SCOPE OF WORK

19. Scope of Technical Services

A. Objective for which the Technical Services are to be Used

To control the spread of disease.

B. Description Korean Preventive Medicine Teams (KOPREMT) will be involved, in three general areas of activity geared to the control of disease. These activities are:

1. Disease Surveillance:

Generally these efforts will furnish a regional epidemiological service which can bridge the gap between provincial level activities and the MOR. These surveillance responsibilities should be performed in coordination with the Public Health staff of the Regional Health Inspectors. Some recognized needs are:

a. To follow the incidence of reported diseases for apparent trends and to periodically display the status and distribution of selected diseases.

b. Reviewing the MOR system of data collection to determine the source of statistical errors developing in the system.

c. Investigating factors surrounding disease situations to include analysis and interpretation of the findings obtained.

25. Reports by Supplier of Services (Indicate type, content and format of reports required, including language to be used if other than English, frequency or timing of reports and any special requirements)

Monthly reports will be prepared by each team covering activities, problems, recommendations etc. for the report month. Special reports such as survey activities and results will be submitted as required. Other reports may be requested by the ADPH, or his representative, on an as needed basis. Copies of reports will be furnished to the respective Regional Chief Health Officer (CORDS), Regional Health Inspector (MOH), USAID/ADPH and the Public Health Directorate (MOH).

Team leaders will prepare an end of tour report covering activities during their tour of services.

26. Availability of Background Information (Additional information useful to Authorized Agents and Prospective Suppliers if necessary, cross reference Block 21, B(3) above)

The present contract is to be rewritten due to change in scope of work (provincial teams are deleted), taking into consideration the original contract, plus amendments. The contract may be renewed on a year-by-year basis.

Exact salary levels should be negotiated on the basis of the illustrative budget, and prevailing salary rates provided under the present contract.

Copies of the contract signed by USAID/VN and ready for signature for the Government of the Republic of Korea will be provided to USAID/Korea.

27. Relationships of Supplier to Cooperating Country and to AID.

A. Relationships and Responsibilities

All contract employees will be responsible to the USAID Director thru ADPH or his representative.

B. Cooperating Country Liaison Official

Regional Health Inspectors
Director, Public Health Directorate

C. AID Liaison Officials

ADPH or designee.

Block 19.B.
(Cont'd)

- d. Providing regional survey services as necessary and disseminating relevant information promptly with comments and conclusions.
- e. Encourage the application of surveillance techniques in provincial public health planning.

2. Reaction Force:

In general this will encompass three (3) types of activities:

a. Direct assistance in communicable disease control by the emergency deployment to areas where a health problem has overwhelmed the capacity of the provincial public health staff.

b. General consultation in problem areas of public health by demonstrating to provincial PH staff the application of simple epidemiological techniques to define the problem adequately and to direct the way toward a reasonable solution.

c. Short term consultation in specialized areas of sanitation and health education. While some assignments may be for straightforward training projects, the team may also be called upon to observe, analyze, and evaluate environmental or human behavioral components of a particular situation, such as the Sanitary Hamlet.

3. Public Health Laboratory:

a. Work to strengthen the utility of the existing hospital laboratory network in the support of local public health activities and demonstrate ways that provincial public health services may benefit by their use.

b. Add to the definitive understanding of disease occurrence by appropriate specimen sampling in connection with surveillance activities and making use of reference laboratories as a field extension of provincial and regional laboratories. In this way the full potential of on-the-spot investigations and laboratory centers can be realized.

c. Enter into the activities of regional health laboratories where specialized examinations are required to support specific survey projects (e.g., flea sensitivity studies).

SCOPE OF WORK

19. Scope of Technical Services

A. Objective for which the Technical Services are to be Used To continue to provide expert advice/assistance to GVN Ministry of Health to establish a comprehensive hospital and health care administration program, in conformance with the National Four-Year Health Plan.

B. Description

- 1) Make recommendation for the development of an in-service training program for all levels of health facilities administration.
- 2) Design academic training program (in-country) for hospital administration and assistant hospital administrators, including the possible establishment of a National Institute of Health Administration.
- 3) Prepare instructional materials for academic programs, seminars, lectures, and on-the-job training experiences.
- 4) Advise and assist in the development of standard operating procedures for the operation of health facilities at all levels.

C. Technicians

	Project/Activity No. and Title 730-11-530-348 Health Advisory Services		

SCOPE OF WORK

19. Scope of Technical Services

A. Objective for which the Technical Services are to be Used

To complete a survey in Vietnam and develop a plan of action for a program in Rehabilitation of the Disabled for this country (for Project 730-11-530-425).

B. Description

Consultants will be provided to survey all aspects of the rehabilitation requirements in Vietnam. The survey will cover the current status of medical rehabilitation; those needing assistance by type (amputees, deaf, blind, paraplegics, crippled etc.); estimate of project requirements (funds, commodities, personnel and training); and long-range projections (up to 5 years). Provisions are made herein for US secretarial support, printing and conferences for the consultants in the US for the purpose of preparing and publishing the survey.

C. Technicians

PROJECT AGREEMENT

BETWEEN AID AND

DGBVA

AN AGENCY OF THE GOVERNMENT OF
Vietnam

1. Project/Activity No.

730-11-530-348

2. Agreement No.

70-115

3.

Original or Revision No.

A. As used herein, the term "AID" refers to the Agency for International Development, any component agency, or any successor agency. References to this Project Agreement shall mean the original Project Agreement as modified by any revisions which have entered into effect.

B. (1) AID will make available the amounts specified in Block 8 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may be further described in Annex A, as required by Block 5 hereof. In addition, as may be further specified in Annex A, AID will, subject to the availability of funds and (where required by AID procedures) as provided for in Project Implementation Orders (PIOs) issued by AID in accordance with its procedures, make available funds (a) to pay costs of furnishing technical services to be performed by United States Government employees in connection with the project, (b) to pay a share of the costs of providing training outside the cooperating country in connection with the project for qualified persons from the cooperating country, and (c) to pay such additional costs as may be specified.

(2) The Cooperating Government Agency will make available the amounts specified in Block 9 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may further be described in Annex A. The Cooperating Government Agency will also make, or arrange to have made, additional contributions of property, services, facilities and funds required for carrying out the project as may be specified in Annex A, or as may subsequently be agreed upon by the two parties.

C. AID and the Cooperating Agency may obtain the assistance of other public and private agencies in carrying out their respective obligations under this Project Agreement. The two parties may agree to accept contributions of property, services, facilities and funds for purposes of this Project Agreement from other public and private agencies, and may agree upon the participation of any such third party in carrying out activities under this Project Agreement.

D. AID shall not be required to make any contribution after the expiration of six months following the estimated final contribution date (Block 13 of the Project Agreement form AID 1330-1) or any amended final contribution date specified herein. Except as otherwise specified herein or subsequently

agreed by the parties, all contributions of the Cooperating Agency pursuant to this Project Agreement shall be made on or before said estimated termination date, or amended date. A contribution of goods or services shall be considered to have been made when the goods or services, provided or financed by the contributing party, are delivered in accordance with commercial practice.

E. The procurement of commodities and contract services to be financed in whole or in part by AID may (where so required by AID procedures) be undertaken only pursuant to PIOs issued by AID in accordance with its procedure.

F. Unless otherwise specified in the applicable PIO, the procurement of commodities financed with the AID contribution referred to in Block 8 of this Project Agreement shall be subject to the provisions of AID Regulation 1.

G. Unless otherwise specified in the applicable PIO, title to all property procured through financing by AID pursuant to Block 8 (c) of this Project Agreement shall be in the Cooperating Agency, or such public or private agency as it may authorize. This provision is inapplicable to any property which may be used in connection with the project but is not financed pursuant to said Block 8 (c).

H. Any property furnished to either party through financing by the other party pursuant to this Project Agreement shall, unless otherwise agreed by the party which financed the procurement, be devoted to the project until completion of the project, and thereafter shall be used so as to further the objectives sought in carrying out the project. Either party shall offer to return to the other, or to reimburse the other for, any property which it obtains through financing by the other party pursuant to this Project Agreement which is not used in accordance with the preceding sentence.

I. (1) If AID and any public or private organization furnishing commodities through AID financing for operations hereunder in the cooperating country, is, under the laws, regulations or administrative procedures of the cooperating country, liable for customs duties and import taxes on commodities imported into the cooperating country for purposes of carrying out this Project Agreement, the Cooperating Agency will pay such duties and taxes unless exemption is otherwise provided by any applicable international agreement.

(2) If any personnel (other than citizens and residents of the cooperating country), whether United

States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement, are, under the laws, regulations or administrative procedures of the cooperating country, liable for income and social security taxes with respect to income upon which they are obligated to pay income or social security taxes to the Government of the United States of America, for property taxes on personal property intended for their own use, or for the payment of any tariff or duty upon personal or household goods brought into the cooperating country for the personal use of themselves and members of their families (not including such personal or household goods as may be sold by any such personnel in the cooperating country), the Cooperating Agency will pay such taxes, tariff, or duty unless exemption is otherwise provided by any applicable international agreement.

J. Any personnel (other than citizens and residents of the cooperating country), whether United States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement shall be subject to the approval of the Cooperating Agency and AID, and shall be under the general direction of the Director of the Mission to the cooperating country.

K. If any commodity is furnished to the Cooperating Agency, or any public or private agency authorized by the Cooperating Agency, on a grant basis through financing by AID pursuant to this Project Agreement under arrangements which will result in the accrual of proceeds to the Cooperating Agency or any authorized agency and if the applicable agreement between the two governments referred to on the first page of this Project Agreement does not provide for the establishment of a Special Account and the deposit therein of currency of the cooperating country, the Cooperating Agency will make such arrangements as may be necessary to establish a Special Account and to deposit therein currency of the cooperating country in amounts equal to such proceeds, in accordance with such terms and conditions as may be agreed upon. Funds in the Special Account may be used only as agreed upon by AID and the Cooperating Agency; provided, that such portion of the funds in the Special Account as may be designated by AID shall be made available to AID to meet the requirements of the United States,

L. The Cooperating Agency will make such arrangements as may be necessary so that funds introduced into the cooperating country by AID or any public or private agency for purposes of carrying out obligations of AID hereunder shall be convertible into currency of the cooperating country at the highest rate which, at the time the conversion is made, is not unlawful in the cooperating country.

M. AID shall expend funds and carry on operations pursuant to this Project Agreement only in accordance with the applicable laws and regulations of the United States Government.

N. The two parties shall have the right at any time to observe operations carried out under this Project Agreement. Either party during the term of the Project and three years after the completion of the project, shall further have the right (1) to examine any property procured through financing by that party under this Project Agreement, wherever such property is located, and (2) to inspect and audit any records and accounts with respect to funds provided by, or any properties and contract services procured through financing by, that party under this Project Agreement, wherever such records may be located and maintained. Each party, in arranging for any disposition of any property procured through financing by the other party under this Project Agreement, shall assure that the rights of examination, inspection and audit described in the preceding sentence are reserved to the party which did the financing.

O. Upon completion of the project, a Completion Report shall be drawn up, signed by appropriate representatives of AID and the Cooperating Agency, and submitted to AID and the Cooperating Agency. The Completion Report shall include a summary of the actual contributions by both AID and the Cooperating Agency to the project, and shall provide a record of the activities carried out, the objectives achieved, and related basic data. AID and the Cooperating Agency shall each furnish the other with such information as may be needed to determine the nature and scope of operations under this Agreement and to evaluate the effectiveness of such operations.

P. The present Agreement shall enter into force when signed. Either party may terminate this Project Agreement by giving the other party 30 days written notice of intention to terminate it. Termination of this Project Agreement shall terminate any obligations of the two parties to make contributions pursuant to Blocks 8 and 9 of this Project Agreement, except for payments which they are committed to make pursuant to noncancellable commitments entered into with third parties prior to the termination of the Project Agreement. It is expressly understood that the obligations under paragraph H relating to the use of property shall remain in force after such termination.

	DCBFA	2. Agreement No. 72-078	3. <input checked="" type="checkbox"/> Original or Revision No.
	AN AGENCY OF THE GOVERNMENT OF Vietnam	3. Project/Activity Title Public Health Services	

I. BACKGROUND

The Public Health Services Project was established in 1967 to provide the necessary assistance to the GVN in the prevention and control of disease. This project includes a national advisory effort in health education, sanitation, public health nursing, and preventive medicine. There were also health educators and sanitarians, and Korean preventive medicine teams on the regional staffs. Shortly after this project was initiated US Public Health nurses were assigned at the provincial/ prefectural levels to advise on programs at the local level. Until recently, security conditions prevented a coordinated country-wide effort in Public Health/Preventive Medicine. During the interim period the advisory efforts have been concentrated on the improvement of statistical information, administration and training. Program emphasis presently continues to be directed towards the improvement of national program development, and provincial implementation and administration thru the use of US community health specialists (PHN, sanitarians and health educators), and national level advisors.

II. GOAL STATEMENT

To improve the health and well-being of the populace through development of an effective national health system.

III. PROJECT PURPOSE

To develop a GVN capability to prevent and control disease.

IV. CONDITIONS EXPECTED AT THE END OF PROJECT

A. The GVN should be capable of organizing and implementing a national prevention/control program without external assistance.

The criteria for verification of this condition will be:

- 1) The adequacy for planning and projecting human and commodity resource requirements for a disease prevention/control program.
- 2) Facilities and instructors available for training personnel.
- 3) Establishment of adequate reporting requirements
- 4) Successful health education of the population affected.

		2. Agreement No. 72-07B	3. <input checked="" type="checkbox"/> Original or Revision No. _____
			3. Project/Activity Title Public Health Services

B. Internationally quarantinable disease rates maintained below 1965 levels.

The criteria for verification of this condition will be:

- 1) The capability to recognize outbreaks of disease from the data reporting system and the ability to respond immediately to these reported outbreaks.
- 2) Adequate diagnostic capability and feedback of diagnostic information to reporting locale.
- 3) Establishment of recognized preventive measures for quarantinable disease.
- 4) Adequate supplies and personnel to carry out control programs.

V. OUTPUT TARGETS

1. Upgrade selected provincial/prefectural health services.
2. Integrate Public Health Assistant Technicians into MOH system to provide services at hamlet level.
3. Train chiefs of services in the Public Health Directorate.
4. Produce and distribute 200,000 Health Education posters on various health projects.
5. Improve the reliability and accuracy of the statistical reporting system.
6. Continually monitor refugee health status for medical requirements.
7. Improve sanitation service procedures in province/prefecture health services.
8. Improve maternal and child health services.
9. Establish competent quarantine services in all international ports of entry.

VI. INPUTS.

A. GVN inputs

1. Candidates for training at NIEPH.
2. Provide 3 MPH candidates for participant training in current FY.
3. Total CY 72 Public Health Directorate Budget of VN\$259 million and 732 personnel.

B. USAID Inputs

1. Counterparts will be provided for the following GVN personnel at the National level:

Director, Public Health Directorate; Chief of Preventive Medicine; Chief of Environmental Sanitation Section;

Chief of Health Education Section; as well as counterparts for other staff members in Preventive Medicine, Sanitation, and Public Health Nursing Sections.

2. Additional personnel will be provided by contract to assist in Regional and province/prefecture surveillance, statistical reporting and establishment of Regional Laboratories.

3. Up to 18 direct hire personnel for assignment to selected provinces and prefectures as counterparts to the public health chief.

4. Commodities to support this project are provided in USAID Public Health Project 730-11-590-350.

5. Within funding availabilities participant training will be provided as stated in VI.A.2 above and for short term training and extensions of prior year training programs in environmental sanitation, health planning and health education.

VII. DESIGNATIONS

A. The Public Health Branch Chief is hereby designated the US Project Manager. In this capacity he will act as technical advisor, coordinate the USAID assistance provided for the project and work closely

ANNEX A			

BLURRED COPY

A. BACKGROUND

The Public Health Services project was established in 1967 to provide the necessary assistance to the GVN in prevention and control of disease. During the life of the project, US and TCR advisors have worked at the national, regional and provincial levels providing needed advisory services for disease control. Program emphasis has been on improvement of statistical information, national program development and local level implementation and administration of public health activities. Provincial advisors have been withdrawn from provinces and reassigned to the regions and will give advice to selected areas within the region as well as implementing priority programs for their areas of responsibility. The former Malaria Control Project, 730-11-510-313, was consolidated into this project at the end of FY 1972.

B. GOAL STATEMENT

To improve the general health of the populace in order to improve the quality of life and well-being and increase per capita productivity.

C. PROJECT PURPOSE

To develop a GVN capability to prevent and control disease.

D. CONDITIONS EXPECTED AT THE END OF PROJECT

1. The GVN Ministry of Health capable of organizing and implementing a national preventive/control program without external assistance. Verification criteria are:

a. The adequacy for planning and projecting human and commodity resource requirements for a disease prevention/control program.

b. The adequacy of facilities and instructors available for training personnel.

c. The adequacy of a reporting system.

d. The adequacy of a health education program directed to the population affected.

		2. Agreement No. 73-018	2. <input checked="" type="checkbox"/> Original or Revision No. _____
	AN AGENCY OF THE GOVERNMENT OF Vietnam	3. Project/Activity Title Public Health Services	

2. Internationally quarantinable disease rates reduced below 1965 levels. Verification criteria are:

a. The capability to recognize outbreaks of disease from the data reporting system and the ability to respond immediately to these reported outbreaks.

b. Adequate diagnostic capability and feedback of diagnostic information to reporting locals.

c. Establishment of recognized preventive measures for quarantinable diseases.

d. Adequate supplies and personnel to carry out control programs.

3. Upgraded health services in all provinces and autonomous cities.

B. OUTPUT TARGETS - July 1, 1972 - June 30, 1973

1. Integrate 150 Public Health Technicians (PHT) and assistants into the MCH system to provide public health services to the province and lower level.

2. Produce and distribute at least 625,000 health education posters on 21 subjects and 500,000 pamphlets on 18 subjects.

3. Improve sanitation service procedures in 8 additional province/prefecture health services (rural water, vector biology, etc.).

4. Improve maternal and child health services including school health campaigns (3 per province) and immunisation projects in all provinces.

5. Monitor refugee health status in coordination with overall refugee assistance programs as they develop.

6. Increased and improved blood sampling for malaria with an increase of at least 25% from rural areas.

7. Prevention of malaria epidemics by routine spray treatment of fixed sites at risk (refugee camps, Chieu Hoi centers, etc.), covering at least 600,000.

8. Early detection and quick response to malaria epidemics.

AID 1220-1A (2-70) PRO AG CONTRIBUTION SHEET ANNEX <u>A</u>	PROJECT AGREEMENT BETWEEN AID AND DGEFA AN AGENCY OF THE GOVERNMENT OF Vietnam	1. Project/Activity No. 730-11-530-368	PAGE <u>6</u> OF <u>7</u> PAGES
		2. Agreement No. 73-018	3. <input checked="" type="checkbox"/> Original or Revision No. _____
		3. Project/Activity Title Public Health Services	

9. Trained malaria technicians on the job, approximately 110.
10. Closer cooperation with ARVN on malaria control activities.

F. INPUTS

1. The Government of Vietnam agrees to provide:

- a. Total CY 73 Public Health Directorate Budget of approximately VN\$300 million.
- b. 150 candidates for training as Public Health Technicians at the WHO-sponsored National Institute of PH.
- c. Twenty-one candidates for AID participant scholarships: 3 for Masters of Public Health (MPH), general, health education, and sanitation; 18 for short-term courses in sanitation and malaria control.
- d. Office space for US advisors in Preventive Medicine, Environmental Sanitation and Health Education.
- e. Vehicles for selected US advisors as determined by the Director, PH Directorate - (approximately 12).
- f. CY 72 AAC funds in amount of VN\$10 million for purpose stated on attached budget. US and GVN counterparts will jointly concur in expenditures under this budget. (See Annex 2)

2. The United States Government agrees to provide:

Subject to the availability of funds and personnel, the United States Government, through the Agency for International Development, will provide the following: (See also attached PASA budget for FY 73, Annex 1, USPHS, malaria personnel).

- a. Counterparts will be provided for the following GVN personnel at the National and Regional level:

Director - Public Health Directorate, Chief of Preventive Medicine Service, Chief of Environmental Sanitation Service, Chief of Health Education Service, Chief of Rural Health Service, Chief of Epidemiology, Regional Malaria Chiefs, Chief-Malaria Eradication Service, Regional PH Chiefs, and others as necessary.

			3. Project/Activity Title Public Health Services

b. Additional personnel will be provided by contract to advise in disease surveillance, prevention and control and hospital care (total of 51) on a regional basis.

c. Scholarships will be provided according to the following schedule:

- (1) 1 MPH to begin Sept. 1973; nomination by Sept. 72.
- (2) 1 MS Sanitary Engineering to begin Sept. 1973; nomination by Sept. 1972.
- (3) 1 MPH, Health Education to begin Sept. 1973; nomination by Sept. 1972.
- (4) Short-term observation tours in Environmental Sanitation for 7 persons: 5 to begin in April 1973 (nomination by December 1972); 2 to begin May 1973 (nomination by January 1973).
- (5) 1 short-term observation tour to the US in Environmental Control beginning in May 1973 (nomination by January 1973).
- (6) 10 short-term courses in malaria epidemiology and eradication beginning in April 1973 (nominations by December 1972).

d. Commodities to support this project are provided under Project 730-11-590-350 and will be used for rural water, health education, and plague and malaria control activities.

G. DESIGNATIONS

Government of Vietnam

The Director, Public Health Directorate, MOH, is hereby designated GVN Project Manager. In this capacity, he will be primarily responsible for the program. It is understood and agreed that he will work closely with the US Project Manager and will seek and utilize the latter's technical knowledge, advice, and counsel to the maximum degree practicable to obtain project objectives.

United States Government

The Public Health Branch Chief is hereby designated the US Project Manager. In this capacity, he will act as technical advisor, coordinate the USAID assistance provided for the project and work closely with the GVN Project Manager in all phases of the project, including budgeting, implementing and evaluating.

Explanation and/or comments

The purpose of this FY 73 Master ProAg is to set forth the scope of the Public Health Services Project and to stipulate the responsibilities and contributions of the GVN and the USG. This documentation also obligates and subobligates \$161,891 to finance PASA costs of Malaria Control. It also commits VN\$10,000,000 of CY 72 AAC Funds.

Funds to finance Contract Services/Participant Training/Commodities and Other Costs not obligated by this ProAg will be obligated by a ProAg Revision subject to the availability of funds and submission of FIGs.

Explanation and/or comments

The FY 73 malaria PASA was scheduled to phase down during FY 73 and terminate by the end of December 1973, with only one advisor on board from June 30 through December. This arrangement was to allow an overlap with WHO personnel expected to arrive by the end of the calendar year.

AID/W's State 012081 of January 20, however, alerted USAID/Vietnam to the fact that the Department of Health, Education and Welfare planned to terminate all malaria PASA's by the end of FY 73, precluding any possibility of retaining one advisor on board through December 1973. Following receipt of this message, USAID/PH reviewed the malaria activity to determine the best course of action to follow and decided all malaria personnel should stay on board through June 30 (end of FY 73) to orderly and expeditiously phase out PASA malaria activities and phase over to the Vietnamese as many responsibilities as possible to carry on until WHO personnel arrive later in the year.

The funds obligated by this Revision will enable the retention of all the advisors until June 30 and also provide funds for the Federal pay increase effected in January, 1973.

		3. Project/Activity Title Health Advisory Services	

A. BACKGROUND

The Health Advisory Services Project (formerly Public Health Services) was established in 1967 to provide the necessary assistance to the GVN in prevention and control of disease. During the life of the project, US and TCN advisors have worked at the national, regional and provincial levels providing needed advisory services for disease control. Program emphasis has been on improvement of statistical information, national program development and local level implementation and administration of public health activities. All remaining regional advisors (sanitarians) will terminate their activities by the end of FY 74, leaving only advisors at the national level by July 1, 1974.

This project has been redesignated Health Advisory Services and will focus more sharply on the control of selected diseases, management techniques and manpower development.

B. GOAL STATEMENT

To improve the quality of life and well being of the populace and help increase productivity.

C. PROJECT PURPOSE

To develop the GVN capability to better respond to the health needs of refugees, children and disadvantaged groups.

D. CONDITIONS EXPECTED AT THE END OF PROJECT

1. The GVN Ministry of Health (MOH) capable of organizing and implementing national preventive control programs for selected diseases.
2. Basic health care services available to refugee camp populations, including medical care and sanitation.
3. Improved child care/nutrition program (with MCH) available in each district.
4. Village and school health program continuing without external assistance.

E. OUTPUT TARGETS - July 1, 1973 - June 30, 1974

1. Refugee Health/Medical Care

a. Monitor all refugee camps and resettlement areas for basic sanitation and health care services.

b. Monitor special medical care program for war victims (such as civilian war casualties, handicapped, etc.)

2. Communicable Disease Control

a. Give primary immunizations to at least 1 million children (ages 1-6) and continue booster "shots" through first and second years of school.

b. Establish control program for Dengue Hemorrhagic Fever in highest endemic areas.

c. Establish improved surveillance and response system for detection and control of plague and cholera.

d. Establish and maintain on-going vigilance and liaison system with World Health Organization (WHO) in control of malaria, tuberculosis and other special diseases.

3. Child Health and Nutrition

a. Fifty district health facilities provide improved child health services.

b. Incorporate nutrition education into Maternal Child Health program in at least 50 districts.

c. Complete planning for the construction of a child-health training center in Saigon with an initial capacity of at least 100 students.

4. Hospital Administration/Management

a. Develop curricula and start a two year course in hospital/health care administration graduating 30 students annually by 1975.

b. Conduct at least ten series of management seminars for all levels of health managers and supervisors.

5. Health Manpower

a. Manpower development survey completed in Long Xuyen Province by end FY 74 and utilized in National Health Manpower Planning.

b. Train two MOH persons in the US in National Health Planning.

6. Village and School Sanitation

a. Complete planning for the establishment in FY 75 of 100 sanitary villages.

b. Complete planning for the establishment in FY 75 of improved sanitary health in 100 rural schools.

F. INPUTS

1. The Government of Vietnam agrees to provide

a. Personnel:

1) Candidates for training at the National Institute of Public Health, Hospital Administration School and selected seminars.

2) Candidates for AID participant scholarships: one for Masters of Public Health; two for Master of Science in Sanitary Engineering and 5 for short courses in the US and Taiwan.

3) Counterparts for US Advisors

b. Support Services:

1) CY 74 FAC funds totalling VN\$26.2 million in accordance with Title 30 of the GVN National Budget, and within Title 30, under Title 24, Chapter 626 (Public Health Directorate), Project 530-348 (Public Health Services - now Health Advisory Service). The relevant portion of the GVN National Budget for CY 1974, viz Project No. 530-348 is incorporated herein by reference.

2) Sufficient budget to effectively operate the Public Health Directorate.
