## Richard Maurice Bucke

**Cosmic Consciousness** Richard Maurice Bucke,1905

Cosmic Consciousness Richard Maurice Bucke,2000-12 In one of the classic books on the mystical experience, Buck outlines the development of various faculties in the history of man and the growth of an individual. He believes we are witnessing a continuous psychical revolution and that people like Buddha and Jesus, to name a couple, are the forerunners of the beings who will eventually inhabit the earth.

*Cosmic Consciousness* Richard Maurice Bucke,1991-10-05 This classic study in the evolution of the human mind is a pioneering work as valuable today as when it was first published in 1901. At that time, it was enthusiastically acclaimed by both William James and P. D. Ouspensky. It has long been accepted as a landmark in the field of mysticism. In reviewing the mental and spiritual activity of the human race, Dr. Bucke discovers that at intervals certain individuals have appeared who are gifted with the power of transcendent realization—or Illumination. Their experiences constitute a definite advance in man's relation with the Infinite. Moreover, the author shows from available records that this transfiguring endowment of Illumination is on the increase, and he gives full details of practically all the cases on record up to the time when the book was written.

**Cosmic Consciousness** Richard M. Bucke,2007-12-01 Wildly arrogant, stunningly bombastic, and undeniably fascinating. This 1901 work—the masterpiece of an eclectic genius whose life encompassed medical science, mystical transcendence, and prospecting for gold—posits a higher form of sentience that only a few humans have ever achieved, among them Jesus, Buddha, Mohammed, Dante, William Blake, and the author himself, of course. As Bucke shares his metaphysical experience of the cosmic consciousness and offers evidence for the few instances in history of its occurrence (it may as well be frankly stated at once that the view of the present editor is that Francis Bacon wrote the 'Shakespeare' plays and poems), the reader may well be moved to throw this bizarre and highly intriguing book furiously across the room... if the reader can put it down at all, that is. Canadian mystic and doctor RICHARD MAURICE BUCKE (1837-1902) was a pioneer in the medical treatment of mental illness; his famous friendship with Walt Whitman was the subject of the 1992 movie *Beautiful Dreamers*. He also wrote *Man's Moral Nature* (1879) and an 1883 authorized biography of Whitman.

Cosmic Consciousness Richard Maurice Bucke,2011-01-27 This work, published in 1901, is the culmination of a lifetime of research and contemplation in which Richard Maurice Bucke (1837-1902) expounds his theory of the development and evolution of consciousness in living things. He uses his own experiences, those of contemporaries such as Tennyson, and of historical figures such as Francis Bacon, as evidence for moments of higher consciousness and intellect known as 'cosmic consciousness'. Bucke's theory is of three states of progressive consciousness, attained through evolution. The Simple Consciousness of animals, Self Consciousness of man to understand his place in the universe, and Cosmic Consciousness, where man might grow to understand the life and order of the cosmos. This pinnacle of understanding is a progression assisted by evolution that Bucke hopes will one day come to all men. A thought-provoking book at any time, full of optimism for the intellectual future of the human race.

**Cosmic Consciousness** Richard Maurice Bucke,2024-02-20 This work is the magnum opus of Bucke's career, a project that he researched and wrote over many years. In it, Bucke described his own experience, that of contemporaries (most notably Whitman, but also unknown figures like C.P.), and the experiences and outlook of historical figures including Buddha, Jesus, Paul, Plotinus, Muhammad, Dante, Francis Bacon, and William Blake. Bucke developed a theory involving three stages in the development of consciousness: the simple consciousness of animals; the self-consciousness of the mass of humanity (encompassing reason, imagination, etc.); and cosmic consciousness - an emerging faculty and the next stage of human development. Among the effects of this progression, he believed he detected a lengthy historical trend in which religious conceptions and theologies had become less and less fearful. A classic work.

*Cosmic Consciousness* Richard Bucke,2018-12-17 *Cosmic Consciousness (A Study in Evolution of the Human Mind)*, by Richard Maurice Bucke was originally published in 1901. The work attempts to be a scientific-theosophical study of illuminated individuals, whom he deems to be examples of 'cosmic consciousness'. There are many well-known religious and artistic figures included in the book, however, also included are histories of individuals contemporaneous to Buckle himself. Bucke believed that enlightened figures come in evolutionary jumps, and are primogenitors of a more advanced species.

**Cosmic Consciousness** Richard Maurice Bucke,2016-07-04 Richard Maurice Bucke (18 March 1837 - 19 February 1902), often called Maurice Bucke, was a prominent Canadian psychiatrist in the late 19th century. An adventurer during his youth, Bucke later studied medicine. Eventually, as a psychiatrist, he headed the provincial Asylum for the Insane in London, Ontario. Bucke was a friend of several noted men of letters in Canada, the United States, and England. Besides publishing professional articles, Bucke wrote three books: *Man's Moral Nature*, *Walt Whitman*, and *Cosmic Consciousness: A Study in the Evolution of the Human Mind*, which is his best-known work.

*Cosmic Consciousness* Richard Maurice Bucke, Dr,2011-02-21 This pioneering study in mysticism explores the phenomenon of transcendent realization, or illumination. Its numerous case studies offer intriguing, real-life particulars of individuals who experienced personal epiphanies.

*Cosmic Consciousness: A Study in the Evolution of the Human Mind (Hardcover)* Richard Maurice Bucke,2018-07-24 Richard M. Burke's astonishing treatise on the human mind discusses and attempts to explain mystical experiences in the context of evolutionary change in the brain. During his mid-thirties, Burke underwent a feeling of revelation and felt distinctly enlightened for a short time. Although the period of enlightenment passed, it had an immense impact upon Burke's outlook, steering his personal and professional life in a directions he had never before envisioned. He found the experience a permanent boon to his well-being, and was able to work and enjoy life more than he formerly had. This book attempts to explain the various mystical feelings of enlightenment which humans have experienced over the millennia of recorded history. Burke's opinion is that these phenomena are becoming commoner over time, and represent an evolution of the human mind. He postulates that these experiences will become commoner as centuries go by, and become accepted as an ordinary, then eventually as a necessary part of human life.

**Cosmic Consciousness** Richard Maurice Bucke,2007-09 What is Cosmic Consciousness ? The present volume is an attempt to answer this question ; but notwithstanding it seems well to make a short prefatory statement in as plain language as possible so as to open the door, as it were, for the more elaborate exposition to be attempted in the body of the work. Cosmic Consciousness, then, is a higher form of consciousness than that possessed by the ordinary man...

**Cosmic Evolution** Eric J. Chaisson,Eric Chaisson,2001-02-16 Chaisson addresses some of the most basic issues we can contemplate: the origin of matter and the origin of life, and the ways matter, life, and radiation interact and change with time. He designs for us an expansive yet intricate model depicting the origin and evolution of all material structures.

Cosmic Consciousness Ali Nomad, 2019-05-03 Cosmic Consciousness: A Study in the Evolution of the Human Mind is a 1901 book by the psychiatrist Richard Maurice Bucke, in which the author explores the concept of cosmic consciousness, which he defines as a higher form of consciousness than that possessed by the ordinary man. In Cosmic Consciousness, Bucke stated that he discerned three forms, or degrees, of consciousness: Simple consciousness, possessed by both animals and mankind Self-consciousness, possessed by mankind, encompassing thought, reason, and imagination Cosmic consciousness, which is a higher form of consciousness than that possessed by the ordinary man According to Bucke, This consciousness shows the cosmos to consist not of dead matter governed by unconscious, rigid, and unintending law; it shows it on the contrary as entirely immaterial, entirely spiritual and entirely alive; it shows that death is an absurdity, that everyone and everything has eternal life; it shows that the universe is God and that God is the universe, and that no evil ever did or ever will enter into it; a great deal of this is, of course, from the point of view of self consciousness, absurd; it is nevertheless undoubtedly true.

*Cosmic Consciousness and Human Excellence* Mahmoud Masaeli, Rico Sneller, 2019-01-29 Cosmoconsciousness, or cosmic consciousness, is a term used to characterize a transcendence of the limits of self-consciousness. As an ultra-state of illumination of the mind, the roots of the conception are embodied in the quest for a spiritual connection with multi-dimensional cosmos. This quest searches for spiritual development as a pathway to human excellence, and can be associated with the mystics of ancient wisdom, as well as contemporary psycho-spiritual analysts. After its emergence in the late 19th century, cosmic consciousness rapidly became a source of inspiration for transpersonal psychology, moral therapy, and a thoughtful link to mystical quantum physics. By encouraging a spiritual way of perceiving the real world, cosmic consciousness also provides a source of inspiration for human excellence as the central idea of global ethics. In this

perspective, the world cannot be changed for the better without changing individual consciousness. Global concerns, including ecological issues, violence and acts of terrorism, materialistic gratification and hedonism, could not be addressed effectively unless people's consciousness is changed. Cosmic consciousness, by the very perception of the inner life, has the potential to struggle with global concerns, and hence, it holds a promise of human excellence. This book discusses cosmic consciousness against the backdrop of the emergence of the rational and autonomous conception of the self, and the modern psychological depiction of selfhood. It places the idea of cosmic consciousness at the centre of contemporary arguments on the nature of consciousness.
