DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For maximum insect control, a combination localized surface application and space treatment is recommended.

SPACE SPRAY: For rapid control of Houseflies, Fruit Flies, Mosquitoes, Flying Moths and Gnats: Close doors and windows and shut off ventilating systems. Use a good sprayer adjusted to deliver a fine mist, directing spray toward the upper portions of the enclosure and filling the room with mist. Use 1/2 to 1 ounce of spray for each 1000 cubic feet of space. Keep area closed for at least 10 minutes after spraying. Vacate area after treatment and ventilate before reoccupying.

CONTACT SPRAY: Very effective when used as a contact spray against Mosquitoes, Gnats, Wasps, Hornets, Skippers, Scorpions and Cheese Mites. When these insects are present contacting them with a fine mist will provide immediate kill. Spraying walls, ceilings, lights, moldings, screen doors and door frames, beams and light cords will make these locations unfavorable as resting or hiding places for these insects.

SURFACE SPRAY: To control Roaches, Silverfish, Crickets, Spiders, Clover Mites, Scorpions, Cheese Mites, Cheese Skippers, Spider Beetles, use KIL-MOE 2 in a good machine adjusted to deliver a coarse droplet spray using approximately 1 gallon of material each 750 square feet of surface. Spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, and pipes toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places, contacting insects wherever possible.

Against Ant Infestations, treat shelves, cabinets, and storage areas; spray ant runs, trails, baseboards, thresholds and other places of entry, and treat nests liberally.

To control Bedbugs effectively, apply liberally to top, ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds. Spray springs and frames, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, floors, closets and bedroom furniture, picture frames, with particular attention to protected Bedbug hiding and breeding places.

Mills, Elevators, Granaries, Warehouses, Food Storage, and other situations where an effective, fast-acting insecticide is required for control of the exposed stages of: Granary Weevils, Rice Weevils, Cigarette Beetles, Drugstore Beetles, Sawtoothed Grain Beetles, Rust-red Flour Beetle, Confused Flour Beetles, Angoumois Grain Moth, Mediterranean Flour Moth, Indian Meal Moth, Tobacco Moth, Meal Worms and Grain Mites. As a space or vapor spray, it gives rapid kills of flying and crawling stages. In cracks and crevices of floors, it is effective in the control of the grain insects.

For extended protection and control of warehouses and food products storage treat exposed surfaces and spray heavily cracks, crevices, recesses, hiding and breeding areas. Thoroughly treat walls, floors, shelves and other exposed surfaces, and lightly spray each layer of cartons or containers as stacked.

In Mills, Elevators and Granaries, spray floors, walls and other surfaces of bins, storage and handling area thoroughly with particular attention to cracks, crevices, and similar protected locations. Waste grain, dust, dirt and debris should be removed and destroyed and storage areas cleaned before spraying. Treat unloading, handling and processing areas, and apply the insecticide to conveying, processing and handling equipment, the inside of reel sifter, purifier conveyors, sifters, roll housings and hoppers, pick-up conveyors, etc. Spray thoroughly around the base of heavy machinery and equipment.

For in-transit protection and control, treat truck beds, box cars and ships holds before loading.

STORAGE AND CONTAINER DISPOSAL: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures. CONTAINERS ARE NOT TO BE REUSED OR REFILLED. Do not reuse container. Wrap container in several layers of news, and discard in the

ACTIVE INGREDIENTS:

Pyrethrin	0.13%
*Piperonyl Butoxide, Technical.	1.50%
**INERT INGREDIENTS:	98.35%
	100.00%

*Equivalent to 1.2% (butylcarbityl)(6 propylpiperonyl) ether and 0.35% related
**Contains Petroleum Distillate

Kills the accessible or exposed stages of Flies, Roaches, Bedbugs, Fruit Flies, Wasps, Clover Mites, Crickets, Cheese Mites, Silverfish, Gnats, Granary Weevils

KIL-MOE 2 Insecticide is highly useful for the insect control in Food Processing Plants, Restaurants, Dairies, Stores, Bakeries, Residences, Institutions, Hospitals, Hotels, Grain Mills, Breweries, Warehouses and other situations.

KIL-MOE 2 is an effective, fast acting insecticide that kills the accessible or exposed stages of:

Flies	Roaches	Spiders	Bedbugs
Fruit Flies	Ants	Wasps	Clover Mites
Mosquitoes	Crickets	Hornets	Cheese Mites
Silverfish	Gnats	Flying Moths	Scorpions

And these common STORED PRODUCT pests:

Granary Weevil	Mediterranean Flour Moth
Rice Weevil	Indian Meal Moth
Drugstore Beetle	Tobacco Moth
Cigarette Beetle	Cheese Skippers
Spider Beetle	Sawtoothed Grain Beetle
Meal Worms	Confused Flour Beetle
Grain Mites	Rust-red Flour Beetle
Angoumois Green Moth	

The insecticidal components Piperonyl Butoxide and Pyrethrins are classified as food additives, and when this product is used as directed allowable tolerance levels will not be exceeded.

This ready-to-use insecticide may be applied as either a space spray or fog, or as a coarse wet spray to localized areas of insect infestation.

Repeat treatment when reinfestation occurs.

Precautionary Statements

Hazards to Humans and Domestic Animals

The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned with an effective cleaning compound followed by a potable water rinse.

Remove any birds, pets, or fish, aquariums before spraying.

In hospitals, remove all patients prior to treatment. Ventilate area for 2 hours before returning patients.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Runoff is likely to occur. Do not apply when weather conditions favor runoff. Do not contaminate water of equipment or disposal of wastes. Slating and debris may be lifted at application rates recommended on this label. Do not apply where there are hospital resources.

Always assume all risks of use, storage or handling of this product not in strict accordance with directions given hereon.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contamination of feed and feedstuffs. This product is toxic to fish. Keep out of lakes, streams or ponds. Apply this product only as specified on this label.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Do not induce vomiting unless directed by a physician.

IF INHALED: Remove affected persons to fresh air.

IN EYES OR ON SKIN: Flush affected areas with plenty of water. Contact a physician if irritation persists.

ACTIVE INGREDIENTS:
