

Center for Biomedical Research

Machine/Deep Learning, Artificial Intelligence, and Design Optimization

Machine Learning and Artificial Intelligence

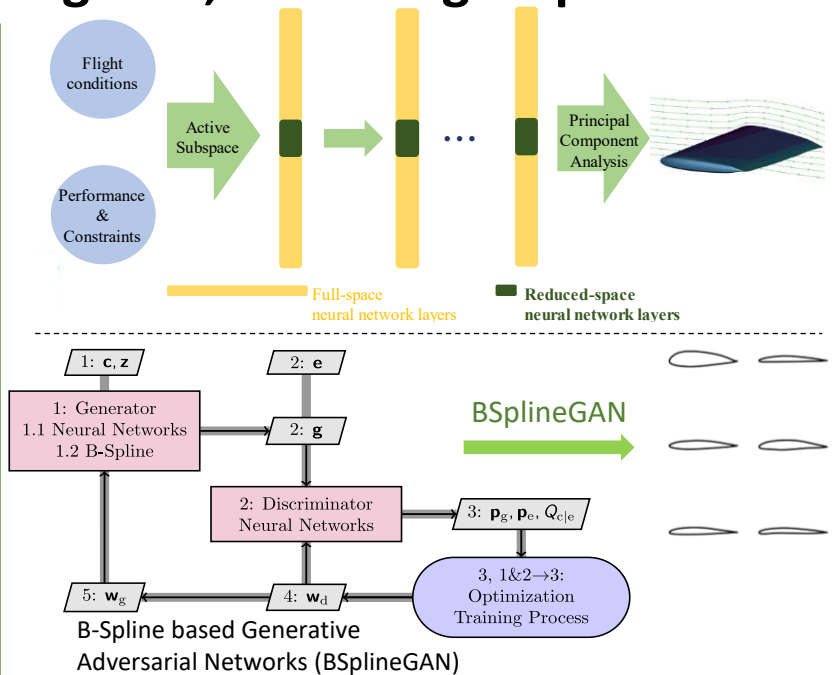

- Algorithm Development
- Other Applications through Collaborations

Multidisciplinary Design Optimization

- Aircraft Shape Optimization
- Other Engineering Optimizations

Electric Drones

- Trajectory Design Optimization

Xiaosong Du, Assistant Professor

Mechanical and Aerospace Engineering

xdnwp@mst.edu, (515)7088830

[PHLAI Lab Homepage](#)

Keywords

- Machine Learning and Artificial Intelligence
- Multidisciplinary Design Optimization

Collaborative Interest

- Biomedical Research with Data Available
