

Adjourned Meeting

Council Chamber of the Board
of Aldermen of the City of San
Diego, California January 19th, 1903.

Pursuant to Adjournment a meeting of the Board of Aldermen was held
this day at 7.30 o'clock P.M. President Perrin Presiding.

Present Aldermen Clark, Whitson, Rainbow, Johnson, Ludington, Perrin and
Elias Kaedman,

Absent Aldermen Jones, Myers Ed Landis.

The Reading of the minutes of Previous meetings was dispensed with.

The Following message from the Mayor returning without his approval
an Ordinance providing for the expenditure of forty five hundred
dollars for the purchase of a 15 ton steam road roller is
read, and ordered Filed by:

San Diego California, January 13th, 1903.

To the Honorable Board of Aldermen of the Common Council

of the City of San Diego, California.

Gentlemen:-

I herewith return without my approval an Ordinance providing for the purchase by the City of a steam road roller

My reasons for not approving this Ordinance are about the same as the reasons I sent to the Council on March 1st, 1902. At that time I returned an Ordinance providing for the expenditure of forty five hundred dollars for the purchase of a 15 ton steam road roller.

Last year when the Ways and Means Committee met and examined the estimates that had been filed with the Auditor for the requirements of the different departments for the year, they were compelled to reduce the amount required by the Street Department from \$31,179.00 to \$18,979.00. The following items were cut out of the estimates:

Steam Road Roller	\$ 4500.
Salary of Engineer for roller	900.
Build Oil Plant and Oil for same	4000.
Fifteenth Street bulkhead	2800.
	<u>\$12200.</u>

I do not think that this Council will find that it will be any better able to provide funds for the purchase of a steam road roller this year, as all conditions remain about the same. in the year 1902, the amount

Disbursed on account of the Street Department was \$17,916.81.

In the year 1903, the salary of the street force will amount to \$12,960

Removing street sweepings

960.
\$ 13,920

So if a road roller is purchased at this time a much larger amount must be apportioned to the Street Department Funds. Should the Council, in fixing rates of taxation and apportioning same to the different funds find that in addition to the amount required by the Street Department they can provide \$4500 for a steam road roller, I would be glad to approve an Ordinance for the purchase of the same, but at this time I feel compelled to veto the Ordinance.

Respectfully Submitted,

Frank P. Tracy

Mayor of the City of San Diego.

Whereupon said Ordinance was on motion of Alderman Myers reconsidered voted upon and adopted notwithstanding the veto of the Mayor by the following two thirds vote, to-wit:

Ayes Aldermen Clark, Whitson, Rainbow, Johnson, Myers, Ludington,
and Brown.

Whereupon an Ordinance providing for the issuance of Correction Deeds to lots two and seven in Block nineteen of La Playa is read and on motion of Alderman Clark adopted by the following vote, to-wit:
Ayes Aldermen Clark, Rainbow, Johnson, Jones, Myers, Kedinglow and Perrin.

None.
Absent Alderman Sandis,
Excused Alderman Whitson,

Said Ordinance as adopted is as follows; viz:
Ordinance No.

An Ordinance providing for the issuance of Correction Deeds to lots two and seven in Block nineteen of La Playa in the City of San Diego, California.

Whereas, it appears from the records of the Board of Trustees of the City of San Diego, California, and from a deed dated September First, 1870, created by the Trustees of said City to Otto H. Meyer, and filed for record in the office of the County Recorder of San Diego - County, State of California, on the 15th day of March, 1871, and thereafter recorded in Book 17 of Deeds at page 151 et seq., that the said City sold to the said Otto H. Meyer the property herein after described, and received therefor the consideration expressed in said Deed which deed, however does not correctly describe said property, in this, that said property was described therein as "lot number two (2) in block No. one hundred and twenty-three (123) situated and being in what is known as "La Playa" according to Chas. H. Pooles Map of 1856", when in fact said block 123 is not subdivided into lots upon said map made by Chas. H. Poole, and

Whereas, it is apparent from the records of said Board of Trustees and from said deed, and from the maps of the said La Playa, that the said Board of Trustees intended to convey lot two in block "19" of La Playa, according to the map made by E. J. Coult, as herein after described; and

Whereas, it appears from a deed, dated on the 18th day of March, 1856, created by the City of San Diego to Thomas Thaley by the Board of Trustees of said City, (signed as individuals and not as Trustees), which deed was recorded in Book one of Deeds at

page 239 in the County Recorder's Office of the said County of San Diego, and that the said City attempted to convey lot seven in block 173" as designated and delineated in and on the Official map of said City" and

Whereas, from the said deed and the various records and maps of La Playa, it is apparent that said deed did not correctly describe said property, in this, that said property was described therein as lot seven in block 173" as designated and delineated in and on the Official map of said City", but that said City intended to convey lot seven in block Nineteen of La Playa, according to the map thereof made by E. J. Couto; and

Whereas, said lot two and said lot seven have both been conveyed by Messrs Conveyances several times to various persons; and

Whereas, it appears that the said City of San Diego has no right, title, or interest in or to said lots, or either of them, or any portion thereof, except for delinquent taxes; and

Whereas, the Common Council of said City is desirous of correcting any and all errors in the said deeds, or either of them, or in any part of both, or either of said deeds, Now, therefore,

Be It Ordained, By the Common Council of the City of San Diego, as follows:

Section 1. That the Mayor of the City of San Diego, California, do, and he is hereby authorized, empowered, and instructed to execute and acknowledge deeds correcting said errors for and on behalf, in the name, and as the act and deed of the said City of San Diego, and that the City Clerk of said City do and he is hereby authorized and directed to attest the execution of such deeds so executed by the Mayor of said City, by endorsing his name thereon and affixing the Corporate Seal of said City thereto, to all persons who are the Owners of said lots, or either of them, or any part or portion thereof, or any interest therein (not including however, the City of San Diego as the Owner), and that the City Clerk of said City do and he is hereby further authorized and directed to deliver said deeds to the Owners of said property, viz: the grantors in said deeds to be so executed by the said Mayor of said City, by delivering said deeds, and each one of them, to the County Recorder of the said County of San Diego, State of California, for the Owners of said property, and instructing him to record the same.

That said deed to said lot two shall contain a recital that it is made pursuant to this Ordinance to correct a defect in the description in the said deed made by the City to the said Otto H. Meyer, bearing date the first day of September, 1870, and recorded on the 28th day of March, 1871, in the Office of the County Recorder of the said County of San Diego, State of California, and that the said City of San Diego does not convey any interest which said City has

acquired in said property for delinquent taxes since said deed dated
 September first, 1870, was so executed. Of being the intention of the said em-
 mon council that said deed to said lot two, to be executed by the said mayor
 of said city, shall correct any and all errors in the description and in the
 execution of said deed so executed in the said year 1870.

That said deed to said lot seven shall contain a recital that it is made
 pursuant to this Ordinance to correct a defect in the description and in
 the execution of the said deed made by said city to Thomas Thomas on
 the 15th day of March, 1876, and recorded in the Office of the County Recorder
 of the said County of San Diego in Book one of Deeds on page 258, and
 shall also recite that the said city of San Diego does not convey any interest
 which said city has acquired in said lot seven for delinquent taxes, or other-
 wise, since the said deed was so executed on the said 18th day of March,
 1876. Of being the intention of the said Council Council that said deed
 to be so executed by the said Mayor and the said city clerk, shall correct
 any error in the description and in the execution of said deed dated
 on the said 18th day of March, 1876. and the said deed dated on the
 said first day of September, 1870, or either of them, and shall correct any
 any possible question that the said city of San Diego, did not by said
 deed, so executed in the said year 1876 and the said year 1870, convey
 all the right, title, interest, or estate of every name and nature what-
 soever that said city had in the following described pieces and

parcels of land situated in the City of San Diego, County of San Diego,
 State of California, which shall be described in said deed as follows:
 That the deed conveying said lot two shall contain the following
 description: Lot Numbered Two (2) in Block Numbered Nineteen (19)
 on the map of La Playa made by E. P. Cook; said Block Nineteen (19)
 being Numbered as Nineteen (19) and one hundred and twenty-three (123)

The following report of the joint street committee in the matter of the estimates of the city engineer for putting twenty-first street between "C" and "E" streets, and Twentieth street between "D" and "E" streets to the official grade is read and adopted, viz:

San Diego, Cal., Jan. 15th, 1908.

To the Common Council,
City,

Members:-

The Joint Street Committee, to whom was referred the estimates of the City Engineer for putting Twenty-first Street between "C" and "E" Streets, and Twentieth Street between "D" and "E" Streets to the Official grade, herewith reports as follows:

The estimates of the City Engineer shows the following work to be done:

	Cut.	Fill.	Cost.
Twenty-first St. "C" to "E"; -	13.79 yards	1332.10 yards	\$ 466.24
Twenty-first St. "D" to "E"; -	7.76 yards	1598.24 yards	559.38
Twentieth St. "D" to "E";	<u>44.81</u> yards	<u>547.60</u> yards	<u>191.66</u>
Total	66.36 yards	2477.94 yards	\$1717.28

The Committee thinks that the total cost of doing this work too great to be done by Contract at the present time, and therefore recommend that the Board of Public Works be authorized to have the Street Force do the same at such times as will not greatly interfere with other work, and that the dirt for making the fills required, as shown by the estimates of the Engineer, be taken from Twentieth Street between "D" and "E" Streets.

We further recommend that the proceedings for sidewalk and curbing Twentieth Street between "D" and "E" Streets, and Twenty-first Street between "C" and "E" Streets, be postponed until such time as said Twentieth and Twenty-first Streets shall be put to the Official grade between said points.

Respectfully,

J. C. Myers,

D. S. Jones,

J. H. Briggs,

R. P. Sulhew,

B. Bunnell.

The following Report of the joint Street Committee recommending that the City Attorney procure a small strip of land in Kimballs Addition to be used as portions of streets is read and on motion adopted, viz:

San Diego, Cal, Jan. 15th, 1903.

To the Common Council
City:

Gentlemen:-

The joint Street Committee herewith reports that at the intersection of Twenty-fourth street with H, I, J, K, L and M streets there is a small strip of land about four feet wide which projects into the different streets, which is caused by the difference in laying out Kimballs and D. Shermans Additions. We recommend that the City Attorney be instructed to procure these strips of land so that they may be used as portions of streets, thus avoiding a number of jogs.

Present Aldermen Clark, Rainbow, Johnson, Jones, Myers, Sedwington, Perrin & Clerk Goldman.
Absent Aldermen Whitson, & Landis.

The Reading of Minutes of Previous meetings was dispensed with.

In Motion of Alderman Johnson it is Ordered that when this Board adjourns that it do adjourn until February 25th 1903. at 7.30 O'clock P.M.

A joint Resolution giving Permission to the Agricultural Association to construct a frame fence upon the sidewalks in front of the Snyder Building on Sixth Street is read and adopted by the following vote, to-wit:

Ayes Aldermen Clark, Rainbow, Johnson, Jones, Myers, Sedwington & Perrin.

Now None.

Absent Aldermen Whitson & Landis.

Said Resolution as adopted is as follows: viz:
Joint Resolution No. 149v.

Be It Resolved by the Common Council of the City of San Diego, as follows:

That the Directors of the Agricultural Association No. 72, are hereby authorized and permitted to construct a frame fence not to exceed 9 by 26 feet upon the sidewalks in front of the Snyder Building on Sixth Street. Said fence to not obstruct more than three fourths of the sidewalk, and to be removed within 48 hours after the close of the County Fair now about to be held in said Building.

The following Report of the Joint Committee on Gas, Electric Lights and Telephones, to whom was referred various petitions for the establishment of Electric Lights, and for changing the location of other lights is read and adopted, viz:

San Diego, California, Feb. 9th, 1903.

To the Common Council,
City.

Respectfully

The Joint Committee on Rail, Electric Light and Telephone, to whom was referred various petitions for the establishment of electric light, and for changing the location of other lights, herewith reports as follows:

It is recommended that the Board of Public Works be directed to advertise for bids for lighting the streets of the city for the year beginning April 1st, 1903, and that certain changes and alterations to the light now furnished, be made in accordance, viz:

Take a light from the mast of India and "A" streets, and one from the mast of State and Oak streets.

Add New Light as follows:

- One at the intersection of State and Hawthorne streets;
- One at the intersection of Union and "F" streets;
- One at the intersection of Union and Oak streets;
- One at the intersection of First and "H" streets,
- One at the intersection of Sixth and "K" streets,
- One at the intersection of Seventh and "S" streets,
- One at the intersection of Twenty-third and "G" streets,
- One at the intersection of Twenty-fourth and "H" streets,
- One at the intersection of Julian Avenue and Oak street;
- One at the intersection of Kearney Avenue and Virginia street;

The Committee believes that a light suspended from a wire over the center of the intersection of the streets is much preferable to a light extended from a pole on an arm. It has therefore provided that all new light except the one at First and "H" streets be open lights, and recommended that all lights be changed to open lights as fast as possible, when it is practicable to do so; or where breaking or other noise do not interfere.

It is recommended that the petition for a light at front and back streets be denied. It is on the wrong corner, and the light provided for on Union and Oak streets is on the back street.

It is also recommended that the application of No. 8. Motorman, General Manager of the Englewood Railway, for a light at Sixth and "M" streets, be denied. The light maintained by the Electric Light Company at their power house is sufficient for that vicinity at present.

It is also recommended that the application for a light at front and back streets be denied. It is on the wrong corner, and the light provided for on Union and Oak streets is on the back street.

It is also recommended that the application of No. 8. Motorman, General Manager of the Englewood Railway, for a light at Sixth and "M" streets, be denied. The light maintained by the Electric Light Company at their power house is sufficient for that vicinity at present.

It is also recommended that the application for a light at front and back streets be denied. It is on the wrong corner, and the light provided for on Union and Oak streets is on the back street.

Respectfully,
 H. M. Kadin,
 Chas. N. Clark.

Said Ordinance as adopted is as follows, viz:

Ordinance No. 1278.

1278.

An Ordinance Prescribing Certain Regulations for the Laying of Sidewalks and Curbs in the City of San Diego, California, and Repairing Ordinance No. 1120 of the Ordinances of Said City, Approved on the 6th Day of May, 1902.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That it shall be and is hereby declared to be unlawful for any person to lay or put in place any sidewalk or curb in or upon any street in the City of San Diego, California, without first obtaining permission so to do from the Board of Public Works of said City. Any person desiring to construct a sidewalk or curb upon any street in the said City of San Diego shall make application in writing to the said Board of Public Works for permission so to do; said application shall state the place where said sidewalk or curb is to be laid, and the number of feet of said sidewalk or curb to be constructed.

Said applicant shall deposit with the said Board of Public Works the sum of ten dollars (\$10.00 for each one hundred (100) feet of sidewalk and curb, or fractional part thereof where the applicant desires to construct both a sidewalk and curb at the same time in front of the same property, or ten dollars (\$10.00) for each one hundred (100) feet of sidewalk, or fractional part thereof, where the applicant desires to construct a sidewalk without constructing a curb at the same time in front of the same property, or ten dollars (\$10.00) for each one hundred (100) feet of curb, or fractional part thereof, where the applicant does not desire to construct a sidewalk at the same time in front of the same property, as security for the removal of all debris and surplus material from the street in said City when said sidewalk or curb has been constructed, and also as security that said sidewalk and curb shall be laid to the official grade of said street; provided, that in lieu of the cash deposit above specified, any contractor regularly engaged in the business of laying cement or other sidewalks, or in constructing concrete, natural stone, or other curbs in the said City of San Diego, California, may furnish and deliver to the said Board of Public Works a bond payable to the said City of San Diego in the penal sum of two hundred dollars (\$200.00), with two sufficient sureties, to be approved by the said Board of Public Works, as security for the removal of all debris and surplus material from the street in said City when the said work shall have been constructed, and also as security that said sidewalk and curb shall be laid to the official grade of said street.

) That in the event any person giving such bond, or his assigns, shall fail for a period of five days, after the completion of such work, to remove said debris or surplus material from said street, the said Board of Public Works shall cause said debris to be removed from said street, and said person giving said bond and the sureties thereon shall be liable to said City, in a civil action, upon said bond, for the expenses of so removing the same, and in the event that such person giving said bond shall fail to construct said sidewalk or curb to the official grade of said street, and shall fail or refuse for a period of ten days, after having been notified by the owner of the property, in front of which and for whom said work is being done, or his agent, to put and construct said sidewalk or curb to the official grade of said street, then the said owner may put and construct, or cause to be put and constructed, said work to the official grade of said street, and said person giving said bond and the sureties thereon shall be liable upon said bond for all costs and expenses incurred by the owner of said property in putting and constructing said work to the official grade of said street, and also for all damages suffered by said owner on account thereof.

Every bond so executed under the provisions of this ordinance is in force and obligatory upon the principal and sureties therein, to and for the said City of San Diego, and to and for the use and benefit of all persons who may be injured or aggrieved by the person giving said bond failing to remove said debris and surplus material, or to construct said work to the official grade of said street; and any person so injured or aggrieved may bring suit upon such bond in his own name, without any assignment thereof; no such bond

is void on the first recovery of a judgment thereon, but suit may be afterwards brought, from time to time, and judgment recovered thereon by the said City of San Diego, or by any person to whom a right of action has accrued against the principal and the sureties of said bond, until the whole penalty of said bond is exhausted; whenever such bond does not contain the substantial matter or conditions required by this ordinance, or there are any defects in the approval or filing of said bond, it is not void so as to discharge such person giving such bond and his sureties, but they are equitably bound to the said City of San Diego or any party interested, and the said City or such party may, by a civil action in court, suggest the defect in such bond, approval, or filing, and recover the proper and equitable demand or damages from the principal of such bond and the persons who intended to become and were included as sureties in such bond. In the event any obligation of said bond has been violated, the said Board of Public Works shall not thereafter issue any permit to the person giving such bond for doing any other work, unless specifically authorized so to do by said Common Council.

Upon said application being made and said sum being so deposited with the said Board of Public Works, or said bond being so furnished, the said Board of Public Works shall issue a permit to the applicant for the construction of the work described in the application, and shall immediately notify the City Engineer of said City of the issuance of such permit, and thereafter the said City Engineer shall set the grade stakes for the construction of the said work, which stakes shall be to the official grade of said street; and thereafter said work shall be constructed according to the said grade stakes and according to the official grade of said street, and according to the specifications prescribed for doing such work by the ordinances of said City in force at the time such work is done, and not otherwise.

After said work shall have been so constructed, the said City Engineer shall survey the same for the purpose of ascertaining whether said work has been constructed to the official grade of said street, and according to the stakes set therefor. If the said City Engineer shall find that the said work has been constructed according to the official grade of said street, he shall issue, to the person for whom the said work has been constructed, a certificate in writing certifying that fact, but he shall not issue any certificate if he finds that the said work has not been constructed according to the official grade of said street; when the said City Engineer issues such certificate, the said Board of Public Works shall thereafter return said deposit, provided, that said surplus material and debris have been removed from said street upon which said work has been so constructed. If the said City Engineer shall find that the said work has not been constructed according to the official grade of said street, he shall immediately notify the said Board of Public Works of that fact, and said deposit shall not be returned until said work has been constructed according to the official grade of said street, and a certificate issued to that effect by the said City Engineer.

Provided, however, that no permit shall be issued by the said Board of Public Works for the construction of bituminous rock or asphalt sidewalks or wooden curbs; nor shall a permit be issued by said Board of Public Works for the construction of a concrete or other sidewalk or curb after a resolution of intention has been passed by the Common Council of said City to sidewalk or curb that portion of the street upon which the applicant desires to construct such sidewalk or curb, without special permission having been first had and obtained from the Common Council of said City.

The said City Engineer shall charge the regular fees for making such survey and setting such stakes as prescribed by the ordinances of this City, except that no extra fees shall be charged for checking up work after the completion thereof. This ordinance shall not apply to work done under a contract by the Superintendent of Streets under the General Street Law of the State of California, where an assessment is to be levied therefor.

Section 2. That it shall be and it is hereby declared to be unlawful for any person, constructing any sidewalk or curb under any permit issued by the Board of Public Works of said City, as herein provided, to fail or refuse, for a period of five days after the completion of said work, to remove from said street upon which said work has been constructed, all debris or surplus material, or to lay or construct any sidewalk or curb other than to the official grade of the said street.

Section 3. That Ordinance No. 1120 of the ordinances of the said City of San Diego, California, approved on the 6th day of May, 1902, be and the same is hereby repealed.

Section 4. That any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not exceeding the sum of one hundred dollars (\$100.00), or by imprisonment in the city jail of said City for a period not exceeding fifty (50) days, or by both such fine and imprisonment.

Section 5. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 6. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit, the San Diego Union and Daily Bee.

and the recommendation of the joint about committee that the ordi-
nate about that Power House site to purchase for a Park is read and on motion
of Alderman Jones adopted as follows:

San Diego, Cal., Oct. 13th 1903.

To the Common Council
City.

Resolves: The joint Finance Committee, to whom was referred the recom-
mendation of the joint about committee that the ord. should about
Power House site to purchase for a Park, "if the money necessary
can be provided from this year's tax levy," herewith reports as
follows:

The Ordinance assigned to the city by Mrs. P. Hall for this property
to for the sum of \$1,000.00, and "subject to the rate assessed and
due against the said above described property" the Committee has
ascertained that the city tax levied against this property amounts
to more than \$1,000.00, and the state and county tax levied against
said property amounts to about \$1,500.00.

We are of the opinion that the amount necessary to purchase
this property, in addition to cost of carrying the same into a suit-
able Park, would be too great to be provided for in this year's tax
levy. Furthermore we are of the opinion that any sum
which can be raised for Park purposes can be expended to
much better advantage in some portion of our present Park.
We therefore recommend that the proposition be not
acted.

Said Ordinance as adopted is as follows, viz:

Ordinance No. 1794.

An Ordinance Providing Certain Regulations in the Operation of the System of Water Works Owned By the City of San Diego, California.

Be It Ordained By the Common Council of the City of San Diego, as follows:

Section 1. That it shall be and is hereby declared to be unlawful for any person, Company, or Corporation to tap, open, or connect with any water main or pipe which forms any part of the system of water works of the City of San Diego, California, without first obtaining written permission so to do from the Board of Public Works of said City;

That it shall be and it is hereby made unlawful for any person, other than the employees of the said City of San Diego, to turn on any main after the same shall have been turned off, as herein provided, without the consent of the said Board of Public Works of said City; also for any plasterer, Bricklayer, Stone Mason, Concrete layer, Worker in Concrete, or Contractor to take or use water from said system of water works without written permission from the said Board of Public Works; and all owners and occupants of property are hereby prohibited from furnishing

Main for such purposes until the said Board of Public Works has so given permission as to do, it shall also be unlawful for any person or persons to place upon or about any fire hydrant or stop-cock. Connected with the main pipes of the said system of main works any building material or other substance so as to prevent free access to the same at all times, also for any main taker to supply main to any person, Company or Corporation other than the occupant or occupants of the premises of said main taker, or for any person to conduct or carry away any main from any fire hydrant, watering trough, or public fountain without a permit from the said Board of Public Works of said City; or for any person to knowingly permit leaks or wastage of main, or allow main to flow or escape unnecessarily thru washing, pavements, sprinkling lawns, gardens or trees.

That any person violating any of the provisions of this section shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine in a sum not exceeding \$100.00, or by imprisonment in the City Jail of said City for a period not exceeding fifty days, or by both such fine and imprisonment.

Section 2. That any person, Company, or Corporation desiring to have a tap made or service pipe laid and connected with the main or pipes of said system of main works shall make application in writing to the said Board of Public Works the-
 reof, and deposit with such application the amount of the expenses to be incurred therefor as herein provided; that no main or main pipe forming any part or portion of said system of main works shall be opened or tapped except by the employees of the said City of San Diego under the supervision of the Superintendent of main works; that the size of all taps shall be determined by the said Board of Public Works of the said City of San Diego; that the fees to be charged by the said City of San Diego, and collected by the said Board of Public Works in making and placing a tap (which shall include making the aperture in the main and furnishing and placing the tapping cock), shall be as follows:

For one-half inch tap on all kinds of pipe,	\$ 3.00;
For three-quarter inch tap on all kinds of pipe,	\$ 3.50;
For one-inch tap on all kinds of pipe,	\$ 4.00;
For one and one-half inch tap on four inch pipe of all kinds,	\$ 6.00;
For one and one-half inch tap on six inch pipe of all kinds,	\$ 6.50;
For one and one-half inch tap on eight inch pipe of all kinds,	\$ 7.00;
For one and one-half inch tap on ten inch pipe of all kinds,	\$ 8.00;
For one and one-half inch tap on twelve inch pipe of all kinds,	\$ 9.00;
For two inch tap on four inch pipe of all kinds,	\$ 9.00;

For two inch tap on eight inch pipe of all kinds, \$10.00;
 For two inch tap on ten inch pipe of all kinds, \$11.00;
 For two inch tap on twelve inch pipe of all kinds, \$12.00;
 That the Compensation which shall be charged by the said City of San Diego and Collected by the said Board of Public Works for laying all service pipes shall be the actual cost to said City of the Material and labor furnished in so laying said service pipes; which service pipes shall extend from the main main to a point one foot inside of the curb line.

That the property Owner or person making application for a tap or service pipe shall be required to furnish and set without cost to the city on all sidewalks, the whole width of which is paved with bricks, asphalt or concrete, a Cast Iron Cover or frame twenty-five inches by twenty-five inches outside measurement, together with such a foundation of brick or concrete therefor as shall be determined by the said Board of Public Works, for the purpose of enclosing and protecting the curb cord and meter after one is put in place.

That the repair of all service pipes and connections, not covered by the said City of San Diego, within the streets to a foot inside of the curb and all hydrants, faucets, valves, closets, stopcock boxes, and all other attachments inside of a line drawn one foot inside of the curb line shall be kept in good condition and repair at all times by the Owner or Occupant of the premises, and upon failure so to do, after a reasonable notice, the water shall be shut off from the premises, that no person, except the Officers and Employees of the water Department of the said City of San Diego, will be allowed to take off or repair any meter attached to the said system of water works; that if a meter gets out of order and fails to register correctly, the Consumer shall be charged with an average daily Consumption, as shown by the meter when in order under similar conditions; that the said Board of Public Works shall not supply, or allow to be supplied, any water to a tenant of any premises until a written guaranty or bond as security for the payment of all water rates for water furnished upon said premises, or to the tenants thereof, shall be executed and delivered by the Owner of said premises to the said City of San Diego,

Section 3. That any water rate payer shall have the right to demand that the meter, through which such water rate payer is being furnished with water, be examined and tested by the said City of San Diego for the purpose of ascertaining whether or not it is registering accurately and correctly the amount of water, which is being delivered through it by the said City of San Diego to such water rate payer; provided, that when any water rate payer desires to have the said meter so examined and tested, such

Water rate payer shall make application therefor in writing to the said Board of public works, and shall deposit with the said application the sum of one dollar. Upon said application being made, it shall be the duty of the said Board of Public Works to cause said meter to be examined and tested for the purpose of ascertaining whether it is registering accurately and correctly the water being so delivered through it. If upon such examination said meter shall be found to register accurately and correctly by the amount of water which passes through it, the the said sum of one dollar shall be paid into the City Treasury of said City to the credit of the Water Fund thereof, but if it is found upon such examination that the said meter does not register accurately and correctly, then the said sum of one dollar shall be returned to the person making the application. Such application shall be made in writing upon a printed form to be furnished by the said Board of Public Works, and shall designate the place where such meter is located, contain a request that said meter be examined and tested by the said Board of Public Works, and shall be signed by the applicant or his agent. That said Board of Public Works shall cause a copy of this ordinance to be served on all water rate payers.

Section 4. That Ordinance No. 998 of the Ordinances of said City, approved on the 10th day of October, 1901, be and the same is hereby repealed.

Section 5. That this Ordinance shall take effect and be in force from and after its passage and approval.

Section 6. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this Ordinance, to publish or cause the same to be published once in the City Official Newspaper of said City, to-wit the San Diego Union and Daily Bee.

GENERAL PROVISIONS.

Section 2. Any water rate payer shall have the right to demand a meter and pay a meter rate upon tendering the said Board of Public Works the sum of \$5.00 for placing and connecting the meter with the supply pipe of such water rate payer; upon such demand or payment, or the tender of such sum by any water rate payer, it shall be the duty of the said Board of Public Works to furnish, place, and maintain a meter; provided, that the said charge of five dollars shall not apply to any meter the supply pipe of which exceeds three-quarters of an inch in diameter, and that if a larger meter is demanded by any water rate payer, under any provision of this ordinance, such water rate payer shall pay to the said Board of Public Works, for the purpose of placing, connecting, and maintaining such meter, a sum equal to the cost of the meter demanded; provided, that any rate payer who has heretofore paid for placing and maintaining a meter shall not be obliged to pay an additional sum therefor. The said Board of Public Works shall have the right at any time to place a meter on the service pipe of any water consumer, and charge meter rates for water used through it; provided, that such meter shall be placed and maintained at the expense of the said City. Upon the demand of any consumer and the payment or tender of payment of the sum of three dollars (\$3.00), the said Board of Public Works shall place and maintain on the said consumer's supply pipe an air valve, in connection with the meter, of the latest and most improved pattern.

Section 3. That all flat rate payers must pay their water bills for the current month on or before the 20th day of each month; that all meter rate payers shall pay their water bills on or before the 20th day of each month for water furnished for the preceding month; that the said Board of Public Works be, and said Board of Public Works is hereby, authorized and directed to shut off the water from the premises unless such bills are so paid; and not to turn the same on again until the payment of all arrearages and amounts due, and the sum of one dollar for turning on the water; that no water tap or service pipe connected with said system of water works shall be placed nearer than two feet from any sewer pipe ditch in said City.

Section 4. Any employee of the Water Department of said City, when directed by the said Board of Public Works, under this ordinance, shall be allowed free access to make personal examination of the premises of any applicant for or consumer of water for the purpose of designating the rate established and for the inspection of water pipes and apparatus.

Section 5. When water is furnished by meter, the meter shall be read at monthly intervals or at near monthly intervals as the ordinary course of business will permit.

Section 6. That all water rates shall be paid by the owners of the property upon which water is used, or upon a written guaranty to be signed by the owner of the property, that the water furnished upon said property shall be paid for at the rates fixed by this ordinance; that in the event that the owner of the property refuses to agree to pay for the water and refuses to execute such guaranty, then the said Board of Public Works shall have the right to demand, as security for the payment of the monthly water bills when the same is not paid in advance, a sum sufficient to pay the water bill for water used on said property for any month during the year.

Section 7. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 8. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published three (3) times in the City official newspaper of said City, to-wit, the San Diego Union and Daily Bee.

An Ordinance Providing for the Preparation of Plans, Drawings and Cross-sections for the paving of cross-roads and streets of Fifth Street. From the north line of "B" street to the south line of University Avenue except that portion thereof next of the center line of "A" street. is read and on motion of Alderman Myers adopted by the following vote, to-wit:

Absent Aldermen Whitson, Myers and Naudis.

Said Ordinance as adopted is as follows, viz:

**Ordinance No. 1295**

1295

An Ordinance Accepting Certain Streets and Alleys in "First Addition to South La Jolla," in the City of San Diego, California, and Providing for the Endorsement of a Certificate Upon the Map Thereof.

Whereas, Alma L. Boal has subdivided a certain portion of Pueblo Lot numbered 1260 in the City of San Diego, County of San Diego, State of California, and laid the same out into town lots for the purpose of selling the same, she being the proprietor thereof; and

Whereas, the said Alma L. Boal has made out an accurate map and plat thereof, setting forth and describing all the parcels of ground within said subdivision, reserved for public purposes by their boundaries, courses, and extent, and has numbered the lots thereof, giving the precise length and width of each lot; and

Whereas, the said map has been signed and acknowledged by the said Alma L. Boal before a Notary Public and presented to the Board of Public Works of said City, which Board has found and determined that said map conforms to the surrounding surveys; and

Whereas, the said Alma L. Boal has offered to dedicate the certain streets, alleys, and highways, designated on said map, for the use of the public, and has requested this Common Council to accept the same on behalf of the said public,

Now, therefore, be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the following named streets, roads, alleys and highways in the said "First Addition to South La Jolla" shown and offered on the said map and plat of a subdivision of a portion of Pueblo Lot numbered 1260 in the City of San Diego, County of San Diego, State of California, presented to this Common Council, be and the same are hereby accepted on behalf of the public, and that the offer to dedicate and dedication of the same by the owner thereof for the use of the public be and the same is hereby accepted, and the same are hereby declared to be public streets, roads, alleys, and highways in the City of San Diego, County of San Diego, State of

California, which streets are named and described on said map as follows:

- La Jolla Boulevard,
- Monte Viste Street,
- Viste del Mar Street,
- Edgewater Drive,
- Surfton Place,
- Belvedere Avenue,
- Westbourne Avenue,
- Playa De Las Arenas Avenue,
- Beach Way,
- Olivetias Place,
- Sea Lane,

And that the City Clerk of the said City of San Diego, California, be and he is hereby authorized and directed for and on behalf and as the act and deed of this Common Council, to make the following endorsement on said map, and to affix his signature and the corporate seal of said City thereto, which endorsement is as follows:

"City of San Diego,  
 County of San Diego, ) ss.  
 State of California.

The Common Council of the City of San Diego, California, hereby accepts on behalf of the public the following named streets, roads, alleys, and highways, shown on this map and plat, viz:

- La Jolla Boulevard,
- Monte Viste Street,
- Viste Del Mar Street,
- Edgewater Drive,
- Beach Way,
- Surfton Place,
- Belvedere Avenue,
- Westbourne Avenue,

# Regular meeting

Council chamber of the Board of Aldermen of the City of San Diego, California, March 2<sup>nd</sup> 1903.

A Regular meeting of the Board of Aldermen was held this day at 7:30 O'clock P.M. President Brown presiding.

Present: Aldermen Wilson, Rainey, Johnson, Hyatt, Brown and Clark  
Absent: Aldermen Clark, Jones, Daniels, Ed. Dickinson  
Boothman.

The Minutes of Adjourned meeting held January 19<sup>th</sup> 1903 were read and approved.

The following Report of the Special Bond Committee, to whom was referred the question of investigating and reporting the amount of bonds which it would be advisable for the City to issue at this time to read and on motion of Alderman Hyatt approved.

San Diego, California, March 2<sup>nd</sup> 1903  
To the Honorable Common Council  
of the City of San Diego, California.  
Members:

Your Special Bond Committee, to whom was referred the question of investigating and reporting to your Honorable Body the amount of bonds which it would be advisable for the City to issue at this time, beg leave to report to your Honorable Body as follows:

We would recommend that bonds to the extent of \$200,000 be issued for the purpose of improving the system of water works of said City, the proceeds thereof to be applied in improving said system, as shown by that certain instrument, under the name of "Decision No. 3005, filed Feb. 27, 1903, Communication City Engineer, Estimate of Cost of Improvements to Water Distributing System of the City," on file in the office of the City Clerk of said City.

That bonds to the extent of \$69,000 be issued for the improvement of the sewer system, according to that certain instrument and as shown upon said instrument, under the name of "Decision No. 2751, Plans and Estimate, City Engineer, Cost of Sewer System, University Heights Filed Nov. 6, 1902," on file in the office of the City Clerk of said City.

That bonds to the extent of \$7,000.00 be issued for the purpose of improving said sewer system and constructing a

sewer system in the north part of said city, as if appeared and in accordance with the plan thereof, appearing in that certain water-works on file in the office of the said city clerk, endorsed: "Document No. 4150, Plans and estimates, City Engineer. Cost of 9th Ward sewer system filed Nov. 6, 1901"

That bonds to the extent of \$1362.87 be raised for the construction of a sewer and improvement of sewer system in Beaman's choice-  
tax addition in said city, running through the alley in blocks No. 77 and 78, of Beaman's choice, addition and choice running to the north main sewer of the north ward system of sewer, in the alley between

me street and North Avenue, as shown by that certain water-works on file in the office of the said city clerk endorsed: "Document No. 3262, filed Sep. 8, 1901, Geo. S. Ardman, City Clerk by N. M. Vincent, Deputy, Communication from City Engineer giving an estimate of the cost of sewer in blocks 77 and 78 of Beaman's choice addition"

That bonds be raised in the sum of \$600.00 for the purchase  
there of a sewer on fourth street from Beaman's choice to junction  
street.

Also that bonds be raised to the extent of \$1300.00 for sewer  
on Beaman's choice from 2nd street and "B" street to 25th street and "A" street.

The grand total of such bond issues, including engineering  
fee, and engineering, etc., to be \$140,000.00.

That bonds be raised by said city in the sum of \$67,000 for the  
construction of an extended metal concrete conduit in the place of  
the B-street sewer. Said conduit to be constructed according to the  
plan thereof as shown in water-works filed in the office of the  
City Clerk of said city, endorsed as follows: "Communication City  
Engineer, estimate of cost and plan of "B" street conduit. Document  
No. 1057, filed Nov. 11, 1902, Geo. S. Ardman, City Clerk."

We also recommend that bonds be raised by said city  
in the sum of \$5,000 for the construction of two bridges on "B"  
street between 27th and 29th streets, each of said bridges to be on  
abutment of road upon known pile foundation and to be 112 feet  
long and set out wide, according to the plan thereof, appearing  
in that certain water-works on file in the office of the city clerk  
of the said city of our city, endorsed as follows: "Document  
No. 955, filed Feb. 17, 1903, Geo. S. Ardman, City Clerk, by N. M. Vincent,  
Deputy, Communication City Engineer, Plans, Estimates, etc., for  
the grading of "B" street, from 27th to 30th st.

Also that bonds be raised in the sum of \$38,000.00 for  
the construction of sewerage in said city as follows:  
Middleton Boulevard from the intersection of said

omia and Clayton streets to the intersection of Witherby and First Streets, \$1,000.25;

x The Clerk. Presents the affidavits of the Publication and Posting of the resolution of Intention to grade "L" Street from the east line of sixteenth Street to the west line of Twenty-fifth Street, and also the affidavits of the Publication and Posting of the Notice of the Passage of said Resolution of Intention which affidavits were Ordered Filed.

Whereupon a Resolution Ordering the Work of grading "L" Street from the east line of sixteenth Street to the west line of Twenty-fifth Street is read and adopted by the following vote, to-wit:

Ayes Aldermen Whitson, Rainbow, Johnson, Myers, Landis, and Perrin.  
None None

Absent Aldermen Clark, Jones, and Ludington.

Said Resolution as adopted is as follows, viz:

Resolution Ordering the Work.

Of grading "L" Street in the City of San Diego, California, from the east line of sixteenth Street to the west line of Twenty-fifth Street.

Resolved, By the Common Council of the City of San Diego, California, that the Public Interest and Convenience of said City require that the street work hereinafter described be done, and therefore the said Common Council hereby orders the following Street Work to be done in said City, to-wit:

The grading of that portion of "L" Street in the City of San Diego, California, from the east line of sixteenth Street to the west line of Twenty-fifth Street, and the sidewalks thereof, including all intersections of Streets between said points, and the sidewalks of such intersections, except the intersection of the said "L" Street with Nineteenth Street, and the intersection of the said "L" Street with Twentieth Street, and the intersection of the said "L" Street with Twenty-second Street, and also excepting that portion of the said "L" Street between said points which has already been graded to the Official grade thereof, to the Official grade thereof in accordance with the specifications therefor contained in Ordinance No. 1141 of the Ordinances of the said City of San Diego, entitled, "An Ordinance providing specifications for the grading of Streets in the City of San Diego, California," approved on the 17th day of June, 1902.

That there shall be a new Culvert placed across the said "L" Street, the Center line of which Culvert shall be as follows: Commencing at a point on the North line of the said "L" Street 225 feet east of the east line of Twenty-fourth Street, thence running in a straight line in a Southwesterly direction to a point on the South line of the said "L" Street 200 feet east of the said east line of Twenty-fourth Street; said Culvert to be ninety-two (92) feet in length and sixteen (16) inches deep on

the inside, and twenty (20) inches wide on the inside, and shall be constructed of redwood lumber, substantially spiked together and shall be cemented according to the plan therefor found on page two of document No 2571, filed Dec. 10, 1907 in the office of the city clerk of the said city of San Diego, said document being entitled, "New

The Following Report of the Special Bond Committee to whom was referred the matter of arranging the details for the Bond procedure is read and on motion adopted, viz:

San Diego, California March 16<sup>th</sup>, 1903.

To the Honorable Common Council of the City of San Diego, California.

Gentlemen:-

Your Special Bond Committee, to whom you referred the matter of arranging the details for the bond procedure, beg leave to report as follows:

In arranging the details for the procedure we would recommend that bonds be issued in the sum of five hundred thousand dollars as follows: One hundred and ninety-nine thousand dollars for improvements and extensions of the system of water works; one hundred and forty thousand dollars for improvements and extensions of the system of sewers; thirty-nine thousand dollars for the construction of street work, consisting of the building of the boulevards; thirty-seven thousand dollars for the acquisition of land and the construction of buildings for the use of the Fire Department; sixty-six thousand dollars for the construction of the B-street Conduit; five thousand dollars for the construction of the B-street Bridges; fourteen thousand dollars for the acquisition of the City Hall.

In making up these estimates we have reduced the amount of the B-street Conduit from sixty-seven thousand dollars to sixty-six thousand dollars, on account of certain items contained therein which we did not consider could be legally considered as a charge for the construction of this Conduit. We also added one thousand dollars to the street work estimate for putting oil upon the boulevards after they have been graded.

We reduced the estimate for extensions to the system of water works to the sum of One hundred and ninety-nine thousand dollars. At the request of the Fire Department the location of Fire Engine House No. one and Fire Engine House No. Two was changed so that Fire Engine House No. one would take the place of Fire Engine House No. Two as described in our last report. After making an investigation and considering the matter, it was also deemed advisable to add one thousand dollars to the estimate of the cost of the lot to be acquired in the district bounded by "D" street on the North, Third street on the East, "I" street on the South, and Second street on the West, and also to add one thousand dollars to the estimated cost of the lot to be acquired in the district bounded by "B" street on the North, Eighth street on the East, "D" street on the South, and Seventh street on the West. We also deemed it advisable to change the district on Florence Heights so that the lot to be acquired and the building to be constructed thereon would be located between Palm Street on the North, Nutmeg Street on the South, Third street on the East, and Second street on the West. This change was deemed desirable on account of the large canyon lying immediately North of Olive Street.

We have had drafted a joint Resolution determining and declaring that the public interest and necessity of the City of San Diego and the inhabitants thereof demand the acquisition and construction, as the case may be, of these respective improvements, and determining that bonds shall be issued by the City in said respective amounts for said purposes, and declaring the intention of the Common Council to take the necessary proceedings to that end, and we would recommend the adoption of said joint Resolution,

All of which is respectfully submitted.

 J. C. Myers,  
 Dan. F. Jones,  
 J. P. M. Rainbow,  
 A. H. Kayser,  
 J. H. Briggs,  
 W. W. Lewis,

Members of the Special Bond Committee of the  
 Common Council of the City of San Diego, California.

Whereupon a joint resolution determining and declaring that the Public interest and necessity demands the acquisition and construction of certain Public improvements the cost of which is too great to be paid out of the ordinary annual income and revenue of the City during the fiscal year being read is, on motion of Alderman Rainbow, adopted by the following two thirds vote of all the members of this Board. viz:

Ayes Aldermen Clark, Rainbow, Johnson, Jones, Myers, Landis, Ledington  
and Perrin.

Noes None.

Absent Alderman Whitson.

Said Resolution as adopted is as follows, viz:

JOINT RESOLUTION No. 1510.

A RESOLUTION Determining and declaring that the public interest and necessity of the City of San Diego, California, and of the inhabitants thereof, demand the construction of certain ~~municipal~~ improvements and extensions of the system of water works of the said City; also the construction of certain improvements and extensions of the system of sewers of said City; also the construction of certain street work; also the acquisition of land and the construction of buildings for the use of the Fire Department of said City; also the construction of a storm sewer in said city; also the construction of two bridges on B street in said City; also the acquisition of land and a building for a City Hall for said City; that the estimated cost of said improvements and extensions of said system of water works is one hundred and ninety-nine thousand dollars; that the estimated cost of the said improvements and extensions of said system of sewers is one hundred and forty thousand dollars; that the estimated cost of the construction of said street work is thirty-nine thousand dollars; that the estimated cost of said land and the construction of said buildings for the use of the said Fire Department is thirty-seven thousand dollars; that the estimated cost of the construction of the said storm sewer is sixty-six thousand dollars; that the estimated cost of the construction of the said bridges on B street is five thousand dollars; that the estimated cost of said land and building for a City Hall is the sum of Fourteen Thousand Dollars; that each of said respective sums for said municipal improvements will be too great to be paid out of the ordinary annual income and revenue of said City, and the intention of the legislative branch of the government of said City to take proceedings for the acquisition of said real property and the construction of said municipal improvements.

The following report of the Gas, Electric Light and Telephone Committee in the matter of various petitions for the establishment of new lights and the changing of the location of other lights being presented and read is adopted, viz.:

San Diego, California, March 12th, 1903.

TO the Common Council,

City.

Gentlemen:-

The Joint Committee on Gas, Electric Lights and Telephones, to whom was referred several petitions for the establishment of lights herewith reports as follows:

We recommend that the following petitions for the establishment of lights be granted, said lights to be suspended over the intersections at least 25 feet from the ground:

One at the intersection of Nineteenth and H Streets;

One at the intersection of Sixth and Beech streets;

One at the intersection of Thirty-second street and Logan Avenue.

We recommend that the petition for a light at the intersection of Ninth and B streets be denied for the reason that it is only three blocks from the mast at Twelfth and B streets.

We recommend that the action heretofore taken by the Council upon the recommendation of this Committee, in ordering a new span light placed at the intersection of Julian Avenue and Crosby street, be rescinded. Upon investigation we find that the light should be located at the intersection of Irving Avenue and Crosby street, as originally petitioned for, and we recommend that it be so located.

We recommend that the action heretofore taken by the Council upon the recommendation of this Committee, in denying the petition of residents for a new light at the intersection of Front and Date streets, for the reason that it is not the proper corner, be reconsidered. Upon careful examination we find that the intersection of Front and Date streets is the proper corner, and we therefore recommend that a span light be placed at said intersection.

Respectfully,

H. M. Landis,  
Chas. N. Clark,  
W. W. Whitson  
Barker Burnell,  
D. L. Kretsinger.

Whereupon a Joint Resolution authorizing and directing the San Diego Gas and Electric Light Company to change the light provided to be placed at the intersection of Julian and Crosby Street to a span light at the intersection of Irving Avenue and Crosby street is read and, on motion of Alderman Landis, adopted by the following vote:

AYES -- ALDERMEN Whitson, Rainbow, Johnson, Hyers Landis, Ludington and Perrin.  
NOES -- NONE  
ABSENT - ALDERMEN Clark and Jones.

Said Resolution as adopted is as follows:

also the following special castings; one sixteen-inch by sixteen-inch by ten-inch tee; seven sixteen-inch by six-inch tees; four sixteen-inch by <sup>four twelve inch by four-inch tee</sup> four-inch tees; one twelve-inch by six-inch tee; one six-inch tee; one sixteen-inch to twelve-inch reducer; one twelve-inch to eight-inch reducer; one twelve-inch by four-inch cross; one twelve-inch cross; three twelve-inch sleeves; two sixteen-inch gates; four twelve-inch gates; one ten-inch gate; seven six-inch gates; eight four-inch gates; twenty-two gate boxes; one single nozzle hydrant, and four double nozzle hydrants.

Also a water pipe line on Thirtieth street, commencing on National Avenue and running north for a distance of ten hundred and eight feet, consisting of ten hundred and eight linear feet of ten-inch cast iron water pipe; eleven hundred pounds of lead, and seventy-five pounds of hemp;

Also a water pipe line on Thirtieth street between D street and E street, consisting of three hundred and linear feet of twelve-inch cast iron water pipe; four hundred and fifty pounds of lead, and twenty-five pounds of hemp;

Also a water pipe line on University avenue running from Fifth street to University Boulevard, thence from University Boulevard to El Cajon Avenue, consisting of Fifty-nine hundred and seventy linear feet of twenty-six-inch wood pipe; forty-eight linear feet of twenty-four-inch cast iron water pipe; two hundred and fifty linear feet of eight-inch cast iron water pipe; two hundred and eight linear feet of six-inch cast iron water pipe; Sixty-six hundred and thirty-three linear feet of four-inch cast iron water pipe, seventy-five hundred pounds of lead, and four hundred pounds of hemp; also the following special castings; One <sup>six four inch crosses; one eight inch by four inch cross;</sup> twenty-six-inch by twenty-four-inch by eighteen-inch by eight-inch cross; three twenty-six inch by four-inch crosses; one twenty-six inch by eight-inch cross; one twenty-six-inch by six-inch cross; one six-inch by four-inch cross; eleven tees; five twenty-six-inch by four-inch tees; one twenty-six-inch by eight-inch tee; one twenty-four-inch by four-inch tee; four twenty-six-inch bends; one twenty-four-inch <sup>one sixteen inch sleeve;</sup> sleeve; one eighteen-inch to sixteen-inch reducer; one eight-inch to four-inch <sup>one six inch to four inch reducer;</sup> reducer; forty-two four-inch gates; one six-inch gate; five eight-inch gates; one eighteen-inch gate; one Twenty-four-inch gate; one Twenty-six inch gate; and fifty-three gate boxes;

Also a water pipe line on El Cajon Avenue running from University Heights Reservoir to Park Boulevard (except eight hundred feet of Twenty-eight-inch wood pipe already in place) and from University Heights Reservoir to Ohio Street, consisting of Twenty-eight hundred and sixty-five linear feet of twenty-eight-inch wood pipe; seventeen hundred and twenty linear feet of Eighteen-inch wood pipe; one hundred and fifty linear feet of eight-inch cast iron water pipe; one hundred and twenty-five linear feet of six-inch cast iron water pipe; eight hundred and fifty pounds of lead, and fifty pounds of hemp; also the following special castings: One thirty-inch by twenty-eight-inch by eighteen-inch tee; one eighteen-inch by fifteen-inch by fifteen-inch tee; one twenty-eight inch by twenty-six-inch by eight-inch by eight-inch cross; one eight-inch by six-inch tee; two eight-inch gates; one six-inch gate; two twenty-eight-inch gates; two eighteen-inch gates; seven gate boxes, and one six-inch double nozzle hydrant;

Also a water pipe line commencing at the intersection of Twenty-fifth street and K street, thence running along Twenty-fifth street to Grant Avenue; thence running along Grant Avenue to Thirtieth street, consisting of five thousand linear feet of eight-inch cast iron

water pipe; fifty linear feet of six-inch cast iron water pipe; four hundred and twenty linear feet of four-inch cast iron water pipe; fifty-four hundred pounds of lead, and two hundred and seventy-five pounds of hemp; also the following special castings: One ten-inch by eight-inch cross; two eight-inch by six-inch by six-inch by four-inch crosses; two eight-inch by six-inch crosses; two eight-inch by four-inch crosses; four eight-inch by four-inch tees; three six-inch by four-inch tees; three four-inch tees; two eight-inch bends; fifteen four-inch gates; five six-inch gates; <sup>eight eight inch gates;</sup> twenty-eight gate boxes, and nine single nozzle hydrants;

Also a water pipe line on Juniper street running from Fifth street to Arctic street, consisting of thirty-four hundred and fifty-four linear feet of ten-inch cast iron water pipe; eight hundred and forty linear feet of four-inch cast iron water pipe; five hundred and fifty linear feet of trestling; forty-eight hundred pounds of lead, and two hundred and seventy-five pounds of hemp; also the following special castings; ten ten-inch by four-inch crosses; one ten-inch by six-inch cross; one twelve-inch by ten-inch tee; one ten-inch by four-inch tee; five four-inch tees; one twelve-inch sleeve; one four-inch bend; one ten-inch bend; two twelve-inch gates; one ten-inch gate; two six-inch gates; twenty-six four-inch gates; thirty-one gate boxes; and five single nozzle hydrants;

Also a water pipe line running from the intersection of Riley Street and Webster Street in Old Town, sixteen hundred and fifty-six feet in a southeasterly direction, consisting of sixteen hundred and fifty-six linear feet of twelve-inch cast iron water pipe;

Also a water pipe line running from the intersection of <sup>First</sup> Fifth street and Grand Street in Pacific Beach to the intersection of Grand Avenue and Prospect street in La Jolla Park, consisting of twenty thousand three hundred and fifty linear feet of four-inch cast iron water pipe;

Also a water pipe line commencing at a point on the water pipe line now in place, two thousand eight hundred and twenty-two feet north of the intersection of Riley Street and Webster street in Old Town; thence running north along said water pipeline fourteen hundred and eighty feet, consisting of fourteen hundred and eighty linear feet of ten-inch cast iron water pipe;

Also a water pipe line commencing at a point on the water pipe line now in place, six thousand and four hundred and eighty feet north of the intersection of Riley and Webster streets in Old Town; thence running north along said pipe line now in place to the east end of the six-inch kalamein water pipe in place in said pipe line, near the northeast corner of that tract of land known as the "Pacific Beach Race Track", consisting of four thousand and twenty linear feet of ten-inch cast iron water pipe, and ninety-nine hundred linear feet of eight-inch cast iron water pipe.

The construction of the said water pipe line running sixteen hundred and fifty-six feet southeasterly from the intersection of the said Riley street and Webster street, and the said pipe line running from the intersection of Grand street and First street in Pacific Beach to the intersection of Grand Avenue and Prospect street in La Jolla Park, and the said pipe line commencing two thousand eight hundred and twenty-two feet north of the intersection of the said Riley street and Webster street, and thence running north fourteen hundred and eighty feet, and the said pipe line commencing at the said point six thousand four hundred and eighty feet north of the <sup>said</sup> intersection of the said Riley street

and Webster street, and running to the northeast corner of the said Pacific Beach Race Track, will also include twenty-two thousand eight hundred and eighty-six pounds of lead, twelve hundred pounds of yarn, three thousand and four hundred pounds of special castings; ~~two~~ ten inch gates; two eight-inch gates, and six four-inch gates;

Also a water pipe line on Twenty-sixth street running from Boston Avenue to National Avenue, consisting of seven hundred and seventy linear feet of six-inch cast iron water pipe; five hundred and seventy-four pounds of lead; twenty-seven pounds of hemp; one twelve-inch by six-inch cross; one six-inch gate, and one gate box;

Also a water pipe line on Twenty-eighth street, running from Logan Avenue to Webster Avenue, consisting of twenty-six hundred and sixty linear feet of six-inch cast iron water pipe; seventeen hundred and eighty-four pounds of lead, and eighty-four pounds of hemp;

Also a water pipe line on Beardsley street running from Logan Avenue to Julian Avenue, consisting of seven hundred and eighty linear feet of six-inch cast iron water pipe; five hundred and seventy-four pounds of lead; twenty-seven pounds of hemp; one twelve-inch by six-inch cross; one six-inch gate; and one gate box;

Also a water pipe line on Sixteenth street running from Logan Avenue to Milton Avenue, consisting of three hundred and eighty linear feet of six-inch cast iron water pipe; three hundred and ten pounds of lead; fifteen pounds of hemp; one twelve-inch by six-inch tee; one six-inch gate; and one gate box;

Also a water pipe line on D street running from Twelfth street to Fifteenth street, and from Eighteenth street to Twenty-fifth street, consisting of three thousand and three hundred and forty linear feet of six-inch cast iron water pipe; three thousand and three hundred and eighty-one pounds of lead; one hundred and sixty-one pounds of hemp; one twelve-inch by six-inch tee; four six-inch by four-inch tees; two four-inch tees; one eight-inch by six-inch cross; seven six-inch by four-inch crosses; three six-inch crosses; ten six-inch gates; nineteen four-inch gates; twenty-nine gate boxes, and four single nozzle hydrants;

Also a water pipe line on N street, running from Sixteenth street to Twenty-fifth street, consisting of twenty-nine hundred linear feet of six-inch cast iron water pipe; three thousand one hundred and four pounds of lead; one hundred and forty-seven pounds of hemp; one four-inch bend; one twelve-inch by six-inch cross; one six-inch by four-inch cross; two six-inch by four-inch y's; one six-inch by six-inch tee; seven six-inch <sup>by four inch</sup> tees; two four-inch tees; three six-inch gates; twelve four-inch gates; fifteen gate boxes and three single nozzle hydrants.

Also a water pipe line on Campus Avenue running from University Boulevard to Adams Avenue, consisting of forty hundred and fifty linear feet of four-inch cast iron water pipe; fourteen hundred and forty-eight pounds of lead; seventy-two pounds of hemp; five four-inch tees; two six-inch by four-inch crosses; one four-inch cross; nine four-inch gates; nine gate boxes, and five single <sup>nozzle</sup> hydrants;

ALSO A water pipe line on Cleveland Avenue, running from University Avenue to Jackson Avenue, consisting of four thousand linear feet of four-inch cast iron water pipe; nineteen hundred and twenty-one pounds of lead, ninety-six pounds of hemp; one four-inch bend; four four-inch tees; one six-inch by four-inch cross; six four-inch gates; six gate boxes, and four single nozzle hydrants;

Also a water pipe line on Vermont street running from University Avenue to Cyprus Avenue;

consisting of fifteen hundred linear feet of four-inch cast iron water pipe; thirteen hundred and forty-nine pounds of lead; eighty-one pounds of hemp; four six-inch by four-inch crosses; three four-inch tees; seven four-inch gates; seven gate boxes, and three single nozzle hydrants;

Also a water pipe line on Robinson Avenue running from Tenth street to Vermont street, consisting of five hundred and fifty linear feet of four-inch cast iron water pipe; two hundred and eighty pounds of lead; fourteen pounds of hemp; one four-inch tee; one four-inch gate; one gate box, and one single nozzle hydrant;

Also a water pipe line on Thornton avenue running from Richmond street to Tenth street, consisting of twelve hundred and fifty linear feet of four-inch cast iron water pipe; five hundred and sixty pounds of lead; twenty-eight pounds of hemp; one four-inch cross; one four-inch tee; one four-inch gate; one gate box, and one single nozzle hydrant;

Also a water pipe line on Cyprus Avenue running from Richmond street to Tenth street, consisting of twelve hundred and fifty linear feet of four-inch cast iron water pipe; five hundred and thirty pounds of lead; twenty-seven pounds of hemp; one four-inch tee; one four-inch gate; one gate box, and one single nozzle hydrant;

Also a water pipe line on Richmond street running from Thornton Avenue to Cyprus Avenue, consisting of four hundred linear feet of four-inch cast iron water pipe; two hundred and twenty pounds of lead; eleven pounds of hemp; one four-inch cross; one four-inch tee; one four-inch gate; one gate box, and one single <sup>nozzle</sup> hydrant;

Also a water pipe line on Fourth street running from Walnut avenue to Laurel Street, consisting of thirty-six hundred and seventy linear feet of four-inch cast iron water pipe; twenty-one hundred and sixty-one pounds of lead; one hundred and eight pounds of hemp; three four-inch tees; one four-inch cross; one six-inch by four-inch cross; five four-inch gates; five gate boxes, and three single nozzle hydrants;

Also a water pipe line on State street running from Date street to Ash street, consisting of eleven hundred and fifty linear feet of four-inch cast iron water pipe; five hundred and fifty pounds of lead; thirty pounds of hemp; two four-inch tees; three four-inch gates; three gate boxes; and one single nozzle hydrant;

Also a water pipe line on A street running from Twenty-fourth street to Thirtieth street, consisting of four thousand linear feet of four-inch cast iron water pipe; nineteen hundred and eighty-nine pounds of lead; one hundred pounds of hemp; seven four-inch tees; one fifteen-inch by four-inch cross; eight four-inch gates; eight gate boxes, and six single nozzle hydrants;

Also a water pipe line on Franklin Avenue running from N street to Twenty-eighth street, consisting of sixteen hundred and thirty linear feet of four-inch cast iron water pipe; thirteen hundred and forty-nine pounds of lead; eighty-one pounds of hemp; two four-inch gates; two four-inch tees; two gate boxes; two single nozzle hydrants, and one six-inch by four-inch cross;

Also a water pipe line on Irving Avenue running from N street to Twenty-eighth street, consisting of Thirty-nine hundred and eighty linear feet of four-inch cast iron water pipe; nineteen hundred and eighty-seven pounds of lead; one hundred pounds of hemp; six four-inch tees; one four-inch band; two six-inch by four-inch crosses; nine

four-inch gates; nine gate boxes, and five single nozzle hydrants;

Also a water pipe line on Julian Avenue running from Beardsley street to Marcey Avenue, consisting of thirty-eight hundred and forty linear feet of four-inch cast iron water pipe; eighteen hundred and eighty-one pounds of lead; ninety-four pounds of hemp; three six-inch by four-inch crosses; one six-inch by four-inch tee; three four-inch tees; one four-inch Y; seven four-inch gates; seven gate boxes, and four single nozzle hydrants;

Also a water pipe line on Milton Avenue running from Sixteenth street to Twenty-sixth street, consisting of forty-nine hundred and forty linear feet of four-inch cast iron water pipe; twenty-three hundred and fifty-seven pounds of lead; one hundred and eighteen pounds of hemp; one four-inch bend; six four-inch tees; one twelve-inch by twelve-inch by four-inch by six-inch cross; three six-inch by four-inch crosses; one four-inch cross; six four-inch gates; six gate boxes and six single nozzle hydrants;

Also a water pipe line on Thirteenth street running from H street to A street consisting of twenty-six hundred and seventy linear feet of four-inch cast iron water pipe; also eleven hundred and five pounds of lead, and fifty-six pounds of hemp;

Also a water pipe line on Sixteenth street running from H street to A street, consisting of twenty-six hundred and seventy linear feet of four-inch cast iron water pipe; eleven hundred and five pounds of lead and fifty-six pounds of hemp;

Also a water pipe line on Nineteenth street running from C street to N street, consisting of forty-two hundred linear feet of four-inch cast iron water pipe; seventeen hundred and forty pounds of lead, and eighty-seven pounds of hemp;

Also a water pipe line on Twenty-first street running from B street to N street, consisting of forty-seven hundred and eighty linear feet of four-inch cast iron water pipe; nineteen hundred and ten pounds of lead and ninety-six pounds of hemp;

Also a water pipe line on Twenty-second street running from B street to D street and from G street to N street, consisting of thirty-four hundred and thirty linear feet of four-inch cast iron water pipe; fourteen hundred and forty pounds of lead, and seventy-two pounds of hemp;

Also a water pipe line on Tenth street running from A street to Cedar street, and thence on Cedar street to Ninth street, consisting of fourteen hundred and thirty linear feet of four-inch cast iron water pipe; five hundred and fifty pounds of lead; thirty pounds of hemp; one twelve-inch by four-inch tee; one four-inch cross; two four-inch tees; three four-inch gates; three gate boxes, and one four-inch single nozzle hydrant;

Also a water pipe line on L street running from Twenty-fifth street to Thirty-second street, consisting of Forty-six hundred linear feet of four-inch cast iron water pipe; twenty-two hundred and eighty-nine pounds of lead; one hundred and fifteen pounds of hemp; six four-inch tees; one ten-inch by four-inch cross; three four-inch crosses; nine four-inch gates; nine gate boxes, and seven single nozzle hydrants;

Also a water pipe line on Grand Avenue running from Twenty-sixth street to Thirty-second street, consisting of thirty-nine hundred and fifty linear feet of four-inch cast iron water pipe; twenty hundred and fifty-seven pounds of lead; one hundred and three pounds of hemp; one six-inch by four-inch tee; seven four-inch tees; one six-inch by four-inch cross; one four-inch cross; ten four-inch gates; ten gate boxes, and seven single nozzle hydrants;

Also a water pipe line on Marcey avenue running from Julian avenue to Twenty-eighth street, consisting of three hundred linear feet of four-inch cast iron water-pipe; two hundred and twenty pounds of lead; eleven pounds of hemp; one four-inch "Y"; one four-inch gate, and one six-inch by four-inch cross;

Also a water pipe line on A street running from Fifteenth street to Eighteenth street, consisting of eight hundred and fifty linear feet of four-inch cast iron water pipe; three hundred and fifty pounds of lead, and eighteen pounds of hemp;

Also a water pipe line on J street running from Twelfth street to Sixteenth street, and from Seventeenth street to Twentieth street, consisting of twenty-two hundred linear feet of four-inch cast iron water pipe; eleven hundred and fifty pounds of lead; sixty-one pounds of hemp; one six-inch cross; six four-inch crosses; three four-inch tees; six four-inch gates; six gate boxes, and three single nozzle hydrants.

The construction of said improvements and extensions of the said system of water works includes the furnishing of all labor and material, in making all excavations and trenches, and laying and putting in place all of said water pipe, special castings, hydrants, and other material, backfilling the trenches and excavations, constructing the trestling, and completing the whole work in every particular so that the same will be ready for use in furnishing water to the said City of San Diego and the inhabitants thereof.

SECOND: The construction by the said City of San Diego of a certain municipal improvement, that is to say, the construction of certain improvements and extensions of the system of sewers in the said City of San Diego, for the collection and disposition of the sewerage of said City; said system of sewers and the improvements and extensions of said system of sewers, being situated in the City of San Diego, <sup>County of San Diego</sup> State of California, and described more particularly as follows:

A main sewer commencing at the south line of the intersection of Atlantic and Ash streets; running thence on Ash street to Union street; running thence on Union street to Albatross street; running thence on Albatross street to Laurel street; running thence on Laurel street to Fourth street; <sup>running thence on Walnut Avenue to Fifth street;</sup> running thence on Fourth street to Walnut Avenue; running thence on Fifth street to University avenue, consisting of ten thousand eight hundred and eighty linear feet of twelve-inch sewer pipe; twenty-seven hundred and fifty linear feet of ten-inch sewer pipe, three hundred and thirty-four twelve-inch Y's; ninety-one ten-inch Y's; thirty-eight manholes, and one flush tank located at the intersection of Laurel street and Albatross street;

Also one set of pneumatic ejectors located at the intersection of University Avenue and Fifth Street;

Also a main sewer running from the intersection of University avenue and Fifth Street to University Boulevard; thence along University Boulevard and the intersection of University Boulevard and Park Boulevard to El Cajon Avenue, consisting of twenty-one hundred linear feet of Ten-inch sewer pipe; thirty-seven hundred and eighty linear feet of eight-inch sewer pipe; six ten-inch Y's; fifty-two eight-inch Y's; seventeen manholes and one flush tank located at the intersection of Park Boulevard and El Cajon Avenue;

Also a sewer on Sixth street running from the center line of University Avenue thirteen hundred and ten feet south, consisting of thirteen hundred and ten linear feet of

six-inch sewer pipe; fifty-eight six-inch Y's; four manholes, and one flush tank located in said Sixth street at the south end of said line of sewer;

Also a sewer in Thornton Avenue one hundred and seventy-six feet long, running from the center line of Sixth street east, consisting of one hundred and seventy-six linear feet of six-inch sewer pipe; four six-inch Y's; and one manhole;

Also a sewer running from the center line of University Avenue along tenth Street south, for a distance of eight hundred and forty linear feet <sup>consisting of eight hundred and forty linear feet</sup> of eight-inch sewer pipe; eighteen eight-inch Y's; one hundred and ninety linear feet of trestling and five manholes;

Also a sewer in the alley between Essex avenue and University Avenue, running from the center line of Tenth Street to the west line of Richmond street, consisting of twelve hundred and sixteen linear feet of six-inch sewer pipe; forty-four six-inch Y's; one hundred and fifty linear feet of trestling; three manholes, and one flush tank located at the east end of said line of sewer;

Also a sewer in the alley between Essex avenue and Robinson avenue, running from the center line of Tenth street to the west line of Richmond street; consisting of twelve hundred and sixteen linear feet of six-inch sewer pipe; forty-four six-inch Y's; three manholes, and one flush tank located at the east end of said line of sewer;

Also a sewer in the alley between Robinson avenue and Thornton avenue running from the center line of Tenth street to a point two hundred and thirty feet east of the east line of Richmond street, consisting of fifteen hundred and fifty linear feet of six-inch sewer pipe; fifty-four six-inch Y's; four manholes and one flush tank located at the east end of said line of sewer;

Also a sewer on University Avenue running from the west line of University Boulevard to the alley between Park Boulevard and Georgia street, consisting of thirteen hundred linear feet of six-inch sewer pipe; twenty-three six-inch Y's; four hundred and ten linear feet of trestling, and five manholes;

Also a sewer running from the center line of University Avenue through the alley between Park Boulevard and Georgia street to Howard avenue, consisting of two thousand and twenty linear feet of six-inch sewer pipe; seventy-two six-inch Y's; five manholes, and one flush tank located at the north end of said line of sewer;

Also a sewer in the alley between Center street and Park Boulevard, extending from the center line of University Avenue to Lincoln Avenue, consisting of seven hundred and twenty linear feet of six-inch sewer pipe; twenty-four six-inch Y's; two manholes; one hundred and seventy linear feet of trestling, and one flush tank located at the north end of said line of sewer;

Also a sewer in Center street running from the center line of Lincoln avenue to the west line of Park Boulevard, consisting of six hundred linear feet of six-inch sewer pipe; eighteen six-inch Y's; one manhole, and one flush tank located at the northeast end of said line of sewer;

Also a sewer in the alley between University Boulevard and Center street, running from the center line of University Avenue to Campus Avenue, consisting of sixteen hundred and twenty linear feet of six-inch sewer pipe; fifty-six six-inch Y's; four manholes, and one flush tank located at the northeasterly end of said line of sewer;

Also a sewer in the alley between Campus Avenue and Cleveland Avenue, running from the center line of Lincoln Avenue to Mead Avenue, consisting of twenty-two hundred and ten linear feet of six-inch sewer pipe; seventy-eight six-inch Y's; sixty linear feet of trestling; five manholes, and one flush tank located at the north end of said line of sewer;

Also a sewer in the alley between Cleveland Avenue and Maryland Street, running from the center line of the alley running southeast and northwest and parallel to Lincoln Avenue and extending to Mead Avenue, consisting of eighteen hundred and ten linear feet of six-inch sewer pipe; sixty-eight six-inch Y's; one hundred and ninety-two linear feet of trestling; five manholes, and one flush tank located at the north end of said line of sewer;

Also a sewer in the alley north of and parallel to Lincoln Avenue, extending five hundred feet northwesterly from the center line of Cleveland Avenue, consisting of five hundred linear feet of six-inch sewer pipe; ten six-inch Y's; one manhole, and one flush tank located at the northwest end of said line of sewer;

Also a sewer in Cleveland Avenue running from the center line of Vermont Street to *to Maryland Street and parallel to Lincoln Avenue* the alley running from the west line of Cleveland Avenue, consisting of eighteen hundred and fifty linear feet of six-inch sewer pipe; fifty-eight six-inch Y's, and five manholes;

Also a sewer in Vermont street running from the center line of University Avenue to the center line of Cleveland Avenue, consisting of two hundred linear feet of six-inch sewer pipe, and one manhole;

Also a sewer running from the center line of University Avenue along the center line of Tenth street to the alley between Hendricks Avenue and University Avenue; thence running along said alley to Vermont street, consisting of seven hundred and seventy linear feet of six-inch sewer pipe; twenty-two six-inch Y's; one manhole, and one flush tank located at the northeast end of said line of sewer;

Also a sewer commencing in the center of the alley running east and west between Ninth and Tenth streets; and between Monterey Avenue and University Avenue; thence running north through the *running* alley north and south two hundred and twenty-six feet, consisting of two hundred and twenty-six linear feet of six-inch sewer pipe; ten six-inch Y's, and one manhole;

Also a sewer commencing at a point in the center line of the alley running east and west from Eighth street to Ninth street, and between Monterey Avenue and University Avenue; thence running north through the alley parallel to Eighth street and Ninth street, to Monterey Avenue, consisting of six hundred linear feet of six-inch sewer pipe; eighteen six-inch Y's; one manhole, and one flush tank located at the north end of said line of sewer;

Also a sewer running from Eighth street through the alley between University Avenue and Monterey Avenue to Tenth street, consisting of six hundred linear feet of six-inch sewer pipe; twelve six-inch Y's; two flush tanks, one located at the east end of said line of sewer, and one at the west end of said line of sewer;

Also a sewer in Ninth street running from the center line of University Avenue north to the alley running east and west between Monterey Avenue and University Avenue, consisting of one hundred and seventy-six linear feet of six-inch sewer pipe, and one manhole;

Also one flush tank at the intersection of Walnut avenue and Fifth street;

Also a sewer in Front street extending from the center line of Laurel street to Walnut Avenue, consisting of thirty-six hundred and thirty linear feet of eight-inch sewer pipe; seventy-nine eight-inch Y's; six manholes; four handholes, and fourteen hundred and eighty-five linear feet of trestle;

Also a sewer in Walnut Avenue extending from the center line of the alley between First and Second streets, consisting of two hundred and sixty linear feet of six-inch sewer pipe; <sup>of Front street to</sup> <sup>Center line</sup>

Also a sewer in Walnut avenue extending from the center line of Front street to the center line of the alley between First street and Albatross street, consisting of two hundred and sixty linear feet of six-inch sewer pipe;

Also a sewer in the alley between First street and Albatross street running from Walnut Avenue to Robinson Avenue, consisting of nineteen hundred and seventy linear feet of six-inch sewer pipe; forty-eight six-inch Y's; four manholes; two handholes; six hundred and fifty linear feet of trestling, and one flush tank located at the north end of said line of sewer;

Also a sewer in the alley between First and Second streets running from Walnut Avenue to Brookes Avenue, consisting of six hundred and thirty linear feet of six-inch sewer pipe; twenty-four six-inch Y's; two manholes, and one flush tank located at the north end of said line of sewer;

Also a sewer in Brookes Avenue extending from the alley between First street and Albatross street to the alley between Second and Third streets, consisting of seven hundred and ten linear feet of six-inch sewer pipe, and two manholes;

Also a sewer in the alley between First and Second streets, extending from Brookes avenue to University Avenue, consisting of seventeen hundred and sixty-six linear feet of six-inch sewer pipe; fifty six-inch Y's; four manholes, one handhole; and one flush tank located at the extreme north end of said line of sewer; and four hundred and ten linear feet of trestle between Brookes avenue and Thornton avenue;

Also a sewer in the alley between Second and Third streets, extending from Brookes Avenue to University Avenue, consisting of seventeen hundred and sixty-six linear feet of six-inch sewer pipe, sixty-four six-inch Y's; five manholes, and one flush tank located at the north end of said line of sewer; also one hundred linear feet of trestling;

Also a sewer in the alley between Second and Third streets, extending from the center line of Brookes Avenue southerly one hundred and sixty-six feet, consisting of one hundred and sixty-six linear feet of six-inch sewer pipe; six six-inch Y's, and one manhole;

Also a sewer in the alley between Fourth and Fifth streets, extending from a point one hundred and fifty feet north of Brookes Avenue to University Avenue, consisting of fifteen hundred and sixty linear feet of six-inch sewer pipe; sixty-four six-inch Y's; four manholes, and one flush tank located at the north end of said line of sewer;

Also a sewer in the alley between Fourth and Fifth streets, extending from Walnut Avenue to Brookes Avenue, consisting of six hundred and eight linear feet of six-inch sewer pipe; twenty-four six-inch Y's, one manhole and one flush tank located at the south end of said line of sewer;

Also a sewer in the alley between Third and Fourth streets, extending from Walnut Avenue to Brookes Avenue, consisting of six hundred and ten linear feet of six-inch sewer pipe; twenty-

four six-inch Y's; one manhole and one flush tank located at the south end of said line of sewer;

Also an outfall sewer commencing at a point on the center line of Beardsley street twenty feet south of the alley between Railroad avenue and Pierce avenue, thence running in a southwesterly direction four hundred and seventy-five feet, consisting of four hundred and seventy-five linear feet of twenty-inch sewer pipe, and three manholes;

The following report of the Street Committee of this Board in the matter of the ordinance regulating the removal of buildings over the streets of the City is read and adopted, viz.:

San Diego, Cal., April 10th, 1903.

To the Board of Aldermen,

City.

Gentlemen:-

The Street Committee, to whom was referred an ordinance regulating the removal of buildings over the streets of the City, herewith recommends that said ordinance be amended by inserting in Section 2 thereof the words "between 8:30 o'clock a. m. and 4:30 o'clock p. m., and", making the phrase read as follows;

Section 2. It shall be the duty of the owner, or contractor, or party removing any building when telegraph, telephone, electric light, electric railway or other electric wires or poles become obstructions in the way of such removal, to give written notice of such fact to the Board of Public Works by service on the Secretary thereof, and shall also serve written notice on the owners of the Superintendent, Secretary or Managing Agent of the owners of such obstructions between 8:30 o'clock A. M. and 4:30 o'clock P. M., and at least six hours before such building shall reach such obstructions;

We present herewith an ordinance in accordance with this report and recommend that it be adopted.

Respectfully,

F. C. Hyers

Dan F. Jones.

Thereupon an Ordinance regulating the removal of buildings over and along the streets of the City of San Diego is read and, motion of Alderman Jones adopted by the following vote:

AYES -- ALDERMEN Rainbow, Johnson, Jones, Hyers, Landis and Perrin.

NOES -- NONE

ABSENT - ALDERMEN Clark, Whitson and Ludington.

Said ordinance as adopted is as follows:

O R D I N A N C E No. 1 3 2 4.

An Ordinance regulating the Removal of Buildings Over and Along the Streets of the City of San Diego.

BE IT ORDAINED by the Common Council of the City of San Diego as follows:

Section 1. It shall be unlawful for any person or persons to remove or cause to be removed any building over and along any of the streets embraced within the corporate limits of the City of San Diego, California, without first procuring a permit therefor from the Board of Public Works of said City.

Section 2. It shall be the duty of the owner, or contractor, or party removing any building when telegraph, telephone, electric light, electric railway or other electric wires or poles become obstructions in the way of such removal, to give written notice of such fact to the Board of Public Works by service on the Secretary thereof and shall also serve written notice on the owners or the Superintendent, Secretary or Managing agent of the owners of such obstructions between 8:30 o'clock A. M. and 4:30 o'clock P. M., and at least six hours before such building shall reach such obstructions; and the owners of such wires and poles thus notified shall at the time specified in such notice have the requisite linemen and helpers at the place of such obstruction and shall as soon as the building reaches such obstruction cut or remove the same so as to allow the passing of such building, and thereafter repair and replace the same; provided however, that the owner or contractor removing such building, at the time of the service herein required, shall deposit with the Board of Public Works the sum of Ten Dollars out of which sum the said Board shall pay the actual necessary expenses attaching to the removal and repair of the obstructions aforesaid, and if the said sum of Ten Dollars shall not be sufficient for such purpose, then the owner of the building or the contractor shall pay to said Board the additional amount; the owner or owners of such obstructions or obstructions to file with said Board of Public Works an itemized account of such expenses. And provided further that if the owner of such obstruction after the service of such notice shall fail to have the requisite linemen and helpers in attendance at the time specified in such notice and the party removing such building shall be delayed or otherwise damaged by reason of such failure, the owner of such obstruction shall be liable to the party so removing such building for the actual damage resulting from such delay and said owners of such obstruction shall also be liable to the fine and imprisonments hereafter specified and shall not collect from the party removing such building any sum or sums whatever for the expenses attaching to the removal and repairs of such obstruction or obstructions. Provided further, that where such wires or poles become obstructions and are not erected in compliance with the requirements of the law and the ordinances of the City as they shall exist at the time of their becoming such obstructions or where the obstruction consists of a drop wire running across the street to a building, or where on poles required to be 40 feet in length, the wires or cables are lower than thirty feet, then and in any of those events, the party owning said wires or poles shall upon receiving the notice hereinbefore specified be required to remove such obstruction as hereinbefore specified, but shall not be entitled to demand or receive any compensation therefor and for a failure or delay in removing such obstruction shall be liable for damages as hereinbefore specified and subject to fine and imprisonment hereinafter specified.

Section 3. It shall be unlawful for any person or persons to remove a building over and along any street of said City occupied by any street of said City occupied by any street, electric or other railway, so as to interfere with the free operation of cars thereon, without the permit aforesaid; provided, however, that the Board of Public Works shall be empowered to permit such removal upon such street; provided, further, that if the person removing the building shall have given the notice to the owner of the said street, electric or other railway as required by Section 2 hereof, then the permission so granted, shall extend for such a period as may be necessary, not exceeding four hours after the linemen shall commence the removal of such obstructions.

Section 4. That any person or persons violating a provision of this ordinance shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine in a sum not to exceed fifty dollars, or by imprisonment in the city jail of said City not to exceed twenty-five (25) days, or by both such fine and imprisonment.

Section 5. That ordinance No. 216 of the ordinances of said City, approved March 12th, 1888, and all other ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 6. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 7. That the City Clerk of the said City of San Diego be and he is hereby authorized and directed, immediately after the approval of this ordinance to publish or cause the same to be published once in the city official newspaper of said City, to-wit, the San Diego Union and Daily Bee.

-----  
 At this time Alderman Hyers is excused from further attendance at this session.

## O R D I N A N C E No. 1 3 2 5.

AN ORDINANCE granting a franchise to the Southern California Railroad Company (a Corporation), authorizing it to construct, maintain, and operate, for a period of

twenty-five (25) years, a steam railroad along certain streets in the City of San Diego, California.

BE IT ORDAINED BY the Common Council of the City of San Diego, as follows:

Section 1. That the Southern California Railroad Company (a corporation) be and it is, and its successors and assigns be and they are, hereby permitted and authorized to construct, maintain, and operate, for a period of twenty-five (25) years, a railroad track for a steam railroad upon, over, and along the public streets of the City of San Diego, California, hereinafter described, subject, however, to all the conditions and requirements provided by law, made or to be made in such cases, and to all the rights of private ownership. Said railroad tracks shall be laid and constructed upon, over, and along that certain route in the City of San Diego, California, described as follows, to-wit:

Beginning at a point in the center line of main track of the Southern California Railway in the City of San Diego known as Mile Post 268, plus 1369 feet; thence southeasterly on a turn-out curve to the left 79.5 feet, said turn-out curve consuming an angle of 6 degrees 22 1-2 minutes; thence southeasterly on a tangent to said turn-out curve 57.1 feet; thence southeasterly on a 12-degree curve to the left 149 feet; more or less, to the northeasterly line of the 100-foot right of way of the Southern California Railway Company at a point 27 feet, more or less, southeasterly from the intersection of said right of way line with the north line of K street; thence continuing easterly on said 12-degree curve in K street 75.4 feet to a point 21 feet south of said north line of K Street and 43 feet west of the west line of Third Street; thence east parallel to said north line of K street 603 feet to point of ending in the west line of Fifth Street.

The intention of this ordinance is to provide a track franchise for a steam railroad on that certain portion of K street in the said City of San Diego, above described.

Section 2. That the said railroad tracks shall be constructed in such a manner that will present the least obstruction to the free use of said street.

That this franchise is granted on the following conditions: That the said Southern California Railroad Company, its successors and assigns, shall, during the life of said franchise, keep and maintain all portions of said street between the rails of said railroad and for a distance of two (2) feet on each side thereof, in good condition for public convenience and travel; that it shall relay and replace the pavement (if the street is already paved) in laying the ties and rails for such railroad, in as good condition as before said ties and rails were so put in, and that the laying of said track shall in all cases conform to the official grade of said street.

Section 4. That the said City of San Diego hereby reserves the right to change, pave or repave, macadamize or re-macadamize, sewer, or otherwise improve, alter or repair the said street, or any portion thereof, between said points, over which said franchise is granted; such work to be done so as to obstruct the said railroad as little as possible, and the grantee herein shall shift and reshift its said tracks so as to avoid the obstructions made by such work, and in case the said City shall grade, pave or repave, or otherwise improve said street between said points, or any part or portion thereof, the said grantee, its successors or assigns, shall pave or repave, grade and keep in repair the said street between the rails and tracks, and for at least two feet on each side of the same; and provided further, that neither the said Southern California Railroad Company, its successors or assigns,

shall at any time allow cars to remain or stand upon the intersection of the said K street with any cross street between said points for over ten minutes at any one time, except in case of unavoidable accident.

Section 5. That the City Engineer of said City shall give the established grade of said street along the line of construction of said tracks, and set stakes indicating the grade; he shall see that the said railroad tracks are constructed in conformity with the terms and requirements of this ordinance, and for his services as herein required he shall receive such fees as are provided for by the ordinances of said City and the same shall be paid for by the said grantee.

Section 6. That the said Southern California Railroad Company, its successors and assigns, shall be liable for all damages, which may be adjudged in favor of the owner or owners of any property or to other persons, because of the granting of such franchise, or the construction of said tracks; provided, further, that the failure of the said Southern California Railroad Company, its successors or assigns, to comply with all the requirements of this ordinance, shall work a forfeiture of all the rights, powers, and privileges granted hereby, and that thereafter the whole of this ordinance shall be null and void.

Section 7. That the Southern California Railroad Company, its successors and assigns, shall be and are hereby authorized and empowered under this ordinance to use steam, electricity, or other motive power for the purpose of operating a railroad over such right of way.

Section 8. That the Common Council of the said City of San Diego hereby reserves the right to repeal, amend, or modify this ordinance at any time hereafter.

Section 9. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 10. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 11. That the City Clerk of the said City of San Diego be and he is hereby authorized and directed, immediately after the approval of this ordinance to publish or cause the same to be published once in the City official newspaper of said City, to-wit, the San Diego Union and Daily Bee.

An Ordinance granting a Franchise to Charles B. Richards and his successors and assigns, authorizing the construction of a Steam Railroad, along certain streets is read and on motion of Alderman Landis adopted by the following vote, to-wit:

Ayes Aldermen, Rainbow, Johnson, Jones, Myers, Landis  
Ed Perrin

None None

Absent Aldermen Clark, Whitson and Ludington

Said Ordinance as adopted is as follows, viz:

Ordinance No. 1334.

An Ordinance Granting a Franchise to Charles B. Richards, and his successors and assigns, authorizing the construction, maintenance, and operation, for a period of twenty-five years of a Steam Railroad, along certain streets in the City of San Diego, California.

Be It Ordained, By the Common Council of the City of San Diego, as follows:

Section 1. That Charles B. Richards, he and he is, and his successors and assigns he and they are, hereby permitted and authorized to construct, maintain and operate, for a period of twenty-five years, a Railroad track, for a steam railroad, upon, over, and along the public streets of the City of San Diego, California, hereinafter described, subject, however, to all the conditions and requirements provided by law, made or to be made in such cases, and to all the rights of private ownership. Said railroad tracks shall be laid and constructed upon, over, and along that certain route in the City of San Diego, California, described as follows, to-wit:

Commencing on the east line of the intersection of "D" Street with Ninth Street; thence running along a line between the center line of Ninth Street and the curb line of Ninth Street; thence running along Ninth Street between said lines and across the intersection of Ninth Street and "M" Street to the north line of "N" Street; thence to a point on the east line of the intersection of the said Ninth Street with "N" Street twenty feet north of the south line of "N" Street.

The intention of this Ordinance is to provide a track franchise for a Steam Railroad over the route above described.

Section 2. That the said Railroad tracks shall be constructed in such a manner that will present the least obstruction to the free use of the street.

Section 3. That this franchise is granted on the following conditions, viz: That the said Charles B. Richards, his successors and assigns, shall during the life of said franchise keep and maintain all.

portions of said street and street intersections between the rails of said railroad, and for a distance of two feet on each side thereof in good condition for public convenience and travel, and that the laying of said tracks shall in all cases conform to the official grade of said street.

Section 4. That the said city of San Diego hereby reserves the right to change, pave or repave, macadamize or remacadamize, sewer, or otherwise improve, alter or repair said street, or any portion thereof between said points, over which said franchise is granted. Said work to be done so as to obstruct said railroad as little as possible, and the grantee hereby shall shift and reshift said tracks so as to avoid the obstruction made by such work, and in case the said city shall grade, pave or repave, or otherwise improve said street between said points, or any part or portion thereof, the said grantee, his successors or assigns, shall pave or repave, grade and keep in repair the said street between the rails and tracks and for at least two feet on either side of the same.

Section 5. That the City Engineer of said City shall give the established grade of said street and street intersections along the line of construction of said tracks, and set stakes indicating the grade. And he shall see that the said railroad tracks are constructed in conformity with the terms and requirements of this Ordinance, and for his services as herein required he shall receive such fees as are provided for by the Ordinances of said city, which shall be paid by the said grantee.

Section 6. That the said Charles B. Richards, his successors and assigns, shall be liable for all damages which may be adjudged in favor of the owner or owners of any property, or to other persons, because of the granting of such franchise, or the construction of said tracks; provided, that the failure of the said Charles B. Richards, his successors or assigns, to comply with all the requirements of this Ordinance, shall work a forfeiture of all the rights, powers, and privileges granted hereby, and that thereafter the whole of this Ordinance shall be null and void.

Section 7. That the said Charles B. Richards, his successors and assigns, shall be and are hereby empowered under this Ordinance to use steam,

electricity, or other motive power for the purpose of operating a railroad over such right of way and along said route.

Section 8. That the Common Council of said City of San Diego hereby reserves the right to repeal, amend, or modify this Ordinance at any time hereafter.

The following Report of the Joint Ways & Means Committee recommending tax levy for the fiscal year 1903. is read and on motion of Alderman Landis adopted, viz:

San Diego, Cal., May 6<sup>th</sup>, 1903.

To the Common Council,

City,

Gentlemen:-

The Joint Ways & Means Committee, to whom was referred the estimates of the probable necessities

For the various Departments of the City for the fiscal year 1903, upon which to base the rate for Municipal Taxes for said year, herewith reports and recommends as follows:

Upon the total assessment roll for the fiscal year 1903, viz: \$12,533,852, we estimate that there will be a small percentage of delinquencies, and have therefore based our estimates upon \$12,000,000 net valuation.

The investigation of the Committee in the matter of the expenses of the City for the fiscal year 1903, shows conclusively that the most rigid economy in Municipal finances must be practiced by all departments in order to carry the City through the year without a shortage. We earnestly recommend that no appropriation bills be passed by the Common Council unless the expenditures proposed to be made thereby are, after careful investigation, found to be absolutely necessary to properly carry on the work of the City Government.

We recommend that no levy be made for the Police Department fund, the legal fund, and the water fund, as the revenues derived from sources other than taxes will amply provide for these funds.

We recommend that your Honorable Body adopt a rate of \$1.40 upon the \$100 assessed valuation, and that the same be apportioned as follows:

|                                          |         |
|------------------------------------------|---------|
| Fire Department fund                     | .19     |
| Salary fund                              | .20     |
| Street fund                              | .19     |
| Sewer and Drainage fund                  | .01     |
| Street Light fund                        | .16     |
| Park Improvement fund                    | .005    |
| Public Health fund                       | .007    |
| Library fund                             | .05     |
| Public Building fund                     | .02     |
| Office fund                              | .018    |
| General fund                             | .05     |
| School Bond Interest and Sinking fund    | .035    |
| Refunding Bond Interest and Sinking fund | .14     |
| Water Bond Interest and Sinking fund     | .325    |
| Total                                    | \$ 1.40 |

We therefore recommend the adoption of the ordinance presented herewith.

Respectfully submitted,  
 Geo B. Chapman,

Said Resolution as adopted is as follows, viz:

Resolution of Intention.

To change the grade of "H" Street in the City of San Diego, California,  
At a point on the North line thereof 250 feet East of the North-  
East Corner of Twenty-Second Street and "H" Street.

Whereas, the Owners of a majority of the Property affected by  
the herein proposed change of that portion of "H" Street in the  
City of San Diego, California, at a point on the North line thereof  
250 feet east of the Northeast Corner of Twenty-Second Street and "H"  
Street, have petitioned your Honorable Body to change and establish  
the grade of the said "H" Street at the said point; and

Whereas, the Common Council of the said City of San Diego here-  
by finds that said petition contains the names of the owners  
of a majority of the Property affected by the said proposed  
change of grade,

Now, therefore, Be It Resolved, By the Common Council  
of the City of San Diego, as follows:

That it is the intention of the Common Council  
of the said City of San Diego to change and establish the grade  
of that portion of the said "H" Street in the said City of San Diego,  
at the said point on the North line of the said "H" Street, 250  
feet east of the Northeast Corner of Twenty-Second Street and  
"H" Street, as follows:

At the said point on the North line of "H" Street 250  
feet east of the Northeast Corner of Twenty-Second Street and  
"H" Street, change the grade elevation from 120 feet above the  
datum line of levels as fixed by Ordinance No. 3 of the  
Ordinances of the said City of San Diego, entitled, "An  
Ordinance establishing a datum line for the grading  
of streets in the City of San Diego, State of California,  
and providing for the manner of establishing grades  
by Ordinance," approved on the 20th day of June, 1886,  
to 122 feet above the said datum line of levels.

That the grade of the said "H" Street on the North  
line thereof, 25 feet east of the Northeast Corner of  
Twenty-Second Street and "H" Street, be fixed, established,  
and remain as it now is, that is to say, that the grade  
of the said "H" Street at said point shall be and re-  
main at 116.40 feet above said datum line of levels.

That the grade elevations at all points heretofore  
fixed by the Ordinances of said City shall be and re-

main as they now are on the said "H" street, except as herein proposed to be changed.

That there shall be a uniform ascent and descent between the points at which the grade elevations shall have been so established on the said "H" street when the grade elevations shall have been so changed.

That the district to be benefited by the said proposed change of grade, and to be assessed to pay the cost of the same, is hereby designated and established as follows:

Commencing at a point where the north line of "H" street intersects the east line of Twenty-second street; thence running north along the said east line of Twenty-second street to the north line of Sherman's Addition to the said City of San Diego; thence running east along the said north line of Sherman's Addition to a point where the said north line of Sherman's Addition intersects the west line of Twenty-fourth street; thence running south along the said west line of Twenty-fourth street to a point where the said west line of Twenty-fourth street intersects the said north line of "H" street; thence running west along the said north line of "H" street to the place of beginning.

R E S O L U T I O N O F I N T E N T I O N

To change the grade of "K" street in the City of San Diego, California, at a point thereon where the south line of the said "K" street intersects the east line of Twelfth street, and at a point where the said south line of "K" street intersects the west line of Thirteenth street.

WHEREAS, The owners of a majority of the property affected by the herein proposed change of grade of that portion of "K" street in the City of San Diego, California, at a point thereon where the south line of the said "K" street intersects the east line of Twelfth street, and at a point where the said south line of "K" street intersects the west line of Thirteenth street, have petitioned the Common Council of the City of San Diego, California, to change the grade of that portion of the said "K" street at the said points; and

WHEREAS, The said Common Council of the said City of San Diego hereby finds that said petition contains the names of the owners of a majority of the property affected by the said proposed change of grade,

NOW, THEREFORE, BE IT RESOLVED, That it is the intention of the Common Council of the said City of San Diego to change and establish the grade of that portion of the said "K" street in the said City of San Diego at a point thereon where the south line of the said "K" street intersects the east line of Twelfth street, and at a point where the said south line of "K" street intersects the west line of Thirteenth street, as follows:

At a point where the south line of "K" street intersects the east line of Twelfth street change the grade elevation from 19.50 feet above the datum line of levels as fixed by Ordinance No.3 of the ordinances of the said City of San Diego, entitled, "An ordinance establishing a datum line for the grading of streets in the City of San Diego, State of California, and providing for the manner of establishing grades by ordinance," approved on the 30th day of June, 1886, to 18.50 feet above said datum line of levels.

At a point where the south line of "K" street intersects the west line of Thirteenth

street change the grade elevation from 12 feet above said datum line of levels to 11.5 feet above said datum line of levels.

That the grade elevations of all points heretofore fixed by the ordinances of said city shall be and remain as they now are on the said "K" street, except as herein specified to be changed.

That there shall be a uniform ascent and descent between the points at which the grade elevations shall have been so established on the said "K" street when the said grade elevations shall have been so changed.

That the district to be benefitted by said proposed change of grade, and to be assessed to pay the cost of the same, is hereby designated and established as follows:

An Ordinance amending section 13 of Ordinance No.1127 of the ordinances of the City of San Diego, California, approved on the 3rd day of June, 1902.

B E I T O R D A I N E D, By the Common Council of the City of San Diego, as follows:

Section 1. That section 13 of Ordinance No.1127 of the ordinances of the City of San Diego, California, approved on the 3rd day of June, 1902, entitled, "An ordinance prescribing regulations in making connections with the public sewers, and for plumbing in the City of San Diego, California," be and the same is hereby amended to read as follows:

Section 13. That every waste pipe shall be of cast iron or lead. All lead pipe connections must be made with a wiped joint. No solder or bolt joint will be allowed. Safe wastes may be of wrought iron. All cast or wrought iron pipes and fittings for waste, vent, or soil pipe must be coated both inside and outside with coal-tar pitch, applied hot, or some equivalent substance. All connections of lead with iron pipe must be made with a brass ferrule of the same size as the lead pipe and caulked into the iron pipe, and connected with the lead pipe by a wiped joint. Reduced ferrules are strictly prohibited. Every line of vent and soil pipe must extend full bore to six inches above the highest ridge of the roof, as hereinafter provided. Or in case of a building having a flat roof and fire walls, then two feet above the fire walls. In every building there shall be at least one four-inch cast iron pipe running from the sewer to a point six inches above the highest ridge of the roof, where a water closet is located in said building, (except buildings having a flat roof and fire walls). In all new buildings (except buildings having a flat roof and fire walls) every line of vent and soil pipe must run to the roof and, where at least a sixth bend can be used to make turn, continue under the roof to a point six inches from the ridge of the roof and thence run through the roof perpendicular to a point six inches above the ridge of the roof. In all buildings built of one thickness of one inch lumber, and in all buildings (except buildings having a flat roof and fire walls) where new plumbing is put in, and in all buildings where additional plumbing is put in after the roof has been constructed, other than that for the construction of which the original contract was made (except buildings having a flat roof and fire walls) every vent and soil pipe must run perpendicular from the sewer or fixture to a point six inches above the highest point of the roof. Where there is only one water closet on a four-inch stack the stack will vent said closet. If there is more than one closet on a stack, each and every closet shall be vented with a two-inch vent. In no case shall a fixture be located more than two feet from its vent. In case an adjoining building, within fifty feet of said pipe, extends one or more stories higher than the building in which the said soil or vent pipes are located, then the said pipes must be carried three feet above all openings or gutters of the highest building and securely fastened, so as to prevent them from falling, by proper guys and support. One inch and a half vents shall be galvanized iron. All other vents shall be of cast iron. The pipes must be enclosed within buildings. This applies also to running pipes under the roof, where a sixth bend can be used. All connections with traps must be made to main, soil, waste, or vent pipes by means of lead-caulked joints. Tap-tees are prohibited. No other trap shall be used except the one called for in this ordi-

nance. All soil, waste, vent, or drain pipes inside and outside of the building, from the property line, before being covered up, must have all openings stopped up and filled with water. This test must be made in the presence of the Plumbing Inspector. In all cases where the Plumbing Inspector is not satisfied with the water test, he may use the smoke or pepper-mine test. All house drains shall, after being laid, be allowed to remain uncovered until inspected by the Plumbing Inspector. Notice must be given the Plumbing Inspector when the work is sufficiently advanced for inspection, and every facility must be given the Plumbing Inspector to make a thorough inspection, that is, if any pipes are covered with flooring, siding or lath, or in any way covered that will tend to obstruct a thorough inspection of the plumbing, the said obstruction will have to be removed before the Plumbing Inspector inspects the work. When pipes have been tested in sections, there shall be another test made when connections are ready to be made with the main sewer. Immediately upon completion of the work, notice must be given the Plumbing Inspector for his final inspection. It shall be the duty of plumbers to report to the Plumbing Inspector the replacing of old closets with new closets, or old bath-tubs with new bath-tubs, or old sinks with new sinks, or any other old fixture with a new fixture, in order that the work of replacing the old material with new material may be inspected by the Plumbing Inspector.

Section 2. That every person violating any of the foregoing provisions of this ordinance shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine in any sum not exceeding two hundred dollars (\$200.00), or by imprisonment in the city jail of said city for a period not exceeding one hundred (100) days, or by both such fine and imprisonment.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said city, to-wit, the San Diego Union and Daily Bee.

Ayes. Crippin, Steade, Fernis, Jones, Myers, Landis, Kelly and Johnson  
 Noes. none  
 Absent. Alderman, Rainbow.

Said Resolution as adopted is as follows viz;

Resolution of Intention

To change the grade of Front Street in the City of San Diego, California, at a point on the West line thereof 150 feet north of the northeast corner of Third and Front Streets, and at a point on the east line thereof 150 feet north of the northeast corner of Third and Front Streets.

Whereas, the owners of a majority of the property affected by the herein proposed change of grade of Front Street in the City of San Diego, California, at a point on the West line thereof 150 feet north of the northeast corner of Third and Front Streets, and at a point on the east line thereof 150 feet north of the northeast corner of Third and Front Streets, have petitioned the Council of the City of San Diego, California, to change the grade of that portion of said Front Street between said points; and whereas, the Council of the City of San Diego finds that the said petition contains the names of the owners of a majority of the property affected by said proposed change of grade, now, therefore, be it resolved, that it is the intention of the Council of the City of San Diego to change and establish the grade of that portion of said Front Street in said City of San Diego at a point on the West line thereof 150 feet north of the northeast corner of Third and Front Streets, and at a point on the east line thereof 150 feet north of the northeast corner of Third and Front Streets, as follows:

At a point on the West line of Front Street 150 feet north of the northeast corner of Third and Front Streets change the grade elevation from 103 feet above the datum line of levels as fixed by Ordinance No. 3, of the Ordinance of the City of San Diego, entitled "an ordinance relating to a datum line for the grading of streets in the City of San Diego, State of California, and providing for the manner of establishing grades by ordinance" approved June 30th, 1886, to 105 feet above said datum line of levels;

At a point on the east line of Front Street 150 feet north of the northeast corner of Third and Front Streets change the grade elevation from 103 feet above the datum line of levels as fixed by Ordinance No. 3, of the Ordinance of the City of San Diego, entitled "an ordinance relating to a datum line for the grading of streets in the City of San Diego, State of California, and providing for the manner of establishing grades by ordinance" approved June 30th, 1886, to 105 feet above said datum line of levels;

At a point on the east line of Front Street 150 feet north of the northeast corner of Third and Front Streets change the grade elevation from 103 feet above the datum line of levels to 105 feet above said datum line of levels. The grade of all points hereof are

fixed by the ordinances of said City shall be and remain as they now are on said Front Street, except as herein provided to be changed.

That there shall be a <sup>and descent</sup> uniform ascent between all points at which the grade elevations shall be so established.

The district to be benefitted by said proposed change of grade, and to be assessed to pay the cost of the same, is hereby designated and established as follows:

Commencing at point where the north line of Fir Street intersects the west line of Front Street, thence running west along the said north line of Fir Street for a distance of 100 feet; thence running at right angles north and parallel to the said west line of Front Street to a point on the south line of Grape Street 100 feet west of the point where the said south line of Grape Street intersects the said west line of ~~Front~~ Street; thence running at right angles east along the <sup>said</sup> south line of Grape Street to a point on the said south line of Grape Street 100 feet east of the point where the said south line of Grape Street intersects the east line of Front Street; thence running at right angles south and parallel to the said east line of Front Street to a point on the north line of Fir Street 100 feet east of the point where the said north line of Fir Street <sup>intersects the said east line of Front Street</sup>; thence running west along the said north line of Fir Street to the place of commencement.

The City Clerk of said City is hereby directed to cause this Resolution of Intention to be published for ten (10) days in the newspaper in which the official notices of the Common Council of said City are usually printed and published, to wit, The San Diego Union and Daily Bee, a daily newspaper published and circulated in said City in every regular issue of said newspaper during said period of ten days, which newspaper is hereby designated as the newspaper in which this Resolution of Intention shall be published in the manner and by the person required by law.

The Superintendent of streets is hereby ordered and directed, within five days after the first publication of this Resolution, to cause to be conspicuously posted in the manner and form required by law within the district herein above designated as the district to be benefitted by the proposed change of grade, notices of the passage of this Resolution.
