1. That such regulatory and enforcement powers be held concurrently by the State Highway Department and the County.
2. That the State Highway Department will determine and adopt such restrictions as it considers Necessary and that the County will ratify and adopt, and do hereby ratify and adopt, with the object That that such restrictions be consistent and identical with those of the State Highway Department.

At 1:30 P.M. the Board met with Wells County Board of County Commissioners, Fairview Township Board of Supervisors and representatives of the Bureau of Reclamation regarding proposed relocation road LR-25 from the North Goodrich Road East into Wells County to State Highway No.3. Fairview Township Board presented petitions requesting that the proposed Road be constructed straight across instead of 1 mile South then East then 1 mile north and east.

Various road and bridge matters were discussed with the Bureau Representatives. The requested crossing between Sections 20 & 29-146-77 was discussed. The Bureau Representatives feel that the cost of a bridge is prohibitive.

A dip in the road where Relocation Roads No. 6 & 7 meet was discussed. The Bureau will check on this. The bridge guard rails were discussed. The present guard rails are causing snow problems. This will be checked.

There being no further business the meeting was adjourned.

**RESOLUTION**  
**JOINT FUNCTIONS AGREEMENT**

**WHEREAS,** Chapter 54-40 of the North Dakota Century Code, as amended, authorizes joint or cooperative governmental action between consenting political subdivisions; and

**WHEREAS,** planning, zoning, conservation and development functions can more effectively be preformed in cooperation with other political subdivisions at substantial savings.

**NOW THEREFORE, BE IT RESOLVED,** that Sheridan County joins other political subdivisions in a Joint Functions Agreement for the purpose of providing general and technical assistance to its governing board in the area of planning, zoning, conservation, of resources and development. That the terms of the Joint Functions Agreement set forth in a copy thereof, attached hereto, are duly approved and that the president and secretary of this board are hereby authorized to forthwith execute the Joint Functions Agreement, and hereafter and until further resolution of this board participate in the Lewis and Clark 1805 Joint Government Council,

**BE IT FURTHER RESOLVED,** that this Board hereby designates Albert R. Hausauer, a member of the board to represent it on the Council until December 31<sup>st</sup>, 1976.

Commissioner Hausauer offered the following resolution and moved its adoption seconded by Comm. Erdmann. All voting "Aye" the motion carried and the resolution adopted.

### **RESOLUTION**

**WHEREAS,** the Federal government owns 1/3 of the land in the United States, and

**WHEREAS,** the tax immunity of this land creates financial hardships in more than 1,000 counties in 48 States, and

**WHEREAS,** these counties must still provide full local government services of law enforcement, road maintenance, health and other services, and

**WHEREAS,** in Sheridan County, North Dakota a considerable amount of land is now and more shortly will be federally owned and tax exempt. If taxes as privately owned this land would result in considerable annual tax payments. These tax payments would assist in providing necessary services, and

**WHEREAS,** the Public Land Law Review Commission recommended a system of payments-in-lieu of taxes to compensate for the tax immunity of federal lands.

**NOW THEREFORE BE IT RESOLVED BY THE SHERIDAN COUNTY BOARD OF COUNTY COMMISSIONERS,** that the Congress is requested to enact a system of payments-in-lieu of taxes.

Sheridan County urges the support of the President of the United States and the Congressional Delegation for H. R. 9719 and S 3468 which have been endorsed by the National Association of Counties as an equitable and easily administered payments-in-lieu system.

**SPECIAL MEETING OF MARCH 18<sup>TH</sup>, 1977 – 1:30 P.M.**

The Board of County Commissioners met on call of the Chairman with all members present.

The matter of possible abandonment of the Garrison Diversion Project and its effect upon the County was discussed. The Board will attend the hearing on the matter at Jamestown on March 22<sup>nd</sup>, 1977.

Commissioner Hausauer offered the following Resolution and moved its adoption, seconded by Commissioner Kensmoe. All voting “Aye” the motion carried and the resolution was declared adopted.

**RESOLUTION**

**WHEREAS,** The Garrison Diversion Project has long been a hope of many people, and

**WHEREAS,** since its inception a good deal of money has been spent on the Project and thousands of acres of agricultural land have already been taken out of production and off the tax rolls for reservoirs, the nearly completed McClusky Canal and other works, causing much inconvenience and some hardship to land owners, residents and local governments, and

**WHEREAS,** for the most part the area residents were willing to accept the inconveniences and hardships in exchange for benefits to be derived from irrigation, recreation, municipal and rural water supplies etc., and

**WHEREAS,** abandonment of the Project would result in an absolute waste of funds already expended and a terrible waste of productive agricultural land taken and used for reservoirs, the McClusky Canal and its works, which would then serve no useful purpose, and

**WHEREAS,** abandonment of the Project would leave a great scar upon the landscape where the McClusky Canal and its works are located and would provide an area where noxious weeds would thrive and spread due to lack of care for the area, and

**WHEREAS,** We believe the Project as planned to be economically sound,

**NOW THEREFORE BE IT RESOLVED,** by the Sheridan County Board of County Commissioners that we protest early completion of the Garrison Diversion Project.

**A.M.**

The Board met with representatives of Archie Campbell & Mayo Construction Company, Wanzek Construction company and the Bureau of Reclamation regarding regravelling certain roads in the area of Reach 4B of the McClusky canal. The Board and the contractors could not reach an agreement as to the amount of gravel that should be replaced on the Farm to Market Road from nine miles north of Junction of State Highway 200 and 14 west seven miles.
