Ref: (a) Para 114.01, Marine Corps Manual
 (b) FMF Pac General Order 21 (Rev) of 11Mar52
 (c) Division General Order No. 90

1. SUMMARY

a. Until shortly after midnight 9 March 1953, the 3rd Battalion, 7th Marines, continued its aggressive defense of the sector of Line JAMESTOWN for which it was responsible. At 0007, the morning of the 10th of March 1953, the relief of the battalion by the 3rd Battalion, 1st Marines, was completed, and the battalion commenced a tactical withdrawal exercise to positions on the KANSAS Line, occupying the WYOMING Line enroute after which it was helicopter lifted to the KANSAS Line. The battalion remained on the KANSAS Line until the following day when the battalion was ordered to proceed to the campsite (CS 102973) and assume the missions of left reserve battalion, division reserve regiment. After several days devoted to "Company Commander's Time" during which personal items of clothing, and equipment were inventoried and ordnance items checked and repaired, the battalion commenced a regular training schedule. During the period, a total of eighty-three (83) personnel attended schools such as Division Machine Gun, Division NCO School, and Regimental Mine Warfare School. At 1200I, 9 March 1953, the security of SPOONBILL BRIDGE (CS 088972) was made a responsibility of the battalion. A force of twenty-four (24) men were billeted at that location and provided the security for the SPOONBILL BRIDGE.

b. While occupying the JAMESTOWN Line, a normal day's operations required the provision of eight (8) listening posts (maintained by fire team reliefs), one (1) squad-sized or larger combat patrol, and from three (3) to six (6)

 reconnaissance and layout patrols. While in reserve the training period was six hours per day, six days per week, with three (3) hour platoon to company-sized exercises nightly. Rear area security patrols were dispatched by the Battalion S-2, both daily and nightly, to provide additional security to the regular system of Command Post sentries and outposts.

c. During the month of March 1953, the battalion was directed to prepare plans and train its personnel for participation in MARLEX XIX which was scheduled for execution during the period 29 March 1953 through 1 April 1953. However, due to the tactical situation, from 26 - 29 March 1953, in the division's sector of responsibility, primarily on combat outposts, "Reno", "Vegas" and "Carson", MARLEX XIX was cancelled. The battalion was, at various times during the latter period, placed on a thirty (30) minute alert status and prepared to execute counter-attack plans or occupy blocking positions as designated.

2. CHRONOLOGY

282400I - 012400I

A friendly combat patrol (G-68) utilized small arms and automatic weapons fire to kill two (2) enemy and wound an estimated three (3) enemy digging in a trenchline in the vicinity of CT 017042 at approximately 0030. The enemy withdrew and friendlies moved to the objective and destroyed one (1) bunker with a satchel charge. Enemy troops did not return fire during action. Friendly artillery was called to VT the objective after the patrol had cleared.

012400I - 022400I

Routine day. Negative contact.

022400I - 032400I

Routine day. Negative contact.

032400I - 042400I

Routine day. Negative contact.

042400I - 052400I

Routine day. Negative contact.

052400I - 062400I

A marine combat patrol after killing four (4) enemy occupying a listening post, was attacked by an estimated enemy squad while attempting to retrieve the bodies, forcing a withdrawal from the objective. Friendlies employed small arms, automatic weapons, hand grenades, mortars and artillery. Enemy returned small arms, automatic weapons, and mortar fire. Friendly patrol suffered no casualties but counted four (4) enemy KIA, and estimated two (2) KIA and four (4) WIA.

062400I - 072400I

Routine day. Negative contact.

072400I - 082400I

No contact of battalion elements was made with the enemy, but relief of the 3rd Battalion, 7th Marines from the right battalion, center regiment sector, of Line JAMESTOWN by elements of the 3rd Battalion, 1st Marines, commenced.

082400I - 092400I

Relief of the battalion continued. There were no contacts with the enemy along the battalion front.

092400I - 102400I

At 0007 the 3rd Battalion, 1st Marines, assumed responsibility for the right battalion, center regiment sector, of Line JAMESTOWN. The 3rd Battalion, 7th Marines, then conducted a tactical withdrawal to the KANSAS Line, via the WYOMING Line, and was fully in position at 1335.

102400I - 112400I

The battalion completed occupancy of the KANSAS Line and proceeded to the Battalion Command Post (CS 102973) and assumed the missions of the left reserve battalion, division reserve regiment.

112400I - 122400I

Routine day. Negative contact.

122400I - 132400I

Routine day. Company Commander's Time.

(2) Island of TOKCHOK-TO 1:50,000 AMS Series L751 Sheet 6425

TASK ORGANIZATION: Annex ABLE

1. Purple Forces have successfully occupied undefended islands in the TOKCHOK-MUNDO and established radar stations thereon to give early warning against U. S. air attacks. Because of the effectiveness of these radar installations in giving warning of U. S. air efforts, the 1st Marine Division has been assigned the mission of executing an operation against the islands occupied by the Purple Forces.

a. Annex BAKER, Intelligence.

b. The 7th Marines assumes the mission of division reserve and lands one (1) battalion on the island of TOKCHOK-TO to seize, occupy, and defend that island in order to deny enemy early warning and to establish an air-sea rescue base thereon.

2. a. BLT 3/7 lands on Beach RED at H-Hour, D-Day; seizes, occupies, and defends the island of TOKCHOK-TO; three (3) rifle companies (reinf) in the assault, land by LVT's and LCVP's, one (1) rifle company land on call as reserve.

b. For beaches, boundaries, formation, zones of action, direction of attack, administrative line, and objective (See Annex CHARLIE).

c. For composition and timing of waves (See Annexes ITEM and HOW).

3. a. Co "G" (Reinf)

(1) At H+3, D-Day, land in Z/A, on Beach RED with two (2) platoons in assault, one (1) in support, seize, occupy, and defend objective G in Bn Z/A.

(2) Be prepared, after seizure of objective G to assist by fire Co "H" and Co "I" in the seizure of their objectives.

(3) Be prepared to continue the attack on order.

b. Co "H" (Reinf)

(1) At H+3, D-Day land in Z/A on Beach RED with two (2) platoons

ANNEX BAKER TO OPERATION PLAN 9-53

INTELLIGENCE

Maps: Korea, 1:50,000 AMS L 751, Sheets 6425 IV
Korea, 1:25,000 Island of TOKCHOK TO

1. SUMMARY OF ENEMY SITUATION

a. Appendix (1), Overlay of enemy dispositions and installations.

b. Recent friendly agents report indicate that the island of TOKCHOK TO is defended by approximately three hundred (300) purple partisans and sympathizers. They have been organized into a quasimilitary force by the Purple Military Crew and man the islands defensive positions as well as one (1) radar station.

The defending force is known to be well-armed with Mosin Magant 7.62mm rifles and some PPSH-41 SM G's and at least two (2) HMG's (possibly M1910 MAXIM).

API reports indicated several possible mortar positions and a number of bunkers and prepared fighting positions on the high ground overlooking all possible landing beaches.

c. This enemy is capable and is believed to be willing to put up a very determined defense.

2. ESSENTIAL ELEMENTS OF INFORMATION

a. Does the enemy have mortars? If so, what size? Where are they located?

b. What is the nature of the defense?

c. Will the enemy defend from previously prepared positions on the hill mass SE of landing area?

d. Will the enemy counter-attack the landing force? Where? When? How? In what strength?

SECRET

SECURITY INFORMATION

* - - - - -
ANNEX BAKER TO OPERATION PLAN 9-53
- - - - -

CONFIDENTIAL

e. Will the Purple force reinforce the defense? With what? From where? In what strength?

f. Will the Purple forces conduct air operations against the landing force:

3. RECONNAISSANCE AND OBSERVATION MISSIONS

a. Requests to higher units.

(1) Seventh Marines

(a) Request Hydrographic and Meteorological data concerning the area of operation.

(b) Request aerial photographic coverage to determine nature of landing areas and type and extent of beach defense.

(c) Request capabilities and indications concerning any Purple forces who may reinforce or support the enemy in the area of operations.

b. Orders to subordinate units.

(1) Companies and attached units will report, as obtained, location, extent, and organization of all defensive installations, movements, and composition including type of weapons, rate and direction of enemy forces moving within or toward the battalion zone of action.

(2) Capture prisoners and all possible radar and radio equipment.

4. MEASURES FOR HANDLING PRISONERS AND CAPTURED DOCUMENTS AND MATERIAL

a. Prisoners of War and civilians will be delivered to battalion S-2 without delay.

b. Captured enemy documents will be delivered to the battalion S-2 as soon as practicable. Enemy maps and overlays will be delivered without delay to Battalion S-2.

c. Captured enemy material and recovered friendly material will be delivered to battalion supply as soon as practicable. Battalion supply will submit a report on such captured or recovery to battalion S-2 immediately, and dispose of such material through normal channels.

5. MAPS AND AERIAL PHOTOGRAPHS

- a. Maps: Korea, 1:50,000 AMS L 751, Sheet 6425 IV
Korea, 1:25,000 Island of TOKCHOK TO

(1) Distribution: 1:50,000 and 1:25,000 distributed as required to 3/7 and attached units.

b. Photographs

(1) Aerial photography will be requested by this headquarters and disseminated as needed.

6. COUNTERINTELLIGENCE

- a. As required

b. Pass words and countersigns will be distributed daily from this headquarters by a non-electrical means of transmission.

c. In the event of compromise of password, notify, battalion S-2 immediately for alternate sign and countersign.

7. REPORTS

- a. Intelligence personnel will report as required

b. Companies and attached units will report information on enemy strength, locations, movements and equipment as obtained.

APPENDIX (2) TO ANNEX BAKER TO OPERATION PLAN 9-53

AREA STUDY- TOKCHOK TO

1. GENERAL DESCRIPTION

The island of TOKCHOK TO is located approximately thirty-two (32) miles SW of Inchon, one of many islands of the MARIE FORTUNNE ARCHIPELAGO. TOKCHOK TO is approximately 5½ miles in length on its long axis, the widest extremity is 2½ miles. Estimated population is 4,000 mixed Japanese and Korean, predominantly Korean.

2. METEOROLOGICAL DATA

(a) See Appendix (3)

3. TOPOGRAPHY

(a) The principal terrain features are a series of prominent ridges with small valleys sloping to the South and Southwest. The crest lines are of uniform height averaging 700 feet in elevation. Mt PIJO BONG, 954 feet in elevation dominates the south end of the island. Several small fresh water springs are located on the island.

(b) Vegetation consists of thickly wooded areas located 300 to 500 yards inland of all beaches. The wooded areas increase in density up the slopes, and near the ridge line thicken perceptively to extremely heavy growth. The trees are of hard pine and oak with average height of 9 feet, varying in diameter from 2 to 5 inches. Generally, the entire area consists of very dense mixed vegetation, pines, oaks and scrub growth. Vegetation in non-wooded areas consists of small cultivated farm patches and rice paddies in the vicinity of villages.

(c) The entire central area of this island is covered by an impenetrable Mangrove swamp which is covered by 8 to 15 feet of water at high tides. The floor of the swamp consists of scattered outcroppings of volcanic rock and coral heads surrounded by almost bottomless quicksand. Foot or vehicular traffic is impossible between the North and South ends of the island. (For South boundary of swamp area, see ADMINISTRATIVE LINE, Operation Overlay.)

SECRET

SECURITY INFORMATION

APPENDIX (2) TO ANNEX BAKER TO OPERATION PLAN 9-53

CONT'D.

(d) With the exception of foot trails, small villages and cultivated areas, there are no man made changes in the topography. There are no bridges, or rail lines in the South coastal areas of TOKCHOK TO.

4. RED BEACH

(a) The 975 yd expanse of beach located in protected cove at the southwestern part of the island is known as Sopto-ri beach and will be designated as RED BEACH for this operation.

(b) Location

(1) The center of the beach is located $37^{\circ}13'N - 126^{\circ}07'E$.

(c) Length

(1) There is approximately 700 yds of usable beach. The flank has a small man made rock jetty 100 ft long, with a 12 ft base and approximately 4 ft wide at the top. Both beach flanks are bounded by steep headlands with small trees.

(d) Width

(1) Average width at high tide is 60 yds.

(e) Composition and Trafficability

(1) The beach is mostly composed of fine sand. Trafficability of the beach is good on all tides. The beach has a large berm scarp for a depth of 60 ft with a gradient of 1:1. Movement inland is by the berm scarp and a sand dune of approximately 275 yds. The sand dune area in the hinterland will provide good cover and concealment due to heavy growth. Matting will be required for vehicles in the backshore and hinterland areas.

(f) Hydrography

(1) Underwater gradient - offshore 1:100, Foreshore 1:25.

(2) On the left flank approach there is a shoal covered with $1\frac{1}{2}$ fathoms, at MLLW, 2500 yards from the beach. The left and right flanks of the beach are covered with rocks and boulders. Kamjukt'an Rock is 600 yards to the right of the extreme right flank of the beach, approximately 2600 to seaward.

SECRET
SECURITY INFORMATION

APPENDIX (2) TO ANNEX BAKER TO OPERATION PLAN 9-53 CONT'D

(3) There is an extremely strong tidal current running from south to north at flood tide, across the approach lanes.

(4) Currents - Tidal up to $3\frac{1}{2}$ knots.

(5) Tides - Range 16 to 24 feet.

(6) Bottom - Fine sand and combination of rock and sand.

(7) Surf - Negligible

(g) Exits

(1) There are no natural exits, but recently two exits have been cut through the berm on the left flank into the dune area. An ox-cart trail leading from the center of the beach is usable for jeeps.

TASK ORGANIZATION:

- (a) Advance Force (Task Unit 90.8.6)

CA 135
DD 702
LSM (R) 410

- (b) Attack Force

- (1) Support Group (Task Unit 90.8.6)

CA 135
DD 702
LSM (R) 410

1. INFORMATION.

- a. See Annex BAKER for Intelligence.

b. TOKCHOK-TO is held by approximately three hundred (300) enemy troops. The enemy is expected to defend hill masses 110, 103, 297, 313, and the area of 448234. Hill 297 will be the primary naval gunfire target from H-120 to H-60. At H-30 naval gunfire support will shift from Hill 297 to Hills 110 and 103. Throughout the ship to shore movement Hills 110 and 103 will be particularly important targets because of their flanking command of the beaches. Naval gunfire targets will be primarily mortars, heavy caliber machine gun positions, boat guns, large bunkers, and fire trenches. After the landing has been effected LSM (R) 410 will support the operation with direct fire on Hill 313.

2. MISSION:

- a. At H-120, D-Day, elements of support group will take station in assigned fire support areas to conduct preparation and on call fires in support of the amphibious assault on TOKCHOK-TO by the 3rd Battalion, 7th Marines.

3. SPECIFIC MISSIONS FOR SUBORDINATE UNITS:

SECRET
SECURITY INFORMATION

Annex DCG to Operation Plan 9-53

(CONT'D)

- a. CA 135 will effect assignments shown in Appendices 1 and 2 of this annex, and will further provide on call fire support for Co "H" and Co "I", 3rd Battalion, 7th Marines.
- b. DD 702 will effect assignments shown in Appendices 1 and 2 of this annex, and will provide further on call fire support for Co "G", 3rd Battalion, 7th Marines.
- c. LSM (R) 410 will effect assignments shown in Appendices 1 and 2 of this annex, and will provide further on call fire support for Co "G", 3rd Battalion, 7th Marines.
- d. (1) Priority of fires initially: Destruction of A, B, and C targets in that order. After H-Hour, priority to "call fires" and targets of opportunity. Targets classified as follows:
- (A) Installations which threaten ships, aircraft, and UDT spns.
 - (B) Installations which threaten assault forces, ship to shore movement and landing.
 - (C) Installations which threaten or oppose landing force spns after landing.
 - (D) Installations which should not be fired on prior to D-Day.
 - (E) Targets which will not be fired or destroyed except by order of the Commanding Officer, 3rd Battalion, 7th Marines; either because of possible future use by friendly forces or for humanitarian reasons.
- (2) Assignment and relief of fire support ships will be made by Commander Attack Forces (Task Group 98.8.6) and will be effected by 0400I each day. Emergency relief may be requested at any time.
- (3) On D-Day, scheduled fires will be lifted or repeated as directed by Commander Attack Force. If scheduled fires are repeated the rate of fire will be one-half ($\frac{1}{2}$) that shown in the schedule for the period indicated.
- (4) Harassing, Interdiction, and Illuminating fires will be requested by NGLO except in an emergency. Plans for night fires will be submitted to NGLO prior to 1800I.
- (5) High performance (VOF) air spot will be available. Organic ship spot aircraft should be used where available and practicable.

SECRET
SECURITY INFORMATION-----
Annex DCG to Operation Plan 9-53(CONT'D)

- (6) VT fuses will not be fired over friendly troops without specific clearance by the Unit Commander concerned.
- (7) Smoke projectiles will be fired on the request of the Battalion Commander, 3rd Battalion, 7th Marines only.
- (8) Shore fire control parties will operate in accordance with LFM-21 and with instructions contained in this Operation Plan.
- (9) The NGLO will coordinate the employment of Naval Gunfire support with air and artillery through the Battalion SAC. Employment of plans Victor, William, or Negat during air strikes will be at the direction of the SAC Officer.
- (10) 5" rockets will not be fired over the heads of friendly troops, nor within 1000 yards of friendly front lines. Caution will be exercised to insure that star shell trajectories do not terminate within friendly positions.
- (11) All fires within 2000 yards of friendly front lines (with the exception of scheduled fires as shown in Appendix 2) will be controlled by the SFCP. No fires will be brought closer than 500 yards of friendly front lines, unless controlled by SFCP and specifically requested by the troop unit concerned.
- (12) Reports required:
 - (a) From Battalion Naval Gunfire Spotter:
 - (1) Friendly front lines hourly and whenever changes occur, to NGLO and supporting ship.
 - (2) Destruction and intelligence reports daily, once before 1200I and once before 1600I to NGLO.
 - (3) Ammunition expenditures report at 1600I to NGLO.
 - (4) Night fires request at 1600I to NGLO.
 - (b) From ships:
 - (1) Ammunition status at 0800I and 1000I and whenever expenditure approaches 30% of bombardment allowance to NGLO.
 - (2) Intelligence gained from ship's observation or from ship's air spot; as soon as possible to NGLO.

SECRET
SECURITY INFORMATION

Annex DOG to Operation Plan 9-53

(CONT'D)

4. AMMUNITION:

a. Ships of attack force will be loaded with full magazine capacity when reporting on station. Fire Support Ships will not leave fire support area for ammunition replenishment without the clearance of the CO, 3rd Battalion, 7th Marines.

b. Fire Support Ships will reserve 10% of the magazine capacity, and 20% of 5" ammunition magazine capacity for ship's defense; LSM (R) will reserve 10% of 5" rockets for night emergency call fire.

5. SIGNAL COMMUNICATIONS:

a. Communications in accordance with 1st Mar Div SOI-6 Current Signal SOP, ACP 125, JANAP 164, and Annex GEORGE.

b. Frequency assignments:

Naval Gunfire Spotting Net:

Stations on the Net: Naval Gunfire Spotting Officer, All fire support ships, Air Spot, NGLO; Radios used: SCR 300, AN/GRC-9.

AIR SUPPORT

1. GENERAL - The missions of air organizations in support of the Battalion Landing Team are to:

- a. Obtain intelligence information needed for initial planning and conduct of operations.
- b. Gain and maintain air superiority.
- c. Isolate the battle area.
- d. Reduce hostile defenses prior to contact.
- e. Attack ground targets throughout the battle area.
- f. Provide air support to include troop carrying, delivery of supplies, the evacuation of casualties, and tactical and gunnery observation.

2. CONTROL:

- a. The control of air support is organized as follows:
 - (1) An Air Control Agency at the highest echelon of command.
 - (2) Tactical Air Control party with the Battalion Landing Team and to smaller units if operating independently.
- b. The control procedure for air support is as follows:
 - (1) Air Control Agency in radio communication with supporting aircraft and with TACP's ashore, controls and directs air support missions in accordance with BLT requirements.
 - (2) TACP in radio communications with Air Control Agency, and support aircraft executing an approved mission.
 - (3) Communication nets:

E-1

SECRET
SECURITY INFORMATION

Annex EASY To Operation Plan 9-53 (Cont'd)

- (a) Tactical Air Request (TAR) Net - Ground to ground net for use between Air Control Agency and TACP.
- (b) Tactical Air Control (TAC) Net - Ground to air net for use between aircraft and TACP and ACA.

5. BOMBARDMENT SCHEDULE - Air support will be furnished by:

- a. All available land based medium and heavy bombardment aircraft groups within five hundred (500) mile radius of objective area from D-Day minus five to D-Day minus one:
 - b. Fast carrier aircraft attack weapons positions, troops, bunkers, and fortifications from D-Day minus three to one hour prior to H-Hour, D-Day.
 - c. Support carrier aircraft on station over objective area from H-Hour minus fifty minutes until BLT objective secured.
- (1) Air Defense: Twenty-four (24) VMF aircraft available, four (4) of which will be on station continuously from D-Day until objective is secured. Each aircraft loaded with maximum 20mm. These aircraft will be used for air defense only and under no circumstances diverted to close air support. Each aircraft will remain on station for two hours, relief effected on station.
 - (2) Air Support: Twenty-four (24) VMA aircraft available, four (4) of which will be on station from H-Hour minus fifty until objective secured.
 - (3) Two aircraft of each division will be loaded with two 1000 lb bombs with inst nose fuze and 4 to 5 second delay tail fuse, twelve (12) 250 lb G.P. bombs, and full load of 20mm. The other two aircraft of each division will be loaded with two (2) large napalm tanks, twelve (12) 250 lb G.P. bombs, and full load of 20mm. Each division will remain on station two (2) hours, relief effected on station. All missions under positive control of TACP. First flight of aircraft will keep landing beaches under constant strafing attack from H-Hour minus 9 until first landing craft reaches beach. Aircraft will orbit pt OBOE, BS 464204, when not engaged in a support mission.

SECRET
SECURITY INFORMATION

Annex EASY to Operation Plan 9-53 (Cont'd)

4. ADDITIONAL SUPPORTING AIRCRAFT:

a. Land Based Air Organization:

- (1) Photo reconnaissance of objective area from D-Day minus five to D-Day minus one.
- (2) No land based air support available from D-Day until objective secured.

b. Observation type aircraft:

- (1) Three (3) observation aircraft available for operation. One (1) aircraft on station at all times. Each aircraft remain on station three (3) hours, relief effected on station.
- (2) Observation aircraft available for Naval Gunfire and Artillery Spotting by request from BLT Commander.

5. INSTRUCTIONS AND ORDERS:

- a. Pilots will be prebriefed for each mission.
- b. Air Observers will be briefed aboard support carrier for each mission.
- c. TACP must have positive radio control over all aircraft engaged in close air support missions.
- d. Front lines will be marked with panels.
- e. Targets will be marked with WP. smoke if possible.
- f. Flak suppression will be fired for close air support missions if practical.
- g. The Air Commanders Command Post will be aboard Support Aircraft Carrier.
- h. The TACP will be located ashore as directed by the BLT Commander and as the tactical situation permits.
- i. Suggested targets:
BS 454226 Hvy Gun Pen; D-5, D-4, D-3, D-2, D-1, D-Day.

Annex NAN to Operation Plan 9-53

TRANSFER LINE PLAN

1. GENERAL:

A Transfer Line will be established approximately 1000 yards to seaward of the beach as indicated in the Transport Area Diagram, Appendix I to Annex I (Naval Operation Plan) in order to provide additional training for the Landing Force and to facilitate unloading of cargo during periods of adverse tide.

2. TRANSFER OF TROOPS:

a. Personnel transfer operations from LCVP to LVT will be conducted in Wave 7. During reembarkation troops will transfer from LVT to LCVP at the Transfer Line. If sea conditions prevent LCVP-LVT marriages, Transfer Barges will be used to transfer troops from one craft to the other.

b. Operations at the Transfer Line will be under the general supervision of the Central Control Officer assisted by Transfer Line Control Officer (TALLEDEGA Boat Group Commander and one assistant). Transfer Line Control Officer will insure that landing craft maneuver alongside the LVT in each instance of marriage. LVT will do no maneuvering during approach and marrying of landing craft.

(1) When CTE 90.85 signals "Commence Reembarkation" TALLEDEGA will dispatch all LCVP in waves to the PCEC for use in transporting troops from Transfer Line to appropriate vessel.

c. (1) As each boat completes its transfer, it will cast off, proceed to the nearest flank of boat lane and return to parent vessel keeping well clear of incoming traffic.

(2) After being loaded, LVT will be dispatched to the beach by the Transfer Line Control Officer.

3. TRANSFER BARGES:

a. Transfer Barges will be dispatched by WHETSTONE in time to follow Wave 6 and will anchor on right and left flank of boat lane respectively by H/40. Transfer barges will be used to transfer equipment and supplies from boats to amphibious vehicles. If sea conditions necessitate, the transfer barges will be used to transfer troops from one craft to another.

SECRET
SECURITY INFORMATION

Annex NAN To Operation Plan 9-53

(CONT'D)

b. The Transfer Line Control Officers will control the movements of all boats and amphibious vehicles at the transfer barges. These officers will direct boats to go alongside one side of barge and LVT/DUKW the other. They will insure that the time interval between one boat or LVT/DUKW clearing the barge and another coming alongside is kept to a minimum.

ADMINISTRATIVE ORDER)

NUMBER..... 2-53) : To accompany OPN Plan 9-53

Maps: Island of Tokchok-To, 1:25,000

1. SUPPLY

a. Supplies and equipment available

(1) Class I

Shore Party provide individual assault rations for consumption ashore on "A" and "D" days. See Annex BAKER to Embarkation Order 1-53.

(2) Class II

(a) Individual arms and equipment, crew served weapons, and communications equipment will be taken by all units.

(b) 26 LVT 3(G), 5 LVT (A), 16 DUKW, 1 105mm howitzer, 1 M40 tank, and Shore Party heavy equipment listed in Annex BAKER will be taken by the appropriate unit

(3) Class III

Shore Party provide Class III requirements. See Annex BAKER to Embarkation Order 1-53.

(4) Class IV

(a) Shore Party provide Immersion suits for personnel to be landed in LCVF.

(b) Bn Sup O provide 12 sets of clothing (utilities, field jackets, underwear, socks & gloves) for emergency issue from warning tent ashore.

(c) Shore Party provide minimum of 4 cargo net loads of dunnage cargo.

(5) Class V

(a) 1 Basic Load Small arms

(b) 4 boxes per LG

(c) No rocket or mortar ammo, no grenades and no flame thrower or demolitions will be taken.

b. Palletization of supplies

None

c. Control

(1) Units submit requests to this sq. SF team responsible for transmitting requests to Tac-Log Group.

(2) Tac-Log Group take station aboard Control Vessel by minus 1 hour. Secure-on order. Group to consist of:

Bn S-4

Repres 1st Lt Trac Bn

Det. Bn Comm Plat

SECRET
SECURITY INFORMATION

Administrative Order 2-53

(Cont'd)

(3) Tac-Log Group will advise and assist the Navy Control Officer in matters relating to landing of serials and supplies, and the capabilities and limitations of amphibious vehicles.

d. Distribution.

(1) Supply point dists by carrying parties from beach dumps.

(2) See Annex BAKER, Shore Party.

e. Plan for landing.

(1) Supplies to be landed with troops.

(a) Basic load of SA ammo, 4 boxes ammo per MG.

(b) Filled canteen.

(c) Kit, medical, jungle.

(2) Floating dumps.

(a) 3 DUKW's loaded with rations.

(b) 2 DUKW's loaded with fuel.

(c) 1 DUKW loaded with ammo.

(d) Report to control vessel by H minus 15 minutes.

(3) Dummy cargo.

Shore Party Team will call for dummy cargo when organization of beach permits receipt and handling.

2. EVACUATION AND HOSPITALIZATION

See Annex ABLE.

3. TRANSPORTATION.

a. Ocean.

See Embarkation Order 1-53.

b. Highway.

(1) For movement to and from embarkation area - see Embarkation Order 1-53.

(2) Shore Party responsible for control of traffic in beach area.

4. SERVICE.

a. Shore Party Group BAKER.

See Annex BAKER.

b. Det, 1st LP Co, Hq Bn.

(1) CP afloat, LST 887

(2) Land administratively on R-1 day, set up warming tent left flank RED Beach.

(3) Restrict natives from landing area encompassed by Administrative Line (see Opn Plan 9-53).

c. Det, 1st Am Trac Bn.

(1) CP afloat, LST 887.

(2) After landing assault elements and KAC Co, report to SP Comdr. Render logistical support in accordance with SP Comdrs instructions.

SECRET
SECURITY INFORMATION

Administrative Order 2-53

(Cont'd)

- d. Det, Am Trk Co, 7th LT Bn.
 (1) CP afloat, LST 901
 (2) After landing initial loads, report to SF Comdr and render logistical support as directed.

5. PERSONNEL.

- a. Strengths, records, and reports.
 Personnel strength and casualty reports to Bn S-1 at 1900 as of 1800.
- b. Replacements.
 None
- c. Discipline, law, and order.
 (1) Det, MF Co, Hq Bn, exercise control over civilian population.
 (2) Troops will not proceed beyond Administrative Line (see Opn Plan 9-53).
 (3) Native homes and villages are to be strictly avoided.
- d. Prisoners of War. - SOP
- e. Burial and graves registration. - SOP
- f. Morale and personnel services.
 (1) Mail - service suspended during absence from base camp.
 (2) Awards - SOP

6. MISCELLANEOUS

- a. Rear echelon
 (1) CP - Base Camp
 (2) CO - 1st Lt. P. BRILEY
- b. Uniform and equipment for embarkation.
 (1) Enlisted.
 Utility clothing, field jackets w/liner, leather gloves w/inserts, field or utility cap, field boots, field marching pack (blanket, poncho w/brown side out), helmet w/camouflage cover (brown side out), belt w/suspenders, one canteen, jungle medical kit, individual weapon. Carry extra underwear, socks and change of outer clothing in pack.
 (2) Officers.
 Same as for enlisted except marching pack in lieu of field marching pack. In addition officers may carry one bag, waterproof, with additional clothing.
- c. Uniform and equipment for landing.
 (1) As set forth in b, above, except that blanket rolls and extra clothing will not be taken ashore.
 (2) Personnel landing in LCVs will wear immersion suits.

SECRET
SECURITY INFORMATION

Administrative Order 2-53

(Cont'd)

d. Administrative Matters.

(1) Life jackets, boat signs and immersion suits will be dropped on the beach after passing the high water line and seaward of sand dunes. Extreme care will be exercised to prevent damage to these items, especially the immersion suits. SF will collect.

(2) Units will thoroughly police the landing area in their respective Z of A prior to reembarking. Trash will be burned. Tin cans will be collected and dumped offshore.

One corpsman and one senior corpsman with Co CP.
 - (3) Headquarters Company
One corpsman to be assigned from Bn Aid Station.
- c. Marine litter bearers will be assigned by unit commanders. Four litter bearers for each company is suggested.
- d. Shore Party evacuation section will collect and clear casualties after they have been processed by the Bn Aid Station.

2. MISSION:

- a. Initial treatment and evacuation of casualties.
- b. supervision of sanitation.

3. ADMINISTRATION:

- a. Bn Medical Officer will be in charge of Bn Aid Station and will supervise all medical aspects of the operation ashore.
- b. HMC will be responsible for medical records, supply, and personnel replacement. H will maintain a master medical log at the Bn Aid Station.
- c. senior corpsmen in their companies. They will keep a medical log.
- d. Medical communications: see Annex GEORGE To Opn Plan 9-53.

4. OPERATION

- a. Initial treatment and evacuation
 - (1) Company corpsmen will render immediate first aid, complete Emergency Medical Tags, request litter bearers from senior corpsmen of their company, and, if feasible supervise evacuation to the Co CP.
 - (2) Senior corpsmen will dispatch litter bearers to Co corpsmen, log, examine, administer supportive therapy, and supervise evacuation of all casualties in his company sector. Casualties he receives will be evacuated to the Bn Aid Station.

A-1

SECRET
SECURITY INFORMATION

- (3) Bn Aid Station will log, give supportive therapy, and evacuate wounded to Shore Party.
- b. supervision of sanitation.
- (1) Company sanitation will be supervised by Co Corpsmen.
- (2) No food or water other than that coming through authorized supply channels will be consumed.
- (3) All garbage, trash, and human excrement will be buried.
- c. actual casualties
- (1) Actual casualties will be treated and evacuated with dispatch to the Bn Aid Station.
- (2) Method of evacuation of casualties ashore will be decided by the Bn Medical Officer. Class A casualties will require helicopter evacuation to the USS HAVEN. Class B casualties will be evacuated by the Shore Party with dispatch through their usual channels of evacuation.
- (3) Casualties occurring in landing craft will be treated by the nearest medical officer who will decide on method of evacuation.

BATTALION TRAINING ORDER)
NUMBER 1-53) Training Program

Ref: (a) Regimental Training Order 2-53

Encl: (1) Training Syllabus, General
(2) Training Syllabus, Comm Platoon
(3) Training Syllabus, Officers and Staff NCO School
(4) Training Ammunition Allowance (Tentative)
(5) Training Areas and Ranges Overlay

1. GENERAL

a. The purpose of this training order is to prescribe a training program consistent with the operational commitments for this battalion for a four (4) week period commencing 16 March 1953.

b. Basically, training will be in ground warfare subjects with particular emphasis on patrolling and small unit tactics. However, this battalion will also train for, and participate in, an amphibious exercise tentatively scheduled for the early part of April.

c. It is anticipated that one or more CFX's and one FEX will be conducted during the training period.

d. Training will be accomplished to insure:

- (1) Progressive schooling on the individual Marine in weapons proficiency, individual conduct, patrolling, and combat tactics.
- (2) Proficiency of all tactical units of this battalion in offensive and defensive techniques, and in night operations.
- (3) Proper integration of replacement personnel.
- (4) Specialist and technical training necessary to the accomplishment of the mission of this battalion.
- (5) A review in the techniques of amphibious warfare.

RESTRICTED
SECURITY INFORMATION

-1-

RESTRICTED
SECURITY INFORMATION

DIVISION TRAINING ORDER 1-53

(CONT'D)

2. PLAN

a. Training Periods:

- (1) Units will conduct training consistent with the immediate tactical situation and their operational commitments.
- (2) Training periods will be planned to cover a minimum of 36 hours per week (6 hours per day for 6 days) to be executed by those elements available for training. One afternoon each week will be allotted to organized athletics - such time will be scheduled and considered as part of the training program.
- (3) A minimum of 60% of all tactical training will be conducted during the hours of darkness.

b. Training to be accomplished:

- (1) Enclosure One (Training Syllabus, General) will be used as a guide in the conduct of training for all units excepting those for which other syllabi are furnished.
- (2) Training in mine warfare and demolitions will be conducted by personnel from the 1st Engineer Battalion. Details will be published in a separate memorandum.
- (3) Intelligence training will be coordinated by Regimental S-2 and will conform to provisions of Division Training Memorandum 23-52.
- (4) H&S Company will conduct schooling on general and special military subjects. A minimum of 8 hours instruction per week will be scheduled to include small arms, safety regulations and precautions, and range firing.
- (5) Officer and Staff MCO School will be conducted by this Battalion. There will be a minimum of two hours instruction per week.
- (6) A Forward Observer School will be conducted for all rifle platoon and squad leaders and such other personnel as unit commanders may designate. Details will be published in a separate memorandum.

3. INSPECTIONS

- a. Training programs will be closely supervised by unit commanders. Informal inspections will be made by representatives of

RESTRICTED
SECURITY INFORMATION

BATTALION TRAINING ORDER 1-53

(CONT'D)

this or higher headquarters to determine training progress and combat proficiency.

b. Combat readiness inspections will be conducted by unit commanders as frequently as necessary to insure that units are at all times fully equipped and ready for combat.

5. TRAINING FACILITIES

a. Approved training areas and ranges are indicated in Enclosure Five (5).

b. A limited library of Field Manuals and Training Films are available. Orders can be placed at Battalion S-3. Film Requests must be placed ten (10) days in advance.

6. ADMINISTRATIVE INSTRUCTIONS

a. Assigned instructors will submit lesson outlines for each subject he is required to teach. The outlines will be submitted to this Headquarters for approval by the Commanding Officer. These outlines are due one week prior to the initial instruction in the subject.

 Line Route Maps, Circuit
 Diagrams, and Traffic Diagrams
 Examination

In addition to those subjects listed above all communication personnel will receive small arms instruction to include mechanical functioning, safety regulations and precautions, and familiarization firing. Special attention will be given to the pistol in such instruction.

Enclosure 2

TRAINING SYLLABUS, OFFICER AND STAFF NCO SCHOOL

Technique of Military Instruction

Command Responsibility

Development of Leadership

Staff Organization, procedure, and functioning (officers)

Small Unit Tactics

Effective use and coordination of organic weapons and supporting arms.

Communications and communications procedures

Military Justice

Amphibious Planning (officers)

While it is desired that emphasis be placed on the above subjects, other subjects may also be scheduled in order that a high standard of individual, professional, and technical proficiency and leadership will be maintained, and that unit proficiency will be increased.

Such training will be scheduled and conducted at such times that will not interfere with troop or unit training.

Enclosure 3

TENTATIVE TRAINING AMMUNITION ALLOWANCE

A partial listing of the ammunition allowance requested from higher headquarters for training purposes is as follows:

<u>BASIS</u>	<u>TYPE OF AMMUNITION</u>
30/carbine	cal. .30, ball, carbine
5/carbine	cal. .30, tracer, carbine
60/M1 and BAR	cal. .30, ball
10/M1 and BAR	cal. .30, tracer
1000/cal. .30 MG	cal. .30 AF-T, linked
1000/cal. .50 MG	cal. .50, AF-T, linked
20/pistol or TSG	cal. .45, ball
10/M1	cal. .30, blank
150/Bn	Rifle grenades, M9A1 and/or T-41
200/Bn	hand grenades, frag and/or concussion
10/launcher	3.5" rockets
1/3 flamethrowers	Napalm thickener (5 1/4 lb can)
50/mortar	60mm mortar, HE
5/mortar	60mm mortar, WP and illuminating
50/mortar	81mm mortar, HE
10/mortar	81mm mortar, HEH and WP
5/mortar	81mm mortar, illuminating
25/rifle	75mm HE
10/rifle	75mm WP
20/tank	90mm HE
4/tank	90mm WP
40/mortar	4.2" mortar HE
10/mortar	4.2" mortar WP

In addition, small quantities of pyrotechnic signals, smoke grenades, and demolitions were requested.

The above figures are provided for planning purposes only. Availability is subject to approval by 8th Army Headquarters.

Enclosure 3

SECRET
SECURITY INFORMATION

3rd Bn, 7th Marines (Reinf)
1st Marine Division (Reinf) FMF
In the Field
281200I, February 1953

PATROL PLAN ITEM 62cp

1. a. Current PIR's

- b. (1) 2/11 D/S. Prepare to fire upon O Dog 24.
(2) 4.2" Mort. Prepare to fire upon O SAC.
(3) 81mm Mort Plat. Prepare to fire upon O SAC.
(4) 60mm fire upon order Co Cmdr Item Company.

2. a. This Bn continue present mission: defense Line JAMESTOWN.

b. Item Co (-) continue present mission defense Line JAMESTOWN. Support raid with SA, AW fire from MLR and COP's DAGMAR (Hill #52) and CORRINE (Hill #50A).

3. a. One (1) squad (Reinf) of Item Co conduct combat patrol upon enemy psn CT 038054, with msn of capturing and/or killing enemy found on psn, capturing enemy equipment and/or weapons, and making reconnaissance of objective for intelligence purposes.

b. Patrol will be constituted as follows:

(1) Main Patrol:

- (a) Assault Element
1 NCO in Charge
2 FTS (8)
9 men total

- (b) Base of Fire
1 Officer
1 LMG Team (3 men)
1 Rkt Team (3 men)
1 FT (4 men)
1 Radioman
1 Corpsman
13 men total

- (c) Reinforcing/Rescue Unit
1 NCO
2 FTS (8 men)
8 KSC litter bearers
17 men total

c. Plan of Maneuver:

(1) Patrol departs MLR (CT 041047) at 020200I, Mar 1953 (See Patrol Overlay) with assault element in lead. Base of fire set up at CT 039054. Assault elements move to objective.

PATROL PLAN ITEM 62cp

(CON'T)

- (2) Reinforcing/Rescue Unit will standby at CT 044049 to move on order.
- (3) Alternate route will be used for evacuation (See Operation Overlay).
- (4) Patrol will return from objective upon completion of msn/or upon O CO, Item Company.

4. Administrative

- a. Minimum of basic load to be carried by each member of Patrol, four (4) rkts per launcher, four (4) boxes .30 cal ammo per LMG.
- b. Medical:
 - (1) (1) Evacuate through Bn Aid Station.
 - (2) Four (4) additional stretchers to be with Reinforcing/Rescue Unit for emergency use.

5. Communications

- a. (1) SOI-6 w/current changes in effect.
- (2) Vocal: Two (2) radios AN/PRC-6. (1 w/Base of Fire and 1 w/Forward Element)
- (3) Pyro: One (1) Very Pistol with following signals:

Request Aid - - - - - RED RED
 Request Support Fire - - - - - GREEN GREEN
 Request Return MLR - - - - - YELLOW YELLOW

- b. Chain of Command:
 - (1) Lt FOX
 - (2) Sgt REILLEY
 - (3) Cpl BEYERS
 - (4) Cpl THOMPSON
 - (5) Cpl MILLER
