PHARMACY EXAMINERS BIENNIAL REPORT

JUNE 30, 1926 TO JULY 1, 1928

We have 4,028 licensed pharmacists in good standing to date, with their names and post office on the following pages. About 500 of these reside outside of this state, but keep up their registration. During this period we have lost 149 from our last report, and a loss of 756 from our high record of 1916. The net loss from death and lapses for the past 12 years has averaged 63 per year— notwithstanding that we registered the last two years, 134 by examination, and 30 by reciprocity. This would indicate a healthy condition for the profession, since other professions seem to be overcrowded, judging from the large number that are being licensed each year.

We find that our receipts have dropped off from the last report owing most entirely to the fact that we do not have as many vendors. And this is due to a large extent through farm conditions, as we presume that 95% of the merchandise sold by these vendors, is sold to the farmers.

We still believe that the penalty for vending without a state license should be placed back to where it was two years ago. The minimum penalty then was \$100.00, while now it is \$10.00. This small penalty begets carelessness in obtaining their license. The general condition over the state among the druggists is good—with very little violation reported.

FINANCIAL STATEMENT

After deducting all salaries and other expenses of the department, we turned into the state treasurer the past two years \$48,411.64, and to the treasurer of the state pharmaceutical association, \$8,213.00. Or a total net balance to both funds of \$56,624.64.
