# A MESSAGE FROM THE OFFICE OF ALUMNI RELATIONS

VALENCIA COLLEGE

May 8, 2022

Dear Valencia College Graduate:

On behalf of all Valencia College alumni, we would like to extend our enthusiastic congratulations to you on your graduation. This impressive achievement was, no doubt, a journey of hard work and sacrifice. We are incredibly proud of you and applaud your accomplishment! You should be excited to have earned a degree from Valencia College, a college consistently ranked as one of THE BEST colleges in the United States!

While this may conclude your coursework here, remember that life at Valencia College does not end when you graduate; it continues, grows and thrives. You have joined a network of 200,000 alumni who are thought leaders, innovators and creators striving to better our community. Wherever you go, wherever you end up, Valencia College is where it began.

The Office of Alumni Relations enriches the College's impact by serving as a gateway for alumni of all identities, backgrounds and experiences across the globe and in our neighborhood to stay connected to their alma mater. Whether it is through the Valencia College Alumni Network, our online community for networking and mentoring, or our webinars and events, we are here to support you. We hope that you will utilize these resources for life!

We are so very excited to be able to count you among our alumni family. Congratulations to you and all the members of the Class of 2021 – 2022 who are celebrating their graduation today! Please stay in touch and let us know about your accomplishments as you make your mark in the world.

Welcome to life as Valencia College alumni; we wish you the very best in the next chapter of your life!

Sincerely,

Erin M. Ohlsen  
Director, Alumni Engagement and Annual Giving

## Leah M. Basaria

2021 – 2022 DISTINGUISHED GRADUATE

When Leah Basaria arrived on campus at Valencia College, she took one look around and decided to get her credits and degree and graduate as quickly as possible. “Coming into Valencia, I was very apprehensive,” she says. “In my first class, New Student Experience, I was older than the professor.”

But Leah Basaria had come to Valencia at a crucial juncture in her life – after a family tragedy that sent shock waves through their family. In 2015, her brother-in-law committed suicide, but it also sent her mother-in-law into a deep depression, and she too would later take her own life.

Determined to learn how to help people battling depression and dedicating everything she does to her brother-in-law and mother-in-law, Leah began taking psychology classes at Valencia, but along the way, she discovered a support system at Valencia that gave her a new direction.

And now, Leah has been named the Mary S. Collier Distinguished Graduate for 2022. “Going to Valencia has been the most fulfilling and gratifying and isolating experience,” she says as a first-generation student. While her family encourages her every step of the way, she doesn’t feel that it is easy for some of them to fully comprehend everything she is doing. Leah’s husband expresses pride in her but doesn’t understand

everything she is saying when she goes off on passionate rants. “Which is why I’m so grateful for this insane support system I have at Valencia.”

At Valencia, Leah became an honors student and won several research and student of the year awards. Although she’s married and has a nine-year-old son, Leah also stays busy at Valencia, where she works as a student CARE coach to help students and part-time as an assistant to New Student Experience and Psychology professors.

Meanwhile, she also volunteers as a grief facilitator at the nonprofit, New Hope for Kids, which helps kids cope with the death of someone in their lives. But the road to Valencia College was a rocky one – and Leah took a number of detours before she landed at Valencia. In high school, when she was 16, Leah’s father and mother got divorced. Soon Leah found the wrong crowd – and was determined to fit right in. Although she was a multi-sport athlete, she was drawn toward people in their 20s and 30s whose idea of recreation leaned more toward drugs and alcohol.

And though Leah was a good student, taking AP classes at Lake Brantley High School, the allure of the party life proved too tempting. Months before graduation, she dropped out of high school, forgoing a Bright Futures scholarship. To make money, she did body piercings for people who weren’t old enough to legally get them – and after she turned 18, she began tending bar at nearby strip clubs. It didn’t take long for Leah to have some scrapes with the law and a criminal record. And though she was making hundreds of dollars every night tending bar at strip clubs, she needed a different job to comply with her probation. So she went to work at a Beef O’Brady’s restaurant.

And that’s where Leah’s life began to change. Sitting down with her, her boss said, “In 10 years, you’re going to be in a different place.” Leah couldn’t see it. “I couldn’t think about that. I had a criminal record. All I could think was, ‘What am I going to do?’” Today, that path is clearer. She’s studying psychology and she’s forging a new path in the field of mental health.

One of her goals is to get mental health care embedded into the elementary school curriculum. “I want to see emotional intelligence as part of the elementary school curriculum, so we can work on resilience training and flexible coping while children are little. So that when life starts weighing people down, they’ll already have the tools for coping with it.”

Beyond that, she has an even bigger dream. “Initially my main thing coming into college was to become a mental health counselor. That has evolved,” she says. Now she’s learning how to write grant proposals, so she can help change the mental health care available in Central Florida. “It’s kinda fun. I didn’t realize that I loved research, but I do. Grant proposals are just research proposals with math.”

What’s next for Leah? We can’t wait to see.

# VALENCIA COLLEGE

Valencia College is an innovative leader in higher education with a national reputation for teaching excellence. The college places the highest value on the success of each individual student. In an ongoing effort to be responsive to the community, we build relationships with high schools, universities and corporate partners to strengthen academic scholarship and economic development.

Valencia College is truly a part of the community, meeting diverse educational needs at eight locations, and dozens of business and community sites in Orange and Osceola counties. Our Poinciana Campus opened in 2017 and our newest campus, Downtown Orlando, opened in August 2019.

From its beginning in 1967, the College has met the ongoing challenge of keeping pace with the dynamic growth of the community and has continued, in an ever-changing environment, to fulfill its mission. As an educational leader, the College provides an “open-door” comprehensive postsecondary education.

The College fulfills its mission by offering degrees that provide for transfer to a university or for immediate entry into a career. We also offer continuing professional education to thousands of residents who recognize the value of lifelong learning.

The faculty and staff who bring these educational experiences to Central Floridians are scholars as well as practical experts in their fields. They are caring people who put their energies into instruction and their emphasis on the success of individual students.

Ninety-three to ninety-seven percent of Valencia College Associate in Science degree graduates are placed in jobs in their chosen field. Valencia College graduates are UCF’s number one source of transfer students, and make up one-quarter of their graduates.

Valencia College was named the inaugural winner of the Aspen Prize as the top community college in the nation for 2011-2012. The Aspen Institute, a Washington educational and policy studies center, selected the college for this prestigious award based on an overall graduation rate nearly three times that of other colleges, as well as the high job placement rates of its workforce training programs. According to U.S. Department of Education data, Valencia College ranks fourth among the nation’s 1,200 two-year colleges in the number of associate degrees awarded, fifth in the number awarded to Hispanics and seventh in the number awarded to African Americans. A 2012 study found that Valencia College boosts the economy of Orange and Osceola counties by \$1.05 billion a year.

## DEGREES AT VALENCIA COLLEGE

Students at Valencia College can earn an Associate in Arts (A.A.) degree which enables them to transfer to bachelor’s degree-granting colleges and universities in almost any major field of study. The College’s LifeMap system provides information, online planning tools, and personal assistance to help students select the appropriate courses so that their credits will transfer, tailored to the prerequisites for their intended major, and ensuring a smooth transition to a four-year college or university.

For those interested in a more direct path to the workplace, we offer Associate in Science (A.S.) degrees and certificate programs which prepare graduates for immediate employment. Over 100 A.S. degree and certificate programs are available in business, health care, public service, graphic design, digital media, entertainment technology, engineering technology, hospitality and culinary, information technology and veterinary technology.

The college, assisted by its program advisory committees, continually monitors the area’s workforce needs, developing and modifying programs to keep in step with local demand.

An asterisk (\*) denotes students who, at the time of printing, had earned a cumulative grade point average of 3.75 or higher, not including the current term.

Valencia College began offering bachelor’s degree programs starting in the fall 2011 term. Students on a specific career track can transfer into programs that lead to a Bachelor of Science in Cardiopulmonary Sciences, Electrical and Computer Engineering Technology, Nursing, and Radiologic and Imaging Sciences, or to a Bachelor of Applied Sciences in Business and Organizational Leadership, Computing Technology and Software Development.

# SENEFF HONORS COLLEGE

The Valencia College Honors Program was established in 1988 to provide unique learning opportunities to students from diverse backgrounds. During its history, the Valencia Honors Program has become known as one of the exemplary two-year programs in the nation. In June 2008, the CNL Charitable Foundation and the Valencia College Foundation established an endowment fund to support educational opportunities at the college; in fall 2012, the Valencia College Honors Program was renamed the Seneff Honors College.

The vision of the Honors College is to discover potential in students and inspire excellence. Admission of candidates into the Seneff Honors College is a consideration of a student's potential beyond simply a test score or grade point average. All highly motivated students who desire to make the most of their Valencia College experience are encouraged to apply. The honors curriculum is structured to provide purpose, meaning and engagement for students and faculty in the Seneff community and beyond. Students may choose one of four tracks for their honors study: interdisciplinary studies, leadership, undergraduate research or global studies.

Honors classes at Valencia College emphasize individual, original, and creative learning opportunities both inside and outside of the traditional classroom. Students have the chance to study

abroad, engage in community service, participate in cutting-edge research, travel to professional conferences and assume leadership roles. Most students in the Seneff Honors College receive full tuition scholarships while at the college, and many receive transfer scholarships when they graduate. Honors students are ensured a voice in the governance and direction of the program through the Honors Student Advisory Committee. The program is guided by an advisory board consisting of college faculty, administrators and students.

A student who completes one of the four tracks (a minimum of 23 hours of honors coursework plus co-curricular activities) with a 3.5 grade point average graduates as a Seneff Honors College Scholar, and will wear a blue stole and medallion during commencement. A student who completes 18 hours of honors coursework plus co-curricular activities with a 3.33 grade point average graduates as a Valencia College Honors Scholar and wears a blue stole and honor cord. And a student who completes 12 hours of honors coursework with a 3.25 grade point average is awarded an Honors Certificate and wears a blue stole.

## Connect, learn and grow with the Valencia College Alumni Network.

Whether you are starting your next degree, exploring new career opportunities, assessing your current career or looking to make a change, the Office of Alumni Relations wants to help you succeed.

We offer various resources like our online networking and mentoring community, continuing education webinars and career-focused events. No matter your career stage, we want to help you approach it with the confidence, pride and passion that Valencia College alumni are known for.

The Valencia College Alumni Network helps you tap into the power of your fellow alumni. Here are just some of the resources you gain access to once you activate your free account at [www.vcalumninetwork.org](http://www.vcalumninetwork.org):

- Connection to 200,000 fellow alumni
- Mentoring and networking opportunities
- Access to exclusive webinars and events
- A job board for both job seekers and employers
- The ability to list your small business in the alumni business directory

We know this next step might seem a bit scary, but you are not setting out alone. The Valencia College Alumni Network is ready to help. Please keep in touch and share your ideas so we can better serve you.

We look forward to celebrating your accomplishments as you make your mark on the world.

Sincerely,  
Your Alumni Relations Team
