IN THE UNITED STATES DISTRICT COURT FOR THE NORTHERN DISTRICT OF GEORGIA ATLANTA DIVISION

SECURITIES AND EXCHANGE COMMISSION,

Plaintiff,

CIVIL ACTION NO. 1:11-cv-0056-TCB

vs.

STANLEY J. KOWALEWSKI and SJK INVESTMENT MANAGEMENT, LLC,

Defendants.

RECEIVER'S MOTION FOR APPROVAL OF PRIVATE SALE OF REAL PROPERTY LOCATED AT 101/105 ATLANTIC AVENUE, PAWLEYS ISLAND, GEORGETOWN COUNTY, SOUTH CAROLINA

S. Gregory Hays, the court-appointed Receiver for SJK Investment

Management, LLC ("SJK"), the SJK Special Opportunities Fund, LP (the "Special

Opportunities Fund"), and their assets, files this Motion for Approval of Private

Sale of Real Property Located at 101/105 Atlantic Avenue, Pawleys Island,

Georgetown County, South Carolina (the "Motion") and shows the Court as

follows:

BACKGROUND

1. Pursuant to the terms of Orders dated February 2, 2011 [ECF No. 37] and March 8, 2011 [ECF No. 59] (the "<u>Receivership Orders</u>"), Mr. Hays was appointed as Receiver for SJK, the Special Opportunities Fund, and all of their assets (collectively, the "<u>Receiver Estate</u>").¹

2. Among other things, the Receivership Orders authorize and direct the Receiver to take custody and control of assets of the Receiver Estate, to sell assets of the Receiver Estate, and to marshal and administer assets held by third-parties. (February 2, 2011 Receivership Order [ECF No. 37] §§ IV, VII, IX.)

3. On April 18, 2013, the Court entered an Order Administratively

Closing SEC Enforcement Action [ECF No. 192] (the "Closure Order"). Under

the Closure Order, the Receiver continues to have all rights, powers, and

protections set forth in previous orders, including but not limited to the

Receivership Orders. (Closure Order ¶ 2.) The Closure Order further provides that:

The Receiver shall continue to have the authority to convey clear title to the remaining properties in the Receiver Estate in accordance with the provisions of the Receivership Orders and 28 U.S.C. §§ 2001 (Sale of Realty Generally) and 2002 (Notice of Sale of Realty).

(*Id.* ¶ 3.)

¹ The Receivership Orders also appointed Mr. Hays as Receiver for Defendant Stanley J. Kowalewski ("<u>Kowalewski</u>"). The receivership over Kowalewski was terminated on September 30, 2011 [ECF No. 138].

4. In accordance with the Receivership Orders, the Receiver has taken custody and control of various assets of the Receiver Estate, including a parcel of real property and house located at 101/105 Atlantic Avenue (Lots 2 and 1A Assey Subdivision), Pawleys Island, Georgetown County, South Carolina 29585 (the "<u>Property</u>"). The Property was purchased by the Special Opportunities Fund in May 2010 for a purchase price of \$3.9 million from: Philip E. Assey, II; B. Paulette Sigmon; and Marguerite A. Assey. Copies of the warranty deeds conveying the Property to the Special Opportunities Fund are attached hereto as <u>Exhibit A</u>. Consequently, the Property is part of the Receiver Estate and, consistent with the Receivership Orders and Closure Order, may be sold by the Receiver upon the Court's approval.

5. Effective April 14, 2014, the Receiver entered into a Purchase and Sale Agreement with Rex W. Huggins and Jane P. Huggins (the "<u>Huggins</u>"), whereby, subject to this Court's approval, the Receiver has agreed to sell the Property to the Huggins for a purchase price of \$2,825,000 (the "<u>Purchase</u> <u>Agreement</u>"). A copy of the Purchase Agreement, as amended, is attached hereto as <u>Exhibit B</u>.

DISPOSITION PROCEDURES UNDER 28 U.S.C. § 2001

6. Where the administration of a receiver estate requires the sale of real

property, 28 U.S.C. § 2001 provides the procedures that a receiver must follow.

Specifically, subsection (b) establishes the following procedures for a private sale

of real property:

(b) After a hearing, of which notice to all interested parties shall be given by publication or otherwise as the court directs, the court may order the sale of such realty or interest or any part thereof at private sale for cash or other consideration and upon such terms and conditions as the court approves, if it finds that the best interests of the estate will be conserved thereby. Before confirmation of any private sale, the court shall appoint three disinterested persons to appraise such property or different groups of three appraisers each to appraise properties of different classes or situated in different localities. No private sale shall be confirmed at a price less than two-thirds of the appraised value. Before confirmation of any private sale, the terms thereof shall be published in such newspaper or newspapers of general circulation as the court directs at least ten days before confirmation. The private sale shall not be confirmed if a bona fide offer is made, under conditions prescribed by the court, which guarantees at least a 10 per centum increase over the price offered in the private sale.

28 U.S.C. §2001(b).

7. Therefore, in order to sell the Property in a private sale, the Receiver must obtain permission from the Court to do so. The sale also must comply with the other provisions in section 2001(b), which provide, in part, that the Court appoint three disinterested persons to appraise the Property and that a minimum price of two-thirds of the appraised value be obtained in a private sale. Section

2001(b) also requires that the terms of the sale shall be published in a newspaper of general circulation as the Court directs for at least ten (10) days before the final confirmation of the sale. Finally, a private sale cannot be confirmed if a bona fide offer is made, which guarantees at least a ten percent (10%) increase over the price offered in the private sale.

8. In overseeing equity receiverships, district courts have wide discretion in overseeing the sale of real and personal property. Accordingly, except in cases of abuse, appellate courts will not disturb the exercise of the district courts' discretion in setting the conditions for judicial sales or the confirmation thereof. *See United States v. Branch Coal*, 390 F.2d 7, 10 (3rd Cir. 1968), *cert. denied*, 391 U.S. 966 (1968).

9. One of the ultimate purposes of the Receiver's appointment in this case is to provide a vehicle through which assets can be gathered, preserved, and, ultimately, liquidated in order to minimize to the extent possible the losses incurred by investors in the hedge funds that were managed by SJK (the "<u>SJK Funds</u>").² To that end, the Court has extremely broad powers to supervise the receivership and to determine the appropriate action to be taken in the administration of the

receivership. *See SEC v. Hardy*, 803 F.2d 1034, 1038 (9th Cir. 1986); *SEC v. Lincoln Thrift Ass'n*, 577 F.2d 600, 606 (9th Cir. 1978); *see also SEC v. Safety Fin. Serv., Inc.*, 674 F.2d 368, 372 (5th Cir. 1982) (holding that a court overseeing a receivership is accorded "wide discretionary power" in light of "the concern for orderly administration") (citations omitted).

Each receivership case presents its own distinct circumstances that 10. require the presiding court to employ case-specific procedures. See SEC v. Hardy, 803 F.2d at 1038 (recognizing that courts must often craft reasonable administrative procedures to deal with the complex circumstances of each case). Because a court may not have the resources to ascertain which procedures will be most efficient in a given situation, the receiver has a duty to assist the court in understanding the specific issues in the case and developing the appropriate procedures. See id. (citing SEC v. Wencke (Wencke II), 783 F.2d 829, 837 n.9 (9th Cir. 1986)) (noting the duty of an equity receiver to aid the court in orderly and efficient administration of the estate); see also Marsch v. Williams, 23 Cal. App. 4th 238, 248 (Cal. Ct. App. 1994) (noting that the receiver is "the hand of the court, to aid it in preserving and managing the property involved in the suit for the benefit of those to whom it may ultimately be determined to belong").

11. In light of the purposes and principles underlying the administration of this receivership, and in an effort to minimize additional costs incurred by the Receiver Estate in disposing the Property, the Receiver proposes the sale of the Property pursuant to the terms set forth below, which comply with 28 U.S.C. § 2001.

SALE OF THE PROPERTY

12. As mentioned above, the Receiver has entered into the Purchase Agreement with the Huggins to sell the Property for \$2,825,000.

13. The Receiver is not in any way affiliated with the Huggins.

14. The Huggins' inspection period has expired, and the Receiver is

prepared to sell the Property to the Huggins pursuant to the terms of the Purchase

Agreement.

15. As required by 28 U.S.C. § 2001, the Receiver has considered the following three appraisals in connection with the sale of the Property:

(a) The April 22, 2014, residential appraisal performed by Bay Shore Appraisal Services for S. Gregory Hays, placing a fair market value of 3,000,000 on the Property, a true and correct copy of which is attached hereto as <u>Exhibit C</u>.

(b) The April 16, 2014, residential appraisal performed by Treffer Appraisal and Advisory Group for Hays Financial Consulting, LLC, placing a fair market value of \$2,497,100 on the Property, a true and correct copy of which is attached hereto as <u>Exhibit D</u>.

(c) The January 14, 2014, residential appraisal of Lot 2 performed by Cromartie Appraisal Service, Inc. for S. Gregory Hays, placing a fair market value of \$2,750,000 on the Lot 2 of the Property, a true and correct copy of which is attached hereto as <u>Exhibit E</u>.

16. These documents are sufficient to satisfy section 2001(b)'s appraisal requirements because each was provided by a party who is independent from the Receiver and has no interest in the proposed sale of the Property to the Huggins.

17. As required by 28 U.S.C. § 2001, the \$2,825,000 sales price exceeds two-thirds of the appraised value and is a reasonable purchase price amount. Moreover, selling the Property now, as is, will allow the Receiver Estate to avoid additional expenses associated with maintaining the Property in the future.

18. As required by 28 U.S.C. § 2001, in order to allow for competing bids, the Receiver has published notice of the terms of the Purchase Agreement in the Coastal Observer (Pawleys Island, SC) and the Post and Courier (Charleston, SC), which are both newspapers of general circulation in the geographic area where the Property is located. The Receiver first published the notice on May 19, 2014 in the Post and Courier and May 22, 2014 in the Coastal Observer, and it will run consecutively through June 5, 2014. Copies of these notices are attached hereto as <u>Exhibit F</u>.

19. Upon completion of the notice period, the Receiver will filePublishers' Affidavits confirming the dates of publication and will disclose to the

Court any competing bids. The Receiver will notify the Court promptly if he receives a qualifying competing bid -i.e., a bid that guarantees a purchase price at least 10% higher than the purchase price in the Purchase Agreement.

20. Upon the filing of this motion, the Receiver will publish a copy of the motion and all exhibits to his website, <u>http://haysconsulting.net/assets-for-sale/beach-front-residential/</u>, and will send the motion by email to: (i) the investors in the SJK Funds and (ii) creditors with approved claims against the Special Opportunities Fund.³ The Receiver also will mail a copy of the motion and exhibits to the Internal Revenue Service.

21. The Receiver believes that selling the Property pursuant to the Purchase Agreement is in the best interests of the Receiver Estate. The Receiver believes that if the Court does not approve the sale of the Property under the Purchase Agreement, the Receiver may not be able to sell the Property at the same

³ Only \$7,079.09 in creditor claims were approved against the Special Opportunities Fund under the Court's July 16, 2012 Order Approving Receiver's Supplemental Plan for Administration of Receiver Estate and Distribution of Proceeds [ECF No. 178] and all of the Receiver's obligations to those creditors have been satisfied. Likewise, the Receiver has satisfied the tax obligations of the Special Opportunities Fund on an ongoing basis. To satisfy the requirements of the title insurer selected by the Huggins, however, the Receiver has agreed to provide notice to these individuals and entities. In the event the Receiver does not have a current email address for an investor or creditor, the Receiver will provide them a one-page notice of the motion by First-Class Mail, which will direct them to the Receiver's website.

or a materially higher price. Even if he ultimately were able to obtain a higher price, it may take a long time to find a buyer willing to purchase the Property in its current condition, and the Receiver Estate may incur substantial ongoing maintenance expenses in the meantime.

WHEREFORE, the Receiver respectfully requests that this Court enter an order:

(a) Appointing as independent appraisers, and approving the
 Receiver's use of the appraisals prepared by, Bay Shore Appraisal Services,
 Treffer Appraisal and Advisory Group, and Cromartie Appraisal Service,
 Inc.;

(b) Directing publication, and approving the Receiver'spublication of the sale, in the Coastal Observer (Pawleys Island, SC) and thePost and Courier (Charleston, SC);

(c) Approving the Receiver's notice to the SJK Funds' investors, creditors with approved claims against the Special Opportunities Fund, and the Internal Revenue Service; and

(d) Approving the sale of the Property pursuant to the terms of the Purchase Agreement.

If no objections are filed to this Motion and if the Receiver does not receive any competing bids for the Property, the Receiver requests that the Court grant this motion without hearing to avoid the unnecessary expenditure of the Receiver Estate's Assets. The Receiver will notify the Court if no objections have been filed or competing bids have been received and submit a proposed Order approving the sale. If objections are filed or competing bids received, the Receiver requests that the Court schedule a hearing to resolve any outstanding issues.

This 21st day of May 2014.

OCEANFRONT PROPERTY DISCLOSURE STATEMENT

Pursuant to S.C. Code Ann. Section 48-39-330 (1988 Supp.), the Grantor discloses to the Grantee that the property or a portion thereof is or may be subject to statutory regulation imposed by the South Carolina Coastal Zone Act of 1977, S. C. Code Ann. Sections 48-39-10, et seq. (1988 Supp.), as amended by the South Carolina Beach Management Act, S. C. Code Ann. Sections 48-39-270, et seq. (1988 Supp.), hereinafter collectively called "the Acts". The Acts involve, and may subject the property to, the creation and existence of interim and final baselines, setback lines, the velocity zone and an erosion rate, all as is more fully defined in the Acts. Part or all of the property is or may be located seaward of the setback line, the minimum setback line or interim baseline, and has an erosion rate, all is more fully determined by the South Carolina Coastal Council on July 1991. This information is more particularly shown on that certain "Recombination & Subdivision Plat Of The Josephine L. Assey Property", prepared by Thomas & Hutton Engineering Co., dated July 20, 2005 and recorded in the office of the Register of Deeds for Georgetown County in Plat Book/Slide 561 at Page 9; as more currently shown on that certain "Plat Of Lots 1A And 2 Of The Josephine L. restrict the Grantee's right to build, repair or rebuild structures on the property. No structure may be constructed seaward of the setback line without a permit issued by the DHEC office of Ocean and Coastal Resource Management. Pursuant to the Acts, the locations of the baselines and interim and final setback lines are subject to change. The methodology utilized in determining the exact location of the setback lines and baselines on the property and the currently applicable erosion rate may be obtained from the DHEC Office of Ocean and Coastal Resource Management. The methodology described above must be utilized in a case-by-case, property-byproperty manner in order for an exact, surveyed determination to be made of the location of the baselines and setback lines. The Grantors make no representation to the Grantees concerning the location of such baselines, setback lines, or the velocity zone, the effect of such regulation on the property, or the accuracy of the foregoing disclosure.

This conveyance is made subject to any and all applicable covenants, easements, restrictions, and limitations of record.

ADDENDUM TO AGREEMENT TO BUY AND SELL REAL ESTATE

This Addendum to that certain Agreement to Buy and Sell Real Estate - Residential (the "Agreement") by and between S. Gregory Hays, as Receiver for SJK Special Opportunities Fund, L.P. ("Seller") and Rex W. Huggins and Jane P. Huggins ("Buyer") with an offer date of April 3, 2014, for the purchase and sale of real property known as 101/105 Atlantic Avenue (Lots 2 and 1A Assey Subdivision), Pawleys Island, Georgetown County, South Carolina 29585, is entered into between the parties as of the Effective Date of the Agreement. All items and conditions of the Agreement, as modified by this Addendum, are agreed to and accepted by the undersigned.

1. Court Approval. Buyer acknowledges that Seller is acting solely in its capacity as Receiver for the record owner of the property, pursuant to court order from the U.S. District Court for the Northern District of Georgia (the "Court"). Notwithstanding anything in the Agreement or this Addendum to the contrary, the consummation of the transaction contemplated herein is subject to a court ordered bidding process and court approval. The material terms of the process may be found on the receiver's web-site at www.haysconsulting.net. In addition to other contingencies set forth in this Agreement. Seller's obligations under this Agreement are contingent upon obtaining all necessary and required approvals of the transactions expressed in this Agreement from the Court. Seller's obligations under this Agreement shall be further subject to any conditions, qualifications or restrictions which the Court may impose, and Buyer has the right to review and accept any such conditions, qualifications or restrictions. Should any such conditions, qualifications or restrictions materially impact Buyer's obligations under the Agreement. Buyer shall have the right, in its sole discretion, to terminate the Agreement upon five (5) days' written notice to Seller, and Seller shall instruct Escrow Agent to return Buyer's Earnest Money deposit. In the event Seller has not obtained Court approval at least three (3) business days prior to the Closing Date, Buyer shall upon written notice to Seller ("Buyer's Notice") elect in its sole discretion to either: (a) terminate this Agreement; or (b) extend the Closing Date for an additional ninety (90) days (the "Extended Closing Date"); provided that all rents collected by or owing to Seller from and after May 31, 2014 to the Extended Closing Date (net of prorated expenses pertaining to the Property, to the extent not otherwise prorated on the settlement statement: an accounting for which shall be submitted to Buyer for approval prior to the Closing) shall be held in a separate escrow account to the established by Pawleys Island Realty and delivered to Escrow Agent at Closing to be credited against the Purchase Price to be paid by Buyer. Should Buyer fail to deliver Buyer's Notice to Seller on or before the Closing Date, the Closing Date shall automatically extend to the Extended Closing Date and Seller's requirement to escrow rents as set forth above shall apply. In the event the Closing takes place on or before the Extended Closing Date. Seller shall instruct Pawleys Island Realty to remit the escrowed rents (net of prorated expenses pertaining to the Property, to the extent not otherwise prorated on the settlement statement: an accounting for which shall be submitted to Buyer for approval prior to the Closing) to Escrow Agent to be credited against the Purchase Price to be paid by Buyer at Closing. In the event the Court has not granted its approval for the sale of the Property on or before the Extended Closing Date, or in the event of an accepted "upset bid" presented according to the statutory guidelines before Court approval, this Agreement shall automatically terminate and Seller shall instruct Escrow Agent to return the Earnest Money to Buyer and Buyer shall instruct Pawleys Island Realty to disburse the escrowed rents to Seller. Upon such termination neither party shall have any further liability to the other, unless otherwise

agreed to by the parties. Otherwise, all risk of loss shall be borne by Seller through the date of Closing, and the provisions of <u>Section 15</u> of the Agreement shall apply in all respects.

2. <u>Disinterested Party</u>. Buyer represents and warrants that neither it nor any of its principals: (a) is a creditor, an equity security holder, or an insider of Seller or any of Seller's affiliates (collectively, Seller and Seller's affiliates are defined as the "<u>Interested Parties</u>"); (b) is currently, or has been within the previous two (2) years, a director, officer, principal, member, manager or employee of any of the Interested Parties; and (c) has any contractual relationship with any of the Interested Parties, other than arising from this Agreement. The representations and warranties contained in this <u>Section 2</u> shall be reaffirmed by Buyer at Closing and shall survive Closing.

3. <u>Purchase Price</u>. Within seven (7) business days of the execution of this Addendum, Buyer shall deliver to Seller evidence satisfactory to Seller that Buyer has the ability to deliver the purchase price in cash at closing. In the event Buyer fails to deliver such evidence or in the event such evidence is not satisfactory to Seller, in Seller's discretion, Seller shall have the right to terminate the Agreement whereupon the Agreement shall be of no further force or effect and the Escrow Agent shall return the earnest money deposit to Buyer.

4. <u>Property</u>. Notwithstanding anything in <u>Section 3</u> of the Agreement to the contrary, Seller shall have no obligation to remove any fixtures, furniture or other personal property items from the Property and the personal property items to be conveyed to Buyer at Closing shall be conveyed "AS-IS" without any warranty whatsoever.

5. <u>Title</u>. Notwithstanding anything in <u>Section 4</u> of the Agreement to the contrary, conveyance of the property at closing shall be made by special warranty deed. Seller hereby advises Buyer that Section XV of the Receivership Order provides, in relevant part, as follows:

"It is further ordered that absent express permission and leave by this Court, all actions by any creditors and other persons seeking money damages or other relief from the Receiver Estate and all others acting on behalf of any such creditors and other persons ... are, until further order of this Court, hereby stayed. Further, all persons having notice of this Order . . . are restrained from doing anything to interfere with the Receiver['s] performance of his duties and the administration of the Receiver Estate. Accordingly, all such persons are enjoined from engaging in any self-help, including set-offs, and from filing or prosecuting any actions or proceedings which involve the Receiver or which affect the Receivership Estate . . . except with prior permission of this Court. Moreover, any such actions that are so authorized shall be filed in this Court."

Seller covenants that it will not support any action sought by any former clients of the Interested Parties seeking recovery from the Interested Parties which may have an adverse impact on the Property. Further, Seller shall indemnify, defend and hold Buyer harmless from any and all claims, causes of action or other forms of redress (collectively, "<u>Claims</u>") that may be asserted against Buyer or the Property for Claims arising before the Closing Date: provided, however, Seller shall have no such obligation in the event such Claims arise out of Buyer's or its agents actions, omissions or negligence.

6. <u>Inspections</u>. All inspections of the Property are subject to the rights of licensees under rental agreements and Buyer covenants not to unreasonably interfere with the rights of such licensees under such rental agreements. Additionally, prior to conducting any physical inspections of the Property, Buyer must first coordinate such activities with Walter McElveen of Pawleys Island Realty, telephone number (843) 237-2431.

7. <u>Earnest Money</u>. The Earnest Money deposited by Buyer pursuant to <u>Section 5</u> of the Agreement shall be nonrefundable to Buyer except in the event of a Seller default under the Agreement, as modified by this Addendum, or any termination of the Agreement by Buyer (or the deemed termination of this Agreement) which is expressly authorized under the provisions of <u>Section 1</u> or <u>Section 8</u> of this Addendum.

8. Due Diligence. Notwithstanding anything in Section 6 and 9 of the Agreement to the contrary. Buyer shall have a due diligence period of twenty one (21) days from the date upon which final signatures are placed on this Addendum or the Agreement by both Seller and Buyer. whichever is later (the "Due Diligence Period") to perform the following at Buyer's sole cost and expense: investigate the title and the condition of the Property, to conduct non-invasive and non-destructive inspections, to review the feasibility of the Property as rental property, to obtain a survey and other reports at Buyer's sole cost pertaining the to the Property, and to investigate insurance and other matters affecting the marketability of the Property. Seller shall cooperate in good faith with Buyer during the Due Diligence Period, provided that Buyer and its representatives and agents shall coordinate with Seller and Seller's Broker to facilitate access to the Property without disruption of rental guests of Seller, it being understood by Seller that time is of the essence during the Due Diligence Period. The Due Diligence Period may be extended upon written agreement of the parties. Buyer may unilaterally terminate the Agreement at Buyer's sole discretion at any time during the Due Diligence Period or any extension thereof by providing written notice to Seller at any time during the Due Diligence Period: whereupon Buyer's Earnest Money shall be returned to Buyer by the Escrow Agent.

9. Additional Contingencies. Notwithstanding anything in Section 6 of the Agreement or Section 8 of this Addendum to the contrary, should the sale not be consummated according to the terms of the Agreement, as modified by this Addendum, because (a) subject to Buyer's satisfaction or waiver of the contingencies described in Section 11 below, the Court fails to approve the sale prior to the Closing Date or any Extended Closing Date. (b) the Court imposes conditions, qualifications or restrictions that materially impact Buyer's obligations under the Agreement and result in Buyer validly terminating the Agreement under the terms of Section 1 hereof, or (c) due to the acceptance of an "upset bid" presented according to the statutory guidelines. Buyer shall be reimbursed by Seller of an amount up to Ten Thousand Dollars (\$10,000.00) of Buyer's actual, reasonable out-of-pocket expenses incurred (including, but not limited to, professional fees, inspection fees, legal fees, costs and other out-of-pocket expenses) in connection with the attempted transaction. Buyer shall request such reimbursement from Seller in writing, which shall include supporting documentation verifying Buyer's actual out-ofpocket expenses, including any additional information Seller may reasonably request. For the avoidance of doubt, the foregoing reimbursement obligation shall not apply if the Agreement is terminated or if the parties fail to consummate the sale of the Property for any other reason which is not specified above in this Section 9.

10. <u>Rental Agreements</u>. Buyer acknowledges that the Property is presently encumbered by those certain rental agreements identified on Schedule 1 attached hereto and at Closing Buyer shall assume the obligations of Seller arising from and after Closing under all such rental agreements, and any additional rental agreements for calendar year 2014 procured by Pawleys Island Realty in the ordinary course of business prior to Closing.

11. <u>Closing</u>. Buyer acknowledges and agrees that the Closing will not occur unless and until the Court approves the conveyance to Buyer pursuant to the terms of the Agreement. Buyer further acknowledges that Seller is prohibited from seeking such Court approval unless and until all contingencies under the Agreement, including, but not limited to, financing, appraisal, due diligence, title and survey, have been satisfied or waived by Buyer. Closing shall occur no later than ten (10) days following approval by the Court.

12. <u>Joint and Several Liability</u>. The obligations of Buyer under the Agreement are joint and several.

13. <u>AS-IS</u>. Buyer and Seller mutually acknowledge and agree that the Property is being sold in an "AS-IS" condition "WITH ALL FAULTS", known or unknown, contingent or existing. Notwithstanding the foregoing. Buyer reserves its right to unilaterally terminate the Agreement at Buyer's sole discretion at any time during the Due Diligence Period as provided in <u>Section 8</u> above.

14. <u>Offer Expiration and Closing Date</u>. <u>Section 4</u> of the Agreement is hereby amended to reflect a new Closing Date of May 30, 2014. <u>Section 31</u> of the Agreement is hereby amended to reflect that Buyer's offer for purchase shall expire on Monday. April 14, 2014 at 5 pm EDT.

15. <u>Miscellaneous</u>. Except as modified by the terms of this Addendum, all other terms, covenants and conditions of the Agreement shall remain unchanged and in full force and effect.

OCEANFRONT PROPERTY DISCLOSURE

Pursuant to S.C. Code Ann. (Section 48-39-330) (1988 Supp.), the Seller discloses to the Buyer that the property or a portion thereof is or may be subject to statutory regulation, imposed by the South Carolina Coastal Zone Act of 1977, S.C. Code Ann. Sections 48-39-10, et. seq. (1988 Supp.), as amended by the South Carolina Beach Management Act, S.C. Code Ann. Sections 48-39-270 et. seq. (1988 Supp.), hereinafter collectively called "the Acts". The Acts involve, and may subject the property to, the creation and existence of interim and final baselines, setback lines, the velocity zone and an erosion rate, all as is more fully defined in the Acts. Part or all of the property is or may be located seaward of the setback line, the minimum setback line or interim baseline, and has an crosion rate, all as more fully defined in the Acts. This information is more particularly shown on that certain "Plat of Lots 1A and 2 of the Josephine L. Assey Subdivision Located on the North End of Pawleys Island Surveyed for SJK Special Opportunities Fund, LP " Pawleys Island, Georgetown County, South Carolina", dated April 23, 2010, prepared by J. Luckey Sanders, R.L.S. and recorded in the Office of the Register of Deeds for Georgetown County on May 6, 2010 in Plat Slide 712 at Page 10, which plat is incorporated herein and made a part hereof by reference. All or part of the property is or may be within the velocity zone as determined by the Federal Emergency Management Agency. The Acts may also restrict the Buyer's right to build, repair or rebuild structures on the property. No structure may be constructed seaward of the setback line without a permit issued by the South Carolina Coastal Council. Pursuant to the Acts, the locations of the baselines and interim and final setback lines are subject to change. The methodology utilized in determining the exact location of the setback lines and baselines on the property and the currently applicable erosion rate may be obtained from the South Carolina Coastal Council. The methodology described above must be utilized in a case-by-case, property-byproperty manner in order for an exact, surveyed determination to be made of the location of the baselines and setback lines. The Seller makes no representation to the Buyer concerning the location of such baselines, setback lines, or the velocity zone, the effect of such regulation on the property, or the accuracy of the foregoing disclosure.

SUPPLEMENTAL ADDENDUM #2 TO AGREEMENT TO BUY AND SELL REAL ESTATE

This Supplemental Addendum #2 (this "Supplement #2") to that certain Agreement to Buy and Sell Real Estate - Residential (the "Original Agreement") entered into by and between S. Gregory Hays, as Receiver for SJK Special Opportunities Fund, L.P. ("Seller") and Rex W. Huggins and Jane P. Huggins ("Buyer") dated April 14, 2014, and the related Addendum to Agreement to Buy and Sell Real Estate of even date therewith (the "Addendum"), as amended by that certain Supplemental Addendum to Agreement to Buy and Sell Real Estate dated May 5, 2014 (the "Supplemental Addendum"; together with the Original Agreement and the Addendum, the "Agreement") for the purchase and sale of real property known as 101/105 Atlantic Avenue (Lots 2 and 1A Assey Subdivision), Pawleys Island, Georgetown County, South Carolina 29585, is entered into between the parties as of the date set forth below.

 Section 9 of the Addendum entitled "Additional Contingencies" is hereby deleted in its entirety and replaced with the following:

"Additional Contingencies, Notwithstanding anything in Section 6 of the Agreement or Section 8 of this Addendum to the contrary, should the sale not be consummated according to the terms of the Agreement, as modified by this Addendum, because: (a) subject to Buyer's satisfaction or waiver of the contingencies described in Section 11 below, the Court fails to approve the sale prior to the Closing Date or any Extended Closing Date, (b) the Court imposes conditions, qualifications or restrictions that materially impact Buyer's obligations under the Agreement and result in Buyer validly terminating the Agreement under the terms of Section 1 hereof. (c) due to the acceptance of an "upset hid" presented according to the statutory guidelines, or (d) Chicago Title Insurance Company (the "Title Company") refuses to issue at Closing to Buyer its standard title insurance policy as a result of Seller's failure or inability to satisfy those certain requirements that are under Seller's reasonable control to satisfy set forth under Schedule B - Section I of that certain Title Commitment dated April 24, 2014, issued by the Title Company as order number 14-CT-1187 (a copy of which is attached hereto as Exhibit A) (the "Title Commitment"), specifically including and expressly limited to Items 5, 7, 9, 11, and 13-16, and any additional requirements issued by the Title Company prior to Closing that are under Seller's reasonable control to satisfy and can only be satisfied by Seller, this Agreement shall automatically terminate and Buyer shall be reimbursed by Seller of an amount up to Ten Thousand Dollars (\$10,000.00) of Buyer's actual, reasonable out-of-pocket expenses incurred (including, but not limited to, professional fees, inspection fees, legal fees, costs and other out-of-pocket expenses) in connection with the attempted transaction and without any further liability or obligation on the part of Seller. Buyer shall request such reimbursement from Seller in writing, which shall include supporting documentation verifying Buyer's actual out-ofpocket expenses, including any additional information Seller may reasonably The foregoing reimbursement obligation shall not apply if the request. Agreement is terminated or if the parties fail to consummate the sale of the Property for any other reason which is not specified above in this Section 9. For the avoidance of doubt, Buyer's failure to pay the Title Company's premium and satisfy the Title Company's requirements that are within Buyer's reasonable control (i.e., all requirements other than Items 5, 7, 9, 11, and 13-16 of Schedule B – Section 1 of the Title Commitment or any additional requirements issued by the Title Company prior to Closing that are under Seller's reasonable control to satisfy and can only be satisfied by Seller) shall not constitute a failure of the condition precedent set forth in (d) above and shall not result in the automatic termination of the Agreement."

2. Notwithstanding anything in the Agreement to the contrary, Seller agrees to perform all repairs to the Property as listed on page 7 (collectively, the "**Repairs**") of that certain Inspection Report prepared by Advantage Inspection – Myrtle Beach, LLC for the benefit of Buyer dated April 23, 2014 (the "**Inspection Report**"), a copy of which is attached hereto as Exhibit B. The Repairs shall be performed by Seller in a good and workmanlike manner prior to Closing, subject to Buyer's reasonable approval. Seller shall notify Buyer's counsel in writing when the Repairs have been completed, and Buyer shall inspect the Repairs and either accept the Repairs or provide Seller with a written list of repair deficiencies along with Buyer's reasonable reason(s) for same within 5 days of notice of completion of the Repairs. Comments: This appraisal report is based on an analysis of trends in the recent past tempered with analytical judgment concerning the probable extent to which said trends will continue into the future.

Comparable #4 is a similar beach home in the historic district of Pawleys Island. According to the listing agent Comparable #4 has many similar or equal features. It is considered to be a reasonable alternative that competes for a similar clientele even though it is a smaller home.

The Market Data Analysis grid reflects appropriate adjustment(s) where applicable, from derived contributory value(s) applying dollar for dollar adjustment, matched pairs analysis and/or percentage adjustments. It is the Appraiser's opinion that if no adjustment was made on the form for certain features and/or amenities, there was no significant effect on the value of the property.

The Appraiser has made no inspection expressly or implied and accepts no responsibility for the presence and/or absence of hazardous materials including, but not limited to: asbestos and/or radon gas and/or urea formaldehyde foam insulation, as well as the structural integrity of the building and the present condition of its mechanical systems.

Appliances and mechanical systems are not warranted by the Appraiser as to condition and/or adequacy but, unless otherwise indicated, are considered to be reliable in formulating this report.

"Adequate/Similar/Equal" can be defined as items or characteristics that is similar to the same item or characteristic typically found in a competing properties and/or neighborhoods.

The Appraiser is responsible neither for any hidden subsurface site condition that may exist on the subject site, nor for contamination of soils. If contamination has occurred, the contaminated soils and the source of contamination will be removed and the contamination remedied on the subject site in accordance with all Federal and State regulations.

The Appraiser has made no survey as to jurisdictional wetlands and/or possible encroachments and has not been furnished with such a document. If such wetlands or encroachments are present, this may be construed to be an adverse condition with an effect on value.

Acceptance of, and/or use of, this appraisal report by any client or any third party constitutes acceptance of the above conditions. Appraiser liability extends only to stated client, not subsequent parties or users of any type.

Appraisals are no guarantee that the property is free from defects. The appraisal only establishes the value of the property for mortgages purposes. Buyers (if applicable) need to secure their own home inspections through the services of a qualified inspector and satisfy themselves about the condition of the property. The appraiser often chose to use photo copies of the comparable sales provided by the listing agent because in many cases those photos best reflect the comparable property at the time of the sale.

The subject is on the north end of the island. It consists of two lots (lot 2 & 1A). Lot 2 is the buildable portion of the two lots. It is approximately 37,617 sf. Lot 1A is the ocean front portion of the site with a beach walk improvement. It is approximately 43,238 sf. The subject is in a unique gated area where only a small amount of buildable lots exist. The lot directly north of the subject sold on 03/15/2013 in the amount of \$750,000.00. It was a distressed sale that, in the appraisers opinion, sold well below value. Construction of a home on that lot is underway. The most similar lot in this unique gated area is currently on the market for \$1,300,000.00. It is located approximately two lots south of the subject. In the appraisers opinion the subject's estimated site value (lot 1A & 2) is in the range of \$1,200,000.00 to \$1,400,000.00. Say \$1,350,000.00 mostly because of Lot 1A and its improvement which is private to that site, according to the listing agent.
 The highest home sold in the past three years on Pawleys Island was Comparable # 1, according to the MLS. Like the subject is has beach

2. The highest home sold in the past three years on Pawleys Island was Comparable # 1, according to the MLS. Like the subject is has beach and creek frontage with a dock. Its interior walls are similar custom paneling and its features appear to be similar or equal in many ways. For instance it has an elevator and gourmet's kitchen. It is on a smaller lot that is similar in value because it is in the Historic Section of Pawleys Island. It is considered to be the most reasonable (sold) substitute to the subject at this time on the island.

3. Comparable # 2 is in a gated community that is north of the subject. Like the subject its is on a ocean and creek front lot with a dock. This is smaller site that is slightly inferior in value even though it in a development that has a site pool and pool house amenities.

4. Comparable # 3 is a similar beach home in a nearby gated community known as Prince George. The Prince George development has superior site features such as a club house and a pool near the ocean. Ocean front lots in Prince Creek are larger and typically superior in value

superior site features such as a club house and a pool near the ocean. Ocean front lots in Prince Creek are larger and typically superior in value when compared to ocean front site on the island. As such a downward site adjustment was weighed in this particular case.

According to the listing agent Comparable # 3 has many similar or equal features as well as being the most similar in size. It is considered to be a reasonable alternative that competes for a similar clientele even though it is not on Pawleys Island. 5. 5. As always adjustments within this report have been extracted from the current market place and when appropriate from historical data (that typically impacts values) derived from the subject's market place. Even though they may be somewhat subjective. It is the Appraiser's opinion that if no adjustment was made on the form for certain features and/or amenities, there was no significant effect on the value of the property.

6. The subject and comparables are custom constructed executive homes featuring construction quality and optional items not found in the majority of home sales in the area, as such, adjustments for certain specialty items are considered to be appropriate within this market place, even though they may at times be somewhat subjective. The sales price of such large custom homes often fluctuates with interest rates, length of ownership, and seller motivation. It is the Appraiser's opinion that the indicated estimated market value of the subject is reflective of current market conditions as of the date of the subject appraisal report.

7. The subject fronts a public, unpaved hard surfaced road that is considered to be an all weather road. Unpaved roads are considered typical for the area with no adverse effect on marketability.

8. The appraiser at times may chose to use photo copies of the comparable sales provided by the listing agent because in many cases those photos best reflect the comparable property at the time of the sale or Comparable sales are in gated communities or on private streets.

9. A thorough search for comparable sales was made in an attempt to find sales which bracket the final value estimated for the subject property. After consideration of locations, dates of sales, physical differences and special; conditions, in the appraiser judgment the comparables used are the best indicators of the subject's value.

10. There are a number of conditions that impact the marketability of the subject. They range from the subject being in what is considered to be an seasonal market place, supply and demand, the number of distressed properties, changes in the mortgage finance industry and the current economic conditions. While all of these conditions effect the marketability and value trends they have been in place for more than four years and therefore can be considered typical for today's market place.

Grey Hays File No. 14-052

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.

2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.

3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.

5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.

6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.

7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.

8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.

9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

Grey Hays File No. 14-052

CERTIFICATION: The appraiser certifies and agrees that:

1. The statements of fact contained in this report are true and correct.

2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial and unbiased professional analyses, opinions, and conclusions.

3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest interest with respect to the parties involved.

4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.

6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.

7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.

9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.

10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

There are no more closed sales of similar properties within the subject subdivision within the past thirty six months. This is due to scarcity resulting from the high desirability of similar properties. The Appraiser has selected closed sales from neighborhoods offering homes similar in terms of style, gross living area and market appeal. Due to factors of scarcity and the geographical makeup of Pawleys Island, the appraiser has chosen homes from similar neighborhoods which may be more than one mile from the subject as in the case of comparables one, two, three, five, six and seven. The subject and surrounding homes exhibit very high appeal.

The intended user of this appraisal report and this opinion of value is the lender and its assign(s). The Intended Use of this report is to evaluate the property that is the subject of this appraisal for Mortgage Financing purposes, subject to the stated Scope of Work, purpose of the Appraisal, reporting requirements of this appraisal report form, and definition of Market Value. No additional intended users are identified by the appraiser.

Prior Service:

I have performed no service, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

Reasonable Exposure Time

Exposure time for similar homes in this area appears to be 5 to 6 months at current price levels. Marketing time appears to be approximately 277 days. marketing time being over six months appears to be the direct result of sellers price expectations. Average days on the market and marketing time appear to declining as sellers price each new listing/offering more in line with the current market.

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations. Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) Site value is determined base on current sales and current offerings of sites exhibiting similarities in size, view and market appeal. There is a lack of sales data on closed sales due to scarcity and high demand of vacant sites in the subject market.

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the 21. The render/client may disclose of distribute this appraisal report to: the borrower; another render at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is gualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

For the most part the comparables are adjusted at \$18,72 per square foot of any differences in gross living area greater than or less than the subject's gross living area. As a result of rounding to the nearest \$1000, there may be no adjustment made where the adjustment is less

than \$1,000. Rounding is a typical practice and has no material affect on the opinion of value. In addition, due to rounding, dollars per square foot adjustments may appear to be skewed or inconsistent. Square footage adjustments are rounded down to zero or up to \$1,000 where the

adjustment falls between \$0 and \$1,000. Adjustments in excess of \$1,000 are rounded up or down to the nearest \$100.

Comparables may be one mile or more form the subject. In addition, the exposure time for similar properties appears to be approximately 12 months. The Appraiser's comparable search and results have found that the subject and surrounding homes exhibit very high appeal. There is a lack of current closed sales and offerings within the subject's immediate neighborhood. This is attributable to owners opting not to offer their properties for sale. Comparables selected are representative of current market conditions. All comparables submitted are suitable for comparison due to similarities in style, market appeal and value range.

The Appraiser's comparable search rendered four closed sales and several listed sales, subsequent to appointment, inspection, field data gathering, determination of subject property/improvement features (factors of utility/depreciation and GLA), was comprised of searching for homes exhibiting the fewest overall dissimilarities (eg. market relevance, location, utility and market appeal). Searching the appraiser's data bank (past appraisals, MLS records, public records, local Realtors and builders) the appraiser sought data on closed and listed homes within five miles of the subject closing within 12 months of the effective date/date of inspection. Several similar neighborhoods exist within five miles of the subject neighborhood.

No curable or incurable functional factors or obsolescence(s) were noted at the time of inspection unless discussed within the body of this report. This appraisal report does not constitute a home inspection, property/land survey, sewer/septic system viability report, private well water

quantity/quality determination, termite or wood destroying organism(s) or any warranty as to the operational functionality of the mechanical, plumbing, electrical or structural systems (ie. roof, foundation) of the improvements. If the users of this report have concerns regarding these

matters, it is recommended that they obtain the aid of the proper qualified professionals.

Prior Service

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

Reasonable Exposure Time

Exposure time for similar homes in this area appears to be 5-6 months at current price levels. Average days on the market and marketing time appear to declining as sellers price each new listing/offering more in line with the current market.

Purpose and Function of the Appraisal

The purpose of the report is to develop and report an opinion of value for the subject property. The function of the appraisal is defined below under intended use.

Scope of the Appraisal

The scope of the appraisal provides for a physical inspection of the property and its surroundings sufficient to gather data necessary to form a supportable estimate of market value. Comparable properties are chosen after reviewing recent settled sales, current listings, and properties currently under contract for sale. An exterior "drive-by" inspection is made of the comparable sales selected. Specifics regarding physical features of the comparable properties and the terms of sale are obtained from one of more of the following sources: Multiple Listing Services, public records, and other subscription services such as REIS and Specprint. Comparable sales are then compared to the subject, and necessary adjustments (market abstracted) are applied to arrive at and indicated value by direct sales comparison. The cost approach is developed using sources such as Marshall Swift Cost Service and local builder's cost data. An income approach is also considered when applicable. A reasoned reconciliation of the three approaches to value is then made to arrive at an estimate of market value as defined in the appraisal report as of the effective date of the appraisal and subject to the Certification and Limiting Conditions that are attached hereto. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden of unapparent conditions of the property that would make the property more or less valuable and makes no guarantees, or warranties, expressed or implied,

regarding the condition of the property. Furthermore, this appraisal report is not a home inspection report. No warranty is expressed or implied.

Appraisal and Report Identification

This appraisal conforms to the following definition:

This report is a Summary Appraisal Report in accordance with the Uniform Standards of Professional Appraisal Practice.

This report is of a type defined below:

Summary Report: A written report prepared under Standard 1 of USPAP.

Standard Comments

Client: The client is the lender, loan officer, or other employee that is a party to the ordering of the appraisal
 Intended Use: The intended use of the appraisal report is to assist the client in evaluating the subject property as collateral for lending purposes. Since this will be a federally related transaction, the definition of market value which was applied by the appraiser was taken from the *Dictionary of Real Estate Appraisal-Fouth Addition*, Page 177, and is used by agencies that regulate federally insured financial institutions in the United States.
 Intended User: The intended user of the report is the client who has ordered the appraisal report or the employee(s) of the client that may be required to review or comment on the oppraisal. The report is intended for use only by the client loss of the

3) Intended User: The intended user of the report is the client who has ordered the appraisal report or the employee(s) of the client that may be required to review or comment on the appraisal. The report is intended for use only by the client. Use of the report by others is not intended by the appraiser.

4) Exposure Time: The exposure time of the subject is the same time as marketing time. Exposure time is defined as: The estimated length of time the property interest appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

5) The site improvements' value, estimated in the cost approach, is an overall value for such items as driveway, landscaping,

walkways, etc. The value is a "lump sum" estimate.

6) The appraiser is qualified and competent to perform this appraisal under USPAP guidelines.

7) No personal property other than what is typical for the area is included in this report, (i.e. appliances).

Additional Certifications

-My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) and in accordance with the regulation developed by the Lender's Federal Regulatory Agency as required by FIRREA.

The photographs presented in this report were produced using digital photography. None of the photographs have been altered with possible exception of brightness and or contrast in order to enhance clarity. Photographs are true representation of the subject and/or comparable sales as of the inspection date unless otherwise noted in report. Physical depreciation is based on the estimated effective age of the subject property. Functional and/or external depreciation, if present, is specifically addressed in the appraisal report or other addenda. In estimating the site value, the appraiser has relied on personal knowledge of the local market. This knowledge is based on prior and/or current analysis of site sales and/or abstraction of site values from sales of improved properties.

The reproduction Cost is based on Marshall and Swift Residential Cost Service data supplemented by the appraiser's knowledge of the local market. The cost analysis should not be used for insurance purposes. The client should not contact the insurance company and discuss the terms and conditions of the policy and coverage required based on the reccomendations of the insurer.

Market Value

Market value: the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from the seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;

2. Both parties are well informed of well advised, and acting in what they consider their best interests;

3. A reasonable time is allowed for exposure in the open market;

4. Payment is made in terms of U.S. dollars or in terms of financial arrangements comparable thereto; and

5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Hazmat/ Environmental Statement

Unless otherwise stated in this report, the existence of hazardous material, wood boring insects, or concealed growths, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such conditions on or in the property. The appraiser, however, is not qualified to detect such substances. The presence of substances such as mold, asbestos, radon, urea-formaldehyde foam insulation, lead paint, or other potentially hazardous material may affect the value of the property. The value is predicated on the assumption that there is no such conditions on or in the property that would cause the loss of value. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them. No tests or inspections have been completed for the aforementioned conditions. The client is urged to retain an expert in this field, if desired.

Digital Signatures

The digital signatures attached to this report fully comply with minimum USPAP reporting requirements. Security features are utilized to ensure the integrity of the signature and data.

According to USPAP Statement on Appraisal Standards No. 8 dated 9/16/1998, electronically affixing a signature to a report is acceptable, and has the same level and responsibility as a hand written ink signature.

Detrimental Conditions Statement

There are a variety of detrimental conditions that can impact property values. These include, but are not limited to: non-market motivations, future temporary disruptions, act of terrorism, stigmas, convicted criminals who reside in the neighborhood, neighborhood nuisances, future unannounced surrounding developments, structural and engineering conditions, construction conditions, soils and geotechnical issues, environmental conditions and natural conditions. The appraiser has inspected the subject property on a level that is consistent with the typical responsibilities of the appraisal profession; however the appraiser does not have the expertise of market analysts, soils, structural or engineers, scientist, specialists, urban planners and specialist for the various fields. Unless otherwise stated within the report, the appraiser assumes no responsibilities for the impact that the variety of detrimental conditions may cause.

Neighborhood Market Conditions

At the present time; conventional, VA and FHA mortgages are available at rates purchasers consider attractive. Local market conditions reflect sales that are typically experiencing 3-6 months of market exposure. Sellers paying a portion of the purchaser's closing costs is typical of the market. Market trend is increasing, as is the local economy, including the local housing market. Marketing time is stable. Favorable interest rates should continue to add strength to the market. The subject property has sold within the past thirty six months.

Conventional financing is readily available at rates purchasers consider attractive and sellers need not negotiate a sale on financing related concessions. Local brokers are referring to the current situation as a "buyers market", with 90-120_day market times for all but the most difficult to market properties.

This neighborhood provides a good environment for the house being appraised. There are no factors that will negatively affect the marketability of the house. All of the items in the neighborhood rating grid are related good or average. The public schools, parks, view and noise level is typical for this type of neighborhood. Nearby commercial land uses (i.e. stores, shops and offices) are typical and acceptable for both urban and suburban environments and they have no negative impact on value of marketability of the subject property. No external inadequacies were observed in the neighborhood which would negatively affect the value of the property.

Existing utility easements (telephone, electric, etc.) do not affect value. No known adverse easements of encroachments are							

known by the appraiser. The improvements on the property appear to conform to current zoning regulations. In the event of a major loss by fire it is most probable the improvements could be rebuilt without obtaining a zoning variance. The subject property exhibits no apparent adverse effects from any apparent excessive physical, functional of external obsolescence.

Comment on Sales Comparison

The scope of the assignment is to estimate the fee simple market value of the subject property and to consider the three conventional approaches to value. The Cost Approach and the Sales Comparison Approach are most reliable when appraising a single family home in this neighborhood due to sufficient number of comparable sales and the availability of current cost information. Single family homes in this neighborhood are typically purchased for owner occupancy. For this reason and the lack of rental information, the Income Approach is not utilized. All the sales are located within the subject's market area of properties. All the sales were considered to be similar to the subject in appeal, view, location, design and Highest and Best Use.

Comments on Income Approach

Due to lack of valid and pertinent data available to the appraiser, the Income Approach was not utilized as part of this report.

Final Reconciliation

The adjusted sales prices via the sales comparison approach fall in close range and support the final estimate of value. The values indicated via the sales comparison analysis are used as the final estimate because of the quality of the data. As of the effective date of this report we have completed the requirements for continuing education for the South Carolina Board of Appraisers.

The reported analyses, opinions, and conclusions were developed, and this report has been prepared in conformity with the requirements of the Code of Professional Ethics & Standards of Professional Appraisal Practice of the Appraisal Institute, which include the Uniform Standards of Professional Appraisal practice.

The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

The photographs presented in this report were produced using digital photography. None of the photographs have been altered with the exception of brightness and or contrast in order to enhance clarity. Photographs are true representation of the subject and/or comparable sales as of the inspections date unless otherwise noted in report.

Cost Approach Comments

Physical depreciation is calculated using the effective age/economic life method. No warranty of the appraised property is given or implied. No liability is assumed for the mechanical not structural elements of the subject property.

THIS IS NOT A HOME INSPECTION

Remaining economic life estimated 70+- years

INFORMATION FOR THE LENDER REGARDING FLOOD DESIGNATION:

B, C and X--Zones that correspond to areas outside the 100-year floodplains, areas of 100-year sheet flow flooding where average depths are less than 1 foot, areas of 100-year stream flooding where the contributing drainage area is less than 1 square mile, or areas protected from the 100-year flood by levees. No base flood elevations or depths are shown within this flood zone. Flood insurance purchase may not be required in these zones.

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
