

Upgrades to Carlingford West Public School and Cumberland High School

Project update

July 2022

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

The Department of Education has listened to the community's feedback, and has developed a joint project to upgrade Carlingford West Public School (CWPS) and Cumberland High School (CHS).

The upgrade at Carlingford West Public School is designed to deliver new flexible learning spaces, new hall, new library, new tennis courts, new canteen, and refurbished staff and administration areas.

The upgrade to Cumberland High School is designed to deliver new flexible learning spaces including specialist spaces such as wood/metal workshops and visual arts spaces, new multipurpose hall, sport and performance spaces, new library, new multipurpose sports courts, new canteen, and refurbished staff and administration facilities.

Temporary school facilities in use by both schools

Both the Cumberland High School and Carlingford West Public School temporary school facilities have been handed over to the school and are in use, with minor works continuing over the coming weeks.

The CHS temporary school includes amenities, canteen and uniform store. The CWPS temporary school includes classrooms, temporary libraries, storerooms, uniform and printing rooms. Works are continuing on the temporary canteen and are expected to be complete for the school to use in early August.

Early works to prepare the site continues

Early works to prepare the site for main works are ongoing, including demolition and remediation works.

Demolition of Building B started 13 July with internal strip out and removal of asbestos containing materials completed during the Term 2 school holidays. Demolition is anticipated to be completed by mid August 2022.

All pre-existing temporary demountable buildings have been removed from the school to clear the site for the new construction works.

Building C demolition is well underway and is anticipated to be completed by end July 2022.

You're invited to a community information session 9 August 2022

You are invited to attend a community information session to find out about how the project has progressed and the next steps.

All feedback from community so far has been considered in the ongoing development of the project.

Masks are strongly encouraged for students, staff and visitors.

Time: 4 pm to 8 pm

Location: Cumberland High School Hall,
Dunmore Avenue Carlingford

To make sure we can speak with all attendees, please register your attendance for a 30 minute time slot by scanning the QR code or visit edu.nsw.link/CWPSCHSInfoSession.

Next steps

Works on the link road from Dunmore Avenue to Blenheim Road and adjoining CHS car park are expected to start in September 2022.

The State Significant Development (SSD) application is being finalised for lodgement, including the environmental impact statement and the supporting technical studies.

After the SSD application is lodged with the Department of Planning and Environment, it will be put on public exhibition and there will be further opportunity for the community to make submissions directly to DPE during that time.
