## Put Yourself In The Spotlight

- As the world of communications and travel continues to make it easier for sports enthusiasts, players and coaches to learn about the sport we Americans know simply as ‘football’, there are youngsters and teenagers in nearly every country in the world dreaming of what previously was only feasible for talented and motivated American kids.
- The goal of playing at a major NCAA University like USC, Notre Dame, Michigan or Alabama and even the NFL has now become a reality for a special few, and that number is rapidly expanding each year.
- Coaches are now conducting clinics all over the world, HUDL and similar apps enable players and coaches to share videos in real time, and major games are available on mobile phones in every corner of the globe.
