

PRODUCER OF PESTICIDES

The traditional producer of **STUTOX®**

Since 1978 we have gained extensive experience in research, development and production of rodent baits. The new production facility in Studenec, which has been in operation since 2001, is equipped with two granulation lines and a Nauta Mixer.

In 2015 we produced 1 600 tons plant protection products.

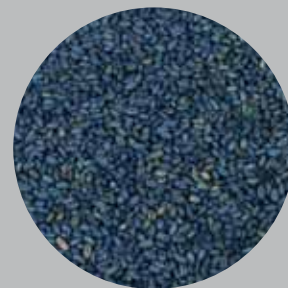

The quality of our products is analysed in our own laboratories.

In 2010 we obtained the ISO 9001:2009 certificate.

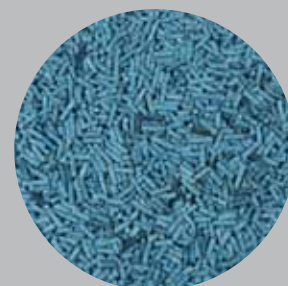

The current production programme:

Coated grains

Pellets

Granules

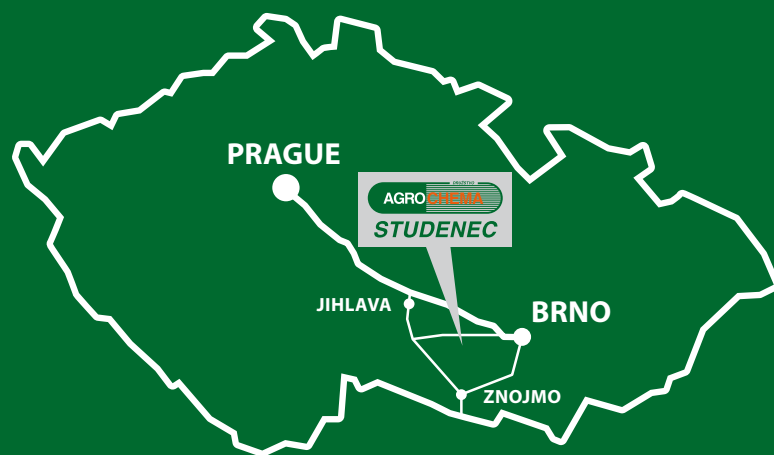

Dust

Fumigant
