LETTER OF TRANSMITTAL

July 1, 1930.

SUBJECT: Biennial Report.

TO: HIS EXCELLENCY, JOHN HAMMILL, Commander-in-Chief, State House, Des Moines, Iowa. I. In accordance with the provisions of paragraph 446, Chapter 28, Code of 1927, I have the honor to submit the following biennial report relative to the activities of the Adjutant General's department during the period July 1, 1928 to June 30, 1930.

a. PERSONNEL.

At the present time, the Iowa National Guard is composed of many of the finest men in the State. Young men are being attracted to the Guard each day, and in practically every instance, only the highest type in the community are accepted. The officers in command are professionally qualified, many of whom have attended one of the many service schools of the Regular Army.

b. CAMP DODGE.

The Iowa National Guard is most fortunate in having one of the very finest training camps in the entire United States, located approximately twelve miles from the State Capitol, and in addition to the camp proper, there are six hundred acres of government land available for terrain exercises during the summer training period. During the past year, the government has constructed, at a cost of \$5,000.00, an Administration Building for Camp Headquarters, and the National Guard has, at a cost of \$10,000.00, erected a Hostess House for use of the families and friends of both officers and enlisted men while visiting in the camp. In addition to construction, the Federal Government has expended considerable money in repairs, the principal allotments being \$2,200.00 for waterproofing all mess halls and headquarters buildings, and \$1,000.00 for reconstruction of the machine shop. It is expected that during the present fiscal year, the Federal Government will construct a new Camp Hospital. The swimming pool is one of the largest in the world, and during the summer is operated for the benefit of the general public by a committee from the Des Moines Playground Association.

c. ARMORIES.

There are no State-owned armories in Iowa. Each unit of the Guard must provide its own armory, for which the State pays an annual rental. It is thought, that especially in the larger cities, the State should construct suitable armories on account of the fact that over long periods it would be a much more economical procedure.

d. ARMORY DRILL.

The attendance at armory drill continues to increase. Splendid attendance records have been made by a majority of the units of the Guard, during the past two years. Each officer and enlisted man attending weekly drill is paid by the Federal Government, the payment being made each quarter. This feature stimulates attendance at drill, and attendance at drill engenders efficiency of the unit.

e. NEW ORGANIZATIONS.

During the past two years the Militia Bureau has permitted the organization of two additional units of Artillery, viz., a Headquarters Battery, and a Service Battery and Band. These organizations were allocated to Davenport and Boone respectively, and completes the regimental organization. In addition to the above units, the Militia Bureau, with the acquiescence of the State of Kansas, authorized the organization of the 57th Cavalry Brigade Headquarters. This Brigade consists of the 113th Cavalry, Iowa National Guard, and the 114th Cavalry, Kansas National Guard, the Brigade command being allotted to Iowa.

f. INSPECTIONS.

Inspections of all National Guard units are made each year by officers of the Regular Army. These inspections are made for the purpose of determining the condition of troops as to equipment, housing, and readiness for active duty. The last inspections found the Iowa National Guard in excellent condition, and ready to answer a short notice call for service.

g. MORALE.

The Iowa National Guard is an educational institution in that it teaches civic pride, the respect for law and order, and the respect for the property and lives of others. It builds character, and teaches the members how to care for themselves physically. Clean sports are fostered and the men are taught discipline in such a manner that it helps them in every day life. Officers and enlisted men are enthusiastic; enthusiasm usually breeds efficiency; this coupled with the fact that a majority of the officers and a large number of the enlisted men are World War veterans, makes for a State force of the highest type. The efficiency of the Guard was vividly illustrated during the spring of 1929, during the flood at Waterloo. Companies "B" and "D" 133rd Infantry, stationed in that city were called upon by the civic authorities to assist in the protection of life and property, and performed a notable service.

Several lives were saved, and thousands of dollars worth of property was protected due to the efficiency of the two companies. The National Guard stands ready at all times to aid, with both men and equipment, during a catastrophe such as a tornado, fire or flood, and the greater the efficiency of the officers and men, the greater the service performed.

2. The excellence of the Iowa National Guard is due to the untiring and unselfish efforts of the officers and enlisted personnel, and I desire at this time to take the opportunity to express to the officers and enlisted men the sincere thanks of the department for their hearty cooperation and support. It is gratifying in the extreme to observe the progress made from year to year, and the entire Guard personnel is to be both congratulated and complimented.

3. To you, Governor, I desire to extend the thanks of the entire National Guard for your sympathetic understanding of Guard problems, and your hearty cooperation in things pertaining to my office. It has been a pleasure to administer the affairs of this office under such agreeable conditions and circumstances.

W. H. BAILEY,

Brig. Gen., A. G. D., Iowa N. G.,

The Adjutant General.

THE NATIONAL GUARD

WAR DEPARTMENT

Office Chief of the Militia Bureau

Washington, D. C.,

April 10, 1930.

The National Guard of the United States is an efficient military organization of eighteen Divisions, several Cavalry Brigades, Coast Artillery Regiments located in strategic positions, and various Corps and Army special troops—all prepared for field service at the call of either Governor or President. No component of our Land Forces can be expected to furnish more organized combat troops, upon the declaration of a national emergency.

The World War record of the National Guard is worthy of a bright page in our history and should challenge continued loyal support—

	Nat'l Guard	Reg. Army	Nat'l Army
Divisions in combat.....	11	7	11
Days spent in battle.....	967	664	603
Battle casualties	190,219	83,542	59,257

That's the glorious achievement of the National Guard, when there were many less encouragements than today.

War Department plans provide for a National Guard of 190,000 young men—honest-to-goodness fellows who are patriotic, ambitious, and willing to train for field service. We sincerely trust that peace may silence the guns of war forever, but the Constitution still provides for the "Common Defense." The National Guard has much to offer.

Forty-eight armory training periods and fifteen days of field service is the program offered. But, the armories in most cities are furnished for social, athletic and various other interesting events. To those who have unusual leadership ability the Federal Government offers the advantages of all military schools—West Point, Infantry School, Command and General Staff and the Army War College. Provisions have been made to send 112 enlisted men to the various service schools, and an average of 25 appointments to West Point each year. In addition to this, 312 officers are authorized to take courses at the various service schools.

Nearly eleven hundred carefully selected officers and non-commissioned officers of the Regular Army have been assigned to in-

struct the National Guard in connection with their armory and field training.

The State and Federal Governments spend annually for the support of the National Guard over fifty million dollars. This is used for building armories, construction of camps, organizing, equipping and training the officer and enlisted personnel. Over eleven million dollars is paid to the officers and men of the National Guard for drill and camp pay annually.

In other words—the Federal Government supports, with the forty-eight States, District of Columbia, Hawaii and Porto Rico, this organization of 190,000 splendid, manly fellows who are prepared at any time to defend property rights and life, to repel or suppress invasions or insurrection. We want to cooperate to the fullest extent with all the components of the Army, and will go the limit for National Defense.

The National Guard offers the ambitious young men worth while opportunities. This is a challenge in behalf of the National Guard, an opportunity for you to become a part of a live, efficient military organization, one or more units of which are located right in your home town.

The War Department has assigned to the National Guard a worthy mission, and you are invited to have part in training for and achieving that mission.

WM. G. EVERSON, *Major General,*
Chief of the Militia Bureau.

The authorized strength of the Iowa National Guard is two hundred sixty-four (264) Officers, three (3) Warrant Officers and thirty-five hundred nineteen enlisted men, an aggregate of thirty-seven hundred eighty-seven (3,787), located at the following stations:—

(2) All payments made from this allowance will be made on "Voucher Checks" Form No. 6, AGO Iowa (Old OAG Form No. 17) with itemized statement of purchase entered thereon, or properly supported by itemized statement. Payments made on any other type of checks are not acceptable.

(c) **Upper Right Section:**

National Guard Regulations.

Any other pamphlets or documents suitable in size to be filed in this section and for which no other filing method has been designated.

(d) **Lower Right Section:**

Tables of Organization
Equipment Table, National Guard
Loose-leaf binder containing individual Equipment Records (WDMB Forms No. 30)

Any other pamphlets or documents suitable in size to be filed in this section and for which no other filing method has been designated.

(2) **Service Record Tray:**

The service record tray will contain the service record and all other individual records of each of the active enlisted men of the unit, followed by the service record and all other individual records of "Assigned Reservists," if any.

The service records will be filed in the tray as follows: In front of the guide card "Noncommissioned officers" will be filed the service records of the noncommissioned officers of the unit in each grade, the records being filed in the order of the date of warrant; following the noncommissioned officers and in front of the guide card "Privates First Class" will be filed the service records of the privates first class, in alphabetical order, irrespective of specialists rating; following this group and in front of the guide card "Privates" will be filed the service records of the privates, in alphabetical order, irrespective of specialists rating.

The remaining space of the tray may be used for the purpose of keeping blank forms suitable in size to be filed therein; such as score cards (all weapons) extract of service record and so forth.

(3) **Miscellaneous Record Tray:**

The miscellaneous record tray will contain the "Reminder" and the sections designated by the guide cards "Memoranda"—"Clothing" and "Horses" in that order, followed by the current correspondence book with document file, and company council book. Each of these sections will be used as follows:

Reminder:

The reminder will consist of the month cards and date cards which are placed in chronological order in the front of the miscellaneous tray, the month cards being in rear of date cards.

The date cards will be rotated as follows: On the morning of January 2, the date card "1" will be placed in rear of month card for "January" and in front of and next to the month card "February," the procedure being followed daily with the remaining date-cards for the month in order, so that following the 31st of January the date card 31 will uncover the January card. The former will be filed in rear of date card 30, and in front of month card "February" and the January card will be filed in rear of month card "December," leaving the "Reminder" for the month of February set up in normal order with a necessary supply of form No. 100 WDMB (Report of National Guard Duty Performed) for use for the month of February.

Note:

During the Field Training period the date cards will be rotated daily and during the Armory Drill Period weekly or on each regular drill or formation of the organization.

A complete set of reminder slips for use in front of the month and date cards of the "Reminder" should be prepared. These slips should anticipate all items of administration in the organization in time for their accomplishment and should be prepared of size 3½x8". An example of such "Reminder" slips follows:

EXAMPLE 1—(This reminder will be placed in front of the month cards "January" and "July.")

Reminder Articles 1, 2, and 29, 54 to 96, inclusive, and 104 to 109, inclusive, will be read and explained to every soldier at the time of his enlistment.

January 1st or muster in, or within six days after, and will be read and explained once every six months to soldiers of every garrison, regiment or company in the service of the United States, (110 A. W.) The articles of War are published in the Manual for Courts-Martial 1928, and in paragraph 7, NGR No. 36-1924—MILITARY DISCIPLINE AND COURTESY.

July 1st

EXAMPLE 2—(This reminder will be placed in front of the month card "January.")

Reminder

January 15th. Submit Account Current for the period July 1-Dec. 31.

EXAMPLE 3—(This reminder will be placed in front of the month card "March.")

Reminder

March 1st. Submit quarterly payroll quarter Dec. 1-Feb. 28.

Reminder slips may also be used to a good advantage in connection with the date cards and used as reminders from one drill night to the next—EXAMPLE:

On February 21, (which date is on one of the regular drill nights of the Company) the Company Commander receives a communication stating that the Report of Principal of Ordnance Supplies must be submitted not later than March 1. The Company Commander has all his work outlined for February 21, and cannot take care of the Report of Principal of Ordnance Supplies until the regular drill of February 28. He directs the Company Clerk to place a reminder slip in front of the date card "28."

EXAMPLE

REMINDER

Prepare report of Principal of Ordnance Supplies. On the regular drill of February 28, the company clerk rotates the date cards and the date card "28" appears to the front with the reminder slip, indicated above, and thereby eliminating the possibility of overlooking to submit the report in question in due time.

In setting up the "Reminder" the current Form No. 100 WDMB (Report of National Guard Duty Performed) which is started at the beginning of the month and kept current from day to day and drill to drill, will be filed in front of the "Reminder" section; and a supply of these blanks for the ensuing quarter will be filed in sets in front of the next three month cards.

The following supply of blank forms will be kept in front of the guide card "August" for use during the Field Training Period:

- 3 Morning Reports
- 3 Daily Sick Reports
- 3 Duty Rosters
- 30 Ration Returns

Immediately upon completion of each Field Training Period the supply indicated above will be renewed and thereafter kept intact until the subsequent Field Training Period.

The "Reminder" will also be used as a live file for the Form No. 100 WDMB destined for the permanent file, but whose disposition to the permanent file is to be postponed until these forms cease to be of current import. These forms should be filed in front of the index card of the month in which they are filed, and moved to the back of the "Reminder" with it. When the card next appears a year later these forms will be placed in the permanent file in rear of the payroll covering the period for which these forms were submitted.

Memoranda:

In front of the guide card "Memoranda" will be filed all memorandums and documents, not of permanent value, for which the filing is not directed elsewhere.

To prevent an accumulation of unnecessary or obsolete "Memorandums" and "Documents," in this section, a quarterly inspection of same will be made by the organization commander, who will at such inspection eliminate from the section all items which have become obsolete or unnecessary for future reference.

Clothing:

In front of the guide card "Clothing" will be filed the retained copy of all requisitions. Upon the return from the Property and Disbursing Officer of a requisition showing the disposition made by him, the retained copy in the file may be destroyed and replaced by the one returned from the Property and Disbursing Officer. Requisitions should be numbered serially by calendar year; that is, the first requisition of each calendar year should be numbered No. 1.

All requisitions should be retained for a period of at least one year after which they may be destroyed or become a part of the personal file of the organization commander.

Horses:

In front of the guide card "Horses" will be filed the descriptive cards of public animals pertaining to the organization. Organizations not furnished with public animals will use this section for the filing of the current "Field Training Memorandums" issued yearly preparatory to each Field Training Period, by the Adjutant General of Iowa. Organizations furnished with public animals will file the Field Training Memorandums referred to above in an improvised folder, which can be made from a property loan record card, immediately in rear of the company council book. As soon as the first Encampment Letter of a new calendar year is issued all encampment letters of the preceding year will be filed in

the first year section of the five year file, until the 1st of January of the subsequent year, when they will pass into the second year section.

Correspondence Book and Document File:

The current Correspondence Book and Document File will be filed immediately in rear of the guide card "Horses." The documents of the "Document File" will be filed in an improvised folder, which can be made from a property loan record card and on which should be marked "Document File." The Correspondence Book and Document File will be kept as prescribed in AR 345-620—Military Records—Correspondence Book and Document File. The closed correspondence books and their corresponding document files will be filed in the "Permanent File" and when the "Permanent File" becomes too crowded these records may, at the discretion of the organization commander, be destroyed or filed in one of the two (2) steel cases provided by the State of Iowa. Great care will be taken not to destroy documents relating to the history of the organization or individuals, or matters of future value which should be kept indefinitely in the "Permanent File."

Company Council Book:

The Company Council Book (for use in the event of a call or draft into Federal Service) will be filed behind the "Document File."

The remaining space of the tray may be used for the purpose of keeping blank forms suitable in size to be filed therein; such as Morning Reports, Daily Sick Reports, Duty Roster, Ration Returns and so forth.

Note:

File five blotters 4x8½ in rear of the date cards transferred from the current month to rear of the month card and in front of the month card of coming month, where they will serve as a division between the two months. File the blotter in use with the current form No. 11 WDMB in front of the "Reminder." Fasten a 12x19 blotter to the Capboard with thumb tacks.

b. The following records will be kept in the sections designated below of Field Desk "B":

(1) Lid Section:

(a) Upper Left Section:

This section will contain items of stationery which may be deemed necessary to be carried therein, in addition to the supply of stationery carried in the upper left Section of Field Desk "A".

(b) Lower Left Section:

In this section will be carried a supply of blank forms and stationery suitable in size to be carried therein.

(c) Upper Right Section:

Any training pamphlets or documents, suitable in size to be filed therein and for which no other filing space has been designated.

(2) Five Year File Tray:

Five Year File Section:

The division cards for this file consist of the "first year," "second year," "third year," "fourth year," and "fifth year" cards, devised to separate the papers to be retained for five years.

All papers destined for file in the five year file, including "sick reports," "reports of individual classification (all weapons)" and "encampment letters" will be filed in front of the guide card "First Year." The "Target record" card follows the fifth year section.

On January 1st, of each year the first-year card will be moved to the front of the five-year file, being replaced by the second-year card. The year cards will be moved forward, third in place of second, fourth in place of third, fifth in place of fourth; so that on each January 1st, after the fifth year of filing, the year's discard will be found in rear of the fifth year card.

The papers in rear of the fifth year card will be removed and destroyed. In this manner all dead records will be automatically worked from the file and the first year card will be in place to receive the papers to be filed during the ensuing year.

Target Record:

In the front of the guide card "Target Record" in the five year file tray will be filed the individual records of target practice. When a soldier leaves the organization permanently or at the expiration of his enlistment his retained individual target record will be given him or destroyed, thereafter.

Immediately in rear of the guide card "Target Record" will be filed in separate folders, which can be made from any suitable material, all orders which have been received by the organization since its organization; i. e., one folder for orders issued by the Adjutant General of Iowa, one folder for those issued by the Regimental Commander and one for Company, Troop, Battery or Detachment Orders. Each of the above folders should be marked as follows:

- (a) Folder containing orders issued by the Adjutant General's Office, State of Iowa.
 "SPECIAL ORDERS, ADJUTANT GENERAL'S OFFICE, STATE OF IOWA—SERIES 1920-1921-1922-1923-1924-1925-1926-1927-1928-1929."
 (b) Folder containing orders issued by the Regimental Commander:
 "REGIMENTAL SPECIAL ORDERS—SERIES 1920-1921-1922-1923-1924-1925-1926-1927-1928-1929."
 (c) Folder containing orders issued by the organization:
 "COMPANY ORDERS—SERIES 1920-1921-1922-1923-1924-1925-1926-1927-1928-1929."

Note:

It should be understood that organizations which were organized in 1921 or 1922 would not include in the marking "Series 1920." Organizations which served, at any time, in a separate battalion would have an additional folder for Battalion Special Orders. Whenever the folders herein mentioned become too voluminous as many years of their contents as may be deemed necessary should be extracted and placed in an improvised folder, which should be plainly marked as to their contents, and filed in one of the two steel cases furnished all Units by the State of Iowa.

When the "Permanent File" becomes too crowded the remaining space of this tray may be used for the purpose of filing documents or records normally destined for the "Permanent File," such documents or records may include the retained copies of Annual Armory Inspection Reports.

(3) Permanent File:

In the Permanent File will be filed:

- (a) In front of the guide card "Returns":
 The closed morning reports (Used during Field Training Periods.) **Strength returns** (The form for strength return having been replaced by Form No. 100 WDMB). This file will, therefore, contain the strength returns submitted until December 31, 1925, and the strength returns, which will hereafter be submitted at the beginning and at the closing of each Field Training Period.
 (b) In the Alphabetical Section:

The original enlistment records of all enlisted men separated from the Service, as well as Extracts from Service Records, if prepared. In this connection it should be understood that the preparation of extracts of service records in the National Guard is entirely optional.

Note: 1—When an enlisted man has been discharged more than once all extracts from service records pertaining to him will be fastened together with a paper fastener and only the last copy of his enlistment record filed therewith, all others may be destroyed.

Note: 2—If no papers would be withdrawn from the alphabetical section, this file would in view of the heavy turnover in the enlisted personnel of the National Guard, occupy the greatest part of the permanent file. To prevent the alphabetical section from occupying more space than is actually necessary, at the end of each calendar year the enlistment records of all enlisted men separated from the service three years

should be withdrawn and placed in an improvised folder, i. e., on December 31, 1929, the enlistment records of the enlisted men discharged during the calendar year 1926 should be withdrawn and placed in an improvised folder marked as follows: "Enlistment records of enlisted men separated from the service during the calendar year 1926."

The folders containing these enlistment records will then be filed in one of the two steel cases furnished by the State of Iowa, in which all other records relating to the history of the organization, including old payrolls may also be properly stored.

(c) In front of the guide card "Payrolls":

The payrolls followed by forms No. 100 WDMB (Report of National Guard duties performed) submitted for the period covered by each payroll; viz.: Behind the payroll for the quarter ending November 30, 1929, the Forms No. 100, for the months of September, October and November, 1929.

In rear of the guide card "Payrolls" will be filed the copies of the annual "Armory Inspection Reports" and if the permanent file is too crowded, then in the "Five Year File Tray."

2. The Loose-leaf binders containing the Army Regulations and Training Regulations as well as the binders containing the General Orders and Bulletins issued by the War Department and the Adjutant General's Office, State of Iowa, will be kept in one of the two steel cases furnished by the State of Iowa.

3. All personnel responsible for the preparation and filing of Military records, will carefully study the instructions herein contained. All Company Clerks will be furnished with a copy of these Orders for personal study. Additional copies of these Orders will be furnished by this office upon request.

III. APPOINTMENT AND PROMOTION OF COMMISSIONED OFFICERS OF THE IOWA NATIONAL GUARD.

1. The following Regulations, governing the submission of recommendations for the purpose of filling vacancies, by appointment or promotion, which may exist, from time to time, in the commissioned personnel of the Iowa National Guard, will become effective at once:

a. BY WHOM AND HOW RECOMMENDED:

- (1) Whenever a vacancy occurs in the commissioned personnel of any organization of the Iowa National Guard, the Commanding Officer thereof will take the necessary steps with a view of filling the vacancy as soon as practicable, by submitting recommendations as outlined in Par. (2) below:
- (2) Recommendations for the filling of vacancies in the commissioned personnel of the Iowa National Guard, by either appointment or promotion, will be submitted in letter form by the Organization Commander in which the vacancy exists and will be submitted to the Adjutant General, through the prescribed chain of Military Channels.
- (3) Letters of recommendation will be accompanied by the following documents:

 September 15th

Inasmuch as examining boards for Iowa National Guard Officers will convene the first week in each quarter, letters of recommendation, which are not submitted so as to reach the Adjutant General's Office by the dates specified above, will necessarily be held in abeyance for another quarter, unless an emergency exists, which warrants immediate action.

c. RECEIPT OF RECOMMENDATION—HOW ACKNOWLEDGED:

Acknowledgment of receipt of recommendations, which are approved by the Adjutant General, will be in the form of a memorandum addressed to the person recommended and will inform the individual concerned as to the office for which he has been recommended; the approximate date on which he will be ordered to appear before the Board to determine his qualifications for the grade and branch for which he has been recommended, as well as the scope of the examination. Recommendations which are disapproved, either because the candidate does not conform to the prescribed State standard for the Iowa National Guard Commissioned Personnel, or for the reason that the person does not fall within one of the eligible classes prescribed in Par. 25 NGR No. 20-1927, as amended, will be returned by the Adjutant General to the Commanding Officer who submitted the recommendation, through the prescribed chain of Military Channels, with a statement as to reason for disapproval.

d. EXAMINING BOARDS:

Examining Boards, for the examination of the Commissioned Personnel of the Iowa National Guard, for all branches of the service, will ordinarily convene the first week in each quarter of the calendar year, at such place as may be designated by the Adjutant General.

e. SPECIAL EFFICIENCY REPORTS:

The Special Efficiency Reports required to be submitted in the case of appointment or promotion for officers and enlisted men, will be prepared on the prescribed blank form for annual Efficiency Report (WDMB Form No. 67) and will be marked at the top thereof "Special." The Special Efficiency Report must accompany the letter of recommendation and will be indorsed as required in the case of Annual Efficiency Reports, by all Commanding Officers in the tactical chain of command. Special Efficiency Reports, submitted in the case of appointment or promotion for officers and enlisted men, will ordinarily cover a period of one year from the date of preparation of same, unless the officer or enlisted men reported upon have been in the service less than one year.

In the preparation of Special Efficiency Reports submitted for officers and enlisted men who are recommended for appointment or promotion, Organization Commanders, initiating Special Efficiency Reports, will bear in mind that it is contemplated that the officer or enlisted man reported upon will be rated in his present grade rather than the grade for which recommended, either for appointment or promotion. In this connection it may be well to state that an examining board could not ordinarily pass an enlisted man who appears before it for appointment as 2nd Lieutenant, whose efficiency report rates him throughout as "Average" for his present grade, hence, enlisted men who do not rate above average in their present grade should not be considered suitable commissioned material.

f. ELIGIBILITY:

Commanding Officers responsible for the submission of recommendations to fill vacancies in the commissioned personnel of the Iowa National Guard, either by appointment or promotion, will familiarize themselves with the provisions of Section II NGR No. 20-1927, as amended, and will make certain that individuals recommended fall within one of the classes prescribed in Par. 25 NGR No. 20-1927, as amended. Also that individuals recommended conform to the limitations as to age as prescribed in Par. 23 NGR No. 20-1927, as amended.

g. WAIVERS:

Unless it is manifestly to the best interest of the service no application for waiver of age, physical defect or examination in technical subjects of branch for which recommended, will receive favorable consideration. Whenever desired to recommend an individual to fill a vacancy in the commissioned personnel of the Iowa National Guard and it is found that he is over the age limit prescribed for the grade for which recommended or that he has a physical defect of a degree that can be waived or it is desired that the technical subjects in the branch for which recommended be waived for a period of one year, application for waivers for such conditions as outlined above, should, in every case accompany the letter of recommendation and must be approved by superior officers in the tactical chain of command.

It will be the policy to consider unfavorably applications for any type of waiver that is not to the best interest of the service, hence, in order that application for waivers may be given due consideration, such application should outline, in detail, the provisions under which the waiver is recommended and the reason which warrants favorable consideration. Application for waiver of age for grade, if desired, will, in all cases, set forth the date of birth of the person for whom the waiver is desired.

2. Due to the fact that it has been demonstrated, during past years, as a result of examinations conducted by various Boards that Commanding Officers have recommended candidates and enlisted men who did not possess the required qualifications for original appointment in the National Guard, commanding officers will be held strictly responsible for the recommendation of candidates and enlisted men to fill existing vacancies in the commissioned personnel of the Iowa National Guard. Hereafter before submitting recommendations, Commanding Officers will ascertain that candidates or enlisted men of the Iowa National Guard are reasonably qualified educationally and professionally, and if necessary such information will be obtained by conducting a test in the prescribed subjects for the grade and branch for which the individual is being recommended.

In connection with the above the particular attention of all Organization Commanders is directed to the provisions of Par. 54 NGR No. 20-1927, as amended, which refers to qualifications, tests and

general fitness of officers and enlisted men and candidates for appointment or promotion in the National Guard.
