Visito de los Agents Especiales.

Los señores Dezendorf y Grygla, agentes especiales de la oficina de terrenos de los Estados Unidos en Santa Fé, estuvieron en la plaza varios dias de ésta semana, examinando el negocio de terrenos en este lugar. Están determinados de cuidar los colonos actuales aquí. No obstante un hombre tiene 90 dias despues de la fecha de la apertura de la cabilda para hacer su entrada, es mejor que la misma sea hecha muy presto. Tambien es muy necesario que el terreno no está ocupado por otra ó otras personas antes que la entrada sea hecha. Los que tienen reclamas en las cabildas, cuales están abierto para entrada, debían hacer entrada inmediatamente. En este ellos servirán sus propios intereses.

La Mujer.

La introducción de las mujeres en la industria está operando cambios y perturbaciones en la vida social y doméstica de la nación. El decrecimiento de los matrimonios, especialmente la disminución de nacimientos, ha coincido con esto. Debemos arrostrar hechos consumados y así mismo debemos hacer el arreglo á las condiciones de los fabricas pero seguramente esto puede hacerse con menos perturbaciones y menos dañosos efectos para la vida de la familia, de los que se expermentan actualmente. Este asunto forma en realidad uno de los más grandes fenómenos sociológicos de primera importancia de nuestro tiempo; es un problema social de una trascendencia mayor que cualquier otro de carácter meramente político ó económico; y para resolverlo debemos contar con abundantes datos, acopiados de un modo sano y científico en el curso de una investigación perfecta.

(Del Mensaje del Presidente Roosevelt al Congreso el 5 de Diciembre de 1905.)

Don Emilio Otero, de Tajuque, estuvo en la plaza anteayer con negocios ante el escribano de la corte de pruebas.

Procedimientos Oficiales de los Comisionados.

Hallaron Caballos.

Los señores Julius Meyer y Rafael Gomes miembros de la policia montada del Territorio estuvieron en la plaza varios dias de esta semana. Tenian en su cargo dos caballos los cuales han sido robados como un año pasado en el valle de Pecos y ellos los hallaron en el valle del Rio Grande y están restituyendolos á los dueños.

En La Nieve.

Los automoviles cuales llevan el correo entre Roswell y Torrance, una distancia como de cien millas, se detuvieron en la nieve la semana pasada. La nieve tiene en ese lugar tres pies de alto ó mas. El manejador Stockard no se ha desanimado, pero dice que los trenes del Rock Island se pegaron tambien y el no espera mas de sus maquinas que de las locomotivas.

Broken and Mended.

On swept the little red automobile that was built for two, says the Chicago News.

"You—youseem so quiet," whispered the beautiful girl, anxiously. "Is there anything about this machine that is broken?"

"Yes," hissed the tall man at her side, bitterly. "My heart."

Feeling remorseful at having jilted him so cruelly the beautiful girl leaned over and added:

"Cheer up, George! If your heart is really broken we can stop at a repair shop."

"Nonsense! What kind of a repair shop could mend a broken heart?"

"Why, the parsonage, George!"

Twenty minutes later the "repair shop" was reached.—Ex.

Which is Your Kind?

There are two kinds of people on earth today,

Just two kinds of people, no more I say,

Not the sinner and saint, for 'tis well understood,

The good are half bad, and the bad are half good.

Not the rich and the poor, for, to count a man's wealth,

You must first know the state of his conscience and health,

Not the humble and proud, for in life's little span,

Who puts on vain airs is not counted a man.

Not the happy and sad, for the swift flying years.

Bring each man his laughter and each man his tears,

No; the two kinds of people on earth, I mean,

Are the people who lift and the people who lean,

Wherever you go, you will find the world's masses.

Are always divided in just these two classes,

And oddly enough, you will find, too I ween,

There is only one lifter to twenty who lean.

In which class are you? Are you easing the load

Of overtaxed lifters who toil down the road?

Or are you a leaner, who lets others bear

Your portion of labor and worry and care?

—Ella Wheeler Wilcox.

Shrieking and Shooting

It is a comfort to realize when we hear people talking about "the good old times that used to be," that in some respects, at least, we show more common sense today. One instance is in our attitude toward women. There was a time when a woman was expected to shriek and faint in almost any emergency. It was even considered an attractive exhibition of dependence. Today we pardon lack of nerve and self-possession in a woman almost as little as in a man. The girl who rides and shoots has taken the place of the girl who used to shriek and faint. No small factor in bringing this welcome change about has been the campaign carried on by the J. Stevens Arms and Tool Company, Chicopee Falls, Mass., makers of the famous Stevens firearms, who have introduced our girls to the healthy, upbuilding sport of outdoor shooting. The company has issued a book illustrating many varieties of light-weight rifles, shotguns and pistols which girls all over the country are using today. It contains much useful and interesting information on such points as the selection, care and testing of firearm, besides notes on ammunition, targets, etc. We understand the book will be sent free to anyone sending four cents in stamps, to cover postage.

Mike Flanigan had been in this "land of the free and home of the brave" only a few months when he wrote to his mother:

"Mither, mither, come to Meriky. It's the faine country it is. And it's meself that don't have to be afther doin' any thing at all—I just carry me hod of brick to the top of a four-story house, and a mon up there does all the wurrick."
