4. [Image Guidelines](#)

Product images are displayed on search page and product detail page. A professional image helps customers discover your product and can drive traffic to your product listing. Show customers what they will receive in their shipment (and only what they will receive). Make it easy for them to identify your product with a clear, high-quality image displaying exactly what you're offering.

General Image Guidelines

- Main image should have 100% White background
- The product must fill 85% or more of the image.
- MAIN images should be supplemented with additional images showing different sides of a product, or details that are not visible in the MAIN image.
- Secondary images should complement to the main image
- Main and additional images should not include logos or watermarks/texts.
- Images should be 1000 pixels or more in either height or width as this will enable the zoom function on the website

(zoom has been proven to enhance sales). Files measuring less than 500 pixels on the longest side will be rejected by our system.

- Secondary images should have non-white background (RGB value: 255,255,255), 3rd image you can display usage of the product
- Detail shots where applicable need to be added
- Include only what the customer will receive; no accessories unless they are accompanied with the product.
