sion, producing the Amsak or Pima 32 varieties of American-Egyptian cottonseed in 1950 in the capacity of landowner, landlord, tenant, or sharecropper. In addition, any cooperative association normally handling cottonseed for its members shall also be an eligible vendor.

§ 643.478 *Eligible cottonseed*. Eligible cottonseed shall be cottonseed meeting all of the following requirements:

(a) Such cottonseed must have been produced in the continental United States in 1950.

(b) Such cottonseed must be offered for sale by a person who has a legal right to sell such cottonseed.

(c) Such cottonseed must be "registered," "certified," "select," or "good" cottonseed of the Amsak or Pima 32 varieties. As used in this subpart, "registered" and "certified" cottonseed shall be those seeds designated as "registered" or "certified," as the case may be, by the State Crop Improvement Association or other recognized seed certifying agency for the State. "Select" cottonseed shall be seed which do not quite meet the standards for "registered" or "certified" seed. "Good" cottonseed shall be seed which do not meet the requirements for "select" seed but shall be the best seed other than "registered," "certified," or "select" which are available and which are suitable for planting purposes. "Select" and "good" cottonseed shall be selected by the State PMA Chairman or his designee. In making the selection, such assistance as is necessary to assure the purchase of good planting seed will be obtained from representatives of the Bureau of Plant Industry, Soils, and Agricultural Engineering.

(d) Such cottonseed shall be tested for germination by a State authority, or a reputable laboratory, from representative samples drawn and transmitted by the State or County PMA Committees, or their designees, and the germination percentage so determined shall be not less than 80 percent.

(e) Such cottonseed shall contain not in excess of 10 percent moisture, as reflected by mechanical moisture tests made by the State or County PMA Committees, or their designees.

(f) Such cottonseed shall be delivered in clean, sound, closely woven bags.

(g) Each bag of such cottonseed must bear a tag marked "registered," "certified," "select," or "good" and affixed by a representative of the State Crop Improvement Association or other seed certifying agency for the State, or by the State or County PMA Committees, or their designees, and shall bear a serial tag or other identification number, the lot number, the name of the variety of seed, and the percentage of germination as determined by a State authority or reputable laboratory.

§ 643.479 *Purchase rates.* The purchase rates shall be uniform for the States of Arizona and California and shall also be uniform for the States of New Mexico and Texas. These rates shall be equal to the gin-yard price of American-Egyptian cottonseed to producers on date of ginning, plus \$60.00 per ton for "registered" and "certified" cottonseed and \$45.00 per ton for "select" and "good" cottonseed. The State Committees shall, from time to time, determine the gin-yard prices of American-Egyptian cottonseed to producers in the States of Arizona and California on the basis of current prices being paid by oil mills in Phoenix, Arizona, and in the States of New Mexico and Texas, on the basis of current oil mill prices in El Paso, Texas.

§ 643.480 *Storage.* Such cottonseed, at time of purchase, must be stored in a public warehouse or other facility approved by the Commodity Credit

Corporation for the storage of the cottonseed. The State Chairman or his designated representative shall be responsible for all CCC-owned cottonseed not stored in a public warehouse. Each lot of cottonseed stored in a public warehouse shall be covered by a warehouse receipt showing the name of the variety of seed, the class (i. e., "registered," "certified," "select," or "good") of seed, the lot number, the total gross weight of all bags of seed contained in the lot represented by the receipt, and the number of bags in the lot. A document acceptable to the State PMA Chairman or his designee which contains the foregoing information shall be furnished to CCC for each lot of cottonseed stored in a facility other than a public warehouse. All storage and handling charges shall be paid by vendor to date of purchase. The various classes (i. e., "registered," "certified," "select," and "good") shall be segregated one from the other in the storage place.

§ 643.481 *Quantities to be purchased.* The quantity of cottonseed which will be purchased will include all lots of "registered" and "certified" cottonseed offered prior to the closing date for purchases and about 3,000 tons of "select" and "good" cottonseed.

§ 643.482 *Liens.* If liens or encumbrances exist on the cottonseed, proper waivers must be obtained.

§ 643.483 *Payments for cottonseed.* Vendors will be paid the purchase price of the cottonseed by means of sight drafts drawn on CCC by State PMA Committees. As an alternative, payments may be made by the appropriate PMA Commodity offices.

§ 643.484 *PMA Commodity Offices.* The addresses of the appropriate PMA Commodity offices and the cotton growing area served by each are shown below:

335 Fell Street, San Francisco 3, Calif.: Arizona and California.

1114 Commerce Street, Dallas 2, Tex.: New Mexico and Texas.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. W]

PART 222—CONSUMER INSTALMENT CREDIT INTERPRETATIONS

§ 222.118 *Summary of interpretations of former Part 222 applicable under present Part 222—(a) Introductory*

statement. In view of the fact that Part 222, which became effective September 18, 1950, is similar in very many respects to Part 222 which was in effect until June 30, 1949, a number of the interpretations which were issued by the Board of Governors before the latter date are applicable under the present Part 222, as amended. These interpretations are summarized below.

The summaries, however, must be treated merely as examples demonstrating certain principles, and should be used only as aids in studying the application of Part 222. Since the complete facts involved in the administrative interpretations upon which the summaries are based are not set forth in full in the summaries, there can be no assurance that the facts of any new situations will be identical with those of the interpretations as condensed in the summaries. Therefore, caution should be exercised against reaching a conclusion in a given case solely on the basis of similarity to any one of the summaries.

References to sections of Part 222 in the summaries refer to sections of the present Part 222 which, in some cases, carry different numbers than the earlier Part 222. In addition, but without altering the principles expressed in the underlying interpretations, some of the summaries refer to other differences between the present Part 222 and the earlier Part 222.

The summaries are arranged below in approximately the same order as the provisions of Part 222 to which they relate.

(b) *Summaries—(1) Registrants may not purchase, discount, or lend upon non-conforming paper.* An obligation arising out of a bona fide transaction between two individuals not "engaged in the business" as described in § 222.2 (a), and consequently not subject to its requirements, may not subsequently be purchased or discounted or accepted as collateral by any Registrant if it shows on its face any failure to comply with the requirements of the part or if the Registrant knows of any fact by reason of which it fails to comply.

(2) *Isolated transaction.* Although an automobile salesman may sell his demonstrator as an isolated transaction on terms which do not comply with the part, the dealer-employer, if a Registrant, may not purchase the resulting obligation unless it complies with the requirements of the part. Of course, if the relation of the salesman and the dealer is such that the automobile is in effect the property of the dealer rather than of the salesman, the sale would be subject to the part.

An organization which purchases substantial numbers of automobiles for cash and sells them to its salesmen on a monthly payment plan is "engaged in the business" described in § 222.2 (a) and the sales must comply with the down payment and other requirements of the part.

(3) *Advance by an organization to its agent.* An advance made by an organization, such as an insurance company, to one of its agents which is repayable in instalments is subject to the part to the same extent as any other instalment loan. It would not be subject to

the part if it is an isolated loan made by a company not "engaged in the business" of making instalment loans; or if it is exempt under § 222.7 as, for example, a loan to an agent to pay office rent or salaries of his employees (§ 222.7 (b)).

(4) *Registration not required if all credits are exempt.* A person need not register as required under § 222.2 (b) if every extension of consumer credit made by him is exempt from the provisions of the part by § 222.7.

(5) *Re-registering not required upon removal of office.* It is not necessary for a Registrant already registered to file another registration statement upon moving its principal office to another Federal Reserve district.

(6) *Transfer of equity.* Where the original instalment purchaser of a listed article transfers his equity to another purchaser by transferring the article subject to the original debt and lien, the transfer being arranged directly between the parties and not by or through any Registrant, the transfer may be made without restriction under the part provided the original purchaser (who is not a Registrant) remains liable on the contract and there is no change in the contract except the addition of the signature of the new purchaser. However, if the original purchaser is released, or the terms of the contract are altered, the same requirements would apply as if the Registrant were making an ordinary instalment sale of the listed article.

(7) *Conversion of noninstalment credit.* Where an entire credit in good faith originates as and is evidenced by an obligation payable in a lump sum, its later conversion to an instalment basis by the same Registrant does not make it subject to the part as an "instalment credit". It is essential, of course, that the original transaction be in good faith and not a subterfuge.

(8) *Free merchandise and rebates.* An instalment vendor of a listed article is not prohibited by the part from making a bona fide "free" gift of other merchandise to the buyer of a listed article, provided the transaction is consummated on the basis of the "bona fide cash price" of the listed article. A cash price would not be bona fide if it were raised to permit the so-called "free" gift, and such a practice would be an evasive device to circumvent the down payment requirement. In the latter case the record required by § 222.3 (b) should show the "bona fide cash price," rather than the inflated price, on which the customer made the required down payment and the resulting time balance; and, if so handled, the "free" gift would not violate the part.

A bona fide discount or rebate on the sales price of a listed article is not prohibited by the part. In such a case the aforementioned record should show that an article selling at a particular price was reduced to a price net of discount upon which the required down payment was obtained.

(9) *Insurance relating to listed article.* When insurance relating to a listed article is sold or financed in connection with the listed article by the Registrant who sells or finances the listed

article, the insurance cannot be treated as a separate exempted sale of an unlisted article, but must be included in the "time balance" as required by § 222.3 (a) and § 222.6 (c), and must be scheduled for repayment within the applicable maximum maturity as specified in § 222.3 (a) and § 222.3 (b). The same treatment is required in the case of instalment loans.

(10) *Service relating to listed article.* When a service relating to a listed article is sold or financed in connection with the listed article by the Registrant who sells or finances the listed article, the service cannot be treated as a separate exempted sale of an unlisted article, whether or not the service is covered by a separate contract. The service must be included as a part of the "cash price" of the listed article in computing the maximum loan value or down payment, and must be scheduled for repayment in the manner applicable to the listed article. In the usual case, the amount charged for the service would be essentially a part of the selling price of the article, and § 222.8 (j) (7) specifically includes "the bona fide charge for any services sold or financed in connection with the article." Section 222.6 (h) regarding evasive agreements also might be relevant in the consideration of such matters.

(11) *Agreement to convert charge account.* The sale of a listed article in a charge account with an agreement or understanding that the credit will later be converted into an instalment contract violates § 222.3 (a) and § 222.6 (h).

(12) *Delay in delivery.* If in an instalment sale subject to the part the article sold is not going to be delivered until a date subsequent to the date of the contract, § 222.6 (b) permits the maximum maturity to be calculated from the date of delivery; and, except as permitted by § 222.6 (a), the first instalment shall be scheduled to fall due not later than one month after the date of delivery with, of course, the option under § 222.6 (b) of making the 15-day adjustment permitted by that section with respect both to the maximum maturity and the date of the first instalment.

(13) *Instalments in decreasing amounts.* Section 222.3 (b) (1) and § 222.4 (c) (1) are worded in the alternative. For example, a first instalment of, say, \$65 may be followed by the remaining permissible number of scheduled instalments of, say, \$25.

(14) *Minimum monthly payments.* The \$5 minimum monthly payment requirement of § 222.3 (b), § 222.4 (c), and § 222.5 (a) does not prevent the last scheduled instalment payment of a regulated obligation from being less than \$5.

(15) *Waiver or skipping of instalment payments.* A prearrangement in the form of a "side agreement" or understanding that the first instalment payment of the time balance arising from an instalment sale will be waived or paid by the Registrant, would contravene § 222.6 (b) and, in effect, would constitute provision for refund of a part of the required down payment contrary to § 222.3 and § 222.6 (h). In view of the

pertinent sections of the part, any arrangement or understanding at the time the credit is extended providing for the skipping of any instalment payment, including the first, would be contrary to the part unless, of course, the case were such as might be covered under § 222.6 (a).

(16) *Record of instalment sale.* The "record of an instalment credit" as described in § 222.6 (c) need not be on a single sheet of paper and need not use the terminology used in that section. The cash price may be shown as a total without itemizing taxes and accessories, but the accessories must be identified.

(17) *Financing replacement article.* Where any of the insurance proceeds received in settlement for an irreparably damaged listed article are used as a down payment on a replacement listed article rather than toward payment of the loan previously made to finance the purchase of the damaged article, it would be in violation of the part for a Registrant to make a new advance to the borrower to purchase a replacement article in an amount which, when added to the old loan balance, would exceed the maximum credit value of the replacement listed article.

(18) *Obligation payable to seller or financial institution.* If the seller of a listed article takes an instalment note in payment, the transaction is a sale subject to the part, whether the note is payable to the seller or to a bank or finance company. If the seller of an unlisted article takes a note payable to himself, the transaction is exempt from the part because the part does not apply to the sale of an unlisted article. However, if the seller of an unlisted article takes an instalment note payable to a bank or finance company, the transaction (depending, of course, upon the principal amount involved) is subject to the part as an instalment loan.

(19) *Balloon note.* A note evidencing an unclassified instalment loan, for example, which calls for 11 equal monthly payments followed by one larger payment meets the requirements of § 222.4 (c) if, assuming the maximum permissible maturity to be 15 months, there is an express agreement that when the twelfth payment falls due, only one-fourth of it will be paid on that date and the rest will be refinanced into 3 monthly payments in such manner that the net result will be 15 substantially equal monthly payments.

(20) *Statement of Borrower.* Where there are several parties to a note, some of whom are accommodation makers, the Statement of the Borrower required by § 222.4 (d) need be obtained only from the party who received the proceeds of the loan.

(21) *Loan over \$2,500 or \$5,000.* A loan over \$5,000 is not subject to the part even if a portion of it is to be used to pay off an indebtedness which was subject to the part. The renewal or revision of a loan which was originally more than \$5,000 is not subject to the part even though the balance at the time of renewal or revision is less than \$5,000. If instead of renewing or revising such an obligation, the lender makes one instalment loan of less than \$5,000, a por-

tion of the proceeds of which are to be used to pay off the old obligation, only the portion of the loan representing new money is subject to the part. In such cases, however, it would ordinarily be better practice for the lending institution to keep the two credits separate. Appropriate modification in the application of these principles are necessary, of course, in the light of the provisions of § 222.7 (a).

(22) *Add-on sale over \$2,500 or \$5,000.* An add-on sale of a listed article having a cash price of \$900 which is consolidated with an existing obligation of \$4,200 resulting in a total credit of more than \$5,000, is not subject to the part, and therefore no down payment is required in connection with the add-on sale. However, if the total credit is less than \$5,000, the down payment is required. Appropriate modification in the application of these principles are necessary, of course, in the light of the provisions of § 222.7 (a).

(23) *Reduction in interest rate.* A good faith reduction in the interest on a pre-September 18, 1950, instalment loan which would be effected simply by a letter from the lender to the borrower and which, except for a pro rata scaling down of instalment payments, would not otherwise change or modify the obligation, would not constitute a "revision" of the loan under § 222.5 (a) so as to require compliance with that section. However, if an instalment loan were one subject to the part, a reduction of interest should not result in scheduled payments below the minimum amounts required by §§ 222.4 (c) and 222.5 (a) (2).

(24) *Defaulted obligations.* Section 222.5 (c) (1) permits a Registrant to renew or revise an obligation on such terms as he deems necessary in good faith, where the obligation is in default and the subject of bona fide collection effort by him and the action is for his own protection. Only the Registrant holding the obligation is permitted to make such renewals or revisions. Another Registrant, however, may discount and receive payments upon an obligation which prior to discount has been renewed or revised as permitted by § 222.5 (c) (1). The section also permits a Registrant who has purchased a delinquent instalment obligation and who has exercised a bona fide collection effort, to revise the obligation on terms not initially permissible. Any renewal or revision pursuant to § 222.5 (c) (1) must be the last resort (except, of course, litigation) and a measure to be taken only after other means of collection have been exhausted.

(25) *Resale of repossessed listed article.* The fact that an automobile or other listed article has been repossessed does not in any way authorize the resale by a Registrant contrary to the requirements of the part, including the down payment or maximum loan value and instalment payment and maturity requirements. This rule is contained in the proviso at the end of § 222.5 (c). It is immaterial that the repossession and sale to a new purchaser follow a "bona fide collection effort" rather than an ordinary or other repossession of the car.

(26) *Listed article installed in house.* Section 222.7 (h) (1) exempts a loan to

purchase a house even if the house is one in which certain listed articles had previously been incorporated. However, § 222.7 (h) (1) does not exempt a mortgage loan to be used to purchase a listed article.

In view of § 222.6 (d), an extension of credit which combines an exempt credit such as one to construct a detached garage and a credit subject to the part such as one to finance a listed article can not exceed in amount the cost of the garage plus the cost of the listed article minus the down payment required thereon by the part, and the instalments in which the credit is payable must be sufficiently large to repay the balance of the cost of the listed article within the maturity specified for the listed article in Part 2 of § 222.9.

(27) *Credit for mixed purposes.* Where an extension of instalment credit arises out of the sale of a listed article, for example, repairs to a dwelling, and the conversion of a part of the dwelling into an office, § 222.6 (d) relating to mixed credits applies. The sale of the repairs would be subject to the part, while the conversion project would be exempt.

(28) *Sale or delivery on trial.* A present instalment sale of a listed article is subject to the part in the usual manner without regard to § 222.6 (f). This is true even though a part of the sales agreement gives the buyer an option to return the article, instead of paying the price, and thereby revert in the vendor complete ownership or property in the article. If an agreement of the kind specified in the second paragraph of § 222.6 (f) is executed and delivered in connection with an agreement evidencing a present instalment sale, as for example, a conditional sales contract, and collection by the Registrant of the required deposit or down payment is delayed, such an arrangement would not fall within or comply with § 222.6 (f), nor would it comply with the requirements of § 222.3 (a). However, where a listed article or listed-article "demonstrator" is delivered to a prospective instalment buyer and he must subsequently in some way manifest his acceptance or willingness to buy before ownership or property in the article or a similar article passes to him, then the original delivery in such a transaction would be of the type covered by § 222.6 (f).

(29) *Delivery prior to down payment.* Where pursuant to a sales promotion arrangement a Registrant sets aside a listed article for a customer pending the accumulation of the required down payment but delivers for the customer's use in the meanwhile a similar listed article, the transaction would not comply with the requirements of the part and would be contrary to § 222.6 (f) and § 222.6 (h).

(30) *Side loan to make down payment.* The words "any other extension of credit" in § 222.6 (i) include but are not confined to other extensions of instalment credit.

Section 222.6 (i) refers to the down payment required by the part. Accordingly, if a seller asks for a larger down payment than is required by the part, § 222.6 (i) would not prevent the lender from lending the difference between the

down payment required by the part and the down payment required by the seller.

(31) *Additional credit and release of collateral.* A Registrant holding an unpaid, unclassified instalment loan secured by a listed article may release such article for the borrower's use as a trade-in on a new or different listed article and make an instalment loan to the borrower for the purpose of purchasing the new or different article, in the amount of the maximum loan value thereof, assuming that the parties act in good faith and that the unclassified loan is not otherwise changed or modified. If, however, the earlier unpaid instalment loan had been for the purpose of purchasing a listed article then, under § 222.6 (i), neither the same nor another Registrant properly could make the second loan since, to do so, would constitute an extension of credit in connection with the purchase of a listed article in excess of that permitted by the part.

(32) *Automobile demonstrator exemption.* In order for the exemption under § 222.7 (c) to apply to credit extended to an automobile salesman to finance the purchase of a new automobile for use principally as a demonstrator: (a) The salesman must be a bona fide salesman of new automobiles of the same make and year as the automobile purchased as a demonstrator—the exemption is not applicable to salesmen whose sales are confined to used cars nor to persons who are not employed principally as salesmen, such as mechanics, parts clerks, office workers, etc.; (b) the phrase "used by him principally as a demonstrator" is not intended to require that the automobile be used principally for the transportation of his prospective purchasers, since the phrase may also include the salesman's use of the automobile for other bona fide demonstration practices.

Because of § 222.8 (a), in all such cases the Registrant, whether the dealer or a financing institution, must have in his or its records a statement or other record of the facts establishing the exemption of any such paper.

(33) *Sale of "demonstrator" automobile.* The sale of an automobile which has been used and driven as a "demonstrator" by an automobile dealer or salesman constitutes the sale of a used automobile, even though the automobile has not been previously sold and regardless of whether such sale occurred before or after the next successive model change for that make of automobile.

(34) *Loans to carry securities.* The word "Carrying" in § 222.7 (g) means the refinancing of any indebtedness originally incurred for the purpose of purchasing investment securities.

Section 222.7 (g) would not exempt a loan made by a credit union secured by its shares to enable the borrower to purchase such shares if there were an agreement that the borrower would be permitted to withdraw any portion of the share account at any time if the credit union felt that the loan was otherwise adequately secured, because such a loan would have a dual purpose and not the single purpose mentioned in § 222.7 (g) and, in addition, the loan would not be fully secured within the meaning of § 222.7 (k).

(35) *Loans to purchase building and loan shares.* Loans for purposes of purchasing or carrying building and loan shares are exempt from the requirements of the part under the last clause of § 222.7 (g).

(36) *Investment securities.* Savings passbooks are not "investment securities" under § 222.7 (g).

(37) *Orthopedic and related devices exempted.* Loans to finance purchases of artificial limbs, hearing aids, contact lenses, other such corrective appliances, and wheel-chairs would qualify for exemption under § 222.7 (i) if the statement required by that section clearly indicates in addition to the other information the use to which the proceeds are to be put.

(38) *Preservation of records.* The requirement of § 222.8 (a) that the Registrant preserve relevant documents for the "life of the obligation to which they relate," includes the "Statement of the Borrower" required under § 222.4 (d).

The term "obligation" as used in § 222.8 (a) means the original obligation with respect to which the Statement of Borrower was procured and, therefore, does not require the preservation of the Statement executed in connection with such original obligation after a new obligation has arisen by virtue of a revision of the old credit.

(39) *Consumer-violator.* A consumer who knowingly violates or induces violations of the part may subject himself to criminal penalties.

(40) *Bank discounting obligation.* A bank which purchases or discounts an obligation is not required to ascertain whether the seller is licensed under the part.

If a bank lends to a finance company on the security of instalment obligations arising from sales of listed articles, there could be no violation of the part in making such a loan or receiving payments on the loan from the finance company so long as the payments do not arise directly from the underlying obligations held as collateral. However, if and when the bank wishes to resort to the collateral and to obtain payments directly out of the underlying obligations, it may not do so unless the requirements of § 222.8 (e) (2) were met.

(41) *Verification of loan value.* A bank or finance company purchasing or discounting automobile instalment paper is not required by § 222.8 (e) (2) to check appropriate appraisal guides to verify that the instalment credit extended does not exceed two-thirds of the appraisal guide value in cases where the appraisal guide value is lower than the "cash price." Of course, if it appeared from the face of the obligation or accompanying papers, or if the Registrant knew from any other source, that the maximum credit value was exceeded, then the Registrant would not be entitled to the benefits of § 222.8 (e) (2) with respect to such obligation.

(42) *Effective date; pre-September 18, 1950, contract.* The delivery of a new, more expensive listed article to replace a defective less expensive listed article which was purchased on an instalment basis prior to September 18, 1950, is a new instalment sale and is subject to

the provisions of the part, but any payments already made on the defective article may be credited against the down payment required by the part on the new article.

(43) *Single payment or instalment credit.* An extension of credit, which upon its face is repayable in only one scheduled payment, is an extension of instalment credit if at the time it is made the lender and the borrower have an understanding that the borrower will be required to make only a partial payment at maturity and that the balance will be renewed.

This would be true also where the single payment obligation was created prior to September 18, 1950, and the agreed instalment arrangements were not completed until after that date and involved the substitution of new or different paper for the original evidence of debt. Here, of course, the original obligation, including the instalment arrangements, would constitute a pre-September 18, 1950, contract.

However, if a Registrant makes a sale on credit under an agreement which does not expressly provide for instalment payments by the customer, the transaction need not be treated as an "instalment sale" even though the customer has previously made partial, divided, or serial payments in his account, or, regardless of previous practice, indicates an intention to do so in this instance: *Provided*, There is no bilateral understanding between the customer and the seller that the customer is required to make payments in such manner. Likewise, an ordinary bank loan evidenced by a promissory note payable in full at maturity is not an "instalment" loan subject to the part even though the bank may anticipate that at the maturity of the note it may accept partial payment and a renewal note, provided the bank makes no commitment to do so and the transaction is entered into in good faith and not as a means of evading the part.

(44) *Joint instalment sale to several purchasers.* An arrangement, which may be described for the sake of illustration as follows, would be subject to the part. An automobile dealer would sell three automobiles to three different purchasers with payment to be made in instalments, the three purchasers would become jointly and severally liable for the entire amount of credit involved in the three sales, and each one of the purchasers would be indemnified by a surety bond against defaults by his joint obligors. The total credit would exceed \$5,000, but the amount involved with respect to each automobile would be less than \$5,000.

Viewed in its entirety, the transaction would really involve three instalment credits, each less than \$5,000, and could not properly be regarded as a single credit of more than \$5,000.

(45) *Accessories sold with automobiles.* Where a new automobile is sold equipped with accessories, such as radio and heater, the cost of the accessories is part of the "cash price" of the automobile under § 222.8 (j) (7), and the maximum loan value is limited to two-thirds of the total cash price.

(46) *"Cash price" established by instalment seller.* Where a Registrant

offers an article at either a cash price or a time price, the cash price being below the dollar amount specified in Part 1 of § 222.9 and the time price above that amount, a down payment would not be necessary if the article is in fact offered for sale for cash at the "cash price" under such circumstances as to give each customer reasonable notice of the offer and reasonable opportunity to accept it.

(47) *Repairs and replacement parts.* Repairs and replacement parts for automobiles, refrigerators, and other articles listed in Groups A, B, or C of Part 1 of § 222.9 are not themselves listed articles.

(48) *Automobiles.* The classification "automobiles" includes station wagons and the "Jeep Station Wagon" (trade name). It does not include trailers, ambulances, hearses, or jeeps.

The classification "automobiles" includes the Chevrolet "Carry-all Suburban", the Willys-Overland "Jeep Utility Wagon", the GMC "Suburban" and other similar automobiles even though they are used or registered commercially or have certain heavy-duty or truck features or removable seats, since they are designed for the purpose of transporting less than 10 passengers.

(49) *Cooking stoves and ranges.* The classification "Cooking stoves and ranges" includes table model roasters and cookers. It does not include cooking and baking equipment designed for commercial use in restaurants and hotels, or a deep fat fryer designed for such use.

(50) *Ironers.* The classification "Ironers designed for household use" does not include hand irons.

(51) *Refrigerators.* The classification "Refrigerators and food freezers, mechanical", includes a system consisting of one or more cabinets with a separate mechanical refrigeration unit serving these cabinets. It does not include a locker in a locker plant; nor cabinets to hold or display ice cream or other products for sale; nor water coolers, nor milk coolers not designed for household use; nor automatic vending machines which cool as well as dispense soft drinks.

(52) *Washing machines.* A "Commercial model" automatic washer incorporating certain "heavy duty" features and equipped with a coin-operating device is a listed article within the meaning of the part if it is of a type readily adaptable for household use and is not designed exclusively for commercial use.

(53) *Radios, television sets, phonographs.* The classification "Radio . . . receiving sets" does not include radio transmitting sets or combination radio transmitting and receiving sets.

The classification "Phonographs or combinations" includes an automatic record player designed to play more than the usual number of records without repeating or changing and incorporating other unusual technical features but readily adaptable for household use and not designed exclusively for commercial use.

The classification "television receiving sets" includes sets suitable for private or home use even though they may be commonly used commercially. This is true, in the absence of other facts, even

though they may have exceptionally large screens or cabinets and may be equipped with a coin-operating device.

(54) *Furniture.* The classification "Furniture" includes an ice refrigerator regardless of the use to which it is to be put, unless its design and construction are such that it is clearly usable only for commercial purposes; it includes mirrors, unpainted furniture, kitchen or breakfast room sets, swings, and a prefabricated decorative fireplace not suitable for heating purposes. The classification "Furniture" does not include kitchen cabinets, pictures, chinaware, cooking utensils, or silver-plated flatware. Furniture of the type used in households is subject to the part even though the particular piece may be sold for use in an office, hospital, store, or other commercial building.

(55) *Small deficiencies in down payments.* Deficiencies in down payments, even in small amounts, are not permissible, except as permitted by § 222.6 (e).

(56) *Excess down payment.* A purchaser who has made a down payment in excess of the amount required by the part may not later have the excess applied as part of the down payment on another listed article.

(57) *Calculating down payment on automobiles.* The equity in a used car may be used as a down payment on another car, and for this purpose the dealer may accept the first car and pay off the contract on it. However, if the owner obtains a loan to pay off the contract on his old car, and in addition uses the car as a trade-in, the loan would violate § 222.6 (i).

Where a fictitious amount is added to the price of an automobile and is later eliminated from the price actually paid by the purchaser (either by an increase in trade-in allowance or by way of discount or otherwise) the "cash price" of the automobile under § 222.8 (j) (7) and Part 4 of § 222.9, does not include the fictitious amount thus added.

(58) *Calculating down payment on Group B listed articles.* When an article is traded in on a listed article other than an automobile, Part 5 of § 222.9 requires that the value of the article traded in (or the value of the purchaser's equity in it) be deducted in order to ascertain the net price to be used in calculating the down payment or loan value of the article being purchased. However, Part 5 of § 222.9 does not prohibit the seller from taking back an article which is unsatisfactory to the purchaser if the seller allows the full purchase price as a credit against the price of the new article. Of course, if the price of the new article in such a case is inflated in order to offset depreciation in the original article, the transaction would violate Part 5 of § 222.9 and § 222.6 (h).

PART 225—RESIDENTIAL REAL ESTATE
CREDIT

MISCELLANEOUS AMENDMENTS

1. Effective November 14, 1950, Part 225 is hereby amended in the following respects:

a. By striking out "within 30 days after the effective date of this part" in the last sentence of § 225.6 (b) and inserting in lieu thereof "prior to January 1, 1951".

b. By adding the following paragraph (k) to § 225.5:

(k) *New construction begun before October 12, 1950.* The prohibitions of this part shall not apply to any real estate construction credit extended prior to May 1, 1951 with respect to new construction begun prior to October 12, 1950.

2. a. The above amendments are issued by the Board of Governors of the Federal Reserve System with the concurrence of the Housing and Home Finance Administrator, under authority of the "Defense Production Act of 1950", approved September 8, 1950, and Executive Order No. 10161, dated September 9, 1950.

The purposes of the amendments are to exempt from the prohibitions of the part, real estate construction credit extended prior to May 1, 1951, on new construction begun prior to October 12, 1950, the effective date of the part, and to extend until December 31, 1950, the time permitted for filing with the Federal Reserve Banks statements of facts with respect to unwritten agreements to extend credit which were entered into prior to October 12, 1950.

b. Section 709 of the Defense Production Act of 1950 provides that the functions exercised under such act shall be excluded from the operations of the Administrative Procedure Act (60 Stat. 237) except as to the requirements of section 3 thereof.

Special circumstances have rendered impracticable consultation with industry representatives, including trade association representatives, in the formulation of the above amendments; and, therefore, as authorized by the aforesaid section 709, the amendments have been issued without such consultation.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs,
Department of the Treasury

[T. D. 52803]

PART 16—LIQUIDATION OF DUTIES

CONVERSION OF CURRENCY; MULTIPLE RATES
OF EXCHANGE

The United States Customs Court in its opinions in *United States v. Gothic*

Watch Co. (1949), Reap. Dec. 7712, and *Gruen Watch Co. v. United States (1950)*, C. D. 1216, has indicated that the use of multiple rates by a foreign country and certification of such multiple rates by the Federal Reserve Bank of New York does not result in different classes of such foreign currency for customs purposes. It has been determined that an amendment of § 16.4 of the Customs Regulations of 1943 (19 CFR 16.4) is necessary to reflect the opinion expressed by the Customs Court in these cases.

Accordingly, § 16.4 (d), Customs Regulations of 1943 (19 CFR 16.4 (d)), as amended, is hereby further amended as follows:

1. Subparagraphs (2) and (3) are amended to read as follows:

(2) Whenever appraisement is made in a multiple-rate currency, or the use of rates of exchange for a multiple-rate currency has been necessary in connection with the determination whether the foreign or export value is the higher, or the use of rates for a multiple-rate currency appears involved in any other manner in the process of appraisement or liquidation, the appraiser shall include in his report to the collector an advisory statement of his views as to what type of certified rate or combination of types of certified rates is applicable to the merchandise involved. If there is disagreement, which cannot be resolved locally, between the collector and appraiser as to what type of certified rate or combination of types of certified rates is applicable in a particular case, a detailed report shall be submitted to the Bureau so that appropriate instructions may be issued.

(3) For all purposes of appraisement and assessment of duties, the type of rate used for any value expressed in a currency for which two or more rates have been certified shall be the type of certified rate, designated by the Federal Reserve Bank of New York, which the appraiser or collector is satisfied, from information in his own files, information obtained and presented to him by the importer, or information obtained from other sources, is uniformly applicable under the laws and regulations of the country of exportation to the particular class of commodity on the date of exportation. In cases where two or more types of certified rates are uniformly applicable on a percentage basis, each type of certified rate shall be used for the percentage of the value to which it is applicable. The percentages used shall be those which reflect realistically the percentage for which each type of rate is uniformly applicable under the laws and regulations of the country of exportation on the date of exportation.

2. Subparagraph (4) is amended by inserting "type of" before "rate" and "types of" before "rates."

3. Subparagraph (5) is amended by inserting "type of" before "rate" and "types of" before "rates" in the first sentence; and by inserting "type of" before "rate" in each place where the latter word occurs in the second sentence.

Notice of the proposed issuance of the foregoing instructions was published in the FEDERAL REGISTER on September 20, 1950 (15 F. R. 6291), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). The basis of the instructions is section 522 of the Tariff Act of 1930 (31 U. S. C. 372) as construed by the courts, and their purpose is to provide instructions for applying multiple rates of exchange certified by the Federal Reserve Bank of New York for currency conversion for the assessment and collection of customs duties. These instructions shall be effective on the date of publication in the FEDERAL REGISTER, the delayed effective date requirements of section 4 (c) of the Administrative Procedure Act being dispensed with because the instructions relate to action to be taken by customs officers and, although affecting rights of interested persons, do not require any action to be taken by such persons.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes
[T. D. 5815]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

DEFINITION OF TERM "U. S. CITIZEN"

PARAGRAPH 1, Section 29.11-3 of Regulations 111 (26 CFR 29.11-3) is amended to read as follows:

§ 29.11-3 *Who is a citizen.* Every person born or naturalized in the United States, and subject to its jurisdiction, is a citizen. For rules governing the expatriation of citizens by birth and naturalized citizens, see sections 401-410 of the Nationality Act of 1940, as amended, 54 Stat. 1168 (8 U. S. C. 801-810). A foreigner who has filed his declaration of intention of becoming a citizen but who has not yet been admitted to citizenship by a final order of a naturalization court is an alien. See §§ 29.211-2 to 29.211-5, inclusive, for distinction between a resident alien individual and a nonresident alien individual.

PAR. 2. Inasmuch as the amendment made by this Treasury decision merely eliminates a conflict between the provisions of § 29.11-3 of Regulations 111 and sections 333-336 and 404-406 of the Nationality Act of 1940, as amended (8 U. S. C. 733-736 and 804-805), it is found that it is not necessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the

effective date limitation of section 4 (c) of said act.

- 20.201 Certificates to be issued.
- 20.202 Form of certifications.
- 20.203 Use of steel so obtained.
- 20.204 Rejection of certified orders.
- 20.205 Effect of directives.

§ 20.200 *Directives to be issued.* Directives will be issued by NPA to direct certain steel producers to accept certified orders for the production and delivery of steel for the construction of vessels designed for cargo and commercial use on the Great Lakes, as a part of the Great Lakes Vessels Program. The directives will specify the tonnage of each steel product to be shipped in the months referred to thereon. "The Great Lakes Vessels Program" means the construction of vessels as designated for such construction by the Defense Transport Administration which are primarily designed for use on the Great Lakes for the transportation of minerals, ores, limestone, coal, grain freight cars and other commercial cargo.

§ 20.201 *Certificates to be issued.* Persons engaged in the construction of vessels pursuant to the Great Lakes Vessels Program may place certified orders for steel pursuant to §§ 20.200 to 20.206: *Provided, however,* That no such certified order may be placed except for the amount of steel actually required to complete the construction of the vessels under the Great Lakes Vessels Program as designated by the Defense Transport Administration.

§ 20.202 *Form of certifications.* In order to place a certified order under the Great Lakes Vessels Program a manufacturer of vessels thereunder shall place the following certification on his purchase order or on a separate piece of paper attached thereto: "Certified that the material called for in this order is to be used only for the Great Lakes Vessels Program under NPA Supplement 2, Order M-1 as designated by Defense Transport Administration." Such certification shall be signed by an authorized representative of the purchaser.

§ 20.203 *Use of steel so obtained.* Steel obtained under the Great Lakes Vessels Program pursuant to the certifications provided in §§ 20.200 to 20.206 shall be used only for the construction of such vessels as are designated for construction by the Defense Transport Administration. All materials or components obtained, pursuant to §§ 20.200 to 20.206 shall be subject to the inventory control provisions of Part 10 of this chapter (NPA Reg. 1).

§ 20.204 *Rejection of certified orders.* A producer of steel need not accept a certified order under the Great Lakes Vessels Program which is received less than 45 days prior to the first day of the month in which shipment is requested, unless specifically directed to accept the order by National Production Authority.

§ 20.205 *Effect of directives.* When steel production has been scheduled pursuant to directives issued under §§ 20.200 to 20.206 such schedules shall be maintained by the steel producers unless otherwise directed by National Production Authority. Steel delivered under directives issued pursuant to §§ 20.200 to 20.206 shall not be considered produced under rated orders for the purpose of determining producers' obligations under §§ 20.5 and 20.6 of NPA Order M-1.

§ 20.206 *NPA assistance in placing orders under §§ 20.200 to 20.206.* Any person who is unable to place a certified order for steel pursuant to §§ 20.200 to 20.206 should apply to the NPA, Iron and Steel Division, Ref: Supp. 2 to Order M-1, specifying the producers who refused to accept this order. The NPA will arrange to assist him in locating sources of supply.

This supplement shall take effect on November 15, 1950.

PART 71—CONSTRUCTION

This order as amended is found necessary and appropriate to promote the national defense, and is issued pursuant to authority granted by Section 101 of the Defense Production Act of 1950. In the formulation of this order there has been consultation with industry representatives, including trade association

representatives, and consideration has been given to their recommendations. As the construction industry is composed of a large number of segments it has been impractical to consult all of the various trades and industries which comprise the industry on this amendment to the order.

This amendment affects NPA Order M-4 as amended October 31, 1950 as follows:

(a) It amends § 71.1, § 71.3, § 71.5, and two of the prohibited purposes listed in § 71.14; it adds two additional sections, § 71.6 and § 71.7 and adds four prohibited purposes to § 71.14; it rennumbers the remaining sections through 71.14. As so amended, this part (M-4) is revised to read as follows:

§ 71.1 *What this part does.* In order to further the purposes of the Defense Production Act of 1950 by conserving critical metals and other materials needed for the defense program, this part prohibits the commencement of construction of certain types of buildings and other structures. The construction prohibited is of a type which does not further the defense effort, either directly or indirectly, and does not increase the nation's productive capacity. The part permits, within specified limits, small jobs and construction for necessary maintenance and repair of buildings or structures of this type, and also permits, under specified circumstances, the restoration of such buildings or structures in the event of a disaster, act of God, or an act of war.

§ 71.2 *Policy of the National Production Authority.* In the event that increasing material shortages clearly indicate the necessity for such action in the national interest, NPA may further limit the commencement of construction of additional types of projects which do not support the defense effort or increase the Nation's productive capacity.

§ 71.3 *Definitions.* For the purpose of this part:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Construction" means the erection, construction, reconstruction, restoration, or remodeling of any building,

structure, or project, or additions thereto or extensions or alterations thereof.

(c) "Commence construction" means to incorporate into a building or other structure materials which are to be an integral part of the building or structure in question.

(1) The following activities constitute commencing construction: Pouring or placing of footings or other foundations; incorporating permanently in place additional building materials in a building which is being remodeled.

(2) The following activities do not constitute commencing construction: Demolition of buildings, tearing out partitions, site preparation such as excavation, grading, filling, laying down driveways, walks, railway sidings, etc., erecting temporary fences or construction barricades, work sheds and construction shanties, laying pipes, conduits and wires outside of the boundary lines of the walls of the structure, building retaining walls not physically incorporated within the structure.

(d) "Cost" means the total expense for materials, labor and services by whomsoever spent, but does not include expense of earth moving.

(e) "Maintenance and repair" means such work as is necessary to keep a structure or project in sound working condition or to rehabilitate a structure or project or any portion thereof, when the same has been rendered unsafe or unfit for service by wear and tear or other similar causes. The term does not include any building operation or job where substantial structural alterations or changes in design are made.

(f) "Damage restoration" means the restoring to substantially the same size and condition any structure which has been damaged by storm, fire, flood, or other disaster or by act of God or act of war.

(g) "Structure" means any project not classed as a building, such as, but not limited to, a stadium, athletic field, golf course, tennis court, race track, swimming pool, or a pier, pole, tower, framework or foundation with the fixed equipment located thereon, for flood or other lighting.

§ 71.4 *Prohibited construction.* Except as permitted in § 71.5, no person shall, after the date of this part, commence construction of any building or structure to be used for or in connection with any of the purposes specified, as set forth in § 71.14 (List A).

§ 71.5 *Exemptions.* The following construction in connection with the buildings or structures to be used in connection with any of the purposes specified in § 71.14 (List A) is exempted from this part:

(a) Maintenance and repair on any building or structure.

(b) Small jobs of new construction or in connection with any such building or structure including, but not limited to, alterations, additions, improvements and modernizations where the cost of all such work shall not exceed the sum of \$5,000 for any consecutive twelve months' period.

(c) Reconstruction of any such building or structure following a fire, flood,

storm, disaster, act of God or act of war which occurred on or after July 29, 1950. Any such restoration desired to be made following any such event which occurred prior to July 29, 1950 may be commenced only if so authorized by National Production Authority in accordance with an application for adjustment or exception pursuant to § 71.10.

(d) Construction by or for the account of the Department of Defense or the Atomic Energy Commission.

(e) Any such building or structure seized by legal action under eminent domain or condemned by appropriate authorities may be replaced, or a substitute therefor may be constructed, only if so authorized by National Production Authority in accordance with an application for adjustment or exception pursuant to § 71.8.

§ 71.6 *Multiple use buildings or structures.* Where a building or structure to be constructed is designed for a number of different uses and tenants, no portion thereof shall be constructed for use or occupancy in connection with any of the purposes specified in § 71.14 (List A) hereof where the cost apportionable to such use or occupancy shall exceed the small job exemption provided for in § 71.5 (b).

§ 71.9 *Defense against claims for damages.* No person shall be held liable for damages or penalties for any default under any contract or order which shall result directly or indirectly from compliance with any regulation or order of the NPA (including any direction, directive or other instruction) notwithstanding that any such regulation or order shall thereafter be declared by a judicial or other competent authority to be invalid.

§ 71.10 *Applications for adjustment or exception.* Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that such provision works an unreasonable hardship upon him not suffered generally by others in the same trade or industry or that its enforcement against him would not be in the interest of National Defense. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought, and shall state the reasons why denial of the request could result in undue and exceptional hardship. All such requests should be addressed to the National Production Authority, Washington 25, D. C., Ref.: M-4.

§ 71.11 *Communications.* All communications concerning this part shall be addressed to National Production Authority, Washington 25, D. C., Ref.: M-4.

RULES AND REGULATIONS

§ 71.12 *Reports.* Persons subject to this part shall make such records and submit such reports to the NPA as it shall require, subject to the terms of the Federal Reports Act.

§ 71.13 *Violations.* Any person who wilfully violates any provisions of this part or any other order or regulation of NPA or wilfully conceals a material fact or furnishes false information in the course of operation under this part is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. MISCELLANEOUS AMENDMENTS TO CHAPTER

A notice regarding proposed changes in the regulations for Licensing and Certifying of Merchant Marine Personnel, Motorboats, General Rules and Regulations for Vessel Inspection, and Dangerous Cargo Regulations was published in the FEDERAL REGISTER dated August 25, 1950, 5706 et seq., as Items II, III, IX, X, XI, XII, XIV, XV, XVIII, XIX, XXI, XXII, and XXIII on the agenda to be considered by the Merchant Marine Council, and a public hearing was held by the Merchant Marine Council on September 20, 1950, at Washington, D. (R. S. 4405, 4482, as amended; 46 U. S. C. 375, 475)

PART 114—FIRE APPARATUS; FIRE PREVENTION

Section 114.14b is amended to read as follows:

§ 114.14b *Fire-fighting equipment on vessels using oil as fuel.* (a) On all passenger vessels there shall be fitted an approved carbon dioxide or foam-type system for extinguishing fire in the bilges of each fireroom. If engine and boiler rooms are not entirely separate and fuel oil can drain from the boiler-room bilge into the engine room, the combined engine and boiler rooms shall be considered one compartment. The system shall be capable of being operated from a convenient and accessible point outside the space protected.

(b) When a carbon dioxide (CO₂) system is fitted, the quantity of carbon dioxide carried shall be sufficient to give a gas saturation of 25 percent of the gross volume of the largest boiler room from tank top to top of the boilers. The whole charge of gas shall be capable of being released instantaneously by operating one valve and control. All cylinders must be completely discharged in not more than 2 minutes. The arrangement of the piping shall be such as to give a general and fairly uniform distribution over the entire area protected. An alarm shall be provided to give a warning in the space when the carbon dioxide is about to be released. Provision shall be made to prevent the admission of air into the lower parts of the boiler room while the system is in operation.

(c) When a foam-type system is fitted its capacity shall be such as to rapidly discharge over the entire area of the bilge (tank top) of the largest boiler room a volume of foam 6 inches deep. The arrangement of piping shall be such as to give a uniform distribution over the entire area protected. The foregoing system may be of a type employing either two-solution tanks or one or more generators using an approved dry chemical mixture.

(d) All containers and valves by which they are operated shall be easily accessible and so placed that they will not readily be cut off from use by an outbreak of fire.

(e) In addition to the foregoing, there shall be provided one fire extinguisher of the foam type of at least 40 gallons rated capacity or one carbon dioxide (CO₂) of at least 100 pounds in steamships having one boiler room, and one such fire extinguisher in each additional boiler room. These extinguishers shall be equipped with suitable hose and nozzles on reels or other practicable means, easy of access and of sufficient length to reach any part of the boiler room and spaces containing oil-fuel pumping units: *Provided*, That on vessels of 750 gross tons and under, foam-type fire extinguishers of at least 20 gallons rated capacity or carbon dioxide (CO₂) of at least 50 pounds, fully equipped as the fire extinguishers above described, may be used.

(f) At annual inspections, all carbon dioxide (CO₂) cylinders, whether fixed or portable, shall be examined externally and replaced if any corrosion is found; and also shall be checked by weighing to determine contents, and if found to be more than 10 percent under required contents of carbon dioxide, the same shall be recharged.

(g) On all vessels of over 500 gross tons, using oil as fuel, there shall be in each fireroom a metal tank containing 10 cubic feet of sand, fitted with a scoop or shaker, for fire purposes; also two or more approved fire extinguishers of the carbon dioxide (CO₂) type, of not less than 15 pounds capacity each, or two foam-type fire extinguishers of not less than 2½ gallons capacity each.

(h) On all vessels of less than 500 gross tons, using oil as fuel, there shall be in each fireroom a metal tank containing not less than 5 cubic feet of sand, fitted with a scoop or shaker, for fire purposes; also one carbon dioxide fire extinguisher of not less than 15 pounds capacity, or one foam-type fire extinguisher of not less than 2½ gallons capacity.

(R. S. 4405, 4470, 54 Stat. 1028, sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 375, 463, 463a, and 50 U. S. C. 1275)

(e) Section 1426 of the Internal Revenue Code is amended by * * * inserting * * * the following:

(l) *Exemption of religious, charitable, etc., organizations.* (1) Waiver of exemption by organization. An organization exempt from income tax under section 101 (6) may file a certificate (in such form and manner, and with such official, as may be prescribed by regulations made under this subchapter) certifying that it desires to have the insurance system established by title II of the Social Security Act extended to service performed by its employees and that at least two-thirds of its employees concur in the filing of the certificate. Such certificate may be filed only if it is accompanied by a list

containing the signature, address, and social security account number (if any) of each employee who concurs in the filing of the certificate. Such list may be amended, at any time prior to the expiration of the first month following the first calendar quarter for which the certificate is in effect, by filing with such official a supplemental list or lists containing the signature, address, and social security account number (if any) of each additional employee who concurs in the filing of the certificate. The list and any supplemental list shall be filed in such form and manner as may be prescribed by regulations made under this subchapter. The certificate shall be in effect (for the purposes of subsection (b) (9) (B) and for the purposes of section 210 (a) (9) (B) of the Social Security Act) for the period beginning with the first day following the close of the calendar quarter in which such certificate is filed, but in no case shall such period begin prior to January 1, 1951. The period for which the certificate is effective may be terminated by the organization, effective at the end of a calendar quarter, upon giving two years' advance notice in writing, but only if, at the time of the receipt of such notice, the certificate has been in effect for a period of not less than eight years. The notice of termination may be revoked by the organization by giving, prior to the close of the calendar quarter specified in the notice of termination, a written notice of such revocation. Notice of termination or revocation thereof shall be filed in such form and manner, and with such official, as may be prescribed by regulations made under this subchapter.

(2) *Termination of waiver period by Commissioner.* If the Commissioner finds that any organization which filed a certificate pursuant to this subsection has failed to comply substantially with the requirements of this subchapter or is no longer able to comply therewith, the Commissioner shall give such organization not less than sixty days' advance notice in writing that the period covered by such certificate will terminate at the end of the calendar quarter specified in such notice. Such notice of termination may be revoked by the Commissioner by giving, prior to the close of the calendar quarter specified in the notice of termination, written notice of such revocation to the organization. No notice of termination or of revocation thereof shall be given under this paragraph to an organization without the prior concurrence of the Federal Security Administrator.

(3) *No renewal of waiver.* In the event the period covered by a certificate filed pursuant to this subsection is terminated by the organization, no certificate may again be filed

by such organization pursuant to this subsection.

(g) The amendments made by subsections (e) of this section shall be applicable only with respect to services performed after 1950.

SECTION 205 OF THE SOCIAL SECURITY ACT
AMENDMENTS OF 1950

DEFINITION OF EMPLOYEE

(a) Section 1426 (d) of the Internal Revenue Code is amended to read as follows:

(d) *Employee.* The term "employee" means—

(1) Any officer of a corporation; or
(2) Any individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee; or

(3) Any individual (other than an individual who is an employee under paragraph (1) or (2) of this subsection) who performs services for remuneration for any person—

(A) As an agent-driver or commission-driver engaged in distributing meat products, vegetable products, fruit products, bakery products, beverages (other than milk), or laundry or dry-cleaning services, for his principal;

(B) As a full-time life insurance salesman;

(C) As a home worker performing work, according to specifications furnished by the person for whom the services are performed, on materials or goods furnished by such person which are required to be returned to such person or a person designated by him, if the performance of such services is subject to licensing requirements under the laws of the State in which such services are performed; or

(D) As a traveling or city salesman, other than as an agent-driver or commission-driver, engaged upon a full-time basis in the solicitation on behalf of, and the transmission to, his principal (except for sideline sales activities on behalf of some other person) of orders from wholesalers, retailers, contractors, or operators of hotels, restaurants, or other similar establishments for merchandise for resale or supplies for use in their business operations;

If the contract of service contemplates that substantially all of such services are to be performed personally by such individual; except that an individual shall not be included in the term ("employee") under the provisions of this paragraph if such individual has a substantial investment in facilities used in connection with the performance of such services (other than in facilities for transportation), or if the services are in the nature of a single transaction not part of a continuing relationship with the person for whom the services are performed.

(b) The amendment made by this section shall be applicable only with respect to services performed after 1950.

§ 408.1426 (1)-1 *Scope of regulations.* These regulations relate to the provisions of section 1426 (b) (9) (B) and section 1426 (1) of the Federal Insurance Contributions Act, added by section 204 (a) and (e) of the Social Security Act Amendments of 1950, approved August 28, 1950. Such provisions relate to the waiver of exemption from the taxes imposed under the Federal Insurance Contributions Act by an organization which is exempt from income tax under section 101 (6) of the Internal Revenue Code and which desires to have the insurance system established by title II of the Social Security Act extended to services performed by its employees.

§ 408.1426 (1)-2 *Who may waive exemption.* Any organization that is exempt from income tax under section 101 (6) of the Internal Revenue Code may waive its exemption from the taxes imposed under the Federal Insurance Contributions Act by filing a certificate on Form SS-15: *Provided*, That at least two-thirds of the employees of the organization concur in the filing of the certificate. The organization must be exempt from income tax under section 101 (6) for the taxable year in which the certificate is filed; otherwise, the Form SS-15 filed by the organization is void.

If the period covered by the certificate is terminated by the organization, no certificate may again be filed by the organization under section 1426 (1).

§ 408.1426 (1)-3 *Form and effect of waiver.* The certificate on Form SS-15 shall be filed with the collector of internal revenue for the district in which is located the principal office or principal place of business of the organization. The organization shall certify in the certificate that it desires to have the insurance system established by title II of the Social Security Act extended to service performed by its employees and that at least two-thirds of its employees, determined on the basis of the facts existing as of the date the certificate is filed, concur in the filing of the certificate.

All individuals who are employees of the organization within the meaning of section 1426 (d) of the Federal Insurance Contributions Act, as amended by section 205 of the Social Security Act Amendments of 1950, shall be included in determining whether two-thirds of the employees of the organization concur in the filing of the certificate; except that there shall not be included (a) those employees who at the time of the filing of the certificate are performing for such organization services only of the character specified in paragraphs (9) (A), (11) (B), and (14) of section 1426 (b) of the Federal Insurance Contributions Act, as amended by section 204 of the Social Security Act Amendments of 1950, and (b) those alien employees who at the time of the filing of the certificate are performing services for such organization under an arrangement which provides for the performance only of services outside the United States not on or in connection with an American vessel or American aircraft. As used in the preceding sentence, the term "alien employee" does not include an employee who is a citizen of Puerto Rico, and the term "United States" includes Puerto Rico and the Virgin Islands.

The certificate may be filed only if it is accompanied by a list on Form SS-15a, containing the signature, address, and social security account number (if any) of each employee who concurs in the filing of the certificate. The list accompanying the certificate may be amended, at any time prior to the expiration of the first month following the first calendar quarter for which the certificate is in effect, by filing a supplemental list or lists on Form SS-15a Supplement, containing the signature, address, and social security account number (if any)

of each additional employee who concurs in the filing of the certificate.

The certificate shall be in effect for the period beginning with the first day following the close of the calendar quarter in which the certificate is filed, but in no case shall the effective period begin prior to January 1, 1951. Thus, if the certificate is filed on or before December 31, 1950, it will be in effect with respect to services performed in the employ of the organization on and after January 1, 1951. For termination of the waiver, see §§ 408.1426 (1)-4 and 408.1426 (1)-5. The certificate is not terminated if the organization loses its exemption under section 101 (6) of the Internal Revenue Code, but continues effective with respect to any subsequent periods during which the organization is so exempt.

Service performed in the employ of an organization which has duly filed a certificate is not excepted from employment under section 1426 (b) (9) (B) of the Federal Insurance Contributions Act, during the period for which the certificate is in effect, if such service is performed by an employee (a) whose signature appears on the list filed by the organization on Form SS-15a, or on Form SS-15a Supplement, or (b) who becomes an employee of the organization after the calendar quarter in which the certificate is filed. Consequently, the taxes imposed under the Federal Insurance Contributions Act will apply to the organization and to each employee whose services constitute employment and whose signature appears on the accompanying list or on any supplemental list or lists filed within the prescribed time, commencing with the first day following the close of the calendar quarter in which the certificate is filed (but in no event prior to January 1, 1951). Such taxes will also apply immediately with respect to services which constitute employment performed by any individual who enters the employ of the organization on or after the first day following the close of the calendar quarter in which the certificate is filed. The re-employment by the organization of a former employee after the certificate becomes effective shall be considered for the purposes of such taxes as a new employment, regardless of whether or not such individual concurred in the filing of the certificate.

In the case of a certificate filed by an organization in 1950, an individual who performed services for such organization during the calendar quarter in which the certificate was filed and who continued to perform services for such organization in the next calendar quarter shall not be considered to have begun a new employment solely by reason of the change made, by section 205 of the Social Security Act Amendments of 1950, in the definition of the term "employee" in section 1426 (d) of the Federal Insurance Contributions Act.

§ 408.1426 (1)-4 *Termination of waiver by organization.* The period for which the certificate is in effect may be terminated by the organization upon giving two years' advance notice in writing to the Commissioner of Internal Revenue of the organization's desire to

terminate the effect of the certificate at the end of a specified calendar quarter, but only if, at the time of the receipt of such notice by the Commissioner, the certificate has been in effect for a period of not less than eight years.

In computing the effective period which must precede the date of receipt of the notice of termination, there shall be disregarded any period or periods as to which the organization is not exempt from income tax under section 101 (6) of the Internal Revenue Code.

The notice of termination may be revoked by the organization by giving, prior to the close of the calendar quarter specified in the notice of termination, a written notice to the Commissioner of such revocation.

§ 408.1426 (l)-5 *Termination of waiver by Commissioner.* The period for which the certificate is in effect may be terminated by the Commissioner of Internal Revenue, with the prior concurrence of the Federal Security Administrator, upon a finding by the Commissioner that the organization has failed to comply substantially with the requirements of the Federal Insurance Contributions Act or is no longer able to comply therewith. The Commissioner shall give the organization not less than sixty days' advance notice in writing that the period covered by the certificate will terminate at the end of the calendar quarter specified in the notice of termination.

The notice of termination may be revoked by the Commissioner, with the prior concurrence of the Federal Security Administrator, by giving written notice of revocation to the organization prior to the close of the calendar quarter specified in the notice of termination.

PAR. 2. Effective January 1, 1951, Regulations 106, as amended (26 CFR, Part 402), relating to the employees' tax and the employers' tax under the Federal Insurance Contributions Act (subchapter A of chapter 9 of the Internal Revenue Code), are modified to the extent such regulations are inconsistent with the regulations promulgated under paragraph 1 of this Treasury decision.

FEDERAL TRADE COMMISSION

[16 CFR, Part 156]

[File No. 21-363]

SUN GLASS INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS

Notice is hereby given that a public hearing will be held beginning at 10 a. m., December 7, 1950, in the Hotel Belmont-Plaza, Lexington Avenue and 49th Street, New York City, for the purpose of considering amendments to, and supplementation of, the trade practice rules for the sun glass industry as promulgated by the Federal Trade Commission December 23, 1941.

Notice is also given that a second session of said hearing will be held beginning at 10 a. m., January 10, 1951, in

Room 332 of the Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D. C.

Opportunity is extended by the Federal Trade Commission to any and all persons, firms, corporations, or other parties and groups, affected by or having an interest in the above-mentioned rules, or in the proposed amendments or additions thereto, to be heard in the premises at said hearings and to present their views, including such pertinent information, suggestions, or objections as they may desire to submit. In addition to, or in lieu of, oral presentation at the hearings, such views, suggestions, objections, or other pertinent information, may be submitted in writing, pursuant to this notice, by memorandum, brief, letter, or other communication, which shall be filed with the Commission not later than January 10, 1951.

Copies of said trade practice rules for the sun glass industry promulgated December 23, 1941, may be obtained from the Commission upon request.

Products of the industry consist of sun glasses and other glasses and lenses which are used to provide protection for the eyes against sun glare, strong light, or other similar conditions. Such glasses or lenses are not eye-corrective, but eye-protective, devices. Frames or parts for the glasses are also included among the products of the industry.

Among the matters to be considered pursuant to this notice are the following:

1. Suggested revision of § 156.2:

§ 156.2 *Misuse of the term "ground and polished."* It is an unfair trade practice to use the term "ground and polished," or any word, words, or terms of similar import, as descriptive of any sun glass lens unless the entire areas of the surfaces thereof have been subjected to grinding with an abrasive and have been thereafter well polished so as to eliminate all form and surface defects, including scratches, waves, and grayness: *Provided however,* That a lens so ground and polished which has been thereafter heated and bent to the desired shape shall not be described as "ground and polished" unless in close conjunction with such term there is disclosure of the fact that heating and curving to shape occurred after grinding and polishing, as, for example, "Ground and polished and thereafter thermally curved."

2. Additional section to read as follows:

Deceptive representations as to products conforming to a standard or specification. In the sale, offering for sale, or distribution of sun glasses or sun glass lenses, it is an unfair trade practice to falsely represent or imply that any such product conforms to the requirements of any standard or specification, whether established or recognized by a department or unit of a city or state government, or of the Federal Government, or otherwise; or to make any claim or representation that the product conforms to a standard or specification when such standard or specification has been rescinded, revised, amended, or superseded, without so disclosing; or to claim

or imply that the product conforms to any standard or specification which is not applicable to the product and thereby deceive purchasers as to the quality or performance of the product; or to claim conformity of a product to any standard or specification not adapted, or intended to apply, to that product; or in any other manner to represent, directly or indirectly, that a standard has been adopted for a particular product when such is not a fact.

Other pertinent amendments, changes, or additions, including amendments to the foregoing, or to any other rule or provisions of said trade practice rules for the sun glass industry promulgated December 23, 1941, may be submitted or proposed for consideration at said hearing.

The Commission will take action in the premises after due consideration of all matters presented pursuant to this notice.

Issued: November 14, 1950.

By the Commission.

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 230]

DEFINITIONS OF TERMS USED IN THE ACT; FORM AND CONTENT OF PROSPECTUSES

PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt a new rule designated as § 230.132 (Rule 132) under the Securities Act of 1933 and to amend the present § 230.431 (Rule 431) under that act. The proposed new rule is designed to permit the circulation to investors of "identifying statements" containing certain limited information taken from registration statements and prospectuses under the Securities Act.

In the absence of an exemption, the Securities Act prohibits sales and offers prior to the effective date of a registration statement, and requires the inclusion of material information in prospectuses used after that date. However, it does not prohibit the dissemination of information as such. Indeed, the concept of the waiting period is based on the premise that information will in fact be disseminated.

The report of the Committee on Interstate and Foreign Commerce on the bill that became the Securities Act (H. R. Rep. No. 85, 73d Cong., 1st Sess., pp. 12-13) stated that underwriters who wished to inform dealers of the nature of a security to be offered for sale after the effective date of the registration statement would be free to circulate the offering circular (prospectus) itself, if clearly marked in such a manner as to indicate that no offers to buy should be sent or would be accepted until the effective date of the registration state-

ment. This practice is expressly permitted by Rule 131 under the Securities Act, relating to the circulation of the proposed form of prospectus, the so-called "red herring prospectus," before the effective date, and it is not proposed to change this rule.

In Releases 464 and 802 under the Securities Act the Commission's General Counsel expressed the opinion that the prohibitions of section 5 of the act and the definition of the terms "sale" and "sell" in section 2 (3) did not extend to certain summaries of salient information contained in registration statements—provided, among other conditions, that the material did not offer a security for sale or attempt to dispose of it and was not used after the effective date unless accompanied or preceded by a copy of the statutory prospectus. The proposed action would not affect the status of such summaries.

The proposed Rule 132 is designed to permit, under certain conditions, the use of a brief "identifying statement" which would set forth generally the nature of the security to be offered. The identifying statement would be much less comprehensive than the summaries contemplated in Releases 464 and 802 and would not go into the merits of the security. Among other things, the identifying statement would set forth "the general type of business of the issuer"; it is contemplated that this statement regarding nature of the business would not exceed a line or two. The identifying statement would not contain anything in the nature of "selling talk." It would be used purely as a screening device to locate persons who might be interested in receiving a prospectus, and not to facilitate solicitations in advance of the effective date. The proposed rule would be in the form of a definition of "sale," "offer" and similar terms in section 2 (3).

The rule would require that the identifying statement include a form for requesting copies of the prospectus. Persons requesting prospectuses before the effective date of the registration statement could be given the "red-herring prospectus" provided for in the present Rule 131.

Rule 132 would require that a form of identifying statement be filed as a part of the registration statement 5 days before its use. Any person using the identifying statement would add to this form his name and certain information regarding price and rate of return or yield. The identifying statement could be circulated or published by the issuer or by underwriters and dealers, either before or after the effective date of the registration statement. In view of the policy of the act to encourage the dissemination of information during the waiting period, the Commission has never considered that the use of permissible literature by underwriters and dealers in advance of the effective date by itself established the existence of premature allotments or improper offers to buy.

In Securities Act Release No. 3177, issued on December 5, 1948, at the time of the adoption of Rule 131, the Commission referred to its power under section 8 (a) to accelerate the effectiveness

of a registration statement where adequate information respecting the issuer had been available to the public. That release states:

• • • The Commission, in considering requests for acceleration of the effective date of registration statements, will consider whether adequate dissemination has been made of copies of the proposed form of prospectus, as permitted by the Rule. The determination of what constitutes adequate dissemination must, of course, remain a question of fact in each case, after consideration of all pertinent factors. It would, however, involve as a minimum the distribution, a reasonable time in advance of the anticipated effective date, of copies of such proposed form of prospectus to all underwriters and dealers who may be invited to participate in the distribution of the security.

In connection with the present proposal, the requirement for the distribution of copies of the "red herring prospectus" would involve distribution of sufficient copies so that underwriters and dealers would be in a position to fill customers' requests for "red herring prospectuses" resulting from the publication of identifying statements. The Commission does not contemplate that, before granting acceleration, it would require a showing that underwriters and dealers had in fact complied with all requests from customers; however, the rule would probably be adopted on a tentative basis for an experimental period so that the Commission could determine whether customers' requests were being generally complied with.

In order to facilitate the use of proposed prospectuses in the pre-effective period and to avoid the necessity of duplicating the information contained in them at a later date, it is proposed to amend Rule 431 to provide generally that a final prospectus meeting the requirements of the act may consist of a proposed prospectus under Rule 131 plus a document containing such additional information that both together contain all the information required by the act. The amendment would remove a provision which now limits the rule to offerings by an issuer to its existing stockholders.

The text of the proposed rule and amendment follows:

§ 230.132. *Definition of "offer to sell," "offer for sale," "attempt or offer to dispose of," and "solicitation of an offer to buy" as used in section 2 (3) in connection with certain identifying statements.* (a) Sending or giving to any person or publishing, after the filing of a registration statement under the Securities Act, a copy of an identifying statement as defined in paragraph (b) or (c) of this section shall not in itself constitute an "offer to sell," "offer for sale," "attempt or offer to dispose of," or "solicitation of an offer to buy" as used in section 2 (3) of the act: *Provided*, That—

(1) The identifying statement is not used until five days after it has been filed as a part of the registration statement, unless the Commission notifies the issuer that it may be used earlier.

(2) The identifying statement contains the following legend in type as large as that used generally in the body thereof:

This is not an offer to sell these securities. They are subject to the registration and prospectus requirements of the Federal Securities Act. Information about the issuer, the securities, and the circumstances of the offering is contained in the prospectus required by that act.

(3) The identifying statement indicates from whom copies of the prospectus (or of a proposed prospectus used pursuant to § 230.131 (Rule 131)) may be obtained and includes a detachable form for use in requesting such copies, which form shall be substantially as follows:

Please send me a copy of the prospectus [or proposed prospectus] relating to _____
Name _____
Address _____

(b) For the purposes of this section, the term "identifying statement" means, except with respect to a security issued by an open-end investment company registered under the Investment Company Act of 1940, a notice, circular, advertisement, letter or communication which contains the statements enumerated in subparagraphs (1) to (8) inclusive of this paragraph, to the extent that those subparagraphs are applicable and the information is available, and, in addition, contains no more than the statements enumerated in subparagraphs (9) and (10) of this paragraph:

- (1) The title of the security;
- (2) The name of the issuer;
- (3) The general type of business of the issuer;
- (4) The price of the security and the underwriting commission or discount;
- (5) The stated rate of return or the yield or both, but only if the security has a fixed interest or dividend provisions;
- (6) The price at which, and the time when, the security may be redeemed or converted or exchanged or, if the security is a right or warrant or is offered by means of any right or warrant, the terms of such right or warrant with respect to price and time of exercise;
- (7) That the security is or is intended to be listed or admitted to unlisted trading privileges on specified exchanges or traded over the counter;
- (8) Whether the securities are offered in connection with a financing by the issuer or a distribution by persons controlling, controlled by or under common control with the issuer;
- (9) Whether the security is a legal investment for savings banks, fiduciaries, insurance companies, or other similar investors under the laws of any State or Territory or the District of Columbia;
- (10) The extent to which the issuer has agreed to pay any tax with respect to the security or measured by the income therefrom.

(c) For the purposes of this section, the term "identifying statement" means, with respect to a security issued by an open-end investment company registered under the Investment Company Act of 1940, a notice, circular, advertisement, letter or communication which contains the statements enumerated in subparagraphs (1) to (6) inclusive of this paragraph, to the extent that those clauses are applicable and the information is available and, in addition, contains no more than the statements enumerated

in subparagraphs (7) and (8) of this paragraph:

- (1) The title of the security;
 - (2) The name of the issuer;
 - (3) The general type of business of the issuer;
 - (4) The price of the security and the underwriting commission or sales load;
 - (5) The management fee;
 - (6) The redemption price;
 - (7) The name of the investment adviser or manager;
 - (8) Whether the security is a legal investment for savings banks, fiduciaries, insurance companies, or other similar investors under the laws of any State or Territory or the District of Columbia.
- (d) The identifying statement as filed need not contain the name of the person from whom prospectuses or proposed prospectuses may be obtained, or the information set forth in paragraph (b) or (c) of this section as to price, rate of

return, or yield, even though such information is available. These may be inserted by the person who sends, gives, or publishes the statement.

(e) This section shall not apply to the sending or giving or publishing of any identifying statement if, at the time such identifying statement is sent or given or published, the registration statement is the subject of pending proceedings under section 8 (b), 8 (d), or 8 (e) of the act, or of an order entered under any of such sections.

§ 230.431 (Rule 431). *Prospectuses supplementing preliminary material supplied previously.* A prospectus may consist of a copy of the proposed form of prospectus meeting the requirements of § 230.131 (Rule 131) and a document containing such additional information that both together contain all the information required to be included in a prospectus for registered securities:

Provided, That (a) the proposed form of prospectus is incorporated by reference into and made a part of the document. (b) The document is attached to the proposed form of prospectus or is sent or given within 5 days after the sending or giving of the proposed form of prospectus.

All interested persons are invited to submit their views and comments on these proposals in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington, D. C., on or before December 4, 1950.

By the Commission.

FEDERAL POWER COMMISSION

[Docket Nos. G-1382, G-1533]

NORTHERN NATURAL GAS CO.

ORDER SUSPENDING CHANGES IN RATES AND SERVICES, CONSOLIDATING PROCEEDINGS, AND FIXING DATE OF HEARING

NOVEMBER 10, 1950.

On October 27, 1950, Northern Natural Gas Company (Northern) filed with the Commission in Docket No. G-1533 proposed changes in its presently effective tariff, FPC Gas Tariff, First Revised Volume No. 2. The proposed changes are designated Second Revised Sheets Nos. 5, 12, 13 and 14, with an effective date of November 27, 1950, and are to supersede First Revised Sheets Nos. 5, 12, 13 and 14, which latter sheets were filed on March 27, 1950.

The changes Northern proposes to make effective November 27, 1950, will increase Northern's revenues for the 12 months ending October 27, 1951, by an estimated amount of \$5,200,000 over the revenues that would be obtained from the presently effective tariff as revised in the filing of March 27, 1950.

Northern's presently effective tariff sheets designated First Revised Sheets Nos. 5, 12, 13 and 14, which were filed on March 27, 1950, together with additional sheets filed on that date, were suspended, within the purview of and in accordance with section 4 (e) of the Natural Gas Act, until September 27, 1950, by the Commission's order of April 26, 1950, in the above Docket No. G-1382. Hearings are now in progress concerning the lawfulness of said filing and the tariff sheets are now effective under bond as required by the Commission's order of October 3, 1950, pending final determination by the Commission.

The rates in effect prior to the March 27, 1950, filing, the present effective rates which are the subject of investigation and hearing, and the proposed rates that relate to similar service on a comparable monthly basis, are as follows:

	Monthly demand charge, per Mcf.	Commodity charge, per Mcf.
Rates prior to Mar. 27, 1950, filing.....	\$1.25	Cents 12.7
Present effective rates under investigation.....	1.21	14.6
Proposed increase rates.....	1.37	17.0

The lawfulness of the tariff sheets filed on October 27, 1950, presents all of the issues set forth in the Commission's suspension order of April 26, 1950, in Docket No. G-1382, in addition to the issue of the lawfulness of the rate increase proposed in said filing, and such issues are by reference made a part hereof as though set forth in full in this order.

The Commission finds:

(1) The changes proposed by Northern in its FPC Gas Tariff, First Revised Volume No. 2, filed on October 27, 1950, may be unjust, unreasonable, unduly discriminatory and preferential.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed rates, charges and classifications as set forth in the Second Revised Sheets Nos. 5, 12, 13 and 14 which Northern filed with the Commission on October 27, 1950, and by which Northern proposes to change its presently effective tariff, FPC Gas Tariff First Revised Volume No. 2 on file with the Commission and now in force pending final Commission determination as to its lawfulness, and the aforesaid Second Revised Sheets should be suspended as hereinafter provided and use deferred pending hearing and decision thereon.

(3) The hearing in Docket No. G-1382 is now set to reconvene on February 19, 1951, and the proceedings in Docket No. G-1533 should be consolidated for hearing therewith.

The Commission orders:

(A) Pursuant to authority contained in sections 4 and 5 of the Natural Gas Act a public hearing be held commencing on February 19, 1951, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the lawfulness of the rates, charges and classifications, subject to the jurisdiction of the Commission, set forth in Second Revised Sheets Nos. 5, 12, 13 and 14, filed with the Commission on October 27, 1950, Docket No. G-1533, and by which Northern Natural Gas Company proposes to change its presently effective, FPC Gas Tariff First Revised Volume No. 2, on file with the Commission.

(B) The aforesaid proceeding referred to in the above paragraph (A) in Docket No. G-1533 be and it hereby is consolidated for hearing with the proceeding in Docket No. G-1382, now set to reconvene at the time and place named in the said paragraph (A), and the evidence heretofore adduced in the hearing in Docket No. G-1382 be and the same hereby is made a part of this consolidated hearing.

(C) Pending such hearing and decision thereon, the Second Revised Sheets referred to in paragraph (A) hereof be and they hereby are suspended within the purview of and in accordance with section 4 (e) of the Natural Gas Act, and in the use of such revised sheets is deferred until April 27, 1951, and until such further time thereafter as said Second Revised Sheets shall be made effective in the manner prescribed by the Natural Gas Act.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) [18 CFR 1.8 and 1.37 (f)] of the Commission's rules of practice and procedure.

Date of issuance: November 13, 1950.

By the Commission.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of November A. D. 1950.

We have before us applications by two preferred stockholder groups of International Hydro-Electric System ("IHES"), a registered holding company, filed in the course of proceedings for the liquidation and dissolution of said holding company pursuant to section 11(d) of the Public Utility Holding Company Act of 1935.

Pursuant to our Findings, Opinion and Order of December 6, 1949 approving Part II of the Trustee's Second Plan,¹ and our Supplemental Order of June 13, 1950,² the Trustee of IHES disposed of 340,000 shares of common stock of Gati-neau Power Company ("Gatineau") and retired the debentures of IHES. In connection therewith the Trustee borrowed from a bank \$9,500,000 on a two-year collateral note bearing interest at the rate of 2¼% per annum, which note is

² International Hydro-Electric System, — SEC —, Holding Company Act Release No. 8917.

now outstanding in the amount of \$9,000,000.

The pending applications are briefly as follows:

1. Application of Protective Committee for Preferred Stockholders, filed October 25, 1950, asking that the Trustee be directed to sell enough common stock of Gatineau to pay off the bank loan, and to distribute the remaining Gatineau stock ratably among the preferred stockholders of IHES without prejudice to a subsequent determination by the Commission of the preferred stockholders' claims and of the ultimate disposition of the remaining assets of IHES;

2. Petition of Preferred Stockholders' Group, filed November 1, 1950, requesting the Commission to segregate for preliminary determination the issue whether the preferred stockholders are entitled to the liquidation value of their stock; and, pending such determination, to direct the resumption of dividend payments on the preferred stock.

In view of the fact that we have already ordered a resumption of the hearings in this matter to consider Parts III and IV of the Trustee's Second Plan, relating to the payment of the bank loan and the allocation of the residual estate of IHES among its preferred and Class A stockholders, it is proper that we now indicate the procedure which we propose to follow in the consideration and disposition of said applications.

I. *Application of protective committee.* This is the second application which the Committee has filed looking to the disposition of the Gatineau Stock. On May 23, 1949, the Committee requested the sale of enough Gatineau common stock to realize \$15,000,000, the proceeds to be used to retire the debentures, thereby placing the estate in a position to make payments to the preferred stockholders. In our Findings and Opinion of December 8, 1949, we pointed out the objections to the Committee's proposal; that the sale of a large block of Gatineau stock would increase the marketing problem and expenses, and might depress the price; and that IHES would lose the benefit of the foreign tax credit if its holdings of the Gatineau stock should be reduced to less than a majority. We therefore denied the Committee's application for a mandatory sale of Gatineau stock beyond a minimum of \$5,000,000 worth. Accordingly, in our supplemental order of June 13, 1950, we directed the Trustee, among other things, to offer to the debenture holders in exchange for their debentures or to sell to underwriters a minimum of 340,000 and a maximum of 600,000 Gatineau shares. Although the debenture holders and the underwriters were given options on 260,000 shares, none of such shares was taken up by either of these groups.

The Committee points out that IHES now holds 1,099,024 shares of the Gatineau stock; that the bank loan has been reduced to \$9,000,000; that IHES has an estimated annual net income after taxes in excess of \$2,000,000; that IHES has paid no dividends on its cumulative preferred stock since July 15, 1934. The Committee alleges that the Gatineau common stock is selling on the New York

Curb Exchange at over \$16 per share, and it estimates that \$9,000,000 worth of the Gatineau stock can now be sold at a net price to IHES of \$14 to \$15 a share, after which IHES would still hold a minimum of 456,267 Gatineau common shares. These residual shares would, under the Committee's proposal, be distributed ratably among the holders of the 142,799 shares of IHES preferred stock now outstanding.

In our opinion this is not a matter which can be disposed of summarily upon the moving papers, briefs and oral argument of counsel. The same considerations which in our previous orders, entered after extensive evidential hearings, deterred us from ordering the sale of \$15,000,000 worth of Gatineau stock would now deter us from ordering the sale of \$9,000,000 more of the Gatineau stock, without giving all interested parties an opportunity to be heard and without further evidence showing a substantial change in the factual situation. It would seem inappropriate, however, to set a special hearing for the taking of evidence on this application in view of the fact that we have already ordered the resumption of hearings on the Trustee's Second Plan. At such hearings the factual situation will be brought down to date. A further sale of portfolio assets is entirely consistent with the Trustee's plan, and indeed is contemplated as a means of retiring the bank loan.

Any evidence which the Committee may wish to offer in support of their application should be offered at the forthcoming hearing. Upon the completion of the evidential record, the Committee may renew their application for sale of the Gatineau stock.

II. *Petition of Preferred Stockholders' Group.* This Group contends that IHES is now in such improved financial condition that dividend payments on the preferred stock should be resumed. The Group further contends that on April 1, 1944, when the debentures matured, market conditions and the financial condition of IHES were such that its outstanding debentures could not have been refunded, and that a Chapter X proceeding for reorganization of IHES would have been necessary but for the proceeding instituted by this Commission under section 11 (d) of the Holding Company Act; that, consequently, the claims of the preferred stockholders are now matured to the full amount of their liquidation preference, and that liquidation should proceed as in bankruptcy. The Group thus contends that the claim of the preferred stockholders can readily be computed; that no long drawn-out study of foreseeable earnings or equitable equivalents is necessary; and that "it becomes a mere matter of mechanics and very simple to sell all the assets and distribute the proper number of dollars to each class of security holders in the order of priority."

Without undertaking now to determine the merits of the Group's contention as to the proper basis of allocation between the two groups of stockholders, we deem it proper that the Group be permitted to place in the record, at the forthcoming hearing, the facts upon which they rely as a basis for their legal

conclusion; but we do not deem it proper that we should pass finally upon the allocation problem until all the evidence is in, both the evidence to be offered by the Trustee and the evidence to be offered by the stockholders. To the extent that the Group request prior consideration and determination of their contention with respect to allocation, their petition will be denied.

With respect to the contention that dividends on the preferred stock be resumed, it is obvious, in view of the recent retirement of the debentures, that this matter is an appropriate subject for consideration. Accordingly, any evidence which any of the participants has on this issue should be offered at the forthcoming hearing. *It is therefore ordered:*

1. That the application of the Protective Committee, insofar as it seeks a summary order for immediate sale of additional Gatineau shares, be and is hereby dismissed as premature in view of the present status of the proceeding; with leave, however, to said Committee to present evidence in support of their application at the forthcoming hearing, and with leave thereafter to renew their request for the sale upon completion of the evidential record.

2. That the petition of the Preferred Stockholders' Group insofar as it seeks a summary determination that the estate of IHES should be distributed on the basis of liquidation preferences as in bankruptcy, be and is hereby dismissed as premature in view of the present status of the proceeding; with leave, however, to said Group to present evidence in support of their petition at the forthcoming hearing, including evidence with respect to resumption of preferred dividends, and with leave thereafter to renew their request for such resumption pending determination of the problem of allocation.

By the Commission.

NOVEMBER 13, 1950.

The Department of State has informed the Treasury Department that by the Treaty of Peace with Italy (signed February 10, 1947, and now in effect), Article 21, there was constituted the "Free Territory of Trieste." The treaty provided that with the termination of Italian sovereignty over the area, the Territory should be governed in accordance with an instrument for a provisional regime.
