Over-  
coming  
challenges in  
scaffolding

[scaffold.geda.de](http://scaffold.geda.de)

# WHAT

challenges do  
you deal with?

”

The sector deals with a wide variety of challenges on a daily basis. The right tools can help solve some of the problems the sector faces.

GEDA scaffolding hoists are versatile, quick to assemble and the scaffolding material is transported up and down quickly and safely.

Moreover, reducing employee workload pays off in many areas.

# HOW can GEDA help?

Wind and bad weather are no problem at all for GEDA scaffolding hoists. Thanks to their high quality „made in Germany“, the hoists have become extremely popular in the scaffolding industry. You won't find anything comparable manufactured and sold to these standards on any

construction site. In the construction sector, the name GEDA has been synonymous with competence, safety and reliability for over 90 years. Every day, our 560 employees are available to help you find the right hoist solution for you. Find out what makes us unique and discover the difference!

All GEDA devices comply with the respective country-specific standards!

CENTER

- Mast section can remain anchored to the scaffold without a base unit: Easy to use at multiple construction sites (unique on the market)
- Approved assembly directly from the platform
- Adjusting spindles for the base unit for easier alignment
- Choice of 230 or 400 volts
- Convenient transportation by single-axle trailer also for cars/lorries
- Durable due to robust „Made in Germany“ construction
- Stops automatically at the unloading level
- Platform can be swivelled to the scaffolding
- Lightweight, stable aluminium mast

The GEDA 300 Z can easily transport **300 kg**, quickly and safely.
