FLORIDA KEYS AQUEDUCT AUTHORITY BOARD OF DIRECTORS' LABOR COMMITTEE MEETING Open to the Public

Florida Keys Aqueduct Authority 1100 Kennedy Drive Key West, FL 33040

Tuesday, August 27, 2019

2:00 p.m.

AGENDA

- 1. DOA 01. Review, Discussion and recommendation of the Evergreen Solution LLC Pay and Classification Plan for the Florida Keys Aqueduct Authority dated February 5, 2019
- 2. BOD 01. Review, Discussion and recommendation of the Florida Retirements System's Designation of Senior Management Service Class (SMSC)
- 3. Discussion

BOARD OF DIRECTORS, FLORIDA KEYS AQUEDUCT AUTHORITY AGENDA ITEM SUMMARY

AGENDA ITEM:

DOA-OI TAB:

CONSENT:

REGULAR: X

MEETING DATE: AUGUST 27, 2019

DIVISION: ADMINISTRATION

AGENDA TITLE: Review, Discussion and recommendation of Evergreen Solutions, LLC Pay and Classification Plan for the Florida Keys Aqueduct Authority dated February 5, 2019.

ITEM BACKGROUND: In March 2018 Evergreen Solutions was engaged to conduct a Pay and Classification Study for the Authority. The purpose of the study was to analyze the Authority's classification and salary system and receive recommendations to improve the Authority's position in the market and analyze the internal and external equity of the compensation system. Evergreen Solutions has recommended that the Authority create a revised competitive open-range pay plan, slot all classifications into the plan based on external and internal equity and implement the new structure by transitioning employees' salaries into the plan.

Existing employees' salaries were compared to the minimums of their classification's proposed pay ranges. Evergreen recommended if an employee's salary was below their pay range minimum, an adjustment be made to raise the individual's salary to the new minimum. Utilizing this approach, Evergreen recommends adjustments for 52 employees with an approximate annualized cost of \$140,212. With the time lag from the time this study was prepared and today, the adjustments would now affect 64 employees with a cost of \$182,124.86

PREVIOUS RELEVANT ACTION BY FKAA BOARD OF DIRECTORS:

1999: FKAA Board adopted the DMG-Maximus Classification and Compensation Study Plan.

2006: FKAA Board adopted a revised plan after receiving an updated study.

2014: FKAA Board authorized Evergreen Solutions, LLC to complete a new Classification and Compensation Study. The Study was reviewed by the Board but no changes to the plan were implemented

STAFF RECOMMENDATION (MOTION): Board approve and adopt Evergreen Solutions Pay and Classification Plan for the Florida Keys Aqueduct Authority dated February 5, 2019 and adjust existing salaries below the classification pay range minimum. Effective October 1, 2019.

SUPPLEMENTAL INFORMATION: Attachments: Evergreen Solutions Pay and Classification Study for the FKAA Existing salary adjustment document.

EVERGREEN SOLUTIONS, LLC

Chapter 1 - Introduction

Evergreen Solutions, LLC (Evergreen) conducted a Pay and Classification Study for the Florida Keys Aqueduct Authority (FKAA) beginning in March 2018. The purpose of the study was to analyze its classification and compensation (salary) system and make recommendations to improve FKAA's competitive position in the market. The study activities involved analyzing the internal and external equity of FKAA's system and making recommendations in response to those findings. Evergreen was also tasked with preparing and providing revised job descriptions. The revised job descriptions will be provided to FKAA under separate cover.

Study tasks involved:

- holding a study kick-off meeting;
- analyzing FKAA's current salary structure to determine its strengths and weaknesses;
- conducting employee outreach by leading orientation and focus group sessions for employees and conducting interviews with department heads;
- facilitating discussions with FKAA's project team to develop an understanding of its compensation philosophy;
- collecting classification information through the Job Assessment Tool (JAT) process to analyze the internal equity of FKAA's classification system;
- developing recommendations for improvements to classification titles and the creation of new titles as appropriate;
- conducting a market salary survey to assess external equity (market competitiveness) of FKAA's current pay plan, and compare and contrast with peer organizations;
- developing a competitive compensation structure and slotting classifications into that structure while ensuring internal and external equity;
- developing optional methods for transitioning employees' salaries into the new structure and calculating cost estimates for implementation;
- providing FKAA with information and strategies regarding compensation and classification administration;
- preparing and submitting draft and final reports that summarize the study findings and recommendations; and

• updating job descriptions to reflect recommended classification changes and employee responses to the JAT, and Fair Labor Standards Act (FLSA) status recommendations.

1.1 STUDY METHODOLOGY

Evergreen Solutions used a combination of quantitative and qualitative methods to develop recommendations to improve FKAA's competitive position for its classification and compensation systems. Study activities included:

Kick-off Meeting

The kick-off meeting allowed members of the study team from FKAA and Evergreen to discuss different aspects of the study. During the meeting, information about FKAA's compensation and classification structure, and pay philosophy was shared and the work plan for the study was finalized. The meeting also provided an opportunity for Evergreen to explain the types of data needed to begin the study.

Analysis of Current Conditions

This analysis provided an overall assessment of FKAA's current pay structure (plan) and related employee data at the time of the study. The current pay plan and the progression of employees' salaries through the pay ranges were examined during this process. The findings of this analysis are summarized in **Chapter 2** of this report.

Employee Outreach

Employee outreach consisted of focus group meetings and interviews with senior leaders. The focus group meetings and department head interviews allowed FKAA employees, supervisors, and senior leaders to identify practices that were working well and to suggest areas of opportunities for improvement regarding the compensation and classification system, and employee benefits. The feedback received during these sessions is summarized in **Chapter 3** of this report.

Compensation Philosophy

Evergreen conducted meetings with FKAA's project team to develop an understanding of its position with regard to employee compensation. Several key factors were examined and provided the framework for the recommended classification and compensation system and related pay practices.

Classification Analysis

To perform an analysis of FKAA's classification system, all employees were asked during employee outreach to complete a JAT to describe the work they performed in their own words. Supervisors were then asked to review their employees' JATs and provide additional information as needed about the position. The information provided in the completed JATs was utilized in the classification analysis in two ways. First, the work described was reviewed

to ensure that classification titles were appropriate. Second, the JATs were evaluated to quantify, by a scoring method, each classification's relative value within the organization. Each classification's score was based on employee and supervisor responses to the JAT, and the scores allowed for a comparison of classifications across FKAA.

Salary Survey

For the salary survey, peers were identified that compete with FKAA for human resources and/or provide similar services. Classifications representing a cross-section of the departments and levels of work were selected as benchmarks. After the selection of peers and benchmarks, a survey tool was developed for the collection of salary range data for each benchmark. The salary data collected during this survey were analyzed, and a summary of the data can be found in **Chapter 4** of this report.

Recommendations

During the review of the compensation philosophy, FKAA identified its desire to have a compensation structure highly competitive with the labor market. Understanding this, and utilizing the findings of the analysis of both internal and external equity, a new classification and compensation structure was created at this market point. Next, implementation options were developed to transition employees' salaries into the new structure (pay plan), and the associated costs of adjusting employees' salaries were estimated. Information was provided on how to execute the recommended salary adjustments, as well as how to maintain the classification and compensation system going forward. A summary of all study findings and recommendations can be found in **Chapter 5** of this report.

1.2 REPORT ORGANIZATION

This report includes the following additional chapters:

- Chapter 2 Assessment of Current Conditions
- Chapter 3 Summary of Employee Outreach
- Chapter 4 Market Summary
- Chapter 5 Recommendations

EVERGREEN SOLUTIONS, LLC

Chapter 2 – Assessment of Current Conditions

The purpose of this evaluation was to provide an overall assessment of FKAA's compensation structure, employee salary progression, and employee counts in each department. Data included here reflect the conditions when the study began and should be considered, as such, a snapshot in time. The insights gained from this evaluation provided the basis for further analysis through the course of this study and were not considered sufficient cause for recommendations independently. Instead, the results of this evaluation were considered during the analysis of internal equity and peer market data. Subsequently, appropriate compensation related recommendations were developed for FKAA and are described later in this report.

2.1 PAY PLAN ANALYSIS

FKAA administered one pay plan for all employees. **Exhibit 2A** illustrates the plan which had an open-range design with established minimum, midpoint, and maximum salaries. The pay plan consisted of 33 ranges for 268 employees, with four ranges currently vacant. Range spreads—the percentage difference between the minimum and maximum of the pay ranges—started at 53 percent at the lower end of the pay plan and increased to 69 percent at the higher end of the plan, although with some anomalies.

М	inimum	М	idpoint	М	aximum	Range Spread	Employees
\$	15,382	\$	19,467	\$	23,552	53%	1
\$	21, 216	\$	26,775	\$	32,333	52%	0

EXHIBIT 2A EMPLOYEE PAY PLAN

Source: Created by Evergreen Solutions from data provided by FKAA as of March 2018.

2.2 EMPLOYEE SALARY PLACEMENT BY PAY RANGE

When assessing the effectiveness of FKAA's pay plan and practices, it is important to analyze where employees' salaries fell within each pay range. Identifying those areas where there may have been clusters of employees' salaries could illuminate potential pay progression concerns within the current pay plan. It should be noted that employees' salaries, and the progression of the same, is associated with an organization's compensation philosophy—specifically, the method of salary progression and the availability of resources. Therefore, the placement of employees' salaries should be viewed with this context in mind.

Exhibit 2B illustrates the placement of employees' salaries relative to pay range minimums and maximums. The exhibit contains the following:

- the pay ranges,
- the number of employees in classifications assigned to the pay range,
- the number and percentage of employees with salaries below the minimum,
- the number and percentage of employees with salaries at the minimum,
- the number and percentage of employees with salaries at the maximum, and
- the number and percentage of employees with salaries above the maximum.

EXHIBIT 2B SALARY PLACEMENT BELOW MINIMUM AND ABOVE MAXIMUM BY PAY RANGE

Source: Created by Evergreen Solutions from data provided by FKAA as of March 2018.

Employees with salaries at the range minimum are typically new hires or are new to their classification following a recent promotion; on the other hand, employees with salaries at the range maximum are typically highly experienced and proficient in their classification. As **Exhibit 2B** illustrates, at the time of this study, there was one employee with a salary below their range minimum and 21 employees with a salary above their range maximum.

Exhibit 2C illustrates the placement of employees' salaries relative to pay range midpoints. The exhibit contains the following:

- the pay ranges,
- the number of employees in classifications assigned to the pay range,

Chapter 2 - Assessment of Current Conditions

- · the number and percentage of employees with salaries below the midpoint,
- the number and percentage of employees with salaries near the midpoint (within a dollar amount), and
- the number and percentage of employees with salaries above the midpoint of each pay range.

Source: Created by Evergreen Solutions from data provided by FKAA as of March 2018.

Employees with salaries close to the midpoint of a pay range should be fully proficient in their classification and require minimal supervision to complete their job duties while performing satisfactorily. Within this framework, range midpoint is commonly considered to be the salary an individual could reasonably expect for similar work in the market. Therefore, it is important to examine the percentage and number of employees with salaries above and below the calculated midpoint.

Of the 268 employees with classifications in FKAA's pay plan, 138 employees (51.5 percent) had salaries below the midpoint of their respective range, no employees had salaries at the midpoint, and 130 employees (48.5 percent) had salaries above the midpoint.

2.3 SALARY QUARTILE ANALYSIS

This section provides an additional analysis of the distribution of employees' salaries across the pay ranges at the time of this study. Examining employee salary placement by range quartile provided insight into whether clustering of employees' salaries existed within each pay range. For this analysis, employees' salaries were slotted within one of four equal distributions. The first quartile (0-25) represents the lowest 25 percent of the pay range. The second quartile (26-50) represents the segment of the pay range above the first quartile up to the pay range's midpoint. The third quartile (51-75) represents the part of the pay range above the midpoint up to the 75th percentile of the pay range. The fourth quartile (76-100) is the highest 25 percent of the pay range. This analytical method provided an opportunity to assess how employees' salaries are disbursed throughout each range.

Exhibit 3D provides a breakdown of placement of employees' salaries relative to salary quartile and provides the following:

- the pay ranges,
- the number of employees per pay range, and
- the location (by quartile) of the employees' salaries within each range.

FKAA's employees' salaries were fairly evenly distributed throughout their pay ranges. In order of employee concentration, 77 employees (28.73 percent) earned in the first quartile of their respective pay ranges, 71 (26.49 percent) in the fourth quartile, 61 (22.76 percent) in the second quartile, and 59 (22.01 percent) in the third quartile.

Range	Total	1st Quartile	2nd Quartile	3rd Quartile	4th Quartile

2.4 EMPLOYEES BY DEPARTMENT

At the time the study commenced, FKAA employed 268 individuals across eight departments. **Exhibit 2E** depicts the number of employees and the number of classifications in each department and is intended only to provide basic information regarding how employees are

distributed among departments. Also provided is the percentage breakdown of employees by department.

Department	Employees	Classes	% of Total
Customer Service	34	9	12.7%
Engineering	42	30	15.7%
Executive	8	8	3.0%
Finance	30	22	11.2%
Human Resources	4	4	1.5%
Information Technology	8	8	3.0%
Operations	116	45	43.3%
Wastewater	26	12	9.7%
Total	268	138	100.0%

EXHIBIT 2E EMPLOYEES BY DEPARTMENT

Source: Created by Evergreen Solutions from data provided by FKAA as of March 2018.

As the exhibit illustrates, the largest department in FKAA is Operations, with 116 employees representing 43.3 percent of the FKAA's workforce.

2.5 <u>SUMMARY</u>

Overall, FKAA's compensation structure offered a firm foundation on which to improve. The key points of the current structure were:

- FKAA administered an open-range pay plan for 268 employees with 33 pay ranges.
- Employees' salaries were fairly evenly distributed throughout the pay plan, with almost half of employees' salaries falling above and slightly over half falling below their salary midpoints.

FKAA's pay plan provided employees with a clear pay structure and opportunities for salary growth. The information gained from this review of current conditions was used in conjunction with the market analysis data and internal equity review to develop recommendations for a competitive compensation plan that would best align with FKAA's compensation philosophy moving forward. These recommendations can be found in **Chapter 5** of this report.

EVERGREEN SOLUTIONS, LLC

Chapter 3 - Summary of Employee Outreach

Following the study kick-off, Evergreen consultants visited FKAA in March 2018 to conduct Employee Outreach. The process consisted of facilitating focus group meetings with employees and supervisors, as well as conducting interviews with department heads. During these meetings, questions were asked that were designed to gather participant feedback on several topics related to the study. To provide an opportunity for those who could not attend a session to provide input, an electronic survey was made available to all employees which included the same questions.

Participant responses from both methods were reviewed and provided the study team valuable information regarding the employees' and leaders' perceptions of the current compensation and classification system. Summarized below are their comments, perceptions, and suggestions related to each topic area.

3.1 GENERAL FEEDBACK

Many employees stated that they lived in area in which they worked and enjoyed serving the community in which they lived. Also, the benefits provided by FKAA were mentioned as a strong pull for many. While many of the comments received during outreach were positive, there was a perception that the current pay structure does not match market conditions. While Evergreen receives this input frequently while conducting these studies, this belief was expressed by employees in most of the sessions.

3.2 COMPENSATION

During the interviews and focus groups, employees expressed the following thoughts (beliefs) relating to FKAA's compensation system:

- there was limited opportunity for progression within salary ranges;
- the step system previously in place should be reinstituted;
- the annual across the board Cost of Living Adjustment (COLA) had not kept pace with the reality of the conditions in FKAA's service area;
- there was little incentive for the administrative/office positions to acquire additional experience, education, training, or certifications due to lack of or inadequate additional compensation; and
- there were significant inconsistencies with pay for similar work across FKAA.

3.3 <u>CLASSIFICATION</u>

Meeting participants expressed the following relating to FKAA's classification system:

- job titles did not always match the actual duties performed;
- there was not always a clear path of progression within a job family;
- there need to be levels within job families to provide advancement opportunities; and
- more consistency in titles was needed across departments.

3.4 MARKET PEERS

Outreach participants were asked to identify organizations they considered to be market peers competing for employees performing similar work. The most common responses are listed below and were considered when developing the list of peers for the salary survey:

- Florida Keys Electric Cooperative,
- Keys Energy Services,
- Key West Resort Utilities,
- Miami-Dade County, and
- Florida Power and Light.

3.5 BENEFITS

Although a review of employee benefits was not a focus of this study, interview and focus group participants were asked for feedback in this regard. Meeting participants commented that the employee benefits package was among the top reasons for seeking employment and remaining with FKAA. In particular, employees appreciated the generous retirement benefits. Some employees commented, however, that the ability to "sell back" unused vacation time would be appreciated.

3.6 SUMMARY

Overall, employees expressed satisfaction for working for FKAA and appreciated the generous benefits package. However, they believed that FKAA's compensation system was not competitive with the region's labor market. Also, they would like to see classification system changes that facilitate career progression and ensure that job titles accurately reflect the work being performed.

The concerns expressed and reported above are common and exist in many organizations today. FKAA's commitment to seeking employee input and feedback regarding the compensation and classification system is a positive step toward improvement in these areas. The input received during employee outreach served to provide a foundation for understanding the current environment while conducting the remainder of the study. It was considered when developing the recommendations provided in **Chapter 5** of this report.

EVERGREEN SOLUTIONS, LLC

Chapter 4 – Market Summary

This chapter provides a market analysis in which FKAA's salary ranges were compared to those at peer organizations. The data collected were used to evaluate the overall compensation at FKAA at the time of this study. It is important to note that the market comparisons contained herein do not translate at the individual level and are instead used to provide an overall analysis. The utilized methodology is not intended to evaluate salaries paid to individuals as this is typically determined through a combination of factors, which could include: the demand for a job, a candidate's prior experience, or an individual's negotiation skills during the hiring process.

Furthermore, it should be noted that market comparisons are best thought of as a snapshot of current market conditions. In other words, market conditions change and can change quickly; therefore, while market surveys are useful for making updates to salary structures or benefits provided to employees, they must be done at regular intervals if FKAA wishes to remain current with its market peers and salary trends.

4.1 SALARY SURVEY RESULTS

Evergreen collected pay range information from target organizations utilizing a salary survey tool. The development of this tool included selecting benchmark classifications to be surveyed. The desired outcome was to select a cross-section of FKAA's classifications, so that the surveyed positions made up a subset of all work areas and levels of classifications in FKAA. The job title, a description of assigned duties, and the education and experience requirements were provided in the survey tool for each benchmark classification.

The target peers were selected by Evergreen with concurrence from FKAA's project team. Several factors were utilized when developing this peer list, including organization size, cost of living, and the relative population being served by the organization. All data collected were adjusted for cost of living using a national cost of living index factor which allowed salary dollars from organizations outside of the immediate recruiting area to be adjusted for the cost of living relative to FKAA. **Exhibit 4**A provides the list of market peers from which data were collected for 62 benchmark classifications.

*Bold indicates data was collected from peer

FKAA expressed a desire to have a salary structure that would be competitive at the 75th percentile of the market. Based on this, Evergreen needed to first conduct a comparison of its current structure, or salary ranges for the benchmark classifications to the 75th percentile of the data collected from the targets (peers). **Exhibit 4B** provides a summary of these results and contains the following information:

- The market salary range information for each classification. This indicates the 75th percentile minimum, midpoint, and maximum of the peer survey data for each benchmark classification.
- The percent differentials (to FKAA's existing salary ranges). A positive differential indicates FKAA was above the targets' 75th percentile for that classification at the minimum, midpoint, or maximum. A negative differential indicates FKAA was below the 75th percentile for that classification. The final row provides the average percent differentials for the minimum, midpoint, and maximum for all benchmarked classifications. This represents an average of all classifications' differentials. Some positions did not have current salary ranges and no differentials could be calculated or provided in the exhibit.
- The survey average range width. This provides the average range spread for each classification surveyed determined by the 75th percentile minimum and maximum salaries of the respondents, relative to the minimum. The average survey range spread for each classification is located in the 2nd to the last column. The average survey range spread for all the classifications collectively is provided in the final row. The number of responses collected for each classifications is provided in the final column and the average number of responses for all the classifications is provided in the final the final row.
- Note: FKAA had range spreads on average of 60.0 percent while the peers' average range spread was 37.8 percent. This difference in range spreads impacted the differentials (at midpoints and maximums) presented in the comparisons below.

EXHIBIT 4B MARKET SALARY SURVEY SUMMARY (CONTINUED)

Market Minimums

A starting point of the analysis was to compare the peer's market minimum for each classification to FKAA's range minimums. Market minimums are generally considered as an entry level salary for employees who meet the minimum qualifications of a classification. Those employees with salaries at or near the range minimums typically are unlikely to have mastered the job and probably have not acquired the skills and experience necessary to be fully proficient in their classification.

As **Exhibit 4B** illustrates, for the benchmark classifications, FKAA was, on average, approximately 19.8 percent below the desired market position at the minimum of the respective salary ranges. The following observations can be made based on the collected data:

- The surveyed position differentials ranged from 64.7 percent below market minimum in the case of the General Counsel classification to 16.5 percent above market for the Leak Control Technician A (Level 1 License) classification.
- Of the 56 classifications surveyed with differentials, 53 classifications (94.6 percent) had differentials below the desired market position at the minimum.

Market Midpoints

Market midpoints are important to consider because they are commonly recognized as the salary point at which employees are fully proficient in satisfactorily performing their work. As such, midpoint is often considered as the salary point at which a fully proficient employee could expect his or her salary to be placed.

As **Exhibit 4B** illustrates, for the benchmarked classifications, FKAA was, on average, 7.9 percent below its desired market position at the midpoint of the respective salary ranges. Based on the collected data, the following observations can be made:

- The surveyed position differentials ranged from 44.6 percent below the desired market midpoint in the case of the Executive Director classification to 15.8 percent above market for the Leak Control Technician A (Level 1 License) classification.
- Of the 56 classifications surveyed with differentials, 40 classifications (71.4 percent) had differentials below the desired market position at the midpoint.

Market Maximums

In this section, salary range maximums are compared to the peers' 75th percentile of maximums for each benchmarked classification. The market maximum is significant as it represents the upper limit salary that an organization might provide to retain and/or reward experienced and high performing employees. Additionally, being competitive at the maximum allows organizations to attract highly qualified individuals for in-demand classifications.

As **Exhibit 4B** illustrates, FKAA's benchmarked positions were, on average, 1.3 percent below the desired market position at the maximum of the respective salary ranges. Based on the collected data, the following observations can be made:

- The surveyed position differentials ranged from 29.1 percent below the desired market position maximum in the case of the Finance Specialist classification to 21.5 percent above market for the Valve/Hydrant and Meter Technician B classification.
- Of the 56 classifications surveyed with differentials, 31 classifications (55.3 percent) were below the desired market position at the maximum.

4.2 MARKET SUMMARY

It should again be noted that the standing of a classification's pay range compared to the market is not a definitive assessment of an individual employee's salary being equally above or below market. A salary range does, however, speak to FKAA's general ability to recruit and retain talent over time. If a range minimum is significantly lower than the market, FKAA could find itself losing out to its market peers when it seeks to fill a position. It is equally true that range maximums lower than the market may serve as a disincentive for experienced employees to remain at FKAA.

From the analysis of the data gathered in the external assessment discussed above, the benchmark classifications' ranges were generally found to be below FKAA's desired goal of being competitive with its peers. The survey average range width was calculated to be significantly lower than FKAA's current range plan. For this reason, emphasis was placed on utilizing the peers' calculated differential at the midpoint rather than range spreads when developing the recommendations presented in the next chapter.

Evergreen Solutions, LLC

EVERGREEN SOLUTIONS, LLC

Chapter 5 - Recommendations

The analysis of FKAA's classification and compensation system revealed some areas of opportunities for improvement. Evergreen worked to build on the strength of the existing pay structure while placing focus on developing a more competitive compensation system and a sound classification structure. Study recommendations, as well as the findings that led to each, are discussed in this chapter.

5.1 CLASSIFICATION SYSTEM

An organization's classification system establishes how its human resources are employed to perform its core services. The classification system consists of the titles and descriptions of the different classifications, or positions, which define how work is organized and assigned. It is essential that the titles and descriptions of an organization's classifications accurately depict the work being performed by employees in the classifications to ensure equity within the organization and to enable comparisons with positions at peer organizations. The purpose of a classification analysis is to identify such issues as incorrect titles, outdated job descriptions, and inconsistent titles across departments.

In this analysis of FKAA's system, Evergreen collected classification data through the Job Assessment Tool (JAT) and Management Issues Tool (MIT) processes. The JAT's, which were completed by employees and reviewed by their supervisors, provided information about the type and level of work being performed for each of FKAA's classifications. The MIT process provided supervisors an opportunity to provide specific recommendations regarding the pay or classification of positions in their areas. Evergreen reviewed and utilized the data provided in both as a basis for the recommendations below.

FINDING

Overall, the classification system utilized by FKAA was sound. However, there were some instances of titles that could be modified to better reflect the tasks assigned to the position.

RECOMMENDATION 1: Revise the titles of some classifications, and expand titles for other positions.

Exhibit 5A provides a list of the recommended changes to the classification system. Not listed are minor changes e.g., spelling out abbreviated words; however, listed are modifications to entire classifications and those that had changes for one or two employees in a classification. The foundation for all recommendations was the work performed by employees as described in their JATs, best practices in the Human Resources field, or unique needs which required a specific titling method. Evergreen worked jointly with FKAA's project team in developing the list of changes.

FINDING

When comparing FKAA's current job descriptions to the work described by employees in the JAT's, Evergreen Solutions noted some tasks that were missing from the current job descriptions. This can happen over a period of time if the descriptions are not reviewed and updated on a regular basis. As well, some tasks in one classification are often reassigned to another classification. As such, these changes make it necessary for an organization to update its job descriptions regularly to ensure each job description accurately reflects the work performed.

RECOMMENDATION 2: Revise all job descriptions to include updated classification information provided in the JAT, and review job descriptions annually for accuracy.

The process of reviewing and updating FKAA job descriptions as well as comments received from employees and supervisors during outreach revealed they did not, in some cases accurately reflect current work performed. To minimize this becoming a concern again in the future, Evergreen recommends a regular review of these descriptions, and FLSA status determinations. To the extent possible, a review of the employee's assigned job classification (description) should occur concurrent with his/her annual performance evaluation. This would be an appropriate time to review the job description for the classification as it should accurately represent the work the employee will perform during an evaluation period. Review of the FLSA determination as well as other aspects of the job, such as physical requirements required to perform essential functions will also ensure consistent, continuous compliance with the American's with Disabilities Act (ADA) protection. At the time of this report, Evergreen was in the process of revising the job descriptions for all classifications. These will be provided to FKAA under separate cover.

5.2 COMPENSATION SYSTEM

The compensation system analysis consisted of two parts: an external market assessment and an internal equity assessment. During the external market assessment, FKAA's pay ranges for selected benchmark classifications were compared to the 75th percentile of the identified market. Details regarding the external market assessment were provided in **Chapter 4** of this report.

During the internal equity assessment, consideration of the relationships between and the type of work being performed by the FKAA's employees were reviewed and analyzed. Specifically, a composite score was assigned to each of the classifications that quantified the classification's level of five separate compensatory factors. The level for each factor was determined based on responses to the JAT. The results of both analyses were utilized when developing the recommendations below.

FINDING

FKAA's salary ranges were behind its desired market position for many of the benchmark classifications at the minimum, midpoint, and maximums. Implementing a revised, more

Chapter 5- Recommendations

competitive pay structure would provide FKAA with an improved ability to attract, hire and retain employees.

RECOMMENDATION 3: Create a revised competitive open-range pay plan aligned with FKAA's compensation philosophy that reflects its desired market position and best practices; slot all classifications into the plan based on external and internal equity; and implement the new structure by transitioning employees' salaries into the plan.

Exhibit 5B shows the proposed new open-range pay plan which has 27 pay ranges. The range spreads begin at 55%, increase to 60% starting at Grade 13, and progress to 65% starting at Grade 22.

Grade	Minimum	Midpoint	Maximum	Range Spread	Range Progression
1	\$ 20,800.00	\$ 26,520.00	\$ 32,240.00	55%	-

EXHIBIT 5B PROPOSED PAY PLAN

After developing the new pay plan, Evergreen slotted each proposed classification into the appropriate pay range in the recommended plan. Both internal and external equity were analyzed when slotting the classifications. Assigning classifications to pay ranges requires a balance of internal equity, desired market position, and recruitment and retention concerns. Thus, market range data shown in **Chapter 4** were not the sole criteria for the proposed pay ranges. Some classifications' assignments varied from their associated market range due to the other factors mentioned above. The resulting recommended pay ranges for each of FKAA's classifications are shown in **Exhibit 5C.** It should also be noted that the recommended classification titles are utilized in the exhibit.

After assigning pay ranges to classifications, the next step was to develop appropriate methods (options) for transitioning employees' salaries into the revised plan. This was done utilizing equitable methods (options) for calculating salaries in the new pay plan and determining whether adjustments were necessary to individual salaries to bring them to their calculated salary. Evergreen calculated and provided optional transition methods in implementing the new plan. At the time of this report, FKAA was considering the following recommendations.

Bring Employees' Salaries to New Minimums

Employees' salaries were compared to the minimums of their classification's proposed pay ranges. If an employee's salary was below his or her classification's pay range minimum, an adjustment was proposed to raise the individual's salary to the minimum.

Utilizing this approach, adjustments were recommended for 52 employees with an approximate annualized cost of **\$140,212**. This was the approximate cost for salary adjustments (only) and did not include the associated costs for employee benefits.

Current Range Penetration - Capped at Midpoint

A calculation was performed to determine the relative position of an employee's salary in the current pay range. The employee's recommended salary calculation was based on the employee's new salary being placed at the same relative position in the proposed range. For example, if an employee's salary was 40% into the current pay range, the proposed salary was placed at 40% into the recommended pay range. This method placed an employee's salary in the new range based on the relative position in the current range, yet did not place any salary beyond new midpoints unless the salary was already above that point, as no employee salary was reduced. Furthermore, all employees with a recommended grade of 24 or higher were excluded from this solution option and did not receive salary adjustments.

Utilizing this approach, adjustments were recommended for 146 employees with an approximate annualized cost of **\$740,279**. This was the approximate cost for salary adjustments (only) and did not include the associated costs for employee benefits. This option included the Bring Employees' Salaries to New Minimums cost.

5.3 SYSTEM ADMINISTRATION

FKAA's compensation system will continue to require periodic maintenance. The recommendations provided to improve the competiveness of the plan were developed based on conditions at the time the data were collected. Without proper upkeep, the potential for recruitment and retention issues may increase as the compensation and classification system becomes dated and less competitive.

RECOMMENDATION 4: Conduct small-scale salary surveys as needed to assess the market competitiveness of hard-to-fill classifications and/or classifications with retention issues and make changes to pay range assignments if necessary.

While it is unlikely that the pay plan in total will need to be adjusted for several years, a small number of classifications' pay ranges may need to be reassigned more frequently. If one or more classifications are exhibiting high turnover or are having difficulty with recruitment, FKAA should collect salary range data from peer organizations to determine whether an adjustment is needed for the pay range of the classification(s). If increasing a classification's pay range based on market data does not help with the recruitment and/or retention issues, it may be necessary for FKAA to offer incentives to attract employees to the position and/or to encourage employees to remain in the position.

RECOMMENDATION 5: Conduct a comprehensive classification and compensation study every three to five years.

Small-scale salary surveys can improve the market position of specific classifications, but it is recommended that a full classification and compensation study be conducted every three to five years to preserve both internal and external equity. Changes to classification and compensation do occur, and while the increments of change may seem minor, they can compound over time. A failure to react to these changes quickly has the potential to place FKAA in less than desirable position for recruiting and retaining quality employees.

RECOMMENDATION 6: Review and revise, as appropriate, guidelines for progressing employee salaries through the pay plan, including those for determining salaries of newly hired employees and employees who have been promoted or transferred to a different classification or department.

The method of moving salaries through the pay plan and setting new salaries for new hires, promotions, and transfers depends largely on an organization's compensation philosophy. It is important for FKAA to have established guidelines for each of these situations, and to ensure that they are followed consistently for all employees. Common practices for progressing and establishing employee salaries are outlined below.

Salary Progression

There are several common methods for salary progression including cost of living adjustments (COLA)/across the board, time based, and employee performance based. FKAA intends to continue utilizing both across the board adjustments and employee performance-based increases. It is recommended that FKAA continuously evaluate, as it has with this study its individual salary progression methods for employees' salaries and make changes to align with its compensation philosophy as appropriate.

<u>New Hires</u>

Typically, an employee holding the minimum education and experience requirements for a classification is hired at or near the classification's pay range minimum. However, for recruiting purposes FKAA needs the ability to offer salaries to new employees that consider prior related experience. It is recommended that FKAA continue to allow flexibility when establishing new employee salaries. It is also important, however, when determining new hire salaries to, when possible, preserve the internal equity of employees' salaries within the classification.

Promotions

When an employee is promoted to a new classification, it is important to have guidelines for calculating the employee's new salary that rewards the employee for his or her new responsibilities, moving the salary into the new pay range, and ensuring internal equity in the new classification. For example, a range of three to seven percent increase is common today, with consideration given to preserving the internal equity of employees' salaries within the classification. FKAA has established promotion guidelines which will continue to require review going forward to remain current with best practice.

Transfers

An employee transfer occurs when an employee is reassigned to a classification at the same pay range as his or her current classification or when an employee's classification stays the same, but his or her department changes. In either of these cases, it is likely that no adjustment is necessary to the employee's salary. The only situation in which a salary adjustment would be needed for a transferred employee would be if his or her current salary is not aligned with the salaries of employees in the new classification or department. If that occurs, it may be necessary to adjust the salary of the employee or the incumbents of the classification to ensure salary equity within the new classification.

5.4 <u>SUMMARY</u>

The recommendations in this chapter provide an update to the compensation and classification system for FKAA's employees. If implemented, the recommendations will enhance FKAA's competitiveness in the labor market. By implementing the new pay plan, it will have a responsive compensation system for several years to come. While the upkeep of this will require work, FKAA will find that having a more competitive compensation system that enhances strong recruitment and employee retention is well worth this commitment.

Wages by Positions	
Position Descriptions	33

NOTES AND DEFINITIONS

Calculation Methodology – All averages in the benefits portion of the report are weighted by the number of employees in the respondent group. This ensures that the averages for the group accurately represent the averages for all of the employees in the group.

Mean – The "arithmetic mean" or "arithmetic average" is the sum of the values in a data group divided by the number of values. This measure is a good measure to get the general range of a group. However, if the high and low are at extremes or if the values are not concentrated at the high or the low end of the range, the measure can be skewed to the top or the bottom of the range.

Median – The median of a group of data points is the value of the middle point when all the points in the group are arranged in ascending or descending order in terms of values. This is a good measure of the "typical" level of observed values because it is always the center value in the group, regardless of how many data points exist.

Quartiles – Quartiles subdivide a distribution of measurements according to the proportion of frequencies observed. As the median divides the data in half, the quartiles divide it into quarters.

Footnotes:

1

1. FTE-Full Time Employees Positions

Percent of group eligible – This measure assumes that all full time employees are eligible for the benefit described and weights the
measure by employees in the whole group. Since the companies vary in number of employees, the percentage of companies
offering and the percentage of group eligible can vary greatly.

Key West Chamber of Commerce 2019 Wage & Benefit Survey Executive Summary

- Surveys were received from 68 private companies covering 3,267 employees (about 20% of the employed Key West Labor Force) and from 18 public entities covering 3,445 employees who work both in Key West and across Monroe County.
 - Of the 68 companies reporting this year, 46 also reported last year and 22 were new respondents. Therefore, direct comparisons between years can contain variations due to a different mix of respondents and consistency of reporting only local Key West positions. While the private sector report for this year shows 3,267 full time employees and the report from last year showed 2,803, a count of same-company FTE headcount for the private sector shows a 1.5% decrease of 52 employees from the 2018 report to this year's report.
 - The 18 public entities reported a combined 247 job vacancies even though the total number of people employed rose by 14 amongst the public entities that responded in both 2018 and 2019. The City of Key West added to staff by eight individuals and Monroe County added 41 people to their payroll.
- · Respecting Paid Time Off (page 2 of 9 in the benefit section), the public sector enjoys more annual days off with pay than private sector employees:

	Private Sector	Public Sector
Paid Vacation Days (first year)	9	i1
Paid Holidays	7	11
Paid Sick Days Off	8	12
Floating Days	2	2
Total	26*	36

1

1

1

5

- * It should be noted that many respondents in tourism businesses do not designate specific holidays since these are normal workdays in the industry. Instead, they administer paid time off as a lump-amount undefined as vacation, holiday, sick or floating days. If these businesses are considered, the total for paid time off would be reduced to 16 days from the 26 days shown above.
- Healthcare, Dental, Vision and other insurances such as long-term and short-term Disability, Life, and Accidental Death & Dismemberment insurances are given on pages 3 thru 6 of the benefits section and a key on "How to Read the Survey Results" is shown on the sample pages facing. Most private sector companies offer healthcare insurance, and because they tend to be the larger firms, most of the workforce (85%) are able to obtain group coverage. Further, half (53%) of the companies that offer healthcare insurance pay a portion of the costs. The average premium paid was 69%. All public sector employees are covered by healthcare insurance and 5 of the 18 entities reported paying 100% of employee healthcare insurance cost. The average paid by public sector employees is 93%.
- Wage increases are covered on page 9 of 9. Respondents were asked what type of wage adjustments were given in their organization in 2018. The types of adjustments given were "Across-the-Board," Performance Based or Merit increases, Cost-of-Living increases, and any Year-End Bonus amounts. It is important to note that the average rates of increase shown for each type of adjustment are only for those companies/organizations that actually gave a raise. For example, 12 of 68 companies in the private sector gave "Across-the-Board" increases to their 293 employees and the average of those wages given was 3.3%. However, that means 2,974 employees of the 3,267 private sector employees received no "Across-the-Board" increase. If one takes this into account, the effective percentage increase across ALL employees would be 1.2%. This same methodology is employed for all four types of adjustments. Once this is done, it is possible to add each type of increase given to arrive at an Overall Additive Percentage Increase of 2.5% as an effective wage increase covering all private sector employees and 2.0% for all public sector employees.
- The Wages Section of the report lists specific job categories from both the private and public sectors. The private sector wages for each job are shown as a consolidated average of the number of respondents reporting. Because it is public knowledge, the public sector jobs are identified by the reporting entity and averaged among all public organizations responding for each job.

Thue, Vacation and any Floating Days Off scheduled at the will of the employee subject to approval by the employer. It is important to note that the days shown below are the <u>average number of days given</u> by employers and <u>excludes</u> those instances where the employer does not offer such paid time off.

Participants were asked for the number of days paid for each category of paid time off, Holidays, Sick

For example, of the 11 Large Lodging properties that responded to the survey, four of those reported providing sick days per year, while the remainder reported that sick days were not provided. This report displays the weighted average of those four properties that provided sick days to their employees and does not include the affect of the properties that did not provide sick time.

Summary Statement for Public Sector Employee Healthcare Coverage: Of the 18 entities responding to the survey, all (100%) offered healthcare benefits to their employees that worked, on average, 23 hours per week. All 3,455 full time employees working the qualifying minimum hours per week were eligible to receive group health insurance coverage. All of the public entities that offer healthcare insurance to their employees pay at least a portion of the costs. The average amount paid by these companies was 94% of the vost of the coverage.

Once calculating the effective % wage increase across ALL employees by type of increase as was discussed above, it is then possible to add the effective increases for each type of wage increase together to arrive at an <u>Overall Additive % increase</u> for both the Private Sector and the Public Sector. Thus, Across-the-Board increases + Merit (or Performance) increases + COLA increases and * Year End Bonnses equal an Overall Additive Wage Increase.

have the the two the time time time to be the time the time time the time time.

Note that this does not mean every Private sector employee received these percentage or that every Public sector received these percentage increases.

POSITION DESCRIPTIONS

1

GENERAL OFFICE ADMINISTRATION AND MANAGEMENT OCCUPATIONS

1

1

1

1

Receptionist: Responsible for greeting and directing visitors and operating a single or multiple position telephone switchboards. May perform light clerical duties such as typing, filing, photocopying, sorting, and distributing mail. (Other titles: Switchboard Operator, Telephone Operator, Information Desk Receptionist, Communications Assistant)

Office Clerk: Responsible for providing clerical support to staff including taking and delivering messages, providing information to callers, filing, maintaining office supplies, preparing and sorting mail, and photocopying. (Other titles: Clerical Assistant, Clerk/Typist, General Office Assistant, Records Assistant)

Data Entry Operator: Typically this is an entry level position for administrative functions in both operating and staff departments wherein heavy keyboarding skills are required and utilized in typing data into prescribed software formats. Responsible for data entry of material from source documents to a computer connected terminal. Enters and verifies data and performs clerical tasks in the data processing department. (Other titles: Inventory Clerk, MIS Clerk, Data Processor)

Customer Service Representative: Serves as contact for customer in billings, complaints, and exchanges. Provides information in response to customer inquiries.

Secretary: Responsible for providing administrative and clerical support to staff including writing and typing letters, reports or other materials. Maintains filing systems, screens calls and takes messages. May assist in preparation of reports using spreadsheet, word-processing, and graphics software. (Other titles: Secretary 1 & II, Staff Assistant)

Administrative Assistant: Responsible for providing analytical and specialized administrative support to executive and other staff managers. Performs analysis to determine possible effective solutions, compiles and analyzes data and prepares recommendations. Coordinates activities between departments and outside parties. Works with staff at all levels to complete projects of a complex and confidential nature. (Other titles: Staffing Assistant, Administrative Aide)

Executive Assistant: Responsible for providing administrative support to the executive director. Handles details of a highly confidential and critical nature. Collects and prepares information for executive director's use in meetings with staff and outside parties. Assists with special projects, creating reports, statistical tracking and database management. May supervise other clerical staff. (Other titles: Assistant to the President, Executive Assistant, Office Manager)

Human Resources Assistant: Responsible for providing administrative support for the human resources function, including maintaining employee benefit files, processing change-of-status forms, compiling personnel statistics and providing information to employees regarding personnel forms and records. May compile special reports such as insurance, COBRA, OSHA, etc. May screen applicants, conduct reference checks, maintain requisition logs, administer benefit programs and conduct employee orientation. (Other titles: Human Resources Coordinator, Payroll Administrator, Personnel Assistant, Human Resources Specialist, Personnel Spec.)

Human Resources Manager: Responsible for designing, developing, implementing, administering and budgeting for the organization's human resources functions, including employment, compensation, benefits, employee relations, training, performance management and human resources information systems. Advises staff on organizations human resources policies and procedures. Ensures compliance with all human resource regulations. (Other titles: Human Resources Director, Human Resources Supervisor, Director of Personnel, Personnel Manager)

Front Line Manager/Supervisor: Supervise and coordinate the daily activities of clerical and administrative support workers following prescribed company policies and procedures. (Other titles: Office Manager)

Purchasing Manager: Responsible for procuring the goods and services required for the necessary functioning of the entity. Assesses market conditions and negotiates best price from suppliers consistent with quality and delivery standards of the organization. Is primary liaison between company and its vendors. Writes, reviews and maintains files of contractual documents covering purchases of goods and services. (Other titles: Head Buyer; Procurement Agent)

General and Operations Manager: Plan, direct, or coordinate the operations of companies or public and private sector organizations. Duties and responsibilities include formulating policies, managing daily operations, and planning the use of materials and human resources, but are too diverse and general in nature to be classified in any one functional area of management or administration, such as personnel, purchasing, or administrative services. Include owners and managers who head small business establishments whose duties are primarily managerial. Excludes Front Line Manager/Supervisors. (Other titles: Executive Director, Director of Operations)

Sales and Marketing Manager: Determine the demand for products and services offered by a firm and its competitors and identify potential customers. Develop pricing strategies with the goal of maximizing the firm's profits or share of the market while ensuring the firm's customers are satisfied. Coordinate sales distribution by establishing sales territories, quotas, and goals and establish training programs for sales representatives. Analyze sales statistics gathered by staff to determine sales potential and inventory requirements and monitor the preferences of customers.

Public Relations Manager: Plan and direct public relations programs designed to create and maintain a favorable public image for employer or client; or if engaged in fundraising, plan and direct activities to solicit and maintain funds for special projects and nonprofit organizations. (Other titles: Public Information Officer)

have been here the the term for the term for the term to t

Chief Executive: Determine and formulate policies and provide the overall direction of companies or private and public sector organizations within the guidelines set up by a board of directors or similar governing body. Plan, direct, or coordinate operational activities at the highest level of management with the help of subordinate executives and staff managers. (Other titles: President)

ACCOUNTING/FINANCE

Accounting Clerk I: Typically the entry-level position in an accounting department. Performs routine accounting activities which may include checking and verifying records, preparing invoices and vouchers, posting ledger and general journal entries and balancing accounts payable and receivable. Uses automated office systems to input data, respond to inquiries and generate reports. Works under a high level of supervision. (Other titles: Accounts Receivable Clerk, Accounts Payable Clerk, Billing Clerk)

Accounting Clerk II: Keeps general accounting journals and ledgers and prepares summary reports and pre-audits.

Accounting Clerk III: Has supervisory responsibility over other accounting staff, and audits the work of others.

Chief Financial Officer: Responsible for directing all financial functions of the entity including Strategic Planning, budgeting, accounting, internal and external reporting, auditing, cash flow management, asset management and investment practices. Maintains interface with all taxing authorities. Maintains liaison with financial institutions and negotiates terms of all loans and/or investments. Reporting to CEO/President, works with senior staff in formulating, establishing and implementing major goals and objectives. Sometimes oversees entity's Information Systems function. (Other titles: Chief Accountant, Comptroller)

Controller: Responsible for directing, maintaining and controlling an accounting system that properly reflects the financial position of the entity. Monitors entity policies & procedures and recommends improvements. Consults and serves senior management team and participates in establishing and implementing major goals and objectives. Ensures accurate internal and external recording and reporting of financial transactions. Oversees budgeting, general ledger, accounts payable and receivable, payroll, fixed asset management, etc. Supervises and appraised accounting staff. (Other titles: Chief Accountant, Comptroller)

Payroll Clerk: Processes salary and hourly payroll data including recording time worked, maintaining pay scales and performing premium pay calculations. Insures timely and accurate processing to meet pay date deadlines. Maintains records and files necessary to complete federal, state and local payroll tax returns. Optionally, may maintain records of vacation, sick and other Paid-Time-Off in accordance with company policy. (Other titles: Payroll Processor, Timekeeper)

Full Charge Bookkeeper: Responsible for preparing journal entries and maintaining and reconciling ledger accounts. Provides record of assets, liabilities and other financial transactions. Balances books and prepares profit and loss, income and balance sheet statements. Maintains receipts and disbursement reports. May prepare federal, state, and local tax returns. (Other titles: Staff Accountant)

Financial Analyst: Performs technical analysis to determine organization's present and future financial performance. Gathers, analyzes, prepares and summarizes recommendations for financial plans, operating forecasts, etc. Usually requires a Bachelor's degree or equivalent experience. (Other titles: Budget Analyst)

Accounting Supervisor/Manager: Responsible for supervising a sub-function in the general accounting department, such as accounts payable and accounts receivable. Supervises day-to-day activities of non-exempt accounting staff.

INFORMATION TECHNOLOGY

Information Technology Manager: Responsible for determining the design, development and implementation of all information systems working with senior management, department heads and IT staff personnel. Plans for technological changes within the organization based on entity's needs and budgetary allowance. Maintains the integrity and security of data and systems from both cataclysmic loss and unauthorized infiltration. (Other titles: CIO, Information Systems Manager, Director of Information Technology, Director of Information Systems)

PC Technician: Responsible for installing, repairing and maintaining the organization's personal computer and related systems. Performs all installations, upgrades, and backups of software and hardware applications. Troubleshoots software and hardware failures and identifies PC network. (Other titles: Computer Operations Specialist, Computer Systems Coordinator, Computer Technician, Information Systems Technician, IT Technician)

Network Administrator: Responsible for installing, modifying, testing and maintaining the organization's data communication network equipment. Performs hardware and software moves, additions, and changes. Responds to all network trouble reports and performs repairs as necessary. Maintains records on repairs, downtime, changes, and updates.

Web Designer: Responsible for the management, implementation, and maintenance of website using HTML, CGI, and graphic design skills. Broad knowledge of Internet trends and technologies assumed. Additional experience might include .NET, Perl, JavaScript, JSP, ASP, C++, SQL, UNIX, XML, and e-commerce.

Computer Systems Analyst: Analyze user requirements, procedures, and problems to automate or improve existing systems and review computer system capabilities, workflow, and scheduling limitations. May analyze or recommend commercially available software. May supervise computer programmers.

MEDICAL, SOCIAL, AND FAMILY SERVICES

Dentist: Diagnose and treat diseases, injuries, and malformations of teeth and gums and related oral structures. May treat diseases of nerve, pulp, and other dental tissues affecting vitality of teeth.

the factor for the for the for the for the for the factor for the

-

Dental Assistant: Takes patient histories, prepares dentist with materials, instruments and patient charts.

Dental Hygienist: Cleans teeth and beneath margins of gums, using dental instruments. Checks for swelling or tenderness that could indicate presence of oral cancer. Examines gums for sores and signs of disease. May provide clinical services and health education to improve and maintain oral health of patients and to augment services of dentist.

Optometrist: Diagnose, manage, and treat conditions and diseases of the human eye and visual system. Examine eyes and visual system, diagnose problems or impairments, prescribe corrective lenses, and provide treatment. May prescribe therapeutic drugs to treat specific eye conditions but not licensed to perform surgery.

Pharmacist: Dispense drugs prescribed by physicians and other health practitioners and provide information to patients about medications and their use. May advise physicians and other health practitioners on the selection, dosage, interactions, and side effects of medications.

BOARD OF DIRECTORS, FLORIDA KEYS AQUEDUCT AUTHORITY AGENDA ITEM SUMMARY

AGENDA ITEM:	BOD-01	TAB:	 CONSENT:		REGULAR:	X
			DIVISION:	BOARD OF E	IRECTORS	
MEETING DATE:	August 27, 2019					

AGENDA TITLE: Review, Discussion and Recommendation of the Florida Retirement System's Designation of Senior Management Service Class (SMSC), recent employees selected for that designation, and action regarding that selection.

ITEM BACKGROUND: The Florida Retirement System allows for an agency to designate positions to participate in the Senior Management Service Class and to eliminate those established positions. Florida Keys Aqueduct Authority's policy and procedures follow guidelines pursuant to Chapter 121.055 of the Florida Statutes. *Recently, management designated and submitted three (3) positions for SMSC as the Public Information Manager, Manager of Wastewater Operations, and Principal Engineer by eliminating the following established designated positions respectively: Assistant Manager of Engineering, Environmental Services Engineer, and Manager of Technical Services.*

Procedures require that the employee: 1) should be a Tier I position, 2) should have the responsibility to affect or recommend personnel, budget, expenditure, or policy decisions in his or her area of responsibility, 3) should hold a key staff position in the agency such as employees who serve as members of the Executive Director's Executive Committee, and 4) designations will be approved by the Board of Directors. FKAA's Human Resource Department submits a completed and approved FRS SMSC Form, job description and proof of the public notice of the intent to designate the position as Senior Management Service Class.

PREVIOUS RELEVANT ACTION BY FKAA BOARD OF DIRECTORS: The Board established and approved procedures for the Florida Retirement System's Designation of Senior Management Service Class (SMSC) on May 28, 2009. The Board approved the following removals from the Senior Management Service Class Designation: Department Director of Customer Service (on 1/22/2009), Department Director of the Executive Office (on 2/25/2010), and the Director of Customer Service and Public Relations (on 1/23/2013) but has not approved new designations since 1/23/13.

STAFF RECOMMENDATION (MOTION): Florida Retirement System's Designation of Senior Management Service Class (SMSC), recent employees selected for that designation, and action regarding that selection.

SUPPLEMENTAL INFORMATION: FRS submittals (SMSC Forms, Job Descriptions, Correspondence, etc.) for the following designations: Public Information Manager, Manager of Wastewater Operations, and Principal Engineer, FRS SMSC Position Changes Flowchart and 10/24/18 Board Minutes.

SMSD-1 Rev. 8/00 Enrollment Florida Retirement System Senior Management Service Class Designated Position Form PO Box 9000 Tallahassee, FL 32315-9000 850-907-6500 Toll Free 844-377-1888

This form should be used only by State Public Defender Offices, State Attorney Offices and local agencies (district school boards, county agencies, community colleges, cities and independent special districts) designating positions to the Senior Management Service Class (SMSC). The positions of Community College President, City Manager, County Manager, appointed School Superintendent and most State government SMSC positions are compulsory and **should not** be designated on this form.

Under the provisions of Section 121.055, Florida Statutes, you may designate positions to be included in the Florida Retirement System's (FRS) SMSC.

The agency must:

- Place appropriate notice of intent to designate position(s) in the SMSC in a newspaper of general circulation in the county or counties affected, once a week for two consecutive weeks.
- Complete the section below and submit this form (SMSD-1) to the Division of Retirement.
- Comply with requirements and formula when designating positions to the SMSC.

The employee(s) must complete:

- State Agency Positions Form SMS-1, Senior Management Service Optional Annuity Program Ballot/Enrollment Form.
- Local Agency Positions Form SMS-3, Senior Management Service Class Ballot/Enrollment Form for local agency employees.

PUBLIC NOTICE

tober 28 & November 4: (017 The Key Shiel O

Notice of Intent to Designate

Sec.

The State of Florida hereby gives public notice that it has designated FKAA's Public Information Manager as a Senior Management Service Class effective December 1, 2017 for retirement purposes under the Florida Retirement System.

FLORIDA KEYS AQUEDUCT AUTHORITY JOB DESCRIPTION

POSITION TITLE: PUBLIC INFORMATION MANAGER DEPARTMENT: EXECUTIVE

PURPOSE OF CLASSIFICATION

Classification is a professional position responsible for planning, coordinating, and implementing a comprehensive communications program for the Authority. The work involves developing and implementing publicity, public relations, public information, social media, and internal communications materials and activities for the Authority within a strategic context. Work involves considerable judgment and discretion in identifying, recommending, and implementing public and internal information campaigns. Under the general supervision of the Executive Director, the position serves on the Utility's management team and plays a key leadership role in supporting the Utility's mission, goals and objectives through a strategic communications program.

ESSENTIAL FUNCTIONS

Plans, develops, implements and maintains the communication and information programs for the Authority, incorporating both general and special information/communication needs and utilizing various media, including print, audio/visual, social media, and other appropriate vehicles of communication.

Responsible for comprehensive public outreach program specifically focused upon assisting residents and businesses with connecting their properties to the Authority's regional wastewater systems. This program includes preparing for and presenting information at numerous public meetings; requires creating, editing, and producing public information documents, and deals with the public and other agencies on technical and administrative matters.

Develops ongoing media relationships and serve as liaison and primary contact for media and other external agencies in public information/education matters.

Conducts and/or coordinates media training and crisis communications training sessions for staff likely to respond to the electronic and print media inquiries.

Develops information messages and speaking points and prepares and distributes news releases, information packages and public service announcements to media, external agencies and the public.

Compiles, coordinates, edits, prepares, develops, distributes and maintains print and published information for the Authority including, but not limited to, information on the Utility website, the annual drinking water quality report, bill stuffers, customer newsletters, brochures, bulletins and other information outlets as appropriate, both directly and through staff.

Compiles, coordinates, edits, prepares, develops, distributes and maintains audio/visual information for the Utility, including, but not limited to, public service announcements, advertisements, PowerPoint presentations, and audio/video productions for internal and external use both directly and through subordinates. Coordinates, schedules, contracts for and/or purchases air time for audio/video productions.

Works with Information Technology to develop the Authorities social media capabilities. Develops policies and procedures for the Authority regarding the use of social media. Coordinates with various departments, including human resources, operations, engineering, and customer service, to determine social media needs. Develops and posts content using various social media. Reviews and evaluates social media usage for quality and effectiveness of communication.

Florida Keys Aqueduct Authority . Public Information Manager

Solicits, coordinates, schedules and assigns community speaking engagements and presentations to clubs, organizations, civics groups and school classes.

Plans, coordinates and executes community events and participation in events, conferences and expositions. Meets with and supports community groups in facilitating information and actions they desire from the Utility. Coordinates and develops utility-related school curricula.

Coordinates the Authority's efforts as they relate to customer requests, feedback, and on-going concerns. Tracks, manages, coordinates and ensures proper and timely response to general outside request and inquiries of the Authority, including letters, emails and web-based communications. Responds, drafts responses, or forwards inquiries to proper staff for response and track responses until issues are resolved. Coordinates proper response to all Open Records requests, including maintaining records and schedules for Open Records requests and serve as the Open Records coordinator for the Utility.

Participates in emergency response training and activities of the Utility's emergency response plan. Identifies the need for and develops risk assessment and public information messages for bioterrorism, natural disaster, public health emergencies or other drinking water issues in conjunction with appropriate staff. Assists in water quality planning for emergency operations and response including implementation of the emergency/precautionary boil water notification plan; assists with updates to the Utility's Emergency Response Plan. Participates in related state and county-wide emergency exercises.

Coordinates the development, adoption, maintenance and tracking of appropriate benchmarks for the Utility to measure progress toward approved goals and objectives and provide reports on a variety of Utility activities and benchmarks.

Maintains up-to-date knowledge of water and wastewater quality issues facing the water industry and changing regulatory requirements through trade journals, attendance at technical conferences, and correspondence with personnel at other utilities.

Participates in formulation and implementation of Water Quality & Public Information policies and priorities.

Coordinates and communicates with other utilities, municipalities, counties, state and federal agencies and with FKAA customers on the technical aspects, project status, problem resolution, etc. of all projects and programs affecting the public.

Campaigns for the water conservation program for FKAA including coordination directly with staff and SFWMD regarding conservation issues and problems (i.e. rules, ordinances, water shortage, etc.), handling SIPS grants or other conservation funding programs, and provides public outreach regarding water conservation measures and programs to customers.

Makes recommendations to departmental managers on matters related to water conservation (rates, water bill communications, etc.)

Prepares permit/grant applications related to water conservation and alternative water supplies for review by staff and submission to regulatory agencies.

Represents FKAA through public meetings, participation and membership in professional associations and various water/utility committees. Networks with other utilities, government entities, and FKAA customers to further advance water utility policies and practices (i.e. rules, ordinances, compliance, enforcement strategies, etc.).

ADDITIONAL FUNCTIONS

Provides assistance to other employees or departments as needed.

Performs other related duties as required.

MINIMUM QUALIFICATIONS

Bachelor's degree in business, journalism, marketing, public relations, environmental science or related field; supplemented by ten (10) years' experience in water utility systems with 2 years in a professional capacity dealing with public outreach programs; or any equivalent combination of education, training and experience which provides the requisite knowledge, skills and abilities for this job. Must be proficient in all forms of written (i.e. Newsletters, Brochures, Reports, Proposals; Fact Sheets, etc.) and verbal (Public Speaking engagements, Radio/TV Commercials, etc.) communication. Must be proficient in the latest Social Media portals, and MS Office Suite programs. Must possess and maintain a valid Florida Driver's License. Must be able to communicate and comprehend the English language.

PERFORMANCE APTITUDES

Data Utilization: Requires the ability to evaluate, audit, deduce, and/or assess data using established criteria; including exercising discretion in determining data classification, and in referencing such analysis to established standards for the purpose of recognizing actual or probable interactive effects and relationships and identifying and selecting alternatives.

<u>Human Interaction</u>: Requires the ability to function in a professional capacity, representing and expanding the FKAA Brand, including educating the public on the full depth and breadth of the FKAA's Water Utility Product and Services.

Equipment, Machinery, Tools, and Materials Utilization: Requires the ability to operate, maneuver and/or control the actions of equipment machinery, tools, and/or materials used in performing essential functions.

<u>Verbal Aptitude</u>: Requires the ability to utilize consulting and advisory data and information, as well as reference, descriptive and/or design data and information as applicable.

<u>Mathematical Aptitude</u>: Requires the ability to perform addition, subtraction, multiplication, and division; the ability to calculate decimals and percentages.

<u>Functional Reasoning</u>: Requires the ability to apply principles of influence systems, such as motivation, incentive, and leadership; the ability to exercise independent judgment to apply facts and principles for developing approaches and techniques to resolve problems.

<u>Situational Reasoning</u>: Requires the ability to exercise independent judgment, initiative, decisiveness and creativity in situations involving evaluation of information against sensory, judgement, or subjective criteria, as opposed to that which is clearly measurable or verifiable.

ADA COMPLIANCE

<u>Physical Ability</u>: Tasks require the ability to exert light physical effort in sedentary to light work, but which may involve some lifting, carrying, pushing and/or pulling of objects and materials of light weight (5-10 pounds). Tasks may involve extended periods of time at a keyboard or work station.

<u>Sensory Requirements</u>: Some tasks require the ability to perceive and discriminate colors or shades of colors, sounds, odor, and visual cues or signals. Some tasks require the ability to communicate both orally and in writing.

<u>Environmental Factors</u>: Performance of essential functions may require exposure to adverse environmental conditions, such as dust, odors, or temperature extremes and possible confrontational situations.

The Florida Keys Aqueduct Authority is an Equal Opportunity Employer. In compliance with the Americans with Disabilities Act, the Authority will provide reasonable accommodations to qualified individuals with disabilities and encourages both prospective and current employees to discuss potential accommodations with the employer.

Class Code 1010 Non-Bargaining Unit Exempt

FLORIDA KEYS AQUEDUCT AUTHORITY JOB DESCRIPTION

POSITION TITLE: DIRECTOR OF CUSTOMER SERVICE AND PUBLIC INFORMATION

ADMINISTRATION DEPARTMENT CUSTOMER SERVICE DIVISION

Grade 30

PURPOSE OF CLASSIFICATION

The purpose of this classification is to direct the Customer Service Division, including three area offices, office staff and field personnel throughout the Keys; to provide leadership, managerial and training skills necessary to deliver superior customer service to internal and external stakeholders in a professional, efficient manner; to develop, implement and administer comprehensive customer service programs and policies designed to achieve Strategic Plan goals; to develop and administer comprehensive pro-active public communications program. Position reports to the Deputy Executive Director.

ESSENTIAL FUNCTIONS

The following duties are normal for this position. The omission of specific statements of the duties does not exclude them from the classification if the work is similar, related, or a logical assignment for this classification. Other duties may be required and assigned.

Directs Customer Service Division, including three area offices, office staff and field personnel, and provides leadership and training to professionally, efficiently and effectively deliver superior customer service to FKAA customers and stakeholders.

Establishes Division priorities, manages, organizes, counsels, directs, disciplines and evaluates assigned staff; addresses employee concerns. Provides guidance, training and professional development to staff.

Manages customer service related policy administration and compliance; develops new policies and revises existing policies and procedures; participates in rule making requirements to establish/amend policies.

Prepares annual customer service division and public information budget proposal.

Develops and administers water conservation program, including water auditor program, outreach and grants.

Develops, implements, administers and disseminates an accurate, timely and proactive community and media Public Information strategy and collateral material in order to ensure that FKAA messages and images are appropriately conveyed to internal and external constituencies. Develops and implements communication strategies for key issues and initiatives of the Board of Directors and Executive Director.

Florida Keys Aqueduct Authority • Director of Customer Service and Public Information

Analyzes emerging trends in public opinion in order to anticipate issue areas of potentially negative media coverage or community perception and designs appropriate responses. Alerts and advises the Executive Director and Department Directors of implications of policies, developments, and current events on community perceptions of the Aqueduct, and makes recommendations on appropriate communication strategies.

Implements programs identified under the Board's Strategie Plan as appropriate and monitors progress against goals. Develops employee information plan in line with public information plan to help promote FKAA's message to customers, stakeholders, and staff. Develops opportunities for participation by employees.

Assists in process of implementing employee transitions as driven by Reorganization Plan and IT Master Plan. Assists in identifying retraining opportunities and evaluates opportunities for optimal staff placements as planned reorganization evolves.

Coordinates media and community relations issues that cross departmental lines in order to create a consistent Aqueduct response and image. Advises FKAA personnel in media and community relations skills as appropriate, including telephone interactions.

Responds to customer and media inquiries regarding boil water orders. Assists the Water Quality Division with all public notifications required by regulatory agencies.

Updates and develops content for FKAA Internal and External Web Sites and coordinates with Departments for their input on the Web Sites. Suggests and implements improvements to the Web Site.

Reviews various agency forms, applications, reports, correspondence, brochures, manuals, reference materials, or other documentation to be presented to customers. Makes recommendations as appropriate regarding ease of customer interaction and understanding.

Attends meetings of the Board of Directors and subcommittees of the Board to be informed on business and operational matters of the FKAA. Reports Board actions directly to the media or other interested parties as necessary.

Meets regularly with the Executive Director, Department Directors and Division Directors to be informed on business and operational matters of the FKAA.

Communicates with members of staff, the public, other governmental agencies and other individuals as needed to coordinate work activities, review status of work, exchange information, or resolve problems. Participates in forums, conferences and educational seminars.

ADDITIONAL FUNCTIONS

Serves on committees; assists on special projects.

Provides assistance to other employees or departments as needed.

Performs other related duties as required.

MINIMUM QUALIFICATIONS

Bachelor's degree in business, psychology, journalism, marketing, public relations, or related field; supplemented by five (5) years previous experience and/or training that includes work in customer service management and public information for a governmental agency; or any equivalent combination of education, training, and experience which provides the requisite knowledge, skills, and abilities for this job. Must possess and maintain a valid Florida driver's license. Must be able to communicate and comprehend the English language.

Florida Keys Aqueduct Authority • Director of Customer Service and Public Information

PERFORMANCE APTITUDES

Data Utilization: Requires the ability to evaluate, audit, deduce, and/or assess data using established criteria. Includes exercising discretion in determining actual or probable consequences and in referencing such evaluation to identify and select alternatives.

Human Interaction: Requires the ability to function in a managerial capacity for a division or organizational unit. Includes the ability to make decisions on procedural and technical levels.

Equipment, Machinery, Tools, and Materials Utilization: Requires the ability to operate and control the actions of equipment, machinery, tools and/or materials requiring complex and rapid adjustments.

<u>Verbal Aptitude</u>: Requires the ability to utilize consulting and advisory data and information, as well as reference, descriptive and/or design data and information as applicable.

<u>Mathematical Aptitude</u>: Requires the ability to perform addition, subtraction, multiplication and division; ability to calculate decimals and percentages.

Functional Reasoning: Requires the ability to apply principles of influence systems, such as motivation, incentive, and leadership, and to exercise independent judgment to apply facts and principles for developing approaches and techniques to resolve problems.

<u>Situational Reasoning</u>: Requires the ability to exercise judgment, decisiveness and creativity in situations involving the evaluation of information against sensory, judgmental, or subjective criteria, as opposed to that which is clearly measurable or verifiable.

ADA COMPLIANCE

Physical Ability: Tasks require the ability to exert light physical effort in sedentary to light work, but which may involve some lifting, carrying, pushing and/or pulling of objects and materials of medium to heavy weight (30-50 pounds). Tasks may involve extended periods at a keyboard or workstation.

<u>Sensory Requirements</u>: Some tasks require the ability to perceive and discriminate colors or shades of colors, sounds, and visual cues or signals. Some tasks require the ability to communicate both orally and in writing.

Environmental Factors: Performance of essential functions may require exposure to adverse environmental conditions, such as odors, temperature extremes and violence.

The Florida Keys Aqueduct Authority is an Equal Opportunity Employer. In compliance with the Americans with Disabilities Act, the Authority will provide reasonable accommodations to qualified individuals with disabilities and encourages both prospective and current employees to discuss potential accommodations with the employer.

BOARD OF DIRECTORS, FLORIDA KEYS AQUEDUCT AUTHORITY

AGENDA ITEM SUMMARY

AGENDA ITEM # E0-02

CONSENT: REGULAR: X

Meeting Date: January 23, 2013

Department: EXECUTIVE

AGENDA TITLE: Consideration to Remove the Florida Retirement System's Designation of Senior Management Service Class (SMSC) from the Director of Customer Service and Public Relations position and approve replacement Designation for Assistant Manager of Operations position.

FTEM BACKGROUND: The Florida Retirement system allows the FKAA to designate up to (12) Senior Management Service Class positions. They are the Executive Director, Deputy Executive Director, General Council, Internal/Compliance Auditor, Director of Engineering, Managing Director of Engineering, Director of Environmental Services, Director of Operations, Director of Technical Services, Director of Human Resources, Director of Finance/Administration and Director of Customer Service/Public Relations.

PREVIOUS RELEVANT ACTION BY FKAA BOARD OF DIRECTORS

STAFF RECOMMENDATION (MOTION) The Board of Directors approve to eliminate the designation for Director of Customer Service and Public Relations position and reassign the SMSC designation to the position of Assistant Manager of Operations.

SUPPLEMENTAL INFORMATION: The contribution to the Florida Retirement System for the above requested change will result in an increase in the annual amount paid for Senior Management Service Class by \$1,392.16 due to the difference in annual salary between the Director of Customer Service and Public Relations and the Assistant Manager of Operations.

BOARD OF DIRECTORS, FLORIDA KEYS AQUEDUCT AUTHORITY

AGENDA ITEM SUMMARY

GENDA ITEM #_ EU-U2

CONSENT: _____ REG

REGULAR:

leeting Date: February 25, 2010

Department: <u>Executive</u>

AGENDA TITLE: Consideration to approve the designation of two (2) additional positions as Senior Management Service Class (SMSC) positions with the Florida Retirement System; designating the Director of Human Resources and the Director of Customer Service & Public Information positions; and eliminate the designation for the Director of Executive Department position; which is no longer filled, and reassign that SMSC designation to the Director of Finance and Administrative Services position.

ITEM BACKGROUND: The Florida Retirement System had allowed for an agency to designate up to ten (10) positions to participate in the Senior Management Service Class. That number changed in 2009 from ten (10) to twelve (12). FKAA currently has ten (10) positions designated as Senior Management Service Class; they are: Executive Director, Deputy Executive Director, General Council, Internal/Compliance Auditor, Director of Executive Department, Director of Engineering, Director of Environmental Services, Director of Operations, Director of Technical Services, and Managing Director of Engineering.

PREVIOUS RELEVANT ACTION BY FKAA BOARD OF DIRECTORS: 2004: Board approved current total of ten (10) designees to Senior Management Service Class. 01/2009: Board re-designated a SMSC position to the Managing Director of Engineering. 05/2009: Board approved the procedures for designation of FRS's Senior Management Service Class (SMSC), with each staff recommended position being approved by the Board of Directors.

STAFF RECOMMENDATION (MOTION): The Board of Directors approve the designation of two (2) additional positions as Senior Management Service Class (SMSC) positions with the Florida Retirement System; designating the Director of Human Resources and the Director of Customer Service & Public Information positions; and eliminate the designation for the Director of Executive Department position; which is no longer filled, and reassign the SMSC designation to the position of Director of Finance and Administrative Services.

SUPPLEMENTAL INFORMATION: The contribution to the Florida Retirement System for the above requested change will result in an estimated reduction in the annual amount paid for Senior Management Service Class by \$7,373.14, based on the fact that there will no longer be any SMSC payment for the Director of Executive Department position. (See attached spreadsheet of costs.)

APPROVAL TO REMOVE **EO-02. APPROVAL TO REMOVE THE FLORIDA RETIREMENT SYSTEM'S DESIGNATION OF SENIOR MANAGEMENT SERVICE CLASS (SMSC) FROM THE** DIRECTOR OF CUSTOMER SERVICE AND PUBLIC RELATIONS POSITION AND APPROVE REPLACEMENT DESIGNATION FOR ASSISTANT MANAGER OF **OPERATIONS POSITION**

On recommendation of Mrs. Rodriguez and motion of Mrs. Appell, seconded by Mr. Barroso, the Board approved the elimination of the designation for Director of Customer Service and Public Relations position and reassign the SMSC designation to the position of Assistant Manager of Operations.

EO-03. APPROVAL OF AN INCREASE IN TEMPORARY POSITIONS TO THE TABLE OF ORGANIZATION

On recommendation of Mrs. Rodriguez and motion of Mr. Barroso, seconded by Mrs. Wagner, the Board approved the increase of ten (10) Temporary positions to the Table of Organization for the duration of the construction of the Cudjoe Regional Wastewater Construction Project.

DEPARTMENT OF ADMINISTRATION

DOA-01. SUMMARY FINANCIAL INFORMATION OCTOBER 2011 THROUGH DECEMBER 2012

Mr. Shelby reported that water sales were up in the month of December with revenue up 3% as a result of rate indexing. Operating expenses are up 4% due to health care costs; however, Contractual commitments total approximately these costs are expected to level out. \$1,600,000.00 with \$1,400,000.00 in unrestricted cash reserves.

Chairman Dean and Mr. Barroso recommended that a workshop be held to review the Capital Improvement Plan and available cash reserves.

DEPARTMENT OF ENGINEERING

DOE-01. STATUS REPORT ON CUDJOE REGIONAL WASTEWATER PROJECT

Mr. Walker presented a status report on the Cudjoe Regional Wastewater Project as follows:

Inner & Outer Islands' Systems and Wastewater Treatment Facility Projects

Mr. Walker explained that all three (3) projects are moving forward and all three (3) contractors have received Notices to Proceed.

09 <u>Commission of the New Desalination Facility & Big Coppitt Wastewater Treatment</u> Facility Mr. Reynolds asked for direction

Mr. Reynolds asked for direction from the Board regarding grand opening ceremonies for the new desalination treatment facility at the J. Robert Dean Treatment Plant in Florida City and the Big Coppitt Wastewater Treatment Facility which will go online this spring.

Ms. Herrera and Ms. Dell suggested a low cost ceremony.

By consensus the Board approved for staff to begin the planning for commissioning ceremonies for these facilities.

Federal Funding

Mr. Reynolds and Mr. Ritz will be traveling to Washington, D.C. on February 4, 2009 to discuss strategy for passage of "Clean Renewable Water Supply Bonds" and to meet with potential co-sponsors of the bill.

Mr. Reynolds, Ms. Herrera and possibly Mrs. Rice will be traveling to D.C. in late February for the FKAA authorization in the Water Resources Development Act for federal funding of the RO plant at the J. Robert Dean Water Treatment Facility.

EO-02. APPROVAL TO REMOVE THE FLORIDA RETIREMENT SYSTEM'S DESIGNATION OF SENIOR MANAGEMENT SERVICE CLASS (SMSC) FROM THE DIRECTOR OF CUSTOMER SERVICE POSITION AND APPROVAL OF A REPLACEMENT DESIGNATION FOR THE MANAGING DIRECTOR OF ENGINEERING POSITION

On recommendation of Mr. Reynolds and motion of Mr. Ritz, seconded by Mrs. Rice, the Board approved the removal of the Senior Management Service Class designation from the Director of Customer Service position and approved to reassign the designation of Senior Management Service Class for the Managing Director of Engineering position.

EO-03. PRESENTATION ON PROPOSED RATES, FEES AND CHARGES FOR BIG COPPITT WASTEWATER SYSTEM AND WATER METER INSTALLAION FEES

Tony Hairston, FKAA rate consultant with PRMG, gave a presentation of the proposed rates, fees and charges for the Big Coppitt Wastewater System as follows:

Proposed Rates

- Base Facility Charge

Residential - Individually Metered: \$42.58

- Base Facility Charge for Master Metered and Non Residential

5/8" x 3/4" Meter:	\$63.87
1" Meter:	\$159.70
1 1/2" Meter:	\$319.42

FLORIDA KEYS AQUEDUCT AUTHORITY JOB DESCRIPTION

POSITION TITLE: PRINCIPAL ENGINEER

WATER QUALITY AND PROCESS ENGINEERING DEPARTMENT

PURPOSE OF CLASSIFICATION

In general, this classification performs supervisory professional engineering work to support the operation and maintenance (O&M) of FKAA water, wastewater and reclaimed water systems, as well as supervisory assistance in the design and development of renewal and replacement (R&R) projects and capital improvement projects in the capital improvement program (CIP). Position reports to the Manager of Engineering.

ESSENTIAL FUNCTIONS

The following duties are normal for this position. The omission of specific statements of the duties does not exclude them from the classification if the work is similar, related, or a logical assignment for this classification. Other duties may be required and assigned.

Manages both water and/or wastewater treatment process support to O&M treatment operations and water quality staff as required to troubleshoot operational issues and evaluate existing treatment processes to identify ways to optimize processes to increase reliability, ease of operation and cost efficiency.

Coordinates with Water Quality to develop and maintain a comprehensive Water Quality Control Monitoring Program from source to tap that meets current regulatory requirements; establishes policy, guidelines, and procedures for this function, including developing, reviewing and optimizing sample collection plans and procedures.

Manages all hydraulic modeling for the FKAA water transmission and individual distribution systems, as well as for the individual pressurized sewer collection and transmission systems. Using models, reviews and approves optimized operational paradigms to increase reliability, ease of operation and cost efficiency.

Reviews and approves optimized procedures with respect to field activities such as: unidirectional flushing planning and implementation, valve exercising, field pipeline disinfection, pipeline coating inspection, inspection of pumps and other mechanical equipment, sewer main and lateral inspection,

Florida Keys Aqueduct Authority • Principal Engineer

fat/oil/grease (FOG) control, sewer manhole inspection, water leak detection, infiltration and inflow (I&I) detection and mitigation, and other field operations as assigned.

Leads coordination with other utilities, municipalities, counties, state/federal agencies, and with FKAA customers on compliance standards and technical issues for potable water supply and treatment, wastewater collection and treatment (both local and centralized), and reclaimed water distribution.

Manages all regulatory agency permits, and any requisite reporting; represents FKAA as Utility Coordinator/Permittee/Engineer-of-Record for all Florida Department of Transportation (FDOT) and Florida Department of Environmental Protection (FDEP) applications; reviews and approves updates to the Spill Prevention, Control and Countermeasure (SPCC) plan for FKAA fuel facilities to ensure regulatory compliance.

Manages compliance with the conditions of the South Florida Water Management District (SFWMD) Water Use Permits (WUP), inclusive of updates to water demand projections for the Lower East Coast Study (LEC) updates.

Manages the FKAA water accounting program including, but not limited to: developing and implementing field plans to measure water, identifying and developing remediation for lost water, preparing water balance summary for water loss reporting, and working with municipals/county on Water Supply Plans.

Manages the automated water meter data collection program; reviews and approves all related R&R or CIP projects to improve reliability and overall system coverage.

Manages the FKAA Asset Management Program, including but not limited to: annual field asset inventory and condition assessments, regular asset criticality assessments, and Reliability Centered Maintenance (RCM) programs on critical assets.

Manages all capital planning by determining and programming both R&R and capital projects into the CIP using asset maintenance histories and other relevant asset data, as well as projects identified in the FKAA Master Plan; manages all updates to the FKAA Master Plan; manages and implements the FKAA CIP project prioritization methodology on an annual basis for the purposes of planning all CIP projects.

Coordinates and communicates effectively with other utilities, municipalities, counties, state, and federal agencies related to system planning, design, permitting, work activities, status of work, exchange of information, and resolution of problems.

Coordinates and manages work of FKAA engineering assignments, directs assigned staff, provides mentoring, and oversees and approves work produced by assigned staff.

Receives various forms, reports, correspondence, manuals, reference materials, or other documentation; reviews, completes, processes, forwards or retains as appropriate.

ADDITIONAL FUNCTIONS

Prepares status reports on assigned tasks for Senior Management, and other administrative work as assigned.

Provides assistance to other employees or departments as needed.

Performs other related duties as required.

MINIMUM QUALIFICATIONS

- Bachelor's degree in civil, chemical, mechanical or environmental (or similar) engineering required with a minimum of eight (8) years previous experience of progressive responsibility within a water/wastewater utility and/or consulting engineering firm specializing in water and wastewater system design.
 - A minimum of two (2) years of previous experience must be at a supervisory level.
 - A Master's degree in civil, chemical, mechanical or environmental (or similar) engineering may be substituted for up to two (2) years of non-supervisory experience as indicated above.
- Must be a Registered Professional Engineer (PE) in Civil or Environmental Engineering in the United States, with the ability to obtain registration in the State of Florida within six (6) months of hire.
- Must have a valid State driver license, with the ability to obtain a State of Florida driver license within thirty (30) days of hire.
- Requires advanced computer skills to utilize word processing and spreadsheet programs to generate reports, graphics, tables, etc.; proficiency in Microsoft Office Suite applications and experience in database development and management desired.
- Must be able to communicate effectively in English, both orally and in writing.

PERFORMANCE APTITUDES

Data Utilization: Requires the ability to review, classify, categorize, prioritize, and/or analyze data. Includes exercising discretion in determining data classification, and in referencing such analysis to established standards for the purpose of recognizing actual or probable interactive effects and relationships.

Human Interaction: Requires the ability to provide guidance, assistance, and/or interpretation to others regarding the application of procedures and standards to specific situations.

Equipment, Machinery, Tools, and Materials Utilization: Requires the ability to operate, maneuver and/or control the actions of equipment, machinery, tools, and/or materials used in performing essential functions.

<u>Verbal Aptitude</u>: Requires the ability to utilize a wide variety of reference and descriptive data and information.

Mathematical Aptitude: Requires the ability to perform addition, subtraction, multiplication, and division. Ability to calculate decimals and percentages; may include ability to perform mathematical operations with fractions; may include ability to compute discount, interest, profit and loss, ratio and proportion; may include ability to calculate surface areas, volumes, weights, and measures.

Functional Reasoning: Requires the ability to apply principles of rational systems; to interpret instructions furnished in written, oral, diagrammatic, or schedule form; and to exercise independent judgment to adopt or modify methods and standards to meet variations in assigned objectives.

<u>Situational Reasoning</u>: Requires the ability to exercise judgment, decisiveness and creativity in situations involving evaluation of information against measurable or verifiable criteria.

ADA COMPLIANCE

Physical Ability: Tasks require the ability to exert very moderate physical effort in light work, typically involving some combination of stooping, kneeling, crouching and crawling, and which may involve some lifting, carrying, pushing and/or pulling of objects and materials of moderate weight (12-20 pounds).

<u>Sensory Requirements</u>: Some tasks require the ability to perceive and discriminate sounds and visual cues or signals. Some tasks require the ability to communicate orally.

Environmental Factors: Performance of essential functions may require exposure to adverse environmental conditions, such as odors or temperature extremes.

The Florida Keys Aqueduct Authority is an Equal Opportunity Employer. In compliance with the Americans with Disabilities Act, the Authority will provide reasonable accommodations to qualified individuals with disabilities and encourages both prospective and current employees to discuss potential accommodations with the employer.

FLORIDA KEYS AQUEDUCT AUTHORITY

JOB DESCRIPTION

POSITION TITLE: MANAGER OF WASTEWATER OPERATIONS WASTEWATER OPERATIONS DEPARTMENT

PURPOSE OF CLASSIFICATION

The purpose of this classification is to perform experienced administrative work involving the operation and maintenance of FKAA wastewater treatment, transmission and collection facilities system-wide, including all reuse water facilities. Employee in this classification ensures the efficient maintenance and repair of systems to provide optimum service to customers. Position reports to the Deputy Executive Director of Utility Operations.

ESSENTIAL FUNCTIONS

The following duties are normal for this position. The omission of specific statements of the duties does not exclude them from the classification if the work is similar, related, or a logical assignment for this classification. Other duties may be required and assigned.

Plans, organizes, coordinates and controls the work of the North and South Divisions of the Wastewater Operations Department.

Manages, directs, and evaluates assigned staff, processing employee concerns and problems, counsels, disciplines, and completes employee performance appraisals.

Establishes department priorities concerning projects and schedules and assigns work to meet completion dates; ensures that departmental support efforts meet the needs of the organization; prepares estimates/analyses of proposed projects; establishes work priority and schedules within budgetary limits.

Meets departmental objectives established by the Deputy Executive Director of Utility Operations.

Assures effective operation of all wastewater treatment plants, collection and transmission systems by applying a thorough knowledge of wastewater treatment processes and system operations and maintenance; evaluates condition of existing assets; conducts random security inspections, evaluates, determines optimum solution and implements corrective action; ensures that the department responds to system breakdowns in a timely and efficient manner; ensures all facilities are properly maintained; establishes and assures compliance with a system-wide preventive maintenance program.

Ensures department compliance with state and federal regulations, standards, policies and procedures; ensures adherence to established safety procedures and training protocols; monitors work environment and use of safety equipment to ensure safety of employees and other individuals; initiates any actions necessary to correct deviations or violations; maintains an awareness of new trends and advances in the profession; reads professional literature; maintains professional affiliations; attends workshops and training sessions as appropriate.

FLORIDA KEYS AQUEDUCT AUTHORITY MANAGER OF WASTEWATER OPERATIONS

Monitors and tracks all hurricanes and tropical storms; calls staff meetings under threat of storm; calls for the execution of all pre-warning hurricane plans; keeps all department directors informed of progress; mans countywide Hurricane Center, as assigned; writes preparations and assigns FKAA personnel in disaster recovery; inspects damaged areas and recommends priorities to the Deputy Executive Director of Utility Operations; directs work force to handle priorities.

Coordinates projects and work activities with other divisions, other FKAA departments, consulting engineers, contractors, outside agencies, regulatory agencies, or others as needed; consults with engineers and specialists in fields relating to operation and maintenance activities, as well as capital and R&R wastewater projects.

Provides assistance with technical, policy, and procedural issues to supervisors/employees in all fields; directs supervisors in prioritization and management of projects and tasks involving plant operations, plant maintenance, and field services.

Develops and administers budgets for the Wastewater Department; monitors expenditures to ensure compliance with approved budgets; reviews requisitions for materials required to operate utilities; develops and reviews contractual specifications for bidding.

Provides input for Portals FDEP reporting software design; maintains QAQC of DMR data; provides software training. for staff.

Receives various forms, reports, correspondence, charts, records, meter readings, or other documentation; reviews, completes, processes, forwards or retains as appropriate.

Promotes public education and makes public presentations; conducts tours of facility with presentations geared toward public, utility, administrators, fire/rescue, police, and engineers; prepares/delivers technical presentations at seminars,

ADDITIONAL FUNCTIONS

Performs general/clerical tasks, which may include answering telephone calls, typing documents, creating presentations, completing surveys, making copies, sending/receiving faxes, filing documentation, or other tasks.

Analyzes unique, complicated and difficult complaints from customers to determine causes and initiate problem resolution.

Performs administrative tasks; reviews and approves employee time sheets, credit card purchases, leave requests, and other forms.

Prepares or completes various forms, reports, correspondence, or other documents.

Performs other related duties as required.

MINIMUM QUALIFICATIONS

- Bachelor's degree in civil, chemical, mechanical or environmental (or similar) engineering required with a minimum of six (6) years previous experience of progressive responsibility within a water/wastewater utility and/or consulting engineering firm specializing in water and wastewater system design.
 - A minimum of three (3) years of previous experience must be at a supervisory level.

FLORIDA KEYS AQUEDUCT AUTHORITY MANAGER OF WASTEWATER OPERATIONS

- A Master's degree in civil, chemical, mechanical or environmental (or similar) engineering may be substituted for up to two (2) years of non-supervisory experience as indicated above.
- An education exception may be made if the applicant has a High School diploma or GED and can demonstrate at least twelve (12) years of previous experience of progressive responsibility involving wastewater treatment and/or collection system operation and maintenance, or any equivalent combination of education, training, and experience which provides the requisite knowledge, skills, and abilities for this job.
- Must have a FDEP Class A Wastewater Operators license, or the ability to obtain license within two (2) years of hire.
- Must have a valid State driver's license, with the ability to obtain a State of Florida driver's license within thirty (30) days of hire.

Stephanie, I cut and pasted an e-mail that I received from Kristin Baird, Retirement Specialist II. See below. We did have him for 5/1 but were told it needs to be 6/1. Can we keep it at 5/1?

Hi Cheryl,

I checked on this and we do have everything needed, it simply hadn't been worked yet. I did want to make you aware that the position will be added to the Senior Management Service Class effective June 1, 2018. We received the SMSD-1 on May 1st and the positions are effective the first of the month following the month the forms are received by the Division.

Let me know if you have questions or if I can be of further assistance.

Kristin, Position # 000000008 was deactivated. However, a new SMSC Position was designated effective 5/1/18. See attached submission e-mailed on 5/1/18. Let me know if you need additional information. Tara Davila is my alternative. I am the Retirement Coordinate for our Agency.

Thank you

The position is designated Senior Management effective 6/1/18 does the Agency wish to upgrade the month of May for Mr. Miller?

From: Cheryl Sargent [mailto:csargent@fkaa.com] Sent: Monday, June 18, 2018 10:47 AM To: Enrollment Mailbox <<u>Enrollment@dms.myflorida.com</u>> Subject: RE: Senior Management - Jeremy Miller (2148)

We did not have an open position for him on that date. We had our max (12) positions until we eliminated one in April. We will just keep it effective 5/1.

Thank you

Cheryl

Does the Agency wish to have a Senior Management upgrade completed for Mr. Jeremy Miller ###-##-2148? The position of Manager of Wastewater Operations (Position# 0000000008) is Senior Management effective 6/1/18 and I see Mr. Miller went into the position 1/22/18. (He would eligible for January through May.) The Agency can, but is not obligated to purchase some or all of the time to upgrade.

Good afternoon,

Jeremy Miller (2148) was reported with a Senior Management plan code on the May retirement report, in position number 0000000008. This position was recently deactivated at the agency's request. Please clarify whether Mr. Miller should have been reported regular class or if he is filling Senior Management position.

Thank you,

ORGANIZATION CHART

FKAA Board Minutes October 24, 2018 Page 4

Mr. Zuelch advised that Tom Walker, Stephanie Bruno, Jolynn Reynolds and Jay Miller were co-authors on an excellent presentation given by Mr. Walker at the Water Environment Federation Technical Exposition and Conference (WEFTEC) in New Orleans at the end of September. He added that the presentation discussed the genesis and experiences the Authority has had with the low-pressure sewer system (LPS) in relation to the County's regional wastewater system project and was well received by all.

Hurricane Response Update

Mr. Zuelch reported that in response to Hurricane Florence and again for Hurricane Michael, the Authority had and has again respectively assembled a response team to provide mutual aid through FLAWARN. Mr. Zuelch advised that the crew based in Key Largo received a request for aide in assisting in the repairs of the City's water system in Panama City and immediately responded. Mr. Zuelch acknowledged the six Hurricane Michael Recovery Team as Brian O'Connor, Mick O'Connor, Matt Mansueto, Dylan Moore, Aaron Anker and Bryan O'Berry thanking them for representing all of us at the Authority as they assist those in need, He added that the crew is due to return home after spending two weeks in the most devastated areas.

Additional Discussion

Mr. Zuelch advised that the Senior Management Program is administered by the State of Florida Retirement System and is based on the number of people that the Authority employs. He explained that we have approximately 270 employees which allows 12 Senior Management positions. He added that the senior management group receives a 2% retirement with all other staff receiving a 1.6%.

Chairman Dean requested that future senior management positions that are to be assigned be brought to the Board for consideration. Mr. Zuelch advised that from here forward all senior management positions would be brought to the Board.

OFFICE OF COUNSEL

OOC-01. GENERAL COUNSEL'S REPORT

Delaney vs. Florida Keys Aqueduct Authority (FKAA) and Monroe County Update

Mr. Feldman reported that the Judge has ruled on both the Plaintiff (Louise Delaney) and the Defendants (FKAA & Monroe County) Motions for Summary Judgement. He added that the Judge granted the Plaintiff's Motion as to three of the five defendants affirmative defenses which will result in a trial on Defendants two defenses Laches and Unclean Hands.
