How to Complete a Functional Behavior Assessment

Course Description:

Functional behavior assessment (FBA) is a key component of behavior reduction programs. Participants will learn to develop observable and measurable definitions of behavior, collect data on behavior, and then analyze those data. Direct and indirect assessment techniques will be reviewed. Participants will learn how to complete function based assessments and how to combine all of the results of their tools to develop a comprehensive FBA. Proactive and reactive strategies will be reviewed and we will discuss how to match those strategies to the functions of behavior. This is a basic-intermediate level course. Instructional methods include powerpoint, videos, lecture, group exercises, discussion and handouts.

Who Should Attend: All professionals who work with young children with behavioral issues.

Learning Objectives – Upon Completion, Participants should be able to:

- ❖ Identify the key components of a Functional Behavior Assessment (FBA).
- ❖ Identify and use tools to conduct indirect and direct assessments.
- ❖ identify and use tools to assess the functions of behavior.
- ❖ Develop proactive and reactive strategies.

About Anya Silver, MA, BCBA: Anya has been working in the field of autism and applied behavior analysis for over 20 years. Anya received her BA in Psychology in 1995 from Queens College. She completed her MA in 1996 in Child Development at Tufts University. Anya has worked in the field of Early Intervention and Autism for over 10 years, supervising ABA programs across NYC and Long Island. Currently Anya works with the adult autism community. She is the Clinical Director of Day Habilitation programs for Quality Services for the Autism Community (QSAC). Anya is a Board Certified Behavior Analyst and an active member of the autism community. She presents at local and national conferences on topics related to autism intervention. Anya is a Media Watch Writer for the Association for Science in Autism Treatment (ASAT). She has presented research on staff training and published articles on humanistic and behavioral perspectives as well as teaching deception skills to students with autism spectrum disorders. Anya is an Associate Professor at Hofstra University and she continues to collaborate on research presented at local and national conferences, committees and for ASAT.
