Sphoner then resumed his speech or the Philippine question. In discussing the responsibility for the continuation of hostilities, Spooner quoted a dispatch from Gen. Otis giving an account of an interview he had with Judge Terres, one of the Filipino commissioners, who suggested that a neutral zone be established between the hostile armies. Gen. Otis informed him that the suggestion of the establishment of a neutral zone or an armistice in the circumstances would have to come from Aguinaldo. An officer was sent to Aguinaldo by Judge Terres with a request that an armistice be to Gen. Otis a copy of his declaration of war.

"I received in the noon mail, today," continued Spooner, "an insulting letter favorably, which was lost on a tie vote, from the chief of the so-called anti-Imperialists of Boston, in which he denounced Gen. Otis as a liar."

Washington, May 24.-The House ractically devoted eight hours, today, o the consideration of the Alaskan ivil government bill, but progress was slow. Two amendments of importance were adopted. There was a bit of a sensation sprung again by the judicial committee announcing of the property of the ing that the committee had agreed to drop the case of Herman Warrawalk. A report to that effect was made to the assembly, which was adopted. There remain but a few unimportant committees to be heard from and the promise of ad-journment, Saturday afternoon, was confidently made by Stated Clerk Roberts.

the Leading Stocks.

New York, May 24.—The stock marke transactions. This was explained soon after noon by the announcement of the suspension of Price, McCormick & Co., which was made first on the Cotton Exchange and soon afterwards on the Stock Exchange. According to the rule of the Exchange, the suspension was followed by the closing out of the outstanding contracts of the suspended firm and these transactions footed up to 23,50 before the close. A heavy outstanding short account was discioused in the settlement and the movement of prices resulting was exceedingly confused and irregular. There were decided recoveries from the lowest prices and the closing, while almost stagmant, showed the net losses in the railroads generally reduced to fractions. Sugar continued the most active stock in the market and moved in a feverish and creatic manner all day. The steel stocks were depressed by the rather discouraging view expressed by the franker discouraging view expressed by the from Age of prospects in the trade, that authority advising a sharp curtailment of production. sation, today. No official record of the transatcions was kept; but conservative estimates placed the aggregate of the day's dealings at considerably above the 1,000,000-bale mark. From the start to the finish of this most extraordinary session there was one enormous output of long cotton, supplemented by the most aggressive conduct on the part of the bears who added largely to their short interests. The immediate reason for today's collapse was the tremendous selling for the account of Price, McCormick & Co. The announcement of their inability to respond to calls for margins reached the Exchange about 12,30 P. M., and immediately the market became violently excited. This firm for months had been cornering the price of cotton, with attention directed chiefly to the summer positions and more especially to May and August contracts. Today, May contracts broke 7s points; they sold down to \$45. This was a decline of 125 points from the high water mark. August broke to \$35. a decline of 125 points from the best prices this year. The close was at the lowest.
