SCRALT there is decency enough left in THE GAZETTE has neither time, space nor Tak GAZATTA has heither time, space nor inclination to reply to the Attertion of the 25th ult at any length. As a mere tissue of vulgar abuse the Attertion article will not draw forth any retaliation. There are, however, two points to be noticed: one is this: our assailant says that the opposition papers are not entitled to be called news-parent. In magnet to this it is our paper Messrs Gulick and Noumann to resign after the showing up their administration has had. No one expects the Minister of For eign Affairs to show the faintest tinge of

shame at any position he names unge or shame at any position he may occupy. Every white man in the Honse with the exception of J. S. I think the arguments used against the granting of the charter are pertinent as far as they go, but will prove short in their prognostications of evril if the charter is ever granted. To claim that the charter differs but little from the United States National Bank Act, should have no weight in its favor, but the contary, it should be rejected for that cause alone, as there is no one thing in the United States to-day, franght with so much evil to the Government and people as the opposed to the forvernment and people as the spreckels proposed bank charter, applies with equal force against the United States National Banks, and much more could in truth be urged.
