THE FIRST NAME IN **QUALITY,** THE LAST WORD IN **CRAFTSMANSHIP.**TM

Since Day 1, quality has been job No. 1 at Ranger® — it is woven into the fabric of everything we do. From our people to our products, a laser-like focus on quality is what drives us. This singular obsession manifests itself every day in the boats that bear the Ranger badge, and the work done by each person at every level. The result continues to be industry-leading designs with more angler-friendly innovations and

greater customer confidence and satisfaction. Knowing that you're with the most proven name on the water means there are more satisfied Ranger owners and more Ranger dealers around to give you peace of mind that you're part of the largest, most well-respected family in fishing and boating. Rangerboats.com: Design your dream in real-time

Your customized dream rig is waiting at Rangerboats.com, where you can spec out the model of your choice with the options you desire. Our build-and-price tool lets you add electronics, a trolling motor, and other custom options to create your perfect rig. After you've spec'd it out to your liking, you can send it to your dealer to make your dream a reality.

Visit Us At: rangerboats.com

ONLINE

Behind the console of a Ranger® boat is an enviable place to be. It's where the dreams of countless anglers have been realized through tournament wins, where untold memories have been made by families and friends, and most importantly, it's a place within your custom creation where you're in total control. And with Ranger's steadfast dedication behind you, you've given yourself the best vessel for attaining success, be it on the podium or in the memory bank. No matter which Ranger aluminum you're looking at, performance and innovation are best in class. So go ahead... Grab The Wheel And Take Hold Of Your Dreams.™

GRAB THE WHEEL AND TAKE HOLD OF YOUR DREAMS.

PERFORMANCE | INNOVATION | QUALITY | RESALE VALUE | SAFETY

ATTENTION TO RANGER DETAIL

Every aspect of a Ranger boat is rigorously scrutinized and made to the highest standards. From our premium, hand-made marine-grade seats to our legendary Ranger Trail trailers, you can be certain that your Ranger is built on a higher level.

Every Ranger aluminum features precision steering and a solid, foam-filled hull for maximum confidence. Real-world research and testing have refined these rigs into solid all-around performers both at speed and on the trolling motor.

From technology to horsepower, Ranger boats are available with a wide variety of outboards.

Ranger Trail®

Ranger Trail® trailers are custom built for your dream rig, helping ensure the best fit and highest customer satisfaction. See pages 52-53 of this brochure or visit us online at Rangerboats.com for more information.

Bold consoles accept larger electronics than ever before, giving you even more advantages on the water. Plus, the high-strength fiberglass construction extends legroom via a cantilevered design.

STRONG

AS AN OAK.™

You might say that quality is the cornerstone of the Ranger Five Star Advantage®. Ranger quality is tangible from trailering to top speed, with hallmarks being stability, strength, and refined comfort and convenience. Our relentless passion for perfection begins in design and is executed by skilled workers using premium components to create products that live up to the standards of excellence Ranger has pioneered. These hardcore fishing machines are built with today's anglers in mind from wide decks and ample storages to handmade consoles that house the latest in electronics. From the all-welded construction to hand-built seating, Ranger aluminum boats are Wood-Free But Strong As An Oak.™

PERFORMANCE | INNOVATION | QUALITY | RESALE VALUE | SAFETY

Ranger STRONG™

We're always listening, learning, refining, and perfecting. Around here, we call it Signature Quality. It's a personal commitment to excellence from each of us to every Ranger owner.

Experience the only genuine Best Built-Best Backed™ boats in America. See your local Ranger dealer and find out how easy it is to run the rig of your dreams.

Included in Ranger's all-around performance standards are fishability and comfort. You won't find fixed cleats or other snags on top of our rails, so there's nothing to trip you or grab when entering and exiting the boat.

Seeing is believing, and we don't believe you've ever seen another boat company do what Ranger® does with our famous cut-away models. For decades,

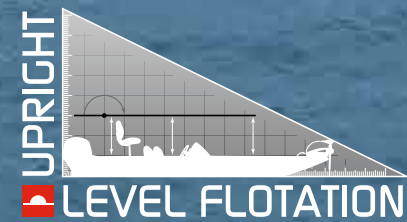

we've taken fully rigged fiberglass Rangers, carved large pieces out of them, launched them and then fished them over hundreds of feet of water to demonstrate the level of safety that's built into every boat. We extend the same "courtesy" to our aluminum boats as well. These cut-away rigs are proof positive of how buoyant, stable and safe every Ranger boat is. We know of no other manufacturer who goes to such great lengths to demonstrate the peace of mind within every hull. When You See What We're Made Of, Nothing Else Makes The Cut.

WHEN YOU SEE WHAT NOTHING

With so much closed-cell foam flotation in a Ranger aluminum boat, the designs are engineered for optimum stealth, stability, and peace of mind.

WE'RE MADE OF, ELSE MAKES THE CUT.

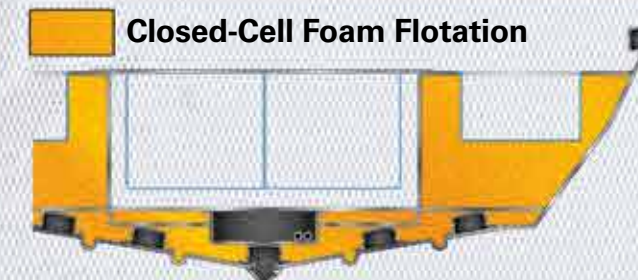

Regardless of size or type, Ranger aluminum designs are covered by our commitment to deliver you even greater satisfaction and lasting peace of mind.

We go to great lengths to make sure that every Ranger hull lives up to our legendary One-Piece Feel Interloc Construction® standards. This means that our hulls are quieter and more solid so you have the utmost confidence whether you're slipping into the shallows or cruising over hundreds of feet of water.

It's obvious the interior of a Ranger boat is designed by anglers, for anglers. The massive storages, extra-wide decks and intuitive layouts maximize convenience and your time on the water.

Virtually every square inch of space between the top cap and the running surface has been injected with our famous closed-cell foam. When dry and cured, it unitizes the boat into a single, solid piece and is the backbone of our signature ride and feel.

Broader beams keep you stable and dry and offer roomier layouts and greater storage space. Ranger designs are meant for serious anglers, so we go to great lengths to make sure that our designs excel no matter the time or place.

PERFORMANCE INNOVATION QUALITY RESALE VALUE SAFETY

RT SERIES

PERFORMANCE AND EVERYTHING TO GIVE.

WITH NOTHING TO PROVE

Standing head and shoulders above the competition, the Ranger® RT Series makes a statement through unmatched quality, even greater advantages and superior all-around performance. Ranger aluminum rigs are built with an emphasis on function and fishability that deliver the ultimate in comfort, space and storage that the competition can't match. From wide, stable and spacious decks to custom-matched seating and foam-filled rigidity, Ranger gives you the upper hand in all categories. For 2020, we're stepping up our game again with an all-new pad-hull RT188P with more innovation and tournament-ready capability built right in while we've upgraded trailers and expanded color schemes across the board. Simply put, every RT boat is built with a passion for perfection and Performance With Nothing To Prove And Everything Give.

Seating is made in-house for better quality control and complete customization. We use only premium marine-grade upholstery and comfortable, long-lasting cushioning.

Custom-matched fiberglass consoles are made via closed-cavity bag molding, which permits us to create more intricate and stronger designs with greater uniformity.

RT Series livewells are timed, aerated and divided for maximum versatility and keeping catches lively. Our foam-filled hulls and insulated lids keep things cool inside.

Lockable rod storages feature individual tubes and butt holders for greater protection and organization. RT188, RT188P and RT198P center rod stows are flanked by tackle storage.

Welcome To The Top Of The Food Chain

Ranger's flagship aluminum bass boat stands as the high-water mark for all-around performance, comfort and capability. With an advanced pad-bottom hull, performance-enhancing integrated engine setback and 150-horsepower rating, you'll stand out and fly by in the RT198P. A fiberglass bow panel backmounts 9" screens front and center and keeps tools close at hand.

In the front deck are two rod boxes, an insulated cooler, and a spacious tackle storage. Screens up to 12" nestle within the custom-matched fiberglass console to give you every advantage on the water. In the world of aluminum tournament rigs, the Ranger RT198P is the apex predator... Welcome To The Top Of The Food Chain.

Raise The Bar, Level The Competition

The new Ranger® RT188P delivers with next-generation enhancements and features. A pad-bottom hull and integrated engine setback boost performance and handling while twin Power-Poles® can be accommodated with a jackplate. All-welded, wood-free construction provides unmatched rigidity and strength. The front deck enjoys port and center rod boxes, a built-in gelcoat-lined, insulated cooler and is

highlighted by an all-new fiberglass bow panel that can flush-mount 9" screens. The wide hull design not only delivers greater fishing room, but keeps more of the boat in the water, reducing the wind's effect on your position. Kick panels and a center step storage round out the cockpit while rear deck storages are larger than ever. The new RT188P lets you Raise The Bar And Level The Competition.

Uncommon Performance At Every Level

The RT188 has delivered tournament-level performance and fishability for scores of satisfied anglers in a package that's long on value, comfort and convenience. The smart layout features a broad and stable front deck for maximum room, with an 8' center rod and tackle locker that's flanked by two massive storages. The fiberglass console houses electronics up to 12 inches, gauges as well as no-feedback steering and

rocker switches. The back deck is highlighted by a divided, recirculating livewell and dual storage boxes that offer a perfect fit for the most popular tackle box sizes. Underneath lies a world of Ranger's signature flotation foam for upright, level flotation and an all-welded, wood-free superstructure. Year after year, the RT188 offers Uncommon Performance At Every Level.

The Crappie Crusher's Dream Come True
Gunnel to gunnel and bow to stern, you'd be hard-pressed to find a more capable bream, crappie and catfish rig than the RT188c. Its design features crappie angling necessities such as three-across front seating and a forward livewell. An oversized 8' 6" rod locker handles plenty of technique-specific rods while abundant storage throughout carries everything needed for spider rigging, dock shooting, trolling

and more. The customization continues with the outboard of your choice as well as your preferred electronics up to 12 inches in the console. Incorporated throughout the RT188c are legendary Ranger build processes, materials and attention to detail that delivers a comfortable and unforgettable experience every time, while custom graphics and new color options set you apart. The RT188c truly is The Crappie Crusher's Dream Come True.

Brilliant Pedigree With Matching Performance

The Ranger® RT178 represents the perfect blend of value, features and performance. It enjoys the same construction as our larger aluminum models, but in a size that will fit in your budget – and your garage. It boasts an 8-foot port rod locker, a recessed trolling motor foot pedal, three tackle-specific storages and an oversized center storage box. The .100" hull is filled to the brim with our signature sound-deadening foam

flotation for a noticeably smooth and solid feel at all speeds and in all environments. The carpet is rugged all-weather marine-grade, as is the premium vinyl upholstery. A fully featured console houses electronics up to 12 inches, gauges and a cantilevered design to maximize comfort and space. With so much loaded into its 17' 8" frame, the RT178 boldly boasts a Brilliant Pedigree With Matching Performance.

Unmatched Value And Versatility

We've crafted the RT178c to deliver capability and performance for those who chase all things finned. Three-across front seating offers room for spider-rigging or shooting docks while an 8' 6" rod box safely holds your longer sticks. An in-deck bow tackle storage box keeps gear close at hand and a divided, timed and aerated livewell is just underfoot. The rear deck features two more tackle storages and another livewell along

with plenty of room to fish. Underneath the bench seating is even more storage while the cantilevered fiberglass console offers a surprising amount of legroom. Rounding out this capable package is a custom-built Ranger Trail® trailer that's made specifically for this hull with new premium wheels and our acclaimed Road Armor Equipped® coating for years of protection and peace of mind. Everywhere you look, the RT178c boasts Unmatched Value And Versatility.

RB SERIES

Built for bayous, bays and backwaters, the Ranger® RB Series is ready to take on freshwater, inshore and nearshore fisheries with saltwater savvy-touches, angler-designed layouts and maximum convenience. All-welded construction backed by our signature foam flotation delivers smooth and solid strength in a dry, nimble hull with brag-worthy performance.

The all-new RB200 delivers capability for inshore and nearshore fisheries with a 20' 4" pad-bottom hull and 150-horsepower rating for power and economy that'll get you there and back quickly and efficiently. Both the RB200 and RB190 come standard with an aluminum-framed Ranger Trail® trailer and our grippy and rugged Rawhide™ interior coating for maximum corrosion resistance. These supremely capable designs are Jacks Of All Trades...Aces Of All Fisheries.

JACK OF ALL TRADES... ACE OF ALL FISHERIES.

Aft jumpseats provide versatile comfort and extra storage. Flip them up for seating during runs and down for expanded casting room on the back deck.

Each RB Series boat is accompanied by a custom-crafted aluminum-framed Ranger Trail trailer that's designed for maximum corrosion resistance and peace of mind.

The center console is a custom-built fiberglass unit that features membrane-style switching, flush-mounted electronics and throttle control, drink and rod holders, hydraulic steering and keyed ignition.

The casting decks and cockpit feature our famous Rawhide coating that delivers excellent traction and superior durability. It's like a spray-in truck bed liner inside your boat.

Lake, Bay And Backwater Master

The Ranger® RB190 is a shallow-drafting workhorse that's ready to take on inshore species with saltwater-ready touches and a performance-minded design. Dual rear jump seats add deck space when down or seating when up and a padded driver's leaning post flips down to expose a livewell that'll accommodate tournament-size reds. The wide, stable and shallow-drafting hull complements the 115-horsepower rating and slices

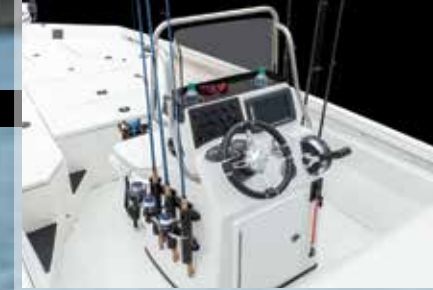

through chop with swift and economical performance. BayStar® hydraulic steering and a binnacle-mount throttle on the fiberglass console keep you confidently in command. Huge gear storages, twin 8-foot rod boxes and integrated cup and tool holders accentuate the angler-friendly layout and make days on the water easy in this Lake, Bay And Backwater Master.

VX SERIES

The Ranger VX boats are the pinnacle of what a workhorse aluminum can be. Unshakable strength comes from an all-welded, wood-free, and foam-filled design with the quality, precision and passion for perfection that only comes from Ranger.

A full loadout of fishing features makes these rigs ready for derby day whether you're trolling or casting and a full roster of options make your VX Series boat tailor-made for success.

The wide-open layout with seating for six and worlds of storage delivers the perfect platform for a day of fun. With the grunt to pull skiers and tubes and creature comforts throughout, these boats are Bristling With Strength and Bursting With Versatility.

BRISTLING WITH STRENGTH AND BURSTING WITH VERSATILITY

VX rigs feature innovative storage solutions that keep gear handy as well as out of the way with lockable closures for peace of mind.

Complementing the strength within each Deep V are stout custom-matched fiberglass consoles that deliver convenient control and switching along with easy viewing of electronics.

Center rod boxes are designed with dedicated rod tubes to keep your sticks organized, while an extra thick gasket keeps moisture at bay.

Rear jump seats conceal storage within, expand seating options when open and fold closed to offer a large rear casting deck.

Built For Big Water, Big Fish And Big Families

The Ranger® VX1788wr is the answer for the family who wants it all: fishing chops with all-day comfort, enviable features and maximum value. Every inch of the VX1788wr is designed for convenience and utility, from the rear jump seats with concealed storage to the in-floor cooler, oversized storages and front deck baitwell. This rig is brimming with angling prowess thanks to standard Lowrance® electronics

and Minn Kota® trolling motor with a box to stow the pedal when not in use. Smooth hydraulic steering delivers commanding control over the foam-filled and all-welded hull while a deck extension offers a large, solid platform up front. Versatility is everywhere you look, proving the VX1788wr is Built For Big Water, Big Fish And Big Families.

Maximized Capability And Comfort

With a world of features that include premium fishing options and a comfortable, convenient layout, the VX1788DC is bound to appeal to those who take in everything the lake has to offer. Starting with an unshakable foundation, this broad-beamed, all-welded Deep V delivers strength whether you're hauling a winning string or pulling a skier. A non-skid cockpit offers sure footing while the marine-grade seats are

made for all-season performance and comfort. Clever storage solutions abound for rods, tackle, skis and sodas while the full featured fiberglass console houses gauges, large-screen electronics and smooth, responsive steering. Two livewells and abundant storage in both decks increase functionality, and when combined with a 175-horsepower rating, the VX1788DC delivers Maximized Capability And Comfort.

VS SERIES

Ranger® aluminum Deep V's give you the advantage from first holeshoot to last light, and at every hookset and high five in between. Each hull is built to deliver peak fishability with convenience throughout. Inside, angler-centric cockpits are covered in non-skid flooring along with all-weather seating that stands up to Mother Nature. Huge storages are tucked away to carry everything from rods to live bait to a well full of keepers, and underneath every hull is a custom-fitted Ranger Trail® trailer made as rugged and dependable as the boat it's carrying. From burly walk-thrus to nimble single-consoles and an all-new tiller model, Ranger aluminum Deep V models deliver Performance In Abundance And Confidence In Spades.

PERFORMANCE IN ABUNDANCE AND CONFIDENCE IN SPADES.

Seating is designed for comfort, longevity and style. The vinyl shell resists hook gouges and the elements while providing all-day support season after season.

Complementing the strength within each Deep V are stout custom-matched fiberglass consoles that deliver convenient control and switching along with easy viewing of electronics.

Livewells and baitwells are conveniently placed and feature robust pumps and ample size for keepers of many species. Insulated hulls and lids help regulate the temperature inside.

The cockpit of a Ranger aluminum Deep V is covered in durable, marine-grade flooring that delivers excellent skid resistance while making cleanup even easier.

Built For Those Born To Fish

The Ranger® VS1660 tiller and console rigs are bound to appeal to those who desire Ranger quality and frequent small waters or place a premium on value. On the tiller model, a fiberglass gauge pod houses a tach, twin USB ports and a 12V outlet, rocker switching, electronics up to 7" and keyed ignition. Foot-activated trim switches are mounted on the cockpit floor just below the pod.

Console models feature binnacle-mounted throttle and shift with precision steering. Both feature three movable seats for the utmost in versatility. Rods up to 8' 6" are stowed in a lockable box and up to two gas tanks are concealed beneath the rear casting platform. No matter which suits your style, the VS1660 is Built For Those Born To Fish.

BOLD, VIBRANT OR CLASSIC: SHOW YOUR TRUE COLORS.

No one offers you the level of customization that Ranger does, and because your rig is a reflection of you, you want it to be sharp — and done right. Ranger gets it right the first time, with quality that lasts for a long time: a high-gloss powdercoat finish delivers years of durable good looks. Whether you choose to stand out or keep it subtle, your color is applied by a skilled craftsman with the utmost care and attention to detail for a flawless finish.

Ranger Trail

The unsung hero beneath every Ranger® boat is its Ranger Trail® trailer. This precision-engineered, custom-matched trailer is sculpted to perfectly cradle the boat riding on it. The tailor-made fit ensures smooth pressure on the hull for the utmost in security and peace of mind. Our unshakable trailer designs start with channel steel that is cut, bent and welded for a perfect fit and alignment. From there we add our proprietary Road Armor Equipped® coating for years of rugged protection then top it off with custom aluminum wheels wrapped in radial premium tires. Treated bunks with load guides and waterproof lights make trailering Solid, Smooth and Easy...It's The Way We Roll.™

CUSTOM-FITTED BUNKS

Every Ranger Trail trailer is uniquely tailored for the hull it's carrying down to the bunks. Each is treated for longevity and then finished in a durable marine-grade carpet. Precision cuts prevent scarring and gouging.

ALIGNED & BALANCED WHEELS

The premium wheels and tires are internally balanced for even wear, smooth tracking and a custom look.

SWING-AWAY TONGUE

With the swing-away tongue, Ranger Trail trailers give you even more storage options as well as an added layer of security when the tongue is secured to the frame.

DEEP V TRAILER

Deep V Ranger Trail trailers are custom-matched to the big water hull it carries to deliver ultimate safety, smooth loading and unloading and on-road performance, mile after mile.

SOLID, SMOOTH AND EASY...

IT'S THE WAY WE ROLL™

RT SERIES TRAILER

Heavy duty winch, frame, strap and hook

Custom swing-away tongue for easier storage and increased security.

Swing jack

Every wiring harness is built utilizing the highest quality materials.

Custom-fitted, treated bunks for optimum support.

Integrated steps provide easy access in & out of the boat while also helping protect the hull side from road debris.
