Press Release 11 February 2014

A Manual for the Advanced Study of James Joyce's *Finnegans Wake*

in one hundred volumes

by C. George Sandulescu and Lidia Vianu

26,000 pages

From 11 November 2011 until 11 of February 2014, *Contemporary Literature Press* has published 100 volumes of FW lexicography. These volumes are, in fact, part of one big project, which, for practical purposes, we have entitled "A Manual". The list of these volumes can be found everywhere in the volumes. All the Lexicons can also be accessed, together with the full text of FW linearized, on Professor George Sandulescu's site,

<http://sandulescu.perso.monaco.mc/>

as well as the site of the Publishing House,

<http://editura.mttlc.ro/Joyce%20Lexicography.html>.

The three volumes we are publishing now focus on the practical side of our project. We have chosen Clive Hart's Segmentation of FW as an opportunity to study the role played by

Între 11 noembrie 2011 și 11 februarie 2014, *Contemporary Literature Press* a publicat 100 de volume în seria Joyce Lexicography. Ele reprezintă un singur mare proiect al editurii, pe care l-am intitulat, pentru rațiuni practice, "A Manual". Lista lor se află în interiorul fiecărui volum publicat. Lexicoanele pot fi accesate pe website-ul Profesorului George Sandulescu,

<http://sandulescu.perso.monaco.mc/>,

precum și pe cel al Editurii,

<http://editura.mttlc.ro/Joyce%20Lexicography.html> .

Cele trei volume pe care le publicăm acum țin tocmai de partea practică a proiectului nostru. Folosim Segmentarea lui Clive Hart pentru a cerceta rolul jucat de limbile străine în *Finnegans Wake*. Limba română este doar un început.

foreign languages in Joyce's text. Romanian has been used as one possible beginning.

The Rosetti Romanian Corpus (*echt rumänisch*) and the Clive Hart English Corpus are tools for the study of Romanian or any another language that might be relevant to the understanding of *Finnegans Wake*.

Cele două Corpus-uri pe care le publicăm acum, Rosetti Romanian Corpus (*echt rumänisch*) și Clive Hart English Corpus, sunt unelte de lucru pentru cei care vor să continue cercetarea legată de importanța limbii române, ori a oricărei alte limbi străine, în înțelegerea textului lui James Joyce.

Acknowledgments

Clive Hart: *A Concordance to Finnegans Wake*, Part Two, 'Syllabifications', pp. 345-459. University of Minnesota Press, Minneapolis, 1963.

N.B. Not all *Syllabifications* placement errors have been specifically corrected everywhere, though we have done the maximum to set everything right.

GS & LV

N.B. This Lexicographic Series as a whole is primarily meant as **teaching material** for the larger half of Continental Europe, which, for practically three quarters of a century, was deprived of ready access to the experimental fiction and poetry of the world. All Western literary criticism was also banned. Hence, the imperative necessity of re-issuing a considerable amount of post-war discussions. **The Publisher.**

Given the importance of James Joyce's *Finnegans Wake*, all postgraduates in English, Romanian, French, and German work on this research project as part of their normal and regular academic assignments.
