

Smith Meter® AccuLoad® IV

Introducing the AccuLoad® IV from the Measurement Experts

AccuLoad IV is the culmination of TechnipFMC's 35 years of experience in the manufacturing of AccuLoad electronic preset control systems, and is also the longest-lived and most used electronic preset controller in the industry.

TechnipFMC is the leading technology solutions provider for oil and gas measurement. We design, manufacture, market and service metering products and systems, and our expertise gives you the assurance that the AccuLoad IV will continue to provide you the most efficient interface for your business processes and applications.

Easier to use; more powerful than ever

The dynasty of preset dominance in the industry continues with completely new hardware and software platforms to maintain the evolving development of functions and capabilities demanded by market requirements, today and in the future.

The AccuLoad IV is the latest version of TechnipFMC's electronic preset control system. We've enhanced the features that have made AccuLoad the gold standard for accuracy, reliability and flexibility by adding the latest available technology and making it more powerful and responsive to your business needs.

Model ST

Model QT

Model N4

An intuitive and easy-to-use touch screen interface; a technology that reduces training, errors and load times. It streamlines business processes, saving you money.

Available kit allows for seamless upgrade from AccuLoad III – direct replacement of electronic assemblies reusing existing wired connectors; AccuLoad III communication protocol.

Web browser based access to monitor and/or control from anywhere on your network.

Powerful Linux OS on ARM platform; built for networking and positioned for future expansion.

More efficient communications and flexible TAS interface. TechnipFMC provides complete solutions from meters and presets to full terminal automation packages.

Enhanced diagnostics plus unparalleled factory service and support means reduced downtime.

Visit our website for additional service coverage provided by distributors, service centers and authorized service representatives.
