

Ordinance No 877.

An Ordinance proposing on the part of the City of San Diego California, To buy of and from The San Diego Water Company its entire system of Waterworks in the City of San Diego California, and every part and portion thereof, including all real and personal property forming any part or portion thereof, of every description and kind whatsoever, and to pay therefor the sum of Five Hundred thousand (\$500,000.00) Dollars,

Whereas, the San Diego Water Company is the owner of a system of water works in the City of San Diego, California, which of itself is inadequate to supply the said City of San Diego and its inhabitants with water, and

Whereas, the said City of San Diego is desirous of acquiring the ownership of said system of water works owned by the said San Diego Water Company, and

Whereas, it is the desire of the Common Council of the said City of San Diego to make an offer of \$500,000.00 to the said San Diego Water Company for the purchase of said system of water works,

Now, Therefore, It is Ordained, By the Common Council of the City of San Diego, as follows,

Section 1. That the City of San Diego, California hereby offers to buy from the San Diego Water Company the entire system of water works and property of said Company, used by it in supplying water to said City and its inhabitants, and agrees to pay therefor the sum of Five Hundred thousand (\$500,000.00) Dollars upon perfect title to said property being conveyed to said City, free from all liens and encumbrances, said sum to be paid out of the proceeds of the sale of Bonds to be issued by said City for that purpose, said property shall consist of the entire system of water works of the said San Diego Water Company, including its entire distributing system, reservoirs, all pipe laid and in place, all gates, taps, including stop-cocks and stop-cock boxes, and all meters, fittings, specials and castings in place, and

forming a part of said system of water works, also all rights of way for pipe lines, all pump and pumping machinery in place, and all pumping plants, pump houses, wells, tunnels, flumes, aqueducts and Conduits, forming any part or portion of said system of water works, and now being used in supplying said City and its inhabitants with water, also all real estate necessary for rights of way, reservoir sites, building sites, blacksmith shop sites, and well sites, or for any other purpose or purposes for which said real estate is now being used as a part of or in conjunction with said system of water works, in any manner whatsoever, directly or indirectly, in furnishing water to the said City of San Diego and its inhabitants, including all land and rights in or to land in Mission Valley in said City, used in connection with said system of Water Works, or water rights in and to, or upon land in Mission Valley, or upon the San Diego River, whether in said City or outside thereof, or rights to excavate wells on lands in Mission Valley and to take water therefrom, Also all other property, whether real, personal or mixed, of every name and nature whatsoever, which forms a part or portion of said system of Water Works, or is used in connection therewith in furnishing water to the said City of San Diego and its inhabitants, It being the intention of the said Common Council that said property shall include all property real, personal and mixed, of which said system of water works is composed, or which forms any part or portion thereof, and which is now in use, or has been heretofore used by the said San Diego Water Company in furnishing water to the said City of San Diego and its inhabitants.

That the said San Diego Water Company be and said Company is hereby requested to furnish said Common Council with an answer to this proposal within thirty (30) days from the approval hereof.

Section 2. That this Ordinance shall take effect and be in force from and after its passage and approval.

Section 3. That the City Clerk of the said City of San Diego, California, be, and he is hereby authorized and directed, immediately after the approval of this Ordinance, to serve upon the said San Diego Water Company, a

Ordinance No 829.

An Ordinance proposing on the part of the City of San Diego California, to buy of and from The Southern California Mountain Water Company, a supply of water for the use of the said City of San Diego, and its inhabitants, at the rate of four cents per thousand gallons, for a period of five (5) years,

Whereas, The Southern California Mountain Water Company, is the owner of a supply of water from which the said City of San Diego, is desirous of purchasing a supply of water for the use of the said City and its inhabitants, and

Whereas, it is the desire of the Common Council of the said City of San Diego to make an offer to the said Southern California Mountain Water Company, for the purchase thereof,

Therefore, Be it Ordained, By the Common Council of the City of San Diego, as follows,

Section 1. That the City of San Diego, California, hereby offers to buy from the Southern California Mountain Water Company, for a period of Five (5) years, all the water said City shall need for its own use and the use of its inhabitants, and to pay therefor the sum of four (4) cents per thousand gallons, provided, that said water shall be pure, fresh, wholesome water and furnished under a continuous and regular flow at a point within and near the eastern boundary limits of said City of San Diego, and at an elevation or pressure sufficient to deliver water under pressure upon any part of the land on Point Loma, said point of delivery to be fixed by the said City of San Diego, and said water to be delivered at said point, said water to be measured by a meter to be placed and maintained by the said City of San Diego,

But nothing in this offer shall prevent the said City of San Diego from acquiring water from some other source in the event that the water so furnished by the said Southern California Mountain Water Company, is not pure, fresh, wholesome water, or if said Company does not furnish said City with all the water it may need for the use of said City and its inhabitants, or prevent said City from pumping sufficient water with any system of water works, or pumps, or pumping plants which it

may own in order to keep said pumping plants or systems of water works, or any machinery connected therewith in good condition,

This offer, however is contingent and conditional upon the said City of San Diego acquiring a complete water distributing system,

That the said Southern California Mountain Water Company, Inc. and said Company is hereby requested to furnish said Common Council with an answer to this proposal within thirty (30) days from the approval hereof.

Section 2. That this Ordinance shall take effect and be in force from and after its passage and approval.

Section 3. That the City Clerk of the said City of San Diego, California, be and he is hereby authorized and directed immediately after the approval of this ordinance, to serve upon the said Southern California Mountain Water Company, a Certified Copy hereof.

**Ordinance No. 830.**

An Ordinance Authorizing the Board of Public Library Trustees of the City of San Diego, California, to Advertise for Bids and Let a Contract or Contracts for the Furnishing of the Labor and Material in the Erection and Equipment of a Certain Building for a Public Library Upon the South Half of Block 47 of Horton's Addition to the City of San Diego, California, According to the Plans and Specifications Thereof Prepared by Messrs. Ackerman and Ross, Architects of New York City, and Endorsed on the Back Thereof "Amended Plans and Specifications for the Erection and Equipment of a Building for the Public Library and Reading Room of the City of San Diego, California."

Whereas, the Common Council of the City of San Diego, California, by Ordinance No. 790, entitled "An Ordinance authorizing the Board of Library Trustees of the City of San Diego, California, to advertise for bids and let a contract or contracts for the furnishing of labor and material in the erection and equipment of a certain building for a public library upon the south half of Block 47 of Horton's Addition to the City of San Diego, California," approved on the 17th day of July, 1900, gave its consent and approval to and authorized and empowered the Board of Library Trustees of the said City of San Diego to advertise for competitive bids and proposals and let a contract for the erection and equipment of a building for a public library and reading room upon lots lettered D, E, F, G, H and I, in Block 47, being the South half of said Block, in the said Horton's Addition of the said City of San Diego, according to the plans and specifications therefor prepared by Messrs. Ackerman and Ross, Architects of New York City, and endorsed on the back thereof, "Plans and Specifications for the erection and equipment of a building for the public library and reading room of the City of San Diego, California"; provided that the cost of the erection and equipment of said building should be paid only out of the sum of \$50,000.00 donated by Andrew Carnegie; and,

Whereas, pursuant to said Ordinance, the said Board of Library Trustees advertised for bids for the purposes of letting contracts for the construction of said building according to said plans and specifications; and,

Whereas, the bids received pursuant to such advertisement in the aggregate amounted to \$65,709.73, which amount is far in excess of the amount appropriated by the said Andrew Carnegie for that purpose; and,

Whereas, the said Board of Library Trustees rejected all of said bids and had such plans and specifications modified and amended so that the cost of the building to be constructed in accordance therewith would not exceed the said sum of \$50,000.00, which said plans and specifications as so modified and amended, have been adopted and approved by the said Board of Library Trustees; and,

Whereas, the said Board of Library Trustees desires the authority and consent of this Common Council to advertise for bids and let a contract for the construction of said building according to said modified and amended plans;

Therefore, be it ordained by the Common Council of the City of San Diego as follows:

Section 1. That the Common Council of said City of San Diego, California, being the legislative authority and branch of said City of San Diego, hereby gives its consent and approval to, and hereby authorizes and empowers the said Board of Library Trustees to advertise for competitive bids and proposals and let a contract or contracts for the erection and equipment of a building for a public library and reading room upon lots lettered D, E, F, G, H and I, in Block numbered 47, in Horton's Addition in the City of San Diego, California, according to the plans and specifications therefor as amended and modified and as prepared by Messrs. Ackerman and Ross, Architects of New York City, and endorsed on the back thereof, "Amended plans and specifications for the erection and equipment of a building for the public library and reading room of the City of San Diego, California"; provided that the cost of the erection and equipment of said building shall be paid out of the sum of \$50,000.00 which the said Andrew Carnegie has offered to donate and donated and given to the said City of San Diego, \$10,000.00 of which sum has already been paid into the treasury of said city and to the credit of the Library Fund thereof; and that said sums of money so acquired by said city by gift and donation for said purposes shall be deposited in the Treasury of said city and to the credit of the Library Fund thereof, and shall be used only for the purpose or purposes for which said money has been donated and given, and shall be paid out of the said treasury only upon verified orders and demands duly authenticated by said Board of Library Trustees and duly audited and allowed by the Auditing Committee of said City of San Diego; and provided further that the notice calling for such competitive bids and proposals and the contract or contracts to be entered into pursuant

thereto or pursuant hereto, shall contain a provision that all the money to be paid for such contract work and for the furnishing of the labor and material in the erection and equipment of said building, shall be paid for only out of the money so donated and given, and so offered to be donated and given, by the said Hon. Andrew Carnegie for said purpose, and that neither the said City of San Diego, nor the said Board of Library Trustees, nor any of the members thereof, nor any of the officers of said city, shall be liable in any manner, for any of said money, to be paid or to become payable under said contract or contracts; except as so donated and so offered to be donated by the said Hon. Andrew Carnegie, and that said advertisement and notice shall invite sealed proposals and bids to be delivered on a certain day and hour at the office of the said Board of Library Trustees for the furnishing of the supplies and materials and labor, and for the work to be done, and for doing said work in the erection and equipment of said building, and shall contain a general description of the work to be done, and the materials or supplies to be furnished, and the time within which said work is to be commenced and when to be completed, and the amount of bonds to be given for the faithful performance of said contract or contracts, and shall refer to said plans and specifications on file in the office of said Board of Library Trustees for a full detail and description of said work and materials; that all proposals shall be made upon a printed form to be prepared by the said Board of Library Trustees and furnished gratuitously upon application with a form of an affidavit printed thereon that the bid of such person, company or corporation furnishing such bid or proposal is genuine and not sham or collusive, or made in the interest or on behalf of any person not therein named, and that the bidder has not directly or indirectly induced or solicited any other bidder to put in a sham bid, or any other person or corporation to refrain from bidding and that the bidder has not in any manner sought by collusion to secure to himself any advantage over other bidders; that any bid made without such affidavit or in violation thereof, shall be absolutely void, and also any contract let thereunder; that if at any time discovery shall be made that a contract has been let to a bidder who has violated or evaded this oath, the contract shall be cancelled and no recovery shall be had thereon; and the said Board of Library Trustees shall at once proceed as before to award a new contract; that all proposals offered shall be accompanied by a check certified by a responsible bank, payable to the order of the President of said Board of Library Trustees, for an amount not less than five per cent (5 per cent) of the aggregate of the proposal, as a guarantee that the bidder will enter into a contract according to his bid and furnish the bond or bonds specified in such notice, and no proposal shall be considered unless accompanied by such check; that no person, company or corporation shall be allowed to make, file or be interested in more than one bid for the same work, and that if on the opening of said bids more than one bid appears in which the same person, company or corporation is interested, all such bids shall be rejected; said notice shall also state that the said Board of Library Trustees reserves the right to reject any and all bids for any of said work; that all contracts shall contain, detailed specifications of the work to be done, the manner in which it shall be executed, and the quality of the supplies and materials to be used, and no change or modification in the plans or specifications shall be made after proposals for doing the work have been called for; that all contracts shall be signed in triplicate, one of which, with the specifications and drawings shall be filed with the said Board of Library Trustees, and one with the City Clerk, and one with the specifications and drawings shall be delivered to the Contractor; that at the same time, with the execution of said contract, said Contractor shall execute to said city and deliver to the said Board of Library Trustees, a joint and several bond in the sum named in the Notice of Proposals, with two or more sufficient sureties to be approved by the said Board of Library Trustees, or shall deposit with the said Board of Library Trustees, a certified check upon some solvent bank for said amount for the faithful performance of said contract; that no surety on any bond shall be taken unless he be a resident and householder or free holder within the said State of California, and worth the sum specified in the said bond over and above all just debts and liabilities, exclusive of property exempt from execution, and each surety shall justify and make and sign an affidavit to that effect, of which affidavit a form shall be printed upon said bond. But if the amount specified in the bond exceeds the sum of \$3,000.00, and there are more than two sureties thereon, they may state in their affidavits that they are severally worth amounts less than that expressed in said bond, if the whole amount thereof be equal to two sufficient sureties; that the contract for the furnishing of said labor and materials and for the said work, shall specify the time within which the work shall be commenced and when to be completed, as specified in the said

notice inviting proposals therefor; that all other details and specifications, not in conflict herewith, shall be fixed and determined by the said Board of Library Trustees.

Section 2. That the title to all such property so acquired in the erection and equipment of said building, shall vest, be and remain in the said City of San Diego.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That all ordinances or parts of ordinances in conflict herewith be, and the same are hereby repealed.

Section 5. That the City Clerk of said City of San Diego, be, and he is hereby, authorized and directed to publish or cause to be published this ordinance immediately after its approval, once, in the official newspaper of said City, to-wit, the San Diego Union and Daily Bee.

Ordinance No 835.

An Ordinance authorizing and directing the Mayor of the City of San Diego California, to execute, and the City Clerk of said City of San Diego to attest the execution of Quit-claim Deeds in the name, for and on behalf, and as the act and deed of the said City of San Diego, California, to the owners of lots in Sherman's Addition to the said City of San Diego, California,

Whereas, It appears from the records and proceedings of the Board of Trustees of the City of San Diego, California, that at an Auction sale of certain lands held in the said City of San Diego California, on the 3<sup>d</sup> day of June 1867, Pueblo Lot numbered 1155 of the Pueblo Lands of said City, containing 160 acres, together with other land, was sold to Matthew Sherman at and for the price of One hundred and sixty (\$160<sup>00</sup>) Dollars, and that the deeds executed under and by virtue of said sale, conveying said property to said Matthew Sherman, were inadvertently executed by the Trustees of said City, and signed by them individually, instead of being signed by them as Trustees of said City, and for and on behalf of the said City of San Diego, and

Whereas, said Pueblo Lot numbered 1155 has, since said sale and the execution of said deeds to said Matthew Sherman, been subdivided into lots and blocks and is now known as "Sherman's Addition," and lots and blocks in said subdivision have been sold according to the Map of said Addition made for Matthew Sherman by James Pascoe, County Surveyor of the County of San Diego, which said Map is on file in the office of the County Recorder of said County, and

Whereas, it appears that the said City of San Diego has no right title or interest in or to said property, or any portion thereof.

Now, Therefore, be it Ordained, By the Common Council of the City of San Diego, as follows,

Section 1. That the Mayor of the City of San Diego, California, be, and he is hereby authorized, empowered and instructed to execute, acknowledge and deliver

quit claim deeds for and on behalf, in the name of and as the act and deed of the said City of San Diego, and the City Clerk of said City is hereby authorized and directed to attest the execution of all such deeds executed by the Mayor of said City by endorsing his name thereon and affixing the Corporate seal of the said City of San Diego thereto, to all persons, who are or may be the owners of any of the lots and blocks in the said Sherman Addition to the said City of San Diego, provided, that any person desiring a quit claim deed to any of said property in said Sherman Addition shall furnish to the City Attorney of the said City of San Diego an Abstract of Title to the said property, and no quit claim deed shall be executed by the Mayor of said City until the City Attorney shall be satisfied from the Abstract so furnished him that the title to the property to which a quit claim deed is requested is in the name of the person for or in whose behalf the application for a quit claim deed is made, nor to any person other than the owner of the property.

Section 2. That said deeds shall contain a recital that they and each of them, are made pursuant to this ordinance to correct a defect in the execution of deeds made by the said City by and through its Board of Trustees to Matthew Sherman bearing date of June 14th 1867, one recorded June 15th 1867 in Book 2 of Deeds at page 317, and the other recorded August 8th 1867 in Book 2 of Deeds at page 332, records of San Diego County, which said deed shall also recite that the said City of San Diego does not own any interest which the said City has acquired in said property for delinquent municipal taxes.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Passed and adopted by the Board of Delegates of the City of San Diego, California this 22<sup>nd</sup> day of October 1900 and signed in open session thereof by the President of said Board, October 22<sup>nd</sup> 1900.

**Ordinance No. 839.**

An Ordinance Proposing Amendments to the Charter of the City of San Diego, California, Providing for the Publication thereof, and Describing and Setting Forth Such Amendments, Which Are As Follows:  
Amending sub-section 53 of Section 1 of Chapter 2 of Article 2 of said Charter, relative to incurring indebtedness.

Repealing Article 4 of said Charter, relative to a Police Court.

Amending said Charter by adding Section 26 of Chapter 1, of Article 5, relative to the powers of the Board of Public Works over any system of water works owned by the city.

Amending Chapter 2 of Article 5 of said Charter, relative to improvement of streets.

Repealing Chapter 3 of Article 5 of said Charter, relative to street improvement districts.

Amending Chapter 4 of Article 5 of said Charter, relative to the opening of new streets.

Repealing Chapter 6 of Article 5 of said Charter, relative to water commissioners.

Amending Section 12 of Chapter 2 of Article 6 of said Charter, relative to incurring indebtedness.

Amending Section 13 of Chapter 2 of Article 6 of said Charter, relative to issuing bonds.

Repealing Section 15 of Chapter 2 of Article 6 of said Charter, relative to depositing city funds in a bank.

Amending Article 8 of said Charter, relative to public library.

Amending said Charter by adding thereto Article 11, relative to a police court.

Whereas, in accordance with the provisions of Section 8 of Article 11 of the Constitution of the State of California, the City of San Diego, a municipal corporation in the County of San Diego, State of California, framed a charter which was duly ratified by the vote of the people of said City at a special election held for that purpose on the second day of March, 1889, which charter was duly approved by the Legislature of the State of California, on the 16th day of March, 1889, by a joint resolution, entitled, "Senate Joint Resolution No. 5, approving the Charter of the City of San Diego, in San Diego County, California," voted for and ratified by the qualified voters of said City at a special election held therein for that purpose "on the second day of March, 1889"; and

Whereas, the said Charter of the said City of San Diego, ratified and approved as aforesaid, has now been in force for more than two years since its adoption and approval without being amended; and

Whereas, it is hereby proposed by the legislative authority of the said City of San Diego, in accordance with the further provisions of said Section 8 of Article 11 of the Constitution of the State of California, to amend the said charter and to submit such amendments to the electors of the said City of San Diego for ratification at a special election to be called for such purpose.

Now, therefore, be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the following amendments to the said charter of the said City of San Diego, California, as prepared and proposed by the legislative authority of said City, be, and they are hereby proposed to be submitted, separately, to the qualified electors of said City for their ratification or rejection at a special election to be hereafter called and held in said City of San Diego, and said amendments shall be submitted separately and voted upon separately at said special election, in pursuance of the provisions of Section 8 of Article 11 of the Constitution

of the State of California, which proposed amendments to said Charter are as follows, to-wit:

That sub-section 53 of Section 1 of Chapter 2 of Article 2 of the said Charter of the said City of San Diego, California, be amended so as to read as follows:

53. To incur an indebtedness exceeding the revenue for any fiscal year in case of great public calamity or danger, such as earthquakes, conflagrations, pestilence, invasion, or any other great or unforeseen emergency. The ordinance for such purpose must be passed by the affirmative vote of two-thirds of the members of each Board, and be approved by the Mayor. Before or at the time of incurring such indebtedness provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof, within forty years from the time of contracting the same. No such indebtedness shall be incurred without the assent of two-thirds of the qualified electors of said City, voting at an election held for that purpose.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 1 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the State of California.

That Article 4 of the said Charter of the said City of San Diego, California, be, and the same is hereby repealed.

This amendment herein proposed

shall be, and shall be known and designated as Amendment Number 2 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That said Charter be amended by adding thereto Section 26 of Chapter 1 of Article 5, which section shall read as follows:

Section 26. The Board of Public Works shall have full control and management of any system of water works of which the said City of San Diego may become the owner or acquire the possession thereof by lease, and the collections of the revenues therefrom under such regulations by ordinance as the Common Council may from time to time enact, but the fixing of water rates shall remain with the Common Council. All contracts for work and material shall be made by the said Board of Public Works as herein provided for the letting of contracts for other public work, and all pay-rolls and all accounts, for the same shall first be passed upon by the said Board of Public Works who shall certify them to the Auditing Committee.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 3 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That Chapter 2 of Article 5 of the said Charter of the said City of San Diego, California, be, and the same is hereby amended to read as follows:

Chapter 2. The mode and manner for the improvement of streets, lanes, alleys, places or courts in this city, where an assessment is levied for the payment of any part or portion of the expense thereof, shall be as prescribed by the general law of the State of California, relative to the improvement of streets, lanes, alleys, places or courts in municipalities, in force at the time proceedings are taken for the improvement of the same.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 4 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That Chapter 3 of Article 5 of the said Charter of the said City of San Diego, California, be and the same is hereby repealed.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 5 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the state of California.

That Chapter 4 of Article 5 of the said Charter of the said City of San Diego, California, be, and the same is hereby amended to read as follows:

Chapter 4. That the mode and manner of laying out, opening, extending, widening, straightening or closing, in whole or in part, any street, square, lane, alley, court, or place within said City, where an assessment is levied upon property for the purpose of paying any part or portion of the expense thereof, shall be in accordance with the provisions of the general laws of the State of California, relative to laying out, opening, extending, widening, straightening or closing, in whole or in part, any street, square, lane, alley, court, or place within municipalities, in force at the time proceedings therefor are taken.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 6 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the State of California.

That chapter 6 of Article 5 of the said Charter of the said City of San Diego, California, be, and the same is hereby repealed.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 7 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the state of California.

That Section 12 of Chapter 2 of Article 6 of the said Charter of the said City of San Diego, California, be amended so as to read as follows:

Section 12. The Common Council must not for any purpose contract debts or liabilities, except in pursuance of law, nor shall such indebtedness or liabilities exceed, in any fiscal year, the income and revenue provided for such year, without the assent of two-thirds of the qualified electors of the said city, voting at an election to be held for that purpose, nor unless before or at the time of incurring such indebtedness, provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness, as it falls due, and also to constitute a sinking fund for the payment of the principal thereof on or before maturity, which shall not exceed forty years from the time of contracting the same,

and proceed in accordance with the general law of the State of California, in force at the time proceedings are taken for the incurring of such indebtedness, providing how bonded debts may be created. Any indebtedness or liability incurred contrary to this provision shall be void; and all contracts, authorizations, allowances, payments, and liabilities to pay, made or attempted to be made in violation of this provision shall be absolutely void, and shall never be the foundation or basis of a claim against the treasury of said city; and all officers of said city are charged with notice of the condition of the city treasury, and extent of the claims against the same.

This amendment herein proposed, shall be, and shall be known and designated as Amendment Number 8 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the State of California.

That Section 13 of Chapter 2 of Article 6 of the said Charter of the said City of San Diego, California, be amended so as to read as follows:

Section 13. Whenever the Common Council shall determine that the public interest or necessity demands the acquisition, construction, or completion of any municipal buildings, bridges, sewers, water works, water rights, reservoir sites, rights of way for pipes, aqueducts, flumes, or other conduits, or any other property or appliances suitable or proper for supplying said city or its inhabitants with water, or other municipal improvements, the cost of which will be too great to be paid out of the ordinary annual income and revenue of said city, the said Common Council may contract bonded indebtedness for said purposes or any of them, and the proceedings taken for incurring such indebtedness shall be in accordance with the mode and manner prescribed by the provisions of the general laws of the state of California, relative to incurring bonded indebtedness by municipalities, in force at the time such proceedings are taken. Said Common Council may also contract bonded indebtedness for any other purpose authorized by this charter or the general law of the State of California, provided, that the proceedings taken therefor shall be in accordance with the provisions of the general law in force at the time such proceedings are taken.

This amendment herein proposed, shall be, and shall be known and designated as Amendment Number 9 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the State of California.

That Section 15 of Chapter 2 of Article 6 of the said Charter of the said City of San Diego, California, be and the same is hereby repealed.

This amendment herein proposed, shall be, and shall be known and designated as Amendment Number 10 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the State of California.

That Article VIII of the said Charter of the said City of San Diego, California, be, and the same is hereby amended to read as follows:

**ARTICLE VIII.**

**SAN DIEGO PUBLIC LIBRARY.**

The Public Library and reading room shall be governed and controlled by a board of five trustees who shall be elected in the same manner and at the same time as other city officials are elected, and shall hold office for the term of two years and until their successors are elected and qualified. Said library and reading-room shall be governed and controlled by the provisions of an act of the legislature of the state of California, entitled, "An act to establish free public libraries and reading rooms," approved April 26, 1880, and the powers and duties of said board of trustees shall be as in said act prescribed.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 11 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the State of California.

That there be enacted and added to said charter the following provisions which shall be known as Article XI of said Charter, and that said charter be and the same is hereby amended so as to include Article XI, which shall read as follows:

**ARTICLE XI.**

**JUDICIAL DEPARTMENT OF THE POLICE COURT.**

Section 1. A police court is hereby established in the City of San Diego, California, to be held by the Police Judge, who shall be appointed by the mayor of the said City of San Diego, to hold office for the term of two years from the first Monday in May of each odd year, and until his successor is appointed and qualified. The mayor of the said City of San Diego shall have power to appoint a Police Judge immediately after the approval of these amendments, who shall hold office from his qualification until the first Monday in May, 1901, and until his successor is appointed and qualified. Said

court shall always be open on all judicial days, and upon non-judicial days said court shall be open for the following purposes:

1. To give, upon its request, instructions to a jury when deliberating on their verdict.

2. To receive a verdict or discharge a jury.

3. For the exercise of the powers of a magistrate in a criminal action, or in a proceeding of a criminal nature.

The bond of the Police Judge shall be two thousand and five hundred dollars, and before taking office he shall take, subscribe, and file with the City Clerk the following oath: "I do hereby solemnly swear (or affirm) that I will support the constitution of the United States and the Constitution of the State of California, and that I will faithfully discharge the duties of the office of Police Judge to the best of my ability."

The salary of the Police Judge shall be fixed by the Common Council in the same manner that the salaries of other officers of the City are fixed.

Section 2. The Police Court shall have jurisdiction of the following public offenses committed within the City of San Diego:

First—Petit larceny;

Second—Assault or battery not charged to have been committed upon a public officer in the discharge of his official duty, or to have been committed with such intent as to make the offense a felony;

Third—Breaches of the peace, riots, affrays, committing unlawful injury to property, and all misdemeanors punishable by a fine not exceeding five hundred dollars, or by imprisonment not exceeding six months, or by both such fine and imprisonment;

Fourth—All proceedings respecting vagrancy, lewd or disorderly persons;

Fifth—Of all proceedings for the violation of any ordinance of the said City of San Diego, both civil and criminal.

Sixth—Except as herein otherwise provided, said court, or any judge thereof, shall have the same powers in all criminal actions, cases, examinations and proceedings as are now or may hereafter be conferred by law upon justices of the peace.

Said court shall also have civil jurisdiction:

1. In actions arising on contract for the recovery of money only, if the sum claimed, exclusive of interest, does not amount to three hundred dollars.

2. In actions for damages, for injury to the person, or taking, detaining or injuring personal property, or for injury to real property where no issue is raised by the verified answer of the defendant, involving title to or possession of the same, if the damage claimed does not amount to three hundred dollars.

3. In actions to recover the possession of personal property, if the value of such property does not amount to three hundred dollars.

4. In actions for a fine, penalty, or forfeiture not amounting to three hundred dollars, given by statute, or an ordinance of an incorporated city, or county, or city, or town, where no issue is raised by the answer involving the legality of any tax, impost, assessment, toll, or municipal fine.

5. In actions upon bonds or undertakings conditioned for the payment of money, if the sum claimed does not amount to three hundred dollars, though the penalty may exceed that sum.

6. To take and enter judgment for recovery of money on the confession of the defendant when the amount confessed, exclusive of interest, does not amount to three hundred dollars.

7. That the said Police Court shall have concurrent jurisdiction with the Superior Court of the County of San Diego, State of California.

1. In actions of unlawful entry and detainer, where the rental value of the property entered upon or unlawfully detained does not exceed twenty-five dollars per month, and the whole amount of damages claimed does not exceed two hundred dollars.

2. In actions to enforce and foreclose liens on personal property where neither the amount of the liens nor the value of the property amounts to three hundred dollars. But the jurisdiction of said Police Court shall not in any case trench upon the jurisdiction of any Superior Court in the State of California, nor extend to any action or proceedings against ships, vessels, or boats for the recovery of seaman's wages, for a voyage performed in whole or in part without the waters of this state.

Section 3. Any Justice of the Peace of said City, who may be designated in writing by the Mayor thereof for the purpose, shall have power to preside in and hold the Police Court of said City in cases in which the Police Judge is a party, or in which he is directly interested, or when the Police Judge is related to either party by consanguinity or affinity within the third degree; and also in the case of the sickness or temporary absence of the Police Judge, or his inability to act from any cause; and in all such cases, and during such sickness, temporary absence, or inability, the Justice so designated shall act as Police Judge, and shall have and exercise all the powers, jurisdiction, and authority which are, or may be by law, conferred upon said Police Court or Police Judge.

Section 4. The Judge of said Police Court shall also have power to hear cases for examination, and may commit and hold the offender to bail for trial in the proper Court, and may

try, convict, or acquit, and carry his judgment into execution, as the case may require, according to law; and to punish persons guilty of contempt of court, and shall have power to issue warrants of arrest in case of a criminal prosecution for the violation of a City ordinance, as well as in the case of the violation of the criminal law of the state; also to administer oaths, to issue all warrants of arrest, subpoenas, venires, writs, executions, attachments, and all other processes necessary to the full and proper exercise of his powers and jurisdiction in all trials or examinations before a Police Judge.

Section 5. There shall be furnished, for the use of the Police Court, two dockets: One shall be styled the City Criminal Docket, in which all criminal cases shall be entered, and each case shall be alphabetically indexed; the other shall be styled the City Civil Docket, and it shall contain a record of every civil case which is prosecuted before said court, and each case shall be properly indexed, and in all cases the docket shall contain all such entries as are required by law to be made in the docket of the Justice of the Peace of said City.

Section 6. Except as otherwise herein provided, proceedings in said Court shall be conducted in accordance with the laws of this state regulating proceedings in justice's and police courts and appeals to the Superior Court; and said court, or any judge thereof, shall have the same power in all criminal actions, cases and proceedings as are now or may be hereafter conferred by the general laws of this state upon justices of the peace.

A complaint may be demurred to on the ground that it does not set forth the offense charged with such particularities of time, place, person and property as to enable the defendant to understand distinctly the character of the offense complained of, and the complaint may be amended by permission of the Court after a demurrer is sustained.

The judge of said Court shall try all cases as speedily as possible, and must refuse continuances after the first calling of a case for trial except upon affidavit showing good cause therefor.

Section 7. The City Attorney shall prosecute all cases for the violation of any ordinance of the said City of San Diego, both in the Police Court and on appeal therefrom to the Superior Court.

Section 8. In all cases when the Police Court is authorized to impose a fine or imprisonment, or both, upon persons convicted in said court for the violation of any ordinance of said City, the said Police Court may sentence the offender to be imprisoned in the city jail of said city, and may, in case of imposing a fine, embrace as part of the sentence that, in default of the payment of such fine, the defendant shall be imprisoned in said City jail at the rate of two dollars a day until such fine is satisfied. In all cases when the Police Court is authorized to impose a fine or imprisonment, or both, upon persons convicted in said Court for the violation of any provision of the general law of the State of California, the said Police Court may sentence the offender to be imprisoned in the county jail of the County of San Diego, and may, in case of imposing a fine, embrace as part of the sentence that, in default of the payment of said fine, the defendant shall be imprisoned in said county jail at the rate of two dollars a day until such fine is satisfied.

Section 9. The Court shall have a seal, to be provided by the City, and certified transcripts of the Police Judge's docket, and the seal of his Court shall be evidence in any Court of the State of the contents of the docket; and all warrants and other processes issued out of said Court, and all acts done by said Police Judge under its seal, shall have the same force and validity, in any part of this state, as though issued or done by any Court of Record of this State.

Section 10. The Police Judge shall, on the first Monday of each month, make to the Common Council a full verified report of all cases tried in his Court during the preceding month, of all fines imposed and collected, and of all fines imposed and not collected, and of all forfeitures, and of all moneys collected by him on behalf of said city, and at the same time shall pay into the City Treasury all fines collected for the violation of any ordinance of said City, and other moneys collected on behalf of the City for such month.

Section 11. The Chief of Police, or any policeman of said City, is hereby authorized, empowered, and directed to serve, execute, and return any and all notices, warrants of arrest, and all processes directed to him by the Police Judge of said City, and to arrest all persons accused, or guilty, of the violation of any city ordinance, or of any public offense.

Section 12. The interest which any inhabitant of said City may have in a penalty for the breach of an ordinance of said city, shall not disqualify said inhabitant to act as judge, juror, or witness, in any prosecution to recover the penalty.

Section 13. The Police Judge of said Police Court shall have and he is hereby given jurisdiction, and it is hereby made his duty to try without a jury, persons charged with the violation of any ordinance of the said City of San Diego, where the penalty of said ordinance does not exceed one hundred and fifty dollars; or imprisonment in the city jail for a period not exceed-

ing seventy-five days, or both such fine and imprisonment; also persons charged with disturbing the peace, vagrancy, gaming, or any other minor misdemeanors of a similar character.

Section 14. All criminal proceedings shall be prosecuted in the name of the People of the State of California.

Section 15. All moneys arising from fines imposed and collected for the violation of the city ordinances of said city shall be paid into the City Treasury of said city.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 12 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the legislature of the State of California.

Section 2. That the above and foregoing proposed amendments to the Charter of the said City of San Diego, California, and each one of them, be published for twenty (20) days in the San Diego Union and Daily Bee, a daily newspaper of general circulation in the said City of San Diego, California, immediately after the approval of this ordinance, and that the City Clerk of the said City of San Diego, California, be and he is hereby authorized and directed to cause said amendments, and each one of them, to be published in the said San Diego Union and Daily Bee for a period of twenty (20) days immediately after the approval of this ordinance.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the city clerk of the said City of San Diego, California, be and he is hereby authorized and directed immediately after the approval of this ordinance; to publish, or cause the same to be published twenty (20) times in the City official newspaper of said City, to-wit, the San Diego Union and Daily Bee.

**Ordinance No. 846.**

An Ordinance Authorizing and Directing the Mayor of the City of San Diego, California, to Execute, and the City Clerk of Said City to Attest the Execution of a Quitclaim Deed in the Name, For and on Behalf, and as the Act and Deed of the Said City of San Diego, California, to the Owners of Lots in Sherman's Addition to the Said City of San Diego, and Directing the City Clerk to Deliver Such Deed to the County Recorder of the County of San Diego, State of California, for Recordation.

Whereas, it appears from the records and proceedings of the board of trustees of the city of San Diego, county of San Diego, state of California, that at an auction sale of certain lands held in the said city of San Diego, California, on the 3rd day of June, 1867, pueblo lot numbered 1155 of the pueblo lands of said city, containing one hundred and sixty (160) acres, together with other land, was sold to Matthew Sherman and for the price of \$160.00, and that said sum was paid to and received by said city therefor, and that the deeds executed under and by virtue of said sale conveying said property to said Matthew Sherman, were inadvertently and incorrectly signed by the trustees of said city individually instead of being signed by them as trustees of said city, and for and on behalf of the said city of San Diego; and,

Whereas, said pueblo lot numbered 1155 has since said sale and the execution of said deeds to the said Matthew Sherman been subdivided into lots and blocks, and is now known as "Sherman's addition," and,

Whereas, lots and blocks in said Sherman's addition have been sold according to the map of said addition made for said Matthew Sherman by James Pascoe, county surveyor of the county of San Diego, which said map is now on file in the office of the county recorder of said county; and,

Whereas, it appears that the said city of San Diego has no right, title, or interest in or to said property, or any portion thereof, except for delinquent taxes; or where said city has acquired title to some lot or lots in said Sherman's addition since said pueblo lot 1155 was so subdivided; and,

Whereas, the common council of said city is desirous of correcting any and all errors in the execution of said deeds or either of them, or in any part of both or either of said deeds.

Therefore, be it ordained by the common council of the city of San Diego, as follows:

Section 1. That the mayor of the city of San Diego, California, be, and he is hereby authorized, empowered, and instructed to execute and acknowledge a quitclaim deed for and on behalf, in the name of, and as the act and deed of the said city of San Diego, and the city clerk of said city is hereby authorized and directed to attest the execution of such deed, so executed by the mayor of said city, by endorsing his name thereon and affixing the corporate seal of the said city of San Diego thereto, to all persons who are the owners of any of the lots and blocks in said Sherman's addition in the said city of San Diego, or any part or portion thereof, or any interest therein (not including, however, the said city as an owner); and that the city clerk of said city be and he is hereby further authorized and directed to deliver said deed to the owners of said property, viz., the grantees in said deed, by delivering the said deed to the county recorder of the said county of San Diego, state of California, for the owners of said property, and instructing him to record the same.

Section 2. That said deed shall contain a recital that it is made pursuant to this ordinance to correct a defect in the execution of the said deeds made by the said city by and through its said board of trustees to Matthew Sherman, bearing date June 14th, 1867, one of which deeds was recorded June 15th, 1867, in Book 2 of Deeds at page 317, and the other was recorded August 8th, 1867, in Book 2 of Deeds at page 332, in the office of the county recorder of said county of San Diego, state of California, which said deed shall also recite that the said city of San Diego does not convey any interest which said city has acquired in said property for delinquent taxes, or otherwise since said pueblo lot 1155 was so subdivided. It being the intention of said common council that said deed to be so executed by the said mayor and city clerk shall correct any error in the execution of said deeds, so executed in the year 1867, or either of them, and that such deed to be so executed by said mayor and city clerk shall overcome any possible question that the said city of San Diego did not by the said deeds so executed in the year 1867 by the said board of trustees convey all the right, title, interest, and estate of every name and nature whatsoever that the said city had in said pueblo lot 1155, at the time said deeds were so executed in the said year 1867.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the city clerk of the said city of San Diego be, and he is hereby authorized and directed, immediately after the approval hereof, to publish, or cause to be published, this ordinance once in the official newspaper of said city, to wit, the San Diego Union and Daily Bee.

Passed and adopted by the board of delegates of the city of San Diego, California, this 19th day of November, 1900, and signed in open session thereof by the president of said board, November 19th, 1900.

**Ordinance No. 847.**

An Ordinance Authorizing and Directing the Mayor of the City of San Diego, California, to Execute, and the City Clerk of Said City to Attest the Execution of a Quitclaim Deed in the Name, for and on Behalf, and as the Act and Deed of the Said City of San Diego, California, to the Owners of Lots in Seaman and Choate's Addition to the City of San Diego, and Directing the City Clerk to Deliver Such Deed to the County Recorder of San Diego county, California, for Recordation.

Whereas, it appears from the records and proceedings of the board of trustees of the city of San Diego, county of San Diego, state of California, that at an auction sale of certain land held in the said city of San Diego on the 13th day of February, 1868, the northwest corner of pueblo lot 1161 of the pueblo lands of the said city of San Diego, containing forty (40) acres, was sold to Franklin A. Gregory at and for the price of one hundred (\$100.00) dollars, and that the said sum was paid and received by said city therefor, and that in a deed executed by the said board of trustees of the said city of San Diego to the said Franklin A. Gregory, the said property is described as "the N. W. corner of lot No. 1161," without specifying the number of acres intended to be conveyed; and

Whereas, a portion of the northwest quarter of said pueblo lot No. 1161, above referred to, has since said conveyance to the said Franklin A. Gregory, been subdivided into lots and blocks, and is known as "Seaman and Choate's addition"; and

Whereas, lots and blocks in said "Seaman and Choate's addition" have been sold according to the map of said addition on file in the office of the county recorder of the said county of San Diego, and,

Whereas, it appears that the said city of San Diego has no right, title, or interest in or to any of the said lots or blocks, or any of the property in the said Seaman & Choate's addition to the said city of San Diego, or any portion thereof, except for delinquent taxes or where said city has acquired title to some lot or lots in said Seaman and Choate's addition since said portion of the northwest quarter of said pueblo lot 1161, was so divided; and,

Whereas, the common council of said city is desirous of correcting any and all errors in said deed.

Therefore, be it ordained, by the common council of the city of San Diego, as follows:

Section 1. That the mayor of the city of San Diego, California be, and he is, hereby authorized, empowered, and instructed to execute and acknowledge a quitclaim deed for and on behalf, in the name, and as the act and deed of the said city of San Diego, and the city clerk of said city is hereby authorized and directed to attest the execution of said deed so executed by the mayor of said city, by endorsing his name thereon, and affixing the corporate seal of the said city of San Diego thereto, to all persons who are the owners of any of the lots and blocks in the said Seaman & Choate's addition to the said city of San Diego, or any part or portion thereof, or any interest therein (not including, however, the said city as an owner); and that the city clerk of said city be and he is hereby further authorized and directed to deliver said deed to the owners of said property, viz., grantees in said deed, by delivering said deed to the county recorder of said county of San Diego, state of California, for the owners of said property, and instructing him to record the same.

Section 2. That said deed shall contain a recital that it is made pursuant to this ordinance to correct a defect in the execution of a deed made by the said city of San Diego by and through its board of trustees to Franklin A. Gregory, dated February 26th, 1868, and filed for record February 29th, 1868, in Book 3 of Deeds at page 36 in the office of the county recorder of San Diego county, California, which said deed shall also recite that the said city of San Diego does not convey any interest which the said city has acquired in said property for delinquent taxes, or otherwise, since said property was subdivided into lots and blocks. It being the intention of this common council that said deed to be so executed by said mayor and city clerk shall correct any error or errors in the deed made by the board of trustees of said city to Franklin A. Gregory, herein-after referred to, and that such deed, to be so executed by said mayor and city clerk, shall overcome any possible question that the said city of San Diego did not, by the said deed so executed to the said Franklin A. Gregory, by the said board of trustees of the said city of San Diego convey all the right, title, interest and estate of every name and nature whatsoever that the said city of San Diego had in the said northwest quarter of the said pueblo lot numbered 1161, at the time said deed was so executed in the said year 1868.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the city clerk of the said city of San Diego be, and he is hereby authorized and directed, immediately after the approval hereof, to publish or cause to be published, this ordinance once in the official newspaper of said city, to wit, the San Diego Union and Daily Bee.

Passed and adopted by the board of delegates of the city of San Diego, California, this 19th day of November, 1900, and signed in open session thereof by the president of said board November 19th, 1900.

FRANK P. FRARY,  
President of the Board of Delegates of the City of San Diego, California.

Passed and adopted by the board of aldermen of the city of San Diego, California, this 19th day of November, 1900, and signed in open session thereof by the president of said board, November 26th, 1900.

J. P. M. RAINBOW,  
President Pro Tem. of the Board of Aldermen of the city of San Diego, California.

I hereby approve the foregoing ordinance this 27th day of November, 1900.

GEO. B. WATSON,  
President Pro Tem of the Board of Aldermen of the City of San Diego, California.

I hereby approve the foregoing ordinance this 31st day of October, 1900.

EDWIN M. CAPP,  
Mayor of the City of San Diego, California.

(Seal) Attest:  
GEO. D. GOLDMAN,  
City Clerk.

And, whereas, the legislative authority of said City of San Diego, by said Ordinance Numbered 839, under and pursuant to the said Section 8 of Article II of the Constitution of the State of California proposed certain amendments to the said Charter of said City, which ordinance was adopted by more than a majority vote of all the members of each Board of the said Common Council; and whereas, the said Common Council did in and by the passage and adoption of said Ordinance Numbered 839, provide that said proposed amendments should be submitted to the qualified electors of said City separately, for their ratification or rejection at a special election to be thereafter called and held within said City.

And, whereas, all of said proposals to amend said Charter have been published for at least twenty (20) days in the City official newspaper of said City, to-wit, the San Diego Union and Daily Bee, which is a daily newspaper printed and published and of general circulation in said City, which publication has been made as required by law and by the provisions of said Ordinance Number 839, which publication commenced on the second (2nd) day of November, 1900, and ended on the 24th day of November, 1900.

And, whereas, it is the desire and purpose of the legislative authority of said City of San Diego to submit the said proposals to the qualified electors of the said City of San Diego at a special election hereby called and to be held for that purpose in said City on Saturday, the 12th day of January, 1901, for their ratification or rejection.

Now, therefore, be it ordained by the Common Council of the City of San Diego, as follows:

Section 1. That a special election in and for the City of San Diego, County of San Diego, State of California, be and the same is hereby called for and said special election will be held in said City of San Diego on Saturday, the 12th day of January, 1901, for the purpose of submitting, separately, to the qualified electors of said City of San Diego, each of the proposed amendments to the Charter of said City, for their ratification or rejection.

Section 2. That the City Clerk of the said City of San Diego be, and he is hereby, authorized and directed to provide for each of the Municipal Election Precincts hereinafter mentioned, not less than one hundred tickets for every fifty (50) or fraction of fifty (50) electors registered in such election precinct, which ballots shall be prepared, printed, furnished and distributed as prescribed and provided by law, and each ballot used at said election must contain, printed thereon in addition to such other matter as may be required by law, the following general form for each of said Amendments: "Shall the proposed Amendment Number, of the Charter of the City of San Diego, State of California, be ratified?" giving the number of the proposed amendment, and at the right of said words, the words "Yes," and "No," in square spaces, the word "yes" to be in the top square and the word "no" in the square below, and to the right of each of said squares containing the words "yes" and "no" shall be a blank square space, as follows, to-wit:

Shall the proposed Amendment Number One to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Two to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Three to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Four to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Five to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Six to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Seven to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Eight to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Nine to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Ten to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Eleven to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	
Shall the proposed Amendment Number Twelve to the Charter of the City of San Diego, State of California, be ratified?	Yes.	
	No.	

To vote to ratify any of said proposed amendments to said Charter the voter shall stamp a cross (X) in the square on the right-hand margin of his ballot after and opposite the word "Yes," which follows and is opposite the proposition to be voted upon, and after such ballot shall be

so stamped and deposited in the proper ballot box it shall be canvassed and counted as a vote for and in favor of the ratification of each of the proposed amendments so voted on; and any voter who desired to vote against the ratification of the said proposed amendments shall stamp a cross (X) in the square on the right-hand margin of his ballot after and opposite the word "no" which follows and is opposite the proposition to be voted on; and after such ballot shall be so stamped and deposited in the proper box it shall be canvassed and counted as a vote against the ratification of the amendment so voted on; said ballot shall also have printed thereon instructions for voting as follows: "To vote to ratify any of said proposed amendments to said Charter the voter shall stamp a cross (X) in the square on the right-hand margin of the ballot after and opposite the word 'yes' which follows and is opposite the proposition to be voted upon. To vote against the ratification of any of said proposed amendments the voter shall stamp a cross (X) in the square on the right-hand margin of the ballot after and opposite the word 'no' which follows and is opposite the proposition to be voted upon."

Section 3. That the said special election hereby called shall be held and conducted, ballots prepared, printed, and distributed, received and canvassed, and returns made, and results determined, and declared, pursuant to and in accordance with the laws of the State of California.

Section 4. That the polls of such election shall be opened at Six (6) o'clock of the morning of said day of election, and shall be kept open until Five (5) o'clock in the afternoon of the same day, when the polls shall be closed.

Section 5. That for the purpose of said special election the said City of San Diego is hereby districted and subdivided into twenty (20) municipal election precincts numbered consecutively from one (1) to twenty (20) both inclusive, the exterior boundaries of which are hereinafter set forth and each of said precincts shall be known as "Municipal Election Precinct Number" with the appropriate number inserted in consecutive order.

Section 6. Ordinance No 851.

An Ordinance requiring each and every Corporation, Company or person supplying water to the City of California, or to the inhabitants thereof, to furnish to the Common Council of said City, in the month of January 1901, a detailed and verified statement, showing the name of each water rate payer, his or her place of residence, and the amount paid for water by each of such water rate payers during the year preceding the date of such statement, and also showing all revenue derived from all sources, and an itemized statement of expenditures made for supplying water during said time, In pursuance of the provisions of an Act of the Legislature of the State of California, approved March 7th 1881, Statutes of 1881, page 54.

Be it ordained, By the Common Council of the City of San Diego as follows.

Section 1. That the San Diego Water Company and the Southern California Mountain Water Company, Corporations, duly organized and existing under and by virtue of the laws of the State of California, and the United Water Supply Company, and each and every other Corporation, Company or person supplying water to the City of San Diego, or to the inhabitants thereof, and each of them is hereby required to furnish to the Common Council of the said City of San Diego, in the month of January 1901, a detailed statement, verified by the oath of the President and Secretary of such Corporation or Company, or of such person as the Case may be, showing the name of each water rate payer, his or her place of residence, and the amount paid for water by each of such water rate payers during the year preceding the date of such statement, and also showing all revenues derived from all sources, and an itemized statement of expenditures made for supplying water during said time, said statement to be made and furnished in accordance with and pursuant to the provisions of an Act of the Legislature of the State of California, entitled "An Act to enable the Board of Supervisors, Town Council, Board of Aldermen, or other legislative body of any

City and County, City or Town, to obtain data and information from any Corporation, Company, or person supplying water to such City and County, City or Town, requiring such Boards, Town Council, or other legislative body to perform the duties prescribed by Section 1 of Article 14 of the Constitution, and prescribing penalties for the non-performance of such duties" approved Mar 7th 1881.

Section 2. That accompanying such statements described and specified in Section 1 hereof, every such Corporation, Company or person shall furnish a detailed statement in the month of January 1901, to the Common Council verified in like manner as the said statements mentioned in Section 1 hereof, showing the amount of money actually expended, annually, since said Corporation, Company or person so furnishing water commenced business, in the purchase, construction, and maintenance, respectively, of the property necessary to carry on its business, and also all the gross cash receipts annually for the same period from all sources, such statements to be made and furnished with, and in pursuance of, the provisions of the said Act of the Legislature of the State of California above described.

Section 3. That the City Clerk of said City be, and he is hereby directed, immediately after the passage, approval and publication of this Ordinance, to send a copy of the same upon each and every Corporation, Company or person supplying water to the said City of San Diego or to the inhabitants thereof.

Section 4. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 5. That the City Clerk of the said City of San Diego, be, and he is hereby directed, immediately after the approval of this Ordinance, to publish, or cause the same to be published once in the City official newspaper of said City, to wit, The San Diego Union and Daily Bee,

## Ordinance No 857.

An ordinance confirming the sale of a certain lease of land belonging to the City of San Diego, California for Agricultural and Mining purposes.

Whereas, the Common Council of the City of San Diego, California, by Ordinance No 837 of the ordinances of said City, entitled "An ordinance providing for the sale of the lease of Pueblo Lot No 1353, and Pueblo Lot No 1355, in the City of San Diego, California, for the term of two years from the 1st day of December 1900 for Agricultural and grazing purposes" approved October 30th 1900 enacted, authorized and provided for the sale of a certain lease of certain real property, hereinafter described, and

Whereas, it appears that in pursuance of the provisions of said ordinance No 837 of the ordinances of said City, the City Clerk of the said City of San Diego caused notice of the time and place of the holding of said sale to be published in the San Diego Union and Daily Bee, the City official newspaper of the said City of San Diego, for a period of three weeks prior to the making of said sale, and that said property was situated in the City of San Diego, County of San Diego, State of California, and in said notice described as follows, to-wit;

Pueblo Lot numbered 1353 and Pueblo Lot numbered 1355 of the Pueblo Lands of the City of San Diego, California, said lots to be leased for Agricultural and grazing purposes only, as specified in said Ordinance No 837, and,

Whereas, it appearing from the reports of the said City Clerk of the said City of San Diego, California, that the sale of said property was made on the 3<sup>rd</sup> day of December 1900, at the time and place specified in said notice, and in accordance therewith, and in accordance with the terms and conditions therein contained, and

Whereas, said reports declared, that at said sale Edward Turner Lockyer and William Stuthman became the purchasers of said lease of said land for agricultural and grazing purposes for the sum of One Hundred (\$100.00) dollars, they being the highest and best bidders therefor, and the said sum of One Hundred (\$100.00) dollars being the highest and

best sum bid therefor, and it appearing that all the requirements of the said Ordinance No 834 has been fully complied with, and that said sale was made at the time and place and in the manner provided for by said ordinance and by said notice of sale,

Therefore Be it ordained, By the Common Council of the City of San Diego, as follows,  
 Section 1. That the sale of said lease of said land, heretofore described, be and the same is hereby approved and confirmed, and the Mayor of the said City of San Diego, California, be and he is hereby authorized, empowered and directed for and on behalf, as the act and deed, and in the name of the said City of San Diego, California, to sign, execute, acknowledge and deliver a lease of the said Lots numbered 1353 and 1355 to the said Edward Turner Lockyer and William Stuthmann for the sum One Hundred (\$100.00) Dollars, according to the terms and conditions contained and set forth in said Ordinance No 834, and subject to the provisions and conditions of that certain lease of land for mining purposes, heretofore made by and between the City of San Diego, California, the lessor and Griffing Bancroft, the lessee bearing date of October 20th 1900, which said lease of land for mining purposes includes the land herein described, that the City Clerk of the said City of San Diego, be and he is hereby authorized and directed to attest the execution of said lease by affixing thereto his signature and the Corporate seal of the said City of San Diego, provided, that the said lease shall not be executed and delivered until the said Edward Turner Lockyer and William Stuthmann shall pay or caused to be paid the said sum of One Hundred (\$100.00) dollars, to the City Treasurer of the said City of San Diego,

Section 2. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby revoked.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 3<sup>rd</sup> day of December 1900, and signed in open session thereof by the President of said Board December 3<sup>rd</sup> 1900.

Frank P. Frary

**Ordinance No. 857.**

An Ordinance Authorizing and Directing the Mayor of the City of San Diego, California, to Execute, and the City Clerk of Said City to Attest the Execution of a Quitclaim Deed in the Name, for and on Behalf, and as the Act and Deed of the Said City of San Diego, California, to the Owners of Lots in Seaman and Choate's Addition and Powers' Addition to the Said City of San Diego, Being Subdivisions of a Portion of Pueblo Lot 1153 of the Pueblo Lands of Said City, or to the Owners of Any Other Portion of the Southwest Quarter of Pueblo Lot 1153, and Directing the City Clerk to Deliver Such Deed to the County Recorder of San Diego County, California, for Recordation.

Whereas, it appears from the records and proceedings of the Board of Trustees of the City of San Diego, California, that at an auction sale of certain land held in the said City of San Diego, on the 8th day of June, 1868, the southwest quarter of Pueblo Lot numbered 1153 of the Pueblo lands of the said City of San Diego, containing forty (40) acres, was sold to David Ward Briant for the price of fifty (\$50.00) dollars and other considerations, and that the said sum was paid to and received by said City therefor, and that in a deed executed by the said Board of Trustees of the said City of San Diego to the said David Ward Briant, the said property is described as "The southwest corner of Pueblo Lot 1153" without specifying the number of acres intended to be conveyed; and

Whereas, a portion of the said southwest quarter of said Pueblo Lot numbered 1153, above referred to, has since said conveyance to the said David Ward Briant, been subdivided into lots and blocks, and is known as Seaman and Choate's Addition and Powers' Addition; and

Whereas, lots and blocks in said additions have been sold according to the map of said additions on file in the office of the County Recorder of San Diego County; and

Whereas, it appears that the said City of San Diego has no right, title, or interest in or to any portion of said lots or blocks, or in any of said property located in the said southwest quarter of the said Pueblo Lot numbered 1153, or any portion thereof, except for delinquent taxes, or where said City has acquired title to some lot or lots in the said additions, or some part or portion of the said southwest quarter of the said Pueblo Lot numbered 1153 since the execution of said deed to the said David Ward Briant; and

Whereas, the Common Council of the said City of San Diego is desirous of correcting any and all errors in said deed.

Now, therefore, be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the Mayor of the City of San Diego, California, be and he is hereby authorized, empowered, and instructed to execute and acknowledge a quitclaim deed for and on behalf, in the name, and as the act and deed of the said City of San Diego, and the City Clerk of said City is hereby authorized and directed to attest the execution of said deed, so executed by the Mayor of said City, by endorsing his name thereon and affixing the corporate seal of said City of San Diego thereto, to all persons who are the owners of any of the lots or blocks in the said Seaman and Choate's addition, or in the said Powers' addition to the said City of San Diego, or any part or portion of the said southwest quarter of the said Pueblo Lot numbered 1153, or any interest therein (not including, however, the said City as an owner), and that the City Clerk of said City be, and he is further authorized and directed to deliver said deed to the owners of said property, viz., the grantees in said deed, by delivering said deed to the County Recorder of the said San Diego County, State of California, for the owners of said property, and instructing him to record the same.

Section 2. That said deed shall contain a recital that it is made pursuant to this ordinance to correct a defect in the description in, and the execution of, a deed made by the said City of San Diego by and through its Board of Trustees to David Ward Briant, dated on the 12th day of November, 1868, and filed for record on the 12th day of November, 1868, and recorded on November 19th, 1868 in Book 3 of Deeds, at page 318, in the office of the County Recorder of the said County of San Diego, State of California, which said deed shall also recite that the said City of San Diego does not, by this deed, convey any interest which the said City has acquired in the said property for delinquent taxes, or otherwise, since said property was subdivided into lots and blocks. It being the intention of this Common Council that said deed, to be so executed by the Mayor and City Clerk, shall correct any error or errors in the deed made by the Board of Trustees of the said City of San Diego to the said David Ward Briant, hereinbefore referred to, and that such deed to be so executed by said Mayor and City Clerk, shall overcome any possible question that the said City of San Diego did not, by the said deed so executed to the said David

Ward Briant by the said Board of Trustees of said City, convey all the right, title, interest, and estate of every name and nature whatsoever that the said City of San Diego had in the said southwest quarter of the said Pueblo Lot numbered 1153, at the time said deed was so executed in the said year 1868.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish, or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 18th day of December, 1900, and signed in open session thereof by the President of said Board, December 18th, 1900.

**Ordinance No. 860.**

An ordinance amending sections 2 and 9 of ordinance No. 696 of the ordinances of the city of San Diego, California, approved January 6th, 1900.

Be it ordained, by the Common Council of the city of San Diego, as follows:

Section 1. That section 2 of ordinance No. 696 of the ordinances of the city of San Diego, California, entitled "An ordinance providing for the appointment of an inspector of steam boilers, and prescribing his duties, and providing for his compensation, in the city of San Diego, California," approved January 6th, 1900, be, and the same is hereby amended to read as follows:

Section 2. That the said boiler inspector shall inspect all stationary steam boilers carrying a pressure of five (5) pounds to the square inch or upwards, in the said city of San Diego, every six (6) months; that said inspector shall keep a complete record of all steam boilers in said city, their owner's name, location, etc., also the amount of steam pressure allowed to be carried, and the date when last tested, which record shall be kept in the office of the board of public works of the said city of San Diego, and shall be open at all times to the inspection of the public; that said inspector shall give five (5) days' notice in writing to all owners or users of boilers of the date when an inspection or a re-inspection, or a test will be made, or for the examination of any certificate of inspection, and fix in said notice a date on which said inspection or re-inspection, or a test will be made; that the manner of the inspection shall be substantially as follows, viz: Said inspector shall have the option of making the hammer test, or hydrostatic test, or both. If the hammer test be used, the examination shall be thorough and searching upon every part of the boiler, both internally and externally, including all fittings and attachments.

If the hydrostatic test be used, each boiler shall be tested by hydraulic pressure one-fourth greater than the ordinary working pressure used, and the certificate of inspection herein provided shall state the maximum pressure at which any boiler may be worked. In case a defect shall be discovered in any boiler or attachment thereto, the boiler inspector shall report the same to the owner or user of boiler or boilers and state the facts in writing, giving description of the particular locality in which each defect may be found, and whether of a dangerous character and necessitating immediate repairs. If the boiler inspector shall at any time find a boiler which, in his judgment, is unsafe after inspecting the same, he shall condemn its further use. All boilers to be tested by hydrostatic pressure shall be filled with water by the owners or users, and they shall furnish the necessary labor required to work and handle the pumps in applying the test, and when leaks occur which prevent a successful test, the boiler inspector shall make a second test, upon receiving notice that all leaks have been repaired. If, upon making the second test, the boilers are defective, he shall for each subsequent test collect an additional inspection fee, but in no case shall he give a certificate until fully satisfied of the safety of the boiler or boilers. If after making an inspection or test of any boiler, the boiler inspector shall find the boiler in good condition, he shall issue a certificate to that effect, showing the condition and capacity of such boiler, and the date of such inspection, but no certificate of inspection shall be issued for a longer period than six months.

Section 2. That section 9 of said ordinance No. 696 of the ordinances of the said city of San Diego, California, entitled, "An ordinance providing for the appointment of an inspector of steam boilers, and prescribing his duties, and providing for his compensation, in the city of San Diego, California," approved January 6th, 1900, be, and the same is, hereby amended to read as follows:

Section 9. That all railroad locomotive boilers, and marine boilers, and boilers insured by insurance companies, be, and they are hereby exempted from the provisions of this ordinance, provided, however, that no boiler insured in any insurance company or companies, shall be exempt from the provisions of this ordinance unless the person, company, or corporation owning the same shall present to the said boiler inspector, if requested by him so to do, the policy of insurance issued by the company insuring said boiler or boilers, or a receipt given by the agent or agents of any insurance company for money received in consideration of a policy to be issued by the insurance company or companies represented by said agent.

Section 3. That all ordinances or parts of ordinances in conflict herewith be, and the same are hereby repealed.

Section 4. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 5. That the city clerk of the said city of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish, or cause the same to be published, once in the city official newspaper of said city, to-wit, the San Diego Union and Daily Bee.

**Ordinance No. 878.**

An Ordinance Declaring the Grade of that Portion of Third Street in the City of San Diego, California, at the Intersection of the South Line of Nutmeg Street With the East Line of Said Third Street to Be Changed, and Establishing the Grade of the Same.

Whereas, the Common Council of the City of San Diego, California, on the 7th day of January, 1901, duly passed a resolution of intention to change and establish the grade of that portion of Third street in the City of San Diego, California, at the intersection of the south line of Nutmeg street with the east line of said Third street, which said resolution was approved by the Mayor of said city on the 9th day of January, 1901, and which resolution described the said proposed change of grade; and

Whereas, the said Common Council, in and by said resolution, duly designated and established the district to be benefited by such change of grade, and to be assessed to pay the cost of the same; and

Whereas, said resolution of intention was published for ten (10) days in the newspaper of said city in which the official notices of the Common Council of said city are usually printed and published, to-wit, the San Diego Union and Daily Bee, in every regular issue of said newspaper during the said period of ten (10) days as directed by said resolution of intention, and in the manner and by the persons required by law; and

Whereas, the Superintendent of Streets of said city did, within five (5) days after the first publication of said resolution of intention, duly cause notices of the passage of said resolution of intention to be conspicuously posted within said district, in the manner and form required by law; and

Whereas, more than thirty (30) days have elapsed from the day of the first publication of said resolution of intention in said newspaper as aforesaid; and

Whereas, no objection or objections to the said proposed change of grade have been filed with the Clerk of the said Common Council, and no objection or objections have been made to the said proposed change of grade; and

Whereas, the petition of the owners of a majority of the property affected by such proposed change of grade has been duly filed with the said clerk of the said Common Council, and presented to the said Common Council as required by law.

Therefore, be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the grade of that portion of Third street in the City of San Diego, California, at the intersection of the east line of said Third street with the south line of Nutmeg street be, and the same is hereby changed, established, and declared to be in conformity to said resolution of intention as follows:

At the intersection of the east line of said Third street with the south line of said Nutmeg street the grade shall be, and the same is hereby changed from 256 feet above the datum-line of levels as fixed by Ordinance No. 3 of the ordinances of the said City of San Diego, California, entitled, "An ordinance establishing a datum-line for the grading of streets in the City of San Diego, State of California, and providing for the manner of establishing grades by ordinance," approved June 30th, 1886, to 256.5 feet above said datum-line, and that said grade be, and the same is hereby fixed and established at said point at 256.5 feet above said datum-line; that the grade of said Third street between the point so changed by this ordinance and the point heretofore fixed and established by the ordinances of said City at the intersection of the said east line of said Third street with the intersection of the north line of Maple street, and that the grade of said Nutmeg street from the said point, so changed, to the intersection of the south line of said Nutmeg street with the west line of Fourth street, heretofore fixed and established by the ordinances of said city, shall be of uniform ascent and descent.

That the center line of said Third street, from the said south line of said Nutmeg street to the north line of Maple street, shall have an average elevation of the opposite curb grades.

That the center line of said Nutmeg street, from the said east line of said Third street to the west line of Fourth street, shall have an average elevation of the opposite curb grades.

That the numbers used above, where their meaning is not shown to be otherwise by their immediate context, mean the number of feet which the point designated in the proposed new grade shall be above the city datum-line of levels as fixed by the said Ordinance No. 3, approved June 30th, 1886.

Section 2. That all ordinances or parts of ordinances in conflict herewith, be, and the same are hereby repealed.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish, or cause the same to be published once in the city official newspaper of said city, to-wit, the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 19th day of February, 1901, and signed in open session thereof by the President of said Board February 19th, 1901.

**Ordinance No. 882.**

An Ordinance Establishing the Water Rates in the City of San Diego, State of California, for the Year Beginning July 1st, 1901, and Ending June 30th, 1902.

Be it ordained, by the Common Council of the City of San Diego, as follows: Section 1. That the rates or compensation to be collected for water, by any person, company, or corporation engaged in the business of supplying water to the said City of San Diego and its inhabitants, for family, private, public, municipal, and all other purposes, for the year commencing July 1st, 1901, and ending June 30th, 1902, are hereby fixed as follows, to-wit:

**BATHS AND CLOSETS.**

- 1. Bath tubs in private residences, 25 cents each per month.
- 2. Bath tubs, public, \$1.25 each per month.
- 3. Water closets in business houses, \$1.00 per month for each water closet and 25 cents per month for each urinal in said business houses.
- 4. Water closets in private residences, 25 cents per month for each water closet.
- 5. Water closets, public, \$2.00 each per month, and for each urinal, 50 cents per month.

**BUSINESS HOUSES, OFFICES, ETC.**

- 6. Barber shops, single chair, 75 cents per month; each additional chair, 25 cents per month.
- 7. Business offices, 75 cents per month.
- 8. Rooms in second and third stories occupied as offices, for each room per month, 20 cents.
- 9. Dental rooms, \$2.00 per month.
- 10. Drug stores, \$3.00 per month.
- 11. Photograph galleries, \$5.00 per month.
- 12. Stores and business houses employing not to exceed 3 persons, \$1.00 per month, and for each additional person, 15 cents per month.
- 13. Warehouses, \$3.00 per month.
- 14. Water used for flushing sewers, 20 cents per 1,000 gallons.
- 15. Rent for each city fire hydrant and for water used through such hydrant, \$50.00 per year, to be paid monthly by said city. The same rate shall apply to new hydrants to be located upon order of the Common Council.

Provided, that the person, company, or corporation furnishing water shall maintain a pressure of at least thirty-six (36) pounds in the office of the Police Department in the said city of San Diego, located on the first floor on "G" street in that certain building known as the "City Hall," located on the southwest corner of Fifth and "G" streets in said City (said pressure to be ascertained by a gauge to be placed upon a pipe separate and independent from any other pipe, faucet, or opening, at an elevation of four (4) feet above the floor), and also thirty (30) pounds pressure at the hydrants located on the corner of Fifth and "F" streets and Fifth and Ivy streets, and a proportionate pressure at all other hydrants to entitle the person, company, or corporation to the hydrant rate provided in this ordinance.

Provided, further, that nothing contained in this ordinance shall be considered as a contract on the part of the said City of San Diego to take, use, or pay for the use of any fire hydrant belonging to any person, company, or corporation now in place, but the said City hereby expressly reserves to itself the right hereafter to enter into such a contract or contracts from month to month, or otherwise, for the use of fire hydrants as the Common Council of said City shall deem best, with any person whomever, and to order new fire hydrants to be placed, as the Common Council of said City shall deem for the best interests of said City. The person, company, or corporation furnishing water shall flush the water pipes once every three months, and as much more frequently as may be deemed necessary by the Chief of the Fire Department.

16. Water used for street sprinkling purposes, 10 cents per 1,000 gallons.

**FAMILIES.**

17. Dwellings, tenements, flats and other apartments, the same being occupied by not more than three persons, \$1.00 per month, and for each additional person, 15 cents per month.

- 18. Boarding houses, in addition to family rates, 15 cents per month for each person.
- 19. Coffee houses, open day and night, \$3.50 per month.
- 20. Hotels, in addition to family rates, 15 cents per month for each bed. The keepers of hotels, lodging houses and boarding houses shall furnish to the person, company, or corporation furnishing water (under oath if required) a correct list of the number of persons in his or their families, and the number of boarders.
- 21. Lodging houses, in addition to family rates, 10 cents per month for each bed.
- 22. Restaurants and eating houses, \$2.50 per month.
- 23. Saloons, \$3.50 per month.

**IRRIGATION.**

24. Water to be used for irrigating one acre and under two acres, 6 cents per 1,000 gallons; for two acres or more, 4 cents per 1,000 gallons; to be measured by meter, to be placed at the expense of the party furnishing water, such

acreage to include town lots where there is a sufficient number of lots in one body or tract collectively, to make one acre or more; provided, that where meter rates are charged for irrigation under this section, no extra charge shall be made for domestic, family or household use; and provided further the rates herein specified shall apply only to the irrigation of lands cultivated for the purpose of making a profit or livelihood, and not to irrigation for ornamental purposes; provided, also that the rate for water furnished for the irrigation of cemeteries and public parks shall be 4 cents per 1,000 gallons.

25. Irrigation of lawns, trees, shrubbery, etc., 1 cent per month for each and every month in the year, for every front foot, including the irrigation of sidewalks in front of the lot, provided, that said rate of 1 cent per month for every front foot shall not apply to acre property, or to any property except to town lots.

And provided further, that said rate of 1 cent per month for every front foot shall not apply to acreage property, or to any property except to town lots not considered as acreage.

**LIVERIES, ETC.**

- 26. Feed yards, \$5.00 per month.
- 27. Horse and carriage, 35 cents per month, and 20 cents per month for each additional horse.
- 28. Livery stables, including carriage washing, for each horse, 35 cents per month.
- 29. Horses, mules, and cows, each 20 cents per month.

**METER RATES.**

30. The rate for water furnished to consumers through meters, except as otherwise herein provided, is fixed as follows: 20 cents per 1,000 gallons.

31. Where water is furnished for steam engines, gas machines or works, wash houses (Chinese or otherwise), and street sprinkling, or for any other purpose whatever, and no compensation is herein fixed therefor, and satisfactory rates cannot be agreed upon, meter rates shall be charged for the water so furnished, to be measured by a meter.

The person, company, or corporation furnishing water shall be entitled to collect a minimum meter rate of \$1.00 per month where water is furnished at meter rates.

The person, company, or corporation furnishing water shall be entitled to collect a minimum meter rate of \$1.00 per month where water is furnished at meter rates for each meter supplying any business block or business building, and 25 cents for each additional ground floor store or business room or place, in any business block or business building, supplied from the same meter. Provided that such minimum charge shall entitle the consumer to use no more than 5,000 gallons per month for one business block, and 1,000 gallons more for each additional store or business room.

32. Water shall be furnished and delivered by meter measurement to shipping lying alongside any of the wharves on the water front, where water pipes or mains are laid, upon application being made therefor, at the following rates: 75 cents per 100 cubic feet or \$1.00 per 1,000 gallons. Water shall be supplied and delivered to water supply boats at any of the wharves on the water front above mentioned, for the purpose of supplying shipping in the bay of San Diego, upon application being made therefor, at the rate of 37½ cents per 100 cubic feet, or 50 cents per 1,000 gallons. No water boat, furnishing and supplying water to shipping lying at anchor within the limits of the waters of the city of San Diego, shall charge a rate to exceed \$3.00 per 1,000 gallons.

**MISCELLANEOUS.**

- 33. Bakeries, for each 25 barrels of flour, \$2.00 per month.
- 34. Water for hydraulic elevators and motors in hotels and stores, 6½ cents per 1,000 gallons, to be measured by meter to be placed and connected at the expense of the party furnishing the water.
- 35. The person, company, or corporation furnishing the water shall make no charge for any pipe or fire apparatus connected with their mains to be used only in case of fire. If any person shall at any time use such fire apparatus for other than fire purposes, the person, company, or corporation furnishing water shall have the right to charge and collect from such person the sum of \$50 for said fire apparatus connection for said year.
- 36. Horse shoeing only, \$1.50 per month.
- 37. Soda fountains, 50 cents per month each; each jet 50 cents per month; each tumbler washer 50 cents per month.
- 38. Persons slacking lime, 15 cents per barrel; and cement, 15 cents per barrel; for wetting brick, 15 cents per 1,000.
- 39. Wagon and blacksmith shops, including horse shoeing, \$2.50 per month.
- 40. Water troughs on sidewalks to be measured by meter to be put in at the expense of the party furnishing the water.

**GENERAL PROVISIONS.**

Section 2. Any water rate payer shall have the right to demand a meter and to pay a meter rate upon tendering the person, company, or corporation furnishing water the sum of \$5.00 for placing and connecting the meter with the supply pipe of such water rate payer; upon such demand or payment or tender of such sum by any water rate payer, it shall be the duty of the said party furnishing the water to furnish,

place, and maintain a meter; provided, that any rate payer who has heretofore paid for placing and maintaining a meter shall not be obliged to pay an additional sum therefore.

Any corporation furnishing water under the provisions of this ordinance shall have the right, at any time, to place a meter on the service pipe of any water consumer and charge meter rates for water used through it; provided, that such meter shall be placed and maintained at the expense of the person, company or corporation furnishing the water.

Upon demand of any consumer and the payment or tender of payment, of the sum of three (\$3) dollars, the party furnishing the water shall place and maintain on the said consumer's supply pipe an air valve, in connection with the meter, of the latest and most improved pattern.

Section 3. The use of water through standing irrigators, automatic sprinklers, and through hose not held in the hand, for irrigating lawns, gardens and ornamental shrubbery, is hereby prohibited, during the months of July, August, September, October and November, 1901, and May and June, 1902, except between the hours of six and eight in the morning and five and eight in the evening; and in case of a violation of this rule, the water may be shut off of the consumer, or consumers, so violating, and not turned on again until a fine of \$1.00 is paid for the first offense, and double this amount for each subsequent offense; the said fine to be collected by the person, company, or corporation furnishing the water; provided, that this section shall not apply to water furnished at meter rates to those who irrigate for purposes of profit or livelihood.

Section 4. All water rates, except meter rates, are due and payable monthly in advance, upon presentation of bill, and if not so paid shall be subject to an addition of five per cent.

Meter rates are due and payable monthly on presentation of bill, and if not so paid shall be subject to an addition of five per cent.

Section 5. The person, company, or corporation engaged in the business of supplying or furnishing water, by his or its authorized agents, under this ordinance, shall be allowed free access to make personal examination of the premises of any applicant for or consumer of water for the purpose of designating the rate established and for the inspection of water pipes and apparatus.

Section 6. If the person, company, or corporation furnishing water for the use of said city or its inhabitants shall, for twelve or more consecutive hours in the same month, fail to supply water to said consumers or said city, then a deduction shall be made from the rates herein fixed and allowed said person, company, or corporation, for the time of the failure to supply said water; said deduction to be made only for the time of the failure so to supply, and in the same proportion that the number of days in which the failure to supply bears to the total number of days contained in the month during which said failure to supply water occurs.

Section 7. When water is furnished by meter, the meter shall be read at monthly intervals or as near monthly intervals as the ordinary course of business will permit.

Section 8. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 9. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish, or cause the same to be published three (3) times in the city official newspaper of said city, to-wit, the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 21st day of February, 1901, and signed in open session thereof by the President of said Board February 21st, 1901.

## Ordinance No. 897.

An ordinance authorizing and directing the Board of public works of the City of San Diego, California, to accept the bid and enter into a contract with the San Diego Gas and Electric Light Company for lighting the street Avenues and Parks of the said City of San Diego, with electric lights for a period of one year, beginning on the first day of April, 1901.

Whereas, the Common Council of the City of San Diego, California, by Ordinance, by Ordinance No. 886 of the ordinances of the said City of San Diego, entitled, "An ordinance directing the Board of Public Works of the City of San Diego, California, to advertise for bids and let a contract for lighting the streets, avenues and parks of said City with electric lights for a period of one year, beginning on the first day of April, 1901," approved March 5<sup>th</sup>, 1901, authorized and directed the Board of Public Works of the said City of San Diego to advertise for bids and let a contract to the lowest responsible bidder for lighting the streets, avenues, and parks of the City of San Diego, California, with electric lights for a period of one year, beginning on the first day of April, 1901, and ending on the 31<sup>st</sup> day of March, 1902; and

Whereas, the said Board of Public Works, pursuant to said ordinance, caused a notice and advertisement, calling for bids, to be published as provided for in said Ordinance in the City official newspaper of said City, for the time and in the manner provided for in said Ordinance; and

Whereas, pursuant to said notice, the San Diego Gas and Electric Light Company, on the 23<sup>rd</sup> day of March, 1901, filed with the said Board of Public Works of the said City of San Diego its bid for lighting the streets, avenues, and parks of the said City of San Diego with electric lights for a period of one year, beginning on the first day of April, 1901, and ending on the 31<sup>st</sup> day of March, 1902, at and for the following sums, to wit:

One Hundred and Fifty-seven arc lamps of 2000 candle power each, 58 of which shall be located upon the bid towers as specified and called for in the notice calling for proposals for public lighting, attached to said bid and 99 of which shall be placed on masts to be placed on arms 22 feet in length, extending from wooden poles 27 feet high with one of such lamps on each of said arms as specified and called for in said notice attached to said bid

All of said lights to be run on what is known as "moon schedule," all for the sum of \$10.25 per lamp per month, making a total of \$1,609.25 per month, payable monthly, for all of said lights. Said bidder shall supply additional lights to those above mentioned, and <sup>of the</sup> same candle power, to be run on the same schedule upon the following terms and conditions;

On towers and masts of not less than three lamps per tower or mast located within one mile from the intersection of Fifth and "F" Streets for \$10.25 per lamp per month, payable monthly, and 25% additional for each additional mile or fraction of a mile beyond said mile limit; a single lamp of similar candle power upon poles or mast arms to be run on the aforesaid schedule, will be furnished at \$10.25 per lamp per month; provided the same be placed at no greater distance than two blocks from the present line, and 10% additional for each 1,000 feet or fraction thereof beyond said limit of two blocks; and

Whereas, the said San Diego Gas and Electric Light Company was the lowest responsible bidder; and

Whereas, the said bid made by the said Company was the only bid made for furnishing said lights; and

Whereas, said Company has complied with the provisions of said Ordinance No. 886, hereinbefore referred to, and the notice calling for proposals for public lighting, published pursuant thereto; and

Whereas, said bid has been referred to the Common Council of the said City of San Diego, as provided by the terms of said Ordinance No. 886, hereinbefore referred to,

Now, Therefore, Be it Ordained, By the Common Council of the City of San Diego, as follows:

Section 1. That the Board of Public Works of the City of San Diego, California, be, and said Board of Public Works is hereby authorized and directed to accept the said bid of, and enter into a contract with the said San Diego Gas and Electric Light Company for lighting the streets, avenues, and parks of the said City of San Diego with electric lights for a period of one year, beginning on the first day of April, 1901, and ending on the 31st day of March, 1902, for the sums of money mentioned in said bid, and upon the terms and conditions specified in said Ordinance No. 886 of the ordinances of the said City of San Diego, hereinbefore referred to.

Section 2. That this ordinance shall take effect and be in force from and after its passage and approval.

Passed and adopted by the Board of Delegates of the City of San Diego California, this 1st day of April, 1901, and signed in open session thereof by the President of said Board April, 1st, 1901.

## Ordinance No. 914.

An Ordinance Providing for the incurring of a bonded indebtedness of the City of San Diego, California, in the sum of six hundred thousand dollars in lawful money of the United States, for the acquisition by said City of Water Works for the use of said City and its Inhabitants, and providing the Form of Bond and for the issuance and sale of Bonds Evidencing such Indebtedness.

Be it Ordained, By the Common Council of the City of San Diego, as Follows:

Section 1. Whereas, the Common Council of the City of San Diego, California, being the legislative branch of said City, did, on the 18<sup>th</sup> day of March, 1901, Pass and adopt, by a two thirds vote of all the Members of each Board of the said Common Council, Resolution Numbered 1304, by which Resolution it was duly determined and declared that the Public interest demands and the Public Necessity demands the acquisition of Water Works by said City, as designated and described in said Resolution, to which reference is hereby made for further particulars, and that the acquisition by said City of said Water Works is necessary and convenient to carry out the objects and purposes of the Municipality of the said City of San Diego, that the cost thereof will be too great to be paid out of the ordinary annual income and revenue of said City, and that all necessary and proper proceedings shall be taken and had according to the laws of the State of California; and

Whereas, said Resolution Numbered 1304, declaring said Public interest and Necessity, was duly approved by the Execution of said City, to-wit, the Mayor thereof, on the 19<sup>th</sup> day of March, 1901, and was duly published in all respects as required by the terms thereof, to-wit: For three days in the City Official Newspaper of said City, to-wit, the San Diego Union and Daily Bee, viz, on the 21<sup>st</sup>, 23<sup>rd</sup> and 24<sup>th</sup> days of March, 1901, and that said Publication was made in the said Newspaper proper and not in a Supplement thereof, - the said San Diego Union and Daily Bee being at all times herein mentioned the Official Newspaper of the said City of San Diego, and a daily Newspaper published in the said City of San Diego seven days in each week; and

Whereas, on Monday, the First day of April, 1901, the said Common Council by a Two thirds vote of all the Members of each Board thereof did duly pass and adopt Ordinance Number 900, Calling a Special Election in the said City of San Diego, Submitting to the qualified Electors of said City the proposition for the incurring of a bonded indebtedness of six hundred thousand dollars in lawful money of the United States, for the acquisition by said City of the Water Works described in said Ordinance Number 900, to which reference is hereby made for further particulars, the cost of which will be too great to be paid out of the ordinary annual income and revenue of said City.

and Whereas the said Ordinance Number 900, was duly approved by the Execution of said City on the 2<sup>nd</sup> day of April, 1901, and was duly published in all respects as required by law and by the terms of said Ordinance, to-wit, for 12 days immediately prior to the 20<sup>th</sup> day of April, 1901, in the City Official Newspapers of said City, to-wit, the San Diego Union and Daily Bee, which Newspaper is published seven days in each week in said Municipality, viz., on the 7<sup>th</sup>, 8<sup>th</sup>, 10<sup>th</sup>, 11<sup>th</sup>, 12<sup>th</sup>, 13<sup>th</sup>, 14<sup>th</sup>, 15<sup>th</sup>, 16<sup>th</sup>, 17<sup>th</sup>, 18<sup>th</sup>, 19<sup>th</sup>, and 20<sup>th</sup> days of April, 1901, and that said publication was made in said Newspaper proper and not in a Supplement thereof; and

Whereas, each and every one of the facts, matters, and things stated and recited in said Ordinance Number 900, calling said Special Election aforesaid, were and are true and correct and in exact accordance with the statements and recitals contained in said Joint Resolution Number 1304; and

Whereas, on Saturday, April 20<sup>th</sup>, 1901, said Special Election, as called and specified in said Ordinance Number 900, was duly and regularly held and conducted in all respects as required by law and by said Ordinance Number 900, calling said Election; and

Whereas, at said Election the propositions for the incurring of said indebtedness and the issuance of bonds therefor for said purpose, as specified in said Ordinance Number 900, was duly submitted to the qualified Electors of said City in all respects as required by law and the provisions of said Ordinance calling said Election; and

Whereas, at said Special Election more than two thirds of the qualified Electors of said City voting at said Special Election voted in favor of the propositions submitted to them as follows, to-wit:

In favor of the incurring of said indebtedness by said City in the sum of six hundred thousand dollars in lawful money of the United States, payable in forty years in equal annual installments with interest thereon at the rate of four and one-half per cent. per annum, payable semi-annually in like lawful money of the United States, for the acquisition by said City of the water works described in said Ordinance Number 900, and the issuance of bonds for such indebtedness as provided by said Ordinance Number 900, and

Whereas, all the votes cast at said election were duly and properly cast and counted, and the returns thereof duly and properly certified, made, canvassed, and declared; and

Whereas, the whole number of votes cast at said Special Election in said City upon said Proposition was 2512, of which Number, 2372 votes were given in favor of said proposition, and 140 votes were given against said Proposition; that at said Election 2512 voters voted upon said proposition, of which Number, 2372 voters voted in favor

of said proposition, and 140 of said voters voted against said proposition; and

Whereas, said proposition has been duly accepted by the qualified voters of said city; and

Whereas, the said city has been and is now authorized and Empowered to incur a bonded indebtedness of six hundred thousand dollars in lawful money of the United States, payable in forty years in equal annual installments, with interest thereon at the rate of four and one-half per cent. per annum, payable semi-annually, in like lawful money of the United States, for the acquisition by said city of the said water works described in said Ordinance Number 900.

That the interest of said respective bonds shall be evidenced by coupons in the foregoing form, varying only in numbers and date of maturity, attached to said bonds respectively, which coupons shall be numbered consecutively and signed by the Treasurer of the said City of San Diego; that the Executive, to-wit, the Mayor of the said City of San Diego, be and he is hereby authorized, Empowered, and directed for and on behalf of, and as the act and deed of the said City of San Diego, to sign each and every one of said bonds as the Executive of said City as aforesaid, and that the Treasurer of said City be, and he is hereby authorized, Empowered, and directed to sign his name as Treasurer of the said City of San Diego to each and every one of said bonds, and that the City Clerk of the said City be, and he is hereby authorized, Empowered, and directed to countersign each and every one of said bonds as Clerk of the said City of San Diego, and to affix the Corporate seal of the said City of San Diego to each and every one of said bonds; and that said signing and sealing shall constitute and be a sufficient and

binding Execution of each and every one of said bonds by said City; and that the City Treasurer be and he is hereby authorized, Empowered, and directed to sign his name as Treasurer of said City to each and every one of the respective Coupons attached to each respective bond, and that the said signing of said Coupons by the said Treasurer shall constitute and be a sufficient and binding execution of each and every one of said Coupons by said City.

Section 3: That it be and is hereby further Ordained that there shall be levied and collected, each and every year, upon all the property subject to taxation by the said City of San Diego, a Tax sufficient to pay all <sup>the</sup> interest on said bonded Indebtedness, as such interest falls due, and sufficient also to pay one-Fortieth of the whole amount of said bonded Indebtedness each and every year as above provided, and sufficient to pay the whole amount of the principal and interest of said bonded Indebtedness on or before maturity within Forty years from the time of contracting the same; and that the said Common Council of the said City of San Diego hereby makes provision for the levy and collection of said taxes, and for the levy and collection of all sums that shall or may be necessary to pay in full the interest and principal of the said indebtedness as the same shall fall due, and hereby contracts, represents, and promises that such levy shall be made as aforesaid; and so far as the said Common Council has the power now to make such levy, it hereby makes the same.

And the said Common Council further Ordains that there shall be and is hereby provided a Sinking Fund to be kept by the Treasurer of the said City of San Diego and his successors in office, to be designated as the "Sinking Fund for the payment of the Water Works bonds of the City of San Diego," and that the proceeds of the Tax levy above mentioned shall be paid into the said "Sinking Fund" as soon as the same shall be collected, and shall remain in said "Sinking Fund" until required for the respective payments of the principal and interest to be made upon said bonds; and that when the respective payments of Principal and interest of said bonds shall fall due, the Treasurer of the said City of San Diego; and his successors in office, be and they are hereby each respectively Authorized, directed, and Commanded to pay out of the moneys in said "Sinking Fund" the said respective sums of principal and interest of said bonds as the same shall fall due when demand shall be made therefor as required by law; and upon the surrender of said bonds and Coupons to said Treasurer, it shall be the duty of the said Treasurer to cancel the same immediately after their surrender and payment.

And it is further Ordained, promised, and agreed that none of the moneys paid into the said "Sinking Fund" shall be used for any purpose other than the payment of the principal and interest of said bonded Indebtedness as in this Ordinance specified, until the amount of principal and interest of said bonds shall be fully paid, and that all moneys paid into the said "Sinking Fund" shall be inviolably appro-

applied in the payment of the principal and interest of said bonded indebtedness, and that each and every one of the Conditions and provisions stated and provided in relation to said bonds as set forth in said Ordinance Numbered Nine Hundred shall be complied with.

Section 4. That said bonds shall be sold in the following manner, viz: That the City Clerk of the said City of San Diego, shall give notice that he will receive sealed bids for the purchase thereof until seven thirty P. M. on the seventeenth day of June, 1901, and said City Clerk is hereby authorized and directed to publish, or cause to be published, for a period of thirty days in the City Official Newspaper of said City, to-wit, the San Diego Union and Daily Bee, a notice inviting sealed proposals or bids for the purchase of all of said bonds, to be delivered as aforesaid, said notice shall be signed by the said City Clerk and shall contain a provision that the said Common Council reserves the right to reject any and all bids received, and that this Common Council shall hereafter award said bonds to the highest bidder therefor at seven O'clock and thirty minutes P. M. on the said seventeenth day of June, 1901, or as soon thereafter as the said Common Council can consider the matter, or at such time as the said Common Council shall adjourn to on the said seventeenth day of June, 1901, if any bid for said bonds shall have been accepted by the said Common Council. Said bonds shall not be sold for less than their par value, and the proceeds of such bonds, shall be placed in the Municipal Treasury to the credit of the proper improvement fund hereinafter created and shall be applied exclusively to the purpose and objects mentioned in said Ordinance Numbered Nine Hundred. Said bids shall be for the unconditional purchase of said bonds as soon as they are ready for delivery. Each bid shall be accompanied by a check certified by a responsible Bank in <sup>the</sup> said City of San Diego, California, for Fifteen thousand dollars payable to the City Treasurer of said City as a guarantee and assurance that the said bidder will take said bonds and pay therefor the price bid. Upon the delivery of and upon the payment for said bonds, said certified check shall be returned to the bidder.

Section 5. That there shall be and is hereby provided and created a fund of the said City of San Diego which shall be known and designated as the "Water Works improvement Fund" to be kept by the Treasurer of the said City of San Diego, and the proceeds of the sale of said bonds shall be placed in the Municipal Treasury of said City to the credit of said "Water Works improvement Fund", and shall be applied exclusively to the purpose and objects mentioned in said Ordinance Numbered Nine Hundred.

Section 6. That the Board of Public Works of the said City of San Diego be, and said Board of Public Works is hereby authorized and directed to have said bonds and Coupons lithographed, and as soon as said bonds and Coupons shall have been so lithographed, to deliver the

same to this Common Council.

Section 7. That this ordinance shall take effect and be in force from and after its Passage and approval.

## Ordinance No. 961.

An Ordinance providing for the settlement of certain details in the completion of the purchase by the city of San Diego, of the distributing system of the Southern California Mountain Water Company, and the system of water works of the San Diego water Company.

Be It Ordained By the Common Council of the City of San Diego, as follows:

Section 1. That the title to the distributing system of the Southern California Mountain Water Company, and of the property to be conveyed therewith to the said City of San Diego, and the same is hereby accepted; Provided, that all liens thereon be paid and satisfied by the said Southern California Mountain Water Company; Provided, that a bond executed to the said City of San Diego, and approved by the Mayor thereof, in the sum of \$1500.00, be executed by the said Southern California Mountain Water Company as security for the payment of the State and County taxes for the year 1901-02 before the <sup>same</sup> shall become delinquent, shall be accepted by the Mayor of said City.

Section 2. That the title to the property to be conveyed to the said City of San Diego by the San Diego Water Company, pursuant to the terms of the contract between the said San Diego Water Company and said City of San Diego, dated March 12th, 1901, and on file in the office of the City Clerk of the said City of San Diego, be and the same hereby is accepted; provided that all liens and encumbrances thereon shall be paid and satisfied by the San Diego Water Company, provided, that the said San Diego Water Company execute to the said City of San Diego a bond with two sufficient sureties, to be approved by the Mayor of said City in the sum of \$6000.00 as security for the payment of the State and County taxes for the year of 1901-02, before the same shall become delinquent.

Section 3. That the Board of Public Works be and the said Board of Public Works is hereby authorized to receive all property of the said San Diego Water Company as described and set forth in its

inventories delivered to the Chairman of the Joint Water Committee of this Common Council as therein set forth, except that said Water Company shall also deliver the maps of said system of Water Works, and the water rate records, and the water in the reservoirs and pipes of said Company, that all lots and Blocks of land not traversed or crossed by the mains of the said Water Company, or used in connection with its system of Water Works shall be excepted from the deed executed by the said San Diego Water Company to the said City of San Diego, and all lots owned by said Company traversed or crossed by pipe lines of said Company, shall be included in said Conveyance, that the deed to be executed by the Southern California Mountain Water Company to the said City of San Diego shall contain the following provision:

"Also the right of way for a water pipe line where said pipe line is now located over lot Number 2 of said fractional block 12, together with the right of ingress thereto and egress therefrom either from above, or if a building is erected thereon, thence through a Tunnel to be constructed and maintained by the grantors or their successors for the purpose of repairing or replacing any portions of the said pipe line."

Section 4. That all fuel in the possession of the San Diego Water Company at the time of the transfer of the said property to the said City of San Diego, shall be delivered to the said City as a part of the said system of Water Works provided that any fuel in tanks or Cars, or on rail-road tracks en route to the City of San Diego, shall be paid for by the said City.

Section 5. That the Mayor of the said City of San Diego be and he is hereby authorized and directed, for and on behalf of the said City of San Diego, to enter into a stipulation with the said San Diego Water Company to the effect that the action brought by the said San Diego Water Company against the said City to set aside an Ordinance adopted by the Common Council of said City in February, 1890, and an action brought by said Company to set aside the water rate Ordinance adopted in February, 1896, and the action brought by the Consolidated Water Company to set aside the water rate Ordinance adopted in February, 1898, be dismissed; provided, that each party shall pay

all costs incurred by it therein, and that in case a judgment has been rendered against either party for costs, that the same shall be satisfied without expense; also to provide that the case brought by J. A. Flint, receiver of the San Diego Water Company, against the City of San Diego, in the year 1894 be dismissed, each party to pay its own costs; also to provide that the action brought by the said San Diego Water Company to recover the sum of \$6335.17 upon warrants issued to it for fire hydrant rental for the year 1895; and the case of Higgins against the City of San Diego, and the San Diego Water Company be dismissed; on condition that the said City shall pay or cash the said warrants amounting to the sum of \$5250.00 issued to the San Diego Water Company for fire hydrant rental, for a portion of the said year 1895, on or before October 1<sup>st</sup>, 1901. Otherwise the said action brought by the said San Diego Water Company on said warrants and the said action of Higgins against the said City of San Diego and said Water Company shall stand as if said stipulations had not been entered into.

Section 6, that this ordinance shall be in full force and effect from and after its passage and approval.

**Ordinance No. 998.**

AN ORDINANCE PROVIDING CERTAIN REGULATIONS IN THE OPERATION OF THE SYSTEM OF WATER WORKS OWNED BY THE CITY OF SAN DIEGO, CALIFORNIA.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That it shall be and is hereby declared to be unlawful for any person, company, or corporation to tap, open, or connect with any water main or pipe which forms any part of the system of water works of the City of San Diego, California, without first obtaining written permission so to do from the Board of Public Works of said City;

That it shall be and it is hereby made unlawful for any person, other than the employees of the said City of San Diego, to turn on any water after the same shall have been turned off, as herein provided, without the consent of the said Board of Public Works of said City; also for any plasterer, bricklayer, stone mason, concrete layer, worker in concrete, or contractor to take or use water from said system of water works without written permission from the said Board of Public Works; and all owners and occupants of property are hereby prohibited from furnishing water for such purposes until the said Board of Public Works has so given permission so to do; also for any person or persons to place upon or about any fire hydrant or stopcock connected with the water pipes of the said system of water works any building material or other substance so as to prevent free access to the same at all times; also for any water taker to supply water to any person, company, or corporation other than the occupant or occupants of the premises of said water taker, or for any person to conduct or carry away any water from any fire hydrant, watering trough, or public fountain without a permit from the said Board of Public Works of said City; or for any person to knowingly permit leaks or wastage of water, or allow water to flow or escape unnecessarily while washing pavements, sprinkling lawns, gardens or trees.

That any person violating any of the provisions of this section shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine in a sum not exceeding \$100.00, or by imprisonment in the city jail of said City for not exceeding fifty days, or by both such fine and imprisonment.

Section 2. That any person, company, or corporation desiring to have a tap made or service pipe laid and connected with the water mains or pipes of said system of water works shall make application in writing to the said Board of Public Works therefor, and deposit with such application the amount of the expenses to be incurred therefor as herein provided; that no main or water pipe forming any part or portion of said system of water works shall be opened or tapped except by the employees of the said City of San Diego under the supervision of the Superintendent of Water Works; that the size of all taps shall be determined by the said Board of Public Works of the said City of San Diego; that the fees to be charged by the said City of San Diego, and collected by said Board of Public Works in making and placing a tap, which shall include making the aperture in the main and furnishing and placing the tapping cock, shall be as follows:

For one-half inch tap on all kinds of pipe, \$3.00;

For three-quarter inch tap on all kinds of pipe, \$3.50;

For one inch tap on all kinds of pipe, \$4.00;

For one and one-half inch tap on four inch pipe of all kinds, \$6.00;

For one and one-half inch tap on

That the property owner or person making application for a tap or service pipe shall be required to furnish and set without cost to the City on all sidewalks, the whole width of which is paved with brick, asphalt, or concrete, a cast iron cover or frame twenty-five inches by twenty-five inches outside measurement, together with such a foundation of brick or concrete therefor as shall be determined by the said Board of Public Works, for the purpose of enclosing and protecting the curb cock and meter after one is put in place;

That the repair of all service pipes and connections, not owned by the said City of San Diego, within the streets to a foot inside of the curb, and all hydrants, faucets, water closets, stopcock boxes, and all other attachments inside of a line drawn one foot inside of the curb line shall be kept in good condition and repair at all times by the owner or occupant of the premises, and upon failure so to do, after a reasonable notice, the water shall be shut off from the premises; that no person, except the officers and employees of the Water Department of the said City of San Diego, will be allowed to take off or repair any meter attached to the said system of water works; that if a meter gets out of order and fails to register correctly, the consumer shall be charged with an average daily consumption as shown by the meter when in order under similar conditions; that

the said Board of Public Works shall not supply, or allow to be supplied, any water to a tenant of any premises until a written guarantee or bond as security for the payment of all water rates for water furnished upon said premises, or to the tenants thereof, shall be executed and delivered by the owner of said premises to the said City of San Diego.

Section 3. That all flat rate payers must pay their water bills for the current month on or before the 20th day of each month; that all meter rate payers shall pay their water bills on or before the 20th day of each month for water furnished for the preceding month; that the said Board of Public Works be, and said Board is hereby authorized and directed, to shut off the water from the premises unless such bills are so paid; and not to turn the same on again until the payment of all arrearages and amounts due, and the sum of one dollar for turning on the water; that no water tap or service pipe connected with said system of water works shall be placed nearer than two feet from any sewer pipe ditch in said City.

Section 4. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 5. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish, or cause the same to be published, once in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

**Ordinance No. 1000.**

AN ORDINANCE PROVIDING FOR CHANGING THE LOCATION OF THE SOUTHERN STONE MOUNTMENT WHICH MARKS THE DIVISION LINE BETWEEN THE CITY OF SAN DIEGO, CALIFORNIA, AND NATIONAL CITY.

Whereas, the Southern Stone Monument which marks the division line between the City of San Diego, California, and National City is in danger of being destroyed and lost by reason of the caving in of the northerly bank of the Bay of San Diego, in the City of San Diego, California; and,

Whereas, it is the desire of the Common Council of the said City of San Diego to protect said Monument, and for that purpose to change its location to a point fifty (50) feet north of its present location on the division line between the said City of San Diego, California, and National City.

Therefore, be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the City Engineer of the City of San Diego, California, be and he is hereby authorized and directed, to change the location of the Southern Stone Monument on the division line between the said City of San Diego, California, and National City, located near the northerly shore line of the Bay of San Diego, to a distance of fifty (50) feet north of its present location, the bearing of which line is north 71 degrees east, true meridian; and that the Board of Trustees of the City of National City be and said Board of Trustees is hereby requested to have the City Engineer of National City co-operate with the City Engineer of the City of San Diego and to assist in the changing of the location of the said boundary stone, and that after said stone shall have been so removed, that the said City Engineer of the said City of San Diego report to this Common Council regarding the removal of said stone, and that the City Clerk of said City, after the passage and approval of this ordinance, forward to the Clerk of the Board of Trustees of National City a certified copy of this ordinance.

Section 2. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 3. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish, or cause the same to be published, once in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 7th day of October, 1901, and signed in open session thereof by the President of said Board, October 7th, 1901.

**Ordinance No. 1004.**

AN ORDINANCE AMENDING SECTION 2 OF ORDINANCE NUMBER 958 OF THE ORDINANCES OF THE CITY OF SAN DIEGO, CALIFORNIA, APPROVED JULY 23RD, 1901. Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That section 2 of Ordinance Number 958 of the ordinances of the City of San Diego, California, entitled, "AN ORDINANCE CREATING CERTAIN POSITIONS, FIXING THE SALARIES THEREOF, AUTHORIZING THE BOARD OF PUBLIC WORKS TO FILL THE SAME, AND APPOINT EMPLOYEES AND EMPLOY WORKMEN, AND PURCHASE MATERIALS AND SUPPLIES FOR THE PURPOSE OF CONDUCTING AND CARRYING ON THE SYSTEM OF WATER WORKS TO BE ACQUIRED BY THE CITY OF SAN DIEGO, CALIFORNIA," approved on the 23rd day of July, 1901, be and the same is hereby amended to read as follows:

Section 2. That for the purpose of managing, conducting, carrying on, and maintaining said system of water works when so received by the said City of San Diego, the said Board of Public Works is hereby authorized and empowered to employ such additional men as the said Board of Public Works shall deem necessary, whose compensation shall be and is hereby fixed as follows:

River foremen, \$2.50 per day; assistant engineer, \$2.50 per day; assistant day engineer, \$2.25 per day; carpenters, \$3.00 per day; firemen, \$2.00 per day; engineers on gasoline engines, one engineer for largest gasoline engine, \$2.00 per day; other engineers for gasoline engines, \$2.00 per day; experienced labor, other than as above specified, \$2.00 per day; ordinary labor, \$2.00 per day; provided that the expense thereof shall not exceed the sum of \$2,000.00 per month, which sum shall be in addition to the salaries prescribed by Section 1 hereof; provided, that whenever the said Board of Public Works shall determine that an emergency exists whereby great loss would or might result to the property of the City, or to the property of its citizens, and labor or materials, in addition to that already provided by the Common Council, are necessary to properly meet the demands of such emergency, said Board of Public Works shall file with the Mayor a request in writing for such additional labor or material as it may estimate to be reasonably required therefor, and if said Mayor endorses such written application "approved," said Board of Public Works shall have authority to expend such amount as the Mayor may approve, not exceeding, however, the sum of \$300.00 in any one month; nor exceeding the amount for any one emergency for which said Mayor shall have approved such application; provided, that the Mayor shall not in any event approve any application for funds made by said Board unless there be funds available out of which payment for the amount of the Mayor's approval can be made.

Section 2. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 3. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 21st day of October, 1901, and signed in open session thereof by the President of said Board October 21st, 1901.

### Ordinance No. 1025.

An Ordinance Providing for the Execution of a Contract with the San Diego Brewing Company for furnishing water.

Whereas, Sub-section 31 of Section 1 of Ordinance No. 882 of the Ordinances of the City of San Diego, California, Approved on the 26<sup>th</sup> day of February, 1901, Provides that:

31. "Where water is furnished for steam engines, gas machines or works, wash houses (chinese or otherwise), and street sprinkling, or for any other purpose whatever, and no compensation is herein fixed therefor, and satisfactory rates cannot be agreed upon, meter rates shall be charged for the water so furnished, to be measured by a meter." and

Whereas, said Ordinance does not fix any water rate for the purposes for which said water is desired to be used by the San Diego Brewing Company; and

Whereas, it is the desire of the Common Council of the said City of San Diego to enter into a contract with the said San Diego Brewing Company to furnish water to said Company for and at the rate of Twelve (12) cents per one thousand gallons, up to and including the 30<sup>th</sup> day of June, 1901.

Now, therefore, Be it Ordained, By the Common Council of the City of San Diego, as follows:

Section 1. That the City of San Diego, California, supply

Water from the date of the approval hereof up to and including the 30<sup>th</sup> day of June, 1907, to and for the use of the San Diego Brewing Company on lot 13 and part of lot 17 in Pueblo lot 1166, at and for the rate of Twelve (12) Cents per one thousand gallons; said water to be measured through a meter to be placed and maintained by the said City of San Diego, the compensation therefor to be paid monthly. Said water to be delivered at the following point:

**Ordinance No. 1053.**

An Ordinance Providing Specifications for the Grading of Streets in the City of San Diego, California, and Repealing Ordinance No. 349 of the Ordinances of Said City, Entitled "An Ordinance Providing Specifications for the Grading of Streets in the City of San Diego, California, and Repealing Ordinance No. 53 of the Ordinances of Said City, Entitled 'An Ordinance Providing Specifications for the Grading of Streets,' approved December 24th, 1889," Approved February 11th, 1896.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. All street grading in the city of San Diego, California, shall hereafter be performed in accordance with the following specifications: The City Engineer shall set stakes indicating the exact depth of cutting or filling required to bring the street to its official grade, and the contractor shall preserve such stakes until the work is completed, and pay the expenses of replacing those removed or disturbed.

The grading shall include such clearing, grubbing, cutting, filling, and other work as may be necessary to properly form the roadway, gutters and sidewalks.

No earth shall be removed from the streets except upon the written authority and direction of the superintendent of streets.

No rubbish or perishable material shall be used in the grading of any street, and all boulders and loose stones shall be buried at least six inches below the surface of the finished grade, and care shall be taken to mix the earth that there shall be no soft places or sand pockets.

Upon all embankments or fills there shall be placed a top dressing of earth of uniform quality, and of such character as will form a compact surface, and such percentage of allowance for settlement shall be made as may be directed by the City Engineer, and when a cut exceeds one foot in depth, all trees standing on the margin of the street shall be removed, unless the owner of the abutting property shall at his own expense place them to the grade when so requested by the contractor.

Before the resolution ordering the work of grading the street is passed by the Common Council, the City Engineer shall make a careful estimate in writing of the number of cubic yards of earth cut, and the number of cubic yards of earth fill, necessary to bring the street or portion of the street proposed to be graded to its official grade, and in case said estimate of cubic yards fill are in excess of the cubic yards of cut, the Superintendent of Streets shall designate in writing the point or points where such earth required for fill shall be taken from, and in case the number of cubic yards of cut exceed the number of cubic yards of fill, said Superintendent of Streets shall designate the said point or points where such excess of earth shall be deposited, provided that such excess earth shall not be deposited in any place other than upon the public streets of said city, unless under the direction of the Board of Public Works of said City.

The estimate of the City Engineer, made as above specified, shall be kept on file in the office of the City Engineer, and the designation of the Superintendent of Streets, made as above specified, shall be kept on file in the office of the Superintendent of Streets, and both said estimate and said designation shall, during office hours, be accessible for inspection by any person who may desire to inspect the same.

The place or places where the excess of earth is deposited as well as the place or places from which the earth is taken for making the fills in the street to be graded, shall be by the contractor, before the work is accepted, leveled down and put in a condition satisfactory to the Superintendent of Streets.

The contractor shall furnish all tools, machinery and labor, and provide all temporary bridges, drains and other means required to protect the work from damage, and prosecute all work with diligence, and without unnecessary delay.

The Street Superintendent shall supervise all work and shall not approve or accept the same until the street throughout is finished to the form of cross section and to the elevations required by the official grade.

All bids and contracts must express the price by the cubic yard for cutting, and the price by the cubic yard for filling, and no other items or expenses shall be allowed unless they are particularly set forth in the contract.

Incidental expenses shall include the cost of all publication and posting and the labor and material incident thereto, and the compensation of the City Engineer for surveys and estimates, and the cost of all labor and materials furnished by him.

Section 2. That Ordinance No. 349 of the ordinances of said City, entitled, "An ordinance providing specifications for the grading of streets in the city of San Diego, California, and repealing ordinance No. 53 of the ordinances of said city, entitled, 'An ordinance providing specifications for the grading of streets,' approved December 24th, 1889," approved February 11th, 1896, is hereby repealed.

Section 3. That any work or proceedings commenced for the grading of any street under said Ordinance No. 349 shall in no wise be affected hereby, but shall in all respects be finished and completed under said Ordinance No. 349, and this ordinance shall in no wise affect such work or proceedings.

Section 4. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 5. That the City Clerk of the said City of San Diego, be and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 19th day of December, 1901, and signed in open session thereof by the President of said Board December 19th, 1901.

W. H. C. ECKER,

President of the Board of Delegates of the City of San Diego, California.

Passed and adopted by the Board of Aldermen of the City of San Diego, California, this 16th day of December, 1901, and signed in open session thereof by the President of said Board December 19th, 1901.

J. P. M. RAINBOW,

**Ordinance No. 1082.**

An Ordinance Declaring the Grade of that Portion of Ninth Street in the City of San Diego, California, to Be Changed from the South Line of Beech Street to the North Line of Ash Street, and Establishing the Grade of the Same.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That whereas, the Board of Aldermen of the Common Council of the City of San Diego, California, duly passed and adopted, on the 16th day of December, 1901, a resolution of intention to change and establish the grade of that portion of Ninth street in the City of San Diego, California, from the south line of Beech street to the north line of Ash street; and

Whereas, said resolution of intention was passed and adopted by the Board of Delegates of the Common Council of said City on the 19th day of December, 1901; and

Whereas, the said resolution of intention was approved by the Mayor of said City on the 20th day of December, 1901, which resolution described the proposed change of grade; and

Whereas, said Common Council in and by said resolution designated and described the district to be benefited by said change of grade and to be assessed to pay the cost of the same; and

Whereas, said resolution of intention was duly published for ten (10) days in the newspaper of said City in which the official notices of the Common Council of said City are usually printed and published, to-wit: the San Diego Union and Daily Bee, in every regular issue of said newspaper during the said period of ten (10) days, as directed by the said resolution of intention, and in the manner and by the persons required by law; and

Whereas, the Superintendent of streets of said City within five (5) days after the first publication of the said resolution of intention duly caused notices of the passage of said resolution of intention to be conspicuously posted within said district in the manner and form required by law; and

Whereas, more than thirty (30) days have elapsed from the time of the first publication of said resolution of intention in said newspaper as aforesaid, and no objection or objections to said proposed change of grade have been filed with the Clerk of said Common Council, and no objection has been made to said proposed change of grade; and

Whereas, the petition of the owners of a majority of the property affected by said proposed change of grade has been duly filed with the Clerk of said Common Council and presented to this Common Council as required by law, therefore,

Be it further ordained, by the Common Council of the City of San Diego, as follows:

That the grade of that portion of Ninth street in the said City of San Diego from the south line of Beech street to the north line of Ash street, be and the same is hereby changed and established and declared to be in conformity with said resolution of intention, as follows:

At a point on the east side of Ninth street 150 feet south of the southeast corner of Beech and Ninth streets, the grade elevation shall be and is hereby changed from 107.50 feet above the datum-line of levels as fixed by ordinance No. 3 of the ordinances of the said City of San Diego, entitled, "An ordinance establishing a datum-line for the grading of streets in the city of San Diego, State of California, and providing for the manner of establishing grades by ordinance," approved June 30th, 1886, to and established at 109 feet above said datum-line of levels.

The grade of all points heretofore fixed by the ordinances of said City shall be and remain as they now are on the said Ninth street from the said south line of Beech street to the said north line of Ash street, except as herein changed.

That there shall be a uniform ascent and descent between all points at which the grade elevations have been and now are established (including the change made by this ordinance) on the said Ninth street from the said south line of Beech street to the said north line of Ash street.

That the center line of Ninth street from the said south line of Beech street to the said north line of Ash street shall have an average elevation of the opposite curb grades.

Section 2. That all ordinances or parts of ordinances in conflict herewith be and they are hereby repealed.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4: That the City Clerk of the said City of San Diego be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee,

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 3d day of February, 1902, and signed in open session thereof by the President of said Board February 3d, 1902.

**METER RATES.**

27. The rate for water furnished to consumers through meters, except as otherwise herein provided, is fixed as follows: 20 cents per 1,000 gallons.

28. Where water is furnished for steam engines, gas machines or works, wash houses (Chinese or otherwise), or for any other purpose whatever, and no compensation is herein fixed therefor, and satisfactory rates cannot be agreed upon, meter rates shall be charged for the water so furnished, to be measured by a meter.

The said City shall be entitled to collect a minimum rate of \$1.00 per month where water is furnished at meter rates, and an additional minimum sum of 25 cents for each additional occupied house and each occupied flat supplied with water through the same meter.

Provided that such minimum charge shall entitle the consumer to use no more than 5,000 gallons per month for one house or flat and 1,250 gallons more for each additional house or flat.

That said City shall be entitled to collect a minimum meter rate of \$1.00 per month where water is furnished at meter rates for each meter supplying any business block or business building, and 25 cents for each additional ground floor store or business room or place, in any business block or business building, supplied from the same meter, when occupied. Provided that such minimum charge shall entitle the consumer to use no more than 5,000 gallons per month for one business block, and 1,250 gallons more for each additional store or business room.

29. Water shall be furnished and delivered by meter measurement to shipping lying alongside of any of the wharves on the water front, where water pipes or mains are laid, upon application being made therefor, at the following rates: 75 cents per 100 cubic feet, or \$1.00 per 1,000 gallons. Water shall be supplied and delivered to water supply boats at any of the wharves on the water front above mentioned, for the purpose of supplying shipping in the bay of San Diego, upon application being made therefor, at the rate of 37½ cents per 100 cubic feet, or 50 cents per 1,000 gallons. No water boat, furnishing and supply water to the shipping lying at anchor within the limits of the waters of the city of San Diego, shall charge a rate to exceed \$3.00 per 1,000 gallons.

**MISCELLANEOUS.**

30. Bakeries, for each 25 barrels of flour, \$2.00 per month.

31. Water for hydraulic elevators and motors in hotels and stores, 6½ cents per 1,000 gallons, to be measured by meter to be placed and connected at the expense of the party to whom water is furnished, for which a charge of \$5.00 shall be made.

32. No charge shall be made for any pipe or fire apparatus connected with the mains where such apparatus is used only in case of fire. If any person shall at any time use such fire apparatus for other than fire purposes, the said Board of Public Works shall have the right to charge and collect from such person the sum of \$50 for said fire apparatus connection for said year.

33. Horse-shoeing only, \$1.50 per month.

34. Soda fountains, 50 cents per month each; each jet 50 cents per month; each tumbler washer, 50 cents per month.

35. Persons slacking lime, 15 cents per barrel; and cement, 15 cents per barrel; for wetting brick, 15 cents per 1,000.

36. Wagon and blacksmith shops, including horse-shoeing, \$2.50 per month.

37. Breweries, 12 cents per 1,000 gallons.

38. That water furnished to all charitable institutions, such as "The Helping Hand," "King's Daughters' Boarding Club," "Seamans' Rest," and "Children's Home," shall be \$1.00 per annum; provided, that if water is wasted by any such institution, meter rates shall thereafter be charged. Provided, that this provision shall not apply to hospitals and sanitariums.

**GENERAL PROVISIONS.**

Section 2. Any water rate payer shall have the right to demand a meter and to pay a meter rate upon tendering the said Board of Public Works the sum of \$5.00 for placing and connecting the meter with the supply pipe of such water rate payer; upon such demand or payment or the tender of such sum by any water rate payer, it shall be the duty of the said Board of Public Works to furnish, place, and maintain a meter; provided, that any rate payer who has heretofore paid for placing and maintaining a meter shall not be obliged to pay an additional sum therefor.

The said Board of Public Works shall have the right, at any time, to place a meter on the service pipe of any water consumer and charge meter rates for water used through it; provided, that such meter shall be placed and maintained at the expense of the said City.

Upon demand of any consumer and the payment or tender of payment of the sum of three (\$3) dollars, the said Board of Public Works shall place and maintain on the said consumer's supply pipe an air valve, in connection with the meter, of the latest and most improved pattern.

Section 3. The use of water through standing irrigators, automatic sprinklers, and through hose not held in the hand, for irrigating lawns, gardens and

ornamental shrubbery, is hereby prohibited, during the months of July, August, September, October and November, 1902, and May and June, 1903, except between the hours of six and eight in the morning and five and eight in the evening; and in case of a violation of this rule, the water may be shut off of the consumer, or consumers, so violating, and not turned on again until a fine of \$1.00 is paid for the first offense, and double this amount for each subsequent offense; the said fine to be collected by the said Board of Public Works; provided, that this section shall not apply to water furnished at meter rates to those who irrigate for the purposes of profit or livelihood.

Section 4. That all flat rate payers must pay their water bills for the current month on or before the 20th day of each month; that all meter rate payers shall pay their water bills on or before the 20th day of each month for water furnished for the preceding month; that the said Board of Public Works be, and said Board of Public Works is hereby authorized and directed, to shut off the water from the premises unless such bills are so paid; and not to turn the same on again until the payment of all arrearages and amounts due, and the sum of one dollar for turning on the water; that no water tap or service pipe connected with said system of water works shall be placed nearer than two feet from any sewer pipe ditch in said city.

Section 5. Any employe of the Water Department of said City, when directed by the said Board of Public Works, under this ordinance, shall be allowed free access to make personal examination of the premises of any applicant for or consumer of water for the purpose of designating the rate established and for the inspection of water pipes and apparatus.

Section 6. If said City shall, for twelve or more consecutive hours in the same month, fail to supply water to said consumers, then a reduction shall be made from the rates herein fixed and allowed said person, company, or corporation, for the time of the failure to supply said water; said reduction to be made only for the time of the failure so to supply, and in the same proportion that the number of days in which the failure to supply bears to the total number of days contained in the month during which said failure to supply water occurs.

Section 7. When water is furnished by meter, the meter shall be read at monthly intervals or as near monthly intervals as the ordinary course of business will permit.

Section 8. That all water rates shall be paid by the owners of the property upon which water is used, or upon a written guarantee to be signed by the owner of the property that the water furnished upon said property shall be paid for at the rates fixed by this ordinance; that in the event that the owner of the property refuses to agree to pay for the water and refuses to execute such guarantee, then the said Board of Public Works shall have the right to demand, as security for the payment of the monthly water bills when the same is not paid in advance, a sum sufficient to pay the water bill for water used on said property for any month during the year.

Section 9. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 10. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published three (3) times in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

**Ordinance No. 1099.**

An Ordinance Prescribing Certain Regulations for the Laying of Sidewalks and Curbs in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That it shall be and is hereby declared to be unlawful for any person to lay or put in place any sidewalk or curb in or upon any street in the City of San Diego, California, without first obtaining permission so to do from the Common Council of the said City of San Diego. Any person desiring to construct a sidewalk or curb upon any street in the City of San Diego, California, shall make application in writing to the said Common Council of said City for permission so to do; said application shall state the place where said sidewalk or curb is to be laid, and the number of feet of said sidewalk or curb to be constructed. Said applicant shall deposit with the Board of Public Works of said City the sum of \$10.00 for each fifty feet of sidewalk, and the sum of \$10.00 for each fifty feet of curb which he desires to construct, as security for the removal of all debris and surplus material from the street in said City when said sidewalk or curb has been constructed, and that said sidewalk and curb will be laid to the official grade of said street.

When said application has been granted by the said Common Council and said sum so deposited with the said Board of Public Works, said Board of Public Works shall issue a permit for the construction of said sidewalk or curb, and shall immediately notify the City Engineer of said City of the issuance of such permit, and thereafter the said City Engineer shall set the grade stakes for the construction of such sidewalk and curb, which stakes shall be to the official grade of said street; and thereafter said sidewalk and curb shall be laid and constructed according to said grade stakes and according to the official grade of said street, and not otherwise.

After said sidewalk and curb shall have been so constructed, the City Engineer shall survey said sidewalk and curb for the purpose of ascertaining whether said sidewalk and curb has been laid to the official grade of said street, and according to the stakes set therefor. If the said City Engineer shall find that the said sidewalk and curb has been laid to the official grade of said street, he shall issue to the person for whom the said sidewalk and curb has been laid a certificate in writing certifying that fact, but he shall not issue any certificate if he finds that said sidewalk and curb has not been laid to the official grade of said street; when the said City Engineer issues such certificate, the said Board of Public Works shall thereafter return said deposit, provided, that said surplus materials and debris has been removed from said street upon which said sidewalk and curb has been so constructed. If the said City Engineer shall find that the said sidewalk and curb has not been laid to the official grade of said street, he shall immediately notify the said Board of Public Works of that fact, and said deposit shall not be returned until said sidewalk and curb has been laid to the official grade of said street, and a certificate issued to that effect by the said City Engineer.

The said City Engineer shall charge the regular fees for making such survey and setting such stakes as prescribed by the ordinances of this City, except that no extra fees shall be charged for checking up work after the completion thereof. This ordinance

shall not apply to work done under a contract by the Superintendent of Streets under the general street law of the State of California.

Section 2. That any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine not exceeding the sum of \$100.00, or by imprisonment in the city jail of said City for a period not exceeding fifty days, or by both such fine and imprisonment.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish, or cause the same to be published, once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 17th day of March, 1902, and signed in open session thereof by the President of said Board, March 17th, 1902.

Section 2. That such sale shall take place in front of the main entrance of the City Hall of said City, situated on the southwest corner of Fifth and G streets, at a time to be specified in the notice of such sale, which date shall be fixed by the said City Clerk in said notice, and shall not be more than forty (40) days subsequent to the approval of this ordinance; that notice of said sale shall be signed and given by the said City Clerk, and shall give the time and place of such sale, fixing the hour and date at which such sale shall take place, which hour shall be between 9 o'clock A. M. and 3 o'clock P. M. of the day upon which such sale is had; that said notice shall also contain the terms and conditions of such sale as herein provided, and recite that the Common Council reserves the right to reject any and all bids; that said lots shall be offered for sale separately and collectively; that said property shall be sold at such sale to the highest bidder for cash, subject to the approval of the said Common Council by ordinance, as hereinafter provided.

Section 3. That the said City Clerk, after making such sale, shall immediately report the same to the said Common Council, giving the name of the purchaser or purchasers, the amount of the highest and best bid offered, both separately and collectively, and such other facts as may be necessary to fully inform the said Common Council of the proceedings had attending such sale. And said Common Council shall thereupon by ordinance, accept or reject any or all of said bids made, and approve and confirm any sale or all of the sales, or disapprove or reject any one of the sales, or all of the sales made at such time.

Section 4. That if any sale be approved by the said Common Council, as herein provided, and the consideration therefor be paid to the said City of San Diego, a deed shall be executed by the said City of San Diego, as hereinafter provided, to said property so sold.

That the purchaser of said property at such sale shall pay to the said City of San Diego five per cent of the amount of his bid at the time such sale is made, taking the receipt of the said City Clerk therefor, which amount so paid shall be returned to the said purchaser in case said sale is not approved by the said Common Council within thirty (30) days after receiving the report of the same, and if such sale be approved by the said Common Council, the said five per cent shall be paid by the said City Clerk to the City Treasurer of said City.

Section 5. That if such sale, or any sale of said property, be approved by the said Common Council, the purchaser of said real estate shall be entitled to a deed from the said City of San Diego for and to said real estate so sold, upon presenting to the Mayor of said City a receipt from the Treasurer of said City showing that the balance of the purchase price of the said real estate, not already paid to the said City Clerk, has been paid to the said City Treasurer, and the Mayor of said City shall thereafter, in the name of, for and on behalf, and as the act and deed of said City, execute and acknowledge a deed of conveyance to the said purchaser of said real property, the execution of which deed shall be attested by the said City Clerk of said City by affixing thereto his signature and the official seal of said City.

Section 6. That the proceeds of such sale, or any sale made at said time and place of said property, or of any portion thereof, shall be, if said sale is approved by the said Common Council as aforesaid, placed and deposited in the treasury of said City to the credit of the Delinquent Tax Fund thereof.

Ordinance No. 1106.

An Ordinance Declaring the Grade of That Portion of Third Street in the City of San Diego, California, at the Southwest Corner of the Plaza, and the Grade of that Portion of the said Plaza on the South Line thereof, one hundred feet east of the east line of the said Third Street, to be changed, and establishing the grade of the same at the said points.

Be it ordained by the Common Council of the City of San Diego, California, as follows: Section 1. Whereas the Common Council of the City of San Diego, California, on the 20th day of January, 1902, duly passed a Resolution of Intention to change the grade of that portion of Third Street in the said City of San Diego at the southwest corner of the Plaza, and the grade of that portion of the said Plaza on the south line thereof one hundred feet east of the east line of the said Third Street, which Resolution of Intention designated and established the district to be benefited by such change of grade and to be assessed to pay the cost of the same and as follows:

Whereas said Resolution of Intention was duly published for ten (10) days in the newspaper of said City in the official notice of the Common Council of said City, and usually printed and published in the San Diego Union and Daily Bee in every regular issue of said newspaper during the said period of ten (10) days as required by the said Resolution of Intention and in the manner and by the means required by law;

Whereas the Superintendent of Streets did within five (5) days after the first publication of said Resolution of Intention, duly cause notices of the passage of said Resolution of Intention to be conspicuously posted within said district in the manner and form required by law and more than thirty (30) days having elapsed from the date of the first publication of said Resolution of Intention in said newspaper as aforesaid, and no objection to said proposed change of grade having been filed with the clerk of the said Common Council, and no objection having been made to such proposed change of grade and the petition of the owners of a majority of the property affected by the said proposed change of grade having been filed with the said Clerk and presented to this Common Council requesting that such grade be changed as aforesaid, and as required by law;

Therefore, Be it further ordained by the Common Council of the City of San Diego, California, that the grade of that portion of Third Street in the said City of San Diego at the southwest corner of the Plaza, on the east line thereof one hundred feet east of the east line of the said Third Street, and the grade of that portion of said Plaza on the south line thereof one hundred feet east of the east line thereof, be and the same is hereby changed and established, and declared to be a public utility, by the said Resolution of Intention, as follows:

The grade of that portion of said Third Street on the east line thereof at the southwest corner of said Plaza, being a point on the east line of said Third Street one hundred and forty-five (145) feet south of the point where the east line of said Third Street intersects the south line of Third Street, shall be and the same is hereby changed from thirty-nine (39) feet above the datum line of levels as fixed by Ordinance No. 107 of the Ordinances of the said City of San Diego, entitled,

An Ordinance establishing a datum line for the grading of streets in the City of San Diego, State of California, and providing for the manner of establishing grades by ordinance, approved June 30th, 1887, and fixed and established at thirty-eight and five tenths (38.5) feet above said datum line; and that the grade of that portion of the said Plaza on the south line thereof one hundred (100) feet east of the east line of said Third Street be and the same is hereby changed from thirty-nine and eighty-five hundredths (39.85) feet above said datum line to and fixed and established at thirty-nine (39) feet above said datum line. Said Plaza being bounded on the east by Fourth Street, on the north by D Street, and on the west by Third Street.

That the grade of all points heretofore fixed by the ordinances of said City shall be and remain as they now are on the said Third Street and said Plaza, except as herein changed.

That there shall be a uniform ascent and descent between all points at which the grade elevations on said Third Street and on said Plaza are so established.

That the numbers used above, where their meaning is not shown to be otherwise limited by the context, mean the number of feet which the points designated in the said grade as changed shall be above the said datum line of levels as fixed by said Ordinance No. 107.

Section 2. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the City Clerk of the said City of San Diego, he, and he is hereby authorized and directed immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 24th day of March, 1902, and signed in open session thereof by the President of said Board, March 24th, 1902.

W. H. CLECKER, President of the Board of Delegates of the City of San Diego, California.

**O R D I N A N C E No. 1108.**

.....

An Ordinance authorizing and directing the Board of Public Works of the City of San Diego, California, to accept the bid of, and enter into a contract with the San Diego Gas and Electric Light Company for lighting the streets, avenues and parks of the said City of San Diego with electric lights for a period of one year, beginning on the first day of April, 1902.

BE IT ORDAINED, By the Common Council of the City of San Diego, as follows:

Section 1. WHEREAS, the Common Council of the City of San Diego, California, by Ordinance No. 1089 of the ordinances of the said City of San Diego, approved on the 25th day of February, 1902, authorized and directed the Board of Public Works of said city to advertise for bids for lighting the streets, avenues, and parks of said city with electric lights for a period of one year, beginning on the first day of April 1902, and ending on the 21st day of March, 1903; and

WHEREAS, the said Board of Public Works, pursuant to said ordinance, caused a notice calling for bids to be published, as above called for in said Ordinance No. 1089, in the city official newspaper of said city for the time and in the manner provided for in said Ordinance; and

WHEREAS, pursuant to said notice, the San Diego Gas and Electric Light Company on the 24th day of March, 1902, filed with the said Board of Public Works its bid for lighting the streets, avenues and parks of said city with electric lights for a period of one year, commencing on the first day of April, 1902, at and for the following sums, to-wit:

170 arc lamps of 2000 candle power each, 58 of which shall be located upon the bid - ders towers as specified and called for in the notice calling for proposals for public lighting, and 112 of which shall be placed on iron arms 22 feet in length extended from wooden poles 27 feet high with one such lamp on each of said arms, as specified and called for in said notice.

All of said lights to be run on what is known as "moon schedule", for the sum of nine dollars and fifty cents (\$9.50) per lamp per month, making a total of sixteen hundred and fifteen dollars (\$1615.00) per month payable monthly, for all of said lights.

Said bidder shall supply additional lights to those above mentioned and of the same candle power to be run on same schedule, upon the following terms and conditions:-

On towers and masts of not less than three lamps on each tower or mast located within one mile from the intersection of Fifth and F streets for \$9.50 per lamp per month, payable monthly, and 25% additional for an additional mile or fraction of a mile beyond said mile limit; a single lamp of similar candle power upon poles or mast arms to be run on the afore-said schedule, will be furnished at \$9.50 per lamp per month, provided the same be placed at no greater distance than two blocks from the present line, and 10% additional for each 1000 feet or fraction thereof beyond said limit of two blocks.

Also 16 incandescent electric lights to be placed on the iron posts in front of the City Hall, six of said incandescent lights to be placed on the iron posts on Fifth street, and ten of said incandescent lights to be placed on the iron posts on G street, all of said incandescent lights to be lighted on every night until twelve o'clock midnight for the sum of one dollar and twenty-five cents (\$1.25) per light per month or a total of twenty dollars (\$20.00) per month for all of said sixteen incandescent lights, payable monthly.

AND WHEREAS, The said San Diego Gas and Electric Light Company was the lowest responsible bidder; and

WHEREAS, The bid of said company was the only bid made for furnishing said lights; and

WHEREAS, Said company has complied with the provisions of said Ordinance No.1089, hereinbefore referred to, and the notice calling for proposals for public lighting pursuant thereto; and

WHEREAS, Said bid has been referred to the Common Council of said city, as provided by the terms of said Ordinance No.1089 hereinbefore referred to, for approval.

NOW, THEREFORE, BE IT FURTHER ORDAINED, By the Common Council of the City of San Diego, as follows:

That the said Board of Public Works of said City be and said Board of Public Works is hereby authorized and directed to accept the said bid of and enter into a contract with the said San Diego Gas and Electric Light Company for lighting the streets, avenues, and parks of said city with electric lights for a period of one year, beginning on the first day of April, 1902, and ending on the 31st day of March, 1903, for the sum of money mentioned in said bid, and upon the terms and conditions specified in said Ordinance No.1089, hereinbefore referred to.

Section 2. That this ordinance shall take effect and be in force from and after its passage and approval.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 24th day of March, 1902, and signed in open session thereof by the President of said Board March 24th, 1902.

W. H. C. ECKER,  
President of the Board of Delegates of the City of San Diego, California.

Passed and adopted by the Board of Aldermen of the City of San Diego, California, this 24th day of March, 1902, and signed in open session thereof by the President of said Board March 24th, 1902.

DAN F. JONES,  
President of the Board of Aldermen of the City of San Diego, California.

I HEREBY APPROVE the foregoing ordinance this 25th day of March, 1902.

laborer, or other person employed on the work who shall refuse or neglect to obey said Superintendent of Streets in anything relating to the work, or who shall perform his work in a manner contrary to these specifications or who shall be found to be incompetent or unfaithful.

All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any unforeseen obstruction or difficulty which may be encountered in the performance of the work, or from any act or commission on the part of the contractor, or any person or agent employed by him, occurring in the course of the work, not authorized by these specifications, shall be sustained and borne by the contractor. No work will be considered as accepted which may be defective in its construction, or deficient in any of the requirements of the specifications in consequence of the negligence of any officer of the city to point out said defects or deficiency during the construction, and the contractor shall be required to correct any imperfect work, whenever discovered, before the final acceptance of the work. The contractor shall give twelve (12) hours' notice in writing when he shall require the service of the City Engineer for laying out any portion of the work. He shall dig all stake holes necessary to give lines and levels. The contractor shall not disturb any monuments or stakes found on the line of improvement until authorized so to do by the City Engineer. He shall reset any monuments or stakes when so directed by the City Engineer. The contractor shall be required to remove, at his own expense, all obstructions, such as trees, stones, old blocks, debris, etc., that may be in the way of making the required improvements; he shall remove all obstructions in a careful manner, and replace the same when necessary, that the same should be replaced, in as good a condition as found, and to the proper grade, and all projecting stones or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connections with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements by fence or otherwise to prevent accident, and shall hang thereon proper lights to burn from dusk until daylight, and the contractor shall hold the city harmless from any and all suits for damages arising from or out of and during the performance of said work, or any part thereof, and before the same has been accepted. The City, through its Superintendent of Streets, reserves the right of suspending the work, or any part thereof, and at any time during the construction of the same on account of the failure to comply with these specifications, without other compensation to the contractor for such suspension other than extending the time for completing the work for as long a period as the same shall be delayed by such suspension. When any contractor, during the progress of his work, fails to comply with the provisions of these specifications, either in respect to the materials employed or the manner of employing them, the Superintendent of Streets shall notify the Common Council at once of such failure, and until their decision is reached on the point at issue shall require a suspension of said work from the contractor.

No materials of any kind shall be used until they have been examined and approved by the Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with the specifications, and to require the contractor to immediately remove any work or materials so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets, and the decision of the said Superintendent of Streets shall be final as to the quality of work or materials. In case the contractor shall neglect or refuse, after written notice, to remove or replace said rejected work or materials they shall be removed and replaced by the said Superintendent of Streets at the contractor's expense.

Section 3. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 4. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 5. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 7th day of April, 1902, and signed in open session thereof by the President of said Board, April 7th, 1902.

### Ordinance No. 1120.

An Ordinance Prescribing Certain Regulations for the Laying of Sidewalks and Curbs in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That it shall be and is hereby declared to be unlawful for any person to lay or put in place any sidewalk or curb in or upon any street in the City of San Diego, California, without first obtaining permission so to do from the Board of Public Works of said city. Any person desiring to construct a sidewalk or curb upon any street in the said City of San Diego shall make application in writing to the said Board of Public Works for permission so to do; said application shall state the place where said sidewalk or curb is to be laid, and the number of feet of said sidewalk or curb to be constructed.

Said applicant shall deposit with the said Board of Public Works the sum of ten dollars (\$10.00) for each one hundred (100) feet of sidewalk and curb, or fractional part thereof where the applicant desires to construct both a sidewalk and curb at the same time in front of the same property, or ten dollars (\$10.00) for each one hundred (100) feet of sidewalk, or fractional part thereof, where the applicant desires to construct a sidewalk, without constructing a curb at the same time in front of the same property, or ten dollars (\$10.00) for each one hundred (100) feet of curb, or fractional part thereof, where the applicant does not desire to construct a sidewalk at the same time in front of the same property, as security for the removal of all debris and surplus material from the street in said City when said sidewalk or curb has been constructed, and also as security that said sidewalk and curb shall be laid to the official grade of said street.

Upon said application being made and said sum being so deposited with the said Board of Public Works, the said Board of Public Works shall issue a permit to the applicant for the construction of the work described in the application, and shall immediately notify the City Engineer of said City of the issuance of such permit, and thereafter the said City Engineer shall set the grade stakes for the construction of the said work, which stakes shall be to the official grade of said street; and thereafter said work shall be constructed according to the said grade stakes and according to the official grade of said street, and according to the specifications prescribed for doing such work by the ordinances of said City in force at the time such work is done, and not otherwise.

After said work shall have been so constructed, the said City Engineer shall survey the same for the purpose of ascertaining whether said work has been constructed to the official grade of said street, and according to the stakes set therefor. If the said City Engineer shall find that the said work has been constructed according to the official grade of said street, he shall issue, to the person for whom the said work has been constructed, a certificate in writing certifying that fact, but he shall not issue any certificate if he finds that the said work has not been constructed according to the official grade of said street; when the said City Engineer issues such certificate, the said Board of Public Works shall thereafter return said deposit, provided, that said surplus materials and debris have been removed from said street upon which said work has been so constructed. If the said City Engineer shall find that the said work has not been constructed according to the official grade of said street,

he shall immediately notify the said Board of Public Works of that fact, and said deposit shall not be returned until said work has been constructed according to the official grade of said street, and a certificate issued to that effect by the said City Engineer.

Provided, however, that no permit shall be issued by the said Board of Public Works for the construction of bituminous rock or asphalt sidewalks or wooden curbs; nor shall a permit be issued by said Board of Public Works for the construction of a concrete or other sidewalk or curb after a resolution of intention has been passed by the Common Council of said City to sidewalk or curb the portion of the street upon which the applicant desires to construct such sidewalk or curb, without special permission having been first had and obtained from the Common Council of said City.

The said City Engineer shall charge the regular fees for making such survey and setting such stakes as prescribed by the ordinances of this City, except that no extra fees shall be charged for checking up work after the completion thereof. This ordinance shall not apply to work done under a contract by the Superintendent of Streets under the general street law of the State of California, where an assessment is to be levied therefor.

Section 2. That Ordinance No. 1099, and all ordinances or parts of ordinances of said City in conflict herewith be and the same are hereby repealed.

Section 3. That any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine not exceeding the sum of one hundred dollars (\$100.00), or by imprisonment in the City jail of said City for a period of not exceeding fifty (50) days, or by both such fine and imprisonment.

Section 4. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 5. That the City Clerk of the said City of San Diego, he, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Ordinance No. 1127.

An Ordinance Prescribing Regulations in Making Connections With the Public Sewers, and for Plumbing, in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:
Section 1. That it shall be and is hereby declared to be unlawful for any person, company, or corporation to connect with, or open, or penetrate any public sewer or drain, or to connect with, or open, or penetrate any private sewer connected with a public sewer, in the City of San Diego, California, or to injure, break, remove, or open any portion of any manhole, flush tank, inspection pipe, or any other part of or appurtenance to the public sewers, without having first obtained a written permit to do from the Board of Public Works of the said City of San Diego, as herein provided.

Section 2. That application for permits to make connections with, or opening in any public sewer, or any private sewer connected with any public sewer, must be made in writing by the owner of the property to be drained, or his authorized agent, which application shall describe the property, that is to be drained, and the place where it is desired to connect with the sewer, and give the name of the owner of such property, which application shall be countersigned by the licensed plumber by whom the work is to be done.

Section 3. That no connection with, or opening in the public sewer, or in any private sewer connected with the public sewer, shall be made by any person except a plumber regularly and duly licensed to perform and to do such work, and holding a written permit from said Board of Public Works authorizing the making of such connection or opening in such sewer.

Section 4. That any licensed plumber engaged in any work provided for in this ordinance shall be held responsible for any injury to any sewer or to any public street, or to any public or private property, and for all other damages.

Section 5. That the provisions of Ordinance No. 787 of the ordinances of said City, entitled, "An ordinance relating to the opening of trenches in streets and to the moving of houses in public streets in the City of San Diego, California, and requiring a permit therefor, and providing for the refilling of said trenches and repairing of said streets," approved on the 17th day of July, 1900, shall apply to the digging of trenches or opening of streets in said City for the purpose of making such sewer connections.

Section 6. That every soil pipe and private drain connecting with any sewer, running from the property line to the sewer, shall be at least four inches in diameter, and whether of cast iron or earthenware must be sound and impervious in all its parts, and joined in the best manner. No other metal than cast iron, at least as heavy as soil pipe "extra heavy", will be allowed. For cast iron pipe the gaskets must be of clean tarred oakum, twisted and rammed into place. The lead used in making the joint must be of the best quality, pure and soft, and must be caulked securely and properly into place. Before making the joint the bell and spigot must be wiped clean and dry, and the joints must be run in at one pouring of the molten lead. The caulking must be faithfully executed and the lead driven flush with the face of the work. Cement pipe must not be used. All earthenware shall be of the best quality of salt glazed vitrified pipe, perfectly true to pattern and sound. All joints shall be completely filled with cement mortar, wiped off on the outside to a neat bevel, after each joint of pipe has been laid and cemented. All pipes connecting soil pipes or other waste pipes with the public sewer must be laid on the sound and firm bottom of a trench. No person shall connect with any public sewer, any private sewer or drain laid for surface, roof, or yard drainage, nor shall exhaust from steam boilers, or water above 140 degrees Fahrenheit in temperature be discharged in any public sewer, or private sewer or drain connected with the same, in said City.

Section 7. That it shall be and is hereby declared to be unlawful for any person, company, or corporation to connect any pipe on private property with any pipe in the street connected with the public sewer, or with any private sewer, or any plumbing with a cesspool that is connected with any private sewer without first obtaining a permit to do from the Board of Health of the City of San Diego, California, as hereinafter provided.

Section 8. That any person desiring to connect any pipe on private property, laid inside the property line, with the public sewer, or with any pipe or private sewer that is connected with the public sewer in said City, shall first make and prepare, or have made and prepared, plans, profiles, and specifications for all the pipe to be laid upon such private property, inside the property line, for the purpose of draining the same, and for all plumbing to be put in any building upon such property and to be connected with such private property and with the sewer system of said City, and present the same to the Board of Health of said City for approval. One copy of said plans, profiles, and specifications shall be filed in the office of the said Board of Health. Said Board of Health shall not issue such permit or approve such plans, profiles, and specifications unless they comply with the provisions of this ordinance.

Section 9. That application for permit for the laying of such pipe and for the doing of such plumbing work must be made in writing by the owner of the property upon which the building is to be constructed or such plumbing work to be performed, or his authorized agent, which application shall describe the property which is to be drained, and upon which such plumbing work is to be performed, and give the name of the owner of the property. Such application shall also be countersigned by the licensed plumber by whom the work is to be done.

Section 10. That no plumbing of any kind upon private property shall be done by any person except a plumber regularly and duly licensed by the Board of Health of said City to perform and to do such work, and holding a written permit from the said Board of Health authorizing such work to be done; provided, that this section shall not prohibit a plumber's helper or any other person from repairing valves, faucets, or cleaning out any sewer pipe.

Section 11. That every soil pipe and private drain, inside the property line, connected with the sewer, or connected with any pipe or private sewer that is connected with the public sewer, shall be of cast iron, and must be sound and impervious in all its parts, and joined in the best manner, and in all buildings of three or more stories high must be of extra heavy pipe. All "extra heavy" pipe must have the maker's name cast on the pipe and must be of the following weight:
Four inch diameter, 15 lbs. per lineal foot.

Section 12. That all traps to fixtures must be separately and effectively vented, and when two fixtures are attached to one waste one trap must be independent of the other against siphonage by crown venting one trap into the main vent between the fixtures. No fixture shall have a trap of less diameter than one and one half inches. All soil pipes shall have clean-outs at the foot of each perpendicular stack or vent and on the fixture end of all sink runs and supplied with iron thimbles, and made perfectly gas tight. The arrangement of all soil, vent, and waste pipes must be as direct as possible and all work must be done in a mechanical and workmanlike manner. All bath tubs above the first floor must have one inch and a quarter overflow connections, and also on the first floor if there is a basement. Four water closets may be vented into a two inch branch vent. Five, six, seven and eight water closets may be vented into a three inch branch vent. Nine or more water closets may be vented into a four inch branch vent. Three wash basins, baths, or similar fixtures may be vented into a two inch branch vent. Six to twelve basins, baths or similar fixtures may be vented into a three inch branch vent. Whenever a water closet is placed in a lot and there is no exposure, the height of the stack shall not be less than fifteen feet from the floor of the closet. Said "exposure" means 50 feet from one building to another. All horizontal or vertical lines of lead waste pipe must be securely fastened on a suitable board or timber by soldering hard lead tacks to said pipe; distance between centers not to exceed three and one half feet. Connecting the waste of a fixture to the lead head of a water closet must be avoided, especially the waste from a wash basin or any other fixture situated in a bedroom, in all cases possible a separate fitting must be placed in the stack to receive the waste from said fixture. The wiping of a solder nipple on a lead bend is prohibited; the lead waste must run to the top of the fixture and there be connected with the iron pipe.

Section 13. That every waste pipe shall be of cast iron or lead. All lead pipe connections must be made with a wiped joint. No solder or bolt joint will be allowed. Safe wastes may be of wrought iron. All cast or wrought iron pipes and fittings for waste, vent, or soil pipe must be coated both inside and outside with coal-tar pitch, applied hot, or some equivalent substance. All connections of lead with iron pipe must be made with a brass ferrule of the same size as the lead pipe, and caulked into the iron pipe, and connected with the lead pipe by a wiped joint. Reduce ferrules are strictly prohibited. Every line of vent and soil pipe must extend full bore to six inches above the highest ridge of the roof, or in case of a building having a flat roof and fire walls, then two feet above the fire walls. In every building there shall be at least one four inch cast iron pipe running from the sewer to a point six inches above the highest ridge of the roof where a water closet is located in said building. Where there is only one water closet on four inch stack, the stack will vent said closet. If there is more than one closet on a stack, each and every closet shall be vented with a two inch pipe. In no case shall a fixture be located more than two feet from its vent. In case an adjoining building, within fifty feet of said pipe, extends one or more stories higher than the building in which the said soil or vent pipes are located, then the said pipes must be carried three feet above all openings or gutters of the highest building, and securely fastened so as to prevent them from falling, by proper guys and supports.

Section 14. That all water closets that are connected inside of buildings must be connected with the soil pipe by a brass flange and suitable gasket, securely fastened to the floor. Every water closet, sink, slop hopper, bath, and each tray of a set of wash trays, or other vessel or vessels connected with the drain pipes, must be separately and effectively trapped with a "P" trap offering an obstacle to the passage of air to not less than two inches depth for water closets, and four inches depth for water closets. Lead traps to have clean-out screw openings and caps. All traps must be placed as near the fixtures as possible. All water closets within houses must be supplied with water from a separate tank or cistern, and must in no case be connected directly with the water main. All water closets must be flushed from a tank of not less than four gallons capacity. The use of all pan and plunger closets is hereby prohibited and the same must be removed upon ten days notice given by the Board of Health to the owner or occupant of the property. All sub-pipes for water closets must be of galvanized iron or lead and shall not be less than one half an inch in diameter. Every safe under a basin, bath, water closet, tank or other fixture, except urinals, must be drained by a special pipe of lead or wrought iron, not direct connected with any soil pipe, waste pipe, drain or water pipe, and shall be made to discharge outside the house. All the urinal safes shall be of the same material, and must discharge into an open trapped hopper that is supplied with water.

Section 15. That all traps to fixtures must be separately and effectively vented, and when two fixtures are attached to one waste one trap must be independent of the other against siphonage by crown venting one trap into the main vent between the fixtures. No fixture shall have a trap of less diameter than one and one half inches. All soil pipes shall have clean-outs at the foot of each perpendicular stack or vent and on the fixture end of all sink runs and supplied with iron thimbles, and made perfectly gas tight. The arrangement of all soil, vent, and waste pipes must be as direct as possible and all work must be done in a mechanical and workmanlike manner. All bath tubs above the first floor must have one inch and a quarter overflow connections, and also on the first floor if there is a basement. Four water closets may be vented into a two inch branch vent. Five, six, seven and eight water closets may be vented into a three inch branch vent. Nine or more water closets may be vented into a four inch branch vent. Three wash basins, baths, or similar fixtures may be vented into a two inch branch vent. Six to twelve basins, baths or similar fixtures may be vented into a three inch branch vent. Whenever a water closet is placed in a lot and there is no exposure, the height of the stack shall not be less than fifteen feet from the floor of the closet. Said "exposure" means 50 feet from one building to another. All horizontal or vertical lines of lead waste pipe must be securely fastened on a suitable board or timber by soldering hard lead tacks to said pipe; distance between centers not to exceed three and one half feet. Connecting the waste of a fixture to the lead head of a water closet must be avoided, especially the waste from a wash basin or any other fixture situated in a bedroom, in all cases possible a separate fitting must be placed in the stack to receive the waste from said fixture. The wiping of a solder nipple on a lead bend is prohibited; the lead waste must run to the top of the fixture and there be connected with the iron pipe.

Section 16. That no connection shall be made at any part of the house drainage system with roof, gutters, or any other channel, for the conveyance of rainwater, save that plumbing fixtures may be supplied from tanks constructed to store rainwater for such purposes. No steam exhaust shall be allowed to connect with any drain, soil, or waste pipe. No person shall throw or deposit, or cause to be thrown or deposited, in any vessel or receptacle connected with a public sewer, any garbage, vegetable parings, ashes, cinders, rags, or any other thing whatsoever, except feces, urine, the necessary water closet paper, and liquid house slops. No drain shall be connected with any privy, outhouse, cesspool, or underground drain, or with any channel conveying water or fish, excepting the soil pipes and plumbing of the house or buildings, as herein provided. No permit shall be issued under this ordinance for putting in new plumbing in any building until the sum of fifty cents has been paid to the said Board of Health therefore; provided, that this provision shall not apply to the alteration or repair of plumbing already in place.

Section 17. That it shall be unlawful for the owner or person having the care or control of any building, any portion of which is used for any purpose during any portion of the day, to fail to have at least one water closet connected with the public sewer, thirty days after notification from the said Board of Health or Health Officer of said City, and to fail to have such water closet suitably arranged for use as a urinal, unless a separate urinal is provided; also, for the owner or person having the care or control of any building in which food is cooked or clothing is washed, to fail to have a suitable sink, slop-stone or hopper for the reception of waste water, provided, however, that if the water closet is of the kind suited to such use it may receive the waste water, and the sink, slop-stone or hopper may be dispensed with; provided, that this section shall not apply to any building located upon any lot which does not front upon a street or alley upon an alley in which there is a public sewer.

Section 18. That Ordinance No. 145, entitled, "Sewerage and Drainage of San Diego," passed and approved, October 27th, 1887, be and the same is hereby repealed; that Ordinance No. 156, entitled, "An ordinance relating to sewer connections and duties of Sewer Inspector," approved December 3rd, 1887, be and the same is hereby repealed; that Ordinance No. 252, entitled, "An ordinance in relation to the connection of sewers of the City of San Diego, California," approved May 16th, 1888, be and the same is hereby repealed; that Ordinance No. 305, entitled, "An ordinance notifying all persons having real property abutting upon the intersection of Fifth street in the City of San Diego, California, between the south line of A street and the south line of Walnut street to make sewer connections, and notifying and directing the San Diego Water Company and the San Diego Gas and Electric Light Company to lay, put in, and extend such water and gas pipes and connections as are necessary and required in said street between said points," approved July 17th, 1895, be and the same is hereby repealed; that Ordinance No. 620, entitled, "An ordinance requiring owners and persons having possession and control of premises within the limits of the City of San Diego, California, to conform to certain sanitary regulations and prescribing certain regulations for the protection of sewers within said City, and prescribing a penalty for the breach of said regulations," approved April 18th, 1896, be and the same is hereby repealed.

Section 19. That every person violating any of the foregoing provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine in any sum not exceeding two hundred dollars (\$200.00), or by imprisonment in the city jail of said City of San Diego for a period not exceeding one hundred (100) days, or by both such fine and imprisonment.

Section 20. That the Plumbing Inspector shall be in attendance at the Health Office between the hours of eight o'clock A. M. and nine o'clock A. M., and from one o'clock P. M. to two o'clock P. M. to receive plans of proposed plumbing, and to make appointments for the inspection of work in the course of construction. He shall number and file all plans and specifications which have been approved by the Board of Health and record the names of the parties by whom the work is to be performed, and the location of such work, and the name of the architect, if one, and owner. He shall examine all plans and specifications, and if in accordance with the provisions of this ordinance he shall approve the same in writing and then present the same to the Board of Health for approval. He shall present to the Board of Health any objection he may have to any plan or specification which does not conform to the provisions of this ordinance. If such plans and specifications are not approved

by the said Board of Health they shall be returned to the person presenting them with a note explaining the corrections necessary in order to have them comply with the provisions of this ordinance. He shall examine the plumbing work before the same is covered up or enclosed, and if found to have been done in accordance with the plans and specifications filed he shall issue a certificate to that effect, and upon the completion of any plumbing work he shall examine the same, and if found to conform to the provisions of this ordinance and the plans and specifications filed, he shall issue a final certificate of final inspection. He must keep an account of the number of plans and specifications received, the number approved by the Board of Health, and the number rejected. He must make a monthly report to the said Board of Health of the number of first and final examinations made, and where and by whom the provisions of this ordinance have been violated (if they have been violated), and such other matters appertaining to the plumbing of the City as may be required by the said Board of Health. He shall immediately on knowledge of any infraction of the provisions of this ordinance report the same to the said Board of Health.

Section 21. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 22. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

**Ordinance No. 1128.**

An Ordinance Prescribing Specifications for Bituminous Rock Pavement on Natural Earth in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the paving of all streets in the City of San Diego, California, with bituminous rock pavement on the natural earth shall be done in accordance with the specifications hereinafter contained.

The street paving, guttering, and culverts provided for herein are to be constructed according to the plans and drawings and cross-sections, approved by the Common Council, on file in the office of the City Engineer of said City, and so as to conform to the lines, levels, and official grade of the street upon which said work is to be constructed; said lines and levels shall be shown on the ground by stakes to be set by the City Engineer of said City.

The work to be done shall be as follows: (a) Grading and preparing the roadbed; (b) Trenching for, and constructing, the culverts; (c) Constructing and laying a pavement of bituminous rock; (d) Constructing and laying along the exterior lines of the said pavement the guttering prescribed; (e) Furnishing all material and labor necessary to perform said work and complete the same.

Section 2. That all grading and the preparation of the roadbed for the pavement shall be done and performed as follows:

1. Grading shall include the work of removing all earth, stone, loose rock, hardpan, and all other material that may be encountered or required in preparing the street for the work called for in the Resolution of Intention, and shall include also all filling, trimming, shaping, picking down, re-filling, rolling, surfacing, and all other work that may be required in bringing the surface of the street to the subgrade and shape required, and of maintaining it in perfect condition until the work has been done. The cost thereof shall be included in the contract price per square yard of completed pavement, and no extra compensation shall be allowed the contractor for removing from the street the surplus material that may result from the work of grading. The surplus material, if any, shall be removed by the contractor to such point or points as may be designated by the Common Council in the Resolution of Intention.

2. When mud or soft material is encountered it shall be taken out below the sub-grade, and the space shall be filled with good, hard material, by and at the expense of the contractor.

3. In places where cutting is necessary to bring the street to the required surface, the plow point shall not in any case penetrate below the established grade line of the street. The remainder shall be carefully dressed off with picks or other hand tools.

4. In places where filling is necessary to bring the street to the required surface, it shall be done in layers of not more than six (6) inches in depth, and each layer shall be thoroughly rolled before another layer is added.

5. The street shall be brought to a sub-grade or surface of the required depths below the established grade of the street and shall be finished in the most perfect manner so as to be parallel with, and in every way made to conform in shape to the surface of the finished work. To effect this the ground shall first be brought to an approximate finish slightly above the sub-grade. The City Engineer will then set grade stakes and the contractor shall then stretch lines from these several stakes, both along and across the work, and dress down to the true surface all irregularities as indicated by these lines. The surface shall then be rolled, when it shall again be dressed and re-rolled until the surface shall be true, smooth, compact, and to the required surface.

6. Such portions of the street as cannot be reached by the roller, and all places excavated below the sub-grade and re-filled, and all pipe trenches and other places that cannot be properly compacted by the roller, shall be tamped solidly by and at the expense of the contractor.

7. All covers to sewer manholes, and valve boxes on the line of work that are not to the established grade shall be reset to the established grade of the street, and grade stakes set therefor by the City Engineer. The contract price per square yard for the finished pavement shall include the cost of re-setting the said covers, and no extra compensation shall be allowed the contractor for re-setting them.

8. The roller used shall be of a weight of not less than two hundred and fifty (250) pounds for each one (1) inch width of roller.

Section 3. That the gutters may be paved with natural stone blocks, Portland cement concrete, or with the same material as the street pavement, and laid in the same manner. The Resolution of Intention shall state the material with which the gutter is to be

paved. The paving of gutters shall commence at the curb and shall conform to the cross-section of the street, and shall be of such width as shall be specified in the Resolution of Intention.

The paving of all gutters with natural stone shall be as follows:

1. The blocks shall be of porphyry or granite, as specified in the Resolution of Intention. The stone shall in all cases be free from lamination, stratifications, or other defects, and shall be of uniform grade and texture throughout.

2. The stone blocks shall be neatly cut to the following dimensions: In length, not more than ten (10) nor less than seven (7) inches; in width, not more than four and one half (4½) nor less than three and one-half (3½) inches, and to a uniform depth of seven inches. All blocks shall be dressed to rectangular faces with straight edges on top, bottom and sides. The sides and ends shall be dressed so as to make three-fourths (¾) of an inch joints the full depth of the blocks. The top and bottom faces shall be parallel and there must be no knob or projections on either the top, bottom, sides or ends of the stone.

3. The blocks shall be laid by hand and firmly bedded in four (4) inches of clean, sharp sand.

4. The blocks shall be laid with their greatest length at right angles to the axis of the street and in straight courses of uniform depths and widths throughout. At the intersection of one street with another street the gutter shall be constructed to the line of the culverts. If culverts are not constructed across the intersection, the blocks will be laid to true radial lines, following the curvature of the curb. Each course shall be set perpendicular to the surface so that in alternate courses all longitudinal joints shall be broken by a lap of at least two (2) inches, and the outer edge shall be laid to form a toothing of at least four (4) inches.

5. When laid, the pavement of the gutter shall be immediately covered with screened pea gravel, which shall first be thoroughly washed and heated and while hot shall be raked or swept in the joints until all are completely filled. The blocks shall then be rammed with rammers weighing from seventy-five (75) to eighty (80) pounds, until all have been forced to a firm unyielding bed, and the gutter brought to a perfect surface. Every block that does not have a solid bearing, as well as all general depressions in the surface, resulting from a thorough ramming of each block, shall be taken up, and additional sand placed upon the foundation and the blocks again laid and rammed until brought to a solid bearing and perfect surface. While the blocks are being rammed the joints shall be kept well filled with gravel.

6. Immediately after ramming, the gravel shall be swept or otherwise cleaned out of the joints to a depth of one (1) inch, and there shall then be poured into the joints, while the gravel is hot, boiling paving cement until all the joints are completely full. Additional hot gravel of the above specified size and quality shall then be poured along and into the joints previously filled with the paving cement, and then be compacted by tamping with light rammers, especially made for this purpose, until all the joints are thoroughly filled and made flush with the upper surface of the gutter.

7. The said paving cement shall be composed of twenty (20) parts of refined asphaltum and three (3) parts of residuum oil mixed with one hundred (100) parts of tar, which shall be obtained from the direct distillation of coal-tar, and shall be the residuum therefrom. These ingredients shall be delivered on the work at least one week before being used, in order that the Street Superintendent may cause the proper tests to be made before the material is admitted into the work. The cement must be mixed upon the work and then heated to a temperature of three hundred (300) degrees Fahrenheit as it is required for immediate use. Three and one-half (3½) gallons of cement shall be used for each and every square yard of gutter.

8. As soon as the joints shall have been thoroughly tamped and before the paving shall have become cold, a layer of clean, dry coarse sand, one-half (½) inch in thickness, shall be spread evenly over the entire surface of the gutter, which, together with the accumulation of any kind, shall be cleaned off and removed from the street by the contractor before the work has been accepted.

9. All blocks shall be carefully inspected by the Superintendent of Streets, and he shall direct that every stone not complying with these specifications, whether it has been set or not, shall be immediately removed from the street at the expense of the contractor. The contractor shall furnish, at his own expense, such laborers as may be required to enable a thorough inspection and culling of the blocks.

10. All natural stone block gutters shall be paid for at a stated price per

square yard, which price per square yard shall include the furnishing of all labor and materials, the foundation, the grouting, and all other work and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining the same in perfect condition until it shall have been finally accepted by the Street Superintendent.

Section 4. That all Portland cement concrete gutters shall be constructed as follows:

1. Portland cement concrete gutters shall be of the width stated in the Resolution of Intention.

2. The thickness shall be six (6) inches at center and at the edge adjoining the curb, and shall be eight (8) inches at the edge adjoining the street pavement, and shall be laid to conform to the cross-section of the street, as shown on the plans and drawings on file in the office of the said City Engineer.

3. The Portland cement used shall conform to the requirements enumerated in Section 6 of this Ordinance.

4. The Portland cement concrete shall be composed of one (1) part, by volume, of cement, two (2) parts of sand and four (4) parts of broken rock. The moulds shall be banked up solidly so that no movement will take place when the concrete is being tamped. The moulds shall be filled with concrete as hereinafter specified and thoroughly tamped to within one (1) inch of the finished surface. The final layer of one (1) inch of mortar shall be one part of cement to one of sand filled in and finished with a trowel. After setting for twelve (12) hours it shall be covered with wet earth and kept so covered for ten (10) days.

Section 5. That all culverts shall be constructed as follows:

1. Culverts may be of vitrified pipe, cast-iron pipe, or of Portland cement concrete, as called for in the Resolution of Intention.

2. All culverts shall be constructed in the line of the gutters and in the direction of the main flow of water, and as shown by the plans and drawings for same in the office of the said City Engineer.

3. If of vitrified stone pipe, the material shall be close grained, well glazed, thoroughly pressed and burned clear through so as to show a uniform color when broken. The inside of the bells and the outside of the spigot ends shall be wiped clean, thoroughly wet and well and closely jointed as laid. The trench for the pipe shall be two (2) feet wide, graded true with the bottom uniformly solid. The joints shall be thoroughly cemented with a mortar composed of one (1) part of Portland cement to one (1) part of sand. The pipe shall be laid upon the bottom of the trench, and thereafter the trench shall be filled in around the pipe with concrete which shall be well tamped under the lower quarters of the pipe, and the pipe covered with cement concrete six (6) inches in thickness on both sides and top. After the concrete is finished and has set for twelve (12) hours it shall be covered with six (6) inches of earth and kept so covered for ten (10) days.

Y branches with conduit pipes shall be laid and concreted in the same manner.

4. If the culverts are constructed of cast-iron pipe, the material shall be the best quality of cast-iron pipe coated inside and out with a double coat of paraffine paint, and laid and concreted as specified above.

5. The concrete in which pipe culverts are laid shall be composed of one (1) part, by volume, of Portland cement, two (2) parts of sand, and four and one-half (4½) parts of gravel or crushed rock, mixed as hereinafter specified.

6. If the culverts are constructed of Portland cement concrete with cast-iron covers, the culverts shall be constructed so as to conform to the alignment and grade, and shall be of the dimensions shown by the plans and drawings on file in the office of the said City Engineer, who shall set the grade stakes for that purpose in accordance therewith. The concrete shall be composed of one part, by volume, of Portland cement, two parts of sand, and four parts of broken stone. The concrete shall be placed in position against wood moulds substantially held in place so as to permit of no movement of the mass while the concrete is being rammed.

7. The cast-iron covers for the culverts shall be of good quality of cast-iron free from flaws, cracks, or other defects. They shall be perfect castings of the exact form and size as shown upon the plans and drawings in the office of the said City Engineer. Where the culverts crosses street railway tracks, the covers shall be made of the proper length and form to fit closely between the rails. Each section of the cast-iron plates shall be set in a bed of mortar in such manner as to insure a uniform bearing upon the walls of the culvert, and any plate that is not so bedded shall be reset, and any plate that may be imperfect in form or material shall be replaced by and at the expense of the contractor before the work is accepted. All

surfaces of cast-iron culvert plates shall receive one coat of paraffine paint.

8. The contract price shall be per linear foot for the culvert complete, and shall include all the labor and material and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining it in perfect condition until it shall have been finally accepted by the said Superintendent of Streets.

Section 6. That all cement, broken stone, or gravel, or other materials not heretofore specified shall comply with the following specifications:

1. No cement will be accepted, tested, or permitted to be used unless delivered in the original packages with manufacturers name and brand of cement thereon.

2. Tests of the cement will be made at a temperature of from sixty (60) to seventy (70) degrees Fahrenheit.

3. Samples for tests may be taken from every package delivered, and unless they meet the requirements herein specified such packages may be rejected.

4. The sieves used for testing cement for fineness and for gauging the sand to be used in making briquettes for sand tests shall be as follows:

No. 20 sieve shall have 400 meshes to the square inch, and shall be made of wire cloth, No. 28 wire, Stubbs wire gauge. No. 30 sieve shall have 900 meshes to the square inch, and shall be made of wire cloth, No. 31 wire, Stubbs wire gauge. No. 50 sieve shall have 2500 meshes to the square inch, and shall be made of wire cloth, No. 35 wire, Stubbs wire gauge. No. 100 sieve shall have 10,000 meshes to the square inch, and shall be made of wire cloth, No. 40 wire, Stubbs wire gauge.

5. Briquettes for testing tensile strength of cement will be made both of neat cement and of cement and sand in the proportions hereinafter specified, with only enough water added to thoroughly moisten the mixture and make it coherent.

6. After being thoroughly mixed on a glass plate the mortar shall be firmly pressed into the moulds by hand, and the briquettes so formed placed upon a glass plate and kept there until put in water.

7. The sand used in preparing briquettes shall be clean and sharp and of such size that it will pass through a number twenty (20) sieve and be retained on a No. 30 sieve.

8. Round pots of neat cement about three inches in diameter, half inch thick at the center and tapering to a feather edge, mixed in the same manner as the neat cement briquettes and placed on a glass plate, shall not show any signs of warping or cracking after seven (7) days in either air or water.

9. Any cement showing signs of swelling, after being mixed, will be rejected.

10. Portland cement shall be ground to such a degree of fineness that not less than 98 per cent by weight shall pass a No. 50 sieve, and not less than 90 per cent by weight shall pass a No. 100 sieve.

11. The ultimate tensile strength of briquettes, one square inch in cross-section, made of neat Portland cement, shall be as follows:

One day in air and six days in water 375 pounds.

One day in air and twenty-seven days in water 510 pounds.

12. The ultimate tensile strength of briquettes one square inch in cross-section, made of one part by weight of Portland cement and three (3) parts of sand shall be as follows:

One day in air and six days in water 120 pounds.

One day in air and twenty-seven days in water 190 pounds.

13. Broken stone for concrete shall be good, hard stone that will not be affected by the weather, broken so that the longest dimension of any stone will not exceed one and one-half inches (1½) nor the least dimension of any stone be less than one quarter (¼) of an inch, and must be free from dust, dirt or other foreign matter.

14. Gravel used for concrete shall be of such sizes that the greatest diameter of any pebble will not exceed one and one-half inches (1½) nor the least dimension of any pebble be less than one quarter (¼) of an inch, and must be free from dust, dirt or other foreign matter.

15. Water shall be fresh, and free from earth, dirt or sewerage.

Section 7. That the mode and methods in performing the work shall be as follows:

1. The cement and sand in the specified proportions, by volume, shall be thoroughly mixed dry on a tight platform with shovels or hoers until no streaks of cement are visible. Upon the mixture there shall be spread the proper quantity of broken stone or gravel. The mass shall then be thoroughly turned over with shovels or hoers not less than three (3) times, or until every pebble or piece of broken stone is completely coated with mortar. Water shall be added by sprinkling during the process of mixing in quantities to secure the required consistency.

2. The cement and sand for mortar in the specified proportions shall be thoroughly mixed dry, on a tight platform, with shovels or hoes until no streaks of cement are visible. Water shall be added to the sand and cement, mixed in accordance with the foregoing directions, in sufficient quantities to produce a mortar of the desired consistency, and the whole thoroughly mixed with shovels or hoes until a homogeneous mass is produced.

3. The mortar, while fresh, shall be spread upon the concrete base before the latter has set, in such quantities that after being thoroughly manipulated and spread over the concrete it will make a layer one inch thick conforming to the required grade and cross-section, which shall be thoroughly dressed and smoothed.

4. Board or timber forms shall be provided by the contractor to mould the concrete and mortar to the required shape, and shall be left until the concrete or mortar is set.

5. Retempering of concrete or mortar will not be permitted, and mortar or concrete that has begun to set before ramming is completed shall be removed from the work.

6. All surfaces on or against which concrete is to be laid shall be thoroughly cleaned and dampened by sprinkling with water just previous to placing the concrete.

7. The concrete shall be evenly spread upon the foundation, as soon as mixed, in a layer of such depth that after having been thoroughly compacted with rammers it shall not be in any place less than the thickness called for, and the upper surface shall be parallel with the proposed surface for the completed work.

8. Concrete shall not be mixed in larger quantities than is required for immediate use, and no batch shall be larger than can be made of one barrel of cement with the proportions of sand and stone specified.

Section 8. That all bituminous rock used in the construction of the pavement specified in this ordinance shall comply with the following specifications:

1. Bituminous rock pavement shall consist of a wearing surface of natural bituminous rock two (2) inches thick, placed on the natural earth foundation prepared as hereinbefore specified.

2. The bituminous rock is to be spread of such thickness that when compacted it shall have a thickness of at least two (2) inches.

3. The bituminous rock must be of good quality, suitable for use as the wearing surface of a pavement. It must yield not less than nine (9) nor more than fifteen (15) per cent of bitumen when extracted by carbon disulphide, and must not contain more than two (2) per cent of non-bituminous combustible material.

4. The consistency of the bitumen extracted by carbon di-sulphide must fall within the limits of 40 to 80 penetration by the District of Columbia Standard. It must be adhesive and ductile. When heated to a temperature of 300 degrees Fahrenheit for eight (8) hours it must not lose more than twelve (12) per cent in weight of vaporizable material, and must not be so changed by heating as to be harder than of a consistency of eight (8) penetration.

5. The non-bituminous and non-combustible ingredients of the bituminous rock are to be sand and finely pulverized mineral matter, of a character unacted on by water. The sand must be clean, hard, moderately sharp, and must all pass an 8-mesh to the inch screen. At least 15 per cent of the non-bituminous and non-combustible ingredients of the bituminous rock must be fine enough to pass a 100 mesh to the inch screen, and at least 16 per cent must be coarse enough to be retained on a 50-mesh to the inch screen.

6. Should it be necessary to add stone dust to the bituminous rock to supply a deficiency of the finely pulverized mineral matter, powdered carbonate of lime shall be used.

7. The bituminous rock is to be reduced to a finely disintegrated condition by heating, but not in open kettles, nor by any other process liable to burn or impair the quality of the bituminous materials. It is to be brought upon the street in a finely disintegrated condition, not colder than 200 nor hotter than 300 degrees Fahrenheit, and while still hot the bituminous rock is to be spread uniformly and rolled with hot hand-rollers weighing not less than two hundred and fifty (250) pounds to the lineal foot until this layer is thoroughly compacted.

8. Hand-rolling is to be followed by rolling with a roller weighing not less than 150 pounds per inch in width of roller. This roller is to be used on the warm pavement for at least five hours for each 1,000 square yards of surface.

9. Where the surface cannot be rolled it is to be thoroughly rammed with hot tampers and smoothed with hot smoothing irons.

10. In case the natural bituminous rock deposit from which the contractor desires to take the bituminous rock does not contain material complying with the above requirements, the con-

tractor shall procure bituminous rock from some other deposit and mix the same with the bituminous rock which he desires to use, to bring it to the standard specified herein. In all cases the bituminous rock used must comply with the specifications herein contained.

11. The finished surface must be smooth and conform to the prescribed surface of the roadway.

12. The bituminous rock of the finished pavement shall be fine grained and compact, containing a sufficient amount of asphalt to fill the voids between the grains of sand or other mineral matter entering into its composition. It must be free from water and from appreciable quantities of light oils volatile at 250 degrees Fahrenheit, and must be in every way serviceable for use as a wearing surface for a street pavement.

13. The contract price shall be per square yard for finished pavement, and shall include all grading, foundation, and all other work and all expenses, direct or indirect, connected with the proper execution of the work, and of maintaining the same until it shall have been finally accepted by the said Street Superintendent.

Section 9. That all work done, shall be subject to the following conditions and requirements:

1. The contractor shall give twelve (12) hours notice in writing when he shall require the services of the City Engineer for laying out any portion of the work. He shall preserve all stakes set for lines, levels, or measurements of the work by the City Engineer in their proper places. Any expense in replacing said stakes which the contractor, or his agents or employees may have failed to preserve, shall be borne by the contractor. The contractor shall dig all stake holes necessary to give lines and levels. The contractor shall, when required to do so by the said Superintendent of Streets, remove from the work any overseer, superintendent, laborer, or other person employed on the work, who shall refuse or neglect to obey the said Superintendent of Streets in any way relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found incompetent or unfaithful.

2. All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any act or commission on the part of the contractor, or any agent or person employed by him, occurring in the course of the work not authorized by these specifications, shall be sustained and borne by the contractor. The contractor shall remove all obstructions in a careful manner, and replace the same when necessary that the same should be replaced in as good a condition as found, and to the proper grade, and all projecting stone or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connections with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements, by fence or otherwise, to prevent accident, and shall hang thereon lights to burn from dusk to daylight, and the contractor shall hold the City harmless from any and all suits for damages arising from or out of and during the performance of said work, or any portion thereof, and before the same has been accepted.

3. All the work provided for herein must in all cases be done under the direction and to the satisfaction of the said Superintendent of Streets, and the materials used shall comply with the specifications herein contained, and be to the satisfaction of the said Superintendent of Streets. No materials of any kind shall be used until they have been examined and approved by the said Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with the specifications, and to require the contractor to immediately remove any work or material so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets. The decision of the said Superintendent of Streets shall be final as to the quality of the work and materials used, unless the Common Council shall determine otherwise upon an appeal.

4. Whenever the word "Contractor" is used in these specifications, it refers to the party or parties to whom the contract has been awarded for the construction of the work herein specified.

5. Whenever the words "City Engineer" or "Street Superintendent" are used in these specifications, they refer, respectively, to the City Engineer and the Street Superintendent of the City of San Diego, State of California.

Section 10. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 11. That this ordinance shall take effect and be in force from and

after its passage and approval.

Section 12. That the City Clerk of the said City of San Diego, be and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 19th day of May, 1902, and signed in open session thereof by the President of said Board June 2d, 1902.

M. W. JENKS,  
President of the Board of Delegates of the City of San Diego, California.

Passed and adopted by the Board of Aldermen of the City of San Diego, California, this 19th day of May, 1902, and signed in open session thereof by the President of said Board May 19th, 1902.

M. J. PERRIN,  
President of the Board of Aldermen of the City of San Diego, California.

I hereby approve the foregoing Ordinance this 3rd day of June, 1902.

**Ordinance No. 1129.**

An Ordinance Prescribing Specifications for Asphalt Pavement on Asphalt Concrete Base in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:

**Section 1.** That the paving of all streets in the city of San Diego, California, with asphalt pavement on asphalt concrete base shall be done in accordance with the specifications hereinafter contained.

The street pavement, guttering, and culverts provided for herein are to be constructed according to the plans and drawings and cross-section, approved by the Common Council, on file in the office of the City Engineer of said City, and so as to conform to the lines, levels, and official grade of the street upon which said work is to be constructed; said lines and levels shall be shown on the ground by stakes to be set by the City Engineer of said City.

The work to be done shall be as follows: (a) Grading and preparing the roadbed; (b) Trenching for, and constructing, the culverts; (c) Constructing and laying an Asphalt pavement on Asphalt Concrete base; (d) Constructing and laying along the exterior lines of the said pavement the guttering prescribed; (e) Furnishing all material and labor necessary to perform said work and complete the same.

**Section 2.** That all grading and the preparation of the roadbed for the pavement shall be done and performed as follows:

1. Grading shall include the work of removing all earth, stone, loose rock, hardpan, and all other material that may be encountered or required in preparing the street for the work called for in the Resolution of Intention, and shall include also all filling, trimming, shaping, picking down, re-filling, rolling, surfacing, and all other work that may be required in bringing the surface of the street to the subgrade and shape required, and of maintaining it in perfect condition until the work has been done. The cost thereof shall be included in the contract price per square yard of completed pavement, and no extra compensation shall be allowed the contractor for removing from the street the surplus material that may result from the work of grading. The surplus material, if any, shall be removed by the contractor to such point or points as may be designated by the Common Council in the Resolution of Intention.

2. When mud or soft material is encountered it shall be taken out below the sub-grade, and the space shall be refilled with good, hard material, by and at the expense of the contractor.

3. In places where cutting is necessary to bring the street to the required surface, the plow point shall not in any case penetrate below a point two (2) inches above the sub-grade. The remainder shall be carefully dressed off with picks or other hand tools.

4. In places where filling is necessary to bring the street to the required surface, it shall be done in layers of not more than six (6) inches in depth, and each layer shall be thoroughly rolled before another layer is added.

5. The street shall be brought to a sub-grade or surface of the required depths below the established grade of the street and shall be finished in the most perfect manner so as to be parallel with, and in every way made to conform in shape to the surface of the finished work. To effect this the ground shall first be brought to an approximate finish slightly above the sub-grade. The City Engineer will then set grade stakes and the contractor shall then stretch lines from these several stakes, both along and across the work, and dress down to the true surface all irregularities as indicated by these lines. The surface shall then be rolled, when it shall again be dressed and re-rolled until the surface shall be true, smooth, compact, and to the required surface.

6. Such portions of the street as cannot be reached by the roller, and all places excavated below the sub-grade and re-filled, and all pipe trenches and other places that cannot be properly compacted by the roller, shall be tamped solidly by and at the expense of the contractor.

7. All covers to sewer manholes, and valve boxes on the line of work that are not to the established grade shall be reset to the established grade of the street, and grade stakes set therefor by the said City Engineer. The contract price per square yard for the finished pavement shall include the cost of re-setting the said covers, and no extra compensation shall be allowed the contractor for re-setting them.

8. The roller used shall be of a weight of not less than two hundred and fifty (250) pounds for each one (1) inch width of roller.

**Section 3.** That the gutters may be paved with natural stone blocks, Portland cement concrete, or with the same material as the street pavement, and laid in the same manner. The Resolution of Intention shall state the material

with which the gutter is to be paved. The paving of gutters shall commence at the curb and shall conform to the cross-section of the street, and shall be of such width as shall be specified in the Resolution of Intention.

The paving of all gutters with natural stone shall be as follows:

1. The blocks shall be of porphyry or granite, as specified in the Resolution of Intention. The stone shall in all cases be free from lamination, stratification, or other defects, and shall be of uniform grade and texture throughout.

2. The stone blocks shall be neatly cut to the following dimensions: In length, not more than ten (10) nor less than seven (7) inches; in width, not more than four and one half (4½) nor less than three and one-half (3½) inches, and to a uniform depth of seven inches. All blocks shall be dressed to rectangular faces with straight edges on top, bottom and sides. The sides and ends shall be dressed so as to make three-fourths (¾) of an inch joints the full depth of the blocks. The top and bottom faces shall be parallel and there must be no knob or projections on either the top, bottom, sides or ends of the stone.

3. The blocks shall be laid by hand and firmly bedded in four (4) inches of clean, sharp sand.

4. The blocks shall be laid with their greatest length at right angles to the axis of the street and in straight courses of uniform depths and widths throughout. At the intersection of one street with another street the gutter shall be constructed to the line of the culverts. If culverts are not constructed across the intersection, the blocks will be laid to true radial lines, following the curvature of the curb. Each course shall be set perpendicular to the surface so that in alternate courses all longitudinal joints shall be broken by a lap of at least two (2) inches, and the outer edge shall be laid to form a toothing of at least four (4) inches.

5. When laid, the pavement of the gutter shall be immediately covered with screened pea gravel, which shall first be thoroughly washed and heated and while hot shall be raked or swept in the joints until all are completely filled. The blocks shall then be rammed with rammers weighing from seventy-five (75) to eighty (80) pounds, until all have been forced to a firm unyielding bed, and the gutter brought to a perfect surface. Every block that does not have a solid bearing, as well as all general depressions in the surface, resulting from a thorough ramming of each block, shall be taken up, and additional sand placed upon the foundation and the blocks again laid and rammed until brought to a solid bearing and perfect surface. While the blocks are being rammed the joints shall be kept well filled with gravel.

6. Immediately after ramming, the gravel shall be swept or otherwise cleaned out of the joints to a depth of one (1) inch, and there shall then be poured into the joints, while the gravel is hot, boiling paving cement until all the joints are completely full. Additional hot gravel of the above specified size and quality shall then be poured along and into the joints previously filled with the paving cement, and then be compacted by tamping with light rammers, especially made for this purpose, until all the joints are thoroughly filled and made flush with the upper surface of the gutter.

7. The said paving cement shall be composed of twenty (20) parts of refined asphaltum and three (3) parts of residuum oil mixed with one hundred (100) parts of tar, which shall be obtained from the direct distillation of coal-tar, and shall be the residuum therefrom. These ingredients shall be delivered on the work at least one week before being used, in order that the Street Superintendent may cause the proper tests to be made before the material is admitted into the work. The cement must be mixed upon the work and then heated to a temperature of three hundred (300) degrees Fahrenheit as it is required for immediate use. Three and one-half (3½) gallons of cement shall be used for each and every square yard of gutter.

8. As soon as the joints shall have been thoroughly tamped and before the paving shall have become cold, a layer of clean, dry coarse sand, one-half (½) inch in thickness, shall be spread evenly over the entire surface of the gutter, which, together with the accumulation of any kind, shall be cleaned off and removed from the street by the contractor before the work has been accepted.

9. All blocks shall be carefully inspected by the Superintendent of Streets, and he shall direct that every stone not complying with these specifications, whether it has been set or not, shall be immediately removed from the street at the expense of the contractor. The contractor shall furnish, at his own expense, such laborers as may be required to enable a thorough inspection and culling of the blocks.

10. All natural stone block gutters shall be paid for at a stated price per

square yard, which price per square yard shall include the furnishing of all labor and materials, the foundation, the grouting, and all other work and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining the same in perfect condition until it shall have been finally accepted by the Street Superintendent.

**Section 4.** That all Portland cement concrete gutters shall be constructed as follows:

1. Portland cement concrete gutters shall be of the width stated in the Resolution of Intention.

2. The thickness shall be six (6) inches at center and at the edge adjoining the curb, and shall be eight (8) inches at the edge adjoining the street pavement, and shall be laid to conform to the cross-section of the street, as shown on the plans and drawings on file in the office of the said City Engineer.

3. The Portland cement used shall conform to the requirements enumerated in Section 8 of this Ordinance.

4. The Portland cement concrete shall be composed of one (1) part, by volume, of cement, two (2) parts of sand and four (4) parts of broken rock. The moulds shall be banked up solidly so that no movement will take place when the concrete is being tamped. The moulds shall be filled with concrete as hereinafter specified and thoroughly tamped to within one (1) inch of the finished surface. The final layer of one (1) inch of mortar shall be one part of cement to one of sand filled in and finished with a trowel. After setting for twelve (12) hours it shall be covered with wet earth and kept so covered for ten (10) days.

**Section 5.** That all culverts shall be constructed as follows:

1. Culverts may be of vitrified pipe, cast-iron pipe, or of Portland cement concrete, as called for in the Resolution of Intention.

2. All culverts shall be constructed in the line of the gutters and in the direction of the main flow of water, and as shown by the plans and drawings for same in the office of the said City Engineer.

3. If of vitrified stone pipe, the material shall be close grained, well glazed, thoroughly pressed and burned clear through so as to show a uniform color when broken. The inside of the bells and the outside of the spigot ends shall be wiped clean, thoroughly wet and well and closely jointed as laid. The trench for the pipe shall be two (2) feet wide, graded true with the bottom uniformly solid. The joints shall be thoroughly cemented with a mortar composed of one (1) part of Portland cement to one (1) part of sand. The pipe shall be laid upon the bottom of the trench, and thereafter the trench shall be filled in around the pipe with concrete which shall be well tamped under the lower quarters of the pipe, and the pipe covered with cement concrete six (6) inches in thickness on both sides and top. After the concrete is finished and has set for twelve (12) hours it shall be covered with six (6) inches of earth and kept so covered for ten (10) days. Y-branches with conduit pipes shall be laid and concreted in the same manner.

4. If the culverts are constructed of cast-iron pipe, the material shall be the best quality of cast-iron pipe coated inside and out with a double coat of paraffine paint, and laid and concreted as specified above.

5. The concrete in which pipe culverts are laid shall be composed of one (1) part, by volume, of Portland cement, two (2) parts of sand, and four and one-half (4½) parts of gravel or crushed rock, mixed as hereinafter specified.

6. If the culverts are constructed of Portland cement concrete with cast-iron covers, the culverts shall be constructed so as to conform to the alignment and grade, and shall be of the dimensions shown by the plans and drawings on file in the office of the said City Engineer, who shall set the grade stakes for that purpose in accordance therewith. The concrete shall be composed of one part, by volume, of Portland cement, two parts of sand and four parts of broken stone. The concrete shall be placed in position against wood moulds substantially held in place so as to permit of no movement of the mass while the concrete is being rammed.

7. The cast-iron covers for the culverts shall be of good quality of cast-iron free from flaws, cracks, or other defects. They shall be perfect castings of the exact form and size as shown upon the plans and drawings in the office of the said City Engineer. Where the culvert crosses street railway tracks, the covers shall be made of the proper length and form to fit closely between the rails. Each section of the cast-iron plates shall be set in a bed of mortar in such manner as to insure a uniform bearing upon the walls of the culvert, and any plate that is not so bedded shall be reset, and any plate that may be imperfect in form or material shall be replaced by and at the expense of the contractor before the work is accepted. All surfaces of cast-iron culvert plates

shall receive one coat of paraffine paint.

8. The contract price shall be per linear foot for the culvert complete, and shall include all the labor and material and all expenses, direct or indirect, connected with the proper execution of the work, and of maintaining it in perfect condition until it shall have been finally accepted by the said Superintendent of Streets.

**Section 6.** That all asphalt concrete pavements shall be constructed as follows:

1. Upon the sub-grade prepared, as hereinbefore described, there shall be constructed an asphalt concrete base six (6) inches in thickness after compression, which shall be composed of asphaltic cement, sand, and broken rock. The asphaltic cement may be composed of either natural or artificial asphalt which shall conform to the tests required for the material in the wearing surface hereinafter described.

2. The sand must be clean, sharp sand, free from clay and loam. The broken rock shall be clean, hard rock, roughly cubical in shape with angular edges and ranging in size from a pea (minimum) to the largest size which will pass through a ring one (1) inch in diameter.

3. The broken rock, with enough of the above mentioned sand to fill voids in the same, shall be heated to a temperature of three hundred (300) degrees Fahrenheit after which the asphaltic cement above specified, and also heated to a temperature of three hundred (300) degrees Fahrenheit, shall be applied to the same in proportion of eight (8) pounds of asphaltic cement to one cubic foot of broken rock and sand, and the whole shall be thoroughly mixed in a mechanical mixer.

4. The mixing shall be continued until each partical of sand and broken rock is coated with the asphaltic cement. When thus prepared it shall be delivered upon the work, in wagons or dump carts at a temperature of not less than two hundred and fifty (250) degrees Fahrenheit and shall be immediately spread on the sub-grade previously prepared to such a depth that it shall have, after compression, a uniform thickness of six (6) inches.

5. The compression of this concrete layer shall be done as follows: As soon as the material has been spread for rolling it shall be rolled with a hot hand roller weighing not less than two hundred and fifty (250) pounds to the lineal foot and as the material cools, it shall be rolled with a roller weighing not less than one hundred and fifty (150) pounds per inch in width of roller. And such rolling shall be continued until the material is thoroughly compacted.

6. The upper surface of this asphaltic concrete foundation shall be finished parallel to, and two (2) inches below, the grade of the finished pavement, and shall be made to extend close up to and around all openings or projections and to fit all irregularities.

**Section 7.** That all asphalt used in the construction of the pavement specified in this ordinance shall comply with the following specifications:

1. Upon the asphalt concrete foundation as hereinbefore described, there shall be placed an asphalt wearing surface prepared as follows:

Asphaltic 9 per cent to 17 per cent by weight.  
Cement

Sand 85 per cent to 65 per cent by weight.  
Finely powdered Carbonate 5 per cent to 18 per cent by weight.  
of Lime

Total 100 per cent to 100 per cent by weight.

2. The asphaltic cement shall be prepared from a refined asphalt mixed with a refined liquid asphalt, as described below, and shall contain not less than eighty (80) per cent of bitumen soluble in carbon di-sulphide. It shall be heated to a temperature of three hundred (300) degrees Fahrenheit before adding it to the other materials used in making the asphalt wearing surface. In no case shall this asphaltic cement be heated above three hundred, and twenty-five (325) degrees Fahrenheit.

3. The refined solid asphalt shall be manufactured wholly from asphaltic material, and must be free from admixture with any residues obtained by the artificial distillation of coal, coal-tar, or paraffine oil. It must contain not less than eighty (80) per cent of bitumen soluble in carbon di-sulphide, and not more than four (4) per cent of non-bituminous organic matter. It must be of even and uniform composition, and when heated to a temperature of three hundred (300) degrees Fahrenheit for five (5) hours, must not lose more than four (4) per cent in weight of vaporizable material. The bitumen contained in it must be of a permanent, and cementitious character, which when mixed with the refined liquid asphalt will make a durable cement.

4. The refined liquid asphalt must be a highly cementitious liquid asphalt, refined so as to deprive it of

all water and light oil. It must contain not less than 95 per cent of bitumen soluble in carbon di-sulphide, and not less than 90 per cent thereof shall be soluble in 88 degrees naphtha. When heated to a temperature of 300 degrees Fahrenheit for five hours it must not lose more than 5 per cent in weight of vaporizable oils. Material which has been cracked in the process of refining, or which contains any admixture of paraffine or coal-tar product will be rejected, and shall not be allowed to enter into the composition of the asphalt wearing surface.

6. The sand shall be clean, sharp, siliceous sand, and shall contain not more than 3 per cent of loam, clay or other earthy impurities; it must all pass an eight mesh to the inch screen.

7. The materials above described shall be prepared in the following manner: The sand shall be heated in dryers to a temperature between 300 and 375 degrees Fahrenheit. The hot sand and cold lime dust shall be thoroughly mixed together in a mixer. A quantity of asphaltic cement (previously heated to 300 degrees Fahrenheit) sufficient to produce a pavement containing not less than 9 per cent of bitumen soluble in carbon di-sulphide shall then be added, and the whole mass shall be mixed until every particle of the sand and lime dust is thoroughly coated with a thin layer of asphaltic cement.

8. The material so produced must leave the mixer at a temperature between two hundred and fifty and three hundred and twenty-five degrees Fahrenheit, and must be fine grained and capable of producing a compact pavement. Sand and asphaltic cement and dust must be used in order to secure this result.

9. The mixture prepared as above shall be brought to the work in carts or dump wagons, and shall not be colder than 250 degrees Fahrenheit or hotter than 325 degrees Fahrenheit when it reaches the work.

10. It shall at once be spread uniformly over the concrete foundation prepared for it, with hot shovels and hot rakes, to such a depth that, after receiving its ultimate compression, the finished asphalt wearing surface shall not be thinner than two (2) inches. The thickness shall be constantly tested by means of gauges.

11. It shall be immediately compressed with hot hand rollers, after which a small amount of hydraulic cement shall be swept over it, and it will then immediately be thoroughly rolled with a roller weighing not less than 250 pounds per inch in width of roller. This rolling shall be continued for not less than five (5) hours for each one thousand square yards of pavement. All places that are inaccessible to the roller must be tamped with hot iron tampers. The resulting pavement must show a close-grained even and smooth surface, true to grade and cross-section, and free from all hollows and irregularities. No traffic shall be allowed on the street until the pavement is thoroughly cooled and set. No wearing surface shall be laid in rainy weather, or when the foundation is wet from rain or other cause.

12. The contract price shall be per square yard of finished pavement, and shall include all grading, foundation, and all other work and all expenses, direct or indirect, connected with the proper execution of the work, and of maintaining the same until it shall have been finally accepted by the Street Superintendent.

Section 8. That all cement, broken stone, or gravel, or other materials not hereinbefore mentioned, shall comply with the following specifications:

1. No cement will be accepted, tested, or permitted to be used unless delivered in the original packages with manufacturer's name and brand of cement thereon.

2. Tests of the cement will be made at a temperature of from sixty (60) to seventy (70) degrees Fahrenheit.

3. Samples for tests may be taken from every package delivered, and unless they meet the requirements herein specified such packages may be rejected.

4. The sieves used for testing cement for fineness and for gauging the sand to be used in making briquettes for sand tests shall be as follows:

No. 20 sieve shall have 400 meshes to the square inch, and shall be made of wire cloth, No. 28 wire, Stubbs wire gauge. No. 30 sieve shall have 600 meshes to the square inch, and shall be made of wire cloth, No. 31 wire, Stubbs wire gauge. No. 50 sieve shall have 2500 meshes to the square inch, and shall be made of wire cloth, No. 35 wire, Stubbs wire gauge. No. 100 sieve shall have 10,000 meshes to the square inch, and shall be made of wire cloth, No. 40-wire, Stubbs wire gauge.

5. Briquettes for testing tensile strength of cement will be made both of neat cement and of cement and sand in the proportions hereinafter specified, with only enough water added to thoroughly moisten the mixture and make it coherent.

6. After being thoroughly mixed on a glass plate the mortar shall be firmly pressed into the moulds by hand, and the briquettes so formed placed upon a glass plate and kept there until put in water.

7. The sand used in preparing briquettes shall be clean and sharp and of such size that it will pass through a number twenty (20) sieve and be retained on a No. 30 sieve.

8. Round pats of neat cement about three inches in diameter, half inch thick at the center and tapering to a feather edge, mixed in the same manner as the neat cement briquettes and placed on a glass plate, shall not show any signs of warping or cracking after seven (7) days in either air or water.

9. Any cement showing signs of swelling, after being mixed, will be rejected.

10. Portland cement shall be ground to such a degree of fineness that not less than 98 per cent by weight shall pass a No. 50 sieve, and not less than 90 per cent by weight shall pass a No. 100 sieve.

11. The ultimate tensile strength of briquettes, one square inch in cross-section, made of neat Portland cement, shall be as follows:

One day in air and six days in water 375 pounds.

One day in air and twenty-seven days in water 510 pounds.

12. The ultimate tensile strength of briquettes one square inch in cross-section, made of one part by weight of Portland cement and three (3) parts of sand shall be as follows:

One day in air and six days in water 120 pounds.

One day in air and twenty-seven days in water 190 pounds.

13. Broken stone for concrete shall be good, hard stone that will not be affected by the weather, broken so that the longest dimension of any stone will not exceed one and one-half inches (1 1/2) nor the least dimension of any stone be less than one quarter (1/4) of an inch, and must be free from dust, dirt or other foreign matter.

14. Gravel used for concrete shall be of such sizes that the greatest diameter of any pebble will not exceed one and one-half inches (1 1/2) nor the least dimension of any pebble be less than one quarter (1/4) of an inch, and must be free from dust, dirt or other foreign matter.

15. Water shall be fresh, and free from earth, dirt or sewerage.

Section 9. That the mode and methods in performing the work shall be as follows:

1. The cement and sand in the specified proportions, by volume, shall be thoroughly mixed dry on a tight platform with shovels or hoes until no streaks of cement are visible. Upon the mixture there shall be spread the proper quantity of broken stone or gravel. The mass shall then be thoroughly turned over with shovels or hoes not less than three (3) times, or until every pebble or piece of broken stone is completely coated with mortar. Water shall be added by sprinkling during the process of mixing in quantities to secure the required consistency.

2. The cement and sand for mortar in the specified proportions shall be thoroughly mixed dry, on a tight platform, with shovels or hoes until no streaks of cement are visible. Water shall be added to the sand and cement, mixed in accordance with the foregoing directions, in sufficient quantities to produce a mortar of the desired consistency, and the whole thoroughly mixed with shovels or hoes until a homogeneous mass is produced.

3. The mortar, while fresh, shall be spread upon the concrete base before the latter has set, in such quantities that after being thoroughly manipulated and spread over the concrete it will make a layer one inch thick conforming to the required grade and cross-section, which shall be thoroughly dressed and smoothed.

4. Board or timber forms shall be provided by the contractor to mould the concrete and mortar to the required shape, and shall be left until the concrete or mortar is set.

5. Retempering of concrete or mortar shall not be permitted, and mortar of concrete that has begun to set before ramming is completed shall be removed from the work.

6. All surfaces on or against which concrete is to be laid shall be thoroughly cleaned and dampened by sprinkling with water just previous to placing the concrete.

7. The concrete shall be evenly spread upon the foundation, as soon as mixed, in a layer of such depth that after having been thoroughly compacted with rammers it shall not be in any place less than the thickness called for, and the upper surface shall be parallel with the proposed surface of the completed work.

8. Concrete shall not be mixed in larger quantities than is required for immediate use, and no batch shall be larger than can be made of one barrel of cement with the proportions of sand and stone specified.

Section 10. That all work done shall be subject to the following conditions and requirements:

1. The contractor shall give twelve (12) hours notice in writing when he shall require the services of the City Engineer for laying out any portion of the work. He shall preserve all stakes

set for lines, levels, or measurements of the work by the City Engineer in their proper places. Any expense in replacing said stakes which the contractor, or his agents or employees may have failed to preserve, shall be borne by the contractor. The contractor shall dig all stake holes necessary to give lines and levels. The contractor shall, when required to do so by the said Superintendent of Streets, remove from the work any overseer, superintendent, laborer, or other person employed on the work, who shall refuse or neglect to obey the said Superintendent of Streets in any way relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found to be incompetent or unfaithful.

2. All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any act or commission on the part of the contractor, or any agent or person employed by him, occurring in the course of the work not authorized by these specifications, shall be sustained and borne by the contractor. The contractor shall remove all obstructions in a careful manner, and replace the same when necessary that the same should be replaced in as good a condition as found, and to the proper grade, and all projecting stone or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connections with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements, by fence or otherwise, to prevent accident, and shall hang thereon lights to burn from dusk to daylight, and the contractor shall hold the City harmless from any and all suits for damages arising from or out of and during the performance of said work, or any portion thereof, and before the same has been accepted.

3. All the work provided for herein must in all cases be done under the direction and to the satisfaction of the said Superintendent of Streets, and the materials used shall comply with the specifications herein contained, and be to the satisfaction of the said Superintendent of Streets. No materials of any kind shall be used until they have been examined and approved by the said Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with the specifications, and to require the contractor to immediately remove any work or material so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets. The decision of the said Superintendent of Streets shall be final as to the quality of the work and materials used, unless the Common Council shall determine otherwise upon an appeal.

4. Whenever the word "Contractor" is used in these specifications, it refers to the party or parties to whom the contract has been awarded for the construction of the work herein specified.

5. Whenever the words "City Engineer" or "Street Superintendent" are used in these specifications, they refer, respectively, to the City Engineer and the Street Superintendent of the City of San Diego, State of California.

Section 11. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 12. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 13. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 19th day of May, 1902, and signed in open session thereof by the President of said Board June 2d, 1902.

**Ordinance No. 1131.**

An Ordinance Confirming Certain Sales of Real Estate Owned By the City of San Diego, California, and Rejecting Certain Other Sales of Real Estate Owned By Said City.

Whereas, the Common Council of the City of San Diego, California, adopted Ordinance No. 1105 of the ordinances of said City, entitled, "An ordinance providing for the sale at public auction of certain real property owned by the City of San Diego, California," approved March 25th, 1902, and thereafter duly published as required by said ordinance; and

Whereas, pursuant to the terms of said Ordinance No. 1105 the City Clerk of said City sold at public auction, after publication of notice thereof for at least three weeks in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee, the real property described in said Ordinance belonging to and owned by the said City of San Diego, and situated in the City of San Diego, County of San Diego, State of California, which said sale took place in front of the main entrance to the City Hall of said City, situated on the southwest corner of Fifth and "G" streets in said City, at the time specified in said notice of such sale, which said date of sale was fixed by the said City Clerk in said notice, and was not more than forty days subsequent to the approval of said Ordinance No. 1105; that said notice of said sale, so published, was signed by the said City Clerk, giving the time and place of said sale and fixing the hour and day at which said sale would take place, which said hour was between nine o'clock a. m. and three o'clock p. m. on the 23rd day of April, 1902, and in accordance with the provisions of said Ordinance No. 1105; and

Whereas, at said time and place all of said property described in said Ordinance No. 1105 was sold to the highest bidders therefor by the said City Clerk; and

Whereas, at said sale John Castle was the highest bidder for lots 7 and 8, in block 45 of Middletown, in said City, the said John Castle bidding therefor the sum of \$23.00 for said lot 7, and \$27.25 for said lot 8, in said block 45; also the said John Castle was the highest bidder at said sale for lot 41, in block 7, of Crittenden's addition in said city, the said John Castle bidding therefor the sum of \$7.50; and

Whereas, at said sale Jennie W. Caldwell was the highest bidder for lot 48, in block 5, of Watkins & Biddle's addition in said City, the said Jennie W. Caldwell bidding therefor the sum of \$6.25; and

Whereas, at said sale the said Jennie W. Caldwell was the highest bidder for lot 6, in block 35, of Middletown, in said City, the said Jennie W. Caldwell bidding therefor the sum of \$20.25; and

Whereas, at said sale George Belcher was the highest bidder for block 176 1/2 of Middletown in said City, the said George Belcher bidding therefor the sum of \$15.00; and

Whereas, at said sale J. R. Dunkin was the highest bidder for lot 47 in block 5 of Watkins and Biddles' addition in said City, the said J. R. Dunkin bidding therefor, the sum of \$5.05; and

Whereas, all of said bids were made in accordance with the terms and conditions specified in said Ordinance No. 1105 and in said Notice of said sale, subject to the approval of the said Common Council by ordinance, as provided in said Ordinance No. 1105; and

Whereas, the said City Clerk, after making said sales, did immediately report the same to the said Common Council, giving the names of the purchasers thereof, the amount of the highest and best bid therefor, and such other facts as were necessary to fully inform the said Common Council of the proceedings had attending such sale; and

Whereas, the said purchasers at said sale paid to the said City Clerk five (5%) per cent of the amount of their said bids, respectively, at the time said sale was made, and took the receipt of the said City Clerk therefor; and

Whereas, it is the wish and desire of this Common Council to approve and confirm certain of said sales, to-wit: The said sales made to the said John Castle of lots 7 and 8 in block 45 of Middletown in the said City of San Diego, and lot 41 in block 7 of Crittenden's addition in said City; also said sale made to Jennie W. Caldwell of lot 48 in block 5 of Watkins and Biddles' addition in said City, and lot 6 in block 35 of Middletown in said City; also the said sale made to George Belcher of block 176 1/2 of Middletown in said City; and also said sale made to J. R. Dunkin of lot 47 in block 5 of Watkins and Biddles' addition in said City; and

Whereas, it is the wish and desire of the said Common Council of said City to reject all the other sales made by the said City Clerk at the time herein above referred to, and under and in pursuance of said Ordinance No. 1105.

Therefore, be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That it be and is hereby determined by the Common Council of the City of San Diego, California, after fully considering said facts and the report of the said City Clerk, and everything in connection therewith, that the notice provided for by said Ordinance No. 1105, and required by law, for the sale of said real estate at public auction has been duly given and published in the manner and in all respects as provided by law and the said Ordinance No. 1105.

Section 2. That the said sales to the said John Castle, Jennie W. Caldwell, George Belcher, and J. R. Dunkin, be and the same are hereby approved and confirmed, and that the said purchasers are hereby, respectively, entitled to deeds from the said City of San Diego for and to said real property so purchased by them, and when they shall have complied with the requirements contained in Section 5 of said Ordinance No. 1105, the Mayor of said City is hereby authorized and directed to execute and deliver to the said purchasers, deeds to the said property so purchased, as provided in said Section 5 of said Ordinance No. 1105.

Section 3. It is hereby further ordained by said Common Council, that all the other sales made by the said City Clerk under and in pursuance of said Ordinance No. 1105 and the Notice of said sale, be and they are hereby rejected and refused, and that the said City Clerk is hereby authorized and directed to return to the bidders for all of said sales herein rejected the said sum of five (5%) per cent on said sales received by him from such bidders, on their surrendering to him his receipt therefor.

Section 4. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 5. That the said City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 2d day of June, 1902, and signed in open session thereof by the President of said Board June 2d, 1902.

**Ordinance No. 1137.**

An Ordinance Prescribing Specifications for Asphalt Pavement on Portland Cement Concrete Foundation in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the paving of all streets in the city of San Diego, California, with asphalt pavement on Portland Cement Concrete foundation shall be done in accordance with the specifications hereinafter contained.

The street pavement, guttering, and culverts provided for herein are to be constructed according to the plans and drawings and cross-section, approved by the Common Council, on file in the office of the City Engineer of said City, and so as to conform to the lines, levels, and official grade of the street upon which said work is to be constructed; said lines and levels shall be shown on the ground by stakes to be set by the City Engineer of said City.

The work to be done shall be as follows: (a) Grading and preparing the roadbed; (b) Trenching for, and constructing, the culverts; (c) Constructing and laying a pavement of asphalt on Portland cement concrete foundation; (d) Constructing and laying along the exterior lines of said pavement the guttering prescribed; (e) Furnishing all material and labor necessary to perform said work and complete the same.

Section 2. That all grading and the preparation of the roadbed for the pavement shall be done and performed as follows:

1. Grading shall include the work of removing all earth, stone, loose rock, hardpan, and all other material that may be encountered or required in preparing the street for the work called for in the Resolution of Intention, and shall include also all filling, trimming, shaping, picking down, re-filling, rolling, surfacing, and all other work that may be required in bringing the surface of the street to the subgrade and shape required, and of maintaining it in perfect condition until the work has been done. The cost thereof shall be included in the contract price per square yard of completed pavement, and no extra compensation shall be allowed the contractor for removing from the street the surplus material that may result from the work of grading. The surplus material, if any, shall be removed by the contractor to such point or points as may be designated by the Common Council in the Resolution of Intention.

2. When mud or soft material is encountered it shall be taken out below the sub-grade, and the space shall be refilled with good hard material, by and at the expense of the contractor.

3. In places where cutting is necessary to bring the street to the required surface, the plow point shall not in any case penetrate below a point two (2) inches above the sub-grade. The remainder shall be carefully dressed off with picks or other hand tools.

4. In places where filling is necessary to bring the street to the required surface, it shall be done in layers of not more than six (6) inches in depth, and each layer shall be thoroughly rolled before another layer is added.

5. The street shall be brought to a sub-grade or surface of the required depths below the established grade of the street and shall be finished in the most perfect manner so as to be parallel with, and in every way made to conform in shape to the surface of the finished work. To effect this the ground shall first be brought to an approximate finish slightly above the sub-grade. The City Engineer will then set grade stakes, and the contractor shall then stretch lines from these several stakes, both along and across the work, and dress down to the true surface all irregularities as indicated by these lines. The surface shall then be rolled, when it shall again be dressed and re-rolled until the surface shall be true, smooth, compact, and to the required surface.

6. Such portions of the street as cannot be reached by the roller, and all places excavated below the sub-grade and re-filled, and all pipe trenches and other places that cannot be properly compacted by the roller, shall be tamped solidly by and at the expense of the contractor.

7. All covers to sewer manholes, and valve boxes on the line of the work that are not to the established grade shall be reset to the established grade of the street, and grade stakes set therefor by the City Engineer. The contract price per square yard for the finished pavement shall include the cost of resetting the said covers, and no extra compensation shall be allowed the contractor for re-setting them.

8. The roller used shall be of a weight of not less than two hundred and fifty (250) pounds for each one (1) inch width of roller.

Section 3. That the gutters may be paved with natural stone blocks, Portland cement concrete, or with the same material as the street pavement, and

laid in the same manner. The Resolution of Intention shall state the material with which the gutter is to be paved. The paving of gutters shall commence at the curb and shall conform to the cross-section of the street, and shall be of such width as shall be specified in the Resolution of Intention.

The paving of all gutters with natural stone shall be as follows:

1. The blocks shall be of porphyry or granite, as specified in the Resolution of Intention. The stone shall, in all cases be free from lamination, stratification, or other defects, and shall be of uniform grade and texture throughout.

2. The stone blocks shall be neatly cut to the following dimensions: In length, not more than ten (10) nor less than seven (7) inches; in width, not more than four and one half (4½) nor less than three and one-half (3½) inches, and to a uniform depth of seven inches. All blocks shall be dressed to rectangular faces with straight edges on top, bottom and sides. The sides and ends shall be dressed so as to make three-fourths (¾) of an inch joints the full depth of the blocks. The top and bottom faces shall be parallel and there must be no knob or projections on either the top, bottom, sides or ends of the stone.

3. The blocks shall be laid by hand and firmly bedded in four (4) inches of clean, sharp sand.

4. The blocks shall be laid with their greatest length at right angles to the axis of the street and, in straight courses of uniform depths and widths throughout. At the intersection of one street with another street the gutter shall be constructed to the line of the culverts. If culverts are not constructed across the intersection, the blocks will be laid to true radial lines, following the curvature of the curb. Each course shall be set perpendicular to the surface so that in alternate courses all longitudinal joints shall be broken by a lap of at least two (2) inches, and the outer edge shall be laid to form a toothing of at least four (4) inches.

5. When laid, the pavement of the gutter shall be immediately covered with screened pea gravel, which shall first be thoroughly washed and heated and while hot shall be raked or swept in the joints until all are completely filled. The blocks shall then be rammed with rammers weighing from seventy-five (75) to eighty (80) pounds, until all have been forced to a firm unyielding bed, and the gutter brought to a perfect surface. Every block that does not have a solid bearing, as well as all general depressions in the surface, resulting from a thorough ramming of each block, shall be taken up, and additional sand placed upon the foundation and the blocks again laid and rammed until brought to a solid bearing and perfect surface. While the blocks are being rammed the joints shall be kept well filled with gravel.

6. Immediately after ramming, the gravel shall be swept or otherwise cleaned out of the joints to a depth of one (1) inch, and there shall then be poured into the joints, while the gravel is hot, boiling paving cement until all the joints are completely full. Additional hot gravel of the specified size and quality shall then be poured along and into the joints previously filled with the paving cement, and then be compacted by tamping with light rammers, especially made for this purpose, until all the joints are thoroughly filled and made flush with the upper surface of the gutter.

7. The paving cement shall be composed of twenty (20) parts of refined asphaltum and three (3) parts of residuum oil mixed with one hundred (100) parts of tar, which shall be obtained from the direct distillation of coal-tar, and shall be the residuum therefrom. These ingredients shall be delivered on the work at least one week before being used, in order that the Street Superintendent may cause the proper tests to be made before the material is admitted into the work. The cement must be mixed upon the work and then heated to a temperature of three hundred (300) degrees Fahrenheit as it is required for immediate use. Three and one-half (3½) gallons of cement shall be used for each and every square yard of gutter.

8. As soon as the joints shall have been thoroughly tamped and before the paving cement shall have become cold, a layer of clean, dry coarse sand, one-half (½) inch in thickness, shall be spread evenly over the entire surface of the gutter, which, together with the accumulation of any kind, shall be cleaned off and removed from the street by the contractor before the work has been accepted.

9. All blocks shall be carefully inspected by the Superintendent of Streets, and he shall direct that every stone not complying with these specifications, whether it has been set or not, shall be immediately removed from the street at the expense of the contractor. The contractor shall furnish, at his own expense, such laborers as may be required to enable a thorough

inspection and culling of the blocks.

10. All natural stone block gutters shall be paid for at a stated price per square yard, which price per square yard shall include the furnishing of all labor and materials, the foundation, grouting, and all other work and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining the same in perfect condition until it shall have been finally accepted by the Street Superintendent.

Section 4. That all Portland cement concrete gutters shall be constructed as follows:

1. Portland cement concrete gutters shall be of the width stated in the Resolution of Intention.

2. The thickness shall be six (6) inches at center and at the edge adjoining the curb, and shall be eight (8) inches at the edge adjoining the street pavement, and shall be laid to conform to the cross-section of the street, as shown on the plans and drawings on file in the office of the said City Engineer.

3. The Portland cement used shall conform to requirements enumerated in Section 8 of this Ordinance.

4. The Portland cement concrete shall be composed of one (1) part, by volume, of cement, two (2) parts of sand and four (4) parts of broken rock. The moulds shall be banked up solidly so that no movement will take place when the concrete is being tamped. The moulds shall be filled with concrete as hereinafter specified and thoroughly tamped to within one (1) inch of the finished surface. The final layer of one (1) inch of mortar shall be one part of cement to one of sand filled in and finished with a trowel. After setting for twelve (12) hours it shall be covered with wet earth and kept so covered for ten (10) days.

Section 5. That all culverts shall be constructed as follows:

1. Culverts may be of vitrified pipe, cast-iron pipe, or of Portland cement concrete, as called for in the Resolution of Intention.

2. All culverts shall be constructed in the line of the gutters and in the direction of the main flow of water, and as shown by the plans and drawings of same in the office of the said City Engineer.

3. If of vitrified stone pipe, the material shall be close grained, well glazed and thoroughly pressed and burned clear through so as to show a uniform color when broken. The inside of the bells and the outside of the spigot ends shall be wiped clean, thoroughly wet and well and closely jointed as laid. The trench for the pipe shall be two (2) feet wide, graded true with the bottom uniformly solid. The joints shall be thoroughly cemented with a mortar composed of one (1) part of Portland cement to one (1) part of sand. The pipe shall be laid upon the bottom of the trench, and the trench shall be filled in around the pipe with concrete which shall be well tamped under the lower quarters of the pipe, and the pipe covered with cement concrete to six (6) inches in thickness on both sides and top. After the concrete is finished and has set for twelve (12) hours it shall be covered with six (6) inches of earth and kept so covered for ten (10) days. Y branches with conduit pipes shall be laid and concreted in the same manner.

4. If the culverts are constructed of cast-iron pipe, the material shall be the best quality of cast-iron pipe coated inside and out with a double coat of paraffine paint, and laid and concreted as specified above.

5. The concrete in which pipe culverts are laid shall be composed of one (1) part, by volume, of Portland cement, two (2) parts of sand, and four and one-half (4½) parts of gravel or crushed rock, mixed as hereinafter specified.

6. If the culverts are constructed of Portland cement concrete with cast-iron covers, the culverts shall be constructed so as to conform to the alignment and grade, and shall be of such dimensions as are shown on the plans and drawings on file in the office of the said City Engineer, who shall set the grade stakes for that purpose in accordance therewith. The concrete shall be composed of one part, by volume, of Portland cement, two parts of sand and four parts of broken stone. The concrete shall be placed in position against wood moulds substantially held in place so as to permit of no movement of the mass while the concrete is being rammed.

7. The cast-iron covers for the culverts shall be of good quality of cast-iron free from flaws, cracks, or other defects. They shall be perfect castings of the exact form and size as shown upon the plans and drawings in the office of the said City Engineer. Where the culvert crosses the street railway tracks, the covers shall be made of the proper length and form to fit closely between the rails. Each section of the cast-iron plates shall be set in a bed of mortar in such manner as to insure a uniform bearing upon the walls of the culvert, and any plate that is not so bedded shall be reset, and any plate that may be imperfect in form or material shall be replaced

by and at the expense of the contractor, before the work is accepted. All surfaces of cast-iron culvert plates shall receive one coat of paraffine paint.

8. The contract price shall be per linear foot for the culvert complete, and shall include all the labor and material and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining it in perfect condition until it shall have been finally accepted by the Street Superintendent.

Section 6. That all concrete foundations shall be laid as follows:

1. Concrete foundations four (4) inches in thickness shall be laid under the asphalt pavement. And no extra compensation shall be allowed the contractor for such foundations. The contract price for the pavement shall include the cost of the foundation upon which it rests.

2. All concrete foundations shall be made of Portland cement, sand, and broken stone, and the proportions shall be, by volume, as follows: Cement, one (1) part, sand three (3) parts, broken stone six (6) parts. The material for the concrete shall comply with the requirements enumerated in section 8 of this ordinance.

3. The concrete shall be in place and rammed within thirty (30) minutes after the cement is wet, and any concrete material which has been wet for more than thirty (30) minutes will not under any circumstances be allowed to be used in the work.

4. The upper surface of the concrete foundation shall be finished parallel to and three (3) inches below the grade of the pavement, and shall be made to extend close up to and around all openings or projections, and to fit all irregularities.

5. As soon as laid, and before the top becomes dry, the entire surface of the concrete foundation shall be covered with one (1) inch in depth of clean sand to protect it from the sun and wind. The sand so spread shall be kept moist for a period of ten (10) days, and the concrete shall be protected against use during that time by means of fencing or otherwise, and any damage done by passing over it before the work has been completed shall be repaired by and at the expense of the contractor.

6. Before adding any new concrete mixture to that which has been previously laid for one hour or more, the surface of the old work shall be thoroughly cleansed, moistened, and grouted with a mixture of equal parts of cement and sand before the new concrete mixture is added.

Section 7. That all asphalt used upon concrete foundations shall comply with the following specifications:

1. Upon the foundation previously prepared and thoroughly swept free from all rubbish, shall be laid a binder course, composed of broken stone and asphaltic cement.

2. Clean, hard, broken stone one (1) inch in its largest dimension, shall be heated in a heater to a temperature not exceeding two hundred (200) degrees Fahrenheit. Stone containing more than ten (10) per cent of particles exceeding one (1) inch in their largest dimension or more than fifteen (15) per cent of particles passing a ten (10) mesh to the inch screen will be rejected.

3. Asphaltic cement, after being heated to a temperature between 250 and 300 degrees Fahrenheit, shall be thoroughly incorporated with the heated stone in a mixer, in such proportions that each particle of stone shall be thoroughly coated with a sufficient quantity of asphaltic cement to bind the particles of stone firmly together when the mass is laid upon the street and finally compressed.

4. Not less than six (6) pounds of asphaltic cement to the cubic foot of stone shall be used, and as much more as the character of the stone may require, in order to produce the above described result after final compression.

5. The binder mixture, prepared as above, shall be hauled to the street while still hot, and carefully spread upon the foundation with hot iron rakes and shovels to such a depth that after receiving its final compression, it shall be at least one (1) inch in thickness. It shall then be immediately rolled with a roller having an effective compressive weight of not less than 250 pounds per inch in width of roller. The rolling shall be continued while the binder is in a hot plastic condition. All places that are inaccessible to the roller must be thoroughly tamped with hot iron tampers to an even and true surface.

6. The upper surface of the binder course shall be made exactly parallel with the surface of the finished pavement, and the whole course when finished must be compact and the particles bound firmly together.

7. Upon the binder course as hereinbefore described, there shall be laid an asphalt wearing surface prepared as follows:

8. The asphalt wearing surface shall be composed of the following materials:

Asphaltic Cement 9 per cent to 17 per cent by weight.  
 Sand 86 per cent to 65 per cent by weight.  
 Finely powdered Carbonate of Lime 5 per cent to 18 per cent by weight.  
 Total 100 per cent to 100 per cent by weight.

9. The asphaltic cement shall be prepared from a refined asphalt mixed with a refined liquid asphalt, as described below, and shall contain not less than eighty (80) per cent of bitumen soluble in carbon di-sulphide. It shall be heated to a temperature of three hundred (300) degrees Fahrenheit before adding it to the other materials used in making the asphalt wearing surface. In no case shall this asphaltic cement be heated above three hundred and twenty-five (325) degrees Fahrenheit.

10. The refined solid asphalt must be manufactured wholly from asphaltic material, and must be free from admixture with any residues obtained by the artificial distillation of coal, coal-tar, or paraffine oil. It must contain not less than eighty (80) per cent of bitumen soluble in carbon di-sulphide, and not more than four (4) per cent of non-bituminous organic matter. It must be of even and uniform composition, and when heated to a temperature of three hundred (300) degrees Fahrenheit for five (5) hours, must not lose more than four (4) per cent in weight of vaporizable material. The bitumen contained in it must be of a permanent and cementitious character suitable in all respects to make, upon proper admixture with the refined liquid asphalt, a durable and satisfactory cement.

11. The refined liquid asphalt must be a highly cementitious liquid asphalt, refined so as to deprive it of all water and light oil. It must contain not less than 95 per cent of bitumen soluble in carbon di-sulphide, and not less than 90 per cent thereof shall be soluble in 88 degrees naphtha. When heated to a temperature of 300 degrees Fahrenheit for five hours it must not lose more than five (5) per cent in weight of vaporizable oils. Material which has been cracked in the process of refining, or which contains any admixture of paraffine or coal-tar products will be rejected, and shall not be allowed to enter into the composition of the asphalt wearing surface.

12. The sand shall be clean, sharp, siliceous sand, and shall contain not more than three (3) per cent of loam, clay or other earthy impurities; it must all pass an eight mesh to the inch screen.

13. The materials above described shall be prepared in the following manner: The sand shall be heated in dryers to a temperature between 300 and 375 degrees Fahrenheit. The hot sand and cold lime dust shall then be thoroughly mixed together in a mixer. A quantity of asphaltic cement (previously heated to 300 degrees Fahrenheit) sufficient to produce a pavement containing not less than nine (9) per cent of bitumen soluble in carbon di-sulphide shall then be added, and the whole mass shall be mixed until every particle of the sand and lime dust is thoroughly coated with a thin layer of asphaltic cement.

14. The material so produced must leave the mixer at a temperature between two hundred and fifty and three hundred and twenty-five degrees Fahrenheit, and must be fine grained and capable of producing a compact pavement. Sand and asphaltic cement and dust must be used in order to secure this result.

15. The mixture prepared as above shall be brought to the work in carts or dump wagons, and shall not be colder than 250 degrees Fahrenheit nor hotter than 325 degrees Fahrenheit when it reaches the work.

16. It shall at once be spread uniformly over the binder course prepared for it, with hot shovels and hot rakes, to such a depth that, after receiving its ultimate compression, the finished asphalt wearing surface shall not be thinner than two (2) inches. The thickness shall be constantly tested by means of gauges.

17. It shall be immediately compressed with hot hand rollers, after which a small amount of hydraulic cement shall be swept over it, and it will then immediately be thoroughly rolled with a roller of a weight not less than 250 pounds per inch in width of roller. This rolling shall be continued for not less than five (5) hours for each one thousand (1000) square yards of pavement. All places that are inaccessible to the roller must be tamped with hot iron tampers. The resulting pavement must show a close-grained even and smooth surface, true to grade and cross-section, and free from all hollows and irregularities. No traffic shall be allowed on the street until the pavement is thoroughly cooled and set. No wearing surface shall be laid in rainy weather, or when the foundation is wet from rain or other cause.

18. The contract price shall be per square yard of finished pavement, and shall include all grading, foundation,

and all other work and all expenses, direct or indirect, connected with the proper execution of the work, and of maintaining the same until it shall have been finally accepted by the Street Superintendent.

Section 8. That all cement, broken stone, or gravel, or other materials not hereinbefore specified, shall comply with the following specifications:

1. No cement will be accepted, tested, or permitted to be used unless delivered in original packages with the manufacturer's name and brand of cement thereon.

2. Tests of the cement will be made at a temperature of from sixty (60) to seventy (70) degrees Fahrenheit.

3. Samples for tests may be taken from every package delivered, and unless they meet the requirements herein specified such packages may be rejected.

4. The sieves used for testing cement for fineness and for gauging the sand to be used in making briquettes for sand tests shall be as follows:

No. 20 sieve shall have 400 meshes to the square inch, and shall be made of wire cloth, No. 28 wire, Stubbs wire gauge. No. 30 sieve shall have 600 meshes to the square inch, and shall be made of wire cloth, No. 31 wire, Stubbs wire gauge. No. 50 sieve shall have 2500 meshes to the square inch, and shall be made of wire cloth, No. 35 wire, Stubbs wire gauge. No. 100 sieve shall have 10,000 meshes to the square inch, and shall be made of wire cloth, No. 40 wire, Stubbs wire gauge.

5. Briquettes for testing tensile strength of cement will be made both of neat cement and of cement and sand in the proportions hereinafter specified, with only enough water added to thoroughly moisten the mixture and make it coherent.

6. After being thoroughly mixed on a glass plate the mortar shall be firmly pressed into the moulds by hand, and the briquettes so formed placed upon a glass plate and kept there until put in water.

7. The sand used in preparing briquettes shall be clean and sharp and of such size that it will pass through a number twenty (20) sieve and be retained on a No. 30 sieve.

8. Round pats of neat cement about three inches in diameter, half inch thick at the center and tapering to a feather edge, mixed in the same manner as the neat cement briquettes and placed on a glass plate, shall not show any signs of warping or cracking after seven (7) days in either air or water.

9. Any cement showing signs of swelling, after being mixed, will be rejected.

10. Portland cement shall be ground to such a degree of fineness that not less than ninety-eight (98) per cent by weight shall pass a No. 50 sieve, and not less than ninety (90) per cent by weight shall pass a No. 100 sieve.

11. The ultimate tensile strength of briquettes, one square inch in cross-section, made of neat Portland cement, shall be as follows:

One day in air and six days in water 375 pounds.  
 One day in air and twenty-seven days in water 510 pounds.

12. The ultimate tensile strength of briquettes one square inch in cross-section, made of one part by weight of Portland cement and three (3) parts of sand shall be as follows:

One day in air and six days in water 120 pounds.  
 One day in air and twenty-seven days in water 190 pounds.

13. Broken stone for concrete, shall be good, hard stone that will not be affected by the weather, broken so that the longest dimension of any stone will not exceed one and one-half inches (1½) nor the least dimension of any stone be less than one quarter (¼) inch, and must be free from dust, dirt or other foreign matter.

14. Gravel used for concrete shall be of such sizes that the greatest diameter of any pebble will not exceed one and one-half inches (1½) nor the least dimension of any pebble be less than one quarter (¼) of an inch, and must be free from dust, dirt or other foreign matter.

15. Water shall be fresh, and free from earth, dirt or sewerage.

Section 9. That the mode and methods of performing the work shall be as follows:

1. The cement and sand in the specified proportions, by volume, shall be thoroughly mixed, dry on a tight platform with shovels or hoes until no streaks of cement are visible. Upon the mixture there shall be spread the proper quantity of broken stone or gravel. The mass shall then be thoroughly turned over with shovels or hoes not less than three (3) times, or until every pebble or piece of broken stone is completely coated with mortar. Water shall be added by sprinkling during the process of mixing in quantities to secure the required consistency.

2. The cement and sand for mortar in specified proportions shall be thoroughly mixed dry, on a tight platform, with shovels or hoes until no streaks of cement are visible. Water shall be added to the sand and cement,

mixed in accordance with the foregoing directions, in sufficient quantities, to produce a mortar of the desired consistency, and the whole thoroughly mixed with shovels or hoes until a homogeneous mass is produced.

3. The mortar, while fresh, shall be spread upon the concrete base before the latter has set, in such quantities that after being thoroughly manipulated and spread over the concrete it will make a layer one inch thick conforming to the required grade and cross-section, which shall be thoroughly dressed and smoothed.

4. Board or timber forms shall be provided by the contractor to mould the concrete and mortar to the required shape, and shall be left until the concrete or mortar is set.

5. Retempering of concrete or mortar will not be permitted, and mortar or concrete that has begun to set before ramming is completed shall be removed from the work.

6. All surfaces on or against which concrete is to be laid shall be thoroughly cleaned and dampened by sprinkling with water just previous to placing the concrete.

7. The concrete shall be evenly spread upon the foundation, as soon as mixed, in a layer of such depth that after having been thoroughly compacted with rammers it shall not be in any place less than the thickness called for, and the upper surface shall be parallel with the proposed surface for the completed work.

8. Concrete shall not be mixed in larger quantities than is required for immediate use, and no batch shall be larger than can be made of one barrel of cement with the proportions of sand and stone specified.

Section 10. That all work done shall be subject to the following conditions and requirements:

1. The contractor shall give twelve (12) hours notice in writing when he shall require the services of the City Engineer for laying out any portion of the work. He shall preserve all grade stakes set for lines, levels, or measurements of the work by the City Engineer in their proper places. Any expense in replacing said stakes which the contractor, or his agents or employees may have failed to preserve, shall be borne by the contractor. The contractor shall dig all stake holes necessary to give lines and levels. The contractor shall, when required to do so by the said Superintendent of Streets, remove from the work any overseer, superintendent, laborer, or other person employed on the work, who shall refuse or neglect to obey the said Superintendent of Streets in any way relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found incompetent or unfaithful.

2. All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any act or omission on the part of the contractor, or any agent or person employed by him, occurring in the course of the work not authorized by these specifications, shall be sustained and borne by the contractor. The contractor shall remove all obstructions in a careful manner, and replace the same when necessary that the same should be replaced in as good a condition as found, and to the proper grade, and all projecting stone or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connections with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements, by fence or otherwise, to prevent accident, and shall hang thereon lights to burn from dusk to daylight, and the contractor shall hold the City harmless from any and all suits for damages arising from or out of and during the performance of said work, or any portion thereof, and before the same has been accepted.

3. All the work provided for herein must in all cases be done under the direction and to the satisfaction of the said Superintendent of Streets, and the materials used shall comply with the specifications herein contained, and be to the satisfaction of the said Superintendent of Streets. No materials of any kind shall be used until they have been examined and approved by the said Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with the specifications, and to require the contractor to immediately remove any work or material so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets. The decision of the said Superintendent of Streets shall be final as to the quality of the work and materials used, unless the Common Council shall determine otherwise upon an appeal.

4. Whenever the word "Contractor" is used in these specifications, it refers to the party or parties to whom the

contract has been awarded for the construction of the work herein specified.

5. Whenever the words "City Engineer" or "Street Superintendent" are used in these specifications, they refer, respectively, to the City Engineer and the Street Superintendent of the City of San Diego, State of California.

Section 11. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 12. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 13. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 2nd day of June, 1902, and signed in open session thereof by the President of said Board June 2d, 1902.

## Ordinance No. 1138.

An Ordinance Prescribing Specifications for Asphalt Pavement on Natural Earth in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the paving of all streets in the City of San Diego, California, with asphalt pavement on the natural earth shall be done in accordance with the specifications hereinafter contained.

The street pavement, gutters, and culverts provided for herein are to be constructed according to the plans and drawings and cross-section, approved by the Common Council, on file in the office of the City Engineer of said City, and so as to conform to the lines, levels, and official grade of the street upon which said work is to be constructed, said lines and levels shall be shown on the ground by stakes to be set by the City Engineer of said City.

The work to be done shall be as follows: (a) Grading and preparing the roadbed; (b) Trenching for and constructing the culverts; (c) Constructing and laying a pavement of asphalt; (d) Constructing and laying along the exterior lines of the said pavement the guttering prescribed; (e) Furnishing all material and labor necessary to perform said work and complete the same.

Section 2. That all grading and the preparation of the roadbed for the pavement shall be done and performed as follows:

1. Grading shall include the work of removing all earth, stone, loose rock, hardpan, and all other material that may be encountered or required in preparing the street for the work called for in the Resolution of Intention, and shall also include all filling, trimming, shaping, picking down, re-filling, rolling, surfacing, and all other work that may be required in bringing the surface of the street to the sub-grade and shape required, and of maintaining it in perfect condition until the work has been done. The cost thereof shall be included in the contract price per square yard of completed pavement; and no extra compensation shall be allowed the contractor for removing from the street the surplus material that may result from the work of grading. The surplus material, if any, shall be removed by the contractor to such point or points as may be designated by the Common Council in the Resolution of Intention.

2. When mud or soft material is encountered, it shall be taken out below the sub-grade, and the space shall be filled with good, hard material, by and at the expense of the contractor.

3. In places where cutting is necessary to bring the street to the required surface, the plow point shall not in any case penetrate below the established grade line of the street. The remainder shall be carefully dressed off with picks or other hand tools.

4. In places where filling is necessary to bring the street to the required surface, it shall be done in layers of not more than six (6) inches in depth, and each layer shall be thoroughly rolled before another layer is added.

5. The street shall be brought to a sub-grade or surface of the required depths below the established grade of the street, and shall be finished in the most perfect manner so as to be parallel with, and in every way made to conform in shape to the surface of the guttering work. To effect this the ground shall first be brought to an approximate finish slightly above the sub-grade. The City Engineer will then set grade stakes and the contractor shall then stretch lines from these several stakes, both along and across the work, and dress down to the true surface all irregularities as indicated by these lines. The surface shall then be rolled, when it shall again be dressed and re-rolled until the surface shall be true, smooth, compact, and to the required surface.

6. Such portions of the street as cannot be reached by the roller, and all places excavated below the sub-grade and re-filled, and all pipe trenches and other places that cannot be properly compacted by the roller, shall be tamped solidly by and at the expense of the contractor.

7. All covers to sewer manholes and valve boxes on the line of the work that are not to the established grade shall be reset to the established grade of the street, and grade stakes set therefor by the City Engineer. The contract price per square yard for the finished pavement shall include the cost of re-setting the said covers, and no extra compensation shall be allowed the contractor for re-setting them.

8. The rollers used shall be of a weight of not less than two hundred and fifty (250) pounds for each one (1) inch width of roller.

Section 3. That the gutters may be paved with natural stone blocks, Portland cement concrete, or with the same material as the street pavement, and laid in the same manner. The Resolution of Intention shall state the material with which the gutter is to be paved. The paving of gutters shall commence at the curb and shall conform to the cross-section of the street, and shall be of such width as shall be specified in the Resolution of Intention.

The paving of all gutters with natural stone shall be as follows:

1. The blocks shall be of porphyry or granite as specified in the Resolution of Intention. The stone shall in all cases be free from lamination, stratification, or other defects, and shall be of uniform grade and texture throughout.

2. The stone blocks shall be neatly cut to the following dimensions: In length, not more than ten (10) nor less than seven (7) inches; in width, not more than four and one-half (4½) nor less than three and one-half (3½) inches, and to a uniform depth of seven inches. All blocks shall be dressed to rectangular faces with straight edges on top, bottom, and sides. The sides and ends shall be dressed so as to make three-fourths (¾) of an inch joints the full depth of the blocks. The top and bottom faces shall be parallel, and there must be no knob or projections on either the top, bottom, sides, or ends of the stone.

3. The blocks shall be laid by hand and firmly bedded in four (4) inches of clean, sharp sand.

4. The blocks shall be laid with their greatest length at right angles to the axis of the street and in straight courses of uniform depths and widths throughout. At the intersection of one street with another street the gutter shall be constructed to the line of the culverts. If culverts are not constructed across the intersection, the blocks will be laid to true radial lines, following the curvature of the curb. Each course shall be set perpendicular to the surface so that in alternate courses all longitudinal joints shall be broken by a lap of at least two (2) inches, and the outer edge shall be laid to form a toothing of at least four (4) inches.

5. When laid, the pavement of the gutter shall be immediately covered with screened pea gravel, which shall first be thoroughly washed and heated and while hot shall be raked or swept in the joints until all are completely filled. The blocks shall then be cemented with rammers weighing from seventy-five (75) to eighty (80) pounds, until all have been forced to a firm unyielding bed, and the gutter brought to a perfect surface. Every block that does not have a solid bearing, as well as all general depressions in the surface, resulting from a thorough ramming of each block, shall be taken up, and additional sand placed upon the foundation and the blocks again laid and rammed until brought to a solid bearing and perfect surface. While the blocks are being rammed the joints shall be kept well filled with gravel.

6. Immediately after ramming, the gravel shall be swept or otherwise cleaned out of the joints to a depth of one (1) inch, and there shall then be poured into the joints, while the gravel is hot, boiling paving cement until all the joints are completely full. Additional hot gravel of the specified size and quality shall then be poured along and into the joints previously filled with the paving cement, and then be compacted by tamping with light rammers, especially made for this purpose, until all the joints are thoroughly filled and made flush with the upper surface of the gutter.

7. The said paving cement shall be composed of twenty (20) parts of refined asphaltum and three (3) parts of residuum oil mixed with one hundred (100) parts of tar, which shall be obtained from the direct distillation of coal-tar and shall be the residuum therefrom. These ingredients shall be delivered on the work at least one week before being used. In order that the Street Superintendent may cause the proper tests to be made before the material is admitted into the work, the cement must be mixed upon the work and then heated to a temperature of three hundred (300) degrees Fahrenheit as it is required for immediate use. Three and one-half (3½) gallons of cement shall be used for each and every square yard of gutter.

8. As soon as the joints shall have been thoroughly tamped, and before the paving cement shall have become cold, a layer of clean, dry, coarse sand one-half (½) inch in thickness, shall be spread evenly over the entire surface of the gutter, which, together with the accumulation of any kind, shall be cleaned off and removed from the street by the contractor before the work has been accepted.

9. All blocks shall be carefully inspected by the Superintendent of Streets, and shall direct that every stone not complying with these specifications, whether it has been set or not, shall be immediately removed from the street at the expense of the contractor. The contractor shall furnish, at his own expense, such laborers as may be required to enable a thorough inspection and calling of the blocks.

10. All natural stone block gutters shall be paid for at a stated price per square yard, which price per square yard shall include the furnishing of all labor and materials, the foundation, the grouting, and all other work and all expenses, direct or indirect, connected with the proper execution of the work, and of maintaining the same in perfect condition until it shall have been finally accepted by the Street Superintendent.

Section 4. That all Portland cement concrete gutters shall be constructed as follows:

1. Portland cement concrete gutters shall be of the width stated in the Resolution of Intention.

2. The thickness shall be six (6) inches at center and at the edge adjoining the curb, and shall be eight (8) inches at the edge adjoining the street pavement, and shall be laid to conform to the cross-section of the street, as shown by the plans and drawings on file in the office of the said City Engineer.

3. The Portland cement used shall conform to the requirements enumerated in Section 7 of this Ordinance.

4. Portland cement concrete shall be composed of one (1) part, by volume, of cement, two (2) parts of sand, and four (4) parts of broken rock. The molds shall be banked up solidly so that no movement will take place when the concrete is being tamped. The molds shall be filled with concrete as hereinafter specified and thoroughly tamped to within one (1) inch of the finished surface. The final layer of one (1) inch of mortar shall be one part of cement to one of sand filled in and finished with a trowel. After setting for twelve (12) hours, it shall be covered with wet earth and kept so covered for ten (10) days.

Section 5. That all culverts shall be constructed as follows:

1. Culverts may be vitrified pipe, cast-iron pipe, or of Portland cement concrete, as called for in the Resolution of Intention.

2. All culverts shall be constructed in the line of the gutters and in the direction of the main flow of water, as shown by the plans and drawings for same in the office of the said City Engineer.

3. If of vitrified stone pipe, the material shall be close strained, well glazed, thoroughly pressed and burned clear through so as to show a uniform color when broken. The inside of the bells and the outside of the spigot ends shall be wiped clean, thoroughly wet and well and closely jointed as laid. The trench for the pipe shall be two (2) feet wide, graded true with the bottom uniformly solid. The joints shall be thoroughly cemented with a mortar composed of one (1) part of Portland cement to one (1) part of sand. The pipe shall be laid upon the bottom of the trench, and thereafter the trench shall be filled in around the pipe with concrete which shall be well tamped under the lower quarters of the pipe, and the pipe covered with cement concrete six (6) inches in thickness on both sides and top. After the concrete is finished and has set for twelve (12) hours it shall be covered with six (6) inches of earth and kept so covered for ten (10) days. Y branches with conduit pipes shall be laid and concreted in the same manner.

4. If the culverts are constructed of iron, the material shall be the best quality of cast-iron coated inside and out with a double coat of paraffine paint, and laid and concreted as specified above.

5. The concrete in which pipe culverts are laid shall be composed of one part, by volume, of Portland cement, two (2) parts of sand, and four and one-half (4½) parts of gravel crushed rock, mixed as hereinafter specified.

6. If the culverts are constructed of Portland cement concrete with cast-iron covers, the culverts shall be constructed so as to conform to the alignment and grade, and shall be of the dimensions shown by the plans and drawings on file in the office of the said City Engineer, who shall set the grade stakes for that purpose in accordance therewith. The concrete shall be composed of one part, by volume, of Portland cement, two parts of sand, and four parts of broken stone. The concrete shall be placed in position

against wood moulds substantially held in place so as to permit of no movement of the mass while the concrete is being rammed.

7. The cast-iron covers for the culverts shall be of good quality of cast-iron free from flaws, cracks, or other defects: They shall be perfect castings of the exact form and sizes as shown upon the plans and drawings in the office of the said City Engineer. Where the culvert crosses the street railway tracks, the covers shall be made of the proper length and form to fit closely between the rails. Each section of the cast-iron plates shall be set in a bed of mortar in such manner as to insure a uniform bearing upon the walls of the culvert, and any plate that is not so bedded shall be reset, and any plate that may be imperfect in form or material shall be replaced by and at the expense of the contractor before the work is accepted. All surfaces of cast-iron culvert plates shall receive one coat of paraffine paint.

8. The contract price shall be per linear foot for the culvert complete, and shall include all the labor and material and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining it in perfect condition until it shall have been finally accepted by the said Superintendent of Streets.

Section 6. That all asphalt used in the construction of the pavement specified in this ordinance shall comply with the following specifications:

1. Upon the sub-grade prepared, as herebefore described, and thoroughly freed from all rubbish, there shall be laid an asphalt wearing surface prepared as follows:

2. The asphalt wearing surface shall be composed of the following materials: Asphaltic cement, 9 per cent to 17 per cent by weight.

Sand, 35 per cent to 65 per cent by weight.

Finely powdered carbonate of lime, 5 per cent to 18 per cent by weight.

Total, 100 per cent to 100 per cent by weight.

3. The asphaltic cement shall be prepared from a refined solid asphalt mixed with a refined liquid asphalt, as described below, and shall contain not less than eighty (80) per cent of bitumen soluble in carbon di-sulphide. It shall be heated to a temperature of three hundred (300) degrees Fahrenheit before adding it to the other materials used in making the asphalt wearing surface. In no case shall this asphaltic cement be heated above three hundred and twenty-five (325) degrees Fahrenheit.

4. The refined solid asphalt must be manufactured wholly from asphaltic material, and must be free from admixture with any residues obtained by the artificial distillation of coal, coal-tar, or paraffine oil. It must contain not less than eighty (80) per cent of bitumen soluble in carbon di-sulphide, and not more than four (4) per cent of non-bituminous organic matter. It must be of even and uniform composition, and when heated to a temperature of three hundred (300) degrees Fahrenheit for five (5) hours, must not lose more than four (4) per cent in weight of vaporizable material. The bitumen contained in it must be of a permanent and cementitious character which, when mixed with the refined liquid asphalt, will make a durable cement.

5. The refined liquid asphalt must be a highly cementitious liquid asphalt refined so as to deprive it of all water and light oil. It must contain not less than 95 per cent of bitumen soluble in carbon di-sulphide, and not less than 90 per cent thereof shall be soluble in 38 degrees naphtha. When heated to a temperature of three hundred degrees Fahrenheit for five hours it must not lose more than five per cent in weight of vaporizable oils. Material which has been cracked in the process of refining, or which contains any admixture of paraffine or coal-tar product will be rejected, and shall not be allowed to enter into the composition of the asphalt wearing surface.

6. The sand shall be clean, sharp, siliceous sand, and shall contain not more than 3 per cent of loam, clay, or other earthy impurities. It must all pass an eight-mesh to the inch screen.

7. The materials above described shall be prepared in the following manner: The sand shall be heated in dryers to a temperature between 300 and 375 degrees Fahrenheit. The hot sand and cold lime dust shall then be thoroughly mixed together in a mixer. A quantity of asphalt cement (previously heated to 300 degrees Fahrenheit) sufficient to produce a pavement containing not less than 9 per cent of bitumen soluble in carbon di-sulphide shall then be added, and the whole mass shall be mixed until every particle of the sand and lime dust is thoroughly coated with a thin layer of asphaltic cement.

8. The material so produced must leave the mixer at a temperature between two hundred and fifty (250) and three hundred and twenty-five (325) degrees Fahrenheit, and must be fine grained and capable of producing a compact pavement. Sand and asphaltic cement and dust must be used in order to secure this result.

9. The mixture prepared as above shall be brought to the work in carts or dump-wagons, and shall not be colder than 250 degrees Fahrenheit or hotter than 325 degrees Fahrenheit when it reaches the work.

10. It shall at once be spread uniformly over the earth foundation prepared for it, with hot shovels and hot rakes, to such a depth that, after receiving its ultimate compression, the finished asphalt wearing surface shall not be thinner than two (2) inches. The thickness shall be constantly tested by means of gauges.

11. It shall be immediately compressed with hot hand-rollers, after which a small amount of hydraulic cement shall be swept over it, and it will then immediately be thoroughly rolled by a roller weighing not less than 250 pounds per inch in width of roller. This rolling shall be continued for not less than five (5) hours for each one thousand square yards of pavement. All places that are inaccessible to the roller must be tamped with hot iron tampers. The resulting pavement must show a close-grained, even, and smooth surface, true to the grade and cross-section, and free from all hollows and irregularities. No traffic shall be allowed on the street until the pavement is thoroughly cooled and set. No wearing surface shall be laid in rainy weather, or when the foundation is wet from rain or other cause.

12. The contract price shall be per square yard of finished pavement, and shall include all grading, foundation, and all other work and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining the same until it shall have been finally accepted by the Street Superintendent.

Section 7. That all cement, broken stone, or gravel, or other materials not hereinbefore specified, shall comply with the following specifications:

1. No cement will be accepted, tested, or permitted to be used unless delivered in original packages with the manufacturer's name and brand of cement thereon.

2. Tests of the cement will be made at a temperature of from sixty (60) to seventy (70) degrees Fahrenheit.

3. Samples for tests may be taken from every package delivered, and unless they meet the requirements herein specified such packages may be rejected.

4. The sieves used for testing cement for fineness and for gauging the sand to be used in making briquettes for sand tests shall be as follows:

No. 20 sieve shall have 100 meshes to the square inch and shall be made of wire cloth, No. 28 wire, Stubbs wire gauge.

No. 30 sieve shall have 600 meshes to the square inch and shall be made of wire cloth, No. 31 wire, Stubbs wire gauge.

No. 50 sieve shall have 2500 meshes to the square inch and shall be made of wire cloth, No. 35 wire, Stubbs wire gauge.

No. 100 sieve shall have 10,000 meshes to the square inch and shall be made of wire cloth, No. 40 wire, Stubbs wire gauge.

5. Briquettes for testing tensile strength of cement will be made both of neat cement and of cement and sand in proportions hereinafter specified, with only enough water added to thoroughly moisten the mixture and make it coherent.

6. After being thoroughly mixed on a glass plate the mortar shall be firmly pressed into the moulds by hand, and the briquettes so formed placed upon a glass plate and kept there until put in water.

7. The sand used in preparing briquettes shall be clean and sharp and of such size that it will pass through a number twenty (20) sieve and be retained on a No. 30 sieve.

8. Round pats of neat cement about three inches in diameter, half inch thick at the center and tapering to a feathered edge, mixed in the same manner as the neat cement briquettes and placed on a glass plate, shall not show any signs of warping or cracking after seven (7) days in either air or water.

9. Any cement showing signs of swelling after being mixed will be rejected.

10. Portland cement shall be ground to such a degree of fineness that not less than 98 per cent by weight shall pass a No. 60 sieve, and not less than 90 per cent by weight shall pass a No. 100 sieve.

11. The ultimate tensile strength of briquettes, one square inch in cross section, made of neat Portland cement, shall be as follows:

One day in air and six days in water 775 pounds.

One day in air and twenty-seven days in water 512 pounds.

12. The ultimate tensile strength of briquettes one square inch in cross-section, made of one part by weight of Portland cement and three (3) parts of sand shall be as follows:

One day in air and six days in water 120 pounds.

One day in air and twenty-seven days in water 150 pounds.

13. Broken stone for concrete shall be good, hard stone that will not be affected by the weather, broken so that the longest dimension of any stone will not exceed one and one-half inches (1½) nor the least dimension of any stone be less than one-quarter (¼) inch, and must be free from dust, dirt, or other foreign matter.

14. Gravel used for concrete shall be of such sizes that the greatest diameter of any pebble will not exceed one and one-half inches (1½) nor the least dimension of any pebble be less than one-quarter (¼) of an inch, and must be free from dust, dirt, or other foreign matter.

15. Water shall be fresh, and free from earth, dirt or sewerage.

Section 8. That the modes and methods of performing the work shall be as follows:

1. The cement and sand in the specified proportions, by volume, shall be thoroughly mixed dry on a tight platform, with shovels or hoops, until no streaks of cement are visible. Upon the mixture there shall be spread the proper quantity of broken stone or gravel. The mass shall then be thoroughly turned over with shovels or hoops not less than three (3) times, or until every pebble or piece of broken stone is completely coated with mortar. Water shall be added by sprinkling during the process of mixing in quantities to secure the required consistency.

2. The cement and sand for mortar in the specified proportions shall be thoroughly mixed dry on a tight platform, with shovels or hoops, until no streaks of cement are visible. Water shall be added to the sand and cement, in accordance with the foregoing directions, in sufficient quantities to produce a mortar of the desired consistency, and the whole thoroughly mixed with shovels or hoops until a homogeneous mass is produced.

3. The mortar, while fresh, shall be spread upon the concrete base, before the latter has set, in such quantities that, after being thoroughly manipulated and spread over the concrete, it will make a layer one inch thick conforming to the required grade and cross section, which shall be thoroughly dressed and smoothed.

4. Board or timber forms shall be provided by the contractor to mould the concrete and mortar to the required shape, and shall be left until the concrete or mortar is set.

5. Re-tempering of concrete or mortar will not be permitted, and mortar or concrete that has begun to set before ramming is completed shall be removed from the work.

6. All surfaces on or against which concrete is to be laid shall be thoroughly cleaned and dampened by sprinkling with water just previous to placing the concrete.

7. The concrete shall be evenly spread upon the foundation, as soon as mixed, in a layer of such depth that after having been thoroughly compacted with rammers it shall not be in any place less than the thickness called for, and the upper surface shall be parallel with the proposed surface of the completed work.

8. The concrete shall not be mixed in larger quantities than is required for immediate use, and no batch shall be larger than can be made of one barrel of cement with the proportions of sand and stone.

Section 9. That all work done shall be subject to the following conditions and requirements:

1. The contractor shall give twelve (12) hours' notice in writing when he shall require the services of the City Engineer for laying out any portion of the work. He shall preserve all stakes set for lines, levels, or measurements of the work by the City Engineer in their proper places. Any expense in replacing said stakes which the contractor, or his agents or employees may have failed to preserve, shall be borne by the contractor. The

Contractor shall dig all stake holes necessary to give lines and levels. The contractor shall, when required to do so by the said Superintendent of Streets, remove from the work any overseer, superintendent, laborer, or other person employed on the work, who shall refuse or neglect to obey the said Superintendent of Streets in any way relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found incompetent or unfaithful.

2. All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any act or omission on the part of the contractor, or any agent or person employed by him, occurring in the course of the work not authorized by these specifications, shall be sustained and borne by the contractor. The contractor shall remove all obstructions in a careful manner and replace the same, when necessary that the same should be replaced, in as good a condition as found, and to the proper grade, and all protecting stone or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connections with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements, by fence or otherwise, to prevent accident, and shall hang thereon lights to burn from dusk to daylight, and the contractor shall hold the City harmless from any and all suits for damages arising from or out of and during the performance of said work, or any portion thereof, and before the same has been accepted.

3. All the work provided for herein must in all cases be done under the direction and to the satisfaction of the said Superintendent of Streets, and the materials used shall comply with the specifications herein contained, and be to the satisfaction of the said Superintendent of Streets. No materials of any kind shall be used until they have been examined and approved by the said Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with the specifications, and to require the contractor to immediately remove any work or material so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets. The decision of the said Superintendent of Streets shall be final as to the quality of the work and materials used, unless the Common Council shall determine otherwise upon an appeal.

4. Whenever the word "Contractor" is used in these specifications, it refers to the party or parties to whom the contract has been awarded for the construction of the work herein specified.

5. Whenever the words "City Engineer" or "Street Superintendent" are used in these specifications, they refer, respectively, to the City Engineer and the Street Superintendent of the City of San Diego, State of California.

Section 10. That all ordinances or parts of ordinances, in conflict herewith be and the same are hereby repealed.

Section 11. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 12. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the City official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 2nd day of June, 1902, and signed in open session thereof by the President of said Board June 2nd, 1902.

M. W. JENKS,  
President of the Board of Delegates of the City of San Diego, California.

Passed and adopted by the Board of Aldermen of the City of San Diego, California, this 2nd day of June, 1902, and signed in open session thereof by the President of said Board June 16th, 1902.

M. J. PERRIN,  
President of the Board of Aldermen of the City of San Diego, California.

I hereby approve the foregoing Ordinance this 17th day of June, 1902.

FRANK P. FRARY,  
Mayor of the City of San Diego, California.

(Seal.) Attest:  
GEO. D. GOLDMAN,  
City Clerk.

I Hereby Certify that the annexed Clipping is a full, true and correct copy of Ordinance No 1138 of the Ordinances of the City of San Diego, California, as adopted by the Common Council of said City, and approved by the Mayor thereof June 17<sup>th</sup> 1902.

I further Certify that Ordinance No 1138 was lawfully published in the San Diego Union and Daily Bee on the 20<sup>th</sup> day of June, 1902.

City Clerk

### Ordinance No. 1139.

#### AN ORDINANCE PRESCRIBING SPECIFICATIONS FOR BITUMINOUS ROCK PAVEMENT ON A PORTLAND CEMENT CONCRETE FOUNDATION IN THE CITY OF SAN DIEGO CALIFORNIA.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the paving of all streets in the City of San Diego, California, with bituminous rock pavement on a Portland cement concrete foundation shall be done in accordance with the specifications hereinafter contained.

The street pavement, guttering, and culverts provided for herein are to be constructed according to the plans and drawings and cross-section, approved by the Common Council, on file in the office of the City Engineer of said City, and so as to conform to the lines, levels, and official grade of the street upon which said work is to be constructed, said lines and levels shall be shown on the ground by stakes to be set by the City Engineer of said City.

The work to be done shall be as follows: (a) Grading and preparing the roadbed; (b) Trenching for and constructing the culverts; (c) Constructing and laying a pavement of bituminous rock; (d) Constructing and laying along the exterior lines of the said pavement the guttering prescribed; (e) Furnishing all material and labor necessary to perform said work and complete the same.

Section 2. That all grading and the preparation of the roadbed for the pavement shall be done and performed as follows:

1. Grading shall include the work of removing all earth, stone, loose rock, hardpan, and all other material that may be encountered or required in preparing the street for the work called for in the Resolution of intention, and shall include also all filling, trimming, shaping, picking down, re-filling, rolling, surfacing, and all other work that may be required in bringing the surface of the street to the sub-grade and shape required, and of maintaining it in perfect condition until the work has been done. The cost thereof shall be included in the contract price per square yard of completed pavement, and no extra compensation shall be allowed the contractor for removing from the street the surplus material that may result from the work of grading. The surplus material, if any, shall be removed by the contractor to such point or points as may be designated by the Common Council in the Resolution of Intention.

2. When mud or soft material is encountered, it shall be taken out below the sub-grade, and the space shall be refilled with good, hard material, by and at the expense of the contractor.

3. In places where cutting is necessary to bring the street to the required surface, the plow point shall not in any case penetrate below a point two (2) inches above the sub-grade. The remainder shall be carefully dressed off with picks or other hand tools.

4. In places where filling is necessary to bring the street to the required surface, it shall be done in layers of not more than six (6) inches in depth, and each layer shall be thoroughly rolled before another layer is added.

5. The street shall be brought to a sub-grade or surface of the required depths below the established grade of the street, and shall be finished in the most perfect manner so as to be parallel with, and in every way made to conform in shape to the surface of the finished work. To effect this the ground shall first be brought to an approximate finish slightly above the sub-grade. The City Engineer will then set grade stakes and the contractor shall then stretch lines from these several stakes, both along and across the work, and dress down to the true surface all irregularities as indicated by these lines. The surface shall then be rolled, when it shall again be dressed and re-rolled until the surface shall be true, smooth, compact, and to the required surface.

6. Such portions of the street as cannot be reached by the roller, and all places excavated below the sub-grade and refilled, and all pipe trenches and other places that cannot be properly compacted by the roller, shall be tamped solidly by and at the expense of the contractor.

7. All covers to sewer manholes and valve boxes on the line of the work that are not to the established grade shall be reset to the established grade of the street, and grade stakes set therefor by the City Engineer. The contract price per square yard for the finished pavement shall include the cost of re-setting said covers, and no extra compensation shall be allowed the contractor for re-setting them.

8. The roller used shall be of a weight of not less than two hundred and fifty (250) pounds for each one (1) inch width of roller.

Section 3. That the gutters may be paved with natural stone blocks, Portland cement concrete, or with the same material as the street pavement, and laid in the same manner. The Resolution of Intention shall state the material with which the gutter is to be paved. The paving of gutters shall commence at the curb and shall conform to the cross-section of the street, and shall be of such width as shall be specified in the Resolution of Intention.

The paving of all gutters with natural stone shall be as follows:

1. The blocks shall be of porphyry or granite as specified in the Resolution of Intention. The stone shall be in all cases free from lamination, stratification, or other defects, and shall be of uniform grade and texture throughout.

2. The stone blocks shall be neatly cut to the following dimensions: In length, not more than ten (10) nor less than seven (7) inches; in width, not more than four and one-half (4 1/2) nor less than three and one-half (3 1/2) inches, and to a uniform depth of seven inches. All blocks shall be dressed to rectangular faces with straight edges on top, bottom, and sides. The sides and ends shall be dressed so as to make three-fourths (3/4) of an inch joints the full depth of the blocks. The top and bottom faces shall be parallel, and there must be no knob or projections on either the top, bottom, sides, or ends of the stone.

3. The blocks shall be laid by hand and firmly bedded in four (4) inches of clean, sharp sand.

4. The blocks shall be laid with their greatest length at right angles to the axis of the street and in straight courses of uniform depths and widths throughout. At the intersection of one street with another street the gutter shall be constructed to the line of the culverts. If

culverts are not constructed across the intersection, the blocks will be laid to true radial lines, following the curvature of the curb. Each course shall be set perpendicular to the surface so that in alternate courses all longitudinal joints shall be broken by a lap of at least two (2) inches, and the outer edge shall be laid to form a toothing of at least four (4) inches.

5. When laid, the pavement of the gutter shall be immediately covered with screened pea gravel, which shall first be thoroughly washed and heated and while hot shall be raked or swept in the joints until all are completely filled. The blocks shall then be cemented with rammers weighing from seventy-five (75) to eighty (80) pounds, until all have been forced to a firm unyielding bed, and the gutter brought to a perfect surface. Every block that does not have a solid bearing, as well as all general depressions in the surface, resulting from a thorough racking of each block, shall be taken up, and additional sand placed upon the foundation and the blocks again laid and rammed until brought to a solid bearing and perfect surface. While the blocks are being rammed the joints shall be kept well filled with gravel.

6. Immediately after racking, the gravel shall be swept or otherwise cleaned out of the joints to a depth of one (1) inch, and there shall then be poured into the joints, while the gravel is hot, boiling paving cement until all the joints are completely full. Additional hot gravel of the specified size and quality shall then be poured along and into the joints previously filled with the paving cement, and then be compacted by tamping with light rammers, especially made for this purpose, until all the joints are thoroughly filled and made flush with the upper surface of the gutter.

7. The said paving cement shall be composed of twenty (20) parts of refined asphaltum and three (3) parts of residual oil mixed with one hundred (100) parts of tar, which shall be obtained from the direct distillation of coal-tar and shall be the residuum therefrom. These ingredients shall be delivered on the work at least one week before being used, in order that the Street Superintendent may cause the proper tests to be made before the material is admitted into the work. The cement must be mixed upon the work and then heated to a temperature of three hundred (300) degrees Fahrenheit as it is required for immediate use. Three and one-half (3 1/2) gallons of cement shall be used for each and every square yard of gutter.

8. As soon as the joints shall have been thoroughly tamped, and before the paving cement shall have become cold, a layer of clean, dry, coarse sand one-half (1/2) inch in thickness shall be spread evenly over the entire surface of the gutter, which, together with the accumulation of any kind, shall be cleaned off and removed from the street by the contractor before the work has been accepted.

9. All blocks shall be carefully inspected by the Superintendent of Streets, and he shall direct that every stone not complying with these specifications, whether it has been set or not, shall be immediately removed from the street at the expense of the contractor. The contractor shall furnish at his own expense, such laborers as may be required to enable a thorough inspection and culling of the blocks.

10. All natural stone block gutters shall be paid for at a stated price per square yard, which price per square yard shall include the furnishing of all labor and materials, the foundation, the grouting, and all other work and all expenses, direct or indirect, connected with the proper execution of the work, and of maintaining the same in perfect condition until it shall have been finally accepted by the Street Superintendent.

Section 4. That all Portland cement concrete gutters shall be constructed as follows:

1. Portland cement concrete gutters shall be of the width stated in the Resolution of Intention.

2. The thickness shall be six (6) inches at center and at the edge adjoining the curb, and shall be eight (8) inches at the edge adjoining the street pavement, and shall be laid to conform to the cross-section of the street, as shown on the plans and drawings on file in the office of the said City Engineer.

3. The Portland cement used shall conform to the requirements enumerated in Section 8 of this Ordinance.

4. Portland cement concrete shall be composed of one (1) part, by volume, of cement, two (2) parts of sand, and four (4) parts of broken rock. The molds shall be banked up solidly so that no movement will take place when the concrete is being tamped. The molds shall be filled with concrete as hereinafter specified and thoroughly tamped with in one (1) inch of the finished surface. The final layer of one (1) inch of mortar shall be one part of cement to one part of sand filled in and finished with a trowel. After setting for twelve (12) hours it shall be covered with wet earth and kept so covered for ten (10) days.

Section 5. That all culverts shall be constructed as follows:

1. Culverts may be of vitrified pipe, cast-iron pipe, or of Portland cement concrete, as called for in the Resolution of Intention.

2. All culverts shall be constructed in the line of the gutters and in the direction of the main flow of water, and as shown by the plans and drawings for same in the office of the said City Engineer.

3. If of vitrified stone pipe, the material shall be close-grained, well glazed, thoroughly pressed and burned clear through so as to show a uniform color when broken. The inside of the bells and the outside of the spigot ends shall be wiped clean, thoroughly wet and well and closely jointed as laid. The trench for the pipe shall be two (2) feet wide, graded true with the bottom uniformly solid. The joints shall be thoroughly cemented with a mortar composed of one (1) part of Portland cement to one (1) part of sand. The pipe shall be laid upon the bottom of the trench, and the trench shall be filled in around the pipe with concrete which shall be well tamped under the lower quarters of the pipe and the pipe covered with cement concrete to six (6) inches in thickness on both sides and top. After the cement is finished and has set for twelve (12) hours it shall be covered with six (6) inches of earth and kept so covered for ten (10) days. Y branches with conduit pipes shall be laid and concreted in the same manner.

4. If the culverts are constructed of cast-iron pipe, the material shall be the best quality of cast-iron pipe coated inside and out with a double coat of paraffine paint, and laid and concreted as specified above.

5. The concrete in which pipe culverts are laid shall be composed of one part, by volume, of Portland cement, two (2) parts of sand, and four and one-half (4 1/2) parts of gravel or crushed rock, mixed as hereinafter specified.

6. If the culverts are constructed of Portland cement concrete with cast-iron covers, the culverts shall be constructed so as to conform to the alignment and grade, and shall be of the dimensions shown by the plans and drawings on file in the office of the said City Engineer, who shall set grade stakes for that purpose in accordance therewith. The concrete shall be composed of one part, by volume, of Portland cement, two parts of sand, and four parts of broken stone. The concrete shall be placed in position against wood moulds substantially held in place so as to permit of no movement of the mass while the concrete is being rammed.

7. The cast-iron covers for the culverts shall be of good quality of cast-iron free from flaws, cracks, or other defects. They shall be perfect castings of the exact form and size as shown upon the plans and drawings in the office of the said City Engineer. Where the culvert crosses the street railway tracks, the covers shall be made of the proper length and form to fit closely between the rails. Each section of the cast-iron plates shall be set in a bed of mortar in such manner as to insure a uniform bearing upon the walls of the culvert, and any plate that is not so bedded shall be reset, and any material that may be imperfect in form or material shall be replaced by and at the expense of the contractor before the work is accepted. All surfaces of cast-iron culvert plates shall receive one coat of paraffine paint.

8. The contract price shall be per linear foot for the culvert, complete, and shall include all the labor and material and all expenses, direct or indirect, connected with the proper execution of the work and of maintaining it in perfect condition until it shall have been finally accepted by the said street superintendent.

Section 6. That all concrete foundations shall be laid as follows:

1. Concrete foundations four (4) inches in thickness shall be laid under the bituminous rock pavement. And no extra compensation shall be allowed the contractor for such foundations. The contract price for the pavement shall include the cost of the foundation upon which it rests.

2. All concrete foundations shall be made of Portland cement, sand, and broken stone, and the proportions shall be, by volume, as follows: Cement, one (1) part, sand three (3) parts, broken stone six (6) parts. The material for the concrete shall comply with the requirements enumerated in section 8 of this ordinance.

3. The concrete shall be in place and rammed within thirty (30) minutes after the cement is wet, and any concrete material which has been wet for more than thirty (30) minutes will not under any circumstances be allowed to be used in the work.

4. The upper surface of the concrete foundation shall be finished parallel to and three (3) inches below the grade of the pavement, and shall be made to extend close up to and around all openings or projections and to fit all irregularities.

5. As soon as laid and before the top becomes dry, the entire surface of the concrete foundation shall be covered with one (1) inch in depth of clean sand to protect it from the sun and wind. The sand so spread shall be kept moist for a period of ten (10) days, and the concrete shall be protected against use during that time by means of fencing or otherwise, and any damage done by passing over it before the work has been completed shall be repaired by and at the expense of the contractor.

6. Before adding any new concrete mixture to that which has been previously laid for one hour or more, the surface of the old work shall be thoroughly cleaned, moistened, and grouted with a mixture of equal parts of cement and sand before the new concrete mixture is added.

Section 7. That all bituminous rock pavements on Portland cement concrete foundation shall comply with the following specifications:

The binder course is to be composed of fine broken hard rock all passing a three-quarter (3/4) inch screen, and asphaltic paving cement. Not more than ten per cent of the broken rock shall exceed one and one-quarter (1 1/4) inch in greatest dimension, and not more than fifteen (15) per cent shall pass a ten-mesh to the inch screen. The asphaltic cement is to be heated to a temperature of between 250 and 325 degrees Fahrenheit before the broken rock, which must previously be heated to a temperature not exceeding 300 degrees Fahrenheit, is mixed with it. These ingredients are to be thoroughly mixed in such proportions that each particle of the broken rock shall be thoroughly coated with a sufficient quantity of the asphaltic cement to bind the particles of rock firmly together, when the mass has been spread upon the street and finally compressed. The binder course must contain at least five (5) per cent of bitumen soluble in carbon disulphide.

2. This mixture of rock and asphaltic cement while still hot shall be spread uniformly over the concrete with hot tools to such a depth that after compression it shall be at least one inch in thickness. It shall be immediately rolled with a roller weighing not less than 150 pounds to the inch width of roller. This rolling shall be continued while the binder course is in a hot plastic condition. Such portion of the binder course as it may be impossible to roll shall be thoroughly rammed with hot tampers.

3. The upper surface of the binder course shall be made exactly parallel with the required surface of the finished pavement, and the particles of rock in the whole course, when finished, must be firmly bound together.

4. The asphaltic cement for use in the binder course may be a natural product, or may be prepared by mixing a refined liquid asphalt or heavy petroleum oil with a solid asphalt. Its consistency must fall between the limits 40 and 80 penetration by the District of Columbia standard. It must be slightly elastic at a temperature of 82 degrees Fahrenheit. It must contain at least 60 percent of bitumen soluble in carbon disulphide.

5. Upon this binder course a layer of bituminous rock is to be spread of such thickness that when compacted it, together with the binder course, shall have a thickness of at least two and one-half (2 1/2) inches.

6. The bituminous rock must be of good quality, suitable for use as the wearing surface of a pavement. It must yield not less than nine (9) nor more than fifteen (15) per cent of bitumen when extracted by carbon disulphide, and must not contain more than two (2) per cent of non-bituminous combustible material.

7. The consistency of the bitumen extracted by carbon disulphide must fall within the limits of 40 to 80 penetration by the District of Columbia standard. It must be adhesive and ductile. When heated to a temperature of 300 degrees

Fahrenheit for eight (8) hours, it must not lose more than twelve (12) per cent in weight of vaporizable material, and must not be so changed by such heating as to be harder than of a consistency of 8 penetration.

8. The non-bituminous and non-combustible ingredients of the bituminous rock are to be sand and finely pulverized mineral matter, of a character unacted on by water. The sand must be clean, hard, moderately sharp, and must all pass an eight (8) mesh to the inch screen. At least fifteen (15) per cent of the non-bituminous and non-combustible ingredients of the bituminous rock must be fine enough to pass a 100-mesh to the inch screen, and at least 16 per cent must be coarse enough to be retained on a 50-mesh to the inch screen.

9. Should it be necessary to add stone dust to the bituminous rock to supply a deficiency of the finely pulverized mineral matter, powdered carbonate of lime shall be used.

10. The bituminous rock is to be reduced to a finely disintegrated condition by heating, but not in open kettles, nor by any other process liable to burn or impair the quality of the bituminous materials. It is to be brought upon the street in a finely disintegrated condition not colder than 250 nor hotter than 300 degrees Fahrenheit, and while still hot, the bituminous rock is to be spread uniformly and rolled with hot hand-rollers weighing not less than two hundred and fifty (250) pounds to the lineal foot until this layer is thoroughly compacted.

11. Hand-rolling is to be followed by rolling with a roller weighing not less than 150 pounds per inch in width of roller. This roller is to be used on the warm pavement for at least five (5) hours for each 1,000 square yards of surface.

12. When the surface cannot be rolled, it is to be thoroughly rammed with hot tampers and smoothed with hot smoothing irons.

13. In case the natural bituminous deposit from which the contractor desires to take the bituminous rock, does not contain material complying with the above requirements, the contractor shall procure bituminous rock from another deposit and mix the same with the bituminous rock he desires to use, or bring it to the standard specified herein. In all cases, the bituminous rock used must comply with the specifications herein contained.

14. The finished surface must be smooth and conform to the prescribed surface of the roadway.

15. The bituminous rock of the finished pavement shall be fine grained and compact, containing a sufficient amount of asphalt to fill the voids between the grains of sand or other mineral matter entering into its composition. It must be free from water and from appreciable quantities of light oils volatile at 250 degrees Fahrenheit, and must be in every way serviceable for use as a wearing surface for a street pavement.

16. The contract price shall be per square yard for finished pavement, and shall include all grading, foundation, and all other work and all expenses, direct or indirect, connected with the proper execution of the work, and of maintaining the same until it shall have been finally accepted by the street superintendent.

Section 8. That all cement, broken stone, or gravel, or other materials not hereinbefore specified, shall comply with the following specifications:

1. No cement will be accepted, tested, or permitted to be used unless delivered in original packages with the manufacturer's name and brand of cement thereon.

2. Tests of the cement will be made at a temperature of from sixty (60) to seventy (70) degrees Fahrenheit.

3. Samples for tests may be taken from every package delivered, and unless they meet the requirements herein specified such packages may be rejected.

4. The sieves used for testing cement for fineness and for gauging the sand to be used in making briquettes for sand tests shall be as follows:

No. 20 sieve shall have 400 meshes to the square inch and shall be made of wire cloth, No. 28 wire, Stubbs wire gauge.

No. 30 sieve shall have 900 meshes to the square inch and shall be made of wire cloth, No. 31 wire, Stubbs wire gauge.

No. 50 sieve shall have 2500 meshes to the square inch and shall be made of wire cloth, No. 35 wire, Stubbs wire gauge.

No. 100 sieve shall have 10,000 meshes to the square inch and shall be made of wire cloth, No. 40 wire, Stubbs wire gauge.

5. Briquettes for testing tensile strength of cement will be made both of neat cement and of cement and sand in proportions hereinafter specified, with only enough water added to thoroughly moisten the mixture and make it coherent.

6. After being thoroughly mixed on a glass plate the mortar shall be finely pressed into the moulds by hand, and the briquettes so formed placed upon a glass plate and kept there until put in water.

7. The sand used in preparing briquettes shall be clean and sharp and of such size that it will pass through a number twenty (20) sieve and be retained on a No. 30 sieve.

8. Round pats of neat cement about three inches in diameter, half inch thick at the center and tapering to a feather edge, mixed in the same manner as the neat cement briquettes and placed on a glass plate, shall not show any signs of warping or cracking after seven (7) days in either air or water.

9. Any cement showing signs of swelling, after being mixed, will be rejected.

10. Portland cement shall be ground to such a degree of fineness that not less than 98 per cent by weight shall pass a No. 58 sieve, and not less than 90 per cent by weight shall pass a No. 100 sieve.

11. The ultimate tensile strength of briquettes, one square inch in cross section, made of neat Portland cement, shall be as follows: One day in air and six days in water 375 pounds.

One day in air and twenty-seven days in water 510 pounds.

12. The ultimate tensile strength of briquettes one square inch in cross-section, made of one part by weight of Portland cement and three (3) parts of sand shall be as follows: One day in air and six days in water 120 pounds.

One day in air and twenty-seven days in water 190 pounds.

13. Broken stone for concrete shall be good, hard stone that will not be affected by the weather, broken so that the longest dimension of any stone will not exceed one and one-half inches (1 1/2) nor the least dimension of any stone be less than one-quarter (1/4) inch, and must be free from dust, dirt, or other foreign matter.

14. Gravel used for concrete shall be of such sizes that the greatest diameter of any pebble will not exceed one and one-half inches (1 1/2) nor the least dimension of any pebble be less than one-quarter (1/4) of an inch, and must be free from dust, dirt, or other foreign matter.

15. Water shall be fresh, and free from earth, dirt or sewerage.

Section 9. That the modes and methods of performing the work shall be as follows:

1. The cement and sand in the specified proportions, by volume, shall be thoroughly mixed dry on a tight platform, with shovels or hoes, until no streaks of cement are visible. Upon the mixture there shall be spread the proper quantity of broken stone or gravel. The mass shall then be thoroughly turned over with shovels or hoes not less than three (3) times, or until every pebble or piece of broken stone is completely coated with mortar. Water shall be added by sprinkling during the process of mixing in quantities to secure the required consistency.

2. The cement and sand for mortar in the specified proportions shall be thoroughly mixed dry on a tight platform, with shovels or hoes, until no streaks of cement are visible. Water shall be added to the sand and cement, in accordance with the foregoing directions, in sufficient quantities to produce a mortar of the desired consistency, and the whole thoroughly mixed with shovels or hoes until a homogeneous mass is produced.

3. The mortar, while fresh, shall be spread upon the concrete base, before the latter has set, in such quantities that, after being thoroughly manipulated and spread over the concrete, it will make a layer one inch thick conforming to the required grade and cross section, which shall be thoroughly dressed and smoothed.

4. Board or timber forms shall be provided by the contractor to mould the concrete and mortar to the required shape, and shall be left until the concrete or mortar is set.

5. Re-tempering of concrete or mortar will not be permitted, and mortar or concrete that has begun to set before raining is completed shall be removed from the work.

6. All surfaces on or against which concrete is to be laid shall be thoroughly cleaned and dampened by sprinkling with water just previous to placing the concrete.

7. The concrete shall be evenly spread upon the foundation, as soon as mixed, in a layer of such depth that after having been thoroughly compacted with rammers it shall not be in any place less than the thickness called for, and the upper surface shall be parallel with the proposed surface of the completed work.

8. Concrete shall not be mixed in larger quantities than is required for immediate use, and no batch shall be larger than can be made of one barrel of cement with the proportions of sand and stone.

Section 10. That all work done shall be subject to the following conditions and requirements:

1. The contractor shall give twelve (12) hours' notice in writing when he shall require the services of the City Engineer for laying out any portion of the work. He shall preserve all stakes set for lines, levels, or measurements of the work by the City Engineer in their proper places. Any expense in replacing said stakes which the contractor, or his agents or employees may have failed to preserve, shall be borne by the contractor. The contractor shall dig all stake holes necessary to give lines and levels. The contractor shall, when required to do so by the said Superintendent of Streets, remove from the work any overseer, superintendent, laborer, or other person employed on the work, who shall refuse or neglect to obey the said Superintendent of Streets in any way relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found incompetent or unfaithful.

2. All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any act or omission on the part of the contractor, or any agent or person employed by him, occurring in the course of the work not authorized by these specifications, shall be sustained and borne by the contractor. The contractor shall remove all obstructions in a careful manner and replace the same, when necessary that the same should be replaced, in as good a condition as found, and to the proper grade, and all projecting stone or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connections with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements, by fence or otherwise, to prevent accident, and shall hang thereon lights to burn from dusk to daylight, and the contractor shall hold the City harmless from any and all suits for damages arising from or out of and during the performance of said work, or any portion thereof, and before the same has been accepted.

3. All the work provided for herein must in all cases be done under the direction and to the satisfaction of the said Superintendent of Streets, and the materials used shall comply with the specifications herein contained, and be to the satisfaction of the said Superintendent of Streets. No materials of any kind shall be used until they have been examined and approved by the said Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with the specifications, and to require the contractor to immediately remove any work or material so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets. The decision of the said Superintendent of Streets shall be final as to the quality of the work and materials used, unless the Common Council shall determine otherwise upon an appeal.

4. Whenever the word "Contractor" is used in these specifications, it refers to the party or parties to whom the contract has been awarded for the construction of the work herein specified.

5. Whenever the words "City Engineer" or "Street Superintendent" are used in

those specifications, they refer, respectively, to the City Engineer and the Street Superintendent of the City of San Diego, State of California.

Section 11. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 12. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 13. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the City official newspaper of said City, to wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 2nd day of June, 1902, and signed in open session thereof by the President of said Board June 2nd, 1902.

M. W. JENKS,  
President of the Board of Delegates of the City of San Diego, California.

Passed and adopted by the Board of Aldermen of the City of San Diego, California, this 2nd day of June, 1902, and signed in open session thereof by the President of said Board June 16th, 1902.

M. J. PERRIN,  
President of the Board of Aldermen of the City of San Diego, California.

I hereby approve the foregoing Ordinance this 17th day of June, 1902.

FRANK P. FRARY,  
Mayor of the City of San Diego, California.

(Seal.) Attest:

GEO. D. GOLDMAN, City Clerk.

I Herely Certify that the annexed Clipping is a full, true and correct Copy of Ordinance No 1139 of the Ordinances of the City of San Diego, California, as adopted by the Common Council of the City of San Diego, California, and approved by the Mayor thereof June 17th, 1902.

I Further Certify that Ordinance No 1139 was correctly Published in the San Diego Union and Daily Bee on the 27th day of June, 1902.

City Clerk

### Ordinance No. 1140.

An Ordinance Prescribing Specifications for Sidewalking and Curbing in the City of San Diego, California.

Be it ordained by the Common Council of the City of San Diego, as follows: Section 1. That all sidewalk and curbing in the City of San Diego, California, shall be hereafter done in accordance with the following specifications, viz:

The sidewalks, pavements, and curbs provided for herein are to be constructed according to plans, drawings, and cross-section approved by the Common Council of said City, on file in the office of the City Engineer of said City, and so as to conform to the lines, levels, and official grade of the street upon which said work is to be constructed; said lines and levels shall be shown on the ground by stakes to be set by the City Engineer of said City.

The work to be done shall be as follows: (a) Preparing the foundation for the sidewalk, and digging the trench for the curb; (b) Constructing and laying the curb prescribed in the Resolution of Intention; (c) Constructing and laying a Portland cement concrete pavement; (d) Furnishing all material and labor necessary to perform said work, and to complete the same; (e) Removing from the street and sidewalk adjacent to the work, all surplus material and debris.

Section 2. That all material used in sidewalk and curbing in the City of San Diego, California, shall comply with the specifications herein contained.

1. No cement will be accepted, tested, or permitted to be used unless delivered in the original packages with the manufacturer's name and brand of cement thereon.

2. Tests of cement will be made at a temperature of from sixty (60) to seventy (70) degrees Fahrenheit.

3. Samples for tests may be taken from every package delivered, and unless they meet the requirements herein specified such packages may be rejected.

4. The sieves used for testing cement for fineness and for gauging the sand to be used in making briquettes for sand tests shall be as follows:

- No. 20 sieve shall have 400 meshes to the square inch and shall be made of wire cloth, No. 28 wire, Stubbs wire gauge.
- No. 30 sieve shall have 600 meshes to the square inch and shall be made of wire cloth, No. 31 wire, Stubbs wire gauge.
- No. 50 sieve shall have 2500 meshes to the square inch and shall be made of wire cloth, No. 35 wire, Stubbs wire gauge.
- No. 100 sieve shall have 10,000 meshes to the square inch and shall be made of wire cloth, No. 40 wire, Stubbs wire gauge.

5. Briquettes for testing tensile strength of cement will be made both of neat cement and of cement and sand in the proportions hereinafter specified, with only enough water added to thoroughly moisten the mixture and make it coherent.

6. After being thoroughly mixed on a glass plate the mortar shall be firmly pressed into the moulds by hand, and the briquettes so formed placed upon a glass plate and kept there until put in water.

7. The sand used in preparing briquettes shall be clean and sharp and of such size that it will pass a number twenty (20) sieve and be retained on a number thirty (30) sieve.

8. Round pats of neat cement about three inches in diameter, half inch thick at the center and tapering to a feather edge, mixed in the same manner as the neat cement briquettes and placed on a glass plate, shall not show any signs of warping or cracking, after seven (7) days in either air or water.

9. Any cement showing signs of swelling, after being mixed, will be rejected.

10. Portland cement shall be ground to such a degree of fineness that not less than ninety-eight (98) per cent by weight shall pass a No. 50 sieve, and not less than ninety (90) per cent by weight shall pass a No. 100 sieve.

11. The ultimate tensile strength of briquettes one square inch in cross-section, made of neat Portland cement, shall be as follows:

- One day in air and six days in water 375 pounds.
- One day in air and twenty-seven days in water 510 pounds.

12. The ultimate tensile strength of briquettes one square inch in cross-section, made of one part by weight of Portland cement and three parts of sand, shall be as follows:

- One day in air and six days in water 120 pounds.
- One day in air and twenty-seven days in water 190 pounds.

13. Broken stone for concrete shall be good, hard stone that will not be affected by the weather, broken so that the longest dimension of any stone will not exceed one and one-half (1½) inches, nor the least dimension of any stone be less than one-fourth (¼) of an inch, and must be free from dust, dirt, or other foreign matter.

14. Gravel for concrete shall be of such size that the greatest diameter of any pebble will not exceed one and one-half (1½) inches, nor the least dimension of any pebble be less than one-fourth (¼) of an inch, and must be free from dust, dirt, or other foreign matter.

15. Water shall be fresh, and free from earth, dirt, or sewerage.

16. All sidewalks within that portion of the said City of San Diego which are bounded on the north by the north line of "A" street; on the west by the west line of Fourth street; on the east by the east line of Sixth street, and on the south by the north line of "L" street shall extend from the curb line to the property line.

17. Outside of the limits of the district above described, the pavement shall be five feet four inches (5 ft. 4 in.) wide, located in the center of the sidewalk; provided, however, that at the intersection of one street with another street, the entire return shall be paved to the inside line of the curb. The pavement shall cover all that portion of the said intersection bounded by the extension of the two property lines to the curb and the inside of the curb line.

18. The cement and sand in the specified proportions by volume shall be thoroughly mixed dry on a tight platform, with shovels or hoes, until no streaks of cement are visible. Upon the mixture there shall be spread the proper quantity of broken stone or gravel. The mass shall then be thoroughly turned over with shovels or hoes, not less than three (3) times, or until every pebble or piece of broken stone is completely coated with mortar. Water shall be added by sprinkling during the process of mixing in quantities to secure the required consistency.

19. The cement, sand, and lamp-black in the specified proportions shall be thoroughly mixed dry on a tight platform, with shovels or hoes, until no streaks of

cement are visible. Water shall be added to the sand and cement, mixed in accordance with the foregoing directions, in sufficient quantities to produce a mortar of the desired consistency, and the whole thoroughly mixed with shovels or hoes until a homogeneous mass is produced.

20. The mortar, while fresh, shall be spread upon the concrete base, before the latter has set, in such quantities that after being thoroughly manipulated and spread over the concrete it will make a layer three-fourths (¾) of an inch thick, conforming to the required grade and cross-section. The surface shall be thoroughly dressed and smoothed and cut into slabs.

21. Board or timber forms shall be provided by the contractor to mould the concrete and mortar to the required shape, and shall be left until the concrete or mortar is set.

22. Re-tempering of concrete or mortar will not be permitted, and mortar or concrete that has begun to set before ramming is completed shall be removed from the work.

23. All surfaces on or against which concrete is to be laid shall be thoroughly cleaned and dampened by sprinkling with water just previous to placing the concrete.

24. The concrete shall be evenly spread upon the foundation, as soon as mixed, in a layer of such depth that after having been thoroughly compacted with rammers it shall not be in any place less than three (3) inches thick, and the upper surface shall be parallel with the proposed surface of the completed pavement.

25. Concrete shall not be mixed in larger quantities than is required for immediate use, and no batch shall be larger than can be made from one barrel of cement with the proper proportions of sand and stone.

26. The concrete sidewalks and concrete curbing shall be plainly and legibly stamped in letters not less than two (2) inches long, with the name of the contractor constructing the same, and the month and year of such construction.

27. All returns of concrete sidewalks shall be plainly and legibly stamped in letters not less than three (3) inches long, with the names of the streets or avenues upon which the return fronts, and with arrows showing the course of the street.

28. All the stamping herein provided for shall be done by and at the expense of the contractor, and no cement sidewalk or concrete curbing will be accepted by the Superintendent of Streets unless stamped as herein provided.

Section 3. That all curbs shall be constructed of either natural stone, concrete, or wood, and shall conform to the following specifications:

1. All natural stone curbs are to be constructed of granite, free from defects or faults that impair its usefulness for the purpose for which it is intended. Each block of stone must be at least four (4) feet long and six (6) inches thick at top and bottom, and sixteen (16) inches deep.

2. The top of each stone shall be dressed to the prescribed width of six (6) inches from which it shall not vary more than one-fourth (¼) of an inch, and its face shall be dressed for a distance of not less than eight (8) inches on paved streets and twelve (12) inches on unpaved streets, down from the top.

These dressed surfaces must be true and properly squared. They must be first-class pean hammered, and no holes are to be allowed. The back of the stone for a depth of two (2) inches is to be pointed to a fair surface, free from inequalities exceeding one-half (½) of an inch measured from a straight edge, and the joints of the stone are to show an even edge for a depth equal to the depth of the dressing on the face. The joints below the dressed portion must not be pitched more than one-quarter (¼) of an inch under square and must not interfere with the making of close joints not exceeding one-eighth (⅛) of an inch throughout the dressed portion of the ends. All edges bordering dressed surfaces shall be sharply defined.

3. The lower part of each stone is to be roughly squared and shall not fall below an average thickness of six (6) inches at the bottom, and shall have no point where its minimum thickness fall below four (4) inches.

The curb for corners shall be cut to a radius of ten (10) feet, and its joints must be on true radial lines. The joints must not exceed one-eighth (⅛) of an inch and must be cut the full depth. All joints shall be filled with cement grout.

The curb shall rest on not less than four (4) inches of sand, backed up with not less than three (3) inches in width of sand to within four (4) inches of the top of the curb. All backfilling shall be thoroughly tamped so that there will be no displacement of the curb. All curbs shall be set to true lines and grades as shown by the grade stakes to be set by the City Engineer.

4. All artificial stone or concrete curbs shall be eight (8) inches wide by sixteen (16) inches deep. The Portland cement used to be subject to the requirements herein enumerated. The concrete shall be composed of one part, by volume, of Portland cement, two parts of sand, and four parts of broken stone. The moulds shall be banked up solidly with earth so that no movement will take place when the concrete is being tamped. The moulds shall be filled with concrete prepared as hereinafter specified and thoroughly tamped to within three-quarters (¾) of an inch of grade. The final layer of three-quarters (¾) of an inch of mortar shall be of one part of cement to one of sand filled in and smoothed with a trowel. After setting for twelve (12) hours it shall then be covered with wet earth three (3) inches deep and kept so covered for ten (10) days. The face of the curb down to the grade line of the gutter shall be finished in the same manner as the top.

5. All wooden curbs shall be of sound black-heart redwood planks three inches by twelve inches (3 in. by 12 in.) in size, free from sap, well and truly set to the official line of the gutter, and inclined one (1) inch toward the property line at the top of the curb, to the curb grade, and securely spiked with sixty (60) penny spikes to four inch by four inch (4 in. by 4 in.) redwood stakes not over eight (8) feet apart and at least three (3) feet long, securely planted, not driven, into hard ground. At corners the radius of the curve shall be ten (10) feet, and the return or curve shall not be less than three pieces of one inch by twelve inches (1 in. by 12 in.), thoroughly spiked together, the face of which shall be one continuous piece extending from property line to property line.

Section 4. All cement sidewalks shall conform to the following specifications:

1. Pavements of this class shall consist of a foundation of Portland cement concrete three (3) inches thick, and a wearing surface of Portland cement mortar three-quarters (¾) of an inch thick, making a total thickness of the completed pavement at least three and three-quarter (3¾) inches.

The earth bed on which the pavement is to rest shall be graded to the required depth below the official grade of the street. The surface of such bed shall be parallel to and conform in every respect to the cross-section of the pavement when finished; the ground, after being perfectly dressed, shall be made solid by ramming or rolling. All soft or spongy places not affording a firm foundation shall be dug out; all trench filling shall be thoroughly drenched with water and tamped; all depressions which appear shall be refilled with good and sound material and well rammed. In all places where any filling may be necessary to bring the bed to the required height it shall be done in layers not to exceed eight (8) inches in thickness, and each layer shall be thoroughly drenched and tamped to insure a solid bed.

2. The base or foundation shall be three (3) inches in thickness, composed of one part, by volume, of Portland cement, two (2) parts of sand, and four (4) parts of broken stone or gravel, as specified in the Resolution of Intention. The Portland cement used to be subject to the requirements hereinbefore enumerated. The concrete shall be filled in and thoroughly tamped to within three-quarters (¾) of an inch of grade. The final layer of mortar three-quarters (¾) of an inch thick to be laid before the base becomes set or dry, and shall be composed of one (1) part, by volume, of Portland cement to one part of sand, colored with lampblack to a dark slate color, and smoothed with a trowel. After setting for twelve (12) hours it shall be covered with wet earth three (3) inches deep and kept so covered for ten (10) days.

Section 5. That all work done shall be subject to the following conditions and requirements:

1. The contractor shall give twelve (12) hours' notice in writing when he shall require the services of the City Engineer for laying out any portion of the work. He shall preserve all stakes set for lines, levels, or measurements of the work by the City Engineer in their proper places. Any expense in replacing said stakes which the contractor, or his agents or employees may have failed to preserve, shall be borne by the contractor. The contractor shall dig all stake holes necessary to give lines and levels. The contractor shall, when required to do so by the said Superintendent of Streets, remove from the work any overseer, superintendent, laborer, or other person employed on the work, who shall refuse or neglect to obey the said Superintendent of Streets in any way relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found to be incompetent or unfaithful.

2. All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any act or omission on the part of the contractor, or any agent or person employed by him, occurring in the course of the work not authorized by these specifications, shall be sustained and borne by the contractor. The contractor shall remove all obstructions in a careful manner and replace the same when necessary that the same should be replaced, in as good a condition as found, and to the proper grade, and all projecting stone or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connections with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements, by fence or otherwise, to prevent accident, and shall hang thereon lights to burn from dusk to daylight, and the contractor shall hold the City harmless from any and all suits for damages arising from or out of and during the performance of said work, or any portion thereof, and before the same has been accepted.

3. All the work provided for herein must in all cases be done under the direction and to the satisfaction of the said Superintendent of Streets, and the materials used shall comply with the specifications herein contained, and be to the satisfaction of the said Superintendent of Streets. No materials of any kind shall be used until they have been examined and approved by the said Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with the specifications, and to require the contractor to immediately remove any work or material so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets. The decision of the said Superintendent of Streets shall be final as to the quality of the work and materials used, unless the Common Council shall determine otherwise upon an appeal.

4. Whenever the word "Contractor" is used in these specifications, it refers to the party or parties to whom the contract has been awarded for the construction of the work herein specified.

5. Whenever the words "City Engineer" or "Street Superintendent" are used in these specifications, they refer, respectively, to the City Engineer and the Street Superintendent of the City of San Diego, State of California.

Section 6. That all ordinances or parts of ordinances in conflict herewith be and the same is hereby repealed.

Section 7. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 8. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 2nd day of June, 1902, and signed in open session thereof by the President of said Board June 2nd, 1902.

**Ordinance No. 1141.**

An Ordinance Providing Specifications for the Grading of Streets in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:  
Section 1. That all street grading in the City of San Diego, California, shall hereafter be performed in accordance with the following specifications:

1. The work of grading is to be done in accordance with the profiles approved by the Common Council on file in the office of the City Engineer of said City, and all work shall conform, during the progress of the work and on its completion, to the lines and levels which may from time to time be given by the said City Engineer in accordance therewith.

2. The City Engineer shall set stakes indicating the exact depth of cutting or filling required to bring the street to its official grade.

3. Grading shall include the removal of all earth, stone, loose rock, clay, shale, cement, hardpan, boulders, solid rock, and all other materials that may be encountered in preparing the street, and shall also include all filling, trimming, shaping, picking down, re-filling, surfacing, or other work that may be necessary to grade the roadway, gutters, and sidewalks to the official grade and in accordance with the said profiles.

4. In places where filling is necessary to bring the street to the official grade it shall be done with good, sound material. The embankments shall be carried up of full width in layers not to exceed one foot in thickness, and the teams shall be made to travel as evenly as possible over the whole surface of each layer, both going and coming.

The formation of well defined ruts is specially prohibited. No material of a spongy nature shall be used for filling. The slopes of embankment shall be one and one-half (1 1/2) horizontal to one vertical, and shall be trimmed as they are carried up. The space over which fills are to be made shall first be cleared of all brush, rubbish, and perishable material.

5. Upon all embankments there shall be placed a top dressing of earth of uniform quality to form a compact surface.

6. Whenever a cut exceeds one (1) foot in depth, all trees standing on the margin of the street shall be removed.

7. Before the Resolution of Intention is passed by the Common Council, the City Engineer shall make a careful estimate of the number of cubic yards of excavation and the number of cubic yards of embankment necessary to bring the street, or portion of the street, proposed to be graded, to its official grade and cross-section.

8. In case said estimate demonstrates that the number of cubic yards of embankment is in excess of the number of cubic yards of excavation, the Resolution of Intention shall designate the point or points where such earth required shall be taken from. And in case said estimate demonstrates that the number of cubic yards of excavation is in excess of the number of cubic yards of embankment, then the Resolution of Intention shall designate the point or points where such excess earth shall be deposited.

9. The estimate of the City Engineer, made as above specified, shall be kept on file in his office, and shall, during office hours, be accessible for inspection by any person who may desire to inspect the same.

10. The Resolution of Intention shall designate the location and size of all culverts to be placed on the street to be graded.

11. The culverts shall be built of two (2) inch redwood planks, and according to the plans and drawings on file in the office of the City Engineer.

12. All bids must state the price per cubic yard for excavation, the price per cubic yard for embankment, and the price per one thousand feet board measure for culverts.

13. Incidental expenses shall include the cost of the publication of notices, resolutions, orders, and other incidental expenses and matters required under the proceedings taken for the grading of the street, including the compensation of the City Engineer, all work of civil engineering done by him on the street, and such other notices as may be deemed requisite by the said Common Council.

14. The Street Superintendent shall supervise all work and shall not approve or accept the same until the street throughout is finished to the form or cross-section and to the elevations required by the official grade.

15. The contractor shall, when required to do so by the said Superintendent of Streets, remove from the work any overseer, superintendent, laborer, or other person employed on the work, who shall refuse or neglect to obey the said Superintendent of Streets in any way relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found to be incompetent or unfaithful.

16. Bidders must examine and judge for themselves as to the location of the proposed work, the nature of the excavation to be made, and the work to be done.

17. The contractor shall give twenty-four (24) hours' notice in writing when he shall require the services of the City Engineer for laying out any portion of the work. He shall preserve all stakes set for lines, levels, or measurements for the work by the City Engineer in their proper places. Any expense in replacing said stakes, which the contractor or his agents or employes shall have failed to preserve, shall be borne by the contractor. The contractor shall dig all stake holes necessary to give lines and levels.

18. All curbs and cross-walks which must be removed shall be removed in a careful manner, and must be conveniently and neatly piled upon the side of the nearest intersecting street.

19. All loss or damage arising from the nature of the work to be done under these specifications, during the progress of the work, and before the acceptance thereof, or from any act or omission on the part of the contractor, or any agent or person employed by him, occurring in the course of the work not authorized by these specifications, shall be sustained and borne by the contractor. The contractor shall keep good and sufficient guards around said improvements, by fence or otherwise, to prevent accident, and shall hang the red lights to burn from dusk to daylight, and the contractor shall hold the city harmless from any and all suits for damages arising from or out of and during the performance of said work on any portion thereof, and before the same has been accepted.

20. All railroad tracks, gas, or water pipes, electrical conduits, tubing or underground structures of any character belonging to the City or others, shall be properly protected, and the contractor shall be responsible for any damage that may be caused by negligence or carelessness on the part of his employees.

21. In case it should be necessary to remove any railroad tracks, gas pipes or water pipes, electrical conduits, tubing or underground structures of any character, or any portion thereof, the owner or owners of the same, or their agents or superintendents, will, upon application to the contractor, be notified by the Superintendent of Streets to remove the same within a specified time; and the contractor shall not interfere with said tracks, gas pipes, water pipes, or any portion thereof, until the expiration of the time specified in the said notice.

22. The right is reserved to street railroads, gas companies, or the City to enter upon the street for the purpose of making repairs or changes that have become necessary by the improvement of the street.

23. The contractor shall remove all surplus material and rubbish from the work after its completion, and before he makes application for the acceptance of the work.

24. The contractor shall notify the Superintendent of Streets when he desires a final inspection of the work, when the latter will make the necessary examination, and if the work is found to be completed in accordance with these specifications, he shall accept the same.

25. All work provided for herein must in all cases be done under the direction and to the satisfaction of the said Superintendent of Streets, who shall have full power to condemn any work or material not in accordance with these specifications, and to require the contractor to immediately remove any work or material so condemned, and the contractor shall, at his own expense, replace said work or materials to the satisfaction of the said Superintendent of Streets. The decision of the said Superintendent of Streets shall be final as to the quality of the work and materials used, unless the Common Council shall determine otherwise upon an appeal.

26. Whenever the word "Contractor" is used in these specifications, it refers to the party or parties to whom the contract has been awarded for the construction of the work.

27. Whenever the words "City Engineer" or "Street Superintendent" are used in these specifications, they refer, respectively, to the City Engineer and the Street Superintendent of the City of San Diego, State of California.

Section 2. That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 4. That the City Clerk of the said City of San Diego be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 2nd day of June, 1902, and signed in open session thereof by the President of said Board June 2nd, 1902.

M. V. JENKS,  
President of the Board of Delegates of the City of San Diego, California.

Ordinance No. 1142.

An Ordinance Providing for the Appointment of an Inspector of Steam Boilers, and Prescribing His Duties, and Providing for His Compensation, in the City of San Diego, California.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That the Board of Public Works of the City of San Diego, California, be, and said Board of Public Works is hereby authorized, directed, and empowered to appoint a man as a Boiler Inspector who has been a practical boiler maker and shall have had at least ten (10) years experience as such, and has been a resident and an elector of the said City of San Diego, California, for one year prior to his appointment.

Section 2. That the said boiler inspector or shall inspect all steam boilers carrying a pressure of five (5) pounds to the square inch or upwards, in the said City of San Diego, every six (6) months; that said inspector shall keep a complete record of all steam boilers in said City, their owner's name, location, etc., also the amount of steam pressure allowed to be carried, and the date when last tested, which record shall be kept in the office of the said Board of Public Works of said City, and shall be open at all times to the inspection of the public; that said inspector shall give five (5) days' notice in writing to all owners or users of boilers of the date when an inspection or a re-inspection, or a test will be made, or for the examination of any certificate of inspection and fix in said notice the date on which said inspection, or re-inspection, or a test will be made; that the manner of the inspection shall be substantially as follows, viz: Said inspector shall have the option of making the hammer test, or hydrostatic test, or both. If the hammer test be used, the examination shall be thorough and searching upon every part of the boiler, both internally and externally, including all fittings and attachments.

If the hydrostatic test be used, each boiler shall be tested by hydraulic pressure one-fourth greater than the ordinary working pressure used, and the certificate of inspection herein provided shall state the maximum pressure at which any boiler may be worked. In case a defect shall be discovered in any boiler or attachment thereto, the boiler inspector shall report the same to the owner or user of the boiler or boilers and state the facts in writing, giving description of the particular locality in which each defect may be found, and whether of a dangerous character and necessitating immediate repairs. If the boiler inspector shall at any time find a boiler which, in his judgment, is unsafe for its further use, he shall condemn it by hydrostatic pressure shall be filled with water by the owners or users, and they shall furnish the necessary labor required to work and handle the pumps in applying the test, and when leaks occur which prevent a successful test, the boiler inspector shall make a second test, upon receiving notice that all leaks have been repaired. If, upon making the second test, the boilers are defective, he shall for each subsequent test collect an additional inspection fee, but in no case shall he give a certificate until fully satisfied of the safety of the boiler or boilers. If after making an inspection, or test of any boiler, the boiler inspector shall find the boiler in good condition, he shall issue a certificate to that effect, showing the condition and capacity of such boiler, and the date of such inspection, but no certificate of inspection shall be issued for a longer period than six months.

Section 3. That any person or persons intending to put a boiler or boiler into an establishment or building in said City, must apply to the said Board of Public Works for a permit before setting up any boiler or boilers; that any person failing or refusing to comply with this provision, or who shall set up a boiler without such a permit, or who shall fail, neglect, or refuse to allow or permit any boiler, being operated or used by such person, or by any person in his employment, to be inspected by said Boiler Inspector, after notice shall have been given as provided in Section 2 hereof, shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined in a sum not exceeding two hundred dollars (\$200.00), or shall be imprisoned in the City jail of said City for a term not exceeding one hundred (100) days, or shall suffer both such fine and imprisonment; and that each failure or refusal to so allow such boiler to be inspected shall be and constitute a separate offense.

Section 4. That all owners or users of steam boilers shall permit the Boiler Inspector to visit the premises upon which said boiler is located, from eight o'clock A. M. to five o'clock P. M. of any day other than holidays, for the purpose of ascertaining whether such boiler is being operated contrary to the provisions of this ordinance, or contrary to or in conflict with any certificate issued by the said Boiler Inspector.

That all steam boilers, whether used continually or not, if used at all, shall be inspected as herein provided at least once every six months. That no person shall use, operate, or run a steam boiler without having the same inspected every six months. No person shall use any boiler which has been condemned as unsafe by the Boiler Inspector. Every owner or user of steam boilers or steam generating apparatus carrying not above five (5) pounds pressure shall have the safety valve of such boiler set by the Boiler Inspector, who shall place an apparatus over such safety valve, securely sealed, and the owner or user of said boiler must provide the apparatus necessary to securely seal such safety valve. No owner or user of a steam boiler shall have a greater pressure than is allowed in the certificate of inspection made by the Boiler Inspector.

That any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined in a sum not exceeding two hundred dollars (\$200.00), or be imprisoned in the City jail of said City for a term not exceeding one hundred (100) days, or shall suffer both such fine and imprisonment.

Section 5. That the Boiler Inspector shall collect in advance of the inspection and before the inspection is made from all owners and users of steam boilers, and all owners and users of steam boilers shall pay in advance of the inspection and before the inspection is made, the following inspection fees, and no more: For every boiler five dollars (\$5.00) per annum, payable semi-annually, to commence with the first inspection in each year, whether set single or in sets. Where sets of boilers are built one above another, only those immediately over

fired shall be counted. The Boiler Inspector, upon receipt of inspection fee, shall deliver to the owners of boilers a certificate of inspection as herein provided and signed as Boiler Inspector. Said certificate of inspection shall be displayed in some conspicuous place near the boilers used.

Section 6. The Boiler Inspector shall make a semi-annual report to the said Board of Public Works reporting the full number of boilers in the said City, the number in use, the number inspected, and the number condemned as unsafe. He shall report the date, the name of the owner, and the cause of every boiler accident, whether it be from a rupture, collapse of flue, or explosion of the shell of the boiler, or otherwise, stating his belief of the cause thereof.

Section 7. That the said Boiler Inspector shall give a bond to the City of San Diego in the penal sum of two hundred dollars (\$200.00) with two or more sureties to be approved by the Auditing Committee of said City, conditioned for the faithful and impartial performance of the duties of his office as are now or may hereafter be prescribed.

Section 8. That if the said Boiler Inspector shall neglect to discharge his duty in any way or to use his office for a selfish or dishonest purpose he shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined in a sum not exceeding one hundred dollars (\$100.00) and forfeit his office.

Section 9. That all railroad locomotive boilers, and marine boilers, and boilers insured by insurance companies, be and they are hereby exempted from the provisions of this ordinance; provided, however, that no boiler insured in any insurance company or companies shall be exempt from the provisions of this ordinance, unless the person, company, or corporation owning the same shall present to the said Boiler Inspector, if required by him so to do, the policy of insurance issued by the company insuring said boiler or boilers, or a receipt given by the agent or agents of any insurance company for money received in consideration of a policy to be issued by the insurance company or companies represented by said agent.

Section 10. That Ordinance No. 696, of the Ordinances of said City, approved January 6th, 1900, Ordinance No. 711, approved February 6th, 1900, and Ordinance No. 860, approved January 14th, 1901, and all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

Section 11. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 12. That this ordinance shall not rescind or otherwise affect the appointment of the present Boiler Inspector of said City.

Section 13. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 16th day of June, 1902, and signed in open session thereof by the President of said Board June 16th, 1902.

W. H. C. ECKER, President Pro Tem of the Board of Delegates of the City of San Diego, California.

**Ordinance No. 1147.**

1147

An Ordinance Amending Section 2 of Ordinance No. 1129 of the Ordinances of Said City Approved on the 3rd Day of June, 1902.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That section 2 of Ordinance No. 1129 of the Ordinances of said City entitled "An Ordinance Prescribing Specifications for Asphalt Pavement on Asphalt Concrete Base in the City of San Diego, California," approved on the 3rd day of June, 1902, be, and the same is hereby amended to read, as follows:

Section 2. That all grading and the preparation of the roadbeds for the pavement shall be done and performed as follows:

1. Grading shall include the work of removing all earth, stone, loose rock, hardpan, and all other material that may be encountered or required in preparing the street for the work called for in the Resolution of Intention, and shall include also all filling, trimming, shaping, picking down, re-filling, rolling, surfacing, and all other work that may be required in bringing the surface of the street to the subgrade and shape required, and of maintaining it in perfect condition until the work has been done. The cost thereof shall be included in the contract price per square yard of completed pavement, and no extra compensation shall be allowed the contractor for removing from the street the surplus material that may result from the work of grading. The surplus material, if any, shall be removed by the contractor to such point or points as may be designated by the Common Council in the Resolution of Intention.

2. When mud or soft material is encountered it shall be taken out below the sub-grade, and the space shall be filled with good, hard material, by and at the expense of the contractor.

3. In places where cutting is necessary to bring the street to the required surface, the plow point shall not in any case penetrate below a point two (2) inches above the sub-grade. The remainder shall be carefully dressed off with picks or other hand tools.

4. In places where filling is necessary to bring the street to the required surface, it shall be done in layers of not more than six (6) inches in depth, and each layer shall be thoroughly rolled before another layer is added.

5. The street shall be brought to a sub-grade or surface of the required depths below the established grade of the street and shall be finished in the most perfect manner so as to parallel with, and in every way made to conform in shape to the surface of the finished work. To effect this the ground shall first be brought to an approximate finish slightly above the sub-grade. The City Engineer will then set grade stakes and the contractor shall then stretch lines from these several stakes, both along and across the work, and dress down to the true surface all irregularities as indicated by these lines. The surface shall then be rolled, when it shall again be dressed and re-rolled until the surface shall be true, smooth, compact, and to the required surface.

6. Such portions of the street as cannot be reached by the roller, and all places excavated below the sub-grade and re-filled, and all pipe trenches and other places that cannot be properly compacted by the roller, shall be tamped solidly by and at the expense of the contractor.

7. The roller used shall be of a weight not less than two hundred and fifty pounds for each one inch width of roller.

Section 2. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 3. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit: the San Diego Union and Daily Bee.

Passed and adopted by the Board of Delegates of the City of San Diego, California, this 16th day of June, 1902, and signed in open session hereof by the President of said Board June 16th, 1902.

W. H. C. ECKER,
