## Drug selection

Each medicine chosen for the drug list was analyzed for its safety, efficacy and value by Horizon BCBSNJ's Pharmacy and Therapeutics (P&T) Committee. The P&T Committee is made up of local, independent practicing doctors and pharmacists, and meets at least quarterly. Coverage decisions are based on safety, efficacy, uniqueness and cost. *Newly marketed prescription drugs will not be covered until the P&T Committee has had an opportunity to review the drug, to determine whether the drug will be covered and if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of drugs. If your physician feels that a new drug is medically necessary prior to P&T Committee evaluation, a non-formulary exception request for coverage may be submitted.*

Horizon BCBSNJ encourages doctors to prescribe Generic (Tier 1) and Preferred Brand (Tier 2) medicines. While coverage is provided for Non-Preferred Brand (Tier 3) medicines, you may pay higher copayments and out-of-pocket costs if you choose to fill these medicines.

THE APPLICABLE PRODUCTS FOR THE INDIVIDUAL MARKET ARE: ADVANTAGE EPO BRONZE, ADVANTAGE EPO SILVER, OMNIA BRONZE, OMNIA SILVER, OMNIA SILVER VALUE, OMNIA SILVER H.S.A., OMNIA GOLD, AND ADVANTAGE EPO ESSENTIALS, VALUE ACCESS BRONZE, VALUE ACCESS SILVER. THE APPLICABLE PRODUCTS FOR THE SMALL GROUP MARKET ARE: OMNIA BRONZE, OMNIA SILVER, OMNIA SILVER W/BLUECARD OMNIA SILVER H.S.A., OMNIA GOLD, OMNIA GOLD W/BLUECARD, OMNIA GOLD H.S.A. ## Member prescription benefit

The drug list is grouped into tiers. Your copayment or cost share is determined by the tier that the medicine is on: Generic (Tier 1), Preferred Brand (Tier 2) and Non-Preferred Brand (Tier 3).

**Tier 1 – Lowest copayment/cost share** – Generic drugs. Tier 1 includes most generic medicines, although not all generics are listed in this Guide.

**Tier 2 – Middle copayment/cost share** – Preferred brand drugs.

**Tier 3 – Highest copayment/cost share** – Non-Preferred brand drugs.

All available covered drugs are shown on this list. *Drugs that are not covered on the formulary will be noted in the Prescription Drug List with the NF (non-formulary) indicator. If your physician feels that a non-formulary drug is medically necessary, a non-formulary exception request for coverage may be submitted.*

Certain drug classes are excluded from coverage (not covered) including investigational and cosmetic (such as Propecia for hair growth), anti-obesity (such as Belviq or Contrave) and erectile dysfunction (such as Viagra) drugs. Coverage, copayment, and additional restrictions and exclusions may vary depending on your pharmacy plan design. Please refer to the policy and benefit information you received from Horizon BCBSNJ.

### Exception Process

You, your prescribing health care provider, or your authorized representative, can ask for a Drug List exception if your drug is not on (or is being removed from) the Drug List. To request this exception, you, your prescriber, or your authorized representative, can call the number on your ID card to ask for a review. Horizon will let you, your prescriber (or authorized representative) know the coverage decision within 72 hours after they receive your request. If the coverage request is denied, Horizon will let you and your prescriber (or authorized representative) know why it was denied and offer you a covered alternative drug (if applicable). If you have a health condition that may jeopardize your life, health or keep you from regaining function, or your current drug therapy uses a non-covered drug, you, your prescriber, or your authorized representative, may be able to ask for an expedited review process. Horizon will let you, your prescriber (or authorized representative) know the coverage decision within 24 hours after they receive your request for an expedited review. If the coverage request is denied, BCBS will let you and your prescriber (or authorized representative) know why it was denied and offer you a covered alternative drug (if applicable). Call the number on your ID card if you have any questions.

**REMINDER:** If you disagree with the decision of your initial Formulary Exception request you may submit an appeal. Steps on how to submit will be outlined in your initial denial letter. In the case of a claim for urgent care, an expedited review process is available. Please be sure to refer to your initial Formulary Exception denial letter for your appeals rights.

### Generic drugs

We encourage the use of generics as a way to provide high-quality medicines at a lower cost. Generics are manufactured under the same strict requirements of the FDA's current Good Manufacturing Practice regulations required for brand name medicines in manufacturing, strength, purity and quality. Prescribing generic medications can have many benefits, including:

- Safe and effective profiles equivalent to their brand name drug counterparts, as required by the FDA.
- Costing anywhere from 30 to 80 percent less than their equivalent brand name drugs, and generally lower cost share when compared to a Preferred or a non-Preferred brand name medication.<sup>1</sup>

THE APPLICABLE PRODUCTS FOR THE INDIVIDUAL MARKET ARE: ADVANTAGE EPO BRONZE, ADVANTAGE EPO SILVER, OMNIA BRONZE, OMNIA SILVER, OMNIA SILVER VALUE, OMNIA SILVER H.S.A., OMNIA GOLD, AND ADVANTAGE EPO ESSENTIALS, VALUE ACCESS BRONZE, VALUE ACCESS SILVER. THE APPLICABLE PRODUCTS FOR THE SMALL GROUP MARKET ARE: OMNIA BRONZE, OMNIA SILVER, OMNIA SILVER W/BLUECARD OMNIA SILVER H.S.A., OMNIA GOLD, OMNIA GOLD W/BLUECARD, OMNIA GOLD H.S.A. W/ BLUECARD, OMNIA PLATINUM, OMNIA PLATINUM VALUE, ADVANTAGE EPO GOLD 100% C25/45, ADVANTAGE EPO GOLD 100% C40/60, ADVANTAGE EPO GOLD 100/80, ADVANTAGE EPO SILVER 100/70, ADVANTAGE EPO SILVER 100/50, ADVANTAGE EPO BRONZE 50, ADVANTAGE DIRECT ACCESS PLATINUM 100/70, ADVANTAGE DIRECT ACCESS GOLD 100/80/60, AND ADVANTAGE DIRECT ACCESS SILVER HSA 100/70/60.

- Showing in clinical studies similar clinical outcomes and may improve patient adherence for those unable to afford the more costly brand name medicine.

An FDA-approved generic may be substituted for the brand equivalent when it:

- Contains the same active ingredient(s) as the brand medicine.
- Is identical in strength, dosage form and route of administration.
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile.

To encourage use of generics, Tier 2 Preferred brands typically move to Tier 3 after an equivalent generic becomes available.

If your doctor writes a prescription that permits generic substitution and you choose to receive the brand name medicine instead, you will be responsible for the copayment plus the difference in cost between the brand and generic.

## Affordable Care Act (ACA)

The Affordable Care Act (ACA), also known as health care reform, requires coverage of certain medicines. These are indicated on the drug list in the column labelled “ACA”. Additionally, these medicines are covered for a \$0 cost share, when the conditions (such as age or gender) are met as outlined under the ACA regulation. These are indicated with an “A” in the drug Tier column.

Examples of categories that may be subject to limited or \$0 cost share include aspirin, some breast cancer preventive medicines, fluoride supplements, folic acid supplements, gonorrhea prophylaxis (newborn), iron supplements, some tobacco cessation, vitamin D supplements, some bowel preparation medications, some statins, and some contraceptive (birth control) drugs and devices. If you do not find the medicine you are searching for, call Pharmacy Member Services, 24 hours a day, seven days a week, at **1-800-370-5088** to find out if the drug is available over-the-counter, or is covered under your medical benefit.

## Utilization Management (UM)

Some medicines have special requirements for which your doctor must provide clinical information to Horizon BCBSNJ before the medicine will be approved and covered by the plan. This is called Utilization Management (UM). Medicines that require Prior Authorization (PA), Medical Necessity Review and Determination (MND), or that are subject to a Quantity Limit (QL) are noted on the drug list.

### **Prior Authorization/Medical Necessity Review and Determination**

PA means that specific clinical criteria must be met to demonstrate the medical necessity of the medicine before coverage can be approved. Only medicines that are medically necessary are approved. This ensures safe and proper use of the medicine. If this drug list shows that you need a PA for a medicine, your doctor must send a PA request to Horizon BCBSNJ for review. You and your doctor will be notified in writing of the decision. If the PA request is approved, your medicine will be covered by your plan for a specific period of time.

If the PA request is not approved, there is an appeals process available, or you may choose to buy the medicine at your own expense.

Also, some medicines may be reviewed for medical necessity from time to time, even though they are not subject to our PA requirements. If so, your prescribing doctor may be asked for clinical information to support your use of the medicine. In instances where the Medical Necessity Review and Determination (MND) results in an unfavorable decision, please remember such determinations may also be eligible for the appeals process or you may choose to buy the medicine at your own expense.

THE APPLICABLE PRODUCTS FOR THE INDIVIDUAL MARKET ARE: ADVANTAGE EPO BRONZE, ADVANTAGE EPO SILVER, OMNIA BRONZE, OMNIA SILVER, OMNIA SILVER VALUE, OMNIA SILVER H.S.A., OMNIA GOLD, AND ADVANTAGE EPO ESSENTIALS, VALUE ACCESS BRONZE, VALUE ACCESS SILVER. THE APPLICABLE PRODUCTS FOR THE SMALL GROUP MARKET ARE: OMNIA BRONZE, OMNIA SILVER, OMNIA SILVER W/BLUECARD OMNIA SILVER H.S.A., OMNIA GOLD, OMNIA GOLD W/BLUECARD, OMNIA GOLD H.S.A. W/ BLUECARD, OMNIA PLATINUM, OMNIA PLATINUM VALUE, ADVANTAGE EPO GOLD 100% C25/45, ADVANTAGE EPO GOLD 100% C40/60, ADVANTAGE EPO GOLD 100/80, ADVANTAGE EPO SILVER 100/70, ADVANTAGE EPO SILVER 100/50, ADVANTAGE EPO BRONZE 50, ADVANTAGE DIRECT ACCESS PLATINUM 100/70, ADVANTAGE DIRECT ACCESS GOLD 100/80/60, AND ADVANTAGE DIRECT ACCESS SILVER HSA 100/70/60.

## Quantity Limits

A Quantity Limit (QL) controls the maximum amount of medicine covered per prescription. It can also identify gender or age restrictions and the amount of medicine allowed. QLs are placed on certain categories and are based upon FDA-approved drug labeling. These limits help encourage safe and proper use. If the drug list shows that there is a QL, your doctor must submit a PA request to Horizon BCBSNJ for review if he/she wants to exceed the QL for your medicine. Clinical information will be required to be submitted with the QL exception request to explain why your condition requires the additional quantity. If the QL exception request is approved, your medicine will be covered for a specific period of time. If the request is not approved, there is an appeals process available or you may choose to buy the medicine at your own expense.

## Specialty Medicines

Specialty medicines require education prior to use, patient monitoring for side effects and need to be handled or stored correctly. These specialty medicines also require your doctor to submit a PA request to Horizon BCBSNJ for review.

Horizon BCBSNJ has contracted with several specialty pharmacies that specialize in these therapies. Members who want to minimize their cost sharing are required to obtain the specialty medicines from one of the participating specialty pharmacies. You cannot get specialty medicines from a retail pharmacy or through home delivery. This Guide indicates which medicines are classified as specialty. To find out more information about our Specialty Prescription Program and to see the list and phone numbers of the participating specialty pharmacies, please refer to the following webpage: [HorizonBlue.com/specialtypharmacynetwork](https://www.horizonblue.com/specialtypharmacynetwork).

Specialty medicines that are administered or infused by a doctor or health care professional are not covered through the pharmacy benefit. These are instead covered through a member's medical benefit.

### Limited Distribution:

Medicines marked as "limited distribution" mean the drug manufacturer chooses, or the FDA requires only one, or a few pharmacies to be able to provide the medicine to members. This may include requiring use of a specialty pharmacy or other designated pharmacy to fill the prescription. The specialty pharmacies contracted with Horizon BCBSNJ's specialty pharmacy network can help members with obtaining limited distribution drugs.
