GP-589  
Revised

A SELECTIVE LIST OF ACRONYMS  
AND ABBREVIATIONS

KENNEDY SPACE CENTER LIBRARY

PREFACE

The Documents Department of the KSC Library has frequently been asked if there were available any number of lists containing acronyms, abbreviations, initials, code words and phrases generally used at the John F. Kennedy Space Center (KSC). After a careful search, only KSC GP-334, KSC Scheduling Abbreviation Glossary, was found. Therefore, to meet the need of the KSC Community, the Documents Department prepared KSC GP-589, the first selective list of acronyms and abbreviations, with the issue date of October 28, 1969. This issue is the second revision to that list and is the most comprehensive one yet available in this format at KSC. More than nine thousand five hundred (9,500) entries are identified in this revision.

Comments and suggestions concerning entries and the usefulness of this list are welcomed by the Documents Department of the KSC Library.

APPROVAL

*L. B. Russell*  
(Mrs.) L. B. Russell  
KSC Librarian  
Date Feb. 23, 1971
