Flashes

Held to Grand Jury

FT. DODGE, May 15 (AP)—Benjamin Thatcher of Des Moines was held to a grand jury here today after preliminary hearing in justice court on charges of driving a car while intoxicated. His arrest followed an accident here last night when D. Myron Tripp of Newton, state highway commission attorney, suffered fatal injuries. Tripp fell on the pavement while stepping from a car driven by H. O. Hickok, highway engineer.

League Distressed

GENEVA, May 15 (AP)—League of Nations circles, distressed by Guatemala's resignation and fear of a "small nations stampede" away from the membership, received a further shock tonight with disclosure the International Red Cross had refused to send gas masks to Ethiopia during the Italian invasion.

An official communication to the league said the Red Cross could not respond to an appeal from its Ethiopian branch because the request failed to specify the purpose for which the masks would be used.

Execute Bandits

ADDIS ABABA, May 15 (AP)—Five Ethiopian bandit leaders, rounded up 30 miles northwest of here, were executed by a firing squad today after being tried by a court martial. Natives who witnessed the killings were allowed to return to their tribes, so they would warn others against concentrating to make trouble for the Italian authorities.

Russian Gunfire

MOSCOW, May 16 (Saturday) (AP)—An official Soviet news agency dispatch from Khabarovsk, Siberia, today said a Soviet border patrol had been subjected to rifle fire from the Manchoukuo side of the frontier, breaking more than a month of quiet along the boundary. The official Tass agency stated the Russian soldiers, anxious to avoid a clash, did not return the fire. The incident, the account asserted, occurred May 13.

Flying Start

PORTLAND, Ore., May 15 (AP)—Sen. Charles McNary, republican leader in the upper house of congress, got away to a flying start tonight in his campaign for renomination when he took more than a four to one lead over his nearest opponent, the Townsend advocates, Sam Brown, President Roosevelt and Sen. William E. Borah of Idaho were unopposed as candidates for the democratic and republican presidential nominations.

Recommend Repeal

LINCOLN, Neb., May 15 (AP)—Repeal of congressional acts "which are to resimment, coerce or direct the activities of the American farmer" was recommended by a four state agricultural imports conference here today.

In resolutions adopted by the 123 registered delegates to the conference, sponsored by the Nebraska unit, Farmers Independence Council of America, farmers and farm organizations were urged to "unite their energies and influences to induce the congress" to enact such proper legislation.

Six Chosen To Study Social Security Laws

DES MOINES, May 15 (AP)—Gov. Clyde L. Herring's statewide social security meeting today selected a six member nominating committee after county supervisors failed in an attempt to dominate the meeting. The county supervisors had demanded a "balance of power" on the nominating committee which is to select a committee of 35 to study possible Iowa legislation for compliance with federal social security provisions.

Prof. Updegraff

After a floor battle, Prof. C. M. Updegraff of the University of Iowa law college ruled a motion which would give the supervisors only one member of a six-member committee was carried. The governor had named Updegraff chairman of the meeting.

As finally voted, the committee includes: Dr. Charles Friley, president of Iowa State college; Dr. J. S. Nollen, Grinnell college president; Mrs. J. C. Pryor, Burlington; Governor Herring; J. F. Fitzgerald, Duncombe, county supervisors association president; and Updegraff.

Prof. Haskell

Before the question came to a vote, Prof. George Haskell of the University of Iowa urged that a fact finding study of social security legislation be launched.

SENATORS EVOLVE TAX PLAN

3rd Convict Is Captured By Officers

McAlester Supervisor Of Industries, Hands In Resignation

McALESTER, Okla., May 15 (AP)—Warden Roy W. Kenny announced late tonight that Claud Pugh, escaped Oklahoma penitentiary convict, had been captured three miles west of Savanna, near here. Pugh, surrounded in a small building, came out begging the officers not to shoot him, the warden said.

He was the third captured of the eight who escaped from the prison brickyard Wednesday night, killing a prison foreman and wounding a guard.

SUBMITS RESIGNATION

McALESTER, Okla., May 15 (AP)—Major Henry A. Bootz, superintendent of industries at McAlester penitentiary, where 24 prisoners rioted Wednesday, submitted his resignation today to the board of affairs through Warden Roy Kenny.

"For some time," his resignation said, "I have been considering severing my connections with the Oklahoma penitentiary."

TELLS STORY

McALESTER, Okla., May 15 (AP)—"This is a break! No foolishness about it! If you don't believe it start something and we'll kill you!" A wounded prison guard, Tuck Cope, released today by desperate convicts who abducted him as they fled from the Oklahoma penitentiary, told tonight how these words, shouted at four armed guards of rioting prisoners, started Wednesday's bloody break of 24 inmates from the prison.

Within half an hour a prison foreman was killed, two guards and 11 convicts wounded and eight prisoners were speeding toward the thick brush of nearby mountains, carrying two guards with them as hostages.

(Under "shoot to kill" orders, possemen beat through the mountain brush northeast of Antlers tonight, where they were reported only 10 minutes behind two of the six fugitives.)

(Two of the eight felons who roamed the countryside after Wednesday's break were retaken this morning in woods near Antlers. A man suspected of being one of the convicts was arrested today by Arkansas officers near Waldron and taken there for identification.)

(All restraint went out of the search after the release of four hostages—two prison guards, a farmer-cowboy and a railroad section worker.)

(Charles W. Daley, state crime bureau chief, told officers to "take no chances—shoot to kill.")

(Archie Herring and Bill Anderson, robbery convicts, surrendered meekly today a few minutes after their hostages, Prison Guards Tuck Cope and Victor Conn and the farmer, William Doaks, had been released.)

(Claude Beavers and Claude Fugate, reputed leaders of the break, were believed near capture tonight.)

(Roy Langwell, 35, railroad section laborer, escaped from them this morning after they had abducted him at Kosoma and forced him to drive them northward in his truck. He said they were afoot and penitents.)

(Two of the others, Julius Bohannan and Jess Cunningham, were the object of a search that spread from Antlers through the rugged mountain country to the Arkansas line.)

(They were thought to be afoot. Cunningham is wounded. The other fugitives were A. C. McArthur and Claude Pugh.)

Issues Challenge To Fascist Heimwehr

VIENNA, May 15 (AP)—Chancellor Kurt Schuschnigg issued a definite challenge to the fascist Heimwehr, led by the ousted Vice-Chancellor Ernst von Starheimberg, by announcing tonight that Austria's bickering private armies must dissolve.

2 Students Lose Ford Coupe When Gas Catches Fire

"Firemen, save our Ford!" cried Myron D. Wood, A1 of Traer, and Herbert J. Boettcher, A2 of Traer, as their model T coupe burned yesterday afternoon in front of the Quadrangle.

The boys were working on the car when, unnoticed by them, the ignition wires fell against the gasoline line, causing a short in the wires. The shorted wires heated the gas line enough to cause fire. In an instant the entire front and inside of the car were in flames.

A bucket brigade was formed by some of the Quad boys before the fire department arrived, but not in time to save the body of the car from complete ruin.

Zeta Phi Eta To Initiate 9 Speech Majors

National Fraternity To Install SUI Chapter At Ceremony Today

Installation of Sigma chapter of Zeta Phi Eta, national professional speech arts fraternity, will be today at Iowa Union, with the initiation of 9 charter members and one associate member.

Prof. Edward Mable, head of the speech and dramatic arts, will deliver an address on "Professional Opportunities and Responsibilities of Women in Speech and Dramatic Art," at an informal dinner at 6 o'clock this evening in the private dining room of Iowa Union.

Initiation of members will take place at 2 o'clock this afternoon in the conference rooms of Iowa Union, following an informal meeting this morning at 10 o'clock in the river room.

Marian Brown Read of Chicago, Ill. grand vice-president, will conduct the initiation services. Membership is based on professional interest in speech arts, leadership, and scholastic achievement.

Associate Member Helene Blattner of the dramatic arts department will be initiated as an associate member.

Charter members will be Cyrella Anderson, A4 of Denison; Dorothy Brown, A3 of St. Joseph, Mo.; Lavanda Carr, A2 of Clermont; Jeanne Crowley, A3 of Ft. Madison; Marion Ellis, A4 of Maquoketa; Martha Jane Pfifer, A2 of Quincy, Ill.; Mary Ruth Grubbs, A4 of Moberly, Mo.; Olivette Holmes, A4 of Red Oak; Martha Housh, A4 of Des Moines; Vivian Lloyd, A2 of Pratt, Kan.; Dorothy Magnus, G of Winona, Minn.; Roberta Menneke, A4 of Maquoketa.

Louise Rietz, G of Morgantown, W. Va.; Elma Stewart, A4 of Mediapolis; Mrs. Leona Travis, A3 of Iowa City; Marie Vincent, A2 of Allerton; Janet Weldon, A4 of Iowa Falls; Louise Wolfinger, A3 of Des Moines; and Theatrice Hazard, A4 of Clarksville.

Mrs. Pearl Bennett Broxam, program director of WSUI, is grand president of Zeta Phi Eta. Other members here are Mildred Carpenter, A2 of Marion; Elizabeth Melberg, A4 of Cedar Rapids; Jean Marie Corey, A3 of Des Moines; and Mrs. Mable.

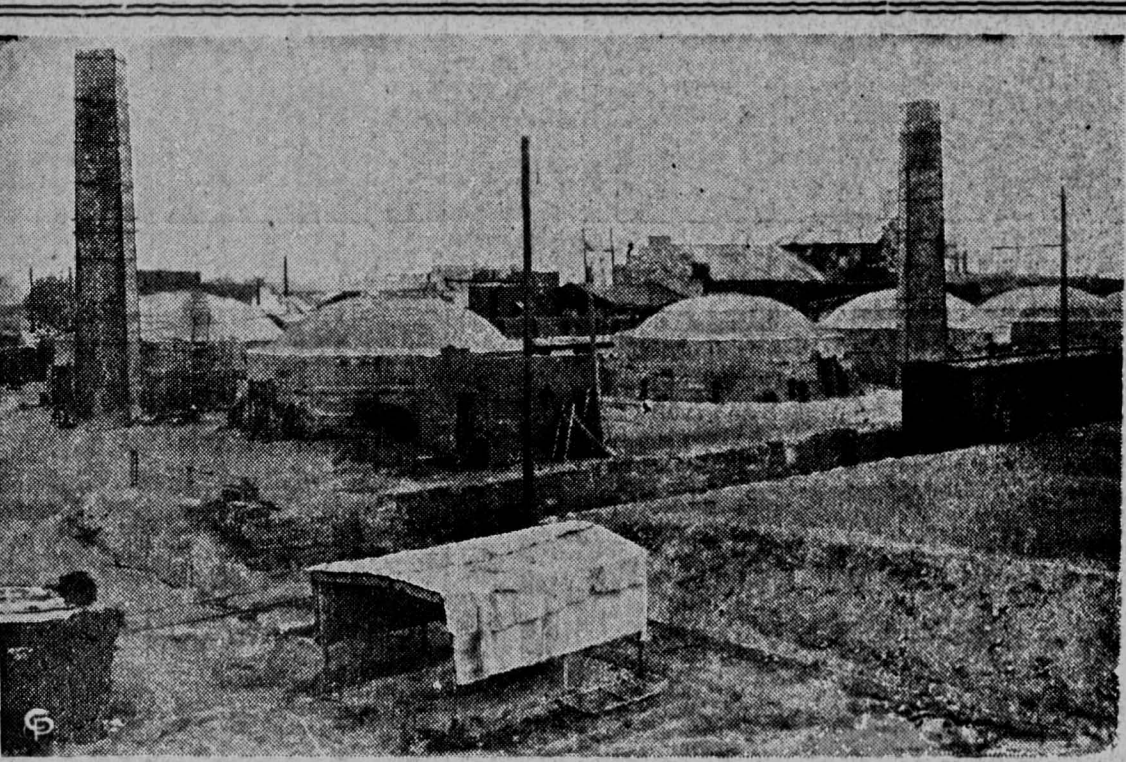

Musicians Get Distinction In National Meet

With all but one result in, Iowa City high school musicians yesterday neared completion of their competition in the national music contest at Cleveland with a record of three "highly superior," two "superiors" and one "fair." Concert band ratings will be announced this afternoon.

Winning "highly superior" were Gene Hubbard, alto clarinet; Dorothy Soucek, flute, and the chamber group of brass instruments. "Superior" winners were Rollo Norman, cello, and the chamber group of woodwind instruments.

Gene Hubbard was recommended for a scholarship because of the excellence of his performance.

SCENE OF PENITENTIARY BREAK

Shown is the penitentiary in McAlester, Okla., where 24 convicts broke loose Wednesday after a battle with guards, two of whom they took as hostages and later released.

Japan Reinforces Chinese Garrisons

Negro Farmer Kills Sheriff In Gun Battle

GORDONSVILLE, Va., May 15 (AP)—State police machine gunners opened fire tonight on a Negro tenant farmer's cabin near here after he had killed a sheriff and wounded four men.

The Negro, William Wales, 65, and his sister, Gora Wales, were holding the cabin against a force of police and possemen. They fired from both sides of the shack at a force of from 200 to 300 policemen and citizens.

Seeks 'Legal Death' For French Debts

PARIS, May 15 (AP)—Leon Blum, expected to become France's first socialist premier, indicated in a speech today that he was anxious to seek "legal death" for France's debts to America.

"The leader of the people's front, addressing the American club, deplored the existence of what he termed a "misunderstanding" between the United States and France, and declared: "In France we believe the question of debts is eliminated."

His reference to a "misunderstanding" was interpreted in political circles as indicating his anxiety to secure an agreement between the United States, Great Britain and France that the debts are "dead" in order to rebuild the friendships of these wartime allied powers.

Transfer of AAA Dept. Creates Furor

WASHINGTON, May 15 (AP)—The possibility of a transfer of the AAA to the interior department today was reported to be causing agriculture officials some concern.

(Likewise, AAA officials said, an increasing number of farmers from many states are sending telegrams and calling by telephone to learn whether or not Secretary Ickes would replace Secretary Wallace as boss of the soil conservation program.)

(This furor, still fledgling in size, was caused by senate passage and transmission to the house of the Lewis bill authorizing a change in the name of the interior department to the department of conservation.)

Scout Board Meets To Pick Executive

The executive board of the Iowa City Boy Scouts met at Iowa Union last night to consider candidates for the new scout executive here. The new Boy Scout head, who may be named today, will take the place of Glen G. Fordyce, who resigned here last month. Owen B. Thiel of Toledo, Ohio, is among those being considered by the board.

5,000 Extra Copies of Today's Daily Iowan

are being sent to persons who are interested in attending the summer sessions of the University of Iowa. Registration for the first session of summer school starts Friday, June 5.

Roosevelt Promises Smaller Scale PWA

WASHINGTON, May 15 (AP)—A smaller scale continuance of the public works and resettlement administrations, largely under the financial auspices of Harry L. Hopkins' work progress administration, was promised today by President Roosevelt.

Coincidentally, Secretary Ickes, who had announced yesterday he would testify before the senate appropriations subcommittee considering the \$2,364,299,712 relief and deficiency bill this morning, postponed his appearance until afternoon.

Kill Sheriff

Sheriff William B. Young of Orange county was the man killed. He fell on the porch of the Negro's house when an attempt had been made to arrest him at mid-afternoon.

One of the wounded is C. L. Young, a brother of the sheriff, who was hit when he attempted to drag his brother's body out of the line of fire.

Under the porch and presumably safe from the Negro's bullets are State Police Officer S. L. McWilliams, wounded in the arm and leg, and Sergeant Wayne Carr of the state police, who was attempting to give him first aid.

Also wounded were Dr. F. G. Scott Jr. and Policemen Oscar Munday. Munday was hit by a bullet from a 30 caliber rifle as he attempted to drive a steel sheathed highway truck against the cabin.

Sheriff Young and McWilliams had gone to the Negro's cabin to arrest him after Mrs. George Zinn, wealthy landowner, reported Wales had threatened her with a gun in Maplewood cemetery, near his house, this afternoon.

Used Floodlights The cabin was bathed in floodlights of the Orange fire department as the gunners opened up with a machine gun.

For hours possemen, armed mostly with pistols and shotguns, had showered an irregular fire on the house but apparently without effect.

Capt. H. B. Nicholas, commander of the state police, was in charge of men of his organization.

Funeral Rites

RED OAK, (AP)—Funeral services will be held here Monday at 2:30 p.m. for Charles T. Schenck, 67-year-old bank president who died of heart disease yesterday.

March 7,600 Troops Into Three Points

TIENSIN, China, May 15 (AP)—Japan marched 7,600 fresh troops into north China garrisons and Chinese sources expressed fear tonight it was a step in a campaign for the ultimate conquest of China.

The soldiers, totalling four transport loads of reinforcements, were moved into the Tientsin and Peking garrisons.

Chinese sources asserted that Japan was encouraged to make the move by Italy's annexation of Ethiopia in defiance of the League of Nations and leading European powers.

Japan now has 15,000 troops in China south of the Great Wall, an estimated 80,000 north of the Great Wall, and several thousand at other points of Inner Mongolia.

(A spokesman in Tokyo said the reinforcements would not injure China's sovereignty or the vested interests of other powers.)

Informed Chinese sources asserted the troop movements were designed either for the ultimate occupation of north China, and Inner Mongolia or for a possible future war with Soviet Russia.

Japan Says Move Will Make Peace

TOKYO, May 16 (Saturday) (AP)—Japan has begun her long expected military consolidation of gains achieved in the Peking and Tientsin areas by reinforcing garrisons at three points.

This was the belief of authorities today after the arrival of new, stronger troops for north China posts at Chinwangtao, Tientsin and Peking.

The larger forces, a war office spokesman asserted, "will injure neither China's sovereignty nor the vested right of other powers in that area."

"On the contrary, it will tend to promote peace in north China and favorably adjust the relations of Japan, Manchoukuo and China as well as our relations with other nations," the official added.

Other officials emphasized the reinforcements conform to Japanese rights as granted in the protocols of 1901 settling the Boxer uprising in China.

This agreement, they asserted, gave the United States, Great Britain, France, Italy and Japan the privilege of stationing troops at Peking (then capital of the Chinese empire).

Montanez Wins

NEW YORK (AP)—Pedro Montanez, Puerto Rican lightweight flash, hurled a challenge straight at the royal head of Tony Canzoneri, king of the 135 pounders, last night by decisively defeating Leonard del Genio, pride of Harlem, in a one-sided 10 rounder in Madison Square Garden.

More Dangerous to Crops

AMES, (AP)—Dr. C. J. Drake, state entomologist, said yesterday he believed grasshoppers threaten greater damage to Iowa crops this year than chinch bugs.

Approve Sale Of Legal Beer Memorial Day

Council Temporarily Settles Problems Of City Trucking

Although protested by two local groups, legal beer in Iowa City on Memorial day was approved last night as the six members present at the council meeting repealed an amendment to the beer ordinance which prohibited sale of beer on legal holidays when they fall on Saturdays.

The only hurdle yet to be passed is a resolution permitting the sale. The resolution will probably be passed at the next meeting.

Letters from the Iowa City Business and Professional Women's club and the superintendent of the local Methodist Sunday school protesting sale of beer on Memorial day were received and placed on file. Approval of Memorial day beer was passed unanimously by the six councilmen present, however.

The discontinuance of center parking on Washington street was approved in a motion presented to the council by Attorney Stewart E. Wilson. Signed by 20 merchants on Washington street from Clinton to Linn streets, the motion provided for side parking at a 45 degree angle. The motion will be incorporated into an amendment to the ordinance governing center parking later.

The motion referred to center parking as "creating a dangerous, narrow lane." Iowa City is the only city of its size in the state allowing center parking," the motion stated.

Truck Problem At least temporary settlement of the truck problem here was reached by a motion placing the authority in Chief of Police C. O. Paine's hands to enforce an ordinance passed here in 1932 prohibiting trucks with weights of more than three tons to pass through the city on any but arterial highways.

The only exception is in trucks collecting and delivering merchandise within the city.

The point was brought to an issue here by a protesting group of Iowa Citizens on Oakland avenue last Friday night. The group said trucks were passing through Iowa City at all hours of the night and stopping at an oil station on Oakland avenue.

Draw Warrant The mayor and city engineer were authorized to draw a warrant for \$323.50 on the cemetery fund for the purchase of a tent and grass sets for use in funeral services at the cemetery.

Two class C beer permits were issued. The first went to Jacob H. Kobes, 302 Main street, for a place of business at 110 S. Gilbert street. Clarence A. Parizek, 715 E. Fairchild street, received a class C permit for his grocery store.

Again passed by was the question of voting machines in Iowa City. Several financial reports on their costs were studied by the councilmen.

A petition questioning the right of Lloyd's Insurance company of London to write insurance for local taxicab companies was received and placed on file.

The council adjourned at about 10:30 last night to meet again next Friday. Mayor Thomas E. Martin, in Washington, D. C., for the case of the Iowa City Light and Power company questioning the right of the PWA to grant funds for the construction of a municipal light plant here, will return here tonight, it was said.

Mrs. Dysinger Is Relected President I.C. Woman's Club

Mrs. W. S. Dysinger was reelected president of the Iowa City Woman's club yesterday afternoon at a meeting of the organization at 3 o'clock at the Episcopal Parish house.

Other officers elected were: Mrs. F. B. Olsen, vice-president; Mrs. Irving King, recording secretary; Mrs. L. V. Dierdorff, corresponding secretary; Mrs. C. W. Wassam, treasurer; and Mrs. Jennie Snyder, historian.

Would Raise Levies Upon Corporations

WASHINGTON, May 15 (AP)—

The senate finance committee in a series of significant decisions today evolved a compromise tax plan that would increase corporation levies and boost by one-fourth the individual income tax rate.

Committeemen said they were approaching an agreement on a revision of the house tax program, although details might be altered when the treasury submits a revenue estimate. Some members went so far as to predict that the plan would be accepted definitely tomorrow.

It would: Place a flat 18 per cent tax on corporation income, a flat 7 per cent on undistributed corporation earnings, make corporate dividends subject to the normal individual income tax and raise the latter from four to five per cent.

Agree Behind Closed Doors The committee agreed finally at a closed door session today to seek to strengthen the section of existing law for penalty taxes on "corporations improperly accumulating surplus" and to ignore President Roosevelt's request for new processing taxes on agricultural commodities, except sugar.

This first decisive action of the committee looking toward drastic alteration of the revenue bill as handed over by the house strengthened hopes of democratic leaders in both house and senate for closing the 74th congress in three weeks.

Objection The majority leader, Senator Robinson of Arkansas, passed the word to the senate today that except for five major proposals he would object to taking up any legislation that might keep congress at work after June 6.

His exceptions were taxes, ratification of the London naval treaty and the deficiency-relief, omnibus flood control and commodity exchange bills.

Sees June 5 Adjournment At the other end of the capitol, Speaker Byrns predicted congress would "reach for its hat when the tax bill and the deficiency appropriation bill are out of the way." He voiced a hope that the senate would be ready to quit by June 5.

The new corporate tax scheme was described by Harrison as a "composite" of several suggestions from committeemen.

"In my opinion," he said, "this will raise as much or more than the house bill."

He said there was "a chance of the committee getting together" on it.

The treasury, the Mississippian added, also has been asked to figure out how much would be produced under an arrangement by which a tax of perhaps 35 per cent would be levied on corporations which keep more than 50 per cent of their earnings from distribution in dividends to stockholders.

Martin Talks To PWA Court

WASHINGTON, May 15 (AP)—The government opened a court defense of the public works administration's \$200,000,000 municipal power program today with testimony that PWA had not used offers of federal financing to persuade municipalities to build their own electric power plants.

Earlier attorneys for four private power companies closed their plea for an injunction to block allocation of \$2,444,000 for the construction of 10 municipal electrical projects in Alabama, Texas, Oklahoma and Iowa.

The suit was brought by the Alabama Power company, the Texas Utilities company, the Oklahoma Utilities company, and the Iowa Light and Power company, which claim that PWA is unconstitutional and that new deal officials have tried to seize illegal control over intra-state power production.

Mayor Thomas E. Martin of Iowa City told the court today that he was elected in April, 1934, on a municipal ownership platform. He indicated that Iowa City would go ahead with its public power system, even if the courts forbid it to accept a \$413,000 allocation from PWA. "Municipal ownership was the only important issue in the election," he testified. "All candidates favoring it were elected, and all opposing were defeated."

Greek Letter Organizations To End Social Season Tonight

Informal, Formal Hops To Conclude Social Festivities of Year

Completing the social season of the Greek letter organizations this year, Delta Delta Delta sorority will entertain at a tea dance and buffet supper, guests of Gamma Phi Beta sorority, Phi Kappa Psi and Alpha Sigma Phi fraternities will dine and dance formally this evening, and Eastlawn women will entertain at a sports party.

Delta Delta Delta sorority will entertain at a tea dance and buffet supper this afternoon from 5 o'clock to 7:30 at the chapter house, 522 N. Clinton street.

The sorority colors, silver, gold and blue, will be used in a pansy decoration on the table. Vette Kell and his orchestra will play for dancing.

Chaperoning will be Mrs. Marguerite Pryor and Mrs. Harriett Evans.

Phi Psi

The Iowa City Country club has been chosen by Phi Kappa Psi fraternities as the setting for its formal spring dinner dance this evening from 7:30 to 12 o'clock.

Spring flowers and tapers will decorate the tables and lattice work and white flowers will line the dance floor.

Ralph Slade and his orchestra from Mt. Vernon will furnish the music for dancing.

Mrs. Maye Stump, Mrs. Madge Beck, Mr. and Mrs. George Nagel and Mr. and Mrs. George Horner will chaperone.

Gamma Phi Beta

The river room of Iowa Union will be the setting of Gamma Phi Beta sorority's formal spring dinner dance this evening from 7 to 12 o'clock.

The tables will be decorated with spring flowers and a lighted crescent will hang above the center one. Programs will be of white leather with the Gamma Phi Beta crest.

Dancing will be to the tunes of Earl Harrington's Avalon orchestra.

Chaperoning will be Prof. and Mrs. George Haskell, Prof. Fred J. Lazell, Mrs. Lynne Crabbe and Mr. and Mrs. Theodore Rehder.

Alpha Sigma Phi

Alpha Sigma Phi's spring formal dinner dance will take place this evening from 7:45 to 12 in the cafeteria of Iowa Union, Vette Kell and his orchestra furnishing the music. Cardinal and grey, fraternity colors, will be expressed in place-cards and programs, which will have the shape of pennants.

Chaperons will be Dr. and Mrs. Arthur L. Blome, Dr. and Mrs. A. S. Fount and Mr. and Mrs. H. I. Jennings.

Eastlawn Dance

Eastlawn women and their guests will dance to the music of Johnny Ruby and his orchestra tonight at their sports party in the lounge of the fine arts building.

Chaperons are Prof. and Mrs. Wilbur L. Schramm, William J. Petersen and Bessie Rasmus.

Alpha Xi Delta

Alpha Xi Delta Mothers' club will meet this afternoon at 2:30 at the home of Mrs. G. F. Gardner, 965 S. Summit street.

Coop Dorm News

Manse

The following men are spending the week end at their homes: Keith Corson, A3 of Iowa Falls; William Kyle, C3 of Washington, Ia.; Charles Anderson, C3 of Ottumwa; and Claude Hagge, E2 of Clinton.

Russell

Dean Adelaide Burge was a dinner guest Wednesday evening, Lila Monsanto, A3 of Baiboa, Canal Zone; and Mildred Goesser, A4 of Burlington, are visiting Ames for the Veishea week end.

Wilson

Lester Bruhn, A1, is visiting his home in Davenport this week end. John Hitzhusen, A3 of Cartersville, is spending the week end in Cedar Rapids.

PERSONALS

Dr. L. R. Parsons of Belmont, a 1913 graduate of the college of dentistry, visited in Iowa City yesterday.

Mrs. Paul Wilkinson and son, Bobby, 620 S. Dodge street, are visiting her parents, Mr. and Mrs. James Belger of Parnall.

Mrs. C. E. Bagwell, 1730 Muscatine avenue, is visiting relatives and friends at Rockford, Ill.

Mrs. J. B. Pugh, 612 S. Dodge street, is visiting her sister, Anna McGrath of Atlantic.

Dr. David M. Gallaher of Appleton, Wis., who was graduated from the college of medicine in 1923, is spending the week end in Iowa City with his mother, Mrs. D. J. Gallaher, and sister, Ruth Gallaher, 720 N. Van Buren street.

Visiting at the home of Ada Hutchinson, 11 E. Davenport street, is Albert Tanswell, who graduated from Iowa City high school and the University of Iowa. Mr. Tanswell is now connected with the Globe theater players.

26 Women Tee Off On Ladies' Day At Local Country Club

Twenty-six women of the Iowa City Country club teed off yesterday morning at 9:30 for the weekly ladies' day. Play was in foursomes for points, and a putting contest was also held.

Mrs. R. E. Adams and Mrs. M. A. Russell won the match, having the most points, and Mrs. A. C. Droll was winner of the putting contest. Award for low score on the round went to Mrs. Henry Walker and Mrs. Jule Kasper won low net score.

Twenty-five were present at a luncheon on the porch of the clubhouse following play. Tables were decorated with flowers. Hostesses were Mrs. George Koser and Mrs. Thomas Brown.

Mrs. Fred Frommel of Charleston, Ill., was a guest of Mrs. Frank Lee at the luncheon.

Mrs. Harry Barnes Chosen President Of Longfellow P.T.A.

Mrs. Harry Barnes was elected president of the Longfellow Parent-Teacher association yesterday afternoon at Longfellow school.

Other officers are: Mrs. W. R. Hornabin, vice-president; Mrs. A. W. Bennett, secretary; and Martha Rohr, treasurer.

Plans were discussed for a school picnic to take place May 22 at the school. Mrs. C. Burkhardt will be in charge.

Install New Officers In Shimek P.T.A.

New officers of the Shimek Parent-Teacher association were installed Thursday evening.

Mrs. George Marech, president of the Iowa City Parent-Teacher council, was in charge of the ceremonies installing Mrs. G. L. Woodburn as president; Mrs. James Stika, vice-president; and Elgin Krueh, secretary-treasurer.

Mrs. Marech spoke of the educational value to the home and school, and community of the Parent-Teacher association.

Agnes Otto, art director of the public schools, talked on art for its own value and its commercial worth in home decorations. John M. Kadlec of the board of education spoke of the necessity of the new high school building.

Ruth Burger and Billy Schmidt presented a tap dance and Adelaide Kadlec gave a humorous reading.

The annual school program and picnic will be held May 28.

Newman Club

Newman club members will meet for breakfast at Reich's tomorrow following 9 o'clock mass at St. Patrick's church.

All Catholic students may attend.

CHOOSE HAWEYE BEAUTIES

Six lovely Iowa coeds, selected by Paul Trebilcock, Chicago artist, to be this year's Haweye beauties, were presented last night at the Junior Prom in the main lounge of Iowa Union. They are: top row, left to right, Katherine Germann, A3 of Decorah, Pi Beta Phi sorority; Mary F. Comstock, A4 of Auburn, Delta Delta Delta sorority; Mary Elizabeth Irwin, A2 of Ida Grove, Alpha Delta Pi sorority. Bottom row, left to right, Eleanor Pagelsen, C4 of Iowa Falls, Delta Gamma sorority; Alice Erickson, A2 of Waterloo, Kappa Alpha Theta sorority; and Betty Saar, A2 of Donnellson, Kappa Alpha Theta sorority.

Women of Eastlawn Give Radio Review

Several Eastlawn women presented one of the series of Dormitory Reviews over WSUI Thursday night. Rosamond Kearney, A2 of Cedar Rapids, opened the program with a piano selection; Blanche Thomas, A3 of North English, described the history of Eastlawn; and Margaret Virginia White, A1 of Rolfe, played a composition on the flute.

Margaret Lang, A1 of Wilton Junction, pianist, played "Love-Dreams"; Lohelle Halvorsen, A3 of Sac City, sang the popular song, "Lod"; and Margaret Demaree, A4 of Brandon, concluded the program with a violin number.

Mrs. White Takes High Bridge Honors

Mrs. W. White received high honors in the bridge party given by the American Legion auxiliary yesterday afternoon at 2:30 at the American Legion building.

Mrs. George Unash received second prize and Mrs. Wilfred Cole out prize.

Will Have Banquet For Students At Christian Church

Students from Europe, Oriental countries, Australia, the Philippines, Hawaii, Alaska, Canada, Mexico, Panama, Jamaica, South America, and the Negro forum will be entertained at an international banquet at 6 o'clock tomorrow evening in the Christian church parlors by members of Youth Fellowship.

Robert King, A3 of Sioux City, president of Youth Fellowship, will be toastmaster. LeRoy Spencer, chairman of the church board, will give the greetings, to which Robert Allen-Gomez, A3 of Asuncion, Paraguay, president of International Students association, and George Jackson, president of Negro forum, will respond.

Prof. C. Richard of the school of religion will speak on "Cardinal Mercier, an International Figure."

Two instrumental solos will be played by Clark Higginbotham, A2 of Iowa City, and a vocal solo will

be given by Hugh Cookshoot, A2 of Wilton Junction.

Delma Harding of Iowa City is in charge of arrangements. Committee chairmen are Joy Radloff, A3 of Marshalltown, reception; Ila Iddins, A2 of Logan, invitations and advertising; Claude Bartholow, decorations; Florence Harding, A2 of Iowa City, table arrangements; Mrs. C. C. Garrigue, menu; the Rev. C. C. Garrigue, program; and Raymond Pratt, A3 of Correctionville, ticket sales.

Reservations may be made by calling 6109.

Monday Club

Members of the Monday club will meet May 18 at a 1 o'clock luncheon at Munn's grill. Election of officers will be followed by bridge.

Eastlawn News

The following women are spending the week end at their respective homes: Rhea Wolf, A1, Mary Kay House, A2, and Katherine Peseck, A1, all of Cedar Rapids, and Gladys Kildendall, A3 of Fremont.

700 Vehicle Owners Still Lack Licenses

Names of more than 700 delinquent vehicle licensees were turned over to Sheriff Don McComas yesterday afternoon by Burton Bridenstine, superintendent of the county auto license department. Warnings will be sent to all those who do not have 1936 auto licenses early next week by the sheriff. The minimum fine is \$5 and costs.

A total of 8,360 automobiles and 1,059 trucks have been registered in Johnson county this year.

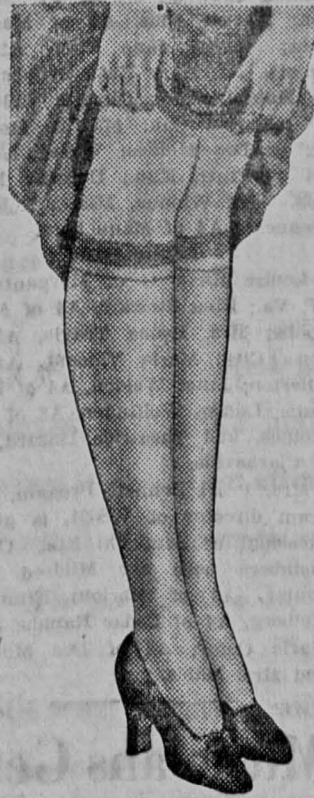

Ten Local Women Visit Mrs. Duncan

Ten members of the Elden club of Iowa City drove to Cedar Rapids Thursday afternoon to be the guests of Mrs. S. Lysie Duncan, a former Iowa Cityan. Tea was served during the informal afternoon.

Included in the group from here were Mrs. Clay Burkhardt, Mrs. Charles Trachsel, Mrs. A. C. Oehl, Mrs. William J. Burney, Mrs. E. J. Anthony, Mrs. Lloyd J. Rogers, Mrs. Walter Daykin, Mrs. I. A. Rankin, Mrs. C. E. Shannon and Mrs. Charles M. Seacrest.

University Symphonic Choir To Present Varied Program

1st Public Appearance Of Group Will Be Tomorrow at Union

The program for the first public appearance of the university symphonic choir at 3:15 p.m. tomorrow in Iowa Union was announced yesterday.

Directed by Prof. Addison Als-pach and Herald I. Stark, both of the music department, the symphonic choir will present a varied program including a contrast in moods, "A Cycle of the Sea." This selection is remarkable in its requirements of various vocal devices for the securing of effects.

Lovesong Waltzes
"Liedelieder Walzer,"—lovesong waltzes—will be sung in German, clear and charming with a Viennese flavor, the presentation will be the first of its kind here.

Gilbert McEwen, A3 of Mason City, will play Haydn's second concerto for horn, with Wendell Otey, G of Harrisburg, Ill., accompanist.

A wood-wind quintet will play three short pieces by Ibert. Members of the group are Thomas Collins, G of Clarinda, bassoon; Thomas Ayres, A3 of Iowa City, clarinet; Prof. Lewis E. Ward of the mathematics department, oboe; Robert Collins, A3 of Clarinda, flute, and Mr. McEwen, horn.

Complete Program
The complete program follows:
Panic Angelicus Balmi
Go, Lovely Rose Thinman
Death on the Hills Elgar
University symphonic choir
Addison Als-pach, conductor
Trio pieces breves J. Ibert
Wood-wind quintet
A Cycle of the Sea
Gerrard Williams
University symphonic choir
Addison Als-pach, conductor
Concerto No. 2 in D major for
French horn Haydn
Gilbert McEwen, soloist
Wendell Otey, accompanist
Liedelieder Walzer, op. 52, Brahms
Loran Crosten and Howard Snyder, pianoforte
University symphonic choir
Herald I. Stark, conductor

Choir Members
Members of the university symphonic choir are:
Soprano: Dorothy Dickson, A4 of Montezuma; Gayle Gidner, A3 of Marshalltown; Martha Hamilton, A4 of Oskaloosa; Gertrude K. Murphy; Marion Nagler, G of Iowa City; Maxine Schlanbusch, A3 of Iowa City; Florence Vanderwicken, G of Ireton; Wilma Walker and Lorene Wright.

Contralto: Mildred Boell; Hazel Chapman; Therese Heetland, A2 of Sibley; Laura Ann Hix, A1 of Milford; Edna Johnson; Arlowyn Marr, A2 of Fairfield; Alice Mikulasek, A3 of Newton, and Jeanne Null.

Tenor: Frank Anderson of Ft. Dodge; Arthur Berdahl, G of Fresno, Cal.; Claude Buxton, G of Iowa City; Alan Grinstead, G of Iowa City; Philip Lavon; Norris Neveln, C3 of Mason City; M. A. Phillips, E3 of Dumont, and Robert Whitehand.

Bass: Prof. Addison Als-pach; Edgar Boell; Hugh Cockshoot, A2 of Wilton Junction; Charles Davis, A3 of Buffalo Center; Hayden Hughes, A2 of Washington, Ia.; Everett Mays, A3 of Newton; Ronald Neil, G of Canton, Mo.; Lothrop Smith, and Vincent Thompson, G of Iowa City.

May Issue of Frivol Has "Snoop-Shots"

Featuring a double page spread of candid camera "snoop-shots," the May issue of Frivol, last edition until September of the university humor magazine, is out.

"To Swing or Not to Swing," a discussion of dance band music by Fred Waring, orchestra leader, explains the meaning and desirability of swing music. The issue contains an "intelligence test especially designed to fit the needs of the average Iowa student."

Reads Paper

James C. Babcock of the Romance languages department read a paper comparing the French classical tragedy and the Spanish comedy at the final meeting of the semester of the local chapter of Phi Sigma Iota, Romance languages fraternity, last night.

Today's WSUI Program

Mrs. Weidner To Fete Delta Gamma

Mrs. E. S. Weidner will be hostess to alumnae of Delta Gamma sorority and senior members of the active chapter at luncheon this noon at her home, one mile east of Iowa City.

Guests will be Mrs. Maye Stump, chaperon of the chapter, Anne McGarvey and Helen Louise Bernbrock of Waterloo, Mary Catherine Huston of Ottumwa, Virginia Cobb of Marshalltown, Eleanor Pagelson of Iowa Falls, Roberta Menneke of Maquoketa, Marion Pehle of Omaha, Neb., Doris Dugan of Perry, and Mary Jane Hubers of Davenport.

Mrs. Cora Anthony Appointed Delegate

Members of the Iowa City Rebekah lodge yesterday elected Mrs. Cora Anthony as delegate to the convention of the grand lodge and Rebekah assembly to be held at Burlington in October.

Reports of the Cedar-Johnson counties' convention in Iowa City April 23 and the convention at Columbus Junction April 24 were also given at the meeting.

Gamma Phi Beta

Dave Evans of North English, and Jack Barlass of Des Moines, both A3, were dinner guests Thursday evening.

A British coal-from-coal plant produced 10,800,000 imperial gallons of gas from 113,000 tons of coal in three months.

Members of the club who will go are Frances Jones of Iowa City and Sarah Dawson of Des Moines, both A3; Leona Covert of Aurora, Ill., and Kathryn Stanley of Oskaloosa, both A1. Mary Stewart and Ellen Moshek of the women's physical education department will also attend.

Rainbow Order To Entertain at Dance

Order of Rainbow for Girls will entertain at a public dance June 3, at Shadowland.
Music for dancing from 9 to 12 will be furnished by the Avalon band.

Alice Eaton, chairman, will be assisted by Florence Rohrbacher, Alma Ruth Findley, Marilyn Leighton, Betty Lou Voight and Ruth Wilslef.

German Club Will Frolic at Annual Spring Fete Today

German club members will frolic at their annual spring festival in the Amana forests this afternoon.
A German play will be given by members of the club. Food will be served in stolid German style by a group of women from the colony.

There will be an excursion through the industrial plants of the colony under the direction of members of the Amana community club.
All members are requested to meet in rooms 103 and 106 Schaeffer hall at 1:30. There may be a few vacancies for non-members who wish to attend the festival.

S.U.I. Cannot Pay Sewer Rent Says Opinion

DES MOINES, May 15 (AP)—The University of Iowa cannot pay the city of Iowa City sewer rental charges any time prior to the start of service, according to an opinion of the attorney general's office.

The attorney general's office said the city started operating its sewage disposal plant Feb. 1 but sent the sewer rental bills to all customers, including the university, for a period beginning Nov. 1.

"Only charges for actual operating services not including any contributions to special structures of the municipality sewage system are payable out of university funds," the opinion said.

Mrs. F. Knight To Entertain Saturday

Mrs. F. B. Knight, 224 Richards street, will entertain members of the Iowa City A. A. U. W. at a 12:15 luncheon today at her home.

Reports on the state convention at Ames last week will be given, and a regular business meeting conducted.

Reservations may be made with Mrs. C. E. Cousins, 6154, or Mrs. Jacob Cornog, 2933.

Vegetable shippers have been warned to let ice "warm up" before icing cars in order to prevent freezing of shipments.

Seen From Old Capitol

By JESS GORKIN

That woman student with a lot of sex-appeal, who took the freshman dictation contest the other night, may be interested to know her performance proved quite enjoyable—especially to those who administered the exam.

We understand she brought a sophomore man along to help her and also received the assistance from a freshman sitting near her. Assistance does help because she received a high score, 59 out of 70, but she forgot to put her name on the paper!

One of the funnier things in this month's Frivol, university humor magazine, is the comment about University theater's production, "Noah." The comment follows:

"It was rumored that the NOAH cast was not at all crushed by the newspaper comments on account of they had such fun, and they liked their show anyway."
We will add that we are happy to hear that at least the cast had a lot of fun even though the audience didn't.

Our snooper reports that these zero-hour pin hangings are enough to keep anyone busy these last few days of the semester. The report is:
Chauncey Carl, Sig Ep, has planted his pin on MaYnelle Holmes, Alpha Chi . . . the snooper tells us with regret about overlooking the pin hanging by Bob Lannon, Delta Chi, on Marian Graham, six weeks ago.

One of the many indications that examination time is here was shown Thursday night when students utilized every moment of their time and

studied between acts of "Elizabeth the Queen."
Speaking of this production reminds us that some barber might have had quite a job yesterday cutting the hair of Macdonald Carey who was outstanding as Lord Essex. He allowed the large crop to grow to help his makeup.

June Herring, A1 of Kalona, will probably never sleep in her classes again—at least if Prof. Jacob Van der Zee of the political science department is the instructor.

The other afternoon Professor Van der Zee, municipal ownership leader who has been in Washington, D.C., to testify regarding the legality of a municipal light and power plant here, was discussing the topic of just how many people are interested in what is going on in Washington and finally asked: "What type or class of people are interested enough to go to Washington and see just what is going on?"

Professor Van der Zee asked several members of his class but received no response. Finally he called on June, who was about half asleep in the back of the room, and she replied, "Instructors in political science courses."

Delays Bid
WASHINGTON (AP)—The treasury said yesterday a delayed low bid of \$50,483 for construction of a postoffice at Onawa, Ia., was received yesterday from the H. W. Underhill Construction company, Wichita, Kan.

Old Gold Netmen Tangle With Iowa State in Last Dual Meet

Matches Billed as Part of Annual Veishea Program at Ames

In the last dual tennis meet of the season, the Iowa netsters will tangle with the Iowa State tennis team at Ames this afternoon at 3 o'clock. The meet will be played on the Iowa State college courts and is scheduled as a part of the annual Veishea activities at Ames.

The Iowa boys have been drilling hard this week in order to prevent any slip-ups in their plans to end the season with a victory, and it looks as though they will live up to expectations. Coach Voltmer has announced that the men are in fine shape.

Capt. Frank "Taps" Nye, veteran Old Gold leader playing his last dual net meet for Iowa, will play the No. 1 position, and Kenny Cline, another experienced warrior for the Iowa cause, will play No. 2. Chuck Fleming, sophomore flash and only returning man next year, and Dave Metz, third senior on the team, will play Nos. 3 and 4 respectively.

Little is known of the Ames outfit. Following the meet, the Iowa netmen will begin preparations for the Big Ten conference meet at Chicago, beginning May 21.

Yankees Bow To Pale Hose

CHICAGO, May 15 (AP)—The Chicago White Sox ran their current winning streak up to six straight today by taking the first game of a two-game series from the New York Yankees 9-7.

Table with columns: NEW YORK, AB, R, H, PO, A, E. Lists player statistics for the Yankees game.

BITS ABOUT SPORTS

By HAROLD REED

DR. H. P. MASON of Wilton Junction, father of Bob Mason, Iowa's slick fielding and slugging shortstop, passes out a fresh five dollar bill to the offspring every time he hits a home run. Charlie Blackman's pater does the same thing. It just goes to show that there's money for a home run hitter even in college baseball.

Gabby Hartnett is the only bright spot in an otherwise dull Cub lineup. As a team, their playing has been putrid, but the old Gabby, beginning his 15th season, is right in there smacking that apple to the far corners. He is now batting around the .350 mark, is a pain in the neck behind the plate to opposing batsmen, and in general is plainly obvious to the other teams and the pitchers of the circuit.

Gabby can handle pitchers if anybody can (he would have to be twice as good to handle those Bruin pitchers respectfully in the shape they're now in), has dropped only two pop fouls in his career, and to top it off doesn't read Shakespeare or play the banjo.

The Yanks are moaning over the fact they are the best lay of averages supporters in the league. When the McCarthy men came out west to meet the Browns, the latter had lost 13 straight. They appeared headed for a new league losing record of more than 20 in a row, and about the only thing able to half them seemed to be the law of averages.

ROGERS HORNSBY, manager of the luckless outfit, was as disgusted as it is possible for even a baseball man to get. In 13 games he had used 43 pitchers, all of whom were impotent. What did he do but name old Alphonse Thomas to pitch the opening game of the series against the Yanks. This looked like had headwork on the Rajah's part, because in creaky old Al's entire career, with the Senators and the White Sox, he had beaten the Yankees only once.

Of course the inevitable happened. Thomas, the long shot, won for the Browns by setting the New York men down with five hits. Which all goes to show that you can never tell what will happen in baseball or poker.

Blackman's Fine Relief Tossing After Replacing Lowell Gosser In Fourth, Saves Tilt for Iowa

Warren Haltom's Home Run in Second Inning Puts Hawks in Lead; Winders Continues Heavy Hitting With Triple, Double, Single

CAMP RANDALL FIELD, MADISON, Wis., May 15 (Special to The Daily Iowan)—Charlie Blackman, woe southpaw Iowa hurler, relieved Lowell Gosser here today in the fourth inning and pulled the Hawks' sixth straight Big Ten win out of the fire. With the crafty Blackman at the helm, Coach Otto Vogel's visiting nine went on to win 8 to 6 with a big five run assault in the seventh frame.

Wendell Winders, Vogel's up and coming rookie catcher, battered the ball all over the park today as he continued his healthy clubbing with a triple, double and single, and "Skeets" Haltom hit a lustrous blow over the right field wall for a home run with Winders scampering home in front of him in the second.

Poor Fielding It was an ideal day for the hitters to sharpen up their batting eyes, for both hurling staffs temporarily lost the touch it takes to keep the score down. The fielding was also of the poorer variety with Wisconsin being found guilty of six miscues and Iowa three.

Church, leadoff man, rapped Gosser for a home run in the last half of the third. Undismayed, Gosser retired the side in one, two, three order.

Winders traveled to the plate for the first time in the second and got his usual hit, a double. Haltom then put the tall corn invaders in front with his first homer of the year. The Badgers tied the count in their half of the second at 2 to 2 as they scored on two successive singles.

The Vogelmans took the upper hand in the fourth when Francis Pickerrill got the motion to first from the umpire and barreled across the plate to put Iowa ahead 3 to 2 as Gosser connected for a long single to left.

Gosser walked in a run in the fourth and as a result took a walk to the showers. Blackman soon made his presence known by catching Church flatfooted off first base and then forced the next man to ground out, putting the side to the Badger (See Page SEVEN, No. 12)

Iowa Cindermen Match Strides With Gopher Tracksters in Big Ten Meet at Minneapolis Today

Minnesota's rejuvenated track team will furnish the opposition for Coach George T. Bresnahan's proteges this afternoon on the green-sward and cinders of the Gopher field.

The Iowa squad, minus Mark Panther, javelin thrower, and Orval Matteson, sprinter, is in good shape otherwise.

With Dooley, Skinner, Waples and Briggs available for the sprints and 440, Iowa's chances look particularly bright to cop a majority of these races, but Minnesota will be represented by Rosenthal and Verran in the sprints and they are boys with plenty of class.

Bush Lamb and Francis Cretzmeier may rank one, two in the javelin throw, and although Minnesota has no outstanding spear-throwers, they have a remote chance to upset the Iowans. In the hurdles, it is all Iowa as Cretzmeier, Latham, Harris and Lamb scamper over the timbers against the Gopher timber-toppers.

Minnesota should slam the discus and shot put events with Krezowski. Big Ten indoor champ this winter, Preimuth, last year's winner, and Goodman, DeFter, and Harris may place in those events, but the Hawk-eyes weighmen have been very inconsistent this season so that they can not be depended upon.

On the basis of past performances, Wayne Stocum, Gopher captain and leading distance runner, must be given the edge in both the mile and two mile events, but from the looks of things he will have a hard time defeating both Paul and Bobby Nelson in these races.

Although Iowa slammed the pole vault here in the indoor meet last winter, the Gopher vaulters have been improving rapidly and will possibly win the event.

BIRMINGHAM, Ala. (AP)—Forest (Spec) Towns, freckled-faced University of Georgia athlete, ran the 120-yard high hurdles yesterday in the remarkably fast time of 14.1 seconds, bettering the accepted world's record of 14.2 seconds.

26 Mermen to Compete in Annual River Swim Today

Jacobsmeier Will Seek 3rd Title in Swim

Walters, Crack Sprint Ace, To Try Hand At Distance Grind

Along with 25 other vigorous mermen who are intent on dethroning him, the Hawk leader, Capt. Adolf Jacobsmeier, all-American middle distance swimmer, will take to the water in attempt to defend his championship in the annual Iowa river swim at four o'clock this afternoon.

The smooth-stroking St. Louis star has won the event for the past two years and will be seeking his third straight title today. In last year's event "Jake" set the pace all the way and won easily in 25 minutes, ten and four-tenths seconds, excellent time considering the adverse conditions.

Foremost among the other outstanding stars who will plunge into the muddy waters of the Iowa river from the island just north of the Park bridge and begin the long, grueling race down the mile-and-a-quarter course to the Iowa Avenue bridge, are Dick Westerfield, all-American backstroke star and runner-up in last year's event, and Bob Christians, the sophomore sensation who placed third a year ago and who has improved remarkably since that time. These men are expected to give "Jake" the race of his life.

All-American Wilbur Wehmeyer, who placed fourth last year, is expected to give "Jake" the race of his life.

Defends Title

ADOLF JACOBMEIER

Bob Allen, rugged breaststroke star, Bob Reed, Harold Sears, Bob Sweitzer, and John Stark, all of whom finished strongly last year, are expected to place high. Ray Walters, one of the outstanding short distance swimmers in the nation, will attempt to compete with the distance men in their race and may upset the dope bucket.

Bucs Subdue Dodgers, 6-2

Brooklyn, May 15 (AP)—The Pittsburgh Pirates defeated the Brooklyn Dodgers 6 to 2 today, handing Lingle Van Mungo, ace moundman of the Dodgers, his sixth defeat of the season.

Prep Netmen Play Here In Tourney Today

Racket-wielders from six neighboring schools will compete in the district high school tennis meet today on the library annex courts. Iowa City high school will be the host school, and will have four entrants in the contest for qualifying places for the state meet next Saturday at Ames.

W. E. Beck, principal of City high school, is in charge of the meet. Muscatine, Washington, Wellman, Grinnell, and Franklin of Cedar Rapids are the other schools entered. Each school has two singles men and a doubles team entered.

NUMBER TWELVE

(Continued From Page 6)

rally which again evened the count at 3 to 3.

Blackman started the locals' downfall by nailing one of Baer's slants for a single in the seventh. Stephens was then safe on a bunt, and both men hit the trail to home when Bob Mason rifled the ball to a remote sector in center field for a single. Iowa's speedy shortstop pilfered two bases and breezed in home when "Tiny" Clausen's drive cleared the bases. Clausen reached third after stealing second and advancing on Winders' single.

Squeeze Play

With the squeeze play on, Capt. Marty Underwood laid down an ideal bunt to score Clausen. Winders also sneaked home when the demoralized Wisconsin infield lost their heads and made a play which retired Underwood at first.

Winders bounced a ball off the stadium in the ninth for what would have been a circuit blow—only he neglected to touch home plate.

The Dodgers scored three runs in the ninth before Blackman recovered in time to retire the locals with the tying runs dying a violent death on the sacks.

Haltom and Don Gugler were responsible for the fielding gems with their nice work on difficult plays.

Nat Nine Fattens Batting Averages; Browns Fall, 10-5

ST. LOUIS, May 15 (AP)—Every man on the Washington team except pitcher Buck Newsum got at least one hit—two got four each—as the Senators whipped the down-trodden St. Louis Browns 10 to 5 today.

But not a little credit for the victory goes to Newsum. He fanned 11 batters and had only two bad innings, the first and the fourth.

The Browns used four pitchers. Tietje, who started, was jerked in the first inning before an out was made.

District Track Festival At Marion Attracts 36 City, U Hi Trackmen; Qualify for State

Iowa City high and University high schools embark for Marion this morning to match their track and field skill against 35 other teams entered in the annual district meet in that city. Athletes competing at Marion today are striving to qualify for the state track finals to be held at Ames next Saturday.

Coch Francis Merten has indicated he will take nine of his men along, and Coach Mill Carpenter at University high has nominated just three times that number. A handsome trophy emblematic of district track supremacy will be awarded the team winner. Members of that team, whether they earn individual places or not, will be eligible to compete at Ames. Otherwise, just the first two place men in each event qualify for the state finals.

Merten's competitors will be Paul Ross and Alvin Miller, who are the favorites, Jerry Polder, dashes and hurdles, Dick Amerine, dashes and broad jump and high jump, Owen Blexrud, hurdles, and Dale Eymann, Art Barnes, Reg Slater, and Frank Tallman for the longer distance runs. From this group Coach Merten will select his relay quartets.

University high entries: 100 yard dash—Shebetka and Wombacher; 220 yard dash—Hart and Shebetka; quarter mile run—Campion and Cuppy; half-mile run—Adams and Barron; mile run—Myers and Smith; high hurdles—Blackstone and Davis; low hurdles—Davis and R. Miller; high jump—G. Miller and Westcott; pole vault—Alderman and Hinman; broad jump—Davis and Ries; shot—Carson and Schnobelen; discus—Lackender and Schnobelen; javelin—Carson and Poerster; quarter mile relay—Kent to Shebetka to Williams to Wombacher; half-mile relay—Davis to Hart to Kent to Shebetka; mile relay—Cuppy to Foerster to S. Miller to Wombacher; two mile relay—McCloy to S. Miller to Robbins to Spencer; medley relay—Davis to Hart to Kent to Krogh.

Cleveland Pounds Red Sox Hurlers For 7-2 Victory

CLEVELAND, May 15 (AP)—The Cleveland Indians turned their siege guns on the Boston Red Sox today, blasted Johnny Marcum out of the box in the third and went on to a 7 to 2 victory.

Their 15 hits included a homer by Earl Averill, first man up in the second, and another by Hal Trosky in the third, bringing in Odell Hale.

Irish Get Last Place in Meet At Davenport

Scoring in nine events, St. Patrick's high lineclads finished a poor third to St. Ambrose of Davenport, and Roosevelt Military academy of Aledo, Ill. in a three way track meet at Davenport yesterday. Aledo took first with 66 points, St. Ambrose next with 42, with the Shamrocks making 17 1/2 points.

Leuz, Irish weightman, led the scoring for the locals as he won the discus with a heave of 101 feet, and took third place in both the shot put, and pole vault.

Connors was the next high scorer for the locals as he took second in the 220 yard dash, third in the 100 yard dash, and tied for third in the high hurdles. O'Neill's third in the mile, and the half mile relay team's third added two more points. The half mile run furnished the fireworks of the meet as Pearman of Aledo, and Gutierrez of the St. Pat's team put on a spirited finish that saw the Aledo man eke out a victory by the margin of one foot over the Shamrock runner. D. Quinlan took third in this event.

Edward Greer Named Honor Student Of Graduating Class

Thirty-four seniors will be graduated from the St. Patrick's school here at the commencement exercises May 31. It was announced yesterday. The St. Patrick's list raises the total of graduating seniors in Iowa City to 221.

Commencement exercises will be May 31 at 8 o'clock in the St. Patrick's church, 224 E. Court street. The speaker has not been chosen.

Edward Greer, son of Louis C. and Eliza Jane, 428 S. Governor street, was named honor student of the graduating class.

Graduating seniors follow: Gertrude Ann Billick, John Byers, Jr., Allen Burger, Patricia Campbell, Paul Carrigan, Robert Coen, Edward Connors, Irene Curtis, Edwin Delaney, Ralph Dvorsky, Margaret Ann Farrell, Gene Fitzpatrick, Ellen Fitzpatrick.

Mary Jane Glenn, Elaine Griffin, Harriet Hanrahan, Jack Hogan, William Floerlinger, Mary Catherine Griffin, William Leuz, Margaret Ann Love, Lillian Lynch, Lucille Leoney, Grace Murphy, Catherine Kessler, Joseph O'Neill, Mary Eileen O'Neill, Edward Pugh, Donald Regan, Loretta Regan, Russell Elbert, Paul Quinlan and Greeley Williams.

Name Polling Places

Polling places in the coming school vote here May 26 will be the same as for a general election except for the third ward. It was announced here yesterday by the Iowa City school board.

A vote of 10,000 has been set as the goal on the vote for a new high school building here. Less than 2,500 votes were cast in the election here last year.

Polling places are: First ward—courthouse. Second ward—city hall. Third ward—Horace Mann school.

Fourth ward—American Legion building. Fifth ward—Iowa City Botling works.

Anyone desiring absentee voters ballots may get them by applying in person or by phone to Charles Galher at the fieldhouse. The polls will be open May 26 from 7 a.m. to 7 p.m.

AROUND THE TOWN

with Dick Everett

Gene Hubbard Recommended
Gene Hubbard, solo alto clarinetist, yesterday was recommended for a music scholarship at a music school. It was reported here yesterday. Gene, son of Dr. and Mrs. Eugene T. Hubbard, 103 E. College street, won a "highly superior" rating at the national music contest at Cleveland, Ohio, yesterday.

Collect \$92,444.24 Taxes
The regular tax collections in Johnson county during April totaled \$92,444.24 with delinquent taxes and interest amounting to \$12,091.62, according to a report filed at County Auditor Ed Sulek's office yesterday by County Treasurer W. E. Smith. Miscellaneous receipts and special assessments totaled \$116,544.66.

Former Mayor Returns
Harry D. Breene, former mayor of Iowa City, returned here yesterday morning after a six months' vacation in Arizona and California.

Zion Lutheran Johnson and Bloomington

A. C. Proehl, pastor. 9 a.m., Sunday school and junior Bible classes. C. O. Dahle, superintendent. 9:30 a.m., forum Bible class under the direction of the pastor. 10:30 a.m., divine service with sermon by the pastor on "Inducements to Prayer." at Sharon Center. Thursday, May 20, 7:30 p.m., Ascension day service with sermon by the pastor.

Christian Church 221 Iowa Avenue

Caspar C. Garrigues, minister. 9:45 a.m., Bible school with classes for adults to intermediate groups. All members of the school who have children's book they will donate to the juvenile home of this city are asked to bring them to Bible school Sunday morning. 10:40 a.m., worship with communion. Sermon by the minister on "A New World," the fifth of a series of pre-Pentecost sermons on "Gospel of Resurrection." Mrs. Jacob Van der Zee will preside at the organ. Mrs. George Spencer will direct. 6:30

p.m., high school Christian Endeavor. Alma Ruth Findly will lead. 6:30 p.m., Youth Fellowship banquet. Ladies' Aid will meet at the church Friday, 7 p.m., with Mrs. Jacob Van der Zee at the organ and Mrs. George Spencer directing.

Coralville Gospel Church Coralville

Robert M. Arthur, pastor. 9:30 a.m., Sunday school with classes for all. M. E. Nelson, superintendent. 10:45 a.m., morning worship with sermon on Christ in the Levitical Offerings—"The Peace Offering." No evening service at Coralville. Sunday night gospel service will be held at Riley chapel at 7:45 p.m. The pastor will give the third in a series of messages on the Book of Revelation, "The Things That Are." Tuesday, 7:45 p.m., prayer meeting in the church at Coralville. Wednesday, women's prayer group. Friday, 7:45 p.m., community Bible class in the home of Mrs. Cora Rice, 15 N. Johnson street, to which all are invited.

St. Patrick's 228 E. Court Street

P. J. O'Reilly, pastor. Mass at 7, 8, 9 and 10 a.m.

St. Wenceslaus 608 E. Davenport Street

E. W. Neuzil, pastor. Mass at 7:30, 9 and 10:30 a.m.

Unitarian Iowa and Gilbert

Evans A. Worthley, pastor. 10:45 a.m., church school. 11 a.m., public service. Subject will be "A Balance Religion in an Unbalanced World." Two short plays will be presented in the guild room at 7:30 p.m. by members of the Bethel A.M.E. church. The public is invited.

St. Paul's Lutheran Chapel Jefferson and Gilbert

Julius A. Friedrich, pastor. 9:30 a.m., Sunday school. Fifth Sunday after Easter. 10:30 a.m., divine service. Text, Daniel 9:18. Subject of sermon is "Prayer, and Expression of Trust in the Gracious Promises of God in Christ." Sunday, May 24,

31 Children To Receive First Communion

Thirty-one children will receive their first holy communion at the St. Patrick's church tomorrow morning at low mass with Father P. J. O'Reilly officiating. The procession will start at the St. Patrick's school and cross the street to the church.

Those receiving the communion are: William Condon, Alfred Smith, William Seemuth, Merle Hoyer, Francis Beasley, Roy Linnell, Kenneth Miller, Vincent Dalton, Jerome Megan, Billy Gilpin.

Billy Lee, Leo Huffman, Gene Zimmerman, John Meade, Thomas Demenny, Annabelle Rogers, Mary Claire White, Sally Crowfoot, Joyce Meyers, Marjorie Kelley, Patricia Murphy, Marjorie Suelpp, Elizabeth Nolan, Bernice Sullivan, Doris Baldwin, Shirley Murphy, Rosalee de Wulf, Dolores Leoney, Patricia Fitzpatrick, Joan Conever and Alvina Dickens.

Highway Commission To Open Bids Soon

Bids on 10 grading projects and 15 bridge and culvert projects, including the roadside improvement project on highway 161 between Iowa City and Cedar Rapids, will be opened by the Iowa state highway commission May 26.

The highway 161 project is in three sections including 3.278 miles from Iowa City northwest, 11.997 miles from the Linn county line southeast toward Iowa City and 6.874 miles from Cedar Rapids south to the Johnson county line.

The Holy Sacrament of the Lord's supper will be celebrated.

St. Mary's Jefferson and Linn

A. J. Schulte, pastor. 7 a.m., low mass. 8:30 a.m., children's mass. 10 a.m., high mass. 2:30 p.m., Sunday school. 3 p.m., vespers and benediction.

City Inspector Gives 4 Building Permits For Total of \$3,000

Four building permits totaling \$3,000 were issued yesterday at City Inspector C. A. Kutcher's office. Albert S. Pillars, 1308 Muscatine avenue, was granted a \$2,000 permit to construct a residence.

Frank Vaughn, 1015 Muscatine avenue, was issued a \$400 permit to construct a garage. Hugh Cooper will be the contractor. Mrs. Sarah L. Walsh, 1621 Wilson street, will construct a \$350 garage. Frank Stika and Son company will be the contractors.

L. V. Dierdorff, 431 E. Jefferson street, was granted a permit for \$250 to remodel a coal office.

Youth Fellowship To Have Banquet Sunday

The Youth Fellowship will hold an International Good Fellowship banquet in the Christian Church parlors Sunday evening at 6 o'clock. The members of the Negro Forum and the students from foreign lands will be present.

The guest speaker will be Dr. Christian Richard of the school of religion, who will speak on "Cardinal

Mercler, An International Figure." Young people of the congregation and members of the Christian Church student group who have not yet made reservations are asked to phone Raymond Pratt, 6109, or the parsonage, 9140.

Harry Kick Wins Court Decision In Property Dispute

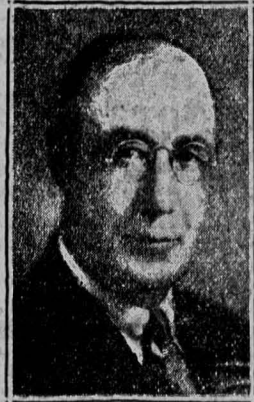

Harry M. Kick, plaintiff in the trial for possession of the property at 645 S. Lucas street, yesterday won his case against Mr. and Mrs. George Dull in Justice of the Peace John M. Kadlec's court.

Attorney E. A. Baldwin and Burke N. Carson represented the plaintiff. Mr. and Mrs. Dull were not represented.

Marriages

A marriage license was issued yesterday at the county clerk's office to Carl Demery and Dorothy O'Donnell, both of Iowa City.

Mr. Roy Lewis 514 S. Dodge Street Your Support Will Be Appreciated

U. S. GOVERNMENT CHEMISTS GIVE O.K. TO NATURAL GAS

It may interest users of gas in Iowa City to know that United States government chemists have made a profound study of the comparative value of natural and manufactured gas to a community.

Mr. E. R. Weaver, chemist of the Bureau of Standards of the department of commerce at Washington, D. C., is one of these chemists and one of the highest authorities on gas in the world.

In a public lecture Mr. Weaver stated:

"TO THE MAN WHO MAKES USE OF THE ENERGY, IT MAKES NO DIFFERENCE WHETHER IT COMES AS A 400 B. T. U. GAS, 600 B. T. U. gas, 1200 B. T. U. gas or even a 2500 B. T. U. gas, PROVIDED THE COST OF THE ENERGY IS THE SAME."

With the proposed natural gas rates for IOWA CITY, HOWEVER, THE COST OF THE ENERGY IS NOT THE SAME BUT .25% LOWER THAN NOW WITH MANUFACTURED GAS.

Clearly, therefore, according to United States government chemists the change-over to natural gas will prove a benefit to consumers in Iowa City.

IF YOU HAVE ANY QUESTION ABOUT HOW NATURAL GAS WILL BENEFIT YOU PERSONALLY, WE CORDIALLY INVITE YOU TO DROP IN AT THE OFFICE AND TALK IT OVER WITH US.

Students May Work Summer Board Jobs

Kann Announces Jobs Open in S.U.I. Units For Meal Credits

Summer students at the University of Iowa will find that the most profitable occupation offered by the employment bureau will be the accumulative board jobs within university units, according to Lee H. Kann, manager.

These board jobs will enable a student to accumulate meals by working not more than nine hours a day. The accumulated credits will, if the student works all summer, furnish board for the student the following academic year.

Cash Employment Scarce
Cash employment for this year's summer session will be very scarce. The tuition project as practiced in the past years will not be had this summer. N.Y.A. employment was never given during the summer months and the funds for this will be discontinued May 30.

In case N.Y.A. is discontinued next year the possibility of securing a board job at the university will be meager.

For women students the brightest outlet in the employment situation will be the securing of board and room jobs in private homes. In the last school year there has been a scarcity of women to work these jobs on account of the N.Y.A. Without N.Y.A. more women will be looking for board and room jobs.

No Opportunity
Regular university office jobs will offer practically no opportunity for summer students. This sort of work calls for people who are acquainted with the office and the work. Therefore the positions are held by students who stay over from the regular academic year.

Persons interested in accumulative board jobs may obtain detailed information by writing or calling at the university employment bureau in old dental building.

Country Club Burns
RENO, Nev. (AP)—The Reno country club, rendezvous of divorce seekers and one of the most elaborate night clubs in the west, was destroyed by fire yesterday. James E. Merrill, manager, estimated the loss at \$225,000.

Speaking Of California!

Iowa City Offers To Summer Visitors Varied Advantages

With its population unofficially set at 16,000, with thousands of visitors coming annually from every state in the union and with a student population of some 9,000, Iowa City is one of the most thriving cities in Iowa. Iowa City offers a well-rounded recreational program, embracing university and secondary school athletics, boating, tennis, golf, swimming and baseball. Other recreational pursuits include dramatics, motion pictures, supervised dancing, parks, playgrounds and numerous musical events. There are no large factory districts, no foreign settlements and no tenements.

There are four schools, including two parochial schools, University high, and Iowa City high and junior high. Six trade schools complete, with the university, one of the finest educational systems in the country.

With the Iowa City airport scheduled to open again soon, one of the best municipal ports in the west will resume service. Over this "main street" passes the roaring traffic of a continent. The local landing field, the first in Iowa, is owned by the city and has been in use for 14 years. By plans Iowa City is only 40 hours from New York and 20 hours from San Francisco.

Above is an air view of Iowa City, home of the University of Iowa. Looking southward, the photo shows the Iowa river intersecting the city, with the Iowa Union foot bridge, the inter-urban bridge, the Iowa avenue bridge, the Burlington street bridge, the Rock Island railroad bridge, and the Benton street bridge crossing the river in order from bottom to top. Points of interest on the west side of the river include the fine arts group along the river bank at lower right, the Law Commons directly westward; Westlawn nurses' home just south of the Commons, and a portion of the men's quadrangle showing at extreme right. On the east side of the river is the Iowa Union at the foot of the lower bridge, while directly eastward is the dentistry building. North of the dentistry building is the chemistry building, Old Capitol, the center of university affairs, is shown directly eastward of the Iowa avenue bridge, with Macbride hall, Schaeffer hall, physics building, and university hall surrounding it. The engineering building is shown directly south of the physics building. To the east and south downtown and residence districts are shown.

Tent City To Thrive Again

Summer Students Again Offered Economical Places of Abode

The Tent City, where summer students may bring their families to live during the summer months, has become an annual feature of University of Iowa life.

Tents, securely placed on platforms, are large enough to accommodate a family. Here summer students may live economically with their families while taking summer session courses in the university.

Provisions for Recreation
Iowa City's ample provision for recreation for the rest of the family includes university libraries, museums, conferences, lectures, concerts and plays.

Established several years ago for the purpose of providing economical living quarters for students wishing to bring their families, the project has been so successful as to be repeated each year. Many families return, and most new arrivals come upon recommendation of former residents of the Tent City.

Children Not Neglected
Children are not neglected in the Tent City layout. Traffic hazards (See Page FOURTEEN, No. 4.)

Laws Expect 150 Summer Students

Arthur A. Zimmerman, practicing attorney at Waterloo, will be on the faculty of the college of law for the 11th consecutive summer, this year. He will teach a course on examination of abstracts of title.

Nearly 150 students are expected to attend the college of law this summer. They will live at the Law Commons.

First year courses include an introductory course in property, instructed by Prof. Percy Bordwell, and a course in torts, instructed by Professors Mason Ladd and Clarence M. Updegraff.

Second and third year courses will be sales and conflict of law problems, both by Prof. Odis K. Patton; extra-ordinary remedies and damages, by Prof. Paul L. Sayre; office practice and legal instruments and Iowa probate practice, by Professor Ladd; credit transactions, by Prof. Rollin M. Perkins; wills, by Prof. Philip Mochem; and income taxation, by Prof. Frank R. Strong.

Will Offer 2-Year Courses in German

Regular courses in first and second year German will be offered as a part of the summer session schedule of the German department.

Advanced courses, both in reading and survey, will also be conducted under the supervision of Prof. Erich Funke, acting head of the German department.

GREETINGS TO SUMMER SESSION STUDENTS

"Last summer more than four thousand persons carried on some educational activity in our summer session. Over three thousand of these were actually on the campus. This large number is ample proof that educational activities go on twelve months in the year. The notion that the schools close in June and open in September and that in the meantime there is nothing to do has long since been exploded. The summer session has come to be one of the most fruitful times for study, especially for those who during the regular academic year are engaged in work which prevents their coming to the University.

"This summer an unusually varied and rich program is being provided. I extend a cordial welcome to everyone to participate in it."

EUGENE A. GILMORE, President

3 New Members On English Staff

Three new faculty members have been added to the staff of the English department for the summer.

They are Victor M. Hamm, College of Mt. St. Joseph, Ohio; Rachel Giese, Madison, Wis.; and Thomas H. Johnson, Hackley school, Tarrytown, N. Y.

Mr. Hamm will lecture on the Greek drama and poetics. The course will include Aeschylus, Sophocles, Euripides, Aristophanes, and Aristotle's poetics.

Miss Giese, who received a Ph. D. degree from the University of Wisconsin, will conduct lectures and readings in the sentimental movement of the 18th century in England and France. The course is designed for students majoring in English and French.

Mr. Johnson, a Harvard graduate, will teach courses on "Paradise Lost" and on early American writers.

These courses, open to both undergraduates and graduates, will be offered only during the first term.

Fine Arts School Will Use New Building for Summer

The recently completed fine arts building on the west bank of the Iowa river will be the center of activities of the school of fine arts during the summer session.

It houses the departments of graphic and plastic arts and history and appreciation of the fine arts. Located about 100 feet from the river, the building is composed of a working section of 21 studios of varying sizes, a printing room, a storage unit, and a large lecture room, and a lobby, foyer and exhibition lounge open to the public.

The conviction that a university should provide an environment where students may come in contact with the best in all fields and be left a certain freedom to interpret and create in their own individual ways has set the stage for the development of the 30-acre fine arts campus into one of the most beautiful spots in this country.

A flow of clear water comes from

pleted. Undergraduate work will be carried on in the main building while the studios will be for advanced students. A studio for advanced students in sculpture and one for advanced students in murals have been constructed and connected to the main building by cloister.

Students May Enter Courses

Chicago, Northwestern, Iowa Will Cooperate In Field Geology

Iowans next summer will be able to study in geology field courses offered in cooperation with the University of Chicago and Northwestern university.

The cooperative agreement between the University of Iowa and the two other institutions is the first of its kind ever drawn up here. Prof. Arthur C. Trowbridge, head of the University of Iowa geology department, will be in charge of Iowans' registrations.

Four Courses Offered
Four courses are offered, two of which will occur at Chicago's field station in St. Genevieve county, Missouri, about 60 miles south of St. Louis.

Another course, also sponsored by Chicago, will take the students to the area around Devils Lake and Baraboo, Wis., while the fourth is scheduled for the Lake Superior region in northeastern Minnesota and adjacent parts of Ontario.

In Charge of Work
Professors in charge of the work will be J. H. Brietz and Carey Cronels, Chicago; and A. L. Howland and Virgil Sleight, Northwestern.

Some 4,000 Expected To Enroll Here

Instruction in 37th Annual Session Begins June 8th

With registration figures expected to equal or surpass the 3,697 total for the first semester of the 1935 summer session, the 37th summer session of the University of Iowa will begin June 5. Registration will officially begin at 1:30 p.m.

A faculty of 264, including 37 visiting lecturers, will administer courses in liberal arts and the professional colleges. Courses totaling 983 will be offered in the colleges of liberal arts, education,

CALENDAR	
Summer Session, 1936	
June 5, Friday—Registration begins, 1:30 p.m.	
June 8, Monday—Instruction begins, 7 a.m.	
July 4, Saturday—Classes suspended.	
July 16, Thursday—Convocation; first term ends.	
July 17, Saturday—Registration for second term.	
July 20, Monday—Instruction begins, 7 a.m.	
Aug. 20, Thursday—Convocation; second term ends.	

commerce, law, medicine and engineering and the graduate college. The schools of fine arts, journalism, letters, and nursing, the Iowa Lakeside laboratory and the Iowa Child Welfare Research station will provide a full complement of courses.

Summer session instruction will begin at 7 a.m. June 8.

Since the first summer session 36 years ago, when 100 students enrolled, the growth has been gradual but regular. Both scope of courses offered and number of students enrolled have shown steady increase.

A High Mark in 1931
Rapid increases in enrollment were not evident until 1919 when attendance passed the 1,000 mark. In the summer of 1923, attendance increased more than 500 students, the greatest jump in the history of the summer school. A high mark was reached in 1931 when 4,936 students were enrolled.

Last year showed the largest enrollment in several years.

Radio station WSUI will broadcast three classroom programs and state high school music and speech groups during the summer. Six of the regular broadcasts, including The Daily Iowan of the Air, will be continued.

Visiting lecturers from American and foreign colleges and universities will supplement work of the regular faculty members. J. O. M. Brock of Utrecht, the Netherlands, will instruct two courses in geology. William Line of the University of Toronto, Can., will teach courses in the psychology department. Christian Richard of Switzerland will teach a course in religion.

Visiting lecturers from American institutions are: Phillip Milo Ball, president, Chevy Chase school, Washington, D. C., education; Carolyn Baskett, Latin instructor; Roseman Mont, high school, classical languages; Prof. J. Harlan Bretz, University of Chicago, geology; Katherine I. Bogart, Latin instructor, Marion high school, classical languages.

Alpha K. Braunwarth, Latin instructor, Correctionville high school, (See Page NINE, No. 5.)

1,100 High School Pupils to Compete In 8th Brain Derby

About 1,100 Iowa high school pupils will compete in the eighth annual brain derby here June 1 and 2.

Pupils to participate, who have been selected from high ranking contestants in the every-pupil testing program May 4 and 5, will be announced about May 22. Representatives from the 270 high schools will take two-hour examinations in 13 divisions. Between 50 and 65 will be tested in each subject.

SATURDAY, MAY 16, 1936

Summer Session

This particular week probably is a poor time to speak of the attractions of summer school to students whose headaches attest to the impending encounter with final examinations.

The summer session, after all, is no longer a mere appendage to the university. It has long since reached the status of an integral, and very important, part of the university schedule.

It is significant that the old notion, typically American, that the schooling process automatically ceases in June and hangs suspended until the following September, has been rather widely supplanted in late years by an attitude more nearly adult.

That summer session offers entertainment fully equal to that of the winter session, and in many ways far more enjoyable, would be surprising, no doubt, to many of those whose residence here has always ended the first day of June. But it is true.

As for the advantages in the way of education, one need only glance through the summer session catalogues, or read this morning's Daily Iowan.

As for the advantages in the way of education, one need only glance through the summer session catalogues, or read this morning's Daily Iowan.

1910 that he had always hoped for such a federation. Although there is no outlined form of government in the literature put out by the advocates of this plan, the implication seems to be that the present governments would remain the same, except for the delegating of certain powers in international affairs to a congress of representatives of the colonies, our nation and the British Isles.

This "United Empire" would hold about 17 million of the 55 million square miles of world land area, and would have a population of 600 million out of 2 billion persons on the globe. This is about one-third of the world totals. It is roughly estimated that the wealth of this "United Empire" would be one-fourth of the wealth of the world.

With such an array of power, say the advocates of the plan, no nation would dare to force war for conquest. The army and navy of the two nations could be mobilized and sent the belligerent countries into line. In other words, the chief aim of the union would be that of policing the world. Then, it is argued, when peace had been forced the "police force" would be withdrawn without "exactng costs or tribute of any kind."

"As time flew by the futility of fear of each other would become more and more pervading in the world. The uselessness of armed conflicts, only to have them suppressed by our "United Empire," would become apparent.

Other armies, navies and air forces would gradually become less and less, finally disappearing. With them our forces would shrink into and become police forces." After that other nations would join into the union gradually and world unity would be accomplished—so reason this group.

Whether or not this plan will ever be seriously considered, we cannot say. At least, its aims are worthy ones. Apparently, the world does not understand the meaning of "equality." Then the only way to peace is consolidation so that the problem of equality need never arise.

At least those who would see world unity are wise in selecting first two nations whose people have the same language and customs. Who knows? Perhaps they will succeed some day.

Build Grade Crossings With PWA Money

THE WPA IS notorious for some of the foolish things on which it has spent money. These governmental projects are scattered everywhere on the face of the United States. Some of the WPA expenditures are merely foolish, others have no importance or significance whatsoever, except the needless waste of the taxpayers' money.

Long Beach, New York, was granted \$705,000 by the WPA for the extension of a boardwalk. There is no denying that boardwalks are nice for the people who spend their time on the beach. They help bring in tourists and sightseers who support a resort town. But Long Beach could have struggled along without its boardwalk, which cost the taxpayers nearly three-quarters of a million dollars of their money.

The WPA has not appropriated any money to build grade crossings or to repair those now regarded as faulty. Yet practically every person who rides in a motorcar in the United States risks his or her life sometime or other because of faulty railroad crossings. A very small percentage of the population could ever derive any enjoyment from the Long Beach boardwalk. But \$705,000 spent to repair grade crossings might not only save a good many lives but might also win a little more favor for government projects, which are fast becoming less and less popular with the public.

Tulip Time In Pella

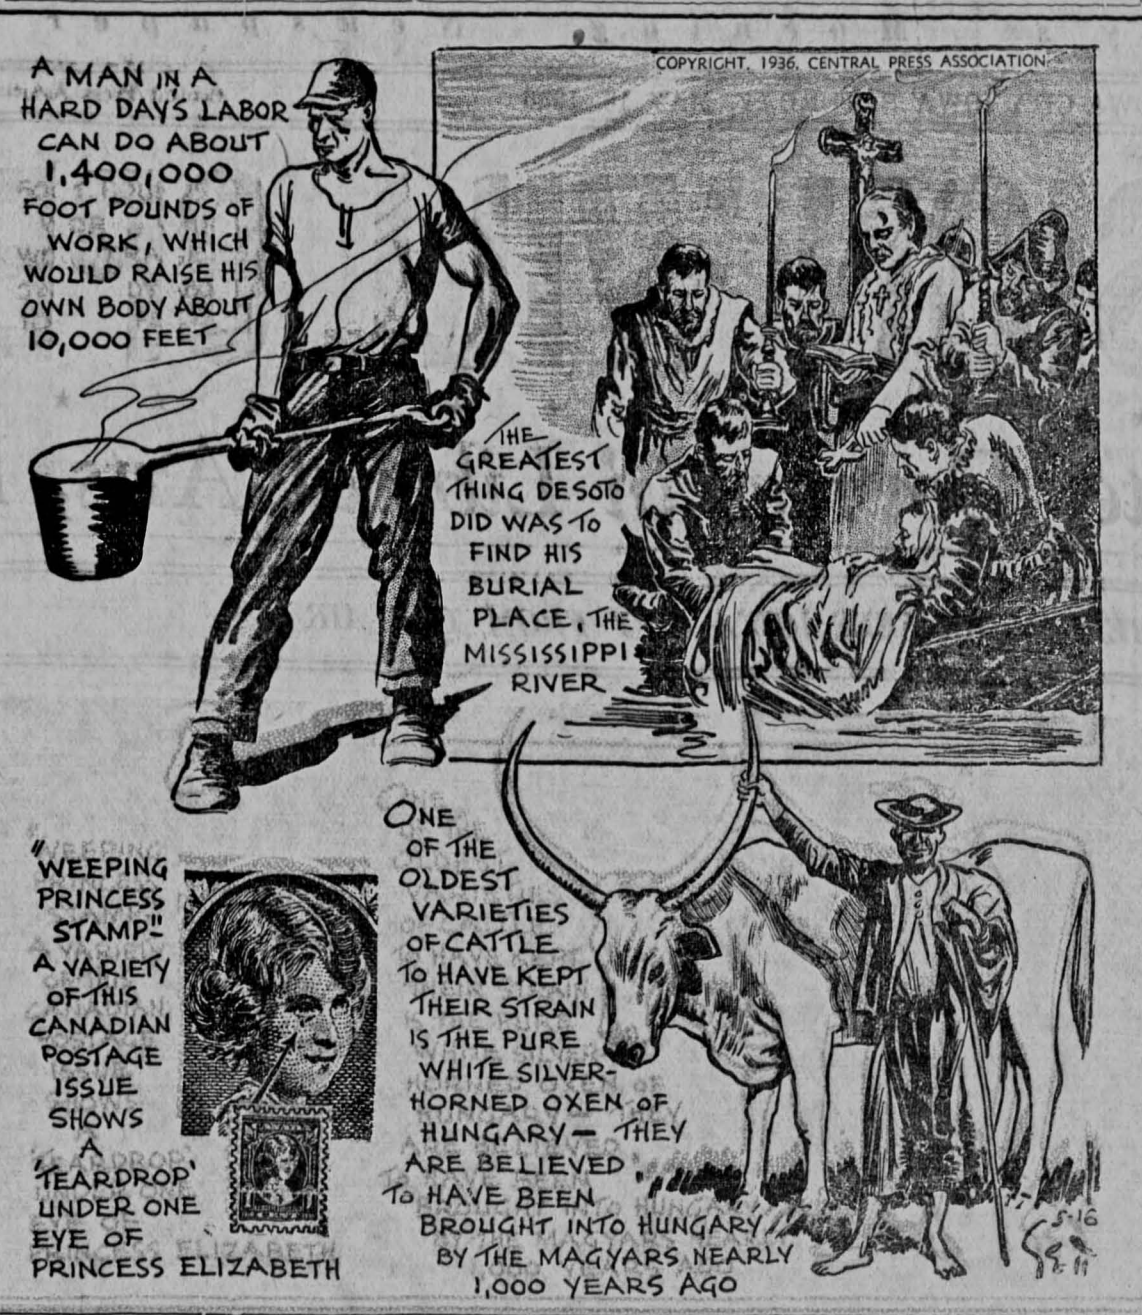

It's tulip time again in Pella. This year, as in every other year since its founding, Iowa's original little Dutch community celebrates the tulip season in the quaint old manner carried over from its native Holland. Despite prospects of rain Tuesday, over 5,000 visitors gathered to see ceremonies which ushered in the full bloom of some 200,000 tulips under suddenly cleared skies.

In age of dull practicality, when almost all old customs have died at the hands of scoffing cynics, it is comforting and reassuring to find that at least one survives in full strength. This one undoubtedly lives on because of its extraordinary beauty and because of the firmly entrenched position it holds in the minds of its annual observers.

Yet, there are other customs, just as beautiful, which have fallen by the wayside in the sweeping crash of America's post-war jazz age. Many stuffy Victorian conventions, we concede, deserved this quick death. Yet there were others, at which we too often smugly laugh, which would do well to find a niche in modern life.

Of course, most customs, such as the Pella tulip festival, have little "practical" use according to the naive definition of the term today. Yet the practice of certain customs, impractical as they may seem, adds immeasurably to the real joy of living, and thus they fulfill their real purpose.

Scott's Scrapbook by R. J. SCOTT

THE GREATEST THING DESOTO DID WAS TO FIND HIS BURIAL PLACE, THE MISSISSIPPI RIVER.

'WEeping PRINCESS STAMP' A VARIETY OF THIS CANADIAN POSTAGE ISSUE SHOWS A 'TEARDROP' UNDER ONE EYE OF PRINCESS ELIZABETH

A Washington Bystander

WASHINGTON—If Senator Wagner of New York rather than Senator Barkley of Kentucky were scheduled to do the new deal keynoting at Philadelphia, his remarks to a labor audience in New York would have attracted great attention. Possibly because no presidential bees can buzz about his bonnet due to his German birth, Wagner unhesitatingly forecast legislation to restore federal minimum wage and hour standards in industry as "inescapable in my opinion."

"Permanent evasion of that duty gave NRA to the people; but it was not the administration that took the NRA away," Wagner said.

F. D. R. Hinted at It That statement came virtually on the heels of the president's recent New York speech outlining "the philosophy of 1935 America" which hinted at least at something like the same thing, Wagner was followed from the same platform by Secretary Perkins of the Roosevelt cabinet.

Anything like the same thought in Barkley's keynote address certainly would provide an NRA issue for the campaign that now is little more than an academic debate. It would be construed as a direct pledge to revive NRA in such form as to pass supreme court constitutional review.

Up to date President Roosevelt and his cabinet and alphabetical spokesmen have avoided any commitment of the sort. Nor does there seem any very urgent political reason for departing from that silence since organized labor leaders like President Green of the A. F. of L. and Lewis of the miners have already gone Roosevelt so completely.

Whatever may be ultimate new deal plans about replacing it nor reviving NRA wage and hour standards in the event of Roosevelt re-election, it does not seem likely that they will be set out in detail at Philadelphia or even, possibly, in the campaign.

Wagner is not the chosen new deal campaign keynoter, close as he is to the administration inner circle. For that reason, his New York remarks, by far the most positive assertion on the point to have been voiced by new deal stalwarts to date, were not rated as first page news.

hygiene, advanced hygiene, the school health program, and sanitation of swimming pools and camps.

Files Divorce Petition DES MOINES (AP)—Mrs. Lenore V. Braddy filed a petition for divorce in district court against Dr. Don L. Braddy, head of the transient division of the Iowa WPA office, charging cruel and inhuman treatment.

Summer Term To Offer Instruction In College of Medicine Ten advanced courses in anatomy, physiology, and hygiene will be offered this summer session by the college of medicine of which Dr. Ewen M. MacEwen is dean. Biochemistry is the only course

that will be offered to undergraduate medical students. Surgical and applied anatomy and genetics are open only to graduate medical students. The three physiology courses are human physiology offered particularly to home economics and physical education students; physiology of the nervous system; and physiology of exercise. In the hygiene department five courses are offered: personal hygiene, community

hygiene, advanced hygiene, the school health program, and sanitation of swimming pools and camps.

Files Divorce Petition DES MOINES (AP)—Mrs. Lenore V. Braddy filed a petition for divorce in district court against Dr. Don L. Braddy, head of the transient division of the Iowa WPA office, charging cruel and inhuman treatment.

OFFICIAL DAILY BULLETIN

Items in the UNIVERSITY CALENDAR are scheduled in the office of the president, Old Capitol. Items for the GENERAL NOTICES are deposited with the campus editor of The Daily Iowan, or may be placed in the box provided for their deposit in the offices of The Daily Iowan. GENERAL NOTICES must be at The Daily Iowan by 4:30 p.m. the day preceding first publication, notices will NOT be ACCEPTED BY TELEPHONE, and must be TYPED or LEGIBLY WRITTEN and SIGNED by a responsible person.

Vol. X, No. 178 May 16, 1936

University Calendar

- Saturday, May 16: First Annual Big Ten Art Exhibit, Iowa Union; German Club, Awana May festival; Sunday, May 17: First Annual Big Ten Art Exhibit, Iowa Union; Chamber Music Concert, Iowa Union; Sunday night supper; slides on "Interesting Places in Which to Spend Vacations," University Club; Monday, May 18: Lecture by Dr. O. D. Foster, "Church and State in Mexico," Senate Chamber, Old Capitol; A. F. L. Iowa Union; Dental Faculty, Iowa Union; Tuesday, May 19: Commission on Religious Activities Luncheon, Iowa Union; Dinner, American Association of University Professors, Iowa Union; Bridge, University Club; Illustrated lecture by Dr. O. D. Foster, "A Pilgrimage Through Archaeological Mexico and Central America," Chemistry Auditorium; Wednesday, May 20: Engineering Faculty, Iowa Union; Interfaith Fellowship, Iowa Union; Senior French Club, Iowa Union; Iowa Dames; Saturday, May 23: Annual Business Dinner, University Club; Tuesday, May 26: Bridge, University Club; Thursday, May 28: Commencement Supper, Iowa Union; Campus Concert, University Band, Old Capitol Oval; Friday, May 29: Senior Reception, President's Home; Campus Concert, University Band, Old Capitol Oval; Commencement Party, Iowa Union; Saturday, May 30: Alumni Luncheon, Iowa Union; Campus Concert, University Band, Old Capitol Oval; Commencement Play, Macbride auditorium; Sunday, May 31: Campus Concert, University Band, East Hall Campus; Annual Recital, Department of Music, North Rehearsal Hall; Baccalaureate Exercises, Fieldhouse; Monday, June 1: Commencement Exercises, Fieldhouse; State Scholarship Contest; Tuesday, June 2: State Scholarship Contest.

General Notices

Theses Due All candidates for advanced degrees at the June Convocation must present the original and first carbon copies of their theses at the office of the Graduate College, C106 East Hall, before 5:00 p.m., Monday, May 18. C. E. SEASHORE, Dean

Junior Women All women students of Junior classification are invited to attend the Junior Breakfast on Saturday morning, May 16, at 8 o'clock at Iowa Memorial Union, Plates 26 cents. This meeting is held for the purpose of selecting candidates for Mortar Board.

English Examinations The final examination in English 95 will be given Friday afternoon, May 15, at 3 o'clock, and Saturday morning, May 16, at 9 o'clock in Room 107 University Hall. The final examination for the M.A. degree will be given Friday afternoon, May 15, from 1 to 4 o'clock, and Saturday morning, May 16, from 8 to 11 o'clock in Room 101-H, University Hall. The final examination for those minorng in English will be given Saturday morning, May 16, from 8 to 11 o'clock, in Room 101-H University Hall. BALDWIN MAXWELL

Graduate Lecture Dr. O. D. Foster of New York will give an address "A Pilgrimage Through Archaeological Mexico and Central America" (illustrated), on Tuesday, May 19, at 8 p.m. in the Chemistry auditorium. The university and community are invited. M. W. LAMPE

New Organization All students and faculty members interested in learning about the new campus organization of the Young Republicans National Federation, are invited to attend a special meeting at 2:30 Sunday afternoon in the north conference room of Iowa Union. LAWRENCE C. JULIUS

Summer Board Jobs All students who are interested in working board jobs for the summer or those who wish to accumulate board credits during the summer months for next fall are to report immediately to the Employment Bureau for their assignment. LEE H. KANN

Gavel Club There will be a meeting of Gavel Club Tuesday, May 19, at the Iowa Union. Since this is an important meeting, and it is called to discuss a suggestion of Dr. Baird's it is important that everyone be there. WILFRED TAPPER

Pre-Law Students Any student entering the Law School next fall who plans to live in the Law Commons should make application for quarters at the Office of the Dean of the Law School before June 1, as applications for quarters next year will be filled in the order of filing.

Botany Club Botany club will meet Monday, May 18, at 4 o'clock in room 408 Pharmacy-Botany building. Preliminary research reports will be presented by Miss M. McConaha and W. H. Huehney. PRESIDENT

University of Iowa Chapter American Association of University Professors The last meeting of the year will be held on Tuesday evening, May 19, at 6 p.m. in the rooms of the Triangle Club. Reservations for the supper should be made not later than Thursday noon at the Iowa Union desk. The business session will be held immediately after the supper. A number of important matters will be discussed at the business session. All members and others interested in the work of the association are urged to attend. CHRISTIAN A. RUCKMICK

Phi Beta Kappa The spring initiation of new members in Phi Beta Kappa will be held in Iowa Union at 5 o'clock on Wednesday, May 20. Following the initiation a dinner will be held in the river room. All members of the Society are invited to the initiation and dinner. Reservations for the latter should reach the secretary at 101 I University Hall not later than Wednesday noon. J. W. ASHTON, Secretary

Prof. Louis Pelzer To Deliver Address Prof. Louis Pelzer of the history department, will deliver an address, "Pioneer Stage-Coach Travel," at an annual meeting of the Augustana Historical society at Rock Island, Ill. this evening.

Elected President DES MOINES, Phil C. Jarnigan, editor of the Sheldon Sun, was elected president of the "Grimes for Governor" club, a movement being sponsored by Young Republicans. Jarnigan, member of the prominent Iowa newspaper family, is editor of the Storm Lake Pilot-Tribune.

New President DES MOINES, (AP)—Dr. John M. Woods of Des Moines was elected president of the Iowa society of osteopathic physicians and surgeons as the society ended its 38th annual convention.

Grant Scholarships NEW HAVEN, Conn., (AP)—The Yale university graduate school announced yesterday it has granted Theodore Crefe Mehlin of Des Moines a fellowship and Kenneth McLaughlin, also of Des Moines, a scholarship.

A deed to 320 acres bearing the signature of Sam Houston is owned by J. E. McClain, Roscoe, Tex., postmaster.

HOLLYWOOD—A trained wolf is one thing Hollywood doesn't have, so a dog is doubling for the half-bred wolf that is supposed to be the hero of "White Fang."

The double is Lightning, blue-blooded Belgian shepherd that was being blondined to look more wolf-like for this movie role. In this picture, he is referred to as the progeny of the romance between Buck and the wolf of "Call of the Wild."

The most difficult part of the training was to teach Lightning his tail. Wolves don't do that. Lightning's owner, Earl Johnson, gets his dog in the proper mood for action by reproachfully addressing him, "Shame on you!"

Trained To Howl, Not Bark At this, the dog lowers his head, drops his tail and slinks across the set like a wolf. Johnson explains that the dog knows he has done nothing wrong, merely accepting the word "shame" as a cue to assume the semi-crouching position. Wolves never bark and that prevented another problem for the trainer. Nor do dogs howl, except under great emotional stress, according to Johnson. He experimented with various noise-makers, but none was successful. During the course of one day's training, a fire truck screamed by Johnson's house. Lightning howled when he heard the siren. Johnson got a toy siren and every time he turns it, Lightning howls. Being a good dog, he never barks—unless he's told to.

A New Yorker

At Large

By JACK STINNETT

NEW YORK—Vesper A. Schlenker is an acoustical engineer. He was in the United States army's field artillery... then the signal corps... a first lieutenant who sailed through the officers' training courses with high honors. He stepped out of the army into the Bell laboratories, where he did much work with sound. Nine years ago Mr. Schlenker set up his own shop.

We prefer to call him a noise detective. We have been preferring it since a friend of his told us about a musicale Mr. Schlenker attended. He showed no signs of perturbation throughout the piano concert but when it was half over, he called the friend's attention to a very faint vibration which seemed to top off certain chords.

"What is it?" the friend whispered. "Probably a coin somewhere in the sounding box," answered Mr. Schlenker without hesitation. A diligent search following the receipt disclosed a penny hidden in the space between the binding posts and the side of the box.

Mr. Schlenker tells us that the only sounds which irritate him are those he cannot immediately explain. He analyzes sounds which he can not readily define for relaxation... a sort of postman's holiday hobby... but one which made it possible for him to design, without instruments, a "sound filter" for a pipe organ motor in a synagogue in Buffalo. The filter cured a noise which had been interrupting services for months.

Mr. Schlenker has solved acoustical problems for theaters, lecture halls, private homes and factories. He thinks that perhaps the reason he enjoys his work so much is that every problem is different. One can never tell about a noise. Probably the job he enjoyed most was the one which took him yachting.

A 62-year-old member of the New York Yacht club has a passion for clocks that is second only to his feeling for yachts. His yacht is fairly alive with clocks. Every stateroom, corridor, and even the deck fore and aft, have clocks controlled by a master clock in the captain's cabin. The hands move forward each 30 seconds.

The yachtsman's passion is matched by an antipathy for noise. He found that the clock in his stateroom made an intermittent catarrh of sound at night. He fumed at the clock company. The president of the clock company fumed at his engineers and finally called in Mr. Schlenker. For 70 hours, workmen on three floors of the clock factory turned out gadgets designed by Mr. Schlenker. Then for eight hours the acoustical engineer, the clock company president and a corps of mechanics worked feverishly as the yacht plowed from the Hudson to Newport for the regatta.

By the time Newport was reached, the only way one could hear the hands of the clock move forward was to press one's ear against it. "When you get a noise like that, the only thing to do is isolate it," says Mr. Schlenker. "That's what I did... isolated it completely." Mr. Schlenker says "isolated" the way a warrior would say "annihilated."

Prof. E. R. Edwiny of Vermillion, S. D., is a library commissioner. He is a member of the library training school at the University of Iowa. He is a member of the library training school at the University of Iowa. He is a member of the library training school at the University of Iowa.

To Broadcast 11 Programs Over WSUI

Three classroom programs and two all-state high school programs will be broadcast over station WSUI during the summer session. Six of the regular programs will be retained.

The three classroom programs to be broadcast are: short story, Prof. Frank L. Mott, director of the school of journalism, at 11 a. m.; religion and contemporary letters, Prof. Christian Richard of the school of religion, at 1 p. m.; modern symphonic music, Prof. Philip G. Clapp, head of the music department, at 2 p. m.

Each of these classroom programs will be broadcast daily except Saturday and Sunday.

Professor Mott's short story class may be used for either English or journalism credit.

The two all state high school programs are all state high school music groups and all state high school speech groups.

The six regular programs which will continue through this summer are the book shelf by Olivette Holmes; garden talk by Gretchen Fischer Harshbarger; dinner hour program by Thomas C. Collins; speech department program; community theater of the air; and Daily Iowan of the Air.

Young, supervisor of intermediate and upper elementary grades, Hibbing, Minn., education; and Arthur Albert Zimmerman of the Waterloo bar, law.

4 Major Conferences Four major conferences will take place at the University of Iowa this summer. They are a child welfare conference, June 16, 17, 18; physical education conference, June 25, 26; physics colloquium, June 11, 12 and 13; and secondary education conference.

A number of music events will occur, beginning with a joint concert by the all state chorus and orchestra July 1. Other activities planned are an adult chorus and orchestra concert, July 12; all state chorus, July 14; all state orchestra, July 15; and men's dinner, given by the all state orchestra, June 18.

Theater Program University theater's program will include a program of one-act plays and the experimental production of a new play by E. P. Conkle about the government's Alaskan colonization project in the Matanuska valley. The summer season will open the first week of the season with the presentation of Maxwell Anderson's "Elizabeth the Queen" and among the highlights will be a presentation by the all-state Iowa high school group, directed by Dina Rees of Cleveland Heights, Ohio, and "Candida" by Bernard Shaw. During the second session two or three light comedies will be included. Outstanding speakers will appear on the university lectures program, among them Louis Anspacher, dramatist, John Erskine, author and educator, and Mark Sullivan, newspaper correspondent.

S.U.I. PRESIDENT

Above is the University of Iowa's executive, President Eugene A. Gilmore. Before assuming the presidency in June, 1934, he was dean of the University of Iowa college of law.

Thousands of Iowans to Find Haven in New Macbride Park

One of the most popular vacation resorts for the summer will be the new Lake Macbride state park, 13 miles north of Iowa City. Although the resort will not be officially opened until early next year, the 1,000-acre state park this summer will receive thousands of Iowans from all over the state.

The park, the third largest in the state, has a 600-acre artificial lake with an 11-mile shore line. Constructed by the civilian conservation camp boys near Solon, 11 miles of winding trails and paths have been completed.

One of Finest for Fishing

Freshly stocked with over 100,000 bass and blue gill fish, the beautiful Lake Macbride will be one of the finest fishing places in Iowa. Construction is also now underway on the new bathhouse and custodian's home. The bathhouse, 124 feet long and 36 feet wide, is being built of cream-colored stone quarried at Stone City.

There is a rustic bridge 160 feet long across one arm of the lake. Lodges and shelter houses are located at the ends of the trails. More than a dozen cottages, large and small, have been built on the hill-like peninsula extending into the lake proper. Almost a score of university professors are planning to build or have already built summer cottages along the lake front.

Plan for 100,000 Visitors Already plans are being made to accommodate the 100,000 urbanites who dwell within a 15-mile radius of the Macbride park, the only state park of its size and the only large artificial lake in this vicinity.

For more than a playground, declared Gov. Clyde L. Herring at the dedication May 30, 1934. "It is a place where we conserve the spiritual values which make civilization. Week and vacationers agree. There will be swimming, fishing and just resting. Quiet will be insured by restricting concessions and bathing amusements. Swimming facilities will be excellent. For the game lover, wild animals, fish, water fowl, marsh wild life and birds will be on hand. And for the nature lover wild flowers, plants and almost 50 varieties of trees.

So summer school students this year will be week ending at Lake Macbride state park. Up U. S. highway 161 to North Liberty and there down the winding gravel road direct to the park, and there's the park.

Richard to Give Religious Course

A class in contemporary religious movements in Europe will be offered by Prof. Christian Richard of the school of religion during the first term of the summer session.

The course will include discussions of Cardinal Mercier and the Thomistic movement, Earl Barth and the renaissance of Calvinism, the student movements and the resurgence of neo-paganism.

The school of religion will also offer a course in research in religion for graduate students.

The experiences of the various expeditions which have collected the material for the museum. These lectures supplement the regular course work and are designed to acquaint the student with the procedure and method used in the field.

Engineering College Will Offer Courses

Courses for graduate and undergraduate students have been arranged by the college of engineering for summer session students.

Courses will be offered in civil engineering and hydraulics and mechanics both sessions.

There will be two courses the first session and one course the second session in the civil engineering department. In the mechanics and hydraulics department seven courses will be offered the first session and eight the second session.

Coleman County, Tex., apiarists predict a large honey crop as the mesquite, principal source of honey, reached full bloom 30 days earlier than usual.

Commerce to Give 12 Courses During Summer Sessions

Twelve courses, dealing with business subjects which have been prepared especially for commercial teachers, will be offered by the college of commerce during the 1936 summer session.

Seven of the business courses, which will be offered during the first term of the session, are: administration of college departments of commercial teacher training; review of research in business education; seminar in business education; techniques for the improvement of instruction in bookkeeping; commercial curriculum; secretarial science; techniques for the improvement of instruction in stenography.

The following five courses will be given during the second term of the session: administration and supervision of business education; tests and measurements in business education; seminar in business education; techniques for the improvement of instruction in typewriting; and subject matter and methods of consumer business education.

Instructors who will teach the business courses are Prof. Earl G. Blackstone, Charles T. Yerlan and Frances N. Schramm, all of the college of commerce.

Prof. Edwin H. Reeder, University of Vermont, education; Julia A. Robinson, executive secretary, Iowa library commission, Des Moines, library training; Janet Arie Roe, Cedar Rapids, library training; Louise Root, Juilliard school of music, New York, music; Virgil G. Sleight, Northwestern university, geology.

Speech Department Offers 3 Courses

Three courses in the speech department this summer will be under the direction of Prof. A. Craig Baird, director of university debate.

Advanced argumentation and debate is a course especially organized for directors of debate. Advanced public speaking is conducted for business and professional groups. The third course is the history and criticism of English and American oratory.

Professor Dill To Offer Six Courses

There will be six museum courses offered both terms of the summer session by Prof. Homer R. Dill, director of the museum, for those interested in modern museum work, such as mounting and preparing birds and mammals, and clay modeling from natural models.

A series of supplementary lectures illustrated with slides and motion pictures is to be given recounting

WHY is SIDWELL'S called Hy-Score milk?

SIDWELL'S MILK is obtained from carefully selected dairy farms that are subject to frequent, rigid inspection.

But Sidwell's go farther than that to insure milk of the finest quality obtainable for Iowa City.

As an added inducement each of the farmer-producers supplying us milk that scores 90 or better (see score card) receives a bonus of 10 cents for each hundred pounds of milk. These scorings are made twice each week and give a constant check on the quality and cleanliness of the milk coming to our plant. All milk distributed by us is bonus quality milk. That's why we say Sidwell's is HY-SCORE MILK.

Pasteurized in our modern dairy—it is pure, rich, safe milk—purchased by us at a premium—sold to you at no more than you would pay for ordinary milk.

SIDWELL'S HY-SCORE MILK

Journalism To Offer Training

Writing Courses In Schools of Letters, Journalism Available

Courses have been arranged in the school of letters and the school of journalism so that students who wish may devote all their time during the six weeks of the first term of the summer session to training in writing.

The school of journalism, directed by Prof. Frank L. Mott, will give the opportunity for practical experience in reporting and copyreading on The Daily Iowan, and 10 other courses on magazine and feature writing, advertising, photography, and history and ethics of journalism.

Special courses will open to those who wish to teach high school journalism or who desire to write a thesis for an M. A. degree.

Editorial writing and current problems, and magazine writing will be taught during only the first term, and the arts of printing and engraving will be added the second term.

A course will be conducted in the technique of the short story by Professor Mott.

Four courses taught by English department staff members will be offered by the school of letters. Prof. Carrie Stanley, Prof. Edwin Ford Piper, and Prof. Wilbur L. Schramm will teach the courses.

Promising writers will also be permitted to offer a piece of imaginative or critical writing as a thesis toward M. A. or Ph. D. degrees in the English department. Students must apply in advance to Professor Piper or Professor Schramm.

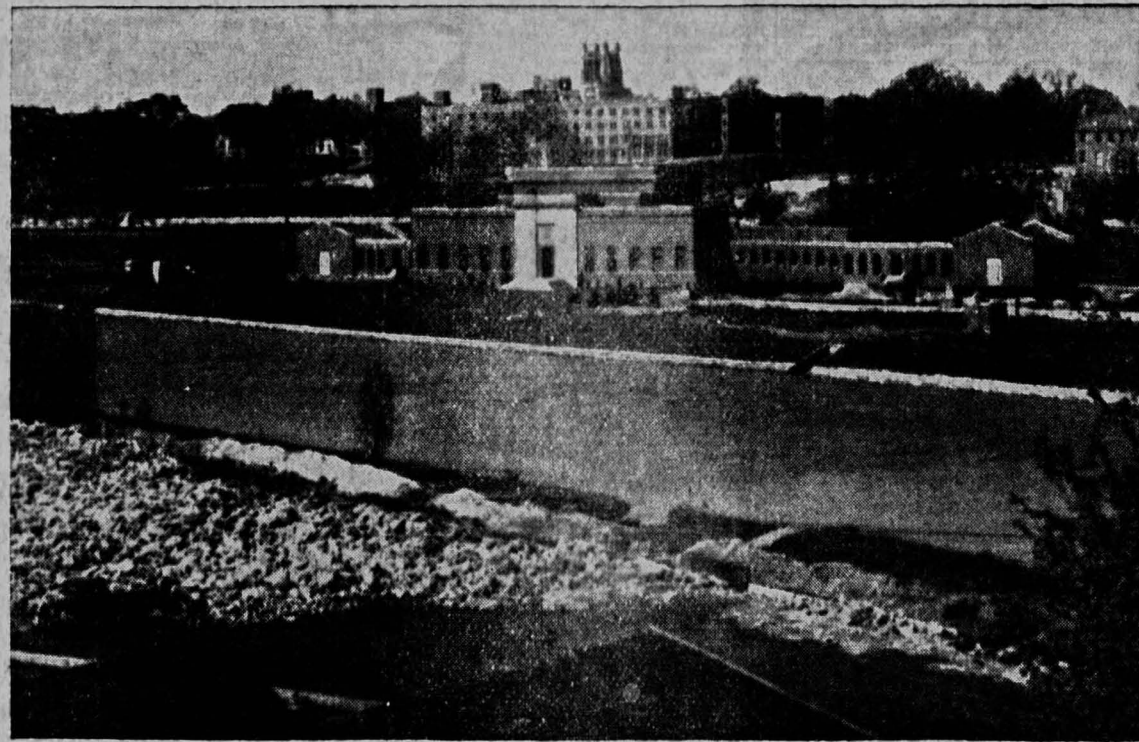

Kent Taylor of the movies was a singer and had his own orchestra when he was in high school. But he has never sung a note in pictures.

Dormitories to Be Open for Summer

Four men's dormitories and one women's dormitory will be open for summer students for both sessions.

The dormitories for men will include the Law commons, the Quadrangle, Bloomington cooperative house and the Manse, a cooperative. Currier hall will be the only dormitory open to women students.

OUTSTANDING FINE ARTS EDIFICE

The first art colony on any American campus, with the fine arts building, above, as a center, is now in process of completion. The fine arts building was opened for classroom instruction last summer. Included in the colony is the new dramatic arts building north of the fine arts structure, which is expected to be opened by next fall.

Students May Study Music

All-State Orchestra and Band Will Feature Summer Program

An all-state high school orchestra and a similar band and chorus will feature the summer session program of the music department. Carefully selected from accredited high schools, the student musicians will take private lessons and regular courses in addition to their daily rehearsals.

In addition to instruction by the regular staff, courses under guest lecturers are offered to summer session students.

A new course to be presented by Prof. Philip G. Clapp, head of the music department, is The Symphony Since Wagner, to be broadcast daily. Frequent concerts and recitals will also be broadcast.

Junior Unit
As in the last two summers, the music department will supervise summer music in Iowa City high school as a junior unit, according

to a recent announcement by Professor Clapp. Director Lloyd F. Swartley of the high school will organize a band and orchestra, assisted by Himle Voxman of the music department and Lois Wilcox, G. of Salina, Kan.

The all-state high school orchestra will be organized during the first term, beginning June 8, under the direction of Prof. Charles B. Richter of the music department, who will also give a course in school orchestra problems. During the second term, Professor Richter will direct the all-state band and offer a course in band problems.

All-State Chorus
The all-state high school chorus will be organized and directed by Herald Stark of the music department during the first term. Mr. Stark will direct the adult chorus and voice courses as well. Members of the high school organizations will be furnished rooms and meals by the university.

Guest lecturers will be Charles H. Stump of Morgantown, W. Va., instructor in reed instruments and supervisor of all-state boys; Milton Dieterich of the University of Oklahoma, instructor in cello, chamber music and theory; and Harold Cerny of Nebraska State

Teachers college at Kearney, Neb., instructor in violin and chamber music. Mr. Cerny received M.A. and B.A. degrees here. R. T. Fulghum of university high school will conduct courses in trumpet and horn, and Mr. Voxman will be instructor in woodwinds.

Kendrie to Conduct
Prof. Frank E. Kendrie of the music department will conduct the adult orchestra and present courses in violin and conducting. During the second term Prof. Addison Alspach of the music department will direct the adult chorus as well as instructing theory and piano students.

Directed by Professor Clapp in the first term, composition and research will be under Prof. Harry

City Park to Attract Thousands This Summer, Says Custodian

One of Middle West's Most Scenic Spots, Travelers Report

All those visiting Iowa City this summer will have the opportunity of seeing "one of the most beautiful city parks in the middle west," according to many travelers who have stopped here in recent years.

Bordered on two sides by the Iowa river, and with its roads winding in, and out among thickly wooded hills, the park has often been the subject of admiring remarks to William E. Fischer, custodian.

Boasts Natural Lake
It is one of the few city parks in the middle west to boast a natural lake. A small flock of ducks helps add to the beauty of lake.

The park could truly be called "the playground of Iowa City." Between five and six thousand people visit the park on one Sunday, Mr. Fischer estimated. There is a large baseball diamond which is in constant use throughout the week.

Well-Equipped Diamond
The diamond is equipped with electric lights and league softball games are played there during the summer. There are also several

Thatcher Jr. of the music department during the second term, along with piano and theory courses. Ronald J. Neil of the music department will offer voice courses during both sessions.

Other instructors in the music department will be: Murray Baylor, piano and theory; Arnold Small, violin and chamber music; Prof. Anne Pierce, public school music methods; Prof. Esther Swisher, children's piano and piano methods; and Arthur Berdahl, heavy brass instruments and string bass.

swings, teeter-totters, and slides for the use of children.

To add to the many attractions the park can boast a small zoo. The zoo contains a lion, bear, ostrich, several monkeys, two prairie dogs, three raccoons, five foxes, and several different kinds of fowls.

The park has been put into condition this spring by Mr. Fischer and is in readiness to welcome all visitors to Iowa City.

Play Nights Provide Merry Recreation At Summer Sessions

Play nights, which were conducted last summer, will be continued this year to provide recreation for university students.

Iowa Union, the women's athletic field, and the women's gymnasium become scenes of riotous merrymaking when hundreds of young men and women attempt games they had never heard of before.

Committees are drafted from the ranks of the men's and women's physical education departments, including representatives of the students.

Some of the sports in which students will take part are archery, cage ball, and volley ball on the athletic field. Iowa Union activities will include social dancing, bridge, checkers, and chess.

The feature attraction at the women's gymnasium last summer was square dancing, with the calling done by a professional. Indoor sports were also indulged in there when it became too dark outside.

Fielding Made Head Of Tri-City Group

John Fielding of the college of engineering has been elected chairman of the Tri-city branch of the American Society of Steel Treathers, for 1937.

Child Welfare Adds to Staff

16 Graduate Courses To Be Offered Here This Summer

With 18 instructors and two new research assistants in addition to the regular staff, the Iowa Child Welfare Research station will offer 16 graduate courses to summer school students.

Marla Fassig, from Ohio State university at Columbus, Ohio, will be a new assistant teacher in the preschool, and Mrs. Mary Watson-La Due of Greenville college, Greenville, Ill., has been appointed research assistant in the research station for the first term of summer school.

Helen Dawe to Teach

Helen Cleveland Dawe, the regular teacher of the third group of preschool children, will present a course in teaching in kindergartens and preschools, with four hours of laboratory practice.

Other members of the regular station staff will teach the psychology of infancy, psychology of childhood, child study and parent education, introduction to child development, adolescent development, character education problems and conferences in advanced child study and parent education.

Courses in physical measurement, mental measurement, genetics, and research in child welfare may appeal to those interested in child welfare research.

Social, Economic Problems

Social and economic problems of the family, the child in the home, and the nutrition program in the schools will be presented by instructors from the university home economics department.

Advanced students will be admitted to work on research problems during the second term.

If applications are made and conferences between parents and preschool administrators arranged for by June 1, out-of-city children may be admitted to the preschool. The last possible date for these conferences will be June 8.

Domestic production of automobile tires and tubes, which was recently inaugurated in Rio de Janeiro, is expected to benefit the Brazilian rubber-producing industry.

Summer Director

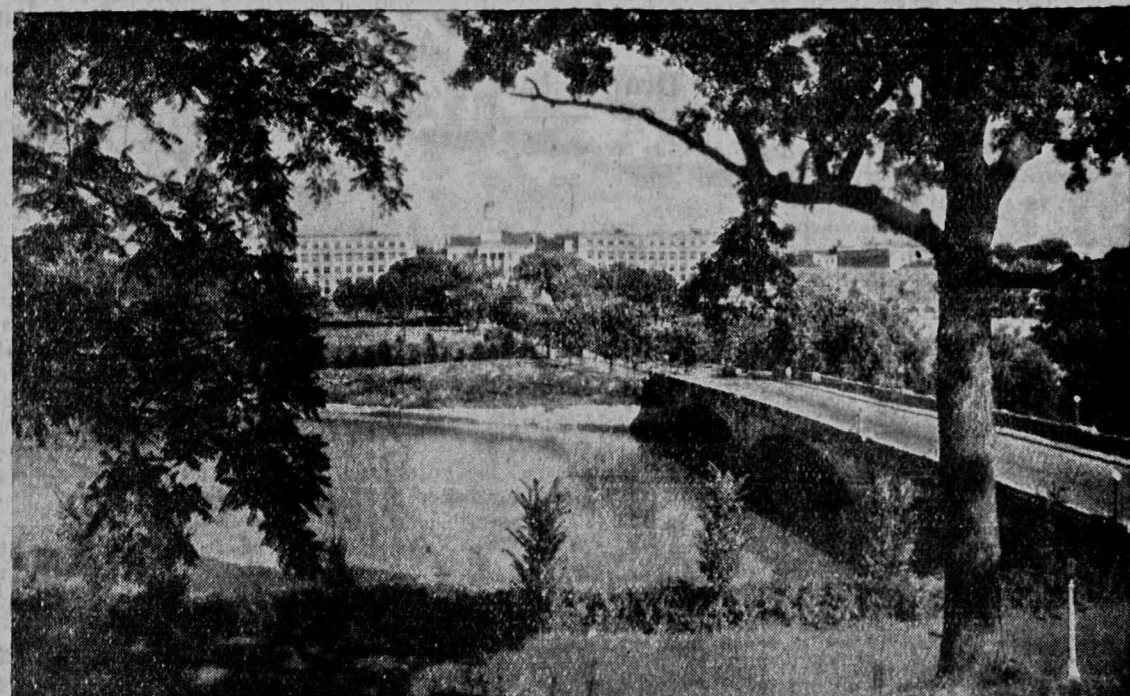

Dean Paul C. Packer of the college of education is dean of the summer session.

Gives Mate to Sister

Mrs. Martha Dietrich, a 33-year-old Cleveland mother of two children, has given up her husband so that her sister, Clara Wasikowski, 21, a blonde and pretty, can have him. She obtained a divorce to remove herself from the triangle "so the kid sister can be happy with him." Dietrich, 33, is a WPA worker. Mrs. Dietrich planned to go back to her work in a box factory as her former husband and her sister arranged for an immediate marriage.

GLIMPSE OF S.U.I. CAMPUS

Above is a commanding view of a portion of the University of Iowa campus, looking down Iowa avenue. On east campus can be seen a section of university hall on the left, stately Old Capitol in the center, to the right the physics building and on the extreme right the engineering building, which has on its roof the towers of WSUI, university radio station.

Iowa Lakeside Laboratory To Begin 28th Consecutive Season

100 Acre Campus On Shore of Okoboji Will Open June 15

The Iowa Lakeside laboratory, with its one hundred acres of campus on the shore of beautiful West Okoboji lake in northwestern Iowa, will open June 15 for its 28th consecutive season as a field biological station of the University of Iowa.

Designed to establish such acquaintance with the plants and animals of the central west as can be had by intensive study during the most favorable time of the year, the laboratory is located in a lake region rich in fauna and flora.

Well Equipped

Well equipped laboratories and residential cottages offer zoologists and botanists the opportunity field study and research in this region of rich biological interest.

West Okoboji lake, upon which the laboratory is located, contains 3,788 acres and is connected directly

with East Okoboji and Gar lakes, while many other smaller lakes are but a few miles distant. Each of these lakes presents different conditions of interest to biologists.

Many Types of Life

Many types of animal and bird life may be found near the laboratory, and in the waters of the Little Sioux river and nearby swamps are found water animals and plants not present in the lakes.

The laboratory itself was established in 1909 upon its present non-commercial basis, being financed largely by a group of alumni and friends.

In addition to study and research there are many other activities in which the student may take part, such as swimming, boating, fishing, tennis and golf.

A new helicopter, or rotating wing aeroplane, which can rise straight up at the rate of 2,000 feet per minute, is being built.

Cochran Will Present Visual Aid Exhibits

During the first term of the summer session this year, Lee Cochran of the visual education department will present a series of demonstrations and exhibits of the visual aids which may be obtained from the visual education department.

New developments in sound films and silent projection equipment as well as lantern slide, film slide, and opaque projectors will be exhibited and demonstrated.

All summer session students and persons interested in the use of visual aids may attend.

Special Demonstrations

Two special demonstrations of slides will be given this year by Mr. Cochran, showing the new subject matter which is now available. Instruction will also be given on the making of slides, which will be useful in classroom instruction.

Instruction will be given concerning the gathering of subject matter for visual education in public

schools. Mr. Cochran believes that there is a variety of subjects which may be easily gathered by those interested in visual education, which are not being used. Many educational photographs in magazines are suitable for the purpose and may be used by mounting them on cardboard and shown by means of the opaque projectors.

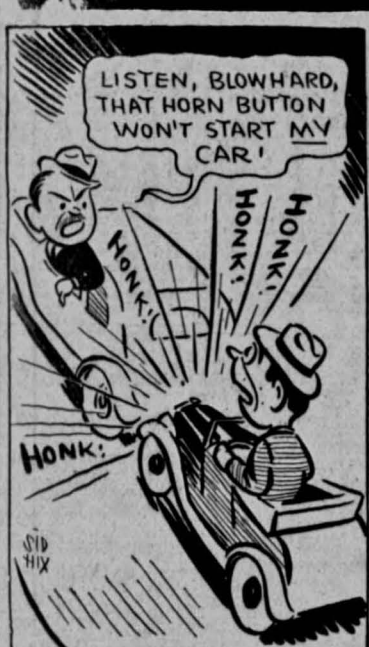

35 Subjects

Motion picture films and lantern slides on 35 subjects are available at the visual education department and they will be used in the demonstrations during the summer session. Instruction and information will be given regarding the operation of moving picture projectors or cameras to those who desire it.

Lewin to Discuss Palestine Education

Prof. Kurt Lewin of the Iowa Child Welfare Research station will conduct a round table discussion on "Education in Palestine" at a program arranged by the Palestine day committee of Iowa City and Cedar Rapids, in the chamber of commerce building in Cedar Rapids tomorrow afternoon.

Max Shulman of Chicago, who has spoken before the Philo club here, will deliver an address on "The Present Position of Jewish Colonies in Palestine" and a motion picture, "Land of Promise," will be shown at 11 a. m. tomorrow.

HORNING INTO TROUBLE

Button, button, who's got the button? Well, it's easy to figure it out in this case, there's nothing more disconcerting to the driver having trouble with his engine than the insane toot of some impatient nitwit behind. Has the car been stalled just to block traffic? It has

not! Is it going to help any in starting the engine? Emphatically no; quite to the contrary, this sort of duress arouses within the average man that little germ of stubbornness which we all possess and after the first barrage of toots the driver having the trouble will take his own good time fixing it.

A rose bush belonging to Mrs. Boynton Fleming of Santa Rosa, Tex., carried 633 buds and blossoms at once this year.

The Antarctic seas are considered by scientists to be more abundant in plant and animal life than any other water area.

P. E. Courses Now Designed For Teachers

Visiting instructors will supplement the work of regular staff members to provide a complete and well rounded program of physical education courses during the summer session.

Courses both for men and for women are offered, including special work that is not offered during the regular academic year. Courses are offered particularly designed for teachers who have majored in another field, but who are called upon to carry the physical education program in addition. Advanced courses for trained teachers of physical education are provided. Graduate study in physical education was organized at the university in 1925-26.

Courses not offered during the regular academic year, to be offered this summer, include an advanced course in supervision and community problems under Grace Stafford of Gary, Ind.

Ruth Murray of Wayne university, Detroit, Mich., will offer courses in modern dance.

Louis E. Hutto, supervisor of physical education in Des Moines public schools, will approach principles of physical education both from the point of view of the public school system and from the scientific point of view.

The seventh annual physical education conference will take place at the university June 25 and 26, with all meetings open to summer students and teachers. Leaders this year will be Delbert Oberteuffer of Ohio State university, Ermine Tucker of Minneapolis, Minn., Miss Murray and Mr. Hutto.

Justin A. Peterman, a Fort Arthur, Tex., collector, estimates that it has required 40 years to build up his group of world stamps to a total of 22,000.

F.D.R.'s Secretary?

Stanley H. High

Stanley H. High, former editor of the Christian Herald, is being mentioned for the post of private secretary to President Roosevelt to succeed the late Louis McHenry Howe. High, 41 years old and founder of "Good Neighbor league," has had a desk in the democratic national headquarters in Washington and is said to have contributed editorial assistance to the last two speeches broadcast by President Roosevelt.

NEW ENGINEERING DEAN

Prof. Francis M. Dawson of the University of Wisconsin will assume his new duties as dean of the college of engineering July 1. He succeeds C. C. Williams, who resigned last September to accept the presidency of Lehigh university, Bethlehem, Pa. Since last October Prof. Byron J. Lambert has been serving as acting dean. The law, medicine and graduate colleges have had new deans in addition to Dean-Elect Dawson since May, 1935. Prof. George D. Stoddard, appointed in December to succeed Dean Carl E. Seashore, who has resigned after 28 years of service as graduate college head, will assume his duties July 1. First of the new series was Dr. Ewen M. MacEwen, who became medical dean just a year ago. Then in June, Wiley B. Rutledge was selected as law college dean to succeed Eugene A. Gilmore, who had been elevated to the presidency. Of the nine deans, four—Paul C. Packer in education, Alvin W. Bryan, dentistry, Stoddard and MacEwen—hold degrees from the University of Iowa. It is a strange coincidence that three of the executives—George F. Kay in liberal arts, MacEwen and Dawson—are natives of Canada.

R. Powell, H. Grant Win Last Senior Law Practice Trial

Robert Powell of Traer and Herman Grant of Davenport won the concluding senior practice trial of the year, a murder case, this week.

Powell and Grant were prosecuting attorneys, opposing Defense Attorneys Boni Druker of Marshalltown and Morton Adler of Des Moines. A verdict of guilty of the crime of manslaughter was handed down.

George Van Allen of Mt. Pleasant was the defendant in the case. Witnesses were Elliot Thomas of Randolph, Joseph Steele of Postville and Robert Price of Langdon, N. D.

Housing Office Lists Satisfactory Rooms

A list of approved rooms for summer session students is now being compiled by the housing service office located in Iowa Union, Prof. F. E. Holmes, manager, announced yesterday.

A list of apartments for married couples is also being made. Information on housing problems is offered to any interested students. Householders who have rooms available have been asked to notify the housing service office as soon as possible.

6 Visitors To Teach Classical Courses Here

Courses in the classical languages department at the University of Iowa will be taught during the summer vacation by six visiting staff members from three states.

With three Iowans included in the group, all are successful high school teachers with the exception of Prof. Edmund D. Cressman of the University of Denver.

American Prefaces Will Be Continued

American Prefaces, University of Iowa literary magazine, will continue during the summer months as a monthly periodical, the editor, Prof. Wilbur L. Schramm of the English department, has announced.

Definite plans for the three summer issues have not yet

412,500 Books for Study!!

University Libraries Await Exploration As Summer Session Time Draws Near

Approximately 412,500 books in the university libraries await exploration by students coming to the University of Iowa this summer.

Indispensable for the college requirements of reading, study, and reference, the university libraries carry their influence from East hall to the medical buildings across the river. The university library is the largest library in the state.

Largest Collection in General
The largest collection of books is in the general library, located in Macbride hall, with accommodations for 285 readers. Contained in this division are collections on economics, English, general subjects, his-

been made, but Professor Schramm plans to have one of these a special midsummer number. It will contain all fiction and light reading.

tory, home economics, speech, political science, Scandinavian, and sociology.

In the library annex are located the reserve reading room with accommodations for 350 readers; the periodical reading room containing current newspapers and periodicals of a general nature; and the document reading room with space for 36 readers.

Special Collections
Special collections of the university libraries include the Tabot library in the chemistry building, containing more than 3,000 volumes, pertaining chiefly to natural history, exploration and travel; the

Mary Ranney Memorial library of approximately 4,500 volumes; and the Brewer Leish Hunt collection.

Departmental libraries open during the summer session are the botany-chemistry library, the engineering library, the medical library, the commerce library, the geology library, the physics library, the zoology library, the education-philosophy-psychology library, the mathematics library, and the law library.

Union Library Popular

In Iowa Union is one of the most popular libraries of the campus. Situated just off the main lounge, the library is more informal in nature than any of the other university libraries. It was started with the idea of providing a place where students might do recreational reading in comfort and without supervision. Book chats are another feature on Iowa Union library.

Fishworms, or night crawlers, can distinguish any color of light except red.

S.U.I. Plays Host To 11,000 in Contests During School Year

At the close of the academic year in June some 11,000 persons will have visited the University of Iowa for conferences and non-athletic contests since last September.

The largest event was the music festival with 6,500 competitors and supervisors. The state scholarship contest will attract about 1,200 and the child development and parent education conference, 800. Participants in the play production festival and forensic meet numbered 750.

Estimates place the number of contest participants in five events at 8,800 and the total visitors at six conferences at 2,100.

SANDWICHES

Sundry Sports, Good Facilities Provide Ample Opportunities For Summer Students' Exercise

Tennis Proves Most Popular; 3 Golf Courses Open

Although summer school students are famed as the advocates of hard study, they play harder than any group, and for their recreation Iowa City provides ample opportunity. Here the student in search of exercise and recreation can indulge in everything from ping-pong to horse-shoe playing.

Tennis, to bring up the most important sport right off the bat, is probably king on the Iowa campus during the summer. More than 35 courts are kept in perfect condition on the campus alone, with a few scattered throughout the city.

Baseball, Softball
Baseball and softball make up a large part of the average summer schooler's sports curriculum. Various leagues have been formed. Quadrangle residents have section leagues, while there is an open loop composed of Quad, Tent City and fieldhouse teams.

To the golf lover, Iowa City is really a Utopia. Three courses, all kept in prime condition, are easily accessible and available to the use of the student. Pinkbine field, an 18 hole course whose boundaries extend to the edge of the west campus and to U.S. highway 6 on the west edge of town, is rated one of the best university golf courses in the country.

Its rolling terrain, surmounted by the trim white clubhouse located in a grove of trees in the center of the course, is the haven of those golfers who haven't time to go to more distant links and is well-populated from morning to night.

The nine-hole country club course, which nestles near the Iowa river on the northwest edge of the city, provides some of the best natural hazards of any links in the state. Fairview, another fine nine-hole course, is located about two miles east of Iowa City on U.S. highway 6.

Smooth-flowing Iowa river, which courses its meandering way through the campus, is the water sporting place during the summer. Canoeing is probably the most popular activity on the river and the flashing paddles of canoeists cut silvery streaks through the water from dawn until dark.

Quarries Popular
Although the Iowa river is used by some for swimming, the fieldhouse pool is the most popular place in town. The quarries, however, about 12 miles northeast of the city, boast ice-cold, spring fed water, which attracts perspiring students. A trained corps of lifeguards, who patrol the river hourly in a speedboat, is furnished by the university to safeguard the students who use the Iowa river.

Tournaments are popular, especially golf and tennis meets. The

university golf mentor, Coach Charles Kennett, arranges amateur tournaments from time to time to be participated in by anyone who uses the golf course. The annual Iowa City men's tourney, staged at the country club, is also open to any amateur desiring to enter.

Mississippi Valley Meet
Tennis tournaments are put on for Quadrangle and dormitory residents and persons living in the city. There is also the Mississippi Valley tourney, conducted by Prof. E. G. (Dad) Schroeder of the physical education department. This event has grown to one of the larger events in the midwest and bids fair to grow still more. It is an open tournament for all amateurs, whether university students or not, and attracts stars from all over the country.

There is also a horseshoe pitching contest, put on for the benefit of those students who think the barnyard pastime is still better than the more sophisticated means of seeking exercise. There are pitching courts near the Quadrangle, fieldhouse and in other parts of Iowa City.

13 Courses To Be Offered In Politics Here

Thirteen courses, dealing with new angles of contemporary political science, will be offered by the political science department during the 1936 summer session.

Seven of the courses, which include all recent developments, will be given during the first term, June 8 to July 16, and the remaining six subjects will be offered during the second session, July 20 to Aug. 20.

The courses treating contemporary situations are: American government, European governments, municipal government, political parties, constitutional law, oriental civilization, trends in American civilization, American political ideas, contemporary legislation, imperialism, world government, world politics, and a forum for the discussion of contemporary issues.

Instructors who will teach the courses are Professors Ivan L. Pollock, George F. Robeson, Frank E. Horak, John E. Briggs, Kirk H. Porter, Jacob Van der Zee, and Ethan P. Allen and Sudhindra Bose, all of the political science department.

Noted Physicist Will Give Public Lecture Here Late in June

A public lecture and round table discussion June 19-20 by Prof. Arthur H. Compton, physicist, will mark the high spot of summer activities in the physics department this summer.

A three-day colloquium will be June 11, 12 and 13 for visiting teachers. Included on the program are lectures dealing with the subject of electrolytes, the kinetic theory and the physics of metals. Several conference members will present papers discussing the problem of teaching the unusually able student. Social activities are also being planned for the group.

Courses offered during the two terms of the summer session will include courses in the teaching of physics, atomic physics, the study of electricity, elementary and advanced physics and the study of optics and acoustics.

Culbertson To Join Faculty Second Term

Prof. James B. Culbertson of the Cornell college chemistry department will join the regular faculty of the chemistry department during the second term of the summer session.

Professor Culbertson taught chemistry at Iowa Wesleyan college for seven years and has been teaching at Cornell college for the last eight years.

Organized in nine divisions, the chemistry department offers courses in analytical chemistry, biochemistry, industrial chemistry and chemical engineering, inorganic chemistry, toxicology, and water and sewage chemistry.

32nd Session Offers 6-Week Library Course

Six weeks library training will again be offered at the 32nd session of the summer library school. Discontinued in 1932, the course will be resumed this year by popular demand.

Emma Felsenthal, director of the library school, will be in charge.

The curriculum, which provides training in the fundamentals of library service, includes cataloging, classification, library administration and school library service. Other courses dealing with children's literature, book selection and reference books are of value to teachers as well as librarians.

In addition to Miss Felsenthal, other instructors will be Julia A. Robinson, executive secretary on the Iowa state library commission; Margery Doud, readers' adviser in the St. Louis public library; Mrs. George J. Roe, supervisor of high school libraries in Cedar Rapids; and Letha M. Davidson, librarian of the Ames public library.

ETTA KETT—

QUADRUPLETS, QUINTUPLETS - GOATS AND LAMBS!

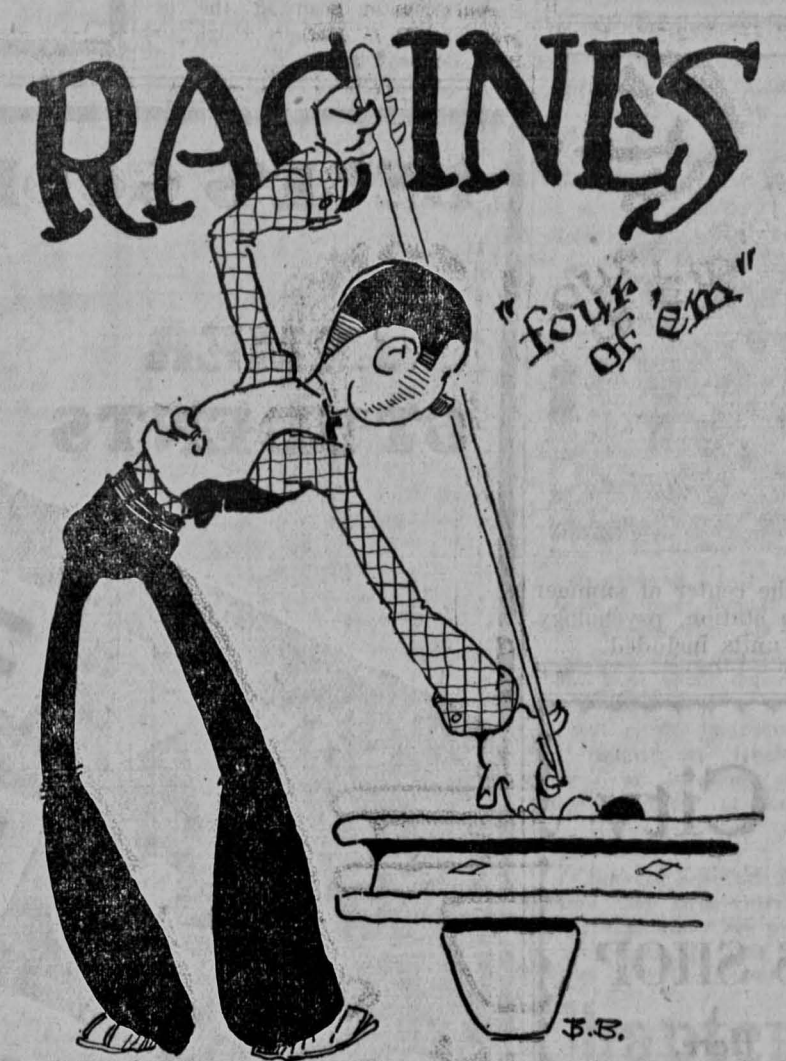

The quadruplet goats of New Castle, Ind. The lambs, five of them

Quadruplet goats and quintuplet lambs! That's the unusual in the animal world today. At the top are the quads, really quintas as another "kid" is shown with them. The goats were born on the farm of Amos Clawson near Newcastle, Ind. The boy is Elmer Clawson. At the left are the quintuplet lambs, born to a prize ewe on the farm of George Harms at Aberdeen, S. D. Multiple births among sheep in South Dakota seems to be common this year, for the operator of the Harms' farm has several sets of triplets and quadruplets. Quints are rare, however.

Hog slaughter will probably increase 30 to 35 per cent between now and next September as compared with the corresponding period a year ago, the bureau of agricultural economics predicts.

A five-year closed season on the killing of marten, fisher, wolverine and otter to save them from extinction is urged by Ira N. Gabrielson, chief of the bureau of biological survey.

Sure, you'll find Joe College there

Along with all his buddies, either playing pool or billiards, drinking a malted, eating at our luncheonette, or just enjoying himself in general.

Famed Men to Appear on University Summer Lecture Series

Program To Start Here June Twelfth

5 Prominent Speakers To Address Crowds Out-of-Doors

Five nationally prominent men will appear on the summer university lectures program, which will begin with an address and round-table by John Erskine, June 12 and 13.

Other lecturers on the program will be Arthur H. Compton, University of Chicago scientist, who will speak here June 19 and 20; Isaiah Bowman, president of John Hopkins university, June 26 and 27; Louis K. Anspacher, dramatist and philosopher, July 2 and 3; and Mark Sullivan, Washington newspaper correspondent, July 10 and 11.

Out-of-Doors
The summer lectures will be given out-of-doors, on the west terrace of Old Capitol, weather permitting, and the following morning at 9 o'clock each lecturer will conduct a round-table in Old Capitol. The lecture program is being arranged by the senate board on university lectures of which Prof. Benj. F. Shambaugh is chairman.

Mr. Erskine, first speaker of the series, was scheduled to lecture on the university lecture program last fall but was unable to appear because of injuries received in an automobile accident. A professor of English at Columbia university, he is also president of the Juilliard school of Music, director of the Metropolitan Opera company, an accomplished pianist, and well known author. Among his writings are the "Private Life of Helen of Troy," "Galahad," "Adam and Eve," and magazine articles and stories.

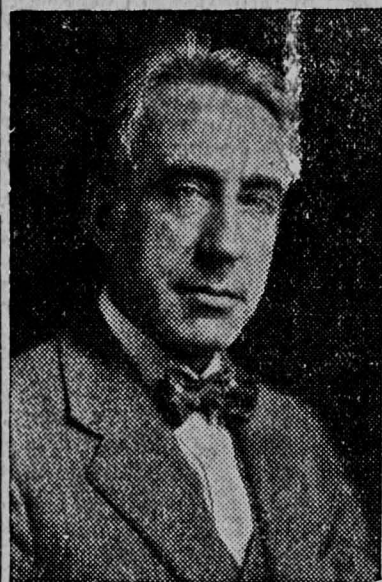

Awarded Nobel Prize
Known for his outstanding work with cosmic rays, Mr. Compton, professor of physics at the University of Chicago, was awarded the Nobel prize for physics by the Swedish Academy of Sciences in 1927. He has also won the Rumford gold medal awarded by the American Academy of Arts and Sciences.

Yale-trained geographer
Isaiah Bowman, president of John Hopkins university since last June, was active in compiling an Atlas of the Historical Geography of the United States. In 1921 he was rewarded for his geographical and scientific work by an appointment to the presidency of the International Geographical union, and in 1933 he became chairman of the National Research council.

Famed as Dramatist
Mr. Anspacher, who delivered a university lecture here on the 1935-36 university lectures program, is famed as a dramatist, philosopher, orator and poet. He has lectured as a staff member of the Brooklyn Institute of Arts and Sciences and of the League of Political Education of New York. He has also delivered a series of lectures at Columbia university extension and many other universities. Familiar with the theater from behind scenes as well as from the viewpoint of dramatists' study, he is the author of numerous well known plays.

Commentator on public affairs
Mr. Sullivan's New York Herald Tribune syndicate articles appear in 72 American newspapers. He is sometimes referred to as "the king of the capital's newspaper royalty."

UNIVERSITY LECTURES SPEAKERS

Five outstanding men in their particular fields will appear on the summer university lectures program. John Erskine, left, author and educator, will open the program with an address and round table, June 12 and 13. Louis Anspacher, dramatist, right, will be here July 2 and 3. Other speakers will be Arthur Compton, University of Chicago scientist, Isaiah Bowman, president of Johns Hopkins university, and Mark Sullivan, newspaper correspondent.

Varied Activities Make East Hall an Educational Center

East hall, the home of the graduate college and the college of education, is the center of summer session activity.

Dean Paul C. Packer of the college of education, who is also director of the summer session, has his offices in the west wing of the building.

It also houses the Iowa Child Welfare Research station, the psychology department, philosophy department, the main office of the extension division, and the teachers' placement bureau.

On the ground floor are the psychology and speech laboratories, the psychological clinic for speech defects, and offices of the extension division.

First Floor Offices
Administrative offices and private offices of staff members are

situated on the front floor. The library, which houses education, philosophy and psychology books and periodicals, is located on the second floor.

Also in East hall are educational psychology laboratories, the psychology art studio, and the office of the bureau of educational research and service.

Graduate College
The graduate college, with offices in the central wing, offers facilities for study and research for advanced degrees. The minimum residence requirement for a master's degree is one academic year. Four summer terms of six weeks or three entire sessions of 11 weeks are considered the equivalent of a year's residence.

Dean Carl E. Seashore of the graduate college, who has been dean for 28 years, resigned in De-

Will Offer 15 Botany Studies This Summer

Fifteen courses will be offered by the botany department in the first summer session and nine courses for the second session.

In addition to the faculty members already connected with the summer school, the department has secured Prof. Paul Weatherwax, Indiana university botanist who is known for his studies on the ancestry of corn and will teach a course in field botany during both terms of the 1936 summer session. This will be Professor Weatherwax's first service as a staff member here.

Added to the regular laboratories for elementary botany and mycological work, there are those which are designed especially for taxonomy, ecology, and morphology and history of plants. In addition, there are herbaria, lecture rooms, photographic dark rooms, preparation rooms and individual research rooms. The roof of the building carries a well equipped modern plant house which serves as a convenient source of living material for laboratory purposes.

Texas births decreased 2,166 last year from 1934. There were 114,437 babies in 1935. There were 185 births to 100 deaths in 1935.

His resignation will become effective July 1, and Prof. George Stoddard, director of the Iowa Child Welfare Research station, will be the new dean.

Visiting Lecturers
Five visiting lecturers of the college of education will supplement the regular staff. Visiting lecturers will be Phillip Milo Ball, president of Chevy Chase school, Washington, D. C.; Elaine Dickinson, supervising teacher of industrial arts, Grand Rapids, Mich.; Prof. James Glass of the Rollins college education department; T. Raymond McConnell, dean of Cornell college and head of the education department; Malcolm Poyer Price, assistant director of public schools, Detroit, Mich.; Prof. Edwin H. Reeder of the University of Vermont education department.

Wrong Again!! The Black Angel Never Was White...

Contrary to romantic and mysterious superstitions the "black angel" monument in Oakland cemetery did not turn black over night. It is not the stone replica of a woman. Since it was made in Chicago, it did not change color while coming across the Atlantic from Europe. And it was never white.

The bronze monument was bought by Mrs. Teresa Feldevert, who died Nov. 18, 1924. Its cost was \$5,000, according to L. J. Miller of the Miller Bros. monument works here.

Even when the monument was set up the bronze was beginning to turn green. Since then it has turned black, says Mr. Miller.

Another romantic notion gone smash, say Iowa Citians.

SUI Departments To Offer Again Special High School Training

For the sixth summer the speech and dramatic arts department will offer special training for high school students.

Special instruction is given students with speech defects as well as those with talent in acting, public speaking, debating and declamation.

Courses to be offered and the instructors are as follows: dramatic art, Dina Rees Evans of Cleveland Heights, Ohio; debate and oratory, Prof. H. Clay Harshbarger of the speech department; principles of speech, Prof. Harry G. Barnes of the speech department; and speech correction, Prof. Lee E. Travis, director of the speech clinic.

Students are housed in university dormitories, where special supervisors also live.

7 Courses Will Be Offered in Philosophy

Seven courses will be taught during the first term of the summer session, in the philosophy department, and three courses will be conducted during the second term.

Courses will be taught by Prof. Herbert Martin, head of the department, Prof. Herbert Peigi, and Prof. Bonno Tapper.

Regular Zoology Staff to Supervise Summer Courses

Opportunity for study and research in many fields of zoology under supervision of the regular zoology staff members will be afforded zoology summer school students this year.

Included among the courses offered are general zoology, comparative anatomy, embryology, genetics, physiology, protozoology, entomology, and courses in geography.

Advanced courses and opportunity for research will be given to graduate students.

Mathematics Dep't To Offer Courses

Six members of the mathematics department will present courses in first year and advanced mathematics during the two terms of the summer session.

Among the courses given will be study of calculus, first year mathematics, modern geometry, selected topics in algebra, differential equa-

tions, and the mathematics of finance. A five hour course on the con-

cern and teaching of mathematics will be offered during the first term.

HERE'S GOOD NEWS FOR SUMMER STUDENTS

WE RENT FURNITURE

AND WE MEAN ALL KINDS OF FURNITURE

Here's a big help for you, for if you want to rent just a few odd pieces for your room in Iowa City—or if you wish to furnish an apartment complete—or if you wish equipment for your tent in tent city—be sure and see us—we will be ready to outfit you when you arrive.

SUMMER after SUMMER

Hundreds of university summer students take advantage of the opportunities that McNamara's rental furniture department offers—and they all enjoyed additional comfort and satisfaction for VERY LITTLE MONEY.

YES! WE RENT RADIOS

All Electric Sets are always available for RENTAL SERVICE—thus you can enjoy the convenience of a radio right in your own quarters for very little money.

If your furniture or upholstery needs re-finishing or re-upholstering then by all means send it to our shop. The people we employ in this department of our store will fix up your furniture like new and add many years to its service at a minimum of cost to you.

Visit Iowa City's most complete Drapery Department. Special Values on all short lengths NOW—before moving our Drapery Dept. to 5th floor.

Visit our completely remodeled floor covering department on fifth floor.

are negligible. Play ground space and swings, sandpiles, a wading pool and games are provided. Play-ground supervisors from the physical education departments direct activities of children during certain hours each day.

Shower, toilet and laundry facilities are provided in a brick building. Hot water is available at all times. For adults, recreation and study rooms are provided.

Have Own Government
Residents of the summer camp elect a mayor and council to provide themselves with civic government. Rigidly enforced are two rules: speed limits must be observed, and dogs are prohibited because of the number of small children in the camp.

Campers may bring their own tents or rent them from the university. Most of the university's tents are 12 by 14 feet, but a few larger ones, 16 feet square, are available. Electric lighting is provided for each tent, and city water taps are conveniently located about the grounds.

Furniture
A few rough pieces of furniture will be provided by the university, but in general, campers must furnish their own furniture.

Applications for reservations in the university's Tent City may be sent to the summer session office in Iowa City.
