Message from the Colonel Commandant

Fellow Gunners,

The Royal Regiment has again proven its versatility and professionalism in the face of challenges and change. From fielding guns and locating assets in Afghanistan to battling forest fires in BC, the Gunners were always there living up to our motto “UBIQUE”.

Enjoy this record detailing the accomplishments of the past two years by the men and women of our Regiment. You all continue to leave a proud record.

To all Gunners regular, reserve, serving or retired – as always, I wish you continued “Good Shooting”.

Mot du Colonel Commandant

Camarades artilleurs,

Le Régiment royal a encore démontré sa polyvalence et son professionnalisme face aux défis à relever et au changement. De l'établissement de postes d'artillerie et de ressources en Afghanistan à la lutte contre les feux de forêt en Colombie-Britannique, les artilleurs ont toujours su faire honneur à leur devise : UBIQUE.

Vous trouverez certes plaisir à lire ce recueil des accomplissements des hommes et des femmes de notre régiment au cours des deux dernières années. Et vous continuez tous à enrichir notre glorieuse histoire.

À tous les artilleurs en service actif ou retraités de la Force régulière et de la Réserve, je vous souhaite, comme toujours, de « continuer à bien viser ».

Message from the Director of Artillery

The last two years have been challenging for The Royal Regiment. As Director I have been privileged to work with many of you in moving the Artillery forward. It has been exciting to see the changes taking place. The retirement of some of our weapon systems will pave the way for new roles for many of us.

The past two years have seen the deployment of the Arthur Counter Mortar Radar and UAV in Afghanistan, the trialing of the 105mm C3 on a wheeled chassis and the firing of the CRV7 rockets from the ADATS. These changes will result in a much more flexible and lethal Artillery for the Army of the future.

I look forward to further service as the Director of Artillery as we move ahead. Our success continues to be based upon the professionalism and dedication of all serving Gunners. Your continuing efforts are keeping The Regiment vibrant and relevant. I know you will continue to succeed as we move forward. I hope you will now pause and look back with pride on what you have done in the last two years as chronicled in these pages.

Mot du Directeur de L'Artillerie

Les deux dernières années du Régiment royal ont été remplies de défis. En qualité de directeur, j'ai eu le privilège de collaborer avec plusieurs d'entre vous dans ce contexte de revitalisation. Nous avons assisté à l'évolution des travaux avec grand intérêt. La mise au rancart de certains de nos systèmes d'armes ouvrira la voie à de nouveaux mandats pour bon nombre d'entre nous.

Au cours des deux dernières années, nous avons déployé le radar anti-mortiers Arthur et le véhicule aérien sans pilote en Afghanistan, mis à l'essai le C3 105 mm sur un châssis à roues et exécuté des tirs de roquettes CRV7 à partir du système d'arme antiaérien et antichar. Grâce à ces changements, l'Armée de terre bénéficiera à l'avenir d'une artillerie beaucoup plus souple et encore plus redoutable.

Je me réjouis à la perspective de poursuivre mon mandat de directeur de l'Artillerie à mesure que nous avançons. Notre succès repose toujours sur le professionnalisme et le dévouement de tous nos artilleurs. Vos efforts permanents sont le fondement de la vitalité et de la pertinence du Régiment. Je sais que vous continuerez de déployer des efforts en ce sens.

J'espère que vous ferez maintenant une pause pour repenser avec fierté aux réalisations accomplies au cours des deux dernières années, lesquelles sont relatées dans le présent ouvrage.

1st Regiment Royal Canadian Horse Artillery

"Live every day like it's your last... One day you'll be right."

The Regiment was officially in the Reconstitution Cycle of the Army Operations and Training Framework (ATOF) at the start of 2003.

In March of 2003, several Officers and Senior NCOs traveled to Normandy France for a Battlefield Tour on Exercise MINERVA GUNNER. Activities included: visiting the landings of several famous Allied battles (such as Dieppe and D-Day); walking among Canadian Cemeteries.

In June of 2003, 1 RCHA saw a change in three different areas. Major Johnstone relinquished command of A Battery to Major Reiffenstein. Major Ouellette handed command of Headquarters and Services Battery to Major Molaski. LCol Chamberlain passed command of 1 RCHA to LCol Mieзитis. He also gave his heartfelt appreciation to his right-hand man and fellow outgoing Senior Officer, the 2IC of the Regiment, Major Kevin Doyle, who was replaced by Major Peter Brown, fresh in from Kingston.

It will stand out in many soldiers' minds the reassuring words that the outgoing CO said with respect to the new changes coming to the Artillery in terms of new guns and

training models and new technologies. "There will always be the need for firepower, it will just be a question of how we deliver it. Therefore, there will always be a need for the Artillery."

LCol Mieзитis also made a good first impression by stating he will maintain the aim of "Mission first. Soldiers Always". He also alluded to the challenges that were facing the Regiment during the Reconstitution Cycle, wherein Batteries would take on several independent roles. He maintained that he would keep a "Regimental focus as opposed to four batteries. One Regiment – many missions."

OPERATIONS

Operationally, 1 RCHA provided primarily individual augmentation to most operations including Operation PALLADIUM Roto 11, 12 and 13, Op ATHENA and Op DANACA. Formed groups were provided for two rotations of AVCON at Rogers Pass, B.C., and the Defence and Security Platoon for Camp Mirage in support of Op APOLLO and Op ATHENA. As a Regiment, the greatest commitment was to Operation PEREGRINE, which was LFWA's support to fighting the forest fires in BC.

OPERATION PALLADIUM

Between Op PALLADIUM Rotos 11, 12 and 13, the Regiment deployed 35 personnel. It says a lot about the esteem other nations and units have for 1 RCHA when we are asked to fill such vital roles as Psychological Operations, Cantonment Site Inspectors and Observer Parties overseas. Sergeant Oftedal who was deployed as a Forward Air Controller in assistance to the American, Italian, Spanish and French Forces compared and contrasted the experience of calling in Fast Air for our Allies.

OPERATION AVALANCHE CONTROL

As usual the Regiment provided support to the Trans Canada Highway in the area of Roger's Pass for Avalanche Control (AVCON). There is a great deal of maintenance and waiting on the unpredictable weather that can cause this to be a demanding duty.

OPERATION PEREGRINE

Although Operation PEREGRINE was an Area Operation, make no mistake about it, when it came right down to it 1 RCHA was there all the way, from start to finish. From the initial commitment of B Battery to the commitment of A Battery and RHQ Bty throughout the extensive Area of Operations from August to mid-September 2003, 1 RCHA was there for it all. RHQ deployed to join B Battery at the Barriere Fire Camp and soon commanded companies from 3 PPCLI, LdSH (RC) and a Reserve Company in whole totaling 403 personnel. A Battery deployed under command of LdSH (RC) HQ and was the last to return to Shilo. It was not uncommon to see our soldiers working well into the evening when civilian firefighters were going home. 1 RCHA had committed 376 soldiers to fire fighting.

OPERATION APOLLO

A Bty deployed a Defence and Security Platoon to the Middle East during the summer months, in support of Op APOLLO. Under Captain Nelson, the Platoon provided local defence to an Air Base in the heart of a certain Middle Eastern city. Says Section Member/2IC Bdr Engram of the experience, "It was hot! We conducted a gate guard with routine ID checks, patrols in town, and escorts to administrative vehicles. We also got a chance to do practice shoots with the new NVGs and lasers."

EXERCISES

2003 started with Exercise STRONG CONTENDER in January. This Brigade sports competition in Edmonton had several ups and downs for the Regiment, however, heart and dedication were apparent throughout. 1 RCHA finished third overall.

Highlights from the event included 1 RCHA taking first in Broomball and second in ball hockey.

In February, the Regiment divided into Batteries and deployed to different locations of Manitoba to conduct Basic Winter Survival training for Exercise COLD SURVIVOR. Temperatures often went as low as -50. Ice fishing, snarling and construction of basic shelters were covered.

March also saw the Regiment deploying for its staple Spring Exercise, PRAIRIE GUNNER.

Throughout the summer, individual Batteries, in addition to manning taskings for WATC Shilo and Wainwright, refreshed their basic soldiering skills. C Battery conducted patrols in early June. B Battery really drove the body when it conducted pair/section live fire training during

Exercise BEE AWARE, Patrols during Exercise SILENT WARRIOR, and Fieldcraft and Watermanship Training during Exercise PATHFINDER. Even HQ Battery got in the action during Exercise RUGGED RAIDER when it did training up on Fieldcraft.

Due to the commitment to the fires, 1 RCHA could not commit an entire team for Exercise MOUNTAIN MAN. However, the five persons who did go did the Regiment proud, with Bdr Rodgerson winning the Ainsworth Dyer Trophy for most improved.

2003 ended with 1 RCHA's standard Hockey tournaments – The Kingston and Hugsweir cup – which A and HQ Batteries won respectively. In an act of gracious generosity, the Officers of 1 RCHA allowed the Senior NCOs to beat them mercilessly for 3 periods.

1 RCHA – 2004 A year of change

"You will be ordered to go one direction one week but then the complete opposite the next."

-- LCol Mieзитis Regimental Parade 2004

The CO's words aptly described the change that was coming to the home station for 2004. With the move of 2 PPCLI, the upcoming decommissioning of the beloved M109s, and the taskings that were or were not coming from brigade, 1 RCHA demonstrated the ability to adapt and overcome. As 1 RCHA moved from the Reconstitution Cycle to the Training Cycle, many in Regiment were uncertain as to what would be needed from 1 RCHA but the Batteries reinvented themselves, as necessary, to meet whatever requirement was needed. One week as a 105mm battery, the next a 155mm, or 81mm Mortars, it didn't matter Gunners stepped up and did what was necessary to support the Supported Arms. If this does not sound out of the norm, this was just within one battery! Along with a possible UAV tasking, many gunners were wondering what the Regiment would look like or be doing in the coming years.

In May, "C" Battery's Major Liam McGarry took the reins from Major Craig Dalton and, in June, "B" Battery saw Major "Smokin Joe" Pospolita hand over to Major Craig Landry. There were of course the standard promotions but seeing MWO Andreola taking his commission to become a Captain and WO Mattson being promoted to MWO were pleasant surprises.

OPERATIONS

2004 was a relatively slow year for operations, the Regiment made many contributions to support the Brigade. Operation Athena had eleven 1 RCHA personnel, including a FOO/FAC, Captain Lefler in support. It also included two personnel who were sent to Turkey as intermediate staging support. Along with Op Athena, the Regiment also augmented Op Bronze and deployed both "A" and "C" Battery to Avalanche Control.

EXERCISES

The year kicked off with Ex STRONG CONTENDER to which 1 RCHA sent a team for every sporting event. Only one team was able to achieve glory. With a strong first place finish, the Floor Hockey team defeated all challengers and brought home victory. The Broomball team placed second.

Every battery also conducted a weeklong winter survival training exercise in February. "A" Battery deployed to Grass River Provincial Park, "B" Battery deployed to Kenora, Ontario, "C" Battery deployed to Duck Mountain, Turtle Mountain, and Westman, SK and "HQ & Svcs" Battery also deployed to Turtle Mountain.

The Regiment moved into the traditional spring exercises in April with Exercises PRAIRIE GUNNER I and II. This was an excellent opportunity for the batteries to practice both their infantry skills as well as gunnery. It was definitely a sight to see - a LAV parked at the North gate, using the stonewall sign of the Home Station as hull down cover, guarding the entrance into Shilo with its 25mm cannon.

Following Ex PRAIRIE GUNNER, the Regiment was called upon to support to Battery Commander's Fire Planning Course. The month of May saw the batteries move out to the training area, to fire some of the most technically challenging fire plans in a long time, in support of the BC's fire plans.

Regimental school kicked up in full swing with courses like the AVGP/Bison Course, Basic Tech Course, and others. Not much later Exercises WALKING RAM and MOUNTAIN MAN took place and they coincidentally fell during the same time frame which allowed the 1 RCHA to have an unusually large amount of support for our MOUN-

TAIN MAN Shilo team.

Ex PRAIRIE RAM, the Brigade exercise, was picking up momentum. The exercise, planned for October, was a month long exercise taking place in Camp Wainwright with "A" and "B" Battery deploying to provide support for the Combat Teams.

While the firing was slow initially, it picked up and some impressive methods were fired. When 20 Round Fire for effects were being ordered, it literally obliterated some of the targets and reminded the Combat team how devastating the Artillery could be – one of the major aims from an artillery point of view.

Along with ATI and Staff Assistance Visit, the home station prepared itself to host the Junior Officer's Course. It must have been either a really excellent event because somehow the 2 RCHA contingent left behind the Korea Gun when they left to return to CFB Petawawa.

There was the traditional hockey tournament with "B" Battery winning the Kingston Cup and "HQ" Battery winning the Hugsweir Cup.

2004 was a tumultuous year for the 1 RCHA but the Regiment overcame all obstacles with flying colours. When the weapon systems were changing like a pair of dirty socks and when the training was fast and furious, 1 RCHA gunners showed a great deal of fortitude and patience. Humping mortars and dropping bombs, pulling a lanyard on a light gun, or digging in an M109, it didn't matter 1 Horse demonstrated that it is ready for anything and for any job. The future may hold a lot of change for the Artillery but it doesn't matter, 1 RCHA is ready for it.

2nd Regiment Royal Canadian Horse Artillery

The strength of any unit has always been its soldiers and the 2nd Regiment is certainly no exception to this maxim. The Regiment is blessed with a large number of exceptional soldiers with every kind of personality and background. It is this diversity which is at the root of the Regiment's success. Rather than have you read about it, we would rather you saw our 2004 story in pictures.

5^e Régiment d'artillerie légère du Canada

LE 5^e RALC ANNÉES 2003 ET 2004

Rome ne s'est pas bâtie en une journée mais bien en plusieurs années... cependant il a fallu une seule année pour que nos troupes déployées en Afghanistan montre encore une fois leur professionnalisme et leur expertise en terrain opérationnel. Les membres du 5 RALC ont démontré une fois de plus leurs habiletés en tant qu'artilleur et soldat lors de conflits asymétriques qui sont l'apanage des guerres modernes. En 2003, nous avons « bâti » la Batterie Athéna qui allait se déployer prochainement et en 2004 nous avons démontré que l'effort amène le succès.

Même si les années 2003 et 2004 ont été profondément marquées par le déploiement, la rétrospective historique de ces années ne se limite pas seulement au fait d'arme de nos troupes en Afghanistan mais à plusieurs éléments qui ont marqué la continuité comme la nouveauté au sein du 5 RALC.

2003 – La préparation

Pour bâtir une équipe qui a du potentiel, il a fallu commencer l'année 2003 par une école régimentaire. De janvier à mars, le Régiment s'affaira à développer les aptitudes et les connaissances de tous en vue du futur déploiement en Afghanistan, Roto1 et de quelques éléments en Bosnie. La confirmation de l'école régimentaire, l'exercice BOMBARDE BORDÉE, du 20 au 24 janvier, a permis au 5 RALC de faire un exercice impliquant toutes les batteries. Sur le même air d'aller, le régiment au complet a participé à l'exercice de poste de commandement CHEVAL ERRANT III le 28 janvier afin de mettre à jour les procédures et techniques de tir ainsi que les communications d'artillerie au niveau régimentaire. L'exercice PIED GELÉ, du 10 au 11 février, a permis à tous de parfaire leurs techniques de guerre

hivernale et l'exercice PIÈCES MOBILES, du 17 au 25 février, en a fait tout autant en permettant à tous de mettre leurs aptitudes à l'épreuve lors du tir réel. Durant cette même période, la Batterie R a été sollicitée par la préparation de l'OP GAUNTLET. Les artilleurs de la 'R' se sont préparés de fond en comble pour aller à Wainwright dans le but de supporter la FRI(T) et le 3^e R22R. Cependant, l'exercice fut annulé à la réception de l'ordre d'avertissement de déploiement pour l'Op ATHENA en janvier 2004. Les mois d'avril à août se sont avérés tout aussi occupés. Le régiment a conduit une autre école régimentaire afin d'entraîner et de qualifier son personnel qui irait remplir les tâches opérationnelles.

Après des vacances bien méritées, l'automne 2003 marque le début de l'entraînement pour l'Op ATHENA niveau 3/4. Les exercices se sont succédés à un rythme effréné afin d'obtenir le niveau de compétence collective requis lors d'un déploiement opérationnel. Du 30 septembre au 5 octobre, le Régiment s'est déployé dans les secteurs de Valcartier pour supporter le cours de technicien de poste de commandement avancé qui avait débuté au courant de l'été. Du 6 au 10 octobre, le Régiment a participé à l'exercice ATHENA AGUERRI I et du 18 au 22 octobre à l'exercice ATHENA AGUERRI II tous deux des exercices validant les compétences de la Batterie R en vue du déploiement.

En plus de faire de l'artillerie, nos troupes ont été confrontées à des simulations d'événements possibles en théâtre opérationnel comme l'attaque de belligérants et des interactions diverses avec la population civile. Cet entraînement, créé pour faire face aux défis que représentent les guerres asymétriques, était un élément crucial dans le développement des compétences de nos officiers et soldats se déployant en Afghanistan.

Le mois de novembre fut empreint d'effort pour la Batterie Athéna qui s'est déployée du 3 novembre au 8 décembre. L'exercice ATHENA MOBILE qui s'est tenu à Valcartier, du 3 au 9 novembre, fut un exercice régimentaire d'envergure durant lequel les M109 se sont déployés « régimentairement » pour la dernière fois. La Batterie Athéna en a profité pour peaufiner ses habiletés avant le grand déploiement de Brigade. Bien rôdée, la Batterie Athéna s'est déployée du 15 novembre au 8 décembre avec la Brigade. Elle a débuté l'exercice pré-déploiement de grande échelle avec LION RÉSOLU à Fort Drum où était recréé l'organisation qui se trouvait à Kaboul soit deux camps : Julien et Warehouse. Divisée en deux, la batterie a effectué plusieurs manœuvres de tir à sec ainsi et que des exercices de simulation de guerre en zone urbaine ou encore de déploiement dans un aéroport. Une étape majeure de pré-déploiement qui fut profitable à tous mais qui était davantage un exercice pour l'état-major qu'un exercice pour l'artillerie à proprement parler. Ensuite, la batterie s'est déplacée à Sherbrooke pour l'exercice LION ROYAL afin de recréer la situation géographique de Kaboul et ainsi y implanter les camps de base Julien et Warehouse dans un contexte d'agglomération montagneuse comme ce sera le cas en Afghanistan. Encore une fois, cet exercice n'était

pas un exercice d'artillerie proprement dit mais bien un entraînement général de pré-déploiement afin que tous soient prêts. L'allure de l'entraînement était au niveau des attentes et à la fin de ce mois d'entraînement, le standard était élevé. Tout le monde était prêt à partir.

Parallèlement aux déploiements des canons, du mois d'octobre à janvier 2004, la troupe de Radar et de UAV de la Batterie X s'affaira à développer son personnel et améliorer ses compétences dans le but également d'être fin prête pour le déploiement. La troupe des UAV s'est notamment entraînée en France du 8 novembre au 19 décembre. Quant à la troupe de radar, elle s'est déployée du 14 au 28 novembre en Norvège.

2004 – Le déploiement

Début janvier, le 5 RALC avait bâti la batterie qui agirait en son nom en Afghanistan. Il ne restait plus qu'à la déployer. Entre la mi-janvier et la fin février 225 personnes ont quitté Valcartier pour Kaboul, leur destination finale. Le camp Warehouse regroupait 40% de la batterie avec deux canons, la moitié de la troupe de radar ainsi que le CCFA de Brigade

et plusieurs spécialistes. Le camp Julien, base de l'élément de soutien national, regroupait lui aussi deux canons mais également la moitié de la troupe de radar, le CCFA de batterie, les UAV et plusieurs spécialistes, soit environ 150 personnes.

Ce fut, aux dires de la grande majorité, un très beau tour. Les anecdotes ne cessent d'inonder ceux qui n'ont pas eu la chance d'y aller. Pourtant, l'arrière-garde n'a pas chômé pendant l'absence de la moitié du Régiment et a vécu elle aussi son lot d'aventures. La Batterie Q et des éléments de la Batterie C&S ont ainsi participé à l'exercice PIEDS GELÉS du 9 au 11 février et l'exercice CHEVAL GELÉ du 24 au 26 mars mettant à jour les qualifications de guerre hivernale. En plus des exercices, ils ont conduit des cours de conversion M109 et de conversion LG1. Au mois de juin, c'est avec entrain que l'arrière-garde a participé à un exercice d'aventure expédition à Sept-Îles où ils ont fait de la plongée sous-marine et du kayak.

Les mois de juillet et août ont marqué pour quelques-uns le dur retour à la réalité... et au Régiment. L'automne calme de post-déploiement que tout le monde imaginait n'était en fait que le pâle reflet de ce qui allait se passer. En effet, l'automne au Régiment fut plus que mouvementé. En plus de conduire une école régimentaire, le Régiment a supporté des cours, envoyé plusieurs personnes sur des cours à l'extérieur, participé à la course Walen de 5 km le 15 octobre, participé au défi du ccmdt le 5 novembre courant 5 km suivi de 25 push-up, des 5 chin-up et 40 redressements assis et surtout s'est doté d'un horaire d'entraînement physique à la hauteur de ses ambitions, c'est-à-dire, faire un demi-marathon à la fin juin 2005. Les temps de paresse sont derrière... l'effort et le succès sont devant!

Les années 2003 et 2004 furent au 5 RALC une lutte entre le changement et la continuité. Le Régiment a continué à s'adapter à la culture d'aujourd'hui et à la nouvelle façon de faire la guerre. Le 25 septembre 2004, les M-109 ont paradé pour la dernière fois au centre-ville de Québec lors de la parade du Droit de Cité. Les mortiers se sont implantés fermement depuis septembre 2002 au point où deux batteries y sont attachées. Les UAV, quant à eux, font maintenant partie intégrante de notre formation après les avoir utilisés et ramenés d'Afghanistan. Et comme toujours, de nouveaux artilleurs courageux et fiers arrivent, fin prêts pour relever les défis du 5 RALC. À l'aube de 2005, le 5 RALC possède une batterie de LG1, qui est la Batterie X, une batterie de C3 et mortier qui est la Batterie R, une batterie de UAV et mortier qui est la Batterie Q ainsi que la Batterie C&S fidèle à elle-même: fournissant toujours le support nécessaire au bon déroulement des activités du 5 RALC. Même s'il y a eu beaucoup de changement au sein de l'organisation, le 5 RALC est devenu l'unité unie, composée de soldats polyvalents, professionnels et fiers que le nouveau commandant, Icol Eric Tremblay, espérait tant lorsqu'il a pris le commandement le 20 juin 2003. Si vous n'êtes pas encore convaincus, il vous suffit d'attendre sur un coin de rue quand tout le Régiment défile à la course le lundi matin... vous en avez pour au moins 5 minutes.

4th Air Defence Regiment

The Royal Regiment of Canadian Artillery

4th Air Defence Artillery Regiment-2003

The year 2003 was a tremendously hectic and constructive year for 4th Air Defence Regiment, RCA. Many changes occurred during this timeframe, as the ADATS became the primary PME employed by the Regt. The soldiers returned from Christmas block leave in full force, beginning with the ADATS

gunner course, which ran from 20 Jan to 13 May 03, training 12 new soldiers on the ADATS. This course was a conversion serial as all candidates were previously qualified as either 35mm or Skyguard gunners. Simultaneously, the Regiment supported the AD NCM DP1 (1 Feb to 15 May), and 6 new Warrant Officers (WO) were trained on the Air Defence WO course from 19 March to 23 April.

To add to the list of events, 4 Junior Ranks received qualifications on the Air Defence Technician course, conducted from 17 March to 11 April. Several top student awards were presented to Regiment members. Bdr Jacques Pinard was the top student on the PLQ course, Sgt Tony Meadows was top student on the ADATS Det Comd course and Sgt (now WO) Frank Garnier was the top student on the AD WO course. Well done to all!

EX RESOLUTE WARRIOR

A last minute decision was made to add the Air Defence Artillery to Ex RESOLUTE WARRIOR, the first Brigade Training Event since 1992. With only one month to prepare and execute the deployment to Wainwright, Alberta, the Regiment hit the ground running after the March break to get the equipment and personnel pre-

7 Platoon receives Tim Hortons from their friendly neighbourhood during Op SPLINTER.

pared and transported out west.

With the ongoing Ground Base Air Defence restructure plan, the Brigade Training Event was an important exercise for the Regiment. It provided the opportunity for the ADATS to be recognized as a vital Brigade asset in the air defence role, and demonstrated how invaluable it is on the battle-

field for its anti-armour and ISTAR capabilities. The Air-space Space Coordination Centre (ASCC) made its mark as an important instrument in allowing the safe conduct of airmobile assaults, UAV missions, a friendly air support, and securing its deployment on Op ATHENA, ROTO 0 and 1. To support the ISAF mission in Afghanistan the Regt contributed five soldiers on Op ATHENA, Sgt Adrian Miroshnikov, Sgt Frank Vidal, Sgt Larry Scott, MBdr Adam Weaver and MCpl Ian Thompson.

EX PERFECT KILL

Ex PERFECT KILL 03, the 12th ADATS live fire camp in Suffield, Alberta. From 12 to 28 May, the soldiers conducted work-up training in Gagetown. The first-time firers obtained 11 kills on 14 engagements, including one direct hit, by Bombardier Mike Burnes, on a Vindicator UAV and the destruction of a Lynx at a distance of 6.9 km.

The unit's activities in the West did not stop at the conclusion of Ex PERFECT KILL. We also provided an ADATS for display at the Calgary Stampede. This activity was led by Capt Clarence Nickerson and WO Kevin Radey who, over the three-day period, briefed thousands of visitors on the ADATS.

57 RA VISIT

In reciprocation to the hospitality received during our small unit exchange at 57 RA in France last October, 4 AD Regt hosted a delegation of 15 soldiers from 57RA, France in our homeland from 6 to 16 June. Concurrent with Ex PERFECT KILL 03, the French soldiers flew into Calgary in time to see the live fire exercise in Suffield.

NOVA SCOTIA INTERNATIONAL AIR SHOW

Land Force Atlantic Area (LFAA) held its Armed Forces Day (AFD) in conjunction with the Nova Scotia International Air Show (NSIAS) from 6 - 7 September 2003. 4th Air Defence Regiment coordinated the event for LFAA with the participation of the Armour School, Royal Canadian Artillery School, 4 Engineering Support Regiment, 3 Area Support Group, 2nd Battalion, The Royal Canadian Regiment, 3 Intelligence Company, and 36 Canadian Brigade Group.

This event included static displays of military equipment used by the soldiers of LFAA, a dynamic display of the vehicles and tactics used by the army on the battlefield, face painting for those young at heart, and Light Armour Vehicle rides.

OP SPLINTER

When Hurricane Juan decided to visit the province of Nova Scotia, it left an atrocious path of destruction in its wake. This abrupt force of nature brutalized the

city of Halifax and Dartmouth and surrounding areas. Fault lines stood at angles, knocking out electricity for most of the residents, and trees were literally ripped from the ground, covering roads and destroying much property. When the Canadian Forces Immediate Reaction Unit was called upon, ninety-three members from 4th Air Defence Regiment eagerly reported to work as per IRU recall. The buses departed for CFB Shearwater on the afternoon of 30 September. Upon arrival, the members of the unit were briefed on the situation and dispatched out for the streets of Dartmouth, equipped with only chainsaws, machetes, axes, and a high level of morale. All members on the task were focused on their mission which was straightforward; aid the Halifax Regional Municipality by clearing the roadways and sidewalks of debris, so that Nova Scotia Power could gain access to the city's power lines, and begin restoration.

4th Air Defence Regiment, RCA-2004

2004 proved to be a year full of transition and adaptation for 4th Air Defence Regiment, RCA. Though an unit of Land Forces Atlantic Area (LFAA) 2004 saw 4 AD Regiment personnel working with 1 CMBG in the initial stages of the Direct Fire Support (DFS) trials, 4 Wing during Ex WOLF SAFARI, deployed overseas with Op ATHENA and HALO, as well as CFS Alert. In the middle of this, command passed from LCol Michel Lavoie, CD to LCol Dana G. Clarke, CD an occasion marked by the Regiment's first Ball since it was re-established in 1996.

Capt Douglas Grant briefs BGen Ray Romses, the commander of Land Force Atlantic Area (LFAA) during Ex AGILE ARCHER, the first GBAD Level 4 operational evaluation since the initial acceptance trials in the early 90s.

CHANGE OF COMMAND

Command of 4th Air Defence Regiment was turned over from LCol Michel Lavoie, CD to LCol Dana G. Clarke, CD on 16 July 2004. Members of the Regiment from Gagetown, Moncton and Cold Lake came together in order to partake in the ceremony. The ceremony was held at CFB Gagetown under the aegis of BGen Ray Romses, Commander LFAA. Also in attendance was BGen Christian Barabé, Director General Joint Force Development, Director of Artillery Col Robert Gunn, former CO's of

the Regiment, Assistant Commissionaire of J Division RCMP Steve Graham and other invited guests.

DIRECT FIRE SUPPORT

One of the most consuming issues throughout the year was the role of the ADATS within the Direct Fire System concept. The teaming of the fire effects of the ADATS with that of the TOW and Mobile Gun System (MGS) is in early stages, but much of the year has been spent in creating tactics, techniques and procedures (TTPs for short) in order to field the concept as part of the Army Transformation. 2004 has been about DFS. Beginning with Army Experiment 8A in Kingston, during which detachment commanders from the unit exercised the concepts early forms in simulation, through to Ex INITIAL STRIKE where the Regiment deployed a Battery (-) for field manoeuvres with TOW Under Armour (TUA) and Leopard tanks in Wainwright.

DFS was also a key feature of the unit's training throughout 2004. In April during Ex NIMROD GALE, the Battery Commander's course evaluation field training exercise, dedicated direct fire tasks and skills were practiced at the Troop and Detachment level for the first time. Missile allocations for Ex PERFECT KILL, the annual GBAD range, were directed by the Chief of the Land Staff (CLS) to be fired predominantly at ground targets. ADATS achieved record breaking ground engagements against marginal thermal targets at ranges of up to 7.2 km in conditions of total darkness and 2km visibility in mist and rain.

During his visit to the unit on 24 Nov, the CLS, LGen Hillier, spoke candidly of the new role and the place of ADATS soldiers in the future Army. Much has yet to be defined with regards to DFS and ADATS, but one thing that is clear is the motivation and skill of the Air Defenders to the new job and the chance of supporting the Army overseas.

GROUND BASED AIR DEFENCE

The experiences of Op ATHENA and the increased use of the TUAV in operations have brought the need for situational awareness and control of the airspace in Canadian areas of operations (AO) into the minds of operational commanders at all levels. Several significant exercises involved Airspace Coordination Centers (ASCC) from the Regiment in the last year. The first of these was the Atlantic Littoral Experiment or ALIX for short. 128 AD Bty deployed a number of assets in this Intelligence, surveillance, target acquisition & reconnaissance (ISTAR) exercise in August. Ex WOLF SAFARI, an air force exercise with 4 Wing in Cold Lake, Alberta, reinforced the value of these lessons by tying in army activity and ground based sensors to support air operations. The main aim was to integrate the collection of sensor data from naval vessels, aircraft, ADATS, Coyote recce cars, and TUAVs. The ASCC proved critical in

deconflicting the use of the friendly airspace.

In March & April of the year the Regiment deployed in en masse to CFB Galetown for Ex AGILE ARCHER, the first GBAD Level 4 operational evaluation since the initial acceptance trials in the early 90s. The aim of this ambitious exercise was to validate the unit's operational capability for GBAD tasks at the Battery level as well as provide the field experience of bivouac life to the newer members of the unit. A distinct success, the unit managed to conduct all activities from the tactical to the practical deploying the bulk of 210 AD Workshop to the field and capable of superb maintenance support throughout. Commander LFAA, BGen Romses, made a point of touring the deployment on the ground as well as assessing the Battery from above by helicopter.

OTHER ACTIVITIES

The 2004 Nova Scotia International Air Show (NSIAS) took place on the 11 and 12 September 2004, with a significant army display from LFAA. 128 AD Battery was the LFAA lead for the display involving various primary mission equipment such as a Coyote recce car, an ADATS, two Leopard Tanks, two LAV III's and a BEAVER armoured bridge layer. The Regiment's detachment in Cold Lake continued the unit's public communications efforts at the Calgary Stampede gathering large crowds of interested citizens during the LFWA display as well.

The annual Regimental Rendezvous, or RV, took place from 2-4 December. A combination of sports day, seasonal parade and soldier's dinner and celebration of Saint Barbara drew the unit together in Galetown from across Canada. The annual awards of Soldier of the Year went to Bdr Michel Allain from 119 AD Bty while the 4 AD Regt Athlete of the Year was WO Richard Desjardins, CD from HQ & Svcs Bty.

CONCLUSION

2004 was a big year. It was a busy year. Nevertheless, it was a year full of transition and promise for the future. The ascendancy of the Direct Fire Support role and the continued importance of Ground Based Air Defence battle space awareness and management will keep the unit active throughout the year to come.

The Field Artillery School

The Royal Regiment of Canadian Artillery

THE YEAR 2003 IN REVIEW

At the Field Artillery School, 2003 was another exciting and eventful year. The School continued to deliver a wide number of varied courses, while throughout the year, the Instructors-in-Gunnery, Assistant Instructors-in-Gunnery, staff, and students met and overcame many new challenges. The School continued sending Instructors-in-Gunnery Assistance Teams to the Regiments for various exercises and activities, including the Army's 2003 Brigade Training Event in Wainwright, Alberta. Members of Tactics and Maintenance Training Batteries deployed to Afghanistan with Operation ATHENA in target acquisition, targeting, and maintenance roles. The School continued to integrate new equipment, such as the Light Armoured Vehicle III - Observation Post Vehicle (LAV III OPV), the 81mm mortar, and the Tracked Light Armoured Vehicle. The Commandant, Lieutenant-Colonel John Crosman, along with the Regimental Sergeant-Major, Chief Warrant Officer Don Meehan, and other senior staff members contributed to ongoing developments and deliberation on the future of the Artillery and the Army.

There were several changes in the senior manning slate within the School in 2003. Major Tim Young left the position of Chief Instructor-in-Gunnery (CIG) for National Defence Headquarters, to be replaced as CIG by the School's new United Kingdom Exchange Officer, Major Andrew Southby, RA. Major Gerald Lessard assumed command of 18 Air Defence Regiment, and was replaced as Chief Instructor Tactics by Major Mike Johnstone. Captain Bob Thomas

moved from his position as Chief Instructor Maintenance to become the Adjutant of the Combat Training Centre Headquarters and was replaced by Major Johanne Charest. Captain Dave Gillan moved from W Battery to become the new School Adjutant, replacing Captain Dave Buchanan who became the Senior Instructor Tactics before departing for Afghanistan as the Brigade Targeting Officer.

Headquarters Battery continued to support The Royal Regiment of Canadian Artillery by executing its mission "to provide Standards, Administrative, Information, Simulation, Operations and Training functions to the School in support of its Centre of Excellence responsibilities". Standards personnel participated in numerous Qualification Standards and Training Plan Writing Boards throughout the year in support of the new Artillery Officer and Non-Commissioned Members career and training structure. Training Plans and courseware were also produced on short notice to ensure that Land Forces Central Area Reserve Artillery units could operate mortars by Christmas 2003. This year also saw the creation of an electronic learning position within Headquarters Battery to facilitate the introduction of e-learning technologies and practices into our Military Occupation Classification training and education. During this past year Target Acquisition was reinvigorated within the Army, and resulted in Headquarters Battery providing Target Acquisition and Maintenance personnel to attend various trials and courses. These personnel are facilitating the rapid introduction of Unmanned Aerial Vehicles and Counter Battery Target

Acquisition Radars into the Army to support Target Acquisition on current operations. Headquarters Battery also provided the School's key point of contact to the Army on the transition of the Air Defence Anti-Tank System (ADATS) to the first generation Multi-Mission Effects Vehicle, which is envisioned to provide the Army with a ground based Low-level Air Defence and precision direct fire and non-line of sight capability within a single platform. Finally, the Chief Standards Officer, Major Lee Hammond, working on behalf of the Director Artillery on a multitude of future issues, prepared a number of briefs and presentations and participated in a multitude of working groups, boards, and conferences throughout the year on the Artillery's Interim Model Implementation Plan (IMI). This work

The MOBAT in action ready to fire a round into the Hersey Impact Area.

covered such topics as Whole Fleet Management, the Artillery Equipment Redistribution Plan, and Establishment Change Proposals for all Regular Force Gun Batteries of The Royal Regiment of Canadian Artillery.

Tactics Battery had a very busy year. The Battery saw the establishment of a "Technical Adjutant" during the past year. This position is now filled by Captain Mike Wood, who will act as an advisor to the Commandant on new equipment issues. The Battery has supported the Brigade Training Event in Wainwright, Alberta, provided targeting and locating expertise to Operation ATHENA, conducted trials of new equipment, including the LAV OPV and Mobile Artillery Truck System (MOBAT), and has begun to rewrite several Artillery publications, all the while continuing to provide first class instruction to students. At the time of writing, the Battery had six personnel deployed to Afghanistan with 2 Brigade to control the operation of Unmanned Aerial Vehicles (UAVs) and Radars. Six more personnel are currently training for the next rotation with 5 Brigade. For Tactics Battery's Targeting Troop, the year began with the Basic Artillery Survey Course. Participation on the Brigade Training Event was the focus of the next few months. During the exercise, the Troop flew a "surrogate UAV", which was a Vindicator target drone with an attached video camera, and many valuable lessons were learned. They have also coordinated support to a variety of trials, notably the MOBAT demonstration, and worked on LAV OPV. Finally, Tactics Troop continued to provide tactics instruction on many courses across the School.

2003 was an eventful year for Gunnery Training Battery. The primary focus of Gunnery Training Battery continued to be the conduct of national courses. The basic training of all gunner recruits has been centralized at the School under a new Basic Gunnery Training Troop. The introduction of the LAV III OPV has required the modification of teaching and doctrine within the Fire Support Co-ordination Centre cell. The decision to give the Army's mortars to the Artillery has created a significant amount of work to ensure that Gunners know how to man, operate, train, and fight this weapon.

During this past year, Maintenance Training Battery completed a total of nine courses, dealing with Low Level Air Defence Equipment, Land Based Radar Equipment, and the M109A4 self-propelled howitzer. Aside from providing mandated technical training, the Battery also provided a Land Communications and Information Systems

Technician for Operation ATHENA in Afghanistan.

This year proved, once again, to be an exciting one for W Battery, as it supported no less than twenty-nine Field and Air Defence Courses, not to mention various exercises for other schools and units on Camp Gagetown. Major Lawrence Dufour remained the Battery Commander and Master Warrant Officer Darrell McCormick continued in his position as Battery Sergeant-Major. The Battery was involved with the Base Auxiliary Security Force exercise, which is held annually in conjunction with 3 Area Support Group. In addition to routine tasks and exercises, Field Troop was fortunate enough to conduct a trial on RDM Technology's new Mobile Artillery Truck (MOBAT) system. The MOBAT consists of a

105mm Howitzer mounted on a platform that integrates the gun, electric gun drives, ammunition racks, stabilization system, and a navigation and positioning system.

2003 was an interesting, challenging, and exciting year for all Canadian Gunners, and especially for those at the School. The Army's focus on its Intelligence, Surveillance, Target Acquisition, and Reconnaissance (ISTAR) capabilities promises a bright future for the Royal Regiment of Canadian Artillery and for the Royal Canadian Artillery School.

Two Hawker Hunter aircraft over fly the Forward Air Controller Course.

THE YEAR 2004 IN REVIEW

The School had a challenging and eventful year in 2004. The School continued to conduct numerous national and internal courses and it provided Instructor-in-Gunnery (IG) teams to units across the Royal Regiment; all while concurrently improving courseware to meet the requirements of army transformation. The School also continued to produce tactics, techniques and procedures (TTPs) for new equipment, such as the Light Armoured Vehicle III – Fire Effects Vehicle (LAV III FEV), and the unmanned aerial vehicle (UAV) operations based on lessons learned from Operation ATHENA. Air Defence Anti-Tank System (ADATS) was also in the Army's spot light this year and the School's experts were directly involved in transforming the concept into doctrine. The School marked a significant accomplishment as the Artillery Transformation position paper was completed. Command of the School also changed hands this past year from Lieutenant-Colonel John Crosman to Lieutenant-Colonel Brian Douglas. The School achieved many successes throughout 2004 and each of the School's five batteries met their respective challenges head on.

Headquarters Battery saw new leadership this year with the outgoing BC, Major Lee Hammond, moving to replace

Major Richard Lavoie as Deputy Commandant. Major Tim Hogan moved in from Gunnery Training Battery as the new BC. Captain Shawn Fortin replaced Captain Warren Smith as Operations Officer, and Captain Greg Ivey took over the Adjutant's position from Captain Dave Gillan. Captain Gillan received a Colonel-Commandant's Commendation for his exemplary work over a year and a half as School Adjutant. Outgoing Battery Sergeant-Major, Master Warrant Officer Jim Given, accepted his commission and was promoted to Captain. Newly promoted Master Warrant Officer Don Robinson replaced him as BSM.

Gunnery Training (GT) Bty, under the continuing leadership of the Chief Instructor-in-Gunnery, Major Andy Southby, and his BSM Master Warrant Officer Ron Benoit, remained dedicated to courseware production, to the development of CIG Directives and to its primary focus of conducting national courses. The Technical Instructor-In-Gunnery (TIG) concept was implemented, recognizing the qualifications of Assistant Instructors-In-Gunnery (AIG) who had commissioned from the ranks. Captain Wayne LeBlanc was the first officer to be granted this prestigious qualification, and was quickly followed by Captains Lorne Doucet, Jim Given, Luigi Andreola, and Dave Gillan, and Lieutenants Jim Hawco and Gilles Courtemanche. New Command Post Exercise (CPX) rooms were established with their full complement of radios, computers, and fibre-optic cabling, giving the School a custom-built facility capable of training students in a Battle Group Fire Support Coordination Centre right down to battery command post level. Furthermore, the Indirect Fire Trainer underwent a significant facelift to provide 21st Century graphics and capabilities, including trialling a Forward Air Controller Simulator (I-FAC) for our students.

The implementation of the LAV OPV continues to challenge the Fire Support Coordination Centre Cell. The Forward Air Controller Cell, thanks to the significant personal efforts of Captain James Allen, was formally established as the Canadian Forces COE. The new Artillery Officer Developmental Period (DP1) Common Phase was conducted for the first time during the summer of 2004. This course focused on teaching young officers the basic knowledge and skills required for employment as a Troop Commander in either field or air defence stream. This, in turn, necessitated the creation of an all-encompassing Air Defence Phase IV (AODP1 (Mod 2) AD), and meant that the last legacy Basic Artillery Officer (Field) Phases 3 and 4 were conducted this year. The year-long AIG (Field) Course was reintroduced this year for the first time since 1991.

Tactics Bty continued under the leadership of Major Mike Johnstone, while receiving a new BSM as Master Warrant Officer Toni Gilks took over from Warrant Officer Roland Woods during the APS. The Bty commenced 2004 by deploying Surveillance and Target Acquisition experts to Operation ATHENA in Afghanistan.

Tactics Troop supported many courses, particularly

by instructing Battle Group and Combat Team level tactics packages to seven different course serials. Shifting the ADATS' primary role from Air Defence to Direct Fire (DF), coupled with its future integration into the DF Support Squadron, required modified tactics packages and lesson plans to reflect the evolving role of the system.

Surveillance and Target Acquisition (STA) Troop had a very interesting year with soldiers from the troop returning from Kabul Operation ATHENA Rotation 0 and deploying on Rotation 1. The learning curve was very steep as new procedures for the Artillery Hunting Radar (ARTHUR), Counter Mortar Radar and the SPERWER Tactical UAV continued to be developed in theatre. The key lessons learned will form the foundation for future doctrine and TTPs. Congratulations went to Warrant Officer Arthur Snodgrass, having received an ISAF Commendation for his outstanding performance in Afghanistan. The STA Troop also began developing its core knowledge and technical expertise for the newly acquired Silver Fox mini-UAV; Sergeant Steve Lemieux and Bombardier Chris Coughlan have taken the lead with the system.

Maintenance Training (MT) Bty welcomed a new BC this year, with Major Elizabeth McCarthy replacing Major Johanne Charest. Master Warrant Officer Wendy Mooney took over as Battery Sergeant-Major; her predecessor, Master Warrant Officer Paul MacAskill, departed for the Golan Heights. Aside from providing the mandated technical training, MT Bty provided two qualified Land Communication and Information Systems Technicians for Operation ATHENA in Afghanistan.

W Bty bid farewell to Major Lawrence Dufour, who was posted as the Canadian Exchange Officer to the Royal Artillery School at Larkhill, UK and welcomed Major Sylvain Gagné. Master Warrant Officer Darrell McCormick continued as BSM of the Army's largest and most diverse battery. This year, W Bty spent more than two hundred days in the CFB Gagetown Training Area having supported twenty-nine field and air defence courses. The Base Auxiliary Security Force (BASf) remained a significant standing task for which W Bty was responsible; it provided the headquarters element and three of four platoons. AD Troop was also pleased to welcome back Sergeant Anthony Tullett and Bombardier Peter Sova from Operation ATHENA Roto 1 in Afghanistan.

In conclusion, 2004 was a rewarding year for all members of the School. The increasing importance of Surveillance and Target Acquisition assets on CF operations assures that these artillery skills, and the requirement to teach these skills at the School, will be in demand. The growing requirement for a highly mobile gun system, which led to numerous trials at the School, gives a glimpse of what the field gunners may expect in terms of capability in the near future. The School enters 2005 fully confident in the skills and abilities of its personnel, and eagerly anticipating the future.

The Royal Canadian Artillery Band

The Royal Canadian Artillery Band, located in Edmonton Alberta, strives to be the première military music resource in Canada, providing noteworthy musical support to military units. The unit is recognized and utilized as a major public relations tool. A dedicated emphasis on performing with marked professionalism, no matter the occasion, endeavours to make the name of The RCA Band synonymous with the highest musical standard.

As one of six Canadian Forces professional brass and reed bands, the unit consists of 35 highly skilled musicians. Although proudly RCA, the band serves all elements of the CF.

The year held many significant events for the unit. In addition to supporting military functions, the band toured around the local area, performing at the Winspear Centre for the Alberta Music Teachers' Association, at the Jubilee Auditorium for the Legion Memorial Tribute Concert, performing a number of Change of Command Parades including the PPCLI Freedom of the City and Sunset Ceremonies, Calgary's Stampede Parade and Edmonton's Klondike Days Parade.

The RCA Band toured extensively after their leave in

August. The first leg of a three-week tour started in Ottawa with *Fortissimo*—a massed band super concert and sunset ceremony performed on Parliament Hill. From there the band traveled to Quebec City to participate in *Le Festival international de Musiques militaires de Québec*. In the last week of the tour, The RCA Band flew to Bosnia to support the SFOR's Change of Authority Ceremony for General Beare. It was the first time in recent history that a regular force military band supported a NATO operation.

When the band returned to Edmonton in September, they said good-bye to Major Gerry Heslip, and welcomed incoming Commanding Officer, Captain Brian Greenwood. The band then moved into their new state of the art professional musical facility at the Edmonton Garrison. Before the musicians had a chance to unpack, they flew to South Korea to represent Canada in the Wonju International Tattoo for two weeks.

After the Remembrance Day Ceremonies, the band prepared for the Christmas season, and a tour to the Home Station in Shilo Manitoba. The band enjoyed performing for The Wheat Kings hockey game, and sharing the stage of the Western Manitoba Centennial Auditorium with the Brandon University Wind Ensemble.

Music performed by The Royal Canadian Artillery Band is a diverse repertoire encompassing many musical styles. In addition to the Symphonic Concert Band, other musical groups include mess dinner bands, jazz bands, and smaller chamber groups including woodwind quintet and brass quintet. For more information on The Royal Canadian Artillery Band or to request a free copy of our latest recording "Traditions", please contact us at www.army.forces.gc.ca/rca_band

1st (Halifax-Dartmouth) Field Artillery Regiment & 84th Independent Field Battery The Royal Regiment of Canadian Artillery

LCol J.D. Henley assumed command of the Regiment from LCol D. Muise during a 5 day live –fire exercise conducted in CFB Gagetown in August 2003. This exercise was the Regiment's longest live-fire exercise not directly related to our areas army concentration (ARCON) annual exercise.

In February 2004, the Regiment took part in EX SOUTHBOUND TROOPER IV in Ft Pickette, Virginia. EX ST is an annual exercise which, historically, has been dominated by infantry training, but members of the 2/224th Aviation Battalion, Virginia National Guard, intrigued by the prospect of moving our guns with the Blackhawks, invited the Regiment to partake in the exercise. The Regiment managed to move 3 guns and a command post via US National guard flat-beds to Virginia. Once in Ft Pickette each detachment was allocated one HMMWV to be used as their prime mover. Although it was initially thought the towing capacity of the vehicles would be exceeded by our guns, this was quickly dispelled as the HMMWVs are powerful enough to tow the guns and have decent brakes to stop on a gun marker. The only significant drawback was the lack of space. Guns crews used to traveling in an MLVW had to adjust to a significantly smaller cargo capacity.

On the plus side, the ammo, included practice squash head rounds, which allowed the regiment to conduct a direct shot competition. Sgt Troy MacPherson's gun detachment demonstrated the best gun drill and most effectively engaged the target.

The C3s, had never been moved by any air unit in the CFs so there was no established method to carry out this maneuver. Through diligence and perseverance and consultation with the Blackhawk unit and a local crane operator, the Regiment quickly established proper chain lengths and connection points. The guns, with complete gun crew in the aircraft, were moved 3 times to a fully recced position. The OP, not to be outdone, deployed tactically in the Blackhawks on several occasions.

ARCON '04 was a defensive oriented 7 day exercise conducted in CFB Gagetown. The exercise was broken down into 3 phases; the BC's exercise followed by the CO's exercise and lastly occupation of a dug-in defensive position. Although the exercise started with an intense rain-storm, the weather improved considerably as the week pro-

gressed. Two significant events took place during ARCON '04, firstly the guns were once again moved via Blackhawks, and secondly, the first all-digital fire mission was conducted. This was accomplished using an upgraded version of the IFCCS. The mission was sent electronically from the observer to the Command Post (for a safety double-check) and lastly to each gun detachment. The gun detachments were each provided a laptop to receive and acknowledged fire orders.

In addition to EX SOUTHBOUND TROOPER IV and ARCON, 1st Fd has participated in several live- fire exercises, most notably our annual November exercise EX STADI ROD in which we support the Field Artillery School's Instructor in Gunnery Course. In conjunction with 3rd Fd Regt RCA, we provide an additional firing unit in order to allow the students on the IG course to practice fire planning.

One of the most significant changes has been the employment of a full-time recruiter. MWO Scott MacFarlane has been the regiment's dedicated Recruiting Officer for the last 2 years. His work has clearly paid off as no fewer than 80 new soldiers have been enrolled within the last 2 years, a trend which hopefully will continue.

All in all, it is evident that 1st Fd Regt RCA has had a busy and productive year; a number of "firsts" have been accomplished, members of the Regiment have participated in interesting exercises, new equipment has been introduced, a serious influx of new soldiers has contributed to our effectiveness and countless operational taskings have been filled.

7th (Toronto) Regiment

The Royal Regiment of Canadian Artillery

7th Toronto Regiment – Bearing as Laid 2003-2004

Despite its armouries being turned upside down due to a major renovation during the 2003-2004 period, the 7th Toronto Regiment continued its proud tradition to soldier on and complete its mission on time on target. Under the leadership of Commanding Officer LCol Jim Brazill, the Regiment witnessed an incredible year of gunnery.

RECRUITING

The September recruiting drive, saw ten recruits join the regiment, and complete introductory training in preparation for their BMQ. 7th Toronto's recruiting group continues to lead the Canadian Forces in attracting a culturally diverse, multilingual, physically fit and academically sound soldier base.

These new soldiers learned to appreciate the camaraderie and renowned family spirit of the 7 guns. The Regiment continued its tradition of inviting guest speakers. Major John Stewart shared insights on his experience as a CIMIC Tactical Operator for OP Athena. We were also fortunate to hear from D-Day veteran, Captain (Retd) Peter Smith, who has since passed, with our fond prayers sent to his family.

OPERATIONAL DEPLOYMENTS

Two of the Regiments soldiers MBdr Michael

Bechmanis and MBdr Stephen Thomas spent six months in OP Athena, transporting goods, people and information throughout ISAF's areas of operation. BC HQ, Major Kerry St. George, served as a member of OP Palladium (Roto 13) as SFOR's Deputy Liaison Officer to the Croatian Government. He was responsible to ensure the smooth passage of goods, equipment, vehicles and troops destined for Bosnia Herzegovina coming through Croatia. Finally, our Regimental Padre, Captain Ralph Rains deployed to the Golan Heights under OP Danaca (Roto 89).

REMEMBRANCE DAY 2003

7th Tor Gunners opened the legislature and fired the Remembrance Day Salute at Queen's Park in honour of our fallen comrades. This year the Regiment welcomed Lance Bombardier George Thompson from Texas to lay and fire our Limber Gunner Association's 25 pounder. When LBdr Thompson returned for the 2004 salute, he was admitted as an Honorary Life member of the 7th Toronto Regiment and received an engraved casing during the annual Church Parade.

EXERCISES

Exercises Fast Frost and Cold Thunder at LFCA TC Meaford provided a test of our means to deliver fire in glacial conditions, while simultaneously defending the battery against an simulation armed enemy. In 2004, Regimental 2/C Major Bill Kalogerakis took command of the firing bat-

tery and handed the 21/C job to BC Major Steve Zurbrigg, 9 Bty completed three live fire shoots within six weeks. Exercises Fall Hammer, Grim Reaper and Grape Shot honed 9 Bty's precision and lethality on the battlefield. The Regiment recently welcomed Capt Paul Szabunio from 20th Field Regiment as a Fire Effects Officer.

7th Toronto Regiment has been tasked to provide communications and liaison expertise to local authorities under 32 CBG's Domestic Response Unit to counter local security and terrorism threats.

SUMMER TRAINING

Every year 7th Tor sends a number of its members on course with several members excelling. Gnr Malikov topped his Soldier Qualification course, while MBdr Khyustov topped the Det Comd course.

EX STALWART GUARDIAN 04

SG04, proved to be a remarkable display of shock and awe, particularly for our new gunners. SG included

multiple moves, harassing fire tasks, a live direct shoot with electronic targets and repeated regimental missions in support of a blocking operation. This was the highlight of the training calendar.

The success of SG04's was no coincidence, since 7th Toronto Regiment was tasked to plan and command the composite regiment for the second time in three years. C/S 1 was comprised of 30th and 11Fd, C/S 2 was comprised of 7th and 49th Fd, C/S 3 was 56th Fd. 7th Toronto also had the unique privilege to staff a Fire Effects Jump Detachment attached to 2 Independent Para Coy.

The Regiment extends its heartfelt thanks to Honorary Colonel the Honourable Roy MacLaren P.C. for his distinguished support to the Regiment, and welcomes the forthcoming promotion of Honorary Lieutenant-Colonel Jim Hubel CD, AdeC as the Regiment's Honorary Colonel in 2005. The Regiment is also pleased to announce the appointment of Major General (Retd) Bryan Stephenson to Honorary Lieutenant-Colonel in 2005.

11th Field Artillery Regiment

The Royal Regiment of Canadian Artillery

As another year passes, it is time to reflect on the challenges and successes of one of Canada's oldest Artillery Regiments.

The Regimental Christmas dinner in Dec 03 was an unqualified success, with mirth and merriment enjoyed by all. The dinner also saw the presentation of the annual Centennial Awards which were awarded to: Best Junior Officer – Lt Iain Kent, Best Senior NCO – Sgt Alex Prentice, and Best Junior NCO – MBdr Jeff Schmidt.

Over the year 2004, the Regiment successfully achieved all of its taskings, which included field exercises both in LFCATC Meaford (Exercises POLAR GUNNER, CO-OPERATIVE GUNNER II, MAPLE CALM, MAPLE STORM, PROTECTIVE THUNDER and CLEAN SWEEP II) and CFB Petawawa (Exercises STALWART GUARDIAN 04 and LONE WOLF). The Regiment also participated in CAX work-up training for Exercise STALWART GUARDIAN 04 at LFCA HQ in Jan and Feb (Exercise TRILLIUM SCEPTRE, Parts 1 and 2).

Jun 04 brought about a change of command of the Regiment. Following a second "tour" as CO, LCol Robert Elliott handed over the reigns of command to LCol Morley Armstrong. The reviewing officer for the ceremony was former CO and now Commander 31 CBG, Col Wayne Shiplo. In Nov 04, CWO Paul Yetman, was promoted to his new rank and appointed as Regimental Sergeant Major.

Also in Jun 04, the Regiment had the unique opportunity to support the Hamilton Philharmonic Orchestra's "Concert in the Park" at the Royal Botanical Gardens. Exercise UBIQUITIOUS THUNDER saw the Regiment deploy four gun detachments to provide the "cannon" fire for their presentation of "The 1812 Overture". The concert went exceptionally well and the soldiers were well received by both the orchestra and the audience.

Exercise STALWART GUARDIAN 04 proved to be an outstanding exercise. 11th Field Regiment was part of a

composite battery (41 Bty) along with 30th Field Regiment, RCA as part of the militia composite Regiment. This challenging exercise was the culmination of the progression of individual to collective training and proved 11 Field Regiment capable of achieving all its assigned Artillery BTS.

Always active in the community, 11th Field Regiment partnered with

the Canadian Breast Cancer Foundation to support their "CIBC Run for the Cure" fundraising campaign. The participants began their activities with a welcoming ceremony at the Armoury and started the 1 km walk or 5 km run with bang courtesy of a C3! The inaugural Guelph Run went very smoothly and the Regiment was instrumental in the success of the event that raised over \$170,000 with 1,300 participants. The Fergus Highland Games provided an excellent recruiting and community footprint opportunity for the Regiment, as did the Ti-Cats Labour Day Football Game at Ivor Wynne Stadium in Hamilton.

The annual ELOC qualification, Exercise BASIC SKILLS, was conducted in Sep 04, with the vast majority of the Regiment completing all required stands and qualifying with the C7A1 rifle. Demonstrating the dedication of its soldiers, 11th Field Regiment has fielded six howitzers, three FEDs plus a 0/95 and echelon on every one of its exercises so far this training year. On these ambitious exercises, not only have all remaining soldiers ELOC qualified, but the Regiment has also fired its C6/C9s, plus M72s and M18A1 Claymore mines. As a result of this success, the Regiment is anxiously looking forward to deploying its own Battery as part of composite Regiment on Exercise STALWART GUARDIAN 05.

One of the main events coming up in 2005 is the celebration to commemorate the 150th anniversary of the 11th (Hamilton-Wentworth) Field Battery during the weekend of 3-5 Jun 05. Along with this significant milestone, the soldiers of the 11th Field Regiment are looking forward to 2005 and ready to take on all taskings and challenges with their usual enthusiasm and professionalism.

20th Field Artillery Regiment

The Royal Regiment of Canadian Artillery

The year 2003 saw 20th Field Regiment continue at a breakneck pace in developing the professional skills of all of its members. The Regiment started the year with a Basic Artillery Technician course. The course ran on weekends for approximately 3 months. Immediately following that, 41 CBG hosted EX BOLD BEAR at CFB Wainwright where the Regiment provided fire support for a platoon live fire assault.

The spring saw the Reserve Artillery world blessed with the arrival of a new piece of kit, the Gun Laying and Positioning System (GLPS), which is a revolutionary combination of a theodolite, laser range finder and a global positioning system. This new equipment, necessitated conversion training for all of our Artillery Technicians. The spring saw a number of field exercises cancelled or postponed to the fall, due to a number of unforeseeable circumstances, from weather to resources. The unit kept active during one of the cancelled exercise weekends, by training in the use of the LOSV. This training was particularly welcome due to the rarity of the opportunity for the Regiment to work with this equipment.

In May 2003, LCol M.G. Mussolum was off to OP ATHENA, replaced by LCol W.D. McRobbie as CO. Maj Fowler as BC 61 Fd Bty, was also tasked to Africa as a member of MONUC (OP CROCODILE). Not to be outdone, MWO Steed was sent on a tasking to OP DANACA and CWO Cameron served as a member of OP PALLADIUM, Rotation 13.

Immediately following the summer courses and taskings, fires in the Province of British Columbia became the focus of Canada and in fact the world. EX ACTIVE EDGE 2003, an Alberta Reserve Force concentration, was cancelled to allow maximum support. 20th Field Regiment took up the call for support with 12 members participating in OP PEREGRINE. The members were all from 78 Fd Bty and were as follows; OCdt McKenzie, Bdr Cariou, Bdr Strong, Bdr Styles, Pte Airth, Gnr Brousseau, Pte Busch, Pte Keen, Gnr Odegard, Gnr Reid, Gnr Shudra and Gnr Underwood. Members of the Regiment participated in this operation from 21 Aug until 30 Sep

2003. Their efforts were recognized as instrumental in reducing damage, preventing loss of life and providing much needed assistance to local authorities and firefighters.

With the conclusion of the domestic operation, the Regiment begin the process of collective training. Three fall exercises were held; an ELOC and range practice in September and two field exercises in Wainwright, AB in October and November respectively. EX HUSKY HOLLOW in October, saw the visit of Colonel Commandant. During this exercise as well as EX RIMINI GUNNER in November, the Regiment focussed on developing crew skills then building to multiple deployments, quick actions, coord illum missions and troop commander fire plans. Despite freezing rain making travel difficult the St. Barbara's Day Dinner was successful with many members of the Regiment displaying their loyalty by making the extra effort to attend the annual event in Red Deer.

2003 saw a year of consolidation for the Regiment as the growth experienced from 2002 was maintained and members of the Regiment were able to complete individual training followed by crew and battery level training. With the sense of camaraderie, dedication and determination of all members of the Regiment, 20th Field Regiment, RCA is well placed for the future.

49th (Sault Ste Marie) Field Artillery Regiment The Royal Regiment of Canadian Artillery

The 49th Field Regiment had a busy 2003/04 schedule. The unit attended 13 different exercises in addition to numerous attachments for other units. From September 03 to May 04 the unit ran 6 courses and an in-house training school for those who were not teaching or attending.

The exercises included 3 dry and 2 live weekend gun shoots, 2 winter warfare, 2 artillery professional development weekends, a mil skills competition and a very challenging IBTS weekend.

The winter warfare exercise was extremely challenging for the troops. The scenario called for two forces to skijor approximately 30 km each and conduct a quick attack when they met. The terrain was very hilly and provided the LOSV operators with an excellent opportunity to hone their skills. Although hard on equipment, the exercise reinforced skills practiced at the armoury and by the end of the exercise, the instances of soldiers burying their heads in snow banks had diminished dramatically. After the meeting action, the soldiers prac-

ticed their patrolling and winter tent routine.

During the March break, the unit sent 40 troops to CFB Petawawa for EX Gunning Wolves. On the exercise, the soldiers fired copious amounts of C6/C9, M72, grenades and qualified on gas drills in the hut. The highlight of the exercise was a live fire jungle lane with the C7. The soldiers found the lane challenging and sound shooting skills were essential.

EX Stalwart Guardian saw the unit deploy 3 guns alongside 3 from 7th Toronto Regiment. The regiment supplied 55 soldiers in various roles for the exercise.

The summer training program sent 20 members on courses including: Arty Tech Parts 1 & 2, BMQ, SQ, DP1, PLQ, RAOTP 2&3 and FEO 1&2. Lt Lambert S (now Capt Lambert) topped her FEO Part 1. Lt Iaconis successfully completed his jump course (way to go jumper!).

The unit is in a rebuilding cycle, is actively recruiting and looks forward to an dynamic 2004/05 training year

Band of Brothers - Ex STALWART THRUST.

56th Field Artillery Regiment

The Royal Regiment of Canadian Artillery

2003

2003 was an exciting and hectic year for the Gunners of the Niagara Peninsula. The Regiment began the year in the field with EX FROZEN GUNNER in January and finished in December with EX FALL GUNNER. The Regiment had the highest pers tempo of any of the 17 Units in 31 Brigade (filling 15% of the Bde summer pers tasks), and took delivery of a new weapon system, the 81mm mortar. Throughout the year, the Regiment participated in a variety of community events, keeping Gunners in the public eye throughout the 4000 sq km of the Regimental community footprint

The Regiment participated in combined arms CAXs, CPXs and FTXs as part of 31 CBG, all focused on getting ready for EX STALWART GUARDIAN, the LFCA week long concentration in Petawawa at the end of the summer. In August, 56 Fd merged with the other Reserve Regts in LFCA to form an 18 Gun Regiment. It was here we showed the other Arms and Branches that the Gunner family can gather from many locations, and come together as one to work as a team.

The mission given to 56 Fd in early September was to field an 81 mm Mortar Battery by August 2004. We were the first Reserve Artillery Regiment in Canada to be assigned this new role. The Regiment had a Change of Command in November. LCol Don Hamilton, who commanded the Regiment for over just over six years passed command to Maj Lyle Herod, posted in from Shilo where he Commanded the WATC Detachment Shilo for three years.

10 Battery St. Catharines

In April the battery exercised its Freedom of the City of St. Catharines by parading and celebrating the 88th Anniversary of the Battle of St. Julian, where the forefathers of 10 Bty helped hold the Allied line when the German Army attacked in Ypres, using poison gas for the first time to support a large scale offensive. In June the BSM, WO John Mc Donald was honoured as one of the few Canadian parachutists who jumped into Normandy on June 6th to commemorate the opening of the Juno Beach Centre. In July, the BC Capt Christopher Marvin was deployed overseas on OP ATHENA.

54 Battery, Brantford

The spring period was occupied with Juno Beach Centre fund raising activities, coordinated by BSM WO Paul Elliot (for which he received a well deserved Brigade Commanders Commendation).

69 Battery Simcoe

A three vehicle bay storage facility was completed during the year, the final new Armoury structure. 69 Bty is now fully housed in a tremendous, new Armoury, the envy of the Regiment. The Bty made good use of its facility in early September when it hosted a Regimental BBQ, organized by CWO (Retd) J E Charleau, and the Simcoe Gunners Assoc, to acknowledge the outstanding contribution of our long serving Honourary Colonels, BGen (Retd) Len Salmon of St Catharines and Col (Retd) Don Wilkin of Brantford, have made to the CF and 56 Field Regiment in particular.

HQ Battery and RHQ Brantford

Cpl Byron Rodriguez was presented a Brigade Commanders Commendation for his fine support to the Regiment and his outstanding work in the community with disabled adults. There were also a few pers changes during the year, as Maj Steve Hewitt left to take over his Bty in 2 RCHA (along with a six month stop over with ISAF in Afghanistan) and Maj Kelly Richardson, BC HQ and former Regt 2IC, left to join 23 Med Coy. Capt Ian Stubbs, (a former member of just about every Regimental organization throughout his 30+ years serving the Guns), retired. Capt Howie McLaughlin, Ops O spent the last half of the year working with Bosnians and members of the RCD BG, as part of OP PALLADIUM ROTO 13. CWO Mark Pigeau went over to the "Dark Side" to become Capt Pigeau and passed the RSM Pace Stick CWO Jeff Gowanlock.

2004

The gunners of the Niagara Peninsula have just finished another exciting and challenging year. The Regiment, took part in numerous CPXs, FTXs training events, a variety of community activities throughout our 5000 km² area. The unit also honored our Nation's Veterans by participating in Memorial and Remembrance Services in the Six Nations. However, the most rigorous and challenging aspect facing our Unit this year was training the Regiment on the 81 mm mortar.

The mortar implementation process spanned ten months, and was very onerous for the Unit. Challenges ranged from new equipment, incomplete training material, limited time and administrative hurdles of conducting long term individual training in three separate garrisons.

son locations two hours apart.

In October 2003, the Regiment was formally assigned the task of adopting the 81mm mortar. This LFRR (Land Force Reserve Restructure) Proof of Concept task was to determine if Reserve artillery regiments could field 81mm mortars as their primary weapon delivery system. In August 2004, 56 Fd deployed 43 Battery (part of the LFCA Reserve composite artillery Regiment), an 8-tube mortar battery, during EX STALWART GUARDIAN 2004. This concentration in Petawawa saw 3000 Reserve and 500 Regular soldiers training together for a week. 43 Bty fired the first live rounds of the FTX less than 24 hours after arriving, and a full day before the other btys in the composite regiment began engaging targets. These rounds were fired in support of a live fire dismounted company blocking position at targets that were 800 meters away from the closest friendly troops. The rounds were on time, on target and impressive to those watching.

The mortar training was hectic, challenging and completely successful. The Regiment took delivery of its mortars in November 2003. The first 10 day long mortar course for 56 Fd commenced in December 2003 for the Class A instructors. The first live 81mm rounds from this first serial went down range at CFTA Meaford on 10 January 2004, less than two months after the RQMS drew the first mortar tubes. Subsequent serials of the Mortar course began later in January, and ran until the end of May. Four serials were run, with 82 graduates.

Members of the Regiment had a part in this training, either as students, support staff or as instructors, however two individuals were key to the Regiments' success. Our Regimental Operations Officer, WO Chad Wagar was the Course Officer for all serials. This included a tremendous amount of liaison with Standards staffs at Area and Army level as well as the Artillery School. The Training Plan for the Regiments courses was brand new and had not been run by any Units before 56 Fd. Adapting this brand new TP to part time soldiers working on weekends only and spread across three separate locations fully tapped his AIG skills. He did a first class job as the Regt Ops O during this time. His partner through this was WO Paul Elliott, BSM 54 who filled in as Crse WO for each serial, and was responsible for the proper conduct of each period of instruction over the five months. He did this while continuing in his full time civilian job during the week, an impressive balancing act.

The year marked some milestones. In February, Captain Christopher Marvin, BC 10, returned from OP ATHENA. In April, the Battery exercised its Freedom of the City with the rest of the Regiment. Capt

Dave Scrutton retired after more than twenty years of dedication to the Guns. WO Richard Bucko hung up his wrenches after 16 years of service in the Reserve Force and 20 years of service in the Regular Force. Capt Howie MacLachlan returned from duty in Bosnia and did a component transfer from the Regular Army to Class A service. Capt Patrick Pitt was posted in from Shilo as the Regiments new Adjutant, Sgt Bellmore arrived from 2 RCHA to take up his position as the Senior Unit Training Assistant and Sgt Kelly Robinson our TQMS returned from a six month tour of the Golan Heights tanned and hooked on Arab coffee. The Regiments Top Detachment Commander, Sgt Jeff Lindsay, during the Soldiers Christmas dinner reluctantly handed off the COs pennant to the new Top Det Commander, Sgt Mark Leitch, also from 69 Bty. At the same event, the Regiment's Top Soldier was announced, MBdr Darcy Hansen from 54 Bty. Our Honourary Colonel, BGen (Ret'd) Len Salmon from St Catharines received the Fifth Bar to his CD during the Soldiers Christmas Dinner, sixty years after attending his first dinner as a Gunner!

2004 flew by for 56 Field. More than 2,600 81mm rounds fired, without error, 80 105mm rounds fired, showing we can still hold our own with a howitzer. 5 Mortar crse serials with 100% success rate, 83 mor grads, 600+ trg days attended by Regimental personal for Mortar training over and above the planned Regimental training calendar published in the Fall 2003. Despite this intense training tempo during the year, we still filled the third highest number of summer tasks among the 16 Bde Units. We participated in more than twenty-five Remembrance Day events throughout our Area and numerous fairs, trade shows and displays over the year. Most importantly, by quickly and seamlessly adapting to mortars, we showed adaptability and flexibility of the Artillery Branch. Adopting our new role under LFRR was challenging, but certainly not limiting our insurmountable, after all, we are Gunners!

MBdr Christian Jax of 10 Bty, prepares his howitzer for a Number Ones Open Action.

1st (Lanmark & Renfrew Scottish)

Air Defence Regiment

The Royal Regiment of Canadian Artillery

1st Air Defence Regiment (Lanark & Renfrew Scottish) The Royal Regiment of Canadian Artillery welcomed 2003 with open minds and ready for the new challenges that awaited. The unit conducted the annual winter indoctrination training, EX FROZEN ARCHER, followed by communications training culminating in EX IRIS ARCHER, a level 4 CPX.

Our unit hockey and volleyball teams participated in 2 CMBG's winter sports finals, EX OLYMPIAN BEAR. The volleyball team put forth a strong effort but was knocked out early in the tournament; the ice hockey team fared better, losing in the finals to HQ and Sigs Sqn.

In the spring of 2003, the unit sent Senior NCOs to Kingston to take part in EX INTREPID WARRIOR 03 and EX TRILLIUM SCEPTER 04, preparing the unit for the Brigade Training Exercise. The BTE was held in Wainwright AB in March, was the first major event in which the unit took part. The unit also conducted an AVGP course.

Maj G.J. Hardwick passed command to Maj M.F. Notaro on 4 July 2003 at the Pembroke Armoury. Maj Notaro was excited to start his new role at the Commanding Officer for 1 AD Regt, however he was deployed on Op ATHENA as the G3 Air Defence, in charge of the Air Space Coordination Centre. 1 AD Regt lead the first ever-deployed ASCC with assistance from 4 AD REGT and the RCAS.

Back in Petawawa, the rest of the unit conducted DP2 training including soldiers from 18 AD Regt and 58 AD Bty. Concurrently, the unit also ran a DP 1 serial out of the unit lines. All of the summer training culminated with a Javelin missile firing camp, EX BLAZING ARCHER. The exercise was held at Center Lake where they had an excellent shoot, hitting 8 out of 15 targets.

The summer came to a close with the unit gearing up for a big recruiting drive in Carleton Place at the International Plowing Match. The unit achieved its recruiting goal. During this event the unit conducted a parade to honour the oldest

living former member of the Lanark and Renfrew Scottish Regiment, and another to announce the stand up of F Troop in Annprior. This became an excellent opportunity for the unit to integrate itself within a community outside of the Petawawa/Pembroke area.

The unit deployed nine soldiers on operations, from September 03 to February 04. Seven soldiers deployed as a

part of TFK on Roto 0 Op ATHENA; three members to assist in the running of the ASCC at KMNB, two with CIMIC, and two with the ISTAR Coy. We also sent soldiers to Bosnia Herzegovina. These soldiers received nothing but praise for their hard work as well as the leadership they displayed throughout their tour. They definitely proved that Air Defence soldiers are versatile and have great skills and abilities.

From fall of 2003 to spring of 2004, the unit remained focused on Air Defence training. Members who would be involved in EX STALWART GUARDIAN 04 deployed on EX TRILLIUM SCEPTER 04 and INTREPID WARRIOR 04, held in Toronto. The rest of the unit was heavily involved in conducting LSVW and AVGP driver courses than ran from November until June.

The summer activities included DP1, BMQ and SQ courses and EX STALWART GUARDIAN, the culmination of the summer training period. This was the time for our soldiers to put their Air Defence and leadership skills to work.

The reservists returned in September and began preparing for EX BLAZING ARCHER 04. In October, the unit celebrated its history and traditions with the 1 LAA Regt/ L&R Scot WWII veterans' final reunion. Ten reservists from the unit competed in the 33 Bde Mil Skills competition in Petawawa, placing 8th out of 16. EX BLAZING ARCHER took place the following week in Gaagetown, during which ten soldiers from the unit fired 34 missiles. 18 of those missiles were direct or technical hits.

As 2004 drew to a close, the unit focused on basic soldier training including, navigation and weapon drills and celebrated St Barbara's Day with sports day and an all-ranks dance.

18th Air Defence Regiment

The Royal Regiment of Canadian Artillery

2003/2004

September 2003 started off the training year with a week long validation exercise. This exercise consisted of 5 days of deployments capped off by a weekend of overnight training to validate our training and procedures.

One Regimental highlight was the various 2003 Remembrance Day ceremonies. Sgt Fowler was in charge of the firing party, which made three appearances in connection with Remembrance Day. One was at the Town of Coaldale, which held their ceremony the day before (November 10th) so the town's school children could attend the ceremony with their classes and learn why Remembrance Day is important to all Canadians. The next day the firing party and the rest of the Regiment attended the City of Lethbridge Remembrance Day ceremonies. Following the memorial service indoors, the firing party and members of the Regiment proceeded to the Cenotaph at City Hall. During the Cenotaph Ceremonies it began to snow miserably but the adverse weather added a poignant reminder to the memories of those who fell in conflicts past.

A Troop set out early on November 12 for Gagetown to assist with the IG course on EX SUPREME GUNNER. A week later, the regiment embarked on EX TREKKING ARCHER, an overnight ruck march through Waterton National Park.

The Regiment celebrated Saint Barbara's Day on the 4th of December by holding a sports day at the Lethbridge Curling Club. Our annual Soldier's Christmas Dinner was held at the Travelodge Motel Banquet Centre on the 7th of December. Soldier of the Year awards were given to Bdr McCoy (Regular Force) and Bdr Rickert (Reserve

TREKKING ARCHER 2003.

Force). The Legion's Queen Elizabeth II Golden Jubilee Scholarship was awarded to Gnr Brooks and Pte Whitegrass.

The Regiment's floor hockey team placed 2nd in the Minor Unit Floor Hockey during EX STRONG CONTENDER (11-17 January, 2004). Later that month, the Regiment contributed one CP to EX VIRTUAL RAM, the annual 1 CMBG JANUS exercise held in Edmonton. We also sent members to EX LUMBERING GRIZZLY from 30 January to 1 February, a 41 CBG exercise held in the Rocky Mountains west of Calgary. This was a SAR exercise conducted by the brigade simulating a crashed airplane and the subsequent search for survivors.

During February the Regiment successfully conducted a PLQ Mod 2 course. From 29 February to 3 March, A Troop conducted EX SKIING GUNNER. This was a cross-country skiing exercise through the Kananaskis area. The final day of the exercise was held at Nakiska where the troop went downhill skiing.

On 11 – 14 March the Regiment conducted EX BLAZING ARCHER, the annual Javelin live fire exercise for personnel who were on the Javelin Operator Course held at the unit from September through to November. For targeting, we used our own balloon system developed

in-house. Bdr Kitchen and Bdr Lybbert shot down two balloons.

From 26-28 March the unit participated in EX MOUNTAIN GRIZZLY, a 41 CBG exercise, by sending down a composite reserve troop of soldiers to Fort Lewis, Washington for the weekend. There the troop played the role of OPFOR.

On the 3rd of April, we held the Legion Family day at the General

Javelin Engagement - Through x8 Binocs - Suffield.

Stewart Branch No. 4 of the Royal Canadian Legion. Recognition certificates and medallions were handed out to those who served on OP PEREGRINE. Also, the 2nd Place award for EX STRONG CONTENDER was handed out as well as promotions, a swearing-in of a new member and a direct-hit award from Shorts Brothers (the manufacturer of the Javelin S-15 missile) for Bdr McCoy that arrived nearly two years late. In the middle of April, A Troop left sunny and warm Lethbridge and flew east to soggy Gaagetown for EXS AGILE ARCHER and NIMROD GALE.

From the 17th to the 21st of May, A Troop traveled to 4 Wing Cold Lake to participate in MAPLE FLAG 2004. On the 2nd of June the Regiment conducted its annual BET. MBdr Hillier finished the 100 m fireman carry by spraining his ankle which ballooned to melon-size by the time he was taken to the hospital. Fortunately for him, Bdr Kitchen and Bdr Lybbert did not mistake it for a target of opportunity. The 26th of June we held a Regimental BBQ at our Vimy Ridge Armories.

On the 5th of July, members of the unit went rappelling in the Magrath, AB area. It was a treacherous sandstone cliff blasted by powerful winds that were doing their best to push us to our deaths. July 16th marked the first 18th Air Defence Regiment blood drive. Many donated blood on behalf of the unit. During the 8-18 July, the Regiment sent members to the Calgary Stampede on a tasking to set up a Javelin display. They had fun in the sun explaining the Javelin system to many Stampedeers.

From 26 July to 18 August the Regiment conducted an in-house reserve DP 1 Javelin course. The students had the honour and the privilege of being quite likely the last members of the CF to learn all about the Javelin S-15 missile system and the Stage 4 Y-trench.

Under rain soaked skies, on 7-8 August the Regiment established a firm community footprint at the Alberta International Air Show held at the Lethbridge County Airport. We set up an impressive display including two CP's with penthouses under cam nets, one Det vehicle, an HLWV that gave rides to soggy airshow patrons to and from the parking lot, and two AVGP's that were giving rides around the airport. The Regiment also hosted a meet and greet for all of the air show performers.

The City of Lethbridge honoured those soldiers from the Regiment going overseas with a flag raising ceremony. The RCA flag was raised at City Hall on the 19th of August.

On the 20th of August we left for EX ACTIVE EDGE, the Western Area reserve exercise for the summer. We spent the week and a half deploying around the Wainwright training area honing our skills in the worst weather experienced all summer. Finally, we all gathered on the 10th of September for the MFRC BBQ. The children and some adults were kept entertained with face painting, balloon animals, and a magician.

Our year at a glance for our Regiment shows that these were good yet challenging times. Through it all, as befitting gunners, we soldiered on ready to face another year and whatever tasks that will be asked of the guns.

58^e Batterie d'artillerie antiaérienne Le Régiment royal de l'Artillerie canadienne

L'année 2003 fût très mouvementée pour tous les membres de la l'unité. Le haut moral, l'entraide et le grand professionnalisme de tous et chacun a fait de cette année une réussite. Celle-ci pourrait être décrite en trois éléments ; soit l'entraînement, les opérations et le côté humain.

Une bonne partie de l'année a été consacrée à l'entraînement continu et l'instruction de notre personnel. 2003 fût l'hôte de plusieurs cours de qualification tels que : chauffeur de véhicules grizzly et roues, communicateur, mitrailleur tourelle, commandant de détachement et naturellement le cours d'opérateur Javelin. Il faut également souligner qu'il y a eu passation de commandement le 21 septembre dernier entre le Major Marc Beauchemin et le Major Rénaud Dufour.

Au mois d'août dernier, l'unité a reçu la tâche de fournir un Centre de Coordination de l'Espace Aérien pour l'op ATHÉNA et de remplir des positions individuelles en vue de l'entraînement préparatoire et du déploiement subséquent en Afghanistan. En plus de ceux-ci, quelques officiers sont partis pour l'entraînement et le déploiement de Op Palladium roto 14 en Bosnie.

Le côté humain a pris tout son sens cette année à l'unité. Tous les efforts furent déployés au sein de l'unité afin d'assurer un temps en famille de qualité pour le personnel de la batterie composant avec le besoin d'entraîner les réservistes et de répondre aux exigences opérationnelles. De plus, de nombreuses activités tel que, la journée "Valcartier en Forme" (dont l'unité a remportée pour la deuxième année consécutive le tournoi de flag football), la journée de Golf et finalement le dîner de la troupe ont nettement contribué à renforcer notre esprit d'équipe.

L'année 2003 a été, pour tout le personnel de l'unité, un défi énorme. Les membres de l'unité travailleront main dans la main et mettront tout les efforts nécessaires pour relever les défis de l'année qui débutera. La 58e BAAA : une batterie, une équipe!

58th Air Defence Battery

2003 was a very busy year for the members of 58th Air Defence Battery. The high morale, teamwork and high level of professionalism helped everyone make this year a success. This can be described by three main elements; that is to say the training, the operations, and the human side.

There were numerous courses given at various levels. They included the Grizzly and Basic Drivers Courses, Communications, Grizzly Turret Gunners, Air Defence Technician, Javelin Detachment Commander, and naturally the Javelin Operator Courses. It is equally important to announce the change of command on the 21st of September between Major Marc Beauchemin and Major Rénaud Dufour.

Last August, the unit received the task to provide an Airspace Co-ordination Centre in support to Op ATHENA and to provide individual reinforcement to the headquarter for the build-up and deployment phases. In addition to this, we also provided some officers, who also began their training, for deployment on Roto 14 in Bosnia.

The human side had more meaning this year at the unit. All efforts have been deployed to ensure that battery members would spend quality time with their families while meeting the requirement to train reservists and getting ready for the upcoming operations. As well, there were a number of activities such as: the "Valcartier in Shape" Day at which the unit again won this years flag football match, the golf day and finally the troop luncheon which has clearly contributed to reinforce our team spirit.

The year 2003 has been an enormous challenge for all personnel within the unit. The unit will work hand in hand and put all the effort necessary to make the best of the next year and successfully meet all the upcoming challenges. 58th Air Defence Battery : One Battery, One team!

Le cours Javelin 2003/Javelin Course 2003

RCA RHQ - QGR ARC

RCA Museum - Musée d'ARC

The RCA Museum moved out of dilapidated Second World War H Huts into a new facility on 27 June, 2003. The old RCSA, Third and First Regiment gun park, Building N-118, is now a first class museum facility. The opening ceremony during the RCA Reunion was well attended and included a vintage military vehicle roll-past with the salute taken by The Colonel Commandant. About half of the building was ready for the June opening. The next phase of improvements was completed in time for the RCAA AGM in September, 2004, with the remainder of the building open and the RCA Kitshop, the Museum staff, and RHQ RCA moved in. The next phase, which is dependant upon fundraising, will be to build an extension on the south end of N-118 to house the staffs, Kitshop, a cafeteria and classroom space. This will free up more gallery space in the main building, which now has museum quality air control.

The new Museum will ultimately be 32,500 square feet, as opposed to 9,500 in the old buildings. Gallery space will increase to 22,750 square feet from our old standard of 3,500 square feet, ensuring our ability to finally do justice to the Artillery story and to properly display our extensive vehicle collection. As 2004 drew to a close, the staffs were working toward two main goals for the coming year. First, to complete the details of a traveling exhibit at the Canadian War Museum scheduled to open on Artillery Day, 2005. Second, the wheels are in motion to increase the Museum staff to a level commensurate with the expanded facility and increasing our ability to preserve and interpret our story for future generations. The Museum staff for 2003-2004 was:

Director – Rick Sanderson
Collections Manager – Clive Prothero-Brooks
Research Assistant (student) – Danielle McCutcheon
Admin Assistant – Mary Lou Barnes

As noted above, RHQ RCA is once again co-located with the Museum. In addition to routine heritage support to The Royal Regiment with activities such as The Junior Officers' Course etc, the past two years have seen RHQ busy with the revitalization of The Canadian Gunner and The Quadrant. In addition, we launched the new RCA website at www.artillery.net and the new online Kitshop (with secure credit card ordering) at www.rcakitshop.net. The RHQ staff of eleven is provided by CFB Shilo (four personnel) and 1 RCHA (seven personnel). Base provides the Regt Maj, Regt Adj, Regt Asst Adj and RHQ Clk. 1 RCHA provides the RHQ TSM (Sgt), three Kitshop staff and three RCA Workshop staff.

Le Musée de l'ARC a quitté les baraquements délabrés en forme de H de la Seconde Guerre mondiale pour s'installer dans de nouvelles installations le 27 juin 2003. La vieille E/ARC située au parc d'artillerie des troisième et premier régiments, immeuble N118, est maintenant un musée de première classe. De nombreuses personnes ont assisté à la cérémonie d'ouverture durant la réunion de l'ARC, laquelle comprenait le défilé de véhicules militaires d'époque et le passage en revue par le Colonelcommandant. Environ la moitié de l'immeuble était prête pour l'ouverture de juin. L'étape suivante des améliorations a été terminée à temps pour l'Assemblée générale annuelle de l'AARC en septembre 2004, le reste de l'immeuble a été ouvert et la boutique de l'ARC, le personnel du musée et le QGR ARC y ont emménagé. La prochaine étape, qui dépend de la collecte de fonds, visera à construire une rallonge à l'extrémité sud de l'immeuble N118 pour abriter les personnels, la boutique, une cafétéria et une salle de classe. Cela libérera davantage d'espace d'exposition dans le principal immeuble, qui dispose maintenant d'un système de contrôle d'air de qualité muséologique.

En fin de compte, le nouveau musée aura une superficie de 32 500 pieds carrés, comparativement à 9 500 dans les vieux immeubles. L'espace d'exposition passera de notre vieille norme de 3 500 pieds carrés à 22 750 pieds carrés. Cela nous permettra enfin de rendre honneur à l'histoire de l'Artillerie et de présenter adéquatement notre collection exhaustive de véhicules. Vers la fin de 2004, les personnels travaillaient en vue d'atteindre deux principaux objectifs pour l'année suivante. D'abord, régler les détails concernant une exposition itinérante au Musée canadien de la guerre qui devrait débiter à la Fête de l'Artillerie en 2005. Ensuite, la prise de mesures en vue d'accroître le personnel du musée de façon proportionnelle aux installations agrandies et d'accroître notre capacité de préserver et d'interpréter notre histoire pour le bénéfice des générations futures. Voici le personnel du musée en 2003-04 :

Directeur – Rick Sanderson
Gestionnaire des collections – Clive Prothero-Brooks
Adjointe à la recherche (étudiante) – Danielle McCutcheon
Adjointe administrative – Mary Lou Barnes

Tel qu'indiqué cidessus, le QGR ARC partage de nouveau l'espace du musée. En plus d'apporter un soutien patrimonial de routine au Régiment royal grâce à des activités telles que le cours d'officiers subalternes, le QGR s'est affairé ces deux dernières années à revitaliser l'Artilleur canadien et le Quadrant. De plus, nous avons lancé le nouveau site Web de l'ARC à l'adresse www.artillery.net et la nouvelle boutique en ligne (dotée de capacités de commande sécurisée) à l'adresse www.rcakitshop.net. Les onze membres du personnel du QGR sont fournis par la BFC Shilo (4 personnes) et le 1 RCHA (7 personnes). La base fournit le Maj rég, le Captadj rég, l'ACaptadj rég et le commis du QGR. Le 1 RCHA fournit le SMT QGR (sgt), trois membres du personnel de la boutique et trois membres du personnel de l'atelier de l'ARC.

Le campagne d'héritage de l'ARC *The RCA Heritage Campaign*

Pleins feux sur l'avenir - le Plan du patrimoine de l'ARC vise à interpréter, préserver, communiquer et promouvoir l'histoire des artilleurs du Canada comme élément vital de l'histoire de l'ensemble de la population canadienne. Le lancement de la campagne du patrimoine de l'ARC l'an dernier, principal instrument de levée de fonds pour soutenir le Plan du patrimoine de l'ARC, a été une réussite.

Pour la campagne, nous avons adopté une démarche de sollicitation face à face qui comporte l'identification des donateurs potentiels et la sélection d'un démarcheur approprié pour faire la sollicitation comme tel. Comme il s'agit d'une démarche personnalisée, la campagne se fonde sur une structure régionale où la connaissance du réseau de camarades artilleurs et amis permet d'identifier l'ensemble des donateurs potentiels. Jusqu'à maintenant, bien que nous soyons encore à la recherche d'un directeur régional pour la région de l'Atlantique, nous avons trouvé des bénévoles remarquables pour chapeauter notre campagne dans la plus grande partie du pays.

Nous tenons à exprimer notre reconnaissance envers le Lgén Mike Jeffery (retraité), pour avoir apporté son sens de la logique au processus d'établissement du plan du patrimoine de l'ARC, de sa régie, de sa structure et de son

Targeting the Future –the RCA Heritage Plan, the aim of which is to interpret, preserve, communicate and promote “The Story” of the Gunners of Canada as a vital component of the shared history of all Canadians. The RCA Heritage Campaign, which serves as the key fundraising activity to support the RCA Heritage Plan, has enjoyed a successful launch this past year.

The fundraising methodology is based on the “face-to-face” approach which encompasses the identification of potential donors and the selection of an appropriate canvasser to “make the ask”. Because of the personal nature of this approach, the campaign is structured on a regional basis where knowledge of the fellow Gunners and friends network allows for a comprehensive identification of potential donors. To date, while still actively seeking a Regional Director in the Atlantic, we have found outstanding volunteers to lead our efforts in most of the country.

We are thankful for the work undertaken by the Campaign Chair, LGen (Ret'd) Mike Jeffery in bringing logic to the processes of the RCA Heritage Plan, its governance, structure and the supporting business plan. The linkages

plan d'activités. Le lien entre les objectifs particuliers et les besoins de financement connexes sont clairs, ce qui donne confiance aux donateurs que leurs contributions permettront de réaliser nos initiatives de préservation, de diffusion et de communication internet.

Et où en sommes-nous rendus? L'an dernier, nous avons mené un essai dans la région d'Ottawa et du Manitoba pour tester notre démarche. Au cours de cette brève levée de fonds, nous avons recueilli une somme remarquable de 170 000 \$ en dons et promesses en Ontario, et au Manitoba, nous avons recueilli 52 000 \$. Voici les activités que vos dons aideront à financer cette année :

- Exposition du Musée canadien de la guerre (MCG). Exposition itinérante ayant pour titre « Les Artilleurs canadiens » au MCG le 26 mai 2005;
- Exposition en ligne. Simultanément à l'exposition du MCG, nous lancerons le site Web des musées de l'ARC accompagné d'une exposition en ligne.

Je tiens à remercier tous ceux d'entre vous qui ont contribué à la campagne jusqu'à présent, et je vous tiendrai régulièrement au courant de nos progrès dans d'autres numéros de L'Artilleur. Je voudrais également vous encourager, les autres artilleurs et les amis du régiment, à donner généreusement lorsqu'on vous sollicitera. J'escompte bien voir se poursuivre la réussite de notre campagne en vue de faire connaître l'histoire des artilleurs.

between specific objectives and supporting funding requirements are clear which gives donors confidence that their contributions enable achievement of our preservation, outreach and online initiatives.

And how are we doing? Last year, we conducted a trial in the Ottawa area and Manitoba to test the methodology. This relatively short-term trial fundraiser raised an amazing \$170,000.00 in donations and pledges in Ontario and the Manitoba campaign raised an additional \$ 52,000.00. These are the activities that these donations will help to fund this year:

- Canadian War Museum (CWM) Exhibit. A traveling exhibit at the CWM on 26 May 05. The exhibit will be entitled "CANADA'S GUNNERS"; and
- Online Exhibit. Concurrent with the CWM exhibit, we will launch the RCA Museums website with a companion online exhibition.

I would like to thank all who have contributed to the campaign to date and will routinely provide updates through other Gunner publications. I would also like to encourage all other Gunners and friends of the Regiment to consider making a generous donation when you are approached. I look forward to further success in support of telling the Gunner story.

RCA Photo Contest

Best Photo related to Field, Air Defence, Target Acquisition or Locating Artillery.

Three Cash Prizes of \$200.00

Open to all ranks of the CF –regular / militia / retired
(excluding professional or semi professional photographers)

**Submit B & W or colour prints or JPEG photos
(min 300 dpi) to:**

**RCA Photo Contest
RHQ RCA**

PO Box 5000 Stn Main
Shilo, MB R0K 2A0

or e-mail to webmaster@artillery.net

Entries are accepted year round. Judging occurs three times per year.

Minimum size of prints is 3 x 5 inches.

All submissions become the property of RHQ RCA and will not be returned.

Please include a short note explaining information about the photo and the photographer.

A committee will conduct judging. Units are requested to promulgate the information in Routine Orders.

Winning photos will be published in The Quadrant. All submitted photos will included the photo album on www.artillery.net

Concours de Photo d'ARC

La meilleure photo d'artillerie de campagne ou de défense anti-aérienne.

Trois prix de 200 \$ sont remis.

Pour tous les grades des forces régulières/de milices /ou retraités (à l'exception des photographes professionnels ou semi-professionnels).

**Vous pouvez soumettre des photos en noir et blanc,
en couleur ou en format de JPEG (min 300 dpi) à:**

**RCA Photo Contest
RHQ RCA**

PO Box 5000 Stn Main
Shilo, MB R0K 2A0

ou par courriel à webmaster@artillery.net

Les envois sont acceptés tout au long de l'année. Ils sont jugés trois fois l'an, et l'envoi gagnant est publié à la une du Quadrant.

La taille minimum des photos est de 3 x 5. Toutes les photos deviendront la propriété de RHQ RCA et ne seront pas retournées. Veuillez joindre une courte explication à propos de la photo et de son photographe. Un comité jugera chacune des photographies. Les unités sont priées de diffuser l'information dans les Ordres Courants. Les photos gagnantes seront dans « Le Quadrant ».

Toutes les photos seront disponible dans l'album photos sur le site www.artillery.net

*The
Colonel Geoffrey Brooks
Memorial
Essay Competition*

*Compétition
pour L'essai en
Mémoire du
Colonel Geoffrey Brooks*

ELIGIBILITY

The Contest is open to all DND military (Regular and Reserve) and civilian personnel and students attending post-secondary educational institutes.

TOPIC

Write on any topic of military history or specific military interest that pertains to The Royal Regiment of Canadian Artillery.

RULES

Essay entries should be between 2,000 to 3,000 words in length. They must be typewritten and submitted in quadruplicate. The title and page of any published or unpublished work to which reference has been made, or from which extracts have been taken, must be quoted and footnoted.

Authorship of entries must be strictly anonymous. Each competitor will adopt a motto or nom de plume, which will be quoted at the top of the entry.

A sealed envelope will be enclosed with the entry. This envelope will contain the service number, rank (as applicable), name and address of the competitor. The envelope will have the appropriate motto or nom de plume only, typewritten on the outside.

ENTRIES ARE TO BE ADDRESSED TO:

Editor, The Canadian Gunner
The Colonel Geoffrey Brooks Memorial Essay Competition
RHQ RCA
PO Box 5000 Stn Main
Shilo, MB R0K 2A0

Entries must reach RHQ RCA by 28 February 2006.
\$1000.00 in prizes will be awarded in spring 2006 (\$500 first prize, \$300 second prize and \$200 third prize).

JUDGING

The Editor will arrange for a committee to judge the entries. The decisions of this committee will be final. Results will be made known in the next issue of The Canadian Gunner and on www.artillery.net. Winners will be contacted by letter.

The Editor and staff of The Canadian Gunner can not be held responsible for the loss or return of any essay submitted; nor shall they incur any liability whatsoever in connection with the receipt, dealings, judging and reports of essays.

The copyright of any essay submitted will remain with the author, however, submission of a paper to the competition gives The RCA permission to publish said document in The Canadian Gunner and to retain a copy in The RCA Museum library and archives.

ADMISSIBILITÉ

Sont admissibles au concours tous les militaires et membres du personnel civil du ministère de la Défense nationale (Force régulière et Réserve) et les étudiants et étudiantes du niveau postsecondaire.

THÈME

La dissertation doit porter sur tout sujet d'histoire militaire ou d'intérêt militaire touchant le Régiment royal de l'Artillerie canadienne.

RÈGLES

Le texte doit être de 2 000 à 3 000 mots, être dactylographié et être soumis en quatre exemplaires. Le titre et la page de chaque ouvrage publié ou non publié auquel on renvoie, ou dont on cite un extrait dans la dissertation, doivent être mentionnés dans une note en bas de page.

Les dissertations doivent être déposées sous le couvert de l'anonymat. Ainsi, chaque auteur ou auteure doit adopter une devise ou un nom de plume qu'il ou elle inscrira au haut de la dissertation.

Il faut joindre à la dissertation une enveloppe scellée contenant le numéro matricule, le grade (le cas échéant), le nom et l'adresse de l'auteur/auteure. La devise ou le nom de plume, sans autre renseignement, doit être dactylographié sur l'enveloppe.

TRANSMETTRE LES DISSERTATIONS À :

Le Rédacteur en chef, L'Artilleur canadien
Concours de dissertation commémoratif Colonel-Geoffrey-Brooks, QGR ARC
C.P. 5000, succurs. Main
Shilo (Man.) R0K 2A0

Les dissertations doivent parvenir au QGR ARC au plus tard le 28 février 2006. Les prix, d'un montant total de 1 000 \$, seront octroyés au printemps de 2006 (1er prix de 500 \$, 2e prix de 300 \$ et 3e prix de 200 \$).

JURY

Le rédacteur en chef formera un comité pour l'évaluation des dissertations. Les décisions du comité sont finales et les résultats seront annoncés dans la prochaine édition de L'Artilleur canadien et sur le Web à www.artillery.net. Les lauréats seront avisés de leur sélection par lettre.

Le rédacteur en chef et le personnel de L'Artilleur canadien se dégagent de toute responsabilité concernant la perte ou le retour de toute dissertation soumise, et de toute responsabilité concernant la réception, l'évaluation, le traitement ou le compte rendu de ces dissertations.

L'auteur/auteure conserve ses droits d'auteur sur la dissertation. Toutefois, la soumission d'une dissertation autorise par le fait même l'ARC à en publier le texte dans L'Artilleur canadien et à en conserver copie dans la bibliothèque et les archives du Musée de l'ARC.
