BRAND

GreenH²Atlantic Impact tomorrow

The main objective of the GreenH²Atlantic project is to demonstrate the viability of producing green hydrogen on an unprecedented scale. A strong, innovative identity, linked to the environment and the challenges of tomorrow's world, has been created to support this impactful project.

LOGO

The GreenH²Atlantic logotype is a key element of the project's identity. It is the main visual element that identifies it and conveys a fair image of its values.

LOGO

WITHOUT BASELINE

01

LOGO

MONOCHROME

LOGO

CONSTRUCTION

- Use of the letter G, initial of the project
- Representation of network and connection notions
- The gradients of colors represent the state change, decarbonization and a greener horizon
- The closed pattern evokes the idea of a continuous cycle
- The idea of “network” is supported by the graphic game of the letter N
