities.

The authorities must hear, and heed, the local people whose lives and livelihoods would be devastated by a military base in Sinajevina!

I stand by the residents of Sinajevina and oppose the existence of a military training ground in their HOME.

Please keep the traditional use of these lands. No military bases!

We don't need and can't afford more destruction of natural spaces by the world's militaries.

This region is truly an environmental treasure and deeply integrated into the daily life of the people who live there. Please do not destroy it.

The world needs protection FROM the US military, which destroys areas it is in and uses abysmal amounts of fossil fuels, making the climate crisis worse.

Preserving the Earth and the Nature that God has provided for the Beauty of the Earth is always important.

End military dependence on fossil fuels.

Violence is not a good argument !!!

Military training exercises cause pollution and major destruction, which interferes with local life. They should figure out to do their exercises elsewhere.

Military activity is a great polluter of land and water. In the time of climate change, we need less pollution, not more. Maintain the ecosystem! It is our only hope for the future.

We must move beyond continuing militarism and attempting to solve disagreements through the barrel of a gun.

2487 Sandra Monaco US

2488 Ingrid Morey US

Montenegro is a most beautiful area. The last place that needs yet another Military base. It feeds a large community of local people and it ensures grazing land for thousands of sheep, which produce meat and wool for the harsh winters. It is bordered by 2 UNESCO world heritage sites. We must get beyond using our best remaining sites for military. We will surely do ourselves in!

I cannot agree to the destruction of a valued farm landd in the interests of conducting military maneuvres.

Design for peace, not war!

A precious beautiful place such as this should be a regional park not a military training ground or base.

There are ENOUGH military bases!

It is apparent from another continent that natural watersheds and grazing land is preferable to a toxic military base.

2574	Ruth	Giesy	US
------	------	-------	----

These lands belong to these people living and farming there. It should not be taken from them for military training. Producing food is necessary to maintain life. Protecting the farming community would be more appropriate.

2575	Steven	Sheets	US	<p>We honestly have enough military bases to more than serve another planet our size in addition to Earth. It is ridiculous that we go after making another base that will, of course destroy valuable land and drive people from their homes because that is what is always done. ENOUGH! No one needs another military anything. There is already enough killing, destruction, pain, suffering, mail bragging and warmongering. There are more than enough weapons and people to use them. Men need some medications that could help them calm down and start to think with their brains instead of their desire to harm others for whatever stupid cause they come up with. No one wins. Just look at the Taliban in Afghanistan, a bunch of child-men keeping women and religious minorities down while they are leaning on a religion they made up. Disgusting! ENOUGH! R.Sheets</p>

Sinjajevina is the Balkans' biggest mountain grassland & a place of outstanding beauty. It is used by more than 250 families of farmers & nearly 2,000 people. Many of the pastures are governed communally by eight different Montenegrin tribes, & the Sinjajevina plateau is part of the Tara Canyon Biosphere Reserve at the same time as it is bordered by two UNESCO World Heritage sites. Now that the environment & the livelihoods of those traditional communities are in imminent danger: the Montenegrin government, which is supported by important NATO allies, established a military training ground in the very heart of those community lands. Plus the government has also halted a planned regional park for the protection & promotion of nature & culture, which severely threatens its unique ecosystems & local communities. Montenegro wants to be part of the European Union & the EU Commissioner for Neighborhood & Enlargement, is leading in those conversations. Many of the local people have put their bodies in the way & prevented military exercises on their land- which is an amazing victory. The movement was awarded the War Abolisher of 2021 Award, & it needs our help to make their success permanent &

2702	Julian	Fraser	GB	The earth does not deserve this brutal warmongering. Please stop trashing the land. If all soldiers went back to farming & caring for the land themselves this greed & destruction would go away.

There are options to the destruction of this land and area. Please use them, if the project is absolutely necessary.

As an active conscientious objector to war and preparations for war since 1963 and as a student of history, I oppose all wars, all military spending, and all war games.

We need habitat and land to remain wild, to be carbon sinks, to promote biodiversity. We are in a climate crisis and the last thing we should be doing is paving over open spaces and developing them, using fossil fuels as we do it.

I believe in protecting indigenous peoples and lands

3062	Sue	Andrews	US
------	-----	---------	----

At this point in the history of humanity, I think the pastoral life is far more important than the military life. We desperately need to preserve ecosystems which these traditional people do. We need quiet and calm, not helicopters and military maneuvers. Please, please choose pasture over politics, sheep over machine-gun shells, mountains over military might! I may sound trite, but in reality, our world is in deep trouble and preserving the natural world will save us better than more fighting possibly can. Thank you.

3063	Jacqueline	Lister	GB

Stop ruining communities natural resources that are essential to their survival. This is a countries and peoples greatest security and should be protected above all else. To be installing a highly polluting highly violent military base no matter if it'ss for protection of peace between nations why would Neto of all organizations destroy a peaceful village is wild life and way of living?

Nothing is sacred anymore. No NATO bases or training areas. Montenegro is beautiful, keep it that way, by preserving all communities. No damn Military bases or training, they are negative to life and there are no positives, whatsoever. RESIST.

Given the seriousness of climate change, it's essential that all decisions be taken to protect the environment!

Find another place than this for a military base.

There is no need for another "training ground". NATO, mainly on behalf of the US, already uses a good part of the planet for just that use while addictively waging violence and wars across its face.

Please

I am ashamed and embarrassed that so much of my taxpayer money goes to support a worldwide sprawling military presence around the world that enables U.S. meddling in other countries' affairs.

Please don't destroy the largest mountain grasslands in the Balkans to build another base.

We need *GOODNESS* together for all of us! *PLEASE* listen & *HEAR*!

We know how important the remaining natural terrains are for the earth's climate. The residents know how important they are to their economy and culture,

Yes, I'm an American, but I'm also an environmentalist. The world's militaries are a surprisingly large source of greenhouse gas emissions and other forms of pollution, and I ask that you help preserve what few wild places we have left by removing the military base from Sinjajevina.

Thank you for your time, and I hope you follow through with this request.

To who it may concern,
A military base is not necessary on this beautiful land. We need to save our pristine land not continue to use it up for worthless causes. Find another location not this location. If we don't save this land now then win, if not us then who.. nothing will be left with these people and their beautiful land alone!!

Please preserve both the local culture and beautiful lands of Sinjajevina!

We must have fewer military bases and more wild lands. Absolutely NO to military training grounds.

Leave people and land in peace & beauty. There's GOT to be somewhere else to entrench guns of war.

Create a protected area in Sinjajevina co-designed and co-governed by local communities.

Come on! These people shouldn't have to give up this valley to be part of NATO.

Time to cut back on the military.

Do the right thing!!!!!!!!!!

				Truly, one of the last things we need, anywhere, is another military base or military training grounds. Military bases are toxic. They require oils, motor oils, transmission fluids, brake fluids. They also use anti-freezes and fuels, jet fuels, diesel fuels and all these by the barrels for all the trucks, jeeps and other equipment which must be maintained regularly and all these liquids, fuels and oils run-off the base into the ground all around and pollute the surrounding area. Then we have the noise pollution. Live-fire training and bombing practices degrade the land and tear up the terrain and pollute with shell casings everywhere as well as DU, depleted uranium. There is also the possibility of oil/fuel leaks from storage tanks. It is happening where I live and the leaks are right above our water aquifer. I come from a place where there are 13 US military bases. Then, there is the distinct threat of being a 'target'. Who wants a target on their back or in their back yard? Keep Sinjajevina as it is and leave it alone. Militaries ruin everything.

We need less militarism and more loving cooperation among nations. This planet belongs to all of us!

Enough militarism! We need to solve existential threats like climate change and COVID instead!

Thank you for fighting to preserve a beautiful region.
SC

keep the way machine out of Sinjajevina,s land.

FREE EU FROM ALL MILITARY BASES
AMERICANS MOST OF ALL

This is a special place recognized by UNESCO and local governments; not only biologically but socially as well in being governed communally. Please pass permanently binding laws to protect this place. Most of our lands are not governed by local communities in a balance of nature and people. Please save this land from development by the Military and Industry.

I want you to know that I am representative of a huge number of people who resent (and despise) you and your affiliates because of your attempts to destroy the Earth's ecology. We have had enough of you destruction of the biosphere.

We do not need so much military.

Nato only wants a military base in Sinjajevina to be available to commit brutal crimes. Save people, save nature!
Nature takes supreme precedence over armed thuggery

This area must be save, for nature and farmers, not for military purpose!!!!

We cannot destroy nature with impunity.

Little people should not be treated like lesser. They are incredible

My ancestors having come from the Balkans this has special meaning for me.

4039 Emily Veterans Against The US
4040 Terry Adams US

4041 Judith Campbell US

This is a travesty. The military is the largest polluter on the planet. When everyone is concerned about the survival of the planet and its' inhabitants the military flies in the face of progress to that end. The military should only be used to help people in need not take up all the prime land in the world and leave it derelict. People and animals first the military last...not the other way around.

Militaries are responsible for a high percentage of the world's greenhouse gases. In the interests of reducing their impact on climate change, they should be scaled back everywhere and not expanded anywhere. The beauty of Sinjajevina should not be permitted to be marred and farmer's lives disrupted by an ugly, noisy, polluting military training ground. Leave nature and the farmers who defend our food supply in peace!

Keep nation's militaries on their own soils!

Please don't start this military invasion

4171	Diana And Andrew	Gaines	US	Preparing for and fighting wars with destructive weaponry leave no one as a winner , all suffer loss of livelihood, habitat and community. Protect your own people from suffering loss preparing for wars that need not happen. there are other ways to train that are for more economical and effective without the destruction of habitat and livelihood.

Keep our flocks and herds safe.

Do not let the military destroy Sinjajevina's environment and livelihoods of its people.

The people of Sinjajevina have made clear that they wish their home to remain a place of human and natural beauty, not destroyed by an invasion of military exercises. Human decency and human rights demand that you respect this request.

The preservation of the environment and ecological support is critical for environmental services like clean air and water. In addition these services mitigate against climate change, making this area much more important left as it is.

Pleased to sign.

Lets keep working to demilitarize!

We all have to save nature for us and for our children and after.

We are poor little sheep who have lost our way.

Please do the right thing. Military bases are not needed in these beautiful mountains that support the healthy work of those living in these mountains. Military bases prepare people to murder and promote violence. Let there be peace in these mountains!!!

Politician Corporate Shills must be imprisoned for life!

Let us stop weaponizing and truly look into what PEACE really is.

What's the point of "defense" if we allow our military operations to destroy our land?

Enough is enough - their militaries don't need to get any bigger - they need to get smaller.

Shame on the government of Montenegro for the very idea of destroying a community and a way of life, especially in the name of something as obscene as yet another military complex that exists solely to accomplish more destruction and death. NO! Stop the insanity now!

Sinjajevina must be governed locally, and protected for all of humanity's benefit.

We don't need more military bases or more armaments. We need more food, more beauty, more fresh air. Let's wiser up before the harm done to humans and to all our relations!

We won't have peace through preparing for more war!!!

Sinjajevina is a beautiful area where many people can come to enjoy nature. Remove the military and make Sinjajevina a protected area co-designed and co-governed by local communities!!

Remember the successful campaign against a projected bombing ground in Larzac / Southern France!

Please keep peaceful and grazing lands.

Stop the war madness!

War is an anachronism and therefore training is a waste of time and money and human resources time which can be used for other useful endeavours

We should be peacemakers, not trainers of yet more Soldiers i.e. Cannon fodder!
Please let this beautiful land for peaceful people!
Sincerely, Hannelore Pinder

Protecting Sinjajevina - the people, the environment, the animals, a healthy way of life must be more important than another military establishment - more guns, more killing - here in America, we know what that cost looks like. Please remove the military training ground and create a protected area in Sinjajevina for the local communities.

International defense is important, but so is SAVING THE PLANET FOR LIFE AS WE KNOW IT. WE HAVE TOO FEW AREAS THAT CONTINUE TO SUPPORT THE WEB OF LIFE IN THE LONG TERM. ANOTHER SITE SHOULD BE USED. SAVE SINJAJEVINA!

There are too many US/NATO military bases in the world now. Please do not add another one. Disband NATO and stop militarism. Time to stop global warming by stopping militarism.

Not MORE military bases !!!

People over property.

We need to protect our remaining ecosystems, not destroy them.

Ensuring the removal of the military training ground in Sinjajevina in a legally binding manner.

Creating a protected area in Sinjajevina co-designed and co-governed by local communities.

Sinjajevina is the Balkans biggest mountain grassland and a place of outstanding beauty. keep the grassland

I was privileged to be in Montenegro in 2012. I have never breathed cleaner air anywhere. Please, please remove the military training ground. Don't let the warmongers ruin your beautiful country.

No training ground where nature is at stake

I may not live there, but I want all the word's natural beauty to survive. Please protect Sinjsajevina.

My grandfather, now dead, was from Montenegro. Please save his home from the military.

Do not destroy your land to attempt to save it USA military bases are highly contaminated!!

The despoiling of native peoples lands by military bases and train grounds around the globe must stop. Respect the rights of the tribes in Montenegro.

Saving this land is as good or better than the effects of a military base. Our earth needs to be protected and saving this land will help toward making people live healthier and more peaceful lives.

C o

A nation's health security should be paramount. War is destructive by its very nature and protecting against war should not be destructive. In hurting this landscape to practice war we destroy the local people's lives, healthy nature and their reason for living. We are racing to the bottom with the excuse of security. Practice somewhere else that is already corrupted by our ways.

War and preparation for war are the greatest causes of climate change, and therefore the climate crisis we are now facing. Fear-based ideas of "defense" should not be allowed to result in the destruction of any of our remaining natural places, including Sinjajevina. Listen to the voices of the people whose land this is.

As a mother and a grandmother, I am very concerned for the health and viability of the planet our children and future generations will inherit. We have a duty to our communities, families and most importantly, children to ensure their safety and well being through environmentally sound and sustainable policies, including clean air, water, addressing climate change, etc. That duty will always be more important than politics or profit.

You must help preserve this stunning healthy land. It's helping us all breathe

It is important to preserve this mountain grassland and keep it in the care of the tribes who have traditionally used and looked after it.

So typical that a biodiversity hotspot is chosen for the military. Time for these land grabs to stop.

keep away from our global Natural resources The Creator has given us all> As everything on this earth is interconnected, nothing is standing apart. Only unconsciousness and negative impulses in our system to grasp for more and more power will kill ourselves and the living planet we are depending on. Keep away from what is HOLY. !!

Should also save Montenegro from the Russians

We moeten geboortebeperving mondiaal aanbevelen!!!
De aarde is al "moe".

With natural habitats and traditional cultures both under serious threat, there are strong grounds for preserving areas like the Sinjajevina plateau.

fully support the statutory protection of Sinjajevina

this si a vital haven - and NB close the military training ground, and create a protected area in Sinjajevina, before expecting to join the EU

Precious landscapes and local expertise are essential for saving our planet from destruction. We cannot afford to lose any areas not affected by today's malaise

Please stop installing a military trainings-field in this beautiful Sinjajevina landscape.

I hope that justice will prevail and the nature will be preserved.

End all efforts to build a NATO military base or training area in Montenegro. Stand with Sinjajevina and make it a protected area now!

I wish to join other campaigners from around the World to ask the EU and others involved with process to stop and allow the rights of the community people to prevail.

Save Sinjavevina!

It is a big shame. Wars will destroy people, deers and the nature. Look to Oekraine , the same happens there. Wapens for wars are also destroying the klimate and much more..

The planet needs vital grasslands and wildlife spaces far more than it needs military training grounds!

Co protected by native communities. Yes. I support them.

The government must be committed to declaring Sinjajevina a protected area and removing the military training.

Save Sinjajevina's Nature and Local communities!
 Ensure the removal of the military training ground in Sinjajevina in a legally binding manner.
 Create a protected area in Sinjajevina co-designed and co-governed by local communities.
 Thank you!

I strongly support the petition to remove the military training camp and create a protected area in Sinjajevina

------	------	--------	----

We must save as much land devoted to nature as possible - far too much has been lost. Nature and the local communities who look after it must be the priority. Tribal peoples and local farmers working together are now recognised as the best stewards of natural and traditional environments. We must give them our wholehearted support.

I stand with the people of Montenegro in their fight to remove the military training ground in Sinjajevina. Surely another place can be found for the base. These people need their livelihoods and they need support in their quest to join the European Union.

This grassland is a high priority to be preserved. Consider the ecological and social value.

Find a desolate place for your military exercises and base.

People have right to protest this invasion

Our ecosystems are beautiful however they are even more important to the lives in humanity and all living creatures we are destroying our own planet and killing our people! We must salvage what is left and try to resort to reversing the damage that we have done this is a good place to begin. We are forgetting what is important and or basic needs if we kill our ecosystem it's committing suicide is that worth a military base?

I will be praying for you.

Please take immediate action to save and protect Sinjajevina by removing the NATO military installation and preventing any military operations of any kind in this vital ecological and cultural area! Thank you!

NATO is a war machine & should be outlawed.

Think of your grandchildren!

We don't need more military bases! Stop violating human rights instead!

SAVE Sinjajevina!

We need pristine mountains much more than military bases.

Save Sinjajevina's Nature and Local Communities.

7350	Thomas	Lawton	US
------	--------	--------	----

Militarization is a danger to people and nature even without a war! We have numerous serious problems facing humanity and the natural world, and militarization won't solve any of them!

To destroy a pristine and economically viable and thriving landscape such as the Sinjajevina Mountain region, just to practice for death and destruction and wreaking destruction on this land in exchange, is INSANE and a crime against nature and the humans living on it and off of it!
Stop that lunacy!

how can we transform the fear that propels the choice for the military

PLEASE!!! NO MILITARY BASE IN THOSE BEAUTIFUL SOUL SAVING HILLS. THEY BELONG TO THE PEOPLE AND DON'T NEED THE UGLY STAMP OF WAR. FIND BETTER WAYS TO BE STRONG & WISE. PUT PEOPLE AND COMMUNITIES FIRST, THAT REALLY TAKES STRENGTH??

Protection of environment and life is vital, European Union must stand with Sinjajevina.

War Industry must be dismantled

Save the planet and stop the destruction of land for war. No time left.

End War. Close military bases

It is wrong to consider the NATO allies supported military training ground. Support life of nature & people - protect this beautiful, essential, magnificent mountain grassland for posterity. Enjoy the days - nurturing planet earth's nature and humanity - nothing less.

7602	Ron	Benson	US
------	-----	--------	----

I live six miles from what is known as the American Ngorongoro that was slated for development. The community, state, and nation joined to have it become a protected national park preserve. In the Gila in the south of the state, we--again local, state, national--citizens worked with our representatives to protect it from becoming a military low-fly zone. It's still suffering from low flights, but protections are in the works. Listen to the people. Protect what's beautiful. You can have your base on some abandoned factory location outside some town.

Make peace NOT war - stop creating training areas for NATO to take over the peoples land and environment.

We must save our beautiful planet from militarism and all forms of destruction.
Thank You

Let's work much harder at making and being friends. Military bases seem to do the opposite.

We stand on the brink of complete destruction of our world through environmental destruction and war. Please do not add to this threat by allowing this land to be stolen and used for creating more destruction. Protect the people and the land through preserving the integrity of this area. The cost to human kind and the whole universe is you greater a price to pay for what NATO offers.

Practice in Spain!

For the sake of our future, the future of nature and mankind: please save the outstanding area's our planet offers us. In special this beautiful mountain area. Thank you.

SACUVAJMO SINJAJEVINU

These small areas of grassland are vital to the continuation of our planet.

this is an uplifting story and shows how civil disobedience can work -- a beacon of light in these dark times

We in Wales have suffered similarly.

Would love to come.

This beautiful highland ecosystem must be saved from mindless and heartless ruination by a military base!

Militarism is never the answer. Our world needs all the natural spaces it can save. Community, livelihood, green space should always take precedence.

GOOD WORK!

There must be better places for a military base without this destruction. Get creative.

The world cannot afford to lose such an important ecosystem. Leave it alone!

Don't let anyone exploit your beautiful country..especially for war exercises

worth more intact then as a military base.

Really...one hardly needs yet another NATO training ground. Keep it out!

It would be a crime against humanity and especially against Mother Nature to destroy this pristine landscape!

the war machine incursion into this historic heritage site is not in the best interest of MOnTenegro!

FOR ONCE DO THE RIGHT THING AND DO NOT KILL OFF OR WRECK THIS AMAZING BIOSPHERE AND ITS NATURE.E INHABITANTS TRADITONAL INHABITANTS. WE NEED TO SAVE AREAS LIKE THIS, NOT WRECK AND KILL THEM OFF. SO SAVE THIS WONDERFUL, UNIQUE AREA.

I FULLY SUPPORT NO MORE MILITARY BASES OR TRAINING GROUNDS IN SINJAJEVINA. NO MORE WARS.

Save the mountains and the grasslands for the local people who looked after them for centuries.
Stop the war machine.
Love mother earth.
Live in peace.

NATO, you do NOT NEED this land.

8427	Hilda	Mitchell	US	More saved mountains; fewer destructive developments; better environmental protection; more local traditional control.

8562	Marian	Andre	FR	This is appalling. As a European citizen, I say that we shall not accept a country that does not stand by the rules. 300,000 € have been invested by the EU with our money into a National park project to protect nature and culture in Sanjajevina. The government of this country must abide with the rules for this project and after this project, in order to become a rightful member of the EU. Work for peace and the environment makes life for us and future generations possible. Investment in war and armaments leads to immense cruelty and destruction

Many communities have lost their land to military bases and the loss still resonates generations later. (Epynt mountain , mid Wales)

Enough. The way things have been done has led us to this time of rampant greed. That is too mean for the people. The 99.999%.

Save Sinjajevina!

do we want nature? or war?

Peace Now!

Yes

PridruÅ¼ujem se peticiji protiv izgradnje vojnog poligona na Sinjajevini.

It is urgent to preserve these large grasslands!

Sinjajevina illustrates the rule "Sovereignty is in the hands of the people, not politicians!"

The people protect the country as well. Not only the army. If there's no food and nature security, the country would go down the drain.

It is urgent to preserve these large grasslands!

Sinjajevina illustrates the rule "Sovereignty is in the hands of the people, not politicians!"

The people protect the country as well. Not only the army. If there's no food and nature security, the country would go down the drain.

Sacuvajmo Sinjajevinu

Military don't really need this! It's just more silly war games for so called grown ups !!

Nobody has the right to destroy this land. Period. End of story.

War should become obsolete. Peace and beauty and love for the earth is our only present.
 æœ?

Il popolo non vuole guerre

No no no no no!!!!

Stop this military trash mentality

Its beyond my understanding why the need of eradicate part of the ecosystem. Its an act that doesnt have an "undo" button. I understand, military training to defend the country but what to defend if theres no country, if the essence of it is underestimated, if you destroy to defend?

Well past time to stop abusing the land and air and water that nourish us.

My name is Constance Mogale from South Africa, I am the national coordinator of the Alliance for Rural Democracy and a member of the Land Access Movement Of South Africa.

I sign this petition to stand in solidarity with the people of Sinjanjevinah to defend the ecosystems and land rights against the unscrupulous development proposed.

I know i have little voice in the matter, because I'm not Montenegrin, but I strongly oppose war in all its forms. Even more so, thinking that there are precious traditions being carried on in this rich place.

Dear New Prime Minister, Please do not allow the NATO base to be built. Help us create a new world, based on compassion, peace and justice, not insecurity and harmful wars any more. Thank you.

The American Military Industrial Complex does not need another base in any other country. Our bloated military has too many bases, over seas, and is involved in too many needless wars in other countries already. Enough.

Stop wars, stop army

As if Europe needs more of a military presence then there is already

Together we win, Alone we fail
