

UNIVERSITY OF WASHINGTON

SPRING QUARTER 1977

TIME SCHEDULE

PREREGISTRATION February 9-11, 14-18

To receive highest
priority, register on the
following dates

Freshmen (0-44 credits)	February 9, 10
Seniors (135 credits)	February 10, 11
Graduate Students	February 11, 14
Fifth-year Students	February 14, 15
Juniors (90-134 credits)	February 15, 16
Sophomores (45-89 credits)	February 16, 17, 18

Class standing is based on the predicted number of credits the students will have at the beginning of the next quarter.

IN-PERSON REGISTRATION (By Appointment Only)

Matriculated Students: March 18, 21, 22
Nonmatriculated Students: March 23

>>> This symbol in the margin of the *Time Schedule* indicates that the section requires an entry card. Entry cards must accompany section requests on the Mark-Sense Registration Form. Entry cards may be obtained at locations listed on the entry card distribution list.

After you have used this *Time Schedule*, please leave it or pass it along so that other students may use it.

UNIVERSITY OF WASHINGTON BULLETIN
 JANUARY
 NO. 1165

Published monthly, except December, at Seattle,
 Washington, by the University of Washington. Second-
 class postage paid at Seattle, Washington 98195.

GENERAL INFORMATION

It is the University's expectation that a student will follow University rules and regulations as they are stated in the *General Catalog*. In instances where no appeal procedure is spelled out and the student is persuaded that a special set of circumstances makes appeal reasonable, he or she may appeal the application of specific rules or regulations to the office of the dean of the school or college in which he or she is enrolled in the case of an academic matter, or to the Office of Student Affairs in the case of a nonacademic matter. These offices will either render a decision on the appeal or refer the student to the proper office for a decision.

GUARANTEED REGISTRATION ELIGIBILITY

University of Washington students who remain in good scholastic standing are guaranteed the opportunity to register each quarter as long as they maintain continuous enrollment (Summer Quarter excepted). Continuation must be in the same classification, e.g., undergraduate, fifth-year, graduate, etc. Once a student earns a bachelor's degree, he or she must apply for readmission as a fifth-year, nonmatriculated, or graduate student. Exceptions to the guarantee are: (1) students under disciplinary action and (2) students with a financial hold

If an undergraduate does not enroll for one or more quarters, or if a graduate student goes on-leave, he or she must file an application for readmission with the Registrar's Office. See appropriate readmission closing dates.

FULL-TIME STUDENT REQUIREMENT

Many students think that because they pay full fees they are considered full-time students. This is not true! To be considered a full-time student, undergraduates must register for 12 credits and graduates must register for 9 credits. Full-time status is required for certain agencies, such as Immigration and Naturalization Service, Veterans Administration, and Social Security Administration. Consult the Registrar's Office for social security requirements, the International Services Office for immigration requirements, and the Veterans Affairs Office for VA benefits.

NONMATRICULATED STUDENTS

Nonmatriculated students may register only on the last day of in-person registration and may enroll only in courses that have room after reserving a 10 per cent or five-space cushion (whichever is greater) for matriculated student changes. Nonmatriculated students may participate in preregistration for the Summer Quarter.

AUDITORS

Auditors pay standard tuition and fees and must be regularly admitted and registered in the course.

Attendance in courses as an auditor is by consent of the instructor involved and is conditioned by the extent to which space is available. Permission to audit is ordinarily granted for lecture classes only. An auditor may not participate in class discussion or laboratory work, and his or her registration may be cancelled at the discretion of the instructor.

No entry is made on the permanent record for courses audited. To receive credit for an audited course, the student must register for the class for credit in a subsequent quarter.

Auditors follow registration instructions below.

PHYSICALLY HANDICAPPED STUDENTS

Students with visual, ambulatory, and other severe handicaps will be given the highest registration priority if they identify themselves to the Office of Student Affairs, 466 Schmitz Hall, telephone 543-4893.

REGISTRATION INSTRUCTIONS

ACADEMIC ADVISER

See an academic adviser to discuss your educational objectives and to learn the procedures involved in registering at the University. Have an idea of the courses you would like to take before seeing an adviser by reviewing the *General Catalog* and the quarterly *Time Schedule*.

REGISTRATION FORMS

Obtain a mark-sense registration form from your advisory office and mark the courses you are requesting on the form in accordance with directions on the form. Please note that some courses in the *Time Schedule* have restricted enrollment and you must obtain entry cards for these courses. Undergraduates will not be scheduled for more than 19 credits until the first day of the quarter. This is done to allow all students a chance to develop a basic program.

ENTRY CARDS

Certain courses and sections require entry cards for registration. Students who request these courses (and/or sections) on their registration request forms will not be registered in the courses unless the requests are accompanied by entry cards. An entry card alone is not sufficient. The course and schedule line number (SLN on entry card) must also be requested on the mark-sense registration form. Obtain course entry cards for courses designated with the symbol > > > in the margin of the *Time Schedule*. Refer to the Entry Card Distribution Points list for information on where to obtain the entry card for a given course.

SUBMITTING REGISTRATION FORM

1. If you are a continuing matriculated student registering February 9-18, you may deposit your form at any of the following places:

- Registration lobby, second floor, Schmitz Hall
- B10 Padelford Hall
- Fourth floor student lounge, T-wing, Health Sciences Building
- 353 Loew Hall (engineering students only)

See the cover of the *Time Schedule* for registration dates.

2. If you are a continuing matriculated student who did not preregister you must obtain an in-person registration appointment before March 18. Continuing students who request in-person registration appointments after March 18 may be required to register late during the first week of school and to pay the \$15 late registration fee.

3. If you are registering March 18-23, go to the Sections branch office, Odegaard Undergraduate Library, on the date and time indicated on your registration appointment.

4. Nonmatriculated students may register only on March 23. Appointments are available Window 8, 2nd floor Schmitz Hall.

LATE REGISTRATION

Students who register after the official registration period will be charged a \$15 late registration fee.

SCHEDULE OF CLASSES

1. If you register February 9-18, your schedule of classes will be mailed to the address you indicate

on the registration form. All students registering during this period are scheduled by computer at one time. The scheduling priority is: freshmen, seniors, graduate students, fifth-year, juniors, and sophomores.

2. If you register March 18-23, you will be scheduled manually and will be given a copy of your completed program when you have finished registering.

DROPPING AND ADDING COURSES

All changes to a student's program should be completed during the official change periods (see calendar). Changes are made by appointment only. Appointments are available at Window 2, lobby, Schmitz Hall, for all but engineering students; engineering students go to 353 Loew Hall. A student who arrives more than a half-hour late will be required to make a new appointment. Changes made after the change periods cost \$5 and may result in fee forfeiture (see item 2 of this section).

1. Grades in Dropped Courses and Drop Restrictions

a) *Undergraduates.* Undergraduate students who drop courses after the change periods receive no entry on their academic record if the drop is made during the first two weeks of the quarter. Drops made during the third and fourth weeks of the quarter will be recorded with a "W." No drops are permitted after the fourth week except for a limited number determined by the number of credits earned at the University. While completing the first 44 credits at the University, the student has three drops permitted after the fourth week, but, before the last day of instruction. After 45 credits have been completed at the University, the student earns one late drop for each 45 credits earned. All but the first three late drops may be accumulated and used as necessary. The first three late drops must be used prior to earning 45 credits or they are forfeited. *No drops of any kind are permitted after the last day of instruction.*

b) *Graduate Students.* Graduate students who drop courses after the first two weeks of the quarter receive a grade of "W." No drops are permitted after the seventh week of instruction.

c) Students may petition the Registrar to drop a course after the regular drop deadline if: (1) the student is unable to complete the course in question because of a severe mental or physical disability, or (2) unusual or extenuating circumstances beyond the student's control prevented the student from dropping the course by the regular drop deadline. Petitions must be filed promptly after the occurrence of the event that gave rise to the need for dropping the course.

2. Fee Forfeitures or Refunds.

a) Students will be billed for the number of credits on their programs at the end of the first week of the quarter. Only partial fee reductions will result for courses dropped after the first week of the quarter.

b) Students dropping courses after the first seven calendar days of the quarter and through the thirtieth calendar day of the quarter will be expected to pay one-half of the tuition and fees associated with that course. Example: An undergraduate originally registers for 5 credits. The fee for 5 credits is \$134 (resident). The student then drops a 3-credit course in the second week of the quarter. The total number of credits for which the student remains registered is 2. Tuition and fees for 2 credits are \$53. However, additional fees are due for half the difference between 5 credits and 2 credits, in this case an additional \$40.50. The student has been registered in the dropped course for more than one week and therefore must pay half the fees for the course.

Courses dropped after the thirtieth calendar day receive no refund. Example: A student is registered for a 3-credit course. The student drops that course after the thirtieth calendar day. No refund is available. If the student adds a different 3-credit course at the time the original 3-credit course is dropped, he or she will pay tuition and fees for 6 credits.

c) Drops become effective the date received in Sections.

3. Courses Added After the Official Change Periods

a) As a general rule, no courses may be added after the official change period. Exceptional cases may be approved if both the instructor of the course and the Dean of the student's college give their consent.

b) Courses audited may not be changed to a credit registration after the first two weeks of the quarter.

FEE PAYMENT

1. A fee statement will be mailed to the address you indicate on your mark-sense registration form. *Fees must be paid by Friday of the fourth week of the quarter.*

2. Mail your fee payment to the Student Accounts Office in the envelope provided before the due date indicated.

3. If you fail to pay by the deadline you may continue to pay your fees, with a \$10 late fee, for three weeks following the due date. If fees are not paid by this time your registration will be cancelled. *Please note: Even if your registration is cancelled you will continue to owe one-half your tuition and fees if you are a continuing student or, if you are a new or returning student, \$50 or one-half your tuition and fees, whichever is greater.*

STUDENT INSURANCE

All students who do not specifically request a particular student insurance plan or who do not specifically state they do not wish student insurance, will automatically be enrolled and billed for *student only* medical, surgical, and hospital insurance.

If you are billed for student insurance and decide that you do not want coverage, you may void the policy by completing the appropriate section on the fee payment card and by paying the amount billed less the indicated amount for insurance.

WASHPIRG

An optional \$2.00 fee is indicated on the fee statement for the Washington Public Interest Research Group, a student research organization. If you do not desire to support this activity, simply pay the required fee. If you want to support WASHPIRG, check the payment card and pay the required fee plus \$2.00.

WITHDRAWAL FROM THE UNIVERSITY

1. Obtain an approved withdrawal form from your adviser.

2. Present the withdrawal form to the Withdrawal Office, Sections, 264 Schmitz Hall. *Withdrawals are effective the date they are received in the Registrar's Office.* Fees owed will be based upon the date the withdrawal is received in the Registrar's Office. No withdrawals will be accepted after the last day of instruction, June 3.

The fee schedule below will be followed.

Continuing Students

a. Students withdrawing before the sixth day of the quarter do not pay tuition or fees.

b. Students withdrawing on the sixth day or through the thirtieth calendar day continue to owe one-half of their tuition and fees.

c. Students withdrawing after the thirtieth calendar day receive no refund of tuition or fees.

New and Returning Students

a. Students withdrawing before the sixth day of the quarter forfeit their \$50 enrollment service fee.

b. Students withdrawing on the sixth day or through the thirtieth calendar day of the quarter must pay one-half of regular tuition and fees or forfeit the \$50 enrollment service charge, whichever is greater.

c. Students who withdraw officially after the thirtieth calendar day must pay full tuition and fees, which includes the \$50 enrollment service fee.

3. Students who were unable to turn in their withdrawal in time may petition the Comptroller's Office

for additional refund. Petition forms are available at the Student Accounts Office, 129 Schmitz Hall.

4. Courses dropped as part of a University withdrawal completed during the first two weeks of a quarter receive no grade and no entry. Withdrawals completed after the first two weeks result in the courses being assigned a grade of "W."

GRADING SYSTEM

Beginning Summer Quarter 1976, a numerical grading system has been in effect at the University of Washington, with certain exceptions in the Schools of Dentistry, Law, and Medicine. Instructors may report passing grades from 4.0 to 0.7 in 0.1 increments. The number 0.0 will be assigned for failing work or unofficial withdrawal. Numerical grades may be considered equivalent to letter grades as follows:

A	4.0	Honor
	3.9	
	3.8	
A-	3.7	
	3.6	
	3.5	
	3.4	
B+	3.3	
	3.2	
	3.1	
B	3.0	Good
	2.9	
	2.8	
B-	2.7	
	2.6	
	2.5	
	2.4	
C+	2.3	
	2.2	
	2.1	
C	2.0	Average
	1.9	
	1.8	
C-	1.7	
	1.6	
	1.5	
	1.4	
D+	1.3	
	1.2	
	1.1	
D	1.0	Poor (low pass)
	0.9	
	0.8	
D-	0.7	
E	0.0	Failure or Unofficial Withdrawal

Additional information on grades and scholarship rules may be obtained from the Grade Information Office, 248 Schmitz Hall.

The Grade of Incomplete

In order to obtain credit for a course in which an Incomplete has been awarded, an undergraduate student must complete the remaining work for the course by the last day of the following quarter. An Incomplete grade for a Summer Quarter course must be made up by the last day of Autumn Quarter or the Incomplete will be converted to a grade of 0.0 by the Registrar, unless the instructor has indicated when assigning the Incomplete grade that a grade other than 0.0 should be recorded if the incomplete work

is not completed. This time limitation may be extended up to one year with instructor approval. Such approval must be received by the Registrar's Office before the end of the next quarter.

A graduate student who receives an Incomplete must complete the remaining work for the course by the last day of the next quarter *in residence*. An Incomplete received by a graduate student does not automatically convert to 0.0 but remains an Incomplete if the coursework is not completed. This time limitation may be waived by the dean of the college in which the course was offered only if the nature of the uncompleted work is such as to make the fulfillment of this requirement impossible. In no case can an Incomplete received by a graduate student be converted to a passing grade after a lapse of two years.

Satisfactory/Not Satisfactory

Students may elect to take certain courses on a Satisfactory/Not Satisfactory basis. Advisers should be consulted and in no case are students allowed to register for more than one course or 6 credits on a Satisfactory/Not Satisfactory basis in a given quarter. No more than 25 credits will apply to an undergraduate degree. S/NS must be elected or dropped during the official change of program period. Undergraduate students earning grades of 1.7 or above receive a grade of S(Satisfactory) while grades below 1.7 are recorded as NS(Not Satisfactory). Graduate students earning grades of 2.7 or above receive a grade of S(Satisfactory), while 2.6 or below are NS(Not Satisfactory). In cases of withdrawal, the W is recorded. Neither S nor NS are included in the grade-point average. N, I, and X are recorded until the instructor reports the final grade, or in cases of incompletes received by undergraduates, until the I is converted by the Registrar. With the approval of his or her Graduate Program Adviser or Supervisory Committee Chairman, a graduate student may elect to take any course for which he or she is eligible outside of his or her major academic unit on the Satisfactory/Not Satisfactory system.

Credit/No Credit-Only Courses

Some courses are offered on a CR/NC only basis. These courses may be taken only on this basis and it is not necessary to be in the special Credit/No Credit program to take these courses. It is not necessary to register S/NS to take these courses as the only grades assigned by the instructor are CR (Credit) or NC (No Credit). Neither CR nor NC are included in the grade-point average. In cases of withdrawal a W is recorded. N, I, and X are recorded until the instructor reports the final grade, or in cases of Incompletes received by undergraduates, until the I is converted by the Registrar.

Credit/No Credit Program

The University offers an undergraduate grading option called Credit/No Credit. Students entering this program automatically take all courses on a CR/NC basis. This program is not applicable to certain degrees and advisers should be consulted. Students must enter and exit the CR/NC program no later than the last day of the change of program period for the quarter the change is to be effective. Further information is available at the Registration Office, second floor of Schmitz Hall.

SPRING QUARTER 1977 CALENDAR

Registration Period

- February 9-18 Preregistration for all matriculated students in school Winter Quarter 1977.
- February 22 In-person registration appointments available at Window 8, second floor of Schmitz, for continuing students who missed preregistration and for continuing nonmatriculated students.
- March 9 Programs of study mailed to preregistration participants.
- March 10 Change of registration appointments available at Window 2 or 3, second floor of Schmitz (engineering majors obtain appointments at 353 Loew).
- March 16, 17 OFFICIAL CHANGE OF REGISTRATION PERIOD by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew).
- March 18-22 IN-PERSON REGISTRATION by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew), for matriculated students.
- March 23 IN-PERSON REGISTRATION FOR NONMATRICULATED STUDENTS by appointment only, at the Sections branch office, Odegaard Undergraduate Library.
- March 28-April 1 OFFICIAL CHANGE OF REGISTRATION PERIOD by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew), for students who have received a program of study.
- April 1 Deadline for: (1) changes to or from S/NS grading or CR/NC program; (2) adding a course without instructor's permission; (3) adding or dropping a course without being assessed a \$5 change fee. Courses dropped after this date will be included in the tuition calculation. (See refund schedule under Dropping and Adding Courses on page IV.)
- April 8 Last day to drop a course without entry on permanent record.
- April 8 Last day to add a course without dean's permission.
- April 11 Fee statements mailed to all registered students.
- April 22 Last day for undergraduate, fifth-year and nonmatriculated students to drop a course.
- April 22 Fee payment deadline for all registered students.
- May 13 Last day for graduate students to drop a course.

Academic Period

- March 28, Monday Instruction begins.
- April 8, Friday Last day to return approved applications to 207 Schmitz for credit by examination.
- April 15, Friday Applications for bachelor's degrees and certificates to be conferred through Spring Quarter 1977 must be submitted to the Graduation Office, 207 Schmitz.
- May 30, Monday Memorial Day holiday.
- June 3, Friday Last day of instruction.
- June 6-10 Final examinations.

Spring Quarter 1977 Examination Schedule

The last day of instruction is Friday, June 3

HOUR class actually meets during quarter	Hour and day on which examination occurs, by days of class meeting in the week				
	Meeting four times a week, or daily	MWF; MT; MW; MF; WF; MWT; MTh	TTh; T; Th; TThF; MTTh; TW; TF; TWTh	M; W; F; S Meeting once a week	Day of Examination

12:30 p.m.	8:30-10:20	8:30-10:20	10:30-12:20	12:30- 2:20	Thursday June 9
1:30 p.m.	2:30- 4:20	2:30- 4:20	4:30- 6:20	6:30- 8:20	Monday June 6
2:30 p.m.	2:30- 4:20	2:30- 4:20	4:30- 6:20	6:30- 8:20	Tuesday June 7
3:30 p.m.	2:30- 4:20	2:30- 4:20	4:30- 6:20	6:30- 8:20	Thursday June 9
4:30 p.m.	2:30- 4:20	2:30- 4:20	4:30- 6:20	6:30- 8:20	Friday June 10
EVENING CLASSES (5:30 or thereafter)	8-10 p.m. Thursday June 9	8-10 p.m. Monday June 6	8-10 p.m. Tuesday June 7	8-10 p.m. Wednesday June 8	
Make-ups Incomplete Removals Conflicts	When mutually agreeable to faculty and students concerned, provided scheduled <i>no later than</i> Friday, June 10.				

Final examinations should be administered according to the schedule above.

If the final examination is given at a time earlier than that indicated above, the last meeting of the class shall be the examination period. Instructors should check with Room Assignments, 3-1080, if the exam will last more than one hour.

Classes that meet on the hour use the first full hour of instruction to determine the time of examination. For example, a class that meets at 10 a.m. uses the 10:30 a.m. examination time.

Classes in which the entire class meets at the same hour every day, in the same room, may use that room at 8:30 or 2:30 for a three-hour examination. All other exams are limited to one hour and fifty minutes unless other arrangements are made with Room Assignments.

All exams must be scheduled not later than June 10.

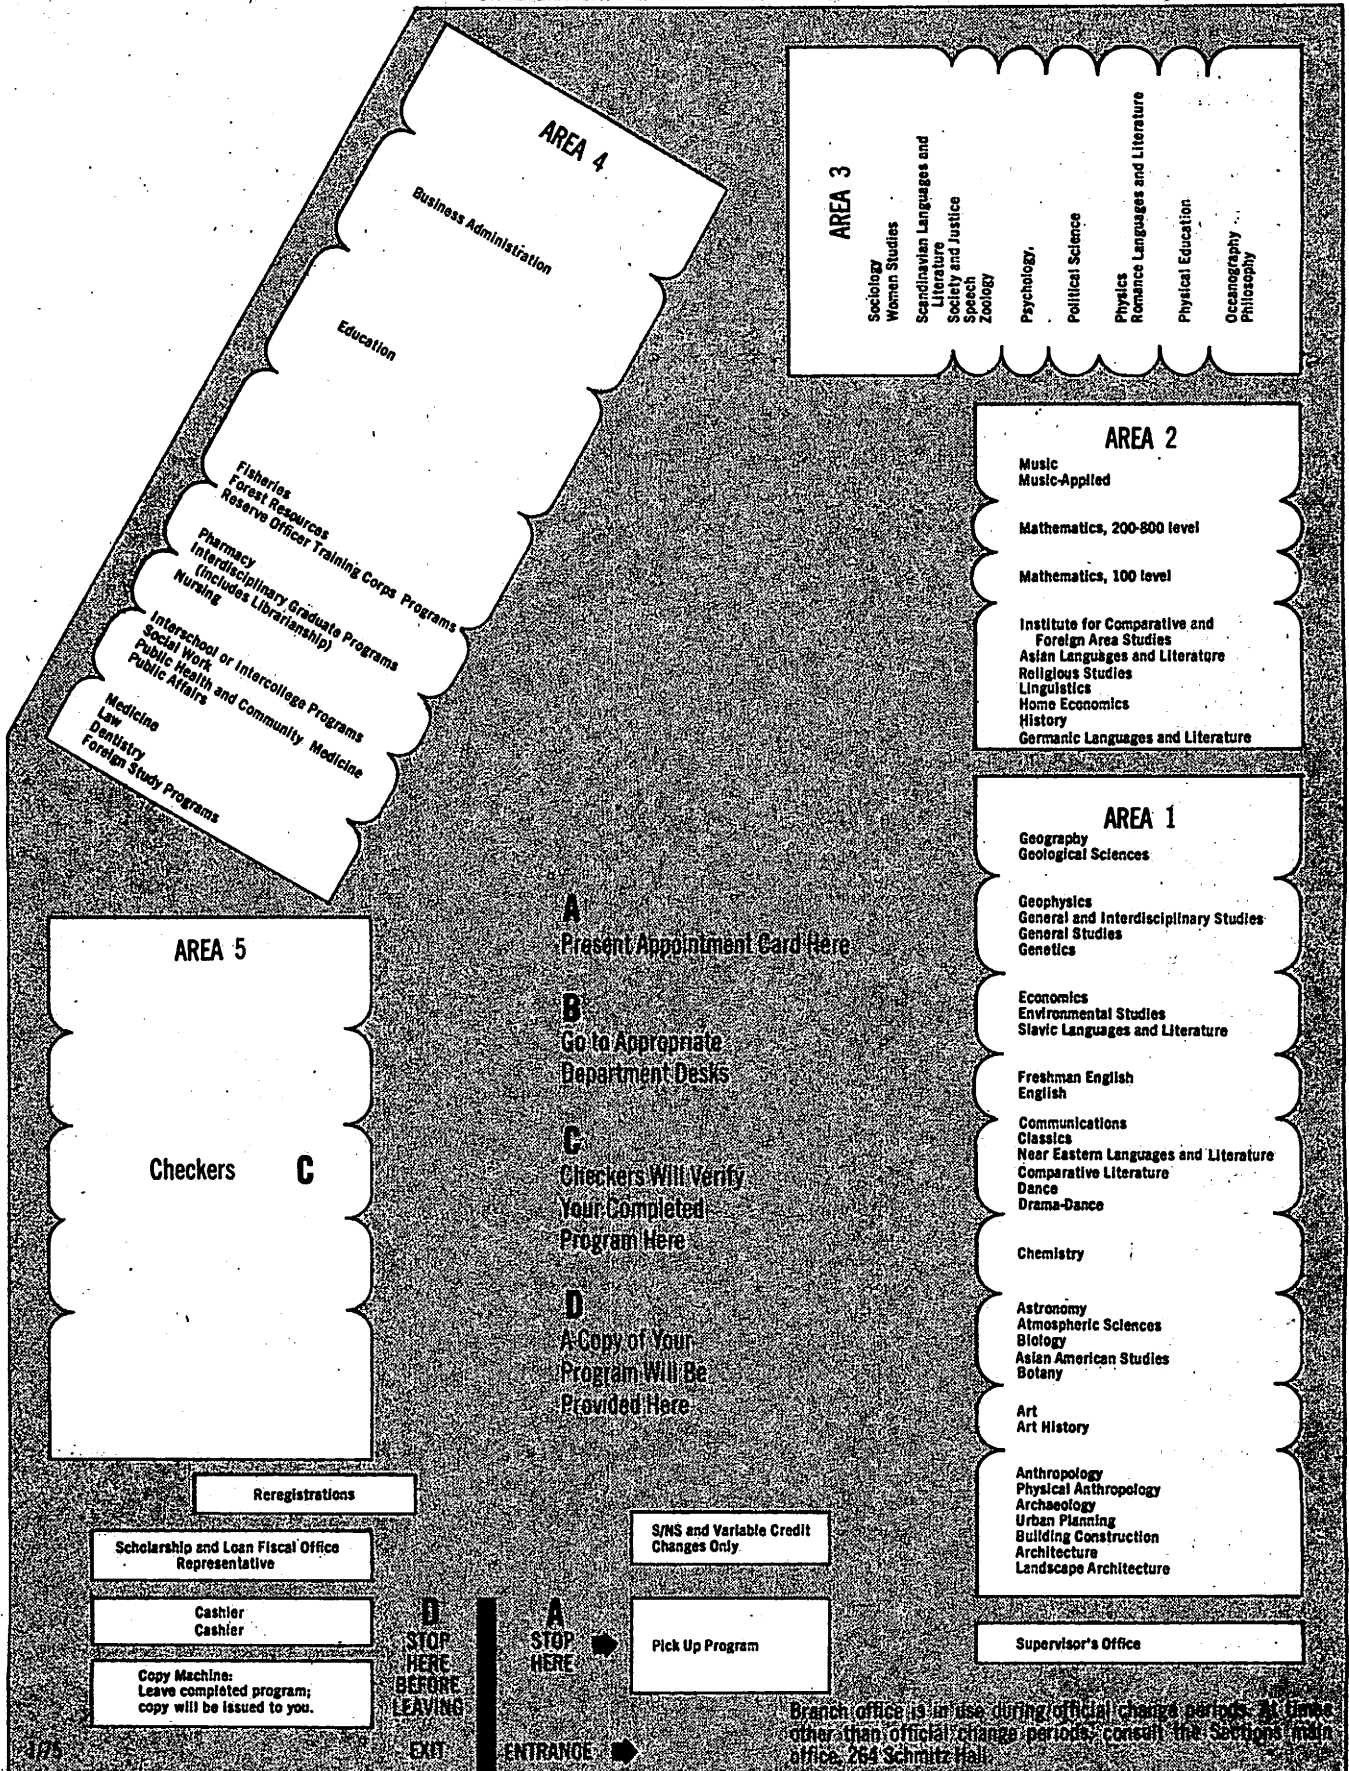

If an examination is held at a time other than the above schedule indicates, instructors must check with Room Assignments to make sure that the room is going to be available.

All students in undergraduate courses shall be required to take final examinations, provided that in a course for which an examination is not an appropriate test of the work covered, the instructor may dispense with the final examination. Working students are responsible for arranging their work hours to enable them to attend the final examinations.

A student absent from a scheduled final examination, either by permission of his dean or through sickness or other unavoidable cause, shall be given a grade of Incomplete if his work in that course has been satisfactory until the time of his absence. He may remove this Incomplete in the manner provided for the removing of Incomplete grades. In all other cases of absence from the scheduled final examination, a student should be given a grade of 0.0.

Questions concerning the Examination Schedule should be directed to Room Assignments.

GUIDE TO COURSE LISTINGS

Course, term, and section information is listed in the following columnar order:
 Entry card required symbol (>>>), if appropriate
 Schedule line number
 Department
 Course number
 Term designation—if a or b term
 Section designation
 Section type—laboratory, quiz, or conference
 Credits—listed with lecture section only; slash (/) means or; 2.5 means 2½ credits; hyphen (-) means to; VAR means variable credit and any number of

credits may be elected (however, fractional credit registration—e.g., ½ credit—cannot be processed for variable credit courses where the credit may vary from student to student in a single quarter).
 Honors (H), Permission Required (#), or New Course (%), as appropriate
 Day(s) of meeting (ARR means "to be arranged")
 Time of meeting
 Place of meeting (* * means "to be arranged")
 Course title and remarks—CR/NC ONLY means course offered for credit/no credit grading only
 Name of instructor

NEW COURSES FOR SPRING QUARTER 1977

The following list includes new courses that will be offered Spring Quarter 1977, which were added to the University curriculum after publication of the 1976-78 General Catalog.

COLLEGE OF ARCHITECTURE AND URBAN PLANNING

ARCHITECTURE

ARCH

442 Intermediate PER Research and Analysis (3)

Extends material introduced in 440 to include multivariate studies and a more thorough treatment of statistical decision procedures. Understanding simulation and quantitative modeling procedures as a means of pretesting and evaluating design proposals is stressed along with the treatment of this information by appropriate decision-theoretic methods. Applied research problems as a means of developing the techniques. Prerequisites: 400 and permission.

BUILDING CONSTRUCTION

B CON

470 Construction Management (3)

Systematic study of management functions in the building industry: planning and scheduling, organization, time and equipment utilization, monitoring and expediting, project administration, cost control. Prerequisite: senior standing.

B CON

480 Law and the Contractor (3)

Basic legal aspects of construction of private and governmental projects. Survey of general principles relating to rights and liabilities of the contractor and other parties under construction contracts including union-labor agreements. Major statutory and regulatory requirements affecting the contractor, including lien laws, environment, and minority hiring practices. Prerequisite: senior standing.

URBAN PLANNING

URB P

475 Town As Artifact (3)

Studies of contemporary and historic towns utilizing work in cultural anthropology and settlement geography to examine urban form and structure. Focus on the physical environment of the town as the container of social interaction. Human activity related to the "shelter" society builds, at the scale of the whole community. Prerequisite: 479.

COLLEGE OF ARTS AND SCIENCES

AMERICAN INDIAN STUDIES

AIS

101 Introduction to American Indian Studies (3)

General overview of the content, methods, and objectives of American Indian Studies. Emphasis on contemporary Indian value conflicts and dilemmas.

AIS

314 American Indian Language: Salish (5)

The Salish language indigenous to the Seattle area. Objectives are: 1) to have a command of the basic structure and vocabulary to the extent of being able to converse entirely in the language (at a simple and restricted level)

and have total command of the sound system; 2) to be able, with the aid of a dictionary, to read the oral literature that has been written and write down stories and other texts that the knowledgeable people of a tribe recount; 3) to understand those aspects of the Indian cultures and traditions not understandable through English. Not open to students who have taken GIS 223 and 224. Prerequisites: upper-division standing and permission.

ANTHROPOLOGY

Anthropology

ANTH

470 Special Topics in Kinship Analysis (4)

Intensive study of one or more selected topics in kinship, such as genealogical theory, kin-term semantics, family structure, or methods for the collection and analysis of kinship data, with the specific focus varying from year to year. Special topic this quarter is English kinship terminology and its underlying conceptual structure: interspeaker variation, deep-structure semantics, history of the system, and implications for leading issues in anthropological theory and method. Prerequisites: 202 and 436 or 438, or permission.

ANTH

509 Methods of Sociocultural Research (5)

Core-course sequence intended for first-year graduate students in sociocultural anthropology. Survey of major issues, alternative strategies, and selected special topics in the design of anthropological research and the collection, processing, and analysis of anthropological data. Prerequisite: graduate standing in anthropology or permission.

Archaeology

ARCHY

496 Quantitative Archaeological Analytic Techniques (3)

Introduction to quantitative approaches to archaeological problems; data-screening, numeric methods of classification and identification, graphical and computer-based seriation techniques, and the analysis of spatial patterning in artifact distributions. Prerequisites: 205, and introductory descriptive statistics course, and permission.

ART

Art

ART

258 Jewelry Design (5)

Introduction to jewelry design and construction through techniques of sawing, filing, soldering, forging, and casting in silver, copper, bronze, and brass, as well as simple stone setting. Prerequisites: 107, 110, 129.

ART

345 Etching (5)

Traditional and contemporary methods of etching as a creative art form. Included are aquatint, hard-soft and lift ground mezzatint, burin, engraving, dry point, niello, crible, and others. Techniques, such as intaglio, relief, stencil, and others. Prerequisites: 107, 110, 129.

ART**346 Collagraph (5)**

Fundamentals of positive plate build-up with hard, soft, and pliable materials. The inter-relationship of individual graphic ideas, plate making, and various techniques of printing. Prerequisites: 107, 110, 129.

ART**347 Lithography (5)**

General survey of historical and contemporary lithography. Studio problems using a variety of stone, plates, papers, inks, and presses. Hand-drawn and photo chemical methods. Prerequisites: 107, 110, 129.

ART**348 Woodcut (5)**

Basic Eastern and Western approaches to the art of the woodcut. Various wood, tools, papers, inks, color, printing techniques. Prerequisites: 107, 110, 129.

ART**349 Silkscreen (5)**

General survey of historical and contemporary silkscreen. Studio problems employing the techniques of paper, glue, lacquer, film, hand, drawn-cut, and photo chemical stencils. Prerequisites: 107, 110, 129.

ART**450 Advanced Etching (5)**

Advanced problems in etching. Photo processes. Combining of technique. Integration of the individual idea with the plate, printing, and color. Prerequisite: 345.

ART**451 Advanced Collagraph (5)**

Advanced problems in etching. Photo processes. Combining of techniques. Integration of the individual idea with the plate, printing, and color. Prerequisite: 345.

ART**452 Advanced Lithography (5)**

Advanced problems in lithography stressing individual creativity. Prerequisite: 347.

ART**453 Advanced Woodcut (5)**

Advanced problems in the art of the woodcut. Individual creativity stressed. Prerequisite: 348.

ART**454 Advanced Silkscreen (5)**

Advanced problems in the art of silkscreen. Individual creativity stressed. Prerequisite: 349.

Art History**ART H****413 Selected Topics in Chinese Art (3, max. 9)**

A variety of Chinese art, concentrating on a specific period in time or a specific problem in Chinese history. Topics might include The Art of Bronze Age China, Chinese Figure Painting, or Chinese Painting of the Sung Dynasty. Prerequisite: upper-division standing.

ART H**485 Art Since World War I (3)**

Various aspects of art in Europe and the United States from 1918 to the present, from the point of view of style and iconography. Prerequisite: 380.

ASIAN LANGUAGES AND LITERATURE**Japanese****JAPAN****327 The Tale of Genji in English (3 or 5)**

Close reading, analysis, and discussion of The Tale of Genji, the eleventh-century novel of court life that remains Japan's single greatest contribution to world literature. To be read in the new, two-volume translation by Edward Seidensticker. No background in Japanese language, literature, or history required. Prerequisite: permission.

JAPAN**453 Readings in Japanese for China and Korea Specialists (5)**

Reading of scholarly prose on China and Korea, especially books and articles of past fifty years, with emphasis on grammar and style. Introduction to reference works useful to China and Korea specialists, and needs of the individual student. Completion of three quarters with B or above fulfills Japanese reading requirement for department majors in Chinese and Korean. Prerequisites: 113; and (for China specialists) CHIN 313 and 453, or (for Korea specialists) KOR 467; or permission.

BLACK STUDIES**BLK S****200 Proseminar in Black Studies: New Educational Directions (3)**

Interdisciplinary survey of Black Studies, presenting the unique Black perspective on the various relevant disciplines in Arts and Sciences.

CHEMISTRY**CHEM****164 General and Introductory Environmental Chemistry (5)**

Parallels 160. Beyond the coverage of descriptive general chemistry of 160, additional material will emphasize environmental applications of basic chemistry. Prerequisite: 150 or 155.

CHICANO STUDIES**CHSTU****305 Advanced Chicano Studies (3)**

Advanced interdisciplinary course which looks at a restricted number of topics dealing directly with Chicanismo as a developmental process and its stabilization within the United States. Topics are: Curanderismo, Chicano folk magic and its relation to contemporary Chicano values; a study of the barrio, its problems and proposed solutions; the migrant, his life and misery within the System; folk expression, oral tradition related to previous topics and perpetuation of phenomena through oral means. Not open to students who have taken GIS 305. Prerequisites: 102 or 202; proficiency or 15 credits in conversational Spanish or equivalent.

CHSTU**391 Independent Study (1-6, max. 10)**

Students engage in a variety of Chicano Studies topics and develop projects of their choosing under direction of Chicano Studies faculty in various disciplines. Students may work individually or in teams, depending on project and scope. Prerequisite: permission of course instructor.

COMMUNICATIONS

CMU

347 Advertising Internship (2-5, max. 6)

Internships are assigned to qualified students through the cooperation of the advertising industry working with the School. Internships may be specialized in that the student remains in one functional area (e.g., copywriting, media, advertising research) or they may be varied to permit the student to acquire experience throughout the organization. Prerequisites: 340 and either 341 or 342, depending upon the nature of the internship; a major in communications with 120 University credits completed.

CMU

399 Editorial Practicum Seminar (2-6, max. 6)

Supervised academic work done in connection with editorial internship, in setting designed to extend the student's knowledge of the field and professional perspectives. Prerequisites: 320, 321, 322, and permission of instructor.

COMPARATIVE AND FOREIGN AREA STUDIES

Comparative Religion/Religious Studies

RELIG

322 The Gospels and Jesus of Nazareth (5)

In-depth study of gospel material from early Christianity, including both canonical and non-canonical gospels. Attention to theme, form, and questions of historicity. Relation of gospels to analogous literature from the Hellenistic-Roman period. RELIG 220 or ENGL 241 recommended background.

East Asia

EASIA

417 Asian Marxist Thought (3)

Introduction to the theory and, where appropriate, the practice of Marxist-Leninism in Asia from 1920 to the present. Readings, in translation, of Mao Tse-tung, Ho Chi Minh, Kim Il Song, D. P. Aidit, M. N. Roy, and Sanzo Nosaka. Emphasizes the relation of Asian Marxist thought to the specific domestic and international conditions of the time and to the classical ideas of Marx and Lenin. Offered jointly with POL S 417. Prerequisite: one course from either the nineteenth or twentieth century Marxism series or a course in modern Asian politics or history.

Latin American Studies

LATAM

493 Senior Thesis (5)

Research and writing of an original thesis on a specialized topic in Latin American studies. Each student is required to work in consultation with one member of the faculty of the Latin American Studies program. Prerequisite: 492.

LATAM

499 Undergraduate Independent Study or Research (3-5, max. 15)

Prerequisite: permission.

South Asia

SASIA

100 The Indian World-View (5)

Introduction to distinctive literary and artistic expressions, classical and modern, representative of the Indian tradition. Readings in primary sources; artistic monuments as displayed in selected audiovisual materials.

DRAMA

DRAMA

420 Design and Technical Drafting (2, max. 4)

Laboratory and project critique covering stage design graphics and technical drawing; specifically: designer's elevations, ground plans, sections, detail drawing, transposition of design drawing information to technical drawings. Prerequisite: 210.

DRAMA

433 Children's Theatre Workshop (2, max. 6)

Exploratory experiences in a variety of children's theatre forms through in-class and in-production participation. Prerequisites: 153 and 230, junior standing, and permission.

DRAMA

538 Seminar in Children's Drama (4)

Critical study of philosophies and practices--past and present--of the children's drama movement in the United States; examination of current problems in children's drama education. Prerequisite: permission.

DRAMA

539 Professional Problems in Children's Drama (2, max. 12)

Observation and critical investigation and discussion of the artistic principles and practices of selected children's drama programs and related arts projects in the greater Seattle area. Prerequisites: graduate standing and permission.

ECONOMICS

ECON

538 Economic Aspects of Marine Policy II (3)

Offered jointly with IMS 519. See IMS 519 for course description and prerequisite.

ENGLISH

ENGL

302 English Literature: Blake to Yeats (5)

English literature from the end of the eighteenth to the beginning of the twentieth century, with special emphasis on the Romantic tradition.

GENETICS

GENET

571 Immunogenetics (3)

Genetic approaches to the biology of cells of the immune system. Examines genetic, developmental, and biochemical concepts and techniques as they apply to eukaryotic cells. The immune system as a model illustrates these approaches. Membrane interactions and histocompatibility emphasized.

GEOGRAPHY

GEOG

479 Urban Social Geography (5)

Relationship between urban spatial form and social processes. Topics include urban population distributions, social space, intraurban migration, neighborhood change, social interaction, and spatial symbolism. Emphasis placed on relating theory to field experience and observation. Field trips. Prerequisite: 277, an introductory course in urban analysis, or permission.

GEOLOGICAL SCIENCES

GEOL

490 Special Topics (2-5, max. 10)

GEOL

519 Geological Remote Sensing (3)

Critical examination of remote sensing methods that are used to determine chemistry, mineralogy, and structure of the earth's surface and the surfaces of solar system bodies. Photographic and digital multispectral imagery, reflectance spectroscopy, thermal infrared spectroscopy, gamma ray spectroscopy, radar imagery, and other techniques. Emphasis on the application of satellite and aircraft measurements to terrestrial geologic problems. Prerequisite: CETC 565.

GEOL

590 Special Topics (2-5, max. 10)

GERMANICS

GERM

355 German Cinema (5)

Survey of the German film from its beginnings to the present, with particular emphasis on the expressionistic masterpieces of the twenties. Prerequisite: sophomore standing.

GERM

493 Proctoring of First-Year German Film Course (1-2, max. 6)

Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups of participants in GERM 150, "Conversational German Through Films." Discussion group leaders (proctors) may participate in this program one or two hours per week and receive one credit for each hour in class. A total of 6 credits may be earned by proctors for participating in three quarters of GERM 150 which runs the entire year under a different format each quarter. Entry card required. Offered on a credit/no credit basis only.

GERM

494 Proctoring of Second-Year German Film Course (1-2, max. 6)

Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups of participants in GERM 250, "Advanced Conversational German Through Films." Discussion group leaders (proctors) may participate in this program one or two hours per week and receive one credit for each hour in class. A total of 6 credits may be earned by proctors for participating in three quarters of GERM 250 which runs the entire year under a different format each quarter. Entry card required. Offered on a credit/no credit basis only.

HISTORY

History of the Americas

HSTAA

415 History of Indian-White Relations in Anglo-America (5)

Survey of Indian-white contacts, conflict, and accommodation from the Atlantic colonies in the seventeenth century to the United States in the twentieth century: Indian cultural groups and their varying adjustments to white

civilization; Anglo perceptions of and approaches to Indians; economic and cultural exchanges; effects of colonial wars and American Revolution; westward movement of white frontiersmen; evolution and implementation of federal Indian policy; disintegration of Indian cultures in the nineteenth century; Indian resistance to acculturation; changing role of Indians in modern society. HSTAA 201 recommended.

Ancient and Medieval History

HSTAM

593 Advanced Medieval and Renaissance Seminar (3-6)

A continuing seminar, running three quarters of every year. Provides a forum in which all students of Medieval and Renaissance history who are writing their theses, dissertations, or any research projects may submit their work in progress to peer and faculty evaluation.

HOME ECONOMICS

H EC

327 Textile Dyestuffs (3)

Study of textile dyes used by hand weaver craftsmen and commercial dyers dealing with the chemistry and technology of dyestuffs. The raw materials, dyestuffs, and resulting dyed fabric are examined in detail with color fastness properties being emphasized. Theoretical as well as economic points of view are considered. Dying by dyes and pigments using various catalytic agents and generic fibers is conducted in the laboratory sessions. Prerequisite: junior standing.

H EC

351 Textile Economics (3)

Economic factors affecting worldwide production and distribution of textile products. Economic factors affecting the growth, development, and structure of the textile industry in the United States. The effects of federal and state legislation on textile products and prices and on consumer satisfaction. Prerequisites: ECON 200, junior standing and major.

H EC

436 Fashion Illustration (3, max. 9)

Visualization of ideas so that design concepts are transmitted and understood in renderings: drawing human figure; representing and differentiating fabrics; understanding techniques and media of representation. Prerequisites: ART 105, 106, upper-division standing, and permission.

H EC

461 Textile Museology (3)

Methods of acquisition, cataloging, preservation, conservation, restoration, exhibition. Public relations related to textile museology. Prerequisites: 10 credits in chemistry and 325, 326, 329.

H EC

504 Vitamin Nutrition (3)

The dietary compounds presently considered to be essential for humans and called vitamins. General topics are whether the vitamin is fat-soluble or water-soluble; reviewing basic material and seeking increasing depth of understanding; relation of vitamins to other nutrients and to varying physiological conditions. Prerequisite: permission.

H EC
534 Contemporary Costume Design (5)

Mass production, using new fabrics and fibers. Study and experiment based on wearability, stress, strain, and drapability of fabric. Mass production of clothing for special sports incorporating differing stretch values. Study motion, ease, and stress factors. Mass production for special groups. Study growth factors for children, weight problems involving loss or gain of obese and pregnant group. Experiment and design apparel that offers versatility, easy care, comfort and adjustment for weight problems. Prerequisite: graduate standing.

H EC
599 Current Topics in Human Nutrition, Dietetics, and Foods (1, max. 3)

Current literature and recent symposiums in the field of human nutrition, dietetics, and foods will be reviewed. Faculty and graduate students will participate.

HONORS

H A&S
-203 The Concept of Evolution in Organisms and the Biosphere, with Emphasis on Cultural Interactions (-3)

Study and discussion of the nature and history of a particular idea in science: evolution in organisms and the biosphere. Attention paid to historical and modern interactions between this focal concept and other aspects of human culture. In-depth consideration and understanding of basic concepts, in contrast to covering a large spectrum of material.

H A&S
300 Introduction to the Professions (5, max. 15)

Pre-professional course with variable content such as law, medicine, public affairs, etc. Prerequisite: 200- or permission.

MATHEMATICS

MATH
103 Introduction to Elementary Functions (3)

Analytic geometry, functions, and trigonometry, with an emphasis on the concrete aspects of these subjects. Registration limited to EOP students and students admitted to the University with a mathematics deficiency. An EOP student who has completed high school trigonometry with a C or better grade may register for the class, but will not receive credit for it. All other students eligible to register are eligible to receive credit. Prerequisite: 102.

MATH
304 Linear Algebra (3)

Continuation of 302, 303. Factorization of polynomials, g.c.d. Primary decomposition theorem. Rational and Jordan forms. Operators on inner product spaces. Bilinear forms. Prerequisite: 303.

MUSIC

MUSIC
160 Anglo-American Folk Music (5)

Anglo-American folk music including balladry, folk instruments, religious music, folksong scholarship, selected personalities (Woody Guthrie, the Seegers, others). Approach varies between historical and thematic. Roots of popular song, bluegrass, country-Western, from the Civil War through the folk-

song revival of the fifties and sixties. Learning to construct and play folk instruments, such as the dulcimer or guitar, is an available option.

MUSIC

472 Contemporary Theories III: Music Since 1950 (3)

Emphasis on the many organizational systems aspiring to extend or replace tonality: Late Stravinsky and other semi-serial matrix systems; "Total Serialism," and "Systematic Serialism" developed by and from Milton Babbitt; recent developments in non-serial "Pitch-Centric" and "Set-Centric" systems. Prerequisite: 471 or instructor's permission.

NEAR EASTERN LANGUAGES AND LITERATURE

Hebrew

HEBR

463 Mishnah and Talmud (3)

From the literatures of the Mishnah and Talmud is derived a corpus of Jewish philosophical and literary work principally in law, history, and ethics. Spring Quarter: the philosophical derivative material. Prerequisite: 203 or permission.

Near Eastern Languages and Literature

N E

425 Current Trends in Modern Near Eastern Literature and Criticism (3)

The modern literary tradition of the Near East with emphasis on major literary movements and/or genres and literary criticism in the modern period. The literatures of the Arab World, Persia, Turkey, and Israel will be dealt with in alternate quarters. Prerequisite: 203 or the equivalent in the language of the country whose literature is dealt with in a particular quarter, or permission of the instructor.

PHYSICAL AND HEALTH EDUCATION

Physical Education

PE

301 Physical Activity and Sport: A Social Psychological Perspective (4)

Introduction to the social psychology of sport and motor performance with emphasis on the reciprocal effects of interpersonal and group influence processes. Topics include social facilitation, social reinforcement, observational learning, individual versus group performance, group cohesion, leadership, and intra- and inter-group conflict. Prerequisite: junior standing.

PE

303 Sport in American Education: A Socio-Historical Perspective (4)

The installation of sport and physical culture in the American schools and colleges in the socio-historical perspective. Ideas, trends, and societal factors which influenced the development of sport and physical activity in the larger society and which led to the inclusion of these forms in schools and colleges. The origins and subsequent development of physical educators as an occupational group. Prerequisite: junior standing.

PE

470 Social Psychology of Sport (4)

Examination of current issues in the social psychology of sport. Topics include audience effects, anxiety and arousal, competition, aggression, collective violence, attitudes, and individual differences in athletic performance. Prerequisite: 301 or equivalent.

POLITICAL SCIENCE

POL S

417 Asian Marxist Thought (3)

Offered jointly with EASIA 417. See EASIA 417 for course description and prerequisite.

PSYCHOLOGY

PSYCH

-435 Laboratory in Vision (-3)

Introduction to techniques of research in visual psychophysics. Instruction in alignment and calibration of basic optical systems; replication of some classical vision experiments or design, and completion of original vision experiments. Limited to ten students. Prerequisites: 434- and permission.

PSYCH

502 Perceptual Development (5)

Investigation of the origins of visual perception in human infancy and childhood. Development of visual acuity, color vision, form perception, and the perception of three-dimensional space. Data from animals included where relevant. Several written papers and oral presentations required. Prerequisites: 424, 441, or equivalent, and permission.

PSYCH

559 Seminar in Current Research in Vision (1)

May be repeated for credit. Offered on credit/no credit basis only. Prerequisite: permission of instructor.

ROMANCE LANGUAGES AND LITERATURE

Spanish

SPAN

129 Latin American Literature and Culture in English (5)

Explanation of contemporary Latin American literature in terms of the development of its culture. Key works read and discussed in the light of pivotal moments and movements.

SPAN

466 Chicano Literature: Fiction (5)

Chicano fiction, both short story and novel. Nineteenth- and early twentieth-century fiction, as well as contemporary works, trace the development of Chicano fiction in the proper historical trajectory. Focus primarily on purely literary questions, secondarily, on the social and cultural context of the works, and, to a lesser extent, on the relationship of Chicano fiction to that of both Latin and Anglo America. Primary readings in English and Spanish as well as considerable reading in secondary sources. Students must research and write on problem areas related to theory, theme, and genre. Prerequisites: any three of 300-level literature courses.

SPAN

496 Hispanic Cinema (5)

Study of the major works of Hispanic cinema, concentrating on the films of Luis Buñuel. Prerequisite: junior standing; CINE 201, 202, and 203 recommended.

SOCIETY AND JUSTICE

SO JU

470 Evaluation Research in Criminal Justice (5)

Designed to acquaint students with research techniques applicable to the system of criminal justice. Topics include an examination of available data sources; the planning, design,

and implementation of evaluation methodologies; and the utilization of research findings. Special emphasis on consideration of the ethics of such research in terms of the privacy and security of individuals. Prerequisite: Society and Justice majors or permission.

SO JU

499 Readings in Society and Justice (1-5)

Individual readings in society and justice. Prerequisite: majors only.

SOCIOLOGY

SOC

367 Community Power and Urban Life (5)

Background on forces influencing the growth of contemporary cities. Major focus on who controls the city and particularly on the policy outcomes of this control as they influence community life. Exploration of a variety of substantive areas including urban renewal, welfare, and transportation through city case studies. Prerequisite: 110; 365 recommended.

SOC

372 Introduction to Criminal Justice (5)

Examines roles of police, courts, and corrections in criminal justice. Traces cases from reporting of offense through investigation, detention, charging, prosecution and defense, adjudication, sentencing, and punitive sanctions or correctional treatment. Treatment alternatives. Community corrections. Legislative reforms. Innovations in policy. Prerequisite: 110; 271 recommended.

SOC

419 Fieldwork: Observations and Interviewing (5)

Perspective, logic, and techniques of qualitative social research and analysis. The nature and uses of intensive interviewing, participant observation, and analytic ethnography. Application of field research principles. Research project required in addition to reading and analysis of classic studies. Prerequisites: 110 and 240 or 352.

SOC

432 Population and Modernization (3)

Examines the role played by demographic factors in the process of social modernization and economic growth. The approach is both historical, focusing on populations of developed countries since 1700, and analytic--stressing the attempts made by different disciplines to model demographic relationships, with special attention to less-developed regions. Prerequisite: 331 or instructor's permission.

SOC

563 Advanced Seminar in Medical Sociology (3)

Offered jointly with HSERV 563. See HSERV 563 for course description and prerequisites.

SOC

588 Sociological Aspects of Human Sexuality (3)

Research-oriented seminar taking a sociological approach to issues in human sexuality. Readings and discussions aimed at achieving a broad mastery of the sociological writings on the subject. Students develop individual research projects based on readings and seminar discussions of methodological strategies for studying human sexuality. Topics include: cross-cultural perspectives on sexuality, the social scripting of sexual conduct, sex roles, sexual identity, gender identity, sexual lifestyles, prostitution, pornography, etc.

SPEECH AND HEARING SCIENCES

SPHSC

104 Human Speech and Hearing Behavior (3)

Survey of the problems and possibilities of man's most clearly human endowment: his capacity for speech production and perception. Speech and hearing mechanisms will be considered from the point of view of their development, structure, and function, with special reference to current and significant problems and issues, such as the nature of speech learning, the speech and hearing pathologies, and the significance of diversity in patterns of speech production and reception. Not open to majors beyond the sophomore level except by permission.

SPEECH COMMUNICATION

SPCH

498 Special Topics in Speech Communication (2-5, max. 10)

Lecture, seminar, and/or team study with topics varying from quarter to quarter. Prerequisite: permission.

SPCH

575 Phenomenological Methods and Philosophical Criticism in Speech Communication (5)

Application of philosophical criticism, participant observation, and ethnomethodology primarily in interpersonal and small group communication. Prerequisite: 501 or equivalent.

SCHOOL OF BUSINESS ADMINISTRATION

BUSINESS ECONOMICS

B ECN

528 International Financial Management (3)

Using cases and readings, the emphasis is on the financial problems facing United States businesses engaged in international activities: financing foreign investment, financial control of foreign operations and working capital management including foreign exchange positions.

B ECN

529 Competition Policies in the Context of International Business (3)

Legal and economic analysis of the competition policies of selected developed countries, including the Common Market, the Federal Republic of Germany, the United Kingdom, Japan, Canada, and the United States, with particular reference to the impact of the policies upon the multinational corporation enterprise and international business transactions. Offered jointly with BG&S 555.

BUSINESS, GOVERNMENT, AND SOCIETY

BG&S

555 Competition Policies in the Context of International Business (3)

Offered jointly with B ECN 529. See B ECN 529 for course description.

SCHOOL OF DENTISTRY

COMMUNITY DENTISTRY

COM D

420 Dental Care Politics (1)

Topics in health care systems: epidemiology; health care financing; national health insur-

ance; demand for and availability of care; and consumerism. Prerequisite: 400 or third-year status.

ORAL DIAGNOSIS AND TREATMENT PLANNING

ODTP

415 Laboratory Medicine for Dental Students (1)

Laboratory procedures which are useful to the practicing dentist include: the techniques of laboratory tests and analysis of data; laboratory tests conducted in the dental office; and the relationship of laboratory tests to head and neck findings.

PEDODONTICS

PEDO

530 Pedodontic Hospital Training (*)

Provides clinical experience in the comprehensive dental care of hospital in-patients and out-patients. Treatment is carried out at Children's Orthopedic Hospital and Medical Center. Prerequisite: admission to the post-doctoral program in pedodontics.

PEDO

560 Medical Problems in Pedodontics (*, max. 36)

Explores usual and extraordinary medical, mental, and emotional problems of normal and handicapped children who receive comprehensive pedodontic care.

PERIODONTICS

PERIO

587 Periodontal Diseases Research Seminar (1; max. 12)

Weekly seminar devoted to advances in periodontal research. Topics include research design, methodology, and data derived from recent and/or on-going periodontal research. Presented by faculty and students.

RESTORATIVE DENTISTRY

RES D

479 Remedial Clinical Restorative Dentistry (*)

Provides individual instruction for students who experience significant difficulties with the fundamental procedures that are covered in 470. Students may be enrolled for one to four credits depending on the extent of the difficulties identified. Passing grade in 479 may be required to qualify students for participation in clinical test operations in the third year. Offered on credit/no credit basis only.

RES D

489 Remedial Clinical Restorative Dentistry (*)

Provides individual instruction for students who experience significant difficulties with the fundamental procedures that are covered in 480. Students may be enrolled for one to four credits depending on the extent of the difficulties identified. Passing grade in 489 may be required to qualify students for participation in clinical test operations in the fourth year. Offered on credit/no credit basis only.

COLLEGE OF EDUCATION

EDUCATIONAL ADMINISTRATION

EDADM

508 School Planning and Evaluation (3)

Planning and evaluation methods with first-hand experience in applying these methods to sample educational programs. Includes school scheduling, network planning, information systems, program planning and budgeting, and enrollment projections. Each student is expected to complete problem sets related to the several planning and evaluation methods covered in the course.

EDADM

519 Laboratory and Internship in Educational Administration (1-9, max. 9)

Recommended for candidates preparing for all administrative positions except superintendent, unless candidate has sufficient experience as an administrator. Half-time work in a school district or districts for one, two, or three quarters, depending upon the candidate's previous experience. Supervision by staff members of the College of Education and appropriate administrators in the selected school district. Prerequisites: completion of all other requirements for administrator's credential and permission.

EDUCATIONAL CURRICULUM AND INSTRUCTION

EDC&I

543 Seminar in Bilingual Education: Instructional Strategies (4)

Study of instructional factors affecting bilingual education. Particular emphasis is given to research related to the variables involved in teaching in a bilingual environment. Assists graduate students in exploring instructional methodologies and formats as they apply to bilingual education and in becoming familiar with the current issues in bilingual education.

EDUCATIONAL PSYCHOLOGY

EDPSY

513 Learning Variables of Minority Children: Instructional Implications (4)

Provides students with data base regarding (1) four variables (language/dialect, cognitive style, locus of control and motivational systems) that affect learning among minority students, and (2) teaching strategies appropriate for these cultural socioeconomic variables.

EDPSY

597 Test Development (3)

Principles of test construction including criterion and norm-referenced tests, item writing and sampling, test administration, preparation, scoring, and item evaluation techniques; problems of scaling and norming of cognitive and affective measures. Prerequisites: 592 and 594, or permission.

COLLEGE OF ENGINEERING

COLLEGE COURSES

ENGR

199 Special Projects (1-3, max. 3)

Students propose problems to solve to an engineering faculty member. The problems may be selected from the students' own experience and

interests, from the interest of the faculty member, or from other sources such as faculty or graduate students doing research projects, or from personnel in the physical medicine area, occupational therapy, hospital, industry, government, etc. Corroboration by an engineering faculty member is required. Project suggestions are available. Prerequisite: 150.

ENGR

220 Introduction to Mechanics of Materials (4)

Introduction to the concepts of stress, deformation, and strain in solid materials. Development of basic relationships between loads on structural and machine elements such as rods, shafts, beams, and columns, and the stresses, deflections, and load carrying capacity of these elements under tension, compression, torsion, bending and shear forces, or combinations thereof. Prerequisites: 180, MATH 126 (which may be taken concurrently).

CHEMICAL ENGINEERING

CH E

472 Papermaking Technology (3)

Offered jointly with FOR W 477. See FOR W 477 for course description.

ELECTRICAL ENGINEERING

E E

344 Electric Power Engineering (4)

Introduction to the theory and methods of analysis involved in the use of typical apparatus to generate, transmit, and utilize energy in electrical form. Includes conventions of circuit description, balanced polyphase circuits, the complex power concept, the transformer, transmission lines, the per-unit system, fundamentals of electromechanical energy conversion and practical synchronous, induction, and commutator machines. Prerequisites: 333 and 381.

E E

355 Electronics I: Introduction to Digital and Analog Electronics (4)

Characteristics of bipolar and MOS transistors, basic logic design, digital applications including flip-flops and multivibrators; small signal analysis of amplifiers, differential amplifier design. Prerequisites: 231 and 310, which must be taken previously or concurrently, and ENGR 251.

E E

356 Electronics II: Analog Electronic Circuit Analysis (3)

Analog circuit analysis including gain at high and low frequencies, feedback analysis, frequency response in circuits with feedback, oscillators, noise and power regulation. Prerequisites: 333, 355.

E E

479 Microcomputer System Design (4)

Intensive course covering microprocessor architecture and operation, assembly language instructions and programming, system design criteria and techniques for integrating hardware and software into actual systems. Principle emphasis on system design and documentation. Weekly laboratory and a design project included. Prerequisites: 371; 475 recommended (may be taken concurrently), and permission.

OCEAN ENGINEERING

O ENG

450 Marine Corrosion and Its Prevention (3)

Causes and prevention of corrosion damage by marine environments (immersed, tidal, atmospheric). The behavior (pitting, rusting, cracking, fatigue, and fracture) of engineering materials (metals, concrete, and plastics) in the ocean. Case studies are used to understand methods of reducing corrosion damage by design, materials selection, cathodic protection, coatings, and maintenance. Technical report(s) to be prepared. Prerequisites: senior standing in engineering and M E 343 or equivalent materials course.

O ENG

552 Ocean Engineering Systems Design II (3)

Offered jointly with IMS 552. See IMS 552 for course description and prerequisites.

COLLEGE OF FOREST RESOURCES

WOOD AND PAPER

FOR W

102 Introduction to Pulp and Paper Technology (3)

Technology of production of pulp and manufacture of paper. Laboratory study of papermaking.

FOR W

477 Papermaking Technology (3)

Fiber sources and properties. Secondary fibers. Stock preparation, sheet forming, water removal, finishing. Coating, lamination, and printing. Paper products. Offered jointly with CH E 472.

INTERDISCIPLINARY GRADUATE PROGRAMS

APPLIED MATHEMATICS

AMATH

600 Independent research or Study (*)

AMATH

700 Master's Thesis (*)

AMATH

800 Doctoral Dissertation (*)

INTERSCHOOL OR INTERCOLLEGE PROGRAMS

BIOENGINEERING

BIOEN

410 Engineering Prescriptions for Health Care Crises (3)

Offered jointly with SMT 409. See SMT 409 for course description.

BIOEN

599 Special Topics in Bioengineering (2-6, max. 15)

Offered at a graduate level periodically by faculty within the Center for Bioengineering; concerns areas of research activities with current and topical interest to bioengineers. Prerequisites: undergraduate or graduate courses (or equivalent) determined individually for each special topic.

COMPUTER SCIENCE

C SCI

522 Design and Analysis of Algorithms II (3)

Analysis of algorithms more sophisticated than those treated in 521. Design of efficient algorithms for special computing environments, such as logical networks and formulas, Turing machines, list-processing machines, and on-line computation. Techniques for proving lower bounds on complexity. Prerequisite: 521.

INSTITUTE FOR MARINE STUDIES

IMS

519 Economic Aspects of Marine Policy II (3)

Development of pertinent economic concepts and their application to selected topics in marine policy. Offered jointly with ECON 538. Prerequisite: ECON 537.

IMS

552 Ocean Engineering Systems Design II (3)

Interdisciplinary ocean systems design, choice of system motivated by problems of current interest; participation by students and faculty from engineering, law, oceanography, business, etc., in order to study complete system; preliminary design and analysis of engineering hardware; direct interaction with government and industry concerned with chosen problem. Offered jointly with O ENG 552. Prerequisites: graduate standing, 551.

IMS

-563 Ocean Resources Seminar (-2)

Study and research into selected problems relating law, international organizations, and marine affairs. Special attention is devoted to global and regional problems involving decision processes and structures that are under particular stress due to social, including technological, change. Problems examined will change from year to year. Offered jointly with LAW -652. Prerequisites: 506, 507, or permission.

SOCIAL MANAGEMENT OF TECHNOLOGY

SMT

409 Engineering Prescriptions for Health Care Crises (3)

Designed to present and discuss current crises in health care with cause or cure related to applications of modern technology. The nature and scope of bioengineering is considered in relation to manpower requirements, health-care facilities, distribution of care, data processing, data sources, and projections of future technological needs for various clinical specialties. Primarily for students in medicine, public health and community medicine, or bioengineering. Offered jointly with BIOEN 410.

SMT

520 Seminar (2, max. 6)

Current topics in technology and society. Prerequisite: permission of instructor.

SMT

599 Independent Study (1, max. 9)

Advanced independent study in the interdisciplinary SMT program. Prerequisite: permission of the instructor.

UNIVERSITY CONJOINT

UCONJ

492 The Developmentally Disabled Child:
Selected Interdisciplinary Topics
(1-10, max. 10)

Elective interdisciplinary series of mini-courses designed to offer specific information and foster the development of specific skills in areas critical for effective professional functioning with the developmentally disabled child. Each mini-course provides an intensive examination of one major topic represented within the basic components of an interdisciplinary training program. These basic components include: normal growth and development, exceptional growth and development, interdisciplinary theory, assessment devices and strategies, intervention strategies, information exchange skills, and community functioning. Faculty from dentistry, education, medicine, nursing, nutrition, occupational therapy, physical therapy, psychology, social work, and communication disorders are involved. The mini-courses have been especially developed for trainees in the Child Development and Mental Retardation Center. Prerequisite: 410 or permission of the course coordinator.

UCONJ

497 Health Care in a Rural Community (3)

Critical analysis built upon concepts relative to interdisciplinary health care delivery in a rural community. Students develop an organizational model for rural health care and study innovative ways of mobilizing community resources and support for a comprehensive rural health care system. Pharmacy students, nurses, and other health professionals study application of theory in an appropriate clinical setting within the conceptual framework of each student's professional field.

SCHOOL OF MEDICINE

BIOMEDICAL HISTORY

BI HS

511P Selected Topics in Biomedical Ethics (1)

Designed for first- and second-year medical students, sections A & B, respectively. Each section is limited to twelve students and a seminar format is followed. The topics described in the course outline are investigated, with the instructor giving brief presentations, utilizing guest resource persons, and a variety of audio-visual aids, followed by group discussion. Seminar participants are provided with a recommended reading list and a variety of reprints related to topics.

CONJOINT

CONJ

475 Alcoholism: A Course for Medical Students and Students in the Allied Health Sciences (2)

Lecture course for medical students and students in the allied health sciences. Covers an introduction to the epidemiology, diagnostic strategies, natural history, physiologic effects, and treatment of alcohol-related disorders.

CONJ

690P Clinical Oncology Outpatient Elective (*)

One to five half-day oncology clinics, including surgical neoplasia, radiation oncology, head and neck tumor, GYN tumor, and medical oncology (Clinic 4). The student will work with new patients and follow them through their evaluation and treatment and post-treatment followup. Emphasis is on multidisciplinary evaluation and care to provide as broad an exposure to clinical oncology as possible. The student works closely with clinical faculty and arranges the number and combination of clinics desired. Prerequisite: permission. Coordinator: Department of Radiology.

OTOLARYNGOLOGY

OTOL

686P Otolaryngology--Medical and Surgical Aspects (*, max. 12)

Clinical in-depth study of otolaryngology which may be taken in a six-week clerkship. For the student whose interest lies in pathology of the head and neck. Reasonable flexibility to arrange the content of the course, which will provide exposure to all aspects of patient care in the outpatient clinic, operating room, and ward care activities. The student pursues a topic of current interest in otolaryngology by review of the literature and presents a paper.

PATHOLOGY

PATH

555 Environmental Pathology (3)

Survey of exogenous environmental agents (chemicals--agricultural, industrial, household; physical-kinetic, electrical, thermal, radiation) and of how they are involved in the causation and expressions of human disease processes such as developmental anomalies, mutagenesis, carcinogenesis, and degenerative diseases including atherosclerosis. Prerequisite: 444 or 500 or HUBIO 520P, or permission.

PSYCHIATRY AND BEHAVIORAL SCIENCES

PBSCI

530P Developmental Psychoanalytic Therapy (2)

Utilization of psychoanalytic theory for diagnosis and treatment planning in psychiatric case presentations made by the student. Focus on the advances which psychoanalytic theory and observational studies have made in developmental psychology, with emphasis on applying these advances to differential diagnosis and psychoanalytically-oriented psychotherapy, especially in psychotic, borderline, and narcissistic disorders. Lecture followed by structured discussion of several assigned papers. Prerequisites: PSYCH 555 or equivalent, and good standing as graduate student in clinical or educational psychology, psychology intern, psychiatry resident, or second-year medical student.

PBSCI

670P Clerkship in Consultation-Liaison Psychiatry (*, max. 24)

Patients with a wide variety of syndromes especially those commonly seen in a general hospital such as psychophysiologic reactions, organic brain syndromes, personality reactions to disturbances in somatic function, obscure pain, terminal illness, and neuroses are evaluated and provided with brief treatment. Opportunity for an interchange of ideas with physicians in medicine and surgery and

their subspecialties, family medicine, obstetrics-gynecology, and physical medicine and rehabilitation of many complex diagnostic problems. Emphasis on individual crisis treatment, hypnosis, narcotherapy, and family therapy. Close individual supervision is provided and case conferences are held. Supplemental bibliography available. For third- and fourth-year medical students only. (Two, four, or six weeks.)

SCHOOL OF NURSING

NURS

327 Nursing of Children (4)

Essential concepts of pediatric nursing, such as: the current philosophy of child care; the impact of disease, disability, and health care settings on the child and on the family; common congenital conditions and the diseases affecting children; and the goals, methods, and resources for health care of children. Prerequisites: 300, 323, 324.

NURS

328 Nursing of Children, Laboratory (8)

For students preparing for careers in nursing. The student applies the nursing process in caring for pediatric patients in the hospital and ambulatory settings. Emphasis on adaptation of skills and knowledge to nursing of children and the incorporation of new pediatric content. Experiences complement the theory content in 327 whenever possible. Offered on credit/no credit basis only. Prerequisites: 300, 324, and concurrent registration in 327.

NURS

397 Scientific Basis for Nursing Interventions (5)

For registered nurses. Builds on basic knowledge of normal and abnormal physiology and incorporates concepts from social and psychological sciences. Functional adaptations to changes in the external and internal environments are considered in terms of mechanisms maintaining homeostasis and the responses elicited by selected types of stress. Changes in response during aging are emphasized. The nursing process framework is used to consider preventative, maintenance, and restorative aspects of nursing. Prerequisite: 350 or equivalent.

NURS

398 Care of Ill Adults III (4)

For registered nurses. Synthesis and application of the nursing process are demonstrated in the comprehensive care of adults with complex alterations in normal physiological functioning. Emphasis is placed on critical thinking, sound clinical judgment, and evaluation. Prerequisite: 350 or equivalent.

NURS

553 Advanced Primary Health Care II: Adults (4)

Systematic inquiry into the influence of specific physiological and psycho-social factors on adult health. In-depth study of the unifying aspects and clinical manifestations of the inflammatory and immunologic responses in selected illness states with heavy emphasis on the framework of reasoning for independent and interdisciplinary actions of the advanced nurse practitioner within the defined limits of primary health care. Presupposes basic competence in biologic science and primary nursing care skills. Articulates with Advanced Field Work Seminar II.

NURS

554 Advanced Field Work Seminar in Primary Health Care II: Adults (4)

Supervised field work within selected primary health care settings. Emphasis on nursing intervention in selected health problems of adults within the context of the family. Seminars focus on relating nursing theory, recent research, and scientific rationale to field work experience, and on the evaluative analysis of selected nursing interventions.

NURS

560 Selected Topics in Primary Health Care (3)

Critical examination and analysis of selected topics and current issues, i.e. legal, economic, social, as they relate to the developing role of the nurse practitioner in providing primary health care. Topics may vary with the instructor.

SCHOOL OF PUBLIC AFFAIRS

PUBLIC ADMINISTRATION

PB AD

506 The Law of Citizen Participation (3)

The relationship of the administrative agency to the general citizenry including citizen control through taxpayer's suits; constitutional guarantees of citizen control; and statutory guarantees of citizen control, with an emphasis on this third area, i.e., laws requiring citizen participation, open meetings, public hearings, impact statements, and freedom of information. Proposed legislation and relevant social science research is also read and discussed, as a guide to understanding the policy behind the legal requirements and to provide a framework for analysis of the efficiency of these laws.

PB AD

529 Quantitative Applications in Public Affairs (3)

Examines specific public policies by utilizing quantitative methods to evaluate the evidence and data upon which such policies are based. Evidence on real public issues and programs is analyzed by students who are expected to explain and critique the statistical techniques employed and measurements taken, to make recommendations for improvements, and to identify and assess other relevant factors. Policy issues are drawn from such functional areas as education, manpower, law enforcement, natural resources, and experiments in negative income tax. Prerequisite: 528 or equivalent.

PUBLIC HEALTH AND COMMUNITY MEDICINE

ENVIRONMENTAL HEALTH

ENVH

582 Special Topics in Industrial Hygiene (1)

Designed as a lecture seminar for graduate students, a series of lectures and field trips concentrates on specialized areas of industrial hygiene to build breadth and depth on the foundation provided by other courses. Emphasis on recent technical developments. Prerequisite: 453 or permission.

HEALTH SERVICES

HSERV

556 Quantitative Methods for Health Services (3)

Develops basic understanding and familiarity sufficient to support the administrator's position as a sophisticated and involved consumer of operations research techniques rather than imparting technical proficiency in the field. Topics include: statistics and probability theory, mathematical programming and scheduling models, work measurement and prediction, and role of general purpose digital computers in management. Prerequisites: QMETH 500 and OPSYS 500.

HSERV

563 Advanced Seminar in Medical Sociology (3)

Development and testing of theories related to illness behavior, health occupations, and professions, and the organization of health services. Particular emphasis will be given to provider-patient relationships and the sociology of health care delivery organizations. Offered jointly with SOC 563. Prerequisites: 561 or admission to health services doctoral opportunities program or graduate status in sociology or permission.

HSERV

-582 Research Design and Problem Analysis in Health Services II (-3)

Problem definition, theory construction, research design, data collection and analysis in health services research. Prerequisites: 511 and admission to doctoral opportunities program or permission of instructor.

HSERV

591,592 Seminar in Special Topics I,II (3,3)

Special topics related to current issues in health services. Topics determined by ex-

pressed interest of students and faculty; also includes participation of health professionals. Prerequisites: 511 and permission.

SCHOOL OF SOCIAL WORK

SOCIAL WELFARE

SOCWL

600 Independent Study or Research (*)

Independent study for the development of the doctoral dissertation.

SOCIAL WORK

SOC W

532 Additive Human Service Methods (3)

Focus either on various methodologies employed in work with clients with specific presenting problems (physical disability, chemical dependency) or on a specific counseling practice stance (behavioral therapy, group treatment). Prerequisites: 529 or 310, 311, and 312.

SOC W

543 Problem Focused Human Development (3)

Focus on the social and developmental determinants of specific human problems and their impact on individual development, families, and social institutions. Some time will be given to examining the nature of organized social responses which are designed to deal with the specified human problem. Prerequisite: graduate standing.

INDEPENDENT STUDY THROUGH CORRESPONDENCE

The Office of Independent Study provides University courses for extension credit primarily by correspondence instruction to persons who wish individual instruction. Fees for Independent Study courses are separate from residence tuition and are \$17 per credit. Enrollment is not based on the quarter system but is continuous throughout the year, with one calendar year allowed to complete a course.

A regularly enrolled student who wishes to register for additional courses for Independent Study credit should consult his or her departmental adviser prior to enrolling in an Independent Study course. Applications and additional information on enrollment procedures may be obtained from the Independent Study office, 222 Lewis Hall, or by telephoning 543-2350.

The following courses are currently offered by Independent Study (credits in parenthesis; * indicates variable credit, to be arranged by student and instructor).

 SCHOOL OF SOCIAL WORK

COURSES REQUIRING PERMISSION (OTHER THAN ENTRY CARDS)

SPRING QUARTER 1977

In order to register for the following courses, the student must obtain permission from the person or office listed. Some departments, schools, or colleges have general permission requirements applicable to many courses. These requirements are also listed.

Note: A slash (/) between names indicates that either party may grant permission.

Abbreviations:

DEPT Permission required from a member of the staff of the department offering the course

PHYSICAL EDUCATION

SPORTS SKILLS INSTRUCTION CLASSES ARE AVAILABLE THROUGH THE DEPARTMENT OF RECREATIONAL SPORTS PROGRAMS (IMA) ON A NON-CREDIT BASIS FOR A SMALL REGISTRATION FEE. CLASSES ARE OPEN TO ALL REGULARLY ENROLLED STUDENTS AND TO FACULTY/STAFF WHO ARE ELIGIBLE FACILITY USERS. SPECIFIC INFORMATION ON FEES, DATES, AND TIMES WILL BE AVAILABLE AT THE IMA BUILDING AFTER FEBRUARY 1, 1977. REGISTRATION WILL BE APRIL 4, 5, AND 6, FROM 8:30 AM TO 6:00 PM IN MEETING ROOM A OF THE IMA BUILDING. IF SPACES ARE STILL AVAILABLE, REGISTRATION WILL CONTINUE IN THE IMA ADMINISTRATION OFFICE, 8:30 AM TO 5:00 PM, MONDAY THROUGH FRIDAY. DISABLED STUDENTS ARE ENCOURAGED TO PARTICIPATE IN SPORTS SKILLS CLASSES AND SHOULD CONTACT THE SPORTS SKILLS OFFICE.

CLASSES OFFERED

ARCHERY	MOUNTAINEERING	BEGINNING SWIMMING
BOWLING	BEGINNING RACQUETBALL	ADVANCED BEGINNING SWIMMING
CANOEING	INTERMEDIATE RACQUETBALL	INTERMEDIATE SWIMMING
CONDITIONING	ROLLER SKATING	BEGINNING TENNIS
FENCING	SCUBA DIVING	INTERMEDIATE TENNIS
BEGINNING GOLF	SOCCER	ADVANCED TENNIS
INTERMEDIATE GOLF	SPRING BOARD DIVING	TRACK EVENTS
GYMNASTICS	SQUASH	WEIGHT TRAINING
HANDBALL		

ADDITIONAL ACTIVITY CLASSES MAY BE OFFERED IF THERE IS ENOUGH STUDENT INTEREST.
