## Lugana

### Denominazione di Origine Controllata

---

A new Lugana, from the heart of the Lugana Doc region.

The history of our places, the bond to our land and vineyards led us to the creation of a wine that is the purest expression of our philosophy.

This Lugana is elegant and rich, with a straw yellow color, pronounced aromas of ripe peach, dried apricots, wet stone and honey. On the palate it shows medium alcohol and high acidity. Its minerality and sapidity stand out in the medium length, nutty finish.

We chose the circle as a symbol for our Lugana, because it symbolizes harmony, the sun, the earth, the grape, the glass: all the essential elements for the birth of this wine, the highest expression of our territory.
