Be it ordained by the Common Council of the City of San Diego, as follows:

Section 1. That the San Diego Electric Railway Company, a corporation, have, and it is hereby granted authority to construct, and maintain and operate for the period of twenty five years, an additional street railway track along and upon the following streets in the City of San Diego, California, to wit:

On Arctic street, from the center of "H" street to the center of "D" street.

Upon the following conditions and limitations, viz:

I.

That the cars upon said railway shall be propelled by electricity. But if at any time the said railway cannot be operated by electricity, owing to accident to the machinery or appurtenances, horses or mules may be used to propel cars thereon during the time necessary to repair such machinery or appurtenances.

II.

That the grantee or its assigns shall plank, pave or macadamize, as the said Council may direct, the entire length of that portion of said streets, used by said railway tracks between the rails and for two feet on each side thereof; and between the tracks, and keep the same constantly in repair, flush with the streets and with good crossings.

III.

That the track shall be four feet eight and one-half inches within the rails; and shall have a space between them, and between sidetracks, turnouts and switches, of not exceeding six feet four inches, being sufficient to allow the cars to pass each other freely.

IV.

That work on the construction of said railway shall commence within two days after the granting of the franchise therefor, and the same shall be wholly completed within sixty days thereafter, and electric cars shall be in operation thereon within ninety days thereafter.

V.

That the right to grade, sewer, pave, macadamize or otherwise improve, or alter or repair the said streets shall be reserved to the city of San Diego; such work to be done so as to obstruct the said railway as little as possible. The grantee or its assigns shall shift and reshift its rails so as to avoid the obstruction created thereby.

VI.

That the laying of said tracks and all sidetracks, turnouts, switches or curves, shall conform in all cases with the grades of said streets which have been graded, and in all other cases as near to the natural grade of such street as practicable. And when at any time any part of said route shall be graded, or the grade thereof altered or changed by the said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by the grantee or its assigns. The said tracks shall be so constructed and laid that each track on said Arctic street shall be of equal distance from the curb lines of said street.

VII.

No switch shall be constructed or maintained within fifty feet of any cross street, and the location of such switches and of all turnouts shall be changed at the expense of the grantee or its assigns whenever so ordered by said Common Council.

VIII.

That the City Engineer shall, under the direction of the Common Council, give the established grades of the streets along the line of construction of said railway, and set stakes indicating the said grade; he shall see that the said railway is constructed and maintained in conformity to the terms and requirements of the franchise; and for his services as herein required he shall receive such fees as are provided therefor, and the same shall be paid by the grantee or its assigns.

IX.

X.

That the right to repeal amend or modify the ordinance granting the franchise shall be reserved to the said Common Council.

Section 2. That this ordinance shall take effect and be in force from and after its passage and approval and one publication thereof in the San Diego Daily Sun, a newspaper printed and published in said city of San Diego, and being the official paper.

- IV. That work on the construction of said railway shall commence within two days after the granting of the franchise therefor, and the same shall be wholly completed within sixty days thereafter, and electric cars shall be in operation thereon within ninety days thereafter.
- V. The grantee or its assigns shall shift and reshift its rails so as to avoid the obstruction created thereby.
- VI. That the laying of said tracks and all sidetracks, turnouts, switches or curves, shall conform in all cases with the grades of said streets which have been graded, and in all other cases as near to the natural grade of such street as practicable. And when at any time any part of said route shall be graded, or the grade thereof altered or changed by the said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by the grantee or its assigns. Section 1. That the poles of all electric street railways for supporting the trolley and feeder wires shall be at least twenty-three (23) feet in height above the curb line of the street of said city, over and along all streets on which franchises for the operation of an electric street railway have been or may hereafter be granted in said city. **Ordinance 196.**

An ordinance declaring the necessity of constructing and acquiring Waterworks and a distributing system for the City of San Diego; providing for the holding of a special election in the city of San Diego on the 11th day of April, 1893, for the purpose of voting for or against the issuing of bonds in the amount of \$665,000 for the payment of the cost of the same; providing the number and character of the bonds to be issued; dividing the city into election precincts; appointing polling places, inspectors, judges and clerks of election; and ordering the City Clerk to publish notice of such special election.

WHEREAS, On the 17th day of January, 1893, the Common Council of the City of San Diego, by a vote of two-thirds of all its members, passed an ordinance determining that the public interest and necessity of the City of San Diego requires and demands the construction and acquisition of Waterworks and distributing system for the City of San Diego, the cost of which will be too great to be paid out of the ordinary annual income and revenue of said city, and the amount to be expended in the constructing and acquiring said waterworks and distributing system was \$665,000, and

WHEREAS, said ordinance was approved by the Mayor of said city on the 24th day of January, 1893, and was published for two weeks in "The San Diegan Sun," a newspaper published and in general circulation in said city, and

WHEREAS, the Common Council of the City of San Diego has had plans and estimates of the cost of said waterworks and distributing system made by a competent engineer and the Board of Water Commissioners who have had successful experience in such work, and which plans and estimates have been adopted by said Common Council, and are now on file in the office of the City Engineer of said city.

Now at this, a regular meeting of said Common Council after such publication,

Be it ordained by the Common Council of the City of San Diego, as follows:

Section 1. That the public interest and necessity of the City of San Diego demands the construction and acquisition of waterworks and distributing system, the same to be located upon the route and to be constructed and acquired according to the plans, maps, and specifications, made by the City Engineer, and the Board of Water Commissioners of the city and adopted by the Common Council September 12th, 1892, the cost of said waterworks and distributing system to be \$665,000 which cost is too great to be paid out of the ordinary annual income and revenue of the City of San Diego; that it is the intention of the Common Council to submit to the qualified voters of said city the proposition of incurring a bonded indebtedness of \$665,000 for the purpose of paying for the construction and acquisition of said waterworks and distributing system.

Section 2.
