Hon. President of the Academic Nationale of Paris, Vice-President of the City of London College, &c., &c., &c.

A NEW EDITION, REVISED AND ENLARGED

CEORGE ROUTLEDGE AND SONS, LIMITED BROADWAY, LUDGATE HILL GLASGOW, MANCHESTER, AND NEW YORK

Welcome Library
for the Fintery
and Understand

SIR JOHN LUBBOCK, BART., M.P., F.R.S.,

WHO

AS A DISTINGUISHED NATURALIST,

BANKER,

AND

Chairman of the London Chamber of Commerce,

WILL FULLY APPRECIATE ITS UTILITY

AS A BOOK OF REFERENCE,

THIS NEW EDITION IS DEDICATED

BY HIS OBEDIENT SERVANT,

THE AUTHOR.

Digitized by the Internet Archive in 2015

### PREFACE.

CHEAP works of ready reference are a necessity of the present day, and this one I have endeavoured to make as complete as possible. My long career as a journalist and author of sixty years' experience has afforded me many facilities for acquiring special knowledge on Commerce and Finance.

Few, perhaps, have contributed so largely to technical literature and popular encyclopædias as I have done, and this, added to an official connection with all the great International Exhibitions which have been held during the last forty years, combined with important official Museum duties, has given me many advantages.

That this work has proved useful is evident from the large sale it has had, and its extensive employment in adding new words to the great Dictionaries of America and Europe.

The vast expansion of Commerce, and the introduction of new products and trades since the work was first published, have, however, rendered additions necessary. Without interfering with the body of the work, I have thought that an Appendix would bring it up to date, by supplementing the few statistics introduced, correcting the fluctuating exchange value of coins in circulation, such as rupees, dollars, taels, etc., and adding new electrical, chemical, cycling, and other trade terms, and products not hitherto described.

As there is really no good Polyglot Dictionary, and a set of the Dictionaries of Continental and other languages is not always at hand for reference, I have thought it desirable to insert the foreign names of many animals and commercial products which are frequently mentioned in prices-current, newspapers, and books of travel.

I can speak practically, from my own experience, of the utility of this work, for I have continually to refer to it for some correct definition of a foreign money, weight, or measure, or the natural history identification of an animal or vegetable product.

One difficulty I have met with is in the modern change of spelling adopted in most of the East Indian names of products, etc., so that it may be found difficult to refer to them readily.

This Dictionary may be considered an "Encyclopædia in brief," and a necessary accessory for the counting-house, or on the library table.

P. L. SIMMONDS.

16, WHITTINGSTALL ROAD, FULHAM.

# A DICTIONARY

TRADES, TRADE PRODUCTS, COMMERCIAL, MANUFACTURING, AND OTHER TECHNICAL TERMS: MONEY, WEIGHTS AND MEASURES, &c.

to eladers or asb.

CALCINER, a name given to the burning house, or place where minerals, &c. are pulverized by heat.

CALCIUM, the metallic base of lime, a silverwhite metal obtained by the same method as barium. Fluoride of calcium is the Derbyshire or fluor spar.

CALCO, a weight in the Ionian islands, twenty-four troy grains, twenty calchi making one troy ounce. CALCQUIN. See CALKINO.

CALCULATING MACHINE, an Instrument with toothed wheels, each turning freely on its own centre for automaton calculation. The sehwan-pan of the Chinese, and the Roman abacus, are also species of counting machines for facilitating calculations.

CALCULATOR, one who reckons or estimates matters of figures or detail.

CALDERAIO (Italian), CALDERERO (Spanish), a brazier or tinker.

Caldron, a large iron boiler or pot. Calechie, Calash, a lady's hood; also a small hooded carriage running on low wheels.

CALENCART, a kind of callco imported into

CALENDAR, an almanae.

CALENDER, a muchline for smoothing or hot-pressing tabries between rollers, to

give them a glossy or wavy appearance. Calendeaun, a smoother and presser of fa-bries; one engaged in securing and hotpressing cloth.

CALESIN, a one-horse chalse in Spain.

CALF, prepared leather for book-binding, &c.; the young of a cow. usually so termed until it is past six months old, when it becomes a yearling. Calves generally become fat enough for veal in eight or nine weeks.

Calf-pen, an out-house or enclosure where enlyos are kept.

Calf-senot July. See Calves - foot Calf-senot July. See Calves - foot Calf-senot fully independent of the east which, when tanned, forms the unterial for one of the most valuable kinds of leather, and is used by accountrement-makers and boot-makers; ealf-skins are also converted into vellam.

CALLATOUR, an Indian rod wood.

CALIBRE (French), n word now generally adopted to express the bore of a piece of ordinance.

CALIBRE COMPASSES. See CALIFERS. CALICHE, a name for ultrate of soda found

in Peru.

Calleo, a general term for any plain white cloth made from cotton, but which ro-ceives peculiar distinctive names as it improves in quality and strength, and ac-cording to the purposes for which it is used. In the United States the term is restricted by popular usago to prints. Dyed callcoes are used for book-binding. There are super calleoos, shirting cailcoes, unbleached calicoes, &c.

CALICO AND SILK PRINTER, a workman who imprints coloured figures on silks and cottons, by cylindrical machinory, but the term is usually applied to the master-manufacturers or owners of print-works.

Calico-Glazer, one who smooths or hot-presses calicoes. See Calendener. Calico-Printer's Block-cutter, a maker

of blocks for the use of callco-printers.
Callco-printing, the process of impressing figured patterns upon cotton by coloured substances

CALIDAD, the best kind of Cuba tobacco.

California were made in 1848; and the total produce of tho mines was estimated, total produce of the mines was estimated, on good authority, up to the close of 1835, to have amounted to unwards of £80,000,000 sterling. The California gold received at the United States' mints to the close of 1834, was to the amount of £54,000,000; whilst about £6,000,000 was circulating locally in coin, or held in bullion, and used in manufactures. &c. The officially registered shipmonts of gold from California, in the five years 1851-55, were to the value of nearly £47,000,000; but much was shipped unregistered. CALIGA, a kind of leather half-boots worn by the Roman soldlers.

the Roman soldlers. Calin, an alloy of lead and the, used by the Chinese forten eanisters and other articles.

CALIPER. See Callipeas.

Calls, the Spaulsh name for alkanet root. CALISAYA-BARK, a valuable einchona barl obtained from Cinchona Calisaya, a Bollvian tree, which is rich in the alka-

Calishenas, insulated deposits or beds of ultrate of soda in Peru.

CALISTHENIC INSTHUMENT-MAKEN, a manufacturer of chest expanders, &c.

CALK, a name for iime.

CALKINO, the process of tracing with a style or hard penell, through a print which has been rubbed with coloured chalk at the has been rubbed with coloured chalk at the back; or copying a drawing by tracing with chalk. See Caulking.

Calkins, Cawkins, the prominent or clevated extremities of the horse's shoe, forged thin, and turned downwards to prevent slipping.

Call, a visit; the demand for payment of an instalment due on shares; a speculation on the Stock Explange.

on the Stock Exchange.

CALLA, a commercial term used on some parts of the coast of Africa, indicating exchange or barter in gools, in contradis-tinction to Calla-biera, which means eash

or currency.

CALLEMANDRA, a kind of Spanish woollen stuff. CALLIGNAPHY, the art of fine penmanship.

CALLIPASII, the upper part of the turtle. CALLIPEE, the nuder part of the turtle.

CALLIPERS, instruments used in gauging;

CALLIPERS, instruments used in gauging; compasses to measure a diameter.
CALLIPEVA, an esteemed river mullet of the West Indian soas (Mugil liza), seldom extending further than the embouchures of streams or into the ponds and marshes. Its seales are useful for making ornaments, and its roe forms an excellent enviare.

Callou (Spanish), a wine or fermented liquor extracted from palms.

CALMICKS, a sort of woollen hair-eloth.
CALOMEL, a mild proparation of moreury,
tho diehloride, used as an alterative or purgative.

CALORIMETER, un Instrument to indicato the heat given out by bodies in cooling or passing from one temperature to another, which is ascertained by the quantity of ico it will molt.

CALOTYPE, an improved method of taking photographs on puper, invented by Mr Talbot.

CALOTYPE-PAPER, photogenic paper chemil-

CALOTYPE-PAPER, photogenic pipel chemically prepared for the calotype process.

CALOW, the Polish Inch. The old Polish calow was 0.977 English inch; the new calow, since 1819, is equal to 0.94 inch. In Cracow, however, the calow runs to 1.17 inch. inch.

CALPIZQUE, a rent collector in Spain.
CALQUING. See CALKING.
CALUMBA. See COLOMBO-ROOT.
CALVES'-FOOT JELLY, a nutritious jelly made by boiling the feet of calves, and flavouring the extract.

CALVIA (plural CALVIE), a grain measure of Venetian Lombardy, 2.636 gallous.

CALX, an obsolete name for metallic oxides. CALZADO (Spanish), a shoe or sandal of any kind.

CALZETTAIO (Italian), a hosicr.

CALZOLAIO (Italian), n shoemaker. CAM, a substituto for the erank movement in weaving. Camaco, an Ionian long measure equal to

51 Imperial yards.

CAMALI (French), a domino; a capuellu or short clonk sometimes made of fur. CAMANONCA, a kind of Spanish stuff for-merly used for linings.

merly used for linings.

CAMARA, a store-house for grain; a wood obtained in Essequibo from Dipteryx odorata; it is hard, tough, and durable in ne eminent degree, and it is said that a portion of its timber, one inch square and of a given length, bears 1001bs more weight than any other timber in Guiana of the same discussions. It is therefore of the same dimensions. It is therefore well ndapted for shafts, mill-wheels, or eogs. It will square 18 or 20 inches from 40 to 50 feet long.

CAMARAOE, rent paid for n granary. CAMAROES, a Portuguese name for large

CAMAROES, a Portuguese frame for large shrimps or prawns.

CAMASPEE, a money of account at Mocha on the Red Sea, the 60th part of a dollar.

CAMATA, tho commercial name for halfgrown acorns dried, which are imported

for tanning; Camatina are incipient acorns used for the same purpose.

CAMBAY STONE, a kind of carnelian obtained In the East Indies.

CAMBER, a repairing wet dock or inlet from a harbour CAMBER-BEAM, an arched beam used in

platforms. CAMBEA-SLIP, nu instrument for drawing

arches. CAMBETTA, a provincial dry measure of Franco equal to 21 pints, sometimes

called Gombetta. Cambiador, a banker or money-changer in

Spain. Spain.

eambric.

cambric. [meat on. Cambric, an iron with hooks to hang Cambric, a cotton fabric in imitation of fine linen; its varieties are glazed, white, and coloured for linings; twilled, figured, striped, and corded. Cotton cambries are either white or printed for dresses, or used as French cambries. The former are unde chiany in Lancashire, the latter in Glasgow. Scotch cambrie is an limitation cambrie made from fine hard twisted notton.

CAMBRIC MUSLIN, a very fine and thin linen fabrle, an imitation of cambric, and used for the same purposes.
CAME, a name in some parts of India for the

half runce or 1s.

CAMEL, a contrivance for lifting ships over n bar or shoal that obstructs the navigation of a river; also the well-known beast of burden (Camelus Bactrianus) with two humps. The milk of the camel is excellent and supplies butter and cheese. flesh is hard and misavoury, and little es-teemed even by the Tartars. They use the hump cut into slices, which dissolved in tea serves the purpose of butter. The hide furnishes the Arab with sandals and belts, and tho dung is an important articlo of fuel in arid countries.

CAMELEEN, a driver or attendant on camels. CAMEL-HAIR PENCIL, a small brush used by painters in water-colours made of badgers' hair, camels' hair, or other suitable ma-

terial.

a genus of beantiful evergreen CAMELLIA, CAMELIA, a genus of beautiful evergreen shribs; the seeds of the Camellia olejera, a native of China, yield nn excellent table oil. The large, splendid, rose-like flowers of several species of camella are much prized in the metropolis, being cultivated in private hot-houses, and sold by forists.

CAMEL-LOAD, the load a camel will earry.

The Rostian camel can carry a hurden of

The Baetrlan camel can carry a burden of The Bactrian camel can earry a burden of six ewt.; but the usual load for a camel, on a short journey, is from 400 to 500 lbs.; on longer journeys about 100 lbs. loss. Their pace being about two miles and a half per hour, they are the measurers of distance in the East, the mile there being equal to two mid a half English miles, and cauled an hour from the time the caude ealled nn hour, from the time the camel takes in traversing it.

CAMELOT. See CAMLET

CAMELOT. SEE CAMERT.

CAMELS'-HAIR, is much longer than sheep's wool, and often as fine as slik. There are three kinds, red, white, and grey. The hair on a camel would weigh about 10 lbs

CAMELS' HAIR PENCIL MAKER, n manufac-turer of small hair paint-brushes used in

water-colour painting.

CAMELS' HAY, a name given to some of the fragrant grasses of the Andropogon

CAMEO-CUTTER, nn engraver of cameos, one who cuts and embosses stones, shells, &c. CAMEOS, gems worked in relievo; small basrellefs cut on various substances, as stone, shell, lava, ivory, &c. They are frequently eut on ecrtain conch shells or strombs, the substance of which consists of two disthe substance of which consists of two distinct layers of different colours, textures and hardness. The black conch offers the most decided contrast of colour in the layers. Shell cameos are now very common, and some display a great deal of tasto in the design, cutting, and adaptation of the various layers of the helmet, and other shells to the required that.

CAMERA OBSCURA, literally a dark chamber, or an optical apparatus in the shape of a box, for collecting light, and exhibiting external objects in their natural colours on a white surface.

on a white surface.

CAMES, rads of cast lead used by glazlers in framing church windows and other quarrels of glass.

CAMPERING, taking off an angle or edge of

timber

Camerotto (Italian), a linen pettleoat.
Camero, a measure of length in the Ionian islands, consisting of 54 yards. CAMIONNAGE (French), carlage

hire.

Camisa, an inner linen garment worn in

Camison, a blouse or outer freek worn by

working in Spain.

CAMLET, a stuff made originally of goats' hair, now frequently of halr and silk, or wool and thread.

AMOMILE, CHAMOMILE; the flowers of Anthenis nobilis, in Europe are employed medicinally as a cheap tonic carminative anodyne; when taken in large doses, however, they were reportally conding CAMOMILE, anodyne; when taken in large doses, however, they prove powerfully emetic. Another species, A. Pyrethrum lurnishes

the pellitory root.
CAMOSCIO (Italian), tanned leather.
CAMOTES, a Spanish name for the sweet notato.

CAMP, the ground on which an army pitches

its tents.

CAMPANINO, a variety of Spanish marble.
CAMPEACHY WOOD, a hard red dye-wood from the Hæmatoxylon campechianum, better known as logwood.

CAMP-BED, a folding iron bedstead, with tester laths, for field use.

CAMP-EQUIPAGE MAKER, a maker of portable articles, of light materials adapted for easy transport. See CAMP-FURNITURE. CAMP-FOLLOWERS, the attendants on an

army

CAMP-FURNITURE, articles of eabinet work made compact, light, and portable, so as to be easily folded and transported; such as eamp-stools, camp-bedsteads, tables, dec.

CAMPRINE, a popular name for essential resinous oils, such as the purified oil or dis-

tilled spirits of turpentine. When intended for a burning fluid, it is mixed with alcohol ln various proportions.

CAMPHINE LAMP, a lamp made with proper precantions for burning camphine, having a reservoir generally of glass, placed be-tween the supporting pillar and the burner, to hold the spirit and the cotton

wick dips into it.

CAMPHOR, a concrete aerid drug, of a highly renetrating smell, obtained from trees indigenous to Japan, and the Eastern archipelago. The China or Japan eamphortree is the Laurus camphora of Linnaus, the Camphora officinarum of Nees. The camphor-tree of Sunnitra and Borneo, is the Dryobalanops camphora.

CAMPHOR JULEP, a name in America for eamphor water. CAMPHOR WATER, a solution of camphor used as a yehicle for the administration of

tever medicines.

CAMPHOR-WOOD-OIL, an oll obtained in the East from Dryobalanops camphora, which ls largely used at Singapore instead of turpontino.

CAMPIONE (Italian), a journal, ledger, or shopkeeper's book.

CAMP-KETTLE, an iron pot for the use of soldiers and colonists.

Самро, an Halian superficial measure, varying in different localities from 0.688 aere to 1.285 aere

Campoi, a kind often,

AMPSOR, a money-changer.
AMP-STOOL, a light portable folding stool.

CAMBOTO (Italian), a cabin boy.

Camboto of Baphia nitida imported from the West coast of Africa.

CAN, a tin vessel for milk or beer, for holding flax and for other purposes; a liquid measure of Slam equal to 419 pluts; also an abbreviated name for the candureen, a Chinese weight and measure.

CANA, a name in some of the Pacific Islands for sponge; a long and superficial measurcused in Italy and some parts of France, which is of very variable dimensions. The maximum is 11768 inches the boilders' measure in Florence, the minimum 61 10 inches in Barcelona. See CANNE. CANABALLA, a kind of Spanish fishing-

Canada, Canado, a liquid measure of Spain and Portugal; also occusionally used in Ceylon. In Lisbon the canada is equal to nearly 23 pints; in Brazil, a weight of 32 lbs, and 703 of a wine gallon, or about four bottles. In Ceylon the eamada passes for 2.66 English pints. The Spanish canada is much larger, being equal to 8.68 gallons.

CANADA-BALSAM, an oleo-resin, obtained from the American silver-ir, Abies bat-samea. It is used for medicinal and manufacturing purposes, and makes a fine transparent varnish for water-colour drawings, which does not become darker

with time

CANADA-RICE, a wild species of rice, the Zi-ANADA-RICE, a wild species of rice, the Zizania aquatica, growing in all the shallow streams and swamps of N. West America. It is exceedingly prolific of farinaceous seeds, which afford a very good meal. The plant seems designed by nature to become the indigenous bread-corn of the newly sctiled regions; for ils seeds contribute essentially to the sopport of the wandering tribes of Indians, and feed immense locks of wild fowl.

ANDA-SUGER, dark sugar made from the

CANADA-SUGAR, dark sugar made from the sap of the sugar-maple tree, Acer saccha-

rinum

CANADIAN CURRENCY. The pounds, shillings, and pence in the British North American colonles, commonly called Halifax cur-rency, are in value ten per cent below the same coins in sterling money; hence £100 sterling is equivalent to £110 currency.

The pound sterling passes under the Act Aug. 1, 1854, for £1.4:6 currency.

CANADIAN TIMBER. A large trade is earried on with the ports of the river St. Lawrence for timber obtained from the Ottawa distriet and other parts of Lower Canada. In 1854 the squared timber exported from Quebec amounted to 25,316,000 feet, be-sides 3,476,491 standard of deals, lathwood, staves, masts, spars, rallway sleepers, and other manufactures of wood: 160 Liverpool vessels were engaged in tho trade

CANADIAN YELLOW-ROOT, the Hydrastis Canadensis, which furnishes a valuable bitter and a useful yellow dye.

CANALE, a name in the Pacific for the mullet fish.

CANAKIN, a small can.

Canal, an artificial navigable water channel formed for the passage of boats or vessels with cargo.

ing merchandise, &c., from place to place

by sca or land.

Carse, rich alluvial land on the bank of a river; a grain measure formerly used in France, equal to 31 to 31 gallons.

CARSHA, an ancient Hindoo weight equal to

107 1-5th grains.

CART, a vehicle on two or four wheels, adapted for conveying loads, light or heavy, according to the peculiar build or construction of the cart.

CARTABAC, a river fish of Demerara, the Tetragonopterus latus, which is excellent

when dried and smoked.

when dried and smoked.

CARTAGE, the act of conveying goods by earls; the charge for the same.

CARTE, QUARTE, a grain measure formerly used in France, very variable in different departments, ranging from 1½ up to 18j gallons. Also a superficial measure about the seventh of an aerc.

CARTE, a French name for the bill of fare at an cating-house; the list of wines, &c.

CARTE-BLANCHE, an unlimited or unconditional power or authority given to a person to aot at discretion for another.

CARTEL, a grain measure formerly used in France and Belgium of from 4‡ to 7 gallons, according to the locality.

CARTEA, one who drives a eart or team, an inferior farm servant, having the care of driving and foddering the draught eattle, CARTIERE, a grain measure formerly used in

some parts of Spain and France, about 23 bushels.

CART-GREASE-MAKER, a preparer and vender of fatty mixtures for lubricating the axles of wheels of vehicles.

CARTHAMUS OIL, an oll obtained in Egypt from the seeds of the safflower, Carthamus Persicus, and in Bombay from Carthamus tinctorius.

CART-HOISE, a draught horse of which there are several kinds, tho principal being the Cleveland, Clydesdale, Northamptonshire, Suffolk Puuch, and the dray horse, or heavy black

CART-HOUSE, a shed to shelter carts, farm implements, &c., from exposuro to the

sun and rain.

CART-LADDER, a kind of rack thrown out at the head or tall of a cart, to enable it to carry a larger load of light goods, as hay,

Straw, &c.
CART-LOAD, the quantity that a eart will hold, or a horse can draw. A single horse will convey a load of two tons over the will convey a load of two tons over the paved streets of a town. The Scotch carriers, in earts weighing seven cwt., will with one horse, convey a ton of goods twenty-one miles in a day. The French carriers in Normandy will convey in two-wliceled earts drawn by four horses, four tons of goods a distance of from fourteen to twenty-two miles in a day. A cartload of grain is five quarters, or forty bushels. See Load.

Carroecio, a Roman liquid measure, ranging from a pint to a quarter of a plut, ne-cording to locality, and the fluid measured, [paper boxes.

as oil, wine, &c.

CARTON, CARTONNAGE, thin paste-board for CARTONATE, CARTONNEE, a superficial mea-sure used in Perpignan, about the third of an English acre.

CARTONNE', a book bound in boards.

CARTONNE', a book bound if boards.
CARTONNERIE (French), a paste-board manufactory. The manufactore of stiff paper boxes is largely carried on in France. In Paris 4000 persons are employed in it, and the trade is divided into six distinct branches, each making special kinds of boxes

CARTON PIERRE, a species of papier maché, initating stone or bronzo sculpture. It has been used for roofing, and is composed of the pulp of paper mixed with whiting and glue. This is pressed into plaster plece-moulds, backed with paper, and when sufficiently set, removed to a drying room to harden.

room to harden.

ZARTOON, a stiff paper or cardboard box, used by linen drapers and others; n rough sketch or outline in chalk made on stout paper in order to be transferred on a fresh plastered wall to be painted in freeze

fresco.

CARTOUCH, a case filled with shot to be fired from a bomb or howitzer.

CARTOUCH-BOX, a soldier's wooden ease for

holding eartridges. CARTOUCHE, an architectural ornament re-presenting a seroil in earved work; it is

sometimes made to receive a motto or inscription.\*

Gartanger, a woollen or paper case or bag filled with powder, the proper charge for a musket or piece of ordnance; when un-necompanied with ball it is termed a blank eartridge.

CARTRIDGE-CASE, a box with cells for holding cartridges, suspended by a belt over tho shoulder. The paper in which the powder

of a cartridgo is enclosed.

CARTHIDGE-MAKER, one who makes and fills eases with charges of powder for guns. CARTHIDGE-PAPER, R very stout paper for drawing rough designs on, or for making cartridge eases, &c.

Cart-subdle, the harness-support on a horse's back to which is attached the breeding, chains, traces, &c., of a cart. Cart-shed, a covered house or shelter for protecting earts from the weather.

CART-WHEELS, large stout wheels made for earts, capable of supporting heavy loads. CART-WHI, a stout strong whip used by earters; in the colonles the long bullock whips are made of strips of hide.

CART-WRIGHT, an artificer who makes or

repairs earts.

CARUTO, n name for the Lana dye, a per-manent and beautiful bluish-black colour, obtained in British Gulana from the juice of the fruit of the Genipa Americana.

CARVED-WORK, sculptured, or open work in stone, wood, &c.

CARVEL, CARAVEL, a small vessel.
CARVEL, one who designs and works on sculpture, or who cuts wood and stono in the form of figures or other devices as ornaments and hi curiciliments of mouldings. The trade of a carver in wood and gilder is often combined.

CARVER AND GILDER, a pleture and looking-glass frame maker and decorator.

CARVERS, long pointed knives for cutting up joints of meat and poultry.

CARVER'S TOOLS, the cutting tools necessary

Carver's Tools, the cutting tools necessary for a carver. Carvi (French), caraway seed. Carving, the art and process of cutting wood, stone, ivery, shell, &c. Carving-fore, a large fork with a protect-ing gnard for carving joints of meat. Canving-kniff, a pointed knife made on a larger scale than the ordinary knives for table are

table use. Carwal, Carval, a grain measure of Indla ranging in different localities from 900 to

1784 bs. avoirdupols.

Caliwan, a grain measure on the Malnbar const equal to 12 maunds of barley or paddy, about 8 ewt.; but 15 maunds (half a ton) of other grain.

CASCALHO, a name in Brazil for the sedlment or deposit after the first washing of the sand, &c., for gold.

Sand, &C., for goto.

Cascarilla, an aromatic bark, the produce of Croton Cascarilla and eleuteria of the Bahamas and other islands of the West Indie

CASCO (Spanish), the hull of a ship.
CASC, a box of any kind, the outside of a
watch; a printer's box with partitions for
letters or type; printers' eases generally
go in pairs on the top of a frame, or easo
rack; a cover for the cushions of chairs and sofus.

CASE-BRANDY, brandy of n superior kind sold in ease bottles.

CASED-GOODS, in the glass trade articles in which coloured metal has been added to filnt giass.

CASED-SASH-FRAME, a leaded window, opening sideways.

CASE-HARDENING, the process of converting the surface of iron into steel, by heating it with charcoal for a short time. Iron may with charcoal for a short time. be hardened by the flame of gas, by immersing it in oil, or in boiling water.

Metals are also hardened by exposing them wrapped in a cement or composition pasto in a forge to a red heat.

CASEIN, the eurd or congulable portion of milk; n proximate principle of vegetables. CASE - MAKER, a enrpenter who makes wooden packing eases for shipping goods.

CASEMENT, a moveable window turning and opening on hinges.

CASE-RACK, R printer's frame for placing tho

wooden cases of type on.
Case-snot, pieces of iron, musket balls, or
other projectiles enclosed in a case for fir ing from a cannon.

CASEUM, the purified curd of cheese.

Cash, the general name for coin and bank notes, sometimes applied to cheques, bills, bonds, and other property easily convertible into money. The only coin of the Chinese is the eash, also called le; which is nominally divided into ten haons. These cash are made of a very base alloy These cash are made of a very base alloy of copper, are round, about the size of an English furthing, and have a square hole in the middle, by which a hundred or more are usually strung together. On one side are Chinese characters, denoting the reign under which they were east; and on the other side, in those of the present dynasty, are either Chinese or Mantchou characters.

designating the place of coinage. Under preceding dynasties, two, five, and ten cash pleecs were in use, as well as other coins of various descriptions; but the single cash is the only coin new current throughcash is the only comnow current in ough-out the Empire. It is east also in Japan, Corea, and Cochin China; and is clandes-tinely imported from the last-named place to a large amount. In Madras, 80 cash to a large amount. In Madras, 80 cash formerly made one fanam, worth about twopence.

CASHAW-TREE, a West Indla tree, the Pro-

sopis juliflora.

Sopis julijora.

CASH-Book, the book in which a trader enters his receipts and payments.

CASH-Box, a metal or wooden case for keeping money in.

CASH-CREDIT, the privilege of drawing money from a bank, obtained by personal or described accounting.

posited security.

Cashew Nut, a nut attached to the fruit of Anacardium occidentale, the sweet kernels of which are used as an edible fruit. An oil is obtained from the inner shell, and the bark of the tree has been used for

tanning.
Ashier, Cash-keeper, an officer in any CASHIER, establishment who has the charge of moncys received, and dispenses pay-

ments. &c.

CASHMERE, a stuff made of goats' hair, also

a fancy woollen fabric.

Cashmere Shawls, a fine and costly kind of shawl made in the East of goats' hair, of which there are three kinds, the berder shawl; the rizayee, or shawl of the der shawt; the Heavee, of shawt of the finest texture; and the ordinary easimere shawl. Some of these are valued at £100 and upwards, according to the delicacy of the workmanship, and beauty of the pat-

CASH-TAKER, the receiver of money at a place of amusement, or public resort, sliop,

&c.

Casimir (French), kerseymerc.

(Schopff.)
CAVATION, CAVAZION, hollowing the earth for the foundation of a building or for cellarage.

CAVE, a name for the space under the fire of a furnace.

CAVEACHING, a mode of pickling fish,

(Avear, Caveer, a money of account at Mocha worth about a hallpenny; a nominal division of the Spanish dollar, forty caveers being reckoned equal to one dollar.

CAVEAT, an admonitory prohibition or protest, entered by the holder of a patent, a-gainst the granting of another applied for, which appears likely to infringe his ex-

isting rights.

CVENDISH, a kind of tobacco.

CVENGA, a name in the Pacific islands for the burthen or freight of a canoe or ves-

CAVETTO, in building, a simple concave moulding used for cornices, &c.; a quarter

of a circle, the reverse of the ovalo.

CAVEZON, CAVESON, a severe nose band of various materials to punish or subduc an untractable horse.

CAVEZZINA, the Italian name for a bridle. Cavezzo, an Italian measure of length of variable dimensions in different cities, the minimum being about 21 yards, the maxlmum 41. It is analogous to the French toise

CAVIAR, a preparation of the dried spawn or sulted roe of fish; a single sturgeon will sometimes yield as much as 120 lbs. of roe. Caviar is principally consumed in Russia, Germany, and Italy, by the Greeks during their long lasts; and also lu England. The black caviar is made from the roe of the sturgeon; a cheaper and less prized red kind is obtained from the roe of the grey mullet and some of the carp species which are common in the rivers and shores of the Black Sea.

CAVING, lu mining a sinking or falling ln of the superincumbent earth or rock of a

CAVING-RAKE, a barn-floor rake with long teeth and a short head to separate the chaff from grain.

Jawk, an opaque massive variety of barytes found in Staffordshire and Derbyshire.

CAWNEY, an Indian land measure of 57,600 square fect or 11 acre, chiefly used at Madras.

Caxo, a Spaulsh measure of ore containing many quintals, but varying in bulk at different places; at Potosi equal to about 5000 lbs.

See Cajon. CAXON.

CAYA, a bastard satin-wood shipped from St. Domingo.

CAYELAC, an aromatic wood obtained in Siam.

CAYENNE PEPPER, a pungent seasoning made from the pounded red bird-pepper or small shrubby capsicum seed-vessels, It is used medicinally in gargles and as a stimulant. CAYENNE POTTAGE, a mess made in the West

Indies termed pepper pot. CAYMAN, another name for the alligator, which is killed sometimes for its oil and its skin; it also yields musk.

CATTONGEE, a name given in Sumatra to the second quality of pepper.

CAZAL, another name for the concadi, an agrarian measure of France.

CAZZONS, a provincial name for the drled dung of eattle collected for fuel.

CAZZUOLA, a trowel or tool for spreading

CAZZOLA, a trower of tool for sprakame mortar, used in Italy.
CEBADILLA, CEVADILLA, SABADILLA, names for the follicular fruits of Stenanthiam frigidium, Asagrea officinalis, and Veratrum Sabadilla, which contain the alkaloid veratria, used as an emetic and purgative in mania, and which has also been administered in eases of gout, rheumatism, and neuralgia. See SEVOEJA.

CECCIIIA (Italian), a kind of vessel; a snow

or bylander.

CECILS, a name for hashed beef. CECOGRAPH. a French writing apparatus for the use of the blind.

Cedant (French), one who assigns over or surrenders his right or property

CEDAR, a name given to several woods, but properly belonging to the almost incorruptible wood obtained from two species of Cedrus, C. Deodara and Libani, which Cearus, C. Decadra and Lloans, which grow to a great height, and furnish the timber. The wood of the common Cedrelas is far less valuable. The mane of rededar is given to the Juniperus Bermudiana, a wood used for pendis, and also recognised by the Committee of Lloyds for some parts of ship-building.

CEDAR GUM, ngum resin obtained in the Cape eolony, from the branches and cones of the eolony, from the branches and cones of the Widdingtonia juniperoides, much resembling gum olbanum. It is used for varions medicinal purposes, for compounding plasters, and preparing varnish.

CEDAZO (Spanish), a hair sieve or strainer.

CEDRA, CEDRAT, a species of Italian citron having a thick rind which contains much essential oil, and is used for making perfumes, and for dispuriting lungurs.

fumes, and for flavouring liqueurs.
CEDRIUM, the resin of the cedar tree used to preservo books and to protect other articles

from jusects

CEILING, the upper surface of an apartment, usually formed uf laths and plaster; the inside of a roof.

CEILING-FLOOR, the joists or frame-work on the lower surface of an apartment upon

which the ceiling is made.
Cening Latis, the thin strips of wood nailed to the joists for receiving the plaster. CELEMIN, a Sannish dry measure, the 12th of a fanegada, ranging in different places from 3f to 11 pints. The name was also formerly given to the Portugnese selamim.

CEINTURE, a walst-belt, scarf or girdle of ganze or muslin, eotton, linen, or silk. CELATURE, the art of engraving, cutting, or

embossing metals.

Celery, an esculent (Aphim graveolens), the bianched footstalks of the leaves are eaten in England, and in many countries the leaves and seeds are used for some. The seeds are also employed as a stimulant by

the native medical practitioners of India.

CELESTINE, a name for native suiphate of strontia. The nitrate is used for red lights

in theatres.

Cellar, an underground room beneath n building, often used as n wine store, or for other commodities not injured by damp CELLARAGE, tho area beneath a building laid

out in a series of vaults or cellars.

CELLAHET, a wooden cabinet, case, or bureau,

for holding liquor bottles.

Cellar-flap, the wooden lifting door which closes a cellar. CELLARMAN, CELLAREA, one who attends to

the business of a cellar. CELONAIO, a carpet maker.

CELONARO, a carpet miner.
CELONE, a carpet in Italy.
CEMBALO (Italian), the harpsichord.
CEMENT, any substance that serves to bind
or unite by cohesion, as glue, soider, mortars, &c. In building, cement is a concretion of rubble mortars; the name is also applied to hydraulic mortars, impervious to water, such as Roman and Portland cements, puzzolano, &c. A composition for uniting metals is called solder, and the name cement is given to a lute or paste surrounding bodies in pots or crucibles for chemical purposes.

CEMENTATION, in metallurgy, the application of cement to substances; the union of carbon and iron when exposed to heat forms

steel.

CEMENTITIOUS, agglutinating; having tho

quality of cementing.

CEMENT-STONE, nodules of calcareous matter a species of septaria, obtained at Har-

wich, Sheppey, and other localities, for making cements.

EMETERY, a detached enclosure set apart for the burlal of the dead; pieces of ground attached to churches, howover, are sometimes called cemeteries.

CENERE, the Italian name for ashes

CENOTAPH, an empty tomb; an honorary monument erected in memory of some person whose body has been entembed elsewhere

The great cent or solive as a solid measure for wood in France contains 363,168 embic feet. The CENT, the hundredth part, an abbreviation France contains 363,168 cubic feet. The great cent or centaine is also a provincial sult measure of France and equal to 1151 quarters.

CENTAGE, a rate by the hundred; per centage being a commission or allowance at

so much per eent.

Centass, a weight of Baden, the hundredth part of the local pound, and weighing 77:17

CENTERAAA, the Amsterdam hundred-weight or quintal, equal to nearly 1091bs. avoirdupois. See Centner.

CENTERING, the temporary wooden framing

on which an arch or any vaulted work is shaped and constructed.

CENTESIMAL, a division into hundredth

CENTIARE, the metre superficial, the hund-redth part of the French are, and equal to

redth part of the French are, and equal to 1:19 square yards.
CENTIGRADE, the division into grades or degrees by hundredth parts, called also centesimal; a name for the thermometer of Uelsus, used chiefly in France. The distance between the freezing point of water and the boiling point, is divided into 100 degrees, each being equal to 14-5th of Fahrenheit's scale. Reammer's thermometer has only 80 degrees on its thermometer has only 80 degrees on its scale. See Thermometer,

CENTIGRAMME, the hundredth part of the present French grain in the decimal pound,

and equal to 0.15 English grain.

CENTILITRE, the hundredth part of the pint or litre of France—0.017 English plut, also 0.617 cubic inch. In Holland the centilitre bears the name of vingerhoed or de.

CENTIME, an existing French copper coin though rnrely seen, the tenth part of a penny; 100 centimes making a franc. The centime is also used in accounts in Belgium, Switzerland, Italy and Austria, and as a division of the Dutch guilder.

CENTIMETRE, n linear measure in France and Belgium—the hundredth part of the metre equal to 0.39 lnch. In Holland the

metre equal to 0.39 Inch. In Holland the legal name of the centimetre is duim or pouce; In Venetian Lombardy It is called dito or doight.

CENTENAJO, the Italian quintal, of varying proportions in different towns; in Florenco only 75 lbs., in Milan 220; a salt measure in the Ionian islands of 4410lbs avoirdungs.

pois.
Centinarius. See Centum-pondium.
Centistere, the hundredth part of the
French store, 0.333 cubic feet.
Center, a Dalmatlan liquid measure, the
eighty-fourth part of the baril, and equal

to 1.6 pint.

to 16 pint.

CENTMEN, the commercial hundred-weight or quintal of the Continental States which varies in most. The toil centure of the German States is 1104lbs, avoirdupois, the trade centuer 1134lbs. In Vienna it is 1234lbs.; in Hiamiburg, 120lbs.

CENTIE-BIT, a carpenter's tool for boring election belos.

circular holes.

CENTRE-PIECE, a table ornament; also n workman's tool. CENTRES, the plain parts of shawls prepared

in Bradford, &c., to which the Palsicy weavers attach ornamental borders.

CENTRIFUGAL-MACHINE, a whilriling machine EXTRIPUGAL-MACHINE, a whitrling machine for drying sugar or clearing it from molasses, on the principle of trundling a mop. The sugar is enclosed in cylindrical strainers, a rapid rotary motion is imparted, by which the moisture is thrown off more speedily than by the old process of leaving the molasses to drain away from the sugar gradually in flat coolers and casks. Also, n machine so constructed as to raise water by centrifugal force, aided by the pressure of the ntmosphere. ntinosphere

CENTRIFUGAL-PUMP, an engine for raising

water by steam power.

CENTRIPETAL-PRESS, a mechanical contrivance for pressing square in all directions. Centum, a hundred.

CENTUM-PONDIUM, CENTINARIUS, an ancient Roman weight corresponding to the modern quintal, nud equal to about 72lbs. avoirdupois.

CENTURIE, an ancient Roman land measure equal to 1231 acres.

CERASIN, in name given to such gums as cherry-tree gum, which swell in water but do not readily dissolve.

CEDL, CHOL, a ship or vessel,
CEPHALIC, a name applied to snuffs, or
medicines which relievo headache,
CERALACCA (Italian), seaiing wax.
CERAMIC, a term often applied to ornamental pottery.

CENATE, an ointmeat made of wax and oll, of spermaceth, or lard and wax; used for outward applications or plasters.
Cernonea (Italian), sour or vapid wine.

COP-HOUSE, a place where tools are kept.

COPING, the upper course of masonry on a wall or parapet, &c., which forms a projecting or covering course.

COPING-STONES, long plates of stone laid on a wall, and projecting a few inches beyond

a wall, and projecting a few inches beyond

the wall to carry off rain.

Copper, a well-known, brownish-red metal obtained largely in this country, in North America, the Cupe Colony, Australia, and the West Indies, &c. It enters into com-merce in the form of oro, regulus, old

plates, and coln; in manufactures, unwrought in bricks and pigs, rose copper, sheets, nalls, whe, rods, &c. According to the estimates of M. Leplay, the secretary of the commission of mining statistics in France, the whole amount of the smelted copper produced in the world is 52,400 tons, the amount consumed by various countries being as follows:—Great Britain, 10,600 tons; France, 9200; the German Customs Union, 5400; the Anstrian Empire, 2600; the Russian Empire, 2600; Sweden and Norway, 400; other Enropean States, 6600; the United States, 5000; other States of America, 1100; the Asiatic continent (India and Oceanica), 3300; and Japan, 1200. \*
COPPERAM, COPRA, an eastern name for the dried oily pulp of the cocoa-nut, used for expressing oil from. in France, the whole amount of the smelt-

expressing oil from.

COPPEUAS, a popular name for the beautifu green crystals forming sulphate of iron also called green vitrlol.

COPPER-BOTTOMED, a term applied to vessels

sheathed with copper sheets or yellow composition metal below the water-wark COPPER-COINAGE, the petty British coinage for mercantile transactions, and for the convenience of small traders, consisting of pennies, bulbernies, and furthings. In convenience of small traders, consisting of pennies, halfpennies, and farthings. Ir the seven years, ending 1854, 371‡ tons of copper were coined into about 39‡ million pieces. In the six years, ending with 1860, 363 tons of copper coin were issued. In 1869, a bronze coinage was put into circulation in the observation to the construction. circulation in the place of the copper coin, 92 tons' weight being coined and issued. It is not a legal tender for more than one ghilling.

COPPER-FASTENED, a term applied to vessels or boats which have rivets and bolts of copper to secure the timber and planks, e.c. Copper founder, one who casts coppermetal into moulds or shapes.

COPPER-MINE, the works where the ores of copper are obtained.

COPPER NICKEL, an ore found on the Cou-tinent, which consists of a compound of arscaic with nickel.

arseance with nickel.

COPPER-ORE, the crudo ore from which
inctal is obtained by smelting. In 1855,
there was raised in Cornwall 161,375 tons
of copper ore; in Devonshire, 34,024; in
Ircland, 15,063 tons. In the year ending
Juae 1856, the copper ore raised in Cornwall amounted to 209,305 tons, valued at
£1,283,678,\* £1,283,639.

COPPER-PLATE, a flat sheet of copper, highly polished, ou which a line engraving has been cut, or is to be etched; also a name-

plate for a door, &c. COPPER-PLATE ENGRAVER, one who etches or designs patterns or drawings, &c., on copper.

COPPER-PLATE MAKER, a workman wik shapes, smooths, and prepares metal plates for engraving.

COPPER-PLATE PRESS, a roller press for strik-ing off impressions on paper from a metal

COPPER-PLATE PRINTER, one who works off copies or impressions of cards, bill heads, &c., from a metal plate.

COPPER-PYRITES, the most important and ordinary ores of copper, which are sulplurets of copper and iron.

COPPER-SHEATHING, thin sheets of copper for nailing on ships' bottoms to preserve the

tlinber.

COPPER-SMELTER, one who melts copper ore, Copper-SMITH, a worker in copper, who frequently combines the trade of brazier and the-plate worker.

OPPER-WIRE, fine drawn wire of copper, used for various purposes. Copper wire COPPER-WIRE, ls now largely in demand for electric tele-

COPPICE-WOOD, small brushwood; underwo'od. COPPIN, a cone of thread or yarn formed on

a spindle. Coppo, a measure for oll at Lucea, contain-

ing nearly 200 lbs, avoirdupois, Copra. See Copperau. Corrolates, the fossil excrements of extinct animals, which, from the large quantity of phosphate of lime they contain, 50 to 55 per eent., when digested with sulphurie acid, form a valuable fertilizer for land.

COP-SPINNER, an American invention com-bluing the qualities of the throstle and mule in one frame, which, it is asserted, will spin 100 per cent. more yarn than the flyer spindle, with one half the power, compared

to the quantity produced.

Copy, a printer's term for any thing furnished him to compose in type, whether manuscript or printed matter.

Copy-Book, a ruled book for practising

writing in. COPY-HOLD, a legal term for manorial lands

held on a tenure by copy of court-roll. Copying, taking a fac-simile or impression; hence the terms copying-clerks, copying-

machine, copying-paper, &c.
COPYING-CLEAK, a clerk in n merchant's,
lawyer's, or other office, whose duty it is
to make transcripts of letters and other documents.

COPYING-INK, adhesive ink prepared with gum and other substances for taking one or more impressions or copies from the

manuserlpt.

COPYING MACHINE, a press for taking duplicate or manifold impressions on damped

paper from manuscripts by a lever. Copying-Machine Makea, a mechanic who manufactures presses for taking copies of

COPYING-PAPER, thin unsized paper used damp for taking impressions from writings. COPYING-PRESS See COPYING-MACHINE.

COPTING-MESS BECOUTING-MESSINE.

COPTING-MESSINE.

COPTING-MESSINE

over to another. COQUEMAR (French), a boiler; a tea kettle. COQUILLAGE (French), shell fish, shell work,

COOULLA NOT, the fruit of the Attalea funifera, a South American palm. These hard mottled nuts, which take a fine pollsh, are largely imported for the purposes of the turner, who shapes them into various small ornamental and useful articles, especially the handles of bell-pulls, the knobs of

walking-sticks, umbrellas, &c. The same palm furnishes the piassaba fibre of com-

Coquo, a kind of slicep met with in Angola in Africa.

Con, a pottle measure; a French horn. CORACLE, a rude boat made of wicker-work and hide used for salmon-fishing in the rivers of Wales.

CORAH, R measure of length in the East, varying for different goods from 41 to 521 inches; an Indian pattern silk handker-

chief.

cover for a llvlng-room.

Chumper, a slightly-baked soft thin cake requiring to be toasted at the fire before cating.

Chumper AND MUFFIN MAKER, one who makes and vends such cakes.
Cruppen, a leather strap from the saddle to

the horse's tall. CRUSADO, CHUZADA, a Portuguese gold coln; the old crusado belng worth 400 rols, and the new 480, belng worth 2s, 4d. There are, however, silver crusadoes of 240, 120, and 60 rels.

CRUSE, an Arablan money consisting of 40 duantes and worth about 1s. 8d, or 2s.; a

cup or cruet.

CRUSET, n goldsmith's crucible.

CRUSHING, in mining the process of pulverizing or grinding the ores without CRUSHING-MILL, n mill of various kinds for

crushing ore, malt, or other substance. Churches, wooden supports made to assist lame persons or cripples in walking; knees

of timber. CRWTH, a Welsh musical instrument with

CRWIII, a Weish musical instrument with six strings, played upon with a how, CRYOLITE, a mineral only found on the west coast of Greenland, lately imported as a source of aluminium; which it is said can be afforded at a price as low as silver. Besides this metal and crystals of soda, a clay is obtainable which will be valuable to called printers as a substitute for a conto calico printers as a substitute for a compound of alum and sugar of lead.

CRYSTAL, the common name for quartz, or

pure crystalline silex.

CRYSTALLOGRAPHY, the science which treats of the formation, shape, and peculiarities of crystalline bodies.

CUARE, a quarry of stones.

GUARTAL, a dry measure of Arragon = 0.213
Winchester bushel.
CUARTANE, the twelfth part of the cuartern,
a Spanish weight.

a Spanish weight.
CUARTAS, the most valueless kind of tobacco
in Cuba, fit only for filling cigars.
CUARTELLA, a variable dry measure in Spain,
ranging from 0077 to 0388 bushel. As
a liquid measure for wine it is generally
equal to 1065 gallon, and for oil 0329
callon. A swarfalles make an acurebra gallon; 4 cuartellas make an azumbre.

The Arragonese cuartelln as n weight is 0.016 lb.

Cuartena, a Spanish corn measuro: 21 cuarteras make one carga; 100 charteras of Barcelona = 24% imperial quarters, CUARTERON, an oil measure of Madrid

== 0.033 gallon.

= 0.033 gallon.
CUARTO, a Spanlsh weight = 0.0158 lb.;
also a liquid and dry measure of Spaln of
very variable dimensions; the minimum
as a dry measure being 0.113 bushei, the
maximum, 2.52 busheis; as a liquid measure the minimum is 0.085 gallon for wine,
and 0.272 gallon for oil, the maximum
0.273 gallon 0.778 galion.

Cub, the young of n wild animal, as of a bear

or a scal.

CUBA, a liquid measure of Abyssinia, containing 62 cubic inches, and rather more

than two pints.

CUBA SABICA, a building wood. See SABICU. CUBES, the fruit of the Cubeba officinalis and canina, which is used medicinally as a diuretic, and in discases of the genital organs.

CUBE-YAND, a solld British measure of 27

cubic feet

CUBICA, a kind of shalloon or bombazet.

CUBICA, a kind of shalloon or bombazet. Tho CUBIC-FOOT, a solld English measure. The cubic foot of water is the quantity that a vessel a foot square and a foot deep will hold.

CUBIC NITE, muother name for nitrate of soda, or American saltpetre.

to 18 inches; a cubit was originally the distance from the elbow to the extremity of the middlo flager, which is the fourth part of a well-proportloned man's stature, The Ezyptian cubit is 223 luches; the Turkish 264 inches; the Burmese 19 inches. The common cubit of Persia is 25 inches; the royal Perslau cubit 371 inches.

Cubsha, nn Iudian drug. Cucchiaro, a dry measure of Turin = 0.0034 bushel.

CUCHA, a weight in Muscat of about 6 ounces.

CUCITRICE, an Italian sempstress

CUCUMBER, a well-known and extensively cultivated genus (Cucumis), chiefly reared for cullnury purposes. C. colocynthis produces the colocynth of the drugslsts' shops; Cucumis sativus is the edible encumber; large quantities of cucumbers are pickled for exportation.

CUCUMBEN-SEED OIL, a bland oil obtained in the East from the seeds of plants of the encumber family, which is used as a lamp

oll, and for cooking. Cucurbit, a chemical vessel of glass, for distillations and rectification.

Cuouro, a petty Spanish coin of four mnra-vedis. See Maravedo. CUDA, a liquid measure of Arabia, equal to 2

gallons.

CUDBEAR, a red powder sometimes called persis, obtained from the Lecanora tartarea and other lichens, by steeping in nm-moniacal liquor, and which yields n rich purple colour, employed in dyeing yaru. See Archit.

CUDDOCH, a yearling cow or young helfer in Scotland.

CUDDY, properly a cabin in the fore part of a boat, but frequently applied to an after eabin built under the poop of a ship; a liquid measure on the Arabian coast of 2 gallons, also called a gudda.

others.

Day-nor, a decay in timber; a disease winch attacks wood, and renders it brittle, by destroying the cohesion of its parts. Day-SALTER, a dealer in the minerals used in

pickling, salting and preserving various kinds of food. Also in guns, drugs, dyes staffs, mineral colours, tanning sub-stances, artificial manures, &c.

DRY-STOYE, a place constructed for the plants of dry, arid climates.

DUANIE, an Arabian money, worth about

a haifpenny, 40 of which make up a cruse. See Diwant.

DUB, to reduce the end of timber; a divislon of the rupee in Mangalore also ealied a dudn, equal to about 21d; a weight in Mysore about 1 an onnee.

DUBASH, an Indian Interpreter or com-missioner, emplayed by ships and Euro-

peans at the seaports.

Dubbeltje, a division of the rixdoliar in the Eastern archipelago equal to about 64. DUBBER, DUPPER, a leather bottle or skin bag, used chiefly in India for holding oil, ghee, and other liquids, and capable of holding, according to size, from 20 to 80 bs. weight.

Dubbing, a sea term for working with an adze; a greasy composition used, and the process employed, for softening hard shoes and other articles of stiff leather.

DIPPING.

Dubble, a monetary division of the florin in Batavia, equal to about 21d.

DUCAPE, a rich silk.
DUCAT, a gold coin current in several European States, generally of the value of about 9s. 4d. There are also sliver ducats In some of the Italian States, worth only about a third of this value.

DUCATOON, a Dutch silver com of the samo value as the rixdollar, and passing for nearly 4s, in Sweden and Denmark. In Holland and the Netherlands it is about

Holland and the Netherlands It is about 8s. 6d. [Slates, 24 by 12 inches. Duchesses. Duchess-slates, 24 by 12 inches. Duchesses. Duchess-slates, large-sized Duck, a fabric lighter and finer than canvas, made of flax, used for small sails, scamen's trowsers, &c; a water-fowl, wild and domesticated, much esteemed as food, Duckling, a young duck.

Duchling, a young duck.

Duchling an all dead, the &c.

Duddla, a name for the fourth part of the

DUDDAH, a name for the fourth part of the

DUDDIE, a wooden dish with two ears used in Scotland, which is generally of an octagonal form on the brim.

Dudu, another name for the Dub, an Indian

Durfadar, a subordinate officer in an Indian army; thus there are quarter-master duffadars, pay duffadars, &c. DUFFELS, DUFFELDS, a thick coarse kind of

woollen eloth having a thick contecting to woollen eloth having a thick nap or frieze. Dugong, a name in Australia and the Indian ocean for the Halicore Dugong, which is taken for the oil obtained from the blubber. This oil is asserted to be could be odd livered to be could be odd livered to be could be odd livered. equal to eod-liver oil, and is a cure for diseases of the car. The bone of the animal in flueness and hardness of grain, speelfie gravity, and appearance, approaches nearly to the nature of lvory. The fiesh of the dugong is often eaten.

Dum, a Dutch long measure; the Netherlands dulm or centimetre is 11 square inches. In cubic measure it is the third

of a cubic foot.

Duk, Don, a name in Java for the material, like horse-hair, covering the petioles of the Ejoo or Gomuti palm, Arenga saccharifera, Labill. DUKKUM, a small species of millet raised in

DUTCIMER, a triangular chest, strong with wires, which are struck with a little rod held in each hand. [baths, Dullauk, a Persian barber who attends tho

Dulse, Dylisk, an edible alga (Rhodomenia palmata), which is sold in the Itish markets, it is eaten raw by the pensantry. markets, it is eaten raw by the peasantry. Dulsmit, the name for a small bundle in

some parts of Scotland.

DUMAREE, a petty nominal money on the Malabar coast, of 4 cowry shells; the third

part of the copper piec.

Dumb-tells, heavy inetal weights swung in the hands for exercise, to open the chest and hierease muscular strength.

Dumb-singles, a kind of silk merely wound and cheeped.

and eleaned.

DUMB-WAITER, a dining-room stand, with shelves and conveniences for holding various regulsite articles.

Dummy, a sham package in a shop; mhatter's pressing iron; n name given by firemen to the jets from the mains or chief water DUMPLING, I kind of pudding of wheaten

fiour; in cookery usually a casing or cover of paste, enclosing apples and bolled; in Seotland It is a bannock made of outment and suct bolled in broth.

Dumpy, short and thick.
Dumpy Level, a spirit level with a tele-

scope for surveying purposes,
Dumair, an imaginary money of account in
Maiwa, the eighth part of a pice.

Dun, a persevering person; one employed in soliciting the payment of debts.

DUNBAR WEDDER, a name given by some of the lower classes in Scotland to a salted

DUNDER, the fermenting less of cane-juice, used in the distillation of rum. \*

Dung, the exerctory deposit of animals: a general name for farm-yard or stable manure. The dung of most animals posmanure. The dung of most unlimats possesses a commercial value; that of dogs and of pigeons is used in taming; horse dung in toundries; that of cows in ealicoprinting; under the names of albumgraceum, argols, guano and other heads, the uses of most of these are noticed.

DINGALLY, a small liquid measure in the East of 92 seers; 114 dungallies making most

East of 21 seers: 111 dungallies making one

choradany, = 18-32nd quart.
DUNGAREE, DUNGARY, a coarse kind of un-bleached Indian calico.

DUNOUILL, a waste heap of ashes, refuse sub-

stances or manure, &c.

DUNGHILL-FORK, a prong for lifting or turn-lng straw, manure, &c. in a farm or stable

yard, &e.
Dunging manuring land; the term is also applied to the net of steeping printed eali-coes in a bath of cow-dung, at a certain stage of the process.

Stage of the process.

DUNLOF CHIESE, a quality of cheese made
in Scotland, very like the Derbyshire;
inamely, a sweet, rich, white variety.

DUNNAGE, loose articles of merchandise
permitted to be shipped for the convenience of stowling, securing and filling up cargo, such as bilict-wood, coco-nuts, &c. Conning, a common term for urgent press-ing for the payment of a debt; also a

mode or earling cort-fish in New Hampshire, so as to give them a particular colour. Dunnock, a kind of boat used at the head of the Persian gulf.

of the Persian gun.

FENNEL, an umbelliferons plant, the Anethum femiculum dulce, cultivated on the Continent as n pot-herb, and for the seeds and essential oil obtained from them. The seed is used in the manufacture of gin, and in medicine as n carminative. Another species, the common fennel, Fæniculum officinale, is cultivated in gmdens as a garnish for fish, &c., and as a not-herb for flavouring sauces.

Fenugreek, a plant, native of the South of France, the Trigonella Fanum Græcum, the seeds of which are emollient; poultiess made of the flour are employed in veterinary practice, and the Arabs use it in fomentations.

FEOFFEE, one vested with the fee of land. FER-BLANTIER (French), a tinker; one who works or sells tin.

FERDE, a piece of coarse cotton cloth; a nominal medium of value among tho Berbers in Nubla. FERDING, a small money of account in the Russlan ports of the Baltic, the 80th part

of the rlxdollar.

FERET, a gluss-blower's rod. See FERRET. FERLINO, the sixteenth part of the ounce in

Italy.

FERLOT. See FIRLOT. FERMENT, a name for yeast or barm, the seum which collects on beer.

FERMENTATION, an effervescence or ebullition in fluids, which is either vinous or nectons; a decomposition in animal and vegetable substances.

FERMOIR (French), a clasp; a joiner's rip-

plng-chisel.
FERN, FERN (Scotch), prepared gut.
FERNANDINA, FERRANDINE, a stuff made of silk and wool; a weaver.

FEROSII, an Indian servant who has the care

of tents, furniture, &c.

FERRADO, a corn measure of Spain, the
third part of the Castilian fanega, and con-

third part of the Castinan lances, and containing about four gallons.
FERRET, an animal of the weasel tribo (Mustela furo), kept for the purpose of hunting rabbits, and destroying rats, &c. in corn stacks and out-buildings; In French, a tag for a lace or point; in glassmaking, an iron used to make the fire sat reach, a lighter and or point; in glass-making, an iron used to make the rings at the mouths of bottles, or to try the melted matter; a kind of tape, \* FERRONDERIE (French), a warchouse for iron; a blacksmith's shop.

FERAUGINOUS, containing particles of iron. FERRULE, a metal ring or case, fixed on the handle of a tool, or at the end of a stick or umbreila, to prevent the wood from splitting.

FERRY, the place in a river, lake, or harbour, where a boat plies for the conveyance of goods or passengers from shore to shore. FERRY-BOAT, a boat employed in crossing a

Ferry-cow, Farrow-cow (Scotch), a cow that has brought forth; a cow not in calf. Ferryman, a waterman who plies at a ferry. FERTILE, rich or fruitful; having abundant resources.

FERTILIZER, a manure; an application to the

sol, organic or inorganic.
FERGULE. See FERRULE.
FERGULE, a lioliday; a day set apart for rejoicing, public or private. See Public

Fistoon, a kind of ornamental hanging drapery, suspended in a curve with ends passed over; a garland of flowers. FETLOCK-BOOT MAKER, a manufacturer of

protections or supports for the pastern olnts of horses.

FETTER, a shackle or chain for the feet; lron links for spanning horses' feet, when links for spanning horses' feet, when grazing in open grounds, to prevent them

straying to a distance. Fertile, order, good condition; any thing neatly bound or tied; in Scotland a horse's girth made of straw; a handle in the side

of a large basket.

Fru, heritable property held on the condition of a certain return in grain, money,

FEU-DUTY, a land-tax; annual rent paid in Scotland by a vassal.

FEU-FERME, the rent or duty paid by a tenant for lands in Scotland.

FEUILAGE (French), follage; a row of leaves, branchel, work

leaves; branched-work.

FEUILLANTINE, pastry made of puff-paste. FEUILLE (French), a leaf or sheet of paper;

a bill.

FEUILLE-MORTE, the colour of a faded leaf.

FEUILLETON, that part of a French newspaper, devoted to literary and dramatic criticism; a small public journal.

FEUILLETTE (French), a half-hogsicad.

FEUILLETTE (French), folted cloth.

FEVEREEW, the popular name of the Pyrethrum Parthenium, a wild plant, a decoction of which is a favourite popular remedy for slight fevers. It contains

much tannic acid, and in Germany has been usefully employed in tanning and currying leather. A medicinal extract is also made from the Matricaria chamomilla, which was formerly classed as a fever-few.

FIACRE, a French hackney-coach.
FIAGS, the average prices of grain legally fixed for the year in Scotland. \*

Flasco, a liquid measure of Italy; for wino about four pluts, and for oil somewhat less.

FIBRE, a general name for the cotton, flaxen, hempen, and other raw material, which forms so important a class of our textile

manufactures. FICELLE (French), pack-thread or twine. FICELLIER, a roller for pack-thread.

Figher (French), a brick-layer.
Fight (French), a sort of neckerchief worn by ladies.

FIGHURE (French), a spear or trident to catch fish.

FICTILE, moulded into form by art; manu-

factured of ciay by the potter.
Fig. a tapered wooden pin, used by scamen in splicing large ropes, opening eyes, or holes, &c.; an iron support passed through a hole in the heel of a mast.

FIDDLE, a violin, a stringed Instrument so called.

Fiddle-block, a block with two sheaves; one over the other; the lower one smaller

than the upper.
FIDDLE-BOW, FIDDLE-STICK, the stringed bow with which a fiddler draws sound from his instrument.

FIDDLER, one who plays on a violin. FIDDLE-STRINGS, the catgut cords, stretched across a violin, fastened at the ends, and clevated in the middle by a bridge.

FIDDLE-WOOD, a durable wood used for mills

framing, carriage-wheels, &c.; the produce of Citharexylum melanocardium; a uscful timber tree of the West Indies. FIDEOS (Spanish), vermicelli. FIEF, an estate in lands held from a superior. FIEL (Spanish), a clerk of the market; a wharfinger. \*

wharfinger.

FIELD, a portion of arable land; a large extent of compact icc.
FIELD-BED, a portable or folding camp-bed for an officer.

FIELD-BOOK, a land surveyor's plotting book, in which the angles, distances, stations, &c. are noted down for mapping or reference.

FIELD-CORNET, the magistrate of a township In the Cape colony.

FIELD-MARSHAL, the highest military rank in England; one who takes the command of an army. A field-marshal may com-mand two regiments at once.

FIELD-OFFICER, a military officer above the rank of captain.

FIELD-PIECE, a portable cannon for service with an army, throwing a shot of from 8 to 12 pounds.

FIERDINGAR. See FURDINGAR.

FIFE, a very small wooden flute or pipe, giving acute plercing sounds.

FIFER, one who plays on a fife, a musician to a regiment.

FIFE-RAIL, the rail round a ship's mast

FIG-CAKE, a preparation of figs and almonds, worked up into a hard paste, and pressed into round cakes like small cheeses, which is vended about the streets.

Figon, a Spanish eating-house. Figs, the dried fruit of Ficus carica, ehlefly imported from the Mediterranean ports. In 1855 we received upwards of 2200 tons, nearly all of which were for home consumption.

FIGURANTE (French), a femalo ballet-

daneer.

FIGURE, a number; an artist's model; any representation made of things in wood, stone, or other solid material; the steps of a dance; to goffer, to emboss, to ornainent a stnff with gold, sllk, &c. FIGURE-HEAD, a carved bust, statue, or full-length figure, placed over the cutwater or box of a ship.

bow of a ship.

FIGURE-MAKER, a modeller; one who practises the most relined part of the art of moulding, and casts busts, animals, and many ornaments consisting of branches, follage, &c.; a maker of wooden auatomi-eal models for artists.

FIGURED-MUSLIN, a thin fabrle in which a pattern, design, or representation is wrought. See Muslin.

FIGURE-WEAVING, a process differing from plain weaving; patterns or designs being produced in the damask, velvet, or other stuff, by employing threads of different eolours or of different appearauce, in the

warp or in the weft.

FIL (French), thread, hair, wire; a small twist of silk, hemp, or flax.

FILADIERE, a small flat-bottomed fishing-boat used on the river Garonne. FILAMENT, a string; a long fibre or fino

thread. FILASSE (French), hemp or flax ready to be

snun.

FILASSIER, a flax or hemp dresser.

FILATURE, a silk-yarn, or cotton-twist, manufactory; a workshop where silk is recled from eccoons and spun.

FILBERT, the fruit of the cultivated hazel (Corylus avellana alba), of which there are several varieties grown in this country.

FILCH, to steal or purloln.

FILE, a workman's metal rubbing or abrading tool, of which there are many kinds, as rubber, handsaw, pitsaw, rattail, bastard, half-round, &c. The difference between half-round, &c. The difference between files and rasps, is that the latter have augular indentations, and the former have only straight euts. Files are of the first importance to every worker in metal, from the engineer builder to the maker of the most delicate watch movement; they require great skill in hardening to prevent their warping. Small files are made of the best east steel and cut by hand; those of larger size are manufactured from ordinary steel and purplet reaching more received. miry steel, and usually machine-made; these are frequently deficient in their "blte." Also the name for a rank or row as a file of soldiers; also for a wire or string which retains and secures documents or receipts for reference. fsilver.

FILE' (French), fine whre-thread of gold or FILE-CUTTER, a maker of files.

FILERIE (French), a spinning-house where hemp or flax is spun; a rope-walk.

FILET, a small thread or fibre; a string or lace

FILEUR (French), a splnner, a wire drawer. Filings, fragments or raspings of metal, ivory, &c.; particles rubbed off in the process of filing.

FILLE-DE-CHAMBRE, a French chambermaid.
FILLE-T, a band for the hair; a chine of meat; the fleshy part of the thigh, boned, rolled together, and tied round.
FILLIGREE, FILIGRANE, FILAGREE WORK,

ornamental kinds of jewelry, statues, &c., made from defleate threads of gold or silver wire; the filaments being braided and festooned in various ways, according to the taste and design of the artist, and

with a very light and beautiful effect.

ILLINGS, a brewer's term for prepared
wort, added in small quantities to casks of

ale to cleanse it; the woof in weaving. FILLISTER, a plane used for making the outer part of a window sash fit for receiving the glass.

FILLY, a young mare. \*
FILOCHE (French), a large rope used by millers and others. FILOSEDA (Spanish), a silk and worsted

fabrie. FILOSELLE, ferret, or floss silk; grogram-

varu.

FILOTIER (French), a dealer in thread, FILTER, a small strainer of unsized paper used in chemical operations; an earthen-ware, or other vessel, with a tap for purify-ing were in a lower or on shiphory. ing water, in a house or on shipboard. FILTERING,

purifying FILTER-MAKER, a potter; one who moulds and makes filters.

FIN, a membraneous winglike appendage to fish; the trade name for a blade of whale-bone: sharks' fins enter into eastern com-

merce dried, being eaten as food.
FINANCE (French), ready money or cash;
a type in printing to imitate writing.

Financier, a treasurer; an accountant; a capitalist or monied man skilled in inanelal operations; a public officer who manages the funds or revenues of the Crown.

FINDINGS, the wax, thread, and tools which a journeyman shoemaker has to supply

himself with for his work.

FINDING-STORES, an American name for what are termed in England grinderywarehouses; shops where shoemakers tools, &c. aro vended.

Fine-arts, the arts of design, music, &c.; any business or pursuit requiring taste,

skill, and judgment in the execution.

FINE-DRAWING, the art of sewing up cloth so finely, that the rent cannot be percelved.

FINEER (Scotch), to veneer.
FINERY, a small forge used in making iron wire; showy articles of dress; jewoly, trinkets. &c.

FINE-STILLINO, the distillation of spirit from

molasses or other preparations of sugar.

Fixe-stuff, the second coat of plaster for the walls of a room, composed of finely sitted lime and sand mixed with hair; the first coat is of a coarser material.

Fixeer, an ancient measure, the fourth part

of the palm or hand, nearly an inch; still used in parts of India.

FINGER-BOARD, part of a fiddle.
FINGER-GLASS, a coloured or plain glass
vessel to hold water for rinsing the fingers after dessert.

FINGERIN, worsted spun in Scotland from combed wool, on a small wheel.

FINGER-PLATE, an ornamental piece of metal or porcelain fixed on the edge of a door, to keep off finger marks from the paintwork.

FINGER-POST, a guide-post or directing-post at cross roads,

FINGER-STALL, a workman's protection for the finger.

FINGER-WATCH, a species of clock-work. FINGROMS, woollen cloth made of combed venol.

FINING POT, a vessel in which metals are refined.

Finings, a preparation of Isinglass, gelatine,

or other substances for clarifying beer.
FINISHER, one who completes work for sale. as in watch-making, the boot and shoe trade, &c.

FINNACK, a Scotch name for a white trout. FINNER-WHALE, the Balanoptera boops; this ectaceous animal, the fin-backed whale, firmishes the shortest and coarsest plates of baleen or whalebone.

Finnin Haddock, a mode of pronouncing Findon haddock, a species of smoke-dried fish, chiefly prepared in Scotland; but largely vended in London and other great towns.

Fire, a general name for the trees of the genera Abies and Pinus. See Pine.

FIRE-ANNIHILATOR, an apparatus holding a chemical composition of certain gases, which has the effect of extinguishing fire, and quenching flame by smoke.

FIRE-ARMS, a collective name for the smaller kinds of offensive weapons from which destructive missiles are discharged; such

as rifles, muskets, and pistols.

Fine-ball, a grenado filled with combustibles to be thrown among enemics.

FIRE-BALLOON, a balloon sent up at night with fire-works, which ignite at a regulated height.

FIRE-BARS, moveable wedge-shaped iron bars in the fire-box of a locomotive engine; the bars of a grate.

Fire-basker, an iron receptacle for holding a small portable grate with coals, &c., for a bed-room.

FIRE-BOX, a copper receiver for a locomotive engine, in which the fire is placed; having an ontside casing of Iron, thus forming an intermediate receptacle for water.

FIRE-BRICKS, bricks 9 luches long, by 41 broad, and 13 thick; used for lining chimneys, ovens, and furnaces, being capable of resisting intense heat; they are known in commerce by the names of Bristol, Stourbridge, Neweastle, Welsh, and Windsor bricks.

FIRE-BRIGADE, a body of firemen; persons in large towns trained to do duty at conflagrations, and held in constant readiness to proceed with fire engines and buckets, to assist in extinguishing fires.

FIRE-BRUSH, a hair sweeping brush for the hearth of a room.

Fire-bucket, a light canvas or leather pail

nsed by firemen to convey water.
Fure-clay, a refractory clay, nearly a pure sillcate of alumina, abounding under the eoal-measures, which is used for the manufacture of fire-bricks and gas retorts.

FIRE-COCK, a plng for obtaining water from the main pipes in a street to extinguish fires.

Fire - Chackers, a preparation of gun-powder, &c., discharged for amusement. A large trade is carried on in fire-crackers from China to the United States. They are shipped from Canton, in boxes of 40 packs each, and sell at about 12s, the box; the imports from China to New Y averaging £50,000 per annum in value.

FIRE-DAMP, impure curburetted hydrogen; foul air found in coal mines.

Fire-Dog, an andlron or rest for wood on a fire hearth.

FIRE-ENGINE, an hydraulie machine or force-pump, for raising water to a great height to extinguish confingrations.

FIRE-ESCAPES, contrivances of various kinds to facilitate exit from a burning building; as Iron chains, link ladders, &c. The most generally adopted public fire-escape is a wheel-carriage, supporting a lotty enrors sheet or trunk, attached to a ladder or frame, which can be raised to the upper story windows of a building,

ground. Fire-guard, a wire frame to be himg before a fire-grate to prevent sparks and burning &c. flying out and endangering coals. furniture.

and parties can slide safely down it to the

FIRE-INSURANCE, an indemnity against loss from fire, obtained by payment of a small per centage annually to an insurance com-

FIRE-IRONS, the utensils for a fire grate; tongs, poker, and shovel.

Fire-kiln, an oven or place for heating any

thing.

FIRE-LOCK, a musket.

FIREMAN, a stoker; the feeder of a furnace, marine or locomotive engine; a member of a fire-brigade.

Fire-office, an office where insurance against loss from fire can be effected. Fire-Flace, the place within a chimney-piece where fuel is burnt, usually an open

Fire-Pluo. See Fire-cock.

Fire Policy, the official certificate or document received from an insurance office, guaranteeing the payment of a certain sum in the case of loss of property by fire. FIRE-PROOF, a vault, safe, or building, so constructed as to be secure from the ri-

vaging effects of fire, should it break out.

FIRE-PROOF-BOX MAKER, a manufacturer of from safes for securing books and papers. l'ire screen, a wire guard or protection against fire. See Fire-Guard.

Fire-set, the metal articles, poker, shovel, and tongs for a grate; usually made of steel or wrought iron.

Fire-shovel, the coal shovel for a fire-place.

FIRE-TUBE, a pipe flue. FIRE-WARDEN, a head fireman; the officer in America who directs the operations of

a fire brigade.

FIRE-WOOD, small bundles of wood, in different shapes, prepared by machinery, for lighting fires: the sale of fire-wood has now become a very important and extensive trade in London and other populous towns.

FIRE-WORK MAKER, a pyrotechnist; a manufacturer of explosive articles for

amusement, signals, &c.

me - works, pyrotechnic preparations; such assquibs, rockets, serpents, crackers, FIRE - WORKS, and other more elaborate, explosive, and combustible compositions of powder, &c. for brilliant display.

FIRING-IRON, a farrier's cautery.

Firkin, an English measure of capacity, the fourth of a barrel, now disused; but the name is still applied to a cask containing manic is still applied to a case containing mominally 9 gallons of beer or 8 of ale, but truly only 7½ Imperial gallons. A firkin of soap is 64 lbs.; of butter usually considered 56 lbs; but Irish butter firkins weigh nearly ¾ of a cwt. gross, the cask weighing about 14 lbs.

FIRLOT, a Scotch dry measure, the fourth part of the boll; the Linlitingow wheat lirlot 1s 2211 cubic inches, very nearly equal to the imperial bushel, but the barley firlot contains 31 standard pluts only, =

1074:429 cubic inches.

Firm, a co-partnership; a house of business; the abbreviated title under which a trade is conducted, or a body of partners is known.

FIRMAN, an edlet or legal authority from the

Turkish government.

Fin-PINE FRUIT, a name in the lonian islamls for the seeds of the pine cones, BRICKS used as food.

First, a kind of brick or marl-stock. See FIRST-CLASS PASSENGER, a traveller in the best fitted carriages on a railway line; contradistinguished from the second and third class passengers, who pay lower fares, and have inferior accommodation.

First-Hand, obtained direct from the maker,

shipper, or wholesale dealer.

First Lord, the chief commissioner or lord of the admirally board. First-Mate, the chief officer of a merchant vessel; the next in rank to the captain.

FIRST-RATE, excellent; of superior quality; one of the largest ships of war, a vessel carrying 100 or more guns.

FISAMELLE, a water fowl, Colymbus major, or great diver.

Fiscal, a public officer in Scotland, who prosecutes in petty erlminal cases; an attorney or solicitor general in Spain; an

exchequer officer in Ceylon; one who has charge of the fisc or treasury of a prince, State, &c.

Fish, a general name for marine swhmmlug animals, in the capture and sale of which a large trade is carried on; a sea term for strengthening a weakened spar by fastening another piece on; to raise the flukes of an anchor on the gunwale, or vessel's side; to catch fish by net, or by hook and

Figure Basker, a large flat or deep wicker basket for holding or transporting fish. Figureance, a Scotch fisherman.

FISH-CARVER, a silver knile for helping fish at a dinner table.

FISH-CURER, a salter and smoker of fish. PISHER, a name for the Mustela Canadensis; the skin is principally used for trinmings and linings, the fur being long, fine, and lustrous, but not so valuable as the sable. The tail is extensively used by the Jews.

FISHERMAN, one who follows the business of catching fish for salc.

Fish-Fac, a fishwoman.

FISH-FLAKES, erections in the North American colonics, for drying fish on.
FISHGARTHE, a dam or weir in a river, for catching and retaining fish.

Fish-cig, a kind of harpoon or spear, with several barbed prongs attached to a line, used for striking fish at sea; often called a dolphin-striker.

See ISINGLASS.

FISH-GLUE. See ISINGLASS.
FISH-HOOK MAKEA, a manufacturer of metal hooks for catching fish.

FISH-HOOKS, barbed instruments, of various ish-nooks, barbed instruments, of various size and form, for catching fish. In making them, straight whres of the proper length are flattened at one end, and the barb is formed by a simple blow with a chisel. The point having been sharpened, the proper curve or twist is given to the hook; the soft iron is then case-hardened, to give it the stiffness and clasticity of steel, by immersion in hot animal charcoal. The hooks are subsequently brightened by friction, and tempered.

cued by friction, and tempered.
Fishing-boat, a small decked or undecked boat, in which the pursuit of fish is carried on. [Scotch rivers, Fishing chuive, an enclosure for fish in the

FISHING-LINE, small cord of different sizes, with, in some instances, gut or chain attached, to which a hook is appended, for river or sca fishing.

FISHING-NET, twing or gord formed into meshes of different sizes, for enclosing fish. There are various kinds of nets made, hish. There are various kinds of the same the bag-net for the angler, the shrimping-net, the drag-net, the trawl and the seine for sea-fishing; the custing-net, &c.
FISHING-ROD AND -TACKLE MAKER, a manual

facturing tradesman who keeps on sale the appliances for angling.

FISH-KETTLE, an oblong metal boller for cooking fish in.

FISH-KNIFE, a broad flat silver, or plated,

rish-kaire, a broad hat silver, or plated, kulfo for serving fish with at table.
Fish-marker, the place where fish is sold; in large towns it is usually a covereil building with arranged stalls, and has the conjugate of the state of the st venlence of water for washing the fish.

FISHMAW, the sound of a fish. In the eastern seas, a large trade is carried on In fishmaws, which are sent to Cblna and used

as glue, &c.

MEASURES, the customary measures used in selling and estimating fish, which vary with the kind of fish, thus:—Salmon is sent to market in boxes of 120bs to 130bs, containing about 14 fish; codfs in barrels, containing about 50 fish, and is sold by the quintal or cwt.; a barrel of herrings is 263 gallons, and contains about 700 fresh fish, or 500 smoked; a basket of bloaters contains about 150; a gran of herrings is 37½ gallons; a mace or mease of herrings is 600 fish; a cade of herrings, 500 fish; a long hundred, 132; a cade of sprats, 1000; a barrel of pilchards is 41% gallons, and 3000 pilchards weigh about 40lbs; a barrel of haddock contains about 300 fish; a stone of haddeek contains about 300 fish; a stone of fish is 14bs; a last of cod fish is 12 burrels; a last of herrings 100 long hundred, or 13,200; a barrel of anchovies, 30lbs. Native oysters are sold in kegs of 10lbs, containing about 5 score; or in barrels of 1600. Dried sprats are sold in bundles of 30; cockles and wholks wholesale by the bashel; shrimps by the gallon; periwinkles and mussels by the basket.

FISHMONGER, dealer in fish, FISH - SALESMAN, a general

FISHMONGERS' COMPANY, one of the principal incorporated companies of London, the fourth in order of the 12 great livery companies, whose hall is in Adelaide-place London bridge. This company obtained its first charter in the 17th year of the reign of Edward I, A.D. 1289.

Fisti-por, a wicker basket or enclosure sunk

with a cork float attached, for catching

erabs, lobsters, &e.

FISH-SALESMAN, one who receives consignments of fish for sale to retail dealers.

ments of fish for sale to retail dealers.
Fish-sauces, anchovy, soy, and other condiments, used as flavourings for cooked fish.
Fish-scales, the coating of some fish; the hard scales are now frequently used for making brooches, bracelets, and ornamental flowers, &c. The scales of the bleak are dissolved to coat the inner surface of these heads or matified nearly fice of glass bends or artificial pearls.

FISH SLICE, a silver perforated table instrument for serving fish.

ment for serving fish.

Fish-skin, the covering of the flesh of marine animals. The rough skin of the dogfish or shark, is used by the cabinetmaker, type-founder, and others, as an
abrasive material for smoothing woodwork and metals. A kind of shagreen is
made of fish-skin. The skin of the porpolse, beluga, sent, &c., are tanned; cel
skins are used for miking strong ropes,
for connecting the swipte and hand-staff
of a thrashing-flait, and for other purposes. Sole skins and some others, are
used for clarifying coffee and liquors. used for clarifying eoffee and liquors.

FISH-SOUND, the swimming-bladder of a fish, many of which are prepared for isinglass; others, as cod-sounds, are saited for food; some are sold to the Chinese under the name of fishmaws.

FISH - STRAINER, a metal cullender with handles, for taking fish from a boiler; an earthenware slab with holes, placed at the bottom of a dish, to drain the water from

cooked fish.

FISH-TAIL BURNER, a gas jet of that shape. Fish-van, a light spring-eart for transport-ing fish; a rallway truck set apart for fish. FISH-WEAR, a dam in a river, or on the sea shore, for stopping fish.

FISOLIERE (French), a Venetlan seuller. Fir, to join, to dove-tail, to clamp; Seotch.

a custom.

Firen, a common name for the polecat, an animal of the west tribe, the skin of which is much used for fur; a Scotch term for moving any thing a little way from its

Firenes, another name for vetches or tares, Fir-Gang (Scotch), as much ground as one

can move on

FITTER, a coal-broker; a weigher at the mint; a failor, one who tries on and adjusts articles of dress; a gas-fliffer, is one who lays on pipes to houses, &c.; an out-flitter, is a shopkeeper who keeps readymade garments on sale, or procures them

properly made to order.

ITTIGE, a piece of dammour or coarso cotton cloth, which is a medium of cur-FITTIGE, rency ln Nubia. [equipment. &c.

FITTINGS, shop-fixtures, tackle for a ship; FIXATURE, a guinmy composition for the halr. See BANDOLINE.

FIXTURE - DEALER, a furniture - dealer; a vender of shop-counters, desks, drawers,

Fiz-Gig, a harpoon; a small firework of moistened gunpowder. See Fish-Gig. FLACK, FLANK (Scotch), a square plaid.

FLACKET, a barrel-shaped bottle.
FLACKIE, a truss made of straw for protecting a horse's back from the errel or bas-

ket for earrying fish, potatoes, &c.
Flacon, Flacon, a flusk or decenter, a
carafe; a vessel with a narrow mouth;

a smelling-hottle, a smelling-hottle, a smelling-hottle, FLAG AND COMPASS MAKER, a manufacturer and retailer of these articles for ships' use.

LAGEOLET, an English flute; a small wooden musical lustrument, played on by FLAGEOLET, means of a mouth-piece, and furnished with holes or keys for fingering.

FLAG-OFFICER, the commander of a squad-ron; an admiral, of whom there are three ranks, bearing respectively the distinguishing flags of red, white, or bine.
Flagon, a jug; a measure of two quarts.
Flags, large flat thin stones for paving, from

11 to 3 inches thick, and of various lengths and breadths, obtained in fire quarries of the north of Scotland, Yorkshire and the north of Scottand, forkshire and Lancashire, and also imported from Hamburgh, for the foot-walks of streets, the floors of houses and factories, and for paying yards and wharves, e.g. Tho aggregate exeavations of flags throughout

the United Kingdom have been estimated at one million tons per annum. Flagging stones are obtained from all the sandstone formations below the eoal measures.

FLAG-SHIP, the commanding vessel of a flect or on a naval station; that which bears the admiral's flag at the mast-head. FLAG-SIOE, a Seotel term for the boneless side of a call buddens.

side of a split haddock.

FLAG-STAFF, the pole or spar on which a banner or llag is elevated.

FLAIL, a wooden instrument for thrashing eorn by hand.

FLAKE-WHITE, a sub-nitrate of bismuth; oxidised carbonate of lead in the form of scales or plates; when levigated, it is

ealled body white.

FLAMERAU, a link or torch.

FLAN (French), a custard, a kind of tart made with cream.

FLANGHET (Freuch), part of a sirloin of beef, FLANGHERS-BRICK, a soft brick used for cleaning knives. See BATH-BRICK.
FLANG, a two-pointed pick used by miners.

FLANGE, part of a wheel, of a railway-bar, of a gas-pipe, &c.; something serewed on to another piece.

FLANGE-MAKER, a manufacturer of iron girders, joints for gas-plaes, and other perforated metal pieces to be attached to

other pieces or parts.

FLANNEL, a soft open woollen stuff, of which there are many kinds, milled, gauze, coloured and checked, cricketing and house flannel, blankets, &c.; upwards of 54 mil-lion yards are made in this country annu-

FLANNEL-SHIRT, a woven worsted or woollen

inner garment.

FLASK, a metal or other pocket drambottle; a measure for holding gunpowder; a shallow iron frame or easting-box, witha shallow fron frame of easting-box, with, out top or bottom, used in foundries for mondling; the lower flask is called a drag; a globular glass vessel for holding liquids containing about half a gallon; in Holland 16 flasks make an anker. The flask of quicksilver from Californiais about [handles,

FLASKET, a long shallow basket with two FLANT, a description of river boat for conveying merchandise, which usually carries from 80 to 120 tons; those worked by the eaptains or owners are termed No 1 llats. Also a basket or hamper in which the English farmers usually send their butter to market, containing from 3 to 6 dozen pounds; a rough piece of bone for a button mould; to preserve gliding by size; a story or floor of a building, sometimes constructed so as to accommodate a family having the necessary suite of rooms. In Scotland and some other large towns, houses are specially built for letting in these kinds of flats or floors with one common staircase.

GRAINING, a process in tanning, which con-sists in immersing the skin in an alkaline solution, of which sal ammoniac is the most activo constituent; a mode of painting.

GRAIN-LEATHER, a name for dressed horsehldes; goat, seal, and other skins, blacked on the grain-side for women's shoes, &c.

GRAIN-MARKET, a corn market: the metro-politan market is the Coru Exchange in Mark Lanc.

GRAINOIR (French), a granulating sleve used

in gunpowder-mills.

GRAINS, the refuse or husks of malt from a brewery, or of any grain after distillation; usually purchased to feed eows and pigs with; n kind of iron harpoon, with four or more barbed points to it, used for cribing small fish. striking small fish.

GRAINS OF PARADISE, the aromatic pungent sceds of the Malaguetth pepper (Amomum Grana Paradisi), obtained on the coast of Gulnea; a spicy condiment, used in veterinary practice, and in the illegal preparation of mait liquors, &c.

GRAIN-TIN, erystalline tin ore; metallie tin, smelted with charcoal; the purest kind of motal that radiacal they are the purest tind or motal that radiacal they are the purest that the product the purest the pure the pur

kind of metal, that reduced from the loose grains of the stone.

GRAIN-WEIGHER, n corn meter; a person employed at the docks to measure eargoes of corn.

GRAIP, a dung-fork; a tool for litting or digging potatoes from the ground. GRAITH (Scotch), tho furniture of a house; accourtements of a horse; apparatus of gny kind; wearing apparel.

RAM, a common name in India for several kinds of pulse, the produce of varieties of *Dolichos* and *Phaseolus*. Gram GRAM, a varieties of Douchos and Phaseous. Gram is distinguished by its colour; and one variety, Dolichos uniflorus, is known as horse gram; green gram and black gram or moong are varieties of Phaseolus radiatus and P. Mungo; P. trilobus and aureus are other varieties. Red and white gram are Dolichos catjang and Soja hispida. See Chola and Duoll.

GRAMASHES, garters reaching to the knees; a klud of stockings woru in Scotland

insicad of boots.

GRAMIGNA, a name in Italy for the long RAMIGNA, a manie in tady for the long under-ground shoots of couch grass (Triticum repens), which is extensively collected after the plough and harrow, and used as food for horses. Colonel Maccroni, in his Memoirs, states that upwards of £40,000 sterling worth of this root is annually sold by the peasants to the inhabitants of the city of Naples It has been recommonded as a alone. material for paper manufacture.

GRAMME, the proper unity of French weight: a cube of one hundred in of a metre on a side, and equal to 15:4339 troy grains. The since, and equation be 355 toy frams. It will be kilogramme, which is the weight of a cubic decimetre of pure water, is, however, practically used as the unity of weight in France.

GRAMOLA (Italian), an instrument for beatanger brighting for

ing or bruising flax.

GRAM-POT, a boiler lu which pulse is cooked by the natives in India.

GRANADILLA, a climbing plant of the tropics, Passifora quadrangularis: the subacid pulp of the fruit is esteemed, and the root is emctic and narcotic.

GRANARY, a warehouse or place where corn is stored.

GRANARY-KEEPER, the owner, or person in charge, of a corn-store or warehouse for GRAND-JURY, the first or principal jury to

which is referred the examination of in-dictments against criminals. GRAND-PIANO, a long piano-forte, shaped

like a harpslehord.

GRAND-STAND, the principal erection on a race-course, whence n view of the race race-course, can be obtained.

GRANGE, a farm having suitable barns, stables, and other necessary bulldings stables, and other necessary buildings for stock, &c. GRANGER (French), a barn-keeper; the fore-

man of a farin.

man of a farm.

Granite, n plutonic or Igneous rock, consisting of quartz, mica, and felspar; being of great strength, hardness, and durability, it is much used for building. The colour is chiefly light gray, but there are also white, red, and mottled granites. The best is obtained near Penrya in Cornavall, but some comes from Aberdeen, the wall, but some comes from Aberdeen, the Channel Islands, and other quarters. The principal uses of this stone are for laying foot-ways, court-ways, railway stations, floors of manufactories and warehouses, kitchens, cellars, churches, engineering-works, the columns and foundations of buildings, &c.

GRANITE MERCHANT, a stone dealer; one who supplies builders and contractors for paving.

GRANO, a money of account in Italy, the hundredth part of the ducat; there are silver pieces of 10, 20, and 50 grani. GRANOTINO, a minute weight of Italy, the 24th part of the grain.

GRANULATED, formed into small grains, as

In sugar, grain the &c.

Grapes, the fruit of the vine, forming a large article of commerce in different countries, either ripe, dried as raisins, or when collected, for making wine.

GRAPE-SHOT, small shot confined in a canvas cartridge to be discharged from a gun.

CATTINGS to be discharged from a gain GRAPE-SUGAR, the sweet substance of the chestnut, of the brewers' wort, and of all fermented liquors. It gives sweetness to most fruits, and may be prepared from starch.

GAAPHIOLITE, a description of writing slate. GRAPHITE, a valuable mineral used for black-lead pencils, melting-pots, and as a polish for iron stoves; also as a lubricator for fine machinery. It is better known as plumbago.

GRAPHOMETER, a mathematical instrument

for measuring angles.

GRAPNEL, a small boat's anchor with several claws or hooks instead of flukes.

GRAPPLING-IRONS, crooked irons used to seize and hold fast another vessel.

GRASS-CLOTH. See CHINA-GRASS CLOTH.
GRASS-CUTTERS, attendants of an Indian army, essentially regulate to provide provender for the large quantity of cattle usually required in transporting muni-

usuany required tions, baggage, &c.
Gras-double, the French name for tripe
Grassello (Italian), a kind of very fine

GRASS-OIL, a name given to some essential oils obtained from scented grasses in Iudia, as that from the lenion grass; the grass oil of Nemaur, from another Androgeness, It is constituted in the lenion grass. pogon, &c. It is sometimes called gingergrass oil.

Gaass-Plot, a lawn of trimmed grass.

GRASS-TREE, a name in Australia for some lillaccous plants, species of Xanthorrhæa, from which a resin is obtained, known in

commerce as gum acroides.

Gaare, a register-stove, or east-iron frame
with fire-bars for a sitting-room, &c. for
With and making a fire in. Grate, holding fuel, and making a fire in. Grate, or grid, is also a plate with iron bars for sewers, drains, &c.

GRATE AND FENDER MAKER, a caster of register-stoves, kitchen-ranges, fenders,

and other Iron articles.

GRATEAU, a burnisher or scraper; a tool used

by gilders in France.
GRATERS, rubbing or scratching utensils of metal for domestic use, such as nutneggraters, arrow-root graters, raspers, &c. Graticulation, the division of a drawing

into squares.

GRATING, an open lattice work of wood or iron; a cross-barred covering for the hatchways of a ship.

GRAVECEMBALO (Italian), a harpsichord. GRAVE-DIGGER, a digger of trenches for

burying corpses in churchyards or cenieteries.

GRAVEL, small water-worn stones, used for covering garden-walks, roads, footways,

Gaavel-caa, a rallway ballast-wagon.

GRAVEL-PIT, the place whence gravel is dug. Gaavea, a watchmaker's tool; a burin used in engraving.

GRAVES, GREAVES, the refuse or marc left by tallow-chandlers.

GRAVE-STONE, the liend-stone to a grave; usually bearing an inscription recording the name, age and date of death, &c. of the person buried.

GRAVE-STONE CUTTER, a worker in stone, who chiscle out letters, &c. upon tomb-

stones, or sarcophaguses.

Gaavimeter, an instrument for measuring the specific gravity of bodies. See Hydro-

Gaaving-Dock, a dock into which vessels are taken to have their bottoms examined,

and breamed or graved.
GRAYY, the julce of cooked meat.
GRAYY AND GRUEL STAAINER, a small wire or hair sieve, used for cullnary purposes.
GRAYT-DISH, a large table dish for a joint, with a well for grayy.

GRAVY-SPOON, a large spoon used at table

for helping gravy to guests.

GRAWATHA, the Brazilian name for a species of Bromelia, from which excellent cordage is made.

GRAZIER, one who rears or feeds stock; a cattle-dealer.

GREASE, animal fat of any kind; melted tallow, with soda, palm oll and water, used as a lubricator for the axles of railway carriages. REASE-BOX, the receptacle over the axle GREASE-BOX,

of a railway carriage holding grease; the portable box in which grease is carried to replenish the above.

GREASE-MAKER, a manufacturer of lubricating substances for rallway carriage axles, machinery, engines, &c.
GREAT-COAT, an overall, or outercoat.
GREAT-HUNDAED, the long hundred of six

score. See HUNDRED. Ting. GREAVE, to clean a ship's bottom by burn-GREAVES, the sediment of melted tallow made into cakes, and used for feeding dogs

and cattle.

and carrie,
GREBE, an aquatic bird (Podiceps cristata)
lubabiting most of the lakes of Europe.
The feathers are of a rich silver-white
colour, variously shaded with brown,
They are very durable, are worn as trimmings for the trains of court and drawing-room dresses, and are made into
muffs, euffs, boas, &c.
GREEN-CLOTH balge &c. for coverlyntables.

GREEN-CLOTH, baize, &c., for covering tables. GREEN-CROPS, plants which are grown on a farm to be consumed before they are fully ripe or come to maturity, as tarcs, turnips, carrots; sometimes green crops are ploughed into the soil to fertilize it.

GREEN-EBONY, a wood obtained from the Jacaranda ovalifolia, a native of the West Indies, and used both as a hard turning wood and as a dye-stuff; about 600 or 700 tons are imported annually. See EBONY.

Green-finen, a common British bird, the Chlorospiza chloris, which is frequently eaged, but its note is not admired.

GREEN-GAGE, a kind of plum of a green colour; the Claudiana variety of the Prunus domestica

GREEN-GROCER, a retail dealer in vegetables

and Irnit.
GREENIEART, a common tree of Guiaua, the Nectandra Rodicei; its timber, squaring from 18 to 24 inches, can be procured without a knot Irom 60 to 70 feet long. It is a fine-grained hard wood, well adapted for the planking of vessels, house Iranes, wharves, bridges, and other purposes, where great strength and durability are required. It is the best timber for resisting tensile and compressive strains, and is therefore well adapted for kelsons of ships, and beams of all kinds. The black greenheart is considered more durable greenheart is considered more durable than the common greenheart. The bark yields biberine, the sulphate of which is used like the sulphate of quinine.

GREEN-HOUSE, a conservatory or glazed house for rearing and protecting plants

from changes of temperature.

from changes of temperature.

GHEEN PAINTS, oil-colours, of which the
chiel varieties are emerald, mineral,
green copperas, mountain sap, and
Brunswick greens.

GREEN-EGOM, the actors' retiring or meeting

room in a theatre.

Greens, a common name for small young cabbages, which have not formed the leaves into full hearts.

GREEN-SAND, a silicious stono found in the Blackdown Hills, Devon, used as a whet-

stono for scythes, &c.

GREEN-STONE, a stone containing native copper, found in Renliewshire; an igneous rock, in which felspar is combined with hornblende or augite: stone walls are made of it in parts of Scotland. \*
GREENSWARD, a grass-plot.

GREEN-TEA, a commercial variety of tea imported from China, of which there are several kinds; the principal being Twan-kay, an inferior description; Hyson-skin, Hyson, and young Hyson, imperial, and gunpowder.

GREEN TURTLE, the Chelone midas, imported as a luxnry for making turtle soup.
The imports vary, but may average 15,000

a-venr.

GREEN VITRIOL, crystallized sulphate of fron used in making ink, Prussian blue, and sulphuric acld; also employed in dye-

ing.
GREEUR (French), a ship-rigger.
GREFFIER, a registrar, or recorder in a
French court of justice.

GREGARIOUS, herding together, or llying in flocks, as domestic cattle, birds, &c. GREGE, a French term applied to raw silk.

GRELET, a mason's hammer in France. GRELIN (French), a small cablet or line for

a boat.

GRENADE, a hollow ball or shell of metal, filled with powder, having a burning fuse attached, thrown by hand amongst enemies; in France a small shrimp used by the longer for hole. fishermen for bait.

GRENADIER, a tall foof-soldier wearing a high cap; one originally employed to throw grenades,

GRENADILLO, a tropleal fruit. See GRANA-DULLA.

GRENAT (French), dried lemon-peel.

GRENETINE, a French hame for gelatin. GREYHOUND, a slim-made dog kept for coursing, remarkable for swiftness, strength,

hig, remarkable for swittness, strength, and sagacity in pursuing game. Ghidane, a small French vessel, Ghidane, a shall french vessel, Ghidane, a kind of frame for drawing up a ship on to be docked and repaired; a trying and grilling fron grated frame for cooking chops, steaks, fish, &c., over a fire

GRIDDLE, RIDDLE, a miner's wire-bottomed sieve for separating the ore from the halvans.

GRIGS, a variety of cel found in the Thames. GRILLING, the operation of broiling meat over a fire.

Grilse, a young salmon.

GRIMELLINO, a small money of account in Tripoll, of 4 aspers.

GRINDER, a sharpener and polisher of edgetools; the large teeth that masticate food. Elephants' grinders are used for making knife handles.

GRINDERY WAREHOUSE, a shop where the other leather workers are kept on sale,

Grinding-slips, liones; a kind of oil-stone.
Grinding-slips, liones; a kind of oil-stone.
Grinding-slips, liones; a kind of oil-stone.
moved by a handle, for sharpening and grinding edge-tools. GRIOTTE, the French name for the morella or

black cherry; a speekled marble, Grip, a small French vessel.

GEIFES, bars of iron with lanyard rings and claws, by which a large boat is lashed to the ring-bolts of the deck. GRIPPE-sou, a French house agent; a kind of broker. \*

GRISAR, the name in France for a very hard kind of sandstone, like Purbeek stone.

GRISCIO, an Egyptlan coln of 30 paras. GRISETTE, a common brown French stuff fubric, worn by females of inferior class; whence the transfer of the name to the wearer.

GRIST, wheat-flour divested of the coarse bran only. Gaist-Mill, a name in North America for a

flour-mill. GRIT, hard sandstone employed for millstones, grindstones, pavement, gravel; the coarse part of meal.

Garry, carthy; containing sand or grit; flour or meal having pieces of stone, &c. mixed with it.

GRIVE, GRIWIN, a debased coln passing in Russia for 10 kopeeks, about 31d.; the tenth

part of a rouble.

Groat, a small English silver coln, equiva-lent to 4d., first minled in the reign of Edward I. A very large quantity of groats were coined in 1854-55, and none See FOURPENCE.

GROAT MANUFACTURER, a preparer of oats into groats; one who removes the husks

or shells from the grain.

GROATS, decorticated oats; limited and pecled barley. In commerce there are several varieties, as Embden greats, which are crushed oats; pearl barley, &c.

See Cutlings.

GROCER, a dealer and vender of sugars, spices, dried frults, and other comestibles, or articles of food for the table; usually combined with the sale of confee and tea, A green-grocer is a vender of vegetables, ripe fruit, &c. GROCERIES, the comestible wares, or general

commodities sold by a grocer.
GROCERS' COMPANY, the second in rank of the twelve great metropolitan livery compunles, or guilds; its original charter dates from 27th Edward III. Their hall ls in Grocers' Hall Court, Poultry. Grocer's Material Manufacturer, a

maker of most of the regulsites for a grocer's

shop.

GROCER'S SHOP-FITTING MANUFACTURER, A fixture dealer; a maker of tinned canisters, scoops, &c. for grocers.

GROESCHEL, a copper coin of Austria, in value one third less than the krentzer. Groe, a sailor's name for rum, whisky, or other spirituous liquor, diluted with water, and a preparence. and unsweetened.

GROGRAMS, a fabric made in Yorkshire of silk and mohair; also a name for a silk called gros-de-Naples.

GROIN, a framework of wood across a beach to retain the accumulated shingle; the point of junction in two seml-cylinders or arches.

GROMA. GRUMA. an ancient measure of

length, about 20 feet.

GROMMET, a ring formed of rope, by laying round a single strand; used to fasten the upper edge of a sail to its stay.
GROOM, a stable attendant; one who has the

care of horses; a gentleman's servant, or outrider.

GROOMEETRY. See GOONDOOMING.

GROOTER, GROUPER, a common name in the West India markets for several species of Serranus, fish belonging to the perch family; the best known is the S. chrystotomas of Cuyler.

GROOVE, a channel or long hollow furrow cut by a tool; a shaft or pit sunk by inliners.

GROOVED, furrowed, or channelled.
GROS, a money of Venice, the 24th part of the ducat about 1jd.; also a money in Bavarla and other parts of 2 florins and 24 kreutzers; the eighth part of the old French ounce, 5907 troy grains.

GROSCHEN, a small silver coin and money of account in various parts of Germany, worth about 14d.; the gutgroschen is half as much again as the marlen groschen. GROS-DE-NAPLES, a plain sliken fabrie made of organization.

of organzine silk, and woven with much neatness and care,

Gross, in merchandlse the whole weight of goods, including box, package, balling, &c.; the number of 12 dozen, which is the small gross, but the great gross is 12 times 12 dozen.

GROS-SOU, a French copper coin of ten centimes, about 1d. sterling.

GROT, GROOTE, a petty money of Germany,

Grot, Groote, a petty money of Germany, worth about a halfpenny. [plastre, Grouen, Goorden, a Turkish name for the Ground, land; the colour first put on, the surface; the prevailing colour of a fabric, building, &c.; the first layer of colour in a painting; dregs; in navigation, to touch the bottom; an Indian land measure, the 24th part of a cawney, 60 feet long by 40 broad, and containing 2,400 square feet.

GROUND-BAILIFF, a superintendant of mines, who makes periodical visits to report upon

their condition.

GROUND-BAIT, pasty bread, or other sub-stances, east to the bottom of the water to entice fish.

GROUND-FLOOR, the story or floor of a house

level with the ground.
GROUND-IVY. See ALE-HOOF.
GROUND-NUTS, the seed of Arachis hypogwa, from which oil is expressed.

GROUND-PLAN, the surface representation of the divisions of a building.

the divisions of a binding.

GROUND-PLOT, the land on which a building stands; the plan of the ground.

CROUND-RATTAN, a kind of cane, the stem of Rhapis flabelliformis.

GROUND-RENT, the rent pald by a lessee to the owner of the freehold, or for the privi-

lege of building on another man's land.
GROUND-RICE, pulverized rice; the grain ground into flour or meal.

ground into hour or mean.

GROUNDSEL, a common wild plant, the

Senecio vulyaris; the stalks, containing
the young binds, seeds, and leaves, are
collected and sold to feed eage-birds, partieularly goldfinelies and linnets; the thu-ber or sill of a building resting on the earth.

GROUNDS, the dregs or feculencies deposited at the bottom of liquids.

GROUND-TACKLE, a general name for the appliances and gear used in securing a vessel at anchor, comprising cables, warps,

springs, anchors, &c.
GROUND-FIER, the lowest tier of easks in a vessel's hold; the pit range of boxes in a

theatre.

GROUND-WORK, the earth-work or foundation; the commencement of any operation. GROUSE, a large family of birds, many of which are much esteemed, and seeking them afare much esteemed, and seeking them acfords selfutary annisement to the keen sportsman in the north. The black grouso is the Tetras tetrix; the red grouse, or moor-cock, is the Lagopus Scotteus. There are several species common in North Auguste. For the word grouss, or once America. For the wood grouse, or eock of the wood, see Gapercallzie.

Grour, course meal; pollard; a thin mortar, a mixture of quicklime and flue sand, used for mouldings and finishing cellings.

Grove, a small shady wood; a Deroyshiro name for a mine.

GROWAN, a miner's name for rock, or for

decomposed granite.

GROYNE, a sea wall, or defence against the encroachments of the tide. See Groin.

GRUAU (French), oatment; water-gruel; a crane (both bird and machine).

GRUAUX, wooden vessels used in salt mannfactories in France; wheat flour coarsely ground, so as to free it from the husk. GRUB-AXE, a hoe or field tool for digging up weeds.

GRUBBER, an agricultural machine for cultivating; an extirpator or scarifier, for loosening the cartle.

GRUBER-STONE MORTAR, a concreto cement. See BETON.

GRUEL, a thick nufritive porridge or food prepared from oats or pearl barley, form-ing an article of diet for invalids and convalescents

GRUNT, a West-Indian name for various species of Hæmulon, a common fish in the

markets.

GRUNTER, an iron rod bent like a hook, used by iron founders

GRUYERE, a kind of Swiss cheese. \*
GUACHO, a South American mounted herds-

man, or cattle hunter.
GUADE (Italian), a kind of fishing-net.
GUALACUM, an acrid resin obtained from the wood of the lighten vite (Guaiacum officinale, and G. sanctum), used inclicinally.

Guana, a common name for a large species of, tree lizard, the Iguana tuberculata, which is estcemed for its delicate flesh, and the skin is often tanned. GUANACO, a variety of the alpaca, the Auche-

nia huanaca.

Guano, a valuable fertilizer, imported from various quarters, chiefly from Peru, con-sisting of the excrements of sea-fowl, and the decomposed earcases of marine animals. In the last sixteen years we have received upwards of two million tons: the ending with 1856, having been 215,000 tons. Guarana Bead, a name in Brazil for cakes made from the seeds of the Paullinia sorbi-

lis, and used like cocoa for making a beverage; it contains a bitter principle, identi-cal with eaffeine.

GUARANTEE SOCIETIES, certain joint-stock companies, which, upon payment of an agreed premium, guarantee to the em-ployer the honesty of a person employed, or, at least, undertake to make good any defileations in his accounts.

GUARANTE, GUARANTEE, an engagement to perform some act, or pay some debt in ease another person primarily liable fails to do

GUARAPO, a common beverage of the lower orders in Venezucla, made from the juice of the sugar-cane, or with sugar and water which has undergone the vinous fermentation.

GULDHALL, the place of nacting of the corporation of the city of London; the great court of judicature for the civic part of the metropolis.

GUILDIVE (French), rum; a spirit disfilled from molasses.

GUINDRE, a French reel for winding sllk.

GUINDRE, a French reel for winding silk.
GUINEA, a British gold coin first struck in
tho relgn of Charles II., and worth 21s.
It is now seldom met with. There were
also gold pieces of half-a-guinea, two
guineas, and five guineas.—(5 dwt. 9½ gr.)
GUINEA-CORN, a name in the West Indies
for several species of Panicum, including
P. pyramidale, scabrum, and tenellum,
cultivated for their seeds.

Guinea-fowl, the Numida meleagris, a bird wid in the West Indies, but now domesticated in our poultry yards. The flesh is considered by many persons to equal that

of the pheasant.
GUINEA-GRAINS. See GRAINS OF PARADISE.
GUINEA-GRAINS, a tall strong forage grass,
the Panicum maximum of Jaquin; naturalized in the West Indies and Southern States of America, having been introduced from the Western coast of Africa.

GUINEA-PEPPER. See ETHIOPIAN-PEPPER, GUINEA-PIG, a small tailless quadruped, the Caria cobaya, a native of South America, which is often domesticated, and kept as

a pet.
GUINEA - YAM, a name for the Dioscorea
bulbifera.
suburban tea-garden lu

Outoyera.
Guinguette, a suburban tea-garden in France; a low public-house out of town, whither the lower classes resort; a coarso linen made in Normandy.
Guipte, an imitation of antique lace, which is durable, less expensive, and equally beautiful. It is made in Limerick

by cutting out the pattern from eambric, by catting out the pattern from earlibric, the flowers and heavy parts being made of the cambric, and the open parts of stitches closely resembling the antique lace. In France a gnipure lace, much resembling the Hoatton, is made, which is very fine and white, and of a moderate price; a kind of gimp.

Guitar, a musical stringed-instrument, larger than the violin, and played with the fingers. The modern Spanish guitar has six strings, three being of slik, covered with silver wire, and three of calgut. Guitaa-maker, a manufacturer of stringed

instruments.

GUJORATZ-CLOTH, black and white cloth made in Transylvania. GUL, an Eastern name for the Provence red rose.

GULIVANDA, an Eastern weight; also called

a patika, and equal to 2 grains Gullies, a name sometimes given to iron rails or tram-plates,

GULLY, a worn water-channel.

GUM ARABIC, a general trade name for several descriptions of clear soluble guns. The best, or true white gun, is yielded by Acacia verek of Guillenin, the red gun arabic by A. Adansonii: A. vera also yields gun arabic and a part of the senegal gum. Our imports of guin arabic are about 3000 tons a year. \*
um-lac. See Lac.

GUM-LAC. See LAC. GUM-MANUFACTURER, one who prepares dextrine or gum substitutes from calcined meal of different kinds.

Gum-resins, substances which are a com-

pound of gum, oll, and resin.

Gums, exudations from plants which soften in water. The true gums are very few in number. Gum is consumed in immense number. John is consumed in minimise quantities by dyers and glazlers, and enters into a great number of pharmaceutical preparations. The value of the British trade in gums, resins, baisams, and other vegetable inspissated extracts, is nearly two millions sterling a year.

GUM-WOOD, a species of Eucalyptus.
GUN, a fire-lock a piece of ordnance. See

GUNS.

GUN-BARREL, the tube of a gun,
GUN-BARREL, MAKEA, n nactal-easter and
borer of the tubes for gim and pistois.
GUN-BARREL PROVER, one who tests the
strength of gun-barrels by charges of gunpowder.

GUN-BOAT, a small vessel formerly fitted to earry one or two guns at the bow; but they are now very differently constructed. Gun-cabriage, the frame-work or moveable support for a piece of ordnance.

GUN-CARRIAGE MAKER, a manufacturer of wooden or metal supports for great guns. GUN-CASE, the box or receptacle for a rifle or

fowling-plece

Guncha, a weight used in Acheen, the tenth part of the coyan; about 290 lbs. avoir-

GUN-COTTON, purified cotton wool steeped for a short time in equal parts of nitric and sulphuric acids, and dried, by which it becomes explosive. For gunnery and frearms it has not been found so useful as

predicted, but it is admirably adapted for predicted, but it is admirably anapted for mining and blasting. Dissolved in ether, gun-cotton forms a good varnish for covering wounds, or giving a thin film to any surface, and is a powerful deoxidizer.

GUNDA, the sum of four cowry shells, used by the poorer natives of India as a medium of covering the poorer natives of India as a medium.

of currency in smaller or fractional pay-ments and purchases. See Cownes. \*

Gundaua, the Hindustani name for the rhinoceros.

GUNDUCK, the Indian name for brimstone. GUN-FLINT MANUFACTURER, a shaper of

filmts for musket-locks.
GUN-FLINTS, shaped flints for fire-locks:
since the introduction of percussion caps
to rifles and pistols, filmt-locks are now
called used except among a few harharseldom used, except among a few barbarous tribes

ous tribes.

Gunjah, a name ia India for the dried hemp plant (Cannabis sativa), which has flowered, but from which the resinous juice has not been removed. It is chiefly sold for smoking with tobacco, and is made up in bundles about 2 feet long and 3 inches in diameter, containing 24 plants.

commerce.
Hartoor, French or kidney beans; a dish consisting of mutton stewed with turnips

HARKEM, a Belgian rake or harrow. HARLE, the reed or brittle stem of flax, separated from the filament.

BARLEQUIN, a male dancer; the principal performer in a pautomime.

HARMONEON. See MELODEON.

HARMONICON, a musical instrument, whence the sound is obtained by striking with a cork on pieces of glass loosely suspended. HARMONINE, a modern wind instrument.

HARMONTPHON, I Small instrument with a key-board, in which the sounds are produced from small metal tongues, acted upon by blowing through a flexible tube. HARMONOMETER, an instrument for ascer-

taining the harmonic relation of sounds. HARNESS, the gear and trappings for draught-horse; furniture or equipment for

draught-horse; infiniting or equipment for a carriage; for a loom, &c.

Harness Book-muslin. See Muslin.

Harness-cask, a cask or high tub with a lid guarded by a rim, which comes a small way down the cask; used on board ship for keeping salted meats ready at hand for deliving daily use.

HARNESS-CURRIER, a dresser of leather for

harness saddlery purposes.

Hanness-Maken, n manufacturer of furniture for carriages, and horse-trappings. Hanness-plater, a workman who prepares or plates the metal work for harness.

HARNESS-POLISHER, a brightner of the har-

ness of carriages

Hanness-noom, a store-place where harness is kent. HARNESS-SMITH, a metal worker who forms

the iron-work for saddlery. Hanness Weavers, operatives employed in

Palsley in weaving the more complicated

patterns of shawls. HARP, a musical Instrument, consisting of a triangular frame, furnished with a set of strings, and pedals; a scarce or sifting impiement for cleansing grain, or screening earth or lime.

HANP-LUTE, n musical instrument.

HARP-BORN, it must an instrument.
HARP-BORNER, it manufacturer of lurgs.
HARPOON, a kind of spear with in barbed point, thrown by the hand, used in whale fishing, and for killing porpoises and other fish. It is attached to a line, in order to recover it, and secure the prey to which it is the manufacture factures. becomes fastened.

HARPOONER, the seaman in a whale-boat who uses the harpoon.

who uses the harpoon. [spenrs.]
HARPOON-MAKEH, a manufacturer of whaling
HARP-SEAL, the Phoca Groenlandica and
P. oceanica, about 6 feet in length. See
SEALS SEALS.

HARPSICHORD, an old kind of musical instrument, provided with quills in place of hammers to sound the strings, now superseded by the pianoforte.

HARP-STHING MAKER, a manufacturer of gut and wire strings for the harp. HARRA, a weight of Surat about 787½ lbs., avoirdupols.

HARRIER, a small bound for coursing hares. Harrow, an agricultural implement; a frame with teeth, for scarilying or loosing the surface soil; of which there are two kinds, heavy and light.

HARSELA, a name sometimes given to the oke, a Turkish weight, rather less than

HARSLET, the plack of a plg; the heart, liver, and lights. HART, the stng or male of the deer.

HARTALL, another name for orpiment in the Eastern markets.

HARTE-BEEST, an African antelope.

HARTSHORN, raspings from the horn of the deer, which are used incdicinally. When boiled to a jelly it is nutritive, and a pungent volatile spirit was formerly obtained by distillation from the horn, but it is now made from carbonate of numonia and similar products of bone.

HARTSHORN-SHAVER, a preparer of hartshorn

raspings.

HARVEST, the time of reaping grain, or gathering in any crop. HARVESTEN, an American machine for

cutting clover and timothy seed, &c. HARVEST-HOME, the festival of celebrating the completion of the grain harvest.

HASH, a ragout; meat cut up into small pleces and cooked.

Hase, a fastening; n clasp for n staple. Hassoek, a footstool or cushion to kneel on; originally a rush-mat enshion, but now of more general signification.

HASSOCK-MAKER, a minutacturer of footstools.

HASTENER, a metal kitchen-stand for keeping in the heat of the fire to tho joint while cooking.

HASTER, a Belgian grain measure, containing about 360 French bushels.

HASTY-PUDDING, boiled dough which has been leavened with yeast.

HAT-BAND, a cloth or erape band for the

hat, worn in mourning; n gold band worn by beadles, footmen, &c.

AT-BAND MAKER, n manufacturer of galloon or binding for the outer edge of HAT-BAND the brim, or the outside of the crown of hats; a cutter and maker of cloth or crape bands.

HAT-BLOCK MAKER, I manufacturer of the solid wooden shapes used in blocking or

forming bats. HAT-BOX, HAT-CASE, a paper, leather, or the box for a man's hat.

HAT-BRUSH, a soft brush for smoothing the nap of n hat.

HAT-CASE MAKER, a manufacturer of thin wood or leather boxes for holding hats.

HATCH, a railway flood-gate or half-door; a crib or crulyc in the weir of a river to stop fish; to inendate; to rear chickens from eggs. See HATCHES.

keeping fish.

HATCHEL, a combing instrument for dressing flax. See HACKLE.

HATCHES, the coverings of the hatchway or openings to the hold of a ship.

HATCHET, a chopper or eleaver

HATCHING-APPANATUS, an artificial incu-bator for bringing forth chickens from eggs, by steam and hot water.

HATCHMENT, an escutcheon or panel representing the armorial bearings of a deceased person, which is placed on the front of the house for a twelvementh after the funeral.

HATCHWAY, an opening in the deek to afford a passage up or down,

HAT-DYER, a workman who dyes beaver hats black.

HATEREAU (French), a dish of sliced liver sprinkled with popper and parsley.

HAT-FRAME, cross-bars of wood placed round three or four dozen hats in sending

them out for home sale. HAT-LINING, and -LEATHER CUTTER, a shaper of silk, calleo, leather, and other inside trimmings for hats.

HAT-MANUFACTURER, one who has a factory or place where hats are made on a large

L'ATS, covers for the head, chiefly worn by men, made of silk or felt, and sometimes

beaver or other material.

MAKER, a maker of imperial or silk plush for covering the bodies of hats.

11AT-SPAING MAKER, a manufacturer of springs for light opera or closing-up hats.

HATTER, a maker or vender of hats. HATTER'S-BOW-STRING MAKER, a manufac-

turer of the fitted gut cord used in bowing or felting the materials for beaver hats.

HATTER'S-FURRIER, a tradesman who pre-pares and keeps on sale the wool and different furs used for felting into hat bodies,

HAT-TIP MAKER, a manufacturer of sikk pieces for the lining of the crowns of hats. HATTOCK, a shock of corn containing 12 sheaves

HAT-VARNISH MAKER, a manufacturer of sheliae varnishes, and other chemical preparations, for hatters.

HAUGH, a little meadow.

HAUL, to drag or pull; a catch, as of fish, &c.; a ropennaker's term for about 400 threads of yarn warped off the winches with a slight turn in it, to be tarred.

HAULER, a workman engaged in drawing ore out of a mine; a fisherman who

pulls in a cast-net to the shore.

HAUNCH, the hip or thigh; the hinder quarter of a small animal; sometimes applied to a joint of mutton or ventson dressed.

HAUNKUS, See MANNER. See ANKOOSE. Igoods, HAUSER. See HAWSER. HAUSIL (Hindustani), a tax or duty on HAUT, a name for the cubit in some parts of the East Indies, about 19 luches; & weekly market held on stated days.

HAUT-A-BAS, a French pedlar; a travelling foot trader.

HAUTROY, a wild strawberry; a musical wind instrument. See OBOE

Haute-lice (French), tapestry hanglings; an upright loom.

HAUTE-MARE'E (French), high-water, HAVANA, HAVANNAH, a Cuban elgar, HAVELEE, an enclosure or dwelling in India, AVELEE, an enclosing of a local sometimes called Bakhur or Bukree.

HAVEN, a port for shelter. See Harbour. HAVERSACK, a soldier's knapsack; a gun-ner's case for ordnance.

HAVILDAR, a nativo sergeant of sepoys in India.

HAW, the berry of the hawthern, used on the Continent in cookery.

HAWK, a small quadrangular tool used by a plasterer.

HAWK-BOY, a plasterer's assistant.

HAWKER, a pediar or petty chapman; a travelling vender of small wares, usually holding a licence. \*

HAWK'S-BILL TURTLE, the Chelone imbri-cata, valued for its shell which is employed

for manufacturing purposes.

HAWSE-BLOCK, the wooden plug or stopper fitted into the hawse-hole when the ship is at sea.

HAWSE-HOLE, the hole in the bows of a ship through which the cable runs.

HAWSER, a large rope used for warping and

other purposes.

HAY, dried grass, kept as fodder; a hedge or enclosure; to lay snares for rabbits. HAY AND STRAW DEALER, a vender of forage and fodder for horses, &c.

HAY-BAND, rope made of twisted hay.

HAY-BOTE, a fine for breaking fences; an old allowance of wood to a tenant for respiritive bedges or forces. pairing hedges or fences.

pairing needed or lead of hay in a field. HAYEOGE, a pile or heap of hay in a field. HAYESSINE, the borate of lime, so called from its discoverer Mr. Hayes. It is found abundantly on the Westeru coast of America, and is of great value in the manufacture of glass

HAY-FORK, a pronged instrument for turning over hay, or lifting it from the eart to the rick.

HAY-KNIFE, a long sharp cutting instrument for taking hay from a hay-rick. HAYLOFT, a loft for hay over a stable or

barn.

HAY-MAKER, an agricultural labourer; one who cuts grass and turns it over from time to time in the sun to be dried for

AY-MAKING MACHINE, a grass-cutting apparatus taking the place of the scyffic. HAY-MAKING

HAY-MARKET, a place in a town whither hay is brought for sale; one of the principal places in London for the sale of hay is Whiteehapel.

HAY-RAKE, an agricultural implement; a cross piece with teeth, and a long handle, for collecting grass in hay-making.

HAY-RICK, a pile or stack of hay.

HAYWARD, a warden or overlooker of fences and foot-paths.

HAZEL, a small underwood; the Corylus avellana, producing the common hazel nuts; being very elastle it is used for the hoops of easks and in turnery.

HEA, the local name for an undefined tree in the Pacific islands, the fruit of which furnishes a glutinous red varnish with

which fibres are stained.

HEAD, the chief or principal; the state of a deer's horns by which his age is known; the blade of an axe; the stylking-part of the brade of an axe; the striking-part of a hammer; the upper part of a bed or bed-stoad; the top of a nail; a bundlo of flax measuring probably two feet in length, and weighlurg a few pounds; in the North of Europe 18 head of homp or flax are about 1 ewt.; the work at the prow or foremost part of a slip.

[EAD-BAND, a pookbinder's material of

HEAD-BAND, a bookbinder's material of narrow silk or other substance, sold in pieces of a certain number of yards.

HEAD-BOARD, the cross-board of a bedstead near the head.

HEAD-BOROUGH, a constable; the chief officer of a township.

HEAD-DRESS, a cap, feathers, or any orna-ment worn on the head by females. HEADER, a cooper who closes casks; a workman who heads nails or plns; a brick

with a short face in front.

Ileaders, a building term for bricks or stones placed lengthways across the wall instead of In the direction of the wall.

Ilead-fast, a rope to secure a ship's bows to the wharf or shore. Head-oardener, the chief or principal gar-

dener.

HEADINO, pleees of wood sulted for closing sngar hogsheads, and other easks of mer-

HEAD-LINES, in printing, lines conspicuously displayed at the top of a page, or to a chapter, which are set in small capitals;

in navigation, ropes next the yards.

HONORARY SECRETARY, one who voluntarily undertakes secretarial duties, without being paid,

Hooboballi, a close fine-grained wood of Guiana: it is easily worked, takes a high

polish, and is much used in the Colony for firmliture. It may be had from 15 to 20 inches square, 40 to 70 feet long.

Hood, n young seal; the covering for a carriage head; a companion-hatch, sky-light, &c.; a slight covering for the head, worn by females.

Hooding, n pleee of rough leather, counecting the hand-staff and souple of a fiall.

Hoor, the horny protection that covers the feet of mmy domestic and wild animals, as the horse, ox. decr. &c. \*
Hoouoo, n piece of cheeked cotton, used in

the African trade.

Hook, the fastening for a garment; a sickle; a bent nail; a enrved piece of metal of various sizes; thus there are meat-hooks, rish-hooks, small brass hooks, boat-hooks, breast-hooks, can-hooks, cat-hooks, &c. See FISH-HOOKS.

Moerns, an Indian plpe, of several parts; the bowl is of silver, shell, carthenware, &c.; the stem or tube, of coco-nut, or some other wood, which a snake or pliable ornamental tubing lengthens out into several coils, and the smoke passes through a glass matter, was which the worth bless

severations, and the shoke passes friendly a glass water-vase, while the mouth-piece is of amber, silver, &c.

Hook-and-exe Maken, a manufacturer of the metal catches for fastening into each other, which are bent and cut in a press.

HOOKER. HOWKER, ship. See Howker. Howkea, a small Netherlands HOOK-LADDER, a small indder with hooks at

the top.

Hook-pin, n carpenter's tool, so named. Hoondee, an Indian draft or bill of ex-change, drawn by or upon a native banker

Hoor, n elreular band of wood or Iron, for binding the staves of easks together; a frame of whalebone to spread out petticoats.

HOOP-BENDER, an iron worker.

Hoor-mon, narrow thin strips of iron, for hooping casks with; a child's toy for trundling a hoon.

HOOP-MAKER, n manufacturer of hoops.

HOR

Ploor-rongs, implements used in forging. Hop, a climbing plant, the Humulus lupu-ius, entivated for its bitter principle, which forms an important element in training; the fine hops being used for pale ales, the common, or less fine, for lotter. There were, in 1855, nearly 38,000 acres of hop gardens under cultivation in England, which produced about 83,226,000 lbs. of liops. Hop-vines, abounding in libre, have often been proposed to lie turned to useful account for cordage or paper, but as yet to little extent.

Hor-BACK, a brewer's vessel. Hor-nag, a coarse heavy wrapper for hops: the bag of hops weighs about 21 ewt. The fluest description of hops are put into fine light pockets, welghing about 11 cwt.

each.

Hop-dutt, a tax of about twopence per pound, levied on hops by the government. This duty netled, in 1855, £693,750.

Hor-racroa, a dealer in bops; a salesman: the Borough is the chief location of the hop trade in London.

HOP-GARDEN, a field where hops are grown. Hop-Hoandeam, a name for the American

110F-10anneam, a name for the American iron-wood (Ostripa Viriginica).
110F-0ast, a kind of klin for drying hops.
110F-0ast, in the glass trade, a conical vessel suspended from the ceiling, containing sand and water for the use of the entter;

a kind of cake made of rice flour in Ceylon; the trough in a flour-mill, into which the corn is put to be ground; a seed-basket for carrying grain, used by the sower; a popular name for an insect breeding in hains. \*

HOPPLE, a mode of fettering the fore-legs of animals to prevent them from straying.

HOP-POCKET. See HOP-BAG.

Hor-pole, a support for the hop-vine

Hop-role, a sufficient the hop-vine.

Hop-setter, an instrument for planting hop sets; the labourer so employed.

Hop-vine, the climbing stem of the hop.

Hopping, a wild, days the Markey.

HOREHOUND, a wild plant, the Marrubium vulgare, which is used medicinally for coughs, and in uterine and hepatic affections.

Horloger (French), a maker or vender of clocks and watches.

the next sufficient bodies growing on the heads of some animals. The horns of the ox, buffalo, &c. are hollow, and never shed. They are deposited in layers never shed. They are deposited in layers or beny cores, their constituents being albumen with a little gelatin, and a small proportion of lime. They are not brittle like bone, and may be moulded when softened by heat. The antiers of the deer are solid processes from the frontal bone, and possess the chemical and physical properties of true bone, they grow rapidly and are periodically shed. Also a windinstrument originally made of horn, but now for the most part of brass.

HORNBEAM, the wood of the Carpinus Americana, which is used for the eogs of mill wheels, and for agricultural implements; the inner bark dyes yellow.

ments; the inner bark dyes yellow. Horn-bow, a wooden bow coated with horn, used in the East.

Horn-comb Maker, a manufacturer of pocket, dressing, and mane combs of horn.

Horn; an artificer who moulds and shapes

hern into various articles.

HORNEL, a fisherman's name, in Scotland, for the sand faunce, Anmodytes Tobianus, Hornea, a worker in horn; in olden times an outlaw, one who had been denounced by the formality of blowing a horn.

Horners' Company, one of the minor livery companies of London, incorporated in

1638; it has no hall.

Hoan-fish, a name for the gar-fish. Horn-lanters, a lantern having plates or sheets of thin pressed horn in the frame, instead of glass.

HORN-MAKER, a workman who moulds horns into drinking-cups.

HORN-MERCHANT, a dealer in horns. HORNO (Spanish), a furnace. HORN-PIKE, a common fish in the Black Sea, the Esox Belone, caught every where.

HOANPIPE, an animated dance.

HOAN-PLATE, a transparent sheet of horn tor lanterns, &c. HORN-PRESSEA, one who softens and pre-

pares horn for working, by heat, &c.
Howns, a mher's name for the guides for
the ropes on the drum.

HORN-SILVER, a native chloride of silver which is often found in the mines of Mexico and Peru.

HORN-STONE, a kind of quartz resembling horn, used for forming the grinding blocks of flint mills, in the pottery manufacture,

See Chert-stone. \* Horn-tips, the solid pointed tops of horns, which are used for umbrella-tops, knifehandles, and many other purposes.

Horogaapny, the art of constructing dials. Horologer, a watchmaker.

HOROMETER, an instrument for measuring the hours.

HOROMETRY, the art of measuring time by

hours and subordinate divisions. Hoase, a wooden frame for towels or clothes; a stool or tressel used by many workmen; the earrying part of a machine, as in tile-making; a foot-rope from the middle of a ship's yard; a well-known animal, valued for its docility and usefulness to man.

Hoase-barge, one towed by horses on a canal or narrow river.

HORSE-BAZAAR, a place for the sale of horses. Horse-Bean, a species of Faba extensively grown in fields for feeding horses. There are several varieties, as the Scotch horsebean, the tiek, or field-bean of different kinds, &c. Our imports of foreign-grown beans average 360,000 quarters a year.

Horse-Blanket, a coarse woollen rug with which to clothe horses.

Horse-block, a foot-stone or step in country towns for mounting a horse

Horse-boat, a ferry-boat for transporting horses across rivers or harbours, &c.

House-box, a closed carriage or vehicle for transporting horses by railway; an enclo-sure for a horse to be slung into a yessel. Horse-Baeaker, one who tames and trains young horses for the saddle or draught.

Hoase-cnestkut, a tree, the Esculus hippocastanum; the white wood is used for the backs of brushes, and for making the ornamental articles of Tunbridgeware. The back is used on the Continent production of the back is used on the continent of the back is used on the continent. as a febrifuge, and of the units or seeds starch and vermicell have been made,

Horse-clacus. See Chicus.

Horse-Cloth, a blanket or wrapper for a

HORSE-COLLAR MAKER, a maker of stuffed

collars for draught horses.

HORSE-COMB, a strong comb used by grooms for combing the mane and tail of horses. Horse-Dealer, a trader in horses

Horse-Doctor, a farrier; a veterinary

surgeon.

Horse-drench, a drastic purge for a horse; the horn by which the medicine is administered

Horse-dung, the droppings from horses, in stables, &c. collected for manner.

Hoase-faia, a market for the sale of horses. Horse-fettler, a workman in mines who provides for, and attends to, the horses kept underground.

House-flesh, a name for a species of Bahamas mahogany; the the earenso of

House-Gram, a name in India for a variety of pulse, the produce of *Dolichos uniflorus*, also called Cooltie and Galut in some narts

Horse-guards, mounted soldiers; a fine British cavalry regiment. Hoase-naire, the long hair of the mane and tail of the horse, which is valuable for many trade purposes.

Horse-mide, the skin of the horse, which, when tanned, makes the strong cordovan leather, and is also used for covering large board-room or office tables.

Horse-noe, an agricultural implement drawn by a horse, used to weed turnips, or to extlrpate weeds, and loosen the soil in

other erops.

Horse-Jockey, one who rides a race-horse. Hoase-keeper, a groom or stableman; one

who looks after horses

Horse-knacker, a purchaser of diseased or worn-out horses, who kills them for their commercial products. [draw\*, Horse-Load, the weight which a horse can

Horseman, an equestrian.

Horse-MLL, a mill worked by a horse. Horse-powea, the strength of a horse in draught; the dynamical unit employed to express the force of the working action of a steam-engine. Estimating that a horse will walk with a lead of 200 lbs. at the rate of 2½ miles an hom; this gives 44,000 feet per minute as the average value of a horse's power; 1 lb. could therefore be ralsed that height hu a minute.

Horse-race, a running match between horses to test their speed and endurance.

horses to test their speed and endurance. Horse-radden, the pungent root of the Cochlearia Armoracia, used as a condiment, on account of its pungent, aerid, and stlandard qualities.

Horse-radden Trees, a common name for the Moringa plerygosperma, the seeds of which furnish the fluid watchmaker's off,

known as oll of ben; the bark yields a gum like tragacanth, and the aerid leaves are used in curies and also as sinapisms.

House-kept on sale and view, or put up at auetion periodleally.

Horserug. See Horse-blanker. Horse-run, a contrivance in deep earth-works for drawing up and lowering n man with a wheelbarrow.

Horse-shoea, a blacksmith who puts shoes on horses' icet.

Horse-shoes, semicircular plates of Iron nailed to the hoofs of horses, to protect the frog or sole of the foot.

HORSE-STABLE, a shelter and house for HORSE-TAIL, the long hair of the tail of the horse is of considerable commercial value, being applicable to many uses HORSE-HAIR. A plant used for polishing. See DUTCH-RUSH.

Horse-trainer, one who trains horses for

running races

Horse-trappings, the saddlery and harness

for a horse.

Horse-Trough, a wooden eistern, kept filled with water before road side inns, for wagoners' or way furers' horses to drink from.

KNOPF-MACKER (German), a button-maker. KNOT, a mark or division of the log-line, and name for the nautical mile of 2208 yards, 3 knots making a marine league, and 60 knots a degree. The line knots are and 60 knots a degree. The line knots are placed at distances of 50 feet from each other. Now, as 120 times half a multi-make an hour, and 120 times 50 feet make almost a geographical mile, so many knots will run from the reel in one experiment, as the vessel sails miles in an hour. The knot is used for ascertaining the speed of a ship's sailing, and answers to half a minute by the sand-glass, as the log-line runs out, as a mile does to an hour; that is, it is the 120th part of a mile; hence we say the ship is going nine knots, equivalent to nine nautical miles per hour. See Log-Line. Knot is also a fastening in a

rope. See Hirch and Bend. \*
Knot-grass, the Polygonum aviculare, the small rugose nuts of which are reported

to be emetle and purgative.

KNOUT, the ball or piece of wood that is struck in the game of shinty; a kind of Russian leather whip.

month of rivers, where salt is made.

LIMA-WOOD, the finest description of Nicargna wood, produced in South America. LIMBELLO, LIMBELLUCCIO (Italian), the shavings of leather.

Vings of feather.

LIMBER, a two-wheeled carriage, bearing boxes of ammunition, fastened to a field-piece, which can be "unlimbered," or detached, when in action.

LIMBER TAR, the bilge-water, or refuse found in the hold of a ship that imports tar, which has drained from the casks during the yarge.

the voyage.

LIME, cement; calcined chalk or limestone, also called quickilme; a fruit so called. See LEMONS AND LIMES.

LEMONS AND LIMES.
LIME-BURNER, onc who prepares lime for cement, &c., in a kiln.
LIME-JUICE. See LEMON-JUICE.
LIME-KILN, a furnace of different kinds, but usually a funnel-shaped chamber, in which is the property of the pr limestone is mixed with coal or wood, and ignited, to prepare lime for mortar and manure, by driving off the carbonic acid and water which it contains,

LIME-MEACHANT, a wholesale dealer in lime. LIME QUARRY, a pit or quarry where lime-

stone is dug.

stone is dug.

LIME-STONE, calcareous spar, chalk, or other
mineral substance, used for making lime.

LIME-TREE, LINDEN-TREE, the Titla Europea,
an ornamental lofty tree. The white soft
wood is fine and close-grained, and is used for harps and piano-fortes, &c., and is particularly suitable for carring. The charcoal is not inferior to that of the alder and willow, for making gunpowder. The bark, when stripped off, is made into shoes. cordage, saeks for corn, matting, &c. See BASS.

a coating given with limo

LIME-WATER, water impregnated with lime water; whitewash, LIME-WATER, water impregnated with line, used as a steep for skins in tan-yards, for whitewashing, and for various other pur-Doses

LIMONADIERE, a barmaid at a French coffeehouse; a maker or seller of lemonade.

LIMONITE, a maine for bog iron ore; the hydrons oxide of iron, which, containing upwards of 50 per cent of metal, is much worked in France, and makes excellent Limoo, a name in some of the Pacific Islands for sea-weed.

LIMPET, a marine edible molluse, the common species of which, Patella vulgaris, 13 well known on the British coasts.

Linch, a boundary wall; an unploughed ridge of land.

LINCH-PIN, a small iron pin put into the end of the axle-tree, to confine the wheels on

carts, &c.
Linden Tree. See Lime.
Line, the tenth or twelfth part of an inch; a row of type, or of soldiers, &e.; a railway track.

LINEAR MEASURES, the measures of length used in a country. See Inch, Foot, MILE, &c.

LINED GOLD, gold lined with copper, used for jewellery and ornamental articles. It consists of a standard gold leaf, affixed to a leaf of some other metal, ethier by means of pressure when hot, or by a chemical process.

LINE-MAKER, a manufacturer of rope, sash-

lines, clothes-lines, &c.

Line-Men, men employed on a railway; persons carrying the measuring line for a surveyor.

LINEN, under elothing; a woven fahrle made of flax. Our exports of linen are now large. The shipments in 1856, reached about 146f million yards, besides about 4f million yards of thread for sewing, and lace thread. \*

LINEN-AGENT, a factor or agent for Irish linen manufacturers.

LINEN-DRAPER, a retail dealer in linen, ealico, and other articles usually purchased by females.

Emised by lemales.

Linen-Yarn, spun flax. Besides our large home consumption, we exported, in 1856, about 25 million pounds of linen yarn. \*

Linen-Yarn-Measure. See Yarn-Measure. Line-of-Battle-Ship, a vessel of war large enough to have a place in the line of battle; a vessel with two or more gray deals, and

a vessel with two or more gun deeks, and carrying, at the lowest, 64 guns.

LINER, a person who measures land, or marks out intended roads, railways, or plots of land for digging trenches for sugar cane, or for planting; one of a line of ocean traders; a vessel of war. LINES, small cordage or large twine, useu

for various purposes.

Lang, a valuable fish of the eod tribe, the Lota molva, Cuv.; besides those consumed fresh, considerable quantities are cured for exportation. The name ling is also applied to the hake, when eured. LINGAN, LINGEL, a name for shoemakers' thread in Scotland.

Linoeria (Italian), linen

Lingot (Spanish), an ingot.
Liniment, an ointment, a balsamic lotion. LINING, any covering for an interior surface,

Linn, any covering for an interior surface, as to garments, &c.

Link, a torch; a ring or connection; a postion of a chain; each link of Gunter's surveying chain with the connecting ring measures exactly 7.92 inches. See Chain and Gunter's Chain.

Link-Boy, the hearer of a light or torch in forger weather or dark pichts.

foggy weather or dark nights.

Link-motion, an apparatus for reversing steam englnes.

LINGKED, the seed of the flax-plant which is largely imported for sowing, and for crushing iuto oil for painfers' usc, the refuse cake is employed to feed eattle and sheep. Our imports have heen largely increasing of late years. See Flax-SEED.

LINSEED MEAL, the meal of flax-seed which is used for well-increasing of late years.

is used for poultices.

Linsked-oil, a well-known commercial yellow oil obtained from the seed of the flax-

low oil obtained from the seed of the haxplant (Linum usitatissimum).

LIQUID-MANURE CART, a watering eart to diffuse liquid manure over a field. LIQUOR, strong drink; a name among workmen for dyes or solutions used; any thing flowing.

any thing flowing.

Liquorice, the roots of Glycirrhizaglabra, a perennial plant common in the south of Europe, considerable quantities of while are impuried. Liquorice is much used in the Levant in making u deceetion which is frunk cold in summer, and liquorice water is a favourite heverage in this country with children. See Gooncis.

Liquorice-Juice, the hispissated finee of the liquorice root, belief to a consistency

for rolling into paste, and used for confeetinicry purposes. It is often termed feetlinery purposes. It is often termed Spanish julce. [puunder of liqueurs.] Liquoriste, Liqueuriste (French), a com-Lira, a Venctian coln worth about 10d.

LISBONNINE, another name for the moidore, a Portugueso coin, and worth about 27s. Liske-gloves, fine thread gloves for summer

wear.

LISLE-LACE. See LILLE-LACE.
LISPEUND, LISPOND, a Dutch weight, also
nsed in Norway, Sweden, and Denmark,
varying from 14 to 18 lbs.; in Hamburgh, the eighth part of the centucr, which is equal to 112 lbs. \*

Lisse' (French), slik; bolled sugar; "amandes lissees" is sugared almonds, almond

comfits.

List, an inventory; detalled particulars; a narrow solvedge strlp torn from the edge of cloth, used for various purposes.

LIST-DEALER, a piece-dealer, also called a fent dealer; one who vends strips of cloth. LIST-SHOES, a kind of easy slippers made of strips of cloth woven together.

LITCHI, an elegant scarlet fruit, the produce of Euphoria (Dimocarpus) Litchi.
LITCHI, a namo for the rottolo in Abyssinia,

rather more than 10 ounces.

LITHARGE, scml-crystalline or fused protoxide of lead, obtained in separating silver from lead ore, which enters largely into the composition of flint glass.
Lithographer, a writer or designer on

stone; a workman who takes impressions from lithographic stones.

LITHOGRAPHIC-PAPER, gelatinous or sized paper, tinted with gamboge and rolled very smooth.

LITHOGRAPHIC-PRESS MAKER, a manufac-turer of the presses for lithographic work.

LITHOGRAPHIC-PRINTER, a workman who takes impressions on paper, from drawings, maps, plans, and writings previously traced upon stone.

LITHOGRAPHIC-noller, an luking roller for a lithographic press.

a ithographic press.
LITHOCRAPHIC-STONE, a fine oolite or granular limestone used in lithography: good stone should be of a uniform yellowish gray hue, free from veins and spots, cut hy a steel point with difficulty, and he splintering it should show a concludid fracture. The best stone was long obtained exclusively from Germany, but it is now found in other quarters. is now found in other quarters.

LITHOGRAPHIC-STONE IMPORTER, a merchant who receives for sale the fine yellowish gray limestones suited for the purpose of

the lithographer.

LITHOSTROLE, a sort of mosaic pavemeat.
LITHOSTROLE, a tint obtained by a brush used
un the lithographic stono instead of a erayon.

LITMUS, cakes of blue dye prepared in Holland from the Lecanora tartarea and other lichens, and chiefly used for chemical tests.

LITMUS-PAPER, unsized paper stained with litims, used as a delicate tost of acidlty LITRAMETER, an Instrument for ascertaining the specific gravity of liquids.

LITRE, a cubic decimètre, the unit of measures of capacity in the French metrical system; about 13 pint (1700). LITRON, a French dry measure, the sixteenth part of the old French busilel.

LITTER, a carriage with a bed for an Invalid or wounded person, conveyed by hand or by horse; scattered straw, &c., as a couch or bed for beasts; the young produced by small animals at one birth; confusion or a careless arrangement.

LITTORAL, belonging to or growing on the shore of the sea; extending along a coast. Liva, a Turkish province, under the jurisdiction of a Mimilian or Pacha with two

LIVER, an organ of the body of animals, which is eaten as food; as the liver of calves, of lambs, of codfish, &c.

earries round milk for sale.

MILK-PAIL, a large tin bucket with a handle, used for earrying out milk for sale.

MILK-PAN, a shallow dairy vessel for holding milk.

MILK-PUNCH, a luscious liqueur.

MILK-SCORE, a bilt for milk supplied,
MILK-WALK, the district served by a milknian, often yielding a large and profitable
return, and the good-will of which is frequently sold.

Milk-wood, a common plant in the West Indies, the Brosimum spurium, which fur-

nishes a useful fibre.

Milk-wort, a wild plant with bitter properties, the Polygala vulgaris, used in pulmonary affections, and as a remedy in spitting of blood

MILL, an engine for grinding, &c; a building or factory containing machinery; the 1000th part of a dollar; a lapldary's term for his different wheels, which are called roughing-mill, cloth-mill, &c.; to serrate or dent the edge of coln; to mull or throw with horse this dread. silk before it is dyed.

SIR Defore it is dyed.

MILL-BAND MAKER, a manufacturer of bands
for macbino shops, and for driving wheels.

MILL-BOARD, n stont pasteboard.

MILL-BOARD-BOX MAKER, a manufacturer
of stout paper or card-board boxes for the
trade. Under this name are comprehended paper-boxes, hat and bonnet
haves mill-boxes shuff-boxes matchtrade. Under this name are comprehended paper-boxes, hat and bonnet boxes, pill-boxes, smill-boxes, match-boxes, fancy-boxes, mill-boxes, flien drapers'-boxes, &c. See Carton-pierre. Mill-cog, the tooth of a water-wheel.

MILL-CROFT, a small field or enclosure near a mill. [up water to turn mill. Mill-dam, a mound or embankment tu keep

MILLER, one who grinds corn.

MILLEROLE, a liquid measure of Marseilles, Tunis, &c. = 14 15 Imperial gullons.

Millet, a common name for several species of small seed corn. In the Mediterranean the millets are generally called Dhurra. On the Western African coast the chief millets grown are Holcus lanatus, mollus, und spicatus. In the West Indies in let passes under the name of Guinea corn.

Miller Brea, it drink made of fermented millet-seed, with substances added to render it astrinent, used by the Crim-Tarturs, and also called murwa or bonza.

MILLET LICE, a gram grown in India, the Panicum colonum.

Mull-Graming, the shaft, wheels, &c. by which the motion of the first moving power is communicated to any manufacturing machine.

MULL-HAND, a workman employed in a fae-MILLILITIEE, the thousandth part of the litre. MILLIMETRE, a nominal French lineal measure, the thousandth part of a metro, and equal to 0.039371 inch.

MILLINER AND DRESSMAKER, one who makes bonnets, head-dresses, and gowns, and other articles of female attire.

MILLING, a process of rolling steel into bars; denting the edge of coin.\*

Mill-Maker, a constructor of grinding or pulverizing machines of different kinds, chiefly of steel.

Mil.Loco, a tuberous plant growing in Ecumior, which has the taste and shape or the hest potatoes.

Muser, a sieve for straining milk.

MILLSTONE, a stone for grinding corn, minerals, paints, drugs, &c., which forms an important branch of trade. There are upwards of thirty makers of millstones in the United Kingdom, who produce about 1100 pairs of large millstones annually; besides about as many more smaller makers spread over the country, and others who are engaged in preparing burr-stones, making and dressing the millstones, &c. The weight of the stones annually made is estimated at 2,500 nons. An ordinary sized pair of milistones measures 4 feet diameter, by 10 inches thick, is composed of from 20 to 30 burrstones, and welghs probably 12 to 15 ewt. or more. Good milistones will last 30 or 40 years, and when worn can be lesh cut. In America millstones are largely obtained from the conglomerates of the conf measure, from red sandstone, and the finer stone, shales, and syenhes.

MILLSTONE GRIT, a coarse-grained quartzoso

sand-stone.

MILLSTONE-MAKER, a shaper and binder of stones for grinding purposes in mills, Millwright, an engineer, or one skilled in

the mechanical construction and repairs

of machinery.

MILREIS, the integer of account in Brazil and Portugal, consisting of 1000 reis. The exchange on England, but is usually equivalent to 2s. 3d. See Conto. Also a Portuguese gold money, coined in 1775, for its African colonies, and worth about 3s. 3d. It is written thus, rs. 1\$000.

MILT, the soft roe of fish. See MELT.

MILTER, a male salmon.

MINA, EMINA, an Italian grain-measure of a starl, and equal to 3:145 bushels.

MINAGE, a duty on grain brought to market in France. [sweets added. Minee-meat, meat chopped up fine, with Mince-ris, a small ple made of inluce-meat. Minero of minee-meat.

Mincing-Machine, a chopping-mackine. Mine, a workman's term in the fron dis-tricts, for the crude ore or iron-stone, which is variously designated raw-mine, green-mine, burnt-mine, &c.; an under-ground work for obtaining minerals, or for blowing up with gunpowder; another name for the asper, a nominal petty money of account in Turkey, 120 making a piastre. The mine was also a making a plastre. The min

MINE-CAPTAIN, the overseer of a mine.

MINER, a searcher for ores; a workman underground.

MINERAL CHARCOAL, a combination of char-coal and coal, which is sometimes met with.

Mineral Goist, one possessing a know-ledge of minerals.

MINERAL SURVEYOR, an inspector of mines; one who understands the appearance of lodes, and the prospects of working for ores.

MINERAL-TEETH MAKER, a manufacturer of artificial teeth of ground quartz, China elay, and other substances, pressed into moulds, coloured, and then burnt to harden them. Mineral teeth are largely made in the United States.

Mineral-water Warehouse, a manufactory or depot of mineral acrated waters.

MINERAL-WATERS, waters impregnated with

any mineral, many of which are prescribed

medicinally. \*
Minestra, pottage or soup in Italy.
Mingel, a German liquid measure, about
2 pints, 13 of which make a steekan.

MINIMAER, a form for unassessed land in India. See MAAFEE.

MINIATURE PAINTER, an artist who takes likenesses on a small scale.

MINIA, in apothecaries' weight, a division

of the fluid drachm, which is made up of 60 minims; a measure of time in musle.

MINING AGENT AND BROKER, a dealer in shares; a secretary or manager for mines.

MINING COMPANY, a joint-stock association to the secretary or manager for mines. for carrying on operations in a mine

Minion, a kind of type intermediate between brevier and nonpareil; a piece of ordnance, the bore of which was 31 inches dlameter. MINISTER, a high officer of state; a priest;

an ambassador

OPIATE, a soporifie; a nareotic.
OPIATE CONFECTION, a medicino given in purging, eolie, &c.

OPIUM, the Inspissated juice of the white propsy (Papaver somniferum), whileh is extensively prepared in India, for shipment to China: the exports from Bombay

and Calcutta are about 11,500,000 lbs. In 1856, the consumption of Indian opium in China was about 82,000 chests of 140 lbs. The average imports of opium into Great Britain are about 100,000 lbs.

OPIUM-CLIPPER, a quiek-sailing vessel engaged in smuggling opium from India into China, where its import is prohibited.

OPOBALSAM, an oleo-resin obtained from the Amyris Gileadensis, and A. Opobalsam, which has a fragrant odour, and Is used medicinally. It is sometimes called balm medicinally. of Gilead, and is chiefly used as a cosmetic by the Turkish ladies

OPODELDOC, a camphorated soap liniment,

used as a remedy for sprains.

OPOPONAX, an acrid medicinal gum-resia, ohtained from the juice of the roots of Opoponax Chironium, in the Levant. In most of its properties it closely resembles asafœtida.

OPORICE, a conserve of fruits.

OPOSSUM, the Didelphis Virginiana, the skins of which, having a mixed black and white fur, have been prepared in America for ladies' use.

OPTICAL BRAZIER, a metal worker who furnishes the brass-work and mountings for

optical instruments.

OPTICAL-CASE MAKER, a workman who supplies opticians with the wooden or leather cases required to hold or forward optical instruments.

OPTICAL-SQUARE, a surveyor's instrument for laying out perpendicular lines.

OPTICAL-TURNER, a workman who shapes parts of instruments for opticians.

parts of instruments for ophicians.

Optician, a maker of, or dealer in, instruments for the eyes, such as telescopes, microscopes, opera-glasses, spectacles, reading-glasses, magnifying glasses, &c.; but who often vends philosophical and other instruments.

OPTIC-LENS, a ground glass for a telescope,

or other optical instrument.

OFTION, a stock-exchange term for a per-centage paid for the privilege of the "put and call;" that is, the liberty to sell or buy stock in a time-bargain, at an agreed price.

OPTOMETER, OPSIOMETER, an Instrument for ascertaining the length of sight in trying spectacle glasses.

OR, the French for gold.

ORACHE, an old-fashloaed pot-herb, the Atriplex hortensis, cultivated for its insipld nutritious leaves, which are boiled and eaten as splaach.

Orafo, Orefice (Italian), a goldsaith.
Orange, a colour composed of equal parts of red and yellow; a fruit.

ORANGEADE, a driak made of orange-juice, water, and sugar; a sherbet, or cool sweet

beveringe, flavoured with orange essence.
ORANGE-MARMALABE, the crushed fruit of the
Seville orange, boiled in sugar, and veuded

in small pots.

ORANGE-MERCHANT, an importer or wholesale dealer in oranges and lemons, who frequently also deals in nuts, Spanish onions, and other dry fruit and vegeta-

ORANGE-PEEL, the outer skin or rind of the orange, candied or preserved.

Orange-peel, for drying or candying.

Orange-peel, for drying or candying.

Orange-pekoe, a black for from Chiaa, so

named, of which there is also a seented

kind.

ORANGE-PIPPIN, a kind of apple.

ORANGES AND LEMONS, the fruit of severa.

species of Citrus, in which a large trade
is carried on. The common sweet orange is

Associated to the common sweet orange is

Seville. is carried on. The common sweet orange is the fruit of Citrus Aurantium; the Seville orange is the acid and bitter fruit of C. orange is the aeld and bitter fruit of C. Bigaradia; the Bergamto range is obtained from C. Bergamia; the common lemon from C. Limonum; the sweet lemon from C. Lumia; the lime from C. acida; the sweet llme from C. Limetta; the citron from C. Medica; and the shaddock from C. decumana. Some of these have already been noticed under the heads of Citroa, Lemons and Limes, Mellarosa, &c. The imports of granges and leanung range from imports of oranges and leasons range from 700,000 to 800,000 bushels annually.

ORANGE-WOMAN, a street vender of oranges, perambulatory, or having a fixed fruit-

stall.

ORATORIO, a vocal representation of somo Scripture story

Scripture story.

ORGANETT. See ALKANET.

ORGHAL. See ORGHILLA, and ARCHIL.

ORGHAND, an enclosure devoted to the cultivation of fruit-trees; a plantation of apple, plum, or cherry trees, &c.

ORCHESTRA, an eaclosed place for musiciaas in a theatre, immediately in froat of the foot lights of the stage; a balcomy or raised gallery in a ball-room; collectively, the instrumental performers themselves.

ORGHIDS, curious ornamental plants es-

Oachids, curious ornamental plants esteemed by enlitivators. The roots of some form the agreeable diet called salep.

OnentLa, a name for various dve-lichens, varieties of Roccella and Lecanora; R. fuciformis and linctoria, and Lecanora tartarea, imported from the Canary and Capo

de Verde islands, Angola and Lima. Orcio (Italian), an earthen oil jar or whie vessel; some of which are made of an

limineuse size.

ORDER, the condition of any thing; a com-mission given to supply goods; a dealing or sale transaction; a demand made; a free admission to some public amusement.

ORDER-BOOK, a shop-book for entering roughly the orders of customers, or directional state of the orders of customers.

roughly the orders of customers, or direc-tions for purchase; a book collector's list of works to be obtained in his elreult. Order in Council, an official announce-ment or new regulation published in the Gazette by the Privy Council of the Board of Trade.

ORGAN-KEY MAKER, a manufacturer of the

moveable keys, which are pressed down by the organist to open the valves. Organ Loft, the elevated gallery in which ap organ is usually fixed.

ORGAN METAL-PIPE-MAKER, a constructor of the metal alr-tubes for organs, both

wood and metal pipes being used.
ORGAN-PIPES, the tubes of an organ into which air rushes, when the valve is opened, from a chamber where it has been condensed by bellows.

ORGAN-STOP, a particular set or collection or pipes, differing in pitch, but having the same character of sound.

State contacted of solar which has been ORGANZINE, a kind of silk which has been twisted or thrown twice, the first twist being like the yarns which form a strand, and the second like the strands which form a rope; thus constituting a hard and compact thread, which is used as the warp or long threads for the same kind of goods as those which have train in tho weft. Organzine is used for tulle blonde for ribbons, for plush, and for satin.

Orge (French), barley.
Orgeat, a refreshing drink made with orange-water, sugar, and almonds.
Oriel-window, au upper story bay or pro-

Okida. Window, an apper story day of projecting window.
Origanum Oil, an essential oil obtained from the leaves of the wiid marjoratu (Origanum vulgare), the oil of thynte of the shops; a commou remedy for the pain of earious teeth, and also used as a liniment.

ORIGIN, CERTIFICATE OF, a custom-houso document required to be produced, show-ing that the commodity imported is of British growth, and introduced from some

of our colouies.

ORIGINAL, a first copy; that from which a thing is copied. ORILLON, a mound of earth faced with brick.

ORLAN (Spanish), cambric.

ORLEANS, a cloth made of worsted and cotton used for dresses, &c.

ORLEANS-PLUM, a large and common variety of plum, the Prunus domestica, var. Turonensis.

Orlo, a kind of Spanish musical instrument. Orlong, a Majay land-measure of 400 square jumbas, and equal to 13 acre. \*
Onlor, the deek of a ship of the line over

the hold; that on which the cables are stowed.

ORME (French), the wood of the eim.

Oranoto, an alloy of equal parts of copper and zine, made to resemble fine gold, and known among jewellers as mosaic gold; an imitation bronze,

ORMOLU-FRAME MAKER, a maker of gilt bronze-frames, or of limitation ones.

Ormolu-Lacquer, See Ormolu-Varnish.
Oamolu-restorer, a lacquerer; one who
bronzes articles with ormolu varnish. Ormolu-varnish, a copper, brodze, or imitation-gold varnish.

Orna, another name for the eimer, a variable liquid measure. In Trieste, the wine orna is 12:45, that for oil 14:17 gallons.

ORNAMENT, a decoration or embellishment; a jesvel. ORNAMENTOR, a decorator; a finisher of urOROPEL, in Spain, a thin plate of brass; tinsel

ORPHEON, R musleal instrument.

ORPIMENT, yellow sulphuret of arsenic.
ORDERY, a planetary; a representation, on a small seale, of the revolutions of the planets, invented by Graham, but named after its patron, the Earl of Orrery.

Orris, a peculiar pattern, in which gold and silver lace is worked. The eoges are or-namented with conical figures placed nt

equal distances, with spots between them.

ORRIS-ROOT, the fragrant, bitterish, aerid rhizomes of two species of Iris (I. Germanica and I. Florentina). It is employed in seenting violet -powder, hair powder, and articles of perfumery, and orthogonals. for flavouring liqueurs.

ORSEDEW, leaf metal, sometimes called Dutch gold. It is imported in small boxes, or in papers containing 5 books, of about 21

leaves each.

ORSEILLE. See ARCHIL.

ORT (French), the gross weight; garbage or refuse; R Norwegian coin of 24 skillings, also called a mark, nud equal to 94d; an Hungarian coin, containing 12 kroutgage; in Poland 5 over makes well kreutzers; in Poland, 5 orts make a rix-dollar; nlso a Swedish money equal to 2 farthings, sometimes called a runstick.

See Pogle. \* . [the limbs.

ORTHOPEDIST, one who cures deformities of ORTOLAN, a delicate small bird, the Emberiza hortulana, famous in the annals of gastronomy, which is found in some of the Islands and shores of the Meditercasks, containing about 14,000 of these birds, are often shipped yearly, prepared with spice and vinegar.

ORVIETAN (French), a quaek medicine; an antidoto against poison.

OSCILLATING-ENGINE, R marine engine, with n vibrating cylinder. OSELLA, a Venetian coln of two kinds, silver and gold, the former worth about

1s. 10d., the latter nearly 40s.
Oshak, the Persian name for the Dorema Ammoniacum, the stem and fruits of which yleld

moniaeum.

OSIER, a willow with bending flexible shoots, used for basket-making. The fine basket osler grown in the eastern part of England, is Salix Forbyana. S. purpurea is also valuable for basket-work, and S. Helix is used for the eoarser kinds. The common osier, S. viminalis, and S. caprea, are cultivated for hoops.

OSIER-AIT, a small island for growing oslers. OSIER-HOLT, a portion of fen or marsh land, planted with osler-willows for basket-rods.

OSLEON-IRON, bars of iron specially made for the manufacture of wire.

Oslic, nn old Turkish coin, the half of a beshi, and worth about 4d. OSMAZOME, the savoury portion or essence

of meat, soluble in water. OSMIN, a Russian grain-measure, the half of

nehetwert = about 21 bushels.
Osnaburgns, coarse linen made of flax and tow, chiefly consumed among the negroes in the West Indies, Brazil, and Ameriea, and the native population of Africa and the East. They derive the name from having been originally made at Os-naburgh in Germany.

OSSETER, a species of sturgeon, which is sald to yield one of the best kinds of Russlan

isinglass.

OSTELLANO, an Italian innkeeper.

OSTRICH-ROS, an Italian linkeeper.
OSTRICH-ROS, the large eggs of the African
bird, Struthio camelus, which are collected
as food by the natives, and the hard strong
shell serves for water-pitchers and drinking-vessels. They are sold in most curiosity-shops, are often mounted as cups, and sometimes engraved and ornamented,

OSTRICH-FEATHERS, the tail, back, and wing feathers of the ostrich, brought from Africa, which are worn as articles of decoration, and for dress, and are also used for making funeral plumes, both in their native state, and variously coloured. The feathers of the American or three-toed ostrich, Rhea Americana, are extensively on bonnets, and as military plumes.

plumes.

youd one's capital, or available means. VER-WEIGHT, beyond the prescribed or OVER- WEIGHT, legal weight. Over-work. See Over-time.

OVINE, pertaining to slicep.

Ovolo, a earpenter's name for a kind of moulding. See Ovalo.
OWITTE, alluvial flat lands in Ceylon, be-

tween the hills, generally cultivated with

OWNER, a possessor; a proprietor. Ox, a male animal of the bovine tribe.

OXALIG ACID, a dry poisonous acid, obtained from wood sorrel, resembling Epsom salts, used for removing ink-stains and iron-moulds, and often sold as salts of lemon.

OX-BOW. See OX-YOKE.
OX-EYE BEAN, another name for the horse-cye bean, or Mucuna wrens of Decandelle. OX-GALL, the bile or bitter fluid secreted by the liver of the ox, which is used for

scouring eloth, cleaning carpets, and, when refined, by artists.

Ox-GANG, a parcel of land of about 15 acres, on the average; as much as a pair of oxen eould plough in a year or season. It varied according to the nature of the land from 6 to 40 acres.

Ox-HIDE, the dried or tanned skin ef the ox; a measure of land, as much as could be encircled by a hide cut into narrow strips.

OXIDITION A GERMAN HARD HARD FOR THE CASK WE call a hogshead, derived from ox-head. It varies from 44 to 52 gallons.

OXIDITION, the rusting of metals by damp, or from exposure to the atmosphere.

Oxides of Iron, the rust on iron from which various pigments and polishing powders are prepared by chemists, bearing special commercial names.

OXIDIZED SILVER, more properly sulphuretted silver; a process of turning the surface dull and dark by washing it with a solution of sulphuret of sodium or potasslum. It is much used by the French in the manufacture of bijouterle.

Oronians, a kind of men's shoes.

Ox-Plouch, a plough drawn by one or more

pairs of oxen.

Ox-REIMS, narrow strips of prepared hide, about 9 feet long, extensively used in the Cape colony for halters for horses, for passing round the horns, close to the head, of draught oxen, to keep them together; twisted for ropes and traces and various other purposes.
Oxygen, a manufacturing name for bleach-

ing-powder.

OXYGENATOR, a contrivance for throwing a current of alr on the flame of an argand

OXYLYDROGEN - BLOWPIPE, an instrument much employed by chemists, mineralo-gists, and others, for the reduction of metallic ores, &c., from which, by the combustion of a mixture of oxygen and hydrogen gases, a very intense heat is

obtained, and substances the most in-tractable have been fused.

OXYHYDROGEN MICROSCOPE, a very powerful microscope for reflecting objects by an

intense light.

OXYMER, a mixture of honey and vinegar, which is prescribed as an expectorant and demulecut. It is frequently combined with other medical ingredients, and then

named from them, as oxymel of squills, &c.
Ox-yoke, Ox-bow, a piece of curved wood
put round the neek of a dranght ox, as a kind of collar to attach the traces to.

OXYRRHODINE, a mixture of oil of roses and vinegar.

Orster, an esteemed edible molluse, the Ostrea edulis, largely consumed in cities. About 800,000 bushels a year are sold in London. There are various species of edible oysters found in different seas.

Orster-bed, a bank in a river or harbour.

&c., where oysters are plauted and fattened

for sale.

OYSTER-DREDGE, a small drag-net for bring-ing up oysters from the bottom of the sea. OYSTER-KNIFE, a strong bluut knifo for opening oysters.

OYSTER-OPENER, an apparatus of French invention, something like a pair of sugarnippers, for opening oysters at the hinge. OTSTER-PATTY, a pasty with oysters baked. OTSTER-ROOM, a metropolitan supper-room;

a shell-fish shop.

OYSTER-SAUCE, melted butter with oysters added.

Orsteas, Scalloped, oysters baked with crumbs of bread in a seallop shell or tin. Oz., abbreviation for "ounce."

OZNAZOME. See OSMAZOME.

## Ρ.

PAB, in Seotland the refuse of flax.

PACE, a degree of speed, and in measure-ment the length of a stride. The milltary pace is 21 feet, the geometrical pace, 5 feet; in Scotland, the weight of a clock.

Pacha, the governor of a Turkish province, Pachana, a bitter tonic prepared in the East from the stems, roots, and leaves of

Cocculus cordifolius.

PACK, the load for an animal; a large handpacked bale of goods, lashed with cord, of variable size: a pack of flour or Indlan-corn meal, flax, &c. weighs 280 lbs.; of wool 240 lbs. net: formerly, in many parts of the country it was 252 lbs.; a par-cel of hounds kept for hunting or cours-ing; a set of suits of playing eards, 52 in number.

PACKAGE, PACKET, a small parcel.
PACKALL, PAGALA, a kind of basket made
of the outer rind of the Ita palm (Mauritia flexuosa)

PACKCLOTH, a coarse baling material; the wrapper for a pack of goods.

PACKER, a person who makes a business of receiving goods from merchants, to pack for forwarding inland or for ship-ment abroad. PACKET, a small bundle of letters or loose

papers tied together.

Packet-day, the mall-day; the day for posting letters, or for the departure of a ship.

PACKET-SHIP, a regular trader; a steam-vessel that carries mails and passengers at stated periods.

PACK-FONG, a Chinese name for Argentine, or German silver. See Pakfong.
Pack-Horse, a horse which carries bales or

PACK-HOUSE, a warehouse for receiving goods.

PAGE-ICE, in the Polar regions, an assemblage of large floating pieces of ice, as far as the eyo can reach.

PACKING, a quantity of wood or coals piled up to support roofs in a mine or for other purposes; the stuffing round a cylinder,

PACKING-CASE, a deal or other box for moving and protecting goods.
PACKING-CASE MAKER, a carpenter, who makes rough deal boxes.

PACKING-OFFICER, an exclse-officer who superintends or watches the packing of paper, and other exciseable articles.

PACK-10.D, the average load an animal can carry in its back. The load for an ass, for a cance, and a mule, have already been stated. The pack load for a man is about 60 lbs., for a pony 125 lbs., for a bullock 210 lbs., and for an elephant, 1000 lbs. The loads of pack animals and of carriages, will however necessarily vary according will however necessarily vary, according to the nature of the goods, the road, or the season.

PACKMAN, a pedlar; one who carries a pack.

PACKMAN-RICH, In Scotland, a species of bero or barley having six rows of grains on the ear.

PACK-SADDLE, the saddle for a pack-horse. PACK-SHEET, a balling material, a large eover for goods in a wagon. PACK-THARAD, strong twine; small cordage that has been thrice twisted.

PACO, one of the names given to red silver

Pacou, ariver fish of Demerara (the Myletes pacu), which is excellent food when

paca, which is caseling to dried and smoked.
Pad, a basket of soles; a fish measure, which waries in number—60 mackers go to a pad; a soft stuffing; a bolster or saddle; to impregnate with a mordant; to travel

PADAR, groats; coarse flour.
PADDINGS, a cloth worked out of old rags for stuffing collars and other parts of coats.
PADDLE, a furnace tool; a small seull, or broad-ended oar for propelling a boat or canoe; the fly of a steamer's wheel; to

PADDLE-ROARDS, floats fixed round the circumference of a steamer's paddle-wheel for propelling her through the water.

PADDLE-BOX, the upper case or cover of the paddle-wheels in a steam vessel, sometimes removeable, and forming a klud of available life-boat

PADDLE-HOLE, in building, a clough arch.
PADDLE-SHAFT, the shaft upon which the
paddle-wheel is fixed and connected with the crank shaft.

PADDLE-WHEEL STEAMER, a steamer pro-pelled by side paddle-wheels—not a serew propeller

PADDLE-WHEELS, the dipping wheels on each side of a steam boat, armed with floats for propelling her through the water.

PADDLE-WOOD, a light, clastic, and very strong wood obtained from Aspidosperma excelsa in Guiana, which is preferred to any other for action-gin rollers. The fluted projections of the trunk are used by the Indians for the construction of their paddies.

PADDOCK, a small field or fold for a horse or deer, &c.; In Scotlaud, a low sledge for re-moving stones.

PADDY, unhusked rice.

PADDY-BIRD FEATNERS. ADDY-BIRD FEATHERS, ornamental feathers, smaller and finer than those of the ostrich, of a cream colour, imported in limited quantities from the East, obtained from a small species of crane which frequents the rice fields, whence the name. ornamental fea-

PADDY-FIELD. a field under rice culture.

PADECUM, a brass splittoon used in Madura

and other parts of India. PADELIN, a kind of crucible.

Padella (Italiau), a small frying-pan; a klud of oven.

Padellaro (Italian), a maker or seller of frying-pans.

PADEN. See BADDAN. PADESOY, a kind of silk.

PADLOCK, a lock with a link to hold on to a staple.

PADOU, a sort of silk ferret or ribbon.

PADOUK, the Burmese name for the Ptero-carpus Indicus, a valuable forest tree Padra, a black tea.

PADRE, a Romish priest. PADS AND POTS, a kind of fish-hamper,

PAE, a grain-measure of some parts of India, eight of which go to the koora. The pae of cleaned rice weighs about 3 lbs.
PAFFLER, one who occupies a small farm in

Scotland

PAGACK, a measure for ten gallons.
PAGARE (Spanish), a bond or agreement to pay a certain sum.

PAGATORE (Italian) a paymaster.
PAGE, a boy servant in livery, who attends
on a lady; one side of the leaf of a book or writing.

PAGE-CORD, thin twine used by printers to tic together the pages or columns previous to printing.

poised on the shoulder, used in Ceylon for carrying burthens.

PINGUM, PENSOWYN, a fence plant used in the West Indies for hedge-rows, the Bromelia Pinguin and B. Karadas. PINSHEAD, the wire added to the top of a

pin.

pin.
Pinion, a pivot; a small toothed wheel, connected with, and receiving motion from a larger one; the quills from the joint farthest from the body of the wing of the goose or swan, used for making pens, also called "firsts."

Pink, and caned miss.

Pink, a painter's colour, a yellowish or pale red, or light crimson, of which the chief varieties are rose-pink, Dutch, and English-pink; a garden-flower; a vessel with a round stern and bulging sides, capable of carrying a large carge; to slash cloth; to work in eyelet holes.

PINKER, one who stabs or ents out flounces borders, &c. with a machine, for ladies dresses and shrouds.

PINKIE, a name in Scotland for the weakest kind of table-beer.

Pinkino-Iron, a cutting instrument for seolloping the edges of ribbons, flounces, paper for coulin triumings, &c. Pink-Root, a name for the worm-grass

INK-ROOT, a tunne for the worn-grass (Spigelia marilandica), a poisonons nareotic and purgative, and a very powerful vermifinge; the fresh leaves and stems of Spigelia anthelmia, and S. marilandica, are used as an anthelmintic.

PINK - SAUGER, a little saucer, containing safflower prepared with a small portion of soda, and used for giving a tlesh tint to

silk stockings, &c. [stern. Pink-stern, a ship with a high, narrow Pin-maker, a manufacturer of pins.

l'innaer, a ship's barge, intermediate in size between a launch and a cutter, and never rowing more than eight oars.

PINNACLE, a small turret or spire on the angle of a building.

PINNACOTTAY-OIL, a name in some parts of India, for an oil obtained from the seeds of Calophyllum inophyllum. In other districts it is called Ounder-oil.

Pinocemo (Italian), the edible seeds from pine-cones; the kernel of the pine apple. Pinola, Pinula (Italian), a spindle; the detent of a repeating watch,

PINOLE, an aromatic powder used in Italy for making chocolate.

PINONATA, a conserve or pasto made of the

kernels of pine cones.

PINSTICKER, a person who fixes pins in paper; a unachine which performs tho saine operation. Pint, a British liquid aleasure; I of an im-

perial quart, and & of a gallon: a pint of alstilled water weighs 14 pound avoirdupois; a Seots pint contains three English pints, and Is = 103 404 cublc inches. PINTLE, a metal bolt on which the rudder

of a ship is hung. PINT-STOUP, a tin-measure in Scotland, containing very nearly three English pints.

PIOCHE (French), a pickaxe or mattock. Promeir, a settler or colonist who pene-trates into the wilderness; a backwoods-nan; a working soldier provided with hatchet, &c., who precedes and clears the way of obstructions for an array, repairs the roads, and works at intreneh-

PIPE, a leather or eanvas hose; a long tube or eylinder of metal, carthenware, or glass, for conducting water, gas, steam, &c. When large, water and gas pipes are called mains, large, water and gas pipes are called mains, and the smaller ones, supply pipes and services; a tube for smoking; a boatswaln's whistle; a cask for liquids of variable dimensions, but considered ordinarily to hold 105 gallons. In different countries and localities it varies considerably, ranging from 63 up to 156 gallons.

Pipe-case, a smoker's pocket-case for holding a short mecrschamm or clay tobacconine.

pipe.

PIPE-CLAY, an adhesive and plastic unctions earth, containing about 36 per cent, of almaina with 61 silica, which is used for moulding clay tobaceo-pipes for smokers, for making various kinds of eartheuware, and as a detergent for eartheuware, and as a detergent for the continuation of the second of the continuation of the second of the securing cloth. From Kingsteignton, in Devonshire, nearly 20,000 tons are oh-

tained yearly.

PIPE-LAYER, a workman who lays gas mains, water, or draining pipes.

Pipe - Manufacturer, a maker of metal tubes, clay, or glass cylinders, or of to-bacco smoking-pipes.

PIPER, one who plays on the bag-pipes.

Piee-staves. See Staves.
Pi-fi, the legumes of Casalpinia Papar used as a tanning material, but inferior to Divi-divi.

PIPIAN, an Indian frieassee.

Piping, a kind of cord trimming or fluting for ladies' dresses.

PIPING-IRONS, fluting-irons.

PIPING BULLFINCH, a bullfluch that whistles tunes.

PIPKIN, a small earthen saucepaa. PIPOTE (Italian), a keg; a small barrel. PIPPIN, a name for some varieties of small choice apples.

PIPSISSEWA, a wild plant of North America, the Chimaphila umbellata, which being diuretic, aerid, and narcotie, is used in medicine.

Piquee (French), mareella; a cotton stuff

nsed for walstoats.

Piquette, sour acid wine; a drink made
in France by pouring water on the
husks of grapes.

Plan, a scheme; an outline drawing or design; a ground-plan of a building; a horizontal section.

PLANCHET, in coining, a pleco of metal in-tended for a coln, with a smooth flat sur-face, to be placed in the mili for receiving

the die impression. [cumferentor. Planchette, a small plank or board; a cir-Plane, a carpenter's cutting and surface-PLANE, a carpenter's cutting and surfacesmoothing tool, of which there are great
varieties, named after the purposes they
are intended to fulfil; as smooth-plane;
bending-plane; jack-plane; trying-plano;
long-plane; jointer-plane; mouldingplane; panel-plane; rounding-plane;
toothing-plane; fork-staff-plane; ovolo;
lamb's-foraged, astragal and hollowsash-planes; bend-plane; match-plane;
grooving-plane; hand-rall-plane; tableplane; single and three reed-planes; sidefilisters; sash-filister; doyetail-hox; sidefilisters; sash-filister; doyetail-hox; filisters; sash-fillster; dovetail-box; slde-round; side-rabblt; side-snipe; squareskew - rabbit; and numerous others.

PLANE-RONS, cutling froms to insert in a plane, and which are either double or single. PLANE-MAKEA, a manufacturer of the wood cases for workingn's planes.

PLANER, hi printing, a flat square-made pleee of wood, used by the compositor for foreing down the type in the form, and making the surface perfectly even.

PLANE-TABLE, a surveyor's instrument for taking angles.

PLANETARIUM, a machine for showing the motions of the planets.

PLANETAREE, the sycamore, Platanus occidentalis, a large North American tree, the wood of which is used for musical instruments and other works roothing. ments, and other works requiring a clean light-coloured wood.

PLANING-MACHINE, PLANING-MILL, a facing-PLANING-MACHINE, PLANING-MILL, a facingmachine for smoothing boards, &c., and ceonomizing time and labour; an application of the silde-rest to a traversing-table.

PLANISH, to smooth wood; to polish metals. PLANISHER, a tool used by turners for smoothing brass work; a workman who bammers metals into a flat surface.

Banniners methis into a flat surface.

PLANK, a liquid measure used in Lubeck,
Bostock, &c., also called a noessel, about
4 of a pint; a long flat piece of timber.
See Boaan, Deat, and Load.

PLANK-ROAD, a road formed upon planks
inid transversely, much used in America.

PLANK-ROAD, a suwyer,
PLANT, railway curious, and procitions.

PLANK, railway engines and machinery; utensils; the machinery, apparatus, or fixtures by which a business or manufacture is carried on, as a bulled's plant; the blant of a browery to set by the plant of a brewery, &c.; to set in the ground; to cultivate.

Plantado-Pasado, the sun-drief fruit of the plantain, which forms a considerable article of internal commerce in some of the districts of Mexico.

PLANTAIN,

the districts of Mexico.

LANTAIN, a succulent shrub or tree, the Musa Paradisiaca, largely cultivated in the troples for its fruit, caten bolled or roasted, or prepared into dough and meal; bags are made of the leaves, and the stalk furnishes a large quantity of reafil fibre for paper making or for paper in the stalk furnishes a large quantity of reafile. useful fibre for paper making or for cordage. Another species, M. textilis, furnishes a valuable fibre for rope. See MANILA-HEMP.

MANILA-HEMP.

PLANTATION, IN woodland of young trees, an estate for growing coffee, sugar, indigo or spices in the tropies; formerly tho term was applied to our foreign possessions, now generally known as colonies.

PLANT-CANE, a first crop of sugar-canes raised from cuttings, not a ratoon or second-shoot crop; the former yielding more integrands sugar.

more julee and sägar.

PLANTER, the manager or overseer of a sugar estate; the superintendant of a coffee plantation or an indigo estate.
PLAQUETTE, a small French coin; a

farthlug,

PLAQUEUR (French), one who veneers or lays on plates.

PLASHING, binding and interweaving branches of trees for low fences, &c.

Plasm, a mould or matrix.

Plasma, a transparent chalcedony of a grass-green or leck-green colour, found in India and China.

PLASTER, a common name in America and other quarters for gypsum, used as a manure; a composition of lime and ladr; a substance for easting ornaments and figures; an ointment or salvo spread on skin or paper.

PLASTERER, a workman who covers the walls, ecillings, &c. of a house or other

edifice with plaster.

PLASTERERS'-COMPANY, one of the minor livery companies of London, which has no hall. PLASTERERS'-HAIR MANUFACTURER, a col-

lector and preparer of cow hair, and other waste hair, for mixing in mortar.

PLASTER-FACTORY, works where gypsum is

ground and prepared, or where cements are made.

PLASTER-IMAGE MAKER, one who makes figures, medallious, and other easts in plaster of Paris.

PLASTER-OF-PARIS, a common name for sulphate of limo or gypsum, from its occurrence in the Paris formation.

PLASTERS, external medical applications, the base of which is gaugally metallic

the base of which is generally metallic or alkaline soaps.

PLATA, the Spanish name for silver, applied to both ore and money

LATA-PINA, amalgamated sliver,

PLATE, a common name for articles made of the precions metals for table use; a liorizontal timber placed on a wall to receive other pieces; a small round flat food platter; a flat piece of metal, such as a copper-plate, door or name plate, boiler-plate, &c. PLATEAU, a large ornamental centre dish

lor a table; a tea tray or salver.

PLATE-BASKET, a basket lined with tin for removing plates which have been used from a dinner table; a small basket lined with baize for holding knives, forks, and SDOOMS.

RAFTERS the rips of the roof to house the

RAFTERS, the ribs of the roof of a house; the beams on which the roofing rests,

RAFTSMAN, the inallager of a rait of timber. RAG, stone that breaks into jagged pieces; a large kind of slate; a torn, worn, or waste piece of linen or woollen cloth. See RAGS.

RAGA, a grain-measure of the Sooloo and Sunda isles, in weight 535 lbs. RAG-BROKER. See RAG-MERCHANT. RAG-DEALER, a marine store-dealer. RAGEF, the English name in Hindustan for a grain of which recognizes the state.

a species of milliet, Eleusine coracana.

RAG-FAIR, a metropolitan market for vendlng old clothes, and cast-off garments. RAG-GATHERER, nn ltlnerant collector of

rags from the streets, dungbills, and sewers.

RAGGED-SCHOOL, a free school for the education of the children of the poor.

RAGGING. See STRAGGLING.
RAGMAN, RAG-MERCHANT, n wholesale pur-eliaser of rags from collectors, marinestore dealers, and individuals, for re-salo to paper manufacturers, farmers, and

others. BA GOUT, n high-seasoned dish. BA GOUT, n high-seasoned dish. BA GS, the fragments and shreds of wornout garments nnd drapery, woollen or linen, collected for various purposes throughout the kingdom, and amounting, with those imported, to more than 70,000 tons a-year, worth fully a million sterling. Woollen rags are used for manure, for working up into shoddy, or coarsa cloths and druggets, and for flockstering. Wooden rigs are used for manure, for working up into shoddy, or coarse cloths and druggets, and for flock-paper; linen rags for making lint, and paper; and cotton rags for paper-pulp.

RAG-SHOP, aplace where rags, bones, kitchen grease, scrnp metal, and other refuse articles are purchased in small quantities. RAGSTONE, a description of hone-slate, used as a wheels with a hotched edge.

RAG-wulker, a wheel with a notched edge.

RAG-WHEEL, a wheel with a notched edge. RAHAL, an Arnhlan name for a camel-load, nbout 5 cwts.
RAHMEL, REMEL, a German term for a bundle of flax of 20 lbs.

RAI, RAEE, names in Hindostan for somo species of mustard-sced, as Sinapis nigra, and S. ramosa.

RAIK, a weight and measure for grain in Bengal of 20 chittacks, and weighing

24 lbs. RAIL, a long narrow har of iron used for rallways; a horizontal timber in a piece o panelling; a piece of wood resting on stakes or posts, forming part of a fence of

wooden rails. wooden rails.

RAILEOAD, RAILWAY, levelled and prepared roads, laid with Iron hars, for locomotives and carriages to travel easily, of which there are many thousand miles laid throughout the United Kingdom, and a large number in other countries. In the United Kingdom there are about \$,500 mlles of railway; in the United States, 24,500 mlles, in operation. On the Continent, in India, and in the Colonies, they are also spreading.\*

KALWAY-BARS, long wrought from bars,

15 feet by 21 to 3 inches broad, and 5 inches deep, laid down and fixed on n prepared road for locomotivo engines, rullway carriages, and wagons to travel on. RAILWAY-BLANKET, RAILWAY-RUG, a travel-

ler's warm wrapper.

RAILWAY-CARRIAGE, a passenger carriage drawn by an engine on a railway linc, which are vnriously fitted for the accom-modation of first, second, and third class passengers.

RAILWAY-CARRIAGE-SPRING MAKER, a MAHUfacturer of tho metal springs for railway

carriages.

RAILWAY-CHAIR. See CHAIR.

RAILWAY-CHAIRMAN, the head of a railwayboard.

RAILWAY-COMPANION, a pocket-case for a traveller on a rallway, for holding sand-wiches or other refreshments.

RAILWAY-CROSSINO, the place where an ordinary road crosses a railway line.

RAILWAY-DEPOT, the goods station of a rall-

RAILWAY-DIRECTOR, a managing member of a railwny board or committee

RAILWAY - ENGINE, n locomotive steam-engine for drawing a railway train. RAILWAY - GREASE MANUFACTURER. See GREASE, and GREASE-MAKER.

RAILWAY-LINK, n draw-link.

RAILWAY - MARKET, the Stock-exchange; where shares are dealt lu.

RAILWAY-PLANT, the locomotives, earrlages. trucks, and general machinery, for work-

lng a railway. RAILWAY-SERIP, the first or preliminary certificate Issued on account of moucy paid for rallway shares.

RAILWAY-SIGNAL, a telegraph, light, or coun-hustible to give notice of the approach or departure of trains. See Fog-Signal.

RAILWAY-SLEEPER, a cross timber for carrying the iron rails.

Railway-slide, a turn-table.

RAILWAY-SPECTACLES, wire-gauze shades, for the eyes, to protect them from dust, &c. when travelling.

RAILWAY-STATION, the place whence railway trains start.

RAILWAY-STOCK, the capital invested in a railway.

RAILWAY - SUPERINTENDANT, the general traffle-manager of a railway, or a special officer at a station.

RAILWAY-SWITCH, an instrument for moving the diverging points of the rails at a station, and thus changing the route of the trains.

RAILWAY-TICKET, a pass given at a railway office in return for the money fare paid in.
RAILWAY TIME-TABLE, a printed list of the hours of nrival or departure of trains, fares, &c. on a railway.
RAILWAY-TRACK, the line of iron rails on arbital hadren to return to the control of the control o

which the train travels.

RAILWAY-TRAIN, a connected set of carriages and breaks, drawn by n locomotive engine.

RAILWAY-TRUCK, a wagon for conveying baggage or merchandlse on a railway.

RAILWAY TURN-TABLE MANUFACTURER, a maker of the circular revolving platforms or sliding frames, called turntables, by which carriages, &c. are transferred from one set of ralls to another, at a depot or station.

RAILWAY-WHEEL MAKER, a manufacturer of tho peculiar metal wheels required for carriages and engines travelling on a rallway line.

RAILWAY-WHISTLE, n mechmical contri-vance on the locomotive, by which a loud, shrill, warning sound is given, to call at-tention in tunnels, or at the approach of the train to stations.

RAILWAY-WRAPPER, RAILWAY-RUG, a bian-ket to cover the logs in travelling.

RAINETTE (French), a compositor's knife; a

rennet apple.

RAIN-GAUGE, an instrument for registering the fall of rain in a given period. It has also various other names, as hygrometer, ombrometer, pluvlometer, &c. Its principles and construction are of the simplest nature, but it is made of a variety of shapes.

RAIN-WATER-CASK, RAIN-WATER TANK, a receptacle for rain-water, for domestic

washing purposes.

RAIN-WATER-HEAD, a hollow receptacle of iron at the top of a rain water pipe, receiv-

ing the water from the gutter.

RAIN-WATER-PIPE, a hollow tube of east or wrought iron, made in lengths, for earry-lng olf rain water from the eaves of a roof. RAISED PIE, n solid meat ple, baked without n dish, served nt suppers, dejeuners, &c.

See PORK PIE.

Raisins, dried grapes, imported chiefly from Malaga nnd Sinyrna, to the extent of 12,000 or 13,000 tons annually, as a dessert fruit, and for puddings.

Raisin-wine, a British home-made sweet wine from raisins.

RAJADILLO (Spanish). a comfit of sliced almonds crusted with sugar.

RAJETA, a kind of Spanish coarse cloth of mixed colours. RAJIKA, a Sanserit name for black mustard

seed. RAKE, n gardening or agricultural tool with teeth and a handle; several of these, as horse-rakes, stubble-rakes, hay-rakes, and drag-rakes, are drawn by horses; the inclination or slope of a mast from the perpendicular.

RAKEE, a common Russian brandy.

RAKITZER, a first-quality flax in some of the provinces of Russia.

RAM, the male of the sheep.

HAM, the male of the sheep.

RAMA (Spanish), a rack; a chase for holding printing-type.

RAMASSEUR (French), the driver of a mountain sledge termed a ramasse.

Rose-wood is a term as generally applied as iron wood, and to as great a variety of trees in different countries; sometimes from the colour, and sometimes from the smell of the wood. The rose-wood, imported in such large quantities from Brazil, is the Jacaranda Brasiliana, and some other species.

Rosin, the mass left after distilling off the volatile oil from turpentiue, forming a large article of commerce. Yellow rosin contains some water, while black rosin does not. See Colophony.

Rosin-oil, an oil obtained from the resin of the pinc-tree, used by painters, for lubricating machinery, and for other purposes, and in France for making printing-ink.

Rosilo, a red liquent winc of the Adriatic.

Rosilo, a red liquent winc of the activation of service or duty, as in the case of policemagistrates, military officers, and others, who relieve or succeed each other.

who relieve or succeed each other.

ROTARY-ENGINE, one for obtaining direct rotary motion.

Rot-step, a weak alkaliaciye used in called-printing to remove the weaver's dress-ing.

ROTTEN-STONE, a variety of English tripoll, found in large quantities in Derbyshire and South Waies, and used for pollshing, &c.

South wates, and used for poisting, ec.
ROTTOLO, a measure used in parts of the
Mediterrancan. In Malta, it is 2 Maltese
pounds, or 30 ounces, = to 1.12 oz. avoirdupois. In Aleppo the ordinary rottolo is
nearly 51bs., but that for weighing silk
varies from 11 to 1.1.7th ib.

ROGANNE, a marking or brandlug Iron.
ROUBB, the fourth part of a piastre, a coin
current in Turkey for 10 paras. [plastre.
ROUBBIE, a gold coin of Turkey, equal to a
ROUBLE, a Russian silver coin of 100-opecks,
which is the legal standard of silver
currency by which accounts are kept. It
contains 4 zolotniks, 21 parts. Russian
weight, of pure silver, with 61 14-25th
parts of alloy, and is worth from about 3s.
14d. to 3s. 7d. according to the coinage. The ROYANNE, a marking or branding Iron. 11d. to 3s. 7d. according to the coinage. The coined gold rouble contains 27 parts of puro gold, in coincd pieces of 10, 5, 3 and 1 rouble each: 100 roubles of gold are enacted to be equal to 103 roubles of silver. Roubles of platina are current in Russia. The coined pieces are of 12, 6, and 3 roubles each, equivalent to the same number of silver roubles: a platina piece of 3 roubles contains 2 zolotniks, 41 parts of pure

nlatina ROUCOU, ROUCOUYEA, Spanish names for

ROUCOU, ROUCOUYEA, arnotto, tho Bixa orellana.

ROUGE, a scarlet powder made from crystals of suiphate of Iron, and used for polishlag gold or silver; a colouring substance used by females for paluting their faces, consisting of carthamine, the colouring sisting of earthamine, the colouring principle of safflower, mixed with powdered tale. See Crocus.

ROUGE AND CARMINE MAKER, a preparer of

those colours.

ROUGE ROYAL, a kind of marble. ROUGH-SHOD, a horse which has its shoes roughed or eaulked to prevent slipping on icy or frosted roads.

ROUGH STUCCO, stucco floated and brushed

lough Stoco, sneed noted and brushed la n small degree with water. ROULER, (French), a wagoner or earrier. ROUNCE, a wooden eyllnder, to which is attached a belt and handle, for rolling in and out the bed or coffiu of a printing-

ROUNDS, brewers' vessels in the tun-room, which are filled with beer from the fer-

mentlag squares.

ROUND-TRADE, a term on the river Gaboon and neighbourhood for a description of barter, comprising a large assortment of miscelianeous articles, also called the buadle trade. [by anction. Roup, a name in Scotland for a public sale

ROUSER, n rotating machine for stirring hops in the brewer's copper.

SACHED-BEAN, the Netumbum speciosum, SACHED-BEAN, the Netumbum speciosum, SACRISTAN, a keeper of church furniture, SADANO, SAUNDANO, a mcasure of length in Pegn, = 0'601 yard.

SADDLE, a leather scat or pad for the back of a saddle-horse; a joint of meat with the ribs on each side.

SADDLE-BACK, the name for a kind of seal. SADDLE-BAGS, bags carried across a horse. SADDLE-CLOTH, a rug put under a saddle on

a horse's back.

SADDLER AND HARNESS MAKER, a worker in leather; one who makes up various articles for horses, as bridles, saddles, traces, relns, collars, harness, &c. There are some tradesmen who devote them-selves more particularly to one branch, as

army, hunting, or chaise-saddlers.
SADDLERS' COMPANY, one of the livery companies of Londou, whose hall is in Cheap-

SADDLEAS'-CURBIER, a preparer of leather for the use of saddlers and harness-makers.

SADDLERS' HAIR-SKINS, seal-skins obtained from old animals, the dozen skins weighing from 160 to 260 pounds. See White

SADDLEAS'-IRONMONGER, a smith or dealer who supplies the metal work required by saddlers, for saddles, harness, &c.

SADDLERY, a collective name for various articles of horse-gear, made of leather. The value of the exports annually average a quarter of a million sterling.

SADDLE-TREE, the frame-work of a saddle SAD-IRON, a tailor's flat-iron or goose, used, when heated, for smoothing cloth, and made of the weight of \$\frac{1}{2}\$ lo, up to 10 lbs.

SADaus, II name in Bengal for the aromatic

bark of the Laurus Malabathrum.

SAFE, a cupboard for meat; a fire-proof chest; a receptacle for books and valuable ones, a reconstruction books and valuable papers. Fire-proof safes are made of strong wrought-iron, lined with hard steel plates, the luterval between the two being filled with some non-conductor of SAFETY-BELT, SAFETY-BUOY, II swimming best or buoy, intended as a protection from drowning.

 $S \Lambda G$ 

SAFETY-DOX. See SAFE.
SAFETY-LAMP MAKER, a manufacturer of wire-gauze warning lamps, for use lumines where there is any danger of contact with fire-damp.

SAFETY-VALVE, a vent or valve to facilitate the escape of steam, and prevent the explosion of steam-bollers.

SAFFLOWER, the bastard saffron, the produce of the florets of the Carthanus line-torius, largely imported as a dye-stuff. The seeds, yielding an abundance of fixed oil, are also imported for crushing.

SAFFRON, a commercial name for the dried stigmata of the flowers of the Crocus sati-vus. These are picked out, dried on paper in a kiln, or by the sun, and sold either compressed into cakes, or as hay sall ron. Cake saffron, as now met with, contains none of the real article, being prepared from the florets of the saffron made into a paste with gnm-water. Saffron is used as a colouring principle, and an ingredient in several entinary preparations. We imported 11,000 (bs. in 1855.

SAFFRON-CAKE, a pastry, coloured and flavoured with salvon.

voured with sallron.

SAGA, a name in Siam for the red seeds of Abrus precatorius, 32 of which make a phaining, worth about \( \frac{1}{2} d. \); a gold and silver weight used in Malaeca, the 12th of

the mayam, and = 4.33 grains.

SAGAPENUM, a fetid gum-resin obtained from the Ferula Persica, which has a hot, nauscous, and rather bitter taste, and an odour resembling that of garlie and asafœtida. Its medical uses are the same as those of asalætida, but it is considered less energetic, and is but little employed.

SAGATHY, a mixed woven fabric of silk and cotton.

SAGE, a culinary herb, the Salvia officinalis, used as a seasoning in its green or dry state. An oil is also obtained from it.

SAGE-CHEESE, a green kind of cheese, simply coloured by a decoetion of sage and other leaves being added to the milk. In Scotland, the seeds of lovage are added to chcese.

SAGENE, SACHINE, a Russian measure of length, = 1·107 English lathom: 1 English fathom = 0·856 Russian sagene.

SAGE, WILD, a name in the Cape colony for the Tarchonaultus camphoratus, the leaves of which are chewed, smoked, and ampleyed in the Grape for the figure of the sample of employed in the form of infusion.

Sagger, Segger, a crueible or clay pot for baking earthchware, shaped like a hatbox, and being piled in columns in the oven, each sagger covers the one beneath it, and protects the goods from the immediate contact of smoke and flame.

SAGGING, a name applied to the bending of beams in the middle.

SAGINA, a name for broom corn in Italy.
SAGO, a granulated form of starch obtained from the pith of the trunk of Sagus lævis, and S. Rumphii, in Singapore, the former

furnishing most of the sage sent to Europe. In India It is obtained from Phicnix farinifera. Our imports for nome consumption, in 1855, were 5420 tons. Sago is made on the Conlinent in smaller grains from potato starch,

SAGO-PUDDING, a baked pastry made with

sago, milk, sugar, and spice. Saheba, an Indian name for worm-seed.

the produce of Artemisia judaica.
SAIM, a measure for charcoal used in Aus-

tria and Hungary, = 6.768 bushels.

SAIDEL. See SEIDEL.

SAIL-CLOTH, a coarso flax or hempen fabric for sails, made to an immense extent in Dundee, See Canvas.

Sailing-match, a regalta; a race or contest for speed between yachts or salling-

boats

SAIL-LOFT, the workshop of a sail-maker; a place where breadths of canvas are sewed into ship's-sails.

SANL-MAKER, a workman who shapes and sews sails; one of a ship's erew who has the charge and repair of the sails.

SALLOR, a hired skilled seaman; one who assists in the navigation of a ship.

SAILS, shaped pieces of eanvas for boats, ships, and windmills,

SAIN-DOUX (French), hogs'-lard, SAINFOIN. a fodder-grass, the Hedysarum onobrychis.

SAIQUE, a vessel of the Levant. SAJNA, SUJNA, Indian mames for the Moringa pterygosperma.

SAKA, a colonial name for the bastard purpleheart tree, used in Demerara as a furni-

thre wood; a Thrkish water-earrier.
Sakagnera, the Sanserit name for henna,
Sakes, the Turkish name for gum mastie.
Sakhalat, tho Malay name for woollen eloth.

SARUR, an Indian name for small rounded astringent galls, formed on some species of Tamarix, which are used in medicine and dyeing,

SALAD, lettuces, endive, and other herbs eaten raw, dressed with vinegar, oil, and other condiments.

SALAD BOWL, a deep erockery-ware bowl used for inlying salad in.

SALAD-CREAM, a prepared dressing for salads. SALADING, vegetables for making a salad. SALAD-OIL, Florence or olive-oil, usually retailed in wicker-eased flasks, for mixing

with salads.

SALAD-SPOON, a wooden, ivory, or other spoon, for mixing and serving salid.

SALERATUS, a namo in the United States for prepared earbonate of soda and salt. Of this chemical product there are two of this chemical product from and the kinds, one a bi-earbonate of soda, and the other of potash. Salæratus is used by other of potential state with eream of tartar, for mixing with flour, sour milk, de. to evolve the earbonle acid gas on the addition of water, the dough expanded the addition of water, the dough expanded the state of the state ing in the oven, and rendering the product It is also used for light and spongy. bleaching purposes.

SALAJIT. See SALARAS. SALAMANDER, a vessel for cooking; a kind of aliblaze.

SALAMANDEB-SAFES, an American name for patent fire-proof iron safes.

pacti He-proof from sales, Salamanir, a Thirkish flute, Salamin. See Celebin. Salamoniac, the hydrochlorate of ammo-nla, obtained by salarating the ammonlacal liquor of gas-works with muriatic acid, and afterwards sublimating it. It has many commercial uses; as for medicino, metallurgic operations, tinning and soider-

lng, &c. AL VOLATILE, a smelling salt, the ear-bonate of ammonia. SAL

SALANIII, a small cured herring imported into the Ionlan Islands.

Salanic, a Neapolitan name for salted pro-

visions. SALARAS, a native Indian name for the bitter stalks of the Ophelia elegans, which is often confounded with Chiretta.

SALARY, a stipend; wages paid periodically or annually

SALE, an auction; the disposal of goods to public or private bidders; a wickerbasket.

SALE, BILL OF. See BILL OF SALE. SALEP, the furinaceous portion of the tubers of the Orchis morio, formerly in much repute as a dlet drink, but now less used. Twenty-seven ewt, were imported in 1855.

SALESMAN, a vender; a wholesale dealer, of whom there are various kinds in the metropolis and eisewhere; as butter, meat, poultry, eattle, and sheep, hide, oyster, game, fruit, hay and straw, potato and other salesmen.

SAL GEM, a commercial name for native rock-salt or chloride of sodium.

SALIBREROS (Spanish), a maker of nitrate of

SALICINE, an alkaloid; the crystalline bitter principle of the bark of the willow, which is used medicinally as a febrifuge. Besides what is made at home, we imported the state of the sta (shrimp. in 1855, 646 oz.

SALICOQUE, SALICOT (French), a prawn or SALICOR, the ash of the Salicornia annua, which is often employed in France as a source of earbonate of soda, of which it frequently contains 15 per cent.

SALINAS, a name for salt marshes or salt ponds inclosed from the sea.

SALINOMETER, a salt gauge for indicating the density of the sea-water in the marine steam-boiler, and for keeping it free from salt or incrustation, by blowing off when required.

Sallow, a name for speeles of Salix, which are not flexible like the osier, but furnish

the best charcoal for gunpowder.
SALLY LUNN, the common name for a kind of sweet tea-eake, which is toasted and buttered.

SALLYPORT, a postern gate, or passage under ground, from a fortified place.
SALMA, a measure of enpacity used in the kingdom of the Two Sicilies, and other localities in the Mediterranean, of a variable dependent require able character, ranging from 17 to 67 gallons; in Malta it is nearly 73 bushels. It is likewise a Maltese land-measure, equal to four acres, 1 rood, 284 poles nearly; in Sleily it is 55 acres. SAL

SALMAGUNDI, a mixed dish of unlneed meat and condiments.

Salms, (French), jugged hare, Salmon, a choice ediblo fish frequenting the Northern seas and rivers, of which as much as 4000 tons' weight has sometimes been taken in a season, in the Irish and Scotch rivers, and the greater part sent to London for sale.

SALMON-FRY, the Salmo samulus.

Salmon-Peel, a young salmon. Salmon-Trout, a fino Iresh-water fish, the

Salmo trutta.

Saloon, a large room used as a place of entertainment; the state-room or main eabin of a passenger-ship or steamer; the refreshment-room in a theatre.

SALOOP. See SALEP. SALPICON, a stuffing or larding put into

SAL-PRINELLA. See PRUNELLA SALT.
SALSAFY, a mane for the Tragopogon porrifolius: the mutritious and sub-aromatic
roots are sweet and tender, and much esteemed as an esculent.

Sal-Soda, an American commercial name

for the carbonate of soda.

SALT, eliloride of soda, an effloreseence, also found in beds and masses. Its uses for cullnary purposes, for manure, for eattle, and for metallurgle operations, are well known. It also enters largely luto the manufacture of soda, soap, earthenware, &c. The principal commercial varieties are rock-salt, common white salt, and stoved salt. See Salts.

SALT AND CURED PROVISIONS, beef and pork prepared in pickle, or smoke-dried, for use as food. A large trade is earried on in these articles, the estimated consumption in the kingdom being 103,600 tons, valued at £3,500,000 sterling. The general weight at £3,500,000 sterling. The general weight of the packages may be stated as follows: of the packages may be stated as follows: Irish bacon is usually packed in matted bales of 3 cwt. nett; American bacon in boxes weighing about the same. American shoulders, hams, &c., in hogsheads of about 8 cwt. each, nett. Beef and pork, in tierces of 318, 320, and 336 lbs. nett, or in largests of 900 kbc/ms. barrels of 200 lbs, nett.

SALT-BOX, a wooden box for a kitchen to keep salt in for ordinary purposes.

SALT-CARE, a name for sulphato of soda made at alkali works, for the use of erown-glass manufacturers and soap makers. The consumption is about 12,000 tons a year.

SALT-CELLAR, a small vessel for holding salt at table.

SALTER, a dealer in salt, a dry-salter; ono who cures meat or fish with salt.

SALTERS' COMPANY, the 9th in rank of the 12 great livery companies of London, whose first charter bears date 57 Edward III., A.D. 1363: their half is in St. Swithin's [sulted.

SALT-FISH, cod or ling, which has been SALTINO-PAN, an earthenware vessel to stand meat in pickle.

SALTING-TUB. See Pickling-Tub.

SALT-MARCHOR, Bard, dry, cured beef.
SALT-MARCH, a preparer of sait in salinas or salt ponds; a salt belier.

SALT-MERCHANT, an exporter or wholesale dealer in salt.

SALTPETHE, the nitrate of potash, imported chicfly from India, to the extent of about 20,000 tons a year; used in medicine, in making gunpowder, pickilng, and other purposes.

SALTPETRE-REFINER, a purifier of the erudo nitrate of potash.

SALT-RAKER, a collector of salt ln natural salt-ponds, or enclosures from the sea.

Salts, combinations of acids with oxido bases. English salt is chlorido of soda; Epsom salt, sulphate of magnesia; Glanber's salt, sulphate of soda; Polyebrest or Glaser salt, sulphate of potash.

SALTUS, an ancient Roman land-measuro, = 493 4-5th acres.

SALT-WORT, the Salicornia annua, a source of soda. The shoots when young are pickled and sold under the false name of samphire. See Salicon.

Sature, a money of account in Siam, the fourth of a bat or tical, worth about 71d. Sature, a weight used in Sumatra of 2 lbs, avoirdupois.

SALUTE, a certain number of guns fired as a mark of respect or rejoleing: a royal salute is 21 guns.

Salvage, an allowaneo made for saving a ship or goods from danger of any kind; goods saved from a fire.

SALVE-MAKER, a manufacturer of olntments.

Salvea, a silver or plated tray Samadu, an Indian namo for corundum.

SAMAR, a grain-measure, used in Georgia, of 81 bushels. Sambok, a country riding-whip of hide, com-

monly used in the Cape colony.

SAMESTRE, a variety of coral. SAMOREUX, a long Dutch boat.

SAMP, a preparation of Indian corn, largely used in the United States in preference to rice.

Sampan, a boat used in the Eastern seas. Sampuire, the aromatle, sallno fleshy leaf of the Crithmum maritimum, a plunt inhabiting rocky ellfls of the sea coasts, which is a favourite ingredlent in pickles.

Sampler, a warehouseman, &c. who selects samples from bales, easks, or packages; a

child's workpiece.

samples to be taken away. Samshoo, a spirituous liquor extracted, by fermentation and distillation, from rice, by

the Chinese

are, for manure, as a disintegrator of the soil from its loosening properties; for scouring; for sand-baths; for glass-making; in chemical operations; for foundry moulds; for grinding and pollshling, &c

SAMIAN STONE, a kind of polishing stone used by goldsmiths, brought from Samos. SANDAL, a rough-made protection for the sole of the foot; a lide or skin shoo with-

out uppers, bandaged or fastened round the

anele.

SANDAL-WOOD, an odoriferons wood, the produce of several species of Santalum, in India and the Pacific islands, of which there are two commercial kinds, the white, probably the outer layers of the wood, and the yellow, or citron, the inner wood. The odour is very strong, rose-like, and enduring. The essential oil, to which this colonial transfer is the second of the colonial transfer is the colonial trans odour is due, is extensively used for the adulteration of attar of roses. Sandalwood is very hard, heavy, and susceptible of a fine polish, and extensively used by cabinet - makers, in the fibrication of various articles of ornamental furniture. Sandal-wood, is also a name among the Russians for the red wood of the Rhamnus dahuricus, used for dyeing leather.

SANDARAC, a White juniper resin in round or long tears, not unlike mastic, but brittle, obtained from the *Thuja articulala*, in Barbary and Central Atrica.

SAND-BAG, a long thin bag of sand applied to chinks in whidow - sashes to exclude draught; a larger bag filled with sand, used in field fortificatious.

SAND-BALLS, soap mixed with sand, made into round balls for toilet use.

SAND-BATH, a vessel filled with heated sand. SAND-BOX, a box for sprinkling sand; a spittoon; a local West Indian name for the Hura crepitans tree, the seeds of which are a drastic purgative, and conwhich are a drastic pargative, and contain a very limpid oil.

SANDERS WOOD, a red dyc-wood obtained from Pterocarpus santalinus. See RED

SANDERS-WOOD.

Sandever, Sandiver, a corruption of the French "Suint de verre," the saline scum or alkaline sulphates formed on glasspots, known as glass-gall. It is used as a flux in certain metallurgic operations.

Sand-merchant, a wholesale dealer in sand, for the use of glass-makers, founders, or

for builders to mix with mortar.

SANDOMNISK, a kind of Russian wheat. SAND-PAPER, an abrading material for pollshing; emery or glass paper used for rubbling wood or metals.

SAND-PATTENS, supports for the feet, used by fishermen in walking over soft or

quick sands.

SANDSTONE, a valuable building material of many districts, equal to the freestone of Scotland.

tbin layers of meat between SANDWICH, slices of bread and butter.

Sandwich-box, a portable tin box for carry-ing saudwiches for lunch.

SANDYX, a mixture of realgar and red chalk.
SANGAREE, a cooling drink in the West Iadies; wine and water sweetened with

SANG-DRAGON (French); SANGUIS DRACONIS, the Latin and pharmaceutical names for dragon's-blood.

Sans-peau, a variety of French pear.

SANTA, a colonial name in Jamaica for the liqueur called shrub.

SANTHEE, an Indian measure for land, which varies all over the country. In some it is as much as can be ploughed by two bul-locks, in others by three, and in some by four. In several districts this last is called a double santhee; in others, six bullocks per plough are necessary to form a double per plough are necessary to form a double santhee; and in some, again, even three bullocks constitute a double santhee. Generally, a santhee of land is deemed to contain 3 prajas; each praja 30 weegas or beegas; and each weega a square of 95 cubits, or nominally 45 yards; but in reality reduced to 42 yards by the mode of applying the line; and in some districts to less.

SANTONINE, the vermlfuge principle of the Semen contra, a medicinal substance ob-tained from the flower-heads of some of the Artemisias, and a most powerful an-

thelmintic. See SEMENCINE

Sanwuck, a name for Panicum frumenta-ceum, in the North-West provinces of

India and Nepaul.

SAOURARI, an excellent wood for ship-building, mill timbers, and planks, obtained from the Caryocar tomentosum. It greatly resembles, in its properties, the Mora, and may be had from 16 to 20 inches square, and from 20 to 40 feet long. This tree yields the delicious uut known as the Saourari. SAPA, a thick confection of grapes

SAPAN-WOOD, a dye-wood obtained in Mala-bar, and the islands of the Eastern seas, from the Casalpinia sappan, C. coriaria, and pulcherrima. A decoction of the wood is used by calico-printers for red dyes

Is used by canco-printers for rea dyes.

SAPEK, a Tartar money of account, equal to about 5d. sterling. See Sepeck.

SAP-GREEN, a vegetable pigment composed of the colouring matter of the berries of the Rhamnus catharticus, and lime.

SAPIN, the French name for the fir or pine.

SAPODILLA-WOOD, a West Indian fancy wood used for furniture.

SAPPERS AND MINERS, a name applied to the men of the Royal Engiaeer Corps.

SAPPADILLA, a name for the soursop fruit, Anona muricata.

SAPPHIRE, next to the diamond, one of tho hardest of gems: it has several shades of colour and histre, blue, yellow, green, red, and intermediate shades.

Sarsago, a dark-green cheese. Sarangousty, a Belgian plaster, a composition for preventing the action of damp from old walls, stables, &c.

SARBOTIERE (French), a mould for icecreams.

SARCENET, a thin silk used for ribbons, li-

nings, &c.

Sarcocolla, a medicinal gnn, now little
used and scarce, obtained from the *Penwa*mucronata, a native of Persia and Arabia. SARCOPHAGUS, a stone coffin.

SARD and SARDONIX, varieties of chalce-SARDINE, the Clupea sardina, a small fish allied to the pilehard, caught in large quantities in the Mediterranean, and preserved in oil.

Saree, a cotton fabric worn by Indian women, to wrap around the person; also an embroldered long scarf of gauze or silk.

SARINDA, an Indian fiddle.

ARKING, shirtling; the covering of wood above the rafters; usually of spruce and SARKING,

yellow pine.

SAGONG, a sort of petticoat worn by females in the East; a Malay walst-eloth of cotton with a kind of red tartan pattern. There are imitation Battick sarongs, and Turkey red sarongs.

SARPLAR, a name given to a large bale or package of wool, containing 80 tods, or a

ton in weight.

SARRASIN, a name in some parts of the Con-

tinent for buck wheat,

BARSAPARILLA, the rhizomes of several speeies of the genus Smilax, chiefly imported from South America and Mexico, for making an extract for medicinal purposes.

SARSE, SEARCE, a fine sieve. [seed. SARSHAPA, a Sanscrit name for mustard-SARY, a dress, or simple wrapper, of cotton, worn by the females of India. See SAREE, SASI-DOOR, a door with panes of glass to

glye light.

Sasses, silk or other waist-belts for females; searfs worn by military men over the shoulder; long chequered window-frames for holding squares of glass. See SASH-FRAMES.

SASH-FASTENINGS, eatelies or bolts for the sashes of windows, to prevent their being

opened from the outside.

SASH-FRAMES, the wooden or metal borderings or frame-work, for setting squares of glass for windows.

SASH-LINE MAKER, a manufacturer of stont cord, for attaching to the sliding-pulleys

for window-sashes.

SASH-MAKER, a constructor of window-frames of different kinds, for houses, conservatories, and public buildings, of wood or iron.

SASSAFRAS-NUTS. See PICHURIM BEANS. SASSAFRAS-OIL, a yellow volatile oil, obtained by ether from the root of Sassafra;

officinale BASSAFRAS-WOOD, the wood and roots of the Sassofras officinale, anative of North Ame-Sassofras agrenate, unacteed word Allerica, which are brought over in billets. They are highly aromatic both in smell and taste. The dried leaves contain so much muchage that they are used for thickening samps. thlekening soups.

Sassoline, a name for native boracie-acid, used in the manufacture of borax.

Sasy-Dark, a poisonons bark obtained in Western Africa, from a legiminous tree, a species of Erythrophicum, which natives, suspected of witeberatt, secret murder, &c. are put to the ordeal of swallowing.

Sat, SET, a grain-measure of Siam, weighing 31 lbs, and holding about 21 nites.

ing 33 lbs. and holding about 3½ pints.

SATILLER, the half of a sooco in Beucoolen and some parts of the Eastern arebi-

SATIN, a glossy silk twili, to which the soft and glistering appearance is given by rendering a great number of the threads of the warp visible in the process of weav-ing. The brilliant smooth lustra it bears ing. The brilliaut smooth lustro it bears

ls given by rolling on heated cylinders; a former weight of Brussels, = 112.78 grains. ATIN-DE-LAINE, a black cassimere inanu-factured in Silesia, from wool.

SATIN-DRESSER, a finisher of satin by rolling. SATINET, a cheap and durable American mixed fabric, whileh is very largely worn by the labouring part of the community in the United States, taking the place of the fustians or velveteens worn in Great Britain. The warp of satinct is cotten, and the filling in its teature extraction. Britain. The warp of satince is extent, the short waste of other branches of the woollen manufacture. This is mixed with woollen manufacture. This is mixed with a sufficient portion of long wool to enable It to be spun, and after being woven in a peculiar way, so as to bring the wool to the face of the cloth, it is then felted heavily, and the cotton is entirely hidden by the wool. Satinettes are also silky by the wool. Satinettes are also silky materials which are as cheap as, and more durable than, satins; their brilliancy being produced in the process of manufacture, without dress or any artificial means.

SATIN-STONE, a fibrous kind of gypsum

used by lapidarles.

SATIN-TURK, a trade term for a superior quality of satinette.

SATIN-WOOD, a beautiful veneering wood, of which there are several varieties, that obtained in the Indies, is from the Chloroxylon Swietenia.

Satisfaction, an entry upon the rolls of the court, to the effect that a debt owing by a defendant to a plaintiff in an action,

has been pald and satisfied.

SATRON, a small fish used by French fishermen as bait. [the Mediterranean. SATTEAU, a coral fishing-boat employed in SATTRANGEE, SATRINGEE, a kind of fibrous striped mat or earpet made in India.

Sauceboat, an earthenware or plated vessel with a lip for pouring out sance.
Sauce-dish, a small crockery-ware tureen,

or metal vessel with a cover and stand, for holding sauce.

BAUGE LADLE, a kind of deep oval spoon, for dipping out melted butter, gravies, &c. at

a dinner-table. SAUCE-MAKER, a preparer of condiments or

rellshes for food; sauces are usually vended at pickle-shops or Italian warehouses. SAUCEPAN, a small kitchen-pot or boller, with a handle; a cooking itensil of iron or copper, sometimes tinned or ena-

melied. SAUCERS, small, elreular, shallow platters of

china or erookery-ware, for standing tea-

cups in. SAUCY-BARK, a polsonous bark, used on the West eonst of Africa, by tho natives. See SASSY BARK.

SAUGAMME (German), a wet nurse.

SAUL, one of the most useful known indian timbers for building and engineering purposes, the produce of the \*Shorea robusta\*. It yields in abundance the resin called dammar.

SAUM, a liquid-measure used in Switzerland varying in different cantons, from 30 to 38 gallons; a weight used in Austria, 3084 to 442 lbs.; a name in Germany for 22 pleces of eloth of 32 ells each.

SAUMAY, a name in Tanjore for the Panicum miliaceum.

SAUME'E, a French land-measure, about an

SAUMER (German), a beast of burden. SAUMON (French), a plg of lead, pewter, æc.

Saundaund, a Burmese long-measure of 22 inches, the 7th part of the bamboo.
Saunners-woon. See Ren Sanners-woon.

SAURISSEUR, a French herring-curer.

AUR-KRAUT, a German preparation of pickled cabbage. Slices of the large white cabbage are placed in layers with salt in a SAUR-KRAUT, tub, and allowed to ferment. Previously to use it is washed from the salt.

SAUSAGE, a long roll of chopped moat, beef, or pork in a skin.

SAUSAGE-MACHINE, a chopping machine for mincing ment.

SAUSAGE-PUNDING, SAUSAGE-ROLL, pastrles enclosing sausages.

SAUTAGE (French), pressing herrings Into barrels.

SAUTA-PAN, SAUTEE-PAN, a cook's stewing-

SAUTE'E (French), a ragout.

SAUTERNE, a French wine so named.

SAUTIE, SALTIE, a name in Scotland for the dab, a species of Pleuronectes.

SAUVAGEON (French), an ungrafted slip of mulberry or other tree planted out.

SAVANNA, an open luxuriant grass plain or meadow.

SAVE-ALL, a small metal or other stand placed in a candlestick, to support the short candlo ends while burning.

SAVELOY, a kind of dried sausage.

SAVINE, the plant Juniperus Sabina, whose stimulating and diuretic properties, as a

drug, are well known.

SAVINE-OIL, an essential oil obtained by distilling the tops of the savino plant.

distilling the tops of the savino plant.

SAVINGS'-BANKS, certain provident institutions, established in Great Britain and other countries, to encourage frugality among the working classes, by receiving deposits, returnable, with interest, on demand. These funds have been placed under the control of Government, and identified with the public debt of the United Kingdom, a rather high rate of premium being allowed, as an Inducement. In 1854, the total capital of the Savings'-banks was £33,742,630, of which £22,406,512 was ledged in Savings'-banks £29,406,512 was lodged in Savings -banks in England; £795,541 in Wales; £1,932,085 in Scotland; and £1,608,482 in Ireland. In the Stato of Massachusetts there was, in 1853, £23,370,102 deposited in Savings'banks by 117,404 depositors.
AVONDETTE (French), a soap-ball for

SAVONNETTE washlug.

SAYONNIER, the Freach name for the soap-berry-tree (Sapindus saponaria).

SAVORY, an herb, of which there are two varieties, the summer savory (Satureia hertensis), and the winter savory (S. montana): belag aromatic and carminative, they are used as an ingredient in orthogonal saverage. cullnary seasoning.

SAVOY, a species of small curled-leaf winter cabbage, the Brassica oleracea sabauda.

SAW, a steel-cutting plate with a serrated edge or teeth, which act as wedges to tear their way through an or circular. The common hand-saw and the pit-saw are common to the former. There are values to the common their common than the pit-saw are common to the common than the com their way through an obstacle. examples of the forner. There are various kinds made, as half-rip, hand and panel, brass-back, iron-back, table-saws, lock-saws, gentlemen's hand-saws, frame, plt, and cross-cut saws, mill and circular saws, stonecutters'-saws, garden and pruning saws, keyhole-saws, woodcut-ters'-saws, bow saw and frames, metal Saw and frames, &c.
Saw, Saha, a grain-measure of Tunis and

Barbary, = 4.846 plnts.
Sawa, a species of Panicum; a rice field. SAWNUST, the small fragments made in cutting wood, which is used in wine cellars for laying bottles in; as a stuffing material for dolls and cushions; for sprinkling floors in public-houses, the arenas of amphitheatres and ridingschools, and other purposes.

SAWING-BENCH, a carpenter's bench. SAW-FILE, a mechanic's tool for sharpening saws, of which there are several kinds made, as hand-saw files, rip-saw files, tenant-saw files, frame-saw files, pitsaw files, &c.

SAW-HANDLE MAKER, a manufacturer of the wooden handles in which the saw blade is fitted.

Sawing-Machine, machinery for sawing wood, metal, &c. See Saw-Mill.
Saw-Mandrel, a holdlast for a saw in a

Saw-Manufacturer, a maker of saws. Saw-Mill, machinery worked by steam or water-power, for cutting, moulding, or planing wood, by means of several saws; and for cutting veneers, and sawing stone, slate, and marble Saw-mills are of two kinds: the circular, cutting by a continuous rotation, and the reciprocating, whileh operate as the common pit or framo saw.

SAW-PAD, a wooden handle forming a case for a small saw, which fits in at the cnu with a spring and screws.

SAW-PIERCER, a workman who cuts the teeth of saws.

SAW-PIT, a place for sawyers to cut logs of timber into planks and scantings, by means of a frame-saw

SAW-SET, a triangular file, used by carpenters, sawyers, and others, for sharpening their saws. \* SAWYER, one employed in cutting logs into

planks, either by hand or machinery SAX-CORNET, SAX-HORN, musical wind iustruments usually made of brass.

SAXON-BLUE, the sulphate of indigo. SANOPHONE, a brass instrument, soprano. alto, and bass, with a mouth-reed like a

clarlonet.

SAY (Scotch), a milk-pail, tub, or bucket; an old name for serge or bunting.

SAYER, a designation for variable Indian imposts, as town dues, tolls, licences, duties ou merchandise, &c.

SAYETTE, a mixed stuff of silk and cotton, also cailed sagathy.

SAZER, another name for the Pollsh tolse. = 5.669 fect.

E-5009 feet.

Sazio, Sazio, a weight used in Venice, the 6th part of the ennee. There are two kinds of sazio, the heavy, weighing 102-26 grains, and the light, 64-59 grains.

Scarbard, the case or sheath for a sword, made of metal, leather, or wood.

SCABLED, n building term applied to granite or other dressed or fine-axed stone, in

or other dressed or fine-fixed stone, in contradistinction to plain-faced stone.

Scadding, a Scotch term for scalding; hence scadded beer, scadded whey, &c. SCAFFOLDING, a temporary erection raised on poles in the progress of building, or for white wealthing solution.

white-washing, painting, &c. SCAFFOLD-POLE, in long polo for supporting

or building a scaffold.

SCAGLIOLA, an artificial surface to imitate marble, used for columns and pedestals, &c., which is made from a cement of the finest gypsum, in powder, mixed with aluminous matter, Isinglass, and colours. It resembles fresco painting, in that the colours are laid on, and mixed in the wet state of the eement. The out-

lines of the work are traced with a sharp instrument, and the eavities are filled with the same material, of different colours, according to the velus to be imitated. Scagliola takes a fine polisit, is as hard as marble, and very durable.

SCALE, a graduated justrument for estimatcalls, a graduated distribution to restinating measurements, making calculations, or ascertaining proportions; a comparative list of prices; abalance; the appendage to a welghing beam; the thin plates which cover the skin of certain fish, some of which, when hard, are made into very pretty flowers becomes into very pretty flowers, brooches, and

other ornaments. SCALE and WEIGHT MAKER, a maker of

balances or welghing machines.

SCALE-BOARDS, a name given to thin veneers, or leaves of wood, which may be cut to thirty-two to an inch. There are 15 or 20 scale-board cutters in the metropolls. Also thin sllps of wood, used by printers to make the pages register. See VENEERS.

SCALE-CUTTER, a workman who forms the thin pieces of horn or shell for the outer sides of knife-handles in Sheffield.

SCALE-FISH, a dealer's name for the pollack, the torsk, the hake, and the haddock, when dry-cured, which have only half the commercial value of the cod.

Scale-forger, in the cutlery trade, one who forms the inner metallic scales of a spring knife, in which the blades lie.

BCALE-PREVENTER, a contrivance for blowing off, from the surface of the water in a boiler, the sediment, or particles of stony matter.

SCALLION, a name for the shallot, the

SCALLON, a name for the Enance, the Allum Ascalonicum.

SCALLOP, a shell-fish, the Pecten; oysters with bread crumbs baked in a shell or tin; a hollow and round style of bordering to

flounces, ribbons, &c.

SCALP, SCAUP, a term in parts of Scotland for a bed of oysters or mussels; scalp is also the name for a small wig.

SCALPEL, a surgeon's long dissecting knife, that tapers to a point. SCALPER, n tool for rasping bones.

SCAMMONY, a enthartic gum-resin from the root of Convolvulus Scammonia, which is seldom to be obtained pure, being largely adulterated with chalk.

SCANDAL, ESCANDAL, the fourth part of the millerolle, a winc-measure of Marsellles,

and equal to 31 gallons.

SCANTLING, n local term in Ayrshire for the outline of a deed to be made; n rude sketch; the transverso dimensions of a pleee of timber.

SCAPPLE, to reduce a stone to a straight

surface without working it smooth.
Soarr, a loose slik shoulder-belt; a light

shawi; a wrapper for the neck.

SCARFING, the process of joining two pieces of timber to increase their length, by notehing the ends into each other. SCARF-SHAWL, a long narrow shawl worn

by ladies.

SCARIFIER, a kind of harrow; an extirpator or cultivator; an instrument used in cupplng.

SCARLET, a bright red colour, so named. SCARLET-RUNNER, a well-known climbing species of bean, the Phaseolus multiflorus, the young green pods of which are caten bolled; and the ripe seeds, when stewed, under the name of harleot beans. SCAT, a tax paid in the Shetlands; a scot

and lot duty.

SCAVENGER, a contractor for cleansing the streets; a street orderly.

SCAVENGER'S-CART, a street-sweeping eart;

a mud or dust eart. SCENE, a largo painted view; tho fixed or

moveable paintings in a theatre. SCENE-PAINTER, a theatrical painter, who designs and paints, on canvas or wood, the seenery required for a drama.

SCENE-SHIFTER, a mechanical workman employed in a theatre, to slide off and on, the moveable, or set-scenes and wings.

SCENT, a common name for perfumes.

SCENT-BOTTLE, a fancy portable or tollet-table bottle for holding perfume, SCENT-PACKETS, small perfumed cushions sold to ladles to place among their wear-ing apparel or in drawers.

SCEPTRE, a staff of royalty; an emblem of command.

SCHABAB (German), scrapings or refusc Schaff, a grain-measure formerly used in Germany; a name for the legal bushel of Bavaria, = 6'117 bushels; but the ordinary grain schaff of Bavaria is exceedingly variable; a weight used in Switzerland of 23.2 lbs.

SCHAFTMON, SHAFTMON, an old Scotch term for a measure of 6 inches.

SCHARO (French), a full-dress military cap or hat.

SCHAMEL, in the Cape colony part of the slde of a wagon.

SCHAPPES, spun sllk made from silk waste in Switzerland.

Schedule, an invoutory or eatalogue; the balance sheet of an lasolvent; an appendix or tabular form added to an act; a table of duties or tarlff of charges.

Scheffel, the German dry and grain measure, or bushel, varying considerably in different districts; in Prussia 1½ bushel; in Saxony about 3 bushels; at Oldenburg 0:544 bushel; in Rostock 1070 bushel. For different kinds of grain the Prussian legal scheffel is estimated to weigh as follows: wheat 85½ lbs; ryc 80½; barley 65; onts 45; meal 75; and peaso 90½. The scheffel of salt is 54 lbs.

Scheffel of salt is 54 lbs.

SCHEPEL, the Dutch and Spanish name for their bushel or grain-measure; like the scheffel, it is of very variable proportions; but the legal schepel is 0.275 bushel.

Schemers, an Eastern beverage consisting of water in which jelly or syrup made from fruit has been dissolved, or of an Infusion in water of the fruit itself. A kind of scherbet is also made with honey; and various ingredients, as vanilla, otto of roses, peppermint, vinegar, and even mastic are used to impart a flavour, while an agreeable colour is obtained by the employment of cochineal, the juice of the berries of *Phytolacca decandra*, and of *Cornus mascula*; the latter of which is an estcemed fruit in Asia Minor.

SCHERBETZIDES, Hinerant venders of scherbet, the peculiar sound of whose little belis, struck by a machine, which, at the same time, cools their glasses by a stream of water, may be heard for and near through the streets of an Eastern town, inviting customers to their trays, on which syrups, fruit, and sweetmeats are displayed.

Schiedam, a name for Hollands gin.

Schiffpfund. See Ship-pound. Schilling, a small German coin worth about ?d.

SCHINEK, SCHINACK, a dry-measure of Hungary, nearly 3 bushels.

SCHISTE, a name for slate; also for shale; a mineral used in manufactures. \* SCHNAPPS, a German name for drams of

strong spirit.

SCHOCK, a German term for 60 pieces; 3 score, or 5 dozen of any thing.
SCHOLAR, a pupil or learner; a man of letters, or one devoted to books.

SCHOLASTIC, belonging to a school or schoolmaster.

SCHOOL, a place of study, for elementary teaching of different kinds, as day-schools, boarding-schools, free-schools, raggedschools, grammar-schools, ragged-a shonl of fish; a herd of sca-lions. SCHOOL-AGENT, SCHOLASTIC-AGENT, a person

who negotiates the sale or purchase of the good-will of schools, the eugagements of ushers or teachers, &c.

SCHOOL-DESK, a wooden desk for scholars

SCHOOL-INSPECTOR, a visiting officer under the Education Board; a government overseer of schools.

SCHOOL-MASTER, SCHOOL-MISTRESS; persons

SCHOOL-MASTER, SCHOOL-MISTRESS; persons employed in teaching in a school. SCHOOL-SLATE, a slate framed in wood, used by school-boys for eliphering or writing on. SCHOONER, a two-masted vessel with a force and aft top-sail on both masts, but some three sized with school-spile schools.

times rigged with small square top-sails at the fore and main.

Schopp, a German liquid-measure, the fourth part of a maas or gescheid, and somewhat

less than an English plut.
Schot, a weight of Dantzie, representing the carat or the 24th part of the mark. Schueer, Schreve, an old liquid-measure of Belgium, nearly 11 gallon.

SCHROTT, Schoof, a German grain-measure, = to 0.197 pint. SCHULL, SCHOOL, a shoal or large assemblage

of fish, SCHUYT, a vessel of a large class employed by

the Russians on the Caspian sca, and ranglng from 90 to 200 tons SCHWAREN, a nominal Bremen money, 5 of

which go to the great. There are 360 senwarcus in the rixdollar.

SCIABECCHE, a kind of vessel employed in the trade of Genoa,

Scieur, a French sawyer.

SCIMITAR, a curved sabre, Scissel, the clippings of various metals, or of slips or plates from which blanks for coins have been cut.

Scissors, metal cutting-instruments, consisting of two united blades, with holes at the handles for the fingers to pass

through. SCISSORS-CASE MAKER, one who makes the leather sheaths for seissors.

Scoge, a Scotch term for a kitchen drudge; a female servant who performs the dirtiest work; also called a scuddle.

Scolazon, a manure so called. Scollop. See Scallop.

SCOLLOP-SHELLS, metal shapes for baking ovsters in.

SCONCE, the hanging branch of a candela-brum, or of a wall candiestick; the socket in which a candle is placed.

Scoop, Scoup, an instrument for wetting the sails of boats; a kind of spoon; a wooden shovel; a large ladle; in Scotland a draught of liquor.

SCOOP-NET, a net for sweeping the bottom of a river.

Score, to mark or reckon; to draw a line with a sharp instrument, as in scoring the skin of pork; nu account which, in former times, was often seored or chalked up on walls or boards, as a tavern-score, mik-score, &c.; 20 pleecs; the original draught of a musical composition with all the parts marked.

Scoria, slaggy lava; dross; the recrement or matter thrown off from metals in fusion; a slag of some vitrified or crystallino dross. See SLAG.

Scorzo, an Italian grain-measure, nearly 3 gallons; also a superficial measure, the 16th of the rubbio.

Scot, a tax or reckoning.
Scot and Lot, bearing a fair share of taxes and offices; an inhabitant householder voting by olden rights and privileges.

SCOTCH-BONNETS, a name for the champi-gnon; also for a variety of capsieum. SCOTCH-CAMBRIC, a cotton fabric made in

imitation of French cambric.

SCOTCHED, slightly lined; a drag or brake applied to the wheel of a carriage descending a declivity.

SCU

Scoren OATMEAL, the best kind of oatmeal. Scotla, in building, a concave moulding, usually bounded by two narrow fillets. Scour. See Sooop.
Scour, to serub or brighten; to remove

grease spots.

SCOURER, a dyer and cleaner of fabries. SCOURING-PAPER MAKER, a manufacturer of emery and glass papers for brightening

metals, &c.
Scow, a flat-bottomed American lighter.
Scrap-book, a book for keeping miscellaneous prints or cuttings in; a kind of

SCAPER, a small triangular fron tool, used for scraping the masts and deeks of a slip; an engraver's instrument for working mezzotinto; a carpenter's tool for cleaning planks and casks; a long hoo for cleansing roads of mud. Also a fitted iron contrivance at a doorway to take off mud from the boots. \*

SCRAP-IRON, the cuttings and parings of iron work, which are saved, collected together, and incited again in the pud-

dling furnaces.

SCRAPS, the residunm of melted fat.

SCRAPS, the residuam of metted fat.
SCRATCHEA-UP, a bookbinder's tool.
SCRATCHEA-UP, a bookbinder's tool.
SCRATCHEA-UP, a filt rongh wig.
SCREEN, a shelter of any kind; various articles bear this name, as a grate or sieve for separating stones or lumps from earth, and parting the dust from eoal; a tin frame to reflect heat in cooking; a frame in leaves or folds to keep out draught; a hand fan to keep off the heat of a fire; to sift.

SCREENED-COAL, sifted or large coal; that from which the breeze or fine dust has

been separated.

Scalening-machine, an apparatus for sifting earths, stamped ores, coals, &c. having a rotary motion, constantly changing the position of the article to be

sereened.

Scaew, a spirally grooved cylinder of metal or wood; that which works a screw press; a small metal fastening; a small paper packet of tobacco; in Scotland a small stack of hay; a blemished horse; one which, though useful as a hack, is unsubable to passons who study the perfect saleable to persons who study the perfect appearance of the animal. See Propeller, and Screws.

Scaew-Bolt, a bolt secured by a serew. SCREW-BOLT, a boil section by a screw, SCREW-DRIVEA, a tool for turning screws, in shape like a blunt chisel.

SCREW-GILDEA, one who electrotypes or colours screws to imlate brass.

Scaew-Gill, part of a spinning mill. Scaew-Jack Maker, a maker of jack-screws.

See JACK-SCREW.
SCREW-KEY, part of a lathe; a lever with a hole in it for turning the serew of a press.

See Press-pin.
Sciew-pine, the Pandanus spiralis, useful for its valuable fibre.

Scarw-Parss, a press worked by a screw, used by bookblinders; a little machine for pressing table-lineu, and other purposes. Scaew-paopellea, the fan at the stern of a ship for propelling her through the water,

and working on a screw.

Schews, spirally grooved inctal fastenings made from iron rod. The head is raised in a dlo by pressure, flattened and split by n small revolving circular saw. Threading is effected by a saw which traverses the back of the spindle, and forces the blank iron against small cutters which groove out the thread; three runnings down suffee for making an ordinary down suffice for making an ordinary-sized screw; the shape of the cutters regulates the fineness of the thread.

SCREW-STEAMER, a vessel propelled by a

screw. Screw-wrench, n turn-screw; n bedwrench.

SCRIBBET, a painter's pencil.

SCRIBBLING, a preliminary process to card-ing in the woollen mannfacture.

Scaibbling-Paper, rough foolscap or other

waste-paper; outsides.
Scaibe, a writer or elerk; a notary-public; to mark and adjust with compasses; to seore with a scribling-iron.

Score With a scribing-170n.

SCRIBING-1RON, an iron-pointed instrument for marking easks and logs of timber.

SCRIP, an abbreviation of subscription, being the preliminary acknowledgment, or security, held for a certain amount paid up on a stock or share, which loses this distinctive term when the installments are fully said up, and the sering stallments are fully said up. is exchanged for a receipt in full; a bond, share, or other marketable security.

SCRIP-HOLDER, the holder of a serip-certifieate.

SCRIPT, a schedule; a kind of printing-type formed to imitate writing.

SCRIVELLOES, small elephants' tusks, those under the weight of 20 lbs.

inider the weight of 20 los.

Scalvener, a writer; a conveyancer, or money-broker. See Money-scalvenea.

Scalveners' Company, one of the minor livery companies of London, which has

SCAOLL, a roll of parchment. \*

Scrow, a scroll; eurriers' cuttings or small clippings from skins; the ears and other redundances used for making glue or size,

SCRUB, dense underwood; stunted bushes; n name in Scotland for the jack-plane; to scour or rub hard; to clean by washing with n brush.

Scaupele, a small weight used in compounding medicines, the third part of a drachin, and equal to 20 grains troy, and thus expressed symbolically 9. [votes. SCRUTINEER, one who examines or assesses

Scup, in navigation, to drive before n gale with little or no sail set.

Scupo, an Italian silver coin and money of

account, worth about 4s, coffe, a Scotch name for the ricket or stringed battledore used in striking tho Scofe, a ball at tennis.

Scuffler, an agricultural implement for

cutting up weeds; the horsc-hoe. Scull, a short oar.

SCULL-MAKER. See OAR-MAKER.

Sculpt, a fish of the bull-head family, Cottus octodecimspinosus, common on the American coasts; also called "crapand de mer." It is a favourite food of the Greenlanders.

Sculptor, a carver in wood or marble.

SCUM, the refuse or extraneous matters that rise on the surface of heated liquors, or melted metal.

SCUM-BOILER, a fat-melter, or tallow-chand-ler; one who rellnes the seum of sugar.

Scupper-nail, a large-headed nail.
Scuppers, holes in the side of a ship, to earry off water from the main deek. Scurf-Brush, a hard halr-brush; a currycomb for a horse.

SCURYY-GRASS, the Cochlearia officinalis, which is in repute for its autiscorbutle

virtnes.

wooden instrument used in Ѕептен, а

dressing flax and hemp. \*

SCUTCHING STOCK, part of a flax-mill. SCUTCH-MILL, a mill for preparing flax.

SCUTCH-RAKE, a flax dresser's implement. SCUTTLE, a hole cut in any part of a vessel; an iron or copper pan or vessel for holding coals for a room.

SCUTTLE-BUTT, a cask with a hole cut in its bilge, and kept on the deek of a vessel to hold water for dally use.

SexTHE, a long, sharp, eurved instrument

for cutting grass.

SCYTHE-MANUFACTURER, a maker of seytheblades.

SCYTHE-STONE, a whetstone for sharpening

gardening or reaping seythes.

SEA-COCK, a species of gurnard (Trigla cuculus and T. Hirax), much sought after by Russian epicures, and, being very searce, they sometimes seil as high as 30 roubles.

SEA-COMPASS, a marhier's compass. SEA-EAR-SHELL See EAR-SHELL SEA-FOAM. See MEERSCHAUM.

SEA-GIRDLES, a name for the edible fuens,

Laminaria digitata. SEA-GREEN, a colour resembling the emerald

green of the sea. SEAN, a Jewish dry-measure, which contained nearly 14 pints.

SEA-HORSE TOOTH, a name given to the teeth of the walrus, and of the hippopotanus, which yield ivory.

SEAK, a preparation of the best mottled soap used in milling cloth.

SEA-RALE, an esteemed vegetable, the Crambe maritima.

SEAL, an engraved stamp for making aa impression, used for private or public pur-

poses.

SEALED-TEA, a klad of coarso tea, imported luto Kiachta from China, so called from Into Kiaelita from China, so ealled from being pressed into solid sealed packages, weighing about 3 pounds each, so firmly compacted together that nothing less than hammer and chisel will break it. The leaves of this tea are old and tough as leather; the twigs and stalks are intermingled, and some fatty substance is mixed with it, to make it cohere.

SEALL-ENGRAVER, a die-sinker; a lapidary who cuts arus and erests on stones.

SEALING, the husiness of limiting and eatch-

SEALING, the husiness of lumting and eateh-

ing seals, and euring their skins; affixing a stamp to official documents.

SEALING-WAX, an adhesive resinons sub-stance, made for scaling letters and docu-ments, and covering the corks of bottles. The chief components of scaling-wax are

shell-lacresin, and turpentine. In making red-wax, elnnabar is added, and for black wax, levigated lvory black.

SEAL-OIL, oll obtained from the scal fisheries, whileh is of two kinds, pale or cold drawn, and bolled or dark oil. The blubber is suffered to drain, for two or three months, suffered to drain, for two or three months, into wooden pans, and this furnishes the pale seal oil of commerce, forming 50 to 70 per cent, of the whole. The putrescent reluse, and the elippings of the pelts, yield further quantities of dark oil by boiling. About 23 millions gallons of seal-oil are shipped annually from Newfoundland.

EALS, various species of *Phoca*, which are two for their skins, and the oil obtained

liunted for their skins, and the oll obtained from the blubber. The skins are sorted from the offuner. The same services by fishermen into four qualities, young harp, young hood, old harp, bediamer (year-old hood), and old hood; the most productive being young harp. Scals are productive being young harp. Seals are found in immense numbers off the coasts of Newfoundland, Greenland, and Labrador, and we import from 500,000 to 700,000 skins annually. They are commercially classed into blue backs, white coats, and hair seal, small and large. Some of these are dyed and prepared as furs; others are used for leather, and, when tanned and varnished, they are employed by coach-makers and harness-makers, for accourrements, and for patent or enamelled boots and shoes.

SEAL-SKIN MAKER, a tanner who prepares and varnishes seal skias for leather.

and varnishes sent states for leather. SEAM, a horse-load of timber, about 3 ewt.; a trade term for 24 stone of glass, = 120 lbs.; a name sometlanes applied to the quarter of grain, or 8 bushels; a join; the interval between planks in a vessel's deek or side.

SEAMAN, in a general sense all persons employed or engaged in any capacity on board a ship, although there are several classifications; able-bodied seamen, in tho navy, are skilled and competent sailors, navy, are skilled and competent sailors, who know all the duties for which they

are engaged.

SEA-MILE, the marine or geographical mile, the 60th part of a degree: it is often, however, applied to the marine league, or the 20th part of a degree. See Mile.

SEAMING-LACE, a coach-maker's lace, used to

cover seams and edges.

SEA-MORSE TEETH, a name for the eanines or tusks of the hippopotamus, and which supply the most suitable ivory for tho dentist.

SEAM-PRESSER, an abstract of a drill roller, consisting of two cylinders of east iron, which, following the plough in the furrows, press and roll down the newly turned-up earth.

SEAN, SEINE, a large net for taking pilehards and herrings, varying from 200 to 300 fathours in length, and from 10 to 141 lathoms in depth, and having cork buoys on one edge, and lead weights on the other.

SEANA, the head man of a village in India. SEA-PIE, meat stewed in a saucepan, with a

cover of dough.
SEARCHEA, il Custom-house officer who examines vessels and passengers' baggage; a woman searcher of female prisoners. \* SEARCH-WARRANT, n legal authority for scarching a house for stolen goods, or for concealed property belonging to a bankrupt, &e.

SEARSE, SEARCE, a fine wire sleve

SEA-SALT, chloride of soda. See SALT. SEA-SHAD, a delicious North-American fish, of from 2 to 5 lbs. which is spllt and pickled. The river shad are much inferior to those taken in the sea. See Snab.

to those taken in tho sen. See Shad.
Seaside-Grape, the Coccoloba unifera: the leaves, wood, and bark, are extremely astringent, and afford an extract termed Jamaica kino. The wood gives a red dyc.
Sea-slug. See Trepang.
Seasoned, wood well dried; food flavoured with eardynapter or enjoyer.

with condiments or spices.

SEAT, a chair, couch, or bench; a country

SEATINO, horse-hair fabric, American lea-ther, or other materials, made for covering

the cushions of chairs, couches, &c. SEAU, the French name for the clmer, of 7:337 gallons, formerly used in

Antwerp. SEA-UNICORN TOOTH, n name for the spiral horn or tusk of the narwhal (Monodon

monoceros), which is often from 6 to 10 feet long, and is a beautiful ivory. SEA-WALL, an embankment on the shore to

keep off the encroachments of the tide. SEA-WAND, SEA-WARE, names for a nutritlous alga, the Laminaria digitata.

SEA-WEEDS, marine plants, many of which enter largely into commerce for food, for manner, for making glue or jelly, for barilla and iodine, and as a source of acetie acld.

Second, an Italian liquid-measure, ranging from 1½ to 2½ gallons in different towns. Secondar (French), a clothes' horse; n dry-

ing room.

Sechsling, Sechsting, a Bayarian grain-measure, the 6th of the schaff, = 8784 bushels.

ECHTER, n German grain-measure, of 4 gescheids, and = to 1.68 gallon. SECHTER.

SECKEL, n small pear.

SECOND, a measure of time of the 60th part of n minute, and represented thus ". It is also n petty linear measure in England, the 12th part of a line; in Switzerland, the 10th part of a line; in Germany, the 10th part of the prime, or the 100th part of the prime, or the 100th part of the inch.

SECONDARIES, those quills which rise from the second bone of the wings. SECONDARIES' COURT, a small-debt court in

the city of Londou.

SECONDARY, a judge and assistant of the sheriffs of London.

SECOND-HAND, not new or original; articles

of clothing, &c. that have been used. Second-Mate, a junior, or subordinate, executivo officer in a merchant-ship.

SECOND-RATE, a ship of war carrying 80 to 110 guns. SECONDS, a kind of household flour manu-

factured from general runs of red wheat, and the flour made from sharps ground. SECRETAGE, the application of a solution of nitrate of mercury with a sponge to rabbit and hare skins, and the fur of other

nnimals, to communicate the property of felting which they do not possess.

SECRE'TARIAT (French), a secretaryship.

SECRETARY, a head clerk or writer; the acting official and record officer of a society or administrative board; a public functlonary so named.

SEE

SECRET-SPRINGER, one who puts in watch-

springs.
Section, an interior vertical plan of a building; an indefinite portion of land; a rail-way cutting; a division of police. Sector, a mathematical instrument, used

in making dlagrams and laying down plans.

SENAN-CHAIR, a portable seat or hand-carriago for one person, carried by two footmen or bearers, with poles.

SEDIMENT, teculencles or refuse; n deposit of lees or dregs.

SEED-BROKER, an importer and dealer in oil

and other seeds. SEED-CAKE, a sweet cake containing cara-way seeds. See Oil-CAKE.

SEED-CRUSHER, one who expresses oil from

seeds; a machino with rollers. SEED-LAC, small fragments of lac-resin, from

which the colouring matter has been removed by bolling.

SEER-OLL, an indefinite name for several kluds of oil, which enter into commerce; especially for those made from the Jatropha, teel niger, poppy, and other Indian seeds. dian sceds. See GINGELIE

SEED-PLANTER, the American name for the sowing-machine, which, in this country, is called a drlll.

SEERSMAN, a dealer in ngriculturnl and garden seeds.

SEEKAKAI, an East Indian name for a spe-cles of soap-nut, obtained from the

Alimosa abstergens.
SEER, n variable Indian weight, of which teen, in variable linding weight, of which 40, however, usually go to the maund. It ranges from 3580 grains up to 35,650 grains. The seer should be a perfect cylinder, depth 435 inches, diameter 435 inches. In Bokhara the seer is 353 bs; in Wishbard technicaes. Trichinopoly the seer for inetals is = 9 oz. 81 drachms. The East India Company's new seer of 80 tolas = 2 057 lbs, avoirdunew secr of 80 tolas = 2057 lbs, avoirdinates. The pucka secr is 1866 lb.; 16 chittacks of 900 grains cach, = 5 siccas or rupces, make a Calcutta bazaar secr; 60 siccas a Serampore secr; 82 a Hooghly secr; 84 a Benarcs and Mirzapore secr; and 96 an Allahabad and Lucknow secr. and 96 an Amanaga and Lucknow seer.
At Nagpore, 80 rupces' weight is a secr.
The Calcutta factory seer is equal to 72
sieca weight, 11 annus, 2 puns, 10 gundas,
and 3 63 cowries. Colonel Sykes and other
Indian authorities give the Indian seer
as 14,400 grains, = 2.057 lbs. avoirdupois,
and the tola 180 grains. Also an Indian
aguse for the fractant aromatic root of name for the fragrant aromatic root of Hedychium spicatum.

SEERHAND, a kind of muslin between nain-sook and mull, particularly adapted for dresses, retaining its clearness after wash-

SEETOAH, a sort of concave iron trowel used to scrape and collect the julce of the poppy.

SEGAR. See CIGAR.

SEGOAR, a fire clay receptacle, in which por-celain articles are placed to be fired or baked in the biscult-kiln. See Sagger.

SEIDEL, SEITEL, a German measure of capacity; for liquids \$\frac{1}{2}\$ to \$1\frac{1}{2}\$ pint in different localities; as a dry-measure about \$\frac{1}{2}\$ plut; for coal 4 bushels.

SEIDLITZ, an aperient powder, composed of equal parts of bl-carbonate of soda and Rochelle salts, which is taken dissolved in water; tartarie-acid being added to make it effervesce.

SEIGLE, the French name for ryc.
SEIGNOGRAGE, a duty pald for coining money. In 1816 a seignlorage of 6.45 per cent. was imposed on the silver coinage by the 56 George III.

SUNGLING-MILL, a forge or large workshop where iron is made malleable.

SHIN-PLASTER, a name given in the United States to the notes of broken banks, which are not current money payments. SHINTY, a kind of exhilarating Scotch gamo

in which bats like golf-clubs are used. SHIP, a three-masted vessel, with tops, yards, and square sails, to each mast.

Suip and Insurance Broker, a person who deals in marine insurances, effecting insurances on vessels, cargo, and passengers' effects

Ship-Biscuit, hard, coarso biscuit, specially

prepared for use on shipboard. Ship-biseuit Baker, a maker of hard bis-

eult for seamen's use.

Ship-breaker, a person who buys the hulls of worn-out vessels, to break up for the timber and metal they contain.

Ship - nkoker, a mercantile agent who transacts the business for a ship when in MISURANCE. [Structs vessels. Ship-builder, a shipwright; one who con-ship-captain, the master and commander of a merchant-vessel. Ship-carpenage. port, and usually combines the business of

SHIP-CARFENTER, a workman who fits up cablns, or performs the finishing work in ships. See Carpenter.

SHIP-CARVER, one who carves figure-heads, and the work on the stern, or shapes,

mouldings, &c., for a ship.
Suff-eaulker, one whose business it is to stop, with oakum and pitch, the seams of ships' sides and decks.

SHIP-CHANDLER, a tradesman who supplies the small wares and stores required for

SHIP-DELIVERER, a person who contracts to unload a ship. Ship-hearth Maker, a manufacturer of

the cooking galleys or stoves used on shipboard

SHIP-JOINER. See JOINER. SHIP-LETTER, a letter forwarded by a private salling vessel, and not by the steamer or packet chartered to earry the post-office mail

SHIP-LGAD, as much as a vessel can stow; 424 tons of coals. SHIP OF THE LINE.

See LINE-OF-BATTLE-SHIP-MODELLER, a designer; one who lays down the proposed lines of a vessel.

SHIP-GWNER, a person who owns one or moro shlps. SHIPPED, transmitted by sea; goods con-

signed or forwarded to order.
Shipper, an exporter of goods; the person who enters at the Customs, lu his name,

goods sent by a ship.

SHIPPING-AGENT, a licensed broker or agent appointed by owners to transact business for a ship. See Ship-broker.

SHIPPING-DILL, an invoice or manifest of goods placed on hoard a ship.

SHIPPING-CLERK, a merchaut's clerk who attends to the shipment of goods.

Saipping Interest, the owners of slilps and partles generally interested by business with shipping.

Shipping-Note, a delivery or receipt note of particulars of goods forwarded to a wharf or dock for shipment.

Shipping-office, the place of business of a broker, who receives small packages for shipment; a steam-packet office wharfinger's or dock-master's office. a steam-packet office;

Marine Board, subject to the control of the Board of Trade.

SHIPPOUND, a commercial weight in Russia and Sweden, of 400 pounds avoirdupois; in some of the other northern countries equal to only 300 lbs. In estimating the carriage of goods, the shippound is reckoned at 380 lbs. In Sweden the shippound is 400 skaalpounds of 15 ounces avoirdupois.

SHIP-PROVISION MERCHANT, a dealer in stores for ships, such as salted or pre-served provisions, spirits, groceries, flour and meal, ship biscuit, &c.

SHIPRIGGED, square-rigged, as a three-masted ship is with large square sails,

and spreading yards. Suip-rigger. See Rigger.

SHP's ARTICLES, the conditions and terms which seamen condition to conform to, and abide by, on taking service on board a merchant ship, and which are binding on master and seamen.

SHIP's-BLOCK MAKER, a manufacturer of large blocks for ship's use.
SHIP's-DUSBAND, a part owner, or other person appointed as a manager to look after and provide stores, provisions, or assistance for a ship when in port. Suff's-apers, the certificate of registry, charter-party, manifest, and other official

documents, required to be produced on certain occasions.

Snip's-smith, an iron worker who fits the metal work, bolts, &c. in ships.

Snip-surveyor, an examiner of the con-

dition, fittings, and sca-worthiness of ships. See LLOYDS' SURVEYOR.

Snip-thimbles, coneave from rings or eyes. used in the sails and rigging of vessels, to prevent the chafing of ropes when attached to hooks, bolts, staples, &c.

Shipwreck, the loss of a vessel at sea; or the stranding of a vessel.

Shipwright, a ship-builder; a carpenter who works on ships.

SHIPWRIGHTS'-COMPANY, one of the minor livery companies of London, which, having no hall, transacts its business at Guildhall. [works of a ship-builder. Snip-yard, a marine building-yard; tho

SHIRAZ, a Perslan Wino. Shiraz Tonacco. See Perslan Tonacco.

SHIRE, a division of land, less than a county, sometimes only a parish.

SHIRR, an insertion of elastic cord between two pieces of cloth. two pieces of cloth. [ton, or flannel. SHIRT, a man's under-garment of linen, cot-SHIRT-nurron, small buttons of mother-of-

pearl shell, porcelain, or other material, for attaching to the wrists, collar, and front of shirts.

SHIRT-FRONT, a dickoy, or loose shirt bosom, to be worn over a solled shirt. Shirting, a kind of called or long loth, made to imitate and supersede linen.

Smat-maken, a sempstress; a tradesman who employs females to make shirts.

SHIRT-STUDS, metal or other links, used in-

stead of buttons.

Snive, a thin slice; a sheavo; a small spe-

eies of onlon. See CHIVES.
SHOAD, SHODE, a stone containing oro mixed with rubbish.

Snock, a commercial term applied to loose goods in some parts of the Baltic, signi-

goods in some parts of the Balle, signifying a lot of 60 pieces, as 60 staves, &c.
SHODDY, worsted yarn from old stockings, flannels, and soft materials, torn up, fibre by fibre, in a "devil" (as it is technically termed), and re-span into yarn, with the addition of a little fresh wool. Shoddy is made into an inferior cloth, into druggets, padding, and other articles. padding, and other articles.

padding, and other articles.

SHOE, a miner's name for a trough, in a crushing-mill; a covering for the feet, chiefly made of leather; an iron protection for a horse's foot; ? socket or runner; the sled or drag for a wheel.

SHOE-BINDER, a female who attaches the leather or ribbon binding to a shoe.

SHOE-BLACK, a boy in the streets who cleans slices; n name in Jamaica for the Hibiscus rosa sinensis, which furnishes a valuable fibre.

SHOE-BUCKLE, a buckle for the front of shoes,

now seldom or never used.

SHOE-BUTTS, stout leather sulted for soles. SHOE-FACTOR, a wholesale dealer in shoes. SHOEING-SMITH, a blacksmith who shoes horses.

SHOE-LAST MAKER, a shaper of wooden models of the foot to fit shoes by.

SHOEMAKER, a workman who makes shoes ;

a tradesman who sells shocs and boots.
SHOE-PACK, in North America, a mocassin made of tanned leather, the black side in.

SHOE-PEG MANUFACTURER, a maker of the wooden or metal pegs, sometimes used to

fasten on the soles of shoes.

Shoes, coverings or protections for the feet, usually madeofstrong leather; a currency medium in China, being a mass of pure sllver in the shape of a shoe, and weighing nbout ten tacis, or 131 ounces. HOE-SCAAPER. See SCRAPER.

SHOE-SCRAPER.

SHOE-STONES, sharpening or setting-stones, imported from France for the uso of shoe-makers, book-binders, saddlers, harnessmakers, pianoforte-makers, cork-cutters,

Shoe-string, a piece of black tape or ribbon

for tying shoes

SHOE-THREAD MAKER, a manufacturer of the thread used by shoemakers to sew

leather together.

SHOLA, an Indian name for a cellular substance, obtained from the pith-like stem of Æschynomone aspera, used for making liats, bottle and glass covers, life-preservers, and toys.

SHOOKS, SHAKES, the staves and battens of wood used for making sugar-boxes and

hogsheads.

SHOOT, a shaft, plt, or trough full of water; a branch from a main stock or trunk.

SHOOTHEE, a name in Bengal for the long zedoary of pharmacy, the roots of Curcuma Zerumbet.

Shooting-box, a sportsman's country seat or quarters.

SHOOTING-STICK, a tapering piece of wood, generally of box or hawthorn, about nine inches long, used by letter-press printers: It is applied to the quoins, and struck heavily with a mailet, till the types are firmly fastened in an Iron frame called a chase.

Shor, n place where any thing is sold; a working-place; n name in the manufac-turing districts for a collection of six or eight looms, occupying the lower flat or story of a building.

SHOP-BILL, a tradesmau's hand-bill or business announcement

SHOP-BLIND. See BLIND. SHOP-BOOK, a tradesman's book of memorandums or accounts; a day-book.

SHOP-COUNTER, a shop-board or resting-place, for goods, &c. to be examined, measured, or weighed. SHOP-FITTINGS, the counters, desks, shelves,

gas-buruers, and other fixtures of a shop. SHOP-FRONT,

front to a shop. SHOPKEEPER, a retail dealer or store-keeper. Shopman, an assistant who serves or at-

tends in a shop.

SHOP-WALKER, the general superintendant in a linen-draper's sbop, who directs the customers to the proper department for the goods they seek, and sees they are attended to.

SHOP-WINDOW, the large display window of a shopkeeper.

SHOP-WOMAN, a female who attends upon

eustomers ln a sliop. SHORE, a timber prop; a buttress or sup-port to a wall; a stanchion. SHORLING, the skin of a sheep that has been lately shorn,

SHORTHAND-WRITER, a reporter who takes notes quickly and accurately in steno-graphy or shorthand; an official engaged to take notes at a public meeting, trial, &c.

SHORTHEADS, a sallor's term for sucking whales under one year old, whileh nre yery fat, and yield above thirty barrels of

blubber.

SHORTS, COARSE flour; bran. See SHARPS. SHORT-SHIPPED, a deficient quantity; goods shut out from n ship, necidentally or for want of room, although passed and want of room, altho

SHOT, an alloy of lead and arsenie run into very small globules, by dropping through a culiender, at the top of a shot-tower, into a tub of water at the bottom. It is afterwards sorted through sieves into the different aircs VS also. different sizes, No. 0 to 4.

SHOT-BELT, a leather sling pouch carried by sportsmen, to hold shot.

Snot-manufacturer, a melter and maker of shot.

SHOT-TOWER, an elevated tower from which shot is dropped into water.

Shoulder of Mutton, the fore-leg of a sheep; a triangular sail for a boat.

Shoulders, a name in the leather trade for tanged or curried hides and kips, as well as for English and foreign offal.

SHOVEL, a wooden or Iron scoop with a long handle; a kind of spade. Shovel Maker, a manufacturer of iron or

wooden shovels and spades.
Show, an exhibition on a largo or small scale; a booth at a fair. There are poultry shows, cattle shows, horticultural and floricultural shows, &c.

Show-bill, Show-board, a placard or display-board with large letters or devices. Show-box Manufacturer, a maker of glass

cases for shops, &c.

Show-card, a tradesman's placard or announcement; a pattern card for displaying in a shop.

Showman, one who keeps a small exhibi-

tioa.

Show-Room, a shopkeeper's or workman's display room.

SHRAPNELL, a kind of bombshell filled with bullets, named after the inventor.

SHBEETALY, an Indian name for the talipot palm, Coryphaumbraculifera, from which a kind of flour is obtained. The seeds are a species of vegetable lyory, which are turned into marbles, beads for necklaces, chessmen, button-moulds, &c. They may be obtained in large quantities in India.

SHRIMPER, a fisherman who catches shrimps

on the sea shore.

SHRIMP-NET, a dredge-net fixed on a pole, or a sweep net dragged over the fishing ground.

SHRIMPS, small crustacea, the Crangon vulgaris, caught in large numbers, and sold in towns.

SHRINK, to warp or contract.

Shaoff, the native name for an Indian baaker or money-changer.

Shroffage, the examination of coins, and

separation of the good from the debased. SHAOUD, grave-clothes for a corpse.

Shrouds, sets of ropes reaching from the lower mast-heads to the vessel's sides, to steady and secure the masts.

SHUBE, a sledge wrapper of fur.

SHUBIT, an Arable name for the aromatic and carminative fruit of Anetham Sowa. SHUDE, a name given to the husks of rice,

and other refuse of rlco-mills, largely supplied to oll-crushers, as an adulterating ingredient for linseed cake.

SHUMA, An Arabic name for bees'-wax. SHUMAC. See SUMACH. SHUPAAK. See PELIJURAEE. [a]

See PELIJURAEE [apple. SHURIFA, the Persian name for the custard-SHURIFA, the Persian name for the custard-SHURTERS, safeguards to windows and doors, of wood or iron, closing horizontally or perpendicularly.

perpendicularly.

SHUTTLE, in weaving, the instrument for passing the well between the opened warps; in loundry operations, a gate or stop to the sow or trough by which the manufacture is the manufacture. melted metal is let out into the mould.

SHUTTLE-MOUNTING MAKER, a constructor of the frame-work or fittings for shuttles and looms. ver's loom.

BHUTTLE-RACE, a sort of shelf in the wea-

Shutuakhar, an Indian name for the camel's-thorn, Alhagi Maurorum, which yields the manna of the desert.

SIAMOISE (French), a coarse cotton cloth. SIBERIAN OIL-SEED, a local name in Canada for the Camelina sativa, or Gold of plea-

Sicca, a term formerly very generally applied to the rupce as a money and a weight. The rupce was called a sicca only during the year after its coinage, and subsequently a souaut or sunat rupee. The various slocas or sonauts are now estimated by the shroffs or native money-changers, in comparison with the legal current rupee of the East India Company's mint. See Rufee.
Sigkle, a short, curved, resping-hook.
Sigkle-Manufactureb, a maker of sigkles.

SIDE-ARMS, weapons carried on the left side, as a hayonet, sword, hanger, or dirk, SIDEBOARD, a shelf or fixed table in a dialing-room.

SIDE-SADDLE, a woman's rlding-saddle with

a pommel and one stirrup.

SIDESMAN, a churchwarden's deputy or

assistant.

SIDE-WALK, a foot-path; a causeway. SIDHEE, an Indian name for the large dried

leaves and young capsules of the Indian hemp-plant, without the stalks; used for making an intoxicating-drink, for smok-ling, and in the conserve or confection, termed majoon.

SIDING, IDING, a passing place or turn out; a resting-place for trains on a rallway-

line.

SIDINGS, a name in America for long wedge-shaped boards, used for the sides or roofs of houses.

SHEGE-GUN, a heavy gun carrying a large charge of powder and hall, used to hatter down or effect a breach in an enemy's wall.

SIESTER, a Bavarian coln. See Kopf-Stuck, Sieve, a straincr, riddle, or searce, with hair, whre, or zine bottom; a coarse has-ket; a bolting-cloth.

SIEVE-BOTTOMS, attachments for the frame of a sieve made of horse-hair or wire, &c. and of various kinds; cylindrical ones for paper-manufactorics, as well as other kinds, are made in Hiyria la considerable quantities for export, and at very moderate prices.

Sieve-Makea, a manufacturer of screening

machines and sleves.

SIGNAL, a mark or beacon; a warning given by guns, blue lights, or rockets, &c. See FOG-SIGNAL.

SIGNAL-LIEUTENANT, an officer in the Royal Navy having the charge of signals on board a flag-ship.

SIGNAL-MAN, a railway official; also one employed at a flag-staff, semaphore, or on

board-ship, &c. to manage signals. SIGNAL-STAFF, SIGNAL-POST, an elevated polo or spar, erected on some prominent or distinguishable situation, for making sig-nals to shipping, &c. Flagstafis are often erected in gardens, and on the tops of houses or public buildings, to suspend flags for holidays or festive occasions, &c.

SIGNATURE, a person's name subscribed to a writing, eheque, or other document; in priming, the letter or figure at the lower part of the first page of a sheet, intended to facilifate the arranging and gathering of the sheets for bliding them.

SION-BOARD, a tradesman's announcement affixed to his shop, store, or dwelling. SIONET, an engraved stamp; a seal. SIONET-RING, a ring with a stone or metal

shileld for cutting letters, nrins, or devices

SIGNET. GNET, WRITER TO THE, a law-officer lu Scotland so named, abbrevlated, "W. S." Sign-painter, a painter of publicas' haag-ling signs, or of fixed signs for shop-

keepers. Sign-post, the post on which a sign is sus-

pended.

Sikat, the Malay same for a harrow. Siktha, a Sanscrit mane for bees'-wax.

Silberground, a furniture wood of Demerara.
Silberground a Prussian coin of 12 pfenaines; about 197 = £1. [cotton. aines; about 197 = £1. [cotton. Silesia, a linen made in Germany; a British SILHOUETTE, a profile likeness or pleture represented in black, the shadows and prominent features being touched in

with gum.

SHE, the fibre enveloping the silk-worm cocoon, which, when simply reeled, is termed raw silk, and after being worked in the mills, thrown silk. Our imports of raw silk in 1856, amounted to 7,383,672 lbs.; of thrown or spin silk, \$83,015 lbs.; of waste kaubs and hisks, 17,994 cwts. Of silk maguateture of Europe we received. silk manufactures of Europe we received 905,013 lbs.; and of Indian slk 597,752 plees. The larports of raw slk were derived from the following quarters:—China, 56,561 bales; Bengal, 13,829 bales; Bengal, 14,829 bales; Persia, 1,858 bales; Brutia, 143 bales; Italiaa, 2,784; total, 75,106.
Silk and Velvet Manufacturer, a weaver

and maker of these articles.

SILK-BUYER, a clerk employed to purchase slik at public sales.

See CONDITIONING

SILK, CONDITIONING.

SILK. BILK-COTTON, a name given to the silky down or fibre obtained from the Bombax, Calotropis, Cryptostegia, and other plants, which is useful for stuffing pillows, papermaking, &c. See KAPOK.
SILK-DRESSER, a stiffener and smoother of

SILK-DYER. See DYER.

SILK-EMBOSSER, one who ornaments silk by passing the plala stuff between rollers, the surfaces of which contain the desired pattern raised on one cylluder, and depressed or sunk on the other.

SILK - GAUZE MANUFACTURER, a gauze-

weaver. See Gauze.
Silk-Gown, the distinguishing robe of a Queen's Counsel; adress worn by females. SILK-GRASS, a name for the flae fibres of the Agave vivipera, and of A. zuccæfolia.

SILK - HANDKERCHIEF, a pocket or neck kerchief of silk, white, or coloured. SILK-HAT, a light hat with a silk plush cover; not a felted or beaver lat.

BUK-HOSE, stockings made of silk.

Silk-manufacture, an important ladustrial occupation, which gives capployment, an important ladusin its several branches, to about a million persons. The declared value of the ex-ports of British annufactured siks in 1856, was close upon £3,000,000. In 1850, there were 272 silk factories in England, with 1,888,908 spindles, 6092 power-looms, and steam and water power employed equal to 2,871 horse power. In these factories to 3,571 horse power. In these factorles 12,513 male operatives, and 29,190 fenate operatives were engaged. Ninety-seven of the factorles were situated in Cheshire, chiefly in Macclesfield and Congleton. There were only five silk factories in Seotland, employing 841 persons, and no silk factory in Ireland or Wales.

SILK-MERGER, a dealer in articles made of silk, usually coarbined with the general linendrapery busiaess.

SILK - MERCHANT AND MANUFACTURER, a maker and wholesale dealer in slik goods. ranger and wholesare tears in some government, the building or factory in which raw silk, as imported, is prepared for the weaver, the stocking-maker, or the sempstress, by spinning or twisting, and other processes. They are sometimes other processes. other processes. They are sometimes subdivided into silk-throwing mills, and silk-spianiag mills, the former being for the manufacture from good and perfect raw silk, and the latter from waste and large transparents. inferior silk.

SILK-PLUSH, a material used for articles of ladles' dress; also very extensively for coverlag the stuff bodies of men's hats.

SILK-PRINTER, a stamper of slik.

SILK-PURSE MAKER, a knitter of purses of coloured slik.

SILK-SHAO, a coarse, rough woven silk like

SILK-SPINNING MILL. See SILK-MILL.

SILK-THROWER, one who twists or spius and prepares silk.

SILK-THROWERS'-COMPANY, one of the minor livery companies of London, which has no hall.

SILK-THROWING, the process of spinning and preparing hard slik for warp and weft threads for the weaver; for yarn for tho silk-stocking maker; for sewing-silk, and other purposes.

SILK-WATERER, one who clouds, waves, or waters silk, by passing two pieces placed leagthways between metallic rollers, where they are subjected to different

degrees of pressure. SILK-WEAVER, a manufacturer of articles of

silk in breadths for dress-pleces, &c., or narrow strips for ribbons.

SILK-WEED, an American mane for the Asclepias Syriaca, the root of which has some medicinal properties. A sugar is nade from the odoriferous flowers, which are gathered in the morning when they are covered with deep, and the cotton from the pods is collected to fill beds. On ac-count of the silkiness of this cotton, Par-kinson calls it Virginian siik. The plant is sometimes called Milk-weed.

SILK-WEIGHT-AND-MEASURE. The size or substance of a silk thread is usually esti-mated by deniers, an Italian and French weight, the comparative proportion of The size or

which will be understood by the appended remarks. The ounce troy and the ounce "Polds de Marc" of Lyons, by the latter of which silk is tested in France and Italy, are equal in weight, but are differently subdivided. The ounce troy in England is smonvied. The other croy in England is divided into 20 pennyweights × 24 = 480 grains; the ounce of Lyons, "Poids de Mare," into 24 drams × 24 = 576 deniers. The denier is therefore 1-6th less than the English grain, or, as the decimal 0 8333 is

10 1 0000

		33	. 500

The pound troy is to the pound avoirdnpois as 14 to 17, nearly. The pound avoirdupols is to the pound "Poids de Marc" as 10 to 11, nearly. The pound "Poids de Marc" is to the pound troy as 4 to 3. The English silk reel is 818 bouts of 44 inches, = 1000 yards. The French, 400 clls, or 475 metres, of 93 371 inches, = 520 yards. The custom of the trade is to reckon 32 deniers to a dram. This has probably been adopted from ease of subdivision, but when carried out creates much error. The standard of silk measure is about 400 yards; that length of a single filament from China eecoons will weigh 2 deniers, and from French or Italian 2½. A 10-denier silk will thus be the combined thread nier silk will thus be the combined thread of four or five cocoons.

SILK-WINDER, a silk-thrower; a small recl, or machine for winding off silk. SILK-WORM, the caterpillar of the silk-moth,

the Bombyx mort.

Silk-worm Rot, a disease affecting silk-worms. See Muscardine.

Sill, Chl., the lower beam of a window or

door frame.

SILLABUB, a mixture of new milk, wine, sugar, and spices.

a pit, or subterrancous store for

Silo, a pit, or subterrancous store keeping grain.

Siltr, the accumulated alluvium washed down by rivers, and forming deposits.

Silver, one of the precious metals. The British silver coinage consists of crowns, half-crowns, florins (first coined in 1849), shillings, sixpences, fourpences, three-pences, twopences, and pence. From a pound of standard silver, are coined either 13 1-5th crowns, 26 2-5ths half-crowns, 66 shillings, or 132 sixpences. Silver is not a shillings, or 132 sixpences. Silver is not a

legal tender in Great Britain and her colonies, tor more than 40s, at any one time. The relation of gold to silver, in the legal eoinago of the United States, is as 1 to 15-98s; in Great Britain, as 1 to 14-28s; and in France, as 1 to 15-499. Thus it will be seen, that one onnee of pure gold will, is the United States he garden the them. be seen, that one office of pure gold will, in the United States, be equal to that produced from the coinage of 15988 ounces of pure silver; in Great Britain it will be equal to that derived from only 14288 ounces of silver; and in France to 15499 onness. Silver is the legal tender in China and the East. In March, 1853, an extreme into correction in the United act came into operation in the United States, for reducing the quantity of silver in the silver eoins, retaining the same in the silver coins, retaining the same denomination, on the principle followed in Issuing the silver coins of England. Prior to that period, the coined silver always disappeared from chrentation, but not since. The mint value of silver, is 5s. 6d. the ounce. The price of silver bars, standard, was in London, 59\(\frac{1}{2}\)d, in January, 1850; reached 62\(\frac{1}{2}\)d. in January, 1855, and stands at 62d. in January, 1855. The silver coined at the British Mint since 1840 has been as follows: since 1840, has been as follows :-

1840	£216,414	1849£119,592
1841	96,175	1850 129,096
1842	192,852	1851 87,868
1843	239.580	1852 189,597
1844	610,632	1853 701,545
	647,658	1854 140,480
	559,548	1855 195,511
	125,730	1856 462,528
		1857-601,684.593
-010		

These figures show that our silver coinage These figures show that our silver comage is not regulated by the demand necessary to satisfy the hands of the public, but by some other undefined system. It is generally understood that the Bank of England has no control whatever over this coinage. In the last 20 years the British silver colonge has been under 64 millions (and of this £677.550 was worn silver. resilver collage has been under 64 millions (and of this £677,550 was worn silver, recolled since 1847), certainly an insufficient amount to supply the loss by wear and tear, export, incling, and the growing demands of commerce for small change. Silver coined since 1848:—

The silver bullion received at the Bank of England, In the three years ending with 1855, averaged nearly 20,000,000 onnees per annum; but it was all sent out ngain, and did not go into eirculation as coin in England.

SILVER-BALLI, a wood obtained in Demerara from a species of Nectandra. There are two varieties, the yellow and the brown. Tho wood being light floats. It contains a bitter principle, whileh protects it from the attacks of worms; hence it is much used for the outside planklag of the colony are the protects. eraft; also for booms and masts. It will square sound from 10 to 14 luches from 40 to 50 feet long.

SILVER-BURNISHER, a polisher or brightoner of articles of silver.

SILVER-CASTEA, n moulder or melter of silver.

SILVER-CHASER, an embosser of silver.

SILVER-FISH. See GOLD AND SILVER FISH DEALER.

Silver-handle Makea, a manufacturer of the handles for dessert kulves, &c.

Silver-knife Maker, a manufacturor of knives for paring fruit.

Silver-lace, wire coated with silver, and woven into lace.

SILVER-LEAF, thin foil of silver.

SILVER-PAPER, fine tissue paper for wrapping nrticles, &c.

SILVER-PIERCER, a worker in silver.

SILVER-PLATE-CHEST MAKER. See PLATE-CASE MAKER.

SILVER-PLATER, nn electrotyper.

SILVER-POLISHER, n burnisher of silver ware, &c.

SILVER-SALVER, a hand tray of silver.

SILVER-SMITH, a worker or dealer in silver; mostly combined with the business of jeweller, &c.

SILVERSMITH'S ilversmith's Licence, a government licence of £2 6s. required under the 43rd. governmeat George III. cap. 69, to be taken out by all persons tradlag in, or vending, gold nad silver plate, or wares in which there is more than 2 dwts. of gold, or 5 dwts. of

silver, in any one piece.
Silver spoon and for the silver of these silver articles for table

use.

SILVER-THIMBLE, a sempstress's protection for the finger in sewing, made of sliver. Silver-turner, one who shapes articles of

silver.

Silveaweed, the popular name of the Potentilla anserina, a roadside weed, the roots of which, being extremely astringent, are sometimes used for tanning, and the distilled water is employed as a cosmetic.

SIMARRE, a sort of long gown. SIMBLOT, the harness of a weaver's draw-

Simiri, an Indian name for the locust-tree in Demerara.

SIMMAI, a building-wood of Sierra Leone. SIMMER, SIMRA, a variable German oora-measure, the fourth part of the malter or achtel, but usually considered equal to 31 imperial bushels: 100 simmer = 78.94 imperial bushels: 100 imperial bushels = 126.67 simmer.

SIMNEL, a kind of erneknel or sweet-eako. SIMRA, a building wood of Slerra Leone, SINAPISMS, compounds of inustard flour and

water, used for poultices.

SINDAWA, the Malay name for saltpetre. SINDHOOKA, SINDUYA, vernacular names in India for the Vitex Negundo, the fruit of which is considered vermlfuge. Tho Mahommedaas are in the habit of smoking the dried leaves in eases of headache and catarrh.

Sindoc, a veraa Culliabaa bark. a verageular name in India for

SINDUVARA, a Sanserlt name for the Vitez

trifolia. SINEGURE, an office without duties; money paid for work not performed by the recipient, but done by n deputy.

SINEW, a tendon. Sinews are used by many particular to the control of the c

nations as thread for sowing together skin garments, and, when dried, some aro eaten. See Dendeng.

SINGARA-NUTS, a name for the fruit of Trapa natans and T. bispinosa, which abounds in feenla. It for as the principal food of the inhabitants of Cashaere, and yields a large reveaue to the Government. In China the kernel is reasted or boiled, like the potato.

SINGLES, a namo in the silk trade (a collective term), expressing a recled thread of raw silk, twisted, in order to give it strength and firmness.

SINGLE-STICK, a stout cudgel of ash for fencing or fighting with.

SINGLE-TREE, a cross piece for fastening har-SINGLO, a fine kind of green tea, with large flat leaves, not much rolled; another namo for twankay.

Sink, a drain or stone basin used in sculle-rics, &c. These shaped stones are sold by the superficial foot measurement, and are made either of Yorkshire tooled or Purbeek stone.

SINKER, a lead weight for a net or fishingline; a trade in Staffordshire

Sinking-fund, an appropriation for gra-dually paying off the debt of a Company or State.

SINNET, spun-yarn; platted straw for hats.
SIPHOID, a French constructed vase or apparatus for receiving and giving out gaseous waters. [liquids.

Sirion, a bent pipe or tube for drawing off Siricaa, a general division of a province in India; a Hindoo writer or accountant. Sirdar, the Hindustani aame for a chieftain

or head man; a principal palmikin bearer. Siri-oil, a name in the Eastern archipelago for the essential oil obtained from

lemon grass.

obtained by expression from the sweet oil obtained by expression from the seeds of the Sesamum orientale, which is much nsed as m article of diet, for friction of the body, and for lamps. The oil-cake, mixed with honey and preserved eitron, is esteemed an oriental luxury. When well prepared this oil is quite equal to the well prepared this oil is quite equal to the best olivo oil. See GINGELIR.

SIRLOIN, the best part of a loln of beef.
SIRRUS, a name in India for country-made

gluo,

SIRSINGLE. See SURCINGLE.

Stauba, a tree of great size, found in tho interior of British Guiana, and much used in the colony for ship-building.

SIRUP. See SYRUP.

Sisek, a Malay name for tortoiseshell.
Sissoo, a large Indian tree, the Dalbergia Sissoo, the wood of which is hard, strong, tenacious, and compact, and of great durabllity.

SISTER-BLOCK, a solid pieco of wood, with two holes, one above the other, with or without sheaves, to pass a pulley through.

Strio, a Spanish superficial measure used in Mexico, whose side shall be a league of 5,000 varas, each of 8 geometrical feet. The sitio or league of fund is 4,428 English acres. Fivo sitios make a hacienda, or ordinary sized plantation.

Sitting, the time given to an artist who takes likenesses; a scat in a pew at

eliureli.

SIXPENCE, an English current silver coin, the half of a shilling, weighing 1 dwt, and 1963 grains. The following gives the comage of sixpences since 1847:—

1847 586 080	1855 1,129,084	
1849205,920		
1850 498,960	1857 2,233,440	
1851 2,288,107	1858 1,932,480	
1852 904,586	1859 4.688.640	
1853 3,837,930		
1854840,116		
Total23,026,143		

SIZE, a liquid glue, made by boiling down in water the clippings of parchiment, glove-leather, fish-skin, and other kinds of skin and membrane. It is used in paper-madene, by bookbinders, paper-hangers, willtewashers, and painters in distemper. Sizel. See Scissel.

SIZE-MANUFACTURER, IZE-MANUFACTURER, a boller down of skins, &c., and maker of size. [roll. Size-roll, a piece of pareliment added to a Sizers, machines used in Ceylon made of perforated sheet zinc or whre gauze, for separating the eofice luto three sizes, the round or pea berry, and a larger and

smaller berry. Sizing, pieces of skin and hido used for making glue,

SJAMBOCK, the Dutch name in the Cape colony for a riding-whip made of hide. SKAALPUND, the name for the commercial pound in Sweden.

SKATE, an ediblo flat fish, the Raia Batis, which attains a large size, some individuals weighing upwards of 200 lbs. The females are generally called malds; a wooden or gutta-percha shoe or sandal, with a curved fron runner to slide or travel on the fee. on the ice.

SKATE-LIVER OIL, a fish oil often sold for the same purposes as cod-liver oil.

SKATE-MAKER, a manufacturer of iron silding shoes.

Skeet, a long scoop. Skein, a small hank of thread or slik, &c; a quantity of cotton-yarn after it has been taken off the reel. The skein contains 80 threads of 54 lnches: 17 skelns make a

hank: 18 hanks a spindle.

Skein-silk Dyen, a dyer of raw slik in one of the forms of singles, tram, or organzine.

Skelp, a name for the rolled medal of welding of wrought iron, from which a gun-barrel is made.

SKETCH, an outline or first draft; a plan of operations, &c. SKETCH-BOOK, a book for taking drawings

from nature

Skew-back, a bedding stone.

SKEW-BRIDGE, a bridge placed obliquely to the road, &c.; not running at right angles. SKEWER, a metal or wooden pin for keeping meat together; metal skewers for kitchen use are sold in sets, of sorted sizes.

Skip, a chain with a shoe to drag a wheel:

a log laid crosswise to support other logs ln

making a fence, &c.

SKIPPPE, a grain-measure in Sweden and Denmark, of 3.827 gallons, SKIPF, a small light boat.

Skiller, a small metal pot or kettle with a long handle.

SKILLING, a money of account in Sweden, Norway, and Denmark, worth about a halfpenny. fof liquors. SKIM, to remove the scum from the surface

SKIM-COULTER, a plough cutting-knife for paring land.

SKIMMER, a cook's scoop for taking up victuals from a pot; a strainer.

SKIM-MILK, milk from which the cream has

been taken off. Skimmings, waste substances skimmed off; fat from a saucepan in which meat is

boiled; thick syrup or scum in sugar-boiling, &c. Skin, a husk or hide; a wine-bag or water-

bottle. See Skins. Skin Dealer, a skinner; a furrier.

SKIN-DRESSER, a currier, or furrier.
SKIN-DRESSER, a leather-dealer, a furrier; a butcher who strips off the pelts from eareases.

Skinners'-company, the sixth in order of the twelve great livery companies of London, who received their charter from Edward III. Their hall is in Dowgate-

SKINS, a name generally applied by tanners to the pelts of small animals, as sheep, goats, seals, dogs, &c. The skins of the marine mammalia, as tho seal, and whale, and tho porpoise, when properly manufactured, are stronger than those of land nulmals. In 1855, we imported 3,600,780 skins of the lamb, goat, sheep, kid, and seal; and 633,961 ewts. of hides, worth together about £2,500,000. This was exclusive of furs.

Skin-wool, wool pulled from the dead skin, not sheared from the live animal. Skip, in sugar-making in the West Indics, a charge or strike of syrup from the cop-

Skilppen, a ship-master or captain of a small eraft; a populir name for a species of the Esox or saury pike, a migratory fish, which is sometimes caught in large shoals in the Forth.

SKIPPINO-ROPE, a ebild's short cord for skipping over, often sold mounted with handles.

SKIPPUND. See SHIPPOUND.

SKIRRET, a plant, the Sium Sisarum, the sweet succulent roots of which, being nutritious and sub-promatle, are employed in cookery, in the same way as Scorzonera.

Skirt, the flaps and lower part of a man's coat below the waist; the loose flowing breadths of a womau's dress attached to

the body.

SKIRTING - BOARDS, uarrow lining - boards round the walls of a room near the floor. SKITTLE-BALL, a flat ball of hard wood for throwing at skittles, or nine-pins.

SKITTLE-GROUND, a yard or enclosed shed, where the gamo of skittles or nine-plns is

played.

SKITTLE - MAKER, a turner who shapes

wooden skittles. SKITTLES, shaped blocks of wood, used as ninc-plns, to be aimed at with a skittle-

KIVE, the iron lap used by dlamond-polishers in finishing the facets of the SKIVE.

gem.

Skiver, an inferior kind of leather used for hat-linings, pocket - books, work - boxes, toys, and other cheap purposes. It is made of sheep's-skins, split lu two by n machine, when in the state of pelt, tanned by immersion in sumael, and afterwards dyed.

Skow, Scow, a flat-bottomed lighter, used in North America.

SKULL, to propel n boat by an oar at the stern. See SCULL.

SKULL-CAP, a tight-fitting eap; a Turklsh fez. BKULL-Fish, the technical name among whalers for an old fish; a whale which is more than two years old, previous to which they are named stunts and shorthends.

SKUNK-CABBAGE, n wild North American plant, the Symplocarpus fatidus, tho aerid seeds and rhlzomes of which are antispasmodle and expectorant, and administered medicinally as palliatives in paroxysms of asthma.

SKUTE, a small boat. See Scow. SKY-LIGHT, a window in the roof of a house, or an apartment; or in the deek of a ship, giving light to the cabin.

SKY-ROCKET. See ROCKET. SKY-SAIL, a light upper sail of a sblp, set nbove the royal.

SKY-SCRAPER, a name given to the sky-sail when it is of a triangular shape.

SLAN, a flat piece of stone; a plane or tablo of slate, or marble; the outer plank of a log of timher; a small mass of metal run into a mould; about thirty slabs of foreign tin go to the ton.

BLACK, a kind of small broken coal, used for smiths' purposes, sometimes mixed with better coal for fuel in engine fire-grates;

the loose part of a fixed rope.

SLAO, a molten vitreous product of metals or minerals, after fusion in blast-furnaces; the seorla left after smelting metal, which is now applied to various useful purposes.

Thoslag of Iron-works is usually ealled elnder. Sillea, alumina, ellorido of culcium, and nlum are obtained from slag, and it is cast into table - tops, and architectural ornaments, which take a beautiful polish. It may also be used for roofing, like rough glass, and in thin slabs like Dutch tiles, histend of plaster. It was formerly only used for road-making, or for rough walls,

SLAKED-LIME, lime reduced to a powder. SLAM, n name given to the refuse from

alum works.

SLAT, SLOAT, a piece of wood used as a stretcher, as the bar of a chair, the sleats

of a cart.

SLATE, argillaceous schist or mountainrock, of which there are many varieties. The property of splitting readily into plates, and the moderate degree of hardness, render some of its varieties useful for many purposes, as for roofing and writing slates, penells, roofing and writing slates, penells, whet-stones, &c. Its smooth and perfect surface adapts it for ornamental and useful purposes, as chimney-pieces, tabletasem purposes, as emining-pieces, table-tops, monuments, eisterns, tablets, bath-ing tuhs, and the beds of billiard-tables Small slates for sehools, and tradesmen's use, &c, are largely used; aud many thousands are made and sold mnually in different countries. See SLATES.

SLATE-AXE, a mattock for shaping slates for roofing, and making holes in them to fasten them to the roof.

SLATE BILLIARD-TABLE, a billiard-table with a slate-bed.

SLATE-BOOK, two or more slabs of framed slate bound together for writing on.

SLATE-FRAME, the narrow wood border for a writing-slate or slate-book.

SLATE-MERCHANT, nn importer or wholesale dealer ln slates.

SLATE-PENCIL, a thin, narrow slip of soft slate, for writing on a slab. About 500 tons of these are made annually.

SLATE-QUARRY, in place in which slate is obtained. There are important slate quarries in the North of England and North Wales, There are important slate quarries in France, Belgium, and the Rhine districts, &c. In North Wales twenty quarries are now worked, and the production of slates in the kingdom is about 360,000

SLATER, a workman skilled in shaping and working slates, and ln roofing buildings

with slate or slate laying.

SLATES, small shaped plates or large slabs of slate, chiefly used for roofing. For commerelal purposes slates are classed into the following principal varieties:-Doubles, measuring 13 inches by 7, and smaller, 11 by 7; ladies, 16 by 10, 16 by 8, 14 by 8, or 12 by 8; countesses, 20 by 10; viscountesses, 18 by 10; marchionesses, 22 by 12; duchesses, 24 by 12; priucesses, 24 hiches long, various breadths. A thousand slates number 1200, and 60 slates are also allowed over for breakage. There are also rags and queens, measuring 36 by 24; huperials and patent slates 36 by 24; Yestmorelands, and some othor kinds. SLATE-SLAB, a sheet or plate of slate. Those of first quality are sawn all round, and split as near the thickness required as possible. Sorted slabs are of promiscuous lengths and breadths. Some slabs are sawn to order. Ended slabs are those sawn at the ends only. Second-quality slabs are unplaned.

SLATE-WORKS, a yard, &c. where slate is sawn or shaped.

SLAUGHTER-HOUSE, a place for killing cattle;

an abattoir. SLAVE, a bondsman; a drudge. Slavery is still tolerated in several countries, especially in the United States, Spain, and the Brazils.

SLAVE-MARKET, a place where slaves are

SLAVER, a clipper-built vessel, intended to take on board and run a cargo of slaves SLAVE-TRADE, the illegal purchase and sale

of negroes for slaves. SLAG, a weaver's reed.

SLEDGE, a carriage on iron runners to travel over ice and snow.

Over Ice and snow.
SLEDGE-HAMMER. See HAMMER.
SLEEFERS, beams of wood, as of larch, hackmatack, hemlock, &c. 9 feet long by 9 or 10 inches broad and 4½ to 6 inches thick laid horizontally across a railway, to support the about 10 large and rails. the chairs, joists, and rails, &c.

SLEEPING-PARTNER, a dormant partner; one who puts in capital, but does not take any active share in the business.

SLEETCH, the thick mud or slush lying at

the bottom of rivers.

SLEEVE, the part of a garment which covers the arm.

SLEIGH, a sledge; a Scottish car without wheels.

Sleigh-bells, small bells attached to a

horse drawing a sledge.

SLENDANGS, a textilo fabric imported into the Dutch ports in the Eastern archipelago of which there are woven and printed kinds, initation Battick and Turkey-red slendangs

SLICE, a thin piece cut off any thing; a spatula for serving cooked fish.
SLICER, a name for the slitting-mill or circu-

lar saw of the lapidary.
SLIDE, a place in a river for timber-logs or

rafts to go down; part of a forcing-pump.

SLIDE-REST, an appendage to a lathe.
SLIDE-RULE, SLIDINO-SCALE, a mathematical instrument much used in gaaging and other kinds of mensuration.

SLIM, to shuffle over work. SLIMG, a coin current in Siam, worth about 2s. 2d.; a leather loop or cord for throwing stones; a brace or support of any kind.

SLINGS, ropes or iron-bands for scenning a yard to the mast; tackle with hooks pas-sed round a cask or package, to hoist or lower lt.

SLINK-LAMB, one that has been dropped or born prematurely. The soft skin of such born prematurely. The soft skin of such is used for glove-linings and military pur-

SLINKS, the skins of prematurely born lambs, calves, &c.

SLIP, a narrow dock or place for hauling up

a ship, or building a ship on; a leash for holding a dog; a woman's muslin or satin under-skirt or petticoat; a printer's galley-proof of a column of type; a quantity of yan; the rubbings of grindstones. \*

SLIPCOAT, new-made cheese; a small and very rich variety of Yorkshire cheese, not unlike butter but white.
SLIP-KNOT, a cord with a noose; a knot

SLIP-KNOT, a cord with a noose; a knot casily untied.
SLIPPER, an easy shoe of different materials; a skid for a wheel.

SLIPPER MANUFACTURER, a maker of carpet-shocs, or light thin in-door leather shoes. SLIT-DEAL, an inch and a quarter plank cut into two boards.

SLITTING MILL, a thin sheet-iron disk used for slicing by the lapidary; a mill for

making nail rods.

SLIVER, a piece torn or split off; a long continuous lap or twist of wool or cotton; in wool, formed by a machine attached to the carding-engine, and used for making the warp of cloth. Sloe, the fruit of the Prunus spinosa; the juice of the fruit is used in France as an

astringent substitute for catechu.

SLOKAN, SLOKE, names for the edible sea-weed, Porphyra laciniata, also called laver; the green sloke is Ulva latissima.

SLOOP, a cutter; a one-masted fore-and-aft-rigged vessel, having its main-sail attached to a gaff and lower boom.

SLOOP OF WAR, a naval vessel of any rig, mounting from 18 to 32 guns.

SLOP-BASIN, a crockery-ware basin forming part of a tca-service, for emptying the dregs from tea-cups into.

SLOPE, an inclination or gradient.

SLOP-PAIL, a metal bucket for chamber use. SLOPS, ready-made clothing; a seaman's name for all kinds of clothing, or fabrics suited for clothing, and bedding, supplied from the ship's stores. SLOT, a bolt or bar.

SLOTE, a trap-door in the stage of a theatro. SLOT-HOUND, a blood-hound.

SLOTTING AND KEY-GROOVING MACHINE, IL machine for cutting the key-grooves and bosses of wheels.

SLUB, SLUBBINO, a preparatory thread or roll of wool, drawn out and slightly twisted in the first spinning frame, used tor the west in cloth-making.
Slubbing-billy, the first spinning frame or

machino for preparing wool in threads, from short lengths of scribbled wool called cardings.

SLUBBING-MACHINE, a machine for drawing the slivers or laps of cotton, and twisting and whiding them on bobbins.

SLUGS, small leaden bullets; half-roasted ore; heating-irons for hatters and tailors; naked molluses, species of Linnar which are still in some countries a popular are still, in some countries, a popular remedy in consumptive complaints. TREPANG.

SLUICES, the tide or flood-gates by which water is admitted to locks, docks, &c

SLUSH, soft mud; a name on ship-board for the grease of pork and beef skinmed from the ship's coppers, usually, like the refuse fat in kitchens, the perquisite of the cook.

SLUSH-TUB, a vessel for holding grease. SMACK, a small sloop; a cutter or fishingboat.

SMALL-COAL, SMALLS. See BREEZE, BURGEE, and SLACK.3

SMALL-CRAFT, deeked or half-decked boats and vessels; all under 100 tons. Some of these are limited to a certain distance from the shore, four to twelve leagues sea-ward, and cannot proceed beyond without special licence, or permission obtained from the Customs. \*

SMALL-DEBTS COURT, a Court of requests; a county court, or sheriff's court.
SMALL-TOOTH COMB, a comb of ivory or bone with small teeth on each side.

SMALLWARE - DEALER, SMALLWARE - MER-CHANT, a shop-keeper who keeps small wares; a merchant who supplies them.

SMALLWARES, a trade name in haberdashery for knitting and reel cotton, ribbon, wire, webbing, tape, fringes, braid, buttons, laces, bindings, &c.

SMALTS, a vitreous substance obtained by melting together zaffres, a regulus of eobalt, potash and siliceous matter, and grinding the produce to a fine powder, commercially known as powder-blue. It is employed to give a blue tinge to writingpaper, linen, and starch, and, not being affected by fire, is much employed in mainting earthenware. Some is made in this country, but the bulk nsed, about 60 tons a-year, comes from Holland.

SMART-MONEY, the money paid to a recruit on enlisting for the army, which he wisbes to return to be free of his however.

to return to be free of his bargain. Unless this is returned within 24 hours, he is mulcted in a heavy sum for his release.

SMEAR, a stain or daub.

SMECTIFE (French), a kind of fuller's carth.
SMELLING-BOTTLE, a small fancy glassbottle carried by a lady, containing pungent salts to sniff at.

SMELLING-BOTTLE-CAP MAKER, a manufacturer of the silver or other metal tops for

glass smelling-bottles.

SMELLING-SALTS. See AMMONIA and PRES-TON-SALTS.

SMELT, a small delicate river - fish, the Osmerus eperlanus, abundant in the Thames and Medway, from Angust to May.

SMELTER, one engaged in running ores into metal.

SMELTING, the operation by which crude ores are reduced to the metallic state.

SMELTING-HOUSE, a place for smelting ores. SMEDDUM-TAILS, in mining, the sludge or slimy portion deposited in washing ore SMEDT, a smith's shop; a blacksmith's

SMITH, a forger of metals by heat and blows; one who strikes metal with a hammer. There are white-swiths, black-smiths and general smiths.

SMITH AND IRON-FOUNDER, a worker in metals; one who has a foundry.

SMITH, GENERAL, one who works in all

kinds of metals.

See HAMMER. SMITH'S HAMMER.

SMITHY, the workshop of a blacksmith, or worker in metals.

Smock, a farm labourer's blouse; a woman's shift or under-garment.

SMOCK-MILL, a wind-mill with a revolving top; the trame and sails of which can be moved round to the wind.

SMOKE, the vapour of burning vegetables or inlinerals; to cure and dry animal substances by smoke.

SMOKE-BLACK, a substance prepared by the combustion of different resinous bodies, combustion of different resinous foodes, especially of pitch in large pans under a dome or chimney; within this cloths are suspended to which the soot becomes attached. This species of carbon is employed only in the arts; in the manufacture of printers' luk, of blacking for shoes, &c.

SMOKE-JACK, a roasting machine turned by the smoke of the chimney. See Jack.
Smoking-room, a room in a tavern, coffee-

house, or cigar divan, &c. where smoking is permitted.

Smolt, a salmon of a year or two old, that

has acquired its silver scales.

SMOOTHING-IRON, a flat iron to be heated, used by tailors and laundresses.

SMOOTHING-PLANE. See PLANE.

Smuggler, a contrabandist; one who brings in foreign goods without paying the Customs' duties; a vessel engaged in smuggling.

SMUGGLING, secreting or hiding dutiable goods; bringing them from the Continent in boats, or concealing them about the

person.

SMUT, a mildew or blight in corn, caused by a species of Uredo, which destroys the in-terior of the grain; four millions of the small powdery spores may be contained in a grain of wheat.

SNAFFLE, a bridle with a slender or simple mouth bit.

SNAG, the name given in North America to a projecting stump of a tree in a river. SNAG-BOAT, a steam boat fitted with an ap-

paratus for removing snags, or obstruc-

paratus for removing shags, or obstitu-tions to navigation in rivers.

SNAILS, species of Helix. The great vine snail, Helix pomatia is esteemed as a tablo luxury on the Continent, and in other localities; on the shores of the Mediterraucan they are boiled in the shell and eaten with rice. In some countries as in Switzerland and parts of France, snails form a considerable article of commerce. They are fed by thousands in places called escargatoires, which are made on purpose for them. They are used, bolled in milk, for diseases of the lungs.

SNAKE-Moss, a name for the common club moss, Lycopodium clavatum, the inflam-mable spores of which are used in Ger-many for artificial lightning on the stage, and are sold in the shops. They are also and are sold in the shops. They are also used for rolling up pills: for powdering intants, and in cases of Plica Polonica, aud

scorbutic affections.

SNAKE-ROOT. See SENEKA-ROOT.
SNAKE-STONE, a kind of hone slate, or whetstone obtained in Scotland, and also
known as Ayr stone; a name given to the
fossils termed ammonites.

SOD [ 351 ]

SNAKE-WOOD, a name applied both to the Cecropia peltata, and the Plumeria rubra, Linnæus.

SNAP, n catch, or small fastening to a bracelet, necklace, purse, or book lock. SNAP-DRAGON, an amusement: n dish with raisins covered with spirits set on fire.

SNAPPEA, a general name in the West Indies for several species of Mesoprion, a fish common to the East and West Indian seas, remarkable for the richness of their colours. They attain a large size, and aro much esteemed as nn article of food.

SNATCH-BLOCK, an Iron - bound wooden single block with a hook at the end, or an opening below the sheaves, to receive n

ropa

SNEEZE-WORT, the Achillea Ptarmica, the powdered leaves of which produce sneezing.

SNIE, a Canadian name for a water channel.

Snigg, an eei; n kind of sailing vessel.
Snipe, n wild bird, the Scolopax gallinago,
which is much esteemed as a delicious and well-flavoured dish.

SNOOK, a common fish, both of the sea and the rivers of the West Indies, the Centropomus undecimalis. \*

Snow, a two-masted vessel with a small supplementary mast for energying a trysnil.

Snow-Plough, a machine for clearing away snow from railway tracks.

Snow-snoes, pleces of wood 2 or more feet long, by 6 or 8 lnelies wide, bound to the feet and ancles, by deer-skin thongs, for travelling over snow. Other kinds in Nova Scotla, &c. are made of strings of hide or sinew, strung in n framo like n racket or battledore.

SNOW-SWEEPING ENGINE, a plough or other contrivance for removing snow from railways and common roads.

SNUFF, powdered tobacco, through the nose. to be taken

SNUFF-BOX, a small box for the pocket to contain snuff, made in endless variety, and of different material, wood, metal, papiermaché, &c.

SNUFFERS, plucers or seissors for cutting the wlek of a candle, now little used, owing to the introduction of prepared wicks.

SNUFFERS'-MAKER, a manufacturer of metal snuffers.

SNUFFERS-TRAY, n small stand of metal or papier-mache, for snuffers. SNUFF-MAKER, one who pulverizes the stalks

and leaves of tobacco for snuff, which is

usually flavoured.

Soap, a detergent substance, soft soap being made of fish oil, tallow, and a ley of caustic potash; hard, from almost any fatty matter, in combination with soda; white or mottled soaps contain no resin.

SOAP-BEARTES, the seeds of Mimosa abster-gens, Sapindus Saponaria, S. emarginatus, gens, sapinaus saponaria, S. emarginalus, and other speeles. The aril, which surrounds the seeds, is used as soap in South America and Indla. The seed-vessels are very aerid; they lather freely in water, and will cleanse more linen than thirty times their weight of soap; but in time they corrode or burn the linen. The kernel or seed is used for resaries, braceiets, and other ornaments.

SOAP-HOILER, I maker of soap.

Soap-dish, a small percelain or other vessel, for holding soap for toilet use.

SOAP-LINIMENT, a medicinal external application, used as a stimulating labrleant for locai pains.

local pains. [of soap. Soap-MANUFACTURER, n soapbolier; n maker SOAP-NUT, a namo for the seed of the Mimosa abstergens. SOAP-STONE, or STEATITE, a hydrous sillento of magnesia and alumina, which is much used for the lining of stoves and fire-places, for sinks, and for the baths, and sizing rollers used in cotton mills. It is so soft as to be easily wrought, turned, and planed with the ordinary tools of the carpenter, and it may be served togetier.

and planed with the ordinary tools of the earpenter, and it may be serewed together as easily and as tightly as wood.

SOAP-SUDS, water impregnated with soap, in which linen has been washed, or for scouring wool, &c. It forms a good liquid

manure.

SOAP-WORT, the root of Vaccaria vulgaris, which, like the aril of the soap-berry, contains saponine. The herbage of this Enropean plant is said to increase the milk of

Socage, a tenure of land by certain services or rent.

Sociable, a private carriage for town use, with two scats facing.

Society, an association or partnership. France n société en commandite is ono where the manager is liable; n société anonyme is ono without personal liability. Sock, a short stocking; an liner warm solo

for a shoe. Socker, a hollow tube or receptacle for any thing; the joint in which a ball turns.

SOCKET-CASTOR, a metal eastor which moves In a socket.

SOCKET-PIPE, a pipe worked in n socket. See Socket.

Soconusco, a choice species of cocoa produced in the department of Suchitepequez In Guatimula.

SOCQUE (French), a wooden sandal. SODA-ASH, the alkali obtained from common salt, manufactured to the extent of from 100,000 to 120,000 tons a year. It is used instead of barilla for soap-making, as a substitute for pot and pearl inshes in glassmaking, and for bleaching and cleansing eotton.

SODA, CARBONATE OF, the dissolved soda ash, crystallized, of which 25,000 to 30,000 tons a year are made, and used medicinally, or

a year are made, and used medicinally, or for domestic purposes.

SODA-WATER, an incorrect name generally applied to a common effervescing beverage. The effervescent quality is not due to soda, but is produced by carbonic acid gas, which is forced into the water by an apparatus. The gas is produced by pouring sulphuric acid unou parable dust or ing sulphuric acid upon marble dust, or upon the super-carbonate of soda. The quantity of this cooling beverage made is very large, and with lemonade has been estimated to amount in value to £1,250,000 a vear.

SODA-WATER-BOTTLE, a strong oval-shaped glass bottle, the cork of which is secured by twine and wire to confine the agrated

SODA-WATER MANUFACTURER, a maker and bottler of soda-water, who often also makes gluger-beer, lemonade, and other aërated beverages. [Angora.

aerated beverages. [Angora. Sor, a plain cloth made from goats' hair at SorA, a long stuffed couch or reclining seat. SorT-SOAP, a dark potash soan that is nearly liquid. See SoAP.

SollagA, a Thibetian name for fineal or unrefined horax. [19] inches.

Sok, Sook, a long-measure of Slam, nearly Sol, the twentleth part of a florin or of the old livre tournois of France: in Brabant, 12 deniers make 1 sol.

Sola, the Asschynomene aspera, the light sponge wood of Bengal. See Snola.
Solah, the name for the hulf of a seer; a

grain-measure in Masulipatam, = 1 1-16th

SOLAMIRE (French), a sieve eloth.

SOLARE, a Spanish land-measure of 25 estadales, about 884 squaro yards.

Solder, a metallic cement used by plumbers and tinmen, consisting of an alloy which has an affinity for both metals to be uulted, and melts at a less heat

Soldering-Iron, a copper tool for heating and melting solder. [for metals.] SOLDER-MANUFACTURER, a maker of cements
Solder, one employed in an army, or who
fights in defence of his own country; a supernumerary or auxiliary engaged by a

foreign state. Soldo, an Italian money of account, about equal to the English shilling, and divided into 12 denari or pence. There are silver

into 12 denari or pence. There are silver pieces, of 5, 8, and 10 soldi.

Sole, a support or rest for a draining-tile; the bottom part of a shoc or boot made of leather or gutta pereha; an esteemed flat fish, the Solea vulgaris, of Cuvier, eaught off the British coasts in large numbers: one hundred millions, or 12,000 tons in weight of this fish are said to be sold annually in Billingsyste. \*

SOLE-LEATHER, thick ox-hide or shoe butts, suitable for soles of shoes and boots.

Solicitor, an attorncy at law.

Solidare, a small coin.

Solidified-Milk, concentrated or preserved milk for use at sea.

SOLLAGAY, a grain-measure in Bellary, East Indics, = 8 lbs. 10 oz. SOLLAR, the entrance to a mine; a loft.

SOLLER, a name in Stettin for 80 pleces of whetstones.

Solograph, a name which has been given to some pictures on paper taken by the talbotype or ealotype process.

Solota, a former Turkish coin of 2 2-5ths

oslics, and worth 11d. or 1s.

SOLOTNICK, a Russian weight, the third part of a loth. See ZOLOTNIC.

Soltanee, an Egyptian variety of natron or subcarbonate of soda.

Solvent, able to pay all debts contracted. Soma, an Italian measure for liquids rang-ing from 14½ to 36 gallous; but as a dry-measure from 2½ to 6 bushels.

Somerero (Spanish), a hat. Sommage (French), manor dues on cattle. SOMMELIER, a French butler.

SOMMIER, an animal carrying a pack-load;

a horse-hair mattres Sompare, Somp, a weight of 60 grains used for the precious metals in Madagascar, Son, the French name for hran; the husks

of ground corn.

Sonall, a name in Bengal for the pods of the Cathartocarpus Fistula. See Cassia. FISTULA. Smith.

Sonar, a worker in gold, an Indian gold-Sonar (French), a tawed sheep-skin. Sonf, a local Indian name for anisced.

SONG-FAL, a money of account of Slam, the half of a fuang, and worth about 13d. Sonnette (French), a small bell. Sonnette, an instrument for testing the efficacy of treatment in deafness, consisting of a small bell fixed on a table.

Sonsonate Balsam, a name given to two species of balsam of Peru, a black and a white, obtained in St. Salvador from Myrospermum Peruiferum.

Soocey, a mixed striped fabric of silk and cotten is India.

cotton in India.

Sooco, a name in Bencoolen for the fourth part of a real, and valued at 1s. 3d. SOOGHEE, a name in Canara, India, for boiled

coarse rice.

SOOJEE, Indian wheat, ground but not pul-

SOODEE, Indian Wheat, ground but not purverized; a kind of semolino.

SOODAREE, SOODARI, a vernacular name in India for the arcea palm and betel nut.

SOORMA, a sulphuret of antimony, with which Indian women anoint the cyclids.

SOOT, condensed smoke, collected by chimney-sweepers, and sold for manner. See Shake Marke Marke. [fistula pods. SMOKE-BLACK.

SOOVARNUKA, an Eastern name for cassia-Sorbet, a Turkish beverage, lemonade or sherbet. See Scherbet.

Sorbine, a saccharine matter obtained from the herries of the mountain-ash (Sorbus acuparia).

SORE, a French name for merino or Spanish wool.

Sorrel, a buck of the third year; a horse of a reddish colour; a name for two plants, one the wood sorrel, Oxalis acctosella, the leaves of which, being acid and refrigerant, are used in salads and as an infusion in fevers; the other, the Rumex acclosa, possesses similar properties, and is also used as a pot-herb and salad, and in cooling drinks.

Sorted, elassed, arranged, put in order. Sorts, varieties; a mixture of printing-type.
Sorta (Spanish), a deputy or aid; hence
Sotacicinero, an under cook; Sotaconitre,
a boatswain's mate; Sotamoniero, an under luntsman; Sotascristan, an under
sexton; Sotacochero, a postilion, &c.
Sou, a French copper coin, the 20th part of
a livre, consisting of five centimes, and
acquired to a beliferency English. In

equivalent to a half-penny English. In Belgium the son or sol is divided into 12 deniers. A former weight of France used

by moneyers, of 192 grains.

Souart, a most durable timber, obtained in Demerara from the Caryocar tomertosum. The large oily nuts of the Caryocar nuciferum or butyrosum, from South America, aro edible. The tree is the Pekea tuberculata of Aublet. See SAOU-

Soubrette, a French waiting-mald.

Soucar, an Indian banker or merchant; a money-lender.

money-lender.
Souener, a kind of free-stone; a French name for the pendulous mucilaginous tubers of the Cyperus esculentus, which are cultivated in the South of Europe, and eaten like nuts, being nutritive, restorative, and stimulant. They are also employed in the preparation of orgent. They are sent to Cairo and Alexandria in considerable almadance, and sold in the hazars. able abundance, and sold in the bazaars, combined with rice, in the form of cakes. The toasted roots have been used as a substitute for coffee, and yield a preparation resembling chocolate. The cultivation of the plant deserves attention for its eonsiderable alimentary value.

Soucheteur, an inspector of woodentters in France; a person who marks or verifies

timber that has been felled.

Soufflee, an omelet made of the whites of eggs, eream, and sugar, beaten up. Soufflons, an Italian name for a very im-

perfect silk cocoon.

Sough, an adit level for carrying off water,

or an entrance to a mine. SOUND, the air-bladder of a fish: many of these are enten, especially cods' sounds, fresh or salted, others furnish isinglass; a narrow strait of water where vessels lie at anchor; to ascertain the water with a plummet and line. the depth of

Sounding-board, a board over a pulpit, to make the speaker's voice heard at a disa board for propagating sound in a musical instrument

Sounding-line, a line attached to a leaden plummet for determining the depth of water.

Sounding-Rod, an iron-rod marked with inches and fect, to ascertain the depth of water in a ship's hold.

Soundings, the depth of water when the bottom can be reached.

Soup, rich or thick broth made of different materials.

Soupeled by voluntary contributions for preparing and supplying soup to the poor. Sour-LADLE, a spoon with a large bowl, and

long handle for dipping out soup.

Sour-PLATE, a deep plate for holding soup. SOUP-POT, SOUP-KETTLE, a boiler for pre-paring the stock for soup.

SOUP-TICKET, an authority for receiving

soup at a public kitchen.

SOUP-TUREEN. See TUREEN. SOUR, sharp, acid; fruit that is not ripe. Sourbassie, a French name for fine Persian

SOUR-CROUT. See SAUR-KRAUT.

Sour-sop, the fruit of the Anona muricata, a tropleal tree; the sweet sop is the produce of another species, the Anona squamosa.

Souschivant (French), the acceptor of a

Souse, to dip or steep; to pickle fish in vinegar, and bako them. Souter, a Scottish name for a shoemaker.

SOUTHERNWOOD, the Artemisia abrotonum; the fragrant bitter acrid leaves are dried to drive away moths from linen, and are said to form an ingredient in somo Continental beer.

Souvenir, a keepsake; a friend's gift of remembrance.

Sou'-wester, a painted canvas hat, with a flap over the neck, for use at sea in rough

Hap over the neck, for use at sea in rough weather, and also worn by coal-heavers. Sovereign, the principal English gold coin weighing 5 dwt. and 3:274 grains. It is current by proclamation if it weighs 5 dwts. 2½ grains, and the half sovereign 2 dwts. 13½ grains. There have been double sovereigns coined, but these are seldom met with in circulation. The following is an account of the sovereigus coined since 1847: eoined sinco 1847 :-

1817 4,667,127	1854	3,589,611
1848 2,246,702	1855	8.448 482
1849 1,755,399	1856	4 806 160
1850 1,402,039	1857	4 495 749
1851 4,013,624	1858	803 994
1852 8,053,435	1859	7 547 609
	1860	
Total		2,000,000
T 00011111111	00,000,100	

The value of the gold coined at the British mint from the year 1855 to 1860, was £26,972,882, which, added to the sum men-£20,972,832, which, added to the sum mentioned already under the head of Gold Coinage, makes a total of gold coined in the twenty-one years of £92,607,210. See Gold and Half Sovereign.

Sow, a large trough in a foundry for holding melted metal; a she pig; an ingot or mass of matal.

mass of metal.

Sowans, a porridge or gruel made in Seotland from oatmeal.

Sowar, an Indian trooper; a horse-soldier, belonging to the irregular horse cavalry. Sowing-Machine, a drill; a seed-planter. Sox, a Scotch mode of spelling socks.

ox, a sauce or flavouring originally made in the East; and said to be produced from a species of *Dolichos* bean, *Soja hispida*,

SOYA. See SHERBET. กางพร Sozellie, an Indian name for small fish-

SPA, a mineral spring. SPACE, area; room; a small piece of east metal to divide letters or words in print-

ing. SPACE-LINES, printers' leads for justifying, or filling up lines or words, made from

4 to 12 in piea. SPACE-RULE, a thin piece of metal, type-leight, of different lengths, used by com-positors for making a delicate line in algebraic and other formulæ.

SPADE, a digging-tool of iron with a wooden

handle; a deer three years old.

SPADE AND SHOVEL-MAKER, a manufacturer of the implements so named.

SPADESMAN, a name for an agricultural labourer in Tasmania.

SPAN, a yoke of oxen; a measure of 9 inches; a cord to confine a rope; to shaelde the legs of a horse to prevent its wandering; to attach draught eattle to a wagon.

SPANDREL, a triangular space between the square liead ovor an arch and the curve of tlie arch.

SPANGLE, a small shining piece of metal to attach to theatrical or other dresses; to glitter.

Spangle and Tinsel Maker, a manufic-turer of small bright metal scales to sow on to garments.

SPANIEL, a valuable species of dog, of which

there are many varieties.

SPANISH BLACK, a powder obtained by burning cork in close vessels.

SPANISH CHESTNUT-WOOD. See CHESTNUT.

SPANISH-FLIES. See CANTHARIDES.

SPANISH-LEATHER MAKER, a manufacturer of Cordovan-leather

SPANISH-LIQUORICE, the Inspissated juice of the Glycirrhiza-root. See Liquorice. SPANISH MAHOGANY. See MAHOGANY. SPANISH MAHOGANY. Sepanish materials of the mizen-mast.

SPANNER, a tool for turning a nut or bolthead.

SPARABLES, small Iron shoe-brads.

SPAR-DECK, the upper deek of n ship, on which loose or spare spars are seemed.

Which loose or spine spars are scented.

Spare-rib, a joint of pork with the fat and other fiesh taken off tho rib.

Spareer, a copper cylinder, used by brewers for dashing or sprinkling.

Spareowbills. See Sparables.

Spars, a general marine term for all masts,

yards, booms, &c.; a name for several kinds of mineral.

Sparrente, mats, ropes, and cordage, made of Esparto or Spanish broom.

Spart, the young of oysters.

Spartil-cock, a fowl or bird killed, split open, and broiled or grilled.

SPATHIC IRON-ORE, spar-shaped or lamellar ore. SPATTERDASHES, a kind of long galter or covering for the legs, to keep off mud.

SPATULA, an instrument for spreading pills, plasters, &c.

SPAWN, the seed of fish; the matrix of fungi. See Mushroom-spawn.

SPAWNER, a she-fish; a female salmon. SPAY, to extirpate the ovaries of a female beast to prevent breeding, and to Increase the fattening powers, as a spayed helfer,

a spayed sow, &c.

SPEAKER, the chairman of a legislative -body; a book for school-reading.

SPEAKING-TRUMPET, a metal month tube for hailing ships at sea, and for making the voice heard at a distance.

SPEAKING-TUBE, a gutta-percha or other pipe for communicating orders from one room in a building to another.

SPEAR, a lance; a name in Riga for a spar suited for a small mast.

SPEARMAN, one armed with a spear. SPEARMINT, another name for the Mentha viridis. See MINT.

Special-constable, a person sworn in temporarily to ald in muintaining the

peace. SPECIAL-JURY, a superior class of jurors, merchants, or esquiros, summoned to try a canse.

the Laurus Benzoin.

SPICE-NUT, a gingerbread-nut.

SPICE-RIES, a collective term under which many of the stimulant and aromatic condiments are grouped.

Spigot, a peg to stop the vent-hole in a eask

or a faucet.

SPIKE, a large nall; to destroy the utility of a cannon, by plugging the vent-hole

of a cannon, by pauging the vent-hole with a nail; an ear of maize.

SPIKENARD, the Nardostachys Jatamansi, a dwarf herbaceous plant, with a long hairy tap-root, a nativo of the Himalayas, possessing stimulant and bitter properties. having a strong and fragrant odour, and it is used as a perfume by Eastern nations, and also against hysteria and epilepsy. The blackish coloured roots are brought down in large quantitles from the moun-

tains in the north of India.

SPILE-HOLE, the air-hole or vent of a cask.

SPILL-CASE, a box for holding thin strips of wood, used as matches or lighters.

SPILLET - FISHING, SPILLIARD - FISHING, a name on the west coast of Ireland for a system of fishing by a number of hooks set on snoods, all on one line. In North America It is ealled bultow-fishing.

SPILLIKINS, pegs of wood, bone, or ivory for marking the score of cribbage or other

SPILLS, small pieces of wood used for lighting ploes, or making matches. SPIN, to twist or twirl threads.

SPINACH, the Spinacia oleracea, the leaves of which are a common untritions pot-herb. In New Zealand, the leaves of the Tetragonia expansa are used instead of

SPINAL, a kind of unwrought inkle.

SPINAL, a kind of uliwrongat like.

SPINALE, any long pin or bar upon which
something revolves; a watch fuzce;
the pivot of a eapstan; the small shaft of
a pinion. In factories the bright ironpins on which threads are formed and wound. In England there were at work, in 1855, 2,471,108 spindles; in France, 1,386,783. Spindle is also a yarn-measure; in cotton-yarn a spindle of 18 hanks is 15,120 yards; in line yarn, a spindle of 64 licers, is 14,400 yards.

SPINDLE-TREE, a large and ornamental PANDLE-TREE, a large and ornamental shrub, of which one species, the Euonymus Europæus, and its several varieties, is a native of Britain. It obtains its popular name from the hard and fine-grained are specially applying the particular sample. wood being preferred for spindles and for

skewers.

SPINET, an old keyed-Instrument, a kind of harpslehord.

SPINNING-JENNY, a machine for spinning

SPINNING-MACHINES, various machines and

contrivances for spinning wool, silk, cordage, &e.

SPIRACLES, the blow-holes, or breatbingholes of a whale.

Spire, a steeple; a pinnacle.

SPIRIT, any inflammable liquor. [spirits. SPIRIT, BOTTLE, a glass bottle for holding spirits.] SPIRIT-DEALER, one who has a licence to

vend spirituous liquors; a favern-keeper. Spirit-engine Maker, a manufacturer of the tavern, or bar, engines for drawing spirits for retail sale.

SPIRIT-JAR, an earthenware jar of various sizes, for sending out spirits.

SPIRIT-LAMP, a lamp for burning spirits to heat any thing, as metals; or for an allblaze or small cooking-stove. Spirit lamps produce little flame, but intense heat.

SPIRIT-LEVEL, an instrument for levelling, used also by earpenters and builders, in which a small horizontal tube, with spirits, fixed on the summit, shows the true level.

SPIRIT-LICENCE, a lleenee granted by the magistrates in quarter-sessions, to retail spirits.

SPIRIT-MERCHANT, a vender of spirits. SPIRIT, METHYLATED.

See METHYLATED SPIRIT.

SPIRIT OF SALT, a name for muriatle-acid, SPIRIT OF TURPENTINE, the oll of turpentine.
SPIRIT OF WINE. See ALCOHOL.

SPIRIT-STORE, a shop where spirits are kept for sale, wholesale and retail

SPIRIT-VARNISH, a resin dissolved in spirit. SPIROMETER, an instrument for determining the capacity of the human lungs, bearing a close resemblance to a gasholder.

SPIT, a long metal splke or bar for stleking vlands on to roast

SPITTOON, a box of metal or other material for a smoker to spit in.

SPLASH-BOARD, the leather or wooden pro-

teetion in front of a gig.

SPLICING, a sailor's term for uniting the ends of ropes by opening and interlacing

the strands. SPLINT, a thin plece of wood to support a broken bone or fractured limb; thin wood

for matches. SPLINT CUTTER, a shaper and maker [splints.

SPLINTER-BAR, a cross-place supporting the springs of a carriage SPLIT, to burst asunder; to separate in

Split-lift, a plece of in-sole leather used in shoe-making

SPLIT-PEASE, husked peas, split for making pease-soup or pease-puddings.

SPLITS, a term, in the leather trade, for divided skins which have been separated into two sections by the entring machine; there have been separated and the sections of the section of the sections of the sections of the sections of the section

there being tanned splits and salted splits. SPLITTER, a name in Tasmania for a wood-entter, \*

SPOKE-RIVER, a wheelwright, or shaper of spokes or rounds tor ladders.

SPOKES, bars of wood radiating from the nave of a wheel to the felly, at equal distances from one another; the rounds of a ladder; a contrivance for skidding the wheels of a vehicle.

SPOKE-SHAVE, a plane for working on wood, which is hollow or curved.

Sponge, a marine product, of which there are many varieties. Largo quantities of both coarse and fine sponge come into commerce for toilet and surgical use, for common washing purposes, for making into cloth, hats, and for other uses; the soft fermenting dough of which bread

SPONGE-BAO, an oil-skin easo for a toilet

sponge.

SPONGE-CAKE, a light sweet cake made

with milk and eggs.

Sponge-merchant, an importer of sponges cither from the Bahamas or the Mediterrancaa, the two chief seats of the sponge fishcries.

SPONGE-TENTS, a surgical applicance for a wound, though the practice is now nearly obsoletc. Sponge tents were prepared by dipping sponge in melted wax, and press ing it till the wax is hardened. A teat of this kind introduced into a wound or cavity enlarges as the wax softens.

Sponging-House, the lock-up house of a sheriff's officer, where debtors are lodged

before they are conveyed to prisen.

Spongio-Piline, a substitute for the ordinary poultice, made of small pieces of sponge and wool or cloth felted together, on an impermenble back, and held by a conting of India-rubber varnish on one side. It is used when softened in hot water for the same purpose as a bread or meal poultice

Spoot, a shuttle; a weaver's bobbin of cane

or wood to wind yarn on.
SPOOL-STAND, a rest or support for bobbins.
Broon, a small doakstic utensil for taking up food, or for culinary use.
SPORTSMAN, a hunter; one who follows

game with a gun, or pursues the sports of the field.

Prout, a tube or shoot; a curved mouth or nozzle, as to a tea-pot, watering-pot, &c.; a slang term for pledging goods at a pawnbroker's.

Browns, boxes or shoots down which coals are run from wagons iato ships.

PRAT, a diminutive fish, the Clupea spraltus, used as food, and caught as the cold weather approaches in large SPRAT, a diminutive fish, quantities.

SPRAT-GRIDIRON, a gridiron made specially for broiling sprats.

PREADER, an attachment; the branch pipe of a fire-engine for scattering the water over a large surface.

Spung, a thin anil without a head; an embroidered branch of a flower.

SPRING, an elastic body or band; in marine language a check on the cable for disconnecting it; to crack or split a mast or spar; "to spring a leak" is to let in water suddenly.

Spring-Balance, an elastic spring counter-balancing a valve or lever.

Spring-bed, an elastic or air mattress. Spring-blind Maker, a maker of window

blinds working on springs. clastic suspenders for SPRING-BRACES,

men's tronsers. SPRING-CARRIAGE, a vehicle suspended on

springs for travelling easy.

SPRINGE, a gin, noose, or snare to eatch birds.

SPRINGER and LINER, a workman who puts

ln watch springs.
Spring-forgers, worksien in the cutlery trade, who form the spring or piece of steel at the back of clasp and folding pocket-knlves.

SPRING-MAKER, a manufacturer of steel compound springs for carriages, or of metal springs for easy chairs.

SPRING-SEAT, a chair or couch with a spring in it.

SPRING-TIDES, the highest course of tides, occurring every new and full moon.
SPRIT, a small boom or gaff used with a fore and aft sail is some boats.

SPRIT-SAIL, a sail extended on a sprit-sail SPROUTS, BRUSSELS', a kind of small cab-bage leaves growing from the stalk.

Spauce, a name for several species of the fir tribe, Abies communis, and A. nigrabeing the principal species, and supplying much of the deal timber of commerce. A fermented liquor made of treacle or molasses, and a decoction of the lcaves and branches of the \*pruce-fr. It is sometimes called black-beer. See Must. \* SPUD, an agricultural tool for digging np

SPUNK.

weeds.
See AMADOU. SPUN-YARN, a cord formed by twisting together two or three rope-yaras; old junk, or rope twisted into yaras, used for various purposes on shipboard.

SPUR. See SPURS.

Spurge, a name for several species of Euphorbia, used mediciaally, but possessing purgative and poisonous properties.

SPURIOUS, adulterated; not genuine. SPUR-MAKER, a manufacturer of spurs.

Spurred-rye. See Ergor. [of a spur. Spur-rowel, the revolving pricking wheel Spurs, spiked irons for the bottoms of the boots of seamen, who stand on the carcase to strip the blubber from a whale; pricking iastruments with rowels fastoned on the heels of a horseman's boot.

SPUR-WHEEL, a cog-wheel. SPY-GLASS, a small telescope.

SQUAB, a soft cushlon; a sofa; a name applied to a young, unfiedged bird, as a squab pigcoa.
SQUAB-PIE, a Cornish pie coatainiag a mixture of fish, ficsh, and vegetables.
SQUADRON, a detachment from a flect; part

of an army; two or more troops of cavalry.

SQUARE, an inner court; an open space or market area; a mechanic's measure for gauging and squaring his work; a workman's tool for measuring angles; workman's tool for measuring angles; also 100 feet superficial of boarding; a term commonly applied to a pane of glass; a rectangle surrounded by houses.

SQUARE - RIGGED, in seamanship, vessels which have the yards and sails across the masts, instead of fore and aft, or in the direction of the length of the vessel.

SQUARE-SALL, a large four-sided sail of the sai

Square-sail, a large four-sided sail ex-tended on a lower yard.

SQUASH, a name for the Cucurbita Melopepo. See GOURDS.

SQUAT, a mineral of the ore and spar; to locate or settle down on waste land without right.

SQUATTER, a name in the Australian colonies for sheep-farmers and eattle breeders, who occupy large ranges of land, under fleence from government, at a small rental.

SQUIR, n noisy flrowork or cracker; an election placard or lampoou.

SQUID, the Sepia media, used as a bait by the

Newfoundland fishermen.
SULL, a name for the Urginea Scilla of
Steinhell, the Scilla maritima of Limmons,
a plant inhabiting the sea-coast of the
Mediterranean, the acrid bulbs of which
heling directle ownerternations and being diuretle, expectorant, emetle, and purgative, are used medicinally.

SQUIRREL, a small rodent, a species of Sciurus. The fur of several varieties of squirrells much used for linings, for tippets, for cuffs, and other articles of ladies' dress. From fifteen to twenty millious are said to be killed in Russin annually. In the trade returns they are sometimes called Calabar-skins. In 1856, about 2,200,000 squirrel-skins were imported, and chiefly used up in this country.

SQUIRT, a syringe.

SQUERTING-CUCUMBER, n name for the Echa-lium agreste of Richard, the Momordica Elaterium of Linnæus; the drastic juico of which is used medicinally in cases of gout, dropsy, apoplexy, constipation, &c. SRIGUNDA, n local Indian name for sandal-

wood.

STABBER, n marling-spike; a sailmaker's STABBING-PRESS, a press used by book-bluders.

STABLET, a winter cow-house, in which Swiss herdsmen live with their cattle. STABLE, a house or shelter for horses,

either public or private.

STABLE-BOY, STABLE-MAN, an ostler of groom; n person who attends on horses. ostler or STABLE-FIXTURE MAKER, a person who prepares and fits racks, mangers, and

other fittings for stables.

STACK, a pile of any thing, as n stack of wood, hay, corn, &c.; a column of chimneys, or an elevated chimney to a factory; a pile of muskets rested together. A stack of wood is 408 cubic feet.

STACK-YARD, an enclosure for ricks or stacks.

STADE, a landing or shipping place; an itinerary measure. See STADIO. [Elbe. STADE-DUES, tolls levided on ships in the STADIO (Italian), a furiong; a measure of length in the Ionian islands, consisting of 22 words.

22 yards.

STAFF, a crutch or support; a flag pole; an ensign of office; a policeman's hand-club or bludgeon; the round of n ladder. STAFF-OFFICER, a military officer assisting a general or commander of an army.

a general of commander of an army.

STAG, a male red deer; n stock-exchange
term for npplicants for letters of allotment for shares in a new company,
whose object is to sell immediately at n
premium, without any intention of subscribing or holding shares.

STAGE, a landing-quay or pier; a platform in a theatre; a scaffold erection for build-

ing; a public carriago; an assigned portion of a journey or limit travelled by horses. [stnge, STAGE-BOX, a box in a theatre close to the

STAGE-ROAR AGE STAGE-COACH, a public conveyance plying for hire.

STAGE-DOOR, the back or side door; the actors' and workmen's entrance to a theatre. [carringe.] STAGER, a horse running in a stago STAGER, a horse running in a stago horn for knifo handles, &c.

STAG-HOUND, n dog for coursing deer. STAILS, handles for mops and brooms.

STAINED-GLASS, pniuted glass for windows.
STAINED-GLASS, pniuted glass for windows.
STAIO, the Tusean bushel, which is equal to about two-thirds of the English bushel. See STAJO.

STAIR-BALUSTER MANUFACTURER, n turner of wooden balusters, or n caster of iron

rails for stairs.

STAIR-CARPET, narrow carpeting of different make and material, usually \$ of a yard wide, for covering flights of stairs.

STARRASE, a series of stone or wooden steps for ascending buildings.

STAIR-HEAD, the top of a flight of stairs. STAIR-RODS, iron rods, coated with brass, fixed in cyes, to secure and keep a stair-carpet smooth in the bend of each sten.

STAITHMEN, men engaged in weighing and shipping eoals at a staith.

STATTHS, lines of rails projecting over a river; a drop from which vessels are loaded with coals, &c.

STAJO, an Italian dry-measure: in some districts one bushel or less, in others 2 or 21. For liquids the stajo varies from  $2\frac{1}{2}$  to  $6\frac{1}{2}$  gnllons. 100 staji of eorn = 28 two-fifths

imperlal quarters; but estimated, commonly, at 342 stajl to 100 imperial quarters. In some parts 100 stajl == 502

Imperial bushels. STALK, to shoot deer.

STALL, north or portion of n stable; a stand or booth in a market; n small open or partially closed shop in a street, as a fruit-stall, a book-stall, a cobbler's-stall; n select and reserved front seat in the pit of n theatre or other place of public aniusement.

STALL-FED, cattle that have been stabled and fattened in stalls; not permitted to roam at Inrge.

STALLION, an entire or ungelded horse; one kept for serving mares.

STAMP, n die or mark; an Instrument for sealing or making impressions; an official tax or mark, as a postage-stnmp, a receipt-stamp, a post-office letter-stamp. See Postage-stamp and Receipt-stamp.

STAMP-COLLECTOR, n receiver of stamp duties.

STAMP-CUTTER, an engraver of dies on wood, stone, or metal. STAMP-DUTY, a Government tax on news-

papers, deeds, bills, receipts, and postago stamps, &c.

STAMP-DISTRIBUTOR, an issuer or vender of Government stamps, who is an official, or holds a licence. STAMPER, a marker of letters in a postSTAMP-HEADS, the crushing parts of a mili for pounding ores or crushing seeds.

STAMPING-PRESS, a press for imprinting, by a sunken die, bills of lading, notes, enve-lopes, drafts, &c.; a crushing mill for ores. STAMP-MAKER, a die-sinker; a mannfacturer

of adhesive receipt or postage stamps.
STAMP-NOTE, a memorandum delivered by a shipper of goods to the searcher, which, when stamped by him, allows the goods to be sent off by lighter to the ship, and ls the captain's authority for receiving them on board.

STAMPS, official impressions to be affixed to letters to pre-pay the postage, or on bills, deeds, and receipts. See Postage-stamp and RECEIPT-STAMP.

STANCHION, an upright iron pillar or STANCHION-GUN, a pivot gun; a boat-gun for wild-duck shooting.

for will-duck shooting.

STAND, a counter in a bazaar; a stall in a market; a station where public vehicles wait to be hired; an erection with seaks for spectators on a race-course, review ground, &c.; a desk or rest for music, newspapers, &c.; a weight for pitch of 2½ to 3 cwt.; a support for a barrel, &c.; a set of arms, as a soldler's musket and bayonet.

STANDARD, an upright of iron, for fencing randard, an upright of 1000, for fehring; a flag; a test or rule of measure; a solid measure by which hewn timber is estimated, varying in different timber countries. The St. Petersburg standard hundred of deals, and deal ends, contains 120 pieces, 12 feet long, 14 inch thick, and 11 inches broad, = 165 cubic feet. The Suredich troudard hundrad contains 120 and 11 inches broad, = 165 cubic fect. The Swedish standard hundred contains 121 pleces, 14 feet long, 3 inches thick, and 9 inches broad. The Norwegian standard hundred contains 120 pleces 12 feet long, 3 inches thick, and 9 inches broad. The standard hundred by which battens are commonly sold, contains 120 pleces, 12 feet long, 2½ inches thick, and 7 inches broad. Dantzic and Memel deck deals are sold by a standard of 40 feet long. 3 are sold by a standard of 40 feet long. 3 inches thick, and 12 inches wide. The standard of red deals would welgh about 2\frac{1}{2} tons, and that of white wood 2\frac{1}{2} tons.

The term standard is used to designate the purity and weight of coins, that is, the fineness of the metal of which they are made, and the quantity of it contained in them. A pound troy, or 12 oz. of the metal of which English silver coins are made, contains 11 oz. 2 dwts. pure silver, and 18 dwts. alloy. This pound is coined and 18 dwts. alloy. This pound is coined into 66 shillings, so that each shilling contains 80-727 grains fine silver, and 87-27 grains standard silver; and the money pound, consisting of 20 shillings, contains 1614-545 grains purc silver, and 1745-454 grains standard silver. The fineness of gold is estimated by carats, gold of the highest degree of fineness, or purc, being snid to be 24 carats fine, 22 being the purity of our present gold coins. The sovereign, or 20 shilling piece, contains 113-001 grains fine gold, and 123-274 grains standard gold. The pound troy of standard gold, is coincid The pound troy of standard gold, is coined into 46 sovereigns, and 88-120ths of a sovereign, or into £46: 14: 6d. The mint, or standard price of gold, therefore, is said to be £46: 14: 6d, per pound troy, or £3: 17: 10 

4. an onnee. The alloy in coins is reckoned of no vaine; it is allowed in order to save the trouble and expense that would be incurred, in refining the metals to their highest degree of purity; and because, when its quantity is small, it renders the coins harder, and less liable to be worn or rubbed. Were the quantity of alloy considerable, it would lessen the spiendour and ductility of the metals, and would add too much to the bulk of the would add too much to the bulk of the colus.—M'Culloch's Principles of Commerce. There are several standards for gold now used, as 22, 18, 15, 12, and 0 carats.

STANDARD-BEARER, an officer who carries a banner or colours in a procession.

STANDARD-MARK, a legal assay mark for gold of 22 carats fine, and for silver of 11 oz. 2 dwts. Articles of all standards, capable of bearing a stamp, are marked also with the Initials of the maker's name, the arms or mark of the Assay Office, and a letter for the date of the year. Different kinds of letters are used by the Different kinds of letters are used by the Goldsmiths' Company; the one now employed is the old black letter. The alphabet was begun in 1856, C being the letter for the present year, 1858. It runs on to 20 letters, J being omitted; a fresh alphabet is then again commenced. The standard mark for England is a lion passant: for Edinburgh, a thistie: for Glasgow, a lion rampant: for Ireland, a harp arrowned. Gold of 18 carsta fine, a crown crowned. Gold of 18 carats fine, a crown and the figures 18. Silver of the new stan-dard, which is 11 oz. 10 dwts. finc, bears the figure of Britannia. See HALL-MARK.

STANDING, a stall placed in a market, or on the foot pavement in a street; a workman's loom in a lower flat or story.

STANDING-RIGGING, the stationary or fixed ropes and chains, &c. of a ship, attached to the hull; used as stays and hold-fasts, to keep the masts, bowsprits, &c. firm and

STANHOPE, a sporting phaeton.
STANHOPE-PRESS, a printing-press, named after the inventor, Earl Stanhope.

STANNARY, a tin-mine or tin-works.
STANNARY-COURT, a court of law and equity, held in Cornwall, of which the Priuce of Wales is Lord-Warden, and a Judge the Vice-Warden, held to adjudicate upon, and

settle, disputes between parties connected with mlnes.

STANNATE OF SODA, a salt obtained from tln,

STANNATE OF SODA, a salt obtained from tin, largely used by calico-printers.

STAPELSTADER, a privileged weight for metals, in certain towns in Sweden, which is 4-5ths of the common standard, or victuall weight; 100 lbs. stapelstader = 74.93 lbs. avoirdupois; 100 lbs. avoirdupois, = 193.46 stapelstader victuall; 112 lbs. avoirdupois, = 149.47 lbs. stapelstader victuali; 7½ skippuud stapelstader victuali are about equal to the English ton.

STAPLE, in the Newcastle coal district a small pit; an iron loop driven into a wall or door, &c. for holding a padlock. \*

STAPLE ARTICLES, file chief commodities dealt in; the principal produce of a dis-

dealt in; the principal produce of a district or country.

Staplea. See Wool-staplem. [See Stajo. Star, Staro, an Italian grain-measure. Star-anise, the Illicium anisatum, a native of China and Japan, the aromatic and earminative fruit of which is used in the preparation of liqueurs. The star-shaped cannot and seeds abound in an esseneapsules and seeds abound in an essential oil, easily procured by distillation with water. See Aniseed.

STAR-APPLE, the Chrysophyllum cainito, and

its varieties, a juscious tropleal fruit. STARBOARD, the right-hand side of a vessel,

looking forward ..

a fecula; an amyinecons matter STARCH, a feeula; an amylaceous matter obtained from various substances, roots, and seeds, and tho trunks of trees. It is chiefly made from potatoes, wheat, and rice. In America it is obtained from maize. It is largely used by laundresses for stiffening linen, by ealico-printers, bleachers, and others, and the consumption is said to exceed 20,000 tons per annum. See Aaaow-Root, and DEXTRIKE.
TARCHER, a hundress; a clear starcher:

STARCHER, a laundress; a clear starcher;

one who stiffens fabries.

STARCH-MANUFACTURER, a preparer of starch from roots or grains. The manufacture is carried on in most of the large towns, especially in those which are the seats of some of the principal textile manufactures. STARELLO, an Italian grain-measure; in Milian 2 gailons, in Rome 4 gallons.

Stanie, the French name for demurrage.

STARO. See STAJO.

STARTIN, a measure of capacity used in Styria, nearly 2 quarters.

STATE-BARGE, a royal or corporate barge. STATE-BED, an elaborately carved or decorated hed

STATE-CARRIAGE, a highly decorated earriage for officials going in state, or taking part in public processions.

STATEMENT, a declaration; an account rendered; details or explanatory particulars furnished.

furnished. [senger steamer. STATE-ROOM, the principal cabin of a pas-STATHEL (Scotch), a support or prop for a stack of grain to raise it above the ground. STATION, a depot; a starting or stopping

place on a railway; an assigned post of duty; a garrison for troops; the sea distriet under the jurisdiction of an admiral; the quarters for police. STATION-CLERK, a railway clerk.

STATIONER, a dealer in pens, ink, paper, &c.

STATIONER, a dealer in pens, ink, paper, &c. or in small periodicals.

STATIONEAS'-COMPANY, one of the livery companies of London whose hait is in Stationers' court, Ludgate hill, [binders. STATIONERS'-RILE, a measure used by book-STATIONEAY, writing materials and books; the articles dealt in by a stationer.

STATION-MASTER, an officer in ebarge of a rallway station.

railway station.

STATION-POINTER, STATION-STAFF, surveying instruments for taking angles.

STATISTICS, facts and figures relating to the commerce, progress, or social condition of a country; parliamentary returns or private computations.

STATUARY, a carver or sculptor in stone; a maker of statues; a collection of statues.

STATUARY-MARBLE, erystalline, granular, wilte marble, used for monuments, busts, furniture from the contraction of the contract furniture, &c. [stone or metal. STATUE, an image or earving of a figure hi

STATUETTE, a smail statue.

STATUTE, an annual public gathering or fair, for hiring farm servants, in some parts of the country; a legislative enactment.

STATUTE-LABOUR, a definite amount of labour required for the public service in making rouds, streets, bridges, &c. in certain colonies; which has to be performed per-sonally or by substitute, but may be commuted by a money payment.
STATOTE OF LIMITATIONS, an assigned period

within which an action must be brought, which varies; for debts it is six years.

STAVES, shaped lengths of wood for making

itaves, shaped lengths of wood for making casks, chiefly of white or red oak; but also made of ash and other wood. They are sold by the standard mille, or thousand, of 1200, or ten standard hundreds of 120 pleees. Staves vary in length, according to the purpose they are intended for, from 31 inches long to 72 inches, and in breadth from 3 to 7 inches; in thickness from \$\frac{1}{2}\$ to 3 inches. Prepared staves are reckoned in some parts of the Continent by the schock. Thus a long thousand of staves usually consists of \$20\$ schock, each of staves usually consists of 20 schock, each of 60 pipe staves; for ingshead and barrel staves the long thousand consists respectively of 30 and 40 schock, and for pipe, hogshead, and barrel headings, of 40, 60, and 80 schock. The imports of staves in

and 80 senees. The imports of staves in 1855 were 67,747 loads or tons.
STAVESACRE, the aerid, emetle, purgative seeds of Delphinium Staphisagria, which are used against worms and iteh. The seeds are also employed in the Levalit for

intoxleating fish.

STAY AND CORSET MAKER, a maker of stiff-ened waist-supports for females, STAY-nUSK, a stiff piece of wood, steel, or whalebone for the front support of a woman's stays.

STAY-LACE, a silk or thread cord for fasten-ing a lady's stays.

STAYS, large ropes leading forward, used to support and secure the masts of ships; corsets for fomales.

STAY-BAIL, a ship's sail which is hoisted by rings upon a stay or rope. STEAD, the frame of a bed; a place or loca-

lity, as a homestead, a farm-steading STEAK, a fleshy silce of meat for broiling,

frying, or stewing. STEAK-NEATER, a roiler for beating beef-steaks before cooking, to make them ten-

der. STEAK-BROLLER, a gridiron which catches

the gravy from the steak. STEAK-TONGS, small tongs for turning chops

or steaks when broiling on a gridiron.
STEAL, to thleve; to remove claudestinely; to defraud.

STEAM, water converted into an elastic fluid by the application of heat, and largely applied as a motive-power in propelling vessels and carriages, and driving machinery.

STEAM - nOAT BUILDER, a constructor of vessels to be driven by steam, either paddle-wheels or propellers.
STEAM-BOILER, the metal vessel in which

steam is generated.

STEAM-CARRIAGE MAKER, in manufacturer of vehicles to be propelled by steam-power. STEAM-CHEST, a box attached to the cylinder In which steam is admltted by the regu-

lator.

STEAM-CYLINDER, the vessel in which tho

movenhle disk or piston moves.

STEAM - DREDOER, a machine worked by steam, with buckets on a revolving frame, to keep the beds of rivers and harbours elenn.

STEAM-ENGINE-BOILER MAKER, a construc-tor of steam - bollers for locomotive, marine, or stationary engines. STEAMER, a spare top fitting on a saucepan,

with holes at the bottom, for cooking potatoes by steam; a steambont.

STEAM-GAUGE, a contrivance to show the exact amount of pressure of the steam.
STEAM-HAMMER, a heavy hammer worked

by stenm-power.

STEAM-INDICATOR. See STEAM-GAUGE. STEAM-MILLS, machinery worked by steam

for different purposes.

STEAM-PACKET, a steam-vessel running periodically between certain ports.
STEAM-PAN, a vessel heated by steam.
STEAM-PIPE, in locomotive engines the pipes which collect and convey the steam to the steam-plant pring for heating to the steam-chest; pipes for heating buildings. STEAM-PRESS, a printing-press worked by

steam. STEAM-PROPELLER. See STEAMER and PRO-PELLER.

STEAM-PUMP, n pump worked by steam. STEAM-TUG, a small steam-boat employed

to tow vessels, barges, dredgers, &c.
STEAM-WHISTLE, an attachment to locomotive - engines; an escape of steam
through a pipe which produces a shrill
warning whistle, that can be heard several miles.

STEARIC-ACID, the solid constl-STEARIN,

tuent of fatty substances.

STEATITE, a soft, unctuous, magnesian mineral, used by the Chinese for making figures, and suitable for statuary and decorntive purposes. See SOAPSTONE.

STEEKKAN, STECHKANNE, a Dutch liquid-measure, the 12th part of a barrel, and averaging about 4 gallons. Esteebleannes.

averaging about 4 gallons: 6 stechkannes

make a tun of train-oil.

STEEL, a compound of Iron and carbon. The principal varieties manufactured are bar or blistered steel, to which shear-steel belongs, east-steel, Damaseus, and Ger-man-steel; an instrument for sharpening n knife; a plece of metal for striking a light with a fliut. See Wootz and German-STEEL, &C.

STEEL-BUSK MAKER, one who makes metal busks or bones for women's stays.

STEEL-CONVERTER AND -REFINER, one who carbonises bar-iron in a converting fur-nace, prepares it into blister-steel, and afterwards refines it.

STEEL-MANUFACTURER, a maker of shear or

east steel; n hammerer and roller of steel into the sizes required for files, edge tools, table-knives and forks, coach-springs, &c.

STEEL-MILL MAKER, a manufacturer of forge tilts, or rolling-mills, for hammering steel into bars, or rolling it into sheets.
Steel-pen Maker, a manufacturer of metal

nens. which are now largely used for wrlting.

STEEL-PLATE MAKER, a preparer of plates for the use of engravers.

STEEL-PLATE PRINTER, one who takes Impressions by a press from steel-plates.

STEEL-ROLLER, the cylinder of a mill for rolling out steel into sheets.

STEEL-SCRAPER, a bookbinder's-tool

STEEL-WINE, sherry wine in which steel filings have been placed for some time, used medicinally.

STEELYARD, a balance by leverage, having arms of unequal length; the weight being moved along the rod or longer arm, grows heavier in proportion as it is removed further from the fulcrum or support.

STEENING, a term in well-diggling, implying enclosing or walling in half a brick thick. STEEP, a dye; a cleansing wash; a rennet-bag; to dip or soak.

STEEPLE-CHASE, a kind of race, in which the horseman proceeds, regardless of obstructions, over rivers, hedges, or ditches.
Steer, a young bullock; a castrated bull; in

Seotland, to plough land.

Steprage, that part of the between-deeks of a vessel which is just forward of the eabin; the accommodation afforded to second-elass passengers in a passengership.

STEERING-WHEEL MAKER, n manufacturer of the tiller-wheels with handles, used to work the rudders of large ships.

STEELSMAN, the pilot of a boat; a helmsman.
STEIN (German), a stone; a weight of 20
lbs. to 22 lbs., by which flax is weighted in Saxony; this weight varies with the goods weighed.

STEINBERGER, a kind of wine.

STEINBOCK, a species of Capc antelope, tho Antelopa tragulus.

STENCIL, a plece of metal, oil-cloth, or leather, in which patterns have been cut out, to be placed on some surface, and brushed over with ink or colour, when the puttern, letters, or device is left.

STENCIL - COTTER, a person who pierces patterns, letters, or ornaments, on thin metal plates, or on oil-cloth, &c. for the use of a stenciller.

STENCILLER, one who works with a stencil.
STENCILLING, a kind of painting on walls
with a stencil, to imitate the figures of paper-hangings.
STENCIL-PLATE. See STENCIL.
STENOGRAPHER, a reporter; a shortbaud-

writer.

abbreviated writing; STENOGRAPHY, abbreviated writing; the art of taking down the words of a speaker iu short-hand characters.

STENT-MASTER, an assessor or valuer of pro-

perty, for taxatlon in Scotland.

STEP, a stair, or the round of a ladder; a pace; the holo or socket which supports a boat's mast.

STEPPES, vast, untilled, or barren plains, STEPPINO-STONES, stones laid in a brook or lu a miry road.

BTERE, the unit of French solid-measure employed for measuring fire-wood, stone, &c. It is equal to 35 31741 enble feet, and &c. It is equal to 35 31711 elible to a list the same as the kilolitre in measures

STEREOSCOPE, a frame with a pair of lenses, in which two pictures or representations of an object, taken at slightly different angles, are made to combine, and appear as one statue or figure, &e. standing out in bold relief. Chies, portraits, and seenes are thus brought out vividly before the eye.

STEREOTYPE, a solid page of metal east from the letter-press, which releases a certain weight of type, and enables a work to be kept in print at a smaller expense.

STEREOTYPE-FOUNDER, a person who easts metal plates from forms of moveable type. A mould is first taken in plaster of Paris, and into this an alloyed nictal is ponred.

STEREOTYPE-MAKER, a workman employed in making stereotypes.

STEREOTYPE-PLATE, a sheet of metal taking the place of type or wood-euts, for printing. These plates are usually monated on blocks of wood to the height of type.

Stealer, the Acipenser Ruthenus, a species of sturgeon, the swimming-bladder of which yields the best Russlan isinglass. Its flesh is prized, and its roe yields eaviar.

STEALING, according to a fixed standard; a term which has long been applied to the genuine and standard money of United Kingdom; a smelt.

Stern, the after-end or hindermost part of

a vessel.

STERN-FAST, a rope attached to the stern of a vessel, when lying at a wharf, &c. STERN-POST, the aftermost thinber in a ship;

that on which the rudder hings.

Stern-sneets, the after-part of a bont, abaft the rowers, where the passengers sit. STERNUTATORY, a inedicine or application to the nose, which causes sacezing.

STETCH, a farming term for a division of land; the ridge or row between the furrows, made by a plough, which may be a 6-feet or a 12-feet stetch.

STETHOMETER, an instrument for measuring the comparative mobility of the chest, in eases of disease of the lungs. It consists of a dial-plate with a moveable index, which is acted on by the pressure of the sides of the elecst on a cord which is made to extend around the clest.

STETHOSCOPE, a surgeon's sound instrument; a hollow tube or cylinder of cedar-wood, perforated throughout its length, having an ear-piece at one end, and a finnel-shaped eavity at the other, for ascertain-ing the action of the lungs and heart.

STETNOSCOPE MAKER, a manufacturer of the wooden sounding tubes used by surgeons.

Stevenger, a person who superintends the stowage of a slip's eargo.

Stew, meat hashed or mixed with vegetables; a store-poind for fish. See Irish Stevens

STEWARD, the manager of a landed estate; one who acts for another; a director of a public dinner, ball, or charitable festival; the providore or chief cabin servant in a steamer or passenger ship.

STEW-PAN, a shallow smice-pan copper, or block tin. STIBIUM, a name for antimony ore. shallow sance-pan of fron,

STIECATO (Italian), a musical instrument, the sounds of which are produced by striking on it with bars of wood,

Stiek, the mast or spar for a slip; a walking-eane or straight twlg; a compositor's instrument for holding type.

STICK-FLOUR, a Brazillan name for cassaya

meal; in Portuguese, farinha de pao. Stiekfell, a printer's term for as much arranged type as his composing-stick will hold, and which has to be transferred to a galley, to enable him to go on composing

or setting up type.

STICKINO - PLASTER MAREA, a maker of court plaster, or of a more common adhesive plaster, for closing wounds.

STICK-LAC, the ernde lac or red colouring techniques.

resin formed by the Coccus lacca, and en-ernsting small twigs.

STICKLEBACK, the Gasterosteus aculeatus, a small fish, not eatable, because it is too fat; its fat might, however, be made aseful. On the coasts, it is often spread in eartloads over the land for manure.

STIEK-LIQUORICE, SpanIsh liquorice-paste in the form of sticks. See Liquories. STICK-POMATUM. See BANDOLINE,

STIFFENING-ORDER, a permission granted by the Customs' to take on hoard heavy goods, by way of ballast, to steady the

ST. IGNATIUS' BEANS, the seeds of the Ignatia amara; also for Feuillea seeds in Brazil. See Kou-kou.

STILE, a kind of stepping-gate in a field; a

set of steps to pass over a fence.
Stilletto, an instrument for making eyeletholes in needle-work; a slender dagger or knife.

STILL, a metal apparatus with a boller, a head; and a condenser or worm-pipe, through which the vapour ascends, in the distillation of liquids.

STILL-HANGER, an engineer or worker, who fixes the stills for making rum la the West Indies.

STILL-HOUSE, a building where distillation is earried on.

STILLIARD, an incorrect mode of spelling steel-yard.

STILL ROOM, an apartment for keeping liqueurs, preserves, &c.; a room where a still is worked, for anaking spirits or es-

STILL-YARD, See STEELYARD. STILTON, a solid, rich, buttery, and white cheese, made in Leicestershire. It is the

degreet of English cheeses, and is soldom used till it is two years old.

STAOKESMAN, the rower who pulls the after or leading oar in a boat

STAOLLING-PLAYER, an itinerant actor of a low class.

STAONTIA, a mineral which gives a red colour to flame, and is therefore used for fire-works, in theatres, &c.

STRONTITES, oxide of stronthum.

STAONTIUM, a metal, the base of strontia. STAOP, an instrument for sharpening a razor.

TROSSE, the second class of wool in the Danubian Provinces, the classification being into 3 sorts, elgaie, strosse, and STROSSE. ordinary.

STAOUD, an article made from rags, used by the North American Indians.

STAUIN, a name for silk waste in Italy.

STAUNTAIN, the name in Scotland for a kind of coarse worsted braid, less than an inch broad.

STRUSE, a long burdensome eraft, used for transport on the inland waters of Russia.

STRYCHNIA, a powerful alkaline poison, obtained from speeles of Strychnos or the Nux vomica bean.

STUB, the stump of a tree; a log. STUBBLE, the root-ends of the culms of corn, left standing in the field after the corn has been reaped.

Studich, a measure for charcoal in Vienna, = 3.384 bushels.

STUB-NAIL, a short thick nall. STUBSCHEN, STUBGEN, a German liquid-measure, varying from 54 to 64 pints, in different localities. In Hamburgh, 2 kannes mako a stubgen; in Hamover, 40 stubgen = 34-24 gallons; and 254 stubgen, weighing 300 ths, make a tonne of honey weighing 300 ibs., make a tonne of honey.
Stub-wood, young wood ent from stools, or
small hedgerow timber.

STUCCO, a fine plaster used for covering walls, &c. as a preservative from damp; a com-bination of gypsum, which generally contains carbonate of lime, with gelatine, or strong glue. This composition dries more slowly than that made with water, but is harder and more durable, and is much used for interior decorations.

used for interior decorations.
STUCK, a German mame for pleee, also applied to several easks for liquids; a German liquid-measure of 8 ohms, the ohm being equivalent to 31 5-16th gallons.
STUD, a link, button, or eatch; a furnace easting; tho number of racing horses kept by one breeder or trainer; a nail with a largo head; a stable of 10 hack-horses for running in omnibuses; a prop; to adorn with kenols. with knobs.

STUDDING-SAIL BOOM, an additional or ex-

STUDDING-SAIL BOOM, an additional of extended yard added to another.

STUDDING-SAIL HALLIARDS, the holst ropes for supporting a studding-sail boom,
STUDDING-SAILS, narrow extra sails set outside the regular square sails in fine weather, on booms run out for the purpose.

STUDENT, a scholar; n young artist; one who studies.

Studio, an artist's workshop.

STUDY, a painter's preliminary sketch for a finished work; a draught copy for improvement

Stuffing, minced seasoning; savoury ingredients put into meat or poultry.
Stuffing-Box, the space in n cylinder or part of a steam-engine, which has to be closed with tow, ynrn, or some other substance, to keep in the steam.

STUFF - MANUFACTURER, n maker of thin woollen cloth.

STUFF-SHOVEL, an implement used by the paper-makers.

TUM, grape julee, or wine that has not fermented: this is frequently mixed with vapid wines to renew fermentation. STUM,

vapid wines to renew termemation.

STUMP, a stub or root block; the root of n
tree left in the ground; an initist's soft
pencil or rubber; a thin post used at
erleket, three of which support the wicket

baies. [sail." STUN-SAIL, an abbreviation of "studding-STUNTS, a name for young whales of two years old, which, having been weaned, are lean, and scarcely yield more than 20

to 24 barrels of blubber.

STURGEON, a large and fine fish, a species of Acipenser, which is occasionally imported pickled, from Russia. When caught ou our shores, it is considered a royal fish. out shotes, it is considered it royal fish.
The ficish is white, delicate, and firm. The
varieties of sturgeon furnish the best kinds
of commercial isinglass, as well as the
delicacy known as caviar. See Caviar.
STY, a pen or house for keeping swine.
STY, a pen or house for keeping swine.

STYLE, a hard bone ur metal-pointed pencil, for writing on tracing or copying paper, on waxed tablets, or for graving with.

STYLISH, fashionable; clegant.

STYLOMETER, an instrument for measuring columns.

STYPIIC, an astringent medicine applied to stanch bleeding, as Ruspini's styptic, &c. STRAX. See STORAX-TREE, and BENZOIN,

SUB (Lattin), uader; less; a prefix to words expressing a depute agent.

Sub Adadar, n viceroy; the governor of an Indian province; a native military officer, corresponding in rank with a captain.

SUBALTERN, a cornet, ensign, or lieutenant; a military officer under the rank of a captaln.

SUB-CONTRACTOR, one who takes a portion of a contract for work from the chief or principal contractor.

SUB-DEANERY, the office of a dean's deputy. Sub-editor, an assistant editor of a peri-

odical or journal.

Subjec, a name in Hindustan for the icaves or capsules of the Indian heinp used for smoking, &c. SUB-LET, to underlet a tenement.

SUBLIMATE, to refine; to raise volatile sub-

stances by heat, and again condense them in a solid form; the product so refined. SUBLIMATE, CORROSIVE, the blchloride of

mercury.

SUBMARINE TELEGRAPH, a cuble laid in the sca enclosing electric whres.

SUBMERGED, put under water.

SUBPOENA, a writ or legal command, from some authorized court, to appear as n witness, under a penalty for failure.
SUBSCRIPTION, a contribution given; the writing or signature appended to a deed or dequirement.

or document.

SUBSIDENCE-VAT, a dycr's settling-vat. Subsidy, a pecuniary State assistance or grant; a tax.

SUBSOIL - PLOUGH, a trench or draining plough; one for turning up the substratum,

and loosening the soil.

Substitute, a deputy; one acting for another; a person paid to serve in the army or inilitia, in place of another who had been drawn or chosen.

SUBURBAN, beyond the walls or boundaries

of n city.
Subures, the outlying or circumjacent parts of a town or city. SUBVENTION, a government grant or ald; a

subsidy.

Subway, an underground wny. Succapes, the sweet constituent of certain vegetable products, imported, preserved with sugar, from the East and West Indies, and the Levant, for confectionery.

Succinic-ACID, an oil obtained from amber resin by distillation.

Succony, a general name in the United States for chicory,

SUCCOTASH, an American dish made of green ludian corn, or maize and beans boiled together.

together.
Succulent, full of juice.
Sucker, a piston; a piece of leather in the box of a pump; the off-shuot of a plant.
Sucking-bottle, an infant's feeding-oottle

for holding milk, with a sponge or Indianrubber eork.

Sucking-Pig, a young pig. Sucking-Pump, a pump where the water is raised into the barrel by atmospherie pressure.

water impregnated with soap, for washing or seouring.

SUEDO, the twentieth part of the Catalan libra, n coin which is worth about 2s 4d. sterling.

Sueldo, a money of account in Spain, about 3s. 8d.

SUERRE (French), a drying-room for tobacco. SUERTE, a Spanish long-measure of 100 esta-dales. See Estadal.

SUET, the hard-solid int near the kidneys of oxen and sheep.

SUET-CHOPPER, a mineing knife for cutting up suct

SUET-PUDDING, SUET-DUMPLING, hard-boiled

plain puddings, mixed with suet.
SUFFED-TH, a name in India for the white-seeded variety of Sesamum orientale, the

black seeded being called kala-til.

SUFFERANCE, a permission granted by the Customs, for the shipment of certain goods.

SUFFERANCE-WHARF, a wharf liecased by the Customs, and where Custom-house officers attend.

SUFRIDERA (Spanish), a smith's tool for punching hoies on an anvil.

Sugaa, the saccharino constituent of vege-table and animal products. The sugars of commerce are obtained chiefly from the julee of the sugar-cano, tho beet-root, the sap of the sugar-maple, and from some of the paims. The following figures show the quantity la cwts. of raw cano sugar consumed in this country within tho last four years :-

1853...... 7,307,980 | 1856...... 7,396,697 1854...... 8,100,423 | 1856...... 7,240,626

Besides the raw sugar, there are about 300,000 cwts. of reflued sugar used. SUGAR-APPLE TREE, a name for the sweet

sop, Anona squamosa.

SUGAR-BAKER, a refiner of sugar.

SUGAR-BASIN, a glass, silver, or other vessel for holding loaf or most sugar, for table-

Sugar-bean, the *Phaseolus saccharatus*, a sweet and nutritious pulse, cultivated in the West Indies; the scinitar-podded kidney-bean, *P. lunatus*, a native of Eastern India.

SUGAR-BEET. See BEET-ROOT-SUGAR.
SUGAR-BOX, a kind of long case in which
Havana and some other sugars are lmported.

SUGAR-CANDY, crystallized or clarified sugar. See CANDY-SLGAR. SUGAR-CANE, the Arundo saccharifera, and its varieties, largely grown ia many tropical countries for the sugar obtained from Its sap.

SUGAR-CANISTEA, a large tin canister for holding chopped loaf-sugar.

SUGAR-CHOPPER, a small liatchet for break-

ing up loaf-sugar.
Sugar-dredger. See Dredging-box.
Sugar-kettle, an iron pot used for boiling down the sap of the sugar-maple in North America.

SUGAR-LOAF, a coalcal mass of white sugar, which has been shaped in a pot, and refined and baked.

SUGAR-MACHINERY, the rolling milis neces-sary for squeezing out the sap of tho sugar-cane.

BUGAR-MAPLE, tho Acer saccharinum, from which a large quantity of sugar is made for home use, in New Brunswick, Canada, Now England, and some of the other North American States. A siagle tree will yield 5 or 6 lbs. of sugar. A. nigrum, the black sugar-maple, is found in Ohio and the States further south.

SUGAR-MILL, a crushing-mill for squeczing the juice from the sugar-cane, between sets of three or more rollers, placed either horizontally or vertically, and worked by different power, but usually now by

steam.

SUGAR-MILL MAKER, a founder and millwright, who coastructs the crushing-milis used on sugar-estates; also a maker of cast-iron mills used by grocers for mixing EUgars.

SUGAR-MOULDS, small conical-shaped nots, made of common red pottery-ware, or of sheet-iron, for moulding sugar in the process of refinling.

Sugar-nippeas, tools for cutting loaf-sugar luto lumps.

SUGAR OF LEAD, the acetate of lead, a com-pound of acetic acid and oxide of lead. Acetate of lead is much used in calicoprinting.

Sugar-Pass, large, elreular-shaped east-iron or copper boilers, used for boiling down

sugar.

SUGAA - PLANTER, a tropical agriculturist engaged in the cultivation of sugar-canes; an overseer or book-keeper on a sugar

SUGAR-PLUM, a comfit; a small sweetmeat. SUGAR-REFINER, a re-boller and bleacher of

raw or muscovado sugar. Sugar-refineas' Iron-mould Maker, a founder who easts the iron moulds to pour sugar in to be reflaed.

SUGAR-TONGS, a pair of metal pliers to take up nubs of sugar. SUGAR-VINEGAR. In the West Indies and other cane-growing countries, the spoiled and wasto saceharine juice and washings, are used to make vinegar.

SUGBEENUJ, name for gum

sagapenum.
Suger. See Soojee.
Sugmoonea, the Arab name for scammony,

implying purgative properties.

SUIT, a set of the same kind of things; a set of wearing apparei; an assortment of playing cards in a pack; a law-process or action; a technical name in the government biscult manufactories for a batch of bleather unabling about for a pare. blscults, weighing about 1 ewt., or one charge of the oven.

SUITE, a retinue, or train of followers; a set of apartments opening into each

other.

SUITOR, one who proceeds in a court of law.
SUKAT, a measure of capacity used in Sumatra, nearly 1½ gallon.
SUKON, the Malay name for the bread-fruit.
SULEA, a name in Bengal for the Polynemus Sele, a fish from which isinglass is obtained. obtained.

Suleekhe, an Indian name for the aromatic bark of the Cinnamomum Culilaban of Blume. See Culilaban-Bark.

Sulky, an American two-wheelod earrlago for a single person.

SULLAGE, a founder's name for metal scoria

SULPHATE, a salt formed by the union of sulphuric acid with a salifiable base. The sulphates are an important class of salts, most of which are noticed under their popular commercial names.

SULPHUR, a simple inflammable body, of great importance in chemistry and the arts. It is found abundantly in depositions near volcanoes, and is also obtained by the roasting of pyrites. It is used extensions the substitution of the substitution o sively in the manufacture of gunpowder, and of sniphnric acid. We import an-

nually about 75,000 tons.
SULPHURET, a combination of sulphur with

a simple base.

SULPHUNIC-ACID, one of the most Important chemical agents used in the arts and manufactures, made by conducting the burning lumes of sulphur through a leaden vesse exposed to the action of an oxide, water, and steam. It is used in the manufacture of soda-ash, in bleaching woodlens, straw, &c., and for a variety of chemical productions, to the extent of 300,000 tons per annum. It is also called oil of vitriol.

Sulphua-impaessions, casts and medallions composed of wax and sulphur, chiefly made by Italians. Besides those made

here, some are imported.

Sultana, a kind of ralsin without stone SULTANIA, a former Turkish money of 120 aspers; also a gold coln worth 10s.; a name for the Venetian gold ebequin.
SUMACH, Shumac, the dried and chopped leaves and shoots of the Rhus coriaria, a

shrub growing in Southern Europe. When ground to powder in a mill, sunach is largely used for dyeing and tanning. The colouring matter is yellow. Our imports,

colouring inatter is yellow. Our imports, average about 18,000 tons per annum.

SUMBUL, an Eastern name for the root of the Nardostachys Jatamansi, a dwarf herbaccous, perennial plant. It has a strong and fragrant musky odour, and is problem. much esteemed by all Eastern nations.

SUMGAY, a Canara name for boiled coarso rice.

SUMMER-HOUSE, a small alcove, or garden shelter.

Summons, a writ commanding a person to

appear before a justice.
SUMP, a mine pit; the bottom of the engineshaft below the lowest workings; a pond of water for salt works. SUMPMEN, the pltmen's assistants in a mine;

men who attend to the machinery in the engliic-shaft

TONKA-BEAN. Sec TONQUIN-nEAN. TONLIEU, a market toll or tax in France.

TONNAGE, the internal measurement of a ship, representing the number of tons of snip, representing the miniber of tons of cargo she will earry. Tonnage is estimated sometimes by bulk, but more generally by weight; a ton by bulk being equal to 40 cubic feet; and a ton by weight equalling 20 cwt. There are certain formulæ employed by sinp-builders, whereby the tonnage is calculated, from the length, breath and death of the tio length, breadth, and depth of the vessel; but these formulæ seldom give vesset; but these formulæ seldom give the real tonnage, or the true amount of cargo which the vessel will earry; because two vessels exactly equal in length, breadth, and depth, measured as those dimensions usually are, may have very different internal eapneity, owing to different eurvatures of the hull. A ship will sometimes carry worse them her registered sometimes carry more than her registered tonnage indicates, sometimes less; and therefore the word "tonnage" is to be regarded only as a rough approximation to the burden which the vessel will carry. TONNELIER, a French cooper; a seaman who fills a water eask.

TON OF WATER. Taking water to weigh 10 on of Water. Taking water to weight to be 224 gallons in the ton. The French cubic metre or ton is equal to 220 English imperial gallons. The London Water Companies use in their computations a ton of 216 gallons, namely, 6 barreis of 36 gallons

WASHSTAND, a piece of bedroom-furniture for holding ewer and basin and other regulaites for washing the person. Sometimes it has a marble top.

WASTE, the refuse of cotton or sllk; moor-

land or untilled ground,
Waste-basket, a small office or library basket, for holding loose waste papers. Waste-nook, a tradesman's book for mak-

ing rough entries in.

Waste-Paper, spoiled paper; old office writings, newspapers, &c. bought by waste-paper dealers, to sell again to shopold office keepers, for wrapping-paper, or to paper-makers to work up into fresh paper.

WASTE-PIPE, a discharge-pipo for surplus or used water, &c.

WASTERLS, waste substances.

Watch, a pocket time-plece, a well-known horological instrument for computing time, convenient for its portability: 14,000 or 15,000 gold watches, and 80,000 or 90,000 Goldsmiths' Hall. Besides these, large numbers are imported from the Continent, In 1835, we received 32,706 gold, and 61,922 silver, watches, valued together at £218,410. Some watches are now at £218,410. Some watches are now made with such precision as to vary but a few seconds in the course of a year. Those constructed with the greatest possible accuracy, and intended for astronomical or nautical observations, are called chronometers. A labour spell, or division of time aboard ship, usually of four hours, but there are two watches called dog-watches, of only two hours.\*

WATCH AND CLOCK DIAL SILVERER, once who silvers the face of time-pieces, a branch of the dial-maker's trade.

WATCH AND CLOCK GLASS MAKER, a branch

WATCH AND CLOCK GLASS MAKER, a branch of the clock trade, a person who employs blowers and makers of glass. See WATCH

WATCH AND CLOCK TOOL MAKER, a mechanist who prepares the fine class of tools required in watch and clock making. WATCH BALANCE-WHEEL MAKER, a branch

of the movement-maker's trade.

WATCH-BARREL, the brass box which contains the spring, and to which it is attached at one end.

WATCH-BOX, a sentry-box.
WATCH-CAP MAKER, a branch of the watch-making trade; a workman who makes the cover for the works, and employs the springer, &c.

WATCH-CASE GILDER. See WATCH-GILDER. WATCH-CASE MAKER, a branch or division of the wateli-making trade; a person who outside - easo

employs a box - maker, maker, and joint-finishers.

WATCH-CHAIN, a short metal chaln, attached to the pendant of a watch, to suspend a key and seals to; a guard-chain or brequet for a watch carried in the waistcoatpocket.

WATCH-CHAIN MAKER, a manufacturer who employs several separate workers, as wire-drawer, link-maker, and rivetter, hook-maker, &c. VATCH-OOCK AND POTENCE MAKER, a

WATCH-COCK branch of the movement-maker's trade. WATCH-DIAL-PLATE MAKER, a branch of the watch-making trade, a person who makes the face, and employs a copper-maker, an enameller, painter, &c.

WATCH-DOG, a house-dog; one kept to guard premises, or to give notice of trespassers.

WATCH-ENAMELLEA, a branch of the watch-making trade. See WATCH-DIAL-PLATE

WATCH-ENCAAVEA, a branch of the watch. trade; a workman who employs a plercer

and name entter.

WATCH - ESCAPEMENT MAKER, a manufacturcr of that part of a watch connected with the beats which we hear it give; these beats are the ellects of the moving power, carried forward by means of the wheels in the movement to the last one, ealled the balance-wheel.

WATCH-FINISHER, a workman who puts the parts of a watch together, and employs a wheel and fusee cutter, and other workers

in smaller branches.

WATCH-FITTER-IN, a branch of the watch trade; a person who overlooks the whole, fits hands on the dlal, &c.

WATCH-FRAME-MOUNTEA, a branch of the watch-movement maker's.

WATCH-FUSEE MAKEA, a branch of the watch-movement maker's trade.

WATCH-OILDEA, a division of the watch trade, which is divided into two branches,

the gilder and brusher.

WATCH-GLASS, a small convex glass; a crystal segment of a hollow sphere, used to cover the face of a watch, in order to read the timo and protect the hands. Lunette glasses are not segments of spheres, but have their edges abruptly raised, and the interior flattened; an hour-glass.

glass. WATCH-CUARD, a ribboa or chain worn round the neek, attached to a watch

pendant.

ATCH-HAND MAKER, a branch of the wateb-making trade; a person who makes the metal pointers or indicators for the face of a watch, and employs a die-slnker, finisher, &e.

WATCH-JEWELLER, the person who attends to the diamond-eutting, setting, msking

ruby holes, &c.

WATCH-JOINT FINISHER, a branch of the watch-making trade.

WATCH-KEY MAKER, a manufacturer of the metal keys of different kinds, made to

wind up watches. WATCH-MAKER, a manufacturer, finisher, vender, examiner, or cleaner of watches; an artificer who arranges and fits together, in due order, the separate parts of a watch, after they have been cast or prepared by special workmen.

WATCHMAN, a night-guardlan or police-

man.

WATCHMAN'S RATTLE, a large spring rattle to sound an alarm or to eall for assist-

WATCH-MOTION MAKEA, a division of the watch-making trade, which includes other branches, as slide-maker, edge-maker, and bolt-maker,

WATCH-MOVEMENT MAKER, a division of the watch trade, comprising many branches, as pillar maker, stop stud maker, frame mounter, serew-maker, cock and potence maker, verge-maker, pinion-maker, balance-wheel maker, wheel-cutter, fusee-maker, and other small branches.

WATCH-OIL MAKER, a person who prepares and yends the limpld oils required for

oiling the movements of a watch, WATCH-PALLET JEWELLER, See JEWELLER.

WATCH-PALLET MAKER, a maker of the verge of watches, the pallets of which alternately stop the teeth of the swing or balance wheels.

WATCH-PAPER, an old-fashloned faney ornament, or thin tissue lining, for the case of

a watch.

WATCH-PENDANT MAKER, a person who makes the handle and ring outside of a watch to hold or suspend it: both case and pendant are sent to Goldsmiths' Hall to be anarked,

WATCH-PILLAR MAKER, a branch of the watch-movement tride.
WATCH-PINION MAKER, a branch of the movement-maker's trade.

WATCH-POCKET, a small pocket fastened to the head curtains of a bed to place a watch

in at night. [movement-maker's trade, WATCH-SCREW MAKER, a branch of the WATCH-SECRET-SPRINGER, AND SPRING-LINER, a division of the watch-making trade, which is further subdivided into other branches, comprising the spring-maker, button-usker, for

other branches, comprising the spring-maker, button-nanker, &c.
WATCH-SPRING, the fine steel main-spring, which, being fastened at one end to the barrel, and at the other end to an arbor or axie, unwinds off the fusee, turning it, and keeping the watch going, while the action accords by its varying size with the varied energy of the spring. By the force thus produced other wheels are put In motion, from which the three is exactly measured by the hands on the dial.

WATCH-SPRING MAKER, a manufacturer of maln-springs for watches, who employs a wire-drawer, hammerer, polisher, ten-

perer, &c.

WATCU-STAND, a mantel-piece or tollet rest or support for a watch.

WATCH-STOP-STUD MAKER, a branch of the business of the watch-movement maker. WATCH-WHEEL CUTTER, a branch of the watch-movement maker's trade.

Watch-more, the steel, brass, and other nachlacry and parts of a watch.
WATER, the lustre of a diamond; a common well-known fluid. As an article of trade, water is vended from house to house in many towns, where the inhabitants have not easy access to it: It is supplied by itinerant water earts, at so much per bucket. WATER-BOTTLE, a glass toilet-bottle; a bot-tle for holding water at table.

WATER-BUTT, a puncheon or large cask without a head, used for collecting rain water.

WATER-CAN, a tln vessel for holding water for a dressing-room.

WATER-CARRIER, a bearer or veader of water. WATER-CART, a eart with water for sale, or

for watering the roads and streets.
WATER-CASES, breakers or other cases used

for holding water for ships' use.

ATEA-CEMENT, hydraulic coment.

ATER-CEMENT, hydr BETON, and CEMENT.

WATEA-CLOCK, a contrivance for measuring thine by the flow of water; the clepsydra of the anelents

WATER-CLOSET MAKER, a maanfacturer of house privies, supplied with water for

cleansing them.
Water-cock, a tap for drawing water; a street plug to supply water from the anains in case of fire.

WATER, COLOGNE. See COLOGNE-WATER WATER-COLOUR-DRAWING, a painting exc-cuted and finished with colours worked up with water.

WATER-COLOURS, cakes of pigment for drawing, that can be rubbed down with water.

WATER-COMPANY, a joint-stock company, which collects water for distribution through a town.

WATER-COOLER MAKER, a potter who makes

porous jugs, &c.
WATER-COURSE, tho bed of a stream; a channel for water through a town or fields.

WATER-CRANE, a machine for supplying water to locomotive engines.

WATER-CRESS, a wholesome vegetable, the Nasturtium officinale, of which fully 750 toas are unnually sold in the London markets.

WATER-CRESS SELLER, an itinerant veader, usually a female, of bunches of watercresses. [llned with china. WATER-DISH, a hollow dish of anetal, or one

WATERED SILK, silk with a shaded or diversified surface. See Silk-waterer.
Water-engine, a steam or other engine to
Water-filter. See Filter. [raise water.

WATER-FILTER. See FILTER. [raise water, WATER-FLASK, a portable bottle for water.

WATER-GAUGE, a tide-gauge; a raia-gauge; any measurer of the depth or fall of water.

WATER-GILDER, a person who gilds will a thin coat of gold amalgam, and volatilizes the mereury. WATER-GUARD,

ATER-GUARD, a river police; Customs officers stationed on board ships, having different duties from the landing or waterside department.

WATER-GUM, a very fine tree of New South Wales, the *Tristiania nerifolia*, with lofty cylladrical boll. Tho tlaber is closegrained and elastic, and valuable for boat-building. The tree reaches 100 to 130 feet. with a diameter of 30 to 50 inches.

WATERING-CART. See WATER-CART. WATERING-PLACE, a seaside resort; a town frequented for drinking mineral waters or bathing; a cab-stand where water is supplled to horses; an oasis in the desert where earavans obtain water from a well; a pond or water-hole for eattle; a spring or river whence ships are supplied.

WATERING-POT, a metal pot with a roso or perforated spont for watering plants.

WATER-JAR, WATER-JUG, vessels for holding water

WATER-LEADING, a permitted leat or water channel in the Capo colony, for bringing

water for irrigation.

Water for irrigation,

Water and irrigation,

Water Alloy, a general name for species of

Nymphæa, beautiful plants which are
much cultivated. The stems of N. alba
are superior to eak galls for dyeing grey.
The Victoria Regia is one of the most
clogant and prized water-filles.

WATER-LOGGED, a marine term applied to ships which have so much water in tho

hold as to be unmanageable.

Wateaman, a boatman or ferryman; an attendant on cab-stands who supplies

water to the horses.

WATER-MEADOWS, low, flat pasture ground, capable of being irrigated from some adjoining river or stream.

WATER-MELON, the Cucurbita or Cucumis Citrullus, an esteemed cooling fruit in warm ellmates.

WATERMEN AND LIGHTERMEN'S COMPANY, one of the livery companies of London, whose hall is at St. Mary-at-hill.

WATER-METER, an iastrument for registering the supply of water.

WATER-MILL, a flour-grinding or other mill, the machinery of which is set in motion by the action of water upon a wheel.

WATER-PIPE MAKER, a easter or moulder of

pipes for supplying water. WATEA-PITCHEA, an earthenware jug for earrylag water.

WATER-PLUG. See WATER-COCK.

WATEAPAOOF-CLOTH MAKEA, a person who prepares cloth to stand the wet; an Iadlanrubber cloth maker. WATEAPROOFING, rendering cloth, linen, or

leather, &c., impervious to water.

WATER-PURIFIER, a filter.

WATER-RATE, a tax levied for the supply of water to householders.

WATER-RETTING, steeping flax in water to soften the stem, and fit the fibre for beat-

lug.

WATERS, MINERAL, about 37,000 gallons of these are unusually imported from abroad.
WATERA-TABLE, a projection or horizontal set-off on a wall, so placed as to throw off the water from the building.

WATER-TANK, a fixed eistern on shore, or a metal receiver on board ship for hold-ing water. See Tank.

WATER-TAP, a cock to let out water.
WATER-TRUNK, a deal eistern lined with lead to hold water.
WATER-WAYS, the timbers of a ship connection that the control of the connection of the connection

ing the sides to the deek.

Ing tho sides to the deek.

WATER-WHEEL, a wheel with buckets for impelling a hall by water-power. The principal varieties are undershot, overshot, breast, and horizontal turbines, pitch-back, tub, and flutter wheels.

WATER-WORKS, the reservoir or pumping station, for supplying water to a town; hydraulic engines or structures.

hydraulic engines or structures.

WATTLE, an Australian name for species of Acacia, the bark of which is sometimes imported for tanning; a hurdle of twigs; a rod lald on a roof to support the thateh. WATTSEIDE (German), floss-slik.

WAX, the comb of cells constructed by bees to hold their hoacy. Wo import about 530 tons a-year from different quarters, while fully 300 tons are obtained from the hives in Britain. See Bees-wax.

WAX AND TALLOW CHANDLER, a dealer in according

eandles

WAX-BASKET, a faney basket made of or

coated with wax.

WAX-BLEACHER, a person who extracts the foreign bodies that have insimuated thearselves into bees-wax, and obscured its ori-

JAX - CHANDLERS' COMPANY, one of the livery companies of London, whose hall is

in Gresham-street.

WAX-DOLL, a child's doll with a wax face

and arms, or with a wax body.

WAXED-END, thread covered with shoemakers' wax for sewing leather together. WAX-FIGURE MAKEA, a laculder of wax in lalitation of real persons.

WAX-FLOWER MAKER, a modeller of flowers, fruit, &c. in wax, coloured to faritate

nature.

Waxing, the process of stopping out colours In ealieo-printing; rubbing thread with wax to strengthen it; polishing tables with bees-wax.

WAX-LIGHT, a candle or taper of wax.

WAX-MANUFACTURER, a melter or bleacher of wax; a maker of eandles, or different articles of wax.

WAX-MODELLER, an ornaniental worker in WAX-MYRTLE. See MYRTLE-WAX. WAX-PALM, a lofty species of South American paint, the Ceroxyolon andicola, from fissures in the stem of which flows spontaneously a kind of grey, waxy substance, containing two-thirds of resin, and one-third of wax, identical with that formed by the bee. Melted with a little snet, this wax anakes excellent tapers.

WAX-WORKS, a collection of figures dressed to represent life, shown to the public.

WAY-BILL, a carrier's invoice; eonveyance applied to a conchana's doen-ment, showing the list of goods, with tho transport or delivery of which he is intrusted.

WAYS, the timbers or slides on which a ship

is launched.

Weapon-house, an armoury. Weapons, small-arms; offensive or defensive instruments.

WEAR, a dam to shut up and raise water; an enclosure of twigs to catch fish; to turn a vessel round by the stern, tack-ing being the reverse movement. See WEIR.

WEARINO-APPAREL, garments for the per-

son; articles of attire.
Weasel, the Mustela vulgaris, n ferret-like animal; a destroyer of vermin. Other species of this family are described under ERMINE, MINK, SABLE, &C.

WEATHER-DOARD, a board to keep off the wet or cold; nailed boards lapping over one another at the side of a house, &c.

one another at the side of a house, &c. Weather-cock, a vane made to show the direction of the wind.

Weather-cock, a name commonly given to the barometer, but also occasionally applied to the thermometer, hygrometer, and other instruments, for measuring atmospheric changes.

Weave, to entwine; to form cloth in n loom by the union or intertexture of

threads.

Weaver, an operative who works at a loom.

WEAVERS' BEAM, a web beam,

WEAVERS'-COMPANY, one of the livery com-London, panies of whose hall is in Basinghali-street.

Basingman-street. A shuttle. Weavers'-Enterper, a shuttle. Weavers'-Harmess Maker, in manufacturer of the loom apparatus used by in weaver. Weaver's-Heddle, the healds or harness-for guiding the warp-threads in the loom. Weavers'-Hook, the stuy of a beam. Weavers'-Leash, part of the apparatus of a weaver.

weaver. Weavers'-loom Maker, a manufacturer of

looms for weaving.
WEAVERS'-SHUTTLE, the Instrument with which the wenver shoots the cross threads. WEAVERS'-TURNER, I workman who turns

shuttles and other instruments

weavers.

WEAVERS'-UTENSIL MAKER, II WORKMAII Who makes the leash, reeds, shuttles, and other parts of the apparatus and instruments required in weaving.
WEB, linen cloth; any thing woven.\*

Weba, Whiba, n grain-measure of Tunls and Barbary, = 0.0987 bushel.

Weber, n weaver.
Webeing-Tape, a kind of broad tape.
Webe, a term in Hamburg, in the linen trade, signifying a roll of 6 dozen, or 72

WEBERKARDEN (German), teasels. WEDDEB. See WETHER.

WEDDING-CAKE, a rich plum - cake, orna-mented and frosted with sugar, to decorate a wedding breakfast table, and served to guests and subsequent visitors to the newmarried couple.

WEDDINO-CAKE-ORNAMENTS, silvered orna-

ments to decorate a wedding-cake.
WEDDING-CARDS, the name and nddress cards of a new-married couple, usually printed in silver, or tled with silver-cord, sent to clearly the silver-cord. sent to friends to announce the event, and stating when they receive return calls.

WEDDING-DRESS, Superior garments

cither sex, to be worn in church at the marriago ceremony.

WEDDING-FAVOUR, In builth of white ribbons or a rosette, &c. worn by males attending n wedding.

WEDDING-RING, n lady's plain hall-marked

WEDDING-RING, n lady's plain hall-marked pure gold ring, given by the bridegroom to his future wife at the ccremony.

WEDGE, a mass of metal or wood thick at one end, and thin at the other, used for rending wood and other substances; a lever; n mechanical power or tool of various kinds and modifications; n small fast anims for a door or window. fastening for a door or window.

Wedgewood-ware, n fine kind of pottery, named after the late Mr. Wedgewood. who carried out many improvements in

the manufacture.

Weoro, Vedro, n Russian liquid-measure of about 22 gallons, but varying in some districts. See Vedro.
Weeding-form, Weeding-hook, Weeding-

IRON, implements or tools for cutting down or eradicating weeds.

Weeds, the mourning garments of a widow. Weekly-tenant, one paying rent by the week, and liable to removal on a week's

motice. [mourning by widows, Weeper, a white linen enti, worn on Weft, the woof of cloth; the yarns or threads which run from selvage to selvage in a web.

Weila, n superficial measure used by miners in Prussla, = 0.1062 acre; in Saxony to 0.0948 acre.

Weigh, to polse; to estimate the pondero-sity of an article by the steelyard balance, scales, &c.; to lift an unclior from the ground. See WEY.

WEIGH-BRIDGE, n contrivance near a toll-gate, market, &c. for weighing loaded earts subject to toll, &c.
WEIGHER, an officer of customs and assize:

one who tests weights, or secs goods welghed. \* WEIGH-HOUSE, a public place for weighing.

WEIGHING - MACHINE, any contrivance by which the weight of an object may be ascertained. See BALANCE, LETTER -WEIGHER. WEIGHING - MACHINE MAKER, a balance

maker; a person who makes large appa-

maker; a person who makes mage apparatus for poising.
Weichts, masses of metal, poreclain, &c. accurately adjusted, as a standard of onnecs, pounds, cwts., and their subdivisions. See Apothecaries - Weicht.
Avoindupois, and Tror-Weichtt.
Weindung German, frankingense. WEHRAUCH (German), frankincensc.

Weir, a permanent dam thrown across a river; an enclosure for eatening fish. The Scotch weir consists of iron and wooden stakes with nets fastened thereto; a cruive weir is one with hatches.

WELD, an annual herbaccous plant, the Reseda luteola, n nativo of Europe, the stems and lenves of which dye yellow. The whole pinnt is cropped when in seed, at which time its dyeing power is greatest; and, after being simply dried, it is brought to market.

WELDBORES, a description of woollen goods

manufactured in Brodford.

WELDING, the union of two pieces of metal together by heat and pressure.

WELL a pit sunk to arrivo at springs, for obtaining water. Artesian wells are earried to a great depth, to ensure a continuous flow of water. A compartment with ous flow of water. A compartment with holes in a fishing-boat, to keep fish alive; the cavity in a building, in which a flight of winding stairs is fixed.

WELL-BOAT, a dishing-boat with a well to keep fish in, to bring them alive to mar-

ket

WELL-BORER, one who digs or bores for

water; a constructor of wells.

WELLINGTONS, men's long boots so named. Well-room, an apartment or building containing a mineral spring or spa, where the waters are drunk by invalids.

Well-sinking, the operation of boring for

water.

Well - STAIRCASE, a winding staircase, which occupies but little room in a

bullding.

WELSH-FLANNEL, the finest kind of flannel, made from the fleeces of the flocks of the Welsh mountains, chiefly manufac-tured by hand. It is held in high repute for under-vestments and other purposes, but is dearer than that made by machi-nery in Lancashire and Yorkshire.

WELSH-MUTTON, a choice and delleate meat, obtained from a small breed of sheep in

Wales.

WELSH-ONION, a name for the Allium fistu-

losum, a native of Siberia. WELSH - RABBIT, tousted cheese seasoued with mustard, &c.

WELSH-WIG, a worsted cap.

WELT, a joint or fold; a border or edging; the inner lining reaching to the edge of the sole of a boot or shoe.

Welted Brocades and Quilts, articles with folds, lined and ribbed.

Welt-shoulders, a name in the leather trade for curried leather, fit for the welts of boots and shoes.

WERP, a Hanoverian dry-measure, the mean of several of which may be given at

1.50757 Winehester bushel. Werst. See Verst.

West-end, the fashionable part of London, commencing in the East from Charingcross.

WEST INDIA TEA, a name for the shrubby goat-weed, Capraria bifora, the leaves of which are occasionally used for infusing as tea, in the Antilles.

WESTMINSTER HALL, the seat of the prin-

cipal English law courts. Wether, Wedder, a gelded ram.

WET-NURSE, a female who suckles and nurses the infant of another woman.

WEY, WEIGH, an English measure of weight for wool, equal to 61 tods of 28 lbs.; a load or 5 quarters of wheat; 40 bushels of salt, each 76 lbs.; 32 cloves of cheese, each 7 lbs.; 48 bushels of oats and barley; 2 to 3 cwt, of butter,

WEYDER, an Egyptlan corn-measure, 6th part of an ardeb, not quite a bushel.

Whale, a large manimiferous marine animal of several species, frequenting high northern and southern latitudes, sought for its commercial products. See Spen-MACETI, and WHALEBONE.

WHALE-BLUBBEA, the thick fat of whales.

See Blubnea.

WHALE-BOAT, a long narrow boat, used by whalers, to pursue and harpoon the whale, Whaters, to pursue any many mane for the baleen plates in the mouth of the whale, of which there are about 300. They are of which there are about 300. They are chiefly obtained from the Greenland and Southern whales, Balana mysticetus, and australis. It is softened by boiling, and is dyed black. The principal use of whalebone is for the ribs or stretchers for university. brellas, for eanes, whips, and as a substi-tute for bristles in common brushes. In tho form of shavings, it is sometimes braided into hats and bonnets. See Fix-NER-WHALE.

WHALEBONE-CUTTER, a workman who slices or draws whalebone into assorted lengths,

for different purposes.
WHALE-FINS, a commercial misaoaner for whalebone; the imports in 1855 were 284

tons.

WHALE-FISHERY, the pursuit of the whale in vessels specially stored and fitted for the purpose. This fishery is now ehlefly purpose. This is high is now enterly served on by the Americans who had, in 1856, 655 vessels, registering 204,209 tons compleyed in the South Seas and the North Pacific. There are some few British ships still prosecuting the Greenland fishery. The American vessels in the North Pacific

have averaged 1000 barrels of oil to each

ship for some years past. \*

WHARFAGE, the charge paid on goods to a wharfinger.

WHARFINGER, the owner or occupier of a wharf; an officer or elerk appointed to attend at a wharf.

Wharncliffe-ixyife, a pocket knife with one large and two small blades. [sand. Wharp, a name for Trent sand. See Trent-What-not, a fancy side-board or stand for ornaments and knick-knacks in a draw-

ing-room.

WHEAL, a Cornish name for a mine

WHEAT, a name for species of Triticum, one of the most important of the food grains, and that most generally cultivated in Europe; the flour being the most nutri-tions and pulatable of all the eercal grasses. The quantity raised in this country is very large, amounting to about 19,000,000 quarters, and we also import 7,000,000 or 8 000,000 quarters a year. See FLOUR.

WHEEL, a revolving disk or frame in machinery, or on which a vehicle is supported and moved. There are many kinds

of wheels, as driving-wheels, leading and of wheels, as driving-wheels, eart-trailing-wheels, eart-wheels, eart-whitels, &c. A cirwheelbarrow-wheels, &c. wheels, ropes or chains to the tiller, for moving a slilp's radder; a potter's round board turned by a lathe; a disk with floats or paddles for propelling a steam-boat in the water; a machino for spinning thread; a revolving fire-work; in Sheffield, a build-ing fitted up with a number of grind-stones, most of which are hired at a weekly or yearly rental, by a grinder, who griads cutlery for other persons.

WHEEL-BARROW, a small hand-earriage for loads, with handles for supporting it, and

moving on one wheel.

WHEEL-CARRIAGE, any vehicle moving on wheels; not a sled or sleigh.

Wheel-chair, an invalid of Bath-chair. Wheelswarf, a clayey eement or putty made from the dust obtained in Sheffield from the abrasion of grindstones, which is used hi the steel-converting furnaces for covering the layers of iron and char-

Wheelwright, a maker and repairer of wheels and wheel earriages.

WHEELWRIGHTS'-COMPANY, one of the minor livery companies of London, whileh, having no hall, transacts its business at Gulldhall.

WHELK, a marine univalve shell, the Buccinum undatum, the fish inhabiting which, bolled or pickled, is esteemed by the poorer classes in large towns.

Whele, the young of a dog; an appliance to a windlass to prevent fleeting and

surging.

Wneary, a waterman's light river boat; a ferry boat in a harbour.

WHERRY MAN, a river boatman.

Whetstone, a smooth flat stone for sharpening edged-tools by friction. Whetstones of every degree in quality are obtained from the older and newer metamorphic formations. The ther varieties of mica schist and talco-inleaceous schist afford a great abundance of such stones. HONES, and SCYTHE-STONE.

Wher, the residual thin liquor, after the butter and easeum or curd are removed from milk; a posset; milk curdled by reunet, which, when good, should be nearly transparent, of a pale yellow colour and should have a sweetich tester. nearly transparent, of a pale yellow colour, and should have a sweetish taste. It is an excellent diluent in febrile affections, as it contains a crystalline substance, termed sugar of milk. Various substances are added, which give characteristic names, such as acid whey, aluminous whey, beer whey, mustard whey, orange whey, tumarind whey, and white wine whey. A cooling whey drink is made with nink, wine, tamarinds, or eream of tartar. eream of tartar.

Whiffie, a mode of hand-line fishing for pollacks, mackerel, &c.
Whiffie-tree. See Whipple-tree.
Whin, a windlass or large capstan for raising a great for the control of t ing ores, &c. from a mine-shaft, usually worked by horse-power.
Whin, a name for the furze or gorse bush.

WHIN-BERRY, See WHORTLE-BERRY, WHIN-BRUISER, a machino for cutting and bruising furze or whins to feed cattle oa.

Whinstone, a kind of basalt. Whip, a small lift-purchase made by a rope vair, a small litt-purchase made by a rope rove through a single block; a tied-up flag used for signalizing; a lash secured to a stick for driving with. Cart-whips have a very long lash. In the colonies cattle-whips have a thong of twisted bark or hide. Small twisted whalebone whips, the new mode for hides. &e. are made for ladies.

WHIP AND THONG MAKER, a manufacturer of whips of different kluds which are sold

by saddlers and harness makers.

Whip - corp, fine double-twisted strong eord, used for wbip-lasbes and other purposes.

WIIIP-LASH, twisted hide, bark, or cord fas-tened to the thoug of a whip.

WHIP MOUNTER, a person who puts handles, ornaments, &e. on whips.
Weip-mount Maker, a person who makes

the metal ornaments, ferrules &c. for whip-stleks and handles. ferrules, thongs,

Whipper, a porter who raises coal with a tackle from a ship's hold.

Whipper-in, the assistant-huntsman of a pack of hounds.

Whipple-tiree, Whiffle-tree, a swing bar to which traces are fastened. Whip-top, a child's top driven rouad with

a lash.

WHIP-SAW,

WHIP-SAW, a saw set in a frame to be worked by two persons. WHIP-STICK, the stock or handle for a driving-whip; these are of various woods, according to the purpose intended, as for eoachmen's whips, glg whips, stock whips, and carters' whips.

WHIRLABOUT, a round-about for children at fairs, with small carriages or wooden

horses.

Whialisis, a toy spun round by children.
Whist, a wisp or broom of dried stalks; a
cook's wire instrument for beating up the

whites of eggs, &c.; a cooper's plane.
Whiskers, the hair growing on a man's cheeks;—these are made and sold for play actors, masqueraders, and others.

Rectors, masqueraders, and others.

Whisker, a sentite or basket.

Whisker, a spirit distilled from grain, largely made and drunk in Ireland and Scotland; (——EX) a light carriage for quick travelling.

Whistle, a child's toy; a boatswain's or sportsmair's call; a shrill warning noise made by a locomotive. See Rallway Whistle.

WHISTLE.

Whist-Markers, small coins or medals used for counting or seoring the points of the game of whist.

White, a painter's negative colour; ceruse; the albumen of an egg; a mark in a tar get for an arrow.

WIHTE-BAIT, a small esteemed river fish. See BAIT.

WUITE-BEAR, the large Arctic bear. See POLAR-BEAR.

White-beer, a Flemish beer. \*

White-Cedar, the Cupressus thyoides, a North American tree. See also Warra-COORL \*

WHITE-COATS, a fisherman's name for the skins of young seals, which weigh but from 60 to 70 pounds the dozen. WHITE-copper, an alloyed metal; German

sllver.

WHITE-CROPS, grain and seed crops, as distinguished from green crops, or those cultivated for their roots or herbage.

WHITECROSS-STREET, a name for the debtors' prison of the City of London which is

situated in that street.

WHITE-FISH, I Hamo given by the Canadians to the Coregonus albus, In fish which abounds in the lakes of North America. \*

White-Lead, a carbonate of lead; a zinc paint; the painters' principal white colour. White-Leaf. See Leaf-Metal, and Baonze-

POWDER.

WHITE-LEATHER, buff leather; alumed lea-See CHAMOIS-LEATHER, and WASH-LEATHER.

White-lime, whitewash for cleansing or

colouring walls, &c

WHITE-LINE, in printing, n broad division or blank space between the lines of types. WHITE-MEAT, a term applied to young or delicate flesh food, as veal, poultry, rabbits, pork, &c.

Whiteser, in name in the United States for n colourer or white-washer. Whitesing. See Whiting. Whitesing. states in sharpening and polishing-stone employed by cutlers; n name in the Sheffield district for n fluishing grundstone of a fluer texture than the common large ordinary sandstones.

Whites, n miller's name for the fluest flour

made from white wheat

White-satin, pure, undyed satin, much used for bridal dresses, and lady's slips or under petticonts.

WHITE-SMITH, a worker in metals.

WHITE-SPRUCE, the Pinus alba.
WHITE-TALLOW, a class of Russlan tallow,
obtained from the fat of sheep and goats. WHITE-VITRIOL, an old name for sulphate of

WHITE-WASH, a mixture of whiting, size, and water for whitening cellings and walls; a slang term for getting rid of importunate creditors by passing through the Insolvent court.

WHITE WAX, blenched or pure wax.

White-wine, Sherry, Marsala, Madeira, or any pale-coloured wine.

WHITING, ground chalk washed in alumwater, to cleanse it from sand and other impuritles, and dried in lumps; it is used as a polishing material, and for making putty and white-wash. A small delicate sea-fish, the Mertangus vulgaris.

WINTING-MERCHANT, one who grinds and levigntes chalk, and makes it up into

small oblong cakes.
Wilting-Pollack, the Meriangus pollachius, common on the rocky coasts of

WINTING-POUT, a small seafish, the Morrhua barbata of Bloch; the Morrhua lusca of Yarrell; the Gadus luscus of Linnaus. a name at Berwick for the WHITLING,

salmon-trout.

WHITSTER, a woman who blenches linen. Winters, n Swedish coin sometimes called nu oro or schilling; a subdivision of the rixdolar; in Riga, Revel, &c. 64 whiteus are equal to 1 rixdolar. The black whit-

ten is only half the value of the whitten, or white schilling.

Whorler, a potter's wooden wheel by which a rotatory motion is given to plates

and other flat vessels.
WHONTLEBERRY, WHURT, a name for the fruit of species of Vaccinium, the blue, black, or red berries of which are acid, and catable. Some are known under the name of bliberries and cow-berries. See Chan-BERRY.

Wick, a cotton or rush thread for a candle

or lamp, which supplies the flame.

Wicker, a small grown twlg or osier; a hasket-rod.

WICKER-BASKET, a basket formed of oslers.
They are sometimes made lined with tin, for knives and plates. See Knife-Basket, and Plate-Basket.

WICKER-WORK, a texture of osiers; baskets. Wicket, a small gate; n row of stamps to be bowled at, at cricket.

WIDDELILAM, a vernacular name la Indla for pepperinint,

WIDE-AWAKE, in low-crowned felt-hat,
WIDE-AWAKE, in low-crowned felt-hat,
WIDE-GAUGE, the broadest gauge used on a
railway, as in the Great Western, the rails
in which are set 7 feet apart.
WIDGEON, in wild duck or winter-fowl, the
Mareca Penelope.

WIDOW'S-WEEDS, the mourning attire for a female who has lost her husband.

Wiesse, a Dutch term for the cubic elle of

fire-wood.

Mig, an artificial covering of hair for the head. There are various kinds of wigs made, as horse-hair wigs for judges and barristers; mohair wigs for coachmen; gentlemen's and ladies' wigs of human hair; play-actors' wigs, &c.; a fisherman's term for an old start for more of the start for the star term for nn old seal.

Wig-block, a shaped piece of wood for fitting a wig on.

to secure a window from entry.
WIND-SAIL, a tube of canvas passed down a skylight or hatchway, to ventilate a ship; the cauvas sail or vano of a whidmill.

WINDSOR-CHAIR, a kind of strong, plain,

polished wooden chair.

Windsor-soap, a scented soap, well-known in all countries for its excellence both as a washing and shaving soap. It is made either brown or white,

Wine, the juleo of grapes, largely manu-factured on the Continent for home use and export; the juice of various fruit prepared with sugar.

WINE-BAG, a skin vessel for holding or carrying which WINE-BIN, a partition in a cellar for keeping

bottled wine.

WINE-BISCUIT, a sweet, fancy blscult served with wine.

WINE - BOTTLE, a black or white glass-bottle for holding wine.

WINE-CELLAR, R vault or cool place for

keeping wine in.

WINE-COOLER, a wrapper for a wine-bottle, to be wetted, to promote evaporation; a stand or utensil for wine-bottles, holding ice, &c. to cool the wine in them.

WINE-COOLER MAKER, a manufacturer of metal utensils for standing wine in to

eool.

WINE-cooper's TOOL MAKER, a manufactu-rer of the various tools used by the cooper. WINE-DECANTER, a clear glass-bottle for holding wine at table.

WINE-FININO MAKER, a preparer of Isinglase &c. for clarifying wine.

Wine-flask, a bottle for wine. Wine-glass, a small drinking-glass, of dif-

ferent shapes, for holding wine. Wine-Grower, a cultivator of grapes; the

Wine Measure. In entity after the proprietor of a vineyard.
Wine Measure. In this the imperial gallon is tho legal standard, and is used for every liquid; but the larger measures are used very often only for a particular kind, as wine, beer, oil, &e.

IMPERIAL MEASURE.
4 gills or quarterns 1 plnt
2 pluts I quart
4 quarts 1 gallon
5 gallons 1 pin or keg(brandy)
9 gallons 1 firkin (beer)
10 galls. (81) old meas, 1 anker (brands)
18 gallons (142) ditto 1 kilderkin
or gallons I half horshead
36 gallons 1 barrel (beer)
42 gallons (344)o.m. 1 tleree
· 63 gallons (524)dltto 1 hogshead
84 gallons (693) ditto 1 nuncheon
126 gallons (1043) ditto 1 pipe or butt.
252 gallous (2994) ditto 1 tun (oil)

Thus the old wine measure will be found to be considerably enlarged,-14 09600 imperial gallons being equivalent to 18 gallons of the old. In regard to all vessels of larger capnelty, such as hogsheads, puncheous, &c.-tirey are gauged mid charged according to the exact quantity contained therein, Many of the above measures are, how-ever, entirely nominal. Wine is imported into this country in butts or pipes, and hogsheads, the standards of which are usually as follows :-

Pipo of Cider 100 to 118 gallons
,, l'ort
,, Sherry 108 .,
Lisbon
,, Cape or Madelra 02
, Teneriffe
Right of Signified 100
Hogshend of Claret 46
,, Cape 92
Marsala 93 ,
,, Brandy 45 to 50
n, Rum 45 to 50 ,,
Tent 52
Aum of Hock
Dee the various measures and wines.

WINE-MERCHANT, a general dealer in wines. WINE-MULLEN. See MULLER. WINE-PALM, the Manicaria saccifera, of Gaerther; also eniled the troolie palm. The leaves are used as thatch, and caps are made of the spathe in Gulana,

WINE-PRESS, n screw or roller press for ex-

pressing the Julee from grapes.

WINE-ROOMS, n place where draught or bottled wine can be drunk.

WINE-STONE, a name in the Cape colony for

argol, or the deposit in wine-easks.

WINE-STRAINER, In finnel with a sleve or perforated metal holes for straining while through.

in others running to 40 acres; but the mean may be taken at 30 acres.

YARD-MAN, a maininger or overlooker in a builder's yard. YARD-MEASURE, a shopkeeper's rod or stick of 3 feet, with subdivisions; a tape 26 inches long.

YARDS, iong spars of tlmber, tapering slightly at the end, suspended upon the masts of vessels for extending the salls, and which are specially named according to their position and the mast on which they are hung. In a large ship there will be aboot twenty yards, some of very formidable dimensions. The main-yard of a liner or dinensions. The main-yard of a liner or first-rate will be about 100 feet in length and 2 feet in diameter.

YARD-STICK, a draper's measuring wand of

three feet.

YAAD-WIDE, earpeting, fabrics, &c. 3 feet in wldth.

YARE (Scotch), a weir for eatthing fish. See WEIR.

YARI-YARI, a local name in Gulana for the yellow lance wood (Duguetia quitarensis). a slender tree. The wood is to be had from 15 to 20 feet in length, and from 4 to 5 inches in diameter. It is very close, tough, and clustic, and is in great repute for gig-shafts.

for gig-shalts.

Yahn, a ropemaker's term for a collection of fibres spun together; simple spun thread; wool, cotton, flax, or hemp spun or twisted into lengths. See Twist. Owing to the perfection of our spinning, the export of yarn is now very large. The quantity and estimated value of that exported in 1856, were as follows:

in 1856, were as follows :-

Tons. Value. Cotton .....£8,065,671 294,172

> 104,890 12,613,921

YARN-MEASURE. The various manufacturers ARN-MEASURE. The various manufacturers have different measures. The quality of yarn is expressed in England by counts or numbers, denoting the number of hanks in a pound, signifying coarseness or fuencess; reckoning the length of the hank of cetton yarn at 840 yards, or 7 leas or lays, of 120 yards each. These "counts" range technically, from 2 to 490 hanks in a lb. The hank of worsted yarn is sometimes counted in the same way, but more generally at 550 yards, or 7 leas of 80 yards each. Linen yarn is estimated in England by the number of leas or cuts, each of 3 yards, contained in a pound weight; but in Scotland, by the number of rounds in a spindle, or 43 leas; thus, No. 48 in Eng-land, is called 1 lb, yaru in Scotland. The following are the principal subdivisions of each manufacture:-

COTTON-YARN MEASURE.

Inches,

### LINEN-YARN MEASURE.

Inches.  $\begin{array}{lll} \text{Betters:} & 1 & \text{thread.} \\ 1990 = & 120 & \text{n} = 1 \text{ loa, or rap.} \\ 108000 = & 1200 & \text{n} = 10 & \text{n} = 1 \text{ slip.} & \text{[dlo. 2160000]} \\ 2160000 = & 24000 & \text{n} = & 200 & \text{n} = & 20 & \text{n} = & 1 \text{ bun-} \\ \end{array}$ 

## WORSTED YARN-MEASURE.

Inches.

35 = 1 thread. 2830 = 80 , = 1 ica, or rap. 20160 = 560 , = 7 , = 1 hank, or 569 yds.

Reels.—A cotton or linen reel is 54 inches in circuit. A worsted reel 30 inches in circuit. A hank of worsted yarn is 30 threads.

In the foreign linen-yarn measure

851 Ermland Inches = 1 thread 3420  $\frac{420}{80}$  ", " =  $\frac{40}{10}$  " = 1  $\frac{1}{10}$  Inches = 1  $\frac{1}{10}$  Inches = 1  $\frac{1}{10}$  =  $\frac{1}{10}$ = 90 ,, = 1 ica. 22 23

YARRACOOM, an Indian head-dress, made of wicker-work and parrot feathers, worn by

the natives of Guiana.

YARRAWARA, im aboriginal name for the black butt, a tree of New South Wales, one of the largest or the Eucalypti, pro-ducing excellent durable timber for house carpentry, or any purpose where strength and durability are the chief requisites.

DUNKER, a measure of Norway. DUNKS, a name in the West Indies for the Zizuphus jujuba.

DUPATTA, an embroidered silk piece of head-gear worn by Indian women.

DWPLEX, a name in the trade for papers made of two colours run on the paper-making machine wire at the same time; a system in telegraphy of sending two messages simultaneously on one wire, in opposite directions.

DURMAN, an Indian audience court.

DURMA MATS, common mats made in Calcutta, of the split stalks of the Amphidonax karka reed; pipes are also made of the culus.

DURMANT, a name for the red or chest-DURMANT, a name for the red or chest-

DURMAST, a name for the red or chest-nut oak, Quercus sessili, Hora. DUSTERS, machines for cleansing rough rags, and grit and dust from esparto grass, for paper-makers.

DUTY, a term in mining, which expresses the net result obtained from the com-bustion of a given quantity of coal. DWARF PALM, the Chamacrops humilis, the leaves of which furnish fibre and

paper material.

Dyce Iron, a tool used on a broad beam for graining leather

Tor graming feather.

DYNAMITE, a powerful detonating explosive; a solid preparation from nitroglycerinc and an infusorial carth.

DYNAMO, a machine for generating the electric light, or supplying electrical

motive power

DYNE, in electricity, a term for the unit of force (or velocity) per second to a mass of one gramme.

Ю

EARTH OIL, a kind of petroleum, uow largely obtained in the United States and Canada.

EARTH PEA, a name for Voandscia subterranca, the edible pods of which are growned in the state of th

terranea, the edible pods of which are consumed in some tropical countries.

EASTER TERM, one of the four law terms, which commences on the 15th April, and terminates on the 8th May.

EEONITE, hard, black, vulcanized indiatuber, nuch used in electrical apparatus as an insulator, it is also known as vulcauite: see Vulcanised Indiature. RUBBER.

EBONY Woop, this wood of the Moluccas is Bauhinia variegata and B. purpurea, Linn.

EBULLIOSCOPE, a French instrument for

ascertaining the proportions of alcohol contained in wines and spirits.

ECOUALLE (French), a kind of refuse

ECREVISSE (French), a crab or crayfish.

EDELIHESCH (German), the royal deer or stag.

Edgino Iron, a semicircular spade for cutting turf.
Edisir Seed, a cucurbitaceous seed of

Western Africa, used for pressing oil from.

EISHAR (German), the polar hear, bar being the German word for bear.
EISENWAAKEN (German), iron, and iron-

work.

Eisvogel (German), Alcodo ispida, the kingfisher.

ELAIOMETER: ece OLEOMETER. ELATERIUM, a medicinal deposit from the squirting cucumber, Momordica claterium.

ELDER FLOWERS, the dried flowers of two

ELDER FLOWERS, the dried flowers of two species, Sambucus nigra and S. chulus, particularly the latter, are used for flavouring sweet wines.
ELECAMPANE (Inula helenium), the root was formerly used as a vegetable or salad, but only used now for medicinal purposes; and in preparing absinthe.
ELECTRICAL TERMS. These have come into use since this Dictionary was first published, and are somewhat variable as employed by different electri-

ciaus. The unit of capacity is one farad; of resistance one ohn; of work one joule; of activity one watt; of quantity one coulomb; of current one ampere; of magnetic field one gauss; of pressure one volt; of force one dyue. These are derived from the names of the eminent electricians, etc. Thus, Michael Faraday, George S. Ohm and James P. Joule, faunous English and German discoverers; James Watt and Andre M. Ampere, English and French inventors; Chas. A. Coulomb and Carl F. Gauss. Volt is named from the Italian discoverer Volta; the dyne from the root word dynamo, itself meaning force.

Electricity: usually generated by the rapid revolution of a closed conductor in a magnetic field, that is by coils of

electricity is usually generated by the rapid revolution of a closed conductor in a magnetic field; that is, by coils of insulated wire moving near the poles of a magnet, the motive power being a steam or gas engine. Electricity can be measured in three ways: 1. chemically, by the decomposition of water; 2. by the heat produced; 3. by the deflection of a magnetic needle. Electricity can be produced by steam at 3d. per kilowatt per hour. ELECTRODE, the terminal of an electric

source. ELECTROLIER, a suspensory apparatus

for glass electric lamps.

FLECTRO-MAGNET, an electrical apparatus for producing mechanical action at a distance; magnetism induced by a current through insulated wire coiled round a soft iron core either of the coiled and the coiled action of the coiled and the coiled action of th round a soft iron core, either of a bar or horse-shoe form.

of noise-shot form.

ELECTROMOTOR, a mover of the electric fluid; a piece of apparatus for generating a current of electricity.

ELECTROM: ELECTRUM, a mixture of gold with a fifth part of silver. Amber is termed electron in the Greek, whence our words electron at a

termed electron in the Greek, whence our words electric, etc.

ELECTROSCOPE, an instrument for rendering electrical excitation apparent by its effects.

ELEME Figs, the best kind of dried figs,

those picked by hand,

ELENTHIER (German), the elk. ELFENDEIN (German), ivory. ELK, the skins of Russian, Ceylon, and East Iudian elks are sold in the Lon-

don markets ELLICK, a name for the red gurnard,

Triple gurnardas or creevalss.

ELL WIVES, a name in North America for the menhaden fish.

ELM BARK, the bark of the slippery elm of the United States (Ulmus fulra), sold by herbalists as an eurollient, diuretic, and tonie; that of the British elm (U. campestris), is stated to have analagous properties, but much less active. active

ELSTER (German), the magpie

ELUPA, a name in Ceylon for the oil obtained from the seeds of Bassia longifolia: see Illipe Otl. Elutriate, to cleanse by washing and

straining

ELVAN, a kind of granitic porphyry. ELVERS, the young fry of eels.

Embossen, one who stamps or decorates

articles. EMERALDINE, an aniline green obtained

by acting upon a hydrochloric acid sol-ution of aniline by chlorate of potash. EMMA, a name in Brazil for the Ishea americana.
