

PGY2 Cardiology Pharmacy Residency

Abigail Seger

Previous Education: PharmD from Purdue University; PGY1 Pharmacy Residency at Aurora St. Luke's Metro, Inc

Short Bio: I am originally from of Indianapolis, IN and attended Purdue University for both pre-pharmacy and pharmacy school. I have loved my past year in Milwaukee, and I am excited to continue my training in this city! When I'm not at work, I enjoy spending time outside, petting dogs, and exploring the many activities Milwaukee has to offer.

Factors Considered Most Important When Choosing Residency: When searching for residencies, it was important for me to be at a large, supportive program. I wanted an upbeat culture that would offer diverse learning opportunities with complex patient populations.

Why Aurora? During my interview with Aurora, everyone was very welcoming, and it was clear that community was a strong value. Through those interactions I was able to determine pharmacy services are a valued contribution to the interdisciplinary team and something that I wanted to be a part of. I was also impressed with the many rotation opportunities that would allow me to reach my goals.

Current rotations: Acute Care Cardiology, Cardiovascular ICU, Advanced Heart Failure/Cardiothoracic Transplant, Pulmonary Hypertension, Coronary ICU, Heart Failure Clinic, Electrophysiology, and Medication Safety

Year-long project: Optimization of IV Fluid Usage (albumin 5% and 25%) in the Intra- and Postoperative Settings for Cardiac Surgery Patients

Future: I hope to pursue job opportunities with a consult service in the setting of cardiology.
