LAWRENCE COUNTY POLL TAX ROLL IN 1822

LAWRENCE COUNTY ✓INDIANARecords

- There is a general opinion among Lawrence county people that this county was sparsely settled at the time of the removal of the court house from Palestine to Bedford in 1825; but that is a mistake. The Census of 1820 showed Lawrence County to have 4,115 inhabitants within its borders which was a lot of people for those days. It is true that the village of Palestine never had over 500 population, but a year had passed since the war with a long time before Bedford, the new county seat, had over 1,000. Folks lived in log cabins.

LAWRENCE COUNTY POLL TAX PAYERS IN 1822

(This list is copied from an old clipping from either the Bedford Daily Mail or the Bedford Daily Times before 1935, since the owner of the tax list book, Robert N. Palmer, died in 1935.)

"There is a general impression among Lawrence county people that this county was sparsely settled at the time of the removal of the court house from Palestine to Bedford in 1825; but that is a mistake. The Census of 1820 showed Lawrence County to have 4,116 inhabitants within its borders, which was a lot of people for those days. It is true that the village of Palestine never had over 600 population, if it ever had that much; and it was a long time before Bedford, the new county seat, could show 1,000. Folks lived in log cabins on the forest-encircled farms.

"Robert N. Palmer" owns a tax list book, compiled by Moses Fell, the second County Sheriff, in 1822-25, while the court house was still at Palestine. It shows 986 poll tax payers in Lawrence county, and the leaf bearing the names beginning with the letters X, Y, and Z is lost, which would probably raise the number to about 1,000. This list is printed below and should be preserved by those of our readers who are historically minded, as it gives the names of the early settlers of the community:

Missing from book

Copied and contributed by Mrs. Bernice S. Martin,
 601 R Street, Bedford, Indiana 47421.

*"Robert N. Palmer, owner of the original Poll Tax Book, was an eminent attorney for many years, dean of the Lawrence County Bar at the time of his passing, charter member of the library board, and the most unique character of the city for many years.

"Mr. Palmer lived to the ripe old age of 84 years, passing away Feb. 18, 1935."

From Museum Notes in Bedford Daily Mail, June 3, 1933.

NOTES

This list of Lawrence County Poll Tax Payers in 1822 has been copied as it appears in the newspaper clipping, though some errors are obvious. Some may be typographical, but others are evidently due to the original copyist's unfamiliarity with old-time cursive writing. One example is the name "Jepe", which should have been "Jesse". In some of the old county books, a small "s", especially the first of a "double" letter, is made long - perhaps a carry over from the oldtype printed "s" which resembled "f". Thus this letter followed by an "s" of the other style sometimes resembles "p".

I have several times found the name Butler spelled Boteler as here, and other names are spelled as they no doubt were pronounced locally.

Note that names are not in alphabetical order beyond the first letter.

FOREWORD

Lawrence County, Indiana, is fortunate in having most of its records intact from the date of its organization in 1818. However, Marriage Record Book "A" is a copy of an earlier volume (or volumes) which cannot be found. The copying has been very carelessly done in old-time script, and many errors have been detected by the committee. In some cases the committee has been able to decipher otherwise illegible names from personal knowledge of the family of one or the other of the parties to marriages; in other cases, the committee has been able to suggest through parenthetical insertions the correct spelling of names which have obviously been spelled as pronounced locally. Another type of error that frequently occurs is that of giving one set of names for the license, and another for the marriage return. This has seemed to be due to the original copyist carelessly carrying over a name from a previous record. These cases are noted by the committee as they occur in this volume. No doubt the original volume also contained many of the same errors noted in the copy. As far as possible, the original spelling has been preserved in the index in order to conform to the volume as it now exists.

Since it is not possible at this time to copy the entire volume of Book "A", the Genealogical Records Committee felt that this early part through 1830 should be made available to interested persons.

Bernice Salloo Martin

FOREWORD

Lawrence County, Indiana, Marriage Record Book "A" covers the period from August 1818 to April 1836. The records from 1818 through 1830 were copied by the John Wallace Chapter and filed in 1956. This volume for the period 1831 - 1836 completes Book "A".

As explained in the Foreword to the first volume, there are obvious errors in Book "A" which is a copy of an earlier volume, now lost. Names have been copied and indexed as found, but the committee has indicated questionable or alternate spellings where it was felt that errors were made.

In cases where no marriage return was made by minister or Justice of the Peace, the date of the license has been given and marked as such.

Many of the names appearing in this and the earlier volume submitted by the John Wallace Chapter are also to be found in the Bible Records and Willis filed by the Chapter.

FOREWORD

Book One, Family Records, Book "A" covers the period from 1700 to 1800. Book "B" covers the period from 1800 to 1850. It is not possible at this time to copy the entire volume of Book "B", the Genealogical Records Committee felt that this large part should be made available to interested persons.

As in the earlier volumes compiled by the committee, there are many instances of incorrect spelling of names, but it was thought best to copy and so give. The correct spelling has been suggested in some cases by the committee, but the index has been made to conform to the spelling that appears in Book "B".

The Genealogical Records Committee is indebted to Mrs. Mary W. Williams, Treasurer of the John Wallace Chapter, for the typing of this complete manuscript.

1. The first part of the document discusses the importance of maintaining accurate records. It emphasizes that proper record-keeping is essential for the efficient operation of any organization. This section also covers the various methods used to collect and analyze data, highlighting the need for consistency and reliability in the information gathered.

Page 102

2. The second part of the document focuses on the challenges faced by organizations in the modern business environment. It identifies key factors such as technological advancements, market volatility, and changing consumer preferences that can impact organizational performance. The text provides a detailed analysis of these challenges and offers practical strategies to address them, ensuring that organizations remain competitive and resilient.

Page 103

3. The third part of the document explores the role of leadership in driving organizational success. It discusses the qualities and skills that effective leaders possess, such as vision, communication, and decision-making. The text also examines the impact of leadership on employee morale and productivity, providing examples of successful leadership practices that have been implemented in various industries.

Page 104

4. The fourth part of the document addresses the importance of innovation and research and development (R&D) in a company's long-term growth. It highlights how innovation can lead to new products, services, and processes that give a company a competitive edge. The text also discusses the challenges of funding R&D and the need for a culture that encourages creative thinking and experimentation.

Page 105

5. The fifth part of the document discusses the impact of globalization on business operations. It examines how international trade, cultural differences, and global market trends influence a company's strategy and operations. The text provides insights into how organizations can effectively manage global operations and leverage international opportunities.

Page 106

6. The sixth part of the document focuses on the role of technology in transforming business processes. It discusses the adoption of digital tools and platforms, such as cloud computing, artificial intelligence, and data analytics, to improve efficiency and productivity. The text also addresses the challenges of digital transformation, including data security and employee training.

Page 107

7. The seventh part of the document explores the importance of sustainability and corporate social responsibility (CSR) in the 21st century. It discusses how companies can integrate environmental, social, and governance (ESG) factors into their business strategies to create long-term value and enhance their reputation. The text provides examples of successful CSR initiatives and the benefits they bring to both the company and society.

Page 108

8. The eighth part of the document discusses the future of work and the impact of automation on the labor market. It examines how automation and artificial intelligence are changing the nature of jobs and the skills required for the workforce. The text also explores the potential for new job opportunities and the need for continuous learning and skill development to stay relevant in a rapidly changing job market.
