## PREFACE.

This pamphlet contains a list of the creameries and skim stations, together with a list of the cheese factories, which have been reported as doing business in the state, up to November 1, 1898. The many changes of ownership and officers make it very difficult to have the list absolutely accurate, but great pains have been taken in its preparation. The creamery list is a regular feature of the Dairy Commissioner's Annual Report, and the co-operation of all interested in creamery matters is desired, in order that the list may be as nearly correct as possible, for future reports.

Respectfully,

B. P. NORTON,  
*Dairy Commissioner.*

Des Moines, Iowa, November 15, 1898.
