About Slido

Slido is an easy to use Q&A and polling platform for meetings and events. It allows meeting and event organizers to crowdsource top questions to drive meaningful conversations, engage participants with live polls and capture valuable event data.

Slido has a team of more than 150 people, with offices in London, New York, San Francisco, Sydney and Bratislava.

01

Audience questions

Audience questions

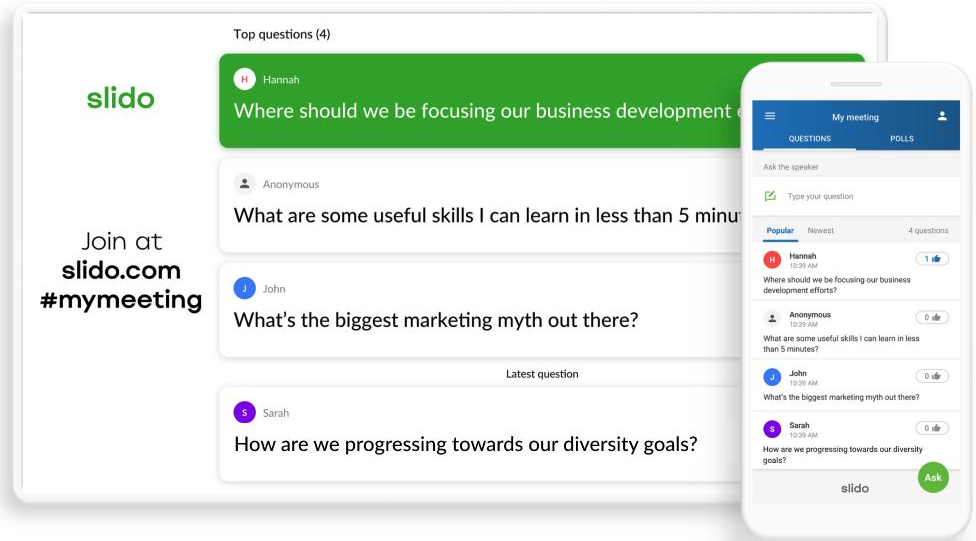

Crowdsource the best questions from your audience

Maximize the effectiveness of your Q&A time

Let your participants ask questions from any device and vote for the ones they like the most.

Display the top questions to your audience

Boost the audience engagement by displaying the top questions live during the Q&A.

Have control over what questions are asked

Turn on moderation and easily filter any inappropriate questions before they go live.

The screenshot displays the Slido moderation interface, divided into two columns: 'INCOMING' and 'LIVE'. In the 'INCOMING' column, there are two question cards. The top card is from 'Filip' at 11:19 AM, with a green checkmark icon in the top right corner, indicating it is approved. The bottom card is from 'Anonymous' at 11:19 AM, with a red 'X' icon in the top right corner, indicating it is filtered. In the 'LIVE' column, there is one question card from 'Filip' at 11:19 AM, which is the same question as the approved incoming one. A green line connects the question text in the 'INCOMING' column to the 'LIVE' column, showing the transition of the question.

Question Status	Author	Time	Question Text	Approval Status
Incoming	Filip	11:19 AM	What are some useful skills I can learn in less than 5 minutes?	Approved (Green Checkmark)
Incoming	Anonymous	11:19 AM	What are some tips for running in cold weather?	Filtered (Red X)
Live	Filip	11:19 AM	What are some useful skills I can learn in less than 5 minutes?	Live

02

Live polls & Ideas

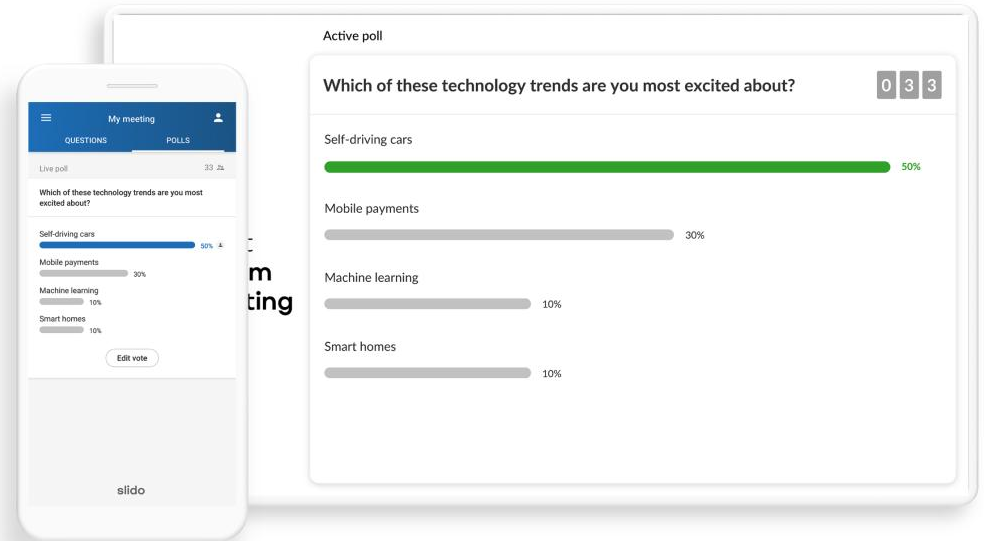

Engage your audience with live polls

Collect real-time insights about your audience

Ask your participants their opinion and let them vote instantly from any device.

Share the results live with your audience

Find out who they are or what they think and display the results live on screen.

Choose the poll type that most suits your needs

Run a quick multiple choice poll or capture the insights with a stunning word cloud poll.

Create a survey with several poll questions to get more detailed feedback.

03

Quizzes

Create a fun learning experience

Run a quiz with questions that fit the topic of your presentation or training.

Add options and mark the correct answers. At the end, display the leaderboard with the top players and give your quiz a big finish!

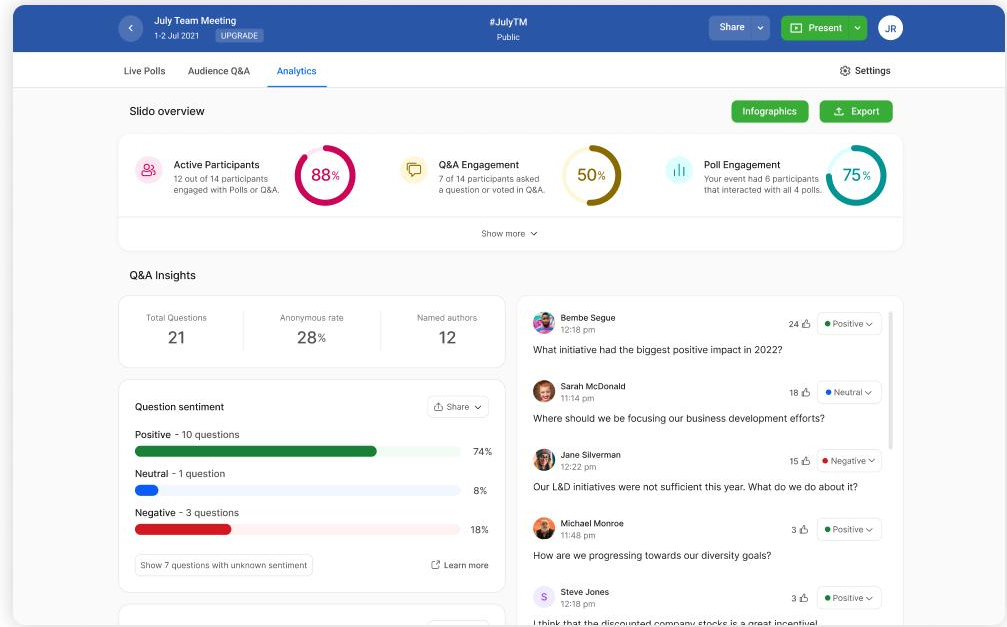

04

Event analytics

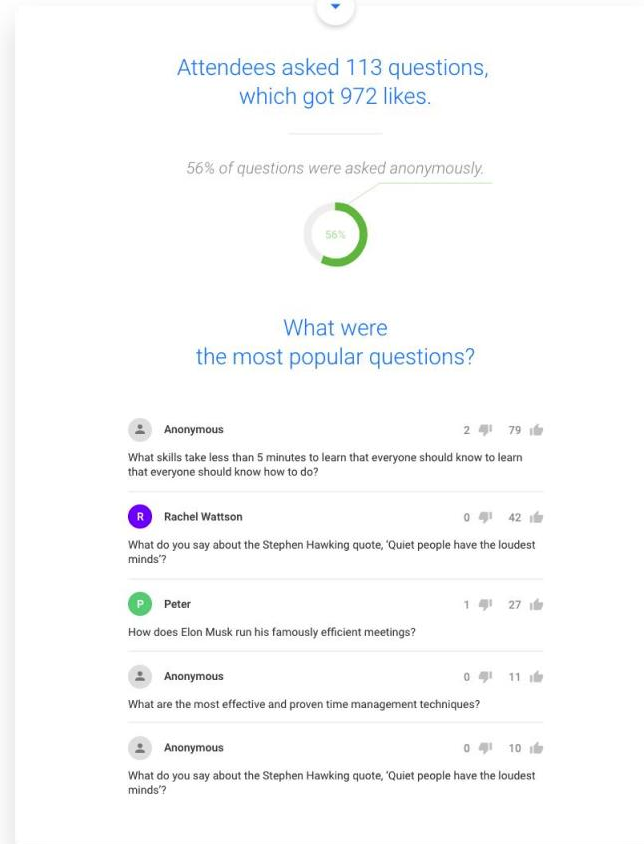

Gain valuable insights with event analytics

Meet your most influential participants and discover which topics resonated the most with your audience.

Share the insights In a beautiful infographic

Generate an infographic from
your event data and share it with
your colleagues or participants.
