(Gransville district). Heretofore, there was winding road from the Northeast quarter of the Northeast quarter of Section 27-149-76 angling southeast across the East half of Northeast quarter of said Section 27-149-76, across S1/2NW1/4 and N1/2SW1/4 of Section 26 (both owned by Sam Frank) and thence South across S1/2SW1/4 of Sec.26 to the section line on South side of Section 26-149-76 owned by State of North Dakota, State Land Department. The Section line between Sections 26 and 27 is impassable. Sam Frank will agree to allow the public to use the land across his two quarter Sections of land above described, and all that is necessary to acquire is the old roadway, one-fourth mile long, across said S1/2SW1/4 of Sec. 26-149-76. Whereas, The Knight Printing Company of Fargo, North Dakota; abd The Globe Gazette Printing Company of Wahpeton, North Dakota, has submitted an offer to furnish Sheridan County, North Dakota their election ballots and supplies, for the June Primary and General Election for the year 1944, in accordance with schedule of prices in their cotract filed with said Sheridan County, North dakota for the year of 1942.

Whereas, an emergency exists in that, at the present time, all the material necessary in the preparation of election supplies is scarce and hard to obtain, and such condition will continue for the duration of the global war which is now in progress, and the companies which furnish such election supplies will require from six months to a year to obtain the necessary material for such election supplies.

Therefore, it is hereby resolved by the Board of County Commissioner of Sheridan County, North Dakota, that the said Board shall, forthwith, make and enter into a contract with the Knight Printing Company, of Fargo, North Dakota, and with the Globe-Gazette Printing Company of Wahpeton, North Dakota, for the furnishing of all necessary election supplies, at the schedule of prices specified, which prices are the same as the 1942 contracts.

The Board of County Commissioners met as per adjournment, Commissioners Dahl, Brakel and Michalenko, being present on roll call.

The Board appraised that portion of Block 4 in North McClusky, which is in the Southeast corner of the Block, being 100 feet by 120 feet, the appraisal being for \$50.00. The County Auditor was instructed to advertise the same for sale at public auction, the sale to be at 2 P.M. July 6th.

The application of Gust Schuh for abatement of real estate taxes, was rejected for the reason that the Commissioners did not think the assessment to high.

The Road petition from Schiller Road District, requesting that \$100.00 of their Road District moneys be paid to Denhoff township for an equal share in a 60 HP caterpillar Engine, was approved. The County Auditor was intructed to draw an auditor's warrant for the \$100.00 payable to Denhoff Township.

The letter from Governor Moses relative to County land sales, was read and answered.

There being no further business to come before the Board, the meeting was adjourned until July 6th, 1944. The members of the Board then went out to Rosenfield Road district where a new road is being constructed. The reason for adjournment until July 6th, is that the County canvassing Board will meet on July 5th.

#### MEETING AUGUST 7TH, 1945

The Board of County Commissioners met as per adjournment with Commissioners Dockter and Wentz being present. Commissioner Thos. Brakel having gone to fessenden with the Chairman of the welfare Board for the purpose of arranging for a part-time secretary for the Sheridan County Welfare Board. Commissioners Wentz nd Dockter opened the meeting.

The letters from the State Examiner explaining the mileage and subsistence for the County Commissioners was read and filed. The circular letter directed to the county auditor calling attention to the fact that many county auditors are not complying with the provisions of Chapter 106, S.L. 1943, relative to the manner in which game and fish licenses are being handled was read and filed.

The letter from the State examiner dated July 23rd criticizing the manner in which the government bonds were purchased and are being carried on the books was read. At this

time John Graham, the state examiner, personally appeared and paid the county board and county officers an official visit. The following officers met with the State Examiner: County Auditor, County Treasurer, County Judge, State Attorney and the County Commissioners. Various matters were discussed relative to the bookkeeping methods prescribed for county government. It was agreed and the county auditor and treasurer were instructed not to purchase anymore bonds unless they are specifically purchased from the balances of the sinking and interest fund or the general fund of the county.

The auditor and treasurer were further instructed to make a separate set-up of the amount of the bonds in the auditor's and treasurer's general ledger. (The bonds have been carried on the treasurer's daily cash book as so much in government bonds). The treasurer and auditor were further instructed to create a separate fund to be known as "War Bond Interest" in to which the interest from the government bonds is received. The idea is that should it ever be necessary to dispose of the bonds before their maturity that the interest thereon collected must be used to offset the difference in the sale value and the maturity value.

At this time Thos. Brakel, chairman of the Board, returned and the matters gone over with the examiner were perused by him. The minutes of the previous meetings were read and approved as read.

Pete Hoffman met with the Board relative to the completion of the settlement of the purchase of lots 4-5-6, Block 3, North McClusky. His original agreement had been to pay \$85.00 of which he had paid \$30.00. This left a balance of \$55.00 less cost of tax deed proceedings which was \$11.46. The Board of County Commissioners, therefore, accepted his payment of \$43.54 to be credited to the Social Welfare Fund and the auditor was requested to issue him an auditor's tax deed. (The tax deed was issued in lieu of mortgage foreclosure—the mortgage having been given for general relief by Martin Neiffer).

It was moved by Commissioner Wentz, seconded by Commissioner Dockter that \$173.25 be transferred from Boone Road District to Fairview Road District—this being the amount due Fairview Road District for elevating one-half mile of road and filling in some low places in Boone Road District. All members of the Board voted "Aye" on the motion.

The County Auditor was instructed to advertise for the purchase of one Deisel Caterpillar Tractor being between 70 and 115 H.P.—the bids to be opened on October 2nd, 1945 at 3:30 o'clock p.m.

Insurance policy No.30284 in the amount of \$65,720 covering the courthouse building, contents, and other county buildings expiring August 1st, 1947 was approved and ordered filed.

The letter from William Fahey stating that there was due him \$360 for construction of a mile and a half of road—the work being done in 1944 in Berlin District

was read. No action was taken.

The United States Fidelity and Guarantee Company bond in the amount of \$500 by the Wahl Grain Company to Sheridan County in connection with the coal bid was approved.

The Board of County Commissioners checked all the feed notes, county notes, and welfare notes and requested that a list of each be made up so that there be one copy for each county Commissioner, the Sheriff, the Treasurer, and the county Auditor and that an effort be made by all these officers to collect same.

The board of County Commissioners spent part of November 6 and November 7 checking each delinquent personal property tax with the sheriff. The Board of County Commissioners could see no good excuse for anyone not paying their personal property tax at this time and gave the sheriff strict orders to notify each delinquent personal property tax payer by letter and notice and a warning notice in the McClusky Gazette that if the taxes are not paid within a reasonable time, the sheriff would be required to make a levy for the taxes.

A letter from the North Dakota State Highway Department relative to preliminary secondary system was read and the following resolution adopted:

#### RESOLUTION

WHEREAS, In order to avail itself of Federal funds for the construction or reconstruction of highways both on and off the state highway system, it is necessary that the State Highway Department reclassify and/or designate the various highway systems within the State, and, WHEREAS, such designation will require the approval by the County of the Secondary system within this county.

BE IT, THEREFORE, RESOLVED that this county approves the reclassification and designatiion of the systems as shown on the attached map and mileage tabulation.

Commissioner John J. Dockter moved the adoption of the abouuv resolution and was seconded by Commissioner Wentz.

The above resolution is in connection with 84.48 allowable miles as per map and schedule on file.

Jacob Helm met with the County Commissioners relative to his personal property tax. He figured that he had been over assessed for personal property. He was advised that he could, as soon as the personal property taxes were made up, make an application for a reduction in the value of his assessment which would have to be approved by the McClusky Township Board.

Fred G. Helm met with the Board relative to his real estate taxes --- it being land that he had bought in the year 1945 from the State Land Department. The County Auditor was requested to write to the State Land Department as to the matter.

Fred Petchell met with the Board of County Commissioners relative to the Alfred Zinke personal property taxes. It was agreed that as soon as a referee for the Frazier-Lemke Moratorium permitted the payment of same that they be collected.

The F.S.A. was allowed not to exceed \$10.00 per month for janitor services until January 1st ,1946 by the Board.

The County Auditor was instructed to advertise for two new or used hydraulic or cable scrapers and one new or used elevator loader with screens. The County Auditor was instructed to make the advertisement for some convenient date in January.

The village of Goodrich having requested and having tendered the general taxes in

payment of redemption of the following lots:

Lots 1, 2, and 3 in block one (1); Lots 6, 7, 8, 9, 10 and 11, in Block 1; Lots 1, 2, 3, 4, 5, 6 and 7 in Block 4; and Lots 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10 in Block 5; all in Doering's Addition to the village of Goodrich, North Dakota, according to the Original Plant thereof which is of record in the office of the Register of Deeds of Sheridan County, N.D. and this deed does cancel and abrogate the provision in deed to grantee of date August 6th, 1935, recorded in Book D-17 at page 208 providing that said property be used "for park and recreational purposes and shall not be subject to conveyance by the village of Goodrich; it being intended that full title vest in Village of Goodrich subject to existing roads across any of such lots.

This request was made for the reason that Goodrich Billage wished to acquire the lots in absolute title so they could resell and protect themselves for the general taxes in the amount of \$63.22 and \$1965 which they have paid to Sheridan County and for the special assessments which Goodrich Village had lost through the county having taken tax deed. The settlement and conveyance was approved by Commissioners Brakel, Dockter, Wentz and the city attorney.

On motion the meeting was adjourned until November 20th for the county land sale.

## RESOLUTION

It was moved by Commissioner Dockter, seconded by Commissioner Heinle that the following resolution be adopted.

Whereas, it is by law declared to be the policy of the State that all dependent persons incapable of self-support shall receive such necessary support and maintenance from those of the family financially able to provide the same, and

Whereas, such policy was implemented by legislative action during the 1947 session of the State Legislature by decreasing the appropriation for Welfare purposes because of favorable economic conditions prevailing throughout the State, and

Whereas, funds available for Welfare Assistance are insufficient to maintain as high standards of assistance as in the past and it has become necessary to remove from the Welfare rolls recipients of Welfare Assistance who have members within the family capable of providing them with necessary support and maintenance.

Now, Therefore, Be It Resolved that in all cases where it is found the recipients of public Welfare Assistance have any responsible members within the family reasonable capable of providing such dependents with such support, the States Attorney shall proceed by appropriate action and Court proceedings, if necessary, to enforce such obligations defined by state law against such member or members of the family.

All members of the Board voted "Aye" on the motion.

SPECIAL COMMISSIONERS MEETING, MAY 25TH, 1948

The Board met as per call by the County Auditor. Commissioners A. W. Wentz, John J. Dockter, and Adolph Heinle were present. They met for the special purpose of considering a special "Farm to Market Roads Fund" Levy. The Board having considered the cost of snow removal for the past year and the cost for fixing up the roads and washouts for the summer, find that there will not be sufficient funds raised by the regular road levy to do all the necessary road work. Therefore it was moved by Commissioner Dockter, seconded by Commissioner Heinle, that the following reslution be adapted:

Be it resolved that the Board of Cuntly Commissioners place the following on the Primary Election; "Shall a yearly tax levy not exceeding five mills over and above the maximum levy authorized by law be made for the years 1948-1949 upon the valuation of all taxable property within the county for the purpose of matching funds available for federal aid, secondary aid, and farm to market roads program under Public Law 521, 78th Congress of the United States, as prescribed and authorized by Chapter 350, Laws of 1947."

June 1st, 1948

Hon. Fred G. Aandahl  
Hon. N. O. Jones

Gentlemen:

Re: Petition for construction and regarding  
State Highway #14

The Board of County Commissioners for Sheridan County, North Dakota received a visit from a delegation of sponsors from nearby towns requesting that the Board lend their recommendation to the sentiments expressed in the above petition.

State Highway #14 is a vital North-South road in Sheridan County, and its usefulness is attested to by the amount of traffic over and upon said Highway. Winter traffic is especially heavy, because of the tendency of other roads to block up.

The Sheridan County Board of Commissioners most heartily subscribe to this petition, and urge that the various State Departments give the petition their every consideration. This road serves a large number of people in this County, and it is a connecting link between U.S. Highway #10 and U.S. Highway #52 which greatly aids the loyal residents to reach the larger towns of Minot and Bismarck.

Very Truly Yours,

A. W. Wentz, Chairman  
John J. Dockter, Commissioner  
Adolph Heinle, Commissioner

Peter Kessler met with the Board relative to an old road matter concerning an under-pass. Nothing definite was arrived at.

John E. Davis, City Mayor and John J. Dahl, Alderman, met with the Board regarding a site for a city well. It was agreed that the County would lease them a site in the South-east portion of the Courthouse Block, 75 by 50 feet. The lease to be drawn by the City Attorney; approved by the State's attorney and the County Commissioners.

The Bond of Robert Bechthold, doing business as Bob's Place in Denhoff, in the

amount of \$1,000.00 was approved, by the State's Attorney and County Commissioners.

The application of T. A. Schatz for permission to sell beer at Pickardville was approved and the license was issued.

Some time ago the County Auditor was instructed to ascertain whether or not the  
County is eligible for Federal Aid Grants for County Roads and Buildings. To date no  
answer has been received from Washington regarding this question; however the  
following answer was received from one of the counties:

Dear Sir:

It is true that the County Board will set up a levy this year for construction of

memorials, one in each Commissioner's District under Chapter 125 of the 1947 session Laws.

They are allowing \$30,000.00 to each District which will be levied and brought in by taxation and if the District wants the City, School Dist. Or similar organization may supply more funds on their own and put up a larger building.

As for federal aid can advise that you surely must have been misinformed as you will note by reading the above mentioned Chapter that there is no Federal aid connected with this.

Trusting that this will clarify the questions you submit and in reading the Chapter you will understand the deal,

I remain,  
County Auditor

The letter stated that the assessment of the NE1/4 for the years 1944-1945-1946-1947, have been unreasonable. Being that the Board has already granted a reduction in valuation for the year of 1947, from \$1575.00 to \$868.00 and that the same valuation would hold for the year of 1948, the County Auditor was instructed to notify Mr. Billigmeier that the same valuation of \$868.00 would holk for the taxable year of 1948.

The County Auditor was instructed to place an ad for weed cutting in the McClusky Gazette advising the tenants and land owners that unless the weeds are cut within a reasonable time along the roads adjacent to their land, legal steps will be taken against the owners of the lands.

A letter was received from the Tax Commissioner stating that the State Board of Equalization would meet on August 24th, and that the County Auditor and County Commissioners were requested to attend the meeting.

The Standard Oil contract was approved.

EMERGENCY MEETING, FEBRUARY 16TH, 1948  
10:00 O'CLOCK A.M.

A.W. Wentz, Chairman of the Board of County Commissioners called a Special Distress Meeting. Due to the blocked roads and the communications out of McClusky being out of order, Commissioners Dockter and Heinle could not be notified to be present.

John E. Davis, McClusky City Mayor, Peter Jorgenson, County Agent, R. P. Moore, Herbert Berg, Howard Krueger, Walter L. Dockter, Ben F. Kludt and John J. Dahl were called together at the County Commissioners Room for the purpose of taking the necessary action as to clearing the roads and meeting emergencies through out the County.

County Agent Jorgenson reported that he had been notified from the District Extension Supervisor that the County Commissioners should immediately contact the Governor to have Sheridan County designated as a disaster area. A telegram was sent to Burleigh County asking them to open the road connecting to the Johns Lake Road. A telegram was also sent to the Governor, Fred G. Aandahl, asking him how soon we could expect action on our road system in the County. Several rural calls were made to inquire as to needs of fuel, food, feed for livestock and any other emergencies known.

Since communication was temporarily impossible the meeting was adjourned subject to call as soon as information could be obtained.

At approximately 4:30 P.M. Major Wackendorf of Washburn arrived by plane for a half hour conference in which he briefly outlined plans. As most of the original group could not be assembled within such a short time, Wentz, Jorgenson, Davis and Kludt met with him and immediate plans were made. John Davis was designed to secure a plane and make contact with Goodrich, Martin, Lincoln Valley and Kief early the next morning to inform them of the help available both on snow removal and emergency medical attention thru the Red Cross and ask each town to arrange for a committee to screen requests and report by telephone. Of immediate concern was to make an access road over which the snow removal equipment could be brought in. Reports indicated that #14

was being opened from Anamoose to Denhoff. The County Dozer was sent North to the 9 mile corner and east to connect to Highway #14. The major was informed that they could use the Commissioners Office and all Officers in the County would give every Cooperation and help possible during their operation.

Commissioner A. W. Wentz was designated to take all telephone calls on roads and County Agent Jorgenson to take all calls on feed, coal and other emergencies.

COMMISSIONER'S MEETING OF MARCH 3RD, 1949

The Board of County Commissioners met as per adjournment. Commissioners Wentz, Dockter and Heinle being present.

Alfred Letvin, Lloyd Michlenko, Arlo Lindbloom, Mike Demchuk, John Spencer, George H. Michalenko and Roy Zupenko from Strassburg & Highland townships and Bill Miller, Sam Simchenko, Levi Michalenko, Andy Zaks and Nic Michalenko from the Kief Area met with the Board of County Commissioners and requested that the road between Sections 3 & 4 in Twp. 150, Rge. 77 be built. The board requested that the snow be removed from their roads.

A letter was received from H. Billigmeier as follows: "My opinion is that the 1948 taxes are too high and my guess is that at that rate there will be a lot of unpaid taxes again in another year or two. Therefore why not start conserving in time in order to avoid causing too much of a hardship. Yours truly, H. Billigmeier."

A letter was received from Wesley W. Ortman, Martin Township Clerk, stating that it was absolutely impossible for him or any of the members of the township Board to meet with the County commissioners at this meeting.

The County Auditor was instructed to call an Assessors and County Commissioners meeting some time in the latter part of March.

#### REPORT OF JOHN E. DAVIS, EMISARY OF A. W. WENTZ

To: A. W. Wentz, Chairman, Sheridan County Board of Commissioners

Subject: Report on snow blockade in County.

Departed from McClusky for Goodrich with Chester Ostrom at 10:20 A.M. Feb. 17th, 1949. Arrived in Goodrich about 11:00 P.M.

Contacted Dean Hendricks, Chairman of Village Trustees, Paul Augustadt, Commander of the American Legion, and Reinhold Martin, President of the Goodrich Welfare Board. Held a meeting in the First State Bank of Goodrich with all three present.

Explained the situation to them relative to assistance which could be expected from the 5th Army Engineers, Sheridan County and Red Cross. Informed them that Pete Jorgenson, County Agent was designated at central authority in County for handling distress cases. Impressed each with the importance of screening applications for relief.

They reported that at the present time there was no emergency existing although several families were running short of coal. Received 3 carloads of briquets prior to last blockaid so have supplies of coal in Goodrich. Food items plentiful. Fuel oil will last a short time.

They organized a board to receive complaints from farm territory with Dean Hendricks, Chairman and Reinhold Martin, Assitand.

#### Village of Martin:

Telephone Communications were open to Martin so I called John Magnuson and informed him of the situation and help which would be available in emergency. Stressed need for screening applicants. Hiway 52 open. Fuel supplies short in Martin but efforts being made to haul it in. Had no information of families in need or distress in Martin area. John Magnuson accepted the request to act as contact representative in the Martin District and will contact Pete Jorgenson for assistance.

#### Kief and Vicinity:

Arrived in Kief about 12:45 P.M. Contacted Sam Kerpenko Operator of grocery store and local mail carrier.

All roads and railroad blocked in and out of Kief. They reported no relief cases at this time although several farmers south of Kief in Sheridan County were known to be short of Fuel. Plenty of groceries.

I explained the situation to Mr. Kerpenko and designated him as contact representative for Kief area and informed him to contact Pete Jorgenson in case of emergency. He was very willing to cooperate.

#### General Comments:

Goodrich reported that County "Cat" in that area was repaired and operating in that area. Learned nothing of operation of snow removal operations in Commissioner's Dockter District.

Hiway 14 north of Denhoff open for traffic. Many of County roads constructed in the past few years are blocked, snowrifts are not long and would not be difficult to open with a snow plow.

In flying over farms I observed ample feed supplies with the exception of a few farms. Most of feed seemed to be located in farm yards. Stacks were badly covered with drifted snow and farm yards generally filled with large drifts.

All the people contacted were glad to have the information about emergency help from 5th Army and while each had given thought to emergency help none of the towns had organized a central group to coordinate operations.

John E. Davis

Returned to McClusky at 1:40

The application of M.Bolligmeier for abatement of taxes was carried over for future consideration.

The County treasurer and County Auditor, were instructed to re-transfer \$2,500.00 from the County Poor fund to the Institutional fund. (This amount having been borrowed by transfer from the Institutional fund in July 1948.)

At this time the Assessor's meeting was set for March 23, 1949, at 2:00 P.M.

It was moved by Commissioner Dockter, seconded by Commissioner Heinle, all members of the Board voting "Aye" on the motion, that a resolution be made thanking the 5th Army Disaster Force for their consideration and fine work of snow removal in Sheridan County. The following resolution was adopted:

#### RESOLUTION

We, the Board of County Commissioners of Sheridan County, North Dakota, take this means of expressing our sincere gratitude to the Comander, Area 5, Fifth army Disaster Force "Snowbound" for opening the highways and the snow removal in Sheridan County. We expecially want to thank Captain Couch and the other officers for their fine cooperative spirit and concern they showed on this emergency. (Copy to Governor Aandahl)

In consideration of the premises it is hereby mutually agreed as follows:

The lessee shall deliver to the credit of the lessor as royalty, free of cost, in the pipe line to which lessee may connect its wells, the equal one-eighth (1/8) part of all oil produced and saved from the leased premises, or at the lessee's option, may pay to the lessor for such one-eighth (1/8) royalty the market price for oil of like grade and gravity prevailing in the field where produced on the day such oil is run into the pipe line, or into storage tanks.

The lessee shall pay lessor, as royalty, one-eighth (1/8) of the proceeds from the sale of the gas, as such, for gas from wells where gas only is found, and where not used or sold shall pay Fifty (\$50.00) Dollars per annum as royalty from each such well, and while such royalty is so paid such well shall be held to be a producing well. The lessor to have gas free of charge from any gas well on the leased premises for stoves and inside lights in the principal dwelling house on said land by making his own connections with the well, the use of said gas to be at the lessor's sole risk and expense.

To pay lessor for gas produced from any oil well and used off the premises or in the manufacturing of gasoline or any other product a royalty of one-eighth (1/8) of the market value, at the mouth of the well, payable monthly at the prevailing market price. If operations for the drilling of a well for oil or gas are not commenced on said land on or before one year from this date, this lease shall terminate as to both parties, unless the lessee shall, on or before one year from this date, pay or tender to the lessor or for the lessor's credit in The Office of the County Treasurer, McClusky, North Dakota, or its successor or successors, which bank and its successors are lessor's agents and which shall continue as the depository regardless of changes in the ownership of the land, the sum of Two Thousand and Twenty Seven and 60/100ths., Dollars which shall operate as a rental and cover the privilege of deferring the commencement of operations for the drilling of a well one year from said date. In like manner and upon like payments or tenders the commencement of operations for the drilling of a well may be further deferred for like periods successively during the primary term of this lease. And it is understood and agreed that the consideration first recited herein, the down payment, covers not only the privileges granted to the date when said rental is payable as aforesaid, but also the lessee's option of extending that period as aforesaid, and any and all other rights conferred. All payments or tenders may be made by check or draft of lessee or any assignee thereof, mailed or delivered on or before the rental paying date. Lessee may at any time execute and deliver to lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered and thereafter the rentals payable hereunder shall be reduced in the proportion that the acreage covered herein is reduced by said release or releases. Notwithstanding the death of the lessor, or his successor in interest, the payment or tender of rentals in the manner provided above shall be binding on the heirs, devisees, executors and administrators of such persons.

If at any time prior to the discovery of oil or gas on this land and during the term of this lease, the lessee shall drill a dry hole, or holes, on this land this lease shall not terminate, provided operations for the drilling of a well shall be commenced by the next ensuing

rental paying date, or provided the lessee begins or resumes the payment of rental in the manner and amount above herein provided; and in this even the preceding paragraphs hereof governing the payment of rentals and the manner and effect thereof shall continue in force.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals herein provided for shall be paid the lessor only in the proportion which his interest bears to the whole and undivided fee.

Lessee shall have the right to use, free of cost, gas, oil, and water produced on said land for its operation thereon, except water from wells of lessor.

When requested by lessor, lessee shall bury his pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now on said premises,

Without the written consent of the lessor.

Lessee shall pay for damages caused by its operations to growing crops on said land.

Lessee shall have the right at any time to remove all improvements, machinery, and fixtures placed or erected by lessee on said premises, including the right to pull and remove casing.

If the lessee shall commence to drill a well within the term of this lease or any extension thereof, the lessee shall have the right to drill such well to completion with reasonable diligence and dispatch, and if oil or gas, or either of them be found in paying quantities, this lease shall continue and be in force with the like effect as if such well had been completed within the term of years herein first mentioned.

If the estate of either party heretofore assigned ( and the privilege of assigning in whole or in part is expressly allowed ), the covenants hereof shall extend to their heirs, executors, administrators, successors and assigns, but no charge of ownership in the land or in the rentals or royalties shall be binding on the lessee until after notice to the lessee and it has been furnished with the written transfer or assignment or a certified copy thereof, and in case lessee assigns this lease, in whole or in part, lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

If the leased premises shall hereafter be owned in severalty, or in separate tracts, the premises, nevertheless, shall be developed and operated as one lease and all royalties accruing hereunder shall be treated as an entirety and shall be divided among and paid to such separate owners in the proportion that the acreage owned by each such separate owner bears to the entire lease acreage. There shall be no obligation on the part of the lessee to offset wells on separate tracts into which the land covered by this lease may be hereafter divided by sale, devise or otherwise, or to furnish separate measuring or receiving tanks. It is hereby agreed that, in the event this lease shall be assigned as to a part or as to parts of the above described lands, and the holder or owner of any such part or parts shall fail or make default in the payment of the proportionate part of the rent due from him or them, on an acreage basis, such default shall not operate to defeat or affect this lease in so far as it covers a part or parts of said land upon which the said lessee or any assignee hereof shall make due payments of said rentals.

If at any time there be as many as six parties (or more) entitled to receive royalties under

this lease, lessee may withhold payment thereof unless and until all parties designate in writing in a recordable instrument to be filed with the lessee, a Trustee to receive all royalty payments due hereunder and to execute division and transfer orders on behalf of said parties and their respective successors in title.

Lessee shall have the right to unitize, pool, or combine all or any part of the above described lands with other lands in the same general area by entering into a cooperative unit plan of development or operation approved by any governmental authority and from time to time, with like approval, to modify, change or terminate any such plan or agreement and, in such event, the terms, conditions, and provisions of this lease shall be deemed modified to conform to the terms, conditions, and provisions of such approved cooperative or unit plan of development or operation and, particularly, all drilling and development requirements of this lease, express or implied, shall be satisfied by compliance with the drilling and development requirements of such plan or agreement, and this lease shall not terminate or expire during the life of such plan or agreement. In the event that said above described lands or any part thereof, shall hereafter be operated under any such cooperative or unit plan of development or operation whereby the production therefrom is allocated to different portions of the land covered by said plan, then the production allocated to any particular tract of land shall, for the purpose of computing the royalties to be paid hereunder to lessor, be regarded as having been produced from the particular tract of land to which it is allocated and not to any other tract of land; and the royalty payments to be made hereunder to lessor shall be based upon production only as so allocated. Lessor shall formally express lessor's consent to any cooperative or unit plan of development or operation adopted by lessee and approved by any governmental agency by executing the same upon request of lessee.

In the interest of conservation, the protection of reservoir pressures and the recovery of the greatest ultimate yield of oil, gas and other minerals, less shall have the right to combine the leased premises with other premises in the same general area for the purpose of operating and maintaining repressuring and recycling facilities, and for such purpose may locate such facilities, including input wells, upon the leased premises, and no royalties shall be payable hereunder upon any gas used for repressuring and recycling operations benefiting the leased premises.

Lessor hereby agrees that the lessee, at its option, may pay and discharge any taxes, mortgage, or other liens existing, levied, or assessed on or against the above described lands and, in event it exercises such option, it shall be subrogated to the rights of any holder or holders thereof and may reimburse itself by applying to the discharge of any such mortgage, tax or other lien, any royalty or rentals accruing hereunder.

All rental payments which may fall due under this lease may be made to The County Treasurer for the above named lessors, in the manner herein stated.

If within the primary term of this lease production on the leased premises shall cease from any cause, this lease shall not terminate provided operations for the drilling of a well shall be commenced before or on the next ensuing rental paying date; or provided lessee begins or resumes the payments of rentals in the manner and amount hereinbefore provided. If, after the expiration of the preliminary term of this lease lessee resumes operations for drilling a well within sixty (60) days from such cessation, and this lease shall remain in force during the prosecution of such operations and, if production results therefrom, then as long as production continues.

(Scratched out.)

All express and implied covenants of this lease shall be subject to all federal and state laws, executive orders, rules and regulations, and this lease shall not be terminated, in whole or in part, nor lessee held liable in damage for failure to comply therewith if compliance is prevented by or if such failure is the result of any such law, order, rule or regulations, or if such compliance is prevented by or failure is the result of inability of lessee through no fault of its own, to obtain sufficient and satisfactory material and equipment to justify the commencement of drilling operations or to continue production of oil or gas from the leased premises.

This lease and all its terms, conditions, and stipulations shall extend to and be binding on all successors of said lessor or lessee.

With respect to and for the purposes of this lease lessor, and each of them if there be more than one, hereby release and waive the right of homestead.

Whereof witness our hands as of the day and year first above written.

Pursuant to the provisions of Chapter 63-0103 North Dakota Revised Codes of 1943, notice is hereby given to every person owning or occupying land in Sheridan County, North Dakota, to destroy all noxious weeds at the times and in the following manner prescribed by the Sheridan County Board of County Commissioners, to wit:

CANADA THISTLE, SOW THISTLE AND FIELD BINDWEED-----The applications of 2 4-D each year oveqr a period of 2 or more years are necessary. The first application should be at the bud stage with the second in early fall when regrowth has occurred. From 1 to 2 pounds of 2 4-D per acre should be applied each time to weaken plants and prevent seed production. Intensive cultivation, later after treating with 2 4-D, has given good control. For field bindweed 4 to 6 lbs. per square rod of Sodium Chlorate may be used for complete eradication.

LEAFY SPURGE, HOARY CRESS AND RUSSIAN KNAPWEED-----In grain crops, applications of one pound of 2 4-D, perferable amine salt, made at early bud stage, reduces the stand. Where solid infestation occur, rates of 2 to 3 pounds are best for the first year. Lower rates may be used for following treatments. On non-crop land, infested areas should be seeded in an adapted grass. For small patches these weeds may be eradicated by the use of Sodium Chlorate or Boron Compounds. Application applied at 8 lbs to the wquare rod in early summer.

MORE INFORMATION MAY BE OBTAINED AT THE COUNTY AGENT'S OFFICE.

Noxious weeds as defined by law are: Canada thistle, Sow Thistle, Leafy Spurge, Field Bindweed, Russian Knapweed, and Hoary Cress.
