Chairman's Message

As the new Chairman of the Citizens' Independent Transportation Trust (CITT), I am reminded that Miami-Dade County is a great place to live, work and play. Public Transportation plays a vital role in both the economic and physical health of our residents and offers great benefits to the community.

The CITT is dedicated to its core responsibilities to provide oversight of the People's Transportation Plan (PTP) and develop proactive plans that meet the challenges of improving public transit in our community. My fellow Trust Members and I remain committed in safeguarding the public's money and we work diligently to maintain the Public's confidence, ensuring that the half-penny transportation Surtax funds are spent as intended.

Over the years, PTP funded projects have greatly enhanced public transportation. For example, we now have a 2.5-mile Metrorail extension to Miami International Airport; new Metrorail, Metromover, and Metrobus vehicles; rail and bus transit system and station enhancements; Special Transportation Services (STS) for people who can't use regular transit services; fare free municipal trolley/on-demand services; an advanced traffic management system; roadways, bridges, and neighborhood improvements, and more.

We are proud of the accomplishments made with the half-penny Surtax thus far and look forward to taking Miami-Dade County to another level with innovative and cost-effective solutions that will help us implement the Strategic Miami Area Rapid Transit (SMART) Plan.

It is an exciting time for transportation in Miami-Dade County. We have never been better connected locally and regionally, and the vision for the future is equally impressive. The investments of our half-penny sales Surtax into public transportation and the expansion of our system are connecting people and communities, serving the residents, helping sustain our growing economy, and contributing to the ongoing and prosperous development of Miami-Dade County which brings about increased business opportunities and high-paying job prospects. And all this is possible thanks to the contributions of the taxpayers whom we represent as the Trustees of the half-penny sales Surtax.

Robert Wolfarth, Chairman

- **WASD** Water and Sewer Department
- YOE Year of Expenditure

Introduction

Background

On November 5th, 2002, the citizens of Miami-Dade County (MDC or the County) approved one half of one percent Charter County Transit System Sales Surtax to implement the People's Transportation Plan (PTP). As part of the ballot question, the voters also approved formation of the Citizens' Independent Transportation Trust (the CITT or Trust) to oversee the proceeds of the Surtax and the implementation of the PTP.

The PTP included a broad range of projects and are categorized into Bus Service Improvements, Countywide Rapid Transit Improvements, Major Highway and Road Improvements, Neighborhood Improvements, and Municipal Improvements.

The Citizens' Independent Transportation Trust (CITT) is the 15-member body created to oversee the People's Transportation Plan funded with the Half-Penny Sales Surtax.

Multiple amendments were approved to the PTP between June 2003 and March 2009 to include transit capital improvement projects, changes to roadway projects, bus service improvements, neighborhood improvements, and Paratransit/Special Transportation Services (STS) implementation. In July 2005, the PTP was amended to restore general fund support to Miami-Dade Transit (MDT), also referred to as Maintenance of Effort (MOE), to the pre-Surtax level of \$123.171 million and annually increase the MOE by 3.5%. Included in the amendment was compliance with the terms of the line of credit obligation letter which outlined the loan approved by the CITT for up to \$150 million in Surtax funds to support Miami-Dade Transit services in existence as of November 5, 2002.

Later in March 2009, the Board of County Commissioners (BCC) amended the PTP (via Resolution R-222-09) to create the Capital Expansion Reserve Fund (CERF) and unify the funding structure allowing for greater flexibility in the use of Surtax funds for operations and maintenance of the unified transit system. The CERF was established to reserve at least 10% of the Surtax revenue's excluding debt service, for capital expansion of the transit system. Prior to this resolution, MDT's operational expenses were reimbursed by the Surtax fund utilizing an allocation model. The model was based on the ratio of expanded bus mileage to the pre-existing mileage at the time the PTP was adopted. After the unification of the County's transit system, all MDT operational expenses were eligible for Surtax funds reimbursement. However, in 2019, the State Legislature passed a bill (HB385) amending F.S. s.212.055 revising the authorized uses of proceeds from charter County and regional transportation system Surtaxes. The bill placed additional restrictions on the use of transportation Surtax funds and the relevant provisions became effective October 1. 2022.

Additionally, in April 2021, the Florida Senate Bill 50 (SB50) was approved revising the definition of the term "retail sale" to include a remote sale. SB50 became effective July 1, 2021, and have a positive impact on Surtax collections.

Surtax Collections

Surtax collections over the years from FY 2003 through FY 2024 are shown in the **Table 1** and **Figure 1** below. Due to the unprecedented COVID-19 pandemic, there was a significant drop in the Surtax collections in FY 2020. However, the Surtax collections showed a significant increase in FY 2021 and FY 2022. The total annual Surtax collections during FY 2022 were approximately \$386.8 million, 24% higher compared to FY 2021. The budgeted and proposed Surtax collections for FY 2023 and FY 2024 were estimated to be approximately \$408 million and \$424 million respectively.

| | FY 2003 | FY 2004 | FY 2005 | FY 2006 | FY 2007 | FY 2008 | FY 2009 | FY 2010 |
|----------------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|
| Annual Surtax | \$105,273,940 | \$161,307,471 | \$169,932,719 | \$189,517,618 | \$191,330,659 | \$186,500,770 | \$172,706,283 | \$176,666,761 |
| Cumulative Surtax | \$105,273,940 | \$266,581,411 | \$436,514,130 | \$626,031,748 | \$817,362,407 | \$1,003,863,177 | \$1,176,569,460 | \$1,353,236,221 |
| | FY 2011 | FY 2012 | FY 2013 | FY 2014 | FY 2015 | FY 2016 | FY 2017 | FY 2018 |
| Annual Surtax | \$189,296,991 | \$202,478,062 | \$216,132,587 | \$228,016,549 | \$242,080,187 | \$251,691,635 | \$255,911,451 | \$274,979,613 |
| Cumulative Surtax | \$1,542,533,212 | \$1,745,011,274 | \$1,961,143,861 | \$2,189,160,410 | \$2,431,240,597 | \$2,682,932,232 | \$2,938,843,683 | \$3,213,823,296 |
| | FY 2019 | FY 2020 | FY 2021 | FY 2022 | *FY 2023 | **FY 2024 | | |
| Annual Surtax | \$282,819,920 | \$250,666,807 | \$310,906,128 | \$386,789,543 | \$408,853,000 | \$424,000,000 | | |
| Cumulative Surtax | \$3,496,643,216 | \$3,747,310,023 | \$4,058,216,151 | \$4,445,005,694 | \$4,853,858,694 | \$5,277,858,694 | | |

* Budgeted as per FY 2023 Adopted Pro-Forma; ** Projected as per draft FY 2024 Pro-Forma

Table 1 – Surtax Collections FY 2003 through FY 2024

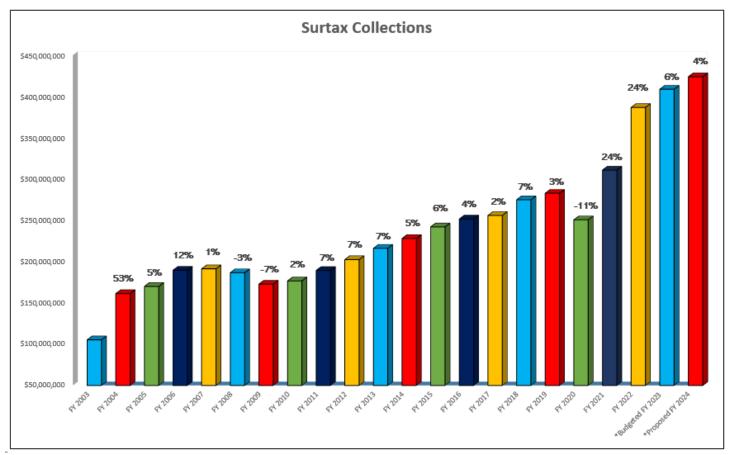

Figure 1: Surtax Collections FY 2003 to FY 2024

Surtax Distribution

Surtax distribution for FY 2022 is shown in the **Figure 2** below. Approximately twenty-three percent (23%) of FY 2022 Surtax funds were transferred to municipalities. Of the total, twenty-six percent (26%) was used to pay debt obligations for transit capital projects and approximately four percent (4%) was expended on transit operations. Six percent (6%) of the Surtax funds were used to pay public works projects debt services, and one percent (1%) for public works pay-as-yougo projects. Under one percent (0.67%) of Surtax funds were utilized for the Office of the Citizens' Independent Transportation Trust (OCITT) operational costs and approximately thirteen percent (13%) was transferred to the Capital Expansion Reserve Fund (CERF). There is a fund balance of approximately 26% (\$101.75M) of the total Surtax collected (\$386,789,543) in FY 2022 that is not reflected in the pie chart below.

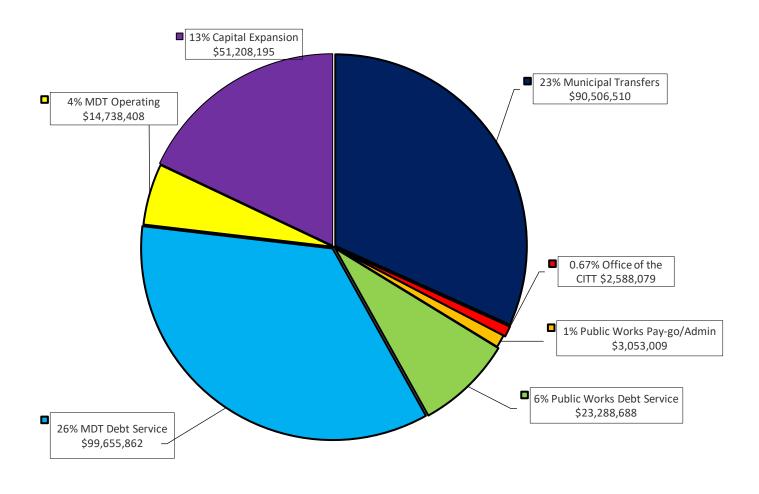

Figure 2: FY 2022 Distribution of Surtax Funds

Significant improvements have been made to the County's public transit and roadway systems through the investment of Surtax funds since the PTP was enacted. Some of the signature projects completed to date include:

- Implementation of Golden Passport/Patriot Passport program (estimated \$18M annual foregone revenue)
- Fare free Metromover (estimated \$0.8M annual foregone revenue)
- Orange Line, a 2.4 Mile Metrorail extension to Miami International Airport (\$496.6M PTP for Capital and \$16.6M for annual operations)
- Advanced Traffic Management System (ATMS) Phase 1 and 2 completed. Phase 3 ATMS on-going (\$49M PTP Capital)
- Metrorail Central Control Upgrade (\$25.6M PTP Capital)
- Metromover Vehicle Replacement (\$70M PTP Capital)
- Metrorail Vehicle Replacement (\$399.8M PTP Capital)
- Fare Collection Equipment for Buses and Fare Collection Cloud Migration (\$81.9M PTP Capital)
- University Station Pedestrian Overpass (\$6.3M PTP Capital)
- Dolphin Station Park-and Ride (\$13.4M PTP Capital)
- Tamiami Station Park-and Ride (\$8.2M PTP Capital)
- Northeast Corridor West Aventura Station (\$76.7M PTP Capital)
- William Lehman Metrorail Operations Center Upgrade (improve test yard and storage tracks (\$12.5M PTP Capital)
- Tri Rail Downtown Miami Link (\$69M PTP Capital)
- Construct new lanes and widen NW 87th Avenue between NW 154th Street and Miami Gardens Drive (\$13.5M PTP Capital)

PTP Surtax funding of \$121.5M along with Federal funds (\$76.5M), State funds (\$35.7M), and County Bond/Debt Lease Financing (\$405.1M) are allocated to purchase new eco-friendly Compressed Natural Gas (CNG), hybrid, electric Metrobus vehicles, bus batteries and electric charging stations. This will modernize the County bus fleet while reducing the carbon footprint. Surtax currently funds \$473.7M for the Metrorail track, guideway, stations, systems, and signage improvement projects. A Metromover comprehensive wayside overhaul project supported by \$132.2M PTP Surtax and \$39.7M Federal funding is on-going. Other Metromover projects including guideway superstructure retrofit are being supported with \$98.4 million of PTP Surtax funds.

PTP Surtax funds played a major role in the advancement of the Strategic Miami Area Rapid Transit (SMART) Plan and related projects. **South-Dade Transitway Corridor** secured Federal Capital Investment Grant (CIG) funds (\$100M), State funds (\$100M) with the assistance of Surtax funds (\$107.5M) local PTP match and advanced to Design-Build with estimated operations in 2024. Additionally, in early 2021, the project was allocated \$29.5M additional Federal funds via the American Rescue Plan Act (The Act). The Act specified that the funding does not count toward statutory Federal or CIG funding limitations, but rather is meant to assist project sponsors with their local match.

Surtax funds also contributed to the expansion/modification of terminal park-and-rides and stations (SW 344th Street, Dadeland South Intermodal station), Construction of new park-and-rides (at SW 168th Street, SW 112th Avenue, SW 264 Street), BRT station drop-off/pick up areas and shared-use path enhancements, Transit Oriented Development (TOD) at Quail Roost Drive, TOD Master Plan study along the South Corridor and a South-Dade area bus maintenance facility. These improvements will provide seamless transfer, connectivity to multimodal transportation options, increased reliability and travel time, iconic stations, level boarding and pre-paid fares for speedy access. Overall, a local match contribution of \$531.6M PTP Surtax funds secured \$236.6M of Federal and State funds towards the South Corridor and related projects.

SMART plan **Beach Corridor** Trunkline (Baylink) is budgeted with \$763 M PTP Surtax funds in FY 2023-24 capital budget to secure \$250M State funding in the future. The Beach Corridor Design District extension project development and environment (PD&E) study and the TOD master plan for beach corridor projects are funded by \$11.2M in Surtax funding.

State Road 836 (SR 836) Express Bus Service Line A and Line C from Tamiami Station and Dolphin Station park-and-rides to Downtown Miami, an incremental improvement along **East-West Corridor**, Dolphin Station and Tamiami Station parkand-rides opened to revenue service. The design of Panther Station, a park-and-ride terminal for SR 836 Express Bus Service Line B was completed. Widening and resurfacing of NW 12th Street to add bus-only lanes and bike lanes between Dolphin Station Park-and-ride and Dolphin Mall is being implemented to reduce travel time and increase reliability for several routes serving Sweetwater and Doral including SR 836 Express and East-West Corridor. **East-West Corridor** Project Development and Environment (PD&E) and Transit Oriented Development (TOD) master plan studies are being conducted by the Department of Transportation and Public Works (DTPW) and funded by Surtax funds. Approximately \$64.5M in Surtax funding secured \$9.7M Federal and \$3.4M State funding for all these East-West corridor and related project improvements.

In addition, Surtax funds of \$475M were programmed in the FY 2023-24 budget to utilize as a local match to secure \$475M in State and \$950M in Federal funds to implement the **North Corridor.**

PTP Surtax funding of \$189.5M and State funding of \$164.5M were approved to secure \$328.9M federal funding for the Northeast **Corridor**.

The PTP Surtax has also funded more than 306 miles of roadways and neighborhood improvements throughout the County – including new pavement, resurfacing, guard rails, new bridges, street and traffic signage, Americans with Disabilities Act (ADA) compliant sidewalks, drainage improvements, traffic calming devices, street lighting on arterial roads and school zone safety improvements. PTP facilitated smoother traffic flow, reduced travel time along major roads and enhanced pedestrian safety.

The municipal component of the PTP has generated outstanding results over the years with both transit and transportation (roadway/neighborhood) improvements completed in the 33 participating Cities. Circulator/Trolley or On-Demand Transit systems supported by the PTP are successfully operating in 31 of the participating municipalities. The pre-pandemic annual ridership was over 14 million passengers in FY 2019. The ridership declined significantly to 5.4 million passengers in FY 2021 due to service suspensions and reduction in service during the COVID-19 pandemic. However, a significant increase in ridership to approximately 9.06 million passengers in FY 2022 was noted.

House Bill 385 (HB385)

The State Legislature passed a bill (HB385) in 2019 that placed additional restrictions on the use of transportation Surtax funds. The bill's relevant provisions will become effective on October 1, 2022. Summary of the information in the bill pertaining to the use of Surtax is listed below.

- Pursuant to Section 3, ch. 2019-169, effective October 1, 2022, and to the extent not prohibited by contracts or bond covenants in effect on that date, Miami-Dade County shall use proceeds from the Surtax only for the following purposes:
 - The planning, design, engineering, or construction of fixed guideway rapid transit systems, rail systems, and bus systems, including bus rapid transit systems, and for the development of dedicated facilities for autonomous vehicles as defined in section 316.003, Florida Statutes.
 - The acquisition of rights-of-way for fixed guideway rapid transit systems, rail systems, and bus systems, including bus rapid transit systems, and for the development of dedicated facilities for autonomous vehicles as defined in s. 316.003.
 - The purchase of buses or other capital costs for bus systems, including bus rapid transit systems.
 - The payment of principal and interest on bonds previously issued related to fixed guideway rapid transit systems, rail systems, or bus systems.
 - As security by the governing body of the County to refinance existing bonds or to issue new bonds for the planning, design, engineering, or construction of fixed guideway rapid transit systems, rail systems, bus rapid transit systems, or bus systems.
 - For the operation and maintenance of fixed guideway rapid transit systems and bus routes or extensions thereof, including bus rapid transit systems, which were implemented or constructed subsequent to the passage of the Surtax, and for operations and maintenance of services authorized by electors in passing the Surtax or included in the ordinance authorizing the levy of the Surtax subject to the electorate's approval.
 - To the extent not prohibited by contracts or bond covenants in effect on October 1, 2022, no more than 25 percent of the Surtax proceeds may be distributed to municipalities in total. Such municipalities may use the Surtax proceeds to plan, develop, construct, operate, and maintain roads and bridges in the municipality and to pay the principal and interest on bonds issued to construct roads or bridges. The governing body of the municipality may pledge the proceeds for bonds issued to refinance existing bonds or new bonds issued to construct such roads or bridges. Additionally, each such municipality may use Surtax proceeds for transit systems within the municipality.

To ensure that all proposed uses of Surtax funds will be spent for eligible projects under the new restrictions, OCITT along with the County Attorney's Office (CAO) and DTPW, reviewed the active projects in the current PTP five-year implementation plan and listed the eligibility of the projects for Surtax funding after HB385 becomes effective. The following table shows the list of projects that are either ineligible or partially eligible for Surtax funding on a pro-rata basis to the extent required due to the implementation of supported projects subsequent to the implementation of the PTP (Orange line 2.4-mile Metrorail extension of Guideway, MIC and Palmetto Metrorail Stations).

| Project Name | Surtax Funding Eligibility with HB385 in effect | |
|--|---|--|
| Expansion of Golden Passport to everyone over 65 years of age regardless of income | Only Golden Passport included in the PTP Exhibit 1 is eligible. | |
| Patriot Passport | Not eligible after Oct 1, 2022. | |

| Project Name | Surtax Funding Eligibility with HB385 in effect |
|---|--|
| NW 37 Avenue from NW 79 Street to North River Drive - Widening from 2 to 5 lanes | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| NE 2 Avenue, NE 91 Street to NE 20 Street (split in 7 phases) - NE 20 Street to NE 36 Street | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Resurfacing, Sidewalks and Drainage on Arterial Roads | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Pavement Markings | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Vision Zero Projects | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Track and Guideway Rehabilitation: Seal Gland Rehabilitation, Coverboard Replacement, Metrorail Piers Coating | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Transit Oriented Development (TOD) Master Plan Projects for Beach Corridor, North Corridor, and South Corridor. | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Parking Garages Overhaul | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Additional Elevators at Dadeland North Metrorail Station | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. |
| Metrorail Escalators and Elevators Refurbishment Metrorail Stations Refurbishment AC Unit Substations Metrorail Fiber Optic and Capacity Augmentation Metrorail Tri-Rail Station Traction Power Sub-Station Disaster Recovery Control Center (at PYD) Green Line Rail Components Renewal Track and Guideway 10-15 Yr. Rail Service Equipment Replacement Private Branch Exchange Telephone System Upgrade to VOIP Government Station – Fire Suppression | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. *Partially eligible on a pro- rata basis after Series 2022 Bond Sale end date. |
| Infrastructure Renewal Plan Projects: Roadway Signs in the Vicinity of twenty-three (23) Metrorail Stations CIP201 Upgrade Chiller Units at Lehman Center Purchase of 2 HY-Rail Crew cab Trucks Rail EAMS Work Order Module Implementation Metrorail Platform Cabling Replacement Lehman Curve N41 Realignment Facilities Maintenance EAMS Work Order Implementation Transit Activu Server Recapitalization Transit Scada Station Control Unit Server Recapitalization | Yes, to the extent included in the Contract/Bond executed before Oct 1, 2022. *Partially eligible on a pro- rata basis after Series 2022 Bond Sale end date. |

| Project Name | Surtax Funding Eligibility with HB385 in effect |
|---|--|
| Network Core Switches Recapitalization | |
| 40-Year Recertifications of DTPW Transit Facilities | |
| Train to Wayside Wireless Network at Palmetto Yard | |
| Infrastructure Renewal Plan Projects: | |
| Metromover Vehicles HVAC Compliance Overhaul & Mover Building A/C Replacement | |
| Wireless Lan Access Point Recapitalization | |
| Parking Lot Refurbishment at Northeast, Coral Way, and Central Bus Facilities | |
| Dadeland South Tail Track Security Perimeter Fence | Yes, to the extent included in the |
| Renovate Lehman Center 2nd Floor (Administration) | Contract/Bond executed before Oct |
| Bus Garage and Employees Parking Lot Light Fixtures Upgrade | 1, 2022. |
| Fueling Terminal Modernization | |
| Metrorail Bathrooms Rehabilitation | |
| Replace and Upgrade Physical Assets | |
| Metrorail Public Address System Replacement | |

*Portion of some Metrorail projects may be eligible for Surtax funding after October 1, 2022, to the extent required due to the implementation of supported projects subsequent to implementation of the PTP (Orange line 2.4-mile Metrorail extension of Guideway, MIC and Palmetto Metrorail Stations).

PTP Interactive Dashboard

The CITT team continues to improve the best practices and effective methods to oversee, monitor and track the PTP Surtax dollars spending. In this regard, OCITT along with its strategic consultant IMG Rebel developed an interactive, comprehensive, and user-friendly dashboard. The dashboard showcases the progress of the PTP including Surtax collections, distribution/usage, Municipal and DTPW transit operations performance metrics consistent with National Transit Database (NTD) reporting standards, and statistics of the Surtax funded DTPW capital and infrastructure projects (consistent with the latest adopted PTP five-year implementation plan update). The dashboard is available on the County CITT website and will be periodically updated as the latest data becomes available.

Five-Year Implementation Plan Description

The Board of County Commissioners (BCC) amended the ordinance governing the activities of the Citizens' Independent Transportation Trust (the "CITT" or "Trust") (Ordinance 02-116) on September 21, 2010, to establish a Five-Year Implementation Plan. The Trust, in consultation with the Mayor, shall recommend to the County Commission a Five-Year Implementation Plan (the "Plan"). The Plan shall include a detailed scope of work and budget for each project funded with Surtax funds that is anticipated to be implemented, in whole or in part, during the five-year period. The Plan shall be consistent with the federal requirements for the Transportation Planning Organization's (TPO) (formerly known as Metropolitan Planning Organization (MPO)) Transportation Improvement Program (TIP) and Long-Range Transportation Plan (LRTP). The Plan shall be updated annually.

This report represents the Twelfth annual update of the Five-Year Plan. It documents status and progress in the implementation of Surtax funded projects versus the baseline. Future annual updates to the Plan will continue to monitor the actual implementation of the projects, their adherence to budget and schedule, and any changes to the Plan including project additions, deletions, or deferrals. The project updates included in this plan are as of December 31, 2022, unless otherwise specified. Project expenditures are actual, through FY 2021-22.

The Plan is divided into the following sections:

- **First/Last Leg Connectivity and Shared Mobility Services:** This section includes information on the first and last mile/leg and shared mobility options available within the County and Municipalities and some proposed improvements. This is an informational section.
- New and Active Projects: This section summarizes new projects proposed by the Department of Transportation and Public Works for Surtax and/or Capital Expansion Reserve Funds for the FY 2024-2028 Five-Year Implementation Plan update. This section also includes all active transit and public works projects approved for the use of Surtax and/or Capital Expansion Reserve Funds for FY 2024-2028. Active projects are in process or planned within the five-year period; or ongoing operational activities where its respective goal has been amended appropriate to optimal implementation that meets the original intent of the item. Each active project has detailed description which includes the scope of work and budget. Projects are listed by the following categories:
 - PTP Original Projects
 - Transit (Fare Programs, Transit Service Improvements and Rapid Transit Improvements)
 - Public Works Related projects (Major Highway and Road Improvements, Neighborhood Improvements, Board Requested Projects)
 - PTP Amendments 2003-2009 (Miscellaneous Capital Improvements Related to Bus Operations, Miscellaneous Improvements Related to Rail Operations, Additional Amendments)
 - Other Projects 2009 and beyond (Post-unification, Capital Expansion Reserve funded projects, and Infrastructure Renewal Plan)
- **Municipal Program:** This section discusses the Surtax funded municipal program. It summarizes activity on municipal transit service, ridership, and other transit and transportation projects that are funded with Surtax funds.
- Inactive Projects: This section includes a project summary chart of all inactive projects using all or a portion of Surtax and/or Capital Expansion Reserve Funds. Inactive projects are fully complete, unfunded, deemed infeasible, canceled by Board action, or any further implementation deferred outside the Five-Year plan period (beyond fiscal year 2028). Projects are listed in the same categorical order as active projects.

• Appendices

- **Pro-Forma -** The FY 2024 update to DTPW's 40- year Pro-Forma as of July 2023.
- **Capital Budget -** FY 2023-24 Proposed Budget and Multi-Year Capital Plan and FY 2022-23 Adopted Budget and Multi-Year Capital Plan for the DTPW.
- **PTP Ordinances -** This appendix details the original Exhibit 1 attached to the People's Transportation Plan (PTP) and also includes current County Ordinances related to the PTP.
- o Index

Statement of CITT's Guiding Principles and Priorities

The intent of the Citizens' Independent Transportation Trust ("CITT") *Guiding Principles and Priorities* is to provide guidance to the CITT, and its staff and partners, on actions and activities related to the implementation of the People's Transportation Plan ("PTP") and use of Surtax funds. The CITT shall actively seek to amend the CITT By-Laws, County Code and/or State Statutes as necessary to effectuate these provisions.

Mission Statement

The Citizens' Independent Transportation Trust (CITT) is an independent arm of the Miami-Dade County created by the voters to monitor, oversee, review, audit and investigate the implementation of transportation and transit projects funded with Surtax proceeds.

Guiding Principles & Priorities

- 1. Independence. The CITT was created by the voters as an independent entity of the County and shall endeavor to protect and reaffirm its independence as necessary and appropriate.
- 2. Voter Intent. Projects, programs, and activities related to the CITT, PTP and Surtax proceeds shall align with the original intent of the voter approved PTP referendum. This includes the intended expenditure of Surtax dollars on new and enhanced transportation programs, projects, and service, and not on the operation and maintenance of the system existing prior to the PTP.
- **3.** Public Good. Consistent with the "Citizens" in its title, the CITT should at all times be guided by the public good, and not by political considerations or special interests, and shall strive for equity and fairness across geographic, demographic and socio-economic lines in all of its actions and activities.
- 4. Good Governance. The CITT shall at all times adhere to good governance practices and principles, holding itself to the highest ethical standards, conducting its business in an open and transparent manner, establishing a culture of integrity, professionalism and accountability, and providing sound financial stewardship of Surtax funds.
- **5. Balance of Interests.** The CITT shall engage in a thoughtful and comprehensive approach to addressing transportation and mobility issues; one which balances, complements and furthers other community objectives, such as placemaking, quality of life, economic development, health and fitness, affordable housing, and sustainability.
- 6. Funding Partnerships. Surtax funds should be leveraged as a local match to attract other funds to the maximum extent possible, including federal/state/municipal funds and private sector contributions. Surtax funds should not exceed 50% of project costs for capital projects, except as otherwise approved by the CITT.
- **7. 5-Year Plan**. In coordination with the County, the CITT shall proactively propose revisions to the PTP 5-Year Implementation Plan ("5-Year Plan"), including the addition and deletion of projects, consistent with these Guiding Principles & Priorities and the CITT's Strategic Objectives.

- 8. Performance, Capacity & Connectivity. The CITT shall prioritize projects that enhance the performance, capacity, and connectivity of the transit system, including the Strategic Miami Area Rapid Transit (SMART) Plan and first/last mile/leg solutions that connect the system to surrounding communities, over projects that promote the use of single occupancy vehicles. Furthermore, the CITT shall work with the County, municipalities, and other transportation entities to ensure that all systems complement and connect with one another and work as seamlessly and efficiently as possible.
- **9.** Capital Expansion Reserve Fund. The CITT shall work to increase contributions to the Capital Expansion Reserve Fund (CERF), including directing any recaptured, reimbursed, or otherwise uncommitted Surtax proceeds to the fund, and increasing the percentage of Surtax proceeds dedicated to the fund. CERF should be reserved for critical projects that advance or support the SMART Plan; and any proposed use of CERF should first be reviewed and approved by the CITT and BCC.
- **10. 1**st/Last Mile Solutions. The CITT shall endeavor to have a percentage of annual Surtax proceeds dedicated to 1st/Last mile solutions, such as bike/ped infrastructure, that connects surrounding communities to transit stations.
- **11. On-Time & On-Budget**. The CITT shall monitor Surtax-funded County and municipal projects to ensure that they are on-time and on-budget, and shall, to the extent possible, withhold, recapture or repurpose funds for projects that are significantly delayed or over-budget unless an acceptable justification is otherwise provided.
- **12. Customer Experience.** The CITT shall work with the County and municipalities to ensure that the expenditure of Surtax funds is resulting in a positive customer experience and that transit systems and facilities are clean, well-maintained, and operating efficiently and effectively.
- **13. Promotion.** The CITT shall support the development and execution of a multi-pronged branding, marketing, and public relations campaign(s) to promote the CITT, PTP and its initiatives, and support promotional efforts that aim to increase the use of alternative modes of transportation such as riding transit, carpooling/vanpooling with someone, and bicycling or walking.

Notable Changes to the FY 2024-28 Five-Year Implementation Plan

The Five-Year Implementation Plan (the Plan) presents status on the scope, cost, and schedule of initiatives both completed and in progress. The following table details projects with an increase in Surtax dollars in the FY 2024-28 Five-Year Plan Update versus the prior year.

INCREASE/DECREASE IN PTP SURTAX FUNDING

| Project Name | Requested Surtax Funding FY 2023-27 Five-Year Plan | Requested Surtax Funding FY 2024-28 Five-Year Plan | Funding Increase/(Decrease) | Reason for Funding Increase/(Decrease) |
|---|---|---|--------------------------------|---|
| Metrorail Vehicle Replacement | \$384,777,000 | \$399,787,000 | \$15,010,000 | Funding required for consulting services to close out service delivery and transition the scope of work under the agreement to DTPW. |
| South-Dade Area Bus Maintenance Facility | \$167,619,000 | \$268,500,000 | \$100,881,000 | Multiple revisions to the project budget as a result of: Project footprint reduction resulting in additional cost. Project programming refined scope definition and budget allowing to fast-track the project to align with the electric bus procurement schedule. Project cost revised as per the 90% design plans and an option estimate to include electric bus charging equipment. Project budget added for construction management activity. |
| South-Dade Trail Shared-Use Path Enhancements | \$3,000,000 | \$6,786,000 | \$3,786,000 | Project was recently awarded an additional \$3 million grant that requires 50% local match. |
| South Dade Transitway Stations Drop-off/Pick- up Areas | \$4,463,000 | \$630,000 | (\$3,833,000) | Funding was decreased as the project originally did not receive grant. However, DTPW received a notification later that the project received additional grant funds which requires local match. PTP match will be re- programmed in the next Budget cycle. |
| SMART Plan Beach Corridor (Bay Link) | \$16,580,000 | \$763,000,000 | \$746,420,000 | Local funding share of the total estimated capital cost of a Metromover system. Local funding required to be budgeted to secure FDOT funds and advance the project to completion. |
| SMART Plan North Corridor Planning & Implementation | \$11,154,000 | \$475,000,000 | \$463,846,000 | Capital budget increase to position the project to purse discretionary grants such as Reconnecting Community, MEGA, RAISE and other discretionary opportunities. |
| Transit Oriented Development Master Plan for North Corridor | \$101,300 | \$315,000 | \$213,700 | Total project cost is higher than FTA award and the original local match (PTP). Increase in PTP share to cover additional funds needed to complete the project. |

| Project Name | Requested Surtax Funding FY 2023-27 Five-Year Plan | Requested Surtax Funding FY 2024-28 Five-Year Plan | Funding Increase/(Decrease) | Reason for Funding Increase/(Decrease) |
|---|---|---|--------------------------------|---|
| SMART Plan Northeast Corridor Planning and PD&E | \$25,000,000 | \$189,446,000 | \$164,446,000 | Capital Budget of 30% local match required to comply with FTA New Starts Program to obtain the 50% Federal funding share. |
| Dadeland South Intermodal Station | \$50,147,500 | \$80,964,000 | \$30,816,500 | Budget increased to match the Design Build winning bid (negotiated amount). |
| Additional Elevators at Dadeland North Metrorail Station | \$5,560,000 | \$6,308,000 | 748,000 | Increase in design-build Construction Engineering & Inspection (CE&I) costs. |
| Metromover Comprehensive Wayside Overhaul | \$127,766,500 | \$132,243,000 | \$4,476,500 | All Federal grants were not approved as forecasted and the difference was requested in local funds (PTP). |
| Acoustical Barrier Replacement | \$82,697,000 | \$92,904,000 | \$10,207,000 | Construction cost escalations and inclusion of remaining one third barriers replacement that was not included in the original contract. |
| Expand the Bus Passenger Shelter Program throughout Miami-Dade County | \$12,586,000 | \$29,506,000 | \$16,920,000 | Provide continuity to the Bus Passenger Shelters Installation program and support solutions to the Miami- Dade County Extreme Heat Action Plan. Purchase and Installation of 350 new cantilever bus stop protective roof structures and amenities in the Unincorporated Municipal Service Area (UMSA). |
| NW 37 Avenue from NW 79 Street to North River Drive - Widening from 2 to 5 lanes | \$20,250,000 | \$21,852,000 | \$1,602,000 | Budget increased to match the construction contract bid awarded. |
| NE 2 Avenue from NE 91 Street to NE 20 Street - Street and Traffic Operational Improvements | \$30,913,400 | \$35,428,000 | \$4,514,600 | Budget increased to match the contract bid awarded. |

DEFERRED COMPLETION

The FY 2024-28 Five-Year Plan Update reflects a number of PTP approved projects having estimated completion dates that differ one or more years than those projected in the previous year's Five-Year Plan Update.

| Project Name | Completion Date FY 2023-27 Five-Year Plan | Completion Date FY 2024-28 Five-Year Plan | Reason for change in Completion Date |
|---|--|--|---|
| NW 37 Avenue from NW 79 Street to North River Drive - Widening from 2 to 5 lanes | August 2025 | May 2026 | Delay in procurement. (Contractor's community workforce plan was reviewed by Procurement Services Division). |
| Seal Gland Rehabilitation | September 2023 | September 2024 | Delay due to shortage of staff. |
| Metrorail Piers Coating | September 2023 | September 2024 | Delay due to shortage of staff. |
| Metrorail Vehicle Replacement | December 2022 | November 2027 | Warranty phase on-going till November 2027. |
| Metrorail Escalators Replacement and Elevators Refurbishment | January 2027 | December 2027 | Delay in procurement process. |
| Transit Oriented Development (TOD) Master Plan for South Corridor | September 2023 | September 2024 | NTP for the study was issued in June 2022. Schedule revised to accommodate time required to complete the study. |
| Transit Oriented Development (TOD) Master Plan for the Beach Corridor | October 2024 | October 2025 | Delay due to PSA contract capacity issue. Issue was resolved and NTP for the study is expected in first quarter of FY 2024. Completion date moved to address time needed to select consultant and complete the study. |
| SMART Plan Beach Corridor (Baylink) | December 2022 | December 2024 | Schedule revised to finalize NEPA and begin Request for Proposal Development. |
| SMART Plan East-West Corridor | December 2025 | June 2028 | TPO urged DTPW to reconsider the Locally Preferred Alternative (LPA). Additional time is to obtain direction from the TPO Board and to proceed with the project. |
| Transit Oriented Development (TOD) Master Plan for East-West Corridor | September 2022 | September 2023 | Study completed. Addressing FDOT comments and pending presentation to CITT, District Commissioners, and Committees. |
| SMART Plan Northeast Corridor Planning and PD&E | September 2024 | September 2027 | Project advanced to the next phase |
| Golden Glades Multimodal Transportation Facility (GGMTF) Technology Components | December 2023 | December 2024 | Delay due to pandemic supply chain issue. |
| NW 12 th Street Improvements | July 2024 | September 2026 | Push back from dolphin mall representatives resulted in a traffic study at the mall entrance delaying the plans submittal. Additional time |

| Project Name | Completion Date FY 2023-27 Five-Year Plan | Completion Date FY 2024-28 Five-Year Plan | Reason for change in Completion Date |
|---|--|--|--|
| | | | required to address FDOT comments on the permit application. |
| Additional Elevators at Dadeland North Metrorail Station | September 2025 | September 2026 | Delay in procurement. |
| Parking Garages Overhaul | September 2025 | September 2026 | Delay in procurement. |
| AC Unit Substations | September 2023 | June 2025 | Dependency on the Metrorail DC switchgear replacement project and delay in procurement. Schedule has been revised as indicated during last year's update. |
| 10-15 Year Track and Guideway Rail Service Equipment Replacement | June 2023 | June 2024 | These funds are reserved for the purchase of Swing loader DTPW 59 22/23. The proposal was on hold with procurement. |
| Private Branch Exchange (PBX) Telephone System Upgrade to Voice Over Internet Protocol (VoIP) at all Transit Facilities | September 2023 | September 2024 | Fiber and copper cables material supply delays due to pandemic. |
| Government Station – Fire Suppression System | June 2025 | February 2026 | To implement the project along with the construction phase of the Metrorail Stations Refurbishments (Government Center) project. |
| Northeast Transit Hub Enhancements | August 2022 | August 2024 | Project reopened to complete the final phase (install CCTV system). New contract to be awarded. |

In addition to the notable changes above, DTPW requested revision to the scope and title change of the Metrorail Station Refurbishments project. The additional scope includes assessment of the Metromover stations along with the Metrorail stations for safety, structural integrity, and longevity. The project title will be revised to 'Metrorail and Metromover Station Refurbishments'. There is no overall budget impact or timeline impact to the original project currently.

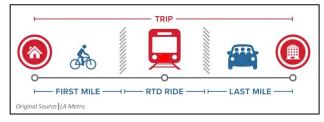

First and Last Mile/Leg

Connectivity and Shared Mobility

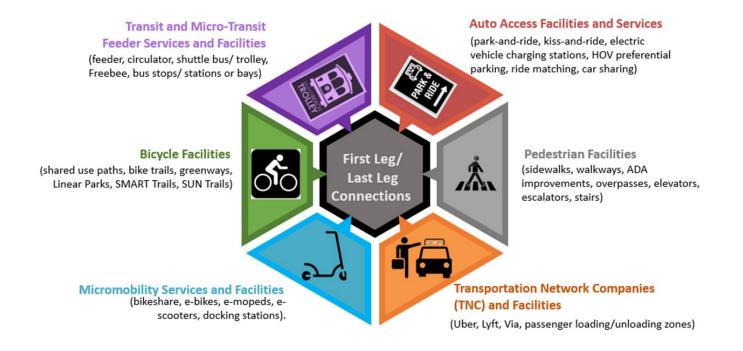

What is First and Last Mile/Leg (FLM) connection?

The first and final connection for transit, often referred to as the "first and last mile/leg," plays a pivotal role in the success of transit systems. Unfortunately, it is frequently overlooked and lacks adequate resources despite its crucial importance. Even though it represents a small portion of the entire

journey, it greatly influences commuters' willingness to use public transportation. For many decades, "walking" has been the primary choice for public transportation users to cover the first and last mile(s) of their trip. Nevertheless, recent technological advancements in the past decade have introduced a range of alternative options. The concept of the first and last mile/leg (FLM) in public transportation essentially refers to the travel choices available for the public to reach the nearest transit station from their starting point (e.g., their home) and then proceed from the transit station to their final destination (e.g., their workplace).

Development of a well-connected non-motorized transportation network system with multiple FLM commute choices is one of our top priority areas to achieve a sustainable and eco-friendly multimodal transportation system. To achieve this goal, Miami-Dade County and all its partners have been continuously emphasizing on improving first and last mile/leg connectivity and enhancing non-motorized transportation system by implementing various projects.

Pedestrian Facilities (within half mile of a transit stop/station/terminal)

Pedestrian Facilities include sidewalks, walkways, ADA improvements, pedestrian overpasses, elevators/escalators, and stairs. Most major streets and local streets throughout the County have sidewalks for safe walking. MDC's adaptation of <u>Complete Streets Policy</u> in the year 2014 shows the County's direction and requirements on various context sensitive design elements in all street design projects to facilitate the needs of all modes of transportation. Escalators/elevators and stairs are available for passenger use in all 21 Metrorail stations and existing Metrorail station pedestrian overpasses. DTPW maintains pedestrian overpasses throughout its transit system to facilitate safe passenger connection. Listed below are some of the pedestrian overpasses.

- Douglas Road Metrorail Station Pedestrian Overpass
- Vizcaya Metrorail Station Pedestrian Overpass
- Hialeah Metrorail Station Overpass
- Snapper Creek Expressway and U.S.1 M-Path Overpass
- University Metrorail Station Pedestrian Overpass

University Metrorail Station Pedestrian Overpass

The Miami-Dade 2045 Bicycle/Pedestrian Plan

outlines the County's vision, mission, goals and direction of creating interconnected pedestrian and bicycle friendly communities throughout the county.

Bicycle Facilities (within three miles of a transit stop/station/terminal)

Bicycle facilities include shared use paths, greenways, trails (SUN, SMART, other), linear parks (underline), bicycle parking, bicycle repair, and stair tire channels. In addition to the 2045 Bicycle/Pedestrian Plan update mentioned above, the Miami-Dade TPO 2045 Long Range Transportation Plan presents the County's vision, direction, and improvement strategies to enhance non-motorized transportation network in the county.

Also, there are several other initiatives including the Bicycle Pedestrian Program (BPP), Bicycle Friendly Business (BFB) Program, Bicycle Friendly Community (BFC) Program, and Bicycle Friendly University (BFU) Program to actively promote and encourage biking. The Bicycle Pedestrian Advisory Committee (BPAC) advises the TPO Governing Board on bicycle and pedestrian-related issues, as well as assists the TPO staff in the development of the comprehensive bicycle transportation plan. Miami-Dade Transit's Bike & Ride program allows commuters to bring their bike onto Metrorail and rack-equipped Metrobus. Also, <u>the county zoning code</u> has required that multifamily residential and commercial properties in the unincorporated area provide secure bike parking close to their primary entrance.

Miami-Dade County has more than 522 miles of bicycle infrastructure ranging from protected and unprotected bike lanes, paved paths and trails, paved shoulders, and wide curb lanes, in addition to sharrows that provide ample opportunities for cycling. The breakdown in facility mileage through July 31st, 2022 is illustrated below:

| Туре | Miles |
|--|-----------|
| | |
| Dedicated Facilities | S |
| Bike Lanes | |
| Unprotected | 196.57 |
| Buffered | 6.39 |
| Protected | 4.81 |
| Total Bike Lanes | 207.77 |
| Paved Paths and Trails | |
| | |
| Paved Paths | 54.43 |
| Trails | 123.80 |
| Total Paved Paths and Trails | 178.23 |
| Total Miles of Dedicated Facilities | 386.00 |
| Paved Shoulders | 53.27 |
| Wide Curb Lanes | 28.11 |
| Total Miles of all Bike Facilities | 467.38 |
| Sharrows* | 54.67 |
| *-Sharrows are not considered as bicycle f | acilities |

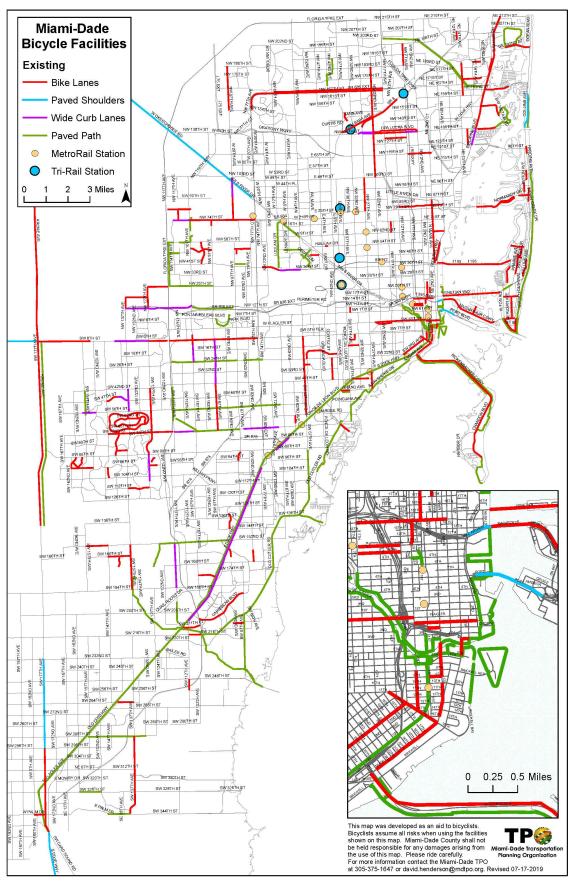

| Total All Mileage | 522.05 |
|-------------------|--------|
| | |

The maps below show the existing (Map 1), planned bike facilities (Map 2), and Mountain biking trails (Map 3) in the County as we continue to transform our County to a pedestrian and bicycle friendly community.

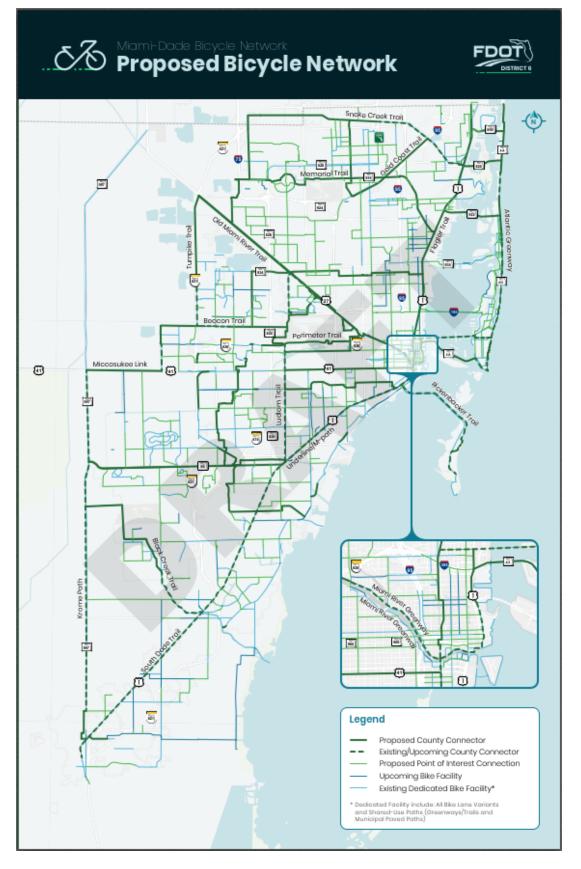

Map 1 - Miami-Dade Existing Bicycle Facilities

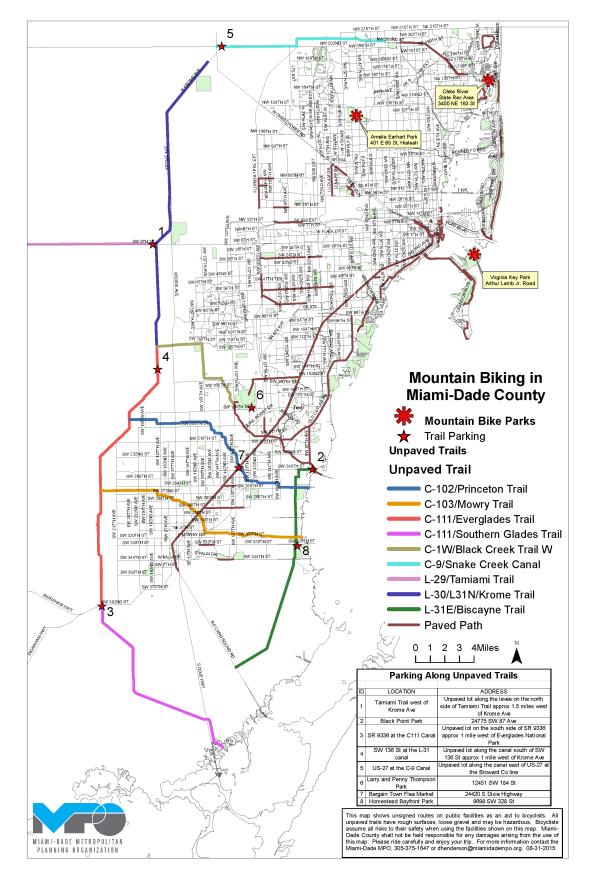

Map 2 - Miami-Dade Proposed Bicycle Facilities

Map 3 - Miami-Dade Mountain Biking Trails and Parks

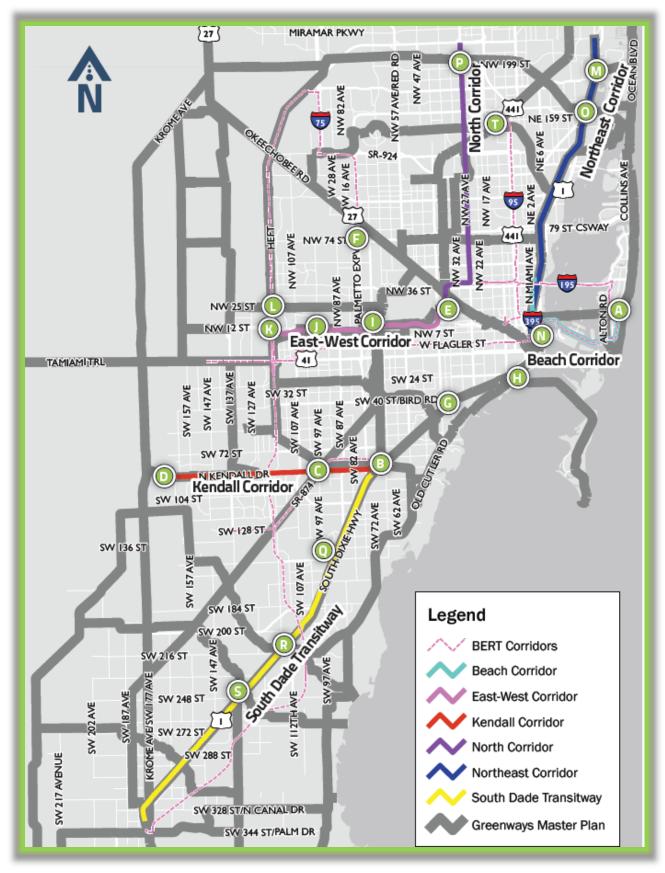

A **SMART Trails Connections** Master Plan was developed as part of the SMART Plan implementation effort to identify potential first and last mile/leg connections between the SMART Plan corridors and the regional non-motorized trail system within the County. SMART Trails and their connectivity to SMART Plan Corridors include:

| SMART PLAN/ TRANSIT CORRIDOR | SMART TRAILS CONNECTIONS | |
|--|--|--|
| Beach Corridor | A. Atlantic Greenway to Beach Corridor | |
| Kendall Corridor | B. Ludlam Trail to Dadeland North Metrorail Station/Underline/Kendall Corridor - Route A | |
| | B. Ludlam Trail to Dadeland North Metrorail Station/Underline/Kendall Corridor - Route B | |
| | C. Snapper Creek Trail to Kendall Corridor | |
| | D. Krome Trail to Kendall Corridor | |
| | E. Miami River Greenway to Metrorail — Route A | |
| | E. Miami River Greenway to Metrorail — Route B | |
| Metrorail | F. Miami River Greenway to Palmetto Metrorail | |
| metroran | G. SW 38th Avenue to Douglas Metrorail/Underline | |
| | H. Rickenbacker Cswy to Underline/Vizcaya Metrorail — Route A | |
| | H. Rickenbacker Cswy to Underline/Vizcaya Metrorail — Route B | |
| | I. Ludlam Trail to East-West Corridor | |
| | J. Kitty Roedel to East-West Corridor | |
| East-West Corridor | K. Central West Basin Linear Park to Dolphin Park & Ride | |
| | L. Turnpike Trail to Dolphin P&R — Route A | |
| | L. Turnpike Trail to Dolphin P&R — Route B | |
| | M. Lehman Link to Northeast Corridor | |
| Northeast Corridor | N. Baywalk Path to Northeast Corridor | |
| | 0. Snake Creek Trail to Northeast Corridor | |
| North Corridor | P. Snake Creek Trail to North Corridor - Route A | |
| | P. Snake Creek Trail to North Corridor - Route B | |
| | Q. Briar Bay Linear Park to South Dade Transitway | |
| South Dade Transitway/ South Corridor | R. Roberta Hunter Park Trail to South Dade Transitway | |
| oodur oorridor | S. Princeton Trail to South Dade Transitway/South Dade Trail | |
| Tri-Rail | T. Gold Coast Trail to Golden Glades Tri-Rail Station | |

Map 4 identifies the Miami-Dade County SMART Trails Connections Network and Greenways Master Plan and connectivity to the six SMART Plan rapid transit corridors.

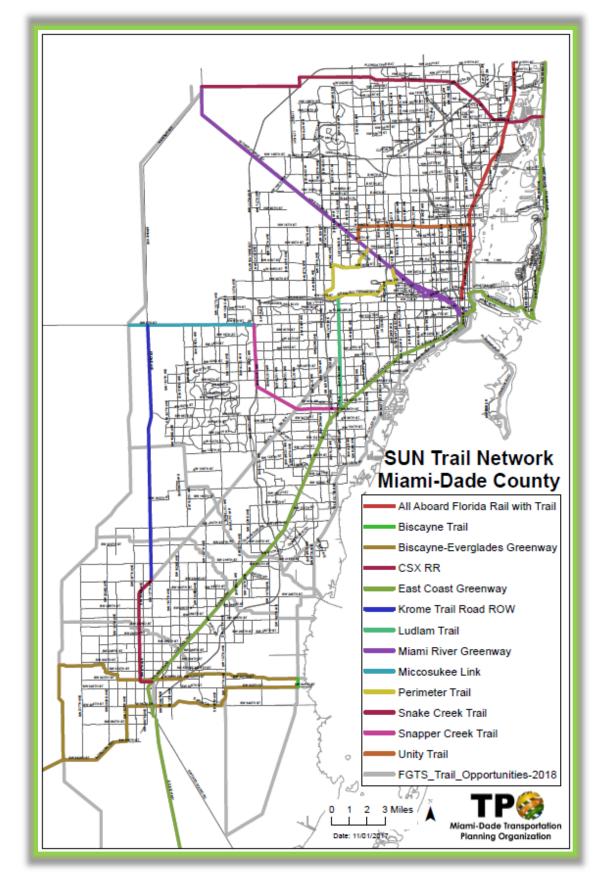

Map 5 – Miami-Dade County SUN Trail Network

In addition to the SMART and SUN Trails, there are several Bicycle and Pedestrian Paths/Trails/Greenways initiatives throughout the County. Also, the County's adaptation of the Complete Streets approach and focus on context sensitive solutions further emphasize the need for making existing roadways safer not only to vehicular traffic but all roadway users (both transportation and non-transportation users).

The Citizens' Independent Transportation Trust (CITT) continues to promote the projects that improve first and last mile/leg connectivity and the non-motorized elements of our transit connectivity system and urges all the stakeholders to prioritize related projects in its capital program and budget.

- A. <u>Bicycle and Pedestrian</u> <u>Paths/Trails/Greenways^{1, 2, 3}</u>
 - 1. Brownsville/Model City Bicycle Boulevard Plan
 - 2. Black Creek Trail
 - 3. Commodore Trail
 - 4. Flagler Trail
 - 5. Miami Baywalk/Biscayne Line
 - 6. Miami Loop
 - Okeechobee Metrorail Station Bike/Ped Connectivity to Miami Springs/Medley
 - 8. Old Cutler Trail
 - 9. Overtown Greenway
 - 10. Rickenbacker Trail
 - 11. SMART Trails
 - 12. Safe Routes to Schools
 - 13. South Dade Trail
 - 14. SUN Trail Network
 - 15. Sunset Drive/Road Protected Bicycle Path
 - 16. Underline/M-Path
 - 17. Other paths/trails/greenway connectors approved by the

CITT and Board of County Commissioners on a case-by-case basis.

- B. Bicycle Facilities & Services^{1, 2, 4}
 - 1. Bike Commuter Stations (secured/covered parking, repair facilities, lockers, showers, etc.)
 - 2. Bike/Scooter-share programs
 - 3. Protected bicycle parking at transit facilities
- C. On-Demand Service^{1, 2, 4}
 - 1. Ride-sharing service (for at least two passengers)
 - 2. Variable route circulators/trolleys/shuttles (for at least two passengers)

NOTES:

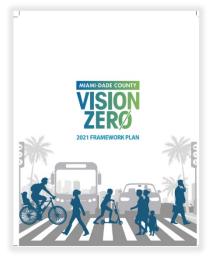

- ^{1.} Projects are listed in alphabetical order, and not in any order of priority or preference.
- ^{2.} Projects/service must primarily serve as a connection to a major transit facility (i.e., Metrorail, Tri-Rail, SMART Plan corridor, park-and-ride, or other premium transit station), or as a direct commuter connection to major employment centers or schools and shall exclude projects that serve a primarily recreational purpose.
- ^{3.} Bicycle and Pedestrian Paths/Trails/Greenways should be separated and/or otherwise protected from vehicular traffic to the maximum extent possible.

Vision Zero

In Miami-Dade County, road crashes over the past decade resulted in an average of four fatalities per week and 17 severe injuries per week costing a total amount of \$22 billion dollars (emergency services, medical household productivity lost, insurance services, administration, workplace costs, legal costs, congestions impact and property damage). Over the past 10 years, the number of fatal crashes has increased by 38% and crashes involving people walking and biking increased by 20% nationwide. Fatal crashes involving pedestrians and bicyclists in Miami-Dade County is 37% even though they account for only 10% of all trips. The number of crashes resulting in fatal injuries is twice than the US average of 21%. Vision Zero is a world-wide movement establishing a program dedicated to eliminating deaths and serious injuries from the transportation network through a system-wide approach. This program includes identifying

high crash locations and possible countermeasures to avoid future crashes, as well as to propose systematic approaches to enhance safety. In May 2021 (National Bike Month), Miami-Dade County launched its "Vision Zero" program with the goal to end all bicycling road deaths by 2030.

implement site specific safety countermeasures and is finalizing the Vision Zero Implementation Plan report that further identifies the County High-Injury (HI) Network (segments and intersections); lays out a systematic approach to implement safety countermeasures and policies; creates awareness and educate the public; and implements safety improvements at the HI network. The Vision Zero projects also include first and last mile/leg connections to SMART plan projects enhancing pedestrian and bicycle facilities as well as retrofit existing bicycle facilities with protection elements to further promote safety and multimodal choices. In July 2023, the DTPW Vision Zero team submitted a competitive Safe Streets and Roads for All (SSA4) grant application to the U.S. Department of Transportation's Safe Streets and Roads for All grant

DTPW is prioritizing the implementation of the Vision Zero Plan in Miami-Dade County. DTPW has identified high crash pedestrian and bicycle locations to

In addition to the traditional non-motorized travel modes discussed above, technological advancements in the last decade, including the growing business interest of private companies (or Transportation Network Companies) towards Mobility-as-a-Service (MaaS) has provided commuters with additional mobility modes such as Uber, Lyft, car sharing, e-scooters, bikeshare, etc.

Micromobility Services and Facilities (at and to/from a transit stop/station/terminal)

Micromobility Services and Facilities include Bikeshare, ebikes, e-scooters, e-mopeds and docking stations. DPTW implemented the RideOn automated bike share program that provided approximately 2000 e-bikes over 120 station docks at several Metrorail stations and Metrobus terminals throughout the County. Municipalities including City of Miami Beach, City of Miami, and Bal Harbour Village partnered with Citibike while City of Aventura partnered with Aventura BCycle to implement successful bikeshare programs in the County that contributes to first and last mile/leg connections.

The City of Miami has approved a pilot program allowing nine private operators to offer motorized scooter rentals in Miami's urban core and surrounding neighborhoods. The pilot program provides residents and visitors access to this new transportation option while allowing the City to evaluate the effectiveness of scooters as part of an overall transportation and mobility program. The City permitted 3,957 scooters in the program with a \$5,000 upfront licensing fee and a charge of \$1 per day per scooter. The City also issued a \$25 ticket for improperly parked scooters. The Miami Parking Authority introduced e-mopeds in the City of Miami.

Transit and Micro-transit Feeder Service and Facilities (at and to/from a transit stop/ station/terminal)

Transit and Micro-transit Feeder Service and Facilities includes Feeder buses, circulators, Municipal Trolley/Shuttle bus, on-demand transit, micro transit, and bus stops/stations or bays. These modes majorly support first and last mile/leg connectivity. The majority of the municipalities (31 of 34 municipalities) in Miami-Dade County provide fare-free Trolley/Circulator and/or on-demand Freebee service that connects to the County Metrorail stations or the Metrobus system. Additionally, three (3) more municipalities are planning to implement the Freebee service by 2024. In 2019, the municipal transit system carried over 14 million passengers whereas the ridership declined in FY 2021 to its lowest of 5.4 million passengers during the COVID-19 pandemic due to service suspensions and reductions. However, post pandemic, the ridership trend is increasing with service restorations and new services transporting over 9.06 million passengers in FY 2022. The CITT provides funding to the municipalities to support transit service through the People's Transportation Plan half-penny sales Surtax. Detailed information (transit vehicle, service, ridership, PTP funds, connectivity with County transit system etc.) can be found in the Municipal Program section of this Plan.

Auto Access Facilities and Services (at and to/from a transit stop/station/terminal)

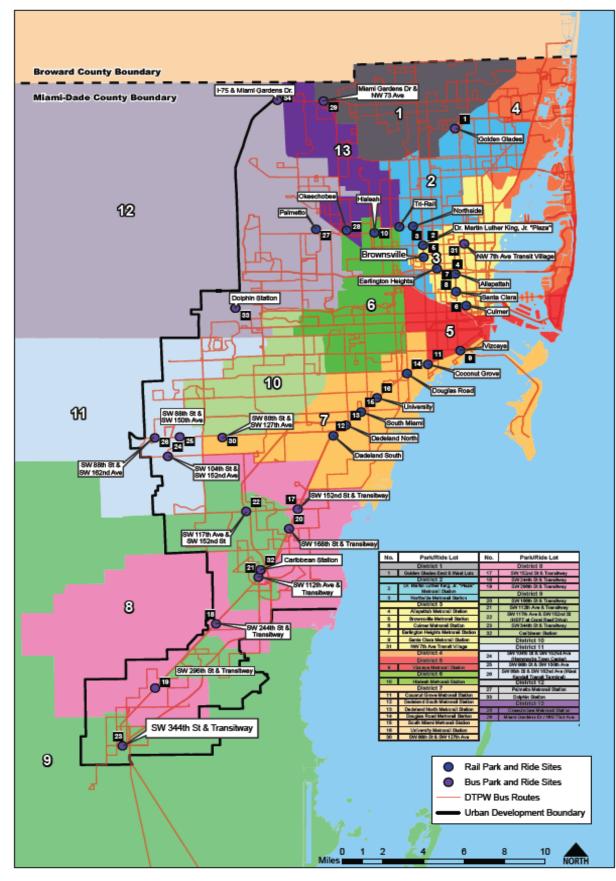

Auto access facilities and services include park-and-ride, kiss-and-ride, electric vehicle charging stations, High Occupancy Vehicle (HOV) preferential parking, ride matching, car sharing. Strategic development of park-and-ride, kiss-and-ride, and multimodal Metrorail parking facilities encourages travelers to take transit trips. I-95 Express Bus routes, Metrorail, Enhanced Express Bus Service routes are a few existing examples of transit routes that are greatly befitted (in terms of ridership) due to the availability of conveniently connected park-and-ride, kiss-and-ride, and metro parking facilities. DTPW currently has over 34 existing park-and-ride locations including Transit Oriented Developments (TODs) with over

13,300 available parking spaces and is planning to develop more transit hub locations. Map 6 below identifies locations of the Miami-Dade County existing park-and-ride facilities.

Map 6 - Park-and-Ride Facilities in Miami-Dade County

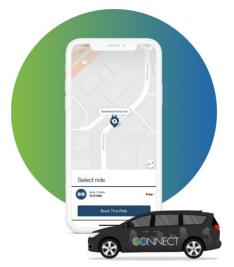

Transportation Network Company (TNC) and Facilities (at and to/from a transit stop/ station/terminal)

TNCs include Uber, Lyft, Via, and passenger loading/ unloading zones. In densely populated cities like Miami, ride-hail apps like Uber and Lyft provide excellent opportunities to address first and last mile/leg connectivity challenges. Miami-Dade County Board of County Commission (BCC) passed an Ordinance in May 2016 legalizing operation of TNCs in the County. The Department of Transportation and Public Works (DPTW) conducted a pilot program with Uber in the summer of 2019 to explore first and last mile/leg connection to payment integration through the 'contactless open payment effort'.

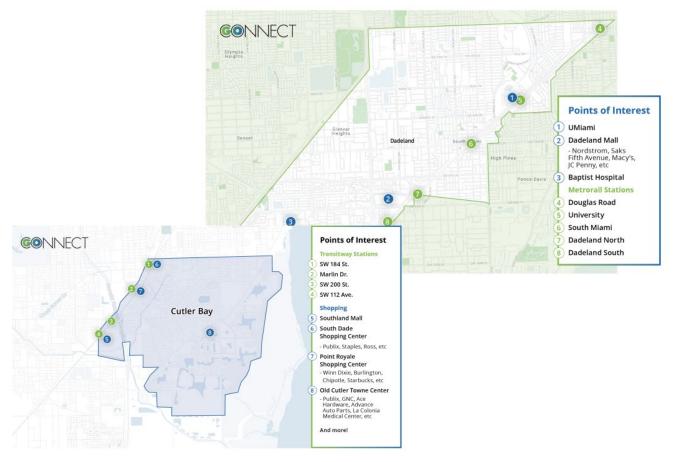

DPTW's "Go Connect" demonstrates another example of how the County is using real-time on-demand transit services to provide shared, near door-to-door rides connecting with major transit stations and selected destinations. Launched in October 2020, the Go Connect program is a ride sharing app-based service that provides first/last mile connections within specific zones. The first zone was the Dadeland/South Miami area. Currently the program serves four areas: Dadeland/South Miami, the Town of Cutler Bay, Civic Center (Health District), and West Kendall. Fares for each trip will be a flat \$2.25, the same cost as a one-way Metrobus or Metrorail ride.

Through "Go Connect", riders can book, track, and pay for their ride using a smartphone application (a call center option is also available). Rides are available from 6:30 a.m. to 7 p.m. Monday through Friday in Dadeland/South Miami. GO Connect ridership has grown significantly in

recent months; more than 30% of pickup/drop-off locations are at transit stations. The Cutler Bay zone has been the most successful service area. The service in this zone is provided at no cost to passengers due to an FDOT grant that is matched by the Town of Cutler Bay.

Miami-Dade Go Connect Program Service Area Map

Mobility-as-a-service (MaaS)

Mobility-as-a-Service (MaaS) is the integration of the various forms of transportation and services into a single mobility service accessible on demand. DPTW partnered with a MaaS provider Velocia, a rewards platform that works in partnership with transit providers and mobility providers. Velocia integrates

VELOCIA

all the above-mentioned transportation modes. Velocia encourages travelers to ride transit, walk, bike, and use shared rides by rewarding velos (points) that can be redeemed for discounts on the participating TNCs, Carpool, Brightline trains and micromobility service options.

Velocia has also developed a segment on its rewards platform for the CITT Ambassador Program. The CITT ambassadors are volunteer transit riders who regularly share their experiences and observations of using transit services in exchange for rewards. They receive velos that can be redeemed for rewards when they complete surveys, share CITT messaging on their social media platforms, and participate in customer focus groups to help the CITT, DTPW, and municipalities learn how well a new and existing transit service is performing.

First and Last Mile/Leg and House Bill 385 Restrictions

CITT encourages all local partners to refer to HB 385 as they develop new first and last mile/leg projects for compliance. House Bill 385 placed additional restrictions on the use of transportation Surtax funds effective October 1, 2022.

The Bill restricts the County's utilization of Surtax funds for construction of bicycle and pedestrian facilities as standalone projects, on-demand services such as Freebee, GoConnect, and micro transit etc. However, if a bicycle/pedestrian path is part of a larger transit capital project/program implementation, the bill does not restrict eligibility for Surtax funding.

Municipalities have greater flexibility in the use of Surtax funds for the implementation, operations, and maintenance of the first and last mile/leg options compared to the County. As an example, the County is not eligible to use surtax dollars to provide on-demand services, such as GoConnect or Freebee. However, municipalities may use surtax dollars for trolley/circulator services as well as, on-demand services, provided that on-demand service is part of the municipality's transit system. In similar terms, municipalities may use surtax funds to construct bicycle and pedestrian facilities.

New Projects

The FY2024-28 Five-Year Implementation Plan of the People's Transportation Plan (PTP) includes new projects to be funded with PTP Surtax funds. The following project was proposed by the Department of Transportation and Public Works (DTPW), approved by the Citizens' Independent Transportation Trust (CITT) for PTP funding and included in the FY2024-28 Five-Year Implementation Plan.

| PROJECT NAME | PROJECT DESCRIPTION | ESTIMATED PTP PROJECT AMOUNT |
|---|--|---------------------------------|
| Dr. Martin Luther King Junior Metrorail Station Park-and-Ride | A new surface park-and-ride will replace the existing Dr. Martin Luther King, Jr. Metrorail Station parking garage. The existing parking garage will be demolished due to structural deficiencies. In the future, the Department of Transportation and Public Works (DTPW) plans to develop this as a Transit Oriented Development (TOD). However, due to current needs, a surface park-and-ride will be designed and constructed to provide parking for transit patrons. The new park-and- ride will connect to the existing bus bays and the kiss-and-ride with approximately 166 parking spaces. This project scope includes design, preparation of construction documents, permits, engineering cost estimate, and construction of the facility. | \$2,628,000 |

Project Description:

A new surface park-and-ride will replace the existing Dr. Martin Luther King, Jr. Metrorail Station parking garage. The existing parking garage will be demolished due to structural deficiencies. In the future, the Department of Transportation and Public Works (DTPW), plans to develop this land as part of a Transit Oriented Development (TOD). However, due to current needs, a surface parking lot will be designed and constructed to provide parking for transit patrons.

The approximate area to be improved as new surface parking is 103,626 sq. ft., the same footprint as the existing parking garage (to be demolished). The new park-and-ride accommodates approximately 166 parking spaces and will connect to the existing bus bays and the kiss-and-ride. This park-and-ride is located at 2600 NW 64 Street. The scope of this project includes data gathering/concept development, engineering analysis and site plan design, lighting, survey, utilities, drainage, geotechnical, environmental permitting, signing, and pavement marking, landscaping/hardscaping, electric vehicle charging stations, sustainability assessment, preparation of construction documents and construction cost estimates, support during procurement process, post design services, and construction of the facility. The budget estimate is preliminary and may need to be revised as the project moves through final design and into procurement.

Project Status:

Project not yet started.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | Actual PTP Expenditures | Estimated Remaining PTP Balance | Completion Date |
|----------------|-------------------|--------------------------------|----------------------------|------------------------------------|-----------------|
| FY 202 | \$2,628,000 | - | \$0 | \$2,628,000 | November 2026 |

Active Projects

Projects in this Twelfth annual update of the Five-Year Plan are separated into two categories: active and inactive. Active projects are in progress or planned within the five-year period; or ongoing operational activities where its respective goal has been amended appropriate to optimal implementation that meets the original intent of the item.

Inactive projects are fully completed, where construction is complete; or partially deleted or unfunded projects, where the entire PTP item was deemed infeasible, canceled by Board action, or any further implementation deferred outside the Five-Year plan period (beyond fiscal year 2028).

Active projects are further summarized in the following section including project description, status, project category, PTP category, project phase, project begin and completion dates, project funding by source, commission District and project expenditures through September 30, 2022.

The Fiscal Impact indicates the PTP Surtax cost and expenditures as of September 30, 2022, remaining balance to complete project and scheduled implementation date. Projects are funded wholly or in part by Surtax funds (bonds, capital expansion reserve funds and/or pay as you go). The funding amounts are rounded to the nearest thousands.

All financial information presented in the table and throughout the Plan are as of <u>September 30, 2022</u>, unless otherwise specified. All project status information and progress included are as of <u>December 31, 2022</u>, unless otherwise specified.

The detailed project information for each active project is available in the following section. The "PTP category" in the table identifies whether the corresponding project was a part of the Original PTP, a PTP Amendment or Post-unification project.

The projects are also further listed per the PTP Exhibit I categories as follows:

- 1. Bus Service Improvements
- 2. Rapid Transit Improvements
- 3. Major Highway and Road Improvements
- 4. Board Requested Roadway and Neighborhood Improvements
- 5. Neighborhood Improvements

The active projects list by commission district is included in the tables at the end of this section.

Golden and Patriot Passport Program

| Department Transit | PTP Category Original PTP Patriot Passport – 2003-2009 Amendment |

| Amount by Funding Source(s) PTP- \$18,902,000 | Contract No. |
| Amount Spent in FY 2022 \$11,446,144 | Commission District Countywide |
| Capital Budget Project # NA | Site # NA |

Project Description:

Expand the Golden Passport program to include free transit service to all persons over 65 years of age regardless of income level and initiate Patriot Passport program.

In 1999, Miami-Dade County developed the Golden Passport program to provide free transit service for lowincome seniors, defined as persons over 65 years with an annual income less than \$22,000. The program began in December 1999, and about 16,000 people enrolled. The passage of the PTP, in 2002, expanded the Golden Passport program to include free transit service to all persons regardless of income level who are over the age of 65 or are drawing Social Security benefits.

In June 2004, the PTP was amended to include the Patriot Passport Program as a three-year demonstration program. The Patriot Passport program allows United States veterans who reside in Miami-Dade County, were honorably discharged, and earn an annual income of \$22,000 or less, to ride transit fare-free. In November 2007, the Patriot Passport program was made permanent. At the time of the PTP referendum, over 55,000 persons were enrolled. Prior to passage of the PTP, seniors received half fare as required by Federal regulations.

Project Status:

Golden and Patriot passport programs have been implemented and on-going. All participants are required to renew their eligibility every year by presenting state-issued Florida identification or driver's license showing a Miami-Dade County physical address, active Golden Passport EASY card, and a current year print-out from the Social Security Administration (which verifies continued eligibility). Starting October 1, 2022, since the Golden Passport program existed prior to the passage of PTP, only the number of passports issued after the passage of PTP are eligible for Surtax. The Patriot passport program is not eligible for the use of Surtax funds as it was not in the original PTP Exhibit I.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate (Forgone Revenue) | Cost Increase (Decrease) | PTP Expenditure (Forgone Revenue) | Estimated PTP Balance | Completion Date |

| Amount Spent in FY 2022 | Commission District |
| \$505,300 | 3,5 |
| Capital Budget Project # | Site # |
| NA | NA |

Project Description:

Metromover is a three-loop, 4.4 mile, elevated, electrically powered, fully automated people mover system, connecting with Metrorail at Government Center and Brickell Stations and with Metrobus at various locations throughout Downtown Miami. The system provides service to 20 stations in the central downtown, Omni, and Brickell areas. This project is to provide fare free Metromover service for all passengers upon voter-approval of the People's Transportation Plan (PTP).

Project Status:

Prior to PTP, the Metromover fare was \$0.25 per boarding which generated \$440,830 in revenues on a ridership of approximately 4.8 million. The ridership reached around 9 million, but it decreased to 5.74 million in fiscal year 2020 and 3.49 million riders in FY 2021 due to COVID-19 pandemic impacts. The ridership trend shows an increase in FY 2022 to 5.47 million riders.

| Amount Spent as of 9/30/2022 | | Commission District |
| | NA | Countywide |
| Capital Budget Project # | | Site # |
| | NA | NA |

Project Description:

The original People's Transportation Plan (PTP) goal was to increase bus fleet from 700 to 1335 buses. Subsequently, a new goal to increase bus fleet to 1,191 buses was implemented. As provided in the PTP, municipalities were expected to purchase and operate an additional 200 buses as part of their Surtax allocation.

Project Status:

This is an on-going program. Miami-Dade Transit procured new and replacement buses since 2003. Buses purchased include 31-foot Optare minibuses, 32-foot Optima minibuses, 40-foot NABI full size buses, and MCI commuter coaches. In 2009, hybrid diesel-electric buses and compressed natural gas (CNG) buses were incorporated into the fleet to include 60-foot articulated buses. Currently the CNG bus retrofit program is on-going and DTPW is also adding hybrid electric buses, 40-foot and 60-foot electric buses and charging stations to its bus fleet to reduce carbon footprint. The bus fleet was increased from 700 to a peak of 1,108 (completion rate of 83%, at that time) and currently stands at approximately 758 buses as of FY 2022. Following graph shows the metrobus fleet size improvements. Refer to the Municipal program section of this report for municipal PTP status.

Increase Current Service Miles from 27 Million Miles to 44 Million Miles and Operating Hours from 1.9 Million Hours to 3.3 Million Hours

| | NA | | NA |

Project Description:

Increase current service miles from 27 million miles to 44 million miles and operating hours from 1.9 million hours to 3.3 million hours.

Project Status:

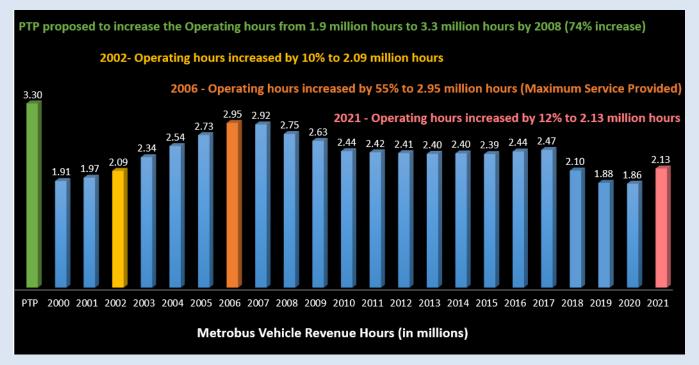

The increase in bus service was accomplished by increasing frequencies on existing routes, adding new routes in areas without service and adding new service to accommodate changing travel patterns. Due to budgetary limitations, and implementation of service standards evaluation, total revenue miles and operating hours were

decreased – primarily with underperforming routes. In 2006, miles peaked at 36.83 million for a project completion rate of 83.7%, and service hours peaked at 2.95 million, 89.4% project completion rate. These levels are adjusted from the planned 44 million miles and 3.3 million hours, respectively. However, there may be future opportunities to increase service miles/operating hours to accommodate future enhanced bus service along the Corridors. The department continues to evaluate the effectiveness and efficiency of service routes and related economies relative to locally established service standards.

Fiscal Impact:

Routes that are below half the average effectiveness and those with greater than double the average net costs per boarding are examined and services adjusted accordingly without creating undue hardship to passengers.

Replace Buses on a Systematic Basis to Reduce Operating Cost and Increase Reliability

Project Description:

This program was implemented as a result of the People's Transportation Plan (PTP) and is ongoing through the County's Bus Replacement/Expansion Plan. The bus fleet is continuously aging. A bus replacement plan is necessary to ensure compliance with the Federal Transit Administration's (FTA's) bus retirement criteria (500,000 miles/12 years of service life). The systematic replacement of buses and the addition of new buses lowered the average age of the bus fleet. The department is committed to continuously replacing older, less reliable vehicles with new environmentally friendly vehicles.

Project Status:

Prior to implementation of the PTP, the mean distance between road calls (a measure of reliability) was 2,053 miles. The fleet improvements, namely systematic replacement of buses, and maintenance enhancements program substantially improved system's the performance.

<u>Compressed Natural Gas Bus Retrofit -</u> <u>CIP183, CIP202</u>

After evaluating various alternative fuels, the Department of Transportation and Public Works (DTPW) is transitioning its bus fleet to clean burning, Compressed Natural Gas (CNG) buses. DTPW is in a Master Service

Agreement with Trillium Transportation Fuels, LLC (Trillium) to provide the following:

- 1. 300 CNG Buses Design, build finance, operate, and maintain CNG fuel service stations.
- 2. Upgrade existing County infrastructure including upgrading and/or converting the bus maintenance facilities (Central, Coral Way, and Northeast) and existing fuel stations to provide CNG.
- 3. Supply CNG fuel for County owned and leased buses and for the public access station that will be financed, developed, constructed, operated, and maintained by Trillium.
- 4. Generate revenue for the County through the sale of CNG to third parties.

Purchase of three hundred (300) CNG buses and upgrade of bus maintenance facilities to provide CNG is on-going. Coral Way and Central garages are 100% complete; Northeast garage Phase 1 building modifications to the bus maintenance facility is in progress, Phase 2 bus wash facility upgrade has been completed, and Phase 3 construction of the fueling station is at 50% design.

Phase 1 is currently under construction which includes renovation of the existing maintenance facility to provide improved ventilation, install gas monitoring equipment to support the safe maintenance of CNG buses, and replace the existing roof which is at the end of its serviceable life. Modifications to the bus maintenance building design is 100% complete and construction is on-going. Phase 2 replaces the existing bus wash equipment and bus steam cleaning equipment with new equipment installed in the existing structure. Phase 2 is 100% complete and in service. Phase 3 is the design and construction of a new fuel delivery facility including diesel, gasoline and CNG systems. Estimated 50% design completion with construction scheduled to start in the first quarter of calendar year 2024. Phase 4 is the demolition or repurposing of the existing fuel facility. This phase begins upon completion of new facility in phase 3.

Final completion of Phases 1 through 3 is anticipated by March 2025. Note the repurposing of the existing fuel facility is not included in this schedule. It will start after Phase 3 is complete. This project has been delayed due to the impacts of COVID and the impact on hiring and labor costs. Trillium had difficulty in negotiating a contract for Phase 1 which resulted in changing contractors and delayed the start by over six months.

Procurement of two hundred and sixty (260) 40-foot low floor CNG Transit buses was completed via CIP202 project.

Hybrid Electric Bus Battery Replacement -CIP192

This project is for the replacement of the Energy Storage System (ESS) on the hybrid electric buses. The ESS has an expected life of 7 to 10 years. The ESS is essential to the operation of the hybrid electric buses to provide electrical power to drive wheels. DTPW has 138 hybrid electric buses that were purchased between 2009 and 2017. This project is funded to replace 71 ESSs. Seventy (70) ESSs have been replaced on hybrid electric buses. The ESS replacements for the remaining 68 buses will be performed utilizing DTPW in-house technicians as well as vendors on a as needed bases.

Replacement of Articulated Buses (60-foot Electric Buses) - CIP216

This project is to purchase articulated electric transit buses for replacement of Metrobus fleet which are eligible for retirement. Procurement of 100 articulated electric transit buses and charging stations will be done through contract RFP01966. Bus design is on-going.

40-foot Electric Buses and Charging Stations – CIP147

DTPW's Bus Procurement Plan includes the purchase of a minimum of 33 and up to a maximum of 75 forty-foot battery electric buses and installation of 75 electric vehicle depot chargers (charging system) at the three bus maintenance facilities (Central, Coral Way and Norte-East Bus garages). Twenty-five (25) chargers will be installed FY 2024-28 PTP Five-Year Implementation Plan 47

at each of the Bus divisions. Sixty-eight (68) buses have been delivered to DTPW and seventy-five (75) chargers have been installed. The project is estimated to be completed by April 2023.

| Capital Budget Project # | Site # |
| 671560 | 3002471 |

Project Description:

Expansion of bus shelter program was among the original projects approved by voters as part of PTP Exhibit 1. Since 2002, an additional 596 bus shelters were installed, for a total of 1,050 bus shelters located throughout Unincorporated Miami-Dade County. Bus stops located in municipalities were not included in the program as municipalities are responsible for providing bus shelters and other passenger amenities at the bus stops within their municipal boundaries.

Recently, the County executed a 15-year contract for the design, fabrication and installation of 10 full-size bus shelters, 10 enhanced full-size bus shelters, 10 slim-size bus shelters, 330 regular bus shelters, 200 bicycle pads each with the capacity for four bicycles and manage the existing and new bus shelters inventory. The contract will also provide cleaning, maintenance, repairs, relocations, new installations, removals, and garbage disposal of the existing and new bus passenger shelters in unincorporated Miami-Dade County and in municipalities participating in this Contract, to ensure that the bus shelters are in a safe, repaired and operational condition at all times with an attractive appearance, and with safe and proper illumination at night.

Project Status:

The contract was awarded in June 2020. The Contractor will pay all costs required to perform contract services using proceeds from the advertising revenue received, except for the cost to furnish and install new shelters and bicycle racks, which will be paid by the County on a unit price basis. Advertising revenue will be considered as the Contractor's sole compensation for performing maintenance and repair work. The Contractor will pay the County annual participation revenue, as a percentage of gross advertising revenue for advertising on the bus shelters or a minimum annual guarantee in the form of quarterly payments, whichever is greater, for each year of the agreement period.

Design of the Cantilever Shelter Model required by Contract has been completed. As of project inception, 312 new bus shelters have been installed (288 Cantilever, 10 Slim Sized, 7 Regular, 7 Regular w/ Ad Panel), 580

bicycle racks, 279 new bus shelter illumination systems, 306 trash containers were installed.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|----------------|-------------------|-----------------------------|-----------------------------------|--|-----------------|
| FY 2019 | \$12,586,000 | - | \$0 | \$12,586,000 | June 2023 |
| FY 2020 | \$12,586,000 | - | \$0 | \$12,586,000 | June 2023 |
| FY 2021 | \$12,586,000 | - | \$475,300 | \$12,110,700 | June 2035* |
| FY 2022 | \$29,506,000 | 16,920,000 | \$5,751,000 | \$23,755,000 | June 2035* |

*Transit amenities installation was completed by June 2023 in Phase 1. The maintenance portion of the contract is on-going till June 2035. Completion date has been revised to reflect the maintenance through the end of the contract period.

Project Description:

This project supplements funding to upgrade the County's traffic signalization system. The Traffic Control Center has been modernized with a new video wall and upgraded systems allowing engineers to monitor intersections via video, view traffic applications, and remotely make signal timing adjustments to improve traffic flow. The Advanced Traffic Management System (ATMS) project continues to make technological improvements to traffic signalization systems to continue to improve mobility Countywide, future improvements include upgrade traffic signal controllers in order to support adaptive traffic signal controls, connected vehicles, and transit priority.

Project Status:

This project has three phases. The initial two phases focused on the upgrade and connection of the traffic signal controllers at all signalized intersections, implementation of the central system components of the new system at the Traffic Control Center (TCC), and the transfer of the control of approximately 2,800 intersections from the old Uniform Traffic Control System (UTCS) over to the new ATMS.

Phase 2 of the ATMS project was split into two phases: Phase 2A and Phase 2B. Phase 2A was completed in FY 2012-13 allowing the County's more than 2,800 signals to be controlled and synchronized in one central system. Phase 2B was the migration of all signals to high-speed wireless communication subsystem as a collaborative effort with the Miami-Dade County Information Technology Department was completed in 2017.

Phase 3 of the ATMS project will introduce the next generation of technologies and tools in the traffic signal system to assist in traffic and mobility management. This phase will include the upgrade of all the traffic signal controllers throughout Miami-Dade County in order to support and provide adaptive traffic signal controls, emergency vehicle preemption, transit prioritization, support autonomous vehicles and vehicle-to infrastructure communications.

This phase includes upgrading our traffic control software and communications to integrate and sharing information with Florida Department of Transportation (FDOT), Miami-Dade Expressway Authority (MDX), Florida Turnpike Enterprise (FTE), Miami-Dade Department of Transportation and Public Works (DTPW), and Municipal partners. Short-term modernization improvements of the Traffic Control Center are enabling active arterial management strategies using video surveillance, traffic flow detection systems, fiber optic communications, and advanced vehicle detection. TSS has completed the upgrade of 284 traffic signals under the TSS upgrade project. The Countywide implementation project is ongoing.

Phase III of the project is on-going; Pilot program was completed. Pilot extension to 300 Intersections and 2070LX Controller Small Scale Deployment is completed. Countywide upgrade implementation is 12% complete. Traffic Management CCTVs- 25% Complete; Traffic Control/Management Center (Remodel) 80% Complete; Traffic Control/Management Center (New) 0%.

Fiscal Impact: The ATMS project was originally estimated to be \$117 million and to be funded with multiple funding sources including PTP.

| | |

Project Description:

The project consists of widening roadway from 2 to 5 lanes with on-street parking, sidewalks, curb and gutter, a new storm drainage system, signalization, pavement markings and signage, and roadway lighting. Roadway design is completed. Construction is on-going. A memorandum of agreement (MOA) has been executed to include Water and Sewer Department (WASD) designed water main and gravity sewer facilities work and funding into this DTPW roadway project construction.

Project Status:

Roadway Design and WASD water main and gravity sewer designs are 100% completed. While the contractor's community workforce plan (CWP) was reviewed by Procurement Services Division (PSD), a mandatory public meeting was held in February 2023 and coordination of multiple utility conflicts took place. The contractor's CWP was approved in April 2023. Contractor procurement process was completed, and construction began in May 2023 with an anticipated completion in May 2026.

Fiscal Impact: The baseline PTP cost estimate was \$15,849,000 with a baseline completion date of February 2015 when the project was initially reported in the FY 2011-2016 Five-Year Implementation Plan. There is a cost increase of \$6,003,000 compared to the latest PTP cost of \$21,852,000.

| | |

Project Description:

The project description in PTP Exhibit 1 is to widen SW 137 Avenue, from U.S. 1 northward to SW 184 Street to four lanes/new four lanes. It is now defined as a three-lane (two travel, one turn) project with the design, land acquisition, and construction done in phases that allow the construction of the full four travel lanes in the future. The construction under this phase is limited to three lanes (two travel lanes plus one turn lane) to reduce initial implementation costs. Scope changes also reduced the project limits from SW 184 Street to SW 200 Street (two lane road already exists between SW 184 and SW 200 Streets), and to negotiate and acquire right-of-way (ROW) that attains a section to accommodate three lanes.

Project Status:

Design and ROW acquisition were completed. Construction was completed in October 2022. Remaining funding is available for reimbursement of the work completed and to close out final construction activities.

Fiscal Impact: The baseline PTP cost estimate was \$24,055,000 when initially reported in the 2011-2016 Five-Year Implementation Plan. There is a cost decrease of \$3,776,000 compared to the latest PTP cost of \$20,279,000.

Project Description:

This project involves reconstruction of the existing SW 216 Street roadway to a two-lane divided highway with a raised (curbed) landscaped median, bicycle lanes, on-street parking, traffic circle, sidewalks, curbs and gutters, a new storm drainage system, signalization, pavement markings and signage, and decorative street lighting. It also provides a safe drop off for students at a middle school.

Project Status:

The project was divided in two phases in order to expedite construction of those segments which would not require rightof-way acquisition. Phase 1, from SW 112 Avenue to the Florida Turnpike, was completed in May 2012. Construction of Phase 2, from SW 127 Avenue to SW 112 Avenue was completed in July 2022.

Fiscal Impact: The baseline PTP project cost estimate was \$12,180,000 when initially reported in the 2011-2016 Five-Year Implementation Plan.

NEIGHBORHOOD IMPROVEMENTS

The People's Transportation Plan (PTP) provided \$167 million for Neighborhood Improvements. These include modifications of intersections; resurfacing of local and arterial roads; installation/repairs of guardrails; installation of school flashing signals and enhancement of greenways and bikeways; replacement/repair of sidewalks; repair/installation of drainage and landscape beautification (including community image enhancements); roadway signage, roadway lighting, pavement markings, and traffic calming related to the development, construction, operation or maintenance of roads and bridges in the County or to the expansion, operation or maintenance of bus and fixed guideway systems; Neighborhood Improvements also include transit system and service improvements, including the purchase of buses and other capital costs and associated operation and maintenance costs related to such transit services and Americans with Disabilities Act (ADA) accessibility to bus stops throughout the County.

In 2004, the Board of County Commissioner's (BCC) and the Citizens' Independent Transportation Trust (CITT), adopted Public Works Department's (now a part of the Department of Transportation and Public Works) Two Year Plan (BCC Resolution R-87-04, and its modifications under 507-04). The Two-Year Plan was developed to address the various non-site-specific categories provided for in the PTP ordinance and established a method for allocating the \$167 million listed in the ordinance. The allocation was approximately \$21.7 million for Board Requested Neighborhood Improvement projects listed in Exhibit 1 and \$145.4 million for other countywide improvements for the duration of the program including the funding allocations to each Commission District. To date, over 1,000 projects have been initiated including ADA sidewalk improvements, traffic signals, street lighting, intersection and traffic calming improvements, guardrail installation, roadway resurfacing and school flashing signals. The plan was also modified under Resolution R-1391-04, removing the school flashing signals from the Commission District allocations and listing them as a specific line item with a dedicated funding amount.

The Neighborhood Improvement Projects include Site Specific Neighborhood Improvement Sites, Non-Site-Specific Neighborhood Improvements, Countywide Neighborhood Improvements and School Flashing Signals Program.

Project Description:

This program provides each Commission District with funds for Neighborhood Improvements in the categories listed in Exhibit 1 and according to the Two-Year Plan's allocation formula based on population, reported needs and County-maintained road lane miles. Projects being implemented include modifications of intersections, resurfacing of local and arterial roads, installation/repairs of guardrails, installation of school flashing signals, enhancement of greenways and bikeways, replacement/repair of sidewalks, repair/installation of drainage, landscape beautification roadway signage, roadway lighting,

Neighborhood Improvements

pavement markings, traffic calming, and ADA accessibility to bus stops throughout the County.

Project Status:

The department continues to coordinate the Neighborhood Improvement Projects with County Commissioners' Offices. To accelerate many neighborhood projects, the department continues to take advantage of various contracting mechanisms, such as the

Fiscal Impact:

The original PTP Exhibit 1 baseline cost estimate is \$91,425,000 with a completion date of September 2013. However, the FY 2023-24 Capital Budget shows a total budget of \$98,073,000 for this program. This program will require a budget adjustment of \$6,648,000 reducing the budget to the approved ordinance amount of \$91.425M.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|--------------------|-------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2019 & Prior | \$91,425,000 | - | \$73,849,000 | \$17,576,000 | October 2023 |
| FY 2020 | \$91,425,000 | - | \$75,283,500 | \$16,141,500 | October 2023 |
| FY 2021 | \$91,425,000 | - | \$76,080,200 | \$15,344,800 | September 2023 |
| FY 2022 | \$91,425,000 | - | \$84,200,000 | \$7,225,000 | September 2023 |

Resurfacing, Sidewalks and Drainage on Arterial Roads

Project Description:

The project is to improve arterial roads including resurfacing, sidewalks, and drainage.

Project Status:

This is a Countywide on-going program. No new resurfacing, drainage, or sidewalk projects have been approved or implemented during this reporting period. This project is not eligible for PTP funds after October 1, 2022, as per HB385.

Fiscal Impact: The baseline PTP project cost estimate was \$1,262,000 when initially reported in the 2011-2016 Five-Year Implementation Plan.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |

| | | |

Project Description:

Construct and/or provide Countywide pavement markings improvements including stripes, pavement messages, stop bars, directional arrows, reflective pavement markers, and rumble strips. This includes work done under 13 Pavement Marking Commission Districts.

Project Status:

To accelerate many neighborhood projects, the department continued to take advantage of various contracting mechanisms, such as the Miscellaneous Contracting processes available under contracts 7360 and 7040. This project is not eligible for Surtax funding starting October 1, 2022.

Project Description:

Miami-Dade County's Vision Zero Program aims to eliminate all traffic fatalities and serious injuries by 2040, while increasing safe, reliable, sustainable, and equitable mobility for all. Vision Zero is an international transportation safety movement, pushing all stakeholders (roadway users, government departments, elected officials, engineers, etc.) toward the most effective ways to eliminate deadly crashes and move towards a culture of safety for everyone who uses our streets. The program was launched in 2021 with an announcement from Mayor Daniella Levine Cava and with the development of the 2021 Vision Zero Framework Plan which identified actions for a paradigm shift towards creating a safer system for all users. Each year, there are more than 300 fatalities on Miami-Dade County roads and hundreds more are severely injured. Especially at risk are pedestrians and cyclists. Between 2018 and 2022, pedestrian and bicycle fatal crashes represented approximately 6% of all crashes but 30% of all fatal crashes. This vision acknowledges that fatalities on our transportation network is unacceptable and focuses on safe mobility for every Miami-Dade County roadway.

DTPW identified 24 locations for safety improvements. These locations were subdivided into three project types including 16 High Crash Location projects, 2 SMART Trail Master Plan projects, and 6 Bicycle Facilities Safety Improvement projects. The scope of these projects includes milling and resurfacing, concrete work, signing and pavement markings (S&PM), signalization, and utility to improve the safety of pedestrians, bicycles, vehicles, and transit users via new/repaired infrastructure. More specifically, these projects include safety features at intersections, crosswalks, and bicycle paths, modification of traffic signals/signal timing, addition of green bicycle conflict markings, and repair sidewalks, curb ramps, and bicycle paths.

DTPW is also advancing the planning and 30% design of the top 100 locations identified in the 2021 Vision Zero

Framework Plan.

Project Status:

The original project list included 24 design and construction projects. Out of these 24, two projects, at NW 62 Street and NW 6 Avenue and NW 62 Street and NW 5 Court, were consolidated into one project during the design phase. Design for all 23 projects began in May 2022. Two High Crash Location projects are currently in the design phase – SW 57 Avenue and SW 88 Street and NW 20 Street and NW 10 Avenue; for the latter, signal improvements have been implemented. Two High Crash Location projects are currently in the right-of-way phase – W 24 Avenue and W 60 Street and Honey Hill Drive from NW 57 Avenue to NW 52 Avenue. The department has completed the design phase for 16 out of the 23 projects. As of December 31, 2022, all 23 projects were under design. The first construction contract was issued on October 17, 2022. DTPW also initiated a planning, public outreach, and 30% design project to advance the top 100 locations from the 2021 Vision Zero Framework Plan. Submittal of SS4A Grant was completed and awaiting grant award announcement from USDOT.

Track and Guideway Rehabilitation Subset (fka Guideway Painting/Refurbishment)

In 2003, a People's Transportation Plan (PTP) amendment (R-1154-03) was approved to include several projects essential to the safe, reliable timely delivery of the mandated service improvements. This project is among the Miscellaneous Capital Improvement Projects approved for inclusion in the PTP.

Several projects are now combined into a single grouping to rehabilitate existing track and guideway equipment and fixtures.

- Coverboard Replacement
- Seal Gland Rehabilitation
- Acoustical Barrier replacement Completed
- Metrorail Piers Coating
- Rail Fastener Replacement Completed
- Mainline Miter Joint Replacement Completed
- Palmetto Yard Road Crossing and Mainline Replacement Completed
- Guideway Painting/Refurbishment Inactive

Two components (Metrorail Piers Coating and Replacement of Metal Acoustical Barrier Panels) of this subset were originally separate line items in the 2003 PTP Amendment. The remaining components were a part of the original Guideway Refurbishment item. Each component of this subset is described further below. All work is performed by in-house staff.

Coverboard Replacement

| | |

Project Description:

Coverboard replacement project includes procurement of 60.4 miles of coverboard, Brackets and 28,150 insulators to include the PYD, 500 hurricane anchors for Metrorail system. All removal and installation will be conducted by in-house staff.

Project Status:

Specification and bid package for material was completed in March 2017. Coverboard installation is underway with over 30% of the areas completed. Track & Guideway will be able to complete the remaining areas as new staff come aboard. Initial completion date was September 2019. The project is now estimated to be completed by September 2027. The project is delayed due to staff shortage.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |

| | |

Project Description:

The primary objective of Seal Gland Rehabilitation Project is to ensure that rainwater does not intrude into the stations. This is accomplished by replacing the seal glands and clearing the drains. Once the stations are watertight, the guideway will receive the same attention.

Project Status:

Material bid package was completed in September 2007. Work began in 2008. Employees were hired and trained including five structural repair personnel. To date, all guideway transverse seal glands in the stations have been replaced. Seal gland installation for Metrorail stations and guideway drainage clearing is on-going and is estimated to be completed by September 2024. The initial project completion date was September 2016. This project is delayed due to staff shortage.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |

| | |

Project Description:

After more than 23 years of exposure to the elements, the Metrorail guideway piers need a protective coating. This will not only ensure longer life of the substructure but would also improve the appearance by covering the many construction joints, repairs, stains, mold, mildew, and graffiti.

Project Status:

Metrorail guideway piers protective coating application is on-going with over 75% of the work completed. Track & Guideway will be able to complete the remaining areas as new staff come aboard. Initial completion date was September 2009 and is now estimated to be completed by September 2024. Delay due to staff shortage.

| | |

Project Description:

Procure state-of-the-art fare collection equipment that meets overall and property specific requirements for security, functionality, and fare media interoperability. The Automated Fare Collection System (AFCS) project procured electronic verifying fareboxes, electronic fare gates, an upgraded garage revenue collection system, and Automatic Passenger Counters (APC) for all buses and Metromover stations. The Metrorail system included modular fare gates incorporating exit control and smart card and credit card payment capability. Ticket Vending Machines (TVM) process cash, smart cards and credit/debit cards. The Metrorail station parking system was also upgraded to include cash, smart card and credit card payments. The Special Transportation Services (STS) section was fitted with a system including mobile data terminals interfacing with smart card readers to facilitate recipient validation, trip data recording, scheduling and dispatching of vehicles. Point of sales machines are distributed throughout Dade County to third party sales outlets to maximize the sale of Bus and Rail fare media. The AFCS was implemented in October 2009. However, additional options were considered to equip the new MIC Metrorail station with all AFCS equipment including fare gates and TVMs and several park-and-ride are now equipped with TVMs to service the patrons.

The AFCS meets DPTW's needs for the present fare structure and fare media. The system also provides enough flexibility to permit the modification, addition, and deletion of fare media and fare structure elements by service type as well as system wide. The system is capable to add other agencies (Broward County Division of Mass Transit, Palm Beach County Surface Transportation Department, and South Florida Transportation Authority (Tri County Commuter Rail Authority) if they so choose to make this a total regional system. SFRTA is presently part of the AFCS.

Project Status:

The AFCS was implemented in October 2009. Last phase of the Project, the "In Service Phase" of the contract ended on May 31, 2023.

Currently the project has implemented "contactless payments" on rail and bus services providing innovation and the latest technology to pay for fares using contactless credit cards and cell phone applications like iPhone wallet, google pay etc., providing the capability of "fare capping" that allows passengers to know ahead of time that they will always have the benefits of the day pass, once the fare reaches an amount equal to the day pass at which point, they will be able to travel unlimited with no added charges. Also, the project has implemented the back-office management from the azure cloud with increased protection and accessibility to all functions like reports, reconciliation, etc. The project also implemented a bar code application that provides another method of payment for our patrons to choose.

Fiscal Impact: The baseline PTP cost estimate for this project was \$50,000,000 reflected in the 2003 approved Miscellaneous Capital Improvements Projects List.

| | |

Project Description:

This project is to procure 136 new heavy rail vehicles. The original project scope was to refurbish/rehab the existing fleet and was later changed via resolution to replace all vehicles. PTP amendment was approved by the Board on May 6, 2008, with the requisite funding (a not-to-exceed ceiling of \$401.5 million).

Project Status:

Sixty- eight (68) married pairs of Metrorail vehicles have been accepted and are in revenue service as of September 2022. Contract Data

Requirements List (CDRL) submittals and other project documentation are in various stages of development and review. The reliability test program and training of DTPW staff. Hitachi parts availability is still impacted due to the coronavirus pandemic. But, contractually required spare parts are being delivered weekly. Over 90% of the spare parts have been delivered to DTPW.

Fiscal Impact: The baseline PTP cost estimate for this project was \$188,830,000 as reflected in the 2003 approved Miscellaneous Capital Improvements Projects List with an original estimated project completion in 2020. The original estimate is \$210,957,000 lower than the current estimate.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|----------------|----------------------|-----------------------------|--------------------------------------|--|-----------------------------------|
| FY 2018 | \$384,776,900 | - | \$169,933,000 | \$214,843,900 | December 2021 |
| FY 2019 | \$384,777,000 | - | \$258,182,000 | \$126,595,000 | December 2021 |
| FY 2020 | \$384,776,900 | - | \$322,372,700 | \$62,404,200 | December 2021 |
| FY 2021 | \$384,776,900 | - | \$329,540,000 | \$55,236,900 | December 2022 |
| FY 2022 | \$399,787,000 | \$15,010,100 | \$331,552,000 | \$68,235,000 | November 2027 (warranty phase) |

The cost increase is due to the funding required for consulting services to close out service delivery and transition the scope of work under the agreement to DTPW. The current completion date includes the warranty phase.

Project Description:

The Metrorail Central Control Overhaul/ Upgrade Project replaced the original obsolete Central Control panels with Server based Application control of all commands to the Train Control Signaling Systems at all Interlockings and to the Traction Power and Public Address Systems in all Metrorail Stations. The new system displays all indications from the 25-mile Right-of-Way including the Orange Line

extension and form the Traction Power systems at all stations. All commands and indications are logged to a database for later playback as needed. The project also included the construction of the new Metro Rail Control Center and an expansion of Bus Traffic Control Center. New consoles were added to the Rail and Bus Control Centers. The project scope included the addition of new HVAC capacity, Fire suppression, Lighting, a Conference room, new office space, an Electronic MIMIC board and CCTV display Matrix, a supervisor's station, an Uninterruptable Power Supply (UPS) system, a new SCADA network, Telephones and a Public Address

System at all stations. The Lehman Yard Tower was also provided with the capabilities of controlling the Metrorail System. A single user console was included in the completed work. The Contract was completed on August 21, 2018. An Option to renew the contract was exercised on April 2, 2019, in the form of an extended warranty coverage for a three-year term.

Project Status:

The project was completed. Warranty Coverage expired on April 2, 2022, and the contract has been closed.

Project Description:

A PTP amendment (R-1154-03) was approved to include several projects essential to the safe, reliable, timely delivery of the mandated service improvements. This project was among the miscellaneous capital improvement projects approved for inclusion in the PTP.

The escalators and elevators in the 21 Metrorail stations are over 30 years old. The useful life is approximately 25 years. Major components have begun to fail, and it is no longer feasible or economical to continue maintenance of the units. This project also includes the refurbishment of the elevators at the bus garage facilities. The proposed project is being implemented in phases, based on prioritization and funding availability.

DTPW procured the services of a consultant to develop a design criteria package (DCP) to proceed with Phase 1 procurement and installation, to replace the existing escalators and refurbish the existing elevators at five (5) Metrorail stations (Dadeland South, Dadeland North, Government Center, Civic Center and Tri-Rail). The consultant completed the DCP and prepared and completed cost estimates and schedule.

Project Status:

The Department of Transportation and Public Works (DTPW) procured the services of a consultant to develop a Design Criteria Package (DCP) to proceed with Phase 1 procurement and installation, to replace escalators and refurbish elevators at 5 Metrorail Stations (Government Center, Dadeland South, Dadeland North, Tri-Rail and Civic Center). The DCP was completed, and documents were submitted to the Internal Services Department (ISD) to proceed with the Request for Proposals to implement the project at the aforementioned 5 Stations. The project is currently under procurement through ISD. The procurement process has taken longer time than anticipated.

Project Description:

The initial 21-mile Metrorail line opened in three segments. Service began on May 20, 1984, with the opening of the first 11-mile segment, featuring 10 stations from Dadeland South, in the Kendall area, to Historic Overtown/Lyric Theatre station, in the Overtown neighborhood of Miami. On December 17, 1984, the second segment opened, expanding service to the northwest with the opening of five new stations through Earlington Heights station. The third segment opened on May 19, 1985, providing service past Earlington Heights station, with an additional five stations opened through Okeechobee station in Hialeah. Palmetto station opened in 2003 and the Miami Intermodal Center (MIC) station opened in 2012.

The Metromover, also known as the people-mover, is 4.4 miles and has 21 stations located within Downtown Miami. It has 3 loops: The Inner, the Omni and Brickell loops. The Inner loop was the first to open and service began on April 17, 1986. The Omni and Brickell loops followed, and service began on May 26, 1994. The Metromover connects directly to the Metrorail at the Government Center.

The Metrorail and Metromover stations were constructed over 35 years ago and now need to be enhanced and refurbished in an effort to extend the life of the asset.

This project consists of conducting a series of inspections/assessments of all 22 Metrorail stations and 21 Metromover stations and their surroundings, documenting deficiencies and possible opportunities for enhancement in an effort to improve safety, comfort and convenience of the traveling public and the DTPW employees. The scope of work includes, but is not limited to, installation and/or replacement of directional/guide signs on roadways and highways in the vicinity of the Metrorail stations; roof and skylight replacement, various safety improvements, replacement of the lineal metal ceilings, removal of ADA barriers, lighting upgrade, upgrade of wayfinding signage within the stations/parking lots/parking garages, refinishing and modification of railings, replacement of louvers, doors, ceilings, re-roofing, landscape/hardscape improvements, drainage improvements,

and floor refinishing/repairs, etc.

Project Status:

Phase 1 of the project has been completed and involved conducting field assessments and visual inspections of the Metrorail stations to identify short and long-term improvements. DTPW identified the Government Center Metrorail station as priority one.

DTPW divided the scope of work, for the Government Center Metrorail Station, into two separate contracts, with two (2) different consultants. Two (2) consultants were procured for the preparation of Design-Build Packages (DCP), for the refurbishment of the Government Center Metrorail station (i.e., DCP-1 and DCP-2).

The scope of work for DCP-1 includes roofing replacement, construction of new roofs over the circular stairs, new lightning protection system and the replacement/updating of the fire sprinkler system. The scope of work for DCP-2 include general station renovation improvements such as replacement of the lineal metal ceilings, removal of ADA barriers, lighting upgrade, upgrade of wayfinding signage, refinishing and replacement of railings, replacement of louvers, doors, landscape/hardscape improvements, floor refinishing/repairs, painting, pressure cleaning, etc.

DCP-1 and DCP-2 design-build criteria packages have been completed. DTPW worked with the consultants to combine the DCP-1 and DCP-2 into one (1) design-build contract to avoid coordination issues in having two design-build contractors working within the same area. The project was advertised on April 18, 2022, and is in procurement phase. Additional activities including negotiations with the consultant to combine the DCPs, execution of the work order, and preparation of the procurement documents impacted the schedule.

Project Description:

The scope of work consists of replacing the existing at-grade crosswalk with a pedestrian overpass over US-1 at the Metrorail University Station and Mariposa Court for pedestrian safety purposes.

Project Status:

Construction of the pedestrian bridge was completed in August 2017. The contract is under litigation with the County Attorney's Office pending resolution. County Attorney's Office required that DTPW continue to hold on to disburse any funds. As of June 2023, agreement has been reached by both the parties to close out the project and working on the BCC item to complete the settlement agreement.

Ordinance Amending Maintenance of Effort PTP Amendment (R-148-05)

Description:

An ordinance went before the Board of County Commissioners (BCC) to amend the PTP to restore general fund support to Miami-Dade Transit also referred to as the maintenance of effort (MOE), to the pre-Surtax level of \$123.171M and annually increase the MOE by 3.5%.

This increases the Countywide General Fund budget contribution to support Existing Services by 3.5%. At least 1.5% annual increase in Local Option Gas Tax revenues for existing services support through FY 2011. Approval of a Line of Credit (Loan for Existing Services) for up to \$150M in Surtax funds to support MDT Existing Services.

In July 2005, the PTP was amended to address issues related to the MOE for transit services that existed prior to the approval of the PTP (Existing Services).

Included in the amendment was the compliance with the terms of the Line of Credit Obligation Letter which outlined a loan approved by the Citizens' Independent Transportation Trust (CITT) for up to \$150M in Charter County Transit System Surtax (Surtax) funds to support DTPW services in existence as of November 5, 2002. The repayment schedule was for \$118.9M, excluding the \$23.9M, FY 2001-02 shortfall prior to the passage of the Surtax.

Post-Unification and Infrastructure Renewal Plan Projects

Description:

Exhibit 1 of the People's Transportation Plan (PTP) was amended via Resolution 222-09 to create CERF and to unify the funding structure and allow greater flexibility in the use of Surtax funds for the operation and maintenance of the unified transit system. In addition to providing operations and maintenance funding, several capital improvement and Infrastructure renewal projects are being implemented using PTP funds post-unification.

An Infrastructure Renewal Plan (IRP) was created to maintain DTPW's transit infrastructure by replacing or upgrading physical assets according to normal replacement cycles. IRP focuses on projects in the areas such as bus overhauls, rehabilitation of bus and rail facilities, and systems and equipment. A total of \$12.5 Million Surtax funding is provided annually for the IRP plan. Some other infrastructure renewal projects were funded separately by Surtax funds due to larger funding assistance required to complete the projects. In addition to these, DTPW implements several other Infrastructure renewal projects using non-PTP revenue sources such as FTA and FDOT funds. All the projects implemented post-unification are summarized further in this section of the Plan.

BCC adopted a Resolution 1009-23 in November 2023, amending Exhibit I of the People's Transportation Plan to reinstate the language limiting the use of Charter County Transportation System Surtax funds to eligible County Capital enhancements implemented after November 5, 2022, and the operation and maintenance thereof.

Capital Expansion Reserve Fund Project Listing

Description:

On March 2009, the Board of County Commissioners Resolution 222-09, amended Exhibit 1 of the People's Transportation Plan (PTP) to create a Capital Expansion Reserve Fund (CERF). This account was established to reserve a portion of Surtax funds for future capital related project costs and other costs approved by the Citizens' Independent Transportation Trust (CITT). Additionally, the PTP was amended to unify the funding structure and allow greater flexibility in the use of Surtax funds for the operation and maintenance of the unified transit system.

Capital Expansion Reserve Fund dedicates at least 10 percent of the County's annual share of Surtax funds, excluding existing and future debt service, for capital expansion of the transit system. Later in December 2010, the Board of County Commissioners adopted Resolution R-1202-10 to clarify the intent of the CERF. The requirements of the revised Ordinance 02-116 included expansion of the transit system beyond the Miami Intermodal Center (MIC)-Earlington Heights (Orange Line Phase 1) project and required that the funds from the CERF to be used for debt service on the MIC-Earlington Heights project as well as other improvements, including, but not limited to, North and East-West Corridor expansion projects. Following is the list of projects approved to use CERF. However, once a project is approved for Surtax funding, DTPW has the discretion to apply CERF funds at any time thereafter. The following list includes projects that support implementation of the SMART plan shown in the map below.

Project Description:

The Strategic Miami Area Rapid Transit (SMART) Plan is a bold infrastructure investment program that will significantly improve transportation mobility and will provide a world-class system that will support economic growth and competitiveness in the global arena. South-Dade Transitway is one of the six SMART Plan corridors.

The South-Dade Transitway PD&E analyzed approximately

20 miles from the Dadeland South Metrorail station along the existing Transitway (fka Busway) to SW 344 Street park-and-ride/transit terminal facility. This corridor will connect Florida City, City of Homestead, Town of Cutler Bay, Village of Palmetto Bay, and Village of Pinecrest, which represent the fastest population growth in Miami-Dade County. This rapid transit project facilitates the highest demand of passengers traveling to and from southern Miami-Dade to Downtown Miami. DTPW initiated a PD&E Study to evaluate premium transit solutions in this corridor in April 2017. On August 30, 2018, the Miami-Dade TPO voted on the Locally Preferred Alternative (LPA) for the South Dade Transitway Corridor and selected Bus Rapid Transit (BRT) as the most feasible mode of transportation for this corridor based on the recommendation of the PD&E study.

The project entered into the Project Development Phase of the Federal Transit Administration's Capital Investment Grant (CIG) Small Starts program on October 26, 2018. The construction of the project is estimated to be completed in 2024. Once completed, the South Corridor BRT will provide rail-like travel time, iconic stations,

near-level boarding through all doors, and pre-paid fares for speedy access. The BRT upgrades will also provide enhanced safety features and multi-layered service lines on the Transitway.

DTPW is planning to procure 37 maintenance fleet vehicles that will be used to support operations and maintenance of the South-Dade TransitWay BRT. The TransitWay runs parallel to US-1 and intersects with approximately 100 roads and impacts over 130 signalized intersections. These 37 vehicles will be assigned to support the continuous monitoring, operation, and maintenance of the BRT, traffic mobility, and impacted traffic signals through multiple work shifts. A \$6.16 million in PTP funding was programmed in the FY 2023-24 capital budget for the purchase of these 37 vehicles.

Project Status:

The Contract for the project was awarded to OHL North America, by the Board of County Commissioners (BCC) on September 3, 2020. Notice to proceed was issued in February 2021 and groundbreaking was held in June 2021. Design is in the final stages. Construction work is on-going which includes but not limited to horizonal concrete work, drainage, foundations for BRT Stations and Pylons, erection of canopy structures, roofing systems and vestibules, ITS Conduits and Fiber Optic Cable installation. Cost update reflects the negotiated and award amount. The change in schedule is due to longer procurement phase, shortage of materials due to Pandemic and implementation of technology change from Econolite to Siemen Control system (County Wide ATMS Project in Design Build).

Fiscal Impact: The original PTP Exhibit I project (approved by voters) was estimated to cost \$946M as heavy rail and was anticipated to be implemented by 2025. The SMART Plan South Dade Transitway corridor BRT PD&E, design and construction fiscal impact is shown in the table below.

Project Description:

The South Corridor runs approximately 20 miles from the Dadeland South Metrorail Station to Florida City and has a general project alignment that runs north along the South-Dade Transitway. This project will result in a Corridor Master Transit-Oriented Development (TOD) Plan for the South and inform the ongoing private and public development along the Transitway. Work will focus more intensely on individual station areas.

Project Status:

DTPW has been awarded an FTA Pilot Program for TOD planning grant to cover up to 80% of the comprehensive planning for this project. The study was issued NTP in June 2022.Two kick-off meetings were held with Partners and Stakeholders. Collection of prior plans and data along the corridor was completed. Station area selection and development, typologies, public and stakeholder involvement plan development commenced. The study is ongoing, and the completion date was adjusted to accommodate two years required to complete the work.

Project Description:

This project entails a planning study, land acquisition, development of design criteria package, design, construction, and operations of a new South-Dade bus maintenance facility to serve the bus operations needs more effectively and efficiently of the South Dade area. The facility will serve as the operating base for the beginning and end points of service for the bus fleet on the South-Dade Transitway Corridor as well as other routes currently in the vicinity of this facility to reduce operating

expense and reduce dead head miles. The bus facility entails bus operations, maintenance, parts storage, wash and service areas and employee/visitor parking. The site includes parking for one hundred (100) 60-foot articulated battery electric buses (BEBs) with charging capability. The Facility sits on a 20-acre site located near the southwest corner of the intersection of SW 127 Avenue and Biscayne Drive. The project delivery method has changed from Design-Build to Design-Bid-Build.

Project Status:

Project site selection process was completed and is advancing through the NEPA process and final design. The project programming is more defined and has allowed for the project to move in a fast-track process to align

with the electric bus procurement schedule.

Fiscal Impact: CITT encourages DTPW to seek other funding including Federal/State/Municipal funds or private sector contributions. Surtax funds should be leveraged as a local match and should not exceed fifty (50%) of project costs for capital projects per the CITT's guiding principles and priorities.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|----------------|-------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2020 | \$56,214,000 | - | \$0 | \$56,214,000 | September 2024 |
| FY 2021 | \$167,618,800 | \$111,404,800 | \$255,400 | \$167,363,400 | October 2027 |
| FY 2022 | \$268,500,000 | \$100,881,200 | \$1,459,000 | \$267,041,000 | July 2025 |

Revision#1 - The initial cost was based on preliminary estimates. Project footprint has been reduced by half the size than what was initially assumed resulting in now having to build a structure at significant additional cost.

Revision#2 - The project scope definition, needs and goals have been established. The final site for the proposed facility is being evaluated. This budget revision is based on assuming the facility on a 20-acre site located near the southwest corner of the intersection of SW 127 Avenue and Biscayne Drive (Site 5). The increase in budget is due to more defined project programming allowing for the development of a more refined budget and schedule to deliver the project in a fast-track process to align with the electric bus procurement schedule.

Revision#3 - Project budget has been revised upon receipt of the 30% design submittal. The project budget has increased to \$243.2M. Note that the FY 2022-23 budget was developed from conceptual design and the FY 2023-24 budget is developed from the 30% design of the project.

Revision#4 – Budget revised based on the 90% design plans and an option to include electric bus charging equipment. This revision also added \$4.5M for the construction management activity.

Project Description:

Beach Corridor is one of the six SMART Plan Rapid Transit Corridors. The corridor is approximately 9.7 miles between the cities of Miami and Miami Beach, crossing Biscayne Bav to link Downtown Miami to Miami Beach. The Beach Corridor area is an epicenter for population and economic growth and а major employment center and tourist destination in the region. As a result, the roadways between Miami and Miami Beach are typically heavily congested. This high bus transit ridership corridor

has been identified as a candidate for consideration for premium transit over the past two decades as part of a strategy to address east-west directional travel demands.

Project Status:

DTPW initiated a PD&E study to evaluate premium transit solutions in this corridor in May 2017. DTPW presented the recommended alternative and TPO adopted a Locally Preferred Alternative (LPA) on January 30, 2020, based on the PD&E study results. The LPA for the Beach Corridor is described as the following:

- Section 1. For the Beach Corridor Trunkline (Baylink), which extends from the existing Downtown Metromover Omni Extension along MacArthur Causeway to 5th Street near Washington Avenue, the selected technology is elevated rubber tire vehicles.
- Section 2. For the Miami Design District Extension, the selected technology is an extension of the existing Metromover in the median of Miami Avenue to NW 41 Street in the Design District.
- Section 3. For the Miami Beach Convention Center Extension, the selected technology is dedicated lanes for bus/trolleys along Washington Avenue.

In April 2020, the United State Coast Guard (USGC), as the bridge permit agency, accepted the role of the NEPA lead agency for the Trunkline and approved an Environmental Assessment (EA) as the NEPA class of action for the Trunkline (Baylink). An independent utility justification memorandum for the Beach Corridor Trunkline was submitted to FTA region 4 in June 2020 and was approved in January 2021. The PD&E team is currently working with the NEPA and permitting agencies to obtain NEPA clearance and permit approvals for the Trunkline (Baylink). Final EA is anticipated to be completed in the beginning of 2024. Bridge permits will be issued once NEPA is complete.

In September 2019, the County advertised a Request for Proposal (RFP) at the direction of the BCC for the Beach Corridor Trunkline. In March 2020, the County received a proposal from MBM Partners, LLC (MBM). Following evaluation of the proposal by the Competitive Selection Committee (CSC), the CSC recommended entering into negotiations with MBM to achieve an Interim Agreement. Subsequently, the Interim Agreement was presented to the BCC and approved by the BCC in October 2020 for a term of 18 months plus one 6-month extension for the Baylink portion. The P3 process was concluded in October 2022. DTPW is now developing an RFP.

Fiscal Impact: The cost estimate of the original PTP Exhibit I Baylink project (approved by voters) was estimated at \$510M and was anticipated to be implemented by 2025. The SMART Plan Beach Corridor Trunkline (Baylink) fiscal impact is listed in the table below.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|---------------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2016 | \$3,750,000 | - | - | \$3,750,000 | September 2021 |
| FY 2017/ FY 2018 | \$4,666,000 | \$916,000 | \$939,000 | \$3,727,000 | September 2021 |
| FY 2019 | \$16,580,000 | \$11,914,000 | \$2,842,000 | \$13,783,000 | September 2022 |
| FY 2020 | \$16,579,500 | - | \$5,761,500 | \$10,818,000 | December 2022 |
| FY 2021 | \$16,579,500 | - | \$8,947,900 | \$7,631,600 | December 2022 |
| FY 2022 | \$763,000,000 | \$746,420,500 | \$21,000,000 | \$742,000,000 | December 2024 |

Revision 1: The budget revision is to reflect funding realignment due to FDOT's rejection of third-party concurrence on several

Beach Corridor project related work orders. The funding need for PTP is increased to 9.17% from the original 4.17%. It also includes additional scope of services to support the Environmental permitting process for the Bay crossing portion of the Beach Corridor Project. This analysis is required as input to the County's Request for Proposal for the Beach Corridor Bay crossing/Trunk Line segment.

Revision 2: This revision includes a request for additional future funding to advance the Design, RFP proposal review, and FTA Capital Improvement Grant (CIG) program Project Development process.

Revision 3: The Beach Corridor increase in budget to finalize NEPA and begin RFP development. Also, included in FY 2023-24 Capital Budget is the estimated capital cost of a metro mover system. Local funding portion is programmed to secure FDOT funds and to advance the project to completion.

Project Description:

The SMART Plan Beach Corridor runs approximately 10 miles from the Miami's Design District/Wynwood on the mainland to Miami Beach's entertainment and employment district to the east. This TOD master plan for the beach corridor project will result in a corridor master TOD plan for Miami and Miami Beach and inform the ongoing private and public development along the Corridor. Six new stations are proposed on the Miami extension and four stations are proposed on the trunkline between Miami and Miami Beach. Work will focus more intensely on individual station areas.

Project Status:

DTPW received an FTA TOD Planning Pilot program grant for this study. The master TOD plan for the Beach Corridor study is pending identification of the contract and NTP was delayed due to PSA contract capacity issue. Issue was resolved and NTP for the study is expected in first quarter of FY2024. The schedule was adjusted to address the time needed to select the consultant and complete the study. The TOD master plan team will be in continuous coordination with the PD&E team.

Project Description:

Beach Corridor is one of the six rapid transit corridors of the Strategic Miami Area Rapid Transit (SMART) Plan. The Beach Corridor Rapid Transit Project will provide rapid transit service connecting the cities of Miami and Miami Beach along a 11.5-mile corridor, crossing Biscayne Bay from Miami Beach Convention Center to Downtown Miami and north to the Miami Design District. The Locally Preferred Alternative (LPA) for the Beach Corridor transit connection between Downtown Miami and Design District is Metromover extension along Miami Avenue from the existing Metromover School Board station to 41 Street (approximately 1.7 miles). This extension has independent utility and will be advanced into design and construction as a separate project. It's Project Development and Environment (PD&E) study is conducted as part of the Beach Corridor (Baylink) PD&E project.

Project Status:

15% design plans are completed under the Beach Corridor PD&E project (CIP253). The project is in project development phase and traffic analysis is being conducted. NEPA Class of Action is assumed to be documented Categorical Exclusion (CatEx) and draft CatEx document is complete. Pending confirmation from FTA on the NEPA class of action. Estimated NEPA completion in FY 2025.

Project Description:

East-West Corridor is one of the six SMART Plan Rapid Transit Corridors. The East-West Corridor PD&E, which began in April 2017, will analyze approximately 14 miles between Miami International Airport and the Tamiami transit terminal to the west along the SR-836/Dolphin expressway to implement premium transit solutions in this corridor. This project will serve major activity centers including Florida International University (FIU), Miami International Airport (MIA), the Miami Intermodal Center (MIC), Dolphin Mall, and major employment areas like Downtown Miami, Doral and the Blue Lagoon area. It

provides multimodal options that mitigate the severe traffic congestion along SR-836 which is the only east-west expressway in central Miami-Dade County.

Project Status:

The East-West Corridor PD&E study began in April 2017. A public kick-off meeting in June 2017 and four (4) corridor and public engagement workshops were conducted in 2018 and 2019. Through the technical analysis and public input process, four viable build alternatives, Bus Rapid Transit (BRT), Heavy Rail Transit (HRT), Commuter Rail Transit (CRT) and a hybrid combination of BRT and CRT, were identified and developed for a screening

evaluation. On October 22, 2020, the Miami-Dade TPO Governing Board unanimously selected the Bus Rapid Transit (BRT) Alternative as the Locally Preferred Alternative (LPA). The BRT LPA selected includes three routes to be implemented over two phases. Phase 1 will be implemented to provide rapid transit service to the west Dade area, where no transit service is available, yet. The project team is coordinating with FTA on the National Environmental Policy Act (NEPA) Class of Action and anticipating a documented Categorical Exclusion Class-of-Action. Phase 1 of the project was admitted into FTA's CIP Small Starts Project Development in October 2021. DTPW is working on the NEPA documents for the LPA and development of 30% design plans for Phase 1. Activities for the Small Starts application is on-going. Phase 1 of the BRT project which provides reversible lanes along the median of SW 8 Street/SR 90 and SW 137 Avenue/SR 825 is being advanced.

The project limits have been revised in Spring 2020 to extend the project to the Tamiami station at SW 8th Street and SW 147 Ave. The original limit was from FIU to MIC.

TPO urged DTPW to reconsider the Locally Preferred Alternative (LPA). The schedule delay is due to the additional time required to obtain direction from the TPO Board and to proceed with the project as directed.

Fiscal Impact: The original PTP Exhibit I project (approved by voters) was estimated to cost \$2,789M as heavy rail and with anticipated implementation by 2025. The SMART Plan East-West corridor BRT PD&E study fiscal impact is shown below.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|----------------------|-----------------------------|-----------------------------------|--|-----------------|
| FY 2018 | \$9,000,000 | - | \$2,424,000 | \$6,576,000 | September 2020 |
| FY 2019 | \$12,000,000 | \$3,000,000 | \$3,994,000 | \$8,006,000 | December 2021 |
| FY 2020 | \$25,000,000 | \$13,000,000 | \$5,750,400 | \$19,249,600 | December 2021 |
| FY 2021 | \$25,000,000 | - | \$7,476,600 | \$17,523,400 | December 2022 |
| FY 2022 | \$25,000,000 | - | \$15,251,000 | \$9,749,000 | June 2028 |

Revision 1: The additional budget (\$3,000,000) is requested to continue the project through FTA Capital Investment Grant (CIG) program Project Development.

Revision 2: The additional budget (\$13,000,000) is to complete the FTA CIG Project Development Phase and prepare design criteria package for the procurement of Design-Build services.

Project Description:

The East-West Corridor is one of six premium transit corridors included in the SMART Plan as endorsed by the Miami-Dade TPO Governing DTPW will conduct a comprehensive Board. planning effort that will inform transit and land use planning in the East-West Corridor, an 11-mile corridor linking the Miami Intermodal Center at Miami International Airport with Florida International University, Dolphin terminal, Tamiami terminal and the western communities of Miami-Dade County. Scope of services was revised for the additional site selected at 42 Avenue due to the RFP that was advanced and advertised for TOD at Dolphin station.

Project Status:

DTPW received FTA grant to conduct a transitoriented development (TOD) study for the East-West Corridor under the TOD Planning Pilot program. This study received NTP in November 2018. The study conducted public design charettes in Spring/Summer 2020 following the

LPA selection for the rapid transit corridor. Coordination meetings held in summer 2019. Four station locations were identified and presented to TPO and RER in August 2019. Working Group Meetings were held in fall 2019. Dolphin station area site was removed from this study as potential TOD development opportunity by DTPW would be advertised, tentative new 4th station area was identified by the DTPW staff in 2020. Ongoing coordination with East-West PD&E team. In October 2020 the TPO Governing Board Selected BRT as the LPA allowing the project to move forward with the selected station sites. Draft Report was produced in March 2022. Public Outreach components were completed. The study is expected to be completed in summer 2023 with a final TOD master plan for the corridor. Project report is being finalized with minor revisions to address comments received from FDOT, and pending presentation to CITT, District Commissioners, and Committees.

Project Description:

In 2015, CITT and BCC adopted Resolutions which allocated Surtax funds for improvements to the Miami Central station as a first step towards activating the Northeast Corridor. The County has negotiated a development agreement with Virgin Trains USA LLC for the new West Aventura Station. The County has an opportunity to benefit from Virgin's billions of dollars of private investment by allocating a one-time capital contribution towards the construction of the new West Aventura station. By providing a convenient connection to Metrorail via Virgin trains between Aventura and Downtown Miami, ridership will be significantly increased on both systems and traffic reduced in this very congested area of the County.

The implementation of the SMART Plan Northeast Corridor was initiated by acquiring land to construct a West Aventura station platform on the existing privately-owned rail line (Brightline now Virgin Trains USA LLC) that will service commuters between Aventura and Downtown Miami. County acquired appx 3 acres of privately-owned land in December 2019. Virgin to construct, operate and maintain a passenger rail station, park-and-ride (up to 290 spaces) to co-locate with kiss-and-ride and bus bay facilities, a center platform and necessary track and signalization improvements within its railroad right-of-way, and pedestrian bridge connecting the station and park-and-ride lot over West Dixie Highway to the railroad right-of-way and platform. Also, Virgin to develop an east station that will allow connectivity between Aventura Mall Metrobus terminal and the new rail station.

Project Status:

Right-of-way acquisition and design of station, west bridge and platform was completed. Construction of the station and west bridge is complete. The station is fully operational. Rail infrastructure work is 100% completed.

East bridge design is 75% completed and east bridge construction contractor received peer review approval.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2018 | \$76,700,000 | - | \$0 | \$76,700,000 | October 2022 |
| FY 2019 | \$76,700,000 | - | \$19,000,000 | \$57,000,000 | October 2022 |
| FY 2020 | \$76,700,000 | - | \$20,854,000 | \$55,846,000 | March 2022 |
| FY 2021 | \$76,700,000 | - | \$25,958,800 | \$50,741,200 | November 2022 |
| FY 2022 | \$72,700,000 | (\$4,000,000) | \$60,671,000 | \$12,029,000 | December 2025 |

\$4M decrease in PTP funds is due to City contribution by same amount. Schedule reflects construction of East Bridge.

Project Description:

The South Florida Regional Transportation Authority (SFRTA) is operating the Tri-Rail network. The Tri-Rail system began in 1989 and currently operates 72 miles of commuter rail along the CSX corridor (now known as the Tri-Rail corridor) from West Palm Beach to Miami International Airport (MIA).

The Tri-Rail Downtown Miami Link is designed to bring commuter rail service from the existing Tri-Rail service on the CSX corridor to Miami Central station located in Downtown Miami. The current Tri-Rail service terminates in Miami-Dade County at MIA.

The Tri-Rail Downtown Miami Link takes advantage of two other major initiatives that have been underway. The first is the connection of a rail link between the Tri-Rail corridor and the Florida East Coast (FEC) corridor. This project has been funded by the Florida Department of Transportation, through a federal Transportation Investment Generating Economic Recovery (TIGER) Grant. This project was initially conceived as part of the freight rail plan provides for the east-west movement of trains from the Port of Miami to western Miami-Dade County.

Additionally, All Aboard Florida (AAF) is establishing an inter-city passenger rail service (rebranded as "Brightline") from Miami to Orlando. This project includes a Miami Central Station which will be located immediately adjacent to the Miami-Dade Government Center and will consist of the rail station and a comprehensive transit-oriented development with extensive retail office and residential projects.

SFRTA and AAF, realizing this potential and synergy have developed a plan that would, as part of the construction of the Miami Central Station, construct the tracks, platforms and station space needed for Tri-Rail. Additionally, Tri-Rail has developed an operational plan that would, using the TIGER connector, bring existing Tri-Rail service to Downtown Miami with the opening of the Brightline.

The SFRTA component of Miami Central station is estimated to cost approximately \$69M. It is funded through a collaborative funding partnership including SFRTA, Miami-Dade County CITT, the City of Miami, the Miami Downtown Development Authority and two Community Redevelopment Agencies (CRA) where the project is located, the Southeast Overtown Park West (SEOPW) CRA and the Omni CRA.

The County/CITT contribution is \$13.9M from the Capital Expansion Reserve Fund. These funds will be used for the Tri-Rail portion of the Miami Central station.

Project Status:

Construction of the Tri-Rail platforms at Miami Central station and the pedestrian bridge, rail infrastructure, including tracks and signals, roadway grade crossing improvements, and Installation of a railing on the platform around the skylight are completed. The signal system will need to be cut over with the new software to support I-ETMS. Brightline completed installation of the I-ETMS Positive Train Control (PTC) system and SFRTA is working with the vendor to obtain new version of the I-ETMS software as implemented by Brightline and will work with rail partners to complete interoperability testing. The Brightline system received conditional approval of PTC from Federal Railroad Administration (FRA). SFRTA requested a test train run to inspect the station and track construction improvements at Miami Central Station completed by the Brightline in March 2021. SFRTA and Brightline's joint field inspection, SFRTA's LiDAR scan survey of the platform, and further reviews revealed several defects including platform clearance issue on the north end, material defects, vertical clearance issues, live load ratings, Operating Rules and Tier3 compliance resulting in the platform to be unsafe for passenger services. SFRTA is working with a consultant to develop level boarding solution, and to review potential modifications needed to its remaining stations, maintenance yard and maintenance equipment. SFRTA is working with FECR and Brightline towards addressing the defects and to begin operating the service to Miami Central Station. Platform modifications were completed, Dispatchers hired, signage kiosks installed on platforms, tri-party agreement was executed. Ongoing tasks include access to the corridor, PTC/ATC testing and installation, Overhaul of locomotives painting of the station, coordination with FRA, training and qualification of crew, system safety plan, coordination with partners, and public outreach with an estimated project completion in Fall 2023.

Fiscal Impact: Project started in 2015 and the original completion date was by 2017.

| | |

Project Description:

The Northeast corridor is an approximately 13.5-mile regional connection that links Downtown Miami with communities to the north via the Florida East Coast (FEC) railway, generally along the Biscayne Blvd/U.S. 1 Corridor. Initial planning phases identified commuter rail as the preferred mode for this SMART Plan Rapid Transit Corridor. The TPO Board directed DTPW as an operating agency, to review and fully vet the project deliverables developed by FDOT and its consultants. In March 2021, the TPO Board officially adopted Passenger/Commuter Rail along the Florida East Coast Railway (FEC) tracks as Locally Preferred Alternative (LPA).

Project Status:

In June 2020, the BCC passed a resolution (R-558-20) directing the Mayor to negotiate agreements and funding commitments with Virgin Trains and the public and private interested parties along the northeast corridor, for the implementation of commuter rail service along the corridor. In October 2020, the BCC passed a resolution (R-1088-20) establishing County policy identifying certain top station priority locations for the northeast corridor. In November 2020, the BCC passed a resolution (R-1154-20) directing the County Mayor to finalize negotiations with Brightline for the northeast corridor inclusive

of an access agreement and agreements for O&M and capital; completing all due diligence and any necessary approval by the FTA; further directing the County Mayor to submit the agreements to the CITT for its review and recommendation.

Following direction of the BCC and adopted LPA for the Northeast Corridor, DTPW initiated discussions with Brightline regarding track and land access fee, infrastructure improvements required for the proposed commuter rail service, and estimated O&M costs for the proposed service.

In March 2021, DTPW submitted an INFRA grant application for the rail infrastructure of the proposed service, requesting \$125M of USDOT funding. In October 2021, the project is approved into the FTA Capital Investment Grants (CIG) New Starts program Project Development Phase. The project received a Documented CatEx as the NEPA class of action in February 2022. It is anticipated that the County will request to enter this

project into Engineering phase in July 2023 and submit a New Starts application for this project in Fall 2023. Thirty (30%) design plans were completed. Aventura Station construction was completed in December 2022 and is now open for service.

The schedule and budget were revised to reflect the FTA CIG New Starts program multiphase application process.

Fiscal Impact: The original PTP Exhibit I project (approved by the voters) was estimated to be \$795M for the northeast corridor.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2018 | \$1,143,000 | - | \$0 | \$1,143,000 | September 2021 |
| FY 2019 | \$1,143,000 | - | \$0 | \$1,143,000 | September 2023 |
| FY 2020 | \$25,000,000 | \$23,857,000 | \$27,700 | \$24,972,300 | September 2024 |
| FY2021 | \$25,000,000 | - | \$381,800 | \$24,618,200 | September 2024 |
| FY 2022 | \$189,446,000 | \$164,446,000 | \$5,632,000 | \$183,814,000 | December 2027 |

Increase in capital budget allocation was to comply with FTA New Starts Program to obtain the 50% funding share and as a requirement of that application process, the FTA requires the local match to be funded first, prior to that of federal and state grants. Additionally, the FTA requires the applicant to demonstrate at least 30 percent of the funding is available to be comprised of a local match.

| | |

Project Description:

SMART Plan North Corridor is approximately 10 miles from Dr. Martin Luther King Jr. Metrorail Station north along NW 27 Avenue to NW 215 Street. This Rapid Transit Corridor connects the cities of Miami, Opa-locka, and Miami Gardens with major activity centers including College Campuses, Hard Rock Stadium and Calder racecourse. FDOT conducted the PD&E study for the North Corridor. In October 2019 the TPO (Reso #55-19) selected elevated fixed guideway transit system as the LPA for North Corridor.

Project Status:

FDOT completed the Draft Environmental Assessment for the North Corridor in 2020. As directed by the BCC, in June 2020, DTPW developed a draft RFP for the North Corridor and advertised a P3 contract seeking proposals to design, permit, construct/build, finance, operate and maintain full turn-key services for a rapid mass transit. DTPW had been pursuing a P3 procurement to deliver the project with the potential for multiple transit technologies to be proposed. In late 2022, the BCC directed that the procurement be cancelled, and that DTPW pursue an elevated Metrorail extension as the proposed technology and pursue a stipend agreement with the four P3 proposers to obtain their work products created in connection with the cancelled procurement. In May 2023 FDOT and DTPW initiated a value engineering process to further define the project and seek efficiencies.

The funding included here will allow DTPW to continue coordinating the NEPA process with FDOT, pay the P3 stipends, advance the project design and project development towards 45% and commence right-of-way mapping activities.

Note that the FDOT and FTA funds were programmed in the budget to show the State/Federal share required and

yet to pursue grant applications to secure the State and Federal funds for the project.

Fiscal Impact: The original PTP Exhibit I project (approved by voters) was estimated to cost \$555M as heavy rail and with anticipated implementation by 2025. The SMART Plan North corridor project fiscal impact is shown in the table below.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|-------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2018 | \$2,286,000 | - | \$0 | \$2,286,000 | September 2021 |
| FY 2019 | \$2,286,000 | - | \$0 | \$2,286,000 | September 2023 |
| FY 2020 | \$11,154,000 | \$8,868,000 | \$339,400 | \$10,814,600 | September 2023 |
| FY 2021 | \$11,154,000 | - | \$443,000 | \$10,711,000 | September 2023 |
| FY 2022 | \$475,000,000 | \$463,846,000 | \$521,300 | \$474,478,700 | September 2026 |

Increase in PTP funds indicates the local match Capital budget to position the project to purse discretionary grants such as Reconnecting Community, MEGA, RAISE and other discretionary opportunities.

Transit Oriented Development (TOD) Master Plan for the North Corridor

Project Description:

The North Corridor is one of the six rapid transit corridors of the Strategic Miami Area Rapid Transit (SMART) Plan. The North Corridor is approximately 10 miles from Dr. Martin Luther King Jr. Metro Rail Station north along the NW 27 Avenue to the Broward County line at NW 215 Street. It is important to accompany the North Corridor rapid transit project with supporting transit-oriented land use and zoning policies, bike and pedestrian connectivity, and sufficient water and sewer infrastructure. The proposed TOD planning effort supports important County goals such as: promote equitable transportation solutions, support economic development, enhance connectivity, protect the environment, and improve the resiliency of the transportation system in response to climate change. This project will result in a corridor Master Transit-Oriented Development Plan for Miami-Dade County, Opa-Locka and Miami Gardens and inform the ongoing private and public development along the Corridor.

Project Status:

The study is anticipated to begin in summer 2023, pending identification of the contract to perform the study.

Fiscal Impact:

| F | iscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|---|------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| | FY 2021 | \$101,300 | - | \$0 | \$101,300 | June 2025 |
| | FY 2022 | \$315,000 | \$213,700 | \$0 | \$315,000 | June 2025 |

Total project cost is higher than FTA Grant award and the original 20% local match (PTP). Increase in PTP share is to cover additional funds needed to complete the project.

Project Description:

The proposed 6.5-mile Beach Express South route will feature six (6) new 40' Compressed Natural Gas (CNG) vehicles, transit signal priority (TSP) treatment at 26 traffic signals in Downtown Miami and 33 traffic signals in Miami Beach, a westbound queue jumper at 5th Street and Alton Road, and real-time information equipment. In addition, the portion of the route along Washington Avenue will feature exclusive running ways, which will be painted with Durable Liquid Pavement Markings (DLPM). This route will operate

seven days, all day (21 hours) and will provide daily service with 10-minute headways from 5:00 AM to 2:00 AM. The total project cost includes design, engineering and plans preparation, construction, CEI activities and bus procurement (6 CNG buses). This project does not require ROW acquisition.

Project Status:

This project received FDOT CIGP funding in 2019. Due to concerns with how traffic would divert onto Collins Avenue and other local roadways, a Dynamic Traffic Assignment (DTA) analysis begun in 2022 to evaluate the potential traffic impacts. The DTA study was completed in February 2023 and has been reviewed by FDOT. Next

steps will include the project transitioning into design, while simultaneously obtaining a NEPAType 1 Categorical Exclusion.

The City of Miami Beach is conducting a visioning study for the Arc Deco District. The City has confirmed that Washington Avenue is the preferred roadway for dedicated transit lanes. Confirmation from the City on the preferred layout is still pending.

Project Description:

Construction of a kiss-and-ride/transit terminal facility on the west side of the South Florida Rail Corridor (SFRC) just north of the Golden Glades Tri-Rail Station and connect it to the existing Golden Glades Tri-Rail Station and the GGMTF via a fully covered and illuminated pedestrian and bicycle overpass. This proposed facility would increase the convenience and accessibility for the residents of Miami Gardens traveling to/from the Golden Glades Tri-Rail Station and the GGMTF via various travel modes including walking, bicycling, local transit circulator, local bus and auto drop-off/pick-up. This would eliminate the need to drive on the highway along a circuitous and highly congested route to access the GGMTF from the City of Miami Gardens. The Sunshine State industrial park kiss-and-ride/transit terminal would be served by the Miami Gardens trolley, servicing workers of the industrial park and providing a new, convenient transfer point between the GGMTF and the City of Miami Gardens.

Project Status:

The project began in April 2021. In Spring 2021, FDOT requested that DTPW evaluate the alternative of replacing SR 9 pedestrian bridge along with construction of the bridge over the SFRC and the kiss-and-ride. Upon completion of the evaluation, DTPW decided to include the SR 9 bridge replacement into the PD&E study.

As of June 2023, the public involvement efforts are on-going. The draft of the Preliminary Engineering Report (PER) is undergoing DTPW and FDOT review. The draft of the Project Environmental Impact Report (PEIR) is still under development.

Next steps will be to complete the public involvement effort, the reports will be finalized, and the PD&E phase will conclude. Upon completion of PD&E, the right-of-way acquisition phase for the parcel of the proposed kiss-and-ride will begin.

Additional State funding is sought for the design and replacement of the SR 9 bridge. If additional state funding is allocated, additional PTP funding will be requested as a local match. Additional analysis and scope of SR 9 Pedestrian bridge extended the timeline of the project.

Project Description:

FDOT began construction to improve the existing Golden Glades Multimodal Facility Transportation (GGMTF) sometime in 2018. As a part of this effort, the GGMTF will include structured parking, an improved bus terminal and enhanced passenger amenities. Due to budgetary constraints this project, the necessary for technology components for the newly improved GGMTF are not included and must be funded through a separate effort. These technology components include, but are not limited to, the Wi-Fi systems, security access control

systems, CCTV systems, real-time signage, ticket vending machines, emergency phones/call boxes, electric vehicle charging stations, advanced parking management system, and appropriate electrical and physical infrastructure components.

These technology components will help to ensure a safe, reliable, and convenient transit experience for users. Considering FDOT's level of investment for the improvements to the existing facility, DTPW would like to provide

passengers the best technologies to enhance the transit user's experience. Additionally, these technology components will help to promote and maximize transit use while improving how transit service is provided to our passengers.

Project Status:

Design was completed and the project is currently going through procurement. ITD took over a portion of the scope directly for approximately \$2.4M.

Project Description:

The proposed project performs an environmental analysis to construct a surface park-and-ride at the Mount Sinai Medical Center. The proposed project will provide parking along the SMART Plan Bus Express Rapid Transit (BERT) routes f1 - beach express north and f2 - beach express central. The study includes planning/environmental analysis of the project, develop concept plans, and preliminary cost estimates and construction of the proposed improvements which include repaving the existing lot and expanding the existing bus stop to include four bus bays and approximately eighty-three (83) parking spaces.

Project Status:

The Mount Sinai park-and-ride is included as part of the BERT study. The preliminary cost estimate and a conceptual design were developed as part of the BERT study. This project is funded with TRIP funds. Grant agreement has been executed with FDOT as of April 2023. The planning team has reconvened with the Mount Sinai team to determine the use of the grant funds. In discussions with Mount Sinai, they suggested that a park-and-ride is no longer required but would still want to use the funding to update the bus bays.

Project Description:

This new Downtown bus terminal will provide sufficient bus bays for all buses terminating in the Government Center area. It will also provide customer service, passenger waiting areas with seating, ticket vending machines (TVM), video displays, restrooms, security office, support areas (driver comfort areas), janitor/supply closet, supervisor booth, staff parking spaces, kiss-and-ride, bike parking, and micro - mobility amenities. This project may also include enhancing the bus stations on NW 1st street with premium amenities, taxi/jitney areas, landscaping, lighting, and unified directional signage. The Downtown intermodal terminal will serve as a SMART terminal for a number of SMART Plan corridors such as East-West Corridor, Flagler Corridor, and a number of existing high ridership routes. This terminal is proposed to be integrated with a TOD development in the Government Center area, which will also provide an intermodal connectivity with the Metrorail and Metromover systems. The estimated budget for planning, design, and construction of an enhanced surface bus terminal in the vicinity of Government Center in Downtown Miami is \$35M. The cost will be refined as the design advances.

Project Status:

Project not yet started. Project is currently in Phase 1 of 2 phases, procurement process. Currently in the procurement phase for a Master Developer and under the Cone of Silence. The contract award is expected to be in late 2024.

Fiscal Impact:

CITT encourages DTPW to seek other funding including Federal/State/Municipal funds or private sector contributions. Surtax funds should be leveraged as a local match and should not exceed fifty (50%) of project costs for capital projects per the CITT's guiding principles and priorities.

| | |

Project Description:

The SW 112 Avenue park-and-ride facility is a 6.8-acre parking lot that is adjacent to an existing retail site (Target store). The northern portion of the parking lot is a large section of unpaved vacant land. There are 462 parking spaces currently designated for MDT passenger use and current parking utilization is about 45 percent. The station configuration at this location is a split station where the southbound station is on the northwest side of the Transitway, and the northbound station is on the southwest side of the Transitway. Therefore, station access is bifurcated such that passengers are required to cross either SW 208 Drive or SW 112 Avenue depending on which station is being accessed. The goal of this project is to improve the park-and-ride configuration and provide a new bus terminal as well as enhance passenger connectivity between the parking area and the Transitway.

Phase I of this project included the land acquisition tasks and general landscaping and lighting improvements, which were completed in 2018.

Phase II of this project includes the construction of a bus terminal and other enhancements to improve the passenger experience and overall bus operations. The ultimate build-out and design of this facility will be based on the on-going SMART Plan South Dade Transitway (South Corridor) project. The SMART Plan is a bold transit infrastructure investment program that will significantly improve transportation mobility and includes six (6) rapid transit corridors and the Bus Express Rapid Transit (BERT) network. The park-and-ride at SW 112 Avenue and the Transitway are within one of the six SMART Plan corridors – the South Corridor.

DTPW, as an intermediate step between Phase 1 and 2, proposes to rehabilitate the existing surface parking. The approximate area to be improved is 295,293 sq. ft.

Project Status:

The design has been completed. Construction/Rehabilitation of the parking lot started in November 2022 and is scheduled to be completed in November 2023.

Project Description:

The existing surface parking facility on the Transitway at SW 168 Street is 100% utilized and not able to meet current needs. DTPW needs to expand the capacity at this park-and-ride facility by replacing the surface lot with a garage or identify a better location nearby to build a new park-and-ride garage to meet the travel needs of the South-Dade Community.

The proposed project will construct a park-and-ride garage with approximately 670 parking spaces on the Transitway at SW 168 Street near

the Village of Palmetto Bay. The proposed project will provide expanded capacity for the Transitway.

Project Status:

Design is 90% complete. Construction started in October 2022. Construction is on-going – survey, utility relocation, clearing and grubbing, temporary detour road is completed; Engineering/Design, 90% designs completed, and test

piles, erection of precast elements, rough in electrical work, drainage work and off-site improvements are ongoing. Construction is 30% complete. Supply chain issues may impact the completion date.

Project Description:

The South Dade Transitway Bus Rapid Transit (BRT) project will construct fourteen (14) new BRT stations along the Transitway, including one at SW 264th Street/Bauer Drive. Currently there is no Park-and-Ride facility at this location. This project is proposed to construct or lease a Park-and-Ride facility with 100 spaces.

DTPW received FDOT grant in the amount of \$893,000 in State Fiscal Year 2025. The requested PTP funding is to provide local match of \$893,000 for this project.

Project Status:

Project not yet started.

| | 2000002956 | | 3006422 |
| | 200002550 | | 5000422 |

Project Description:

The South Dade Trail Shared-Use Path enhancements project extends for approximately 20-miles, running along the South Miami-Dade Transitway between SW 344 Street (W Palm Drive) in the Florida City and the Dadeland South Metrorail Station. The trail connects communities from South Miami to Homestead. At Dadeland South Metrorail Station Kiss and Ride facility, the trail will connect to the future Underline and will allow pedestrians and bicyclists to connect to the Miami River in Downtown Miami. The South Dade Trail will be enhanced to provide for a shared use path with sufficient width, intersection improvements to increase safety and promote first and last connections to the new BRT stations and renovated bus shelters and identify new connections to adjacent communities. The new enhancements will accommodate for lighting, intersection improvements, signage, site furniture and equipment, landscaping, drainage, and certain amenities.

On June 2, 2022, the State Fiscal Year 2023 Budget (House Bill 5001) was signed into law, and the County was appropriated funds for planning and design services to develop a design criteria plan for pedestrian and bicycle improvements along the South Dade Trail Multi-Use Mobility Corridor from Dadeland South Metrorail Station to SW 344 Street in Florida City. With this planning and design effort, DTPW intends to identify potential First and Last Mile (FLM) connections by advancing the National Environmental Policy Act (NEPA) analysis while evaluating and expanding the feasibility review of the TPO's "South Dade Transitway Intersection Areas Analysis", which was completed on June 16, 2022. The TPO analysis focused on: Identifying connectivity and accessibility gaps on pedestrian crossings and bicycle facilities networks within one-half mile of the South Corridor Transitway; Identifying viable bicycle and pedestrian facility projects for future implementation in order to provide pedestrian and bicyclist access to the transit services along the South Dade Transitway.

The goal is to develop a project that provides additional ADA connectivity between the South Dade Transitway bus stops and the surrounding communities given that many of the local streets along the Transitway do not currently have sidewalks. The lack of access makes it such that pedestrians and nonmotorized vehicles are required to traverse longer distances to access corridors that do have direct ADA access to patronize the Transitway. The proposed planning and design effort will study the entirety of the 20-mile corridor and propose a series of comprehensive enhancements to address existing deficiencies and maximize access to the Transitway. It should be noted that the entirety of the proposed improvements will be undertaken within the 100-foot Right-of-Way of the existing South Dade Transitway (which includes the South Dade Trail). The Transitway is considered a "fixed guideway" as defined under the transit statutes within 49 USC Chapter 53, and therefore the proposed improvements are integral to Miami-Dade's efforts to extend and enhance transit service. The project term under the grant ends September 30, 2026, with design to be completed by April 30, 2026.

The South Dade Trail project is intended to provide pedestrian and bicyclist access to the current and future bus transit services along the South Dade Transitway. To the extent the project establishes such connectivity to transit services, that portion of the project is eligible to be funded with surtax funds pursuant to Section 212.055, Florida Statutes.

Project Status:

Project not yet started.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2021 | \$3,000,000 | - | \$0 | \$3,000,000 | October 2027 |
| FY 2022 | \$6,786,000 | \$3,786,000 | \$0 | \$6,786,000 | October 2027 |

Project was recently awarded an additional \$3.78M grant that requires 50% local match. So, the PTP funding share was increased.

Project Description:

The South-Dade Transitway runs approximately 20 miles from the Dadeland South Metrorail station along the existing Transitway (formerly known as Busway) to the SW 344 Street park-and-ride/transit terminal facility. The Dadeland South Intermodal station is a major connecting point for bus routes on the South Miami-Dade Transitway.

The proposed project will reduce transfer time between the Transitway BRT service and the Metrorail service. It will improve the connection between Downtown Miami and the City of Florida City, City of Homestead, Town of Cutler Bay, Village of Palmetto Bay, and Village of Pinecrest. The proposed project will also renew and enhance the existing infrastructure at the Dadeland South Metrorail Station.

The Project has been re-scoped to bring within the project budget. The direct ramps to and from the elevated BRT platform have been eliminated. The BRT platform will now be located at-grade on the east side

of the Station. The proposed work includes the reconfiguration of the existing east side of the station to accommodate the BRT service and includes the design and construction of canopies to provide better weather protection for individuals on the BRT platform. New canopies are also being proposed between the Station's west side entrance and the Datran Center and parking garage, Metrorail platform and connecting elements between the Metrorail platform and the drop-off/pick-up area (filling an existing gap); the reconfiguration of the drop-off/pick-up area north of the Station for easier vehicular and pedestrian access. The project also proposes the design and construction of an at-grade bike path connecting the County's Underline project and the South Dade Trail (adjacent to the Transitway); improvements throughout the Station to the existing amenities such as facility technologies, barrier and security systems, bicycle amenities, lighting, landscape and hardscape elements, climate control systems, wayfinding signage, and vertical circulation elements; and site improvements to adjacent roadways, signalized intersections and the surface park-and-ride lot north of the Station area. Due to the rescoping of the project, additional elements have been added.

Project Status:

Procurement documents were finalized in April 2021. Project was advertised in November 2021 and anticipate NTP in June 2023.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |

Project Description:

The park-and-ride facility is located between SW 344 Street (Palm Drive) and NW 2 Street and from NW 2 Avenue to NW 3 Avenue, adjacent to the Transitway in Florida City. Phase I was competed in 2015 which entails Construction of park-and-ride facility to incorporate bus bays, a roundabout for buses using the Transitway, passenger shelters, large surface parking lot for patrons (approximately 260 spaces), a "kiss-andride" drop off area, and rest/break facility for Bus Operators.

Phase II involves the expansion of the existing end of the line transit terminal/park-and-ride facility to meet future demand for parking along the South Dade

Transitway. This effort will include 77 additional parking spaces, provision of restroom facilities, covered bicycle parking, extended passenger canopies and electric vehicle charging stations. The expansion requires the purchase of two (2) Parcels, which have been completed.

Project Status:

The Right-of-way acquisition was completed. Final design and procurement for construction is on-going.

Project Description:

The proposed Quail Roost Park-and-Ride facility is located at SW 184 Street and Transitway. This project is a 90year lease with Quail Roost Holdings, LLC for the development of a mixed-use residential and commercial development with an associated transit component adjacent to the South Miami-Dade Transit Way. The transit portion of the project includes 261 parking spaces for the exclusive use by transit patrons within a parking structure, a drop-off and pick-up facility with a passenger shelter and a covered walkway connecting the parking structure to the Transitway Station. The mixed-use portion will consist of 500 units of affordable housing and 31,900 square feet of commercial and retail space. In addition to the transit portion of the project, approximately 400 units of affordable housing and approximately 10,633 square feet of commercial/retail space will be constructed on the 3.17 acres of the property acquired with FTA funding. Project received FTA approval for lease agreement between County and the developer in April 2020 and approval by BCC in October 2020.

Project Status:

Project is in the design and permitting phase. The Developer is addressing design plan comments from DTPW and anticipates submitting a complete set of plans during the first quarter of 2022.

Project Description:

Miami-Dade DTPW has identified a need to provide a new park-and-ride /transit terminal facility to support the SR 836 Express Bus Service as well as other planned express bus routes and provide a terminus or stop for several local bus routes serving the Dolphin Mall and nearby cities of Sweetwater and Doral. Dolphin Station park-and-ride was constructed in coordination with FDOT and MDX. Roadway improvements along NW 12 Street are critical components that will facilitate access to the Dolphin Park-and-Ride/Transit Terminal Facility.

This project includes widening and resurfacing along NW 12 Street to add bus-only lanes from NW 122 Avenue to NW 114 Avenue. These new bus-only lanes will allow buses to bypass traffic congestion along this segment of NW 12 Street and will thereby reduce travel time for buses traveling between the Dolphin Station Park-and-Ride and

Dolphin Mall. This roadway project is an integral component of the Dolphin Station Park-and-Ride. The Dolphin Station Park-and-Ride is part of the SMART Plan East-West Corridor Rapid Transit Project which connects the largest employment areas of Miami-Dade County (Florida International University, City of Doral, Miami International Airport, Miami Health District, Downtown Miami and Brickell). The East-West Corridor Rapid Transit Project will also connect to the Miami Intermodal Center– the County's major ground transportation hub.

Project Status:

Consultant procurement for this project is complete. Design is underway and is 90% complete. Within the next six (6) months the 90% and 100% plans will be finalized. Push back from dolphin mall representatives resulted in a traffic study at the mall entrance delaying the plans submittal. Addressing FDOT comments on the permit application.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2018 | \$10,745,000 | - | \$0 | \$10,745,000 | September 2023 |
| FY 2019 | \$10,745,000 | - | \$208,000 | \$10,537,000 | November 2023 |
| FY 2020 | \$10,745,000 | - | \$208,000 | \$10,537,000 | June 2024 |
| FY 2021 | \$10,745,000 | - | \$208,000 | \$10,537,000 | July 2024 |
| FY 2022 | \$10,745,000 | - | \$388,000 | \$10,357,000 | September 2026 |

Schedule delay due to a new traffic study at the Dolphin Mall entrance and additional time required to address FDOT input on permit application.

SR 836 Express Bus Service - Tamiami Station

| PTP Category |
|---|
| Post-Unification |
| Project Phase Construction |
| |
| Phase Begin Date 2/10/2020 |
| Phase End Date 6/30/2022 |

| Commission District 11 |
| Site # 3001044 |
| |

Project Description:

DTPW planned to provide incremental improvements along the East-West Corridor by implementing a combination of enhanced and express bus service along the SR 836 and SW 8 Street from three new west Miami-Dade County transit terminal facilities to the Miami Intermodal Center (MIC) at Miami International Airport (MIA) and Downtown Miami via three (3) express bus routes: Line A – Tamiami Station, Line B – Panther Station and Line C – Dolphin Station.

Line A will provide premium express bus service from the proposed Tamiami

Station (park-and-ride/transit facility located at SW 8 Street and SW 147 Avenue) to Downtown Miami via SW 8 Street, SW 137 Avenue and SR 836.

The proposed park-and-ride facility will accommodate over 450 parking spaces and 7 bus bays which would serve as the western most station for the new premium express bus service in the corridor as well as other local bus

routes.

Project Status:

Construction is completed and the station is open for service in December 2022.

| | |

Project Description:

DTPW planned to provide incremental improvements along the East-West Corridor by implementing a combination of enhanced and express bus service along the SR 836 and SW 8 Street from three new west Miami-Dade County transit terminal facilities to the MIC MIA and Downtown at Miami via three (3) express bus routes: Line A – Tamiami Station, Line B – Panther Station and Line C – Dolphin Station.

Line B will provide premium

express transit service from the proposed Panther Station Florida International University (FIU-MMC) to the MIC via SW 8 Street, SR 821/HEFT and SR 836. This route will operate all day with 20-minute headways.

FIU constructed a parking garage along SW 8 Street with ground floor space reserved for a future transit terminal.

The location of the new parking garage, between SW 112 Avenue and SW 109 Avenue, presents an access challenge that requires roadway widening to construct bus only lanes and traffic signal improvements to provide bus signal priority at the two intersections along this roadway segment. The proposed Panther Station would provide eight (8) bus bays. Five (5) of the eight (8) bays are to accommodate the relocation of the existing DTPW routes from the current bus terminal located near SW 107 Avenue/SW 17 Street and provide capacity for future express bus routes such as the SR 836 Express Bus, the Flagler Street Bus Rapid Transit (BRT) and express bus routes operating on the Homestead Extension of the Florida Turnpike (HEFT). The remaining three (3) bus bays will accommodate circulators/trolleys operated by FIU and adjacent municipalities.

Project Status:

The project has two components: Panther station bus terminal and Panther station roadway improvements.

The final design and dry-run permit for the bus terminal has been completed. The FIU Panther station license agreement between the County and FIU is on-going.

Design of Panther station roadway improvements was 100% completed. Received comments from FDOT on the permits. FDOT expressed concerns regarding the U-turn movement at SW 109 Avenue and 112 Avenue and requested that the concept of operation (ConOps) and an update to the traffic study report be conducted. The execution of the FIU Panther station license agreement is currently on hold pending FDOT permit process completion.

Project Description:

Dadeland North Metrorail station parking garage located at 8300 South Dixie Highway was built in 1983 and a subsequent 10-story parking garage was later completed in 1994. The parking garage is equipped with four elevators, located in the center of the building and are equidistant from the emergency exit stairs at both ends.

Since initial construction, Dadeland North Metrorail station's use has increased dramatically. Of the 17 Metrorail stations that provide parking, Dadeland North has the largest number of parking spaces (1,963) and is consistently

filled to maximum capacity before 7:00AM during the weekdays.

This project will construct two additional elevators, at the north end of Dadeland North Metrorail parking garage, to alleviate the evening rush hour congestion, thereby shortening the waiting period for passengers returning to their vehicles.

Project Status:

The Design Criteria Package (DCP) has been completed. The project is currently in the procurement phase to award a Design-Build Contract.

Project Description:

The existing parking garages are thirty (30) plus years old and Dadeland North parking garage is twenty (20) plus years old. The structural integrity of the parking garages has deteriorated beyond repairs and require a comprehensive renovation to address health and safety concerns from patrons parking in the garages. This project will reduce customer complaints, prolongs the life of essential equipment, and enhances aesthetics of the garages.

This project provides contracted services for the parking garages overhaul at six (6) locations, which includes Dadeland South, Dadeland North, South Miami, Earlington Heights, Martin Luther King Jr., and Okeechobee. The parking garages overhaul will include total repair and/or replacement based on the engineering specifications of the roll-up gates, access doors, expansion joints, structural assessment, structural elements, fire sprinkler systems, replace communication systems, Closed Circuit Television (CCTV), pressure cleaning, painting, restriping, numbering, lightning protection, drainage, stairwells, and vertical transportation, if applicable, etc. The first parking garage to move into implementation is the Dadeland North Metrorail station parking garage using a design-build delivery method.

Project Status:

The Design Criteria Package (DCP), for the Dadeland North Metrorail station parking garage has been completed. The project is currently under procurement for a design-build contract.

Project Description:

The AC unit substations are responsible for providing operational power to the Metrorail rail cars traction power and propulsion systems and all vehicle operational power (for AC and communications systems). The substations also provide power to the Train Control and Communications rooms and power to the Metrorail stations. The substations have been in service for approximately 30 years. This project will replace the original AC switchgear at all Metrorail stations unit sub-stations. Included will be the high voltage transformers, breakers, and cubicles.

Project Status:

A revision to the funding will be requested. This project will begin at the conclusion of the upgrade to the DC switchgear in all Metrorail stations. A review of the existing AC switchgear compatible with the existing cubicles is in progress to assess compatibility with newer technology. The RFP is advertised and is under cone of silence.

Fiscal Impact:

| | |

Project Description:

The Metrorail Fiber Optic and Capacity Augmentation project will install new Fiber Optic Cable throughout the Metrorail system. The new fiber optic cable will enable improved reliability of the Metrorail and Metromover SCADA Systems by enabling the diversification of the core network switches at the Stephen P. Clark Center and at the Lehman Facility. Fiber capacity will be designed to provide individual connections from each Metrorail and Metromover station and the Mover Maintenance facility to both SPCC and Lehman to support diverse connections to the core switches. This new architecture will ensure a more robust network that will minimize network disruptions to Metrorail and Metromover SCADA networks. A total of 51 locations will be impacted by this project.

Project Status:

The project was awaiting additional funding. But there is a dependency on the South corridor project to provide reliable fiber optic network connectivity between the Dadeland South and Government Center stations. To facilitate the South Dade Transitway connectivity to the Government Center, this project started with available funding. National supply chain availability shortages of Fiber Optic Cable have impacted the project schedule.

Project Description:

DTPW is continuing the upgrade of the existing traction power substations. The project involves replacement of all the DC switchgear in the Traction substation and an upgrade to SCADA system at the Allapattah, Santa Clara, Culmer, Overtown and Brickell and at Gap tie 2 traction power substations. The project scope includes a SCADA System Upgrade and the replacement of the 750 VDC/6000 Amp DC switchgear which will include Factory testing and acceptance of the new switchgear, its installation, testing and commissioning. This is the third phase of the project. In the previous two phases, the switchgear was replaced at the Okeechobee, Hialeah, Northside, Dr. Martin Luther King Jr. Plaza, Arlington Heights, and Brownsville Metrorail stations and at the Gap-tie 3 traction Power room.

Project Status:

Equipment installation and testing is currently on-going at Allapattah and Santa Clara Metrorail Stations.

Metrorail Tri-Rail Station Traction Power Sub-Station

| Department | PTP Category |
|-------------------------------|-----------------------------|
| Transit | Post-Unification |
| Project Category | Project Phase |
| Rapid Transit Improvements | Right-of-Way |
| Project Begin Date | Phase Begin Date |
| 12/1/2019 | 12/1/2019 |
| Project Implementation Date | Phase End Date |
| TBD | TBD |
| Project Completion Percentage | Phase Completion Percentage |
| 15% | 35% |
| Amount by Funding Source(s) | Project/Contract No. |
| PTP- \$18,238,000 | IRP268/TBD |
| Amount Spent as of 9/30/2022 | Commission District |
| \$1,400 | 13 |
| Capital Budget Project # | Site # |
| 200000104 | 3001382 |

Project Description:

The Tri-Rail Metrorail station does not have a dedicated traction power sub-station as does most of the other Metrorail stations. The lack of a dedicated power traction power sub-station causes reduced third-rail voltage which can, in some instances, cause reduced vehicle performance. The new traction power sub-station will provide the Tri-Rail station with a dedicated propulsion power and will eliminate potential vehicle performance issues.

Project Status:

The parcel of land that was originally to be used in constructing the Traction Power Sub-station is the property of the South Florida Regional Transportation Authority (SFRTA). SFRTA will use the land for a TOD at the Tri-Rail station and has declined the transfer of the parcel to DTPW. The Right of Way Division is in the process of land acquisition of the parcels that are needed to construct the new Traction Power equipment room.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|----------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2019 | \$12,000,000 | | \$0 | \$12,000,000 | TBD |
| FY 2020 | \$18,237,800 | \$6,237,800 | \$1,400 | \$18,236,400 | TBD |
| FY 2021 | \$12,000,000* | (\$6,237,800) | \$1,400 | \$11,998,600 | TBD |
| FY 2022 | \$18,238,000 | \$6,238,000 | \$1,400 | \$18,236,600 | TBD |

*The budget decrease in FY 2021 was due to an error in annual cashflow revisions. The project budget is revised to the original amount of \$18,238,000 during this budget cycle.

| Capital Budget Project # | Site # |
| 673910 | 3001385 |
| | |

Project Description:

Metromover is an automated people mover (APM) system that was designed and installed by Bombardier Transportation (formerly Westinghouse, soon to be renamed Alstom) and began passenger service in April 1986. The Metromover system is comprised of 21 stations, 4.4 miles of dual lane guideway, 25 guideway switches, 29 vehicles and a central control facility located at Government Center. Throughout Metromover's 32-year history, the system has expanded, and vehicle fleet has been replaced, however, many major subsystems that makeup the system have not been replaced or refurbished and have now reached the end of its design life. These subsystems include the Automatic Train Control (ATC) System, Data Transmission System (DTS) with Supervisory Control and Data Acquisition (SCADA), several Power Distribution System (PDS) elements (e.g., low voltage breakers, protective relays, ground switches, etc.), guideway switch equipment and the central control equipment. To maintain good equipment reliability and an overall high Metromover system service availability, these major subsystems need to be replaced or refurbished. The comprehensive wayside overhaul will include the design, supply manufacture, installation, testing and commissioning of the APM system into a fully functional, safe, and reliable Metromover system.

Project Status:

The contract was awarded on May 20, 2021. Insurance certificates and bonds are approved. Design is on-going. Construction of the project commenced in July 2022 and is on-going.

Fiscal Impact: CITT encourages DTPW to seek other funding including Federal/State/Municipal funds or private sector contributions. Surtax funds should be leveraged as a local match and should not exceed fifty (50%) of project costs for capital projects per the CITT's guiding principles and priorities.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |

Project Description:

This project performs feasibility evaluation, simulations, design criteria and design-built services to add new switches/crossovers/bypasses and all necessary infrastructure modifications to the existing Metromover guideway superstructure to allow for Metromover express services between the Government Center station and the future herald plaza area station. The project includes all civil and structural work for the retrofit of the Metromover guideway superstructure and substructure to install three (3) new crossovers with switches near the Government Center, College North, and Freedom Tower station inclusive of one (1) bump track at Government Center approximately 350 feet long, including guideway demolition of existing superstructure, fabrication and installation of new superstructure segments including structural framing, guide rail, special details, new bearings, retrofitted superstructure supports where needed, new cable trays, new traction power cable rungs from adjacent traction power substations (main and redundant service), new fiber and communication runs from source to point of connections and other miscellaneous connections as needed.

Project Status:

This project is in the estimation and planning phase. Pending consultant assignment to continue planning phase.

Fiscal Impact: CITT encourages DTPW to seek other funding including Federal/State/Municipal funds or private sector contributions. Surtax funds should be leveraged as a local match and should not exceed fifty (50%) of project costs for capital projects per the CITT's guiding principles and priorities.

| \$0 | 12 |
| Capital Budget Project # | Site # |
| 674560 | 3001342 |
| | |

Project Description:

The scope of the project will include the addition of multiple workstations, operator consoles, a radio system, CCTV, telephones, communications systems, new lighting, electrical, HVAC, and office equipment and will encompass architectural modifications to the existing space that will be used for the recovery center. The existing SCADA and enterprise networks will be extended to the new workspace to provide network connectivity. The addition of the disaster recovery control center will ensure that under emergency conditions, or during maintenance intervals during which the main control center at SPCC may not be fully operational, the management and monitoring of the Metrorail system could continue from the Lehman Center facility without a loss of operational readiness or compromising the safety of the Metrorail system.

Project Status:

Technical specifications and master specifications documents are on-going and 90% completed. This project has a dependency on the fiber optic capacity augmentation project.

Project Description:

DTPW is planning to purchase a new underfloor railcar wheel truing machine, to support the new railcar fleet of up to 136 rail vehicles. This machine will replace the existing machine, which has been in service over 35 years and is at the end of its useful life. This project is to be turn-key, including complete removal of the old machine and controls and complete installation and configuration of the new machine and controls. The new machine will be a fully automatic Computer Numerically Controlled (CNC) lathe or milling machine capable of lifting, measuring, and machining the wheels on our new trains.

Project Status: On-going procurement. The bid package was developed and being finalized for advertisement.

| 3/31/2024 | 3/31/2024 |
| Project Completion Percentage | Phase Completion Percentage |
| 60% | 67% |
| Amount by Funding Source(s) | Contract No. |
| PTP- \$92,904,000 | CIP168-DTPW19-CT1; CIP168-DTPW20-CT2 |
| Amount Spent as of 9/30/2022 | Commission District |
| \$49,904,000 | 2,3,5,6,7,12,13 |
| Capital Budget Project # | Site # |
| 6710900 | 3001335 |
| | |

Project Description:

Remove all the acoustical barriers (concrete & metal) on DTPW's Metrorail system and replace them with a lightweight composite acoustical barrier that will be installed by contractors and internal staff. As part of the agreement, the contractors will train DTPW's staff on the component installation, so that staff will have knowledge of how to repair and install the new acoustical barriers.

The scope of phase 3 is to design, test, manufacture and install acoustical barriers with hardware. These acoustical barriers are to be installed onto the Metrorail guideway where acoustical barriers have been previously removed. Most, but not all, hardware for the acoustical barriers remains attached to the guideway structure. Some of the hardware may be recycled into proposed hardware for the connections of the new acoustical barriers. The remaining unused pieces shall be removed and disposed from the guideway.

Project Status:

Removal of all type "B" acoustical barriers was completed. Two contracts have been procured, awarded and NTP has been issued for Phase 3 construction. Currently working on both contracts concurrently doing bracket removal, surveying, and installation of type "B" metal posts and new panels. One proposed barrier that was finished in color submitted to DTPW was approved. 67% and 71% of the installation has been completed via

contract 1 and contract 2 respectively.

Fiscal Impact:

The projects for removal of acoustical barriers were procured as emergency contracts. In addition, original estimate was to fund purchase of equipment, materials (for only a portion of the guideway) and installation by internal forces. New estimated total includes all work performed by contractors, removal of all type "b" acoustical barriers and replacement of all type "b" acoustical barriers (more than 90k linear feet) throughout the County.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|-------------------|-----------------------------|---|---|-----------------|
| FY 2018 | \$48,750,000 | - | \$0 | \$48,750,000 | September 2024 |
| FY 2019 | \$82,697,000 | \$33,947,000 | \$5,542,000 | \$77,155,000 | September 2022 |
| FY 2020 | \$82,697,000 | - | \$7,500,200 | \$75,196,800 | February 2023 |
| FY 2021 | \$82,697,000 | - | \$15,934,300 | \$66,762,700 | July 2023 |
| FY 2022 | \$92,904,000 | \$10,207,000 | \$49,904,000 | \$43,000,000 | March 2024 |

Budget increase is due to construction cost escalations and inclusion of remaining one third barriers replacement that was not in the original contract.

Project Description:

Track equipment operators perform oil changes and minor maintenance. No overhauls can be performed. Rail bound equipment cannot be rented and has a 10-15 year life. Major equipment, Kershaw work train, Tamper, KGT Hi-rail, Welders, Rail Flat Cars, Prime Mover and light plants have already passed the useful life by over five (5) years. This project involves replacement of the rail service heavy equipment such as work trains, Pettibone etc. as part of the 10 and 15-year replacement plan.

Project Status:

One super prime mover with crane was purchased in 2019. Three (3) Prime Movers and three (3) work flats has been purchased. In the process of purchasing two (2) pettibone machines with attachments.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|----------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2019 | \$8,268,000 | - | \$2,678,600 | \$5,589 <i>,</i> 400 | September 2023 |
| FY 2020 | \$8,268,000 | - | \$2,678,600 | \$5,589,400 | January 2023 |
| FY 2021 | \$8,268,000 | - | \$2,678,600 | \$5,589,400 | June 2023 |
| FY 2022 | \$8,267,000 | \$1,000 | \$5,378,000 | \$2,889,000 | June 2024 |

The remaining funds are reserved for the purchase of Swing loader DTPW 59 22/23. The proposal was on hold with the procurement division. The schedule was adjusted to accommodate the procurement completion.

Project Description:

DTPW awarded a contract to Trapeze Software Group, Inc., on March 7, 2013, to furnish, deliver, install, and maintain a Transit Operations System Replacement Project (TOSRP) software and to provide the services outlined in the Scope of Work of RFP 746. The TOSRP was to include hardware, software and equipment, installation services, warranty, support and maintenance. TOSRP and its associated tasks were implemented on April 8, 2018, in accordance with the project schedule defined in the contract. Trapeze was also required to provide and maintain the software they had delivered: Trapeze OPS, pursuant to contract documents, specified insurance, and bonds.

The Trapeze OPS system delivered by Trapeze Software Group Inc, calculates the hours worked for the Bus and the Train operators. The software follows the guidelines stipulated by the Transit Workers Union (TWU) contract with Miami-Dade County. On October 2020, an updated contract was signed with Miami-Dade County and the Transit Workers Union (TWU), and it mandated 16 hours of floating holidays for the bus and train operators as well as the payroll start of the week to be transferred from a Sunday to a Monday. Subsequently, Trapeze OPS, the software installed by Trapeze Software Group for the Bus and Train Operators, needs to be upgraded with these TWU items: 16 hours of floating holidays and the Monday start of the week for the Bus and Train Operators. An additional \$148,643 in PTP funds was budgeted to incorporate the updates in the Trapeze OPS software to support the TWU payroll changes.

Project Status:

The original project implementation was completed in April 2018 and the updates were covered by the vendor under one year warranty which ended in April 2019. Now the project is implementing the update of Trapeze OPS

to reflect the TWU contract changes. Trapeze has provided integration files to the INFORMS Team for the INFORMS implementation on June 13, 2022. Also, Trapeze has implemented for the bus and train operators several initiatives as stated in the TWU contract of October 2020. This latest update is being implemented suing operating funds. The project is to be closed.

Fiscal Impact:

The project PTP cost estimate and expenditure of actual Trapeze OPS system implementation completed in 2018 was \$3,179,000 and \$2,552,400 respectively with a balance of \$287,100. An additional \$148,643 in PTP funds was budgeted for updates to the Trapeze OPS software to support the TWU contract changes. However, the updates were implemented using operating funds and this project will be closed.

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|----------------|-------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2019 | \$3,179,000 | - | \$2,552,400 | \$626,600 | April 2018 |
| FY 2020 | \$3,327,600 | \$148,600 | \$2,891,800 | \$435,800 | December 2023 |
| FY 2021 | \$3,327,600 | - | \$3,008,700 | \$318,900 | December 2023 |
| FY 2022 | \$3,327,600 | - | \$3,008,700 | \$318,900 | December 2023 |

Project Description:

The Northeast Transit Hub Enhancements (NETHE) project proposed improvements for two existing metrobus transit hubs located at the NE 167 Street and at Aventura mall to improve capacity, drainage, pavement, shelters, lighting, ADA, signage, and transit access at both sites which are major destinations with important bus connections and serve the northeast area. Construction of the original project was completed in 2016, and it enabled the connections with regional and other bus routes that serve the area. The original project did not install CCTV system. Now, this final phase of the project will add a CCTV system to the bus hub located in the Aventura mall.

Project Status:

The project construction was completed in 2016. The project is reopened to add CCTV System to the Transit Hub. No additional funding is requested.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|----------------|----------------------|-----------------------------|--------------------------------------|--|-----------------|
| FY 2021 | \$3,715,700 | - | \$3,185,800 | \$529,900 | August 2022 |
| FY 2022 | \$3,715,700 | - | \$3,185,800 | \$529,900 | August 2024 |

Project reopened to complete the final phase (install CCTV system). New contract yet to be awarded.

Infrastructure Renewal Plan Projects

Description:

Exhibit 1 of the People's Transportation Plan (PTP) was amended via Resolution 222-09, to create CERF and to unify the funding structure and allow greater flexibility in the use of Surtax funds for the operation and maintenance of the unified transit system. In addition to providing operations and maintenance funding, several capital improvement and Infrastructure renewal projects are being implemented using PTP funds post-unification.

An Infrastructure Renewal Plan (IRP) was created to maintain DTPW's transit infrastructure by replacing or upgrading physical assets according to normal replacement cycles. IRP focuses on projects in the areas such as bus overhauls, rehabilitation of bus and rail facilities, and systems and equipment. A total of \$12.5 million Surtax funding is provided annually for the IRP plan. Some additional infrastructure renewal projects were funded separately by Surtax funds in the past due to larger funding assistance required to complete the projects. In addition to these, DTPW implements several other Infrastructure renewal projects using non-PTP revenue sources such as FTA and FDOT funds.

All the infrastructure renewal projects, including IRP (\$12.5 million annually) and the standalone projects are summarized further in this section of the Plan. The table below summarizes the list of IRP (\$12.5 million annually) projects. Some of these active IRP projects are eligible to the extent included in the contract/bond executed prior to October 1, 2023, per HB 385.

| IRP Project Name | Scope | Total IRP funding | Estimated Completion FY |
|--|--|-------------------|----------------------------|
| Roadway Signs in the Vicinity of twenty- three (23) Metrorail Stations - CIP201 | The scope of work includes, but is not limited to, installation and/or replacement of directional/guide signs on roadways and highways in the vicinity of the twenty-three (23) Metrorail stations. DTPW is proceeding with preparation of plans to obtain permits and implement improvements. The first phase of the project involved conducting field assessments of the roads to determine the inventory of existing signs and proposed signs. This first phase has been completed. | \$2,170,347 | 2024 |
| BERT Route b Park & Ride at Tamiami Executive Airport - CIP230 | The proposed project is required to perform environmental analysis to construct a surface Park-and-Ride at the Tamiami Executive Airport. The proposed project will provide parking along the Strategic Miami Area Rapid Transit (SMART) Plan Bus Express Rapid Transit (BERT) Route d Southwest Miami-Dade Express. The requested Budget is to complete the Planning/Environmental analysis of the project, develop concept plans and complete preliminary cost estimates in coordination with the Tamiami Executive Airport and the Kendall Parkway Project Team. Once these tasks are complete, the next steps towards construction will be leasing agreements and advancing the design. The requested amount is based on previous conceptual plan development efforts. | \$100,000 | 2024 |
| Rail Public Address System Replacement – IRP096 | Replace existing Public Address System at all Metrorail Stations. The Scope of Work includes the replacement and upgrade of all electronic components in the Paging chain. The distribution wiring will also be upgraded. | \$2,592,000 | 2024 |
| Upgrade Chiller Units at Lehman Center – IRP171 | Replace two existing Trane water cooler 110-ton, R-113 chiller units, 3 chilled water pumps and all related controls, piping, valves, wiring etc. at the William Lehman Center Facility. | \$1,850,000 | 2025 |
| Metrorail Bathrooms– IRP215 | Repair and renovate public restrooms at the 30-year-old Metrorail stations. | \$1,865,000 | 2025 |
| Railcar Cleaner Platform Replacement Project – IRP234 | Upgrade the existing Cleaning Platform located at the William Lehman Center. The existing wooden platform is in need of constant repair. | \$6,950,000 | 2024 |
| Purchase of 2 HY-Rail Crew cab Trucks – IRP236 | Purchase support vehicles for the Track and Guideway maintenance division. | \$190,000 | 2024 |

| IRP Project Name | Scope | Total IRP funding | Estimated Completion FY |
|--|--|-------------------|----------------------------|
| Fueling Terminal Modernization – IRP260 | Upgrade fueling terminal to IP Base. | \$250,000 | 2024 |
| Metromover Vehicles HVAC Compliance Overhaul & Mover Building A/C Replacement – IRP270 | Mover vehicle air condition HVAC system and Mover Building A/C replacement in order to comply with EPA requirement as the use of Freon 22 will be banned by EPA by the year 2020. | \$2,142,664 | 2024 |
| Rail EAMS Work Order Module - OSP234 | Infor EAMS software tool to implement Work Order module that will be integrated with the existing warehouse module. | \$700,000 | 2023 |
| Automated Fare Collection Cloud Migration – IRP263 | Implement enhancement and regional expansions to the Automated Fare Collection System (AFCS) based on the existing Contract 8481-2/22-1. The contract includes an option to purchase additional equipment and service for expansions and modifications. Active project and IRP funding has been expended. | \$3,000,000 | 2020 |
| Renovate Lehman Center 2nd Floor (Administration) – IRP306 | New office partitions, desks, chairs upgrade phone system etc. | \$850,000 | 2025 |
| Lehman Curve N41 Realignment – IRP321 | Correct Civil Design and alignment of Curve #41 in the Lehman Yard Maintenance facility. The work will involve the realignment of the existing track layout to a 300-foot radius. The curve is currently out of service and cannot be used until the curve geometry is corrected. The existing track bed and substrate will be modified to accept the new track layout. The third contact rail will also be aligned to match the 300-foot running rail radius. Alt power, control and communications cabling will also be modified to accommodate the new track and third-rail layout. The finished track bed will be tamped, and concrete ties installed as required prior to laying the new running and third rails. The new track will be tested before being accepted to ensure that all control lines and traction power connections function per the intended design. | \$1,648,735 | 2024 |
| Bus Garage and Employee Parking Lot Light Fixtures Upgrade – IRP329 | Install light fixtures at Coral Way, Northeast and Central bus garages, and employees parking lot. | \$260,000 | 2023 |

| IRP Project Name | Scope | Total IRP funding | Estimated Completion FY |
|--|---|-------------------|----------------------------|
| Transit Activu Server Recapitalization – IRP308 | Implement software and hardware upgrade to the existing video wall at the Rail Traffic Control Center to support 4k cameras | \$211,500 | 2024 |
| Transit Scada Station Control Unit Server Recapitalization – IRP309 | The existing SCADA Station Control Unit (SCU Servers that are integrated with Metrorail/Metromover Central Control and Fire Alarm Systems) have reached their end of life. This servers support adhoc and automated Public Address announcements from Central Control. This project will systematically replace all 46 servers over 2 years. | \$460,000 | 2024 |
| Network Core Switches Recapitalization – IRP331 | This project is to procure, configure and replace all current DTPW network core switches for SPC5 Data Center, ESIS enclosures at rail stations, Traffic Management Center and Metromover stations. | \$1,930,376 | 2024 |
| Wireless Lan Access Point Recapitalization – IRP332 | DTPW relies on its existing wireless LAN for communications between all Metrobus vehicles and the enterprise network for all on-board systems: CCTV, Fare Collection, CAD/AVL, telemetry, and signage. The access points providing that connectivity today are currently at their end of life, discontinued (and unsupported) and starting to fail, which negatively impacts network availability. This project addresses that issue by replacing all the equipment with new access points supported by our Wireless LAN Controllers. | \$132,000 | 2024 |
| Facilities Maintenance EAMS Work Order Implementation – OSP256 | Miami-Dade Department of Transportation and Public Works Facilities Maintenance division is in need to utilize Infor EAMS software tool to implement Work Order Module which will be used to help maintenance personnel perform their daily functions more efficiently, such as repairs and preventive maintenance | \$185,000 | 2024 |
| Train To Wayside Wireless Network at Palmetto Yard – OSP260 | DTPW has new Rail vehicles that require connectivity to access resources in the County's Enterprise network. In order to satisfy that requirement, a reliable wireless network must be put in place, allowing the traffic of data to/from these vehicles. This project provides said infrastructure via a wireless controller environment that is centrally managed and monitored. | \$226,000 | 2025 |
| Parking Lot Refurbishment at Northeast Bus Facility - IRP333A | Refurbish parking lot areas of the NE Bus Facility to include site lighting, milling, repair pavement marking | \$3,295,002 | 2027 |

| IRP Project Name | Scope | Total IRP funding | Estimated Completion FY |
|--|--|-------------------|----------------------------|
| Parking Lot Refurbishment at Coral Way Bus Facility - IRP333B | Refurbish parking lot areas of the Coral Way Bus Facility to include site lighting, milling, repair pavement marking | \$3,513,638 | 2027 |
| Parking Lot Refurbishment at Central Bus Facility - IRP333C | Refurbish parking lot areas of the Central Bus Facility to include site lighting, milling, and repair pavement marking | \$6,173,350 | 2027 |
| Dadeland South Tail Track Security Perimeter Fence - IRP344 | Install security perimeter fence at the Dadeland South Tail Track | \$1,350,000 | 2026 |
| DTPW Bus and Rail Operation & Maintenance Facilities Improvements - CIP287 | Assess Bus, Metromover, Rail Operation & Maintenance Facilities due to deteriorating old buildings and includes conducting inspections, documenting deficiencies, expansions, enhancements due to staffing, developing cost estimates and prioritize improvements. | \$850,000 | 2024 |
| MIC Building Roof Replacement – IRP361 | Replace entire 13,000 square foot damaged roof and insulation at the MIC Building (3845 NW 25 Street) to protect the building structure, prevent water intrusion to facilities and equipment. The new roof system requires all materials, specifications and permitting to comply with the latest Florida Building Code. | \$550,000 | 2025 |

| IRP Project Name | Scope | Total IRP funding | Estimated Completion FY |
|---|---|--|----------------------------|
| Building Recertification Program (IRP346A) Project title will change for the FY25 Budget Development to "Transit Facilities Improvements for Recertification" (originally updated by OMB) | Conduct site visits to several Transit Buildings by a registered Professional Engineer to perform electrical and structural inspections as well as contracting for repairs due to the Florida Statutes - 30 Year Recertification requirements due by December 31, 2024. | \$7,822,000 | 2027 |
| Replace and Upgrade Physical Assets (Parent Project) N/A | Replace and Upgrade Physical Assets (Parent Project) - Remaining Funds of the Total \$12.5M Per Year. | Remaining Funds of the Total \$12.5M per year. | 2028 |

| IRP Project Name | Scope, Total IRP Funding, Completion Date |
|--|--|
| Emergency Exit at William Lehman Center – CIP126 | Widening of current exit to facilitate in and out emergency vehicle traffic at Palmetto Yard. Total IRP funding is \$680,000. |
| Metrorail and Metromover UPS Rooms HVAC Installation – CIP171 | Install new HVAC systems to provide cooling capacity for all UPS rooms on Metrorail and Metromover. Total IRP funding is \$1,682,000. |
| Hydraulic Mobil Column Bus Lifts (Additional) — IRP107 | Provide 24 sets of four hydraulic column lifts with 70' required communication cables and 60' power cords for DTPW Bus Maintenance. Total IRP funding is \$1,118,000. |
| Purchase Rail Wheel Press Machine – IRP267 | Purchase of a new Railcar Wheel Press Machine needed to support the (136) rail cars the department is procuring to replace the existing railcar fleet. Project completed in FY 20-21. Total IRP funding is \$980,600. |
| Replacement of Tactiles and Barriers at Metromover Stations – IRP255 | Provide detectable warning safety edge tiles and between-car barrier (BCB) system in compliance with the DOT ADA regulations. Each station features two 80 LF Platform Structures and require tiles and BCB on both sides of the platform. The scope includes labor, materials, tools, appliances, equipment, and other means of construction for performing and completing the work. Total IRP funding is \$440,000. |
| Traffic Signal Prioritization Expansion to Congestion Mgmt. Plan / Real-Time Connected Vehicles – IRP265 | Recapitalization of the MetroBus on-board equipment that provides passengers with free Internet access and connectivity for business traffic such as Fare Collection, CCTV, and CAD/AVL data. This project replaces field equipment that has been in continuous operation in MetroBus vehicles for the last 7 years and expands the deployment of the entire fleet. Total IRP funding is \$1,196,000. |
| Strategic Planning for Bus Maintenance Facilities CIP229 | DTPW currently maintains its fleet of buses in three existing facilities – Northeast, Central and Coral Way. This strategic planning project will redesign the layouts of all three existing garages to improve the flow within the facilities, optimize the locations of garage-specific equipment in order to reduce non-revenue travel, and accommodate equipment needed for electric buses. The redesign will also seek to maximize vehicle storage capacity and employee parking. This project is needed since the existing maintenance facilities are out of capacity and require improvements to be able to modernize and expand the Metrobus network. The project will also improve efficiency both within the facilities and in the scheduling of vehicle maintenance. Project was completed in FY 2019-20. Total IRP funding is \$100,530. |
| Garage Fire Suppression – IRP012 | Replace and upgrade the fire suppression system at four parking garages built with the original Metrorail system: Okeechobee, Dadeland North, Dadeland South and Earlington Heights. Project was completed in FY 2019-20. Total IRP funding is \$492,398. |
| Metromover Traction Power Cable Replacement – IRP021 | Replacement of the damaged traction power cables and wiring on the Metromover system. Project was completed in FY 2019- 20. Total IRP funding is \$264,000. |

Completed or Cancelled Projects

| IRP Project Name | Scope, Total IRP Funding, Completion Date | |
|--|--|--|
| Metromover Public Address System Replacement – IRP095 | Replace existing Public Address System at all Metromover Stations. The Scope of Work includes the replacement and upgrade of all electronic components in the Paging chain. The distribution wiring will also be upgraded. Project was completed in FY 2019-20. Total IRP funding is \$2,222,697. | |
| Traction Power Crane Truck – IRP214 | Purchase crane truck for Traction Power to be used to perform work related to manhole covers, high voltage cable pull, and cable spool lifts. Project was completed in FY 2019-20. Total IRP funding is \$91,637. | |
| Traction Power Three Reel Trailer – IRP221 | Purchase high voltage trailer cable pull and is necessary for the replacement of the 30-year-old Traction Power cables. Project was completed in FY 2019-20. Total IRP funding is \$39,020. | |
| Electric Forklift for Materials Management (5 ea.) and Rail Div. (2 ea.) – IRP271 | Replacement of old forklifts to be used for the daily logistical operational functions (shipping, receiving, loading, unloading, delivering parts for Bus, Rail, Mover and Material Management. operations). Project was completed in FY 2019-20. Total IRP funding is \$210,593. | |
| Bus Garage Roof -Central (Bus & Bus Facility) – IRP018 | Re-roofing of an additional bus garage building at Central Bus Garage location. This project is completed. | |
| Uninterruptible Power Supplies (UPS) – Mover and Rail -IRP104 | Replace Mover Systems Uninterruptible Power Supplies (UPS) at all the equipment rooms on the OMNI, Brickell, Inner, and Outer Loop. There are 28 UPS locations including Government Center. Parts are not available beyond the 10-year point and replacement of the equipment is necessary. This project is completed. | |
| Replacement of Metrorail Train Wash – IRP254 | Purchase materials and equipment to complete the installation of a new five (5) brush wash module, rinse modules (2), chemicals dispensing and fully automated operating systems for the Metrorail Train Wash at the William Lehman Facility. This project is completed. | |
| Dadeland North (DLN) Vehicle Containment Barriers – IRP081 | Repair and replace vehicle containment barrier cables as specified and approved by Miami-Dade County Building and Neighborhood Compliance. This project is completed. | |
| Mover Fiber Emergency Project – IRP007 | Fiber Replacement Project Scope involves the following components: Replacing and installing Fiber Optic Cable throughout the Metromover System. Installing new Fiber Optic equipment at all stations and at Central Control. Replacing PLC equipment at all stations and at Central Control. Installing Giga-Bit Ethernet at all stations. Add Wireless networking capability to all stations. The \$3.2 million cost is 100% federally funded. This project also includes Replacement & Installation of Metromover Closed Circuit Television. It expands the Video System by | |

| IRP Project Name | Scope, Total IRP Funding, Completion Date | |
|--|---|--|
| | installing new digital cameras at all Metromover Station Platforms as well as providing local Network Video Recorders for independent 24/7recording. The cameras will be networked into the Video System and new digital displays will be installed at the Mover Central Control. This project is being consolidated with the Fiber Project due to its dependency on the fiber installation. It is in progress and Implementation was expected to be complete by December 2012. The \$698K project is federally funded with American Reinvestment and Recovery Act (ARRA) funds. This project is completed. | |
| Traction Power Rectifier Transformer – IRP140 | Replace 28-year-old rectifier transformers used in the Miami-Dade Transit Metrorail System. This project is completed. | |
| Metrorail Railcar Floor Replacement – IRP225 | Install Nora Flooring in 60 railcars. The railcars to be replaced have deteriorated sub-flooring, which is evidence as "soft floors". The process also includes removal and replacement of interior seating, panels, and sanctions. This project is completed. | |
| Metromover Traction Power Cables Replacement – IRP237 | Remove/replace the Eight Street Substation to Brickell Station T2 transformer 13,200 volts three phase cables. The 350 mcm three phase cables is routed in the cables tray underneath the guideway. Remove /replace the Third Street Substation 111 breaker load side 250 mcm three phase cable to 0L6 power rail. Also, remove/replace the Switch 1 grounding switch three phase 3/0 cables and 3/0 jumper cables (Outer Loop). This project is completed. | |
| 40 Foot Hybrid Buses for Replacement (5309) – OSP163 | Procure four (4) forty-foot hybrid diesel /electric transit buses for replacement of buses that are eligible for retirement. This project also has Federal Transit Administration (FTA) funds. This project is completed. | |
| Bus Garage Plumbing – IRP014 | Overhaul existing bathrooms at the Central Bus Facilities. This project also has Federal Transit Administration (FTA) funds. This project is completed. | |
| Hydraulic Mobile Bus Lifts – IRP116 | Provide 48 individual hydraulic mobile lifts for the Miami-Dade Department of Transportation and Public Works (DTPW) Stertil- Koni model # ST-1072-SS or ALM Model # WE-18 (as modified to DTPW specifications) or approved equal. Each mobile lift set shall consist of four columns. Each set shall consist of four (4) primary columns and each primary column shall operate as a primary of secondary column interchangeable without any modifications. The system shall be equipped with a selector interchangeable | |
| Metromover Canopies and Escalator Replacement – CIP040 | Construct canopies and repair existing escalators at Metromover Stations. This project is completed. | |
| Metrorail Palmetto Station-Americans with | Study at Rail Station and corrective work has been completed. | |

| IRP Project Name | Scope, Total IRP Funding, Completion Date |
|---|---|
| Disabilities Act (ADA) Assessment - IRP174 | |
| 40-Year Recertification @ Central Building #1 – IRP024 | Perform 40-year recertification inspection/repairs. This project is completed. |
| 40-Year Recertification @ Central Buildings #4 and #5 – IRP064 | Perform 40-year recertification inspection/repairs. This project is completed. |
| Procurement of Mobile | Purchase six mobile lifts use for the removal and installation of transmissions, differentials and other Heavy Components on large |
| Lifts – IRP216 Armored Trucks (4) – IRP197 | trucks, buses and other heavy-duty vehicles. This project is completed. Purchase four (4) Armored truck vehicles. This project is completed. |
| Parking Space Counters at 5 Metrorail Station Garages – IRP183 | Replace light-emitting diode (LED) Available Parking Spaces signs for the upper and lower levels at the Dadeland North Parking Facility, Computer hardware, Software, and parking space occupied detectors for Americans with Disability Act designated parking spaces. Installation of parking space counters at Dadeland South, Earlington Heights, South Miami and Okeechobee. This project is completed. |
| Multi-Channel Voice Recorder – IRP059 | Replace existing analog recorders within the Transit System with new digital voice recording systems. These recorders will replace the existing equipment which is now obsolete. The new system will integrate audio with the existing NICE system while implementing redundancy, include five digital voice recording units, network attached storage devices, personal computers, system software and miscellaneous hardware. The new system will streamline the method of retrieving recorded messages by enabling them to be accessed through the network. This project is completed. |
| Wastewater Treatment System – IRP085 | Replace existing oil water separators at all four pressure cleaning operations with a more sophisticated and advance wastewater treatment system at all three Bus Maintenance Facilities. This project is completed. |
| Metrorail Floor Replacement For 10 Cars and 20 Motor Control Box Overhaul – IRP285 | Removal and replacement of flooring to 10 railcars that have deteriorated and Motor Control Overhaul service maintenance of 20 motor boxes. Includes propulsion and brake. Pcontrollers, contactors and cleaning. This project is completed. |
| Inspection Vehicles for the MIC Extension – IRP211 | Purchase two (2) inspection vehicles for monitory vehicle inspections of the Mainline. This project is completed. |
| Mover Video Project Closed Circuit Television (CCTV) – IRP009 | Install Avigilon Software as the CCTV application, and (2) Upgrade the CCTV monitors in CCF. The funding increase is covered by the Infrastructure Renewal Program (IRP). This project is completed. |

| IRP Project Name | Scope, Total IRP Funding, Completion Date | |
|--|--|--|
| Hydraulic Mobil Bus Lifts – OSP202 | Purchase of approximately 55 individual hydraulic mobile column lifts for the bus maintenance. This project is completed. | |
| William Lehman Facility (WLF) - Vehicle Maintenance Bathroom – IRP224 | Contracted services for the renovation of the WLF (6601 NW 72nd Avenue, Miami, Florida 33166), Vehicle Maintenance Bathroom to ensure proper sanitation for employees working in the Vehicle Maintenance shop. This project is completed. | |
| Mainline Video System Upgrade – IRP199 | Installation of IP-HD cameras with analytics throughout the Mainline Track System & Rail Stations, mover stations first level and at all revenue islands and Treasury Office & vault. for security reasons. This project is cancelled. | |
| Rail Programmable Logic Controller Replacement – IRP242 | To replace all ethernet switches at all Metrorail & Metromover stations and at Metromover Maintenance building and at Lehman Center building. This project is cancelled. | |
| Metrorail HVAC Overhaul 40 Railcars – IRP296 | Metrorail of the air conditioning (HVAC) system overhaul of 40 rail vehicles in order to maintain system functionality, reliability and customer comfort. This project is cancelled. | |
| BERT Route b Park & Ride at SW 288 Street (SMART BERT) - CIP231 | The proposed project is required to perform analyses to construct a surface Park-and-Ride in the vicinity of the intersection of the Turnpike and SW 288 Street. The proposed project will provide parking along the Strategic Miami Area Rapid Transit (SMART) Plan Bus Express Rapid Transit (BERT) Route b South Miami-Dade Express. The BERT study team has identified a proposed location for the facility. The requested Budget is to complete the planning/environmental analysis of the project, develop concept plans and complete preliminary cost estimates. Once these tasks are completed, the next steps will be land acquisition and advancing the design. The requested amount is based on previous conceptual plan development efforts. | |
| BERT Route b Park & Ride at SW 152 Street & Turnpike - CIP232 | The proposed project is required to perform environmental analysis to construct a surface Park-and-Ride with approximately 150 parking spaces, Kiss and Ride, Bicycle and Pedestrian facilities at the Turnpike and SW 152 Street. The proposed project will provide parking along the Strategic Miami Area Rapid Transit (SMART) Plan Bus Express Rapid Transit (BERT) Route b South Miami-Dade Express. The requested Budget is to complete the Planning/Environmental analysis of the project. The requested amount is based on conceptual plans. | |
| BERT Route b Park & Ride at SW 211 Street - CIP233 | The proposed project is required to perform environmental analysis to construct a surface Park-and Ride in the vicinity of the intersection of the Turnpike and SW 211 Street. The proposed project will provide parking along the Strategic Miami Area Rapid Transit (SMART) Plan Bus Express Rapid Transit (BERT) Route b South-Miami Dade Express. The requested Budget is to complete the Planning/Environmental analysis of the project, develop concept plans and complete preliminary cost estimates. Once these tasks are completed, the next steps will be land acquisition and advancing the design. The requested amount is based on previous conceptual plan development efforts. | |

| IRP Project Name | Scope, Total IRP Funding, Completion Date | |
|---|---|--|
| Replacement of Diamond Frogs at Culmer Crossover – IRP233 | Replacement of Diamond Frogs at the Culmer Metrorail Station. | |
| Data Closets Uninterruptible Power Supply (UPS) Replacement – OSP209 | Replace Data Closets Uninterruptible Power Supply (UPS). | |
| Metrorail Platform Cabling Replacement– IRP276 | Replacement, disposal, and reinstallation of the infrastructure and cabling necessary to support the Emergency Transfer Switch, Emergency Telephone, End Gate Intrusion Alarm and Blue Light at 17 Metrorail Stations. | |
| 40-Year Recertifications of DTPW Transit Facilities - IRP346 | Conduct 40-Year Recertification of DTPW Transit Facilities including Metrorail and Metromover Stations to comply with Section 8- 11(f) of the Code of Miami-Dade County this project is canceled and is archived for FY24 Adopted Capital Budget. Operating revenue will be used. | |

Automated Fare Collection System (AFCS) Modernization (Cloud Migration) Department **PTP Category** 2003-2009 Amendment Transit **Project Category Project Phase** Bus Service and Rapid Transit Improvements Technology/Implementation **Project Begin Date Phase Begin Date** 8/1/2016 3/24/2022 **Project Implementation Date Phase End Date** 9/30/2021 12/31/2023 **Project Completion Percentage Phase Completion Percentage** 95% 65% Amount by Funding Source(s) **Project/Contract No.** PTP- \$13,792,000 IRP263/L8481-0/27 **Commission District** Amount Spent as of 9/30/2022 \$13,530,100 Countywide **Capital Budget Project #** Site # 3001000 6730051

Project Description:

This project implements Automated Fare Collection System (AFCS) upgrade to cloud-based account and open bankcard payment system management. This open payment system will allow customers to not only pay with their smart transit cards, but they can also pay their fares with contactless bankcards and mobile wallets, such as Apple Pay and Samsung Pay. Additional funding requested for TVM EMV technology (\$1,369,860), garage computer upgrade (\$206,880), Pax units to replace CPOS units at Retail Outlets (\$55,000) and implementation costs in support of features (\$160,260).

Project Status:

The Automated Fare Collection System and back-office infrastructure was upgraded and migrated to a vendor hosted cloud environment. This migration facilitated payment with contactless bank cards and mobile wallets which was implemented in 2019. Ticket Vending Machine (TVM) EMV technology was implemented for improved security for credit card payments in 2021.

This project also includes an upgrade of the Receiver/Probing Upgrade Kits that facilitate the upload of cash collection data to the cloud-based back-office and new units for sales outlets to load fare products/cash value. The new equipment for various bus garages and locations has been received and five (5) out of eight (8) kits have been deployed. However, issues were found, and all had to be reverted pending vendor resolution. The issue has since been resolved and the first receiver/probing kit has been re-deployed back into service. Target date to deploy all kits is December 2023. New units for sale outlets (PAX920) have been received and are currently working with vendor on configuration. Target date for full deployment to all 85 sales outlets is December 2023.

Fiscal Impact:

| Amount by Funding Source(s) PTP- \$4,042,000 | Contract No. OSP208 |
| Amount Spent as of 9/30/2022 \$1,685,100 | Commission District Countywide |
| Capital Budget Project # 200000434 | Site # 3001023 |

Project Description:

This project will replace the current outdated PBX telephone system utilized by Miami-Dade Transit (MDT) at all its facilities (Lehman Yard Metro-Rail, Coral Way Bus Garage, Central Bus Garage, Northeast Bus Garage, and Metro-Mover administration building). This new telephone infrastructure will convert from a digital PBX to a modernized VoIP telephone system leveraging the current enterprise network. This new telephone system will be very easy to manage, set up, upgrade, and maintain, at a much lower cost. The new system will allow MDT to eliminate the current per line charge from the telephone company AT&T.

Project Status: This project is being implemented in two parts. 1) Network Telecommunication equipment and VoIP Phones – Both network switches and VoIP phones have been deployed to all 3 bus garages and Lehman rail yard. 2) Infrastructure Cabling (fiber and copper) – Fiber and Copper upgrade has begun at NE bus garage with approximately 60% completed at this site. The schedule delay is due to the challenges/delay with the materials supply such as fibers and cables.

Fiscal Impact:

| Fiscal Year | PTP Cost Estimate | Cost Increase (Decrease) | PTP Expenditure as of Fiscal Year | Estimated PTP Balance as of Fiscal Year | Completion Date |
|-------------|-------------------|-----------------------------|-----------------------------------|--|-----------------|
| FY 2019 | \$4,040,000 | - | \$1,337,800 | \$2,704,200 | September 2021 |
| FY 2020 | \$4,042,000 | \$2,000 | \$1,337,800 | \$2,704,200 | September 2022 |
| FY 2021 | \$4,042,000 | - | \$1,473,200 | \$2,568,800 | September 2023 |
| FY 2022 | \$4,042,000 | - | \$1,685,100 | \$2,356,900 | September 2024 |

Fiber and copper cables material supply delays due to pandemic contributed to the schedule delay.

Project Description:

The Government Center Metrorail station is located near the intersection of Northwest 1 Street and 1 Avenue, a part of the Stephen P. Clark Government Center building. It opened to service on May 20, 1984. This project entails the study and repair of the existing deteriorating Government Center station fire suppression system. The preliminary study has been completed. DTPW has procured a consultant to prepare a design criteria package to assist in preparing the design-build contract for the implementation of this work.

Project Status:

The design criteria package has been completed and the project is currently in procurement phase. The project schedule is delayed due to delay in procurement. This project will be implemented during the construction phase of the Metrorail Stations Refurbishments (Government Center) project. Schedule change to implement the project along with the construction phase of the Metrorail Stations Refurbishments (Government Center) project.

Fiscal Impact:

Municipal Program

Municipal PTP Surtax Overview as of FY 2022

Number of Municipalities with Transit Services

(Municipalities must spend a minimum 20% on Transit Improvements and a maximum of 80% on Transportation Improvements)

The Miami-Dade County Ordinance #02-116 creating the half-percent transportation Surtax calls for twenty percent (20%) of Surtax proceeds to be distributed directly to municipalities on a pro-rata basis for use on local transit and transportation projects. Municipalities must apply at least twenty percent (20%) of their share of Surtax proceeds toward transit improvements and a maximum of eighty percent (80%) on transportation improvements. Florida Statute 212, Title XIV defines the purposes for which Surtax proceeds may be expended. House Bill 385 effective October 1, 2022, states that no more than twenty five percent (25%) of the Surtax proceeds may be distributed to the municipalities in total Surtax collection.

The Municipal Program is an on-going program. There are currently 34 municipalities that are eligible to receive Surtax funding, with 33 municipalities participating in the program. Indian Creek Village is currently not participating. The County executes Interlocal Agreements (ILAs) with municipalities for them to receive Surtax funds. Miami Gardens, Cutler Bay and Doral are relatively newly formed municipalities and joined the Municipal Surtax program in 2012. Municipalities have received approximately \$968.15 million in Surtax funding since the inception of the PTP until September 2022.

Of the 33 participating municipalities, 31 municipalities operate a circulator and/or ondemand transit service, or partner with another municipality or with DTPW to operate a circulator service. Additionally, three (3) municipalities have been planning to implement on-demand service in FY 2023 and FY 2024. PTP funding has been expended for direct operating and capital expenses both for those municipalities operating circulators, and for those municipalities not directly operating a

circulator. Funding has also been expended for items that support transit in areas such as bus shelters along Miami-Dade DTPW bus routes. Several municipalities also use PTP funds for multi-year debt obligations to complete capital projects.

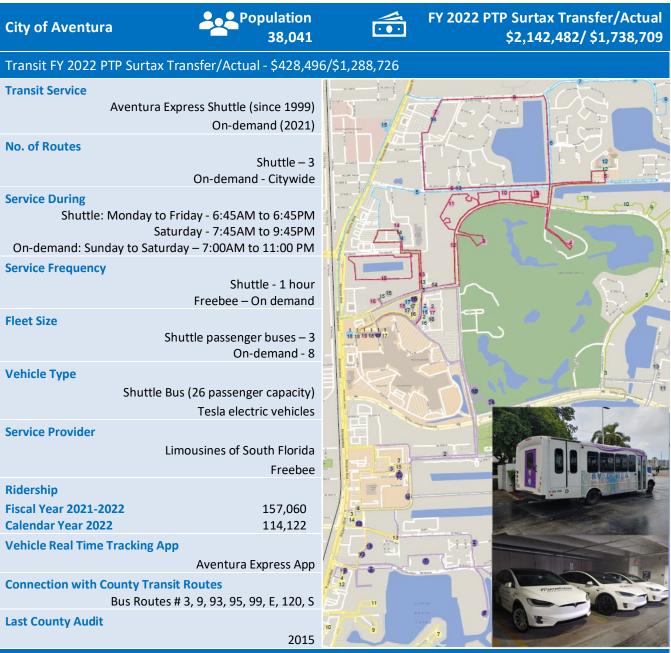

The Transportation portion of the funding was used by municipalities to implement a broad range of public works projects such as roadway widening, roadway milling and resurfacing, intersection improvements, roadway drainage improvements, Americans with Disabilities Act (ADA) compliant sidewalks and curbs, pedestrian signals, traffic circles and traffic calming devices.

Municipal accomplishment highlights for transit and transportation projects and programs are presented further in this section. North Bay Village and Town of Golden Beach do not operate a transit (circulator or on-demand) service as of 2022. North Bay Village suspended transit service during the pandemic and is planning to implement on-demand service in FY 2023.

The Municipal transit service and transportation projects were affected by the COVID-19 pandemic. The annual ridership declined in FY 2020 and further in FY 2021 due to service suspensions and reduction in services during the pandemic. However, now with service restoration, ridership has started increasing significantly from its lowest of 5.4 million passengers in FY 2021 to 9.06 million passengers in FY 2022. The project status information and actual expenditures are as reported by the municipalities in this section.

Transportation FY 2022 PTP Surtax Transfer/Actual - \$1,713,986/ \$449,983

Roadway Resurfacing: Milling and resurfacing of NE 29th Avenue and Williams Island were completed in FY 2022. Total cost of the projects is \$242,229 and \$163,268 respectively and funded with PTP Surtax funds.

Crosswalk Installation: Furnish and Installation of crosswalks citywide was completed in September 2022 with \$40,413 in Surtax funding.

Village-wide Street Lighting: Maintenance and repairs of street lighting throughout the Village. This is an on-going project and the PTP funds spent in FY 2022 were \$26,595.

Road Repair and Storm Drain Design: Development of final design plans and construction for the road repair and storm drain project. The project will repave five locations of roadway that need asphalt and subbase repairs. The project also installs storm drain structures to prevent excessive flooding and damage to the roadways. The project is on-going with a total cost of \$112,881 in PTP funding.

Storm Drain Cleaning: Clean the storm drains within the roadways to avoid travel hazard on roads when flooded, potholes, and deterioration of the roadway/edge of pavement. The project started in February 2021 and is ongoing with PTP funding expenditure of \$3,228.

Project Professional Services: In FY 2022, PTP Surtax funds in the amount of \$12,716 were used for various professional services such as project management, concept plan development, and plan reviews for a road repair and storm drainage project, FDOT project review and community, review of bid documents outreach, project development.

Citywide Installation of Bicycle Infrastructure: Installation of bicycle infrastructure throughout different locations citywide. Among the improvements are the creation of bicycle paths on City thoroughfares and creation of bike-friendly areas in various locations. Residents of South Alhambra Circle have expressed interest in the installation of bicycle infrastructure along South Alhambra Circle from US-1 to Trionfo Street. City staff is working with a consultant to develop different options based on existing site conditions. A community meeting will be held with the residents to present the concepts developed to the property owners impacted by the project to determine if they wish to move the project forward to final design and construction. Project duration is estimated to be October 1, 2021, to September 30, 2027. Funding information: PTP - \$400,000; Local Option Gas Tax - \$252,576; City Funds - \$10,000; and Local Grant - \$235.

Citywide Pedestrian Infrastructure Program: The City is undertaking a comprehensive pedestrian infrastructure program. The program is funded to accomplish the City's goal to construct 4 miles of new sidewalks, each fiscal

year, where sidewalks do not currently exist and to restripe and/or install high visibility crosswalks in strategic locations throughout the City. The crosswalk striping includes the installation of "state law, yield to pedestrians in crosswalk" signage. The comprehensive pedestrian infrastructure plan also addresses the issue of missing sidewalk extensions and includes replacement of sidewalks which have been impacted by trees in the right-of-way, causing safety hazards. The project began in October 2021 and is on-going. The project is funded with \$5,186,956 City funds, \$1,554,748 local option gas tax fund and \$497,024 PTP funds.

Last Mile Transit Stop Improvements: This project will upgrade bus stops on City streets to high quality, decorative style facilities while connecting adjacent sidewalks and pedestrian ramps to improve accessibility. In addition to meeting ADA standards, bus stops will become comfortable places to wait for transit services, increasing the appeal of mass transit to address the City's congestion concerns. The project began in October 2021 and is funded by Federal grant - \$500,000; City funds - \$480,120 and PTP Surtax funds - \$162,128.

Citywide Street Resurfacing: This project includes the milling and resurfacing of asphalt on streets citywide. This is an on-going project funded by Local Option Gas Tax funds of \$2,025,758, City Funds of \$665,081, PTP Surtax funds of \$101,985, and a loan of \$9,000.

Emergency Generator Installation: Purchase and installation of permanent generators in various City facilities. A 300 KW diesel generator with a 72-hr sub-base fuel tank, 600-amp breaker, automatic transfer switch, and WP sound-attenuated enclosure with concrete structure will be installed at the Trolley Depot to provide emergency power to the 911 Public Safety Answering Points (PSAPs) equipment in case of an outage. Project began in October 2021 and will be funded by City funds (\$1,427,986), PTP funds (\$524,099) and Impact fee funds (\$81,605).

Residential Roadway Resurfacing Project Phase VII: The roadway resurfacing improvements will enhance the neighborhood and improve drivability. The project will include milling of existing asphalt, placement of 1" Type S-III Asphalt Concrete Surface Course, adjustment of valve boxes and manholes, installation of raised pavement markers, placement of 24" thermoplastic stop bars with double yellow striping, and sidewalk repairs. Phase VII began in August 2020. Design and construction cost estimates for this project are \$15,522 and \$445,791 respectively.

Cutler Ridge Section 3 Roadway and Drainage Improvements: This project improves roadway and drainage conditions, restricts the discharge of hazardous pollutants to area canals and improves water quality and quantity treatment. The project began in January 2019 and was completed in September 2022. The total project cost was \$1,697,946 (PTP Surtax -\$1,247,946, FDEP Grant - \$200,000, Stormwater Utility Funds - \$250,000).

SW 82 Avenue Roadway Improvements: This project along SW 82 Avenue from Old Cutler Road to SW 184 Street

consists of drainage improvements, exfiltration trenches for water quality and treatment, new sidewalk ramps and sidewalk repairs, roadway resurfacing improvements and pavement markings, a traffic calming roundabout at the intersection of SW 188 Street and SW 82 Avenue. The project is currently under procurement. The total project cost is \$2,348,752. The project is funded by FDOT LAP grant in an amount of \$800,000, ARPA Funds of \$1,000,000.00, and PTP Surtax funds of \$548,752.

Caribbean Boulevard Complete Streets Gap 3 (from SW 87 Avenue to SW 184 Street): This project consists of drainage improvements, exfiltration trenches for water quality and treatment, bike lanes, new lighting, landscaping, new sidewalks ramps and sidewalk repairs, roadway resurfacing improvements and pavement markings. The project is currently under design. The total projects cost (design + construction) is \$2,005,650 and funded by FDOT LAP grant (\$1,000,000) and PTP Surtax funds (\$1,005,650.00).

Saga Bay 1.7 Sub-Basin Water Quality Improvement: This project is located in Saga Bay, north of SW 207 Street, south of SW 203 Street, east of SW 83 Avenue, and west of SW 80 Court. The project entails drainage improvements, exfiltration trenches for water quality and treatment, new sidewalk ramps and sidewalk repairs, roadway resurfacing improvements and pavement markings. The project duration is February 2022 to October 2022. Total project cost was \$1,052,272 and funded by FDEP Grant (\$600,000) and PTP Surtax funds (\$457,272).

Residential Roadway Resurfacing (Phase VIII): The project scope currently under design is roadway resurfacing improvements to enhance specific neighborhood and improve drivability with milling of existing asphalt, placement of 1" Type S-III Asphalt Concrete Surface Course, adjustment of valve boxes and manholes, installation of raised pavement markers, placement of 24" thermoplastic stop bars with double yellow striping, and sidewalk repairs. The project costs are estimated to be \$36,658 for design and \$1,074,000 for Construction and CEI.

Traffic Calming Improvements: This project installs speed tables, traffic signs, and pavement markings at various locations throughout the Town. The project is currently under design with an estimated cost of \$16,200 for design and \$105,000 for construction and CEI services.

Lincoln City Park sidewalk Improvements: The project installs new sidewalk ramps and sidewalks all around the park in the public right of way located at 21200 SW 99 Court. The project is currently under design with an estimated cost of \$23,680.

Transportation FY 2022 PTP Surtax Transfer/Actual - \$5,600,513/ \$3,636,167

SW 31 Road Roadway Improvements: The drainage repairs and roadway improvements along SW 31 Road from SW 2nd Avenue to 3rd Avenue include but not limited to clearing and grubbing grading, milling and resurfacing, drainage improvements, replacement of damaged curb and gutter, sidewalks, driveway approaches, signing and FY 2024-28 PTP Five-Year Implementation Plan 232

pavement markings, and ADA ramp installations. The project began in 2021 and is estimated to be completed in September 2023. Of the total cost of \$283,270 of this project, \$125,000 is being funded by PTP Surtax. The remaining amount is funded by general fund and Street bond series.

Flagami Traffic Calming: Roadway Improvements and construction of traffic calming devices. The improvements include milling and resurfacing with in project area, ADA curbs and ramps installation, signing, pavement markings, landscaping, and drainage installations. The project is estimated to be completed in September 2023. Total project cost is \$857,085 with a PTP Surtax share of \$10,000.

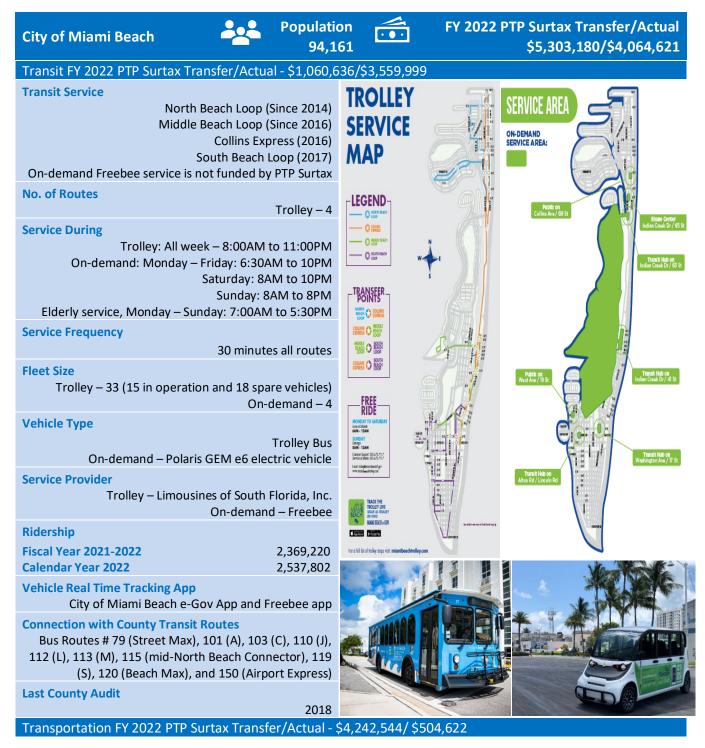

Flagler Street Beautification Phase B: The improvements along Flagler Street from West 1st Avenue to Biscayne Blvd. include pavement reconstruction, new curb and gutters, sidewalks, drainage improvements, ADA ramps, decorative crosswalks, new signing and pavement markings, decorative lighting, and landscaping. The project began in November 2018 and is estimated to be completed in November 2023. Total project cost is \$27,670,986 with a PTP Surtax share of \$2,874,823. The remaining amount is being funded by Downtown DRI fund, Street bonds, Parking Surcharge, Local option gas tax fund, special assessment district funds and DDA.

NW 18 Terrace Roadway Improvements: This project includes milling and resurfacing, and minor drainage improvements along NW 18th Terrace east of 27th Avenue. The project is completed in the third quarter of 2022. Total cost of the project is \$251,835 with a PTP Surtax share of \$202,806.

Buena Vista Neighborhood Traffic Calming: Installation of traffic calming devices in approximately 7 locations in this neighborhood. Installation of 3 traffic calming devices was completed and the city is working on construction of remaining installations. Total project cost is \$373,116 with a PTP Surtax share of \$75,037.

SW 24 Road Roadway Improvements: Roadway improvements along 24th Road from SW 7th Avenue to SW 9th Avenue includes removal of the existing rubberized speed cushions, installation of two asphalt speed humps with associated signs and markings. Total project cost is \$228,235 with a PTP Surtax share of \$189,338.

Pedestrian Crossing and Flashing Beacons: Design and construction of mid-block pedestrian crossing on Meridian Avenue between 18th and 19th Streets to enhance safety and connectivity. The project began in October 2018, and completed construction in March 2022. Total project cost was \$410,000 funded with PTP Surtax.

Citywide Curb Ramp Installation: Installation and maintenance of curb ramp throughout the City resulting from Federal court settlement. This project is 72% complete. Total project cost is \$112,560 with a Surtax share of \$80,560. PTP Funds spent in FY 2022 is \$3,024.

Bicycle Lanes Project: This project includes painting green the existing bike lanes on Euclid Avenue from 5th Street to Lincoln Road. The 5' bike lanes are protected with a 2' buffer between the bike lane and the on-street parking. Total project cost is \$470,000 and funded with PTP Surtax funds. PTP Funds spent in FY 2022 is \$194,280. The project was completed in March 2022.

Intelligent Transportation System (ITS): Implementation of citywide ITS project to improve traffic flow and reduce congestion on major thoroughfares. The project includes smart cameras, travel time collection devices, digital message boards, and a Traffic Management Center (TMC) co-located with the FDOT SunGuide TMC. The project is 50% completed. The total project cost is \$18,776,260 with a PTP Surtax funding share of \$2,761,260. PTP Funds spent in FY 2022 is \$67,461.

Alleyway Restoration Program Phase III: Restoration of city-owned alleyways. Milling and paving of alleyways, sidewalk, and driveway approaches to the alleys is on-going and is expected to be completed by FY 2023. Total cost estimate of the project is \$632,500 with a Surtax funding share of \$412,500. PTP Funds spent in FY 2022 is \$20,062.

Meridian Avenue Bicycle Lanes: Design and construction of a protected bicycle lane along Meridian Avenue between 16th Street and Dade Boulevard to connect to the future shared-use path along Meridian Ave adjacent to the Miami Beach Golf Course and connecting to a future path adjacent to the future Bryan Park. This project was completed in December 2021. Total project cost is \$250,000 and funded with PTP Surtax funds. PTP Funds spent in FY 2022 is \$7,975.

72nd Street Protected Bicycle Lanes: Design and construction of a protected/green bicycle lane along 72nd Street from Dickens Avenue to the Beachwalk. This project is on-going and 80% complete. Total project cost is \$519,000 and funded with PTP Surtax funds. PTP Funds spent in FY 2022 is \$78,820.

73rd Street Protected Bicycle Lanes: Design and construction of a protected/green bicycle lane along 73rd Street from Dickens Avenue to the Beachwalk. This project is on-going and 50% complete. Total project cost is \$239,000 and funded with PTP Surtax funds. PTP Funds spent in FY 2022 is \$14,300.

Traffic Circle: Planning, design and construction of new traffic circle for the intersection of Prairie Avenue and 44th Street/Chase Avenue. The project began in FY 2021 and is 20% complete with an estimated end date of June 2023. Total project cost is \$604,420 with PTP Surtax share of \$84,420. PTP Funds spent in FY 2022 is \$21,040.

Transportation FY 2022 PTP Surtax Transfer/Actual - \$1,075,448/ \$125,206

Transportation Improvements: The original pedestrian bridge design and construction project has been cancelled. Now this project addresses a series of improvements including sidewalks, bus stops, and crosswalk ADA compliance, new and improved crosswalks in several locations identified on the citywide study (including illuminated crosswalks on interior streets), adaptive signalization technology, and long-range improvements such as the study of priority signalization for transit and emergency vehicles, parking improvements, as well as pedestrian safety and access. \$79,317 in PTP funding was expended on this project in FY 2022.

Road Repairs: On-going milling, resurfacing, and repair of City roads. Total cost is estimated at \$1,250,000 with a PTP Surtax share of \$45,889 in FY 2022.

Downtown Walkability Design Study: The study will evaluate the feasibility of providing wider sidewalks along Harding Avenue from 94th Street to 96th Street to provide a more walkable experience for shoppers. The project began in March 2022 and is 67% executed with an estimated completion in FY 2023.

2022 Town-wide Traffic Study: The study will evaluate the traffic operations along key roadway corridors, evaluate the condition of existing traffic calming devices, and recommend potential new traffic calming locations. In addition, the study includes vehicle operating speeds along certain key roadway corridors and complete an updated crash review of the key segments and intersections within the Town of Surfside. The project started in April 2022 and is 40% complete as of December 2022.

The following projects are implemented using PTP Surtax funds in FY 2022.

Roadway Redesign and Construction: This project includes redesign and construction of SW 9th Street for emergency vehicles and replacement of driveway entrances in conflict.

Drainage Improvements: This project is for the construction of a local drain at SW 66th Avenue & SW 16th Terrace. It includes design for drainage and road widening of SW 66 Avenue.

Street Maintenance: The transportation portion of the PTP Surtax funds were also used for streetlighting and street sweeping maintenance projects.

Municipal Audits

The Trust audits Miami-Dade County and the municipalities receiving Surtax funds as part of its management of the program. The audits are conducted by the Miami-Dade Audit and Management Services Department on a regular basis to document compliance with the requirements of the PTP and to ensure that the County and cities are using the funds in an approved manner. The status of audits as of December 2022 is as follows:

| Municipality | Last Audi | t Completed | Next Audit | # Prior | Initiated | In Progress | Final |

Charter County Transportation System Surtax Review Summary of Payments to Municipalities

Source: Office of the Citizens' Independent Transportation Trust (OCITT) and County General Ledgers

¹ Amounts are net of withholdings and/or recapture of \$76,553 from the Town of Miami Lakes, \$766,362 from the City of Sweetwater, \$21,058 from the Town of Golden Beach, \$2.3 million from the City of Opa-locka, \$24.3 million from the City of Miami, \$323,031 from the Village of Biscayne Park, and \$134,890 from the Village of El Portal due to specific instances of noncompliance.

² Pursuant to the respective Interlocal and/or Settlement Agreements, these Municipalities, which were incorporated after November 2002, are receiving a share of the County's Surtax Proceeds consistent with the other Municipal distributions.

³ Amount in FY 2016 is net of \$84,069 withheld due to instances of noncompliance, which was returned in FY 2017 by OCITT.

Inactive Projects

Projects in this twelfth annual update of the Five-Year Implementation Plan are separated into two categories: active and inactive. Inactive projects are fully completed, where study/planning/design/construction is complete; or partially deleted or unfunded projects, where the entire PTP item was deemed infeasible, canceled by Board action, or any further implementation deferred outside the Five-Year plan period (beyond fiscal year 2028).

The following tables summarize all the Inactive projects including project category, project name, project cost and project begin and completion dates. The Inactive projects are grouped by "PTP category" i.e. Original PTP, 2003-2009 PTP Amendment, and Post-unification.

The detailed project summary sheets for Inactive projects are available on our website as a separate .pdf document.

| Responsible Department | Project Category | Project Name | PTP Cost Estimate | Actual PTP Expenditure | Status | Completion Date |
|------------------------|---|--|----------------------|---------------------------|------------------------------|-----------------|
| | | PTP Category: Origina | al Exhibit I | | | |
| Transit | Bus Service Improvements | Adds mid-day, Saturday & Sunday services within 30 days | Unavailable | On-going | Completed | Unavailable |
| Transit | Bus Service Improvements | Enhance and expand transit bus stop signange Countywide; Incorporate Information Technology at bus stops and rail stations, Metromover Tracker, Free WiFi Bus tracker system (CAD/AVL) - Kendall Drive signalization, funded by Surtax | \$18,646,000 | \$17,906,500 | Completed/Operating Funds | May-21 |
| Transit | Bus Service Improvements | Discontinue overnight Rail and Mover service | Unavailable | - | Completed | May-03 |
| Transit | Bus Service Improvements | Implement the December 7, 2003 bus service improvement lineup, 3-year service improvement plan | Unavailable | \$1,100,000 | Completed | January-04 |

PRO-FORMA (AS OF JULY 2023)

Presented in this section is the FY 2024 update of the Pro-Forma, as of July 2023. As part of the 40-year plan, it is anticipated that the Department of Transportation and Public Works will continue with a future People's Transportation Plan (PTP) capital program to implement Rapid Transit Corridors; improve, and upgrade existing transit assets, rehabilitate, and eventually replace as per the normal replacement cycle requirements.

FY 2023-24 DTPW PROPOSED BUDGET AND MULTI-YEAR CAPITAL PLAN

The FY 2023-24 Proposed Budget and Multi-Year Capital Plan and the FY 2022-23 adopted Budget and Multi-Year Capital Plan for the Department of Transportation and Public Works (DTPW) is included in this FY 2024-28 Five-Year Implementation Plan Update.

In FY 2023-24, the Countywide General Fund Maintenance of Effort (MOE) for transit services will increase to \$238.294 million, a 3.5 percent increase above the FY 2022-23 MOE of \$230.236 million.

In FY 2023-24, the PTP surtax contribution to DTPW totals \$243.979 million (a \$139.764 million increase from the FY 2022-23 Adopted Budget amount of \$104.215 million) and includes \$97.351 for PTP eligible transit operations and support services, \$9.970 million for the South Dade BRT operations and maintenance, \$6.2 million for vehicular purchases associated with the South Dade BRT, \$104.2 million for PTP surtax debt service payments for extension of Metrorail to Miami Intermodal Center (MIC), replacement of Metromover and Metrorail vehicles and on-going replacement and rehabilitation of existing transit system assets and equipment, and \$26.258 million for bus replacement debt service; additionally, \$25.892 million is budgeted in the Charter County Surtax Fund for PTP surtax debt service payments associated with public works functions.

On November 5, 2002, Miami-Dade County voters approved a half-penny Surtax to implement the PTP: Shall the County implement the People's Transportation Plan including: Plans to build rapid transit lines to West Dade, Kendall, Florida City, Miami Beach and North Dade; expanding bus service; adding 635 buses; improving traffic signalization to reduce traffic backups; improving major and neighborhood roads and highways, including drainage; and funding to municipalities for road and transportation projects by levying a half percent sales Surtax whose proceeds will be overseen by the Citizens' Independent Transportation Trust?

YEAR 2003–2008: BUS SERVICE IMPROVEMENTS (Capital Cost: \$90 million)

- Increases bus fleet from 700 to 1335.
- Increases current service miles from 27 million miles to 44 million miles.
- Increases operating hours from 1.9 million hours to 3.3 million hours.
- Utilizes minibuses on all new bus routes and in neighborhood/municipal circulator shuttle service.
- Adds mid-day, Saturday and Sunday services within 30 days of approval of a dedicated funding source using existing buses.
- Provides 15 minutes or better bus service during rush hour; 30 minutes or better during other periods; 24-hour service in certain major corridors.
- Replaces buses on a systematic basis to reduce operating cost and increase reliability.
- Constructs bus pull-out bays on major streets to expedite traffic flow
- Implements grid system for bus service (north-south and east-west) on major streets and avenues with circulator service feeding main line bus service and rapid transit lines.
- Expands the bus shelter program throughout the County.
- Enhances and expands transit bus stop signage countywide; incorporates information technology at bus stops and rail stations.
- Expands Transit's public information program through enhanced marketing and advertising.
- Expands on successful municipal circulator program.

YEAR 2003-2031 RAPID TRANSIT IMPROVEMENTS

Construction of up to 88.9-miles of new Rapid Transit Lines (Capital Cost: \$7 billion)

- Technology and Corridor Improvements: Two corridors, totaling 26.7 miles of rapid transit, have completed the planning phase and are ready to enter into final design and construction the North Corridor and East-West Corridor.
- The North Corridor is a 9.5-mile heavy rail alternative, running from the Dr. Martin Luther King, Jr. Metrorail Station, along NW 27th Avenue to NW 215th Street (Miami-Dade/Broward County line); with proposed stations at Northside Shopping Center, MDCC-North Campus, City of Opa-locka, Palmetto Expressway, Carol City Shopping Center, Pro-Player Stadium and the Florida Turnpike. The North Corridor (part of the original Rapid Transit Plan) will receive top priority to go into the final design and construction phase (Cost: \$555 million).

- The East-West Corridor consists of two segments, one from the Florida Turnpike east to the Palmetto Expressway (SR 826) and from the Palmetto, through Miami International Airport, downtown Miami, and to the Port of Miami, six miles and 11.2 miles respectively. These sites have been identified as potential station locations: Florida Turnpike, NW 107th Avenue, NW 97th Avenue, NW 87th Avenue, Milam Dairy Road, Blue Lagoon area, Miami Intermodal Center, NW 27th Avenue, Orange Bowl, Government Center (downtown Miami), and the Port of Miami (Cost: \$2,789 million).
- The remaining 62.2 miles of rapid transit lines need to complete federal, state and local planning processes to determine feasibility, technology, and corridor alignment. These corridors include, but are not limited to, the following:
 - Earlington Heights/Airport Connector: A 3.1-mile extension from the Earlington Heights Metrorail Station to the Miami Intermodal Center, located on the east side of Miami International Airport. (Cost: \$207 million)
 - Baylink: A 5.1-mile corridor between downtown Miami and South Miami Beach. (Cost: \$510 million)
 - Kendall Corridor: A 15-mile corridor with both east-west and north-south segments. (Cost: \$877 million)
 - Northeast Corridor: A 13.6-mile corridor from Downtown Miami, through Little Haiti, to NE 215th Street, generally along the Biscayne Blvd. (U.S. 1) Corridor and Florida East Coast railroad right-of-way. (Cost: \$795 million)
 - Rail Extension to Florida City: A 21-mile rail extension along U.S. 1 consisting of two segments, one from Dadeland South Metrorail Station to Cutler Ridge; a second segment from Cutler Ridge to Florida City. (Cost: \$946 million)
 - Douglas Road Extension: A 4.5-mile corridor from the Douglas Road Metrorail Station to the Miami Intermodal Center. (Cost: \$280 million)

YEAR 2003-2013: MAJOR HIGHWAY AND ROAD IMPROVEMENTS (Total Cost: \$309 million)

Includes the following countywide improvement

- Supplements funding to upgrade the County's traffic signalization system.
- Constructs major ingress/egress improvements in Downtown Miami, from SW 8 Street to SW 1 Avenue.
- Funds the Preliminary Engineering and Design study of I-395.
- Accelerates approved safety enhancements and lane widening for Krome Avenue.
- Completes construction of NW 87 Avenue between NW 154 Street and Miami Gardens Drive (NW 183 Street).
- Creates viable reverse flow lanes on major thoroughfares.
- Funds grade separation of intersections where appropriate countywide.
- Supplements funding to widen NW 62 Avenue, from NW 105 Street to NW 138 Street.

YEAR 2003-2013: NEIGHBORHOOD IMPROVEMENTS (Total Cost: \$167 million)

Neighborhood improvements include modification of intersections; resurfacing of local and arterial roads; installation/repairs of guardrails; installation of school flashing signals and enhancement of greenways and bikeways. Such improvements also include replacement/repair of sidewalks, repair/installation of drainage and landscape beautification (including community image enhancements), roadway signage, roadway lighting, pavement markings, and traffic calming¹

related to the development, construction, operation or maintenance of roads and bridges in the County or to the expansion, operation or maintenance of bus and fixed guideway systems. Accelerate program to provide ADA accessibility to bus stops throughout the County.

• Accelerates program to provide ADA accessibility to bus stops throughout the County

MUNICIPAL IMPROVEMENTS (Cities to receive a pro rata share (determined by population) of 20% of total Surtax revenues on an annual basis (currently estimated at \$62.6 million [one-percent] or \$31.3 million [one –half percent])

Cities will preserve the level of transportation funding currently in their FY 2001-2002 budgets (i.e. their maintenance of effort dollars). Maintenance of efforts excludes special bond issues for infrastructure improvements.

The cities will dedicate 20% of their Surtax funds to transit purposes. This would include circulators, bus shelters, bus pull out bays or other transit-related infrastructure. If such utilization is inappropriate, the County will be afforded the opportunity to undertake such projects with those funds or the funds will revert to the municipal pool for re-distribution.

Footnote:

1) As amended per Board of County Commissioners, R-507-04 (April 2004)

Miami-Dade County PTP Ordinance #02-116

ARTICLE XVI. - ONE HALF OF ONE PERCENT CHARTER COUNTY TRANSIT SYSTEM SALES SURTAX AUTHORIZED BY SECTION 212.055(1) FLORIDA STATUTES (2001)

Sec. 29-121. Sales surtax levied.

There is hereby levied and imposed a one half of one percent discretionary sales surtax authorized by Section 212.055(1), Florida Statutes (2001) on all transactions occurring in Miami-Dade County which transactions are subject to the state tax imposed on sales, use, rentals, admissions and other transactions by Chapter 212, Florida Statutes (2001).

(Ord. No. 02-116, § 1, 7-9-02)

Sec. 29-122. Surtax rate, limitations.

The surtax rate shall be one-half of one percent on the amount of taxable sales and taxable purchases representing such transactions. The limitations, conditions and provisions contained in Section 212.054, Florida Statutes (2001) as the same may be amended and supplemented from time to time are hereby incorporated herein.

(Ord. No. 02-116, § 1, 7-9-02)

Sec. 29-122.1. Exemption from Sales Surtax.

All exemptions applicable to the discretionary sales surtax contained in Chapter 212, Florida Statutes are hereby incorporated herein as the same may be amended and supplemented from time to time including, but not limited to, the following:

1. The sales amount above \$5,000 on any item of tangible personal property shall not be subject to the surtax. However, charges for prepaid calling arrangements, as defined in Section 212.05(1)(e)1.a. Fla. Stats., shall be subject to the surtax. For purposes of administering the \$5,000 limitation of an item of tangible personal property, if two or more taxable items of tangible personal property are sold to the same purchaser at the same time and, under generally accepted business practice or industry standards or usage, are normally sold in bulk or are items that, when assembled, comprise a working unit or part of a working unit, such items must be considered a single item for purposes of the \$5,000 limitation when supported by a charge ticket, sale slip, invoice, or other tangible evidence of a single sale or rental.

2. The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the sales surtax imposed by this article.

- (1) Exemptions; General Groceries.
 - (a) Food products for human consumption are exempt from the sales surtax imposed by this article.
 - (b) For the purpose of this article, as used in this subsection, the term "food products" means edible commodities, whether processed, cooked, raw, canned, or in any other form, which

are generally regarded as food. This includes, but is not limited to, all of the following:

1. Cereals and cereal products, baked goods, oleomargarine, meat and meat products, fish and seafood products, frozen foods and dinners, poultry, eggs and egg products, vegetables and vegetable products, fruit and fruit products, spices, salt, sugar and sugar products, milk and dairy products, and products intended to be mixed with milk.

2. Natural fruit or vegetable juices or their concentrates or reconstituted natural concentrated fruit or vegetable juices, whether frozen or unfrozen, dehydrated, powdered, granulated, sweetened or unsweetened, seasoned with salt or spice, or unseasoned; coffee, coffee substitutes, or cocoa; and tea, unless it is sold in a liquid form.

3. Bakery products sold by bakeries, pastry shops, or like establishments that do not have eating facilities.

(c) The exemption provided by this subsection does not apply:

1. When the food products are sold as meals for consumption on or off the premises of the dealer.

2. When the food, products are furnished, prepared, or served for consumption at tables, chairs, or counters or from trays, glasses, dishes, or other tableware, whether provided by the dealer or by a person with whom the dealer contracts to furnish, prepare, or serve food products to others.

3. When the food products are ordinarily sold for immediate consumption on the seller's premises or near a location at which parking facilities are provided primarily for the use of patrons in consuming the products purchased at the location, even though such products are sold on a "take out" or "to go" order and are actually packaged or wrapped and taken from the premises of the dealer.

4. To sandwiches sold ready for immediate consumption on or off the seller's premises.

5. When the food products are sold ready for immediate consumption within a place, the entrance to which is subject to an admission charge.

6. When the food products are sold as hot prepared food products.

7. To soft drinks, which include, but are not limited to, any nonalcoholic beverage, any preparation or beverage commonly referred to as a "soft drink," or any noncarbonated drink made from milk derivatives or tea, when sold in cans or similar containers.

8. To ice cream, frozen yogurt, and similar frozen dairy or nondairy products in cones, small cups, or pints, popsicles, frozen fruit bars, or other novelty items, whether or not sold separately.

9. To food prepared, whether on or off the premises, and sold for immediate consumption. This does not apply to food prepared off the premises and sold in the original sealed container, or the slicing of products into smaller portions.10. When the food products are sold through a vending machine, pushcart, motor

vehicle, or any other form of vehicle.

11. To candy and any similar product regarded as candy or confection, based on its normal use, as indicated on the label or advertising thereof.

12. To bakery products sold by bakeries, pastry shops, or like establishments that have eating facilities, except when sold for consumption off the seller's

premises. .

13. When food products are served, prepared, or sold in or by restaurants, lunch counters, cafeterias, hotels, taverns, or other like places of business..

(d) As used in this subsection (1), the term:

1. "For consumption off the seller's premises" means that the food or drink is intended by the customer to be consumed at a place away from the dealer's premises.

2. "For consumption on the seller's premises" means that the food or drink sold may be immediately consumed on the premises where the dealer conducts his or her business. In determining whether an item of food is sold for immediate consumption, there shall be considered the customary consumption practices prevailing at the selling facility.

3. "Premises" shall be construed broadly, and means, but is not limited to, the lobby, aisle, or auditorium of a theater; the seating, aisle, or parking area of an arena, rink, or stadium; or the parking area of a drive-in or outdoor theater. The premises of a caterer with respect to catered meals or beverages shall be the place where such meals or beverages are served.

4. "Hot prepared food products" means those products, items, or components which have been prepared for sale in a heated condition and which are sold at any temperature that is higher than the air temperature of the room or place where they are sold. "Hot prepared food products," for the purposes of this subsection, includes a combination of hot and cold food items or components where a single price has been established for the combination and the food products are sold in such combination, such as a hot meal, a hot specialty dish or serving, or a hot sandwich or hot pizza, including cold components or side items.

(e) 1. Food or drinks not exempt under paragraphs (a), (b), (c), and (d) shall be exempt, notwithstanding those paragraphs, when-purchased with food coupons or Special Supplemental Food Program for Women, Infants, and Children vouchers issued under authority of federal law.

2. This paragraph (e) is effective only while federal law prohibits a state's participation in the federal food coupon program or Special Supplemental Food Program for Women, Infants, and Children if there is an official determination that state or local sales taxes are collected within that state on purchases of food or drinks with such coupons.

3. This paragraph (e) shall not apply to any food or drinks on which federal law shall permit sales taxes without penalty, such as termination of the state's participation.

⁽²⁾ Exemptions medical.

- There shall be exempt from the sales surtax imposed by this article any medical products and supplies (a) or medicine dispensed according to an individual prescription or prescriptions written by a prescriber authorized by law to prescribe medicinal drugs; hypodermic needles; hypodermic syringes; chemical compounds and test kits used for the diagnosis or treatment of human disease, illness, or injury; and common household remedies recommended and generally sold for internal and external use in the cure, mitigation, treatment, or prevention of illness or disease in human beings, but not including cosmetics or toilet articles, notwithstanding the presence of medicinal ingredients therein, according to a list prescribed and approved by the Department of Health, which list shall be certified to the Department of Revenue from time to time and included in the rules promulgated by the Department of Revenue. There shall also be exempt from the sales surtax imposed by this article artificial eyes and limbs; orthopedic shoes; prescription eyeglasses and items incidental thereto or which become a part thereof; dentures; hearing aids; crutches; prosthetic and orthopedic appliances; and funerals. In addition, any items intended for one-time use which transfer essential optical characteristics to contact lenses shall be exempt from the sales surtax imposed by this article, however, this exemption shall apply only after \$100,000 of the sales surtax imposed by this article on such items has been paid in any calendar year by a taxpayer who claims the exemption in such year. Funeral directors shall pay tax on all tangible personal property used by them in their business.
- (b) For the purposes of this subsection (2):
 - 1. "Prosthetic and orthopedic appliances" means any apparatus, instrument, device, or equipment used to replace or substitute for any missing part of the body, to alleviate the malfunction of any part of the body, or to assist any disabled person in leading a normal life by facilitating such person's mobility. Such apparatus, instrument, device, or equipment shall be exempted according to an individual prescription or prescriptions written by a physician licensed under chapter 458, chapter 459, chapter 460, chapter 461, or chapter 466, Florida Statutes, or according to a list prescribed and approved by the Department of Health, which list shall be certified to the Department of Revenue from time to time and included in the rules promulgated by the Department of Revenue.
 - 2. "Cosmetics" means articles intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body for cleaning, beautifying, promoting attractiveness, or altering the appearance and also means articles intended for use as a compound of any such articles, including, but not limited to, cold creams, suntan lotions, makeup, and body lotions.
 - 3. "Toilet articles" means any article advertised or held out for sale for grooming purposes and those articles that are customarily used for grooming purposes, regardless of the name by which they may be known, including, but not limited to, soap, toothpaste, hair spray, shaving products, colognes, perfumes, shampoo, deodorant, and mouthwash.
 - 4. "Prescription" includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a duly licensed practitioner authorized by the laws of the state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist. The term also includes an orally transmitted order by the lawfully designated agent of such practitioner. The term also includes an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise of his or her professional judgment, that the order is valid and necessary for the treatment of a chronic or recurrent illness. The term also includes a pharmacist's order for a product selected from the formulary created pursuant to Sec. 465.186 Fla. Stats. A prescription may be retained in written form, or the pharmacist may cause it to be recorded in a data processing system, provided that such order can be produced in printed form upon lawful request.
- (c) Chlorine shall not be exempt from the tax imposed by this article when used for the treatment of water in swimming pools.
- (d) Lithotripters are exempt.
- (e) Human organs are exempt.
- (f) Sales of drugs to or by physicians, dentists, veterinarians, and hospitals in connection with medical treatment are exempt.
- (g) Medical products and supplies used in the cure, mitigation, alleviation, prevention, or treatment of injury, disease, or incapacity which are temporarily or permanently incorporated into a patient or client by a practitioner of the healing arts licensed in the state are exempt.

- (h) The purchase by a veterinarian of commonly recognized substances possessing curative or remedial properties which are ordered and dispensed as treatment for a diagnosed health disorder by or on the prescription of a duly licensed veterinarian, and which are applied to or consumed by animals for alleviation of pain or the cure or prevention of sickness, disease, or suffering are exempt. Also exempt are the purchase by a veterinarian of antiseptics, absorbent cotton, gauze for bandages, lotions, vitamins, and worm remedies.
- (i) X-ray opaques, also known as opaque drugs and radiopaque, such as the various opaque dyes and barium sulphate, when used in connection with medical X-rays for treatment of bodies of humans and animals, are exempt.
- (j) Parts, special attachments, special lettering, and other like items that are added to or attached to tangible personal property so that a handicapped person can use them are exempt when such items are purchased by a person pursuant to an individual prescription.
- (k) This subsection (2) shall be strictly construed and enforced.

(Ord. No. 02-116, § 1, 7-9-02)

Sec. 29-123. - Administration, collection and enforcement.

The Florida Department of Revenue shall administer, collect and enforce the surtax levied hereunder pursuant to the procedures specified in Sec. 212.054(4) Fla. Stats. (2001) as the same may be amended or renumbered from time to time.

(Ord. No. 02-116, § 1, 7-9-02))

Sec. 29-124. - Special fund created; uses of surtax proceeds; and role of Citizens' Independent Transportation Trust.

The surtax proceeds collected by the State and distributed hereunder shall be deposited in a special fund set aside from other County funds in the custody of the Finance Director of the County. Moneys in the special fund shall be expended for the transportation and transit projects (including operation and maintenance thereof) set forth in Exhibit 1 to this article (including those projects referenced in the ballot question presented to the electors to approve this levy) and the adopted Five Year Implementation Plan, subject to any amendments thereto made in accordance with the Transportation Planning Organization ("TPO") process or made in accordance with the procedures specified in subsection (d) of this section.

Expenditure of surtax proceeds for contracts procured by or on behalf of Miami-Dade Transit or for transit-related procurements shall be subject to the following limitations:

- (a) Surtax proceeds shall be applied to expand the Golden Passport Program to all persons (regardless of income level who are over the age of 65 or are drawing Social Security benefits) and to provide fare-free public transportation service on Metromover, including extensions.
- (b) Surtax proceeds may only be expended for the transportation and transit purposes specified in Section 212.055(1)(d)1—4, Florida Statutes (2010). The use of surtax proceeds for on-demand services as defined in Section 212.055(1)(e), Florida Statutes, shall be limited to on-demand services where the trip is no greater than 5 miles in distance.
- (c) The County shall not expend more than five percent of the County's share of surtax proceeds on administrative costs, exclusive of project management and oversight for projects funded by the surtax.
- (d) The Trust shall in consultation with the Mayor recommend to the County Commission a Five Year Implementation Plan. The Five Year Implementation Plan shall include a detailed scope of work, schedule and budget, consistent with the federal requirements for the TPO TIP and Long Range Plan, for each project included in Exhibit 1 of the People's Transportation Plan, as amended, anticipated to be implemented in whole or in part during the five year period. The Five Year Implementation Plan shall be approved by the County Commission in accordance with the procedures established in paragraph (f) of this section. The initial Five Year Implementation Plan shall be approved no later than January 1, 2011. The Five Year Implementation Plan shall be updated annually no later than January 1st of each year and shall be presented to the County Commission and posted online. The annual report shall detail the progress on each project included in the Five Year Work Plan.

- (e) The County Commission shall not delete or materially change any County project contained in the list attached as Exhibit 1 to this article nor add any project to the list or delete, materially change or add any project to the Five Year Implementation Plan except in accordance with the procedures set forth in this subsection (e). The Five Year Implementation Plan and any proposed deletion, material change or addition of a County project shall be initially reviewed by the Citizens' Independent Transportation Trust ("Trust"), which shall forward a recommendation thereon to the County Commission. The County Commission may either accept or reject the Trust's recommendation. If the County Commission rejects the recommendation, the matter shall be referred back to the Trust for its reconsideration and issuance of a reconsidered recommendation to the County Commission. The County Commission may approve, change or reject the Trust's reconsidered recommendation. A two-thirds vote of the Commission membership shall be required to take action other than as contained in the reconsidered recommendation of the Trust. The foregoing notwithstanding, the list of County projects contained in Exhibit 1 and the Five Year Implementation Plan may be changed as a result of the metropolitan planning organization process as mandated by federal and state law as applied to the TPO.
- (f) (i) No surtax proceeds may be used to pay the costs of a contract unless the Trust has submitted a recommendation to the County Commission regarding said contract award. The County Commission, if in agreement with the Trust's recommendation, may award a contract by majority vote. The County Commission may modify or reject the recommendation of the Trust by a two-thirds (2/3) vote of the Commission's membership. If the Trust has failed to forward a recommendation to the County Commission within 45 days of the County Mayor or County Mayor's designee filing an award recommendation with the Clerk of the Board, the County Commission may take action on the contract award recommendation without any Trust recommendation. Notwithstanding any other provision to the contrary, a committee of the Commission may consider a contract award recommendation prior to receipt of a recommendation of the Trust.
 - (ii) Where no surtax proceeds are used to fund a contract, no County funds may be used to pay the costs of a contract where the portion procured by or on behalf of Miami-Dade Transit or for transit-related procurements is valued at over one million dollars (\$1,000,000.00) unless the Trust has submitted a recommendation to the County Commission regarding said contract award. The County Commission, if in agreement with the Trust's recommendation, may award a contract by majority vote. The County Commission may modify or reject the recommendation of the Trust by a majority vote. If the Trust has failed to forward a recommendation to the County Commission within 45 days of the County Mayor or County Mayor's designee filing an award recommendation with the Clerk of the Board, the County Commission may take action on the contract award recommendation. Notwithstanding any other provision to the contrary, a committee of the Commission may consider a contract award recommendation prior to receipt of a recommendation of the Trust.
 - (iii) Where no surtax proceeds are used to fund a contract eligible for award under the County Mayor's delegated authority and where the portion procured by or on behalf of Miami-Dade Transit or for transit-related procurements is valued at one million dollars (\$1,000,000.00) or less, the Trust shall be provided with a Semi-Annual Report detailing all such contract awards. If the Trust takes exception with a contract award the County Mayor or County Mayor's designee will provide the Trust with any additional information necessary to resolve any outstanding issue and, if necessary and appropriate, work in collaboration with the Trust to take any corrective action that may be available.
 - (iv) The Trust shall, in consultation with the County Mayor or County Mayor's designee, schedule Trust meetings monthly so as to ensure that a Trust recommendation is provided to the Commission with the Commission's agenda package.
- (g) On a quarterly basis, the Executive Director of the CITT shall submit a written report to the Commission and the Mayor of all expenditures made pursuant to Section 29-124 herein.
- (h) Twenty percent of surtax proceeds shall be distributed annually to those cities existing as of November 5, 2002 that meet the following conditions:
 - (i) That continue to provide the same level of general fund support for transportation that is in their FY 2001-2002 budget in subsequent Fiscal Years. Any surtax proceeds received shall be applied to supplement, not replace a city's general fund support for transportation. Where the general fund support for FY 2001-2002 exceeded the general fund support in the preceding year by more than 150 percent, the maintenance of effort requirement may be calculated as the average general fund support for the five years preceding FY 2001-2002 and applied beginning FY 2001-2002;

- (ii) That apply 20 percent of any surtax proceeds received to transit uses in the nature of circulator buses, bus shelters, bus pullout bays, on-demand transportation services as defined in Section 212.055(1)(e), Florida Statutes, as may be amended from time to time, or other transit-related infrastructure. The use of surtax proceeds for on-demand transportation services shall be limited to providing transportation services where the trip is no greater than 5 miles in distance. Each city that uses surtax proceeds for on-demand transportation services. Any city that cannot apply the 20 percent portion of surtax proceeds it receives as provided in this paragraph, may contract with the County for the County to apply such proceeds on a County project that enhances traffic mobility within that city and immediately adjacent areas. If the city cannot expend such proceeds in accordance with this paragraph and does not contract with the County as described in this paragraph, then such proceeds shall carry over and be added to the overall portion of surtax proceeds to be distributed to the cities in the ensuing year and shall be utilized solely for the transit uses enumerated in this subsection (ii);
- (iii) Surtax proceeds distributed amongst the existing cities shall be distributed on a pro rata basis based on the ratio such city's population bears to the total population in all such cities (as adjusted annually in accordance with the Estimates of Population prepared by the Bureau of Economic and Business Research of the University of Florida) annually to those cities that continue to meet the foregoing conditions. For purposes of the foregoing, whenever an annexation occurs in an existing city, the number of persons residing in such annexed area at the time it is annexed shall be excluded from all calculations. Increases in population in areas annexed over and above the population in such area at the time of annexation which occur after annexation shall be included in subsequent years' calculations; and
- (iv) That do not expend more than 5% of its municipal share of surtax proceeds on administrative costs, exclusive of project management and oversight for projects funded by the surtax. Administrative costs shall be defined as overhead expenses which are not readily attributable to any one particular project funded in whole or in part by transit surtax funds.
- (i) Newly incorporated municipalities shall have the right to negotiate with the County for a pro rata share of the sales surtax, taking into consideration the neighborhood and municipal projects identified in Exhibit 1, as amended, within the boundaries of the new municipalities. The preceding sentence shall not affect the twenty (20) percent share provided herein for municipalities existing on November 5, 2002.

(Ord. No. 02-116, § 1, 7-9-02; Ord. No. 06-138, § 1, 9-26-06; Ord. No. 07-56, § 1, 4-24-07; Ord. No. 10-53, § 2, 9-21-10; Ord. No. 11-13, § 2, 3-15-11; Ord. No. 16-09, § 1, 1-20-16; Ord. No. 18-23, § 2, 2-21-18; Ord. No. 18-46, § 1, 5-1-18; Ord. No. 19-06, § 1, 1-23-19; Ord. No. 21-21, § 1, 3-2-21)

Miami-Dade County PTP Ordinance #02-117

Sec. 2-1421. - Citizens' Independent Transportation Trust created; powers over expenditure and use of proceeds of proposed Charter County Transit System Surtax.

- (a) Creation. A Citizens' Independent Transportation Trust ("Trust") is hereby created. The Trust will have fifteen (15) members: one residing in each of Miami-Dade County's thirteen commission districts, one appointed by the Mayor without regard to such appointee's district of residence, and one appointed by the Miami-Dade League of Cities without regard to such appointee's district of residence. Members of the Trust shall be residents of Miami-Dade County who possess outstanding reputations for civic involvement, integrity, responsibility, and business and/or professional ability and experience or interest in the fields of transportation mobility improvements or operations, or land use planning. No person shall be eligible to serve as a member of the Trust who has any interest, direct or indirect, in a contract with the County or in any corporation, partnership or other entity that has a contract with the County, or who is a member of a community council. The Trust and the Nominating Committee, as defined below, will be comprised of members who are representative of the geographic, ethnic, racial and gender make-up of the County.
- (b) Initial members. The initial members of the Trust shall be nominated and appointed in the manner set forth in this subsection. The Board of County Commissioners shall appoint a nominating committee (the "Nominating Committee") comprised of seventeen (17) members as set forth below who are representative of the geographical, ethnic, racial and gender make-up of the County:
 - (1) The Executive Director of the Miami-Dade League of Cities or one of the League's officers shall serve as a member of the Nominating Committee;
 - (2) The Chairperson of the United Way or his or her designee shall serve as a member of the Nominating Committee;
 - (3) The Chairperson of the Greater Miami Visitors and Convention Bureau or his or her designee shall serve as a member of the Nominating Committee;
 - (4) The Chairperson of the Citizen's Transportation Advisory Committee or his or her designee shall serve as a member of the Nominating Committee;
 - (5) The Chairpersons of the Community Councils shall meet and shall, by majority vote, appoint one member of the Nominating Committee;
 - (6) The Chair of the Ethics Commission or his or her designee;
 - (7) The President or CEO of the Urban Environment League shall appoint one member of the Nominating Committee;
 - (8) The President or CEO of the local branch of the Urban League shall appoint one member of the Nominating Committee;
 - (9) The President or CEO of the Alliance for Aging shall appoint one member of the Nominating Committee;
 - (10) The President or CEO of the Miami-Dade Branch NAACP shall appoint one member of the Nominating Committee;
 - (11) The President or CEO of the Coalition of Chambers shall appoint one member of the Nominating Committee;
 - (12) The President or CEO of Florida International University shall appoint one member of the Nominating Committee;
 - (13) The President or CEO of Miami-Dade Community College shall appoint one member of the Nominating Committee;
 - (14) The President or CEO of People Acting for the Community Together (P.A.C.T.) shall appoint one member of the Nominating Committee;
 - (15) The President or CEO of Underrepresented People's Positive Action Council (UP-PAC) shall appoint one member of the Nominating Committee;
 - (16) The Executive Director of the local chapter of the League of Women Voters shall appoint one member of the Nominating Committee; and
 - (17) The Executive Director of the Haitian American Grass Roots Coalition shall appoint one member.

The Nominating Committee shall submit a slate of four (4) candidates from each Commission District to the Commissioner of each District for selection. The District Commissioner must select from the slate submitted by the Nominating Committee; however, the District Commissioner may request one additional slate of entirely new nominations. The Board of County Commissioners shall ratify each District Commissioner's selection. The Nominating Committee shall submit a slate of four (4) candidates without regard to district to the Miami-Dade League of Cities for selection. The Miami-Dade League of Cities must select from the slate submitted by the Nominating Committee; however, the League may request one additional slate of entirely new nominations. The Nominating Committee shall also submit a slate of four (4) candidates without regard to district to the Miami-Dade League of Cities for selection. The Nominating Committee shall also submit a slate of four (4) candidates without regard to district to the Mayor for selection. The Mayor must select from the slate submitted by the Nominating Committee; however, the Mayor for selection. The Mayor must select from the slate submitted by the Nominating Committee; however, the Mayor may request one additional slate of entirely new nominations.

- (c) Term of initial members. The initial members from Districts 1 to 5, inclusive, shall serve two-year terms; the initial members from Districts 6 to 9, inclusive, shall serve three-year terms; and, the initial members from Districts 10 to 13, inclusive, shall serve four-year terms. The selection of the Mayor shall serve an initial term of four years. The selection of the Miami-Dade League of Cities shall serve an initial term of two years. The foregoing notwithstanding, such initial terms shall be subject to automatic expiration as provided in subsection (c) of Section 2-11.38.2 of this Code provided however, a District Commissioner appointed Trust member may continue to serve until the appointment and ratification of the succeeding District Commissioner's selection.
- Subsequent membership and term. Any vacancy on the Trust that occurs after appointment of the initial membership, (d) as well as appointment of successors to those members whose terms have expired shall be filled directly by appointment of the Commissioner for the district for in which a vacancy occurs, or, in the case of a vacancy in a Miami-Dade League of Cities appointment shall be filled by appointment of the League, or, in the case of a vacancy in a mayoral appointment shall be filled by appointment of the Mayor. Such appointments shall be made from a slate submitted by the Nominating Committee in accordance with subsection (b) pertaining to initial members, and shall have the qualifications for Trust membership set forth in subsection (a) above. The foregoing notwithstanding, an incoming District Commissioner or Mayor may elect to re-appoint his or her predecessor's currently serving appointee. in which case there shall be no need for the Nominating Committee to submit a slate of candidates for such vacancy. The term of any Trust member appointed or re-appointed pursuant to this subsection after the initial terms set forth in (c) above shall be for a term of four years, and in the case of Commissioner or Mayor appointees shall be subject to automatic expiration as provided in subsection (c) of Section 2-11.38.2 of this Code provided however, a District Commissioner or Mayor appointed Trust member may continue to serve until the appointment and ratification of the succeeding District Commissioner's or Mayor's selection. Members may be re-appointed. If an appointment is not made by the District Commissioner (or the League or Mayor where applicable) within thirty (30) days from the date on which the Nominating Committee submits the required slate of candidates, the County Commission may appoint the successor.
- (e) Leave of absence for CITT members on active military duty. Any Trust member who as a result of being called into active duty of any of the branches of the United States Armed Services is unable to continue serving on the CITT may request a leave of absence from the CITT for a period not to exceed ninety (90) days. Said leave of absence may be renewed so long as the Trust member remains in active duty of the United Services Armed Services, but may only extend until the expiration of the term for that Trust member. Upon a Trust member's leave of absence, the applicable District Commissioner, Mayor, or League of Cities may directly appoint an interim Trust member who shall serve on the CITT until the expiration of the term of the Trust member on leave of absence or the return of the Trust member from leave of absence, whichever is sooner.
- (f) Attendance and quorum requirements. Any Trust or Nominating Committee member shall be automatically removed if, in a given fiscal year: (i) he or she is absent from two (2) consecutive meetings without an acceptable excuse; or, (ii) if he or she is absent from three (3) of the Trust's or Nominating Committee's meetings without an acceptable excuse. A member of the Trust or Nominating Committee shall be deemed absent from a meeting when he or she is not present at the meeting at least seventy-five (75) percent of the time. An "acceptable excuse" is defined as an absence for medical reasons, business reasons, personal reasons, or any other reason which the Trust or Nominating Committee, by two-thirds (2/3) vote of its membership, deems appropriate. The requirements of this section may be waived by two-thirds (2/3) vote of the members of the full Board of County Commissioners. A quorum of the Trust or Nominating Committee, provided that at least one-half (½) of the full Trust or Nominating Committee membership has been appointed.
- (g) *Powers and duties.* The Trust shall have the following duties, functions, powers, responsibilities and jurisdiction with regard to use and expenditure of proceeds of any Charter County Transit System Surtax that is levied by the County under authority of Section 212.055(1), Florida Statutes:
 - (1) To monitor, oversee, review, audit, and investigate implementation of the transportation and transit projects listed in any levy of the Surtax, and all other projects funded in whole or in part with Surtax proceeds;

- (2) To assure compliance with any limitations imposed in the levy on the expenditure of Surtax proceeds, including but not limited to:
 - (a) Any limitation that Surtax proceeds only be expended for the transportation and transit purposes specified Section 212.055(1)(d)1—4, Fla. Stats., as may be amended from time to time;
 - (b) Any limitation that no more than five (5) percent of Surtax proceeds be expended on administrative costs, exclusive of project management and oversight for projects funded by the Surtax;
 - (c) The limitation that the County Commission may not delete or materially change any County project listed in the approved Five Year Implementation Plan or on Exhibit 1 attached to the ordinance levying the Surtax nor add any project thereto except as provided in this subsection (c) and Section 29-124(d), (e). A proposed deletion, material change or addition of such a County project shall be initially reviewed by the Citizens' Independent Transportation Trust ("Trust"), which shall forward a recommendation thereon to the County Commission. The County Commission may either accept or reject the Trust's recommendation. If the County Commission rejects the recommendation, the matter shall be referred back to the Trust for its reconsideration and issuance of a reconsidered recommendation to the County Commission. The County Commission may either accept to take action other than as contained in the reconsidered recommendation of the Trust. The foregoing notwithstanding, the list of County projects contained in said Exhibit 1 and the Five Year Implementation Plan may be changed as a result of the metropolitan planning organization process as mandated by federal and state law as applied to the Transportation Planning Organization ("TPO"); and
 - (d) Any requirement with regard to maintenance of effort of general fund support for Miami-Dade transit.
- (3) To assure compliance with federal and state requirements applicable thereto;
- (4) To require monthly reports from the Mayor, County agencies and instrumentalities regarding the implementation of the projects funded by Surtax proceeds (which reports shall be posted on-line, i.e., made publicly accessible on the Internet);
- (5) To file a report, including any recommendations, with the Mayor and the County Commission on a quarterly basis regarding the implementation of the projects funded by Surtax proceeds;
- (6) To monitor, oversee and periodically report to the County Commission on the level of participation by CSBEs and CBEs in contracts funded in whole or in part with Surtax proceeds, and to recommend ways to increase such participation; and
- (7) Notwithstanding any provision to the contrary, to retain the services of consultants the Trust deems necessary to assist in its monitoring functions without the need for action by the County Commission, so long as the retaining of such consultants does not result in the budget for the Trust exceeding the amount approved by the County Commission during the annual budget approval process.
- (8) Notwithstanding any provision to the contrary, until March 3, 2019 the Executive Director shall have authority to award contracts in an amount up to \$10,000 for goods and services for the Trust and its staff without the need for action by the County Commission, so long as the award of such contracts is first approved by the Trust and does not result in the budget for the Trust exceeding the amount approved by the County Commission during the annual budget approval process. The award of such contracts shall be reported to the County Commission on a quarterly basis. Following the expiration of the authority granted to the Executive Director in this paragraph, the Trust, in coordination with its staff, and the County Mayor or County Mayor's designee shall provide a report to the County Commission providing an audit of the contracts for goods and services were procured. The County Mayor or County Mayor's designee shall place the report on the first available agenda of this Board pursuant to Ordinance No. 14-65.
- (h) Staff support. The County Attorney shall serve as legal counsel to the Trust. The Trust may by a majority vote of its membership hire an Executive Director. The Executive Director shall provide to the Trust adequate staff and support services to enable the Trust to carry out its duties and responsibilities. The Executive Director is authorized to hire and/or remove staff in order to provide adequate support for the Trust. The Executive Director may be removed by a two-thirds (2/3) vote of the Trust members present.
- (i) Trust subject to Florida Open Government law, the Conflict of Interest and Code of Ethics Ordinance and the investigatory powers of the Inspector General. The Trust shall at all times operate under the Florida Open Government Laws, including the "Sunshine" and Public Records laws, and shall be governed by the Conflict of Interest and Code of Ethics Ordinance, Section 2-11.1 of this Code providing, among other things, a proscription on transacting business with the County and on oral communications with bidders or their representatives during the bid process, and a

requirement for financial disclosure. The Trust and its actions shall be subject to the investigatory powers of the Inspector General provided in Section 2-1076 of this Code. Additionally, Trust members shall not lobby, directly or indirectly, the Mayor, any member of the County Commission or any member of County staff regarding a project funded in whole or in part by Surtax proceeds, or regarding any person or business bidding for or under contract for a project funded in whole or in part with Surtax proceeds. Trust members shall not have any interest, direct or indirect, in any contract with the County or in any corporation, partnership or other entity that has a contract with the County.

(j) Removal of Trust members. A finding by the Ethics Commission that a person serving as a member of the Trust has in the course of his or her service willfully violated any provision of Section 2-11.1 of this Code (the Conflict of Interest and Code of Ethics Ordinance) shall constitute malfeasance in office and shall effect an automatic forfeiture of such person's position as a member of the Trust.
